Chapter 601: The Arrogant Fire Sect Hollowed Out the Foundation of Great Zhou!_3

In the blink of an eye, another ten days had passed.

Gan Tian mobilized the soldiers from the surrounding counties to seal off the roads around Spring Water Lake County. Even the passes upstream and downstream of Spring Water Lake were heavily guarded.

He had already mobilized all the military forces in Fengnan County.

He had created a trap for the members of the Fire Sect that had nowhere to go.

At the end of September, the cool breeze blew through the sky, and the white dew fell, and the cicadas chirped.

The eagle then sacrificed to the bird and began to kill it.

The people near the Spring Water Lake woke up early that day. They brought their own stools and walked out of their homes. They came to the shrine where Li Yueming was worshiped.

At this moment, the courtyard where Li Yueming was was completely different from the past.

Not only did the courtyard become twice as spacious, but there were also all kinds of exquisitely carved pavilions.

The small bamboo forest outside the main courtyard was always shrouded in smoke, and incense was coming from all directions.

Although the overall layout still looked like the outline of a small courtyard, the charm was no different from those well-known Qi Practitioners 'Taoist temples.

It was because he could feel the true fate of heaven and earth pouring into his body.

Li Yueming was interested in this mysterious path.

Therefore, in these years, other than cultivating every day, Li Yueming's spirit would also do something for the people around him.

For example, if someone wanted to have a child, Li Yueming would take care of them for health reasons.

For example, if someone was seriously ill and could not be cured, Li Yueming would more or less remove some pain for them according to their specific conditions.

Of course, it was not that Li Yueming was unwilling, but that he was powerless.

After all, people would always suffer all kinds of hardships in this world. Some suffering was self-inflicted, and some suffering was unexpected.

But no matter what, Li Yueming was neither a Bodhisattva nor a savior. All he could do was to reveal some of his so-called 'immortal' methods to alleviate his urgent needs.

As for wanting to take whatever he wanted here, that was definitely impossible.

However, in this real world that was even more hellish than hell, what he did was enough to shine.

In just over a year, his reputation as the so-called immortal of Spring Water Lake had spread from the region of Spring Water Lake to the towns and counties near Spring Water Lake.

This was because there was no need to offer gold, silver, or silk to pay respects to him. The people who were taken care of by him spontaneously renovated and expanded his courtyard. There were even wealthy businessmen who wanted to erect a golden statue for him to thank him for his achievements in saving the suffering people in the world.

However, all of them were rejected by Li Yueming.

This period of relative peace lasted for more than half a year, until more than two months ago.

Su Xuan, who had changed her appearance and become the Fire Sect's Saintess, received the news. She changed her identity and finally came to Spring Lake to find Li Yueming. After discovering that Li Yueming had become a god worshipped by the local people, she immediately began to crown him as the Fire Sect's Supreme God.

If it had been a year ago, Li Yueming might have refused.

After all, it was good enough for the Fire Sect to be in Su Xuan's hands. He only needed to stand behind the scenes and control the overall situation. It was not suitable for him to stand in front of the stage and show his face.

But now, Li Yueming felt the benefits of stealing the fate of heaven and earth from his harvest in the past year.

Li Yueming could forget about the others. He had gained more favor from heaven and earth. Just the speed of drawing qi into his body was already many times faster than before.

Even when Li Yueming tried to open the sixth human body treasure, many spiritual lights suddenly appeared after he obtained more Heaven and Earth Fate.

This was only the effect of the Heaven and Earth Fate on the surface.

As for the other hidden effects that he couldn't see clearly, there were countless of them.

This thing was used by the world's consciousness to nurture the chosen ones. It was the core source material of the world's consciousness!

Every time he stole a wisp of it, it would be an earth-shaking change for a person.

Therefore, Li Yueming did not reject Su Xuan's suggestion. Instead, he began to integrate with the Fire Sect as one.

After all, in this fantasy world, the land was incomparably vast.

Many ordinary people would never be able to walk out of their own land. In order to expand his influence, other than waiting for time, the most effective way was to create a bigger commotion.

As for the subsequent repelling of the soldiers and the looting of the documents and records in the county government, it was the first action after the Fire Sect merged with Li Yueming.

As for the purpose...it was very simple.

It was to replace the already rotten Great Zhou government and voice out the grievances of the people.

Li Yueming was prepared to uproot the foundation that the Great Zhou relied on to survive from this angle.

At that time, Li Yueming would have the Star Moon Army in his hands. He could tear apart the Great Zhou army's defense line on the battlefield and secretly use the Fire Sect to dig out the foundation of the entire Great Zhou.

Under the merger of internal and external forces, as long as the Star Moon Army could attack Haojing, the work of taking over the Great Zhou's territory would be extremely smooth. It would not give the other countries time to extort-

When the dust settled, even if the other countries wanted a share of the pie, they would have to consider whether they could pay a price that matched it.

Chapter 602: The Gear of Fate Begins to Turn!_1

Year 7836 of the Great Zhou Dynasty.

A violent peasant uprising began to erupt around Fengnan County.

In less than two years, the system established by the government for nearly ten thousand years was torn apart by the Fire Sect in an organized and premeditated manner. All the official organizations in Fengnan County were basically expelled or eroded.

Even the governor of Fengnan County, a Rank Two official, had died in the riot.

This news shocked the entire world.

One had to know that this was a second-grade official, an existence that controlled an area.

From the beginning of the establishment of the vassal state in the era of the emperor of the ancient Tian family until now, among the officials killed in the uprising, the governor of Fengnan County, Gan Tian, was undoubtedly the highest level.

Apart from being shocked.

The Great Zhou Imperial Court finally felt that something was wrong.

A few years ago, wasn't the Fire Sect still preaching in the south-east and south-west of the southern barbarian territory? The power they possessed was not enough to support them to do such an irrational thing, right?

But now, why was he so daring to swagger his hand near the land of fish and rice in the belly of the Great Zhou Dynasty?

However, no matter how shocked the officials were, they were still shocked.

The Great Zhou immediately came up with a countermeasure.

After confirming the location of the incident, the imperial court mobilized all the military forces from the other eight counties and three continents around Fengnan County as quickly as possible.

He was prepared to suppress the forces of the Fire Sect in Fengnan County and kill them all.

However, it was worth mentioning that in this war, there was no sign of the emperor's army.

Although the decision-makers inside and outside the court kept their mouths shut, almost everyone could guess that it was because the war of the past few years had emptied the government's financial reserves.

As a result, the imperial court was unable to provide too much funding and soldiers.

The scale of this war was not large. A few years ago, when the war was fierce, such a small-scale internal war might not even be qualified to be noticed by other countries.

But now, they were stuck at the critical moment when the various countries had finally extinguished the flames of war and were ready to lick their wounds and recover their strength.

Therefore, even though it was only a small-scale internal war, it still attracted the attention of many countries.

Other than the Great Zhou.

Almost all the other countries had the attitude of watching a good show.

At this moment.

In the distant northwest, in Northern Glacier Town.

All these years, apart from going out regularly to relax, he had been able to enjoy his life.

Li Ruxing spent most of his energy on cultivation.

She would only wake up and watch occasionally when there was some information that she was concerned about. However, if he encountered any information related to Northern Glacier Town or the Star Moon Army, he would not care about them.

In other words, ever since he resigned from his position, Li Ruxing seemed to have really disappeared from this world. He completely removed himself from the Star Moon Army and no longer cared about the Star Moon Army and everything in Northern Ice River Town.

In the beginning, almost everyone was at a loss.

After all, when Li Ruxing was in power, he had extremely strict control over power and punishment. Her existence was like a mountain, pressing down on the chest of every member of the Star Moon Army.

As the second-generation heir, she had left a deep impression on all the members of the Star Moon Army.

Although he had adapted to it with the passage of time.

However, the Star Moon Troop was still marked with Li Ruxing's traces.

However, this trace was not as eye-catching as the founder, Li Yueming.

And now.

When he heard that an uprising had broken out in the Great Zhou Dynasty.
Li Ruxing's eyes, which had been calm for many years, suddenly flickered.
Even Li Ruyue, who was reading the letter outside, was stunned when she saw this scene.
How long had it been since Second Sister was moved?
When had she ever been so spirited and mischievous?
How valiant was he when he was dressed in red and galloped on the battlefield?
Perhaps in the beginning, Li Ruyue could still count the details, but after so many years, even Li Ruyue was already numb to it.
But now, Li Ruxing's eyes were once again filled with the usual vigor.
To Li Ruyue, this was definitely a familiar yet unfamiliar feeling...

The familiarity came from the memories in his mind, but the strangeness came from the span of time.

Li Ruyue was afraid that this scene was just her own illusion, so she asked nervously, "Second Sister, what's wrong? Are you alright?"

Li Ruxing didn't answer these questions that she didn't think were important. Her clear eyes repeatedly glanced over the words on the letter. After a long while, she raised her head and said, "Sister, how's the construction of the Great Zhou's Dragon Subdue Pass and Tiger Subdue Pass going?"

Li Ruyue was stunned for a moment, but she quickly regained her composure. "This is a super impregnable pass that has stood tall for nearly ten thousand years. Even if the Great Zhou Dynasty spared no expense, it would not be so easy to restore it. Naturally, it can't be repaired so easily..."

At this point, she paused.. After thinking for a moment, she said nervously, "Sister, don't tell me you want to take advantage of the chaos in the Great Zhou to attack the pass?"

Chapter 603: The Gear of Fate Begins to Turn! 2

"This is a great opportunity. Why not?" Li Ruxing nodded.

Seeing that she really had this thought, Li Ruyue couldn't help but clench her fists and whispered, "But you should also know, right? The current situation of North Glacier Town..."

Li Ruxing didn't respond. She didn't care about the darkness in her eyes.

Li Ruyue gritted her teeth and continued, "No matter what, the current Northern Ice River Town can no longer be as undefeated as it was in the past. If..." Second Sister, if you still want to... If you still want to realize the dream that your little brother failed to achieve, now that you stand up, perhaps... Perhaps there's still time."

When Li Ruxing announced his departure from the Star Moon Army and Northern Ice River Town, he did not mention it to anyone in advance.

Even though Li Ruyue, Li Nanfeng, and the others who heard the news immediately rushed back from all directions, they were still unable to stop Li Ruxing's iron-like will.

A year or two after the incident.

Even she couldn't find Li Ruxing's whereabouts accurately, let alone ask him why.

Helpless, Li Ruxing could only leave the West Garrison Pass and return to North Ice River Town. He asked Huang Li 'er for a job and returned to his position as the logistics manager of North Ice River Town.

The reason why he had worked so hard and disregarded everything.

He only wanted to use all the power he could to slow down the Dream Country that the Li sisters had spent so much effort on.

But even so, it still couldn't stop the situation from worsening.

After Li Ruxing left, the entire North Glacier Town was in chaos.

Not to mention whether the third-generation leaders led by Ding Yi, Huang Li 'er, and the others could suppress the reincarnators of the other two factions, the Northern Ice River Town and the Star Moon Army had already changed their original taste because of the two consecutive leaders in a short period of time.

Although the number of soldiers in the Star Moon Army was still increasing year after year, the Star Moon Army was still in a state of chaos.

However, their actual combat strength was constantly decreasing.

The contradictions and conflicts of interest between the upper echelons had caused the originally clean and honest officialdom in the northwest to become more and more turbid.

After all, Northern Glacier Town was able to implement a relatively fair politics in the northwest because Northern Glacier Town itself was pure enough. Everyone was willing to weave their dreams and demands into a rope.

He tied it to the man named Li Yueming.

The two sides were existences that would rise and fall together.

Later on, Lee Yueming disappeared from this world because of an assassination attempt. Lee Ruxing was ordered to seize the power of the Star Moon Army.

Although the Star-Moon Army and North Glacier Town were no longer willing to give their dreams to Li Ruxing, Li Ruxing was Li Yueming's biological sister after all. In addition, she had enough political standards, so she did not overthrow Li Yueming's policies and development direction. She was still firmly maintaining and strictly implementing them.

Only then did everyone reluctantly not take back the dream they had given up. They reluctantly believed that Li Ruxing would lead them on the right path...

Li Yueming's policies and the development of North Glacier Town were like a dream for everyone.

Then, with Li Ruxing's retirement.

Northern Glacier Town should wake up soon.

Children who loved to dream could not hide in their dreams forever. They had to wake up and face the unknown tomorrow.

That's why.

Li Ruyue was so excited when she heard Li Ruxing say that she was going to attack the Great Zhou Pass.

The Li family had two women and one man.

She was the eldest daughter, so she should be the one to protect her younger brother and sister. However, she was the one with the least talent.

She had understood it a long time ago.

Whether it was her second sister or her little brother, they were existences that an ordinary person like her could not touch in her entire life.

But even so, she was still putting on a brave front.

Since it was impossible to achieve talent, it might be possible to rely on hard work...

Therefore, she was always racing against time to read the most books and learn the most things. She always wanted to show her dignity as a big sister in front of Li Ruxing and Li Yueming.

However, as he grew older.

Li Ruyue finally realized the unfairness of life through repeated failures.

Even if she was unwilling to admit it, she had to admit that some things could not be obtained by hard work.

Just like strength, just like intelligence.

She couldn't understand why Li Ruxing, who had always been the most determined, would give up on Northern Ice River Town at that critical moment.

He also couldn't understand why Li Ruxing didn't participate in all the decisions and developments of Northern Ice River Town all these years.

Seeing this, she felt pain in her heart. She desperately wanted to do something, but she could only be like a clumsy child, doing her best to smear on unimportant things.

Li Ruyue's face was already covered in tears.

Only she knew how much effort and price Li Yueming and Li Ruxing had paid to keep the big ship of Northern Ice River Town sailing.

Because of this, she could not understand why the person she should have cared about the most was indifferent at this moment. Li Ruxing pursed her lips and didn't say anything.

What was he saying?

It was as if saying anything was unnecessary.

Some things were too deep, so deep that even a talented underling had to be careful.

He was afraid that he would fall off the cliff and shatter if he was not careful.

Telling Li Ruyue would not do her any good other than giving her unnecessary psychological pressure and a huge danger that could be described as a catastrophe.

After a while, Li Ru Xing looked up at her older sister who had some grey hair on her temples.. Her cold eyes finally melted a little and she said gently,"Sister, how is Ling 'er?"

Chapter 604: The Gear of Fate Begins to Turn!—3

Li Ruyue combed her hair.

However, when she mentioned her son, her voice couldn't help but become a little lighter. She smiled and said,"Ling 'er is very talented. As long as he is given a little more time, he should be able to help!"

Li Ruxing smiled, but her eyes were still deep.

Time?

Time...

How good would it be if she and her little brother were given more time?

The two of them had a lot on their minds, and the atmosphere in the house returned to silence.

For a moment, they were speechless.

Li Ruyue also fell silent. After a long time, she said,""Sister, if you want, there is still a group of people who dare to fight in the Star Moon Army. Even if they can't destroy the Great Zhou, it's not a problem to give them a ruthless blow!"

"Sister, do you really think the Great Zhou is our enemy?" Li Ruxing smiled. Moreover, I don't need to fulfill the dreams of the Starmoon Troop. After all, they were given souls... Isn't it little brother?"

"I'm not dispirited. I just want to, just want to improve myself as much as possible. Even if we fall out, I can help this little brother increase his confidence. "

Although there were many things he couldn't tell Li Ruyue.

However, Li Ruxing was still a man of flesh and blood. He didn't want Li Ruyue to be kept in the dark, nor did he want Li Ruyue to continue to waste her body day and night.

Therefore, after some deliberation, she more or less revealed some information.

Li Ruyue pursed her lips and said nothing.

It was impossible for her to not notice this at all.

After all, with the Starmoon Troop's current strength, even if they could not unify the world, they should be able to protect themselves.

Whether it was Li Ruxing or Li Yueming, whose life and death were unknown, there was no reason for them to hide behind the scenes.

Now, he had received some hints from Li Ruxing.

Although she still could not understand the twists and turns, she was not as confused as before.

Li Ruyue lost interest in asking further.

She bent down and gently blew out the oil lamp that was emitting a faint yellow light in the room. She stood up and walked to the door of the room. Just as she was about to step on the door, she suddenly stopped and turned around. She looked at Li Ruxing in the darkness and said, "No matter what, Northern Glacier Town carries too many dreams...When you are not around, I will do my best to protect you!"

No one spoke in the darkness.

Only the extinguished oil lamp emitted the last wisp of smoke.

Year 738 of the Great Zhou King Calendar.

Not only was the Fire Sect that had caused such a huge commotion not wiped out by the armies of the surrounding dozens of counties and continents, but it was even spreading to the surrounding areas of Fengnan County.

After discovering that the internal army was unable to suppress the unrest.

The capital of Great Zhou finally could not hold it in any longer. He gritted his teeth and sent out 300,000 troops directly under his command. Under the leadership of a Heaven-level Guardian in the Heavenly Tribulation Realm, he wanted to completely suppress the worsening situation in the central region.

When they heard that they would send out a heaven-level guardian at the Heavenly Tribulation realm, almost the entire Great Zhou was moved.

Heavenly tribulation realm experts were all transcendent existences.

How long had it been since he last fought in this world?

He remembered that the last time a similar existence attacked was when he attacked and killed the leader of Northern Ice River Town, Li Yueming, right?

Northern Ice had developed to the point where it threatened the borders of the Great Zhou Dynasty, but the Great Zhou Dynasty only sent a Heaven Rank priest to attack.

Now, just to deal with a heretic who had caused chaos in several places, the power that the Great Zhou had mobilized was actually even more terrifying than when they dealt with Northern Ice River Town?

When they heard the news, countless people went into an uproar.

After all, this matter itself was already puzzling enough. Coupled with the exaggeration of some people with ulterior motives, it added a strange attitude to it.

Of course, there were also many sharp people who tasted a special taste.

Going back a few decades, the Great Zhou was still in a relatively complete period and had enough confidence.

Therefore, even though they knew that the North Glacier Town was a huge threat, the Great Zhou did not panic. Instead, they dealt with this matter in an orderly manner.

But now, after the war of the six countries and the attack of the Star Moon Army, the Great Zhou was visibly weakened.

Now that such a large rebellion had occurred in a few grain-producing areas in the country, it had not been extinguished in time. The Great Zhou, who felt fear, naturally began to become hysterical.

They had sent out such a grand formation, even using qi-trainers at the heavenly tribulation level.

In the end, it was not to launch an external war, but to deal with a group of heretics... Rather than saying that it showed the strength of the Great Zhou, it was better to say that it completely exposed the Great Zhou's strength on the outside but weakness on the inside.

If the Great Zhou had a little more confidence, they would not have gone to such great lengths.

Or rather... If the Great Zhou had been a little stronger, it would not have been possible for such a huge commotion to occur.

At the same time, a pair of blood-red eyes woke up from their long slumber in the void. It opened its huge eyeball that was like the setting sun and watched everything. It muttered, "The war of the six countries, the conquest of the world... Was the Great Zhou the first to fall?"

"Interesting, very interesting!"

"This boring world hasn't been interesting to me for a long time..."

Chapter 605: The battle of the apocalypse shook the world! 1

In order to eliminate the heretics that were spreading like locusts in the country, the hysterical Great Zhou sent out an unprecedented grand lineup.

– A Heavenly level elder in the Heavenly Tribulation Realm led dozens of consecrators and 300,000 elite soldiers of the Great Zhou Central Army, ready to destroy the Fire Transmission Sect's life force with the most violent means.

Apart from protecting himself, this move also contained the intention of shocking the world.

He wanted a group of people with ulterior motives to see a Great Zhou that was completely different from normal.

As for exterminating the Fire Sect...

In fact, it was just a chicken to be used as an example.

It wasn't the main strategic intention.

After all, whether it was in the eyes of the Great Zhou or the people of the world, although the rise of the Fire Transmission Sect was a little strange, it was still in the face of the power of the Heavenly Tribulation realm.

Even the guy who was hiding behind the scenes and planning everything shouldn't be a concern.

However, under such circumstances, a shocking scene appeared...

As a warning to others.

The chicken that violated the heavenly laws and was killed by the Great Zhou Dynasty.

When they heard that the core army of the Great Zhou was approaching and that an elder in the Heavenly Tribulation realm had entered Fengnan County, they were shocked.

Not only did the Fire Sect not scatter and flee for their lives, but they also did not cry and live in fear. Instead, they began to build fortifications around Fengnan County, as if they were not afraid of the upcoming thunderbolt.

When the scene appeared, everyone was stunned.

For a moment, he didn't even know if he should praise the Fire Sect for their courage or whether they were reckless.

"Damn, what's wrong with this world? It's really monstrous!"

"The Great Zhou has mobilized 300,000 core soldiers, and the leader has even mobilized a Heavenly Tribulation realm elder... This force could even start a war with a country. Now, it was used to deal with a native heretic... What the hell was the Fire Sect? He was still building fortifications at the brink of death? Did they think that they could defeat the Great Zhou's army with a group of untrained soldiers and illiterate people?"

"I can't understand this wave of operation, but I'm indeed shocked."

"Ah, am I the only one who feels that something is strange? The Fire Sect couldn't be that stupid, right?"

In the beginning, the war between the Fire Sect and the Great Zhou was still within everyone's understanding.

But now, with the Great Zhou making a big move, they did not play by the rules.

This matter began to gradually exceed everyone's understanding.

If the Great Zhou's mobilization of troops was to kill a chicken to scare the monkeys, the goal was to intimidate the world.

Then, shouldn't the Fire Sect flee in all directions when they realized that the situation was not good, and try their best to preserve their strength in order to revive in the future?

How could they build fortifications and fight head-on with the regular army?

However, before the group of people could find any information from these strange imaginations.

An even greater chain reaction appeared.

After discovering that the Great Zhou had mobilized the Central Army to suppress the Fire Sect around Fengnan County, North Glacier Town, which had not made any movements at the border for

many years, suddenly mobilized an elite force to attack the Dragon Crouching Pass, Tiger Crouching Pass, and Futian Pass, which were still being rebuilt.

The Great Zhou naturally had a certain level of defense against this, but they were still stunned by the sudden appearance of a large number of Star Moon Army elite troops.

If the three passes were still there, they might still be able to deal with the Star Moon Troop.

However, the problem was that the three passes had been burned down by Li Ruxing and his men many years ago.

At this moment, all that was left were the defensive fortifications that had been briefly repaired over the years. They were naturally powerless against the elite troops of the Star Moon Troop who had awakened their military spirit.

After this news spread, the world was once again in an uproar, and countless rumors spread.

“Hasn’t Northern Ice been divided into several parts over the years? I didn’t expect that I would be able to unknowingly mobilize an elite army to attack the Great Zhou...”

“This is going to be a good show. The Great Zhou mobilized their troops to destroy the Fire Passing Sect, but before the war with the Fire Passing Sect could start, Northern Ice River Town took the lead and started to make things difficult for him.”

“Am I imagining things? Why do I feel like Northern Glacier Town is prepared for this?”

“If I remember correctly, the Fire Sect appeared five years ago, right? That so-called Holy Maiden’s origins were unknown, and even to this day, there was no accurate explanation...I don’t believe that such a scheming and scheming woman would be a nameless person. Either she has a great background, or there’s an invisible big hand controlling everything behind her.”

“Besides Li Ruxing from Northern Ice River Town, the only other woman in the world who can accomplish such a great feat is the saintess of the Fire Sect, right? These are all heroes among women, role models for our generation...If I could spend the night with any of them, I would die without regrets even if I had to die the next day.”

“Fellow Daoist, I advise you to be careful of your words. Be careful that the walls have ears!”

“Is there a possibility that the Holy Maiden of the Fire Sect is Li Ruxing of Northern Ice River Town? I heard that Li Ruxing went into seclusion after she resigned from her position in North Ice River Town. I haven’t seen her walk around outside for so many years. Was it because she had sneaked into the Great Zhou?”

“Judging from the time, it’s just right..”

Chapter 606: The battle of the apocalypse shook the world! 2

“That’s impossible...Since Li Ruxing resigned from his position in Northern Ice River Town, he had not been involved in any specific affairs of Northern Ice River Town. If this was also part of the plan, then the sacrifice of Northern Ice River Town and the Star-Moon Army was too great!”

“Who knows? How much does this have to do with us? Let’s just keep our eyes wide open and watch. Perhaps in these few years, we will witness a miracle that our ancestors have never seen before!”

Without a doubt.

At this moment, the Great Zhou was the center of attention.

Countless pairs of eyes were watching. They wanted to know if this country that had been passed down for tens of thousands of years could survive as peacefully as it had in the past when it was surrounded by internal and external enemies.

At the same time when the Starmoon Army attacked the three passes.

In Fengnan County, south-central Great Zhou.

The guest elder, Ji Ni, appeared in the sky above Spring Water Lake Town with an ashen face.

Underneath his feet were the elite troops of the Great Zhou.

There was naturally no suspense in the battle between the members of the Fire Sect and the elite regular army of the Great Zhou, even if the Fire Sect had built many fortifications and occupied a certain geographical advantage.

However, the difference in strength between the two sides caused the situation on the battlefield to be completely one-sided.

At this rate, Ji Ni would only need half a month to wipe out all the Fire Sect in Fengnan County.

But now, the situation on the battlefield was clearly one-sided.

Ji Ni gritted her teeth in anger.

There was no other reason. The guy who commanded the Fire Sect also knew that the Fire Sect could not defeat the official elite troops of the Great Zhou.

Therefore, the so-called fortifications they dug were not conventional fortifications such as trenches and barricades, but bottomless caves that extended in all directions!!!

This damn operation caused the war to change from the initial expected positional warfare to the current whack-a-mole mode.

Ji Ni’s army swept through the nearby land again and again, but they could not completely destroy the core strength of the Fire Sect in the end.

This made him even more annoyed than when he went to Northern Ice River Town to kill that demon-like junior.

After all, Li Yueming was in the light and he was in the dark. It was easy to find the target.

But now, in this war, the other party was hiding in the dark while he was in the light.

The other party had the initiative.

The feeling of having nowhere to vent her strength made Ji Ni extremely angry.

The Great Zhou sent 300,000 troops.

The goal was to put out the rebellion of Zhongnan Jun as quickly as possible and resolve the possible food crisis of the Great Zhou.

But now, these 300,000 soldiers had not fulfilled their initial ambitions.

He was forcefully dragged here by a bunch of bumpkins, unable to advance or retreat for a moment.

In addition, Northern Glacier Town had stabbed him at the critical juncture.

The discomfort he felt could not be told to outsiders.

While he was distracted.

Ji Ni waved her hand, and a deep pit dozens of meters deep was blasted into the ground that was covered with tunnels. Dozens of members of the Fire Sect were sent flying by the huge shockwave and shattered into puddles of blood in the air.

The members of the Fire Sect who had survived the disaster only raised their heads to look at Ji Ni, who was standing in the sky like a god, and it was enough to make their hearts break.

At this moment, they all wished that their mother would give them two more legs to fly around and escape along the tunnel.

Ji Mi spat.

With his strength, using it to kill a group of ants was like using a sledgehammer to kill a chicken.

Even if he were to face 100,000 elite troops with a Soul Army, he could easily defeat them with his own strength.

If it wasn't for the fact that the Fire Sect had dug too many tunnels over the years, causing him to not know where to start for a moment, he might have already been unable to resist the urge to personally fight.

He closed his eyes and exhaled.

After destroying the basic tunnel again, Ji Ni was finally unwilling to continue doing such boring work.

He landed on the ground and said to the commander of the army, "There's no need for so many soldiers to deal with the Fire Sect, so just transfer 200,000 troops back. The Great Zhou's national strength is empty, and Northern Ice River Town and other countries are still eyeing them covetously."

Hearing his words, the commander naturally had no objections. He nodded respectfully and said, "Great Elder is right. I will now order the withdrawal of 200,000 troops in batches."

"As for His Majesty's decree, I'll have to ask Great Elder to draft it on his behalf. "

Ji Ni nodded.

A pair of cold eyes swept across the land.

After a while, he suddenly looked at a man in black who did not have much of a presence in the corner and asked, "Have you found the nest of the gophers? I'm not staying here to play house with you!"

"If the person behind the Fire Sect isn't strong enough to have divine apertures, all the people in charge of this information will have to pay the price!"

I heard his cold words,

The man in black broke out in cold sweat.

"Reporting to the Great Elder, in order to find out who the mastermind behind the Fire Sect is, our internal guards have already lost several directors of the Returning Origin Stage. Someone who can do all this silently is definitely not an easy person!"

"First Elder, please give this subordinate a few more days. The chief secretary has already taken action. I believe that we will be able to find out the true identity of the mastermind behind the scenes very soon..."

Hearing this, Ji Bi did not deny it and snorted coldly, "Hmph, I hope so!"

Chapter 607: The battle of the apocalypse shook the world!—3

He had sent First Elder Ji, who was in the Heavenly Tribulation Realm, to deal with the Fire Sect here.

Other than deterring other people with ulterior motives.

In fact, it was also to capture the people behind the Fire Sect in one fell swoop.

After all, the rise and expansion of the Fire Sect had been too smooth.

Without the support of a powerful Qi Practitioner, it would be impossible for it to expand so quickly.

Just as the Great Zhou began to shrink its military forces and mobilize excess forces to defend the borders.

On the other side, the Great Zhou internal guards who had been investigating for a long time finally sent back information about the location of the core of the Fire Transmission Sect.

This piece of information was brought back by the chief secretary of the internal guards, who was at the level of the Divine Aperture. Before this, the internal guards had sent out several secretaries at the peak of the Guiyuan realm to investigate.

However, in the end, there was no news at all.

From this, it could be seen that the strength behind the Fire Sect could not be underestimated.

After receiving the news and confirming the exact location.

Ji Ni immediately rushed out of the camp impatiently.

Although he had killed quite a number of Fire Sect believers to vent his anger, how could the pleasure of killing ants be better than killing their nest and capturing their core members?

Ji Ni's speed was extremely fast. Judging from the power of this world, he was considered one of the strongest individuals in this world as he was in the ninth tribulation of the twelve tribulation ascension.

Therefore, he only spent less than half an hour to arrive at the Spring Water Lake.

According to the information from the internal guards, the small island in the deepest part of the Spring Water Lake was the headquarters of the Fire Sect.

The Saintess and the higher-ups were all there.

Of course, the most important thing was that there was a mysterious expert who was called the God of Fire by the mortals. According to the judgment of the Internal Guard Division Head, the so-called God of Fire was the strongest person hiding in the Fire Sect!

It was also the source of all the turmoil in the central and southern regions of the Great Zhou over the years.

Ji Ni did not hide.

In fact, at their level, there was no such thing as a sneak attack.

After all, those who could reach the Heavenly Tribulation were already connected to heaven and earth.

As long as they were close to each other.

In his perception, it was as if a god that was glowing all over had suddenly appeared in the darkness.

There was no way to hide, let alone sneak attack.

When Ji Ni approached the small island in the lake, she could already feel the aura of a god in the human world.

To be honest...

Ji Ni was in disbelief.

There were probably not many people in the entire world who knew more than him how difficult it was to cultivate the Heavenly Tribulation Realm.

The spiritual energy in this world was limited, and so was the luck.

In order to become a Heavenly Tribulation cultivator, not only did one need to absorb an unimaginable amount of spiritual energy, one also needed to have an unimaginable amount of luck.

Nothing less.

Under normal circumstances, a Qi Refiner at the Divine Aperture Realm wanted to break through the heavenly tribulation.

He had to use time and opportunities to build up.

Just like that, when breaking through, because he was stronger than the rules of the world allowed, he had to suffer the condemnation of the world and the baptism of lightning.

The survival rate was not even 30%.

Under all kinds of harsh conditions, there were very few heavenly tribulation experts.

Therefore, when he came here this time, he had always thought that Li Yueming was a guy in the Divine Aperture Realm. At most, he was at the peak of the Divine Aperture Realm.

But now that he was really close to Li Yueming, he knew that he was wrong.

And it was a huge mistake.

Because what appeared in his perception... It was clearly a powerhouse in the

Heavenly Tribulation Realm who was in the same realm as him!!!

From the aura, the other party should have just broken through and did not have as much foundation as him.

However, the life force that was leaking out like it was daytime showed that the other party was not a peak-stage divine aperture expert that he was familiar with. Instead, it was a young man who had never appeared in his sight before!

No, no, no. That was not right either.

The aura of this young man...He felt a sense of deja vu!!!

After realizing that he was approaching.

There was also a figure flying in his direction from the core island of Spring Water Lake.

When the two of them met, Ji Ni finally saw the true face of the figure not far away. Her eyes immediately widened as if she had seen a ghost in broad daylight!!!

He pointed at Li Yueming, his body trembling as he said, ""You, you, you...How is that possible?"

Looking at the skinny middle-aged man in front of him, Li Yueming revealed a few white teeth and smiled, ""As expected, it's you again. Last time, you chased me for 20,000 miles and killed me until I had no way out. You probably didn't think that I would come back one day, right?"

Chapter 608: Pursue Ji Ni, Burning Sun!_1

Many years ago, the Heavenly Tribulation expert who had been entrusted by the emperor to go to Northern Glacier Town to kill Li Yueming and chase him down for nearly ten thousand miles, allowing Li Yueming to escape from

Northern Glacier Town to the depths of the Hundred Thousand Mountains was Ji Ni, who was currently standing on Spring Water Lake.

That assassination was probably the biggest crisis that Li Yueming Ming had faced since he started his career.

If it wasn't for his powerful physical strength and the fact that he was trying his best to squeeze out the treasures of the human body.

In addition to using his perfect genetic body to constantly change his body structure to extend his life, Li Yueming's journey in this public reincarnation dungeon had probably ended long ago.

It was not easy for him to escape from the pursuit.

Li Yueming's body was almost completely drained.

Even half of the human body treasure was destroyed.

Fortunately, Su Shi had led them into the earth vein divine spring and used the energy of the divine spring to repair some of their bodies, which allowed them to retain enough fighting strength.

Even so.

Li Yueming's body had some hidden dangers from using his perfect genetic body to evolve his body.

From this, it could be seen how much pressure Ji Ni had given Li Yueming back then.

Now, decades had passed in the blink of an eye, and everything had changed. The gap between the two sides had also narrowed. Li Yueming finally found a chance to avenge the ten thousand miles of pursuit. However, the smile on his face was different.

Ji Ni's expression was not calm at all.

He stared at Li Yueming with his eyes wide open, unable to speak for a long time.

At this moment, only Ji Ni knew how shocked she was.

The last time he saw Li Yueming.

Li Yueming was only a Qi Refinement Realm cultivator.

Although he had managed to escape his pursuit by relying on various small tricks and strange powers that he could not understand, he should have been shriveled up by then.

Under normal circumstances.

It was not easy to survive in the Hundred Thousand Mountains, let alone escape safely.

How could he be like this now? Not only was he standing in front of him perfectly fine, but he had also already broken through the heavenly tribulation realm that he thought was like a natural moat?

In his opinion, this was simply impossible.

But now, such an unbelievable thing had happened in front of him.

If it wasn't for the fact that Li Yueming's face didn't change much and the aura on his body was too similar, Ji Ni would probably believe that this 'Li Yueming' in front of him was fake, rather than believe that Li Yueming had really escaped from the Hundred Thousand Mountains.

Fortunately, Ji Ni was not an easy person to deal with.

However, he quickly forced himself to calm down. He stared at Li Yueming with a pair of cold eyes and asked, "How did you do it?"

Li Yueming didn't say anything, as if he didn't want to talk to him.

Ji Ni thought for a moment before saying with uncertainty, "Could it be... Could it be that when you were being chased by me back then, you still had some trump cards up your sleeve and weren't completely exhausted?" Li Yueming didn't deny it.

Seeing that he really had no intention of revealing anything, Ji Ni muttered, "You must have obtained some fortuitous encounter. There is indeed something strange in the depths of the Hundred Thousand Mountains..." After he finished speaking.

Ji Ni finally gave up the idea of getting more information from Li Yueming and said seriously, "Anyway, no matter what, it was my fault for not killing you last time, but I definitely won't do it this time!"

As he spoke, he took a step forward, and the aura of a Heavenly Tribulation expert on his body burned fiercely. The mist above the entire Spring Water Lake was dispersed by an invisible force, and the deep green lake water became unobstructed under the illumination of the huge spiritual energy.

Li Yueming didn't hesitate either. He also took a few steps forward and said, "Old man, I really don't know if you're reckless or audacious. Last time, you couldn't kill me even though we were two realms apart. Now that you and I are both in the Heavenly Tribulation Realm, where did you get the confidence to be my enemy?"

Ji Ni did not speak.

His skinny hands clenched into fists.

Suddenly, a huge palm of spiritual energy appeared on the lake and squeezed toward Li Yueming.

Under the influence of the enormous spiritual energy, the calm surface of the lake suddenly erupted like a tsunami. Countless ripples changed rapidly, and the waves surged and swallowed everything.

Li Yueming's response to this was very simple.

The human body treasure on his body circulated rapidly. He also stretched out two hands to block the oncoming attack and tore the virtual giant palm condensed from Ji Yi's spiritual energy in the middle.

The moment the virtual giant palm was broken, the majestic spiritual energy was torn into pieces by Li Yueming.

From afar, the Spring Water Lake no longer looked like a calm lake, but a turbulent sea.

The two sides had only exchanged blows once, and they had conducted a preliminary test.

They didn't even use their true abilities.

However, just this alone was enough to cause a great deal of destruction that could make ordinary Qi Practitioners flabbergasted..

Chapter 609: Pursue Ji Ni, Burning Sun! 2

On an island in the lake not far away.

A group of people including Su Xuan witnessed this scene.

Li Yueming had actually resisted the attack of a Great Heavenly Tribulation Realm expert, and he had broken through it with his own brute force.

All the believers of the Fire Sect could not help but kneel on the ground and pray in Li Yueming's direction with a fanatical attitude.

When the giant hand of spiritual energy exploded and the endless wild wolves were about to blow everything around them away...

Suxuan stood up and blocked the island from being submerged by the waves. Instantly, all the believers who were kneeling on the ground became even more devout.

At this moment, in their eyes, Li Yueming was the true god of the human world.

And Suxuan was the only Saintess who followed the True God.

With these two existences in the Fire Sect, they would definitely be able to realize the ultimate ambition of everyone being equal and everyone living in peace and contentment.

In the sky, Li Yueming and Ji Ni were testing the waters.

Ji Ni's expression had already turned extremely ugly.

In the end, after failing to gain the upper hand against Li Yueming, Ji Ni did not continue to probe. Instead, he suddenly erupted with all his strength and forced Li Yueming back temporarily.

Without any hesitation, he immediately turned around and ran.

Just like what Li Yueming said.

In the past, when Li Yueming was only at the Void Refinement Realm, he had chased after him for nearly ten thousand miles but still failed to kill him.

Now, both sides were already at the same realm.

How could he possibly be a match for Li Yueming, who was a monstrous junior?

Therefore, when he saw the moon and the Ming Li.

Other than the disbelief on his face, the other party was still in the middle of the stage.

The emotion that rose the most in Ji Ni's heart was not anger, but fear.

That's right, when Ji Ni saw Li Yueming, the thing that rose in her heart the most was fear! !!

Decades ago, when he was chasing after Li Yueming.

Li Yueming's monster-like strength and strange vitality had already deeply shocked him.

There was clearly such a huge gap between the two of them, but he had chased after Li Yueming for nearly half a month without being able to kill him on the spot.

In the end, they lost their way after chasing into the depths of the Hundred Thousand Mountains and could not find Li Yueming's corpse.

At that time, he was already afraid, but he had been deceiving himself to comfort himself.

After that day, no matter who asked him, he swore that Li Yueming was dead.

The only reason why they couldn't find the corpse was because it had been devoured by wild beasts.

However, only he knew what kind of existence Li Yueming was.

Who knew if he really died?

As long as he didn't appear in the world, there was no meaning in living or dying.

But now, facing Li Yueming who had been reborn, the fear in the depths of Ji Ni's heart grew like a wild grass.

Li Yueming naturally wouldn't agree when he saw that he was prepared to flee.

He had stayed here for several years.

The biggest reason was that he wanted to sit on the fishing platform and eliminate some of the core high-level Qi Refiners of the Great Zhou.

The previous few experts of the Great Zhou's Inner Guard had died in this manner.

Now that he had caught the biggest fish in history, there was no reason for him to let it go.

Therefore, Li Yueming immediately chased after him without thinking.

In terms of speed, the two were not on the same level.

Li Yueming was not only a Qi Refiner, but also a cultivator with a treasure of the human body. The unlimited genetic body could also strengthen certain parts of his body.

It was simply too easy to catch up to Ji Ni, a pure Ki Refiner.

Because of this, the chase between the two did not last long.

About ten minutes later, Ji Ni stopped in mid-air with an ashen face and looked ahead.

It was unknown if it was a coincidence or fate, but at this moment, the location of the two happened to be the main battlefield of the battle between the Fire Sect and the Great Zhou army.

Therefore, the moment Ji Ni appeared, many Qi Practitioners on the battlefield immediately sensed the huge energy source in the sky that was burning like the sun. They could not help but stop their attacks and look up at the phenomenon in the sky.

When he saw that it was Ji Ni.

The morale of all the soldiers of the Great Zhou army was greatly boosted.

After all, Ji Ni's identity had already spread throughout the entire army on the way to the new army. Everyone knew that this skinny old man was the Great Elder of the Great Zhou Guest Group.

He was a top-notch Qi Qi Practitioner in the Heavenly Tribulation realm.

In this world where one could not come out from the dead and ascend to the gods.

The Heavenly Tribulation Realm represented the strongest combat strength that ordinary people could come into contact with.

It was also the strongest existence imaginable in the minds of all the Qi Refiners.

He was the uncrowned emperor among the Qi Refiners.

Now that such a powerful existence had appeared on the battlefield, there was no doubt that the gophers under their feet were going to be in big trouble again.

In contrast.

The moment the members of the Fire Sect saw Ji Ni, their faces immediately turned pale.

During this period of time, the Fire Sect had suffered heavy losses.

If it was an ordinary believer, in a battle where there was no hope or chance of victory, it would probably not take more than a few rounds of impact before they would have scattered and fled.

However, Fire Sect was different.

The reason why they were able to fight bravely all this time.

Other than the sect's description of a beautiful paradise on earth, the other party was also very excited..

Chapter 610: Pursue Ji Ni, Burning Sun!_3

It was more because there was really a supreme god in the sect overseeing it.

They believed that under the leadership of the gods and the saintesses, they could move from this purgatory-like world to the paradise on earth guided by the doctrine, so they could grit their teeth and persevere.

However, as the imperial court increased its strength in suppressing the bandits, the troops they sent out became more and more powerful, and the cult did not have enough inspiring military achievements or hope that could be seen and touched.

The minds of the Fire Sect's believers had already been shaken.

In addition, Ji Ni was also making frequent moves.

His god-like figure that controlled everything was the sharpest blade that shook the will of his believers.

After all, if the imperial court also had gods, how could they defeat everything and establish heaven?

Now, when he saw Ji Ni appear on the battlefield again.

Finally, the believers of the Fire Passing Sect, who were already tensed up to the limit of the Divine level, broke down.

Some people gave up fighting and threw their weapons on the ground. They were immediately stabbed to death by the elite soldiers of the Great Zhou Dynasty who reacted.

Some of them were hiding in the holes they had dug, holding their heads in their hands and looking terrified. They were deeply afraid that Ji Ni in the sky would casually wave her hand and take the lives of hundreds of brothers like in the past.

“Wuwuwu...”

The battlefield was filled with cries and howls.

The collapsed Fire Sect was a stark contrast to the morale of the Great Zhou soldiers.

Not far away from the Great Zhou military camp, there were a few Qi Practitioners who were also consecrated by the guest group.

When they saw Ji Ni appear on the battlefield, their faces lit up.

After all, Ji Ni had left his own base to wipe out the Fire Sect's lair. Now that he had returned to the battlefield, there was no doubt that he had killed the core higher-ups of the Fire Sect.

From the start to the end, it had only been two hours, right?

Was this the strength of the Heavenly Tribulation realm Great Elder Ji Ni?

As expected, it lived up to its reputation!

However, just as the group of Foreign Elders was about to fly up and ask about the situation, they were shocked to find an unpredictable figure suddenly appearing behind Ji Ni.

How should he describe it?

The figure was emitting a dazzling golden light.

From afar, it looked like a blazing sun.

With just a glance, the Qi Practitioners with slightly lower realms felt as if their vision was about to be taken away by the light.

The golden sun chased after Ji Ni and appeared in the sky above the battlefield.

Moreover, it had blocked Ji Ni's path without any error.

All the Foreign Elders were stunned.

For a moment, he did not understand what had happened in just a few seconds.

However, Ji Ni did not provide them with any information.

After his cold eyes swept across Li Yueming, a strong sense of fear appeared in the depths of Ji Ni's pupils.

He resisted the urge to flee.

Ji Ni lowered his head and looked at the members of the guest group who had come with him. He ordered, "You guys stall him, I'll be back soon!" His voice was as calm as possible.

However, as long as he focused slightly, he could feel the trembling in it.

However, the members of the guest group obviously did not notice it.

Or rather, the current situation was too strange, so much so that their brains could not analyze what was going on.

Therefore, when he heard Ji Ni's order.

A group of people subconsciously rushed over, wanting to stop Li Yueming from moving forward.

However, just as a group of guest members rose into the air and stopped in front of Li Yueming...

Ji Ni, who was originally calm, instantly turned into a stream of light and disappeared, leaving behind a group of even more dumbfounded guest members who looked at each other.

Li Yueming's expression was very cold. His eyes that were like surging lava swept across these people and said softly, "How pitiful.

After he finished speaking.

The golden light around Li Yueming's body seemed to explode as it pierced through the few Great Zhou Honored Guests in front of him.

It was only when the golden light pierced through his body and the aura of an ancient beast on Li Yueming's body bloomed without any scruples that the group of Foreign Elders knew what had happened.

It seemed like First Elder Ji Ni had abandoned them as cannon fodder.

But where did such a monster-like thing come from?

With unwillingness and bewilderment, dozens of Foreign Elders were turned into ashes in an instant.

Li Yueming passed by them without even blinking.

Old monsters like Ji Ni, who had cultivated for many years, were all elites among elites. It was normal for them to do something that ordinary people would find despicable when necessary.

This world was very realistic.

Most of the Qi Practitioners who had accumulated resources for cultivation had achieved nothing.

As for the old monsters who stood at the top, most of them had black hearts.

Otherwise, how could they stand out among the thousands of cultivators?

Becoming a supreme expert that no one else could reach?

If he didn't hurry up and kill him, he didn't know what this old fellow would do.

It was not easy to seize this hard-won opportunity. Li Yueming would not allow any accidents to happen.

The scene in the sky happened too quickly.

It was so fast that even the Qi Practitioners could not figure out what had happened.

Everyone only saw Ji Ni suddenly appear on the battlefield. They didn't know what was following behind him, but Ji Ni actually took the initiative to ask for help from the guest members.

The guest members had just reacted.

Then, with a whoosh, a destructive light exploded in the sky.

The entire world seemed to have been paused.

When everyone regained their vision and looked again, not only was First Elder Ji Ni gone, but even the Foreign Elders who had just soared into the sky had also shattered inch by inch, turning into ashes and disappearing from this world.

All the people participating in the battle below the battlefield could not help but stop their attacks. They asked with a blank expression, "This... Who can tell me what happened?"

That's right!

Who could tell them what had just happened?

The Foreign Elders were all top-notch elites among the Qi Practitioners, and the weakest among them were at the Void Refinement Realm. What was it that made them turn into ashes in an instant? They did not even have the time to say their last words.

No one could give an accurate explanation.

However, everyone, including the members of the Fire Sect, knew that something big had happened.

First Elder Ji Ni aside.

Just the deaths of these Foreign Dignitaries were enough to cause a huge earthquake in the international community.

From now on, the prestige that the Great Zhou had accumulated for tens of thousands of years would completely dissipate in this war, leaving only a weak appearance that looked strong on the outside but weak on the inside.
