

Maxing MT 291

Chapter 291: Spending a Million Reincarnation Points to Return to Star-Moon City!_2

After all, there were many people who climbed up the ladder these days.

However, people like Li Yueming who took the initiative to draw a clear line between them were still relatively rare.

The most important thing was...

To befriend someone, the first step was often the hardest.

However, as long as he took this step, the subsequent good relations would actually be smooth sailing.

Thinking of this...

Wang Linlin didn't continue to struggle and sent a shy emoji."Since the newbie boss doesn't want to go further, let's start with being friends. How many secret manuals do you want to buy this time?"

Li Yueming looked at his 1.5 million reincarnation points.

If one secret manual was worth 200,000, he could buy seven of them with these reincarnation points.

However, Li Yueming obviously wouldn't squeeze all the reincarnation points in his pocket dry. It would be best to leave 500,000 reincarnation points for emergencies.

Therefore, he directly opened his mouth and said, "Give me five books first!" Wang Linlin was speechless.

He widened his eyes and looked at the words in the Reincarnation Mark chat box.

Wang Linlin thought she was seeing things.

After repeatedly confirming that Li Yueming said five books first and not one or two books first, he was shocked.

Wang Linlin suddenly felt like she was in a daze.

I'll go... What was going on?

If she remembered correctly, this newbie had just bought three secret manuals from her some time ago, right?

One book cost 200,000 reincarnation points, and three books cost 600,000 reincarnation points.

To ordinary reincarnators, 600,000 reincarnation points was already an astronomical figure. Many reincarnators would not be able to earn that much even in their entire lives.

But how long had it been since the last transaction?

Why did the newbie big shot take out a million reincarnation points to buy a secret manual?

So... Did Li Yueming reincarnate or print money during the time he disappeared?

It didn't make sense!

Wang Linlin felt like she was doubting her life.

One had to know that even she, who was often called the little rich lady of Shanghai, was not as rich as she was.

He only had 200,000 reincarnation points a month.

However, Li Yueming was a 'newbie.' Every time he made a move, he would earn hundreds of thousands or even millions of reincarnation points.

Was it really not some big shot or a young master from a super family who came to make fun of her?

However, because they were not close enough, she did not dare to ask further. "Boss, aren't your demands too great?" he could only say gloomily. It's not good to have more cultivation technique manuals. If you practice too much, be careful not to explode and die..."

After muttering a few words, Wang Linlin quickly continued, "Wait a moment... I'll ask my brother to go back and see if there are any other suitable secret manuals and cultivation techniques!"

About ten minutes later.

The two cultivation techniques and three secret manuals were successfully traded.

Li Yueming roughly flipped through it.

Each of these secret manuals was a top-notch cultivation technique corresponding to the martial arts world.

To Li Yueming.

The specific effects of these cultivation methods and secret manuals were not the most important.

The most important thing was how much beneficial essence he could deduce and extract from it.

He wanted to absorb the essence from the dregs and integrate the essence of the cultivation technique and secret manual into the Star and Moon Art that he had created.

He continued to raise the upper limit of the Starmoon Mantra.

This was the main reason why Li Yueming had spent so much effort to deduce and collect cultivation techniques.

After all, other people's secret manuals and cultivation techniques were their paths and forms.

These forms might not be suitable for him.

Only after he had truly fused them together and made them his own could he obtain their spirit.

After spending a million reincarnation points to trade for the cultivation technique and secret manual.

Li Yueming opened the Group chats again and took a few glances.

He found that the group of bored guys in the group had already continued to talk nonsense.

Ominous Old Age (Qian Fengtian):"Speaking of which, the invasion of dark energy has been very serious recently. A few of my uncles have been dispatched to clean up the dark creatures near the city!"

The Coffin's Plate Shakes (Hou Pingyin):"Hey, aren't you going to do that? The dark energy could not be removed no matter what, so he was already used to it. Anyway, the darkness outside the city is not something I can control. As long as it doesn't affect my territory, I can do whatever I want!"

Tomb Raider's Tears (Wang Linlin):"Wuhu just made a deal with the big boss! Good heavens, the newbie boss is really generous. He bought a few more cultivation technique manuals. If this continues, my family will probably be emptied!"

Ominous Old Age (Qian Fengtian):"I'm so envious. It's a pity that I'm from a technological family. I can't make deals with newbies!"

Yunduan Fengye (Qin Ritian):"@ Wang Linlin, I thought the newbie boss was a newbie, right? Hurry up and hug him. If the big boss takes off in the future, he might be able to catch you!"

Tomb Raider's Tears (Wang Linlin):"Damn Qin Ritian, you'd better not make fun of me. Wuwuwu... I always feel that the newbie boss is so rich..

Don't Bully Young Poor (Ji Ning):"Ah, rich woman Lin Lin, can I ask for a mistress?!"

Tomb Raider's Tears (Wang Linlin):"Hurry up and die, Ji Ning!!!"

Don't Bully the Poor (Ji Ning): If I don't hear Lin Lin's insults for a minute, I feel uncomfortable all over!"

The Coffin's Plate Shakes (Hou Pingyin):"@ Ji Ning, even a pervert like me thinks that you're playing quite perverted...'

Ominous Old Age (Qian Fengtian):"@ Wang Linlin, let's set up a time next week to go to the capital together and beat un that idiot Ti Ning in a sack!"

Tomb Raider's Tears (Wang Linlin):"Okay, I'm going to call both my brothers this time!"

Chapter 292: Spending a Million Reincarnation Points to Return to Star-Moon City!_3

Don't Bully the Poor (Ji Ning):"Lin Lin can come alone. Calling two brothers-in-law is a little uncivilized! (shivering)"

The group chat was very lively.

Last time, the maple leaf in the clouds had helped him to distinguish who was who.

Therefore, they had ordered all the members to add their real names to their nicknames.

Therefore, Li Yueming could finally recognize who was who among the messy names.

From the content of the conversation, the group of people should be quite familiar with each other.

Li Yueming liked the atmosphere of the Group chats.

After all, if dozens of people in the Group chats knew each other well, there would rarely be any credibility problems.

The probability of stepping into a pit during the transaction was also much lower, which could greatly save Li Yueming's transaction expenses. After a few last glances at the Group chats he had some fun.

Li Yueming regained his composure.

He left the reincarnation space and returned to his territory.

In the real world.

After Li Yueming woke up, his first reaction was to glance at the clock on the bedside table.

This time, the level of the reincarnation world was not high.

Therefore, only three days had passed in the real world.

Star-Moon City's City Lord's Mansion was extremely quiet.

However, the territory outside was brightly lit.

Many new residents were working overtime to build their own houses.

Li Yueming thought for a while and was about to get up.

In his mind, the fluctuation of the world fragment came. "Eh, you finished reincarnating so quickly?"

Li Yueming nodded and asked, "It's over. Weren't you sleeping?"

Hearing this.

The world fragment shook violently for a moment before saying, "Don't mention it. I was sleeping and was disgusted by the World Molt that I ate last time..." Li Yueming, [Concealment.]

Good heavens.

Who would have thought that the world fragment that was known as the eighth brother of the planetary world would find the molt disgusting?

This thing was really smelly!

However, just as Li Yueming was about to comfort it...

The consciousness of the world fragment spoke again, "So how was your reincarnation this time? Did you get a new world molt?"

Li Yueming, [Concealment.]

Good heavens.

It was no wonder that the World Fragment was so eager to join him when he had just reincarnated into a world.

So it turned out that the real thing was waiting to continue feeding.

It has to be you!

He already knew how disgusting the World Molt was, yet he still couldn't forget about it.

Thinking of this...

Li Yueming rolled his eyes and said, "No, go play somewhere else!"

The world fragment muttered to itself and then shook.

He seemed to be retching.

Soon, there was no sound.

Li Yueming ignored him.

After stretching his body.

His originally tense nerves also relaxed a lot.

He casually opened the world fragment space where the spiritual rice was planted and checked it.

Although the only way has been too much too much too much too much too much too much too much too much too much too much too little too much too much too much too much too much too much too much too much too much too much too much too much... At a rough glance, the sprouting and survival rate of this batch of seeds seemed to exceed 90%. This survival rate surprised Li Yueming.

She almost broke her waist.

One had to know that things with the word 'spirit' on them were extremely delicate.

If ordinary reincarnators wanted to be nurtured, they would basically have to spend a lot of effort to find someone to take good care of them.

But even so.

Under normal circumstances, even if they guarded the ling fields 24 hours a day, they would not be able to do so.

The rate of seed sprouting and survival was only about 30%.

Basically, it would not exceed 50%.

While he was planting the seeds into the small world, Li Yueming was busy cleaning up the dark energy in his territory.

Therefore, he had basically not taken care of it since he planted it.

But now.

However, these seeds still reached more than 90%.

The reason why he could do this.

Li Yueming thought for a moment and quickly came up with an answer. First of all, it should be beneficial for the spiritual energy in the small world to be sufficient.

After all, Li Yueming had just fed the world fragment a small hamburger made by Old Eight.

If this guy was so stingy that he didn't even give him any spiritual energy to nurture his flowers and plants...

Li Yueming would probably flip the table and make it spit out the little burger.

Secondly.

Li Yueming also had the management rights of the small world fragment.

He could control the temperature, humidity, and even the light of the world.

Therefore, even if he didn't have time to take care of the ling fields.

However, as long as the daily weather conditions were set, these data would be matched with the preferences and characteristics of many spiritual plants.

Then, he could just leave it to the world's laws to operate.

He didn't need to worry much. The temperature and environment in the small world would allow the spirit plants to grow healthily.

If this news were to spread...

It was estimated that many forces that specialized in selling this kind of spiritual energy food for a living would be so envious that they could not sleep at night.

After all, even if some of the top powers had world fragments.

However, they might not be like Li Yueming, who had the right to manage the fragment world.

He roughly scanned the Spirit Field.

Although the scale was not particularly large.

However, if this batch of spirit herbs could mature and be harvested.

At the very least, he should be able to sell it for a million reincarnation points.

It could be considered Li Yueming's only source of income other than the reincarnation score settlement reward.

As the number of reincarnations increased, the time that the reincarnators needed to rest and digest their gains would generally increase correspondingly.

The main reason was that the additional reincarnation authority was relatively precious.

It was the mental state of the reincarnator.

After all, the more reincarnations one had, the harder it was for the reincarnators to recover from the reincarnation world.

Many veteran reincarnators.

Every reincarnation might require a year and a half to prepare.

He would strive to adjust his own situation to the best.

In this process of cultivation, other sources of income were very necessary.

After cleaning up everything.

Li Yueming got up and opened the door.

He was prepared to go outside to take a look at the construction of the city.

Although the City Lord's Mansion sounded quiet, it did not mean that there was no one guarding it. However, because they were afraid of disturbing Li Yueming, who was the Lord, the people working basically did not make too much noise.

Therefore, the moment Li Yueming opened the door.

Zhao Shiya, who heard the voice, quickly rushed in.

Now.

As Li Yueming's secretary...

Zhao Shiya had already taken over the construction of Star-Moon City and the relocation of its residents.

However, although Zhao Shiya was very concerned about this, she still handed most of the matters to her subordinates.

She spent most of her time guarding Li Yueming's City Lord Mansion.

Other than reading official documents.

The main purpose was to ensure that she would be the first to know when Li Yueming returned from the reincarnation world.

After all, she was a secretary.

The main job was to help the City Lord solve the problem.

Zhao Shiya was not stupid enough to put the cart before the horse and hand over the job of serving Li Yueming to someone else.

Li yuemmg came out.

Zhao Shiya bowed respectfully and said, "City Lord!" He was born in a large local family.

Zhao Shiya's self-restraint was undoubtedly excellent.

It was just a bow.

Her gentle and refined feminine temperament could make people feel very comfortable.

Li Yueming glanced at her and asked, "How is the city construction going? Did you encounter any problems?"

Zhao Shiya thought for a moment and replied, "Reporting to City Lord. Due to the help of the Reincarnator Association, the construction of the city is in full swing. I estimate that in about three months, the first batch of cities will be completed..

She glanced at Li Yueming and continued, "However, yesterday, the local Reincarnator Association of Linjiang came to look for you..."

"Linjiang Reincarnators Association?" Li Yueming asked in confusion. Why are they suddenly looking for me?" Zhao Shiya shook her head.."

Chapter 293: The Worries of the Reincarnator Association, Darkness

Li Yueming was confused.

Zhao Shiya quickly added in a low voice, "The person from the association is also a reincarnator. From the looks of it, he should be about your age!"

"She didn't say much, and I didn't dare to ask..."

Li Yueming waved his hand. "I understand. It's not your fault!"

Although he did not know why the Reincarnator Association suddenly looked for him.

However, with just a little thought, he knew that it was not good news.

Otherwise, she wouldn't have specially looked for him alone.

Therefore, for the time being, Li Yueming was not interested in understanding what happened.

After all, if there really was an emergency, the ReReincarnator Association would definitely come back after hearing that he had returned.

Li Yueming didn't say anything else.

He got up and walked out of the City Lord's Estate with Zhao Shiya.

In Star-Moon City, many ordinary citizens were working overtime.

After all, when the city was just built, everything had to be done.

If the people wanted to start a normal life, the first thing they had to do was to build houses.

This was because there were some technological tools provided by the Reincarnator Association.

The city was built very quickly.

Less than a week had passed since the construction of Star-Moon City had officially begun, and the city had already formed a simple outline.

Presumably, it wouldn't be long before a city that belonged solely to Li Yueming rose from the ground.

When the two of them were patrolling outside, they were recognized by many ordinary people who were busy in the territory.

Of course.

As a lord, Li Yueming rarely appeared in the city.

And even if they appeared, they would most of the time come and go without a trace.

Other than the first batch of residents who had just entered the city, he had read out some things to take note of when entering the city.

The other 80% of the residents were completely unfamiliar with him.

The reason why he could recognize it.

It was also because Zhao Shiya was following behind him respectfully.

After all, they might not know the City Lord.

However, they still knew Zhao Shiya, who was the City Lord's secretary.

Li Yueming was patrolling.

The group of residents were still very excited.

The gazes they looked at him with were mostly mixed with respect and yearning.

Once upon a time.

They also had the hope of advancing to become reincarnators.

However, as the dream was shattered, many residents felt a strong sense of disparity.

Li Yueming had specifically instructed the principal of Linjiang No.2 Middle School to find more young and strong people to come to his territory.

After all, being young meant being energetic.

He could accept many new things.

Maybe he could help Li Yueming in the future.

As a cheater.

The Star-Moon City that Li Yueming was preparing to build was different from the Star-Moon City that the other reincarnators had a fixed impression of.

Only young people could adapt to his rhythm.

Of course, Star-Moon City was still in its infancy.

As for the follow-up reform ideas, they were still at the stage of slowly exploring.

However, just as Li Yue Ming was inspecting a city wall.

Not far away, dozens of young people who looked like students suddenly saw Li Yueming.

For a moment, they all stopped what they were doing and stood rooted to the ground.

Li Yueming also saw them.

Only then did he realize that they were all classmates who had been together for a few years in the reincarnator school.

Most likely, the principal had sent most of the young students who had not become reincarnators from Linjiang Second High School to Starmoon City.

Therefore, Li Yueming could see his classmates in the city he ruled.

However, Li Yueming Ming didn't have much of a relationship with his fellow classmates.

It was only limited to a nodding acquaintance.

As a top student.

In the past ten years, Li Yueming had spent most of his time studying. In addition, he was not the kind of player who had his own social skills.

Therefore, he had no choice.

All along, he had been the kind of person who was more solitary and unconventional in class.

Often, after class, many students would gather in groups of three to five to discuss how they would become reincarnators in the future. Only Li Yueming would still sit in the corner by the window and silently review various materials and homework.

After a long time.

No one was willing to take him in.

After all, in their opinion, whether or not one could reincarnate was a matter of luck.

The majority of the reasons for success or failure depended on whether they could draw a good opening talent or reincarnate into a less dangerous world.

Personal reasons had always been a small part of the statistics.

As for Li Yueming, who only knew how to memorize books every day, it was naturally very difficult for them to understand.

And now.

The classmates were still the same group of classmates, but their identities had changed drastically.

Li Yueming became the reincarnator lord that everyone respected.

However, they became one of the unremarkable people in Li Yueming's territory.

Of course.

Li Yueming wasn't arrogant enough to think that he was so great.

After all, if he did not have the golden finger of a hundredfold increase in talent, it was still a big question mark whether he could successfully become an official reincarnator.

Therefore, everything was fate and not at all controlled by others.

In the face of fate, what humans could decide was limited.

The two of them looked at each other for a few seconds. "So it's you guys!" Li Yueming smiled and said.."

Chapter 294: The Worries of the Reincarnator Association, Darkness (2)

He didn't say much, nor was he very cold. He didn't change much from when he was in school.

Seeing this situation.

On the contrary, the group of students started to panic.

After all, they had discussed Li Yueming behind his back in the past.

Now that he had become a reincarnator.

Li Yueming was no longer on the same level as them.

If they angered Li Yueming now, they would all be finished.

She greeted him.

After a moment of being stunned, a girl wearing glasses in the crowd came back to her senses and whispered with a red face, "Li Yue... City... City Lord, what can I do for you?"

Li Yueming smiled, but a complicated feeling rose in his heart.

He didn't continue the conversation and said directly, "Nothing, haha, you guys continue with your work!"

Li Yueming turned around and left.

Behind him, Zhao Shiya looked at them deeply.

What a pity...

This group of youths who seemed to be the City Lord's classmates did not seem to have a good relationship with the City Lord.

Otherwise, he would really be able to ascend to heaven.

However, Zhao Shiya only sighed in her heart.

Her own identity had yet to be completely stabilized.

How could he put his extra thoughts on a group of unimportant people?

He watched the two of them leave.

Only then did the students come to their senses.

In the past, they had always felt that Li Yueming was very hypocritical.

After all, who was like him?

Every day, he was like an emotionless machine, repeating the boring and boring learning and training.

That's why.

That was why many students were so against him.

After all, when everyone was slacking off, they would naturally grit their teeth in hatred when they saw the Curly Hair King.

But now.

After seeing Li Yueming really become the official reincarnator that countless graduates dreamed of.

However, he was still as calm as before...

Only then did they understand that the gap between them had already been closed unknowingly.

By the time they came back to their senses, there was already a huge gap between them and those outstanding people!!!

After the inspection, he returned to the City Lord's Mansion.

Under Zhao Shiya's service.

Li Yueming went to the bathroom to rest.

He ate spiritual fruits, soaked in the hot spring, and lay in the boiling water to relax his exhausted spirit from reincarnation.

He looked at the huge bathtub that was still steaming.

For some reason, Li Yueming felt empty, as if something was missing.

After pondering for a moment.

Li Yueming suddenly understood why the previous City Lord had built the bath so big.

Good fellow...

A real-life version of a pool of wine and a forest of meat, right?

Behind him.

Zhao Shiya peeled a grape and fed it to Li Yueming.

This was a high-quality grape variety cultivated by the Huadu Spiritual Plant Association. It was also cultivated by the spiritual field and the spiritual spring.

Not only was it sweet and delicious, but it could also provide sufficient energy for the reincarnators.

Even among the reincarnators, this fruit was a luxury.

The price of each pill was shocking.

However, Li Yueming clearly did not lack reincarnation points.

Therefore, he didn't feel any heartache when he ate it.

After swallowing one, he felt the sweetness bloom in his mouth.

Li Yueming closed his eyes and rested for a moment.

Only then did he open his eyes." There's a guest. Help me prepare my clothes!" Zhao Shiya didn't know who the guest was.

However, he still got up quickly and prepared to prepare a change of clothes for Li Yueming.

At this moment, outside the city lord's mansion.

A figure slowly descended from the sky.

This figure was also a young girl, but her face was like an ice mountain.

He seemed very cold.

He was just short of carving the words 'keep strangers away' on his forehead.

After approaching the City Lord's Mansion.

A small group of soldiers in charge of patrolling and guarding rushed out and said with a vigilant expression, 'Who is it?'

The young girl's indifferent eyes merely swept over them.

The group of soldiers felt as if they had fallen into an ice cave.

He could not help but feel a chill run down his spine.

Instinct told them that the girl in front of them was very terrifying. She was not an existence they could afford to offend.

However, their responsibilities made them afraid to disperse.

He could only swallow his saliva and slowly retreat.

At this time, Li Yueming had already put on his clothes and walked out of the bathroom.

He looked at the girl outside the door and said, "You are..." Mu Youyou? Why did the Reincarnator Association send you to send me a notice?"

This girl was also a student of Linjiang No.2 Middle School.

Li Yueming wasn't familiar with her, but she wasn't a stranger either.

Mu Youyou was the eldest daughter of the Mu family, a local reincarnator family in Linjiang. She was also the dream lover of countless youths in Linjiang Second High.

For quite a long time, Mu Youyou was the center of attention in Linjiang Second High.

Of course.

This matter had nothing to do with Li Yueming.

The key was that Mu Youyou was also a reincarnator with her own territory.

The two of them were of equal status.

Logically speaking, there was no need for the Reincarnator Association to send her here as a messenger.

Therefore, he had no choice.

There were only two possibilities:

First, the matter that the Reincarnator Association was looking for him for was quite important.

Secondly, the Mu family of Linjiang wanted to befriend him through Mu Youyou.

According to Li Yueming's guess, it should be both.

He saw him walk out of the City Lord's Mansion.

Mu Youyou glanced at him from top to bottom, and the cold aura that erupted from her body was restrained a little..

Chapter 295: The Worries of the Reincarnator Association, Darkness (3)

After a moment, he said concisely, "Many high-level dark creatures have appeared near Linjiang. The Reincarnator Association is preparing to gather all the reincarnators in Linjiang to join forces to deal with them. My uncle asked me to inform you!"

Hearing this.

Li Yueming was stunned for a moment, but he immediately recovered.

Previously, when he had just come out of the reincarnation world, he had heard from the Group chats that the former Fengtian disciple of Shanghai had mentioned that the invasion of dark energy had become more serious recently.

Now, it seemed that the same problem had occurred in Linjiang, so the Reincarnator Association specially sent Mu Youyou to inform him.

Thinking of this...

“When do you need me to go over?” Li Yueming asked after a moment of silence.”

Mu Youyou’s reply was equally concise. “Now!”

The dark energy that engulfed the entire world was the common enemy of all reincarnators and even all intelligent creatures in the entire main world.

High -level dark creatures appeared near Linjiang.

If he left it alone.

The amount of dark energy gathered would increase, and the dark creatures that grew within would also become stronger.

In the end, all the reincarnators and cities under Linjiang would suffer.

Hence, under such circumstances, Li Yueming Ming wouldn’t hide anything.

He didn’t hesitate for too long.

Li Yueming nodded and said, “Alright, let me give you some instructions!””

After communicating with Zhao Shiya.

Li Yueming quickly followed behind Mu Youyou and headed for the Linjiang Reincarnator Association.

On the way.

Li Yueming felt that Mu Youyou’s gaze was constantly sweeping over him.

He didn’t know if it was an illusion.

Li Yueming seemed to feel a trace of hostility from the other party.

After repeatedly confirming that this was not an illusion, he felt that he was not mistaken.

Li Yueming touched his face and couldn’t help but ask, ””Yes... Have I ever offended you?”

Mu Youyou frowned.

After a moment, he said, ” You didn’t offend me. I just hate the curly king!”

Li Yueming, [Concealment.]

What the f * ck, what reason did you have?

Why does it sound so strange?

Li Yueming thought that Mu Youyou would give many answers.

For example, because she did not like him being too handsome and too suave...

Or maybe it was because she didn't like his good grades and how he kept a low profile...

However, he never expected this girl to say that she hated the curly king...

It could be said that he was snocked.

Can you please maintain your image?

Where was the cold beauty?

Seeing Li Yueming's face full of question marks, as if he didn't understand her words, the girl continued, "My family stipulated that I have to get first place to get pocket money, but ever since I transferred to Linjiang No.2 Middle School, I've always gotten second place in my exams..."

As he spoke.

She looked at Li Yueming with a serious expression and said, "So...I hate the curly king!"

Li Yueming, [Concealment.]

At this moment, he really wanted to complain.

However, there were too many things to complain about. For a moment, he did not even know where to start.

Li Yueming touched his stiff face and took a few deep breaths. He finally smiled and said, "It seems like I've always been number one. I'm really sorry..."

Mu Youyou glanced at him but did not speak.

About half an hour later.

The two of them arrived at the headquarters of the Linjiang Reincarnator Association.

After showing the reincarnation mark.

Under the lead of two staff members of the Reincarnator Association, they entered an empty meeting room.

In the middle of the conference room, the president of the Linjiang Reincarnator Association was gesturing something on the stage.

When he saw Li Yueming and Mu Youyou arrive, he paused and gestured for them to find a place to sit down.

Not far away, someone waved at Li Yueming and Mu Youyou.

He looked over.

One of them was a fat man with disheveled hair, Wu De, who looked like a Daoist.

Next to Wu De sat Wang Shuming, whose body was shining with a metallic luster.

They were all old acquaintances who greeted Li Yueming last time.

Therefore, he had no choice.

Li Yueming walked over without hesitation.

Beside him.

When Mu Youyou saw Wu De, her eyes could not help but show a trace of disgust. However, she still obediently followed behind Li Yueming and sat beside him.

After sitting down.

Li Yueming looked up and found that the president of the Linjiang Reincarnator Association branch on the podium seemed to be describing the new dark erosion nodes near Linjiang.

He took a cursory glance.

Good heavens, the electronic screen was filled with a dense crowd. If these were all dark corruption nodes, there would be at least a hundred of them.

No wonder the Reincarnator Association was so anxious.

He directly gathered all the reincarnators in Linjiang to discuss countermeasures.

He was still thinking.

Fatty Wu De, who was on the right, asked in a low voice, "You entered the reincarnation world again these few days?"

Regarding this.

Li Yueming didn't hide anything and nodded. "Yes... Since he had nothing to do, he went through another reincarnation!"

Wu De also nodded and said cheerfully, "It's pretty good. Young people are very motivated. I'll try to become a Level 3 reincarnator within these two months!"

Becoming a level 3 reincarnator in two months was already a very bold estimate by Wu De.

After all, Li Yueming had displayed a ridiculous amount of combat power in Star-Moon City.

It could be seen that he had great potential.

However, he probably would not have dreamed that Li Yueming had already reached Level 2 after the first reincarnation.

Now, after three reincarnations.

He had already broken through to Level 3 and was only one step away from becoming a Level 4 reincarnator.

Of course.

Li Yueming wasn't stupid enough to reveal such information.

However, since they had already spoken.

Li Yueming took the opportunity to ask, "Senior, I was called over as soon as I returned from the reincarnation space. So, what's the exact situation now?" Hearing this, the fat Daoist Wu De was just about to answer.

But at this time, Wang Shuming, who was sitting next to him, spoke first. "The situation is not good. The darkness corrosion in many surrounding areas may have already reached Level 3 pollution. The most serious ones are even showing signs of advancing to Level 4 pollution!"

"The number of nodes and the degree of pollution of the Darkness Erosion this time have already exceeded the scope of Linjiang City's response. The higher-ups have already asked the provincial capital for help...However, before the reinforcements arrive, we have to maintain the stability of Linjiang City!" Wu De glared at Wang Shuming.

A moment later, he said in a muffled voice, "I'm the one who's asking. Why are you stealing the limelight, you guy whose mind is filled with engine oil?" He didn't pay any attention to the two people's daily bickering.

Li Yueming nodded. He had a complete idea.

Chapter 296: Luring the Tiger from the Mountain, King of the Dark Creatures! 1

According to the introduction of the Linjiang branch president of the Turn Around Association.

The erosion of the dark nodes around Linjiang was not something that happened in the past few days.

Half a year ago.

In fact, there were already signs.

However, Linjiang City was really lacking in manpower. A large number of outstanding reincarnators had been poached away by those large factions and cities.

That's why.

In the face of the increasingly polluted dark nodes, many of Linjiang's reincarnators used various methods to eliminate a batch.

However, due to the lack of manpower.

However, there were still many dark world points that he had not managed in time.

By the time many reincarnators had time to spare, the corruption of these dark nodes was already quite serious.

Now, it had already reached the point where even ordinary Level 4 and Level 5 reincarnators could not control it.

He had no choice.

The Linjiang Reincarnator Association, who was helpless and had a numb scalp, could only write a report to the provincial capital to see if the headquarters could send one or two big shots above Level 6 to deal with the problem.

Before waiting for the headquarters to reply.

The Linjiang Reincarnator Association naturally could not wait for death.

Now, they had decided to carry out a large-scale clean-up of these dark invasion nodes.

Of course.

The purpose of this clean-up was not to eliminate the dark nodes outside Linjiang City.

After all, if they had the ability, the Linjiang Reincarnator Association would not have to write a letter to the provincial capital.

It was to prevent the corruption of the dark nodes from continuing to worsen.

Otherwise, if he dragged on for another month or two, the node of the Darkness Invasion would completely go out of control.

Even if the provincial capital sent a Level 5 reincarnator, they probably wouldn't be able to handle everything.

In addition.

What was worth mentioning here was...

The monsters and sources of pollution in the dark invasion nodes were not physical.

Under normal circumstances, only reincarnators could destroy it with the help of the Reincarnation Mark.

The level of the Reincarnation Mark was also relative to the level of pollution in the real world.

To put it simply.

If the reincarnator had a Level 3 Reincarnation Mark.

Then, it could cause 100% damage to the monsters in the Level 3 pollution source.

However, if the reincarnator only had a Level 2 Reincarnation Mark, then it could only deal 80% damage to the monsters in the Level 3 Pollution Source.

This was also the reason why high-level reincarnators were so precious and respected.

Many high-level pollution Pollution Points could only be removed and treated by high-level reincarnators.

After explaining everything.

The president arranged missions for all the reincarnators.

They formed a team of four and began to clean up the monsters in the dark world node outside the city.

Under the condition of ensuring his own safety.

They would try to clear out a portion of the pollution sources in the nodes to prevent them from continuing to invade endlessly.

During the matchmaking segment.

Fat Taoist Wu De opened his mouth and said, "You two are newbies. It just so happens that the two of us are both Level 4 experienced reincarnators. Why don't we form a team together?!"

Even Wang Shuming, who had always been at odds with Wu De, nodded in agreement. "Yes, you are newcomers after all. You don't know much about dark creatures and darkness invasion."

Li Yueming didn't care about that.

He looked at Mu Youyou behind him and said, "What do you think?"

Mu Youyou glanced at Wu De and Wang Shuming.

He then looked at Li Yueming and pinched his nose. "Sure!"

Hearing this, Li Yueming was shocked.

He had thought that Mu Youyou would reject the suggestion of forming a team.

After all, she was a discerning person who could tell that she did not have a good impression of Wu De and Wang Shuming.

After all, one of them was a greasy fatty, while the other was a mecha warrior with glowing eyes.

It was probably impossible for any normal girl to like him.

However, he never expected that Mu Youyou would actually nod in agreement under such circumstances.

What the hell was this?

He seemed to have sensed the astonishment of the three people.

Mu Youyou looked at Li Yueming and said coldly, "My family asked me to find an opportunity to observe your potential!"

Li Yueming, [Concealment.]

Aren't you being too direct?

He might as well not pretend at all!

However, Li Yueming thought about it and found it acceptable.

After all, it was more magnanimous to say it directly.

Those who hid behind the scenes and caused trouble were really disgusting.

On the other hand, Wang Shuming and Wu De, who were standing beside them, had a blank expression on their faces.

After all, the two of them were also locals of Linjiang.

Although she was not born in a family, she should have heard some rumors about the eldest princess of the Mu family.

He had never come into contact with them before.

The two of them did not know if those rumors were true or false.

Now, it only confirmed that the rumors in the outside world were true.

According to the legends, the eldest princess of the Mu family was extremely beautiful and gifted since she was young.

However, God seemed to think that this collection was too perfect, so he gave her a head that was different from ordinary people.

To put it simply, he was not very smart.

He was the kind of person who was straightforward.

Just like that.

The four of them formed a small team.

They began to sweep the southeast of Linjiang City.

According to the plan.

Wang Shuming and Wu De were the main force of the team to remove the source of pollution.

Li Yueming and Mu Youyou were in charge of providing cover and adding damage.

Regarding this.

Li Yueming naturally had no objections.

Actually, to him.

It didn't matter how many people formed a team or what position they were responsible for.

If he wanted to.

He could explode with power that could crush everyone in the team at any time.

The reason why he was unwilling was that he was afraid of trouble..

Chapter 297: Luring the Tiger from the Mountain, King of the Dark Creatures! 2

After all, he was a newcomer.

Exploding too much strength would only attract unnecessary attention and suspicion.

Therefore, since the Linjiang Reincarnator Association had already applied for support from the provincial capital.

Then, Li Yueming had no need to make such a meaningless move.

Was it not nice to keep a low profile and develop?

When his strength was strong enough, anyone who wanted to attack him would have to carefully weigh their own weight.

Therefore, he had no choice.

The initial cleaning process was relatively smooth.

After all, the area near Linjiang City was usually polluted by Level 1 and Level 2 pollution.

Most of the corrupted dark nodes were rank 1 and rank 2 dark creatures.

Even Tier 3 dark creatures were extremely rare.

Therefore, the cleaning process was very simple.

He would first find the contaminated dark nodes according to the map issued by the association.

Then, Wu De and Wang Shuming rushed up and started killing.

With their strength as senior level 4 reincarnators, ordinary level 1 and level 2 dark creatures were no different from clay chickens and pottery dogs in front of them.

After killing more than half of the dark creatures in the dark node.

The four of them started to search for the next place to clean up.

As for Li Yueming and Mu Youyou...He was paddling the entire time.

The previous battles were basically one-sided, and they did not need to make a move at all.

Wang Shuming didn't say anything.

However, Wu De was rather smug.

He even took the initiative to brag and show off some of the Taoist skills he had learned in the Xianxia world to Li Yueming.

He took out an Eight Trigrams Compass that was used for divination.

He casually shook a few bamboo sticks and said, "Look at my special skills in the Xianxia world back then..." I count!"

In the beginning, Li Yueming was still interested in this.

After all, Wu De had been in the Xianxia world before. No matter what, he should have some skills.

However, Li Yueming felt that something was wrong.

This guy's signature move.

Why did he look no different from a fortune-teller on the roadside?

Therefore, Wu De, this fatty.

Bragging about how awesome he was in the Xianxia world.

Could it be that he was referring to setting up a stall by the roadside to read fortunes?

The more Li Yueming thought about it, the more he felt that it was possible. He couldn't help but feel a little speechless.

After a while.

Wu De finished fiddling with his messy set of scaring equipment.

However, when he finally took out the bamboo stick, he saw the words written on it: The worst draw would be a disaster.

If it wasn't 'Uncle Jian crying for his master', it would be 'The Latter Ruler has lost his country'!

Fatty felt as if he had been struck by lightning.

After a long while, he muttered, "Eh, what's going on? Is there a problem with my calculations?"

At the side.

Wang Shuming couldn't help but roll his eyes."I told you long ago, believe in science!"

Seeing this situation.

Li Yueming almost lost his merit points.

Fortunately, Fatty did not pay any attention to them at all. He just kept muttering.

However, this kind of relaxation and leisure soon came to an end.

He looked at a crack that looked like a black hole on the plain not far away.

Wang Shuming said in a low voice, "According to the markings, this should be a level-three pollution node. The two of you must be careful. If anything happens here, the Reincarnation Mark will definitely not protect you."

Hearing this.

Li Yueming nodded.

Mu Youyou, who was beside him, stared at Li Yueming silently.

When she saw that the three of them were looking at her, she nodded her head vigorously.

The division of labor between the four remained unchanged.

As the two senior reincarnators in the team.

Wang Shuming and Wu De walked in front.

After entering the pollution node.

He realized that there was a school inside the node.

Wang Shuming and Wu De, who were walking in front, saw this and their pupils shrank subconsciously.

Everyone knew.

The more intact the buildings in the pollution node were, the more intelligent the monsters were.

After all, many of the lowest level dark creatures only knew how to destroy. Only dark creatures with a little consciousness would not cause damage everywhere.

Now, although the school had been eroded by the node.

However, the building was well-preserved and there were no signs of wanton destruction.

This meant that the dark creatures were definitely not simple.

The four of them slowly approached.

Their auras also spread to the nodes.

Sure enough, hundreds of giant black wolves quickly ran out of the classroom.

Seeing this situation.

Wang Shuming and Wu De immediately took a few steps back.

The fat Taoist priest, Wu De, cursed out loud, "There are so many peak stage three polluting substances. These idiots from the exploration team are f * cking cheating me again. Sooner or later, I will be killed by them!"

Wang Shuming's mechanical eyes flashed with red light and said, "There are so many Tier 3 dark monsters. There will definitely be many Tier 4 existences among them...The four of us definitely won't be able to clean it up. Let's go back and call more people!"

As he spoke.

LU Icavc.

Although Wang Shuming said that there were four people, he was actually saving face for Li Yueming and Wang Linlin.

In fact, in the dark node of this level of pollution, he had already tacitly agreed that only he and Wu De had combat power.

Although Li Yueming and Mu Youyou were both people with potential, they had just become reincarnators not long ago.

His foundation was still not solid.

It definitely could not be counted as a complete combat power. It was estimated that the two of them combined could only be counted as half a combat power.

Hence, they were surrounded by so many Tier 3 and Tier 4 monsters.

Retreating was the safest and most rational choice.

However, just as the four of them were preparing to leave...

However, he was surprised to find that the path of retreat that should have been behind him had been moved thousands of meters away!

After discovering this, he was shocked.

Wu De cursed again,"Oh no, this is an unstable node that's easy to come in but hard to get out of." It seemed that it would not be so easy to get away if there was no blood today!"

Wang Shuming was obviously too lazy to say anything at this moment.

He had already pulled out his weapon and was ready to fight.

Before the battle, he didn't forget to say to Li Yueming and Mu Youyou,""When you fight later, you must pay attention to protect yourself from the dark creatures coming from behind and on both sides. Don't be injured by those monsters."

Hearing this.

Li Yueming and Mu Youyou both nodded.

At this moment, just as they were talking, the huge black wolf in the school had already rushed out.

Although they were in the form of wolves.

However, it was clearly not a real wolf.

Instead, it was a monster condensed from pure dark energy. It was extremely corrosive to the human world and reincarnators.

After being injured.

Even reincarnators had the risk of being assimilated into darkness!

Just like that.

The battle was about to begin.

The Giant Black Wolf was one of the stronger forms among the Tier 3 Dark Creatures.

Moreover, these giant wolves all had some low intelligence. They knew how to surround and ambush.

Finally, there were a few tier 4 black giant wolves mixed in.

Therefore, he had no choice.

Even for Wang Shuming and Wu De.

This was a huge challenge.

Behind them.

Li Yueming and Mu Youyou finally started to make their moves.

As a big shot whose Reincarnation Mark was infinitely close to Level 4 and whose strength was quite terrifying.

These giant black wolves couldn't withstand a single blow from Li Yueming.

However, in order to be able to slack off in the future.

Li Yueming didn't show much of his fighting strength.

They only managed to deal with some of the black wolves that were preparing to ambush them from the sides and behind.

Li Yueming was most surprised.

In fact, it was still Mu Youyou who was not far away.

This fellow had basically obtained the Reincarnation Mark at the same time as him.

But now.

Mu Youyou had also displayed a powerful strength.

Although it was still a little difficult to deal with the giant black wolf, it did not reveal too much of a disadvantage for the time being.

After fighting for a long time.

The four of them finally managed to escape from the encirclement of the dark creatures.

However, before they could take the initiative to contact the Reincarnator Association to report the abnormal news here.

However, he realized that a few staff members of the Association of Reincarnators had stumbled over. They shouted in fear, "Everyone, please return to Linjiang City immediately. The Dark Wave is coming!" Dark Tide?

Hearing this word, everyone, including Li Yueming, was stunned.

On the contrary, the first to react was the fat Taoist priest, Wu De.

This sloppy and greasy fatty gave himself a tight slap at this moment. He gritted his teeth and said, "I was wondering how I managed to get the worst draw today. So this is the problem. Damn it, we've fallen into the dark creatures 'trap!'"

Hearing this.

Wang Shuming also quickly came to his senses and his expression changed. "Could it be that a tier 6 king of dark creatures has appeared in the dark node outside Linjiang?"

Chapter 298: A Passing Card Hit, The Sleeping Dragon Awakens! 1

Could it be that a Tier 6 King of Dark Creatures had appeared outside Linjiang City?

He thought of this possibility.

Wu De and Wang Shuming's expressions changed drastically.

Without a word, he got up and rushed back.

Li Yueming was a little confused.

He had heard of the King of Dark Creatures before, but he had just become an official reincarnator not long ago. He really did not know much about dark creatures.

It was probably because he had taken this into consideration.

When they were on their way to Linjiang City, Wang Shuming explained to him, "Under normal circumstances, although the dark creatures in the dark nodes are very terrifying, they rarely attack cities and human settlements on their own. Most of them just wander around...'

"Under normal circumstances, the contamination in these dark nodes is irrational." will be born in the dark node."

"The lowest-level king of dark creatures is at least a tier 6 creature. Not only does it have intelligence that is not inferior to humans, but it can also command all the low-level dark node creatures within thousands of kilometers!"

"Now, if the dark creatures really plotted against us and attracted all the reincarnators of the Linjiang Reincarnator Association before launching a surprise attack on Linjiang City."

"Then the only reason is...A king who could command many dark creatures was born in the dark node!"

“In the past, the cities were destroyed, and countless reincarnators and ordinary people were corrupted by the darkness. They were basically all done by the King of Dark Creatures!”

“You should understand what I mean, right?”

Hearing this.

Li Yueming nodded.

The strongest reincarnator in Linjiang City seemed to be the head of the Mu family.

He was Mu Youyou’s father, an experienced Level 5 reincarnator.

The other families also had one or two Level 5 reincarnators.

However, there was still a gap between him and the Mu family’s patriarch.

In this situation, Linjiang City wanted to face the attack of the Tier 6 King of Darkness.

There was basically no possibility of resistance.

Unless the provincial capital could send high-level reincarnators over to put out the fire as soon as possible, the entire Linjiang City was in danger of being destroyed.

At this moment, the reincarnators who had been transferred away previously also received the news through the Reincarnation Mark.

They were rushing back.

Even so, the entire Linjiang was in a mess.

In the beginning.

The Reincarnator Association still wanted to hide the news of the arrival of the Dark Wave.

However, half of the sky outside Linjiang City had been dyed black.

Close to 100,000 muddle-headed beasts had gathered outside the city, causing quite a commotion.

Seeing that the news could not be hidden, and the situation was very bad.

Only then did the Reincarnator Association turn on the broadcast and spread the news, telling all the ordinary people in Linjiang City to prepare to move their territory.

“All ordinary residents of Linjiang, please pay attention. The dark wave is about to arrive!”

“Next, please be prepared at any time. Once the situation changes, the Reincarnator Association will send staff to guide you to evacuate!”

When he heard about the ‘Dark Wave’s Concealment.

Countless residents immediately fell into panic.

If it was any other news, they might not be too sensitive, but the ‘dark tide’ was a phrase that they often heard and was extremely sensitive.

After all, so far.

The humans had destroyed at least 80 cities and settlements because of the dark tide.

Linjiang's dark tide was equivalent to them facing a calamity!

Therefore, when he heard this news. How could they not panic?

Fortunately, the Reincarnators of the Reincarnator Association and the various territories reacted extremely quickly.

After confirming that the Dark Tide was about to arrive, the two of them were stunned.

He immediately arranged an escape route for the ordinary people.

However, even so, this still could not calm the fear in the hearts of nearly hundreds of millions of people.

After all, although the Reincarnator Association had arranged for them to evacuate, how many people could really escape this disaster?

Without a doubt, this was a terrifying unknown.

At the same time.

Another broadcast from the Reincarnator Association targeting all reincarnators was also spread.

"All reincarnators in Linjiang City, please pay attention. If you are unwilling to head to Linjiang City to fight the enemy, please assist in escorting the ordinary residents of your respective territories to retreat!"

"Our Reincarnator Association will stall for time for you!"

This message was sent through the Group chats and friend slot in the mark of the reincarnation. All the reincarnators who joined the Linjiang Reincarnator Association received this message.

Many reincarnators had different reactions when they saw this news.

Some chose to stay, while others chose to leave.

However, no matter what, basically all the reincarnators still arranged a way out for the residents of their territory.

This wasn't just out of conscience, it was also the responsibility of a lord.

If they abandoned the city and ran for their lives, or if the residents of the territory were too heavily injured, they would be killed.

Although the reincarnators would not suffer too harsh punishment. However, it would be difficult to obtain another territory that belonged to them.

Even if he applied to obtain the territory again.

However, because they had abandoned their cities or suffered heavy casualties, their reputation was not good, and they could not recruit too many residents who were willing to enter the territory.

This was also the final restriction on the reincarnators.

Under normal circumstances, unless it was absolutely necessary, no reincarnator would easily abandon their territory and territory residents.

Among the reincarnators notified by the Reincarnator Association, Li Yueming was naturally included..

Chapter 299: A Passing Card Hit, The Sleeping Dragon Awakens! 2

After more than an hour of traveling at full speed, the four of them were not far from Linjiang City. Far away.

A dense dark creature aura was already emitted.

When they got closer, they saw tens of thousands of dark creatures flying up the city wall outside Linjiang City.

There were many soldiers and reincarnators fighting with them.

However, at this moment.

Wu De and Wang Shuming suddenly stopped.

Fatty Wu De looked at Li Yueming, while Wang Shuming looked at Mu Youyou, who was beside Li Yueming. The two of them said with a serious expression, ""You are all newcomers, and quite outstanding newcomers. It is the pride of all Linjiang locals to give up the opportunity to develop in a big city and stay in Linjiang!"

"However, you can't interfere in this disaster, so... Return to your own territory and help the commoners evacuate!"

It was obvious that the two of them did not want Li Yueming and Mu Youyou to get involved in the Dark Wave.

After all, he could already feel that the situation in Linjiang City was not good just by looking from afar.

Many dark creatures attacked the city wall.

It was probably only a matter of time before they fell.

If they went to the battlefield, they would really die if they were not careful!

As local residents of Linjiang, they grew up in Linjiang.

After becoming a reincarnator, due to his ordinary talent and some nostalgia for his hometown.

Therefore, he stayed in Linjiang City and did not leave.

Now, Linjiang City was facing a disaster.

As locals, they could naturally rush to the front line without any scruples. But Li Yueming and You You were different.

They had just become reincarnators and had a bright future ahead of them. It would be a pity to die here.

Hearing this.

“Actually, you don’t have to be so anxious. Let me go!” Li Yueming laughed.”

As a person who liked to keep a low profile and develop, he was a very low-key person.

If it wasn’t necessary, Li Yueming really didn’t want to show off.

After all, there were too many unknown in this world.

A low-profile person would live longer than a high-profile person.

But now, the situation was already very serious.

If he allowed these dark creatures to rush into Linjiang, he would definitely lose Star-Moon City, which he had just started to build.

Therefore, Li Yueming was not prepared to continue diving.

Although he was only a level 3 reincarnator who was close to level 4.

However, he had experienced several times of 100% power return.

If only in terms of combat power, the basic would be the basic.

It was estimated that all the reincarnators in Linjiang City might not be enough for him to fight.

However. Wu De and Wang Shuming didn’t think that was the case.

After all, he was a young man...

It was normal to be overconfident.

It was already praiseworthy to not retreat under the assault of the dark tide.

Wu De patted him on the shoulder and said, “Kid, don’t try to be brave. Listen to your uncle’s advice and go back quickly!”

Wang Shuming didn’t speak.

However, his cold face had already explained everything.

He looked at the serious expressions on their faces.

Li Yueming thought about it and suddenly stopped insisting.

He smiled and said, “Alright, in that case...” Then I’ll go back and arrange the territory first. You two take care of yourselves!”

Hearing that he no longer insisted on his own opinion.

Wu De and Wang Shuming heaved a sigh of relief.

Obviously, they were afraid that Li Yueming would follow them.

After all, there were more than just Tier 1 and Tier 2 dark creatures in the dark tide.

There were quite a number of rank 3, rank 4, and even rank 5 dark creatures.

In addition, there was also the Tier 6 King of Dark Creatures hiding in the dark.

In front of this dark creature, the aura was so strong.

Even veteran reincarnators like them did not have the confidence to protect themselves.

There was no need to mention a newcomer like Li Yueming.

A few high-level dark creatures could be easily killed.

After convincing Li Yueming.

Wang Shuming's red mechanical light looked at Mu Youyou beside Li Yueming and said, "What about you? The eldest daughter of the Mu family!" Mu Youyou's face was expressionless.

"My family told me to follow him. I won't go anywhere else!" she said indifferently after glancing at him.

Wang Shuming nodded.

Then, he looked at Li Yueming and said, "Alright, let's go first!"

As he spoke.

He didn't continue talking nonsense.

They flew directly in the direction of Linjiang City.

The old Taoist priest Wu De patted Li Yueming's shoulder and rushed to Linjiang City with Wu De.

After the two of them left, Li Yueming sighed.

He looked at Mu Youyou beside him and said, "After such a big incident, you should go home first. It's not safe to stay by my side!"

Mu Youyou's expression was still very cold as she replied, "My father owed me a few years of pocket money and didn't give it to me. I have to earn it all back this time!"

Li Yueming, [Concealment.]

What kind of CPU did this girl have in her head?

And at this time

Can't you be smarter?

Sensing the complicated look in Li Yue Ming's eyes, Mu You You thought for a while and said, "My father promised that as long as he observed your potential this time and reported back truthfully, he would return all the pocket money he owed me back then!"

Hearing this, Li Yueming held his forehead.

This girl's brain was not working well.

Meanwhile, the battle in Linjiang City was quite intense.

If they didn't act quickly, once the defense line was broken through and the dark creatures swarmed into Linjiang...

If he wanted to eliminate them one by one, the degree of trouble would probably increase by several levels..

Chapter 300: A Passing Card Hit, The Sleeping Dragon Awakens!_3

It seemed that there was no way to end it if he did not use violence today.

Just as Li Yueming was about to knock Mu Youyou unconscious, he suddenly asked, "How much pocket money does your father owe you?"

Obviously, Mu Youyou didn't expect Li Yueming to ask this question.

He tilted his head and thought for a moment before counting his fingers and saying, "Ten million... It should be 7,000 reincarnation points!"

Li Yueming, [Concealment.]

Good heavens, he was indeed his biological father.

7,000 reincarnation points was enough to scare his daughter. Indeed, he wasn't the only one who felt that Mu Youyou was gullible!

He did not hesitate.

Li Yueming used his killer move." Go back now. When your father asks, you can say that I'm a good-for-nothing!" "As a reward, how about I give you 10,000 reincarnation points?"

Mu Youyou was speechless.

After pondering for a moment.

She looked at Li Yueming with a pair of clear eyes and stretched out a finger."14,000!" Li Yueming, [Concealment.]

Isn't this smart?

Was he asking for an exorbitant price to pay back the money?

Forget it.

Just treat it as spending money to buy silence.

After spending 14,000 reincarnation points to send Mu Youyou away, the annoying little girl, he was finally done.

Li Yueming left the place in a few leaps.

The speed of his skill is very fast.

It was almost much faster than when they were traveling previously.

Back then, he had traded a movement technique called Moon Shadow Steps from Wang Linlin in the Group chats.

After learning it, Li Yueming improved it through deduction.

He added it to the Star-moon Art and successfully increased his speed by several times.

Now, he was using his power.

Its speed was even more terrifying.

About 40 minutes later, Li Yueming returned to Star-Moon City.

At this moment, Star-Moon City had also received news of the Dark Tide.

Countless residents were at a loss.

After all, they had just arrived in Starmoon City and did not even have a place to settle down.

And now.

He was told that he was likely to face a calamity.

Countless ordinary people were unable to accept it.

Many of them were on the verge of breaking down and arguing with each other, wanting Li Yueming to help them escape.

For this reason.

Zhao Shiya was as anxious as an ant on a hot pan.

After all, Star-Moon City had only just begun to develop, and its defenses were extremely weak.

Once the hundreds of thousands of residents were unsettled, it would be quite terrifying.

If he didn't handle it well, there would be an accident.

That was a huge matter for her.

Therefore, he had no choice.

Even though he had undergone all kinds of training and nurturing.

When she encountered such an unexpected situation, Zhao Shiya was also a little flustered.

He could only signal to the city defense army to appease the people.

When she saw Li Yueming appear above the city, Zhao Shiya almost cried out loud.

Hurriedly, he ran up and asked, "Lord Castellan, what should we do next?"

Li Yueming shot a glance at her.

He glanced at the noisy residents behind him.

He did not explain further. With a flash, he appeared in the sky and said, "Silence!" She heard his voice.

Instantly, the hundreds of thousands of residents fell silent.

After all, no matter how panicked and dissatisfied they were.

He didn't dare to show it in front of Li Yueming.

As the City Lord, Li Yueming had absolute control over their lives.

Li Yueming said.

Even if they did not want to believe it, they could only believe it.

After everyone quieted down, Li Yueming said, "Now, all the reincarnators in Linjiang are rushing to Linjiang City. I heard that the provincial capital even sent high-level reincarnators to rescue them, so everything is under control!" After saying that.

He did not care about the commotion in the city and left the city alone.

Linjiang City.

The large number of dark creatures was like Mount Tai.

It was so heavy that the entire city could not breathe.

Many reincarnators at the front line were still fighting the dark creatures. The entire air was filled with the smell of smoke.

Behind him.

Under the organization of the Reincarnator Association and the City Defense Army.

Countless residents scrambled to leave the city that was about to be captured by the darkness.

Amidst the chaos.

The father's roar, the mother's scream, the girl's cry, the boy's fear... Countless noisy and chaotic voices interweaved together, forming a silent mime.

The black and gray screen displayed the human world.

Amidst the retreating crowd.

A boy who had been separated from his parents in a panic was crying loudly with tears in his eyes.

Perhaps in his young world.

He still couldn't understand why the adults on both sides of the road had such ferocious expressions.

He only knew that the entire world was clamoring. It was noisy.

The air was filled with an aura that made people tremble and fear.

However...

At this moment.

A young man wearing a mask was like a protruding rock in the flowing water, moving against the flow of people.

At first, no one noticed him.

All the residents were terrified.

They were afraid that they would be contaminated or killed by the monsters that rushed in if they were a step late.

Among the countless residents.

He was the only one walking back against the crowd.

The masked youth walked unhurriedly against the crowd and arrived in front of the boy.

The two of them looked at each other for a moment.

The boy was stunned for a moment before he stopped crying. He looked at the big brother in front of him who was wearing a strange mask.

For some reason.

The other party's body was filled with a calming aura, which was completely different from the aura emitted by the people fleeing in fear on the road. The masked young man silently reached out and touched the boy's head.

After comforting the crying boy.

The young man picked him up and silently walked through the crowd. Finally, he handed him over to a staff member of the Reincarnator Association and said calmly, "Help me take care of him. He got separated from his parents." He looked at the child in his hand and then at the young man in the mask.

The staff was stunned.

However, it was obvious that the young man was not prepared to explain much to her.

He turned around and walked towards the front line, which was completely different from the direction of the crowd.

Seeing this, the staff member was puzzled and asked, "Who are you?"

The young man tilted his head slightly and smiled.

Through the mask, only a row of white teeth could be seen." I'm just a passerby who came to play!"

As he spoke.

Under the gaze of the staff member of the Reincarnator Association and the surrounding tens of thousands of residents, the Reincarnator Association's members were shocked.

He flew to a height of several hundred meters at a steady pace.

And before everyone could come back to their senses.

Countless golden flames slowly rose from his body.

The flames were like the hottest and fiercest existence in the world.

It suddenly erupted with a terrifying aura that made countless people's hair stand on end!

It was like a dragon that had been sleeping for thousands of years and had been suppressed by the water...

He slowly woke up from his dream!
