

Maxing MT 331

Chapter 331: Continuous Breakthrough, Students with Explosive Mentalities!_1

Just as Li Yueming finished speaking...

Heaven and earth spiritual energy immediately rose from his body.

The appearance of this phenomenon meant that Li Yueming had sensed the spiritual energy between heaven and earth.

Moreover, he could interact with it at the basic level.

However, for some reason, Li Yueming's spiritual energy was not like ordinary cultivators who sensed the spiritual energy of heaven and earth. It would disappear as soon as it came into contact with it.

It was tightly attached to Li Yueming's body and could actually condense without dispersing...

It looked as if the officials were protecting the monarch!!!

The students who were waiting to watch a good show widened their eyes at the same time.

Their eyes were filled with disbelief.

What did he mean by 'Teacher, wait a moment, I'll be done breaking through soon?'

Listen, look.

Was this human language?

And why was the spiritual energy on Li Yueming's body able to gather and not disperse?

Shouldn't one need to concentrate when sensing and communicating with the spiritual energy of heaven and earth?

Why was Li Yueming able to multitask and speak when he was sensing the spiritual energy of heaven and earth?

Was it really that smooth?

For a moment, all the students, including Wang Ziwei, were filled with question marks.

They couldn't even tell if the person in front of them was the silly prince in their impression.

"Really? The foolish prince has actually been enlightened?"

"No way...The foolish prince had not improved at all after so many years. How could he suddenly be enlightened?"

"Although it's hard to believe, the Li family's heir seems to have really sensed the spiritual energy of heaven and earth this time!"

"The teacher was just about to transfer him to the Learning Hall, and he sensed the spiritual energy of heaven and earth. What kind of dog shit luck is this?!"

“Damn it, even in my dreams, I want to see him being chased to the study hall by the teacher! In the end, he did not expect that he would really comprehend the Heaven and Earth Spiritual Energy!”

“I especially dislike this kind of noble son who relies on the power of his father’s generation, but I don’t dare to do anything to him. He really deserves to die...”

Many students gritted their teeth in anger when they saw this.

It could be said that his mentality exploded.

A year ago.

Wang Ziwei had given Li Yueming special treatment many times.

Half a year ago.

Senior Brother Tian Liang and Senior Sister Huang Li ‘er had personally given Li Yueming two months of private tutoring.

Logically speaking, after enjoying so many ‘special treatments’.

Even a pig should have been enlightened.

However, Li Yueming, this ‘foolish prince’s’ performance was even more ridiculous than a pig.

After learning for more than two years, there was no improvement at all.

This was one of the main reasons why the other students viewed Li Ming with hostility.

After all, although these students were also the children of dignitaries, they were still young.

However, compared to Li Yue Ming, there was still a gap.

To put it simply, it was envy, jealousy, and hatred!

They also looked forward to the feeling of being tutored by their teacher, senior sister, and senior brother!

Unfortunately.

They were still not rich enough.

He couldn’t be like Li Yueming, even if his head was made of stone.

However, he could still enjoy the feeling of being pampered by others with his superior family background.

Therefore, he had no choice.

The group of students could only regain their dignity from the fact that Li Yueming was a fool.

After all, although their family background was not as good as Li Yueming’s...But at least their intelligence was online!

Even without extra tutoring.

He could also sense the spiritual energy of heaven and earth with his talent!

Just this point alone was enough to win against the foolish prince.

But now.

Seeing that the most influential scion in this school was about to be assigned to the Writing Practice Hall.

The group of students had yet to celebrate.

Caught off guard.

This publicly acknowledged 'idiot' had suddenly been enlightened.

He actually felt the spiritual energy of heaven and earth smoothly.

It was no wonder that the group of students could not accept reality.

But no matter what they think,

However, the phenomenon that Li Yueming was showing was not over yet.

At this moment.

More and more spiritual energy surged.

Moreover, all the students could feel that the floating spiritual energy around the school was gathering towards Li Yueming's location.

Li Yueming, who was sitting cross-legged in the middle of the spiritual energy, was like a funnel that absorbed and swallowed everything.

This scene didn't cause much of a commotion.

It looked quite ordinary.

However, it once again exploded in the hearts of the students.

It could be said that it was a bolt from the blue!

In general, there were three steps to becoming a cultivator.

The first step was to sense the spiritual energy between heaven and earth.

The second step was to absorb spiritual energy and draw it into the body.

The third step was to master and control spiritual energy, officially becoming a qualified cultivator.

Under normal circumstances.

There were bottlenecks between these three steps.

Every step required the practitioner to carefully ponder and study it until he was sure that he understood it clearly before he could proceed to the next step.

Some cultivators with ordinary aptitudes would need to spend one or two years just to sense the spiritual energy of heaven and earth.

Not to mention drawing Qi into his body.

Most of the students present were from aristocratic families.

Although their aptitude was not particularly good, most of them were not very bad.

However, even for them, it would take them at least half a year to reach the second step from sensing the spiritual energy of heaven and earth to guiding the spiritual energy into their bodies.

But now.

Li Yueming had just sensed the spiritual energy of heaven and earth, and he had actually stepped into the level of drawing energy into his body. He had crossed two doors in one step!!!

Was this really an operation that could be done by someone who had been ranked last for ten thousand years? Perhaps this was the so-called genius!

Chapter 332: Continuous Breakthrough, Students with Explosive Mentalities!_2

Countless students gasped in shock.

In the past, they had always thought that Li Yueming was trash.

But today, they suddenly felt that they were too shallow.

If crossing two obstacles in one step was considered trash, then how were they supposed to live? Worse than trash?

Damn, his mentality exploded!

Of course.

When they realized that Li Yueming had suddenly become a Practitioner, the students were not the ones who had the most mental breakdown. It was Tian Liang and Wang Linlin, who had once tutored Li Yueming.

Especially Huang Li 'er.

Seeing this scene, she almost cried out in grievance.

In order to win over Li Yueming, she had been a nanny for several months.

He was just short of chewing up the cultivation knowledge of using qi to control the body and feeding it to Li Yueming.

Originally, she had already persevered for 90% of this path.

However, in the end, he still chose to give up because Li Yueming had broken through his defense.

In the end, how long had it been since she gave up teaching?

At most, it would take less than a month!

Li Yueming, who had been like a block of wood before, suddenly became enlightened.

In the blink of an eye, he had skipped the process of comprehending the spiritual energy of heaven and earth and directly entered the realm of drawing qi into his body!

If there was one person who was the most emotional about this, then...

Obviously, Huang Li 'er was definitely the leader!

On the D0dium.

Wang Ziwei had only asked casually. In fact, he did not have any hope for Li Yueming at all.

After all, he had been disappointed for so many years.

Wang Ziwei had long since determined that Li Yueming did not have any talent for cultivation.

However, she was afraid that she could not explain to Li Nanfeng, so she kept trying to see if a miracle could happen.

However, he had never expected this.

This time, Li Yueming gave him a strong dose of medicine. He actually broke through two levels in front of his eyes. He jumped from an ordinary person who could not even sense spiritual energy to a quasi-official cultivator!

The speed at which he broke through the bottleneck was even faster than when he was cheating!

After being stunned for a long time.

Wang Ziwei finally came back to his senses.

He suddenly walked to Li Yueming in three to five steps and blocked Li

Yueming behind him,””Everyone, leave the school immediately and go to the Spirit Mountain to cultivate. Without my permission, you are not allowed to approach the school!”

A beginner cultivator’s foundation was not stable.

When controlling and comprehending spiritual energy, the greatest fear was being disturbed by external forces.

Therefore, as a relatively qualified teacher.

Wang Ziwei recovered from his shock.

The first thing he did was to chase all the students out and try his best to provide a quiet and safe environment for Li Yueming to break through the bottleneck.

In the school.

The group of students were at a loss.

After a while, they came back to their senses and started to leave in twos and threes.

After leaving the classroom.

The group of students turned around to look.

Their faces were filled with complicated expressions.

“Really? Li Yueming actually broke through two realms in a row?”

“We’ve been cultivating for two years and have only just finished drawing in the spiritual energy into our bodies. How could he skip the environment where he sensed the spiritual energy of heaven and earth and directly draw it into his body?”

“Who knows? Perhaps it was a blind cat that met a dead mouse!” “Is there a possibility...Was this foolish prince really a genius?”

“Genius? Anyway, I don’t believe it. If he’s really a genius, how could he not have made any progress in the past two years?”

“Hmph, what a bullsh * t genius. If I could get the private guidance of my senior brothers, sisters, and master, I might have been able to control and use spiritual energy long ago!”

“That’s right. Under normal circumstances, this bullsh * t heir should have been captured by the Xiwen Hall long ago. Isn’t he born into a good family with the Li family backing him up?!”

After a group of students were expelled from the school.

The more he thought about it, the more he felt unbalanced and indignant.

He had no choice.

They worked hard to cultivate for two years.

Now, he had finally become a quasi-cultivator.

However, it was only in the blink of an eye.

In the past, the person who had been at the bottom of the rankings suddenly overtook them. Not only did he catch up to them, but he also had the intention of overtaking them.

If it was any normal person, it would be impossible for them to feel balanced. If he hadn’t seen his master, Wang Ziwei, still in the classroom just now, he would have died.

The group of students were probably already arguing.

Of course, although he felt very unbalanced.

But now, the students couldn’t do anything to Li Yueming.

He could only follow Wang Ziwei’s instructions and head to Spirited Mountain to cultivate unhappily.

Halfway.

Tian Liang, who was originally at odds with each other, unexpectedly took the initiative to look for Huang Li ‘er.

The two of them looked at each other.

They could all feel the f * cking emotions in each other’s hearts.

It could only be said that they were both people who had fallen from grace. Why did they have to know each other when they met?

The two of them were really miserable!

.0.

In the school.

More and more spiritual energy gathered toward Li Yueming.

Li Yueming's body was like a bottomless pit that could never be filled.

He absorbed it for more than four hours.

Even his master, the Prince, felt his heart skip a beat, and his eyelids twitched.

Li Yueming then stopped absorbing the spiritual energy.

He adjusted his breathing for a while.

Li Yueming slowly opened his eyes and let out a breath. He looked up at Wang Ziwei and said, "Teacher!"

Wang Ziwei was speechless.

There was a long silence.

He finally resisted the urge to curse.

Wang Ziwei sized up Li Yueming.

Chapter 333: Continuous Breakthrough, Students with Explosive Mentalities!_3

"Yes!" Li Yueming nodded.

Hearing this.

Wang Ziwei's expression became extremely complicated.

On the one hand, it was a pleasant surprise, but on the other hand, it was doubting life.

As a very famous Humble Class gentleman in the entire western frontier, this was not the first time Wang Ziwei had accepted a disciple to teach. Otherwise, there would not be so many aristocratic families scrambling to send their children to him.

After so many years of teaching.

Wang Ziwei had seen geniuses before.

In fact, it was not as if they had never encountered a genius who could sense the spiritual energy of heaven and earth overnight and become a cultivator in a day.

However, it was the first time he had seen a student like Li Yueming who had been acting weird from the beginning to the end.

Two or three years of ignorance.

Once he enlightened his Apertures, he would be able to endure two to three translator:

04YOYU33Y

"Yes!" Li Yueming nodded.

Hearing this.

Wang Ziwei's expression became extremely complicated.

On the one hand, it was a pleasant surprise, but on the other hand, it was doubting life.

As a very famous Humble Class gentleman in the entire western frontier, this was not the first time Wang Ziwei had accepted a disciple to teach. Otherwise, there would not be so many aristocratic families scrambling to send their children to him.

After so many years of teaching.

Wang Ziwei had seen geniuses before.

In fact, it was not as if they had never encountered a genius who could sense the spiritual energy of heaven and earth overnight and become a cultivator in a day.

However, it was the first time he had seen a student like Li Yueming who had been acting weird from the beginning to the end.

Two or three years of ignorance.

Once he enlightened his Apertures, he would be able to endure two to three years of bitter cultivation.

It's true that a knife slashes his ass, and he opens his eyes.

Could it be...

Was this disciple really a genius?

It was just that it belonged to the kind that took a different path and was more wild?

Of course.

Although Wang Ziwei was already upset, he did not show any expression on his face.

After all, he was still his master.

He could not lose face in front of his disciple.

Coughing twice, he suppressed the restless thoughts in his heart.

Wang Ziwei's face revealed a look of approval. He patted Li Yueming's shoulder and said, "As the old saying goes, 'stupid birds fly first'. You, this stupid bird, have been flapping for two years, and you're finally flying! It was not in vain for me to cultivate you with all my heart and blood!" "Not bad, not bad. Master is very gratified!" He said gratified.

But in fact, Wang Ziwei was almost in tears.

In the past few years, if someone asked Wang Ziwei what was the thing he regretted the most.

Without a doubt, when he recruited Li Yueming and boasted to Marquis Southpeak, he should be ranked first.

All these years, he couldn't even sleep soundly.

He was deeply afraid that one day, when he was sleeping, the Marquis of Southern Mountains, Li Nanfeng, would come knocking on his door.

He would give him the title of 'cultists without a way out.'

Then, he would skin him alive and light the sky lantern.

Now that Li Yueming had finally become an official reincarnator, he could finally sleep soundly.

It really wasn't easy!

Li Yueming wasn't interested in Wang Ziwei's thoughts.

He closed his eyes and sensed the situation in his body.

After completing the initial stage of drawing qi into his body.

He could already feel that his body was filled with an extremely powerful force.

With every move, the sound of air being torn could be heard.

It had to be said that the spiritual energy in this world was really a fascinating thing.

As long as he possessed it.

Even cultivators who had just entered the sect could easily obtain the ability to blast mountains away.

In the past, this was something that only Martial Kings and Martial Masters could imagine.

One could imagine how much influence Spirit Qi had on a cultivator's strength!

Li Yueming didn't seem to have any desire to talk.

Wang Ziwei was not angry.

After all, it was already beyond his expectations that Li Yueming could become a cultivator.

He could put everything else aside.

In order to prevent Li Yueming from being arrogant.

"Now that you have successfully sensed the spiritual energy of heaven and earth and become a cultivator, you have to guard against arrogance and impatience!" Wang Ziwei said earnestly, "The words of a saint are the words of a gentleman. A gentleman should never be complacent. The other senior and junior brothers have all become cultivators after comprehending the Spiritual Qi of Heaven and Earth before you. Your foundation might not be as stable as theirs. Therefore, you must strengthen your foundation!" After giving some instructions, he said earnestly,

After rubbing Li Yueming's spirit a little.

Wang Ziwei continued, "In order to stand out in the Great Zhou Cultivation assessment in the second half of the year, you have to work harder and train hard! From tomorrow onwards, you'll learn how to control spiritual energy alone from me!"

Hearing this.

Li Yueming snapped out of his thoughts.

He looked at Wang Ziwei and nodded. "I'll follow your orders. I understand!" Wang Ziwei looked at Li Yueming.

For some reason, he found it pleasing to the eye no matter how he looked at it. He could not help but stroke his beard and smile.” Fast, good!!!”

.0.

In the next two months.

Li Yueming began to learn the way to control spiritual energy from Wang Ziwei.

Of course, it was learning.

But in fact, Li Yueming had only heard it once.

He already knew how to control and use spiritual energy.

However, in order not to arouse the vigilance of both Tian Liang and Huang Li ‘er.

Li Yueming had never shown it.

The reason why Old Yin Coin was so despised was because it was sinister and vicious.

Li Yueming felt that he was innocent and kind.

However, he had indeed fooled the two of them miserably before.

It was fine if he made a fortune in secret now.

If Huang Li ‘er and Tian Liang suddenly realized that he was also a reincarnator, they would probably be so angry that they would lose their rationality and rush forward to fight Li Yueming.

Of course, risking his life was secondary.

Most importantly, Li Yueming’s next actions would also require these two innocent people to block his attacks.

Naturally, he would not expose his identity and cause trouble for himself.

It was worth mentioning that with the change in Li Yueming’s identity. Now, the attitude of the surrounding students towards him had also quietly changed.

Although Li Yueming could feel that most of the students still hated him, they didn’t dare to say anything weird in front of him. After all, the people nowadays were tough.

They were also very realistic. Before Li Yueming became a cultivator..

Chapter 334: Continuous Breakthrough, Students with Explosive Mentalities!_4

The group of people did not have much respect for the heir of the Li family, who might not even be able to keep his position as the family head.

But now, everything had changed.

Li Yueming had already stepped into the path of cultivation, and the probability of becoming the future heir of the Li family had greatly increased.

His status could be said to be soaring.

At this moment, no one wanted to be remembered by Li Yueming.

Even the students who had mocked him before were thinking of ways to apologize to Li Yueming.

Whether they were convinced or not was one thing, but at least they were very convinced.

Li Yueming naturally wouldn't argue with a group of fools.

He only smiled lightly at this.

It was quite useful to have a good birth.

At the very least, it could help him filter out a large group of idiots who couldn't see the situation clearly and find fault with him, allowing him to spend his precious time on more valuable things.

In addition.

As Li Yueming's position rose, Huang Li 'er and Tian Liang came up again.

She would often say a few words to him, intentionally or unintentionally.

Regarding this, Li Yueming did not reject anyone.

After all, he was now a native in the eyes of Huang Li 'er and Tian Liang.

It was the kind that did not arouse any suspicion.

It would be a waste not to use such an interesting identity.

After a period of communication, the three of them became more familiar with each other.

Although Huang Li 'er and Tian Liang still didn't see eye to eye with each other.

But because of Li Yueming.

As the two of them quarreled, their relationship became closer.

Looking at the situation.

Li Yueming felt that they had reached a preliminary truce agreement.

They wanted to join forces and capture all the influential children in Wang Ziwei's school.

It was to prepare for the main mission in the future.

Li Yueming was obviously the biggest fish in their net. His identity was the heir of the previous Duke of the Western Border.

If he could successfully inherit the family business.

Basically, he was equivalent to a future overlord of the western border.

Therefore, the two of them were naturally very concerned about Li Yueming.

Under such circumstances.

Two months passed in the blink of an eye.

During this period of time.

Wang Ziwei mainly taught them how to control the spiritual energy of heaven and earth to fight.

On the whole, the progress of the group was not bad.

The most outstanding ones were naturally Tian Liang and Huang Li 'er, the two reincarnators who had a certain foundation. As for Li Yueming, he was still in the harem.

He still acted lukewarm.

Alright then...

It didn't seem appropriate to say that it was lukewarm.

It was more appropriate to say that it was a long story.

Ever since he broke through the second bottleneck and successfully entered the body to become a preparatory cultivator.

Everyone, including Wang Ziwei, had thought that he would completely shake off the shadow of his past and become a new rising star.

For this reason.

Wang ZiWei even personally brought Li Yueming to his side for tutoring.

He wanted to make his foundation more solid.

However, a shocking scene happened again.

Li Yueming started to walk on the spot again.

After two months of studying.

He did not learn the essence of controlling spiritual energy to fight at all.

Many students felt numb.

They didn't know if they should place Li Yueming in the genius category or the trash category.

After all, he was a genius...

He often did not make any progress for a month or two.

But he was trash...

He could suddenly make an upset at any time.

Under such circumstances.

A group of students had to worry every day. It was extremely painful.

Time flew by. Two months later, on a certain day.

Wang Ziwei gathered the students who were controlling their spiritual energy to slash at the wooden puppets.

Wang Ziwei swept his gaze across everyone and slowly said, ""After two months of learning and training, most of you have some rough understanding of how to control spiritual energy in battle!"

"However, hard work is not the end of cultivation. Today is the day to test your results!"

“All the students will be divided into two groups. Control the spiritual energy and fight in turn!”

“Only the victor will have the chance to follow me down the mountain and head to the Great Zhou Cultivator Academy for an exchange and spar!”

“As for the loser...If you can't even defeat your fellow disciples, bringing you to the Great Zhou Cultivator Academy will be a disgrace!”

“Mm, cough cough cough, Li Yueming will be the referee. Everyone can get ready! ”

Chapter 335: You Don't Do Anything That's Coupled With People!_1

“In order to test the results of your cultivation during this period of time, we will need to engage in a few battles of controlling spiritual energy!”

“This battle will determine whether you can follow me to the Great Zhou Cultivator Academy!”

“Every time the Cultivator Academy recruits disciples, it is the time when all the cultivators in the Great Zhou Dynasty are the most active!”

“Countless cultivators of the empire will be coming out of the mountains to attend the grand gathering!”

“There, you will see the same era as you... The most outstanding ones!”

“If you can't even win in a friendly spar between fellow disciples, then you don't have to follow me!”

“Because even if I go, there's a high chance that I'll only lose face...In serious cases, it might even strike your self-confidence, which would be harmful to your growth!”

“All of you are still very young. When your minds are more mature, you can participate in the next round of assessment!”

“Alright, everyone, get ready. The competition is about to begin!”

On the podium, Wang Ziwei's expression was very serious.

After explaining everything clearly, he gestured for the students to go and make preparations.

Below the stage, a group of students had nervous expressions on their faces.

The Great Zhou's Cultivation Academy was no stranger to the children of the rich and powerful.

After all, those who could become nobles.

More or less, there would be some outstanding family elders who had entered the Cultivator Academy.

That's why.

Only then did they understand the stakes involved.

What kind of place was the Cultivator Academy?

It was the place where the emperor stood, the center of power in the entire Great Zhou Dynasty.

If he could enter a Cultivator Academy.

To the descendants of these aristocratic families, this was equivalent to having half a foot in the Patriarch's seat.

As long as he didn't die prematurely in the future, he could graduate from the academy smoothly.

In the future, he would definitely be one of the most respected existences in the entire Great Zhou Dynasty.

In some small aristocratic families, one of their descendants could enter a cultivator academy.

They had to pay their respects to their ancestors.

The kind that hosted banquets and invited guests from all over the place.

Even some of the great clans with thousands of years of history were no exception.

After all, the Cultivator Academy had only recruited more than ten thousand disciples every year.

No aristocratic family could guarantee that every generation of descendants would be gifted.

They had the ability to enter the Cultivation Academy to study.

Under such unfavorable circumstances.

It was very normal for several generations of juniors to be unable to enter a cultivator academy.

And now.

The opportunity to follow their teacher to the Cultivator Academy was right in front of them.

The students couldn't help but feel nervous.

Even if they might not be able to get in this time, it would be good to just follow Wang Ziwei to see the world.

After all, the newcomer assessment of the Cultivator Academy was held once every three years.

This time they can't get in.

After gaining experience, there might be hope next time.

The students all stood up.

He began to concentrate and prepare for the upcoming sparring.

On the podium, Wang Ziwei saw Li Yueming stand up.

He hurriedly stopped him and said in a low voice, "Yueming, you don't have to participate in the battle. You can be the judge with me!"

As he spoke, he winked at Li Yueming.

It was obvious that he was hinting at his freedom to make arrangements.

Hearing this.

Li Yueming was stunned and looked up at Wang Ziwei.

He then looked at the group of students around him.

Good heavens, she was clearly opening a back door for him.

Was it that exciting?

The surrounding students naturally felt Wang Ziwei's bias.

According to Wang Ziwei's plan.

This group of students all needed to go through the assessment.

What about Li Yueming?

Wang Ziwei actually dragged him to be the referee...

Wasn't this just a backdoor?

They were also children of nobles.

Most of them were arrogant little ancestors in their own families.

But now, in front of an even more hooligan and invincible aristocrat.

They could finally feel the feelings of the commoners who had been bullied and trampled by them in the past.

He could only say that the damned privileged party was too damn hateful!

Many students gritted their teeth in hatred when they saw this.

Even if they were dozens of meters apart.

Li Yueming could feel the resentment from the students.

However, he didn't really care about this.

He definitely had to go to the Cultivator Academy to take a look.

Originally, he was prepared to display a little of his strength during the battle, at least to get a spot.

If nothing unexpected happened.

This so-called Great Zhou Cultivation College assessment.

It would probably become the best stage for all the reincarnators in the entire Great Zhou.

After all, to a group of reincarnators.

The Great Zhou Cultivator Academy was the place closest to the core of the Zhou Dynasty's power.

He graduated from there.

The reincarnators could be properly put in an important position.

They were either sent to the royal court or directly sent to the army.

The main mission of the Reincarnation Mark was being released.

The core of the first main mission was to choose a suzerain from the six countries and help it unify the world.

This mission was the simplest of the king missions.

It was also the favorite mission of most reincarnators.

Because as long as he could help to destroy the country.

Then, all the reincarnators who contributed in this country could receive the corresponding mission rewards.

More or less, they would not return empty-handed.

It was the good news for hooligans.

In addition.

As the best public school in the Great Zhou, the teachers in the Cultivation College were naturally the best in the entire Great Zhou..

Chapter 336: You Don 't Do Anything That's Coupled With People!_2

Almost all of the most famous and powerful cultivators who belonged to the Great Zhou government's forces were also in the academy.

In this way, many reincarnators could also see if they could complete the second main mission to break through to the Spirit Focus realm.

Looking at the two together.

One could imagine how attractive this academy was to reincarnators.

Therefore, he had no choice.

Li Yueming was not particularly interested in joining a Practitioner Academy.

However, he had to go to the Cultivator Academy to personally observe and determine the current state of the other reincarnators.

After all, only by knowing yourself and your enemy could you win a hundred battles.

However, Wang Ziwei clearly had no confidence in his combat strength.

He was afraid that he would lose face if he could not defeat the other students in the battle.

Therefore, he had already opened the back door for him in advance.

As long as one acted as a referee and went through the process, they would be able to obtain a spot to enter the Cultivator Academy.

Li Yueming naturally had no reason to refuse.

As for the resentment of a group of little kids...

It could only be said that they were happy!

Anyway, Li Yueming didn't care.

Soon, the group of people arrived at the backyard of the school.

This was a venue that Wang Ziwei had specially opened up for the students.

He used it to practice controlling spiritual energy.

Now, it only needed to be tidied up a little, and it would be a very good battle venue.

After two to three years of recruiting disciples.

Now, Wang Ziwei had nearly 100 students under his name.

Of course, there were less than 50 students who had already comprehended the spiritual energy of heaven and earth and could control it.

This battle was carried out among these fifty students.

Only the twenty-five people who won the battle were qualified to follow Wang Ziwei to the Great Zhou Cultivator Academy.

In a sense, this could be considered as perfection.

After all, it was just as Wang Ziwei had said.

It might not be a good thing to bring some students with average aptitudes to the Cultivator Academy.

It was a grand gathering for geniuses.

Mediocre talents would only feel out of place there, and might even be dealt a huge blow.

A group of students entered the venue.

Soon, the battle officially began.

Under Li Yueming's interested gaze, the first two seven-year-old players went on stage.

Under the gaze of hundreds of people.

The two young players cupped their hands and greeted each other.

Then, he slowly took two steps back.

With Wang Ziwei's order, both sides began to control their spiritual energy and fight.

Of course, they were talking about a big fight.

But this was for a group of children.

To Li Yueming, these guys were just kids fighting.

He used pure emotions without any technique.

However, the student on the left controlled his spiritual energy to gather into a huge fist and hit the student on the right.

The student on the right suddenly jumped up and did a sliding tackle.

He ended this soul-stirring battle with a ferocious tiger descending the mountain.

The victor had a smug look on his face.

He turned around and cupped his hands.”

The loser’s face turned ugly.

However, he still took advantage of the situation and said, ” Senior Brother’s Fierce Tiger Descends the Mountain is really fierce. If you master it to a high level, you can probably kill a spirit tiger with a sliding shovel. I admit defeat!”

The two of them exchanged words and flattered each other.

Let’s not talk about how they fought first.

However, her acting skills and style were already solid.

If this was some city, they would probably be given an Oscar.

In addition to the powerful aura that erupted from the spiritual energy just now.

The group of children who had just entered the gate were stunned.

His eyes were shining as if he had seen Superman.

After the two of them left the stage.

Very quickly.

Another two students continued to fight.

However, this time, it was more boring. The two of them had just started to use their spiritual energy to exchange a few moves.

However, due to his lack of skills.

In just a few moments, the little spiritual energy stored in his body was exhausted.

Thus, the two of them could only start fighting in close combat.

He hit her until her face turned red and her neck turned red.

Wang Ziwei couldn’t stand it anymore and walked forward to pull the two of them apart.

Unsurprisingly.

Naturally, both of them were eliminated.

All in all, a few of the students in this batch were indeed quite talented.

Put it in a corner.

Perhaps he could even get the title of a little genius.

However, if it was placed on a slightly larger stage, this bit of talent would not be enough.

Even if he was brought to participate in the assessment.

He probably belonged to the kind of existence that was just a bystander.

Half an hour later, half of the fifty students had finished their rounds.

Among them, Tian Liang and Huang Li ‘er also made a move.

To them.

This kind of game was like playing house, so there was naturally no pressure.

After going on stage, he defeated his opponent in two or three moves.

Although their straightforward moves caused a commotion among the students.

However, there was nothing worth paying attention to for Li Yueming.

After looking at the two of them.

Li Yueming felt a little bored, so he stopped watching.

He yawned and was about to leave.

But at this moment.

A young man around eight or nine years old stood out from the crowd nearby.

He pointed at Li Yueming who was yawning not far away and said, "Teacher, why doesn't Junior Brother Li need to participate in the test?"

Hearing this.

The hundred or so students nearby all looked over.

Wang Ziwei's expression was a little ugly.

Previously, he had specially whispered to Li Yueming to keep quiet.

He just didn't want too many students to notice.

After all, Li Yueming's identity was special. Two days ago, Li Nanfeng, who was far away at the front line, had specially written a letter to send back..

Chapter 337: You Don't Do Anything That's Coupled With People !_3

He instructed him to bring Li Yueming to the Reincarnator College.

Therefore, Wang Ziwei, who had no confidence in Li Yueming's strength, had no choice but to use this method.

He was prepared to open a back door for Li Yueming to avoid the competition. He would personally bring Li Yueming to the Reincarnator Academy.

However, he didn't expect a hotheaded student to stand up and raise doubts in front of so many students.

This made Wang Ziwei feel embarrassed.

After all, he couldn't possibly admit that he had given Li Yueming special treatment in front of so many students.

If that was the case...

Then his teacher's reputation would be completely lost.

Therefore, Wang Ziwei thought for a moment and said, "Uh... Student Li's situation was rather special. His elder sister was studying at the Cultivator Academy. This time, she had specially written a letter to him. Therefore, Student Li was going to visit his relatives. If anyone had relatives studying at the Reincarnator Academy, they could also tell the teacher!"

Hearing this.

The group of students were dumbfounded.

The student who raised the question earlier was even more choked.

Damn it.

Two years ago, the eldest daughter of the Marquis of Southern Peak had entered a Cultivation Academy.

This incident caused quite a commotion at that time.

The Marquis of South Peak specially returned home to hold a banquet. It was said that the tables were almost set from the south of the city to the north of the city.

Millions of people in Wuji City ate and drank for three whole days.

It was so extravagant that it left one speechless.

Of course, the group of students had been on the mountain all year round.

Except for a few rare cases, they basically wouldn't go home.

He had only heard about it, but he was not clear about the exact situation.

However, after hearing Wang Ziwei's words.

The group of students still felt their teeth ache.

Was there still law?

Was there still justice?

Sob, sob, sob...

Why didn't they have such a powerful father?

Why didn't they have such a powerful big sister?

Everyone was reincarnated.

What were they lacking?

At this moment, even though he knew that Wang Ziwei was openly protecting Li Yueming, he was still very worried.

The so-called 'visiting relatives' was just a pretense.

In fact, he was actually bringing Li Yueming to the Cultivation College to participate in the exchange and assessment.

However, she really had a sister who was studying at the Reincarnator Academy.

Therefore, more than half of the students had basically died.

However, the student who had stepped forward to cause trouble was clearly unwilling.

“Since you’re visiting your family, shouldn’t Junior Brother Li also participate in the sparring? After all, Teacher had also said that when the Cultivation

Academy was recruiting disciples, it was the time when the elites of the entire Great Zhou Dynasty were the most active. At the very least, they should give

Junior Brother Li a chance to showcase himself!”

“Maybe Junior Brother Li can get a spot on his own?”

The student who took the lead in causing trouble was called Godfrey.

He was a disciple of Ge Clan in the Central Plains.

The reason why he didn’t study in the middle state and came to this desolate western border was because he was born in a branch family and wasn’t favored. He wasn’t a direct descendant of Ge tribe.

Although he was not a direct descendant.

However, Ge Fulong’s Ge family in the Central Plains was one of the few families that could be as famous as the Li family.

Although he had never been a Duke Guardian like the Li family.

However, Old Master Ge was the current Right Minister of the Great Zhou.

Be it power or strength, Ge tribe was at their peak, they did not fear Li tribe.

That’s why.

The others were afraid of Li Yueming’s identity.

Ge Fulong isn’t afraid of the ‘high and low’

In fact, based on his strength, Ge Fulong should have been able to obtain a spot in this battle.

However, Ge Fulong’s luck was not too good. He just happened to meet Tian Liang, the eldest senior brother.

The result was naturally without suspense.

He was flipped over by Tian Liang and fell to the ground.

Therefore, Ge Fulong was naturally not convinced.

He was almost nine years old this year, and this was the last chance for him to enter the Cultivator Academy.

The opportunity slipped away just like that.

In his exasperation, Ge Fulong naturally had a crooked idea.

In fact, he wasn’t targeting Li Yueming.

He simply wanted to instigate Li Yueming to step forward and compete while he took the opportunity to defeat Li Yueming.

Then, by defeating Li Yueming, he would remind his master that Wang Ziwei was not weak and that he should be given a chance to enter the Cultivator Academy.

However, the abacus in his heart was making loud noises.

However, in reality, he was too smart.

Putting aside whether Li Yueming would do as he wished, offending Wang Ziwei was a very irrational thing to do.

Actually, Wang Ziwei had originally reserved a spot for him.

Just now, two of the students were not very talented.

Moreover, he was only seven or eight years old.

Wang Ziwei eliminated both of them.

In fact, he had already left a spot for Ge Fulong.

Originally, he was prepared to give this empty seat to Ge Fulong after the assessment was over.

But who would have thought that Ge Fulong would not be able to wait even a moment?

The assessment was not over yet.

He was the first to give Wang Ziwei a difficult question.

This disrupted Wang Ziwei's rhythm and made him extremely angry.

At this moment, it would be very difficult for the matter of the quota to fall on his head.

Wang Ziwei glared at him.

He then looked at Li Yueming and asked, "Yueming, what do you think?"

Hearing this.

Li Yueming raised his eyes and glanced at Ge Fulong.

He looked at Wang Ziwei and said indifferently, "Let's follow Teacher's arrangements!"

Li Yueming didn't care.

He was just a child. He could beat a reinforced company with one hand.

Hearing his answer.

The expression on Wang Ziwei's face softened a lot..

Chapter 338: You Don't Do Anything That's Coupled With People

Although he had his own selfish motives, he was still diligent in teaching and could also pay attention to teaching students according to their aptitude.

He also put in a lot of effort to treat every student.

From all aspects, he could be considered a teacher with a conscience.

After all, the words of a saint were as shiny as gold and stone, and the virtue of a saint was as heavy as the earth.

However, there were very few scholars who could really understand it.

Most of them were just a bunch of hypocrites who read the books of the saints and did small things.

In the middle of such a group of people.

Wang Ziwei felt that he could be considered a sincere and magnanimous person.

However, Ge Fulong, this ungrateful fellow, had ruined his reputation in front of so many students.

She didn't even give him basic trust.

It really made Wang Ziwei feel very sad.

He fed the dog with enthusiasm.

Fortunately, Li Yueming's words had given him enough face.

Since it's all arranged by him

It meant that Li Yueming had quite a lot of trust in him.

After thinking for a while, Prince Wang said," Since that's the case, I'll let you try it too. After all, what Ge Fulong said makes sense. However, since it's a spar, we have to stop!"

His words were also very clever.

First, he told Li Yueming to give it a try, and then he said that he should stop when sparring.

After all, he was the referee.

In that case, he was obviously prepared to help Li Yueming.

Ge Fulong had no objections.

After all, although he didn't like Li Yueming, the heir of the Li family who often made special arrangements, he was still a little unhappy.

However, he knew that he couldn't afford to offend Li Yueming.

Fortunately, he only wanted to use the opportunity of defeating Li Yueming to force Wang Ziwei to give him a spot.

Therefore, after seeing Wang Ziwei nod his head.

She was afraid that someone else would steal her chance.

Ge Fulong immediately stood up and said,"Since Master has agreed, then please enlighten me, Junior Brother Li!"

The students looked at Li Yueming with curiosity.

After all, Li Yueming's 'walking on the spot' skill was famous.

Almost all of Wang Ziwei's students had heard of his legendary feat of breaking through two bottlenecks in a single day!

Many students were curious whether he had three heads and six arms.

Under their watchful eyes, Li Yueming happily walked out of the crowd.

He stretched his body and looked at Ge Fulong, who was in the arena, and said, "Senior Brother, if you have any moves, then use them. I haven't learned how to control spiritual energy yet. I only know some low-level combat techniques!"

Hearing this.

The surrounding students almost laughed out loud.

They did not expect Li Yueming to not even be able to fully control the spiritual energy. It seemed that this spar might not be as exciting as they had expected.

Ge Fulong also revealed a smile on his face.

However, in order not to completely offend Li Yueming, he did not act too arrogant.

He kindly reminded him, "Junior Brother, you have to be careful. After all, cultivators who can control spiritual energy and cultivators who can't are two completely different concepts!"

As he spoke, his expression became serious.

His chest puffed up as he swallowed a mouthful of spiritual energy into his dantian.

A moment later.

He was about to spit out his spiritual energy and turn it into a palm print to attack Li Yueming.

A figure that looked like a tiger and leopard disappeared from his sight in a few flashes.

Before he could come back to his senses.

In the next second.

He felt a huge force hit his chest.

At the same time, he flew dozens of meters away!

When a person was flying in the air.

Ge Fulong was still confused.

Fortunately, he was already nine years old this year and had been cultivating and absorbing spiritual energy for several years. He was not a beginner who had just entered the basics, so he subconsciously stabilized his body through spiritual energy. When he landed, he did not hurt his internal organs.

But even so.

It was still inevitable to be covered in dust.

She finally got up.

Ge Fulong looked at Li Yueming, who was not far away, and his expression gradually became solemn. He slowly said, "Junior Brother is so fast. It doesn't look like you don't understand spiritual energy!"

Hearing this.

Li Yueming just smiled and stretched his body."Senior Brother, if you're not in the way, then continue!"

Especially those who were familiar with Li Yueming. What the f * ck!

He didn't see Li Yueming working so hard on cultivation...

Moreover, shouldn't he have been making progress in the past few months?

Where did such fierce combat power come from?

Could it be...Did he secretly work hard behind their backs?

As expected, as long as it was related to someone.

Li Yueming was not willing to do it at all!

At this moment.

In the hearts of many students.

For the first time, he had a rough idea of the two words 'curly king' and 'old scoundrel.'

Chapter 339: The Cultivation Academy's Examination, Heading to the Central Plains

It was just as Li Yueming had said.

In this battle, he did not use even a trace of spiritual energy.

But even so, Ge Fulong did not even have the strength to resist in front of his punches and kicks.

Ge Fulong's talent was not bad.

However, his usage of spiritual energy was still relatively shallow.

Often, they would be sent flying by Li Yueming's punch as soon as they mobilized their spiritual energy.

It was simple, fast, and extremely rough.

Of course, in order to prevent Tian Liang and Huang Li 'er from seeing through it.

Li Yueming was very cautious throughout the entire process and did not use any power that was beyond their understanding.

After all, Li Yueming was in the dark while Huang Li 'er and Tian Liang were in the light.

When it was not necessary, Li Yueming naturally would not easily expose his identity as a reincarnator.

But even so.

The surrounding students still had their mouths agape.

Li Yueming actually hung Ge Fulong, who was three years older than him, up and hammered him.

It was really hard for them to accept.

Everyone was studying together.

He didn't see Li Yueming's performance normally.

However, when it came to the assessment.

However, this guy could always surprise everyone.

This was simply unreasonable.

The battle continued.

Ge Fulong also came to his senses after being beaten up by Li Yueming.

After realizing that he couldn't easily crush Li Yueming with his spiritual energy...

He also became ruthless.

He gritted his teeth and gathered the spiritual energy in his body.

He began to engage in close combat with Li Yueming.

However, Li Yueming's body was like a pure freak.

Even though he had spiritual energy in his body as support, Li Yueming was still being beaten up in close combat.

Ten minutes later, Ge Fulong was punched in the nose by Li Yueming.

Covering his nose that was still bleeding, Ge Fulong fainted from the pain.

In the end, the battle ended in an unexpected way.

Wang Ziwei controlled the spiritual energy to flow into Ge Fulong's body.

After checking to make sure that he was fine.

Then, he looked at Li Yueming.

He nodded his head in satisfaction." To be able to train such a strong body without even realizing it. Very good!" If you can further control the spiritual energy of heaven and earth into your body, then you can also be considered a promising talent!"

Li Yueming revealed a smile on his face, but he still politely cupped his hands and said,""It's all because Master taught me well!"

Although he knew that Li Yueming was flattering him.

However, Wang Ziwei could not help but laugh out loud."Good, good, good. I hope you can bring me a surprise next time!"

Not far away, Huang Li 'er and Tian Liang also witnessed everything.

The two of them were also surprised by Li Yueming's performance.

However, there was not much emotional fluctuation.

After all, in the eyes of experienced reincarnators like them, the battle between Li Yueming and Ge Fulong was no different from a fight between children.

In this match.

The only thing that caught Li Yueming's attention was his strange body.

Whether it was speed, strength, or reaction, they were all extremely fast.

However, the reason why Li Yueming was able to control Ge Fulong so easily...

It wasn't because Li Yueming was strong.

It was because Ge Fulong had not officially stepped into the ranks of cultivators, so he was unable to skillfully control and use the spiritual energy in his body.

A Practitioner who could not even use Reiki skillfully was equivalent to a Magician who could not memorize spells in the Magic World.

Li Yueming approached him from behind.

His combat strength was naturally in his pants.

If it were them, Li Yueming would not have had the chance to get close.

With the powerful destructive power of the Qi Body Control Technique, they could directly shatter Li Yueming into pieces with just one attack.

Of course, no matter what happens,

The fact that Li Yueming could defeat Ge Fulong had indeed surprised both of them.

Only then did the two of them realize that they seemed to have underestimated this Li family's heir.

If they hadn't repeatedly confirmed that there was nothing wrong with Li Yueming, they might have suspected Li Yueming's identity.

But now.

Although the two of them had some doubts in their hearts, they had not thought about it yet. They simply thought that Li Yueming was the kind of native genius who had accumulated a lot of knowledge.

After all, there shouldn't be any reincarnator with a normal brain who would be so bored that he wouldn't move for several years, right?

.0.

Year 714 of the Great Zhou King Calendar.

Li Yueming was six and a half years old.

He had been cultivating for more than three years, but he did not choose to completely accept the cultivation methods of this world.

Instead, he spent a long time and through endless deduction, changed the path of using qi to control the body to the path of cultivating the human body mystic realm.

The price of doing so was that he had made almost no progress on the path of cultivation in the past two years.

It was not until two years later that he finally took the first step.

In contrast.

Tian Liang and Huang Li 'er had become official cultivators two years ago. He was probably about to break through to the foundation establishment realm by now.

Therefore, he had no choice.

Li Yueming needed to hurry up and catch up with them.

Not long after the sparring session, Wang Ziwei took the initiative to look for Li Yueming.

He taught him the technique of swallowing the spiritual energy of heaven and earth.

This thing was the foundation of Wang Ziwei as a teacher.

Not every student could learn it.

In reality, most of the students in the school cultivated cultivation methods passed down from their families..

Chapter 340: College of Cultivators, Heading for the Central Prefecture (2)

Wang Ziwei could truly grant him a cultivation technique.

Currently, there were only Huang Li 'er, Tian Liang, and Li Yueming.

This was enough to show that Wang Ziwei had seen the potential in Li Yueming.

He started to treat Li Yueming as his disciple.

He no longer treated Li Yueming as a bargaining chip to earn resources.

The Li family also had their own inherited cultivation technique, which was an extension of the "Sixty-four Divination Technique of the Heavenly Cycle" It was created by Li Wentian, the ancestor of the Li family.

And Wang Ziwei's cultivation technique came from the Darming Dynasty.

It was something that Wang Ziwei had luckily learned in the Darming Dynasty when he was young and traveled around the various countries to study.

It was known as the Wisdom King's Treasured Bible.

Overall, these two books were top-notch cultivation techniques.

As the master of technology and ruthless goods, Li Yueming naturally sutured left and right.

He combined the advantages and disadvantages of these two cultivation techniques and organized them into the most suitable one for him.

Cultivators had to pass through the three gates of sensing, absorbing, and controlling the spiritual energy of heaven and earth.

He could be considered a serious cultivator.

The first realm he had to face was the qi transformation realm.

The so-called qi movement was to continuously swallow the spiritual energy of heaven and earth and gather it in the dantian.

When the spiritual energy was sufficient to circulate throughout the body, it was called the qi transforming stage.

After reaching this realm.

Cultivators would basically be able to control spiritual energy to fight for a long time.

The power of one palm could even shatter mountain rocks, possessing strength that ordinary people could not reach.

Not to mention anything else, just in terms of acting cool.

Cultivators were much more powerful than martial artists in the martial arts world.

The combat power of a Qi Transformation stage cultivator was already close to that of a Martial King expert in the martial arts world.

Li Yueming majored in physical body.

Therefore, he took a slightly different path. He was prepared to first guide the 'Qi-Jin' that was originally in his body out.

Then, he absorbed some spiritual energy to replenish his dantian.

In this way, even if there was a day when the substance 'Spirit Qi' didn't exist, it would still be a day.

Li Yueming could also rely on the Qi-Jin in the human body to maintain his combat strength.

There were only three months left before he went to the Great Zhou Cultivator Academy to recruit disciples.

In these three months, Li Yueming finally stopped slacking.

He began to train his body seriously.

Because of his perfect geno body, his physique was becoming stronger at an astonishing speed.

After all, if ordinary people wanted to exercise, they had to let their bodies and muscles adapt to the rhythm of the exercise.

However, Li Yueming was different. He only needed to train, and he could control his body to evolve in the direction he wanted through his perfect genetic body.

Under such circumstances.

Li Yueming only spent two months to officially enter the qi transforming stage.

After entering the qi transforming stage.

Li Yueming's body was flowing with the strength of a martial artist and the power of heaven and earth spiritual energy at the same time.

His battle prowess soared, and he was only stronger than ordinary qi transforming stage cultivators.

Almost at the same time.

Wang Ziwei began to instruct them to pack their luggage and prepare to leave.

The western border was located at the border of the Great Zhou.

It was a place famous for its bitter cold.

He wanted to rush to the prosperous south of the Central Plains to participate in the assessment of the Cultivation Academy.

Li Yueming and the others had to leave half a month in advance.

He didn't know that they were preparing to leave.

Countless geniuses of the Great Zhou Dynasty were also packing their luggage.

They began to gather at the Cultivation Colleges in the southern part of the Central Plains from all directions.

He hoped to be able to rely on his talent and hard work to enter the Cultivator Academy in one fell swoop.

From then on, the fish leaped into the dragon and danced in the sky.

.0.

Great Zhou Dynasty's Imperial Astronomical Bureau.

On the stargazing platform.

An old man with white hair and a clean face slowly woke up from his meditation.

He looked up at the sky.

The Ziwei Star hung in the sky, and the two stars, Tian Kui and Tian Yue, were also shining.

Further away, countless strange stars shone.

Among the twinkling stars, there was an especially bright star that was shining brightly.

After staring at it for a long time, the old man stood up with the help of the Sky

Official and muttered, "With the appearance of the Emperor Star and the Demon Star, the world will be in chaos! The best and worst era was about to arrive!"

The Sky Official next to him trembled with fear.

"Sir, should we report this to His Majesty?" he asked after a while.!"

The old man closed his eyes and pondered for a long time. Finally, he nodded and said, "It just so happens to be the academy's examination, so let's report to His Majesty for him to pay attention to it! "

After the Sky Official left.

The old man's eyes revealed a complicated expression.

Finally, after pondering for a long time, he let out a long sigh.”The Ziwei Star is in the east, and the Demon Star is in the west. To our Great Zhou, it’s a bad omen...This old man has no children in this life. Now that I’m old, I only hope to burn this broken body and see if I can find a solution for the Great Zhou in the chaotic constellation...

.0.

Year 7815 of the Great Zhou Royal Calendar.

The Cultivation Academy opened its doors to accept disciples, recruiting talents from all over the world.

That year, Li Yueming was seven years old.

He followed his master, Wang Ziwei, and his fellow disciples.

He headed to the Great Zhou Cultivator Academy in the south of the Central Plains.

Before he left, Wang Ziwei turned around and looked at the 20-odd students.

He slowly said,””This time, the main purpose of bringing you to the Cultivator Academy is not to let you take the examination. Instead, I’m here to exchange pointers with the other students and broaden your horizons!”

“Of course, if you feel confident and are mentally prepared to not be defeated by other students, you can also give it a try!”

“But normally speaking, you are still too young and definitely not qualified..

You will only have a chance at the next reference in three years!”
