

Maxing MT 181

Chapter 181: Awakened Extraordinary Power, Special Gold Talent

He took the tray from the staff and removed the red cloth.

A red potion was lying quietly inside.

Seeing this situation.

Li Yueminz licked his lips.

After spending so much effort, he had finally achieved his goal.

He held the potion in his hand.

Hello, sir," the referee said carefully." Our boss wants to talk to you!!" Li Yueming glanced at him and was about to speak.

However, at this moment, there was a sudden commotion at the entrance of the underground boxing arena.

The clamor and curses sounded almost at the same time.

Li Yueming turned around.

However, a large number of fully armed soldiers rushed in. Professor Cheng brought the woman who had transformed into a black dog into the field and looked around.

His gaze quickly fell on Li Yueming, who was in the center of the arena.

Seeing this situation.

Li Yueming's muscles tensed up.

He did not hesitate.

He directly injected the red potion into his arm.

In the blink of an eye.

Li Yueming felt like he was being pricked by needles.

The red potion was like a ball of fire that flowed through his blood circulation and spread throughout his body.

It was accompanied by a burning sensation and a bone-piercing pain.

But under such circumstances.

A strange energy rose from his body.

The Infinite Deduction talent began to circulate continuously.

Li Yueming used the Star-moon Art to guide the red potion to a few key meridians according to the correct route in the deduction.

At the same time.

The rapid recovery of the red talent in his body was also suppressing the pain and heat in his body.

[You have successfully changed your fate. At the age of six, you have successfully injected yourself with the supernatural potion and officially become an extraordinary chosen one!]

[The score for this reincarnation has increased greatly!]

[Additional reward of 30000 reincarnation points!]

[Congratulations on unlocking the transcendent gene chain and obtaining a special additional talent: Barbaric Martial God (Gold)]

[Wildlands Martial God: You are the god of martial arts from the Wildlands.

When you were born, your genes carried a powerful martial will!]

[Your body's basic ability has been permanently increased by 250%, physical attack damage has been increased by 300%, and the upper limit of your martial arts gene has been increased by 500%!]

[Your Extraordinary Power can be attached to any item. The item will obtain divinity under your Extraordinary Power, providing an additional 200% attribute!]

A series of messages sounded from the Reincarnation Mark.

Li Yueming felt dizzy.

At this moment.

Endless power seemed to surge up from the depths of his body.

The sour and bone-piercing energy was constantly transforming Li Yueming's body.

His muscles and bones were twisting.

His muscles were contracting.

The energy was like ants gnawing at his body.

It made Li Yueming sink into the mud.

However, under such intense pain.

However, it hid a powerful strength that was like a new life.

On the spectator stand.

Professor Cheng looked at the figure not far away.

Even though Li Yueming was currently wrapped in a mecha.

However, the unique aura on his body allowed Professor Cheng to quickly recognize him.

After more than 300 days.

Dr. Cheng finally saw the experimental body that he had been dreaming of again.

"Little rat, you dare to walk on the ground instead of hiding in the sewers?" Looks like you're tired of living!"

As he spoke.

Thousands of fully armed soldiers rushed in.

He directly swept the area with his firearms.

The countless spectators had never seen such a scene before.

They screamed and started to flee.

He cleared out the surplus ordinary people.

Professor Cheng looked at Li Yueming, who was still on the stage, and waved at a man beside bring him back unscathed!" The man raised his head.

When he looked at Li Yueming, his eyes lit up.

With a single leap, he flew tens of meters away against the fleeing crowd. He landed on the ground and jumped again. They were about to reach the arena.

Suddenly.

The sharp iron rod on the fence of the arena suddenly trembled twice.

Dozens of iron rods shot up from the ground, trying to pierce the man in the sky like a porcupine.

However, even though the puppet-like man was still flying in the air, his speed was so fast that it was unbelievable.

In a few flashes, he dodged the iron rod that was flying towards him.

He found a place to rest.

The man jumped up again.

He continued to rush toward Li Yueming without any distractions.

Not far away.

Seeing this, Sun Ruo gritted her teeth and gently raised her arm.

Instantly.

The hundreds of iron rods around the arena transformed into incomparably sharp flying swords that stabbed towards the man.

Seeing this, the man stopped dodging.

He opened his mouth and roared.

Instantly, the entire arena shook.

A huge tiger claw grew out of the man's arm, and with a gentle sweep, it slapped the iron rod that Sun Ruo had shot to the ground.

The man in the air glanced at Sun Ruo with his beastly eyes.

The violence and chaos within could even make people feel a deep chill from dozens of meters away.

On the spectator stand not far away.

Professor Cheng watched everything that was happening not far away.

Obviously.

As long as he could capture Li Yueming and fill in the final test data.

At that time, he would no longer be a doctor.

Instead, he was the founder of a corporation on the same level as Ye Tianzi.

He would be the creator of the future genetic empire!

However...

When he saw Sun Ruo standing there, the smile on Dr. Cheng's face froze.

He turned to another Experimental beside him and said, "0542, bring the leader of the Resistance back to me. Her genes should be very good. I want her to know the consequences of offending me!" 0542 nodded.

He stood up and quickly pounced toward Sun Ruo.

The two Experimentals that Professor Cheng sent out were both B+ class.

He was already a level higher than Sun Ruoqiang, who only had the strength of

Now, he was going to fight one against two.

Sun Ruo didn't have three heads and six arms, so she obviously couldn't care about Li Yueming.

He saw that Li Yueming was still standing on the stage.

Sun Ruo couldn't help but curse angrily, "What are you doing, you idiot? Hurry up and run!"

Li Yueming naturally had no reaction to this.

Or rather, he was currently immersed in a mysterious feeling.

Countless energies were transforming every inch of his body and skin. The incomparably comfortable feeling had made him temporarily forget everything outside.

With 0542's help.

0541 easily broke free from Sun Ruo's obstruction.

In two jumps, he arrived at the arena and looked at the iron lump not far away.

0541 stretched out his hand and prepared to bring it back.

But at this moment.

The seven or eight youths who had been hiding in the corner suddenly rushed out.

The young man in the lead said nervously, "Who are you? If he wanted to fight with a mecha warrior, he had to be fair and square. He could not take advantage of others when they were in danger!"

They were the apprentices of Old Lin's repair shop.

This time, it was Mecha Man's 20 consecutive wins.

They must have found a way to sneak in.

At this moment, everyone had already dispersed.

Only they, who were hiding at the edge of the arena, could not escape in time.

Now, seeing that their idol was in danger.

This kind of behavior was undoubtedly an overestimation of one's own ability.

However, even though they were trembling in fear, they still rushed out without hesitation.

Among them, only the more mature Huang Xundong had an expression of despair.

If there was only one normal person in a group of idiots, then this normal person would undoubtedly appear to be unsociable.

0542 looked around.

After confirming that there was no one else around him.

His eyes revealed a hint of confusion, but after a moment, he suddenly laughed cruelly, "Who am I? I don't know who I am. I only know that the guy who stands in the way of the doctor... All of you have to die!"

Chapter 182: Crazy Professor Cheng, Battle of the Transcendents! 1

In the arena, 0541's eyes were filled with confusion.

However, this confusion was quickly replaced by hysterical madness.

He roared and muttered, "My mission..." It was to get rid of all the people who stood in front of the doctor!"

As he spoke.

He suddenly flashed and appeared in front of one of the youths.

A palm that was like a tiger's claw slapped down.

If this attack was real.

The few youths would probably be crushed into meat paste by him.

But at this moment.

In the arena not far away, an aura that resembled the awakening of an ancient beast suddenly bloomed.

As a genetic ability user, 0541 was extremely sensitive to this aura.

After sensing that extremely terrifying aura.

He subconsciously froze on the spot.

He raised his head stiffly and looked at the center of the arena.

However, Li Yueming, who had not moved at all, suddenly trembled.

His entire body seemed to be transforming at an unbelievable speed, and his aura was also getting stronger step by step.

Professor Cheng also noticed something unusual.

At the same time.

An energy level tester in his pocket was beeping nonstop.

Instinctively.

Professor Cheng took it out of his pocket.

The energy level displayed on the meter was rising like a water column.

From the initial F-class supernatural wave, it quickly rushed to D-class.

He quickly advanced from D class to C class.

Professor Cheng looked at the dashboard in his hand and then looked at Li Yueming who was in the center of the arena not far away.

“Oh no, oh no, the Experimentals have lost control...” In his shock, Professor Cheng cursed with a gloomy face, “Who the f * Ck gave you the Extraordinary Potion?”

As Li Yueming’s trainer...

Obviously, only Professor Cheng knew how scary Li Yueming was.

Back then, the other party’s so-called perfect gene had made him marvel at the beauty of the Creator, who was actually able to arrange the originally chaotic gene fragments into such a perfect shape.

In order to analyze the profoundness of Li Yueming’s genes, he had to use the gene analysis technique.

Dr. Cheng even burned nearly 10 billion worth of nutrient solution, regardless of the cost, just to cultivate Li Yueming’s genes to the most perfect state.

But now.

As Li Yueming’s aura increased explosively.

Professor Cheng immediately felt that something was wrong.

One had to know that a perfect genetic lifeform like Li Ming would have a 100% chance of obtaining a special ability after injecting the transcendent drug. Li Yueming had also swallowed so much nutrient solution when he was young.

Under such circumstances.

Once he awakened his superpower.

As long as he was given a short period of time to grow, it was very likely that he would become a powerful Extraordinary that would make everyone feel a headache.

Professor Cheng was unwilling to accept this result.

He gritted his teeth for a moment.

Professor Cheng gritted his teeth and ordered with red eyes, “Everyone...Change the battle plan. You have the right to arrest 0731. If necessary, you can do so without caring about your life or death!”

He knew that today’s arrest would not be as smooth as he had imagined.

Once one obtained extraordinary powers, even if the awakening time was too short, one would not be able to perfectly control the power.

The destructive power of the Experimentals would also increase exponentially.

Under such circumstances, it was almost impossible to bring Li Yueming back unscathed.

Therefore, Professor Cheng could only compromise and ask his subordinates to bring the corpse back.

Hearing this.

The surrounding group of ordinary soldiers all raised their guns.

They started to use firearms to eliminate Li Yueming, who was still in the midst of transformation.

But it was too late.

Li Yueming had already woken up from his deep sleep.

At this moment.

Li Yueming’s eyes emitted a faint golden light.

The mech he was wearing was also affected by the special extraordinary strength and was also dyed with a faint layer of gold.

A few seconds later, a pair of huge angel-like wings grew out of Li Ming’s back.

This was an extension of extraordinary energy.

It was especially dazzling in the dark underground arena!

The golden wings flapped gently.

Before anyone could figure out what was going on, Li Yueming stood in front of 0542.

He pulled out the alloy sword on his back.

A faint golden light flashed out in an instant.

With one strike.

As a [B+] class genetic ability user.

0541’s mutated giant tiger claw was easily cut off like a piece of tofu.

Li Yueming stood in front of him and observed for a moment before saying lightly, “An empty shell that doesn’t even have a sense of self. Living is also a kind of pain.”

As he spoke.

The golden blade in his hand pierced through the air.

He raised his hand lightly.

It was just an instant.

0541's head was sent flying by the blade.

Blood splattered all over the ground.

It landed on the ground not far from Professor Cheng.

The supernatural powers of this world were completely different from the energy forms of the previous two worlds that Li Yueming had experienced.

Its powerful supernatural power did not only come from the body itself, but also from the genes in its blood and bone marrow.

Only by combining the two could the cells of the human body produce extraordinary energy.

Li Yueming's training methods were only targeted at the body itself.

Naturally, he could not decipher the genes in his blood and bone marrow.

As a result, he had been unable to sense any extraordinary energy when he was cultivating.

And now.

Because of the stimulation of the Extraordinary Potion.

The energy in Li Yueming's blood was completely activated.

Desolate Martial God!

This was the special talent that Li Yueming had awakened when he awakened his superpower.

After a short experience.

Li Yueming had a rough idea of its effects..

Chapter 183: Crazy Professor Cheng, Battle of the Transcendents! 2

It was needless to say that all muscles in the body could be permanently increased by 250%.

This was a simple and crude body strengthening. In the game, it was equivalent to increasing all attributes.

It was the same for the 300% increase in physical attack damage.

It was equivalent to an increase in melee combat damage.

As for the 500% increase in the upper limit of martial arts genes, Li Yueming had yet to fully understand this effect.

From an abstract point of view, it should be an increase in potential.

Of course.

That was not the main point.

The key point was the last special state of this talent.

Li Yueming's extraordinary strength can be attached to any item, and the item will be synchronized with a part of Li Yueming's attributes. It also provided an additional 200% of the weapon's attributes!

To put it simply.

If Li Yueming synchronized his extraordinary martial strength with the long saber...

The long saber could share a part of his attributes.

The specific increase would depend on Li Yueming's extraordinary power output.

Not only that.

Transcendent-level strength could also increase the weapon's original strength by an additional 200% of its attributes.

Overall.

This talent characteristic was simply heaven-defying.

Under such circumstances.

Li Yueming's combat power had soared to a certain level.

Naturally, he could not continue to be chased by the Cloud Sky Group like a stray dog.

Not to mention that Professor Cheng had personally chased after him.

This guy was as annoying as a fly.

She kept buzzing behind him all day long as if she was rushing to eat sh * t.

Didn't I just burn your nutrient solution worth tens of billions?

Was there a need to be so agitated?

It was similar to how Professor Cheng wanted to bring Li Yueming back to the laboratory for experiments.

Li Yueming also hoped that Professor Cheng's head would explode.

He wanted to see if there was a brain comparable to Einstein inside.

Li Yueming tossed 541's head over.

Even though he was dozens of meters away, Professor Cheng could feel a faint chill.

One had to know that this was a B+ grade genetic warrior!

Before he lost control, his strength was no weaker than that of an extraordinary human of the same level.

However, he couldn't withstand a single move from Li Yueming.

Professor Cheng couldn't imagine what kind of terrifying extraordinary talent Li Yueming had awakened.

That was why a person who had never used superpower before could become so terrifying.

It was too terrifying.

What kind of monster would he become if he allowed it to continue growing?

If he couldn't control it this time...

Then he had to kill them on the spot.

At this moment, Professor Cheng only had one thought in his mind.

At this moment.

The sounds of gunshots and the firing of heavy weapons could be heard. Thousands of Yunxiao Group's elite soldiers began to fire at Li Yueming.

Not far away.

Li Yueming picked up the alloy shield that he had used before and handed it to the leading youth behind him."Hold your shield and don't move!"

At this moment.

The alloy shield was enhanced by his martial strength.

As long as Li Yueming was not exhausted.

This shield was enough to block the attacks of most ordinary firearms.

After handing the shields to the youths.

Li Yueming didn't say anything else and jumped off the arena.

Sun Ruo was still engaged in a fierce battle with 0542.

Li Yueming jumped down from the arena.

It was fast, accurate, and fierce. With a single step, 0542 fell to the ground because of its terrifying strength.

Li Yueming's kick directly created a 7 – 8 meter diameter hole in the reinforced concrete ground. 0542 lay in the hole with its limbs twisted.

Obviously, he was dead.

Seeing this scene, Sun Ruo was completely stunned.

Her red lips opened into an O shape.

After sizing up Li Yueming, she couldn't believe her eyes.

"Why are you opening your mouth so wide?" Li Yueming laughed. You retreat first, I'll stay and play with them!"

He heard a familiar voice from the mecha.

Only then did Sun Ruo wake up from a dream and said with a shocked expression, "You've become a supernatural being? F * ck, this combat strength is too fierce!"

He had lived for more than ten years.

It wasn't that Sun Ruo had never seen geniuses and freaks before.

In the past, when she was in the Resistance, there were many supernatural beings of the same age who were stronger than her.

However, he had never even heard of someone like Li Yueming, who had just awakened his supernatural power for a few minutes and could stomp a B+ class supernatural being to death like an ant.

After all, although Extraordinaires were known as Transcendents, they were still considered humans.

If he wanted to become stronger, he had to climb up step by step.

This was especially true for newly awakened superhumans. They did not know how to control the supernatural power in their bodies. Just adapting to it would take them ten days to half a month.

Li Yueming did not explain.

After all, there was no end to explaining this kind of thing. He clearly did not have the leisure to be elegant now.

He grabbed Sun Ruo, who was still in shock.

” Wait for me at home,” Li Yueming said.” I’ll come back after I’m done solving the problem!

After he finished speaking.

Li Yueming threw Sun Ruo out of the arena in a rough manner.

After all, Sun Ruo’s energy level was too low. Staying here would be a burden to him.

It was not easy for him to become a supernatural being. Li Yueming needed to fight to his heart’s content to feel his current strength.

After settling his worries.

Instead of retreating, Li Yueming charged towards the armed forces that were still firing.

Under the barrage of fire, Li Yueming charged forward.

The mech was hit by tens of thousands of bullets, but it was not damaged at all.

Li Yueming could easily dodge some of the heavy weapons that were extremely destructive..

Chapter 184: Crazy Professor Cheng, Battle of the Transcendents!_3

A moment later.

Like a god of death, he charged in front of nearly a thousand soldiers.

When the soldiers of the Cloud Sky Corporation saw this situation, they were all extremely frightened.

The firearms in their hands could protect them most of the time.

But now.

In front of a freak like Li Yueming, it was as useless as weeds on the roadside.

A few members of the team of monitors rushed over.

Most of them were C-class superhumans, and the best among them could also unleash B-class power.

However, in front of Li Yueming, they were actually not as threatening as the two Experimentals sent by Professor Cheng.

He single-handedly grabbed a member of the team of monitors who had agility talent.

He crushed its head.

With a casual swing, it smashed into the wall of the underground arena and instantly turned into a blurry pile of meat paste.

Not far away.

Seeing this scene.

Professor Cheng finally shattered his fantasy of capturing Li Yueming.

He turned around and opened the silver suitcase.

He took out six gene serums of different colors at once and stabbed them into the necks of the two followers beside him.

“0446, 0447, tear him apart!” he said through gritted teeth.”

The two Experimentals who were injected with needles seemed to be siblings.

After injecting the drug.

Bone spurs grew out of their stomachs, piercing through their flesh and falling to the ground. The two of them directly turned from humans into reptiles.

Li Yueming frowned.

He could sense a dangerous aura from these two strange creatures.

But that was all.

Li Yueming held the iron cleaver and channeled all his martial strength into it, raising the attributes of the iron cleaver to a super strong level.

Meanwhile, he began to circulate the Starmoon Art in a regular manner.

The two monsters pounced at him from the left and right, but Li Yueming’s speed seemed to be faster than theirs.

He rushed to the monster on his right and drew a full moon with his iron cleaver.

The monster on the right had several of its ribs broken in an instant.

His entire body kept twisting in the air as he let out a shrill scream.

The monster on the left also let out a mournful wail.

However, Li Yueming could clearly feel that the aura of the monster on the other side had become stronger.

Good heavens.

Sacrificing their loved ones to gain strength, right?

Then I'll make you a complete orphan!

He raised the iron cleaver in his hand and made a crafty arc.

The long blade that was flashing with golden light pierced into the abdomen of the monster in the air.

Instantly, the screams became even louder.

But Li Yueming was unmoved.

He exerted force with his arm.

It directly cut open the monster alive, and the blood mixed with its internal organs spilled all over the ground.

But even so.

The monster was still struggling.

Even his internal organs had fallen to the ground, but they were still active.

Seeing this scene.

Even Li Yueming, who was cold-hearted towards his enemies, felt a chill run down his spine.

Who knew what kind of disgusting research Professor Cheng was doing?

It could actually turn a human into a monster that was even more tenacious than a cockroach.

On the other side.

The female monster rushed over like a madman.

But it wasn't aimed at Li Yueming.

Instead, she quickly rushed to the side of her brother's scattered pieces.

However, just as Li Yueming thought that a touching scene of a brother and sister parting would soon be played out...

However, the female monster opened her mouth wide and swallowed the pieces of her brother that were scattered on the ground.

Not to mention the surrounding soldiers, even Li Yueming felt like vomiting.

The monster continued to grow stronger after devouring the meat on the ground.

Li Yueming didn't give her time.

He directly raised his hand and slashed down, ending her on the spot.

After finishing all of this.

Li Yueming turned around.

The surrounding soldiers of the Cloud Sky Corporation had long been scared out of their wits.

Now, they couldn't give any orders.

They all threw down their weapons and ran.

He was running with tears streaming down his face.

Professor Cheng did not leave.

He stood where he was and silently watched Li Yueming finish off the two Experimentals.

The expression on his face changed several times, "As expected, your existence is too special. I should have dismembered you long ago!" Hearing this.

Li Yueming couldn't help but smile. "I have all this thanks to your achievements, right?"

Hearing this.

The veins on Professor Cheng's neck popped.

He had lived for more than eighty years and had experienced countless storms in his life.

However, an Experimental had managed to escape. Moreover, they had spent so much effort to chase after it, but they still could not catch it.

Even in the past 80 years, there had never been such a big mistake.

It could be said that Li Yueming was the biggest disgrace he had suffered in his research for most of his life.

But even so...

He looked at Li Yueming who was not far away.

Professor Cheng took two deep breaths to calm himself down. "I can no longer treat you as an experimental subject, as long as you are loyal to me! On the other hand, I'll share my life's research with you. How about it?"

Hearing this.

Actually, Li Yueming was quite interested in the deal.

However, it was obvious that he was not stupid.

He didn't believe that Professor Cheng would really treat him as a 'human' and not an 'experimental subject' that could be abandoned at any time!

There was another simple reason.

Li Yueming didn't want to be the same as a guy who kept creating monsters.

Seeing that he did not answer.

Professor Cheng couldn't help but sigh and shake his head. "Since that's the case, I'll nurture you and destroy you in the end."

After saying that.

Professor Cheng, who had witnessed Li Yueming's terrifying combat power, completely gave up on all fantasies.

He took out a whistle and blew it gently.

A moment later.

Li Yueming suddenly felt a tremor that shook the earth and mountains.

Before he could fully recover from his shock.

After the loud bang, a cloud of dust flew away.

In the blink of an eye, the entire underground arena was collapsing!

Countless huge building fragments smashed down.

It was like an earthquake or the end of the world.

Professor Cheng's figure gradually disappeared into the dust.

It was as if it had never appeared.

In the next second.

A giant monster that was more than 20 meters long rushed out of the underground arena!

The monster had two huge fangs.

His entire body seemed to be sewn together from a lump of rotten meat.

Li Yueming's face revealed a serious expression.

To be honest.

He felt that he already thought highly of Dr. Cheng.

However, he never expected that the other party would actually have such a trick up his sleeve in the end.

If one were to measure the energy level of a supernatural being, this huge monster should be infinitely close to [A+] class.

What kind of concept was this?

To put it simply.

Once a Transcendent's energy level exceeded S, the power level of the Transcendent would be increased.

Its destructive power was enough to swallow a small city.

In other words.

Now, this giant monster already had the potential to destroy the city.

However, it was a coincidence.

Li Yueming's current energy level was infinitely close to Class A.

Therefore, looking at this incomparably huge meatball monster.

Li Yueming licked his lips and said, "Forget it, I'll use you as a finishing dish in the end!"

Chapter 185: Li Yueming's Death Certificate? 1

Boom! Boom! Boom!

The sound of countless rocks falling could be heard.

The entire underground arena was disintegrating under the monster's tentacles.

Li Yueming stood in the sky with his golden blade.

He waved his hands.

The supernatural energy in the cells gathered at one point.

He grabbed the hilt and slashed down.

Instantly, a crescent moon more than ten meters long fell from the tip of the blade.

Sensing the killing intent, the monster waved its tentacles and threw a huge rock at him.

The blade light collided with the boulder.

"Bang!"

An explosion sounded.

The huge rock was split apart by the saber light.

The rest of the blade light slashed at the monster's body, but in the end, it only bloomed with a little scarlet light.

For a monster with such a huge body, this level of slash was not even considered a superficial wound.

It only made the monster's scream even more ear-piercing.

In the surroundings.

Hundreds of thousands of spectators swarmed out of the underground arena after hearing the gunshot.

He didn't know much about what happened inside.

At first, they thought it was some money-grubbing militants who wanted to rob the underground boxing ring.

However, looking at the messy underground arena behind him and the huge monster in the arena, he could not help but feel a little relieved.

Almost all the people who fled had expressions of disbelief on their faces.

"Who can tell me what's going on? Could this be the hidden checkpoint of the underground arena? This is too f*cking exciting!"

“Hide your sister’s checkpoint. That monster seems to be a genetic experiment released by the Cloud Sky Corporation. It’s a genetic monster with an energy level that exceeds A-class!”

“Everyone, run! I heard that genetic monsters lose all rationality after they go berserk. They will kill all life in their surroundings!”

“Really? What was the Cloud Sky Corporation planning to do by placing such a monster in the city? Damn it!”

After escaping to a slightly safer place.

All the spectators in the underground arena and the residents in the slums of the west of the city stopped.

He turned around.

A huge monster was baring its fangs and brandishing its claws, crazily attacking the tiny figure in the sky.

That figure seemed extremely small.

However, his body was emitting a light golden power that was like a god.

He was slashing at the monster with his weapon.

The spectators who had stopped were stunned by this scene.

“What is that shadow in the sky? Is it a mecha warrior?”

“It really looks like a Mecha Man. This monster is already in the supernatural category, right? Is Mecha Man that powerful?”

“Where are the government troops? They usually collected so much tax, but now that there was a problem, they ran away?”

“Forget it. The government army is the dogs raised by the consortiums. It’s better to count on the Mecha Warrior than them.. ‘Mecha Man, you can do it. We believe that you won’t be defeated!’”

“That’s right, Mecha Man will never lose!”

He looked at the figure fighting the monster in the distant sky.

The audience who had already fled the underground arena slowly became fanatical again.

To the ordinary people living in this era, the number of people in this world was extremely high.

A dull and boring life was like chewing a sugar cane that had been squeezed dry.

It’s a pity to throw it away.

Chewing and chewing seemed to be able to squeeze out some water.

However, the sweetness that should have been there was all contributed to the blast furnace that was emitting black smoke.

After sufficient processing and fermentation, it became an exquisite dessert on the dining table of the small group of people standing at the top of the pyramid.

That's why.

That was why they focused their attention on the underground arena.

It was the end of a tiring day.

Only when he came to the underground arena and shouted at the top of his lungs.

Only then could they experience the feeling of being alive again.

Now.

The figure in the sky that had excited them time and time again was fighting again.

Even though the opponent was no longer a Growthacker.

However, the audience still cheered subconsciously.

They hoped that Li Yueming would be able to get rid of this terrifying monster.

Not far from the surface.

A fat middle-aged man wearing a hat and a trench coat was also watching everything.

As the boss of the underground boxing ring.

He happened to witness the Cloud Sky Corporation's actions when they rushed into the underground arena.

It was also at this moment that the fat man finally reacted.

It turned out that the mecha warrior who had recently become famous in N City was the experimental subject that the Cloud Sky Group had gone crazy to pursue.

However, according to the information.

Wasn't that Experimental only six years old?

He looked at Li Yueming, who was clad in a mecha, not far away.

The man couldn't relate her to a six-year-old boy.

However, on second thought, the man quickly accepted it.

After all, they were Experimentals... After all, there was something different about her.

Otherwise, how could he escape from the laboratory and be pursued by the Yunxiao Group with such a huge amount of manpower and resources?

In addition, the other party was really bold.

He actually dared to swagger in front of the public in this kind of city-wide search.

Moreover, he had successfully obtained an extremely precious Extraordinary potion from him.

However, these were all temporarily suppressed.

The man and the Cloud Sky Corporation had never worn the same pair of pants.

To be able to see the Cloud Sky Corporation in trouble, he had already been overjoyed more than once in private.

However...

When he saw Professor Cheng summon his last resort.

The fat man's face instantly turned ugly..

Chapter 186: Li Yueming l s Death Certificate?_2

He immediately followed the last group of people to leave the Land of Illusion.

When he came back to his senses.

When they discovered that the underground arena had been reduced to ruins due to the monsters' activities, they were shocked.

The man's face instantly revealed a pained expression as he cursed angrily,"F *

Ck you, my golden chicken is gone. These sons of b * tches from the Cloud Sky Group are really not worthy of being human!"

He looked around.

The fleeing crowd was in chaos.

After making sure that no one was paying attention to him.

The man lowered his head and said to his personal assistant, who had been following beside him, "Mobilize the City Defense Army and destroy this damned monster at all costs!"

The assistant nodded and looked at Li Yueming who was still fighting in the sky. After hesitating for a moment, he asked, "Sir, that supernatural being..." The man glanced at Li Yueming.

He then swept his gaze across the countless people around him and said in a low voice,""It's just a token of my appreciation, you know!"

The assistant left.

After giving these instructions.

The man had his back against her, and his eyes kept flashing.

Professor Cheng released the giant genetic monster that had gone out of control.

As long as this thing was awakened, it would completely lose control after executing the last command of the awakened person.

In other words, if Li Yueming, who was not far away, died.

The monster would become a walking killing machine, killing all living beings around it indiscriminately.

It was obvious.

The troops of the Yunxiao Group would definitely not sacrifice themselves for the lives of a group of commoners.

Taking ten thousand steps back, he wanted the Cloud Sky Corporation to end things.

That would have to wait until death and fear spread to a certain extent.

After pushing all the pressure and blame from the people onto the government forces, the government forces were finally able to take over.

That was why the Cloud Sky Corporation, the 'hero savior', would make an appearance.

Therefore, he had no choice.

As the true 'master' of the city, he was a true 'master'.

Naturally, the man would not sit idly by and watch such a thing happen.

However, it was a pity.

After this operation, the risk of his identity being exposed was even higher.

In the sky, Li Yueming's body was covered in golden flames.

The extraordinary energy of this world was stored in the cells of the human body.

Extraordinaires wanted to become stronger.

Not only did he need to develop his physical strength, but he also needed to undo the chains in his genes.

Now.

Li Yueming's physical fitness could already keep up with the transformation after strengthening. After all, he was the God of Martial Arts in his previous life.

His control of his body and strength was naturally at the peak of perfection.

The only thing he needed to experiment with was the power of the gene lock. In other words, it was the special golden talent of the Wild Martial Saint.

In order to better control the new talent.

In this battle, Li Yueming did not even activate the Star-moon Technique.

Basically, he had been using the talent of the Wilderness Martial Saint the entire time.

He first tried to infuse all the power in his cells into the sword in his hand.

He wanted to see if Iron-cleaver could perfectly match his body's attributes.

However, he did not know if it was due to the material of the weapon itself or some other special reason.

Iron-Slaying Sword could only match 70% of Li Yueming's attributes.

The remaining 30% would not be able to be synchronized no matter how much force was injected.

However, even so.

The Iron Slaying Sword that had synchronized with Li Yueming's attributes still cut off a few of the monster's tentacles.

As Li Yueming's combat strength grew stronger and stronger, he was no longer a threat.

The monster also gradually became more and more frantic.

Countless pieces of gravel rolled down.

Amidst the dust, the monster suddenly raised a pink tentacle and attacked Li Yueming.

At the critical moment.

Li Yueming felt that the pink tentacle was unusual.

He retreated dozens of meters.

The Star-moon Mantra in his body finally began to circulate, gathering countless amounts of energy to form a long blade made of Extraordinary Divine Power.

A giant golden blade appeared in the sky.

It was a full 40 meters long, and it was completely constructed by the extraordinary energy in Li Yueming's body.

If other Extraordinaires of the same level were to see this scene...

They would probably be dumbfounded.

How precise was his control of energy?

To be able to keep the supernatural energy from dissipating even when it was tens of meters away from the body?

Of course.

To Li Yueming, this is not the point.

He swung the golden sword in a dazzling arc, trying to cut off the pink tentacle.

However, the moment the golden Extraordinary Energy came into contact with the tentacle...

A stiff and cold energy surged out of the monster's pink tentacles.

The golden sword in Li Yueming's hand was instantly wrapped in a layer of energy that was similar to soil.

This strange energy was still attacking Li Yueming's body along the golden sword.

Seeing this situation.

Li Yueming's sword shook violently, and the golden energy emitted a dazzling light.

After a moment of stalemate.

The energy longsword cleared the strange gray energy.

In the blink of an eye, there was a whoosh.

The golden longsword cut through the monster's pink tentacles as easily as cutting butter.

Instantly, the monster's life gate seemed to have been cut off.

In an instant, he became much dispirited.

It was obvious that he had suffered heavy injuries.

Just as Li Yueming was about to follow up with another attack...

However, he discovered that nearly 10,000 City Defense Army soldiers had suddenly appeared around him.

After all, they were a local force.

Compared to the lightly equipped soldiers of the Qing Xiao Group, they had a lot more heavy weapons.

Some of the weapons even made Li Yueming feel threatened.

Just as Li Yueming was about to fight them...

However, he realized that the City Defense Army soldiers seemed to have aimed most of their heavy weapons at the monsters on the ground.

Seeing this situation.

Li Yueming decided to wait and see..

Chapter 187: Li Yueming's Death Certificate?J

He no longer continued to tangle with the monster and flew up nearly a hundred meters from the ground.

In the next second.

Tens of thousands of extremely destructive giant laser cannons hit the monster.

He was beaten until he roared endlessly.

All kinds of broken pieces of meat and organs exploded everywhere, and the only thing that targeted Li Yueming was some irrelevant firearms.

What was going on?

Shouldn't the City Defense Army be on the same side as the Cloud Sky Group?

Why was he attacking Professor Cheng's experimental body now?

A traitor of the new era?

A barrage of heavy weapons rained down, razing the underground arena to the ground.

Smoke and dust mixed with the smell of gunpowder rose into the air, and the entire western part of the city shook.

Countless people rushed to the streets, causing chaos.

Just as Li Yueming was puzzled.

Suddenly, a figure flew over from the ground.

“Sir, our boss wants to talk to you!” he said in a low voice as he walked to Li Yueming. ”

Although the other party had changed his attire.

However, Li Yueming still recognized the other party’s identity.

This should be the director of the underground boxing arena who had given him the supernatural potion.

Look at this curator.

Then, he looked at the City Defense Army that was still firing on the ground.

Li Yueming suddenly had some guesses in his heart. He nodded and said, “Where is your boss? Lead the way!”

Ten minutes later.

Under the director’s lead, Li Yueming came to an inconspicuous small courtyard.

At this moment.

The middle-aged man had already taken off his mask and other disguises.

A beautiful and bold bald head was revealed.

The face below was none other than the City Lord of N City, Han Longfei, who was despised by Professor Cheng at the airport.

“How should I address you?” Han Longfei asked with a smile. It shouldn’t be 0731!”

“Just call me Li Yueming. Just tell me what you want to talk about!” Li Yueming said casually.”

“Hehehe, don’t be nervous. As the saying goes, the enemy of my enemy is my friend. I have no ill intentions towards you!” Han Longfei waved his hand.

Behind him, the director silently retreated.

When there were only two people left in the small courtyard.

Han Longfei went straight to the point.” My name is Han Longfei. I’m the chief of the Resistance around N City. I would like to invite you to join our Resistance. I wonder if you have the intention?

Hearing this.

Li Yueming’s face revealed a look of interest.

He was also the leader of the Resistance.

Sun Ruo, that girl, was a miserable bastard. Right now, there were only a dozen or so members of the Resistance under her command.

Then, look at Han Longfei.

He stood out from the many selections of the Cloud Sky Group.

As the leader of the Resistance, he took the position of the mayor of N City.

As expected, one had to throw away goods when comparing them.

In comparison, Sun Ruo this girl was simply too weak.

He threw away his messy thoughts.

Li Yueming touched his chin and said, "If I refuse, will a few strong men rush in and tie me up to silence me?"

Han Longfei was stunned when he heard that. He obviously didn't expect Li Yueming to answer like that.

A moment later, he laughed out loud and said, "I, Han Longfei, will not be so forgiving. If you refuse, I can guarantee that the City Defense Army will not be an obstacle for you to escape from N City. However, there will be no other help. After all, there are people from the Cloud Sky Group's headquarters everywhere near N City. I will not risk my life and my men's lives to help an unrelated outsider!"

Li Yueming felt a little bit of credibility.

Of course.

Joining the Resistance was one of the routes he had planned.

Therefore, he did not waste any time and said directly, "So, what benefits do I get from joining you?"

Han Longfei stopped smiling.

If you're willing to join us, I can take some risks to help you create evidence of an 'accidental death' he said with a solemn expression. "I can also secretly arrange an escape truck for you. Our Resistance headquarters is hidden in the East Peak Mountain at the border between the Winter Moon Empire and the Red Maple Empire. You can go there and temporarily settle down and rest for a while to lay low!"

Li Yueming's combat power and potential were extremely terrifying.

The most important thing was that Li Yueming had an irreconcilable relationship with the corporate group.

These two points combine together to form an

Han Longfei naturally had to try to pull Li Yueming into the Resistance camp.

For this, he was even willing to take a considerable risk.

It could be said that the conditions he offered were quite sincere.

After weighing the pros and cons.

"I have another companion!" Li Yueming said.

Hearing this.

Han Longfei's serious expression gradually eased. He smiled and said, "No problem. Welcome to the Resistance!"

The two of them shook hands.

Han Longfei took out an iron medal from his pocket and handed it to Li

Yueming. "This is the token of our Resistance. Of course, it's best if you don't expose this thing in a city ruled by a tycoon. After all, our Resistance is hated by everyone no matter which city we are in..." Li Yueming took the medal.

He rubbed it in his hand for a moment.

This thing should be made of pure iron. There were spots of rust on it, and it looked rough and old.

If one looked carefully, there were some blurry marks under the rust.

However, it was a long time ago.

Therefore, he couldn't see the exact content on it.

However, for some reason.

Li Yueming felt an inexplicable sense of familiarity.

Was it an illusion?

Seeing that he was deep in thought.

Han Longfei hesitated for a moment before saying, "Uh... I have two questions.. Do you think it's convenient to answer them?"

Chapter 188: Li Yueming's Death Certificate?

Hearing this.

Li Yueming finally came back to his senses. He raised his eyes and said, "You ask me about the court!"

Han Longfei did not stand on ceremony and asked directly, "I have to confirm two things. First, how old are you now?"

When he asked this question, Han Longfei felt a little nervous for some reason.

Talking about this topic.

Li Yueming touched his nose and said, "Although it sounds unbelievable, I'm not even seven years old yet!"

I'm still not seven years old So, he was six years old?

Han Longfei sized up Li Yueming.

The current Li Yueming had a slender figure and was nearly 1.7 meters tall. He was basically no different from an adult.

Damn it.

Genetic mutation at the age of six?

Although Han Longfei was already mentally prepared, when he heard Li Yueming's confirmation, he still felt a little speechless.

He thought about it.

Han Longfei tried his best to organize his words and said, "That's why it's convenient for me to know that you're in Yunxiao Group's laboratory..." What kind of experiment is it?"

Hearing his question.

Li Yueming instantly understood why Han Longfei asked these two questions.

Everyone knew.

All these years, the Yunxiao Group had been doing genetic research.

And Li Yueming was the experimental subject that escaped at this time.

In order to capture him.

The Cloud Sky Corporation had almost turned the entire N City upside down.

Therefore, Han Longfei asked so many questions to confirm if Li Yueming was one of the unstable factors in Yunxiao Group's laboratory that had undergone genetic modification.

Regarding this.

Li Yueming did not answer directly.

Instead, he threw back another question, "Would you believe me if I said that I escaped before the experiment officially started?" Han Longfei sized him up.

He hesitated for a moment before shaking his head.

Nonsense, he was not stupid.

How could a normal person be six years old and 1.7 meters tall?

Seeing this, Li Yueming couldn't help but laugh, "Isn't that enough? Don't know too much. It's not good to know too much. Just know that I won't lose control!"

In the middle of the battlefield.

The City Defense Army took out all the large-caliber weapons they could muster.

They bombarded the underground arena.

Half an hour later, Professor Cheng, who had 'resurrected' from the dead, arrived with more people from the Cloud Sky Group headquarters.

The underground arena had been physically leveled.

That was not right.

It was not accurate to describe it as razed to the ground.

To be precise, a deep pit of more than ten meters was blasted into the entire underground arena.

Almost all the buildings were turned into powder by the high temperature and explosion.

He looked at the countless pieces of rotten meat around him, as well as the white flames that were still burning on the ground.

Professor Cheng's face was so dark that it was almost dripping with water.

“What's going on?” Where are the Experimentals?”

Hearing this.

A captain of the City Defense Army walked up and bowed proudly. “Sir, the Experimentals have been killed! We've used the heavy Phosphorescence Bullets and Laser Impact Bullets to clear the entire arena. I guarantee that not even an ant will be able to come out alive!!”

Professor Cheng's face twitched.

After taking a few deep breaths, he said with a cold expression, “When did your City Defense Army become so capable?”

Hearing this.

The captain of the City Defense Army seemed to be even more proud. He straightened his body and said, “Sir, heavy firepower is the forte of the City

Defense Army of N City!”

Professor Cheng stared at the captain for a long time.

He didn't see any problems.

A moment later, he suddenly asked, “Where's your City Lord?” There should be a transfer order to gather so many City Defense Army soldiers, right?”

But before he could denounce him, Han Tianlong squeezed out from the crowd.

“Professor, I've already told them that the City Defense Army will follow your orders!

”

Professor Cheng recalled the previous orders.

In a moment of desperation, he seemed to have said that he would mobilize all his strength, regardless of life or death.

He almost couldn't catch his breath.

Professor Cheng glanced at the City Defense Army and said nothing more.

After all, he did have the intention to kill Li Yueming just now.

Li Yueming had just become a supernatural being, but the ability he displayed was already beyond his imagination.

Under such circumstances, indecisiveness would only lead to irreparable consequences.

Therefore, even though his heart was bleeding.

Professor Cheng tried his best to remain expressionless as he spoke to the

Cloud Sky City soldiers behind him,””Get me the equipment. If you can’t find 0731’s body fragments, pull all of them back to be my test subjects!” He received the order.

More than ten soldiers holding genetic testing machines walked out.

They began to search the surroundings.

A few minutes later.

The soldiers found a few pieces of minced meat and a lot of blood.

He returned to Professor Cheng’s side and said,” Report, after a genetic comparison, it has been confirmed that these are the remains of Experimental 0731!”

He looked at the fragmented body parts in front of him.

Even though his heart was still bleeding.

However, Professor Cheng’s gloomy expression finally eased up a lot.

Without a doubt, Li Yueming’s death was a huge loss for him.

After all, a living Li Yueming was equivalent to an inexhaustible gene treasury.

It would be of great help to his various experiments.

But now, Li Yueming had awakened his extraordinary talent and become an extraordinary person. Moreover, he had just awakened and had already revealed a terrifying combat power.

In this situation where the Experimentals were about to lose control.

It was better to kill him on the spot than to let him escape and cause a backlash.

Now that he could obtain some broken flesh and blood, he could be considered to have made up for some of his losses.

However, for some reason.

Professor Cheng felt that the whole process was a little strange.

However, he couldn’t pinpoint what exactly went wrong.

Chapter 189: Ancient Warrior, Resistance Camp!_1

The smoke in the desert was straight, and the sun was round in the long river. A military pickup truck was driving alone in the middle of the desolate and dilapidated intercity road.

This road was built during the government era more than 300 years ago. It was originally a very wide and unobstructed main road of the city.

But now, under the double erosion of time and yellow sand.

There was only a narrow path left for trucks to travel in one direction.

This was the desert city of the Red Leaf Empire, Wenglado.

According to the records.

More than three hundred years ago, Onlado was one of the most important industrial cities in the north of the Red Leaf Empire.

Later, in the war for power, it became the main battlefield between the government forces and the corporations.

The battle had reached its climax.

The corporations and the government had detonated more than a dozen large nuclear bombs here.

Now.

In addition to a few withered plants on both sides of the road, there were also a few abandoned tall buildings on both sides of the desert that occasionally revealed their corners.

Everything else was buried in the past.

The wheels of the carriage whizzed through the air, bringing up yellow sand, making it look exceptionally desolate.

In the car.

Two resistance soldiers dressed as mercenaries turned around and glanced at the truck's rearview mirror.

After making sure that there were no other vehicles or any random pursuers behind them.

The driver who was driving whistled and said, "It's safe here. You can come out and get some fresh air!"

Hearing this.

In the container behind the car, Sun Ruo tore open the special nano material cloth wrapped around her body.

She stuck her head out with a red face and took two deep breaths. "It's really three layers inside and three layers outside. I'm almost suffocating!"

The Resistance soldier driving in front smiled and said, "This is also to ensure the safety of the two of you. After all, if I don't disguise you three layers from the inside out, how can you escape the inspection of the Yunxiao Corporation?"

Behind her.

Li Yueming also stuck his head out.

When she looked at him, Sun Ruo recalled the intimate contact between the two of them just now.

His expression became unnatural.

After a moment, he came back to his senses and asked impatiently, "What kind of special talent have you awakened? Let me see if it's among the first-rank talents!"

Li Yueming glanced at her and said casually, "Martial Saint of the Wilderness, do you understand?"

Hearing this.

“You haven’t heard of it, right?” Li Yueming couldn’t help but laugh. That’s right. With your limited horizons, it would be strange if you had heard of it!”

Sun Ruo was speechless.

Are you looking down on me?

Are you looking down on me?

In order to make herself look less like a village.

Sun Yue thought for a moment and said, “I’ve never heard of a talent like the Martial Saint of the Wilderness. However, I heard that there were ancient martial art practitioners in the past. Perhaps your talent is related to them?”! When he heard the three words ‘Ancient Martials’.

Li Yueming’s expression changed as he asked, “What ancient martial arts practitioner?”

Li Yueming asked.

Sun Yue’s face turned red again, and she couldn’t help but say, “I heard my father talk about it when I was young. I’m not too sure about the details.”

Hearing this.

Li Yueming rolled his eyes.

Sun Ruo’s parents had been dead for many years. Obviously, this was another topic that could not be answered.

He ignored Sun Ruo.

Li Yueming looked at the desert behind the pickup and said, “What is this place?”

There were two rebel mercenaries in front of the pickup truck.

The driver on the left-hand side was called Takagi, and the co-driver on the right-hand side was called Takata.

They were twin brothers and were responsible for the exchange of supplies between East Peak Mountain and N City.

Of course, this was only his secret identity.

On the surface, they were all drivers who transported military supplies to N City.

There had never been a peaceful unification between the corporations. The operation and expansion of capital required a large amount of resources and land.

Moreover, with so many military supplies and new weapons produced, there had to be a place to show off.

Thus, the flames of war had never ceased for hundreds of years.

During this period, many corporations were annexed, and many corporations were disintegrated by the rising stars.

In the ups and downs, only a few top corporations with key core technologies were able to watch the world with a smile.

In front of those old tycoons.

The Yunxiao Corporation could barely be considered half a first-class financial magnate.

It was also because of this that the competition between the Cloud Sky Group and the surrounding corporations had never stopped.

Recently, the war with the Northern Hurricane Group had been tense.

Han Longfei also took this opportunity to transport Li Yueming out of N City.

Hearing Li Yueming's question.

Gao Ji, who was driving, replied, "This is the Onlado Desert, which belongs to the edge of the Cloud Sky Group's control. As long as we pass through here, we will reach the southern part of Mount Dongyue. When we pass by, we will pass by a small town. You can get off there and wait for the people from the

Resistance Headquarters to pick you up!"

The two brothers were the kind who were more carefree.

It was more Doonsn to speak straightrorwarcly.

However, Li Yueming didn't dislike it. He nodded and climbed out of the box.

He stretched his body.

He opened the military green canvas covering the back of the pickup truck.

Li Yueming looked around and said, "How many days is the journey?"

Beside him, Takada, who was sitting in the front passenger seat, added, "In order to avoid being searched, we took a deserted road that is not within the scope of control...If everything goes well, we might be able to arrive in ten days. If it doesn't go well, it will be more troublesome.. We might be robbed by scavengers scavengers in the nearby Rogue gathering place!"

Chapter 190: Ancient Warrior, Resistance Camp!_2

"So your boss arranged for you two to drive? Aren't you afraid of being robbed?" Li Yueming asked."

Gao Tian laughed out loud. "To be honest, before we left, Boss told us that you were his bodyguard. He told us to drive as much as we wanted. As long as we're not going to the headquarters of the Cloud Sky Corporation, we can go anywhere! ""

Hearing this.

Li Yueming didn't know what to say.

However, this was also good. The two of them had special identities.

The fewer people who knew their whereabouts, the better.

The pickup truck jolted a few times.

The carriage fell silent.

A moment later.

Gao Ji, who was driving, glanced at the rearview mirror and said casually, "I've heard a little about the ancient martial arts practitioners you mentioned just now!"

Li Yueming looked over.

Gao Ji sorted out his thoughts and continued, "Legend has it that the ancient warriors suddenly appeared more than 300 years ago. They were few in number, but each of them had a powerful body that could not be destroyed by firearms. They also had some extraordinary methods that science could not understand!"

I've seen the various magical aspects of ancient martial arts practitioners. At that time, the Andrei Science and Technology Group, which was just an ordinary technology company, only realized that the human body could become so powerful through some means..."

"It was also because of the appearance of the ancient warriors that the Andrei Science Group began to research the Extraordinary Potion!"

However, under such circumstances, more than 300 years have passed, and mankind has entered the extraordinary era led by the Science and Technology Corporation. However, ancient martial arts practitioners have disappeared silently in the river of time like a flash in the pan, and have never appeared again."

Gao Ji's words were very long.

However, there was also a lot of information contained in it.

According to Li Yueming's understanding, it was the publicly acknowledged history of the game.

The reason why Andre Company developed the Extraordinary Potion was because of the endless wars in the outside world.

But now.

From Gao Ji's words, Li Yueming heard a completely different version.

Andre Company was influenced and inspired by the so-called ancient warriors.

In the end, he developed the extraordinary potion that changed the direction of the world.

This sounded a little unbelievable. However, Li Yueming still smelled something different.

Li Yueming was deep in thought.

Gao Ji couldn't help but smile. "I heard these stories from the elders in the Resistance camp when I was young. Just treat it as a story. I also heard that the origin of our Resistance army is related to ancient martial arts practitioners. Anyway, I don't believe any of this... However, if Little Brother Li awakened the extraordinary talent of the Wilderness Martial God, he might really be a descendant of an ancient martial arts practitioner!"

The two of them chatted.

The army green pickup truck was still speeding along the desert road.

However, Li Yueming's thoughts were a little far away.

Saying that he was a descendant of an ancient martial arts practitioner was probably not the case.

However, it would be interesting if he could find out more about the things behind this mysterious ancient warrior.

Of course, for the current Li Yueming.

The most important goal was to quickly increase his strength.

Although the A-class supernatural being had the ability to protect himself, he was still able to do so.

However, it was still too weak to achieve anything in this world.

At this moment.

Dozens of scavengers in different outfits appeared outside the truck. Most of them were equipped with some bits and pieces of equipment.

He was riding a self-made, tattered modified motorcycle.

He whistled as he followed the military truck and kept looking around. Obviously, he was observing the supplies and security inside the truck.

Regarding this.

Li Yueming did not hold back. He used his martial strength to transform into a huge golden sword and swept it over.

The wild scavengers on the motorcycles were instantly thrown off their feet by the golden sword.

The other scavengers who were interested in the truck immediately became obedient.

Li Yueming, the captain of the security team, was working hard.

The four of them only took nine days to reach the small town that Gaugie had mentioned.

The pickup truck stopped in front of an inconspicuous tavern in the town.

Li Yueming and Sun Ruo got out of the car and said goodbye to Gao Ji and Gao Tian.

As a military supply vehicle, the two brothers obviously couldn't just disappear.

Therefore, after Li Yueming and Sun Ruo arrived at their destination.

They still had to drive the pickup truck to send the remaining supplies to the northernmost battlefield.

After the pickup truck disappeared from their sight, Li Yueming and Sun Ruo turned around and entered the tavern.

It was now three o'clock in the afternoon, and the tavern was empty without a single table of customers.

Therefore, the two of them were more eye-catching when they entered.

At the bar counter.

A middle-aged woman in her thirties was napping.

After hearing the sound, he raised his eyes and glanced at the two of them. “The two guests look a little unfamiliar. Come inside and talk to me!” Under the woman’s lead.

Li Yueming and Sun Ruo came to the small courtyard behind the bar.

Three of the men were playing poker in boredom.

He had yet to enter the room.

A young man in his twenties complained, “Ace of Hearts, we’ve been waiting here for two days. When will the ‘guest’ come? If it were up to me, I would have come back in two days. It would have delayed the training and hunting of our three squads!”

Beside him, a man who seemed to be more mature and looked to be in his thirties reprimanded the young man in a low voice, “I’ll suppress you with a Super W! MO Fei, you brat, behave yourself. This is a mission assigned by the leader.. You can’t be careless!”
