

Maxing MT 241

Chapter 241: Extraordinary Calamity Outbreak, The Arrogant Li Yueming!_5

Neutral City, Beiluo City.

In an old church, the priest finished his last prayer in the middle of the auditorium.

Then, he closed the scripture and left the church with the book.

Below the church, hundreds of corporate representatives with different expressions waited patiently.

About ten minutes later.

A familiar yet unfamiliar figure appeared at the entrance of the cathedral.

The man was tall and slender, and his hand that was holding the umbrella was fair and bony.

He was still wearing the strange mask that everyone hated and loved.

The stars and the moon echoed each other, shining brightly under the candlelight of the church.

Li Yueming glanced at the time on his watch and then looked at the pouring rain outside. He revealed a harmless smile and said, "I'm sorry, I didn't expect everyone to be so punctual!"

As he spoke.

He put down the black umbrella in his hand and inserted it into the locker outside the church.

He walked through the long aisle and stood on the prayer platform in the center of the church.

This church was really too old.

There was no accurate satellite location on the map. One could even hear the creaking sound of the ground when they stepped on it.

But even so, it still couldn't suppress the powerful aura of the countless corporate representatives in the church.

They sat below.

This old church was as solemn as the highest meeting hall of the council.

Li Yueming glanced around.

Behind him was a sculpture of a woman with two faces.

This woman was a twin, born with two completely different faces.

He was the God of Punishment and Compassion in the church's teachings.

The sculpture was very old.

However, the woman's face in the sculpture was still lifelike.

Half of his body was bent over, and his face was filled with sorrow and anger as he silently watched everyone.

After a long while, Li Yueming smiled and said, "You guys seem to have a problem with me?"

In the church.

A corporate representative stood up and said, "If I remember correctly, we signed an exclusive sales agreement back then, right? Why are the Extraordinary Potions you're selling everywhere now? If we don't even respect the basic agreement, what is the basis for our cooperation?"

Back then, Li Yueming had set up shell companies all over the place and was related to hundreds of financial groups.

However, on the surface, all the contracts he signed were exclusive sales agreements.

That's why.

Many corporations mistakenly thought that his production speed was not too fast.

That was why he had only signed an exclusive agreement with them.

But now, ten years had passed.

Many corporations thought that they had won.

However, when he went out to take a look, he discovered that the Extraordinary Potion had long been overflowing.

Li Yueming was really unlucky.

He actually sold hundreds of millions of Extraordinary Potions!

This led to a very uncomfortable consequence. Many consortiums who had been injected with the new version of the drug thought that they could occupy vast territory in just a few months.

However, when they started fighting, they realized that there were 'allies' everywhere who had also been injected with the new version of the supernatural potion.

As a result, after advancing two cities, they would encounter 'allies' who were also fighting for food.

Therefore, he had no choice.

Now, he saw the instigator, Li Yueming.

Only a group of corporations who felt that they had been played would be so angry.

Li Yueming shrugged and said innocently, "Wait a moment, let me look for it.. " As he spoke, he took out a crumpled piece of paper from his pocket. He picked it up and looked at it before asking, "What consortium are you from?"

The furious consortium representative was stunned. He didn't expect Li Yueming to not even remember the name of their consortium.

The flames in his heart burned even more fiercely.

It was not easy to calm down a little.

The consortium representative squeezed his voice out from between his teeth. "Jin City Group..."

Hearing this, Li Yueming took the paper and compared it for a moment before he raised his head and said, “‘I signed an exclusive purchase agreement with you for ‘Extraordinary Potion No. 103426’. Is there any conflict with the exclusive agreement for ‘Extraordinary Potion No. 103425’?”

The representatives of the various financial groups were speechless.

Although they already knew that Li Yueming was going to cheat.

However, he did not expect this guy to have prepared such a move.

It wasn't that they didn't raise doubts about this at the beginning, but Li Yueming told them that the serial number in front was the name of the Extraordinary Potion.

However, from the looks of it now.

How was this a name?

It was clearly a perfunctory way of not even bothering to give a name! !!

If it was any other time.

The corporations were being played like this.

By now, they would probably have already made a big fuss.

But now, he was facing Li Yueming.

However, many corporations did not have the confidence to do so.

After decades of hard work, Li Yueming had already completely tied them to the chariot.

Now that Andre Company had cut off another source of the supernatural medicine, many corporations could only rely on Li Yueming to provide the supernatural medicine.

Therefore, he had no choice.

After a short period of rage, he felt helpless.

In the end, the venue went back to normal.

The representative of Hurricane Group stood up and said, “‘We only have one question now. How many parameters does your Extraordinary Potion have?

Can it meet the needs of war?

Obviously.

To them, this was the most important question.

Now that war was inevitable, they had to face the Andrea Group, which had stood at the top of the food chain for more than 300 years.

If Li Yueming dropped the ball at this time, the consortium would probably tear him apart.

He looked at the anxious corporate representatives.

Li Yueming smiled.” Good question. I'm never one to make empty promises. Therefore, the production of all Extraordinary Potions will be doubled during the upcoming war! “‘

Hearing this.

The corporate representatives heaved a sigh of relief.

He paused.

Before they could interrupt and ask.

“Also, I have prepared a big surprise for you!” Li Yueming continued.” As he spoke.

Li Yueming turned around and took out three metal suitcases from the base under the feet of the God of Punishment and Compassion.

Then, he casually threw it on the table.

Chapter 242: The Sinful Li Yueming

In the old church, the dim candlelight was like a flickering star.

Many corporate representatives looked at the three gray metal boxes on the table and couldn't help but swallow their saliva. Their eyes revealed curiosity and desire.

A corporate representative stood up and asked, ””What's in here?”

On the surface, they were angry at Li Yueming's dishonest behavior.

But in reality, the consortium representatives weren't afraid of Li Yueming's tough stance.

She was afraid that he would show his cowardice.

After all, in the past ten years, although they had only met Li Yueming a few times, the Extraordinary Potion was like an invisible giant net that had long connected them.

At this moment.

Even if the corporations didn't want to admit it.

However, they had to admit that they had really fallen into Li Yueming's trap.

Li Yueming was simply and crudely wrapped in the same tank with the help of the Extraordinary Potion.

And the most important thing was...

Even if they were schemed against and coerced, they were still convinced. Pain and joy.

After all, although they had played tricks on the so-called exclusive purchase agreement.

However, he had really provided them with hundreds of millions of extraordinary potions in the past ten years!!!

That's why.

That was why they were able to have such a large number of supernatural beings after a short ten years of development.

He used this opportunity to launch a war and defeat his opponent, who was once on par with him.

They had occupied a huge amount of land and plundered a considerable amount of wealth.

Under such circumstances.

The representatives of the corporations naturally did not come here to argue with Li Yueming about the loopholes in the terms.

Instead, he wanted to figure out how much confidence Li Yueming could provide them in this war.

It was only because they were not confident that the group of corporate representatives would be so anxious.

They were most worried that Li Yueming would not be able to provide enough support.

As a result, they were unable to move forward in the following war and were pressed to the ground until they died.

If he wanted to make a living under the Alliance, which was supported by the Andre Financial Group, the Extraordinary Potion was naturally necessary.

If there were other hard currencies, then the more, the better.

Fortunately, Li Yueming did not disappoint them.

The first thing he did was to publicly announce that the supply of all Extraordinary Potions would be doubled.

This had already given the representatives of the corporations a shot in the arm.

It was enough to appease the anger of most consortiums.

In addition, Li Yueming seemed to have other skills.

At this moment, although they still did not know what was in the three boxes in front of them, they still had a lot of questions.

However, since Li Yueming dared to call it a big surprise, he was not afraid of it.

It shouldn't be too bad.

Immediately after.

Under everyone's gaze, Li Yueming slowly opened the first box on his right.

Everyone looked at the wall of the box and found that there was a neat row of potions inside.

Li Yueming glanced at everyone.

At this moment, many corporate representatives had different expressions on their faces.

Some people scratched their ears and cheeks curiously, while others looked around in confusion.

He paused.

After all the representatives had seen the contents of the box.

Only then did Li Yueming calmly introduce, "Let me introduce you. This is an upgraded version of the third-generation Extraordinary Potion. The success rate of awakening can reach 30%, and the mortality and disability rate after awakening failure is reduced by half compared to the second-generation potion."

After hearing his introduction.

Instantly, the hundreds of corporate representatives present revealed shocked expressions.

Someone even cursed, “F * ck, really?””

Regarding this.

Li Yueming replied directly, “Of course it’s real. You can take it back and test it out first. After confirming that there’s no problem with what I said, come back and find me!””

After hearing the confirmation.

The group of corporate representatives immediately stopped pretending.

They all surrounded him excitedly.

He wanted to take a closer look at what was so special about the third generation of the new Extraordinary Potion that Li Yueming mentioned.

The success rate was 30%.

Although it was only a 10% increase compared to the previous generation of potions.

However, if this 10% probability was placed on a huge base number... It was a terrifying number.

Originally, 100 million bottles of Extraordinary Potion could only awaken about 20 million Extraordinaires.

Now, the same 100 million bottles of Extraordinary Potion could awaken about 30 million Extraordinaires.

There was a difference of 10 million!!

What kind of concept was this?

In short.

The Extraordinary Potion in Li Yueming’s box was even more terrifying than the awakening rate of Andre Company’s VIP Potion!

He finally came back to his senses.

The representatives of the corporations were instantly in an uproar.

The candlelight in the entire church became misty and dazed because of their argument.

After a moment of intense discussion.

Finally.

One of the corporate representatives couldn’t help but stand up and ask, ‘ “Dear Star Moon, how’s the production of the new third generation drug?” After seeing Li Yueming take out the real thing.

Even the way they addressed each other became much more respectful.

In such a world.

He had mastered strength and technology at the same time. He was a well-deserved powerhouse.

Although the corporations didn’t know how powerful Li Yueming was, they knew that he was an S-class supernatural being.

In addition, he controlled the supply chain of the new version of the Extraordinary Potion. He had already transformed into a superior that they needed to befriend and cling to..

Chapter 243: The Sinful Li Yueming (2)

Li Yueming didn't feel much about this. He said lightly, "The production of the third-generation drug is not as good as the second-generation drug for the time being. I can provide you with 1,000 vials every month!"

After hearing this message.

The representatives of the corporations were stunned for a moment before they began to boil over.

Originally, they would be provided with 1,500 bottles of the second-generation Extraordinary Potion every month. Now, after Li Yueming promised to double it, it would be 3,000 bottles.

In addition, there were 1,000 third-generation Extraordinary Potions.

Every month, it was the supply of 4,000 potions.

It could be said that this number had already far exceeded their psychological expectations.

At the very least, they would not have to worry about not being able to replenish their high-end Extraordinaires in time when they faced Andre Company and its consortium alliance.

The most important thing was that Li Yueming's 'production is not as good as the second generation', which meant that the production of these potions might continue to increase.

To them.

It was indeed a huge surprise.

However, before they could smile and heave a sigh of relief.

In the church.

Li Yueming slowly opened the second box on his right.

The silver-gray box was also filled with bottles of potions.

Li Yueming looked at all the representatives of the corporations and revealed a very playful smile. He said, "This is version 1.0 of the Transcendent Gene Potion. After injecting it, it can help a Transcendent to complete some of their genes and make up for the genetic defects of an awakened Transcendent."

"It can strengthen the control of supernatural beings over their talents to a certain extent."

"Furthermore, there is a 10% chance of awakening a supernatural being for the second time, allowing the supernatural being to have two different talents at the same time!"

“However, the production of this thing is currently relatively rare, so... Every single one of them is extremely precious!”

Hearing Li Yueming’s statement.

The representatives of many financial groups could not believe their ears.

After injecting it, it could complete the genes of the supernatural being and there was a certain chance that the supernatural being could control two different talents at the same time?

Wasn’t this the Extraordinary Fusion Potion that Andre Company had always regarded as a treasure?

Could such a heaven-defying potion be replicated?

Moreover, from Li Yueming’s description, this transcendent gene serum seemed to have a better effect than the ordinary transcendent fusion serum that Andre Company had produced.

The imitation version was better than the real one.

If it wasn’t for the fact that many corporations had seen Li Yueming’s strength in the past few years, they would have been able to defeat him.

It was probably going to explode by now.

But even so.

He looked at the thin and seemingly harmless figure on the cathedral.

Under the illumination of the burning candlelight.

The two distinct faces of the Goddess of Punishment and Compassion seemed to have lowered their heads at the same time, looking down at the figure under their feet.

Her compassionate face looked a little strange.

Punishment’s face was twisted and ferocious.

For some reason.

In a trance, many corporations seemed to vaguely see a demon.

He was waving an ominous blade and extending his demonic claws to the entire world.

He finally came back to his senses.

The group of corporate representatives swallowed their saliva.

He asked with a hint of nervousness, “So these gatherings...No, what was the production rate of the 1.0 version transcendent gene drug, and what was the price?”

Li Yueming stood under the statue and spread his hands. ““The total production of these potions is less than 1,000 per month. As for the price...The highest bidder wins! ”

After hearing the answer.

The corporations looked at each other, and the shock and excitement in their eyes faded slightly.

After all, 1,000 potions sounded like a lot.

However, compared to the tens of millions of supernatural beings behind the consortium, this number was only a drop in the ocean.

Therefore, this potion was only available to a very small number of Extraordinaires.

If he injected this potion into a powerful supernatural being, he might be able to greatly increase his strength.

The symbolic meaning of the impact on the overall situation was greater than the actual meaning.

After all, Li Yueming was able to take out the gene serum at this critical moment. His scientific and technological foundation might not be as bad as imagined.

At least from the attitude he had shown so far, it would not be a problem for him to compete with Andre Corporation.

The first meeting between the representatives of the corporations since the war began ended here.

Li Yueming's third box contained forbidden items that he had studied using the bodies of the death row prisoners in the Resistance camp.

In short, it was the upgraded version of the Yunxiao Group's genetic warrior project.

He injected the drug into it.

It could allow Extraordinaires to become super soldiers and sweep across the world.

However, Li Yueming only provided them with a batch of potions that were said to be unstable.

Let them use it as they see fit.

Under such circumstances, the Transcendent Calamity erupted into the second stage.

The entire world's order was in turmoil as countless supernatural beings stepped forward.

The flames of war burned the entire world.

As the instigator of this extraordinary war that had shaken the entire world's order.

However, he didn't feel much about it.

Call him cold-blooded or selfish.

Those who achieved great things often had thrones piled up with corpses under their feet.

After all, only children liked to fantasize about a perfect plan.

He could achieve his goal perfectly without bleeding.

After all, when one group of people benefited, another group of people would be offended.

Ordinary people were the ones who wavered between offending people and not offending people..

Chapter 244: The Sinful Li Yueming (3)

They could only be ungrateful and do nothing for the rest of their lives.

This world needed a raging war to completely burn everything in the past to welcome a new life.

For Li Yueming.

There were only two ways to start a world war.

The first was to push the resistance to the surface and let them declare war on the corporations.

It was also a mountain of corpses and a sea of blood.

The second method was to involve the corporations in the war by controlling the extraordinary medicine.

They fought and bled each other.

In the end, when both sides were tired, they would reap the benefits.

There was no need to say much about the choice between the two.

Of course, in this process, as the person who was in charge, it was only natural for Li Yueming to obtain some benefits that he needed.

In the next few years.

The war between the alliance led by the Andre Group and the New Order Alliance was getting more and more widespread.

The entire Western Continent and the Northern Continent were engulfed in the flames of war.

Even those who were originally prepared to remain neutral had no choice but to stand up and join the war.

Overall.

On the surface, the New Order Alliance was half as strong as the consortium under the Andre Group.

However, the New Order Alliance was already prepared for this war.

Therefore, in the first few years, the New Order Alliance did not show any signs of decline.

On the contrary, I have gained the upper hand and attacked the city.

However, as time passed.

Andre Company's supernatural medicine was gradually in place, and many corporations came back to their senses.

This war began to fall into a tug of war.

In the past few years, the Resistance camp had become extremely low-key.

Because Hurricane Group and many other corporations were caught in the flames of war, the coalition of corporations that had originally helped Cloud Sky Group eliminate the resistance army naturally dispersed.

Because they were in a hurry, many soldiers did not even have time to bring their luggage.

Hence, he decided to do it.

The resistance army naturally occupied the cities left behind by the alliance army.

Although their forces did not seem to have changed much on the surface, they were still very powerful.

However, in reality, the population and the size of the city had quietly doubled!

Although the Cloud Sky Corporation was embarrassed and angry about this, it was still a pity.

However, they were already afraid of the resistance.

He could only pinch his nose and admit that he was unlucky.

They also hoped that the Resistance Army would not take advantage of the situation to take their cities.

After all, although the Cloud Sky Corporation had suffered a great loss, it was still a huge loss.

But a centipede dies but never dies.

Don't forget that the Yun Xiao Corporation's best black technology was the gene serum.

If he was really forced to the point of no way, the power that erupted from a desperate fight could not be underestimated.

Fortunately, the Resistance seemed to be wary of this.

After occupying the cities left behind by the alliance of the financial groups, they withdrew their troops and did not continue to provoke the Yunxiao Group, which was already a little crazy.

However, because of the war.

The scientists of many financial groups were affected.

Many scientists were homeless and could only rely on the powerful financial groups.

Under such circumstances.

The Rebellion Army had dispatched a team of tens of thousands of supernatural beings.

They traveled to many war-torn places to search for these displaced scientists.

And bring them back to the Resistance camp from all over the world.

A large number of scientists arrived at Kandor City.

The resistance camp first allocated the best housing and high salaries to the scientists.

There were also people in charge of attacking it.

For example, if a scientist had a family, the resistance camp would promise to help them find their family.

For example, if a single scientist wanted to get married, the Resistance would take the initiative to introduce them to young girls from various cities.

For example, the Rebellion Army would give Li Yueming the problems that they couldn't solve at the moment.

Such a combination of punches came down.

Basically, not many scientists could resist it.

In just a few years, he had adapted to life in the Resistance camp and became a member of the Resistance.

It could be said.

The Resistance had been keeping a low profile all these years.

However, he was never getting stronger.

Especially with the addition of this group of scientists, it accelerated the development of science and technology in the Resistance camp.

Inside the Kandor Extraordinary Laboratory.

Li Yueming was currently checking the various records of the perfect gene serum.

During this process, Han Bufan arrived.

Now, he was the leader of the Resistance camp in name.

Li Yueming was the Deputy Chief.

He looked at Li Yueming in the lab.

“What do you plan to do next?” Han Bufan asked.”

Li Yueming flipped through the various records of the drug and replied casually, “What do you think I will do?” Han Bufan looked around the laboratory.

Now.

The extraordinary laboratory in the Resistance camp was the unit with the highest level of confidentiality in the entire Resistance camp. Even if it was him, he had to go through several procedures to enter.

It took less than twenty years.

The Resistance Army under Li Yueming’s leadership had already become the overlord of a region.

Now.

The Rebellion Army already had more than four million regular combat troops under their command, and the number of people under their rule was more than two hundred million.

The number of supernatural beings had reached a terrifying 100,000.

Under his leadership, the previously unremarkable Kandor Extraordinary Laboratory had also become more and more terrifying.

Whether it was the scale or the number of scientists.

Even if he was one of the top existences in the entire world.

Seeing all of this.

Even Han Bufan had to admit that he had underestimated this young man.

Originally, according to his expectations.

Even if this young man was a genius.

It should also take decades to grow.

Who knew that Li Yueming would be so unreasonable?

He cut through all the thorns along the way.

Even he hadn't fully recovered from his shock.

In the blink of an eye, Li Yueming had already become the leader of a superpower.

And according to what he knew.

The extraordinary war that was raging in the outside world was also related to this young man in front of him.

Thinking of this...

Han Bufan's face revealed some worry.

A moment later, he sighed and said, "Accumulate strength and then harvest the entire world?"

He was one of the few existences who knew the whole story.

Looking at it from the overall perspective.

Han Bufan could easily guess Li Yueming's current plan.

However, after hearing his answer.

Li Yueming only chuckled a few times and said, "I rarely make any comprehensive plans. I usually go with the flow and take one step at a time."

Han Bufan sighed.

After thinking for a while, he said, "Sun Ruo, that girl, is back. She seems to be injured. Do you want to go and take a look?"

Hearing this.

Li Yueming was startled for a moment before he regained his senses.

A few years ago, Sun Ruo left the Resistance after confirming that he had no intention of coming into contact with them.

When he left.

She said that she was going out for a walk.

However, Li Yueming knew that the other party had gone out to investigate information related to ancient martial arts practitioners.

As for the reason...

It was very simple.

Sun Ruo accidentally flipped through some of Li Yueming's research records.

He knew that Li Yueming seemed to have been tracking the traces of the ancient martial arts practitioners.

This girl was smart.

Therefore, she quickly connected what Li Ming had told her to the ancient martial art practitioners of the moon.

Just as she said.

No matter what Li Yueming was pursuing, she would never give up.

If Li Yueming didn't want to tell her, she would go and find him herself.

She wasn't joking about these words. She really put them into action.

Back then, he received the news.

Li Yueming only sighed.

There was no way to stop him.

He could only secretly send some people to protect her.

Now that so many years had passed, this silly girl finally knew to come back.

Chapter 245: The Hero of a Hero Drinks the River Moon, It's Hardest to Enjoy the Grace of a Beauty

In the darkness, the incandescent lamp flickered.

Under the old and mottled eaves, several fat rats were hiding in the dark corners, gnawing on something.

The man shuffled through the alley, his footsteps gentle and steady.

The old-fashioned posters and small kraft paper advertisements on both sides of the street always reminded people of the previous era.

The rough and wrinkled walls of the house were filled with the marks of time.

This was the Laocheng District of N City.

It was also the place where Li Yueming had briefly stayed.

Passing through narrow and dark alleys, the ancient buildings on both sides were like ant nests.

In the end.

Li Yueming stopped in front of a dilapidated house.

Ever since the Resistance took over N City.

The old residential area in the west of the city was planning to be demolished.

This place was really too rotten, like a place that had long been forgotten.

Not only were the houses rotten, but the public security was also rotten. All kinds of public facilities had long been completely rotten.

It was said that the oldest residential area in the west of the city could be traced back to the government's era 300 years ago. It was a relatively sturdy demolition and relocation house.

After more than 300 years of exposure to the elements.

The people who lived inside had been stitched up countless times, and the house had long become a stitched monster full of scars and patches.

Even now, the residents inside were still using the public toilets to take cold showers.

After the Resistance took over N City.

Soon, the request for the city's reconstruction was approved.

They planned to demolish all the buildings in the west of the city and use the latest technology to build new houses for the residents.

Therefore, most of the people who lived here had moved away in the past two years.

Currently, there were only rats and cockroaches in the west of the city.

There were barely any figures to be seen.

As for Sun Ruo, she didn't go to Kandor after she was injured.

Instead, she returned to N City with a body full of injuries and moved into the old house where the two of them had temporarily lived in the past.

At that time, Li Yueming was being pursued by Yunxiao Group.

In order not to be discovered by the omnipresent surveillance cameras, Li Yueming could only choose the most inconspicuous old house in the west of the city to stay.

And now.

The old house was left with only a dim yellow light in the dark.

She walked up the stairs to the door. "Dong dong dong..."

Li Yueming knocked on the rusty iron door.

A rustling sound came from the room.

About two minutes later, Sun Ruo appeared behind the door with a pale face.

It had been seven or eight years.

Sun Ruo had completely shed her childishness.

Her delicate oval face was covered in mist, and her wine-red hair was wet.

Her fair collarbone looked very beautiful, and her chest moved up and down.

Compared to before, it was much plumper.

Although she was wearing ordinary clothes, it was obvious that she had just taken a shower. Her face without makeup was like the most translucent white jade in the world.

In the two reincarnations.

Li Yueming had seen beauties before.

Especially the second martial world.

As his first wife, Ye Nanyuan was also the most outstanding among the beauties.

Especially his star-like eyes and the eye-catching beauty mark below them.

He was careless.

It was as if he would be intoxicated by it.

However, Sun Ruo's wine-red hair and fair collarbone were also extremely special.

When they first met in the petri dish, Li Yueming had paid special attention to her waterfall-like hair.

Back then, she was soaked in the solution.

She was like a mermaid from the exuding a beauty that was like a work of art.

In a trance.

Li Yueming finally came back to his senses. He looked at Sun Ruo and said, "Aren't you going to invite me in?"

Sun Ruo had a complicated expression. He looked at Li Yueming and said, "How did you know I was here?" Although her tone was very cold.

However, the fluctuations in his pupils could not be hidden.

Li Yueming smiled and said casually, "There are many things in this world that can trouble me. But if I don't even know where you're going, I don't need to live!"

Sun Ruo rolled her eyes.

The iceberg-like temperament on his body had also dissipated a lot.

He took two steps back.

She opened the door and let Li Ming in.

The room was no different from before, except for some women's clothes and accessories.

Li Yueming saw many bandages that were still stained with dark red blood in the trash can. He frowned and said, "Are you seriously injured?"

According to the information he had obtained.

When Sun Ruo went out, she was targeted by a large group of scavengers in the Onlado Desert.

In order to capture Sun Ruo, the other party had even dispatched an A+ class supernatural being.

Finally, under the siege of a group of scavengers.

Sun Ruo was slightly injured.

It took some effort to escape back to N City.

But that was two months ago.

After receiving the news.

Li Yueming even asked Team Zero to pay attention to it.

At this moment, the grass on the graves of Wengladuo's large group of scavengers was almost three meters tall.

Logically speaking, Sun Ruo's ordinary external injuries should have healed long ago.

However, the blood in the trash can made Li Yueming's heart skip a beat.

Could it be that it wasn't just a superficial injury?

However, before he could think it through..

Not far away, Sun Ruo's face suddenly turned red. She took two or three steps over and blocked Li Yueming's line of sight.

Then, he kicked the trash can under the bed.

"Why do you care so much?" she said angrily."

At first, Li Yueming didn't understand why this girl was suddenly so irritable..

Chapter 246: A Hero Drinks the Moon in the River, It's the Hardest to Enjoy the Grace of a Beauty (2)

However, a moment later.

He looked at the shy young girl and then at the gauze under the bed.

Only then did he come to a realization.

Then, he rubbed his nose awkwardly and changed the topic."What have you been doing all these years?"

He had a rough idea of Sun Ruo's itinerary.

But most of the time, he was too busy.

Therefore, he didn't pay much attention to the details.

Sun Ruo blushed.

Feeling guilty, she kicked the trash can deep under the bed.

"Didn't someone think that I was useless, so he didn't tell me what he was looking for? So I can't investigate it myself?" Li Yueming looked at her.

For some reason, it felt a little funny.

However, he still tried his best to hold back his laughter and said,"So what did you find out?"

When they talked about this topic.

Sun Ruo's expression turned serious.

He closed the door and looked around.

Then, he returned to the bedside and took out a few rusty medals from the cabinet.

Handing it to Li Yueming,"Do you still have any impression of this thing?"

Li Yueming rubbed the medal for a moment and nodded. "The Resistance medal that Han Longfei gave me back then was like this, right?"

Sun Ruo took the medal back.

He handed over another medal with a clearer pattern.

When he went over, Li Yueming looked at the pattern on the medal and felt a hint of familiarity.

Now, after obtaining this clearer medal.

Li Yueming was completely convinced that this thing seemed to have something to do with him.

Because the medal was engraved with a star and a moon.

He rubbed it for a moment.

Li Yueming put down the medal and continued to ask, "Where did you get these things?"

"I got it from a few of the oldest elders in the Resistance camp," Sun Ruo said seriously. "They live in the town at the foot of East Peak Mountain!"

"According to them, these medals are the tokens of the Resistance Army. Legend has it that they were passed down from the hands of ancient martial art practitioners more than 300 years ago. However, only seven of the medals passed down at that time were real. The remaining 99% were imitations by later generations..."

"The seven medals that were passed down were held by seven forces. However, six of those seven forces disappeared in the long river of history for some reason."

"Right now, there seems to be only one real medal that is still out there, but we don't know who has it anymore."

Li Yueming took out the medal that Han Longfei had given him.

"Is this the real one?"

Sun Ruo took the medal from Li Yueming's hand and looked at it carefully. After a moment, he said in surprise, "This... It seems to be true!"

Regarding this.

Li Yueming rolled his eyes.

Sun Ruo looked at it for a long time.

In the end, he was still discouraged. "I don't know either. I only heard the old man describe some characteristics. But more than 300 years have passed, and there are already countless imitations. I guess no one knows if they are real or fake now!"

"That's not necessarily true." Li Yueming smiled.

He put away the medal again.

He didn't continue to ask.

“Other than this medal, what else did you find?”

After all, Sun Ruo was already an A+ class supernatural being.

Even though they had already entered the age of the catastrophe, A+ grade Extraordinaires were still the top fighting force in this world.

Therefore, he had no choice.

Under her determined pursuit.

Perhaps he could really find something interesting.

Hearing this.

Sun Ruo hesitated for a moment and said, “I’ve investigated the traces of ancient martial arts practitioners in depth. However, other than some rumors, I couldn’t find any traces of ancient martial arts practitioners at all.” However, it was obvious that ancient martial art practitioners should have really appeared before. Even if they had only appeared for a short period of time, they should not have disappeared so completely.”

At this point.

Her voice paused, revealing a hint of fear as she said, “I feel like there’s an extremely terrifying hand erasing all traces of the ancient martial arts practitioner’s existence. I’m afraid that it will implicate you, so I don’t dare to continue investigating.”

Hearing this.

Li Yueming looked at Sun Ruo in surprise.

To be honest.

It was already beyond his expectations that the girl could sense this point alone.

One had to know that Li Yueming was now in control of the entire Resistance Army, and he was also a world-class mastermind.

However, the investigation of ancient martial arts practitioners only reached this level.

The other things in the depths seemed to have been erased from the history of this planet.

Not even a trace was left.

However, Li Yueming didn’t find out who did it.

However, it was obvious that he could already guess the truth based on his guess.

After all, in the entire world.

Only a few top corporations could do this.

He immediately got the answer after screening it a little.

At this point.

Both of them fell into a short silence.

A moment later, the girl mustered up her courage and asked, "So what are you looking for? If you don't tell me, I'll continue searching until the sea runs dry and the rocks crumble!" Li Yueming glanced at her.

To be honest.

Sun Ruo really spent seven to eight years running around looking for these things.

This was something he had never expected.

One had to know that a woman's youthful years were like the pear blossoms in March..

Chapter 247: A Hero Drinks the Moon in the River, It's the Hardest to Enjoy the Grace of a Beauty

If he was not careful, he would be crushed into mud by the spring wind.

However, Sun Ruo had spent the best eight years of her life in the illusory past for him.

Without a doubt.

This was a decision that required a lot of perseverance.

Li Yueming closed his eyes.

He wasn't a eunuch, so he also liked beautiful women.

However, he did not like to play with other people's feelings, nor did he like to play with his own feelings.

But now.

Sun Ruo, a woman, was willing to sacrifice herself so recklessly.

If he didn't respond to something, he wouldn't be a man of indomitable spirit.

He thought about it.

He suppressed the surging memories of the past.

"I can only hide what I'm looking for in my heart, I can't tell anyone!" As for the reason, I am also unable to tell you...The only thing I can tell you is that I hope you can live for a long time, until the day you can see the sea of stars!" Sun Ruo was stunned.

Obviously, she had expected Li Yueming to give all kinds of answers.

Moreover, they were all mentally prepared for it.

For example, Li Yueming firmly refused.

Another example was Li Yueming, who avoided her feelings.

However, he never expected that...

Li Yueming actually gave her such an answer.

After thinking for a moment, Sun Ruo smiled. Live like an old woman? I don't want it!"

He looked at her pale face.

Li Yueming was finally moved.

That damned woman, always changing ways to attack his weakness.

It was simply too against the rules.

After thinking for a while, Li Yueming said in a different way, "If you can't live for a long time, then we'll be separated forever, right? I hate losing and parting, so I hope you will never die!"

Hearing this, Sun Ruo was stunned once again.

Apparently, the term 'immortal' was unfamiliar to her.

After a long while, she finally understood Li Yueming's concerns. She thought for a while and replied, "A person's life is like the last bus to death. Some people get on the bus, and some get off the bus. No one can accompany you all the way. Most people are just passers-by in their lives."

"Losing and parting are always painful and confusing... However, she couldn't avoid meeting him just because she was afraid of losing him, right?"

Hearing this.

Li Yueming suddenly felt his soul tremble.

In his previous life.

Because of the will of the Great Path, he ended up empty-handed.

All the people he cared about were buried in that small grave.

That feeling of powerlessness and sadness was like a fish that had come ashore and lacked oxygen.

He flapped his gills hard, but he still couldn't breathe.

This made Li Yueming feel an unforgettable pain.

It was also because of this that in order to avoid repeating the mistakes of the previous life.

He had neither taken in any disciples nor made any friends.

He even pretended not to see Sun Ruo's good impression of him.

He didn't know if it was fate or destiny, but he didn't even have biological parents.

He thought that he could come and leave without any scruples.

He would treat it as a journey that was not considered outstanding in his life.

He looked at the scenery.

When they reached the station, they had to clock in and get out of the car.

But was this really right?

Just like Sun Ruo said.

Losing and parting was always painful and confusing.

However, she couldn't avoid meeting him just because she was afraid of losing him.

Perhaps it was because of various reasons.

In the end, he failed again.

Without leaving behind any means to transcend this world, he could only swallow all the pain and sadness alone.

However, that was still a matter that had yet to be settled.

There was still a glimmer of hope after all.

However, if he rejected Sun Ruo now, he would definitely regret it for the rest of his life.

Since he was going to regret it.

Then why did he run away?

It is most difficult for a hero to enjoy the grace of a beauty when he drinks a cup of wine in the river.

Even Sun Ruo could face her own heart and summon the courage to face it.

What reason did he have to be afraid?

Thinking of this...

Li Yueming finally stopped suppressing the emotions in his heart and revealed his soft side.

He took the initiative to reach out and touch Sun Ruo's hair.

Seeing this.

Sun Ruo, who had a natural expression, stiffened.

After a while, he carefully moved his head and rubbed his fingers against Li Yueming's.

This was already the maximum movement that the girl could do.

In just an instant, dry wood had touched fire.

Li Yueming picked her up and placed her on the bed.

Sun Ruo was at a loss like a quail. After a while, she came back to her senses and said in a panic, "No, no, no...No, not these few days!" "You can fight a bloody battle, right?" Li Yueming laughed."

The next day, Li Yueming woke up on the old wooden bed.

He looked at Sun Ruo, who was like a kitten in his arms.

There was some silence on his face.

To him, after a night of lovey-dovey, he felt a heavy responsibility.

Kemcarnators spent countless years in the reincarnation world.

Outside the reincarnation world.

However, it could only be considered a moment.

Li Yueming didn't want to repeat the same mistake, so he had to be extra careful this time.

He had to arrange a path for Sun Ruo to transcend the small world.

A moment later.

Sun Ruo slowly woke up.

She carefully lifted the blanket and took a look before she said shyly and angrily, "You're really an out-and-out beast!"

Li Yueming suppressed the messy thoughts in his mind.

"Thank you for the compliment. At least I'm not worse than a beast!" The two of them played around for a while.

Sun Ruo's figure had been very good ever since her breasts developed.

Every inch of her skin was as smooth as jade, white and flawless.

This made Li Yueming even angrier.

She suppressed the urge to confess her true love in broad daylight.

Li Yueming was about to bring her to Old Lin's repair shop.

She put on her clothes and tidied up the room.

The two of them walked towards Old Lin's cosmetic repair shop hand in hand like an ordinary couple.

Many residents in the west of the city had left because of the demolition of their old houses.

However, Old Lin's repair shop was still open.

However, due to the closure of the underground arena, the business of the repair shop was not particularly good.

Li Yueming and Sun Ruo held hands as they came to the costume shop.

Old Lin was lying on a chair, listening to music on an old radio.

He could hear footsteps.

The old man opened his eyes and glanced at Li Yueming, then at Sun Ruo who was beside Li Yueming.

She put on her presbyopic glasses and said, "Oh, you're finally willing to come back?"

Chapter 248: The Mastermind Reveals, and the Superhuman Association Appears

Li Yueming's arrival.

Old Lin didn't show much surprise.

He learned about it in the subsequent chat.

Sun Ruo had come to Old Lin's shop a few times in the past two months.

Therefore, he had no choice.

Old Lin had already predicted that Li Yueming would return.

Li Yueming didn't understand what logic Old Lin was using.

However, this did not affect the accuracy of this guess.

After Li Yueming left N City.

Old Lin had already guessed that Li Yueming was the famous mecha warrior in the underground arena.

Later, when he rummaged through the drawers in his studio, he also found a thick stack of self-created blueprints that Li Yueming had left for him.

Old Lin followed Li Yueming's instructions and didn't use it.

After all, the entire N City was searched by the Cloud Sky Group at that time.

The blueprint in Old Lin's hands contained the prototype of the mecha that Li Yueming had worn.

If it was exposed, there would be huge trouble.

Therefore, Old Lin hid all the blueprints in the last drawer of the studio.

In the following two years.

Because the underground boxing arena had closed, the business of the cosmetic store had plummeted.

Old Lin had found another not-so-smart disciple to help him manage the business of the costume shop.

And he himself lived a semi-retired life.

A few apprentices who were with Li Yueming also resigned later. It was said that they went to the northwest to join the new Resistance Army.

There had been no news of him for many years.

I don't know how many teenagers with dreams successfully joined the Resistance.

Of course, it was more likely that they would die on the way.

More than ten years passed.

Old Lin was much older than before, and he looked more like a sloppy old man. His head, which was originally black with white hair, had completely turned white.

The skin on his face had also become even more dry due to his old age.

The only thing that had not changed was his stingy personality.

Li Yueming and Sun Ruo stood in the shop for a long time, but the old man didn't even give them a sip of water.

After chatting for a while.

Old Lin returned the blueprints left behind by Li Yueming to him.

Li Yueming declined.

Old Lin glared at the white beard and said, "Why would you leave this to an old man with half a foot in the grave? My new disciple is not very smart. He can't even learn the assembly of the first two drawers, let alone the more complicated things on your blueprint!"

"Besides, now that the Resistance has occupied the city, the cosmetic industry can be eliminated...'

"Sigh, it's good that he's eliminated. Who knows how many people have been ruined by this thing."

"Your new technology is more reasonable than using machines to replace the body. If you have the ability in the future, remember to promote it more!" He looked at Old Lin, whose face was filled with vicissitudes of life.

Li Yueming could feel that there were some deep secrets hidden in the other party.

However, Old Lin had never asked him about his secret.

Therefore, he didn't want to spoil the mood by asking Old Lin about his secret.

He nodded and took the blueprints.

In fact, to Li Yueming, these slightly immature blueprints were worthless.

However, Old Lin's friendship was a little hot.

Therefore, he carefully put away the blueprint.

Old Lin lay back on his chair and waved his hand. "You guys go do what you should do. This old man wants to listen to music, so I won't keep you guys for dinner!"

He looked at the dilapidated repair shop.

In a trance, more than ten years ago, this was still a slightly famous place in the west of the city.

When the underground arena opened, countless residents in the west of the city would pay attention.

At that time, this place was filled with vitality.

But now, all that was left was the empty old city and a song with an old radio.

Perhaps after everything was overturned.

The Resistance would build new residential areas and high-rise buildings here.

At that time, people would enjoy the convenience brought by technology and marvel at the beauty of the world.

However, there were some memories.

But it only existed in the shadows of the past.

Li Yueming was silent for a moment.

In the end, he turned around and did not look back.

He brought Sun Ruo away from this city, the only place he remembered from his limited memories.

After returning to the Resistance.

Li Yueming went straight back to the laboratory.

Now.

The Extraordinary War that he had personally started had already affected the entire world.

Even the Eastern Continent, where Andre Company was located, had begun to burn with war.

In the eyes of the outside world.

This was a new reshuffle of the world order.

However, in Li Yueming's opinion.

Now, all the corporations that were at war were like leeks in his backyard.

In order to make these leeks grow fatter.

He needed to water and apply fertilizer regularly.

The war between the Andrea Financial Group Alliance and the New Order Financial Group Alliance was in a tug-of-war.

Li Yueming once again dropped a heavy bomb.

3.0 Transcendent Gene Serum.

Based on the research results of Li Yueming's own gene fragment.

It could greatly enhance the control of extraordinary powers of extraordinary people, and the probability of awakening a second talent was higher.

Most importantly...

Li Yueming increased the sales volume.

Therefore, he had no choice.

In less than two years, the battlefield that had gradually stabilized lost control again.

The Extraordinaires of the New Order Alliance seemed to have suddenly turned on a cheat, once again crushing the Andrea Financial Group Alliance.

He was flustered and exasperated.

Andre Group could only reluctantly fork out more money..

Chapter 249: The Mastermind Reveals, and the Superhuman Association Appears (2)

The balance of power between the two sides was restored.

After so much investigation, Andre Company had also locked onto the general area where the supernatural potion was sold.

Currently, they were frantically sending scouts and killers to search for him at all costs.

Just around the Resistance, many unfamiliar faces appeared on the streets and alleys.

If not for the fact that the Resistance camp was special enough.

They had probably been penetrated into a sieve long ago.

But even so.

It was only a matter of time before the Kandor Laboratory was exposed.

Regarding this.

Li Yueming smiled faintly.

She pulled Sun Ruo over and solemnly instructed him on some matters.

After confirming that Sun Ruo knew everything.

Li Yueming returned to the laboratory.

At this moment.

Tens of thousands of world-class scientists from the entire Kandor Extraordinary Laboratory had gathered together.

Ninety-nine percent of the equipment in the laboratory had stopped working.

Now.

All the scientists stopped what they were doing.

All the attention was focused on a glass container behind Li Yueming.

Drops of green liquid fell along the glass wall of the container.

Tens of thousands of scientists were so nervous that they did not dare to breathe.

In the end, the liquid gathered into a thumb-sized tube of green solution in the glassware.

A moment later.

The entire laboratory was filled with cheers.

Looking at the green solution in the glassware, the world's top scientists were all excited.

This was the perfect gene serum that they had worked overtime for decades to develop.

During this period, Li Yueming managed to earn a lot of wealth by selling the Extraordinary Potion.

However, among all this wealth...

However, more than half of it was used to develop this drug.

Countless manpower and resources were spent, and countless rare and precious materials were used.

After dozens of failures.

Finally, under Li Yueming's leadership, they successfully produced it.

Such a perfect potion, even if the production process was repeated according to the same method, the scientists would not be able to get the same potion again.

Li Yueming passed half of the potion to Sun Ruo.

He injected the remaining half of the drug into his body.

In the next second.

Li Yueming started to feel his entire body heating up.

It was as if his entire body was on fire. His blood, bone marrow, and even the genes in his body... They were all burning!

And this pain did not lessen as time passed.

On the contrary, it was getting hotter and hotter.

In the end, Li Yueming even felt as if he was in a furnace.

His entire body was in extreme pain, so much so that even his physical body could not withstand it and began to spasm. He held on to the last bit of clarity in his mind.

Li Yueming waved his hand.

The scientists, who were already prepared, rushed forward.

He placed him into a petri dish made of a huge amount of nutrient solution.

Boundless energy surged over.

He finally suppressed the bone-corroding pain in Li Yueming's body.

But what happened next made all the scientists' eyelids twitch.

There seemed to be a pump in the petri dish.

Countless concentrated nutrient fluids were disappearing and being swallowed by Li Yueming's black hole-like body.

In just a few breaths, billions of nutrient fluids in the petri dish had been burned!

However, Li Yueming's body seemed to be still devouring them relentlessly.

Fortunately, the Kandor Extraordinary Laboratory was already as rich as a country.

Otherwise, with Li Yueming's consumption rate of nutrient solution, he would be throwing in tens of billions of dollars every day. It could probably suck a first-rate financial group dry!

Just like that.

Li Yueming began his long journey of transformation.

For the past five years, he spent most of his time in a deep sleep.

There were only a few times when he could wake up and listen to some simple reports.

After so many years.

Li Yueming once again returned to the petri dish to absorb the nutrient solution.

However, this time was different from the past. He had long escaped the limitations of a low-level supernatural being.

He was preparing for his final battle.

In these ten years.

The intensity of the Transcendent War began to rise sharply.

At the same time, a woman wearing the same Star-Moon mask replaced Li Yueming's position and began to take over with the corporations.

Following the release of the transcendent gene serum 3.0, the gene serum was released.

The tycoons who fought to the death suddenly discovered an extremely terrifying thing.

That was...The Extraordinaires lost control.

This was because the intensity of the war continued to escalate.

The corporations were becoming more and more reliant on supernatural beings.

Moreover, the amount of Extraordinary Potions circulating to the outside world was becoming more and more abundant.

The supernatural beings who had gradually grown up no longer listened to the corporate world. Instead, they gathered together to overthrow the corporate world's rule and establish an era of supernatural beings.

Finally, the third version of the Transcendent Calamity appeared. The out-of-control Extraordinaires began to wage war against the

At the same time, Andre Company finally found the mastermind behind the sale of the supernatural potion.

It was beyond everyone's expectations.

The other party was actually not a financial magnate, but a Resistance Army that had once had a conflict with the Cloud Sky Group.

This news was too unbelievable.

This was because in the imagination of all the consortiums, the existence that could develop the Extraordinary Potion should be a corporation with a deep foundation.

That's why.

All the consortiums, including Andre Corporation, had their eyes on the top biotech companies..

Chapter 250: The Mastermind Reveals, and the Superhuman Association Appears

However, no one had expected that the person behind the development of the new version of the Extraordinary Potion and the instigation of such a large-scale war was actually a Resistance Army that had not even been established for twenty years.

After confirming that the news was true.

All the consortiums broke out in cold sweat!

They finally knew what the problem was.

It turned out that the mastermind behind this war was not the other consortiums they had imagined.

It was the Resistance Army that wanted to kill the consortium the most!

Instantly.

The consortium felt cheated and was furious.

The earth-shattering curses and angry rebukes almost resounded throughout the world.

The exasperated, helpless, and furious corporations began to gather their troops to wipe out the resistance.

But now that the supernatural beings were out of control, many financial groups had been badly battered by the newly established supernatural beings 'organizations.

Although the plan to attack the Resistance Army was very grand, it was not a big deal.

However, if they really fought, they would be weaker. They would not be able to break through the resistance's defense line at all.

There were also various killer organizations that wanted to try the decapitation plan.

However, the leader of the Resistance, Han Longfei, and the deputy leader, Li Yueming, did not give them a chance.

He would stay in the depths of the base every day and never come out.

Transcendence Calendar Year 365.

Extraordinaires began to officially step onto the stage of history. They established an Extraordinaire Association to fight for the rights of

Extraordinaires.

War was the best ripening agent for Extraordinaires.

The decades of war had created billions of Extraordinaires.

Many of them even had two different talents.

After they rebelled against the consortium, their power quickly expanded to an unprecedented level.

The corporations were almost single-handedly pressed to the ground and hammered.

Even Andre Company was almost implicated. In the end, it was the legendary SSS-class ancestor who came forward to stop the group of newly grown superhumans from attacking them.

However, the other consortiums were not so lucky.

He had suffered a lot in the battles with supernatural beings, and many battles were one-sided.

Extraordinaires attacked cities and occupied many cities that originally belonged to corporations, and they began to establish themselves as kings.

The world order that was originally dominated by the tycoons was also on the verge of collapse under the impact of the supernatural beings.

It was about to become a thing of the past.

Of course.

The newly grown Extraordinaires had yet to solve a problem.

That was the source of the Extraordinary Potion.

After all, the probability of supernatural beings awakening on their own was less than one in ten thousand.

He wanted to stand up and become the new master of this world.

It was absolutely impossible for Extraordinaires to awaken on their own.

He had to master the production method of the Extraordinary Potion or the channels of obtaining it to ensure that it had a steady stream of fresh blood.

After a short test.

They temporarily gave up on Andre Company.

After all, the other party had an SSS-class ancestor guarding them.

The superhumans who had grown up in a short period of time did not dare to make a move against him.

Then, the only remaining producer of the Extraordinary Potion would be the Rebellion Base.

Moreover, the Resistance base had always been low-key.

It had been established for a very short time.

It was much easier to control than Andre Company.

Therefore, after gaining a firm foothold.

The Association of Extraordinaires sent a representative to the Rebellion Army camp to talk.

It was a conversation.

However, it was actually a one-sided notice from above.

Extraordinaires who thought they had absolute power were extremely arrogant.

They didn't even bother to talk to other forces.

In their eyes, they were noble Homo Evolutis, creatures of a different species from ordinary humans.

Therefore, how could they talk to each other as equals?

There were also three newly grown S-class superhumans in the Resistance camp.

However, in front of the current Association of Extraordinaires...

A few S-class superhumans were nothing to be afraid of.

On this day.

Dozens of S-class Extraordinaires appeared at the same time in the current capital of the Resistance, Kandor.

He looked down at the country below-

I'll give you two options," one of the Extraordinaires said." Either you join the Association of Extraordinaires, or you hand over the production method of the Extraordinaire Potion!"

Below.

Hearing the threat, Sun Ruo looked at the group of rude and arrogant uninvited guests and said coldly,"What if we don't choose either path?"

The few S-class Extraordinaires in the sky raised their eyebrows as if they had just heard the funniest joke."Then just wait to be trampled by our Association of Extraordinaires!"

Another person said bluntly,"If it weren't for the fact that you're still keeping a low profile, we would have long uprooted you like those damn financial magnates and come to find the formula of the Extraordinary Potion ourselves!" He could feel the killing intent from the other party.

Sun Ruo was so angry that she almost laughed. She said fearlessly,"I'd like to see how you're going to flatten our base!"

In the sky, the leader of the S-class superhumans waved his hand.

Looking at Sun Ruo on the ground, he smiled and said," Don't be in a hurry to answer. The Association of Extraordinaires is not unreasonable. Let's make this clear in advance. We can give you three months to consider. After three months, you can give us an answer after you have really thought it through!" As he spoke.

The leader led a group of Extraordinaires and was about to turn around and leave.

Finally, he smiled and said,"However, it's actually all thanks to you that we supernatural beings can have today." Hahaha!"

These supernatural beings came suddenly and left quickly.

He had been looking down from the sky the entire time and had not even stayed on the ground for a second.

His arrogant attitude was evident.

Sun Ruo was so angry that her face turned red. She puffed up her cheeks and shouted, "Forget about three months. Even if you were given three years, don't dream about it...Who gave you the courage?"

The Resistance base was no longer the same as before.

After so many years of development, the number and scale of supernatural beings had long exceeded a million.

Although it could not be compared to the Association of Extraordinaires, which had hundreds of millions of Extraordinaires.

However, it was not that easy to control.

The most important thing was that Li Yueming was still in the Resistance camp!

If they had the guts, they could try.
