

## Maxing MT 281

Chapter 281: Return to the Reincarnation Space, Immense Reward! 2

Even the entire world stopped shaking for a short while, and countless residents cried bitterly.

However, no matter how reluctant they were, Li Yueming was determined to leave.

He wasn't a savior, nor was he an immortal emperor.

He was just an ordinary person.

If he did not have the identity of a reincarnator and various divine talents, he would be no different from billions of ordinary people.

Therefore, he felt that he couldn't afford to receive so many people's love.

After announcing the news.

Not long after, Li Yueming left alone in the newly developed fourth-generation spacecraft.

Of course.

Li Yueming didn't know how much of an impact his actions had on 3-15741.

He did not know how much time and price planet 3-15741 had spent to follow in his footsteps.

Many, many years later.

3-15741 The people of the planet were looking for their leader.

The footprints had already spread to the boundless galaxy.

In any case, they did not believe that their leader would die in the boundless universe.

The spaceship started.

Soon, Li Yueming disappeared from 3-15741.

With a perfect genetic body, Li Yueming only needed to spend a little time to adapt to the living environment in outer space.

However, the long and far-reaching starry sky was always quiet.

He didn't know how long they had sailed for.

The spaceship had already accelerated to close to light speed.

At this moment, Li Yueming was surrounded by nothingness. There was only endless coldness and darkness.

Only the medals left behind by the seven ancient martial art practitioners emitted light and heat.

He pointed Li Yueming in the right direction.

Of course, Li Yueming only had one medal in his hand.

Of the remaining six, three were taken back by Han Longfei, and the other two were given to Sun Ruo, who was still sleeping and evolving.

These seven medals were engraved with mysterious arrays.

The array would only be activated after entering the boundless universe.

Those who held the medal would be able to find the planet where the ancient martial art practitioners were based on the direction of the medal.

This was the only clue that Li Yueming left for 3-15741 and Sun Ruo.

Along this path, they might meet again one day.

Space travel was boring most of the time.

After completely adapting to the environment of the universe, Li Yueming began to train and evolve his body.

The universe was like a big melting pot.

There were all kinds of messy environments.

In just over ten years, Li Yueming had experienced extreme cold, extreme heat, and alternating cold and heat...And other extreme environments.

Some of them were more extreme.

Even Li Yueming's SSS-grade extraordinary physique could not withstand it.

Fortunately, he still had a perfect genetic body. As long as he didn't die, he could evolve the corresponding resistance.

Just like that.

After an unknown period of time.

Just when Li Yueming thought that he would spend the rest of his life in this endless universe.

When I was in a deep sleep.

He suddenly felt something unusual.

He turned on the interstellar warship's detector.

The dashboard showed that everything was normal.

However, Li Yueming felt a bone-chilling chill.

He ended the automatic navigation and opened the interstellar cabin to take a look.

A large group of black shadows appeared in the sky above them. The number of black shadows covered the sky and the sun. Even if a planet blocked their way, it would be devoured by them at an extremely fast speed.

At this moment.

Endless black shadows were flying in a certain direction.

Behind it was an even larger nest. A single nest room was the size of an entire planet, and there were countless densely packed nest rooms.

From afar, it looked like a huge unfinished building.

There were even more black shadows hatching in the nest.

Countless maggot-like things squirmed, making one's scalp tingle.

It was truly unimaginable how many lives could be nurtured within.

Just as Li Yueming was peeping.

In the distant starry sky, the dense black shadows seemed to have sensed it.

He sent a small group of soldiers to attack Li Yueming.

They said it was a small troop.

However, that was only when compared to the countless black shadows.

In fact, the number of this small force was enough to devour hundreds of thousands of planets.

Seeing this situation.

Li Yueming knew that it was bad.

The group of black shadows seemed to be densely packed with insects. And what was dragging behind it was most likely the nest of the Zergs.

However, he didn't know why.

Was this swarm of bugs dragging his nest into the depths of the universe?

Of course.

No matter what the reason was.

However, he was not someone Li Yueming could afford to offend.

Unfortunately, the insects were flying at an extremely fast speed. Li Yueming had no way to drive the spaceship away.

Of course, the most important thing was...

Behind the swarm of insects, there was also a huge black claw that stretched as far as the eye could see.

The giant claw reached out from the depths of the nest.

It seemed like they were preparing to bring Li Yueming back to their nest.

Li Yueming's forehead was covered in cold sweat.

At this moment.

He could smell a great danger that could be described as the explosion of stars and the destruction of the world.

His intuition told him that once he was caught by the black claw, the consequences he would face would be very serious.

At the same time.

The Reincarnation Mark, which had been silent all this while, suddenly emitted a boiling power.

In the blink of an eye.

A line of eye-piercing blood-red letters appeared in Li Yueming's mind:

[Warning, warning...]

[Superdimensional strength attack detected.. Reincarnators are advised to return to the reincarnation space immediately!]

Chapter 282: Return to the Reincarnation Space, Immense Reward!\_3

[Do you wish to exit this world urgently? If you don't choose to leave, the Reincarnation Mark will automatically destroy everything related to it.]

After discovering that even the reincarnation space had released a notification.

Li Yueming did not hesitate and chose to leave almost immediately.

After clicking on the confirmation button, it only took an instant.

Li Yueming's body exploded.

It turned into a pile of charred black flesh that did not even have genes or flesh.

At the same time, the entire spaceship exploded violently. Every component seemed to have been damaged for ten thousand years.

All traces and origins were erased.

Within the insect swarm.

The owner of the black claw had only scratched casually.

After all, a warship that could not even break through the speed of light was simply a toy to it.

The reason why he personally took action was because he was curious about the origin of this warship.

After all, there were not many planets with life.

Finding some could at least make up for some nutrients.

However, when he realized that the spaceship had suddenly exploded and the tiny lifeform inside had died.

The owner of the black claw was shocked.

A moment later, he came to his senses.

A huge body poked its head out of the nest.

After staring at the spaceship for a long time, he roared, "A Reincarnator actually slipped away... Damn it, I was careless!"

[Forcefully separating...]

[Forced escape successful. The reincarnator has died...]

[Returning to the reincarnation space!] In the reincarnation space.

Li Yueming heard a rustling sound.

A moment later, he opened his eyes and realized that he had returned to the reincarnation space.

A pure white reincarnation space.

Compared to the cold and boundless starry sky, it was hotter and warmer.

However, it still couldn't extinguish the fear and horror in Li Yueming's heart.

Just now, he was so close...He was caught by the black claw.

Without a doubt.

The other party definitely had the means to ignore the Reincarnation Space and kill him.

In other words, once he was captured, Li Yueming would most likely die in the Reincarnation Space.

Fortunately, Li Yueming's reaction was fast enough at the last moment. He did not waste any time and chose to forcefully escape.

The danger was self-evident.

He didn't expect Li Yueming's reincarnation to be so stable for most of his life.

In the end, he actually returned to the reincarnation space in such a sorry state.

He could only say that he could not be arrogant in the future...

After all, according to the information he had obtained previously, the first three reincarnations of the Reincarnation Mark were all in the novice stage.

The planets that descended basically did not have the power to completely kill the reincarnators.

However, Li Yueming was more suicidal this time.

He drove the spaceship alone to the boundless universe and left the novice protection planet.

The result was such a terrifying outcome.

It was really a psychological trauma.

He shook his head and finally came back to his senses.

This time, Li Yueming didn't hide his memories.

After all, whether it was the existence of ancient martial arts practitioners or the Bug Tribe, they were both very important memories for him.

He couldn't forget it easily.

After everything was done.

Li Yueming began to calculate the rewards for his reincarnation.

The Reincarnation Mark was burning hot.

A series of rewards appeared in Li Yueming's mind.

[Welcome back to the reincarnation space. The score is being calculated!]

[You have successfully lived to 250 years old in this reincarnation. Your fate has changed greatly!]

[Basic score increased from D to C. Reward: 7000 reincarnation points!] There was nothing much to say about this reward.

Li Yueming's original fate was to become a research subject in the laboratory. After escaping, he was caught and finally died of an overdose at the age of fourteen.

[You have changed the fate of Sun Rui, the son of destiny!]

[Mark score increased from C to B. Reward: 10000 reincarnation points!]

Good fellow...

This reward caught Li Yueming off guard.

Sun Rui seemed to be Sun Ruo's sister?

He had never interacted with Sun Rui before, so how could he have changed the trajectory of her fate?

During this reincarnation process.

The only person whom Li Yueming had come into contact with who seemed to be the Destiny's Child was Sun Ruo.

However, in the later interactions.

Li Yueming had never figured out whether Sun Ruo was the Son of Destiny or not.

It was probably because his birth had messed up some things.

After all, even Ye Tianzi, who had divination skills, was not as good as Ye Tianzi.

However, when he used his divination talent to calculate, he mistakenly thought that Li Yueming, a reincarnator, was the Son of Destiny.

One could imagine that Destiny's Child's trajectory had probably been disrupted.

Therefore, he had no choice.

After that, Li Yueming gave up on the search.

After all, his time was limited, and he couldn't find a Destiny's Child whose fate was unknown.

However, he had never expected this.

Now, when the settlement was completed, he had actually obtained the reward of changing the fate of Destiny's Child.

Wait a minute...

Sun Ruo and Sun Rui...

Could it be a person?

Li Yueming suddenly remembered something.

Sun Ruo's 18th birthday.

In the beginning, Sun Ruo told him that when she was ten years old, her parents and six years old were dismembered by the Cloud Sky Corporation. His six-year-old sister was also captured and used as a test subject.

However, more than ten years later.

When Li Yueming asked Sun Ruo again, she said that it was his 18th birthday.

If Sun Ruo was his sister, Sun Ruo.

Then she should be in her twenties.

However, if Sun Ruo was Sun Rui's younger sister, then she should be eighteen.

So... Sun Ruo was Sun Rui?

His six-year-old sister witnessed her sister being captured and her parents being dismembered..

Chapter 283: Return to the Reincarnation Space, Immense Reward!\_4

A certain degree of insanity?

That was not right either.

Perhaps it was just Sun Rui who had made himself look like Sun Ruo...

This sudden reversal had caused a big impact on Li Yueming. It seemed that he didn't know Sun Ruo's past that well.

The settlement continued.

Li Yueming came back to his senses.

Whether it was Sun Ruo or Sun Rui, the reward was still real.

As for the specifics, he would talk about it when they met again in the future.

[In this reincarnation, you overthrew the rule of the financial magnates, raised and suppressed the supernatural disaster, and finally established an idealistic country on the ruins of war!]

[Mark score increased from B to A+. Reward: 50000 reincarnation points!]

There was nothing much to say about this reward.

Li Yueming had been completing this main mission for a long time.

Now, the reincarnation mark had given him enough evaluation and rewards.

[You have developed the perfect genetic medicine and evolved into an

SSS-class supernatural being in one leap! ]

[Mark score increased from A+ to S+. Reward: 60000 reincarnation points!]

[Under your active exploration and constant guidance, the Utopia finally stepped into the starry era of the universe! Your final departure inspired generations of citizens of the Republic to explore the starry sky. The citizens of the Republic were unwilling to believe that you had died. They lit up thousands of lamps in the starry sky and waited for your return...]

[Your name has been passed down through the ages and is known as the 'Starlight Preacher' by millions of people in the Utopia!]

[Mark score increased from S+ to SS+. Reward: 140000 reincarnation points!]

This reward surprised Li Yue Ming.

He didn't expect his name to be known in the utopia for so long.

It had actually reached the level of being immortal.

Moreover, he did not expect that the citizens of the country were not even willing to believe his death.

Instead, it lit up thousands of lights in the starry sky...

It sounded a little sour in the nose, but the reward was also extremely generous.

[You have unlocked an interstellar civilization achievement in this reincarnation.]

[Mark score increased from SS+ to SSS. Reward: 200000 reincarnation points!] [This reincarnation settlement score is: SSS!]

[Reward calculation completed: You have received 8 additional reincarnation rights, 467000 reincarnation points, SSS-level reincarnation power return, 7500 reincarnator experience experience, fixed number of talent times \*2, and the only special title, Starlight Preacher!]

[Planet 3-15741 is sleeping and is not interested in what is happening in the outside world... After being reminded by the mark of reincarnation, the consciousness of planet 3-15741, which was in deep sleep, woke up while cursing and delivered a precious 'perfect gene suppressor', to your mailbox. Please check it!]

[The reward has been calculated and is being distributed...]

From the beginning to the end.

This time, the scores and rewards seemed to be more standard.

Of course.

This so-called 'average' was compared to Li Yueming's previous super strong achievements.

Li Yueming had reincarnated three times so far.

Every reincarnation score was basically no lower than SSS rank. The last time in the Martial World, he even got an SSS+ score.

Therefore, he had no choice.

This time, the SSS-rank brother could only be considered to be 'normal'. After all, most of his time was spent on refining the perfect gene serum.

There was not much time for him to increase his score.

It was already very heaven-defying to have an SSS-class.

Under such circumstances.

The reward given by the Reincarnation Mark was still very generous.

Eight additional reincarnation privileges, nearly 500,000 reincarnation points, SSS-grade power return, 7500 reincarnation experience, and two talent fixed times.

Last time, Li Yueming spent almost all his reincarnation points on buying various cultivation techniques.

Now, he had finally recovered a large amount of HP.

After some thought.

Li Yueming had given up on binding the Rapid Resurrection talent.

Although this red talent was a pretty good talent for a strong individual in the aspect of great strength, it was not a bad talent.

However, to Li Yueming, who possessed perfect genes, it was of little value.

Li Yueming didn't even worry about getting fatally injured.

After all, his genes could be adjusted at any time according to the corresponding injury or even the source of the attack.

As long as they could not be killed.

It would become Li Yueming's driving force for evolution.

As for the last special title, 'Starlight Preacher'.

[Starlight Preacher (red)]

[You are the preacher of the boundless universe. You spread Spark across the world and possess extraordinary leadership!]

[Unique special effect: All attributes increased by 30%, commander's strength increased by 200, personal charm increased by 50!] Without a doubt, this title was a pleasant surprise.

What kind of concept was 30% of all attributes?

With Li Yueming's current body as the foundation, an increase of 30% in all attributes was equivalent to an increase of 30% in Li Yueming's combat power!

Just this amplification alone was enough to defy the heavens.

Not to mention that this special title could also increase Li Yueming's commanding ability and personal charm.

Although these two attributes were invisible and intangible, they could not be seen or touched.

However, to reincarnators, it was a good thing!

Commander-in -chief.

As the name suggested, it increased the reincarnators' control over the army and the country.

It would make it easier for his troops to trust and obey the commander's orders.

This was undoubtedly a life-saving medicine for many reincarnators.

As for his personal charm, it was needless to say.

In many reincarnation worlds..

Chapter 284: Return to the Reincarnation Space, Immense Reward!\_5

There was an eternal truth.

Handsome people had preferential treatment, and beautiful people had lackeys.

Especially in some reincarnation worlds where looks were the most important, if he could max out his charm.

Wasn't it easy to eat a soft meal?

Therefore, he had no choice.

All kinds of items that increased his commanding power and personal charm were quite popular among reincarnators.

Basically, as long as it wasn't too bad, it could be sold for hundreds of thousands of reincarnation points and was very popular. What Li Yueming had obtained so far was not considered a tool.

It was an even rarer and rarer title.

It was extremely precious.

If word got out, who knew how many people would die of envy.

After counting the rewards from the reincarnation mark.

In the end, only the SSS-rank power return had not been received.

This reincarnation world was an ordinary technological world.

He did not know if the SSS-class Reversal could give him back tens of percent of his strength.

He calmed down for a moment.

Li Yueming slowly sat cross-legged. After taking a few deep breaths, he said, "Reincarnation imprint, begin the return of power!"

[Ding, Power Return activated!]

[The reincarnator's power return level is SSS. The reincarnator world's serial number is: 3-15!]

[Power Returning...]

In the next second.

A familiar feeling appeared once again.

Li Yueming's entire body started to heat up, and countless sweat and magazines flowed out of his pores.

For some reason, the power this time was unusually strong.

It was much more painful than Li Yueming's previous two returns combined.

Li Yueming felt as if he had been thrown into a furnace. Thousands of boiling lava were burning his body.

In just a moment.

He was like a cooked prawn.

It was so painful that his entire body turned red and he even curled up unconsciously.

Li Yueming finally understood why he was in so much pain.

This was because the reincarnation mark was returning his special talent,[Perfect Genetic Body], to him!!!

The pain was simply unbelievable, even more terrifying than heart-wrenching.

After the power of the reincarnation imprint was infused into Li Yueming's body, the perfect genetic body was re-engraved into his body.

The SSS-rank power reversal finally stopped.

Li Yueming closed his eyes to feel his current physical condition.

Unexpectedly.

This time, he didn't feel that his strength and physique had been strengthened much. It could even be said that it was no different from before the energy was injected.

However, Li Yueming wasn't unhappy at all.

The reason was simple.

A special perfect genetic body could be ten times or a hundred times more powerful than the energy that was being injected into him!

After all, in the world of technology, Li Yueming's body was also very strong.

However, it was still very far from the martial arts world.

This time, the reincarnation mark would return all his extraordinary power to him.

In fact, the increase in Li Yueming's strength was quite limited.

However, a perfect genetic body was different.

It was enough for Li Yue Ming to climb up a terrifying step!!

In order to make sure that he was not mistaken.

Li Yueming quickly opened his personal interface and glanced at it.

[Permanent Reincarnator: Li Yueming] [Reincarnation Number: 7001611] [Mark of Reincarnation Level: LV3 (9500/10000)]

[Reincarnation Points Balance: 843400]

[Origin Power: 100 times talent enhancement!]

[Fixed Talents: Infinite Deduction (gold), Perfect Genetic Body (shiny gold)]

[Fixed Talent: 1]

Fixed number of talents: 2 ”

After confirming that the perfect genetic body was in the fixed talent column.

Li Yueming was very excited.

What Li Yueming was most worried about was that the reincarnation imprint wouldn't be able to replicate the perfect genetic body talent for him.

After all, a perfect genetic body wasn't a special talent that was drawn when one reincarnated.

There was no way to set the number of times through talent.

If he did not bring out the Reincarnation Mark, it would be a huge loss.

But now.

His heart returned to his stomach.

The mark of reincarnation was very humane.

He directly turned the SSS-rank energy return into the talent of copying the perfect genetic body.

Moreover, after the end, he was automatically deducted a fixed number of talents and a fixed number of talents.

In the mailbox, 3-15741 had sent him the perfect gene serum suppressors.

Li Yueming didn't understand what the name meant.

He thought about it.

He decided to open his mailbox to take a look.

After all, back when he was researching the perfect gene serum, he couldn't produce two perfect gene serums using the same method.

Li Yueming also did some investigation.

After some in-depth research.

He realized that this thing didn't seem to have been 'researched' by him at all.

It was something that the planet's will possessed.

Li Yueming had only managed to obtain the collection of the planet's will by accident through infinite deduction.

And now.

The angry and exasperated Planet-15741's will obviously couldn't do anything to him.

Only then did he deliver the so-called perfect gene suppressors to him.

[Perfect Gene Suppressor]

[There was once a powerful planet that developed a super evolutionary drug. After being injected with the Super Evolution Potion, creatures could evolve into countless perfect forms according to their own will and the changes in the external environment. However, in the end, this drug evolved into a terrifying disaster because of its infinite evolution. The entire universe was swept by the disaster, and the planet that developed the drug also suffered a devastating blow!]

[When you find that you can't control your body to stop evolving, please inject

Chapter 285: Public Reincarnation World, Trial About

Us! 1

The perfect gene suppressors.

At first, Li Yueming didn't feel how precious this thing was.

However, after seeing the introduction of the Reincarnation Mark, he finally understood what it was.

Now, Li Yueming had a perfect genetic body, and he had the ability to evolve infinitely.

This ability sounded heaven-defying, but its effect was equally heaven-defying.

Simply put, as long as they could not kill Li Yueming.

In the end, they would become nutrients that would make Li Yueming stronger.

That's why.

With just one unique effect, the perfect genetic body was recognized by the reincarnation mark as a 'shiny gold' talent that was even rarer than gold.

However, this talent was not without danger.

As everyone knew, the genetic warriors developed from the gene serum were always very powerful.

3-15741 On the planet, the Cloud Sky Corporation had become extremely powerful precisely because of their research on genetic warriors.

However, the shortcomings of genetic serums and genetic warriors had always been very obvious.

Even if Li Yueming obtained the so-called 'Perfect Gene' drug, he could not escape this fundamental logic.

The greatest flaw of the perfect gene serum was that it was too perfect.

If there was a creature that could do it flawlessly...

Then this creature must be against common sense, no matter what kind of creature it was.

There would always be pros and cons, adaptation and unadaptation.

However, after injecting the perfect gene serum, the injection could reverse this underlying logic.

Whether it was mountains or oceans, fire or ice.

As long as they couldn't instantly kill the person who injected them, the creatures with perfect genetic bodies would quickly adapt to various extreme environments through crazy evolution.

However...

The heavens were very fair.

Common sense and overly perfect things often did not need external forces to end them.

Because the ones who ended them were often themselves.

If the so-called infinite evolution exceeded the limits of the body and mind, then Li Yueming would become a monster that could only evolve.

After destroying everything, he would eventually destroy himself.

Therefore, although unlimited evolution was good, it could even be considered a bug-level talent.

However, if he didn't control it and evolved randomly...

Then Li Yueming's fate would be quite miserable.

And now, the drug given to him by planet 3-15741 was the perfect genetic body's suppressive agent.

Possessing it gave Li Yueming a chance to be a good person again.

When Li Yueming couldn't control his body's self-evolution.

As long as he injected this drug into his body before he completely lost his mind, there was a high chance that Li Yueming would slowly return to normal.

This was a pretty good treasure for Li Yueming.

After all, genetic evolution was quite uncontrollable.

Even with the support of the golden talent, Infinite Deduction, Li Yueming could not guarantee that he would not have any problems.

After putting away the gene serum, the spoils of war from this reincarnation were finished.

Overall, the harvest was pretty good.

After all, after becoming an official reincarnator and possessing sufficient foundation, he would be able to become a reincarnator.

Reincarnation points and extra reincarnations were no longer the highest pursuit for Li Yueming.

Now, his pursuit had long become more powerful combat strength and more powerful talent.

And this time, whether it was the special Unique Title or the special shiny gold talent.

The increase in Li Yueming's strength was very impressive.

Therefore, if he had to say it.

This reincarnation was even more rewarding than the previous two reincarnations.

Li Yueming stretched his body.

He was about to open the Reincarnation Forum and shop around.

This time, he was given eight additional reincarnations.

Li Yueming would never be able to use up so many reincarnation privileges.

Instead of putting it in her backpack, it became moldy.

He might as well sell it for reincarnation points and then find that little sister named Wang Linlin to continue buying secret manuals to increase his combat strength.

Of course, these were not the most important things.

The most important thing was that Li Yueming also received a lot of questions during this turn.

The biggest question was naturally about the Zergs.

Traces of the Zergs could be found in countless worlds, and almost all of them were existences that would cause Order to pale at the mention of them.

However, why was there no relevant information on the reincarnator forum?

Was it because his level was not high enough, or was there something else he did not know?

Secondly, many worlds were connected.

However, how did each world differentiate between distance and time?

These were questions that Li Yueming had never considered before.

After all, all the students who had not activated the Reincarnation Mark at that time were learning and thinking about how to become reincarnators.

As for what would happen after becoming a reincarnator, thinking too much could only be called fantasizing.

Now, after so many reincarnations.

Li Yueming felt that he had to spend some effort to understand more.

However, just as he was about to look for information...

In the reincarnation mailbox, a light yellow vellum letter appeared in Li Yueming's line of sight.

Li Yueming looked around.

After confirming that there was no one or the Drifter in the surroundings.

Then, he reached out and took the letter out of the mailbox.

The last time he had just completed his reincarnation.

A similar letter had also appeared in his mailbox.

At that time, the existence in the letter called itself 'us', and told Li Yueming that if he obtained three SSS-rank scores, he would be able to accept' our 'trial..

Chapter 286: Public Reincarnation World, Trial About Us! 2

The contents of the letter were vague, and the information revealed was also mysterious.

The strangest thing was that as Li Yueming's gaze swept past, the words on the letter would disappear.

When Li Yueming finished reading the last word.

The contents of the letter had also returned to a blank!

In order to find some clues about 'us'.

Li Yueming had also asked some senior reincarnators on the forum.

However, he did not receive any information related to it on the forum.

After asking to no avail.

Li Yueming could only keep this information in his heart.

He was prepared to wait for the next time the other party came to find him and see what the group of people who called themselves 'us' were up to.

And now.

Li Yueming had completed three SSS-level reincarnation scores, reaching the standard of adding 'us' in the envelope description.

As expected...That group of mysterious gods and secret gods, and that group of mysterious gods and secret gods.

The envelope in the mailbox was exactly the same as the last time.

Even the positions were exactly the same.

If Li Yueming hadn't confirmed that he had already disposed of the letter from last time...

He would probably even think that the envelope in the mailbox this time was the same as the one from last time.

He did not know what method the other party had used to bypass the Reincarnation Mark and stuff things into his personal mailbox.

so...

What would be left for him in the letter this time?

Holding the letter, Li Yueming took it out of the mailbox.

After gently tearing open the red ink.

Inside was a familiar piece of brown paper and red ink.

"Congratulations on obtaining three SSS-rank scores!"

"No matter how many main worlds you have entered, no matter how many life and death tribulations you have experienced...To be able to obtain three SSS grades meant that you were the most outstanding person among the reincarnators!!!"

"You have already obtained the qualifications to join 'us'!"

"In your next reincarnation, please bring out your best state.'We' will be testing you in the dark at any time!"

“Good luck!”

Li Yueming read the last line of text on the envelope.

The red fountain pen ink also slowly disappeared on the paper.

He took a deep breath.

Li Yueming casually cursed, “What a f \* cking lunatic!”

After complaining.

Li Yueming crumpled the paper into a ball and stuffed it into his pocket.

This bunch of ignorant guys were mysterious the entire time, and they even liked to add scenes for themselves.

He sent an envelope to Li Yueming.

After that, he said that Li Yueming was qualified to join them.

The most ridiculous thing was that he said that he would test Li Yueming in the next instance dungeon.

But in fact, Li Yueming had never expressed his intention to join them.

Who are you sending it to?

Do I have to join you just because I know you?

Please don't add some random fans to yourself, okay?

After making sure that there was nothing else in the mailbox.

Li Yueming closed his email.

He was not in a hurry to return to the real world.

After all, the reincarnation space was quite quiet, and no one disturbed him.

Who knew how many troublesome things would happen after he returned to the real world!

He opened the Reincarnator forum and took a look.

The reincarnation forum was still the same as before. It was as lively as ever.

Li Yueming glanced at it a few times.

Only then did he realize that the group that Maple Leaf in the Clouds had pulled him into was flashing.

He opened it.

It was even more lively than the reincarnation forum.

Don't Bully the Poor (Ji Ning):”Brothers, I think we can enter the public dungeon again in a month's time. If we're lucky enough to run into one, is there anyone willing to team up with me?”

Ominous Old Age (Qian Fengtian): You dog, you cheated me of a Jade Water Xuan Pill in that fantasy world. When are you going to return it to me?”

Don't Bully the Poor (Ji Ning): Why do I seem to hear a dog barking? If you didn't cheat me of my supreme grade sword, would I cheat you of your Jade Water Xuan Pill?"

The Coffin's Plate Shakes (Hou Pingyin): "Stop quarreling. Do you two feel uncomfortable every time you don't black something?"

Tomb Raider's Tears (Wang Linlin): "Speaking of which, this little girl is not good at martial arts. Is there any big brother who can bring me along?!"

Don't Bully Young Poor (Ji Ning): "Ah, rich woman Lin Lin, can I ask for a mistress?!"

Tomb Raider's Tears (Wang Linlin): "I don't keep trash. Get lost!"

Don't Bully the Poor Youngster (Ji Ning): "Linlin insulted me. Sob, sob, sob, sob. I'll get lost immediately..."

The Coffin's Plate Shakes (Hou Pingyin): "Oh, man, it seems like you're lucky that Lin Lin didn't hang you up and beat you up last time!"

Don't Bully the Poor (Ji Ning), [You're bringing up the sore spot, right?] Just you wait, don't let me see you in the instance this time. If I see you, I'll definitely use Sap to knock you unconscious and sell you to a brothel!"

He skimmed through the chat messages.

Li Yueming quickly flipped to the latest chat page.

The group chat was still refreshing.

Clearly, these guys were all rather idle.

He was bragging in the group.

However, the 'public dungeon' mentioned by the other party caught Li Yueming's attention.

After completing the first three reincarnations in the single-player dungeon.

Li Yueming had now become a serious reincarnator.

During the subsequent reincarnation process.

He would have a chance to enter some high-level worlds, and he might even encounter reincarnators who were hiding like him..

Chapter 287: Public Reincarnation World, Trial About

Us!—3

Without a doubt.

This was an interesting challenge for Li Yueming.

As for the 'Team Dungeon' mentioned in the Group chats, it was a relatively special rule issued by the Reincarnation Mark.

It was different from ordinary reincarnation.

Team Dungeons might only be opened three or four times a year.

Every time, a large number of public reincarnation worlds would be opened!

Most importantly, entering these 'public reincarnation worlds' did not require additional reincarnation authority.

As long as a reincarnator had a reincarnation mark, they could enter the public reincarnation world once it was opened.

Similar to playing games, leveling maps that originally required a fee became free.

This kind of free opportunity would naturally cause many reincarnators to scramble to enter.

There were seven types of public dungeons.

They were the primitive world at the beginning of Sequence 1, the feudal world at the beginning of Sequence 2, the apocalyptic world at the beginning of Sequence 3, the urban world at the beginning of Sequence 4, the martial arts world at the beginning of Sequence 5, the xianxia world at Sequence 6, the fantasy world at Sequence 7, the bizarre world at Sequence 8, and finally, the illusory mythical world of Sequence 9 that had never been opened.

Every time the reincarnation mark opened up three different Sequences of the world.

It can be used by the reincarnators to choose.

For example, the public dungeons that were released previously were Sequence 1 primitive worlds, Sequence 3 apocalyptic worlds, and Sequence 4 urban worlds.

Under such circumstances.

Technology-based reincarnators would naturally choose Sequence 3 and Sequence 4 apocalyptic worlds and urban worlds.

After all, Sequence 3 and Sequence 1+ apocalyptic worlds and urban worlds had a higher probability of obtaining the enhancement of powers related to technology.

For example, valuable mechanical blueprints, biological potions, weapons with super destructive power, and so on...

This was a point for reincarnators who specialized in technology to increase their strength.

As for the reincarnators of the individual power side, they were naturally more inclined to head to the primitive world.

After all, some primitive worlds were quite awesome.

There was even a certain chance of obtaining various divine beast bloodlines, spiritual herbs with compelling essence, and some illusory primordial qi.

These things were very beneficial to warriors, cultivators, and immortal cultivators.

Some top-grade goods were even more valuable than the treasures in the Xianxia world.

All in all.

Every time a public reincarnation dungeon was activated, the reincarnators would be very lively.

A large number of reincarnators would basically participate in this feast.

Of course.

This was also attractive to Li Yueming.

After all, although it was not bad for him to reincarnate alone, the world he reincarnated in was too unknown. It was purely based on his face and metaphysics.

And now, his strength was already quite powerful.

Reincarnating into some ordinary worlds would only increase his strength less and less.

If he wanted to improve further, Li Yueming had to go to some worlds with higher combat strength.

However, the probability of reincarnators entering such a high-level world was often something that could only be encountered by chance.

Therefore, he had no choice.

If this public reincarnation dungeon could open a public world with a fantasy or Xianxia serial number.

Therefore, Li Yueming was quite attractive to her.

After all, as long as he had the Fantasy Xianxia serial number in the public world, he would at least give Li Yueming a considerable guarantee. More importantly, it felt so f \* cking good to be a freeloader!

He pondered for a moment,

Li Yueming shook his head.

For the time being, he could still wait and see about the public dungeon.

If there was really a relevant serial number to choose from, he could just follow them in.

It was better to sell his things first.

The last time, it was not as shocking as it seemed, just to be on the safe side.

Li Yueming sold his original fourteen reincarnation rights five times, plus he spent one time opening the reincarnation world. At that time, he still had eight reincarnations left.

And this reincarnation was settled.

The mark rewarded Li Yueming with eight reincarnations.

In other words, Li Yueming now had the authority to reincarnate sixteen times.

This was a terrifying number.

Sixteen reincarnations was enough for many small reincarnators to use for a month.

Li Yueming alone had so much.

Therefore, he had no choice.

Li Yueming was ready to sell some more.

After all, with his ability, the number of reincarnations he had would only increase in the future.

It's useless for him to have so many reincarnation privileges

While there was no 'inflation', it was better to continue selling a portion of the authority to exchange for reincarnation points to increase his strength.

He thought about it.

Li Yueming sent a message in the group.

Moon Star's Little Newbie: "Everyone, do you still want the extra reincarnation authority?"

The moment he sent the message.

The originally lively Group chats suddenly quieted down.

Before Li Yueming could figure out what had happened.

In the next second.

The Group chats suddenly exploded again.

The Coffin's Plate Shakes (Hou Pingyin): "F \* ck, isn't this a newbie? It had not been bubbling for so many days... Could it be that another dungeon has been 0Dened?"

Tomb Raider's Tears (Wang Linlin): "Big brother, big brother, the quality of the martial arts secret manual you bought last time was okay, right? I asked for another set of fist technique manuals from my family. Although it can't be passed on to outsiders, if it's you, big brother..."

June Flowing Fire (Su Fei): [The newbie wants to trade reincarnation rights again?] What did this mean? This meant that the new player's reincarnation score was likely to reach S-rank again... Wodefa is simply terrifying!"

Chapter 288: Public Reincarnation World, Trial About

Us!\_4

Yunduan Fengye (Qin Ritian): Selling reincarnation rights again? How many times would he sell it this time? (Elemental Perception)"

Lost Flowing Cloud (Proud Wind): "Ritian Qin, the last time you questioned the newbie boss, it wasn't like this. Hurry up and show some momentum!" Yunduan Fengye (Qin Ritian): "Shame from embarrassment (emoji)!"

After Li Yueming sent the message.

Almost immediately, a large group of members who were diving and spying on the screen exploded.

Even the group leader, Yunduan Fengye, was also blown up.

Last time, because Li Yueming wanted to sell five reincarnations.

Therefore, Li Yueming was treated as a swindler by the Cloud Maple Leaf.

However, when he found out that Li Yueming had actually given him five reincarnations at once, the attitude of the Cloud Maple Leaf immediately changed.

After all, he was the son of a high-ranking official in Shanghai.

Many of the rich second-generation heirs in this group might more or less have some personality or temper problems.

However, he was quite good at judging people and befriending them.

After knowing that Li Yueming might be a big shot or a future big shot.

All the members of the group wanted to build a good relationship with him.

However...

This time, after hearing that Li Yueming was going to sell the number of reincarnations again.

Yunduan Fengye's occupational disease immediately acted up again.

After all, most of the members in the group didn't know or didn't want to believe it. They had always been inclined to think that Li Yueming was a big shot pretending to be a newbie.

But he knew.

There was a high possibility that Li Yueming was a pure newbie.

As a friend of the newbies.

Novice Village Mentor.

The biggest problem of the maple leaves in the clouds was that they liked to be teachers.

To put it simply, he liked to preach and act tough.

He especially liked to preach and act cool in front of newcomers.

Every time he persuaded the newcomers.

He could feel the newbie's admiration and praise for him, as well as the feeling of waking up from a dream after being inspired.

The maple leaves in the clouds would feel so good that they couldn't control themselves.

Of course, although he liked to act cool and preach, he was usually doing it for the good of the newcomers.

That's why.

Although there were occasionally people on the forum who complained that he liked to act tough.

But overall, the reputation of Maple Leaf in the Clouds was quite good.

And now.

After seeing that Li Yueming was ready to sell the number of reincarnations that were extremely precious to rookies.

The maple leaf in the clouds couldn't help but fall ill again.

He thought about it.

In the end, he tagged Li Yueming in the group and said after some deliberation, ""@ Moonstar, isn't it nice to have extra reincarnation authority at the beginning of reincarnation? Really, don't just sell it out!"

Seeing this situation.

Li Yueming sent a shy emoji and replied: “Thank you for the reminder, but my reincarnation authority is really quite rich, and I happen to be short of money, so it’s better to sell some extra reincarnation authority to make a living!” He saw their comments.

The group members who were still discussing fell silent for a moment.

After everyone understood the logic behind his words.

Instantly...The entire Group chats exploded again.

The Coffin’s Plate Shakes (Hou Pingyin):”Uh... Just started reincarnating? No way, could it be that the newbie big shot was really a new reincarnator who had just graduated?”

Moon Star (Little Noob):[I seem to be saying that I’m a noob all the time, right?] If you don’t believe me and think that I’m lying to you, I can’t do anything about it!”

Tomb Raider’s Tears (Wang Linlin):”Really? Dumbfounded!”

Lost Flowing Cloud (Proud Wind): [If the newbie boss is really a newly graduated reincarnator...] F \* ck, if he could obtain more than five reincarnations in his first few reincarnations, wouldn’t that be even more terrifying? I’m already prepared to buy a rope to hang myself!”

June Flowing Fire (Su Fei): Hahaha, I think it should be that kid Liu Yun and the newbie big boss working together to make fun of us...Right?”

Don’t Bully the Poor (Ji Ning):”I don’t care. I’m the only one at the bottom of the group anyway. So, does the boss need underlings?” I’m really good at causing trouble...”

After the group of people in the Group chats came back to their senses.

They all felt a huge wave of disbelief surging from the depths of their hearts.

All along.

They all thought that Li Yueming was a big shot who liked to act cute.

After all, there were all kinds of people these days.

It wasn’t too strange for the old birds to have fun.

After all, the Maple Leaf in the Clouds was an out-and-out eccentric.

He liked to act cool in front of newbies.

But now.

Yunduan Fengye suddenly stood up and said a few words, but the information he revealed was quite rich!!!

Although the maple leaves in the clouds were sometimes more unreasonable and unreliable.

However, he was still quite helpful at the crucial moment.

Otherwise, he wouldn’t be the owner of this group.

However, if Li Yueming was really a reincarnator who had just advanced...

Then he estimated that he had reincarnated two or three times at most.

Reincarnate two or three times, and each time you can obtain additional reincarnation authority...

What did this symbolize?

This meant that Li Yueming's reincarnations should be at least A+ grade!!!

It was even very likely that it was an S-class or an SS-class.

If it was true, it was true.

Then Li Yueming was definitely a super invincible potential stock.

One had to know that even reincarnators from aristocratic families like them had all kinds of information and training advantages.

To obtain an [A+] grade score, one would have to accumulate at least four or five dungeon runs before they had a chance of obtaining one.

And now.

Li Yueming had only reincarnated three times.

The extra reincarnations he gained had already surpassed the results of the hard work of most ordinary reincarnators for several years..

Chapter 289: Public Reincarnation World, Trial About Us!\_5

It was simply too awesome.

After thinking about this point.

All the members in the Group chats instantly paid more attention to Li Yueming.

After all, big shots often had their own forces behind them.

Even if they wanted to support the stinking feet, the big boss had no time to care about a group of ignorant and incompetent rich second-generation heirs.

However, it was different for people with potential like Li Yueming.

If he could befriend him.

Even if it was just to look familiar.

When Li Yueming took off, the benefits were unimaginable!!!

After thinking about all of this.

Some members in the group started to persuade him.

Lost Flowing Cloud (Proud Wind): Although it's unbelievable, if the newbie boss is really a new reincarnator... To be honest, if you really have too much reincarnation authority, don't be in a hurry to sell it! After all, it was very easy to sell this thing. It might be sold in an instant, but it would be troublesome if he wanted to spend money to buy it back later!"

Tomb Raider's Tears (Wang Linlin): "That's right, that's right. Don't get too excited, boss!"

The group of people started talking at once.

Obviously, in their opinion, the reincarnation authority was not something that was often sold.

Li Yueming would ask if anyone wanted to buy it after every reincarnation.

How should he describe this feeling?

It felt very strange.

For example, looking at a person holding a piece of shiny gold in his hand, but not knowing its value, it was like using it to smash a walnut.

It was simply a waste of heavenly resources!

That was why they took turns to persuade him.

Listening to their messy messages.

Li Yueming suddenly felt a headache coming on. He didn't explain further and said, "Everyone, don't be anxious. I want to sell ten reincarnations this time. Is there anything you want?"

This message was sent to a high-level.

Instantly.

The group members who had been persuading him were instantly stunned. They could not come back to their senses for a long time.

The entire Group chats fell into a moment of silence.

What the f \* ck, is there a mistake?

Since when did he have so much reincarnation authority?

Did the newbie big shot steal the will of heaven and earth from a reincarnation world?

How could he take out so many reincarnation privileges at once?

However, Li Yueming didn't care so much.

He hung up the ten reincarnations permission for everyone to see.

Last time.

It was because he was not strong enough.

Therefore, Li Yueming was more conservative and low-key. He only sold five reincarnations, but this time was different from the last time.

With the perfect genetic body, Li Yueming had the confidence to protect himself.

He was no longer worried that he would be easily coveted by others and lose his life, so this time, he directly sold ten reincarnations in one go.

After seeing the bright picture.

Only then did the members in the chat group come back to their senses.

If only there was a microphone now.

The entire Group chat was probably filled with gasps!!!

It took less than a minute.

The ten reincarnation privileges that Li Yueming peddled were sold out. This once again brought Li Yueming a total of 600,000 reincarnation points.

In addition to the remaining reincarnation points from the previous settlement.

Now, Li Yueming had nearly 1.5 million reincarnation points!!!

Such an amount.

Even Li Yueming was speechless.

The vast majority of ordinary reincarnators entered the reincarnation world carefully.

I'm deeply afraid of making a mistake.

However, he was clearly operating a nuclear money-printing machine!

It was even faster than running to the streets to rob money.

He counted his own balance.

Li Yueming was satisfied for a while.

In the end, he didn't hesitate to look for Wang Linlin to see if he could buy a few more powerful secret manuals.

After all, whether it was reincarnation points or extra reincarnation times, they were not very meaningful to Li Yueming in the warehouse. He could only exchange it for a success technique and a secret manual.

Only then could he truly increase his strength.

Earn money to become stronger, and then earn more money to become stronger.

It formed a perfect closed loop!

Thinking of this...

Li Yueming opened his contact list.

He found Wang Linlin's private chat and asked, "Are you there? Do you have any more secret manuals?"

Not long after the message was sent.

Wang Linlin immediately replied to Li Yueming's message and said, "Yes, yes, yes. I still have a lot of secret manuals here. I can get my family to help you find whatever you want!!"

Obviously, Wang Linlin's attitude this time was more enthusiastic than last time.

Li Yueming thought for a moment and said, "As long as it's a martial arts, fantasy, or xianxia secret manual, I want it. As for the price..."

On the other side of the Reincarnation Mark.

Wang Linlin stuck out her tongue and replied carefully after a while, “Um, I can only provide martial arts secret manuals at most. Fantasy secret manuals can’t be obtained with money... However, I just called home. This secret manual can help you break your bones!”

Chapter 290: Spending a Million Reincarnation Points to  
Return to Star-Moon City!\_1

Hearing Li Yueming’s request.

On the top floor of the Shanghai skyscraper, Wang Linlin couldn’t help but wipe the non-existent sweat off her face.

According to Li Yueming’s description.

It was as if these martial arts, fantasy, and xianxia cultivation techniques were like rotten cabbages on the street.

He casually grabbed a large number.

However, in reality, only martial arts cultivation techniques and secret manuals were sold at a lower price, and there were still people who would trade and sell them in the market.

As for the stronger ones.

The rare and precious secret manuals of fantasy and xianxia were unparalleled.

Every single one of them was the trump card of those powerful individual Mighty Power Reincarnators. They would not easily take them out to trade.

As for the reason...It was very simple!

First of all, there was a 99% chance that a rubbish manual could not be brought out of the reincarnation World.

Even if the remaining one percent was brought out of the reincarnation world, it would be due to the different world laws and the conflict of the world’s will.

Not all cultivation techniques could be taken out to cultivate.

In the history of reincarnators, there were many reincarnators who died suddenly every year because they forcefully cultivated incompatible cultivation techniques.

It wasn’t even something rare.

Moreover, most of the natives in the fantasy world had relatively high combat strength, and the rules of the world were relatively strict.

He had transmigrated to such a high-level world.

It was very likely that even if a few reincarnations were tied up, they would not be able to kill a hot shot.

Under such circumstances.

Even those powerful and experienced reincarnators could not match him.

If one wanted to collect a secret high-level secret manual in the fantasy world, they would also need a considerable amount of luck!

There were so many factors combined.

Xuan Huan and Xianxia cultivation techniques that could be brought out of the reincarnation world and cultivated with effects were all rare to a certain extent. Wang Linlin was only the third daughter of the Wang Family in Shanghai.

Even if she was the head of the Wang family now.

It was probably impossible for him to take out a high-level cultivation technique to sell.

Therefore, Wang Linlin could only stick out her tongue and say, "Um, I can only provide martial arts manuals at most. Fantasy and Xianxia manuals are the treasures of our Wang family. The family definitely won't allow them to be sold to outsiders..."

Hearing her reply.

Only then did Li Yueming come to his senses.

Indeed, some of the high-level cultivation techniques of the fantasy and xianxia side could be used as a treasure.

It was reasonable not to sell them.

He did not reply to her message.

Wang Linlin thought that he was angry, so she quickly said, "But I just called home. This martial arts secret manual can help you break your bones!" Hearing this.

Li Yueming came back to his senses and smiled. He teased, "Ah... How many fractures were there? I admit that I was a little rude just now, but it's not to the extent of breaking my legs, right?"

On the other side of the Reincarnation Mark.

Wang Linlin smiled when she saw this. "Hehe, the original price is 250,000 yuan. The discounted price is 200,000 yuan." As for the price of the bone fracture, it was something that I fought for! As long as 100,000 reincarnations are enough, what do you think? Isn't it worth it?"

A secret manual worth 250,000, and a bone fracture worth 100,000.

Good heavens.

How was this worth it?

It was clearly a huge profit.

This girl didn't know if there was a mine at home.

The market price was 250,000 for a book, and he was giving him 100,000 for a book.

If it was placed in an ordinary person's home, it would probably be enough to break a bone.

He thought about it.

Li Yueming did not accept her kindness.

After all, the number of reincarnation points was just a number to Li Yueming.

As long as he continued to reincarnate and become stronger, he would only obtain more and more reincarnation points in the future.

Therefore, he had no choice.

Li Yueming would not owe too many favors for the reincarnation point.

There was an old saying.

If you can settle it with money, don't use favors.

To experts, favors were often ten times or a hundred times more precious than reincarnation points.

Although Li Yueming hadn't become a true expert yet.

However, there was no need for this kind of transaction to take advantage of others.

It wasn't like he couldn't afford it.

Why would he owe a favor just to save money?

Therefore, Li Yueming said, "100,000 reincarnation points is too low." How about this, we'll still use the 200,000 reincarnation points from last time. It won't affect our friendship. How about it?"

Wang Linlin was stunned.

Fortunately, as a child of a big family, Wang Linlin was very sensitive to such words.

After thinking about it for a while, she quickly understood what he meant.

100,000 reincarnation points for a high-level martial arts manual was already half the market price.

She had urgently transferred this from her family.

If it wasn't for her two brothers who doted on her and her father who was the clan leader, she probably wouldn't have been able to apply for so many secret manuals so quickly.

And now, he was selling it to Li Yueming at such a low price.

Wang Linlin was under a lot of pressure.

Once Li Yueming wasn't the so-called "potential stock" or "future big shot"

In the future, he would probably be punished by a group of family elders and juniors.

However, Li Yueming obviously didn't think that there was such a relationship between the two of them.

Thus, he didn't want to take advantage of this.

Only then did he take the initiative to continue buying at the previous price of 200,000 reincarnation points per book.

Of course.

The most important thing in this sentence was that Li Yueming expressed his desire to be friends at the end...

In other words, Li Yueming wanted to be friends with her, but he didn't want to owe her a favor or take advantage of her.

After thinking about the logical relationship between them.

Wang Linlin couldn't help but have a better impression of Li Yueming..
