Chapter 18

Dangerous Surface World!

Not far away.

Zhou Wuhai lay on the ground.

Looking at the expressionless Li Yueming not far away, he widened his eyes in disbelief and said, "You actually took this step? Perhaps it's really possible for you to do something that I can't do!"

Then.

Zhou Wuhai coughed twice.

After spitting out the blood in his mouth, he sat up and said, "Actually, I'm a member of the protection team of Fallout Shelter 0911!"

Hearing this,

Li Yueming fell silent.

Apparently.

He had his doubts before.

After all, Zhou Wuhai's strong body was not something that could be nurtured in the Underground World.

He did not expect this guy to be a visitor from the Surface World.

Zhou Wuhai continued, "Twelve years ago, the Surface World's Fallout Shelter 0911 was destroyed by the evolved monsters. That was the day I escaped from Fallout Shelter 0911 with my team members. On the way, my team members were either dead or injured. I was lucky. During my escape, I found the entrance to the Underground World and barely escaped."

Has Fallout Shelter 0911 on the Surface World been destroyed by monsters?

Even Li Yueming had not heard of this information.

Seeing the doubt in Li Yueming's eyes,

Zhou Wuhai took off his shirt, revealing the scar on his chest.

Even though it had already healed.

However, the scar still looked ferocious and terrifying.

He pointed at the scar and said, "This scar was left behind by a Rat attack. It's enough to prove that I'm not lying!"

In response.

Li Yueming did not reply.

He only nodded and said, "Continue!"

At this moment.

After discovering that Li Yueming had the strength to easily defeat him,

Zhou Wuhai suddenly looked like a completely different person.

He answered everything he was asked.

He was very honest.

After thinking for a moment, Zhou Wuhai continued, "The entire sewer is filled with mutated monsters. If you don't want to die, don't leave the Underground World rashly. I know a very hidden path. You can send a few people to investigate the situation first!"

Li Yueming rubbed his chin.

He believed most of these words.

This was because this was the case in the Infinite Deduction.

No matter what method Li Yueming used to enter the Surface World,

In a few days, they would be discovered by a large number of demons.

He ended up dead without a complete corpse.

However, he still had some doubts in his heart. He asked, "If what you said is true, why don't the beasts outside know about the existence of the Underground World?"

The existence of the Underground World was hidden.

But so many people lived here.

With the abilities of the demonic creatures,

It should have been discovered long ago.

But the truth was the opposite.

Other than occasionally finding a few lone demons in the Underground World,

It was rare to find a powerful threat.

In response.

Zhou Wuhai was also puzzled.

After thinking for a long time, he said uncertainty, "Maybe the humans in the Underground World are not a threat to the monsters?"

Li Yueming's eyes flickered.

Actually, he already had a bold guess in his heart.

However, it was too preposterous.

Therefore, he restrained himself from saying it out loud.

At this moment.

The surrounding Alliance members were also awakened from their sleep.

Looking at the messy scene.

Everyone was stunned.

However, someone quickly reacted.

A group of soldiers holding weapons held Zhou Wuhai down.

In response.

Zhou Wuhai did not resist.

He raised his head and said to Li Yueming, “You can make me the captain of the Exploration Team. I can scout the way for you!”

Li Yueming did not agree immediately.

He waved his hand.

A group of guards suppressed Zhou Wuhai.

Soon.

Wang Fei, whose face was flushed red, immediately knelt in front of Li Yueming and said, “Teacher...”

Li Yueming did not blame him.

Not long after.

Wang Fei was transferred out of the core circle of the Alliance.

After returning to his room.

Li Yueming prepared to use his talent to deduce.

He closed his eyes.

Li Yueming sighed and said, “Sigh, it’s really not easy to get an S-rank and above score!”

According to the information revealed by Zhou Wuhai,

The Humans on the Surface World might have undergone a drastic change long ago.

However, the Underground World was like a closed loop.

He could not come into contact with any information from the Surface World.

Therefore.

Just collecting information was enough for ordinary people to scratch their heads.

Fortunately, Li Yueming had help.

As long as sufficient information was obtained.

He could perform various deductions in his mind.

[16 years old: You appointed Zhou Wuhai as the leader of the Surface World Exploration Team and led the team to the remote sewer exit.]

[The cave dwellers living in the Underground World have finally returned to the real Surface World after decades.]

[The terrain of the Surface World is very complicated. Although the team members were very careful, they still got lost on the third day after setting off.]

[After so many twists and turns, the Exploration Team has been walking for an unknown period of time!]

[In a daze, Captain Zhou Wuhai suddenly saw the outline of Fallout Shelter 0911!]

[But before the team members could approach, the mutated Rats suddenly appeared!]

[Under the attack of the Rats, the Exploration Team was completely wiped out.]

...

Sure enough, after gathering more information,

The talent's deduction finally changed.

Although the Exploration Team sent to the Surface World was still wiped out,

But at least he wasn't killed this time.

He thought about it.

Li Yueming perfected the detailed battle strategy.

Then, he would deduce it again.

[16 years old: You have appointed Zhou Wuhai as the leader of the Surface World Exploration Team...]

[The cave dwellers living in the Underground World have finally returned to the real Surface World after decades...]

[The terrain of the Surface World is very complicated. The team members strictly follow your orders. After arriving at the Surface World, they will explore south.]

[Don't know how long they've been walking for, but the team members were targeted by a group of mutated insects.]

[Under the attack of the mutated insects, the Exploration Team was completely wiped out.]

...

There were mutated insects in the south.

Without sufficient strength, the Exploration Team could not be provoked at all.

It seemed that if he wanted to obtain enough information, it was impossible to rely on the Exploration Team and Zhou Wuhai.

After all, they were just ordinary people.

If they encountered mutated creatures from the Surface World, they would not be able to resist at all.

This time, Li Yueming decided to take action personally.

[16 years old: You did not choose to appoint Zhou Wuhai as the team leader. Instead, you decided to lead a team to the Surface World...]

[The topography of the Surface World is very complicated. The buildings of various old civilizations are covered in dense green plants. This made you think that you had returned to the prehistoric world.]

[The team members strictly follow your orders. After arriving at the Surface World, they will explore north.]

[Don't know how long you've been walking for, but you feel like you're being watched by something.]

[You repeatedly searched for possible threats, but found nothing.]

[The next night, the Exploration Team was completely wiped out.]

[Although you woke up in the night, the surrounding dark night covered the attacker's exact appearance.]

[In your resentment and unwillingness, you are dead!]

...

Damn, this way of dying was too tragic.

They didn't even know what had attacked them.

It seemed that the north was not a good place either.

Next.

Li Yueming tried to explore the east and west.

The final outcome was basically the same.

Li Yueming, who became braver the more he was defeated, repeatedly tried.

In the end, when the Exploration Team ventured southeast, the deduction finally made a breakthrough.

[After heading to the Surface World, the team members will strictly follow your orders. You will explore the southeast.]

[Although we encountered a few mutated creatures along the way, we're generally safe!]

[Three days later, the dried earthworms you brought from the Underground World are gradually exhausted. Being tense for a long time makes the members of the team in a very bad state.]

[I don't know how long I've been walking, but you've encountered a group of Humans wearing strange clothes!]

[The Exploration Team, who had not seen their own kind for a long time, was extremely excited. They rushed forward with tears in their eyes!]

[Although you sensed danger, you didn't have time to stop it in a hurry.]

[Humans in strange clothes are facing a great enemy!]

[The next second, countless arrows attacked. You're dead.]
