

Maxing MT 39

Chapter 39

I'm Talented, Next Time I'll Fill It Very Simple!

[Detected death of Reincarnator!]

[This simulation reincarnation has ended. Returning to the reincarnation space!]

Li Yueming felt his vision go dark.

In just half a second.

He felt as if his soul had suddenly lost connection with his body.

Then, he seemed to float out of his body.

After a long while.

Only then did this strange feeling slowly disappear.

Li Yueming opened his eyes.

He stretched out his hands and stared at it for a long time.

Only then did he realize that he had returned to a white reincarnation space.

He briefly recalled his short 20 years on Planet 3-024.

It was as if it was really just a dream.

The smart and sensible sister, Li Xiyue.

There were parents living in the rough.

Student Wang Fei, who always felt that he was not outstanding enough...

One vivid figure after another flashed through his mind like a slideshow.

All in all.

He had lived enough for the past twenty years.

It was exciting enough and great enough.

The only pity was that as a son.

He had not been filial to his parents.

As an elder brother, he did not accompany his sister Li Xiyue's growing up years.

As a teacher.

He was always too strict with his students...

Was there any regret?

There were still some.

After all, he had lived in that world for so long. It was impossible for him to not have any feelings.

However, most of the time, ending it regretfully was the normal outcome.

Forget about the dream of a reunion.

As a Reincarnator, from the moment he entered the Reincarnation World, he was destined to die alone.

To Li Yueming, the kindest thing he could do was endure loneliness alone.

He could only hope that Li Xiyue could survive...

No wonder many people said that the stronger a Reincarnator was, the stranger their temper would be.

He shuttled through the endless Reincarnation Worlds.

If he couldn't get rid of some memories in time, it would be strange if he wasn't mentally deranged!

He calmed down a little.

Li Yueming looked at the reincarnation mark.

Apparently.

This time, his score would definitely not be low.

As for how high it could be...

He needed the reincarnation mark to accurately calculate.

[Welcome back to the reincarnation space. The score is being calculated!]

[You have successfully lived past 18 years old in this reincarnation and changed all your fate trajectories!]

[Basic score increased from D to C. Reward: 2,000 reincarnation points!]

[In this reincarnation, you have changed the fate of the destined child, Li Xiyue!]

[Imprint score increased from C to B. Reward: 5,000 reincarnation points!]

[In this reincarnation, you changed the fate of all sewer residents and sent them to the Surface World!]

[Imprint score increased from B to A+. Reward: 10,000 reincarnation points!]

[You have successfully created the strange breathing technique in the third-rank apocalyptic world and used it to change the fate of all Humans!]

[Imprint score increased from A+ to S+. Reward: 50,000 Reincarnation Points!]

[You have made an indelible contribution to Planet 3-024 in this reincarnation. Because of your existence, Planet 3-024's Apocalyptic Wasteland Planet has successfully upgraded to Planet 4-0241!]

[Imprint score increased from S+ to SSS. Reward: 200,000 Reincarnation Points!]

[This reincarnation score is: SSS!]

[Score exceeding C-. Reincarnation Mark has been permanently bound. Your serial number is 7001611!]

[Reward settlement completed: You have obtained additional reincarnation authority 5 times, 267,000 reincarnation points, SSS-grade reincarnation power return, 3,000 Reincarnator experience, and fixed number of talents*1!]

[In addition, the will of Planet 4-0241 expresses its gratitude to you and hopes that you will come and play often when you are free. At the same time, it has given you a thank-you gift. You can open the Reincarnator's mailbox and sign for it!]

[The reward has been settled and is being distributed...]

A series of information appeared on the reincarnation mark.

Li Yueming felt his mouth go dry.

Although he was already mentally prepared.

When he really saw such a rich reward.

However, he still found it unbelievable.

First was the five additional reincarnation rights.

To put it bluntly, this thing was the lifeblood of all Reincarnators!!!

There was also a level difference between Reincarnators.

Level 1 Reincarnators could only obtain the authority to reincarnate once a month.

After using it, it was gone.

He could only obtain new reincarnation authority from the reincarnation mark next month.

Which meant...

Most low-level Reincarnators did not join any factions.

If he did not have enough reincarnation points to buy,

He could only reincarnate once a month.

The most common way to obtain more reincarnation points was to increase the level of his reincarnation mark.

The Level 2 Reincarnators could receive the authority to reincarnate twice a month.

The Level 3 Reincarnators could obtain the authority to reincarnate three times a month.

And so on.

The higher the level of the Reincarnator,

The more reincarnations he received every month,

Secondly.

The reincarnation mark could also be obtained during the simulation.

However, this condition was extremely harsh.

Only when the score obtained in the Reincarnation World reached A+ would there be a chance to obtain additional reincarnations.

There was another way to obtain it.

That was to join the faction formed by the Reincarnators and perform well.

Perhaps one day, when the higher-ups were in a good mood, they might reward them with reincarnation rights.

The last one.

It was also the most common type.

That was to use reincarnation points to buy the number of reincarnations.

However, there were not many Reincarnators who sold the number of reincarnations.

Therefore, the number of reincarnations would be especially expensive.

An additional reincarnation authority could easily be sold for 30,000 to 50,000 reincarnation points in the Reincarnator Market.

But now...

Li Yueming's simulation this time directly obtained five additional reincarnations.

If other Reincarnators knew about this...

They would probably dissect him on the spot for a human experiment.

However, Li Yueming's reward was far more than that.

The second reward listed in the mark.

A total of 270,000 Reincarnation Points.

The reincarnation point was a hard currency used by Reincarnators to exchange materials.

It was equivalent to money among Reincarnators.

270,000 Reincarnation Points.

Even if he auctioned off the reincarnation authority, it was enough to auction off five or six.

One could imagine what kind of huge sum of money this was.

It was enough for Li Yueming to lie down comfortably for the rest of his life.

Then, there was an SSS-level rebirth power return!

This was a regular reward for the Reincarnators.

In short, it was to return a portion of the power obtained by the Reincarnator in the Reincarnation World.

As for the exact amount of return, other than looking at the face, the biggest factor was the score.

Normally speaking,

The return of the reincarnation power of a third-rank apocalyptic world was about 20%.

Reincarnators who performed quite well and scored above B-rank could obtain about 30 to 50% of their strength.

After all, the power level of a third-rank apocalyptic world was not very high.

Therefore, the reincarnation mark was quite generous.

But now...

Li Yueming's score was SSS.

He had studied in the Reincarnator School for so long.

Until now, he still did not know how terrifying the SSS-grade reincarnation power was.

He thought about it.

Li Yueming did not choose to return it immediately. He would count his gains first.

His gaze continued to sweep behind him.

The experience of a Reincarnator and a fixed opportunity for talent.

There was nothing to say about these two.

The experience of a Reincarnator could increase the level of the reincarnation mark.

3,000 EXP was enough for Li Yueming to go from LV1 to LV2!

To put it simply, Li Yueming had a chance to fix the talent of the Reincarnation World to his own talent.

This thing was also a treasure that Reincarnators could only dream of.

The market price was dozens of times more expensive than the number of reincarnations.

Moreover, there were almost no channels for sale.

This was because the amount of this thing produced was too little. Usually, when Reincarnators obtained a fixed number of times, they had to be treated as family heirlooms.

When he encountered a good talent, he would use a fixed number of times to permanently fix the talent on himself.

And now.

This fixed number of rewards from the reincarnation mark was simply a pillow for Li Yueming when he was sleepy.

After all, the invincible golden talent was so useful.

How could Li Yueming miss it?

At this moment.

The mechanical voice of the reincarnation mark suddenly sounded again.

[Beep, all rewards have been settled. Reincarnator Li Yueming, please evaluate this reincarnation!]

[PS: The reincarnation mark will adjust the difficulty of reincarnation according to the evaluation of all invitees. Reincarnators, please fill in the selection carefully!]

[Remark 1: It's too difficult to change one's fate in the Reincarnation World. I want to go home and find my mother!]

[Remark 2: Changing fate in the Reincarnation World is very challenging. I hope we can continue to challenge it next time!]

[Remark 3: Changing fate in the Reincarnation World is too simple. I can clear it with my feet!]

He looked at the three options above.

Li Yueming rubbed his chin and pondered for a long time before revealing a strange smile...

In any case, his talent could be increased by a hundred times every time.

Except for a few unlucky situations.

There was no need to worry about not being able to change his fate.

On the contrary, higher difficulty meant rarer material rewards to him.

So...

It was very simple!

You're welcome.

He was just a good young man passing by!
