Chapter 461: Star Moon Army, YYDPS 1

He heard that the Qin army was searching for traces of the Star Moon Army in the north.

The entire Great Zhou was in an uproar.

The Northern Battlefront Army responded as soon as the public opinion was stirred. Although the Star Moon Army was also an independent force, it was not fully developed yet. If they really encountered the Qin army, they would probably suffer a devastating blow.

Therefore, after careful consideration.

You Aotian decided to first send out three new troops established by the students of the Cultivation Academy to test the effect.

Back when these people had asked him for resources, they had all been incredibly proud and felt that the new army they had created would be able to sweep through Great Qin.

Now that three years had passed, the Starmoon Troop had achieved their first victory around this time.

It was time for the mule to come out and take a walk.

Of course, just in case, You Aotian had made several preparations.

At this moment, the Qin army was also pressing down on the western border, and there was a feeling of a big fight.

Everyone in the Great Zhou felt threatened.

Even Prince Yu fell silent for a short while.

Now, the world still belonged to their Ji family.

If he were to cause trouble at this time, he might have to change his name in the future.

Furthermore, the emperor would definitely not let him off.

It was time to inspect the troops.

You Aotian and Prince Yu were both on the city wall of Zhenbei City.

He looked down at the army below.

On the surface, it looked very decent.

After all, it was impossible for reincarnators who could enter a level 5 world to be useless.

After dominating so many reincarnation worlds, he would have a few skills that belonged to him.

However, in terms of temperament and discipline, they were far from the Star Moon Army.

Even after more than a month of training in the Starmoon Troop, he still hadn't achieved the same results.

Under normal circumstances.

To be able to train a new army to such an extent in three years.

This group of cultivators from Haojing Cultivator Academy was indeed worthy of their reputation as geniuses.

However, if he wanted to compete with the Qin army that had never been defeated.

However, he was still a little too inexperienced.

You Aotian looked at the new army under his feet and was a little worried.

In fact, he already wanted to retract his order at the last minute.

After all, they had sent a new army that had not been trained well to fight against the Qin army.

I'm afraid the guild has suffered heavy losses.

If the Qin army was so easy to defeat, how could they suppress the West Garrison Army, who had the military spirit, to the point that they only dared to hide in the city?

If everyone could become Li Yueming, how could Li Yueming's achievements be praised and praised by the whole world?

However, the one who gave the order this time was the emperor of Zhou, who was far away in Haojing.

The other party clearly had great hopes for the disciples of the Cultivation Academy.

After all, Li Yueming was a student of the Cultivation College. He had made such a remarkable contribution to the Great Zhou Dynasty in the northern battlefield.

Then, could the other geniuses in the same batch as him do the same?

This group of cultivators had been sent by the imperial government.

You Aotian did not have the right or authority to stop him.

They could only watch as they reorganized their troops and headed for the northern battlefield.

The 18 reincarnators who came this time formed three teams.

A total of 100,000 people.

At the emperor's request.

You Aotian could be said to have given everything he wanted with all his heart and blood.

He almost emptied the entire Northern Battlefront Army.

It was not easy for them to gather a hundred thousand soldiers, but they could only watch them die.

You Aotian's depression and pain were indescribable.

What if the 100,000 soldiers were all transferred to Li Yueming? With 100,000 Star Moon Troops stationed here, the entire Qin army in the north would probably have to take a detour, right?

Unfortunately, Li Yueming's identity was too sensitive.

This made it almost impossible for the emperor to rest assured.

Of course, although You Aotian's expression was terrible and his heart ached, he was still in pain.

However, the group of reincarnators training below the city wall were extremely excited. They squeezed their way into the Cultivator Academy.

Wasn't it so that he could reach the highest level of power in the Great Zhou faster than others? With tens of thousands of troops under his command, the road ahead was smooth and unobstructed. Even if the other reincarnators wanted to chase after him, they would not be able to do so. With them guarding the top, it was impossible for them to cause too much trouble. Especially since there were still few competitors, it was better to quickly earn more points and merit points.

It could be said that they had won this round! Of course, for his own team's combat strength. Many reincarnators felt that there were still many areas that needed improvement. However, in general, it should still be passable. With the example of the Star Moon Army, many reincarnators were naturally full of confidence. He felt that the combat strength of the Qin army was probably only so. The rumors of a Qin army that could last three weeks were probably very exaggerated. The Star Moon Troop trained for two and a half years before they could compete with the Qin army. He only needed to train hard and bring up a team that belonged to him. Their troops could also take this opportunity to easily farm some rewards. Therefore, he had the mentality of killing to become famous. Many reincarnators led their troops and set off. They were prepared to ambush the Qin army while they were searching for the Star Moon Troop, waiting for them to attack. To be on the safe side. The reincarnators did not choose to divide their forces. After all, there were only 70,000 to 80,000 Qin soldiers active in the north. Their 100,000-strong army could easily suppress a counterattack. The number of Qin Jun killed was enough for more than ten reincarnators to distribute. After hearing this news. Even Li Yueming, who was cultivating in the camp, asked a few more questions..

Chapter 462: Star and Moon Army, WDPS 2

After confirming that this group of reincarnators were really going to help Northern Glacier Town block the disaster, they were almost moved to tears.

He pondered for a moment.

In the end, he called Huang Li 'er and the others into the main tent.

He explained some of the arrangements to them.

They heard Li Yueming talking about the policy of killing three birds with one stone.

The eyes of many reincarnators lit up.

Sixth Brother and the others were good at it!

Especially this kind of strategy that was beneficial to him and could disgust other reincarnators without leaving any traces. His eyes lit up.

He had no choice. He was too excited!

They were still anxious over the past few years.

After all, they had gained benefits from following behind Li Ming, and they were now leading 99% of the cultivators.

However, in the past two years, he had been making no progress.

He didn't gain more military merits or fame to consolidate his advantage.

They could only watch helplessly as their competitors, who were also in the same realm as them, came to the north to snatch their jobs.

Moreover, he had even obtained the favor of the Imperial Court.

In the past three years, they had all established their own new armies.

It was becoming more and more powerful in the Northlands.

As the Scouts, they felt as if a cat was scratching their hearts.

His heart was bleeding!

If it wasn't for the fact that he had built up enough trust with Li Yueming during the long journey, he would not have been able to do so.

At this moment, the group of reincarnators had probably already run away with buckets.

Fortunately, Li Yueming didn't let them down.

In the past few years, it was fine if he didn't make a move, but once he did, he would use a ruthless and desperate tactic.

If this operation was successful.

It was likely that this group of competitors would not be able to turn things around for many years to come.

.0.

After watching Huang Li 'er and the others leave.

Li Yueming's lips curled into a smile.

It just so happened that he had already completely broken through the threshold of the Spirit Focus Realm and was constantly consolidating his newly advanced cultivation.

To be honest, the path of cultivators only required sufficient spiritual energy.

There didn't seem to be any special threshold.

After breaking through a major realm, the spiritual energy contained in the body could be strengthened.

Cultivators who ascended to the 12th tribulation could have the power to destroy the world.

It was an achievement that could only be obtained by seizing the fate of heaven and earth.

No wonder the Tiandu Clan was the only Renhuang in the world who had broken through to the ascension realm for tens of thousands of years.

If the amount of spiritual energy required for the final ascension realm was extremely ridiculous.

Perhaps only by unifying the world and gathering the fate of the entire world could he reach the top.

In contrast, Li Yueming's own development of the Human Body Secret Realm was completely different from absorbing the Heaven and Earth Spiritual Energy.

The more he developed it, the more shen power in his body surged like a spring.

Other than the need to devour the energy required for basic human energy.

There was no need to worry about getting weaker and weaker at the back.

Of course, the time and energy required to open up a human body treasure had also increased exponentially.

Even though Li Yueming had the infinite deduction talent and even used his perfect genetic body to evolve his brain capacity, increasing the efficiency of the infinite deduction talent.

However, it was still far from being able to open up a new human body treasure.

Perhaps this was Li Yueming's only worry.

After all, the further Li Yueming progressed, the more he felt the inadequacies of the cultivator's Dharmic formulations.

If it was possible, he hoped to develop a few more human body treasures to make up for this shortcoming.

Unfortunately, haste did not eat hot tofu.

Li Yueming was only 23 years old.

Such a cultivation result was already shocking enough.

Too much pursuit of exploring the human body's treasures would actually cause them to fall behind.

Time flew by, and another half a month passed.

Li Yueming finally came out of seclusion.

At the same time, news came from the front line. The batch of genius reincarnators in the Cultivator Academy had encountered the Qin army for the first time.

In the end, it had not even been two days since the few troops came into contact with the official battle, and the 100,000-strong army hastily created by the prodigies of the Cultivator Academy had suffered a devastating blow.

The 100,000 strong army was broken through by 50,000 elite Qin soldiers.

The Qin army rode on their spiritual horses and charged through the formation, causing the army to be utterly defeated. Tens of thousands of soldiers were killed, and the remaining tens of thousands of soldiers fled in all directions.

Although the few reincarnators were all brave and had killed many Qin soldiers.

However, in a war of this scale, their True Form Realm power wasn't enough to change the situation.

He had no choice but to run away with his tail between his legs.

This battle stunned everyone in the Great Zhou.

One had to know that this was an army of 100,000!

In terms of numbers, it was twice as many as the 50,000 Qin soldiers.

However, even with the difference in strength, the Great Zhou soldiers could not last more than two days under the attack of the Qin army.

Even though they already knew that the Qin army was brave and good at fighting.

However, when they heard this result, many people still felt that they could not accept it for a moment.

Just as the world was in an uproar and the imperial court was shaken.

A second piece of news came from the northern front line.

When the Starmoon Troop heard that their allies had been defeated, they gathered their troops overnight and rushed to the battlefield to provide reinforcements.

They had just entered the battlefield when the Qin soldiers were crazily chasing after the Great Zhou soldiers and snatching their heads.

Originally, the Qin army had been searching with great fanfare in order to dig out the Star Moon Army's lair.

Now that they were suddenly attacked on the road, they thought that the Star

Moon Army finally couldn't hold back and attacked.

However, he did not expect it to be a unit with no combat strength.

The formation was broken by them in a few rounds..

Chapter 463: Star and Moon Army, YYDPS 3

The Qin army, whose eyes were red from killing, was now excited! The troops had already dispersed, each forming a small group to pursue the defeated army.

It was the period when the army was at its most relaxed.

However, they did not expect to encounter the main force of the Star-Moon Army at this critical moment.

The Qin general Imew that he had been tricked.

But it was too late.

Even if they recalled their troops in an emergency, it would be very difficult to form a fighting force in a hurry.

If the enemy general was smart enough.

They wouldn't be given the time to do so.

At this moment.

The dozen or so reincarnators who had escaped also saw the Star Moon Army at the first moment.

To be honest, they were dumbfounded.

Not only did they think that the Qin army had easily turned the tide of the battle, but they also saw a disciplined army with the same expression!

Until he saw the Star Moon Army's flag.

The defeated army finally came back to their senses and knew that reinforcements had arrived. Moreover, it was the famous Starmoon Army.

Therefore, after a short daze.

The group of soldiers fled in the direction of the Star Moon Army.

Fortunately, the Starmoon Troop was prepared for this.

He watched as the retreating army rushed in his direction.

Ding Yi, the leader, immediately ordered the army to split up.

In the next second, the orderly Starmoon Army infantry opened up a path and signaled for the deserters to leave from the middle.

Of course, if someone couldn't think straight and insisted on attacking the Star Moon Army's formation, they would be killed.

The Star Moon Army did not show any mercy. They directly raised their spears and sent these ignorant fellows to hell.

Before the rebels could completely escape from the battlefield.

The second order of the Star Moon Troop had already begun.

The Forward Strike Battalion, equipped with heavy shields, pressed forward at high speed.

The pikemen behind him followed closely behind at a steady pace.

As for the crossbowmen at the back, they followed at the back of the formation.

On both sides of the troop were over 5,000 cavalry units of the Star Moon Army.

These people were the elites of the Star-Moon Army. They were all veterans who had been undergoing transformation since the beginning of the army.

With them holding down the flanks, there was no need to worry about the Qin army cutting into the formation from the flanks.

Although this step sounded complicated.

However, it only took a short moment to put it into practice.

After all, he was famous for his fast and efficient execution.

As long as the order was given, even if it was a fire pit in front of them, the soldiers of the Star Moon Army would charge forward.

Even though his willpower was not comparable to steel, he was still able to resist the pressure.

However, even in the entire Six Nations, the Starmoon Troop's combat style was unique.

If the Qin army was still here.

At this moment, he could wrestle with the Star Moon Army.

However, the soldiers who had been chasing the Great Zhou troops had not completely returned.

At this moment, facing the Star Moon Army that was ready to go, the fate of the Qin army was already decided.

Seeing that the situation was over.

The Qin commander was decisive enough.

He directly ordered the front troops to cover the rear troops, and the army retreated in batches.

If it was any other time.

The Qin army would probably lose a few thousand men before escaping.

After all, the Qin army's warhorses were of excellent quality and were much faster than the Great Zhou's spiritual horses.

But now, another army suddenly appeared behind the Qin army.

He looked at the Northern Battlefront Army's flag fluttering on the flagpole.

The expression of the Qin general darkened.

Clearly, they never dreamed that the Great Zhou would have such courage.

They actually dared to use the 100,000-strong army as bait to form an encirclement.

Chapter 464: The Super Fate Child who was doted on by Heaven and Earth? 1

He looked at the Northern Battlefront Army who had suddenly surrounded him.

The Qin general's face darkened.

He did not expect that the usually submissive Great Zhou would not play by the rules this time.

Using the 100,000 soldiers as bait to lure them into the encirclement.

Right now, there was the Star Moon Army at the front and the Northern Battlefront Army at the back. The Star Moon Army had more than 50,000 elite soldiers.

Although the Northern Battlefront Army was not that elite, there were 100,000 of them.

Under such circumstances, the Qin army would have to pay a heavy price if they wanted to break out.

However, no matter the price, it was better than being surrounded and devoured.

Therefore, although the general's heart was bleeding, he could only lead the Qin army that he had gathered with great difficulty and rush towards the Northern Battlefront Army.

Compared to the well-trained and disciplined Star Moon Army, the Star Moon Army was very disciplined.

The general of the Qin army was obviously more inclined to break through from the Northern Zhenbei army behind him.

Even if the Star Moon Army only had 50,000 troops and the Northern Army had 100,000 troops.

“Great Qin is mighty, kill!”

The leader of the Qin army shouted to boost their morale.

Then, he charged toward the Northern Battlefront Army.

They had no choice. If they didn't seize the time, when the Star Moon Army and the Northern Battlefront Army finished their encirclement, the Qin army would have no hope of breaking out of the encirclement. It was a decisive reaction to the Qin army's general.

Neither You Aotian nor Ding Yi were surprised.

From the moment the Qin army chased after the defeated army and left the battle formation, the outcome was already decided.

Soon, the Northern Battlefront Army and the Qin Army were fighting.

In the battle of trapped beasts, there is death but no life.

Thus, the Qin army was particularly ferocious at this time.

Even though they did not form a formation, they almost tore apart the defensive line of the Northern Battlefront Army's shield guards.

Fortunately, You Aotian had deliberately opened up a path beside the battle formation at the critical moment to let a portion of the Qin army leave. Only then did the pressure on the front line decrease.

There was no other way. Although You Aotian dreamed of wiping out this Qin army, the actual situation did not allow it.

The Qin people were not afraid of death.

During a battle, even if the Qin army was heavily injured, they would do their best to drag a Great Zhou soldier down with them.

In the entire Great Zhou, only the Star Moon Army and the Western Garrison Army had the ability to resist this kind of reckless fighting style.

They could only open up a path and let the Qin army see a way out.

The Qin army, which had a desire to survive, was not as fierce.

The Northern Battlefront Army and the Qin Army fought for more than ten minutes.

The Star Moon Troop finally arrived.

The archers fired a volley of arrows, and five thousand cavalymen surrounded the two wings.

As long as there was a single Qin soldier, it would be hard to escape death.

In the face of such a tragic and bloody war, life was as fragile as a flower that could wither at any time.

The slightest movement would cause it to wither.

In this battle, the Northern Battlefront Army and Star Moon Army had wiped out more than 30,000 Qin soldiers.

They had almost wiped out one of the two Qin armies that had been roaming the north.

At the same time, this was probably the greatest victory that the Great Zhou and Qin had won against the Great Country in so many years.

Before this, even the Star Moon Troop had never achieved such a shocking result!

The Northern post soldiers rushed to Haojing and informed the Great Zhou Imperial Court, thousands of miles away, of the outcome of this great victory.

Instantly, the entire Great Zhou was in an uproar in just a few days.

The streets and alleys were all discussing the sudden victory in the North.

The news spread so widely that even many ordinary people who could not read heard the news.

Almost countless people in the entire Great Zhou viewed this with suspicion.

After all, it had only been a few days ago that the Great Zhou army had suffered a crushing defeat. A few new armies that everyone had placed their hopes on had been crushed by the Great Qin soldiers.

How long had it been?

In less than two days.

The Great Zhou suddenly had a great victory?

Some people even suspected that this was fake news deliberately released by the imperial court and the emperor.

It was to wash away the dark clouds brought about by the news of the tragic defeat a few days ago and to sweep away the fear and anxiety in the hearts of the people.

Other than this reason.

No one could think of a second possibility.

However...When the detailed news spread, the entire world instantly boiled over again.

This was because the news this time was accompanied by detailed information about the Northland battlefield.

They heard that the Northern Battlefront Army and the troops of the army had attacked the Qin army and killed more than 30,000 people.

Everyone's mouth could fit an egg!

However, the news this time had a beginning and an end, and even the details could withstand scrutiny.

Only then did everyone reluctantly believe that the Great Zhou had really completed this magnificent feat.

The news about the Star Moon Army and the Northern Battlefront Army exploded!!!

"What did I say? If they wanted to defeat the Qin army, they would have to involve the Star Moon Army!"

"I don't know what the imperial court is thinking. They would rather establish more new armies than expand the Star Moon Army. Now, the Star Moon Army has less than 50,000 people and they can already achieve such a great victory. If it's 500,000... The entire Great Qin would tremble in fear!"

"Shh, Old Tie, you can't say that!"

"The Star Moon Army's general is the eldest son of the Li family. One family and two generals are enough to arouse His Majesty's vigilance. Now, Li Yueming is so monstrous.!"

"That's true, but the Star Moon Troop has once again made a great contribution.

His Majesty can't possibly be indifferent to this, right? What do you think His Majesty will reward us with?" "Who knows?"

The crowd discussed animatedly.

Back then, the few new armies that everyone had high hopes for had been defeated. This also allowed the people of Great Zhou to have a very good understanding of the strength of the Qin army..

Chapter 465: The Super Fate Child who was doted on by Heaven and Earth? 2

After all, although they had heard that the Qin army was extremely powerful, the Great Zhou Dynasty still occupied the city most of the time and rarely encountered battles in the wild.

But now, the Star Moon Army, together with the Northern Battlefront Army, had won such a great victory.

Countless people could not help but clap their hands and exclaim.

This encirclement against Qin Jun could be said to be a model in the history of war.

Although it was just a simple bait.

However, the Star Moon Army, the Northern Battlefront Army, and the three defeated armies all cooperated well.

Of course, many people didn't know that the only actors in this war were Li Yueming's Star Moon Army and You Aotian's Northern Army.

The three defeated armies and the Qin army were the ones who had been fooled.

There was an old saying that the prerequisite for lying to others was to lie to oneself.

Obviously, the three defeated troops were very good actors.

After the victory, the Northern Army and the Star Moon Army returned to the capital.

Li Yueming knew very well that he could not take the credit for this battle.

After all, the three new armies were the troops appointed by the emperor.

It was enough for the emperor to lose face in front of the Qin army.

Now, the Northern Battlefront Army and the Star Moon Army had returned triumphantly after stepping on the heads of the three defeated armies. To a certain extent, the Star Moon Army and the Northern Battlefront Army had stepped on the emperor and put him in an awkward situation.

Therefore, in order to ensure the long-term development of the Star Moon Troop.

Li Yueming announced that he and You Aotian had received the emperor's secret letter.

In other words, whether it was sending 100,000 troops as bait to lure the Qin army, or sending the Star Moon Army and Northern Battlefront Army to surround them, everything was done under the emperor's instructions.

This way, not only would he not offend the emperor, but he would also be able to establish an image of being a divine schemer.

That was why politics...It was filled with all kinds of twists and turns.

In court, one had to pay attention to the details.

As expected, after this news spread, the emperor, who had been silent, immediately became overjoyed.

This time, he was quite generous. He gave Li Yueming the title of Earl and rewarded Li Yueming and You Aotian with thousands of miles of land.

This kind of reward can be said to be the envy of others.

It must be known that the current Zhou Dynasty was not like the era when the country was founded.

In the current Great Zhou, being able to obtain the position of an Earl could already be considered an exception.

If it wasn't for the fact that he had made a heaven-shattering contribution, ordinary people wouldn't even think about it.

However, although everyone was envious, they did not feel much jealousy.

It couldn't be helped. Li Yueming and You Aotian's contribution this time was indeed great enough.

Although they had only destroyed 30,000 Qin soldiers, it was an unprecedented feat, breaking the Qin army's undefeated legend.

After receiving this reward, Li Yue Ming wasn't very excited.

After all, he had already established himself in Northern Glacier Town. Unless it was absolutely necessary, he would never return to the Central Plains.

The title of nobility and land bestowed by the emperor were just empty titles to him.

Since he wasn't going back, what did the fields and the house count for?

The emperor's reward had clearly gone through careful consideration.

After all, Li Yueming had already shown his talents. If he were to be promoted again, he was afraid that there would be no reward or reward in the future.

This was why he gave Li Yueming the position of Earl, which looked very tempting but was actually useless.

Of course, although Li Yueming was clear in his heart.

However, he still had to pretend to be grateful on the surface.

After settling the matter of the imperial court, Li Yueming still couldn't stop.

After all, the three defeated troops still needed to be organized.

Even though the Qin army had suffered heavy losses in the battle, there were less than 70,000 people left from the 100,000 troops.

However, there were still 70,000 mouths, which was not a small problem.

For this reason, Li Yueming also asked the emperor for instructions, but the emperor was very cold about this matter.

After all, he had high hopes for the three armies.

In order to meet the daily needs of the three armies, the emperor did not hesitate to transfer food from the Central Plains.

It could be said that he gave her whatever she wanted.

However, in the end, these few troops had embarrassed him greatly.

If not for the Star Moon Army saving the situation in time, the emperor probably wouldn't even have a way out.

Thus, the extremely disappointed emperor naturally lost his patience with these three troops.

Not beheading this army that had collapsed at once was already a great favor from the emperor.

When Li Yueming asked.

The emperor said that he would let the defeated army return to the north of the city. If the Star Moon Army was interested, they could recruit some of them.

Li Yueming was waiting for this order.

Immediately, he found a group of elite troops among the defeated troops.

In addition, the dozen or so cultivators from the various academies were all packed together.

The remaining 50,000 defeated soldiers were sent back to Zhenbei City.

After all, Northern Ice River Town had limited provisions. Even if they had more provisions, they wouldn't be able to withstand so many mouths. Only the northern part of the city could provide so much food.

After the remaining soldiers left.

Li Yueming looked at the defeated army of nearly 10,000 people and said, • “”Are you willing to join our Starmoon Army?”

At this moment, the defeated soldiers still looked terrified..

Chapter 466: The Super Fate Child who was doted on by Heaven and Earth? 3

These few days, he would dream of the fiendish Qin army harvesting heads one by one.

Now that they heard Li Yueming's words, most of them were numb and did not react.

They could not be blamed for this.

The psychological trauma from the defeat a few days ago was too great.

For a newly formed army like theirs, a single defeat like this was enough to deal a devastating blow to their confidence.

Seeing that the soldiers did not respond, Li Yueming was not annoyed.

He waved his hand and let the reincarnator who had graduated from the cultivator college walk over.

At this moment, the expressions of this batch of reincarnators were not too good.

After all, they were full of confidence back then, thinking that the Qin army would be able to defeat them easily.

He didn't expect the Qin army to have reached the limit of cavalry and infantry.

He was caught off guard and suffered such a huge loss.

If they had investigated properly beforehand, perhaps the outcome would not be so tragic.

However, there was no medicine for regret in this world.

Therefore, although they looked depressed, most of them could still control their emotions.

The only pity was that it took so many years of hard work for them to gain the attention of the higher-ups.

He was about to build an army and reach the peak of his life.

But now, because of the loss of this battle, all his efforts had been wasted.

Looking at the ten reincarnators in front of him, Li Yueming did not have much expression on his face, but he sneered in his heart.

Of all people, he had come to the Northlands to poach him. Did he not know that the Northlands was under his protection?

Now that he had ended up like this, he could only say that he was happy to see it.

Retracting his thoughts, Li Yueming said solemnly, "Are you willing to join our Star Moon Army?"

Hearing this, the dozen or so reincarnators looked at each other.

Obviously, they had never thought that they would end up in front of the leader of the Star Moon Army.

He thought about it.

One of the reincarnators was also unyielding. He straightened his neck and said, "You must be the commander of the Star Moon Troop, Li Yueming, the son of the Marquis of Southern Mountains? If you want to recruit us, you'd better let the others behind you stand up and speak!"

Li Yueming was stunned.

Damn, they thought he was just the leader of the Star Moon Army.

Was there someone else controlling the Star Moon Army?

Li Yueming wanted to laugh, but he still said seriously, "I am the commander of the Star Moon Troop, Li Yueming, the son of the Marquis of Southern Mountains. No one is controlling me!"

Hearing this, the reincarnator clearly did not believe him. He continued, "I admit that your Star Moon Army is indeed very strong. It is more than a level stronger than the new army we have established... However, we are not people who can be easily subdued. If the person behind you doesn't step forward, we will definitely not surrender!"

Clearly, as experienced reincarnators, this group of people were very arrogant.

In any case, at the very least, he would die and be resurrected in the prime material plane.

If it wasn't for the Star-Moon Troop's strength that shocked them, they wouldn't have stayed behind to talk to Li Yueming.

Seeing this, Li Yueming sighed.

He could only call out the reincarnators in his camp.

The moment this group of people saw the other reincarnators, they already understood each other's identities.

After all, most reincarnators had their own unique style, which would seem to be incompatible with the surrounding environment and other ordinary people.

When the dozen or so reincarnators who led the defeated army saw the dozen or so reincarnators from the Star Moon Army, the most arrogant reincarnator immediately asked, "Who developed the Star Moon Troop's cultivation method?"

The dozen or so reincarnators of the Star Moon Army looked at each other when they heard this.

Obviously, they did not understand why they suddenly asked such a question that had nothing to do with surrendering.

Finally reacting to the situation, Ding Yi, Huang Li 'er, and a dozen other Star Moon Army survivors collectively looked at the silent Li Yueming not far away.

Tian Liang directly said, "This cultivation method was formulated by General Li from the beginning to the end. He followed up the entire process. Do you have any questions?"

Hearing this.

The defeated reincarnator who raised his head immediately widened his eyes.

He looked at Li Yueming in disbelief.

He could not help but open his mouth wide.

Judging from the various details he observed, Li Yueming did not look like a reincarnator, but more like a local aborigine.

In other words, they were actually pressed to the ground by a native of the fantasy world?

It was simply too ridiculous!

When they heard this answer, everyone, including him and the others, found it hard to accept!

So how powerful was this native?

A super Child of Destiny who was doted on by the heavens and earth?

Chapter 467: The Reincarnators Are Numbed...

After hearing that the Starmoon Troop was established by Li Yueming alone, he was shocked.

All the reincarnators in the defeated army were stunned.

Originally, they had always thought that they were competing with the reincarnators.

They did not expect that after all this time, the Reincarnators of the Human Clan had been winning the entire time, but they had actually been completely destroyed by a native?

Of course, this was not the most important thing.

Most importantly, this native could actually suppress so many reincarnators?

One had to know that the forehead of a reincarnator was engraved with the bone of rebellion.

They were all fearless people.

He did not know how to write the word 'obedience' at all.

As long as there were enough benefits, they could easily betray or forgive him.

It ignored all secular views and moral constraints.

But now, these ten or so reincarnators of the Star Moon Army were all so obedient.

There was no sign of rebellion.

If it wasn't for Li Yueming and the more than ten reincarnators of the Star Moon Army having serious expressions, they wouldn't have looked like they were joking at all.

Most likely, many reincarnators would think that this group of people was ganging up on them!

He finally came back to his senses.

The group of defeated reincarnators revealed puzzled expressions.

It couldn't be helped. Everything in front of them was too illogical. It was quite normal for them to feel that it was unbelievable.

He seemed to see the confusion on their faces.

Huang Li 'er raised her chin and said, "So are you willing or not?" If you don't want to, then get lost. The Star Moon Army doesn't welcome people like you!"

Hearing Huang Li 'er's words.

Behind him, Tian Liang, Ding Yi, and the rest also nodded.

As the founding elder of the Star Moon Army.

Huang Li 'er and the others still had a rather high status in the Star Moon Army.

Therefore, he did not have to worry about his status being threatened by the dozen or so reincarnators who had just joined.

But no matter what, it was one less competitor.

They did not want other reincarnators to join and take away too much of their power.

Of course, the most important thing was, what right did they have to be able to do so?

The Star Moon Troop was able to achieve what it was today because of their continuous hard work. The defeated generals were not worthy of being mentioned in the same breath as them.

If it wasn't for Li Yueming's sake...

They had long thought of ways to chase these guys away.

Therefore, seeing Huang Li 'er taking the lead, Tian Liang also took the initiative to stand up and say, "That's right. If you can join us, then join us; if you can't, then forget it.

Li Yueming listened the whole time, but he didn't say anything.

If these ten or so reincarnators were unwilling to join the Star Moon Army, there was indeed no need for him to force them.

After all, a forced melon was not sweet.

Of course, he would definitely not let these ten or so reincarnators go easily.

After all, if they could not be used by him, they would only become enemies when they went out on their own in the future.

In any case, the emperor hated them to the bone.

Li Yueming let them go first, then found a few people to kill them on the way.

If he kept his hands clean, no one would come to investigate.

Of course, this was a last resort.

He had always been a reasonable person and liked to convince people with reason.

He only hoped that this group of reincarnators would not be ungrateful.

Under the gazes of a group of people.

The ten or so defeated reincarnators were clearly in a dilemma.

From the perspective of the best option, returning to Dingyuan City was the best choice.

But now, they had suffered such a defeat, even though they were defeated by the Star Moon Army and the Northern Battlefront Army.

However, the actual situation could be hidden from the mouths of the world, but it could not be hidden from the emperor who was thousands of miles away.

At this moment, they had lost all their face.

If they returned to Zhenbei City, they might not have a good time.

But if they did not return to Zhenbei City, wouldn't it mean that all their efforts over the past few decades had been in vain?

He cultivated painstakingly. In the end, he suppressed the other reincarnators under the inner scrolls of the group of reincarnators and successfully entered the Cultivator Academy.

Now, it was just the time to harvest the fruits, but such a thing had happened.

If they were to join the Star Moon Army, it would be equivalent to declaring that all their efforts over the past decade had been in vain.

Moreover, the future of the Starmoon Troop was unknown.

How were they supposed to complete the main quest of this public dungeon?

Obviously, these were not problems that could be easily measured, but it was very likely that it would affect their development path for the rest of their lives.

Therefore, this group of reincarnators had to consider carefully and weigh the pros and cons.

He pondered for a long time.

The arrogant reincarnator finally calmed down.

Looking at Li Yueming who was not far away, he still couldn't accept the fact that Li Yueming was the true leader of the Star Moon Army.

After all, as a native, he was able to create an army with such a strong cohesion, which was so powerful that it could be commanded by him. It was simply too unbelievable.

But now, all the evidence pointed to this result that he did not want to believe.

Therefore, no matter how unbelievable he felt, he had no choice but to believe it.

After thinking for a moment, the reincarnator bowed slightly and said, "General Li, I have offended you with my words just now. Please forgive me!" Li Yueming waved his hand. He didn't care about these details..

Chapter 468: The Reincarnators Are Numbed...(2)

Seeing this, the reincarnator continued," I am Wang Biao. I also graduated from the Great Zhou Cultivator Academy. However, I am one year younger than you, so you might not have heard of my name...However, I've heard a little about you. I didn't expect that seeing you was better than hearing a hundred times. Only after meeting you today did I realize that General Li is even more powerful than the rumors!"

Hearing this, Li Yueming was a little shocked.

Good heavens, who said that reincarnators were all stones in the latrine pit, smelly and hard?

Wasn't he speaking human language?

As expected...There was nothing that couldn't be solved by a real beating.

If there was, then he would beat her up two more times.

Seeing that he was intentionally flattering him, Li Yueming smiled and replied, "'The past is not worth mentioning. Since we are all fellow disciples of the Great Zhou Cultivator Academy, wouldn't it be great if Brother Wang joined the Starmoon Army to kill the enemy?"

He had given her a way out.

After all, no matter how troublesome the reincarnators were, they were still capable!

In just a few years, Li Yueming was able to manage the Star Moon Army and North Ice River Town in such an orderly manner. Although his personal political level accounted for a part of it, the vast majority of the credit was still inseparable from the loyal 12 Warriors of the Star Moon Army.

Now, the Star-Moon Army and Northern Glacier Town were going to expand further.

The original twelve warriors were not enough.

It was just the right time to recruit twelve warriors.

As long as they could make the reincarnators obedient, they would be the best tools to use.

They were born with all kinds of skills, and one of them was stronger than six of them.

Who knew who would use it? Anyway, he couldn't put it down.

Li Yueming extended an olive branch again.

After thinking for a long time, Wang Biao decided to accept it first. If Li Yueming's offer was attractive enough, it might not be so difficult for him to stay in the Star Moon Army.

After all, they were in big trouble now.

If he returned to Zhenbei City, he would probably be treated coldly and ridiculed by the emperor and all the soldiers in the city.

It was very likely that he would not be able to raise his head in the next ten to twenty years.

It couldn't be helped. It was too embarrassing.

Back then, he had promised You Aotian and the emperor that he would be able to build a force comparable to the Star Moon Army in three years.

In the end, he was beaten up by the Qin army as soon as he was pulled out.

She was so embarrassed that she almost threw her face at her grandmother's house.

There was no room for development at all.

Therefore, if they thought about it this way, they would at least have a chance to perform if they stayed in the Star Moon Army.

Especially if he could learn Li Yueming's training method, it would be a good uccu:

After thinking about the cause and effect, Wang Biao gritted his teeth and nodded."Since General Li doesn't despise our identity as defeated generals, we naturally have no other choice but to be grateful...However, the only thing I have doubts about is what position General Li wants us to take after recruiting us. Of course, it wasn't that we were greedy, but we had to at least be mentally prepared!"

Hearing this, Li Yueming immediately knew that this was a sure thing.

Hahaha... He had struck it rich!

He had forcefully pulled out more than ten reincarnators from the emperor and more than ten thousand defeated soldiers with potential.

This was simply a huge fortune.

Although these ten or so reincarnators had just lost a battle, they were all covered in dust.

As long as they were used in the right place, these dozen or so people could be equivalent to hundreds of thousands of soldiers.

He coughed a few times and said,"As for your positions...There was no need to worry about that. The Star Moon Troop was still in its infancy. The army of the three armed forces had just been established. The other two armies had not been established yet. As long as you had enough ability, there would be plenty of positions for you!"

"As for your current positions, your main positions are attached to the Starmoon Army. The food and salary you receive will be distributed according to the treatment of the Centurion of the Starmoon Army for the time being. As for the specific tasks you do... He would first assist the logistics manager Tian Liang to familiarize himself with the various situations in Northern Ice River Town!"

Currently, the expansion of the Starmoon Troop was still relatively stable.

There was no need for more manpower.

However, the situation in Northern Glacier Town was completely different.

In the past two years, the Star Moon Troop had become famous and had even put up a slogan to protect the lives and property of the people.

As a result, millions of homeless refugees in the entire North flooded towards Northern Glacier Town.

In just two short years, the population of North Glacier Town had exceeded 300,000.

This was because Li Yueming realized that there were too many people and rejected many of them.

If it wasn't for You Aotian being the person in charge of the north.

In addition, these refugees had always been the people that the local officials did not like to come into contact with the most.

The news that the population of Northern Glacier Town was over 300,000 had probably spread by now.

It would definitely shock countless people in the world.

Under such circumstances, recruiting capable people to manage Northern Glacier Town was Li Yueming's top priority.

After hearing Li Yueming's work arrangement.

Let's not talk about the leader, Wang Biao.

The other dozen defeated reincarnators behind him were stunned.

What was going on?

It was normal for them to be transferred to the Star Moon Army.

But what was with them learning how to manage Northern Ice River Town?

Even birds and beasts could hardly survive in this extreme northern cold land. It was already not easy for a town to have a population of more than ten thousand. What kind of big town could pop out? They actually needed more than ten of them to manage it?

Wouldn't that be using a sledgehammer to kill a chicken?

Therefore, after reacting, the first reaction of the group of reincarnators was reluctance-

After all, although they were down and out, they still had their pride.

They wouldn't pick up a rice bowl that had fallen out of nowhere!

Seemingly noticing the change in their expressions, Tian Liang became a little angry.

These idiots probably thought that Northern Ice River Town was just a small village!

However, only he, who was in charge of logistics, knew how large the current Northern Ice River Town was.

In the past two years, he had been working in shifts and had not rested for a few days.

If not for the fact that he had the foundation of a cultivator, he might have died suddenly.

In order to let himself take a few more days off, Tian Liang could only pinch his nose and say, "The population of North Ice River Town has just exceeded 180,000, and there are still 100,000 people

who haven't settled down yet. Additionally, there are 70,000 to 80,000 people who don't want to leave.”

Wang Biao was speechless.

The other ten or so reincarnators were speechless.

When he heard the number 280,000, he was shocked.

The group of people was stunned for a moment.

This time, they were even more stunned than when they heard that Li Yueming was the one who created the Star Moon Army.

Many people even forgot to breathe for a moment.

After finally catching his breath, someone exclaimed in disbelief, “How many people?”

Seeing their noisy appearance, like country bumpkins who had never seen the world, Tian Liang could not help but reveal a somewhat disdainful expression.

This group of people was really too low, lowering the level of their reincarnators.

Of course, even when Tian Liang said this number himself, he was still a little unbelievable.

The others could not be blamed for being shocked.

Coughing twice, Tian Liang said solemnly, ”“There are 180,000 people who have settled down, and there are still more than 100,000 people who have not settled down. In other words, the current population of Northern Ice River Town has reached nearly 300,000!”

Hearing this number again, even if he was already mentally prepared, he would still be able to do it.

The group of reincarnators were still shocked.

Northern Glacier Town had a population of nearly 300,000?

This sounded too creepy!

How could such a desolate place of ice and snow be able to raise so many people?

However, they had never come into contact with this question, so they would never know.

After all, whether it was Tian Liang or Li Yueming, or anyone else who knew the inside story, they would not be stupid enough to tell them their source of food.

An Ning suppressed the curiosity in her heart.

Only then did the group of reincarnators regain their senses. They looked at Li Yueming who was not far away and said, “If Northern Glacier Town really has a population of more than 300,000, then we are naturally willing to work for you. But before that, can you bring us to take a look? After all, seeing is believing! ”

Obviously, they knew that Li Yueming didn't need to lie to them about this number.

However, the reincarnators still found it unbelievable.

Only when they saw it for themselves would they be completely convinced.

Li Yueming had no objections to this.

Every house in the neat building was equipped with a chimney. At this moment, there was still smoke rising from the chimney, which looked extremely hazy under the morning light.

When the reincarnators saw this situation, they could not help but widen their eyes. They could not help but fall into deep shock.

They have crossed countless worlds.

Putting aside those worlds that were more advanced in technology, this was the first time they had seen a world that was more advanced in individual martial arts, such as a city like Northern Glacier Town.

Moreover...

Many of the defeated reincarnators thought of a problem.

Damn it, you call this a small town on the border?

You call this Tidal City?

Since when did the population of a small town in the border become so large?

And if he remembered correctly.

When they were searching for the Qin army, they had passed by a few Tidal Towns that were similar to North Glacier Town.

However, the Tidal Town they saw back then and the Northern Glacier Town they saw now...No matter how he looked at it, it didn't look like something under the same name!

He seemed to have sensed their doubts.

As the guide, the centurion of the Star Moon Army placed his hands on his hips, his chin almost reaching the sky. He said proudly, "Are you wondering why Northern Ice River Town is so large?"

This chiliarch was a soldier who had been following Li Yueming since the beginning of Zhenbei City.

He could be considered a veteran of the Star-Moon Army.

He had seen the changes and development of Northern Ice River Town every year.

They watched as the originally poor and dilapidated small town with a population of 10,000 turned into a large town with a population of more than 300,000.

He had also contributed a small part in this.

After all, many of the houses were built by them!

Therefore, he seemed to have a sense of participation.

Seeing his smug look, she was just short of saying, 'Do you want to know everything? Quickly ask me! These words were written on his forehead.

Fortunately, this group of reincarnators did not have much arrogance now.

Otherwise, they would never have let this guy's boasting go as he wished.

Therefore, in the end, it was Wang Biao who took the initiative to speak, “This little general, can you tell us about the past of Northern Ice River Town?”

When the soldier heard the words ‘Little General’, the smile on his face clearly froze. He immediately retorted sternly, “I’m just a chiliarch. There can only be one general in the Star Moon Army, General Li. No one else can do that. No matter what, I, Zhang San, will be the first one to disagree!”

Obviously, the term ‘little general’ had provoked the chiliarch named Zhang San.

This caused him to react very excitedly.

The reason for this was not entirely because Zhang San was sensitive.

It was because the Right Prime Minister Ge Hong had suggested that Li Yueming be transferred to the capital.

The imperial court had sent a new general to take over the Star Moon Army and the Northern Ice River Town behind the Star Moon Army.

This news was suppressed in the end.

However, the disturbance that came was not small at all.

This was the main reason why the soldiers and citizens of Northern Ice River Town were so sensitive to such words.

One had to know that Northern Glacier Town had been able to develop so quickly.

Based on what?

Perhaps some people would say that it was the entire Star Moon Army and the management personnel under it.

However, anyone with a normal brain would know that this was the credit of the Star Moon Army’s general, Li Yueming.

After all, if the superior couldn’t take the lead, he had to do it himself.

How could the group of generals follow the example of their superiors?

After saying that with a black face, Zhang San quickly realized that he seemed to have lost his composure. He coughed twice and took the initiative to say, “To tell you the truth, I came from the cavalry battalion of the Star Moon Army. I was a veteran who had joined the army when the Star Moon Army was just established.. Therefore, I am one of the few people who know about the development of Northern Ice River Town and the Star Moon Army!”

Chapter 470: Don ‘t Ask, If You Ask, You ‘Il Be Innate Rebel! 2

Six years ago, when the Star Moon Troop with only 5,000 troops arrived at

Northern Ice River Town, there were only less than 10,000 people in the town. Out of these 10,000 people, about 80% were hunters and herbalists. This group of people could not be considered as the permanent population...”

“Therefore, at that time, Northern Ice River Town only had less than a thousand permanent residents!”

But ever since General Li took over Northern Ice River Town, the development of Northern Ice River Town and the Star-Moon Army has really changed every day. First of all, Northern Ice River Town. The first thing General Li did after taking office was to rectify the streets and hygiene of Northern Ice River

Town...”

Zhang San rambled on about some trivial matters of the past.

He spoke very slowly, not forgetting to add in all the details.

After all, he could only explain the various difficulties and challenges he had encountered back then in detail.

This would further highlight the greatness of Li Yueming and his Star Moon Army.

As he spoke, Zhang San could not help but laugh out loud many times.

To him, this was the most pleasant time.

He wanted to show off the town that he had personally built.

Even if the other party didn't understand certain things.

However, just from the data alone, one could directly feel how terrifying the changes in Northern Glacier Town were.

For a moment, the group of defeated reincarnators were dumbfounded.

Even if he was mentally prepared.

However, when he really heard the various numbers that were getting more and more ridiculous from Zhang San's mouth, he still felt a chill run down his spine.

Damn it...

At this moment, they finally realized how stupid they were to provoke the Starmoon Troop.

It was no wonder that they had been defeated so quickly in the North.

The Star Moon Army was so powerful that even if they did not fall into the hands of the Qin army, they would fall into the hands of the Star Moon Army sooner or later.

No, no, no. That was not right either.

Damn it, they had already fallen into the hands of the Star Moon Army!

Not only was the new army gone, but the Star Moon Troop had also recruited 10,000 elites. In the end, Li Yueming had even started to target them.

It was very likely that Li Yueming had already planned everything from the beginning to the end, and was just waiting for them to be trapped in their own trap!

However, even though he had lost.

However, at this moment, the group of reincarnators were still convinced that they had lost.

In terms of intelligence, they had completely defeated Li Yueming.

In terms of raw strength, the few new armies that they had hastily created were no different washu in front of the Qin Army and the Star Moon Army.

It was true that he had to admire her.

The group of people finally had a rough understanding of the past and present of Northern Ice River Town.

Zhang San did not dawdle anymore.

He turned around and brought them to the few yamen set up by the Star Moon Army in North Ice River Town.

These yamens were set up three years ago to handle household registration files and various miscellaneous matters.

Before the scale of Northern Ice River Town was small, these matters were basically all interrogated on the spot in the Star Moon Army's camp or on the street.

But now, the population of the Northern Glacier Town was increasing by the day.

The construction of the yamen was also very necessary.

In a few months, a few more yamen would be built in the south of the city. Zhang San was now leading this group of reincarnators to familiarize themselves with and adapt to the regulations of the yamen.

When the new yamen in the south of the city opened, Wang Biao and the others would be sent over.

Li Yueming's idea was very simple. He would let this group of reincarnators work hard for a few years.

Li Yueming didn't have any desire for war recently.

Many reincarnators were more familiar with the process.

After entering the court, even without Zhang San's introduction, the group of reincarnators had already started to look for things to do.

The public opinion survey of the county government in the past years, as well as the financial expenditure and income books of the past years.

When they looked at these things, they were even more familiar with them than the professional officials in the county government.

They only needed to take a cursory glance at the account books for a few months to calculate the annual profit and loss and surplus based on some key figures.

The annual settlement was not a problem for them.

The few of them combined their calculations and in ten minutes, they could come up with the final conclusion of how many days it would take for the hundred or so people in the entire yamen to calculate.

Moreover, every single one of them was accurate to the point of no error.

Such terrifying efficiency left the group of officials in the City Hall numb.

They couldn't figure out what this group of young people were up to. They all felt that they might not be able to keep their jobs in the past.

Fortunately, Li Yueming had specifically reminded Zhang San that he could tell him all the military secrets and account books of Northern Ice River Town and the Star Moon Army.

Therefore, no one dared to stand up and stop him.

In just three to five days.

This group of reincarnators had figured out the background of Northern Ice River Town and the Star Moon Army.

To ordinary people, this was simply a fantasy.

However, to them, a group of reincarnators, it was just a common occurrence.

After all, as a reincarnator of the individual power side, if he did not even know some basic common sense, he could just find a crooked tree and hang himself. However, Li Yueming had already exposed them to such high-level secrets.

And they accepted it all.

Then, if he did not want to be killed to keep the secret.

If he completely became enemies with the Star Moon Army...

In the future, they would definitely not be able to leave Northern Ice River Town easily.

For a moment, the group of reincarnators did not know whether to cry or laugh.

He originally had a bright future ahead of him, but in the end, he lost his footing at the critical moment.

It directly caused him to fall from the clouds into the abyss. Forget it, since he was already here, he would take it as it was..
