Chapter 561: In the God Burial Ground, our assessment begins!\_1

The beast-bone man's attitude was very friendly.

Li Yueming already had this idea, so he naturally couldn't reject it. He nodded.

Seeing this, the beast-bone man smiled. After pouring himself a glass of wine and drinking it, he patted Li Yueming's shoulder and said, "Since that's the case, I won't disturb you young people chatting. Although this is the first time we've

met, I feel that you're very close!"

Li Yueming didn't know if the beast-bone man was being polite or serious.

If it was a person from a civilized world who had hidden killing intent or evil intentions in his heart, then with Li Yueming's intuition, he could basically judge that it was nine out of ten.

But now, he was in a primitive tribe.

Everyone's aura was very pure, and there was no bad feeling.

However, with his current strength, even if there was really any trouble, he should still be able to retreat unscathed.

After the beast-bone man stood up and left.

The celebrating crowd gradually dispersed.

Only Suxuan was left sitting by the fire, slightly uneasy.

Seeing Li Yueming's gaze on her, Su Xuan, who was a little nervous, took the initiative to say, "Honorable guest, how far is the civilized world you live in from the God's Burial Ground?"

"God Burial Ground?" Li Yueming was stunned."

Su Xuan saw his confused face and asked, "We are now in the God Burial Ground. Don't you know?"

Li Yueming thought about it.

To be honest, with his photographic memory and massive reading experience, he was able to read a lot of books.

There were not many things in this world that could make him feel unfamiliar. However, this was the first time he had heard the term 'God Burial Ground.'

In the historical archives that Li Yueming knew, at least in the history of the Great Zhou, there was no such thing as the burial ground of the gods.

Of course, it was not strange that there were no records in the official history.

After all, although the official history was fair and rigorous, it was recorded by the country. If someone really wanted to tamper with something, they only needed to snatch the official history and change it once.

However, it was fine if there were no records in the official history.

Even some messy unofficial history had never heard of this term.

It's so strange to be in a state of disbelief

Now that Su Xuan was able to speak the words 'God Burial Ground' so fluently and naturally, it was definitely not something that was randomly made up without any historical origins.

In other words, the history of the outside world must have been erased by an invisible hand.

Of course, this wasn't anything rare.

There were too many unexplainable parts of the Six Nations 'history.

According to Li Yueming's rough estimation, the history of this world had been erased and buried for at least one era.

It had to be said that the things contained in it would be very shocking if they were excavated.

Thinking of this, Li Yueming felt that his decision to stay in the tribe was correct.

No matter what world it was, if one wanted to dig deeper, they had to go to some inconspicuous places.

At least at this moment.

Li Yueming had a premonition that he might dig up an incredible past in this tribe.

Li Yueming finally came back to his senses and looked at Su Xuan. He replied, ""To tell you the truth, I was wanted by the civilized world and had no choice but to escape here. Therefore, I don't know how far this place is from the civilized world. mso, you don't have to address me as an honored guest.

Just call me Ll yuemlng! ‘

“The God Burial Ground you mentioned, is it the area where your tribe lives, or is it some other place?”

Suxuan rarely talked to boys, so when Li Yueming looked at her, she always avoided his gaze.

Hearing his question, Suxuan regained some of her calmness. She blushed and said, "" The east and west are thousands of miles long, and the north and south are also thousands of miles long. In short, all the mountains and rivers that you can see are part of the God Burial Ground...This land was where the gods were buried, and the entire land was their graveyard!”

“And the burial ground where our tribe is located is the core of the God Burial Ground!”

Li Yueming was shocked when he heard Su Xuan's answer.

“How did you know all this?” she asked involuntarily.”

Perhaps his emotions were a little exaggerated.

Suxuan was shocked and only said after a while, “This... These were all things that the ancestor had said. The spring that my father had mentioned was the divine spring that the descendants of Da Qian had to worship every year.

According to the ancestor’s explanation, the divine spring was the essence that leaked out after the death of a god!”

Li Yueming’s scalp was on the verge of exploding.

Even if what Suxuan said was exaggerated, this so-called God Burial Ground was still beyond his estimation.

When they were in the West Garrison Pass, Li Yueming had heard a story that was passed down by the people of the West Border.

According to the legend, the entire Hundred Thousand Mountains was formed from the corpse of the supreme being of the Insect Race that was killed by the Human Emperor Tiandu Clan.

At that time, Li Yueming had actually paid attention to it.

However, due to his lack of strength, he did not dare to rashly design such an extreme mission.

Now, he believed that his strength could be considered one of the best in the known system of this fantasy world. However, when he looked back at this secret that he had seen some clues about back then, he felt an even more terrifying pressure..

Chapter 562: In the God Burial Ground, our assessment begins!\_2

The legends passed down by the people in the northwest, combined with Su Xuan’s current legend of the God’s Burial Ground, didn’t it confirm that the existence of the Hundred Thousand Mountains was really related to the Supreme Being of the Insect Race?

Combined with the official records, didn’t it mean that he was currently on the corpse of the Supreme Being of the Insect Race that was killed by Human Emperor Tiandu Clan? Furthermore, he was in the center of the corpse?

However, after looking around.

Li Yueming didn’t sense any traces of Zergs in this place!

At this moment, Li Yueming’s mind was in a mess. He thought of many things.

However, at this moment, the Reincarnation Mark that had been hidden for a long time suddenly erupted with a scorching light.

At the same time, a message appeared in Li Yueming’s mind.

[A hidden mission has been detected. Please take a look!]

[Hidden Mission: Find the truth, touch the truth, and unravel the truth!] [As for what the truth is, I believe you will make the most accurate judgment.]

[Warm reminder: After touching the truth, the dungeon you are in will be forcefully leveled up. After leveling up, everyone, including the reincarnators, may truly die. Reincarnators, please think carefully and choose carefully!]

[Beep, beep, beep, you have received a new email!]

[The mail is being forcibly opened...]

[The email has been successfully expanded. The details are as follows: ] “Our ‘test has begun!]

[Please adjust your state, explore the mysteries of time and space, find your truest self, and show the best side to ‘us’ in the real world... Waiting for your return!]

A series of news came.

Li Yueming’s entire body was numb from the shock.

As expected, this so-called public instance dungeon was not as simple as he had imagined.

Whether it was the Supreme Insect or the existence that defeated the Supreme Insect, they were all giants that Li Yueming could not reach at this stage. It was very abnormal for such a high-level power to appear in a Level 5 world.

So what exactly was this ‘we’ that had been hiding?

It had set up all this, so what ulterior motive did it have?

Li Yueming couldn’t figure out the answers to these questions when the letter suddenly appeared in his private mailbox.

Now, at this moment, he already had some guesses.

Of course, his remaining rationality told Li Yueming that it was not the time for him to touch those things.

At the very least, he was still a long way from becoming a powerhouse.

However, such a good opportunity was right in front of him.

Li Yueming couldn’t pretend that he didn’t see it.

What is the real world?

What was fake?

The so-called truth, was it the truth of the reincarnation world or the truth of the real world?

These questions had been following Li Yueming since he entered the so-called reincarnation world. After many years, they had resurfaced again. Countless questions filled Li Yueming’s mind.

No matter which one it was.

It was an untouchable pain in Li Yueming’s heart.

Now that he finally had a vague direction, he had no reason to give up without even trying.

Thinking of this, Li Yueming’s gaze gradually became determined.

However, he had asked too many questions today and had already caused a lot of trouble for Suxuan. If he continued to ask like this, not only would he not be able to obtain more information, but he might even make things worse.

Li Yueming knew what it meant to go beyond the limit.

He also knew what it meant to be unable to become fat in one go.

Therefore, no matter how itchy his heart was, he rationally stopped asking and relaxed. He told Su Xuan some interesting stories about the civilized world, and soon, Su Xuan's face was filled with yearning.

In the next few days, besides resting his body, Li Yueming kept increasing Suxuan's favorability. Of course, in order not to reveal his purpose too obviously, he would also walk around the village. All in all, the people in the village were very good.

There was no shortage of food in the Hundred Thousand Mountains.

Back then, the descendants of Da Qian established their tribe here.

Rather than asking for a living, it was more like living in seclusion.

After eating and drinking to their fill, their basic desires could be satisfied. Therefore, although they did not know etiquette in this desolate place, they were still very polite to Li Yueming. They did not feel that they had any unspeakable bad intentions.

.0.

Just like that, half a month passed.

Through the Infinite Deduction System, Li Yueming quickly learned the language that the Su Clan used to communicate. It was called the Ancient Language of Da Qian.

Even without Su Xuan, Li Yueming could still communicate with the people of the Su Tribe through the ancient language of Da Qian.

The entire Su Clan Tribe was shocked by his strong learning ability.

After finally accepting the fact that Li Yueming was a genius, the relationship between the two parties naturally went up a level.

Just as Li Yueming was about to make his presence known as usual, he realized that all the men in the Su Clan Tribe had gone out.

Li Yueming found a woman who stayed in the tribe and asked.

Only then did they know that another branch of the Su Clan had come to snatch the earth vein spring that the Su Clan's Patriarch had discovered.

When he said this.

The old, weak, women, and children who stayed behind in the tribe were all filled with worry.

Li Yueming asked.

Only then did he know that many years ago, the main branch and the branch of the Su Clan had a conflict over the spring water. However, at that time, both sides were very restrained.

However, in the past two years, the branch seemed to have gone crazy in order to fight for the ownership of the divine spring.

As a result, the number of fights between the two sides increased.

The casualties were also getting more and more severe.

The last time Li Yueming saw it, the level of the fight had already reached a very bloody level.

Both tribes had lost nearly a hundred able-bodied men.

Even the beast-bone man who was the clan leader had suffered considerable injuries in that battle.

To a tribe that only had two to three thousand people, this was already a terrifying number of casualties.

He had thought that after teaching them a lesson, the branch would obediently recuperate for a year and a half. He did not expect that less than half a month had passed and they had actually come looking for trouble again.

This abnormal behavior had obviously attracted the attention of the entire main branch of the Su Clan. It was also because of this that the old, weak, women, and children in the clan were so worried.

After understanding the ins and outs.

Li Yueming took the initiative to say that he wanted to go over and take a look. The women and children naturally refused at first.

However, seeing Li Yueming's firm attitude, he pointed in the general direction.

Just like that, Li Yueming went through the wind and snow.

They walked for about three hours.

From afar, Li Yueming could smell blood.

As an executioner who killed without blinking, Li Yueming had taken countless lives. Therefore, even if they were far away, Li Yueming could still tell that it was human blood from the smell in the air.

He increased his speed.

Soon, Li Yue Ming saw an empty field littered with corpses.

Hundreds of corpses were piled up in the narrow valley, and fresh blood flowed down like a small stream. The battle between the main and the branch of the Su Clan continued.

The man with the tiger bone club and the man with the serrated saber fought. Every attack caused the earth to shake and the mountains to shake. The beasts around them who were not of high enough levels all fled when they heard the wind.

After repelling the saw-toothed blade, the beast-bone man panted heavily. He turned around and saw his clansmen who were covered in blood. His eyes turned red and he angrily shouted, "Su Fengtian, what are you doing? Do you want the Su Clan to be exterminated?"

The man with the sawtooth-shaped saber named Su Fengtian also gritted his teeth and said with red eyes, "Su Haotian, you still have the cheek to tell me this?"

Back then, the ancestor searched hard and finally found the burial ground of the gods that the Great Qian Dynasty had been worshipping since the ancient times. His purpose was not to let the unfilial

descendants of ours waste our time in the vast mountains and eventually become shameless barbarians like savages!!!,,

“They want us to obtain the treasures left behind by the gods and return to carry the banner of the Great Gan Dynasty! What are you trying to do now that you’ve occupied the treasure of the gods and refused to let go?”

Chapter 563: The Battle Between the Two Clans, the Location of the God Burial Ground

In the middle of the battlefield.

The beast-bone man Su Haotian and the saw-toothed man Su Fengtian were both excited.

As the last descendant of the Great Gan Dynasty.

Although the ancestor of the Su Clan didn’t dare to bring any treasures with him when he fled, he still left something for the Su Clan.

Otherwise, the Su Clan wouldn’t have traveled thousands of miles to settle down in the depths of the Hundred Thousand Mountains.

It was also because the branch and the main branch had a dispute over the disposal of the treasures left behind by the Su Clan’s ancestor that the branch broke away from the Su Clan and no longer obeyed the main branch.

In this generation, the conflict between the two sides was already irreparable.

The branch of the Su Clan wanted to return to human society and was unwilling to continue wasting time in the Hundred Thousand Mountains. However, with the current strength of the branch of the Su Clan, even if they really found a civilized world, they would not be able to restore the glory of the Su Clan.

Thus, as the branch leader, Su Fengtian had already made up his mind to seize the God’s Treasure.

It was also because of this that the battle between the main branch and the branch of the clan became more and more intense, and the casualties became more and more exaggerated.

However, at this moment, he was more furious than ever. He roared, “Su

Fengtian, you unfilial descendant. If the ancestor wanted us to protect the God’s Treasure so that we could open it by ourselves, he had already opened it when he was still alive.”

“The purpose of the ancestor bringing us here is not to let us return to the civilized world and re-establish the glory of Da Qian...Instead, he wants us to behave ourselves and focus on worshipping the god who has done great kindness to our Su Clan. He wants us to guard his mausoleum and leave a final mark on this world!”

Hearing Su Haotian’s words, Su Fengtian was similarly enraged. His veins bulged as he said, “Five thousand years...It’s been five thousand years. Our Su Clan has stayed in this godforsaken place for five thousand years. Even if the god we worship is really a god, it’s just a god that has long died. Even stones can be weathered, so how can life last for five thousand years?”

“Moreover, the ancestor isn’t particularly clear about the origin of this god, right? According to the information I obtained from some lost ancient books, this place was actually a sacrificial ground in the ancient era of Da Qian!”

“According to the determination of the Tiandu clan’s human emperor back then, this so-called god might be an evil god who wants to destroy the world...Moreover, our Su Clan has served us wholeheartedly for nearly ten thousand years. Even if the gods really knew about it and just took away some things, they wouldn’t blame us!”

Hearing this treasonous statement.

Su Haotian was so angry that his entire body was trembling. He said with a trembling voice, ””Su Fengtian.” You shameless thing, if you want to restore the country and enjoy glory and wealth, just say it. My Su Clan doesn’t have a scum like you who forgets his roots!”

Su Fengtian was not angry. Instead, he laughed.” I can’t talk things out with you, you stubborn old man. I’m borrowing the words left behind by our ancestor. Summer Cicada and Silent Ice. If you don’t hand over the location of the God Burial Ground today, I’ll step over your corpse and find it myself!”“

As he spoke.

Su Fengtian signaled from nearby.

After receiving the signal, a few archers immediately shot a few flaming arrows into the sky.

Before the others could react.

A group of apemen with snow-white fur suddenly appeared on the mountain ridges on both sides of the battlefield. Each of them bared their fangs and brandished their claws as they jumped down from the trees. They waved their fists and pounced towards Su Haotian and the people of the main Su Clan branch.

Seeing this situation, Su Haotian could not help but widen his eyes, his face full of disbelief as he said, ””You... You... This is a family matter of my Su Clan, and you actually called the Snow Ape Clan over? Aren’t you afraid of getting yourself burned?”

Su Haotian smiled, his face ferocious, ””Hehe, you don’t have to worry about this. You’d better go to hell in peace!”

After a group of Yeti with thick skin and claws appeared.

The battlefield, which was originally evenly matched and had casualties, suddenly had a one-sided outcome.

In just a few short breaths, the group of people from the main Su Clan that followed behind Su Fengtian had suffered heavy casualties. The scene of blood flowing like a river was particularly cruel.

When Li Yueming arrived.

The main branch of the Su Clan led by Su Haotian had already suffered heavy casualties. Even Su Haotian himself was heavily injured under the siege of Su Fengtian and a Snow Ape leader.

The entire battle was in danger.

When he saw Li Yueming, Su Haotian's eyes lit up at first, but they quickly dimmed.

From the first time he saw Li Yueming, Su Haotian knew that Li Yueming's strength was not simple.

However, because of his curiosity about the outside world and an inexplicable good impression, Su Haotian eventually chose to take the initiative to contact Li Yueming and even invited him to the tribe as a guest.

At that time, Li Yueming had also promised him.

If there was a need, he could help as much as he could.

However, the current situation was too one-sided. Even if Li Yueming was very strong, it would be difficult to turn the situation around.

Not to mention that Li Yueming himself seemed to have suffered serious injuries. It was impossible for him to be a match for Su Fengtian and the Snow Ape Clan.

Therefore, after seeing Li Yueming.

Su Fengtian immediately chose to ask Li Yueming for help. Instead, he said, "Honorable guest, you don't need to intervene in the war between the Su Clan. Please return to the tribe immediately and tell them the news of our defeat on account of our short friendship.. Also, tell all the old, weak, women, and children in the tribe to hide in the God Burial Ground!"

Chapter 564: The Battle Between the Two Clans, the Location of the God Burial Ground (2)

As expected, Li Yueming had also heard the term God Burial Ground from Su Fengtian.

One had to know that Su Fengtian didn't say a single word to him earlier.

Of course, this was actually normal.

As the current Clan Leader of the Su Clan, although Su Haotian didn't feel any hostile aura from Li Yueming, he wasn't stupid enough to tell Li Yueming the core secret of the clan.

The reason why he told Li Yueming about the so-called 'Earth Vein Divine Spring' was to dispel some of Li Yueming's suspicions.

The true core of the Su Clan was actually the God Burial Ground, which was hidden in the depths of the earth vein divine spring.

However, he did not expect his silly daughter to be more innocent than he thought. In just a few moves, Li Yueming had tricked her into revealing her underwear.

Hearing Su Haotian's request.

Li Yueming was stunned.

However, Su Fengtian had already reacted to this momentary daze. He quickly adjusted his position with a large group of Snow Apes guarding the two sides of the valley. They surrounded Li Yueming and surrounded him in the center of the battlefield.

Obviously, Li Yueming's sudden appearance had exceeded Su Fengtian's expectations.

Fortunately, he was prepared for this. He had already ordered the Yeti to send people to guard the escape route to prevent anyone from reporting back. If Li Yueming had immediately run away when he heard Su Haotian asking him to leave, he might have had a chance.

But now, the Snow Apes guarding the two sides of the road had already recovered and guarded the way out. Li Yueming could not escape even if he had wings.

.0.

Li Yueming obviously noticed this and could only show a helpless look. He spread his hands and said, "I'm sorry. It looks like I won't be able to fulfill your wish!"

Seeing this situation.

Su Haotian's face turned ashen.

In the Su Clan, conflicts between the main branch and the branch were common.

A thousand years ago,

The two sides had already split into two factions because of their differences.

In the past thousand years, the main branch and the branch had been fighting each other. The two sides were actually more in love and killing each other. No one could do anything to the other.

He was already very familiar with it.

However, what Su Haotian never expected was that the civil war this time was completely different.

Su Fengtian actually talked about martial arts virtue like this.

After several conflicts, they realized that the power of the branch alone was unable to completely suppress the main branch. They actually joined forces with the Yeti tribe living nearby to launch an attack at the same time, giving the main branch a head-on blow.

And now, the situation was even worse.

The main branch of the Su Clan, which had proliferated on this land for nearly 5,000 years, was actually wiped out by a branch of the Su Clan...

This was something that Su Haotian and the previous Sect Masters of the Su Family could never have dreamed of.

Seeing his ashen face, Su Fengtian laughed out loud and said, "Su Haotian, you didn't think of this outcome, did you? Actually, I didn't think about it either. In the beginning, I only wanted to advise you, but you turned a deaf ear to it. Now that you've fallen into this state, you deserve it!"

Su Haotian didn't say anything.

He closed his eyes and thought for a moment before sighing, "I can take you to the God Burial Ground, but you have to promise me to let the people of the main branch live. As for the sacrifices needed to open the God Burial Ground, you can use my blood to sacrifice to your ancestors and gods!"

Su Fengtian couldn't hear the sarcasm in his words at all and directly nodded, "Wouldn't it have been better if this had happened earlier? Why do you have to kill until blood flows like a river?"

Although he said that, he did not look too sad when he looked at his clansmen who were still bleeding.

Su Haotian obviously didn't want to talk anymore. He took off his armor and walked towards the deep mountains.

Su Fengtian looked at the remaining Su Family members and revealed an inexplicable smile. He also did not say anything, but when he looked at Li Yueming, he revealed a strong killing intent.

Now that the main branch was completely under his control, Li Yueming was the only unstable factor left.

Seeing his expression, Li Yueming thought for a moment and stood up, "As an outsider, I won't get involved in these messy things between the two of you. Let me go, and I can promise not to interfere in anything between the two of you!"

Hearing this, Su Fengtian's expression became even darker.

Actually, Su Fengtian's first reaction was to kill Li Yueming first.

After all, although he did not know the relationship between Li Yueming and Concubine Su, he could vaguely feel the surging aura in Li Yueming's body.

Obviously, this unknown foreigner was also a master. If he stayed here, he might become an invisible bomb that would explode at any time. However, the problem was that he did not have an overwhelming advantage. If he forced Li Yueming to fight with him, Su Haotian would probably not

surrender. Even if he had the help of the Snow Ape Clan Leader, it was very likely that another conflict would erupt.

This was absolutely unacceptable to him.

Now, Li Yueming took the initiative to withdraw.

To Su Fengtian, who already had the absolute advantage, this was something he could not wish for more.

Thus, after much consideration, Su Fengtian agreed.

Li Yueming wiped the snow off his sleeves.

He left the scene under the complicated gazes of all the Su Clan members.

In the crowd, looking at Li Yueming's cold face, Suxuan wanted to speak several times, but she didn't know what to say.

When Li Yueming was in his line of sight when he was young, Su Fengtian still felt that it was inappropriate..

Chapter 565: The Battle Between the Two Clans, the Location of the God's Burial Ground (3)

But now that he had Su Haotian as his trump card, he wasn't afraid of Li Yueming playing any tricks.

Even if Li Yueming returned and killed the entire Su Clan, what did it have to do with him?

As long as he obtained the God's Treasure.

In time, it was not impossible to create another dynasty as glorious as the ancient Great Qian Dynasty.

After making up his mind.

Su Fengtian waved his hand and led the patriarch of the Snow Ape Tribe behind Su Haotian as they walked towards the God Burial Ground.

The three of them walked for about an hour.

The members of the main branch of the Su Clan, who thought that they would be able to survive the disaster, saw the members of the branch of the Su Clan, who had once again exploded and launched an attack.

Previously, Su Fengtian had promised Su Haotian that he would not touch the other clansmen.

However, it was obvious that Su Fengtian's promise was not trustworthy. After successfully finding the area where the God's Burial Ground was located, he immediately gave the order to kill all the young and middle-aged men of the main branch.

Perhaps Su Fengtian would not attack the old, weak, women, and children in the village, but he would definitely kill the hundreds of young and middle-aged men from the main branch of the Su Clan.

After thoroughly seeing the face of the branch.

All the clansmen of the main branch were furious.

They had never thought that Su Fengtian would not log off at all.

In order to obtain the God's Treasure, he did not hesitate to kill his own kind!

Just as a bloody massacre was about to begin, a golden sun suddenly appeared in the sky.

Li Yueming stood high in the sky and looked down at the crowd below him. He said indifferently, "Vicious and merciless. In order to achieve his goal, he will

do anything...It had to be said that Su Fengtian from the Su Clan's branch was indeed suitable to live in the civilized world. After all, the civilized world was filled with such treacherous and profit-seeking villains!"

But it is a pity that I am from a civilized world. You are still a bit inexperienced when it comes to being cruel and treacherous!" Li Yueming didn't give them a chance to explain.

With a wave of his hand, countless golden lights burst forth.

All the members of the Su Clan branch that could be seen had died under the care of the invisible light.

Li Yueming's strength had dropped.

But at the very least, he was still at the Void Refinement Realm.

In the two Su Clans, whether it was the main branch or the branch, the strongest were Su Fengtian and Su Haotian. However, even they were only at the Spatial Tempering Stage.

Now that Su Feng Tian and Su Hao Tian are not here, Li Yueming is naturally the strongest person in the field.

Slaughtering a group of Su Clan branch members whose highest cultivation level was only Spirit Focus Realm was naturally as easy as slaughtering clay chickens and pottery dogs.

Among this group of creatures, there were only a few Snow Apes with decent strength.

Li Yueming needed to use some of his true abilities to deal with it.

After spending more than ten minutes to settle everything.

Li Yueming retracted the thick murderous aura on his body and landed on the ground again.

At this moment.

Including Su Xuan, all the members of the main branch of the Su Clan looked at Li Yueming in horror.

Previously, although they knew that Li Yueming's strength was not ordinary, they were not afraid of him.

However, they never thought that Li Yueming's strength would be so terrifying. There were nearly a thousand people present, but in front of Li Yueming, they were like chickens and dogs. They were not a match for him at all.

In the blink of an eye, the entire battlefield had turned into a battlefield.

Li Yueming looked at Su Xuan and said, "'1 told you a few days ago that the civilized world outside is not as harmonious as you think. You didn't believe it at that time, but now I've proved it to you with my actions!"

When Su Xuan heard this, her eyes were filled with fear.

Li Yueming did not explain further and said, "'Bring me to the God Burial

Ground. If you are fast enough, I might be able to save Su Fengtian...Of course, you can also choose to refuse. I can go and find it myself. I won't kill you, but I won't save you either.. I've repaid your kindness for taking me in!"

Chapter 566: A Traitor Must End in Betrayal!\_1

At this moment, Li Yueming's expression was very serious and cold, completely different from when he was in the tribe.

This really frightened many people.

After all, Concubine Su lived in seclusion in the mountains all year round, dealing with ice, snow, and wild beasts. How could she have seen the cold and cruel side of the civilized world outside?

Suxuan stood in the crowd, staring at the familiar yet unfamiliar figure in the sky. After a while, she said, "I... I can bring you to the God Burial Ground, please... Please save my father!"

Li Yueming gently waved his hand, and Su Xuan flew up into the air. Without wasting time, she said briefly, "Lead the way!"

Suxuan had completely regained her senses.

He lowered his head and glanced at the valley where blood flowed like a river, then glanced at his clansmen who were only the size of ants. He suppressed his fear and said, "Over there!"

Even though he had brought along the name of 'Xuan'.

However, Li Yueming's speed was still quite fast.

Following the path that Suxuan pointed out, the two of them passed through a vast mountain range and arrived before a tall and majestic mountain range.

This mountain range was completely different from the surrounding environment.

It was still snowing in many places around the mountain range, and the temperature was close to the extremely cold winter.

Only this mountain range had no snow at all. All the snowflakes that tried to fall here were liquefied by the high temperature before they fell to the ground.

He looked at the mountains that towered into the clouds.

Li Yueming's face revealed a rare trace of hesitation.

The moment Li Yueming saw this mountain range, he thought of the extremely cold snow mountain in the northern region of the Great Zhou Dynasty.

The extremely cold snow mountain was also a mountain ridge that towered so high that the top could not be seen. It spread across almost half of the Hundred Thousand Mountains.

In that case, at least half of the rivers in the Great Zhou and Great Qi were tributaries of the extremely cold snow mountains.

Now, even the intense temperature of the mountain in front of him gave Li Yueming a sense of déjà vu.

However, while the snow mountain was extremely cold, the mountain in front of him was extremely hot.

He seemed to have sensed Li Yueming's confusion.

Su Xuan, who had been following behind Li Yueming, quickly explained, "This is the Endless Volcano, the highest mountain range in the entire Hundred Thousand Mountains. In terms of width and height, it is much higher than the extremely cold snow mountain in the northeast!"

After hearing her introduction, Li Yueming finally knew that the mountain range in front of him was actually the Endless Volcano.

Immediately, a lot of information about the Endless Volcano appeared in his mind.

The endless volcanoes were the most crucial reason for the formation of the many deserts in the southwest of the Qin Land and the northwest of the Great Zhou.

It was because the volcanoes here would erupt every once in a while, just like the cold waves in the extremely cold snow mountains.

Every eruption would form thick smoke, causing devastating damage to the surrounding life. The boiling lava would devour everything that could be touched.

The endless volcanoes that erupted from time to time caused the entire northwest of the Great Zhou Dynasty and the southwest of the Great Qin Dynasty to be dry and rainless all year round. As time passed, these two regions became extreme environments.

Of course, these were not the most important things.

Most importantly, there had never been any books that clearly stated that the Endless Volcano was higher than the extremely cold snow mountain.

Why was Suxuan so certain now?

Although he did not ask, the way he looked at Suxuan told him everything.

Su Xuan did not hide anything. After all, the entire Su Clan was in a life-and-death crisis. There were some secrets that were better told than hidden and brought to the underworld.

Because this is the real burial ground of the gods," she said." The one in the extremely cold snow mountain is not a god.""

Li Yueming was stunned by this statement. He said with a face full of doubt,"So you won't tell me...The God Burial Ground was at the top of this endless volcano, right?"

Since ancient times, countless people had been curious about the secrets of the Hundred Thousand Mountains.

Perhaps 99% of them were just ordinary people.

However, even if the number of geniuses among them was only one percent.

That was a terrifying number.

However, so many people had rushed into the Hundred Thousand Mountains in an attempt to find the buried secret.

In the end, not many of them could leave in one piece.

Countless heroes who stood at the top and looked down at the entire era did not even manage to climb up the extremely cold snow mountain.

But now, if Suxuan didn't lie to him, the endless volcano in front of him was even higher than the extremely cold snow mountain. It would be too much for him, who was only at the Void Refinement Realm, to climb it-he would be looking for sh \* t in the toilet by lighting a lamp.

If the so-called God Burial Ground was really in the depths of the Endless Volcano, Li Yueming would definitely not rush forward.

After all, he was just a Level 60 newbie. He was not so arrogant as to enter a Level 99 Ultimate Dungeon without thinking.

If he didn't know that Suxuan wouldn't harm him.

Moreover, there was no core conflict of interest between the two sides. Li Yueming probably had to wonder if he had been deceived.

Seeing that his expression was not good, Suxuan quickly explained, ""The God Burial Ground isn't above the Endless Volcano. It's located in the earth vein at the bottom of the Endless Volcano. However, ordinary people can't enter this place. Only our Su Clan's clansmen can offer blood sacrifices to enter one-third of the area!"

Hearing this, Li Yueming's expression became a little better.

Under her guidance..

Chapter 567: A Traitor Must End in Betrayal! 2

Li Yueming entered the outer area of the Endless Volcano.

Similar to the extremely cold snow mountains, the outer area of the endless volcanoes was not too hot. There were only wisps of hot air floating in the air.

For some reason, Li Yueming felt that this aura was somewhat familiar.

He didn't think too much about it and thought that he was hallucinating.

After walking along the mountain range for about half an hour, Li Yueming saw a huge crack between the two mountains. At the same time, he saw Su Fengtian, who was preparing for the blood sacrifice ceremony, and Su Haotian, who was being used as a sacrifice.

The moment she saw Su Haotian, Su Xuan teared up and said, "Father..."

Hearing the sound, Su Haotian, who had been placed on the altar, turned his head in disbelief and looked at Su Xuan,"Xuan 'er, why are you here? According to the agreement, shouldn't you return to the tribe with your clansmen?"

Hearing this, Suxuan could no longer control her emotions. She gritted her teeth and said with red eyes,""Father, don't believe in him. This fellow is like a lone wolf who has given up on his wolf pack. He is sinister and cunning, two-faced..."

"He promised you that he would let his clansmen go, but in less than two hours after you left, the remaining branch clansmen and the Snow Ape were still prepared to silence all of us!" Hearing this.

Su Haotian widened his eyes.

He knew that Su Fengtian wasn't a good person, but he didn't expect him to be so shameless.

When he came back to his senses, he immediately said angrily, "Su Fengtian, you despicable bastard! There's no animal like you in the Su Family!" Su Fengtian naturally felt the two of them approaching.

Hearing this, he didn't feel ashamed. Instead, he felt proud and said with a smile, "Granduncle, Great Patriarch, according to blood relations, we are a real family...If you call me a beast, aren't you cursing yourself as well?" These words made Su Fengtian spit out a mouthful of blood.

"You... You... You!"

He trembled as he uttered the three words "you".

However, he could not say anything else.

As the saying went, a tree without bark would definitely die, and a shameless person would be invincible.

Su Haotian couldn't imagine what kind of information Su Fengtian, who came from the same clan, had obtained that he didn't know. That was why he was able to abandon his blood ties and kinship to do such an operation. But no matter what Su Haotian thought, Su Fengtian definitely didn't care.

After mocking Su Haotian, he looked at Su Xuan.

However, he didn't show any extra expression towards Su Xuan. Even if he did, he would at most glance at Su Xuan's face. Su Xuan was a famous beauty in the clan. It was even said that she hadn't appeared for thousands of years.

But in Su Fengtian's eyes.

The so-called rare beauty in the clan was just a village girl in this narrow land.

Even if he obtained a trace of the power of a god in the God Burial Ground, he could use it to lead the Su Clan, or he could simply go to the civilized world alone and rebuild an ancient and glorious civilization like the ancient Da Qian.

At that time, he, who ruled the civilized world, would only need to hook his finger at any beauty he wanted. How could he be interested in such a village girl now?

Therefore, he only glanced at Su Xuan and quickly looked away. In the end, his gaze fell on Li Yueming who was smiling faintly not far away. He said, "Outsider, I knew you had ulterior motives and wouldn't let this go!"

Li Yueming smiled. "I just accidentally entered this godforsaken place. I didn't expect to see such a wonderful show. Now that I've returned, I'm only curious. It's just Suxuan's one-sided request!" "How about this, we can cooperate..."

Hearing this, Suxuan's face turned pale.

He looked at Li Yueming in disbelief.

However, Li Yueming was the same as Su Fengtian. He ignored her the entire time.

Su Fengtian's interest was piqued. He narrowed his eyes and said, "Cooperation? What kind of cooperation? Why should I cooperate with you?"

Li Yueming smiled even more brightly.

He looked at the Snow Ape King who was standing in the valley not far away and said, "You're no match for that Snow Ape King, are you?"

Hearing this.

Instantly, Su Fengtian's expression changed.

The Snow Ape King was at the peak of the Spirit Concentration Realm, and he was a wild beast himself, so he had an extremely strong physique. Although Su Fengtian was also at the peak of the Spirit Concentration Realm, he was much weaker than the Snow Ape King in terms of both the strength of his tribe and his individual strength.

Originally, he had planned to find a way to deal with the Snow Ape King after opening the God Burial Ground.

After all, he was the descendant of the Su Clan. Although he was weaker in this transaction, he had more information than the Snow Ape King, who was a wild beast. As long as he entered the God Burial Ground, he could completely use his identity and information to kill the Snow Ape King.

The reason why he was so nervous was because he didn't have absolute confidence.

Li Yueming's suggestion had poked a hole in Su Fengtian's heart.

This made Su Fengtian somewhat interested.

He glanced at the Snow Ape King and then at Li Yueming.

Su Fengtian's expression changed several times, but he still said in a low voice, "What do you want?"

Li Yueming crossed his arms and said confidently, "Let's join hands to kill that Yeti now. After the matter is done, we can rely on our own abilities and continue to cooperate sincerely."

Su Fengtian thought for a moment and nodded. "In that case, it's a deal then!"

Seemingly feeling that this wasn't enough insurance, Su Fengtian added, "Don't worry, you're an envoy from a civilized land. I won't treat you like I treat barbarians... The promise between us is absolutely effective. If it's possible, we can even create a glorious and huge dynasty in the future!"

Hearing this, Li Yueming almost hurt his waist.

However, he still nodded seriously and said, "Alright, I hope you won't go back on your words!"

The verbal agreement between the two officially came into effect.

At this moment, the Snow Ape King walked down from the top of the canyon.

Before he could figure out what had happened, he was heavily injured by Li Yueming and Su Fengtian on the spot.

The Snow Ape King understood what was going on.

Although it was not particularly smart and could not speak, since it could become a king, it still had intelligence.

After being surrounded, the Snow Ape King immediately began to roar.

Soon, a large group of Yetis appeared around the canyon and threw rocks at Li Yueming and Su Fengtian.

Although this group of Snow Apes was not particularly strong, they were not particularly weak either. The flying boulders contained spiritual power, which could affect Su Fengtian and Li Yueming's attacks to a certain extent.

The Snow Ape King, who was finally able to catch its breath, turned around and ran without thinking.

This time, it finally understood the viciousness of humans. Not only did they not show mercy when they attacked their own people, but when two enemies worked together to attack it, they would also kill it!

Seeing the Snow Ape King escape, Su Fengtian heaved a sigh of relief. He didn't expect the Snow Ape King to be able to hide a group of Snow Apes near the canyon.

If he hadn't agreed to Li Yueming's cooperation and had a conflict with the Yeti Ape King alone in the canyon, he would have been ambushed by the Yeti on both sides if he wanted to escape. If he wasn't careful, he might have lost his life.

He opened his mouth and was about to speak.

He saw Li Yueming, who had joined hands with him to kill the Snow Ape King, stab a sharp saber into his chest with a smile.

“Puchi..

The sound of blood spurting out rang out.

This familiar yet strange feeling made Su Fengtian's soul run out of his body. Looking at the long saber in his chest, he took a few steps back and said in disbelief, “You... You... Why?”

It wasn't that he wasn't prepared for Li Yueming.

After all, a person whose mind was full of filth would also look at others with a mind full of filth.

However, he had never thought that while the two of them were fighting, Li Yueming would stab him in the chest.

Of course, the most important thing was that Su Fengtian had always thought that the people of the civilized world would not do such shameful things as betrayal. This was also one of the fundamental prerequisites for him to choose to cooperate with Li Yueming.

However, reality shattered all his fantasies.

“Do you think that only you can betray others and others can't betray you?” Li Yueming was still smiling. The civilized world was not a paradise. Compared to this, it was more like hell on earth!”

“And the people there are just like me. Not only can they stab a knife into your chest with a smile, but they can also not even frown!” After he finished speaking.

Li Yueming didn't give Su Fengtian a chance to speak.

A clean cut ended his life.

Chapter 568: Earth Vein Divine Spring, Life and Death, Human Bones (1)

Q: What is the greatest harm to a person who has betrayed his and is ruthless?

A: Naturally, he would use more treacherous and ruthless means to shatter all his fantasies.

That was what Li Yueming was doing now.

With his original strength, he should be unrivaled in the Spatial Tempering Stage.

However, because the injuries on his body had not fully recovered, he did not want to make a big fuss about it, so he planned this plan to drive the tiger to swallow the wolf.

First, they would join forces to deal with the Snow Ape King, who was more powerful and troublesome.

Then, he would deal with the weaker Su Fengtian.

He did not put in much effort throughout the entire process, but he easily obtained the best results.

Surrounding, witnessed this all Su Xuan and Su Hao Tian people are silly.

Previously, both Su Fengtian and Su Xuan had chatted and laughed with Li Yueming.

Now that he thought about it again, he couldn't help but break out in cold sweat.

How was this a foreigner of unknown origin?

He was clearly a god of death who could kill without blinking!

After Killing Su Fengtian.

Li Yueming picked up Su Fengtian's corpse and glanced at Su Xuan who was on the altar,"How do I open the God Burial Ground?"

Suxuan was scared silly.

When he came back to his senses, he looked at Li Yueming with reverence and replied, ""Throw the corpse onto the altar. Blood will stain the altar, and the God Burial Ground will be opened..."

Hearing this.

Li Yueming didn't hesitate and threw Su Fengtian's corpse onto the altar beside Su Haotian.

Su Haotian looked at the corpse on the ground and then at Li Yueming who was not far away. He opened his mouth to say something, but in the end, he just sighed and did not stop him.

Instantly, the altar shone brightly.

A crack suddenly appeared in the middle of the canyon, and a gust of hot and cold wind blew up from the depths of the crack.

Seeing the altar open, Su Xuan quickly went forward and removed the restriction on Su Haotian.

Li Yueming saw it and did not stop it.

After walking down from the altar, Su Haotian looked at Li Yueming and said, "You must have a motive, right? Back then, he told us that he was being hunted down and escaped here. Was that also a lie?"

Li Yueming smiled and spread his hands. "Would you believe me if I told you that I really entered by mistake?"

Su Haotian didn't say anything, but the look in his eyes had already explained everything.

Li Yueming didn't explain. After all, everything else was no longer important.

What he wanted to know the most now was whether this God Burial Ground was as awesome as he had imagined.

Obviously, Su Haotian knew that he couldn't stop Li Yueming.

Therefore, he said decisively, "This secret has been guarded by our Su Clan for so many years. Now that you know about it and have opened it, I feel that our Su Clan has fulfilled our responsibility..." Since you were going to be discovered by the outside world sooner or later, it can only be said that it's fate that you've found it. Therefore, the Su Clan and I won't stop you from entering."

Li Yueming nodded without saying anything.

Su Haotian continued, "The only thing I want to remind you of is that from the time our Su Clan had clear records until now, the Su Clan has never set foot in the real God Burial Ground. At most, they have only entered the periphery of the God Burial Ground."

"I can only remind you not to enter the real God Burial Ground. That place is not something you and I can understand. If you just want to obtain power, then stay in the first two levels."

"Perhaps you want to bring me in, but there must be someone guarding the altar outside. Otherwise, once the array is destroyed when it is activated, the door to the God Burial Ground will be closed forever."

"I will guard the exit for you. You can take Suxuan in and act as a guide. She is my most beloved daughter and also the candidate for the next Clan Leader of the Su Clan. With her, even if the God Burial Ground closes, you will be able to escape."

After he finished speaking, Su Haotian didn't say anything more and took the initiative to make way.

Li Yueming glanced at the two of them.

It was impossible for him to have such great trust in Su Haotian.

However, the problem was that the path to the unknown was now open to him. He had no reason to give up.

Thus, after pondering for a moment, Li Yueming decided to bring Su Xuan in.

ground, inside the ground, inside the ground, inside the ground, inside the Originally, Suxuan did not have any problems with her mentioning these.

However, Li Yueming suddenly remembered some scattered records in the basic top-secret documents that he had seen in the deepest part of the Li family's library.

According to some of the Li family's ancestor's books.

The Li family, which was currently in the limelight in the Great Zhou Dynasty, seemed to have a certain relationship with the Great Gan Dynasty more than 5,000 years ago.

Otherwise, it would be very difficult for an expert of the Li family's ancestor's realm to suddenly appear in this world.

According to these bits and pieces of information.

Perhaps the Li Clan's ancestor was also from the Great Gan Lord Dynasty.

In other words, the Li Family might even be like the Su Family, a descendant of the Great Qian Dynasty who had fled when the Great Qian Dynasty was destroyed.

He could only say...Isn't this a coincidence?

Of course, Li Yueming couldn't be 100% sure, but he couldn't rule out the possibility.

In any case, other than feeling a little dizzy, Li Yueming did not feel much discomfort after entering this place.

Suxuan obviously couldn't figure it out.

However, seeing that Li Yueming wasn't willing to talk, he could only give up.

She looked around and roughly determined her location. Then, she took the lead and said, "Come with me. The place where our Su Clan worships the god's burial ground is the source of the earth vein."

The two of them continued forward.

He walked along the path of scorched rocks made of solidified lava in a certain direction.

On the way, Li Yueming saw a lot of lava that hadn't solidified on the black rocks under his feet.

From top to bottom, the lava was as red as boiling blood. Even from a distance, it emitted a heat that made one's mouth dry.

Even with Li Yueming's current physique and strength, he could not help but feel his scalp go numb when he saw this thing.

On the other hand, Suxuan was not surprised. She must have come here more than once.

The two of them went around a few lakes formed by lava and walked around for about ten minutes.

In the end, Su Xuan stopped beside a huge lava lake. There was a broken path paved with black stones in the lava lake. Su Xuan stopped and turned to Li Yueming. "This is the passage to the earth vein divine spring. You follow me and follow me wherever I go."

Li Yueming thought for a while and nodded.

At this moment, in her home ground, Suxuan was much calmer.

Seeing that Li Yueming understood, she began to lead the way.

This path paved with black stones was not complete. It was broken into pieces, and there was bubbling lava beside each black stone.

On the way, Li Yueming suddenly realized something.

After entering this area, whether it was spiritual power or brute physical strength, they were completely suppressed. Even if they could still preserve a certain amount of strength, it was very limited.

Just like what Suxuan said, this place was very dangerous. If he took one wrong step, he might fall into the lava.

Halfway there.

Su Xuan, who was leading the way, suddenly stopped. She turned around and looked at Li Yueming with a complicated expression. "Aren't you afraid that I'll run away halfway and leave you here alone?"

"Of course I'm not afraid, because you wouldn't do such a thing! ""

Hearing this, Suxuan shook her teeth, but in the end, she didn't say anything and just led the way silently.

This path seemed very long.

However, in reality, under Suxuan's leadership, they moved very quickly.

In less than five minutes, Li Yueming arrived at the middle of the lava lake.

The first thing she saw was a mouthful of hot spring water. Suxuan stopped and said, "The Earth Vein Divine Spring is what our Su Clan calls it. As long as you go in and absorb the power of the divine spring, you can temper your body and increase your strength...Our Su Clan has been able to survive in the Hundred Thousand Mountains without having to worry about the surrounding wild beasts threatening the safety of our tribe because of this divine spring!"

Li Yueming closed his eyes and sensed it. He didn't feel anything bad in the divine spring, so he nodded and said,""So this is the so-called God Burial Ground? If it was just this, it would be too boring!"

"Whatever you think, it has nothing to do with me anyway." I remember Father said that you were injured, right? The earth vein divine spring was very effective in healing injuries. As long as one didn't lose an arm or a leg, they couldn't even find it. No matter how serious the other injuries were, they could recover in the earth vein divine spring!" Hearing this.

Li Yueming was a little tempted.

The injuries on his body were indeed very serious. In order to escape from the Qi Refiner of the Great Zhou Dynasty, not only did he injure his body, but his origin foundation was also injured. Even his lifespan was affected..

Chapter 570: Earth Vein Divine Spring, Life and Death, Human Bones (3)

Originally, he thought that he would not be able to continue walking the path of human body treasures in this life. He could only walk the path of Qi cultivation alone.

But now, he heard that this Earth Vein Divine Spring had such a magical effect.

He just didn't know if it was true.

Thinking of this, he carefully sensed the earth vein divine spring again. After confirming that he did not feel any danger, he immediately took off his clothes and jumped into it.

Before Li Yueming could take the initiative to absorb the energy from the Earth Vein Divine Spring.

He could already feel a hot and scorching power rushing into his body from the divine spring.

The boiling heat was like a savage dragon. Not only did it widen the meridians in his body, but it also removed countless side effects caused by the extraction of potential in his body.

At the beginning, Li Yueming suspected that Su Xuan was bragging about the divine spring.

Now, Li Yueming completely believed Su Xuan's description.

This spring did not look very eye-catching, but the power contained in it was actually very terrifying!

Su Xuan's description was not exaggerated.

In fact, he had underestimated her!

One had to know that in that battle, in order to survive, Li Yueming had squeezed out a lot of his potential in a short period of time.

Logically speaking, these were the innate essences of the human body. After the loss, it could not be replenished.

But now, this earth vein divine spring could even wash away these things.

It was not an exaggeration to say that it was a matter of life and death!

In his groggy state, Li Yueming didn't know how long he had been soaking in the divine spring.

In the end, he only knew that it was Suxuan who woke him up.

When he opened his eyes, the divine spring had already dried up.

“What exactly did you get injured?” Su Xuan asked, flabbergasted. Decades ago, when my second uncle was about to die, he sent the divine spring into the lake, but the spring water never dried up like this...”

Li Yueming didn't know how to describe it.

He couldn't possibly say that although he wasn't dead, he was only an empty shell, right?

However, after being nourished by the earth vein divine spring, he was still able to recover.

At this moment, although Li Yueming had not really recovered, he had regained his vitality. The hidden illness on his body was basically healed.

Not only that, Li Yueming even felt that the fourth human treasure in his body was ready to move. If he could find a way to feel the information released in his body, his cultivation might be able to advance further.

It could only be said that this was ridiculous.

Seeing him get up and put on his clothes, Suxuan blushed and quickly turned away.

After Li Yueming put on his clothes.

Only then did Su Xuan turn her head and look at Li Yueming seriously, "'I do not know what your purpose is for approaching our tribe. However, you have already gained quite a lot by absorbing so much energy from the Divine

Spring... "

"The divine spring is located at the outermost area of the God Burial Ground. Strictly speaking, it's not in the God Burial Ground. It should be a little incense left behind by the gods for our Su Clan to worship and protect for generations."

"As for the real God Burial Ground, it is a place that our Su Clan has never dared to touch. I advise you to think twice before you act!"

Li Yueming touched his chin.

In fact, when he first entered the God Burial Ground, he had a feeling that he had given up.

After all, he had been heavily injured and did not have much lifespan. If he couldn't take the risk, even if he went to the extremely cold snow mountain to cultivate and came back again, he probably wouldn't be able to escape the fate of being assassinated.

But now, he had recovered his body in the divine spring and had the capital to continue walking. If the God Burial Ground was really as mysterious and dangerous as Su Xuan had said...

Then he could indeed consider whether he should continue exploring this place after settling the matters outside.

Therefore, after weighing the pros and cons, Li Yueming said, "'Bring me to the real God Burial Ground. If it's really dangerous, I'll consider it carefully!"
