

## Maxing MT 261

Chapter 261: Nine metamorphoses, Fish Leap into Dragon, Perfect Genetic Body!\_3

He still needed to make the final preparations.

After Sun Ruo entered the research room, Li Yueming, who was in the glass petri dish, slowly opened his eyes.

At this moment, he had already recovered his human form.

However, there were still various characteristics of monsters on its body that had not faded away.

For example, dragon claws, phoenix feathers, and all kinds of broken patterns.

He looked at Sun Ruo.

Li Yueming's pale golden eyes revealed a bit of complexity. After a moment, he used his spiritual wave to send a message: "The time I can wake up is limited. Release the 5.0 version of the supernatural drug and gene drug in the supernatural laboratory...It's time to end everything!"

Through the glass cover, Sun Ruo caressed Li Yueming's face. After a long time, she slowly nodded and said, "'11 arrange it...But is it really worth it?"

Li Yueming was stunned for a moment before he smiled and said, "'There's nothing worth it! You have to remember that my death doesn't mean that I'm really dead. Perhaps we can meet again one day, but if you die, then we won't be able to meet again!"

"Besides, as long as there's no problem with the transformation, no living thing in this world is my match!"

As he spoke.

Li Yueming's voice was filled with confidence.

Perfect gene serum.

This was his greatest gain in this world.

As long as the transformation was successful.

Even if he died and returned to the reincarnation space, Li Yueming could still enjoy a powerful golden talent!

Under the temptation of this thing.

Even the reincarnation score that Li Yueming had always valued could only be placed in a secondary position.

The two of them exchanged pleasantries for a moment through the glass.

In the end.

Sun Ruo took a deep breath and turned to leave.

In the next five years.

The Rebellion Army camp began to produce the fifth generation of supernatural medicine and genetic medicine.

The fifth-generation Extraordinary Potion had a 50% chance of awakening an ordinary person to become an Extraordinary.

Moreover, the death and disability rate was strictly controlled at around 5%!

As for the fifth-generation gene serum, its effects were even more heaven-defying.

Not only could it allow Extraordinaires to master their extraordinary powers in a more detailed manner, but it could also be used to increase their strength.

There was also a chance that the Extraordinaires could awaken a third special ability.

Of course, this could only mean that the Resistance camp's research and production of various potions had reached the peak.

It didn't mean that the rebel camp could be mass produced.

After all, the Production of Potions could not only consider the effect.

He also had to consider the cost and production.

Therefore, the above information was not the most important.

The most important thing was that these two latest potions were actually being sold outside the Resistance camp...

Moreover, the price was less than one-third of the price of ordinary Extraordinary potions on the market!!!

When I heard the news, I had a lot of money.

Almost everyone thought that the Resistance had gone crazy!

This was the fifth edition of the potion, and all the data was ridiculous.

However, the Resistance camp was selling them at the price of cabbage.

What was he trying to do?

Are you trying to create a new wave of Transcendent Calamity?

Even the Association of Extraordinaires, who had always wanted to obtain more Extraordinary potions, was stunned when they saw the crazy actions of the Resistance camp.

They really wanted to obtain more Extraordinary Potions.

However, mastering these was only to allow them to rule the world more smoothly.

It wasn't to expand the number of Extraordinaires in a disorderly manner.

After all, the reason why they were superior to ordinary people was because they had the identity of an extraordinary human.

Extraordinary people who possessed power could take and plunder ordinary people.

He stood above countless ordinary people and enjoyed the power of life and death.

But now, the resistance camp was behaving in such a crazy manner.

Spreading the Extraordinary Potions everywhere.

Even the Association of Extraordinaires, which was supposed to be the beneficiary, felt immense pressure.

The more supernatural beings there were, the less valuable they would be.

Hence, he decided to do it.

The Association of Extraordinaires and the remaining financial groups, who had never interacted with each other, began to condemn the Resistance Army in unison.

However, the Resistance didn't care about it.

He was still selling extraordinary potions everywhere, and because these extraordinary potions were relatively cheap.

Many ordinary people gritted their teeth and could even afford to buy it.

Therefore, when the fifth edition of the potion was first released, it was in a state of short supply.

In just a few months.

The Resistance camp had produced tens of millions of Extraordinaire Potions.

After being sold to the market, the number of supernatural beings increased again.

As a result, the entire world began to be in turmoil again. Only a small portion of the newly appeared Extraordinaires joined the Extraordinaire Association.

Most of the others chose to join the Resistance camp.

The Extraordinaire Alliance and the corporations, who sensed that something was wrong, suddenly came back to their senses.

How could the Resistance be peddling Extraordinaire Potions?

They were clearly expanding their army and trying to kill them!

Finally.

The corporations, who could not take it anymore, formed a temporary alliance with the Association of Extraordinaires.

They gathered more than 50 million troops and charged straight at the rebel camp.

In order to prevent the accident from happening again.

Andre Company even moved their ancestor, who was already on the verge of death.

He was determined not to let the Resistance camp continue to expand.

The ancestor of the Andre Group was rumored to be an old antique who survived the government army.

He did a rough calculation.

He was estimated to be nearly 400 years old.

They had witnessed the transition and destruction of two eras.

He was also the only SSS-class supernatural being in the world who was still alive and stable enough to fight!!!

Chapter 262: Nine metamorphoses, Fish Leap into Dragon, Perfect Genetic Body! \_4

Thirty years ago, the Association of Extraordinaires had come to provoke them.

Andre Group only used their ancestor to warn the other party.

At that time, the Andre Group did not let their ancestor really make a move.

But now, in order to fight against the Resistance, Andre Company had invited their ancestor.

It was enough to show how vigilant and important they were to the Resistance.

He had no choice.

The Resistance was truly a freak among the freaks.

He wanted to eliminate it.

Even the Andre Group had to be on high alert!

The vast army of tens of millions of soldiers rushed over along the horizon like a dense cloud.

The rest of the world's miscellaneous forces trembled in front of this overwhelming power, and even their teeth were trembling.

It was hard to imagine what the Resistance had to rely on to contend with them.

Under the watchful eyes of all the humans in the world.

The consortiums and the Association of Extraordinaires sent their armies to the north of Mount Dongyue and the south of Hurricane Group's territory, forming a battle line that stretched for thousands of miles.

Tens of millions of troops attacked the city where the resistance was located. The two sides fought with the desert city of Onlado as the center.

Hundreds of years ago, the magnates ended the era of the government army in Onlado.

The final nuclear explosion was like a salute to welcome the consortium's brilliant debut.

Time was like a closed loop.

Hundreds of years later.

The corporations joined forces with the Association of Extraordinaires to come to the battlefield again.

This war would also determine the direction of the world for the next hundreds or even thousands of years.

The number of rebels was much greater than the corporations had imagined.

The corporations had organized an army of more than 50 million.

One had to know that this was a force formed by dozens of corporations working together.

However, what was shocking was that...

The Rebellion Army had also formed more than 1,000 soldiers who were good at fighting and did not care about their own safety.

The battle between the two did not show a one-sided trend in a short period of time.

One had to know that there was only a one-to-five difference between ten million troops and fifty million troops.

However, the difference in units was in the tens of millions!

There was a huge difference between ten million and twenty million.

Not to mention 50 million...

The valiant fighting strength of the Resistance Army was enough to move people! !!

But that was all.

The Extraordinary Era.

War was no longer an era where the number of soldiers mattered.

More than fifty thousand high-level Extraordinaires led an army of four million ordinary Extraordinaires into the sky.

He landed directly on the city wall of the Rebellion Army headquarters.

At this moment.

Sun Ruo had been waiting for a long time.

This time, there were millions of supernatural beings behind her.

These were the core elites of the Resistance.

It was the result of many years of careful nurturing.

On the other side, there was a carriage carried by more than ten S-class superhumans in the center of the corporate group's superhuman army.

Even among the supernatural beings, this carriage was exceptionally luxurious.

From a distance, it seemed to be made of pure gold.

There was a simple and solemn dragon carved on it, baring its fangs and brandishing its claws as it spat flames.

And the most ridiculous thing was...

This carriage was actually carried by more than ten S-class superhumans. More than ten S-class superhumans could easily annihilate a large organization.

But now, it was being used as a carriage.

One could imagine how terrifying the status of the person in the carriage was.

The group of Extraordinaires opened up a path for them.

The oppressive carriage was carried out from the crowd.

The current patriarch of the Andre Consortium, Andre Davis, slowly walked out of the carriage. He looked at Sun Ruo and said, “Where’s the trump card of the Resistance? Just take it out. Don’t say that I didn’t give you a chance!”

Sun Ruo smiled, revealing a few white teeth.”Don’t be anxious. He might be a little grumpy when he wakes up, so please wait a little...”

Andre Davis snorted and said, “Stop playing tricks here. I’ll count to three. If he still hides in his cave like a mouse and doesn’t dare to come out, then I’ll trample the entire city and find him myself!” After he finished speaking.

He was about to count with his fingers.

All of a sudden, a chilling aura made Andre Davis shudder.

In the depths of the extraordinary laboratory beneath his feet.

The alloy doors opened automatically from both sides.

According to the original plan.

There was no other way to unlock the metal door except for fingerprint, iris, and DNA verification.

But now, these doors opened automatically under such circumstances.

There were no traces of violence.

In the towering underground space.

A figure that looked like a god and a demon slowly climbed out of the glassware and left the underground laboratory step by step through the open metal door.

The place where he had stepped on barefooted.

Nothing dared to stand in his way.

At this moment, on the surface of the earth, the ‘Great’

For some reason, a heartbeat sounded in the minds of all the Extraordinaires.

From far to near, from small to big.

In the end, it was like a heavy hammer hitting the chest of all the supernatural beings!

“Dong dong dong...”

Like the beating of a war drum, the beating of the heart sounded in the ears of all the Extraordinaires.

Countless supernatural beings were sweating profusely with pale faces...

Although he had yet to see the owner of the beating heart.

However, this aura, this pressure...

Even from thousands of meters away, one could feel the terror within!!! It was just the sound of a heartbeat. It was like a beating war drum.

Could this be the ultimate trump card hidden in the Resistance camp?

It was too unreasonable.

Chapter 263: Ultimate Battle, SSS-class Transcendent, Ancient Warrior? 1

Deep underground.

The heartbeats that made one's scalp tingle were like drumbeats, slowly and firmly falling into the hearts of countless supernatural beings in Candor City.

As the creature in the dark got closer, the powerful heartbeat became more and more shocking.

At that moment, the group of supernatural beings felt their faces turn pale.

Cold sweat trickled down his body.

They could not imagine what kind of creature could make such a terrifying heartbeat.

Or rather... Did living creatures really have such terrifying might?

It was just the sound of a heartbeat.

It was enough to make millions and tens of millions of Extraordinaires feel as if they were sitting on pins and needles, and even the desire to fight them could not rise.

This kind of power that made one's scalp tingle seemed to not be controlled by a living creature.

Only the gods who lived in the heavens could have it!

Amidst the silence of millions of Extraordinaires.

Beneath his feet.

A figure in scales crawled up from the depths of the ground.

It slowly appeared in front of all the Extraordinaires.

"Heavens..."

"Is this the trump card of the Resistance?"

What kind of monster is this? Human or lizard?"

"How terrifying...Was this a genetic monster created by the Resistance?"

The moment he saw that figure.

Almost all the supernatural beings could not help but exclaim!!!

He had no choice.

Even though everyone was mentally prepared.

However, when he saw the real owner of the heartbeat, he was shocked.

However, they could not help but suck in a breath of cold air.

The figure under his feet had the rough shape of a human. Its skin was covered with a layer of tight and dense greenish-gray scales that were like bone flakes. Four sharp and ferocious greenish-brown claws grew out of its hands and feet.

On both sides of his spine, a pair of bone wings that looked like the incarnation of the devil in myths and legends slowly spread out.

Looking from afar.

Countless Extraordinaires were awed by the surging, almost tangible Extraordinary energy on his body.

He felt extreme fear.

Even his body and mind seemed to have temporarily stiffened because of this!

The monster raised its head and glanced at everyone. Its red eyes that were like melted gold were burning with flames. It spoke slowly in an extremely hoarse and hoarse voice, "Submitting to the World, or to the World. Die!"

One had to know.

At this moment, there were millions of high-level Extraordinaires in the sky.

It was no exaggeration to say that almost ninety percent of the world's powerful Extraordinaires were gathered in Kandor City.

However, it was under such circumstances.

The moment the monster's hoarse and dull voice rang out, none of the millions of Extraordinaires dared to make a sound!!!

One could imagine how terrifying the monster under his feet was.

In the sky, after hearing the commotion.

Andre Davis's face was already covered in cold sweat.

He did not know if it was his imagination.

He had a feeling that the humanoid monster beneath his feet had its eyes on him.

Or rather... They had their eyes on the carriage behind him!

Davis, who was still arrogant when facing Sun Ruo just now.

At this moment, it was as if someone was strangling him. He mustered up the courage to open his mouth, but he did not dare to say anything.

It was a fear that came from the depths of his bones.

It was like a mouse meeting a cat or a rabbit meeting a wolf...

In the end, Andre Davis regained some color with the support of the carriage behind him.

"What kind of monster did the Resistance create? Did he lose control after using too much gene serum?" As he spoke, he swallowed and took two steps back. His veins were bulging as he shouted, "No matter what kind of monster he is, he will only be a

pile of minced meat after being blasted into pieces...What are you guys waiting for?  
Hurry up and attack!!

After he finished speaking.

Millions of Extraordinaires finally snapped out of their daze.

He looked at the figure that looked like a god under his feet.

After the initial fear, the superhuman's adrenaline began to surge.

It was just an instant.

Countless attacks bombarded the monsters on the surface.

Beneath his feet.

The monsters seemed to be unaffected by their attacks.

He was still standing on the spot, not dodging at all.

Boom! Boom!

For a moment.

Countless deafening explosions rang out.

The powerful shock wave razed half of the entire Kandor city to the ground.

And at the center of the densest attack.

The various methods used by the supernatural beings blasted a huge pit nearly a hundred meters deep into the ground!!!

However, after the smoke dissipated.

What shocked all the Extraordinaires was: The monster was still standing there without moving. Even the scales on its body did not curl up at all!!!

Facing such a large number of attacks...

The monster had actually managed to withstand all of them with just one body!!!

What is this? Monster?

It might be more appropriate to call him a god!!!

After realizing that such a large number of attacks could not even remove a single scale from the monster's body, he was shocked.

The adrenaline that countless supernatural beings had been excited about earlier instantly died down.

The first reaction they had after calming down was to run away without caring about anything else...The further he fled, the better!

However, at this moment, the monster suddenly moved.

The bone wings on its back flapped slowly. With a slight flap, the monster's figure arrived at a high altitude hundreds of meters away..

## Chapter 264: Ultimate Battle, SSS-class Transcendent, Ancient Warrior? 2

He looked into the distance.

A figure stood under the sky.

Behind it were the two super moons unique to 3-15741.

Under the moonlight, the monster slowly said, "Since you're unwilling to submit... Then go to hell!"

As he spoke.

His red eyes that were like a furnace swept across the millions of Extraordinaires beneath his feet, and his hoarse voice suddenly roared, "Kneel down and accept your death!" As soon as he finished speaking.

Instantly.

A scene that caused everyone's souls to fly out of their bodies appeared...

The monster was like a god whose words carried the laws of heaven.

As he roared.

More than two-thirds of the millions of extraordinary humans under his feet actually knelt down in unison!!!

At this moment.

The Extraordinaires kneeling on the ground were all drenched in cold sweat.

They didn't want to kneel.

In fact, what they wanted to do the most at this moment was to get up and run.

Escape to a place where no one can find and hide forever.

But now, not only were they unable to control their bodies freely.

Even his supernatural powers were frozen by a mysterious force.

However...

What shocked them the most was...

They were clearly terrified.

Facing the monsters in the sky, they were so afraid that they wanted to escape from this planet immediately.

However, their bodies could not help but kneel on the ground.

Even the cells in his body were cheering.

It was as if a loyal believer was cheering for the birth of a king..

In other words.

At this moment, the spirits and bodies of many Extraordinaires were completely severed.

Their spirits were filled with resistance and fear.

However, his body did not listen to any commands at all. He wanted to dedicate everything to the figure in the sky.

How terrifying was this?

To the Extraordinaires kneeling on the ground, it was definitely more terrifying than death.

It was indescribable and unspeakable.

And around them.

The remaining one-third of the Extraordinaires who did not kneel looked around.

Seeing so many of his companions around him kneel down in unison.

His fear value was instantly filled up.

For a moment, he did not know if he should kneel on the ground to appear unsociable.

In the sky, the moonlight was gentle.

Monster waved his hand.

Instantly, the blood of the millions of Extraordinaires kneeling on the ground began to flow out slowly.

Countless gene fragments and extraordinary powers gathered in the sky.

In the end, it formed a ball of blood that enveloped him.

The monster seemed to have woken up a little. The scales on its body seemed to have come alive and were constantly squirming on its body. Some old and dark scales fell off, and new greenish gray scales grew out.

After repeatedly shedding and growing.

The skin below actually began to gradually fall off, turning into smooth and fair skin.

This scene stunned everyone.

At a rough glance.

It was like a cult cult ritual.

Under the full moon.

The believers knelt down and swore allegiance to the devil in the sky. They offered everything to the devil in exchange for great power... But now, it was not a sacrificial ritual of some heretic cult believer.

It was a battlefield.

The one kneeling on the ground was not a believer.

Instead, it was the enemy that was originally fighting against each other.

Hence, this scene was especially terrifying.

No one knew what method the monster had used to make so many supernatural beings willingly kneel and offer everything they had.

For a moment.

The scene was chaotic.

The remaining supernatural beings who could still move were all terrified.

Extraordinaires were not afraid of stronger Extraordinaires.

Even if it was an SSS-level supernatural being, it was still within their knowledge.

However, now that they were facing this monster that was beyond their understanding, they truly felt a bone-piercing chill from the inside out.

However, at this moment.

An aged sigh sounded.

An old man with gray sideburns slowly walked out of the carriage behind Andre Davis.

The old man looked old, but he was still in good spirits.

There were a few age spots on his forehead, and he was wearing an old and simple robe.

At this moment.

He looked at the monster in the sky.

After being stunned for a moment, he slowly sighed and said, "I didn't expect that there would be a junior who could construct genes to this extent. No wonder he could bypass my technology to produce a new gene serum..." After seeing the old man walk out of the carriage.

The fear on Andre Davis' face was slightly restrained. He walked behind the old man and bowed his head respectfully."Great-grandfather..." The person in front of him.

He was the founder of Andre Company 300 years ago.

He was also the Ultimate King who had personally started the Transcendental Era that had lasted for more than 300 years.

Andre Constantine!

For many years, the highest level of Extraordinaires was SS+.

Only the ultimate king who had created the era of Transcendents could be crowned as an SSS-class Extraordinary.

He possessed great power that ordinary Extraordinaires could not imagine, so he had always been known as a god walking in the mortal world. Although he hadn't fought for nearly a hundred years, this name had never faded after several eras.

One could imagine his power and status among extraordinary humans.

Constantine waved his hand and ignored the nominal heavy...Great grandson.

His gaze was still fixed on the monster in the sky..

Chapter 265: Ultimate Battle, SSS-class Transcendent, Ancient Warrior?\_3

After observing for a moment, he muttered again, "I see. You want to complete the final evolution on the genetic level by recycling the cells that split out? This idea was not bad...If you really succeed, I reckon that no one in the world will be able to stop you..."

As he spoke.

Constantine's gaze gradually sharpened. He extended a hand and said with a murderous aura, "'However, the unfortunate thing is that you met me before you completed your transformation!"

After he finished speaking.

Constantine rushed out, so fast that no afterimages could be seen.

In the next second.

He appeared above Li Yueming's head.

He stomped down.

It actually stepped on Li Yueming, who was absorbing the gene fragments in the sky.

He was suddenly attacked by Constantine.

Li Yueming was like a cannonball as he fell to the ground.

A thick cloud of dust rose.

A huge crater was created in the ground.

The dust had not completely dissipated.

A blood-red figure flew out of the hole.

At this moment.

Li Yueming's entire body was shrouded in blood.

These were the cells and genes that he had transplanted into the supernatural beings through the supernatural potion.

They took root and sprouted in the bodies of the Extraordinaires who had been injected with the Rebellion version of the Extraordinary Potion, and continued to grow.

Now, after feeling Li Yueming's summoning, he finally returned to Li Yueming's body.

It made up for Li Yueming's missing gene fragments and cell molecules.

Moreover, it also carried a steady stream of extraordinary energy to help Li Yueming...He had completed the ninth transformation!!

At this moment.

The ugly scales on Li Yueming's body were fading away.

He was slowly regaining his human skin and appearance.

He looked up at Constantine.

“Old fellow, you think too highly of yourself...” Li Yueming absorbed the endless energy from the chives to temper his body and undergo the final transformation. He controlled his body and slowly said, “Do you think you’re worthy of making me unlucky? I’m afraid you’re the unlucky one today!” As soon as he finished speaking, the bone wings on Li Yueming’s back gently jumped.

In the blink of an eye, his entire body disappeared into the hole.

Before everyone could see what had happened.

A black shadow suddenly appeared in front of Constantine.

He suddenly punched out.

The sharp bone claws stirred up a sharp wind that made many people feel dizzy and their ears ring.

Although Andre Constantine looked old, his reaction was very fast. His movements were so fast that even many SS+ level Extraordinaires could not see his tracks.

“Puchi...’

After the two of them exchanged blows.

Constantine was sent flying a thousand meters into the air.

Li Yueming didn’t feel good either. He was also sent back to the surface.

Obviously.

Constantine was much stronger than Li Yueming had expected.

As expected of the chosen one who led the world’s revolution more than 300 years ago.

He was already nearly 400 years old, yet his strength was still so terrifying.

Li Yueming’s body, which had yet to complete its ninth transformation, was unable to easily gain the upper hand in the battle.

The two of them exchanged blows briefly before quickly separating.

Constantine was sent flying for a few thousand meters before he stopped and returned to his original position. Looking at Li Yueming on the surface, the old man said with a bewildered expression, “How is that possible? Why is your body so strong? Could it be that you have already completed the perfect evolution of your physical body?”

Other than Constantine.

For more than three hundred years, only two supernatural beings were close to SSS-class.

One of them was personally killed by Constantine.

The other one was more low-key and well-hidden. Even Constantine didn’t know if he was still alive or if he had advanced to SSS-class.

The reason why there were so few SSS-class superhumans was that they were extremely rare.

This was because in order to reach the SSS level, at least one aspect had to be perfectly evolved.

Constantine was a perfect Evolver in terms of physical strength.

Possesses unparalleled strength and physique.

But now, in the process of fighting with Li Yueming.

Constantine was sent flying several kilometers away by a young man who had yet to evolve his genes perfectly.

To Constantine, this was simply unbelievable!!!

It's like seeing a ghost in broad daylight.

It was even more terrifying than seeing a ghost in broad daylight.

He looked at the monster on the surface.

For the first time, Constantine felt a chill in his heart.

Others might not know.

However, he knew that the young man in front of him was at most forty years old.

It had only been thirty years since he became a supernatural being.

How was it possible to polish one's genes and body to such perfection?

Hearing his question.

"My body still needs to evolve?" Li Yueming smiled. Sorry, I don't need any evolution. My body is enough to defeat everything!"

This old fellow was indeed very strong.

Before becoming an SS+ class supernatural being, Li Yueming would not have died even if he had nine lives.

Fortunately, Li Yueming had always been on guard against him.

Now.

Li Yueming's plan was basically completed today.

The millions of supernatural beings present were the green leeks that he had spent more than thirty years cultivating.

As long as the final harvest was completed.

Recovering the energy in his body should be enough for Li Yueming to complete the final requirement of the fish leaping into the dragon! Millions of supernatural beings were providing Li Yueming with energy.

Of course, it was because he had consciousness.

Li Yueming didn't kill them all.

After all, it was not easy for these leeks to help him cultivate extraordinary energy. It was enough for him to take back what belonged to him.

It was Li Yueming who had given them extraordinary power through the extraordinary potion. Now, these guys were using the extraordinary power they were given to deal with Li Yueming. He couldn't blame Li Yueming for taking everything back.

With an endless stream of power as support.

Under such circumstances.

Li Yueming was already in an invincible position!

Li Yueming licked his lips and said, "You've been trapped in a petri dish for more than thirty years. Today is the perfect day to make a move on you!"

As he spoke, he stretched his skeletal wings.

He flew up into the sky and fought with the other two.

After a few collisions.

Constantine realized that Li Yueming was still getting stronger. He couldn't help but roar with a gloomy face, "Gene Lock...Release!"

Suddenly.

Constantine, who was originally old and decrepit, changed his body.

Its body had turned into a muscular monster that looked like a bull!!!

At the same time.

The aura on his body also underwent a huge change.

The abyss-like aura was extremely powerful.

But for some reason, Li Yueming felt an inexplicable sense of familiarity.

"This old man is already old. Originally, I did not want to waste my Qi and blood to compete with a young person like you. However, it seems that it will not do if I do not show some of my true ability now..."

Looking at Li Yueming who was not far away, Constantine, who had turned into a muscular monster, slowly revealed a cruel smile and said, "Let me interrupt your evolution first..Ancient martial arts, the power of the wilderness! "

Constantine growled.

Li Yueming raised his eyebrows.

Good heavens, no wonder it felt familiar.

Ancient martial arts?

If it was really the 'ancient martial arts' that he knew.

This old man was really brave.

He actually dared to play with the so-called ancient martial arts in front of him, the ultimate ancestor of ancient martial arts practitioners?

## Chapter 266: I Am the Ancestor of Ancient Warriors! 1

Constantine turned into a muscular monster.

The old and decrepit look on his body faded away, and he looked very oppressive.

As the initiator of the Extraordinary Era.

He was also the world's first SSS-class supernatural being.

He was also the only SSS-class supernatural being recognized by everyone so far.

Constantine's strength was unquestionable.

Seeing that Li Yuemings strength was strong enough to threaten him, he finally did not hold back.

He used all his trump cards and made up his mind to kill Li Yueming.

After fully activating his state.

Constantine looked at the group of Extraordinaires whose powers were being absorbed by Li Yueming.

He slowly revealed a strange smile and said, "You have already been treated as blood food by him. Now... Let me help you free yourselves!"

As he spoke.

He took a deep breath.

He gathered a huge force in his hand and pinched the surrounding supernatural beings.

As an old fox who had been unhindered for more than 300 years.

Obviously.

Constantine's sunshine was vicious and accurate. After discovering that Li Yueming himself was difficult to deal with, he quickly turned around.

He began to attack the surrounding supernatural beings.

It was to prevent Li Yueming from continuing to absorb energy from their bodies to transform.

This move was both ruthless and accurate. It could be said that he had accurately calculated Li Yueming's weakness.

However...

Li Yueming, who was under his feet, did not seem to be affected by the situation.

"So the secret of the ancient martial arts practitioners was cut off by you, old man?"

Hearing Li Yueming call him an old man.

Constantine's face twitched.

However, the supernatural energy in his hand was still very stable. He wanted to kill a sufficient number of supernatural beings in one go.

It caused Li Yueming's final evolution to fail.

However, Li Yueming still looked at him quietly.

He neither stopped nor panicked.

Constantine felt strange about his calmness.

"Some secrets are better kept in the hands of a few people. It's not a good thing for too many people to know!" Although they were talking.

But Constantine's attacks didn't stop.

In just two breaths, tens of thousands of supernatural beings controlled by Li Yueming were slaughtered by him.

Seeing this situation.

"Do you think I won't be able to complete the transformation if I kill him?" Li

Yueming raised his eyebrows.

Before he could finish his sentence.

He saw a lump of flesh and blood.

There were still cells and supernatural powers gushing out.

Without the restriction of his body.

Not only did the speed at which all sorts of scattered powers surged towards Li Ming not slow down,

On the contrary, it became a few times faster.

After all, Li Yueming didn't want the lives of these supernatural beings.

Therefore, there was a limit to how much power he could extract.

But now that those supernatural beings were dead, the supernatural energy and cells that were not bound became even more active.

Seeing this situation.

Constantine's face darkened.

It wasn't that he couldn't destroy Li Yueming's cells, but it would be too inefficient.

He was afraid that he had worked so hard for a long time.

Li Yueming had already completed his transformation and was standing at the same level as him.

After confirming that he could not stop Li Yueming with external forces, Constantine finally gave up on any tricks.

It seemed that he had to fight head-on in today's battle!

After making up his mind, Constantine slowly turned around, and his gaze once again focused on Li Yueming. He slowly said, "Since that's the case, let me take a good look at what secrets you're hiding!"

In less than 40 years, he became an SSS-class supernatural being.

If Li Yueming didn't have some unknown secrets...

Constantine would never believe it.

However, it was obvious.

At this moment, Li Yueming was still not in the mood to continue talking nonsense with him.

He suddenly increased the speed of absorption.

His entire body was also constantly transforming into a human.

Not only did the scales on his skin fall off.

Even the bone claws on his hands and feet were slowly retracting.

Li Yueming didn't become weaker just because he lost his beast form.

On the contrary.

Li Yueming had written a basic genetic logic for himself when he first started his transformation.

That was, no matter how he evolved in the middle.

After the final leap, the form must be human.

In other words.

The fact that he had transformed into all kinds of wild beasts meant that he was getting closer and closer to the final transformation.

Li Yueming stretched his muscles and said, "There are many secrets hidden on my body. However, you are not qualified to come into contact with them. However, I am very interested in the secrets on your body... Therefore, you should kneel down as well!"

The impact of the battle between the two was extremely terrifying.

In just a breath's time.

In the blink of an eye, they had already exchanged hundreds of blows in midair.

The millions of Extraordinaires beneath their feet, even the SS+ Extraordinaires, could not see the trajectory of the battle between the two.

However, it was only a trace of energy that dissipated.

It was enough to make all the Transcendents tremble in fear.

Two minutes later.

Constantine, who had transformed into a muscular monster, grabbed one of Li Yueming's arms.

Suddenly, he shouted, "Ancient martial arts, ten directions of martial arts!"

In the blink of an eye.

The muscles on his body expanded by dozens of times.

Countless extraordinary powers were compressed.

Then, he punched Li Yueming's head.

Instantly.

Li Yueming flew tens of thousands of meters before stopping..

Chapter 267: I Am the Ancestor of Ancient Warriors!\_2

Wiping the blood on his face, Li Yueming smiled and said, "Ha ha, interesting. It really is the ability of a martial artist..."

Constantine also revealed a proud smile and said, "It seems that you know a lot about ancient martial arts practitioners and even know their abilities. That's right, I'm the only person in the world who has the inheritance of ancient martial arts practitioners!"

As he spoke.

He clenched his fists, seemingly intoxicated.

A moment later, he sighed and said, "It's a pity that you haven't experienced the true power of the ancient warrior's combat skills. You won't know how terrifying the complete version of these moves of mine are." If I can use the complete version of the Ten Directions Martial Force, I can finish you with one punch!!"

Hearing this.

Li Yueming had a strange look on his face.

In fact, it was more than ten years ago.

When Sun Ruo showed him the star and moon medal in the ancient warrior's hand.

He had already guessed that this world seemed to be related to his second reincarnation world.

The so-called 'ancient martial arts practitioners' in this world...It was very likely that he was a martial artist from the second reincarnation world.

But now.

He really saw someone use a martial artist's move.

However, Li Yueming still felt that life was a little strange.

He looked at Constantine, who was immersed in it.

Li Yueming suddenly stretched out his hand.

In an instant, dozens of times the extraordinary energy was gathered in Li Yueming's right hand by his powerful control.

After accumulating for a moment.

Li Yueming took a step forward and attacked Constantine. "Open your eyes and take a look...The complete version of the so-called 'combat technique' you mentioned...Is it like this?"

As he spoke.

Li Yueming raised his right hand, and a powerful energy burst out.

It was as violent as an erupting volcano.

He waved his arms.

Li Yueming imitated Constantine and shouted, ““ Ten Directions Martial Force!!!”

In the next second.

Countless extraordinary powers transformed into energy and accumulated in Li Yueming’s hands.

In the end, he charged toward Constantine.

It was just one attack.

Constantine was knocked down from tens of thousands of meters in the sky to the ground.

It was like a comet.

The shockwave from the fall almost turned the entire Candor City into ruins.

At this moment.

The Extraordinaires who witnessed everything opened their mouths wide.

It could even fit an egg.

What did they see?

The God of Extraordinaries, who had been so arrogant and suppressed the monster, was now beaten to the ground by the monster in the blink of an eye?

The aftermath almost caused the entire city to collapse?

So just now...What exactly happened?

Of course.

They weren’t the only ones who couldn’t understand this question.

Constantine, who had been beaten until his face was covered in dust and blood, was even more confused.

Constantine’s brain was almost turned off when he was beaten up by Li Yueming.

He couldn’t imagine why Li Yueming also knew the Ten Directional Martial Force, a martial technique that only he should know.

He couldn’t imagine that Li Yueming’s Ten Directions Martial Force was ten times or a hundred times more powerful than his.

Over three hundred years.

It wasn’t like he hadn’t encountered all kinds of demons and ghosts before.

However, Li Yueming was shrouded in fog from the beginning to the end.

This was the first time he had encountered it.

A moment later.

Constantine finally got up from the pit.

His hair was disheveled, but his expression was abnormally shocked.

Li Yueming, who was staring at the sky, questioned loudly, "You, you, you... Why do you know the ancient warrior's battle technique?"

He looked down at the old man beneath his feet.

"I understand this, but I can't explain what I don't understand!" Li Yueming said indifferently.

He paused for a moment before continuing, "After all, I can't tell you that I'm the ancestor of the ancient martial arts practitioners, right?"

Constantine became muddleheaded when he heard that. He muttered to himself, "How is that possible... How was this possible? Impossible, absolutely impossible!"

Obviously.

He was defeated by the enemy using his own moves.

The blow to Constantine was even greater than killing him.

Li Yueming did not continue to tangle with Constantine.

He descended from the sky like a comet and stepped on Constantine's head. "Old thing, you deserve to die!"

The Ten Realm Martial Saint was the most destructive ancient martial art combat technique that Constantine knew of.

As a result, Constantine had always viewed it as his trump card.

The Ten Directional Martial Force he had used on Li Yueming earlier could send Li Yueming flying for tens of thousands of meters.

On the other hand, Li Yueming's Ten Directions Martial Force was even more terrifying.

The power that erupted was ten times or a hundred times stronger than his.

It was only one strike, but it had already severely injured him.

His internal organs were damaged to varying degrees.

The only reason why it could still continue to move now was because of its powerful vitality.

Most of his powerful strength had already dissipated.

Therefore, he had no choice.

Li Yueming's foot landed squarely on Constantine's head.

It was unknown how many meters deep it was underground.

In fact, if it was someone else, Li Yueming might not have killed him like this.

After all, as an old antique who had lived for more than 300 years, he had always been the highest leader of the strongest force in this world.

Constantine must know a lot of secrets.

Perhaps he only needed to reveal a little bit of information to save Li Yueming a lot of effort in investigating.

But the problem was that Constantine was too uncontrollable..

Chapter 268: I Am the Ancestor of Ancient Warriors!\_3

As an SSS-class supernatural being, Li Yueming was probably the only one in the world who could barely keep an eye on him.

However, Li Yueming obviously couldn't keep looking at him.

If there was any carelessness.

It might lead to a huge disaster.

Moreover, this old man had lived for more than 300 years and was about to become a spirit. Perhaps even his eyebrows were empty. Who knew which of his words were true and which were false?

Therefore, Li Yueming could only kill him.

He could investigate the secret himself.

However, there could not be any unstable factors or accidents.

With a kick, this old man was not completely dead yet.

Li Yueming added a few more kicks.

After completely crushing it into minced meat, it slowly flew back to the surface.

At this moment.

Including the Resistance Army, the corporations, and the Extraordinaires, there were nearly ten million Extraordinaires gathered in the entire Kandor City!!!

They had different standpoints and different wishes.

They were even enemies.

But now.

All the Extraordinaires present were silent as if they did not exist.

He forgot about fighting and hostility.

Not even the sound of breathing could be heard.

He only stared blankly at the huge pit that had been blasted out on the surface.

He wanted to capture the details through the dust.

But very quickly.

A figure appeared.

All the supernatural beings were shocked and aghast.

The monster flew out of the deep pit as if nothing had happened.

Behind him.

Constantine's aura had long disappeared.

What was going on?

Andrew Constantine, the so-called God of Extraordinaries, was really killed by the monsters in the Rebellion Army base?

He thought of this possibility.

The first reaction of all the Extraordinaires was disbelief.

However, no matter how much they investigated, they were still unable to find out.

Constantine was still nowhere to be seen.

On the surface.

Li Yueming finally shed the last of his scales.

He had transformed from his original monster body back into a graceful young man.

At this moment, his skin was as white and clean as a baby's.

It emitted a jade glow.

His aura was restrained, and he was no different from an ordinary person.

Even the most precise instruments.

There was no trace of supernatural energy left on his body.

But it was such a person.

He had actually trampled to death the SSS-class supernatural being of the Andre Company who had stood in the supernatural era for more than 300 years...

All the superhumans from the consortium and the Association of Superhumans felt their bodies go weak.

They looked at Li Yueming with shock and respect.

At that moment, only the Extraordinaires in the Resistance camp were excited.

All along.

As the deputy leader of the Resistance, Li Yueming seemed to have vanished into thin air.

For a long time, the entire Resistance was not used to this.

As a result, many conspiracy theories were in the air.

Some people said that Li Yueming was killed by the supernatural beings, but the higher-ups suppressed the news in order to stabilize the order.

There were also people who said that Li Yueming had an accident while researching the drug and became a monster that was neither human nor ghost.

Some even said that Han Bufan killed Li Yueming to seize power.

But now.

All the suspicions and doubts were no longer important the moment they saw Li Yueming. Countless resistance forces cheered in unison, “Deputy Chief, Deputy Chief, Deputy Chief!!!”

Li Yueming also smiled at them.

This group of Extraordinaires were the elites of the Resistance Army.

It was also under Li Yueming’s secret nurturing that he had grown to where he was today.

Therefore, she was naturally excited when she saw him.

He ignored the cheers of the Resistance Extraordinaires.

Li Yueming flew into the sky alone.

Looking down at all the superhumans sent by the consortium and the Association of Superhumans, he said with a calm expression, “‘ Submit or die.

Choose!”

She heard his voice.

Thinking back to the battle just now.

Finally, he thought of Constantine, who had been stepped on and disappeared without a trace.

All the hostile Extraordinaires present could no longer resist.

He quickly prostrated on the ground and said respectfully,” We surrender surrender.. We are willing to submit to the Resistance Army...”

Chapter 269: Super Gold Talent, Constantine’s Diary

The battle was over.

Seeing that the situation was hopeless, the group of Extraordinaires finally lowered their arrogant heads.

They knelt down in Li Yueming’s direction and swore their loyalty to him.

Of course, whether they were really loyal or just afraid of Li Yueming’s power.

This was a huge question mark.

However, Li Yueming didn’t care.

It didn’t matter if these Extraordinaires were forced to kneel on the ground by the situation or if they were forced to do so.

It was fine as long as they were honest and didn’t cause trouble. Anyone who showed any signs of disobedience would be killed..

That was all!

After nine metamorphoses, the fish leaped into the dragon and finally attained a perfect gene.

Li Yueming already had the confidence to sweep through everything.

He opened the interface.

One of the special talents was emitting a dazzling golden light.

[Perfect Genetic Body (shiny gold)]

[Unique Attribute: Unlimited Evolution]

[You, who possess perfect genes, possess the ability to evolve indefinitely. Every battle can allow your body to undergo a corresponding evolution!]

This was the result of Li Yueming's hard work for more than 30 years.

A perfect genetic body only had one effect.

However, its rating was shiny gold.

In other words, it was a super talent with a potential that was even higher than gold.

The introduction of the Reincarnation Mark was also very simple.

That was to be able to evolve indefinitely.

It didn't sound like anything special, but the actual effect was a heaven-defying talent.

Looking at all the universes.

What was the core competitiveness of life?

Powerful individuals or overwhelming numbers?

Neither.

Instead, it was a super strong evolutionary ability and adaptability.

To make a simple analogy.

In battle, as long as the attack did not exceed the limit of Li Yueming's body, Li Yueming could quickly adjust his body's resistance through this unlimited evolution characteristic.

There was once a female supernatural being who used psychokinesis to attack Li Yueming.

Back then, Li Yueming had relied on his powerful strength to withstand the attack.

But now.

With the perfect genetic body, Li Yueming could strengthen his mental resistance.

It only took a few seconds.

Li Yueming would be able to evolve into a super strong mental resistance.

Thus, he could disintegrate the opponent's psychokinesis attack.

Another example was that there were supernatural beings who could control flames.

With the only effect of the perfect genetic body, as long as Li Yueming didn't get burned to ashes in an instant, he would be able to survive.

Then he would be able to adapt to the temperature of the flames very quickly.

And all of the above were just the basic methods of using a perfect genetic body.

There were many more ways for Li Yueming to use it.

It could be said that he had this heaven-defying ability.

Even if Li Yueming went to other high-combat reincarnation worlds such as fantasy and xianxia, he would not be able to survive.

Li Yueming was also not afraid at all.

As long as he lived long enough and experienced enough battles.

Then, one day, it would evolve into a perfect lifeform that could not be destroyed by knives or burned by fire, and could roam the three worlds without being destroyed.

It could be said that although this reincarnation had not been evaluated yet.

However, Li Yueming was like Qin Shihuang eating Sichuan pepper.

There was another thing worth mentioning.

Constantine had previously used the Ten Directions Martial Force.

It was much stronger than Li Yueming had expected.

Although Li Yueming's understanding of martial arts and his talent in deduction were not enough, he was still a genius.

Li Yueming successfully analyzed the Ten Directions Martial Force.

However, Li Yueming realized that this was only the initial stage of the Ten Directions Martial Force.

The true complete version of the Ten Directions Martial Force was ten times or a hundred times more powerful than the one Li Yueming had displayed.

This made Li Yueming mutter.

In his concept of time.

It had only been less than 40 years since the last martial dao world.

Due to the difference in the flow of time between the reincarnation world and the heavenly world, he did not know how many years had passed on planet 6-07312.

In any case, the so-called Ten Directions Martial Force in his hand was not simple. It was even a top-notch secret manual that could be brought from the reincarnation world to the main world.

When Li Yueming left planet 6-07312, there wasn't a single secret book or technique that could be recognized by the Reincarnation Mark.

And now.

He could get the approval of the Reincarnation Mark just by randomly finding a secret manual that was probably left behind by 6-07312 in this lousy place.

From this point, it could be seen that 6-07312 had undergone a long period of evolution.

He suppressed the various guesses and doubts in his heart.

Since he had already obtained the perfect genetic body, he was not afraid of it.

Now, most of Li Yueming's energy had to be put back into improving the score of this reincarnation as much as possible.

Therefore, Li Yueming looked at the millions of Extraordinaires who had bowed their heads in submission and said in a low voice, "Very good, a wise man is a wise man...Next, I'll give you a mission. Help me announce to all the people and forces in the world that you have to disband all your armed forces within a month!"

"Those who don't obey, I will personally bring people to your door in a month!"  
Hearing his arrogant words.

Beneath their feet, the hearts of millions of supernatural beings trembled violently.

His pupils contracted violently.

If someone else had said those words, they would probably be laughed at.

After all, just because you said that you would disband all armed forces, would the other forces disband their armed forces?

And he even announced it to all the people and forces in the world?

What do you think you are?

He wanted to command the world with a simple decree?

But now, the person who said these words was the monster, Li Yueming...

Chapter 270: Super Gold Talent, Constantine's Diary (2)

It was a monster that had just killed the SSS-class Extraordinary Constantine with its own hands and had an army of millions of Extraordinary individuals!!!

Many Extraordinaires who were kneeling on the ground could already see the tragic scene of blood flowing thousands of miles away and corpses strewn all over the ground.

After all, this was a battle.

Almost half of the world's high-end extraordinary humans were wiped out.

However, there were still quite a number of supernatural beings left in various places.

They wanted the various factions to disband their armed forces.

This was no different from letting them die. Most likely, not many factions would be willing to do this.

If Li Yueming really came to visit...

Then it would definitely be another ultimate war that would shake the entire world.

However, at this moment.

The group of surrendered Extraordinaires did not dare to say a word.

After all, Li Yueming's aura was enough to suppress all their thoughts.

Whether the world bled or not was not important to them.

Right now, the most important thing was to protect his life from being taken away.

Therefore, the Extraordinaires nodded and dispersed.

He turned around and began to announce Li Yueming's will to the world.

When the outside world found out that tens of millions of troops had been defeated by the Resistance, and even the ancestor of the Andre Group had been killed by the mysterious and strange deputy leader of the Andre Group, they were shocked.

All the forces in the world were dumbfounded.

This script...It shouldn't be written like this!

Shouldn't the army of Extraordinaires be able to destroy the capital of the Resistance Army?

This was the joint attack of the Association of Transcendents and the corporations.

They gathered 80% of the troops and supernatural powers from the three continents and finally sent out more than 50 million troops. How could they be defeated by the Resistance so easily?

However, the truth was right in front of them.

The rebel army had defeated the alliance formed by many corporations and supernatural beings.

At the same time.

Information about Li Yueming was also spread everywhere. It was rumored that he killed the SSS-class ancestor of the Andre Group in an extremely clean manner.

In the end, he even kicked him into a bloody mess, not even his bones could be found.

There were also rumors that he had single-handedly suppressed millions of Extraordinaires from the Association of Extraordinaires, beating the entire allied army until they could barely breathe.

All in all.

All sorts of rumors were flying around.

In just a few days, the whole world knew Li Yueming's name.

For a moment, he was in the limelight.

Many Extraordinaires even called him the most powerful new Extraordinaire!

However, what happened next was magical.

This new world emperor actually wanted all the forces in the world to disarm themselves?

How was this possible?

Putting aside the fact that the people in power everywhere would never give up the wealth in their hands.

Even though the major forces in the world had suffered great losses, they had not yet reached the point of being at the end of their rope.

Even though he was still worried about Li Yueming's power.

However, many factions were still trying their luck.

After all, the world was so big. It was impossible for the Resistance Army to occupy it completely, right?

Moreover, they had a very large number of troops in their hands, so they might not be powerless to resist.

In short, no matter what.

Even if it was Li Yueming

It was naturally impossible to make so many forces surrender with just one sentence.

Therefore, he had no choice.

After Li Yueming's ultimatum spread throughout the world.

Within a month, less than 10% of the forces had surrendered.

Moreover, most of them were forces near the Resistance camp.

After all, the Resistance might not be able to reach the forces of the Eastern Continent and the Northern Continent.

However, it was a huge threat to the surrounding factions.

Now, Li Yueming was even more legendary, as if a knife was placed on their necks.

The leaders of these forces had no choice but to surrender.

However, the other 90% of the forces fell silent.

They didn't take the lead to resist or taunt him recklessly.

However, they chose this tacit silence to express their attitude.

Seeing this situation.

Everyone thought that Li Ming might reconsider or send people out to negotiate with many forces.

The Resistance suddenly sent out their troops.

Tens of millions of soldiers were like tigers out of their cages. In just three months, they had conquered countless cities in the Western Continent.

And as the actual controller of it.

Li Yueming was not idle either.

He began to visit alone as promised.

However, his so-called visit was more bloody and cruel.

Every time they passed by a place.

There would be many higher-ups of a force splattering blood on the spot.

Just like that, they continued to kill.

Blood flowed like a river and corpses piled up like mountains.

Almost all the high-ranking members of the various factions who stood in his way were slaughtered.

The countless remaining tycoons and supernatural beings in the world were almost scared out of their wits when they saw this scene.

They never expected Li Yueming to be so unreasonable.

If he wanted to kill an entire family, he would kill an entire family.

He didn't even let out a little bit of water.

After seeing Li Yueming go crazy from killing.

For a time, countless forces were terrified and cried out for their parents. They hurriedly dismissed all their subordinates, afraid that Li Yueming, the Hell Rakshasa, would come looking for them.

However, it was too late.

Li Yueming had given them a chance to turn over a new leaf.

However, they didn't have the confidence and kept thinking that everything would pass.

Under such circumstances.

If Li Yueming didn't wipe them out, they would be wiped out.

Then, the new country that was built on the ruins would probably return to their rule in a different way before long..
