

Maxing MT 28

Chapter 28

Meeting Zhou Wuhai Again, How many points can you give for this punch?

After Li Xiyue left.

Li Yueming returned to his usual cold demeanor.

At the same time.

The entire Star Moon Alliance began to tremble.

Honestly.

If not for Li Yueming's absolute faith in the Alliance and all the residents,

The few instructions he announced at the meeting were absolutely impossible to achieve.

But now...

With unprecedented cohesion,

The Alliance actually followed the command.

First, they sent the Scarlet Squad to the mining area to escort and transport various ores.

Compared to other orders,

This one was the easiest to complete.

Less than two hours after the meeting.

The Scarlet Squad, armed to the teeth, set off.

Almost at the same time.

The mine also received instructions to continue mining.

They will be responsible for collecting and transporting minerals for a long time to come.

On the other side.

The Alliance began to gather the grassroots branches of the alliance in the various regions.

Li Yueming's instructions were then relayed from door to door by members who had been stationed at the branch all year round.

The next day.

In the entire Alliance, other than the necessary logisticians,

Almost everyone gathered outside the headquarters.

Some of them were refugees who had followed Li Yueming since the Underground World.

Some of them were residents of Shelter 0911.

Of course.

Now, they all had new identities.

They went through the door-to-door statistics of the grassroots branch.

Be it the refugees from the Underground World or the survivors from the Surface World, they were all registered.

They also had the same identity card.

They were collectively known as citizens of the Star Moon Alliance and the Human Federation.

And today.

It was also the first time they had gathered together with this new identity.

The man known as the Son of God on the high platform slowly stood still.

All the citizens cheered.

“Long live the Son of God!”

Li Yueming took out a crudely made loudspeaker and coughed twice. “Everyone, I have bad news for you. The mutated creatures have discovered our existence!”

Hearing this,

Instantly.

The hundred thousand people below the stage instantly fell silent.

The refugees in the Underground World were fine.

After all, they had lived in the Underground World and had never seen the horror of mutated creatures with their own eyes.

However, the survivors from Fallout Shelter 0911 were all terrified.

No one knew better than them how terrifying mutated creatures were.

Its strongest expert was even as tall as a city wall.

Ordinary Humans were like small bugs in front of them.

It posed no threat at all.

Originally.

They thought that they could avoid the threat of mutated creatures under the protection of the Star Moon Alliance.

Unexpectedly...

In the end, they were still targeted by the mutated creatures.

The audience was in an uproar.

Many citizens could not help but discuss.

In response.

Li Yueming was not surprised and continued, "I know what you're thinking. It's nothing more than how to escape and survive... But please think carefully. Behind you are your wives, children, and friends!"

"If you take a step back now, it means that everything you have will no longer exist!"

"Our homeland will be trampled on, our wives and daughters will be killed, and our friends and family will be separated!"

"Therefore, please abandon the idea of escaping!"

"Fight the enemy together with me and all the members of the Star Moon Alliance!"

"In this battle, we will fight the mutated creatures to the death!"

After saying all this,

Li Yueming did not say anything else.

Instead, it gave all the residents enough time to consider.

No doubt.

What followed was an incomparably tragic war.

Even if Li Yueming had the heaven-defying talent of Infinite Deduction,

However, in front of the absolute power of the mutated creatures,

Sacrifices were inevitable.

Therefore.

Forced conscription is absolutely necessary.

Instead of burying mines for future battles.

Li Yueming was more inclined to explain the cause and effect from the beginning.

Only these hundreds of thousands of people were sincerely acting for the people they wanted to protect.

Only then could the Star Moon Alliance have a chance of survival in a long battle.

After a long silence.

Finally.

The crowd began to bustle with angry roars.

These voices were like a flag in the darkness.

Soon, it caused a prairie fire.

In the Star Moon Alliance Square, the shouts of the crowd gradually turned into one word.

Fight!

Fight!!

Fight!!!

This year.

Li Yueming was twenty-one years old.

Standing on the high platform, he looked like a real god.

...

That night.

Everyone began to build various fortifications 24 hours a day.

Li Yueming no longer hid anything.

He brought out all the military building blueprints he had deduced in the past two years.

In addition,

Even many of the members did not know about this.

It turned out that there was actually a large number of steel bars and cement hidden in the warehouse of the Alliance.

These were all secretly made by Li Yueming through Li Xiyue.

The level of confidentiality was very high.

Even Wang Fei had only heard a little about it, but he did not know the exact situation.

Now.

All of this came in handy.

So much work.

The entire Alliance started to spin like a top.

And yet.

In such a tense situation.

As the leader, Li Yueming came to a house in casual clothes.

He knocked on the door.

The majestic Zhou Wuhai soon walked out of the house.

He looked at Li Yueming in front of him.

After a long silence, Zhou Wuhai asked, "When did you find out?"

In response.

Li Yueming thought seriously for a long time and said, "Hmm, I don't think I trusted you from the beginning, right?"

Zhou Wuhai: "..."

Originally, he thought that he had hidden himself well.

Unexpectedly...

Li Yueming had never trusted him at all.

But now.

There seemed to be no point in talking about this any more.

He looked at the young man in front of him.

Zhou Wuhai cracked a smile and said, "It's too boring to swallow a delicacy that has been nurtured for so long!"

Li Yueming also twisted his neck. "Looks like the lesson I taught you a few years ago wasn't enough!"

Hearing this,

The smile on Zhou Wuhai's face froze.

His gaze toward Li Yueming finally revealed a strong killing intent. "Hehe, do you think you're very strong? If it weren't for the sake of better observation, I would have crushed you to death at that time!"

In response.

Li Yueming did not reply.

He picked up a fist the size of a sandbag.

One punch.

Zhou Wuhai was sent flying.

He fell to the ground like a meteor.

The incomparably powerful force even smashed a huge hole in the ground.

He looked at Zhou Wuhai's bulging body in the pit.

Li Yueming blew the dust off his fist and said, "How is it? How many points can you give for this punch?"

...
