

## Maxing MT 32

Chapter 32

For a Beautiful Tomorrow!

There seemed to be no end to the vast and boundless Rat Dynasty.

Fortunately, the Star Moon Alliance's barrier was strong enough.

Even the ground was poured with steel bars and soil foundations that were more than ten meters deep.

Therefore.

They could still resist the attack of the Rat tide for the time being.

During this period of time.

Wang Fei and Li Xiyue almost never came out of the war room.

They were on duty 24 hours a day.

It was also because of their flawless cooperation.

Only now did the entire Alliance not have any trouble.

Although the hearts of all the members were extremely heavy.

But at least the entire Alliance was still operating in an orderly manner.

Just like that.

Three months passed in a flash.

Finally.

The Star Moon Alliance destroyed the last machine gun.

The bullets were all cleared.

Looking at the corpses all over the ground outside the city wall.

Everyone had complicated expressions on their faces.

It could be said that

This was the most intense battle since the Star Moon Alliance was established.

Although no single mutated Rat passed the defensive wall,

However, there were no less than a hundred exhausted soldiers.

They had paid such a huge price.

The Rats were only pushed back a few meters.

After a short reorganization.

The Rats continued to charge forward fearlessly.

Standing on the city wall, Wang Fei could not help but sigh when he saw this situation.

He waved his hand.

All the soldiers stood up.

He looked at the defense line under his feet with a complicated expression.

Here.

They fought with all their might.

It had been guarded by nearly 10,000 machine guns for three months.

Eventually.

He still could not stop the fate of failure.

Ten minutes later.

All the soldiers in the outer circle retreated to the second defensive circle.

As the gunpowder buried in the middle of the city wall exploded,

A loud bang sounded.

The originally sturdy outer city wall collapsed.

The Star Moon Alliance's first line of defense was completely gone.

...

On the second line of defense.

The more elite members of the Hunter team were ready to attack.

They started a new round of battle with the Rats.

And yet.

Just as everyone thought that everything would settle down again...

That night.

A giant Rat that was seven to eight meters tall suddenly attacked the northwest city wall.

A huge hole was made in it.

Fortunately, the members of the Hunter team were all elites among elites.

They discovered the commotion on the city wall in time.

That was why the losses were kept to a minimum.

This episode scared many people into breaking out in cold sweat.

After three months of manpower tactics,

Many soldiers had even forgotten that there was an even more terrifying higher level among the Rats.

It was just a thought.

The giant Rat almost seized the opportunity to break through the second line of defense.

At this point.

The frightened soldiers increased their patrols at night.

The Rats tried several times.

After realizing that they could not break through the defense line this way, they quickly lost their patience.

Half a year after the first attack of the Rat Dynasty.

Finally.

Traces of mid-level mutated Rats began to appear in the flesh.

Mid-level mutated Rats had stronger vitality.

Ordinary attacks would at most injure him.

Only the Star Rocket Cannon designed by Li Yueming could destroy it in one strike.

However, mid-level mutated Rats had higher intelligence.

After suffering a few losses.

As long as it saw a rocket launcher aimed at it from the city wall.

It immediately turned around and fled.

This almost roguish harassment caused the soldiers extreme pain.

They had to spare manpower at any time.

It was to guard against the sudden appearance of mid-level mutated Rats.

But after a day.

The gains were often few and far between.

There were not many rocket launcher shells.

Therefore.

Before he had absolute confidence in killing the giant Rat,

To save shells.

The gunners could only watch helplessly.

As time passed,

The Star Moon Alliance was also in an increasingly dangerous situation.

A few times, the Rats even climbed up the wall of the second line of defense.

It was a group of thirteen or fourteen-year-old children who poured down buckets of cooking oil to resolve the crisis.

What is edible oil?

It was rations for the Humans guarding the rear.

They were forced to spill oil to help out.

It was enough to show that the Alliance had been pushed to the corner by the mutated creatures.

Finally.

A year after the battle began.

The Star Moon Alliance once again gave up on the second defensive circle.

They prepared to retreat to the core circle to make their final resistance.

In addition,

This retreat.

The Alliance had paid the price of blood!

On the way back, Wang Fei lost an arm.

The entire Hunter team of several thousand elites was almost completely wiped out!!!

As for the reason...

It was simple.

When Wang Fei gave the order to retreat.

More than ten different Rats suddenly rushed out from the group of Rats below the city wall.

On the surface,

They were no different from ordinary mutated Rats.

However, they were actually disguised by a few high-level Rats.

These Rats were hidden among ordinary Rats.

After approaching the city wall, it suddenly attacked and opened a gap as quickly as possible.

As a result, many members of the Hunter team who had yet to retreat were caught off guard and died tragically.

Even Wang Fei almost died.

In the end, the members of the Hunter team protected him with their lives.

...

That night.

The doctor had just bandaged Wang Fei's wound.

Wang Fei stood up and gave himself two tight slaps.

Then, he burst into tears.

It was not easy for him to calm down.

Wang Fei knelt on the ground and chased away everyone who tried to help him up.

He knelt all the way to Li Yueming's wooden house.

He looked at the closed door.

Wang Fei kowtowed a few times and said in a trembling voice, "Teacher, I'm sorry. I... I've disappointed you again!"

There was no movement in the house for a long time.

After a long time.

Li Yueming opened the door.

Looking at the empty sleeve in Wang Fei's left hand, he closed his eyes and said, "You've already done very well!"

Wang Ye could no longer control his emotions.

He broke down and wailed.

His voice was heart-wrenching.

As he cried.

He couldn't help but slap herself.

"Why didn't I prepare in advance? Why am I still alive? Why..."

When the surrounding Alliance members saw this situation, they fell silent.

Actually, everyone knew that this was not Wang Fei's fault.

After all, no one could have predicted that those cunning Rats would choose such an opportunity to launch a sneak attack.

Nobody had expected a high-level mutated lifeform to be so powerful.

And yet.

The losses this time were too heavy.

Even Wang Fei's psychological defense was broken.

He thought that it was because of his mistake in commanding that the Hunter team suffered such heavy losses.

Li Yueming sighed.

At this moment.

Someone looked up at him.

Only then did he realize that Li Yueming, who was still in high spirits last year, was now covered in pale white hair!

Obviously, a year of non-stop deduction and research had cost him an unimaginable price!!!

This scene shocked everyone.

The Alliance's members fell to their knees.

He asked anxiously, "Teacher, what's wrong?"

Li Yueming closed his eyes tiredly.

After a long while, he said, "It's fine. I've already made progress in my research. Give me another half a year. In half a year, I'll return peace to the world!"

With that,

Li Yueming no longer paid attention to the commotion outside.

He closed the door.

He hardened his heart and ignored the cries of the students outside.

...

That night.

Many people had an unforgettable night.

The loss of the Hunter team was undoubtedly a heavy blow to the Star Alliance.

But no matter what, the war had to continue.

The next day.

The news that Li Yueming had his members hold on for half a year spread throughout the Star Moon Alliance.

After hearing that they only needed to fight for another half a year, they might be able to obtain hope of counterattacking.

The entire Alliance instantly erupted with a powerful cohesion.

After all, Li Yueming represented an omniscient and omnipotent god!

He said that the Star Moon Alliance would be at peace in half a year. No matter how unbelievable this sounded, everyone firmly placed their trust in him.

There was no need for any reason to distrust Li Yueming!

...

The next day.

The Alliance held a short funeral for the dead in the Hunter team.

Then, he began to concentrate on the tense war again.

With Li Yueming's promise that night.

Now, even the cook auntie in the logistics department had become the most determined warrior.

In order to have a home of their own.

For future generations to have a tomorrow where they would not have to live in fear.

Even if they died ten thousand times,

They'd gladly fight for half a year for Li Yueming!

...
