

## Master of Time 77

### Chapter 77

Sex to the dark elves – the elves as a whole actually – is basically sticking it in and letting it out . There is absolutely no pleasure or anything of the sort . It is purely responsibility .

What a waste of their natural beauty and youthful body .

They might as well practice sexual abstinence like those Jedi back on prime Earth .

Eh? I mean Buddhist monks . I get those two mixed up sometimes .

Damn you George Lucas! Damn you!

Oh wait, I do own Star Wars this time around, so I will fix that very little problem in the prequels trilogy when the time finally comes .

Someone needs to stand up to George Lucas and tells him when he is clearly in the wrong . If someone has done that back in the original timeline, the prequel trilogy would have been a masterpiece like the original trilogy .

Of course, I will have George Lucas himself directs the prequels . Star Wars is his baby, after all .

Plus, I am his fan, so I prefer not to do anything to hurt him physically or emotionally . At least his vision for what Star Wars should be is way better than all feminist craps from Disney . I did make sure to leave him the merchandising right, so he isn't eating scraps off the street .

I did not need more money than I already have . Although, I didn't leave George Lucas the sequels right – for obvious reason . I can't have him fuck up Star Wars the third time, including the original timeline .

Honestly, what part of being an all-powerful Emperor of a Galactic Empire did not tell you that I am a huge Star Wars fan? I also can shoot lightning out of my hands and electrocute people I don't like .

Too bad, the Force still eludes me . Not for long though .

Telekinesis should be within my grasps in the next few years or so . I can wait that long .

So many things to do, so little time – how ironic .

Anyway, I grip her sexy waist tightly with both hands, forcing her to bounce on my steel pole, impaling herself again and again while she screams at the top of her lungs .

From her insane tightness wrapping around and stroking my meat shaft, Eliana hasn't used her pussy for a very long time . And she definitely hasn't been fucked this brutally before .

"Master! Master! Uh! Master! Please! Ugh! Slow! Ugh! Slow! Down! Master!"

Eliana screams, pleading me to slow down, but I did not relent . Why should I?

Seriously, who is the Master in our relationship?

Nope . I fuck Eliana even harder and even faster with all the intent of making sure her cunt remembers my cock and my cock alone – as it should be . She is mine like anyone I have my eyes on .

And as expected, painful cries soon turn into erotic moans and gasps . Pains has become pleasures .

Eliana is beginning to enjoy the powerful sensations that only sexual pleasure can bring – as it should be .

Her legs begin to work, stepping against the couch and helping her to bounce on my cock, inviting me deeper and deeper into her steamy and fertile womb .

Eliana is back to her prime, so she can definitely bear my children, assuming our biology is compatible to some extents . Not really an assumption since there are half-elves running around thanks to all the raping done by the humans .

Unfortunately, I am not interested in giving Antigone any siblings . At least, not yet .

Without me giving her any suggestion, Eliana wraps her hands and arms around my neck, drawing me into her for a deep and passionate kiss .

I am happy to oblige while feeling those heavy globes press against my bare chest . I will enjoy those succulent breasts of her in all their glory . They are mine, after all .

Eliana slows her impalement onto my cock when our lips are locked and our tongues dance .

Instead, Eliana grinds her hips against mine, letting my cock feels every inch of her hot pussy . It is quite nice, for a little while . But I prefer to be more active .

Once our lips are parted, my hands wrap themselves around her firm ass, supporting her entire frame as I get off my seat .

Eliana is unsure of what I am doing exactly, but her hands instinctively tighten themselves around my neck, preventing herself from falling backwards when I stand up .

"This is what sex should feel like, Eliana . Remember it!"

Without letting her response, I proceed to pound her cunt violently and brutally in my new standing position, piercing her inside and pushing the cockhead knocking against the gate into her womb .

Her eyes roll up at the reckless assault, which sends overwhelming orgasmic pleasure throughout her body and mind . Within a handful of seconds, her pussy spasms, spraying out warm liquids mixed with her love juices .

Despite the nerve-wrecking orgasm, my cock continues to plunge in and out of her snatch, spreading her tight passage repeatedly, bringing her to a new climatic height .

Her body shudders while her arms tighten around my neck, beseeching me to pound her harder and harder . My cock slams into her soaking cunt all the way to the hilt with each powerful thrust .

And before I nut inside her, I drop her onto the only bed within the room and then hammer her well-abused pussy from above, using my entire weight to plunge my length deep inside of her .

Her legs spread wide, allowing me deeper and deeper entry .

"Master! Uh! Ah! Please harder! Harder! Teach me!"

Eliana urges as my balls contracts and tightens . And with one of her legs hooked over my shoulder, I sink myself into her, pressing our hips together .

As if her soaking cunt knows what is coming, it grips tightly onto my cock, sucking onto the mushroom tip like it is trying to milk me .

"Fuck! Argh Fuck! Take it!"

I roar as I explode inside her cunt, filling her womb to the brim . I continue to curse and use her pussy to stroke out my seeds, ignoring her lustful screams and yells . Sticky batters gush out of her pussy lips with each hard pound until I emptied my balls deep inside her .

However, I wasn't done . I didn't reverse time . Instead, I drink one of the stamina potions on the table, letting the liquid invigorate my body .

It works incredibly fast . I will have Mystic division examine the potion for replication . If successful, the stamina potion will be one of the best things to be sold on the open market .

Fuck Viagra! This is way better!

And before Eliana could recover from the cum overdose, I pull out of her, spraying some cum over the sheet in the process .

I flip her over and slap her bare bottom before ramming my cock inside her cunt unceremoniously .

"M-master!"

Eliana utters in shock and surprise as I use her long blond hair like a rein, pulling her body arching back while I pound her cunt from behind . Her ass ripples with each thrust, meeting my hips . She begins to move on her own, making sure I bottom out inside her each time .

"Who are you, an elder of the elves or just my bitch? Answer me?"

I question and hammer home, forcing cum to stream down her inner thighs .

"I'm... I'm... your bitch, Master . Please use me . "

Eliana utters . She is no longer an elder . She is just a woman in heat .

"Damn straight . "

I response and thrust feverishly . The stamina potion might have work too well . I feel I am full of energy, and honestly, I could run for hours on end and not even break a sweat .

My balls begin to swell once more, but I did not want to cum in her cunt this time . It is still overflow with my seeds . Thus, I pull out and aim the cockhead against the entrance into her rectum .

"Wait! Master that is – ! Ah! Ah! Mas! Ahhhhhhh!"

Eliana has no right to refuse me . With my hands gripping both side of her bottom, I spear her ass with my cock . It is incredibly tight – much tighter than her cunt . I didn't last long at all – about a minute or so .

"I'm going to cum, Eliana . "

I whisper to the woman, who face presses against the bedding . Her ass is pointing in the air while my cock plunges in and out . When I finally reaches my climax, I pull out and nest it between her ass cheeks and let the flood gate open .

Geysers of cum spring forth, arching in the air and splashing against her bare back and onto her golden blond hair . Most of it slide down her body towards her neck before streaming on both side and pooling under her .

Holy shit, I cum like buckets!

Even so, my cock remains super hard . Hell, I think I could go again and again and again – maybe several dozen rounds .

What the hell is that potion? It isn't just a normal stamina potion .

"Master... did you take a Greater Stamina potion?"

Eliana questions while her body spasms . She struggles to pull herself up from the bed and looks at me . And when she did, her body is coated in cum . It is quite hot .

"Ah . I might have . "

I sweat-drops . The stamina potions on the table all kind of look the same, honestly . There are also no labels on them, and since a mage could tell from their magical aura, there is no need for labels .

"Teach me more about your world magic, Eliana . "

I request as my dick sandwiched between her breasts . I hump her soft valley as I straddle her . Every time my dick emerges to the other side, Eliana would lick the mushroom tip .

"Yes, Master . "

Eliana responses when the dick retreats back into the valley . Her hands press both side of her breasts, making the passage tightest as possible . She never expects this is also sex .

I lean forwards and proceed to fuck her voluptuous tits fast and hard . I support my upper weight with both of my hands, one of each side of her head .

My erection won't go down no matter what I did, at least until the stamina potion wears off .

This might take a while – not that I really mind . There are so many positions to try .

"Open your mouth and stick out your tongue . "

Eliana did . Her startling green eyes constantly looking at the soft valley between her breasts, where my cock emerges and retreats . Before long, a thick rope of cum lands onto her tongue and over her face and hair . Several more ropes blast her chin, giving her a nice pearly necklace .

Once the eruption dies down, I crawl forwards and slide my erection into her mouth, letting her clean it while deepthroating her .

I have another load coming up, very soon .

Ah!
