

Maxing MT 611

Chapter 611: An Astonishing Monstrous Combat Strength!_1

On the battlefield, the people who had witnessed everything just now were all at a loss.

They couldn't understand what had happened to make the Foreign Elders disappear in an instant without even making a sound.

This scene deeply shocked them.

It was as if the pause button had been pressed in an instant.

After an unknown amount of time.

Suddenly, the sound of people kneeling down came from the underground tunnel that extended in all directions. Countless members of the Fire Sect knelt on the ground with their eyes closed and their faces full of piety. They shouted at the same time, "May the God of Fire live forever, and may the world be free of chaos! We will follow closely behind you and build an eternal and equal country!"

As soon as he finished speaking.

The members of the Fire Sect who were kneeling on the ground all bowed down one after another, as if their entire bodies were buried in the soil.

This sudden phenomenon left many soldiers of the Great Zhou Imperial Court at a loss.

At this moment, he looked at the devout believers not far away.

Recalling the scenes from earlier, the soldiers felt a chill from the beginning to the end for the first time.

A smart person cried out, "Just now..." The golden sun that had just appeared in the sky and killed a group of guest elders was a god worshiped by the Fire Sect?"

The moment these words were said.

The entire battlefield fell silent.

People recalled the breathtaking scene in the sky just now. That existence was like the sun on earth. Just looking at it made people unable to open their eyes.

Could it be that the other party was really a god worshiped by the Fire Sect?

After all, rumors had it that the god of the Fire Sect was the incarnation of the golden light.

So it was really a god who was walking in the world and chasing after Great Elder Ji Ni?

No wonder First Elder Ji Ni had lost her composure and asked for help from the elders of the guest group.

He thought of this possible conclusion.

All the elite soldiers of Great Zhou present could not help but feel the urge to retreat.

The Great Zhou Dynasty had been established for 15,000 years.

Until today, no one had seen the legendary ghosts and gods.

However, they believed in the saying that there was a god within three feet of them.

Now, if the golden sun in the sky was really an existence that was no different from a god.

Didn't that mean that they were now enemies with the gods?

Even if they had more guts, they wouldn't dare to do this!

Seeing that the soldiers' fighting spirit on the battlefield was gradually weakening, the commander behind him had no choice but to call off the troops.

In the sky thousands of miles away from the battlefield.

Li Yueming once again blocked Ji Ni's escape route.

At this moment, Ji Ni's expression was already very ugly. It had turned from a livid green to a pitch-black color.

He felt that he had overestimated Li Yueming's strength.

Therefore, in order to ensure that there were no accidents, he did not even escape directly. Instead, he took Li Yueming to the sky above the Great Zhou Army's camp and immediately summoned the other members of the guest group to be used as cannon fodder to delay Li Yueming's footsteps. According to his original plan, as long as he could successfully reach the sky above the tent and get the guest members to be cannon fodder, even if he couldn't defeat Li Yueming, he could still buy some time.

Don't underestimate this moment.

For experts in the Heavenly Tribulation Realm like them, they could dash a very long distance in a few breaths. He only needed to stall for a moment to let Ji Ni escape far away.

In fact, his plan was going very smoothly.

He rushed to the sky above the camp as fast as he could and successfully gathered the members of his guest group.

He thought he could breathe a sigh of relief.

However, he did not expect Li Yueming's combat strength to be so terrifying!!!

Moreover, the way they fought was much stranger than he had imagined.

Even an experienced heavenly tribulation cultivator would have to spend a lot of effort to eliminate a large group of guest experts.

In the end, in front of Li Yueming, they could only hold on for less than two breaths.

In just two breaths, he was turned into ashes by the blinding golden light that erupted from Li Yueming's body.

It should be known that there were dozens of elite Qi Practitioners at the Void

Refinement Realm, the Origin Returning Realm, and even the Divine Aperture Realm. Even in the Great Zhou, they were the core high-level combat force of the Qi Practitioners.

Most of the time, they would be provided with good food and drinks as a foundation.

They were rarely sent out for missions.

But now, he was like a group of lambs waiting to be slaughtered in front of Li Yueming. It did not even affect Li Yueming's efficiency in hunting him down!

This was f * cking...What kind of monster did he provoke?

Ji Ni had never felt so regretful in her life.

If he hadn't rushed to Northern Glacier Town to assassinate Li Yueming a few years ago, would there have been a blood feud between the two sides?

If he hadn't come to this Spring Water Lake to suppress the bandits, would he have met Li Yueming, this monster that was beyond common sense?

Unfortunately, there were no ifs in reality.

Because of the two coincidences, the two coincidences created the extremely dangerous scene.

Li Yueming appeared in front of him again.

Ji Ni already knew that this time, he was probably doomed.

After all, Li Yueming could easily catch up to him. Just this alone was enough to make Ji Ni feel as if he had eaten sh * t..

Chapter 612: An Astonishing Monstrous Combat Strength!_2

Ji Ni's expression was uncertain.

Li Yueming was very calm. He blocked Ji Ni's escape path and asked, ""Thirty years ago, when you hunted me down like a wild beast, you must have never thought that this day would come for you, right?"

He could feel the mockery and disdain in Li Yueming's tone.

Ji Ni, who had been in a high position for many years, couldn't keep his face. He threatened fiercely,"What do you want? Do you want to be enemies with the Great Zhou? "You have to think clearly. The Heavenly Tribulation realm is definitely not the limit of the Great Zhou Qi Refiners..." If you kill me, those sleeping old monsters will definitely wake up. At that time, I'm afraid that you will have nowhere to go!"

In the current situation.

Ji Ni's threat was pale and powerless.

However, Li Yueming knew that what the other party said was true. A Qi

Refiner in the Heavenly Tribulation Realm was not the limit of the Great Zhou Dynasty, nor could it be the limit of the Great Zhou Dynasty's Qi Refiner. According to the information Li Yueming had collected from the ancient books and archives.

The Great Zhou had at least five Nirvana Realm experts, one or two super old monsters who were one step away from ascending.

As for whether there were more terrifying existences.

That could only exist in his imagination and guesses.

No one knew if it really existed.

Seeing the hesitation on Li Yueming's face, Ji Ni was delighted. She quickly struck while the iron was hot and advised, "An outstanding person like you can leave a name in history. It's really a waste to leave it outside..."

"As long as you're willing, I can be your referee and recommend you to join the Great Zhou Guest Group. Your status is second only to mine...No, his status is above mine!"

He seemed to be afraid that Li Yueming would reject him.

"Do you know what it means to be above me?" Ji Ni did not dare to stop. This meant that you could choose from all the rare treasures in the entire Great

Zhou's treasury. The spiritual energy and heaven and earth providence in the Great Zhou dragon vein would endlessly pour into your body...Even if you don't do anything, you can easily break through the peak of the Heavenly Tribulation

Realm. If you're lucky, you might even enter Nirvana!"

Obviously, he had not officially fought with Li Yueming yet.

However, Ji Ni was already frightened by the terrifying power of Li Yueming.

Otherwise, he wouldn't be so dejected.

However, Li Yueming naturally couldn't accept these suggestions.

Therefore, he still looked calm and relaxed. He smiled and said, "What you said will still be mine after I pull the Great Zhou out of this world. As for you, you've lost your composure now."

Hearing this, Ji Ni's pupils constricted.

If he had looked at Li Yueming with a hint of fear in his eyes before, then he would have been able to see Li Yueming.

When he heard Li Yueming say that he wanted to pull the Great Zhou out of this world, he suddenly laughed and said coldly, "Young man, your heart is really higher than the sky. Do you want to destroy Da Zhou? I advise you to get someone to prepare the coffin before you say that!" Li Yueming didn't reply.

It wasn't that he didn't want to get information.

After all, the other party had lived for who knew how long. He was already old and shrewd, and even his eyelashes were empty.

No one knew how much of the news he said was true or false.

If he was not careful, there was a high chance that he would be scammed miserably.

Therefore, he did not say anything else.

He turned into a stream of light and headed straight for Ji Ni.

He rarely fought in this world.

Although this was a fantasy world, it was mainly a war between several dynasties.

When an individual's power was not strong enough, their destructive power could not be compared to an army with a military spirit.

Only after breaking through the Heavenly Tribulation realm did his individual power finally possess the destructive power to turn the tide of the battle.

After breaking through to the Heavenly Tribulation Realm, it was rare to meet experts of the same realm. Now that he had finally met his old enemy, Ji Ni, Li Yueming naturally would not let him go.

He could use it as a whetstone to test his strength.

Seeing that all kinds of tricks were useless against Li Yueming, Ji Ni finally threw away the messy thoughts in her mind and began to concentrate, hoping to find a way to break through the situation in the war.

Boom!!!!

The two of them fought in the depths of the mountain ridge. They only exchanged a blow in the process of testing each other. The huge fluctuation caused the entire mountain ridge to collapse.

Countless birds and beasts thought that the end of the world had arrived and scattered in all directions.

After just three to five moves.

Li Yueming's palm struck Ji Zu's chest, and he fell to the ground like a cannonball that had been fired. The entire mountain trembled.

Amidst the dust, Ji Ni staggered back up after a long while.

He finally returned to the sky and looked at Li Yueming who was not far away. His eyes were filled with fear and horror again. He said in disbelief, "How is that possible? Our realms are about the same, so why is there such a huge difference in our combat strength?"

Li Yueming did not respond.

In fact, when he made up his mind to do something, it was very difficult for the outside world to influence his judgment. For example, making a development plan.

For example, killing people.

Ji Ni was surprised by his terrifying combat strength, but only Li Yueming knew that he had only used his physical strength just now. He did not fully activate the human body's treasure trove, nor did he use the Qi of the Qi

Refiner..

Chapter 613: An Astonishing Monstrous Combat Strength!_3

However, even so, it was only a matter of time.

Using 30 to 50% of his strength was enough to easily crush Ji Ni, who was also in the Heavenly Tribulation Realm.

This was the terrifying part of cultivating two paths at the same time.

Li Yueming, who had infinite deductions and a perfect genetic body, could forcefully open up a path of body training in this world where there was no path of body training by changing his body structure.

He could even borrow the cultivation system from other worlds and force it to adapt to his body structure.

This path was extremely difficult to open.

The benefits it brought were also extremely obvious.

After realizing that Li Yueming's entire body was filled with killing intent and had no intention of paying attention to him, Ji Ni felt a chill run down his spine. He finally smelled something bad.

He looked around.

Only then did he realize that Li Yueming had chosen a good position to intercept him.

They did not stop him near the city.

Instead, they chose to stop him in the depths of the mountain where no one could reach.

In this way, even if he wanted to hide in the crowd or stall for time to ask for help, he would not be able to get stronger Qi Refiners from the Great Zhou Sect.

He couldn't find a way out of the predicament.

Ji Ni could only brace himself and fight Li Yueming a few more times.

However, the more they collided, the colder Ji Ni's heart became.

As expected of a monster who could escape from his hands at the Void Refinement Realm.

Now that she was at the same realm as him, Ji Ni did not even have the strength to fight back.

Not only was his opponent strong, but his physical fitness was also unbelievably strong.

He was actually able to block the attack launched by him mobilizing all his spiritual energy with his bare hands.

He was simply not human!

After a few breaths, Ji Ni felt the left side of her body go numb.

He turned his head and realized that Li Yueming had appeared beside him. He grabbed his shoulder with one hand and pulled it gently. Suddenly, the sound of muscles and cloth tearing sounded at the same time.

Li Yueming had actually used his physical fitness to tear off one of his arms!!!

When blood gushed out, Ji Ni could not believe her eyes.

One had to know that he was not considered weak among the Qi Practitioners in the Heavenly Tribulation realm. He could even be considered one of the best. Otherwise, he would not have been able to become the Great Elder of the Great Zhou Guest Group.

However, in front of Yue MingMing, he was like a child who had yet to fully develop.

Whether it was speed, strength, spiritual energy, or combat experience, Li Yueming was able to push him forward.

In fact, from the moment he saw Li Yueming, he already knew that Li Yueming was stronger than him.

However, he did not expect Li Yueming to be so much stronger than him.

The combat strength between the two sides was almost on a different level.

One had to know that Li Yueming was only a Void Refinement Realm Qi Refiner a few decades ago.

Even if he had broken through the heavenly tribulation ten years ago, he would only have ten years of accumulation.

In such a short period of time, how did Li Yueming obtain such powerful combat strength?

This was absolutely impossible!

Ji Ni's eyes were red as he gathered all the spiritual energy in his body. A dark, blurry shadow slowly condensed behind him and said in a hoarse voice, "Die..." Li Yueming's expression was still calm.

However, when the black shadow appeared, his eyes could not help but narrow. For no other reason, he sensed a strange and familiar aura from the phantom behind Ji Ni.

Chapter 614: Unification, Thorny Road! 1

The battle had only lasted for a few rounds.

Ji Zu, who had broken through the Heavenly Tribulation realm for many years, had his right arm torn off by Li Yueming.

Dark red blood dyed the sky red.

The sudden pain in her body gave Ji Ni a fright.

He could not understand why Li Yueming was so much stronger than him. They were both Qi Practitioners of the same realm.

However, no matter how frightened and confused Ji Ni was.

The cruel reality was like a heavy mountain in front of him.

Regardless of whether he was willing to believe it or not, the gap between his and Li Yueming's combat strength was so great that they were not on the same level at all!

After confirming that he was no match for them, and that he could not ask for help from the outside world, they were all stunned.

Ji Ni finally realized how dangerous the situation was.

He closed his eyes and took a deep breath. His body suddenly swelled up. Even his arm, which was still spewing blood, quickly stopped and healed at an extremely fast speed!

When he opened his eyes again, a huge black shadow had appeared behind him.

Ji Ni stood high in the sky. The energy fluctuations in his body had already increased by more than a level in the few breaths that the black shadow had appeared !

Although he had already lost his right arm.

However, under the influence of the Enraged state, both his combat power and the pressure he felt were rising.

He stared at Li Yueming with bloodshot eyes and growled in an extremely hoarse voice, "I'm very curious about who you are to be able to force me to use this move!"

Not far away, Li Yueming stopped.

He looked at Ji Ni, who was like a monster with a violent aura.

Li Yueming's face was full of vigilance.

However, just this level was not enough to make Li Yueming feel fear.

The reason why he was vigilant was because he sensed the mysterious aura of the shadow behind Ji Ni.

After activating this state that Ji Ni called 'mutation'.

Ji Ni no longer used her previous strategy of fighting and retreating to protect herself.

He took the initiative to fight Li Yueming.

In fact, Ji Ni's combat strength had indeed increased by a large margin.

At least in the following contact, the black shadow behind him protected Ji Ni from harm and could even launch some simple attacks that could threaten Li Yueming.

Under the circumstances where Li Yueming didn't use more power, he actually started to fight with Li Yueming. He could even occasionally defeat Li Yueming.

Li Yueming guessed that he would not be able to maintain this state forever, and he would most likely have to pay a price.

Otherwise, she would look like a supermodel.

In the air, the two of them fought again.

Li Yueming retreated dozens of meters.

Ji Ni was not feeling too well either. She staggered a few steps back.

After a round of battle, Li Ming had a rough estimation of his current combat strength, so he stopped and asked Ji Ni, "You should know a lot about the ancient Great Qian Dynasty and the so-called Human Emperor of the Tiandu Clan, right?"

Ji Ni was obviously a little surprised by his sudden doubt, but she quickly recovered and laughed. "It seems that you are indeed more complicated than I thought. You actually know so many things without saying anything!" Li Yueming didn't respond.

However, for some reason, Ji Ni did not seem to care about this and continued, "But you should know, right? Sometimes, the more you know, the better. On the contrary, you might even get yourself killed because of your curiosity..

"You've already investigated so deeply that you're only one step away from the truth and death. Even if I can't kill you, I can already see the day you disappear from the face of the earth!"

"If that day really comes, you will definitely regret not being killed by me today. Hahaha..."

As she laughed, she suddenly stopped. She looked at him and said with a ferocious expression, "Those who know the truth must die. Instead of dying in the hands of that thing, it's better for me to kill them!" As she spoke, the shadow behind Ji Ni became more solid.

His aura soared again.

The black shadow seemed to have a life of its own as it fused with him.

It even repaired his torn right arm.

Ji Ni became even more ferocious and terrifying.

Previously, Li Yueming had also obtained some fragmented information from him.

However, some of those messages were fake.

Other than Ji Ni herself, no one knew how much of the information was true and how much was false. There were probably many smoke bombs that Ji Ni deliberately released to confuse Li Yueming.

Therefore, Li Yue Ming was not prepared to believe a single word.

But now, after smelling the terrifying difference between him and Li Yueming, the credibility of Ji Ni's words increased a little.

After all, when a person was extremely nervous or excited, it was impossible to control their brain well. Even if they had already become a cultivator in the heavenly tribulation realm, as long as they did not leave the scope of human beings, this rule still applied.

Therefore, just a few words from him when he was in a state of madness had already given Li Yueming a lot of information.

At the very least, he could confirm one thing.

That was the so-called 'reality', which was perhaps not a secret among the circle of top-notch Qi Refiners in this world.

It was just that very few people could enter their circle..

Chapter 615: Unification, Thorny Road! 2

Then, the problem came.

The person behind the scenes had tampered with so much real history. What shocking secret was he trying to hide? Why was it that so many people knew the true history, but there were no rumors in the outside world?

Looking at the black shadow behind Ji Ni, Li Yueming already had some guesses in his heart.

He did not waste any more time.

Even though Ji Ni's condition had changed greatly compared to before, and her combat strength had also increased by a large margin.

But don't forget that Li Yueming didn't use his full strength.

He had only used less than 50% of his strength.

After discovering that Ji Ni had taken out his trump card, Li Yueming did not hide anymore. He activated the six human treasures on his body, and the spiritual energy in his body was also constantly circulating, raising Li Yueming's condition to the peak at the fastest speed.

Li Yueming stretched his body and looked at his greenish-gray palm, as well as the ferocious bone spikes protruding from his palm. He revealed a self-deprecating or mocking smile and said indifferently, "You're not the only one who's a monster. I'm also a monster among monsters...Of course, the reason why I became like this is, in a sense, thanks to your gift!"

After he finished speaking.

Li Yueming didn't dawdle anymore.

He exerted a little force under his feet and immediately disappeared from where he was.

In the next second, he appeared in front of Ji Ni like a jumping beam of light. It was still a simple and rough punch, but the energy contained in it was enough to distort space!! !

More than ten years ago, when he was being chased by Ji Ni.

In order to protect himself, Li Yueming constantly squeezed out the energy in his body.

In the end, after the body's energy was squeezed out, it would crazily squeeze out its potential.

However, this was not enough. After all, Ji Ni and him were separated by several major realms. As Qi Practitioners cultivated, the gap between realms would become larger.

In order to escape, Li Yueming was constantly adjusting his body structure through his Perfect Genetic Body while squeezing the potential of his body.

The goal was to evolve a body that was more suitable for escaping.

Because there was too little time, he could not constantly deduce the best option.

Although the Perfect Genetic Body allowed Li Yueming to evolve into an extremely powerful physical state, it also brought about an uncontrollable super-evolution to Li Yueming's genes.

His current form was one of the ultimate battle forms that his perfect genetic body had evolved.

It was suitable for pursuit and escape.

It had a terrifying body that was so powerful that it made people speechless.

Therefore, it was only a single punch.

To Ji Ni, who had completed her mutation, it was as if she had bumped into a huge mountain.

However, he was still sent flying thousands of meters away by Li Yueming's punch. He flipped in the air countless times.

At this moment.

The battle between the two of them was not so much a fight between humans as it was an internal strife between monsters.

Whether it was Li Yueming or Ji Ni, they were no longer pure humans.

He finally stopped moving.

Looking at Li Yueming, who was not far away and had spread his wings and covered in greenish-gray scales, Ji Ni opened his mouth to speak, but just as he was about to speak, he couldn't help but cough twice.

Ji Ni spat out a mouthful of blood.

“Cough cough cough..

Stinky blood gushed out from her throat, and she finally stopped coughing. Ji Ni was in a daze.”This... You, you're a monster too? No, that's not right... Haha, hahaha... No, you're a human, and I'm the monster...”

Blood was still gushing out of his mouth, but he was still laughing.

It looked a little terrifying.

However, Li Yueming's eyes were still as calm as ever, as cold as a knife.

The Perfect Geno Body was a bright gold talent that was one level higher than the infinite gold talent.

Moreover, compared to the pure support talent of infinite deduction, the strength of a perfect genetic body was more reflected in the two aspects of combat and survival.

How could the bright golden battle form talent be undeserved?

The current Li Yueming had changed from a genetic level to something else.

Everything was in the service of battle.

It could even be said that it was purely born for battle.

Therefore, similar to fear, pity, arrogance... Li Yueming wouldn't have any emotions that he shouldn't have in a battle.

Kill the enemies that can be killed.

Or survive from an enemy that could not be killed.

Without deliberately controlling his emotions, Li Yueming would only make an absolutely rational choice between these two judgments.

Now, facing Ji Ni, whose combat strength was weaker than his, Li Yueming naturally would not show any mercy.

In a flash, Li Yueming appeared in front of Ji Ni again.

This time, he did not simply punch out. Instead, he first used his spiritual energy to block Ji Ni's retreat before relying on his powerful physical fitness to fight Ji Ni in close combat again.

Ji Ni's entire body was covered in black shadows. Although he was visibly weaker than Li Yueming in close combat, he could still barely hold on with the power of the black shadows.

However, the bone spurs on Li Yueming's arm were extremely sharp. With the enhancement of the human treasure, their destructive power had reached a terrifying level..

Chapter 616: Unification, Thorny Road!_3

Therefore, no matter how strange the black shadow was, it was disappearing at a speed visible to the naked eye under Li Yueming's monster-like fierce attack.

During this process, Ji Ni was still crying and laughing.

It was as if his consciousness had been completely infected by the black shadow and had become crazy.

After about 15 minutes.

Ji Ni's head appeared in Li Yueming's hand.

He silently adjusted his breathing in the sky for a long time, dispelling the genetic logic that constantly interfered with his thinking. Li Yueming was finally released from the slaughter state.

This was Li Yueming's first time going all out after many years.

And his opponent was one of the most powerful Qi Practitioners in the world.

Fighting against a powerhouse of the same realm, this kind of familiar and unfamiliar feeling made Li Yueming feel a little uncomfortable for a while. Fortunately, the instinct to fight was engraved in his genes, so there was no accident.

There was no doubt that he had gained a lot from this slaughter.

Not only did he gain more information, but he also gained more information.

It also allowed him to have a sufficient judgment of his own strength. He no longer felt unfamiliar with this body that was getting stronger and stronger after the breakthrough.

The only pity was that he did not fully understand what the black shadow behind Ji Ni was and how it could increase Ji Ni's combat strength so much.

Forget it...

The human heart is not enough for a snake to swallow an elephant.

Just like what Ji Ni said, sometimes knowing more was not necessarily a good thing.

The rewards he had now were enough to satisfy him.

Looking at the arm that had transformed back from the greenish-gray scales and bone spikes, Li Yueming muttered, "Looks like I have to be careful when using a perfect genetic body next time. The consequences and side effects of randomly modifying genetic data are too great. I don't want to be like those technological lunatics and turn myself into a genetic monster!"

After returning to his human form, Li Yueming put on a set of intact clothes.

Then, without looking back, he left this forest that was destined to be unable to return to its original state for many years.

Now, Northern Ice River Town and the Fire Sect were ready to complete it.

Li Yueming had also killed a Heaven Rank Great Elder of the Great Zhou Honored Guest Group. The ultimate goal of overthrowing the Great Zhou's rule had officially been put on the agenda.

It could be foreseen that this would be a path full of thorns and no leeway.

All the people or forces involved could only advance and not retreat.

Because behind him was a cliff.

Before today, Li Yueming was still a little overcautious, afraid that he would make a mistake and lose everything.

Now that things had come to this, Li Yueming felt relaxed.

Year 7837 of the Great Zhou Dynasty.

This was a year destined to be recorded in the history books.

Only two things had happened this year.

The first incident was the rebellion of the Fire Sect, and the Great Zhou Dynasty sent Qi Practitioners in the Heavenly Tribulation Realm and the central army to encircle and suppress them.

He thought that it would be a piece of cake to eliminate a group of nobodies.

In the end, the heavenly tribulation grand elder of the guest group died, and his head was hung on the city wall of Fengnan County.

secondly, Northern Ice River Town mobilized the star moon Army to attack the front lines of Fu Long, Fu Hu, and Fu Tian Pass, which had yet to be rebuilt.

The Starmoon Troop came in a menacing manner, and their combat strength was very strong.

It took them half a month to successfully break through the defenses of the three passes.

Moreover, they were still gathering troops and approaching the hinterland of the Great Zhou Dynasty.

Both incidents happened very suddenly.

It was to the extent that when the outside world came back to their senses, they realized that the Great Zhou was already facing a joint attack from both internal and external threats in just a few months!

Chapter 617: Returning to Northern Glacier Town, the youths who once chased their dreams!_1

The most heart-wrenching pain in this world was nothing more than tearing apart those things that were called 'beautiful'.

Li Yueming had personally created too many beautiful things and destroyed too many beautiful things.

Therefore, he knew better than anyone how hard it was to come by ordinary happiness.

It was also because of this that when he had a choice, he was unwilling to involve too many people to share his fate.

After all, if he died, so be it. At most, he would lose some points, but he could still return to the Reincarnation Space.

However, some people were truly dead when they died.

He could no longer hear her voice or see her face.

Just by thinking about it, he would feel a sharp pain in his chest.

However, even though there were thousands of paths in the world, there was no way out.

Li Yueming had already reached this point. Whether he wanted to or not, he had to muster his courage and move forward bravely.

Therefore, after repeatedly deducing and determining that the timing was right.

Li Yueming picked up a pen and paper and wrote a letter to Northern Glacier Town, which was thousands of miles away.

The Great Zhou sent out the Great Elder of the Heavenly Tribulation realm's guest group.

In the end, not only did they not obtain the expected unstoppable attack, but they even failed miserably. Even the Heavenly Tribulation realm First Elder and the entire Great Zhou guest group were annihilated...

When this news spread.

Almost everyone could not believe their ears.

It couldn't be helped. This matter was too unbelievable.

Even though they had repeatedly confirmed the authenticity of the information, there were still many people who were unwilling to believe it.

Maybe this was the so-called reality that was more ridiculous than novels!

After all, novels still needed logic to support them, but reality did not. When something happened, the cause and effect were not important. What was important was that something happened.

The turmoil caused by this incident even spread throughout the six kingdoms of China.

One had to know what the Great Zhou Honored Guest Group's First Elder represented?

It represented the strongest power that could walk in this world under normal circumstances.

It represented an invincible existence under Nirvana and Ascension.

In the past several thousand years, from the time the War of the Nine Kingdoms was launched and the Great Gan and Great Han were destroyed to now. It was rare to hear news of a Divine Aperture Realm expert being killed in public.

And for Ji Ni, a super powerful being, to die in front of everyone was something that had never happened in thousands of years.

But now.

It was this Paragon who had been turned upside down in an unremarkable raid.

Not only were they killed, but their heads were also hung on the city walls. Such behavior was to announce the end of an era to the world and...The beginning of a brand new era.

A long time after that.

Countless citizens and rulers of various countries were discussing this piece of news.

Even after a long time, there were still people who could not free themselves from the traditional thinking that had been maintained for hundreds of years.

Fortunately, it didn't take long for Northern Ice River Town to be unwilling to be left out. Once again, a huge piece of news broke out.

Tens of thousands of elite soldiers from North Glacier Town gathered together and directly led their troops to break through the weak defense line of Zhou Futian Pass, Crouching Dragon Pass, and Crouching Tiger Pass.

It was said that Northern Ice River Town was so bold that they dared to lead elite troops to attack the northwest territory of the Great Zhou at the critical moment of life and death.

All the countries in the world looked at him and were in an uproar.

At the same time, countless suspicions and suspicions began to rise again.

If it was a few years ago, when Northern Glacier Town under Li Ruyue's command saw that the Great Zhou was weak, they would have given it a hard blow. Perhaps no one would have been surprised.

After all, although Northern Glacier Town was not as unified as Li Yueming's time, it was still a disciplined and powerful super-first-class force.

However, Li Ruyue had already abdicated, and Northern Ice River Town had been in civil strife for many years. It had long passed its heyday.

Now, it was already very good that Northern Ice River Town could protect its territory from being split by the internal forces. They actually dared to send troops to start a war and interfere in the matters of the Great Zhou.

Aren't they afraid of accidents?

However, no matter what the outside world thought.

Northern Glacier Town's actions were like a raging fire, explaining to everyone the madness that only belonged to Northern Glacier Town.

In just three months, under the double blow of internal and external problems, the Great Zhou had already suffered an unbearable blow.

Not only did they lose the three passes in the northwest, which they had since the founding of the Tiandu Clan, but they also lost their territory to North Glacier Town.

Although Northern Ice River Town was not like the Qin people who burned, killed, and plundered, a rebel army was still a rebel army. Even if they only stepped into the territory and did nothing else, it was enough to cause a great

loss to Zhou.

In addition, a few granaries in the backyard near Fengnan County were still on fire. Even after sending out such a powerful lineup, they still could not put it out.

Not only that, but they also lost a Heavenly Tribulation Stage Great Elder.

Under the stacking of multiple buffs.

The Great Zhou's situation was already precarious.

If it wasn't for the fact that Northern Ice River Town was filled with internal conflicts and couldn't effectively control all its strength, the extremely weak Great Zhou might have been in danger of being destroyed in an instant.

After all, from the moment Li Ruyue led the army to break through and burn the three passes in the northwest, the entire military barrier of the Great Zhou Empire in the northwest was like a piece of waste paper..

Chapter 618: Returning to Northern Glacier Town, the youths who once chased their dreams! 2

Over the years, in order to make up for this shortcoming, the Great Zhou had also done many things.

However, compared to the three impregnable passes that stood in the northwest in the past, the hasty preparations were not worth mentioning.

Under such circumstances.

The emperor finally did not dare to hide anymore. Almost all of the core army spirit troops of the Great Zhou were mobilized and deployed in the northwest territory.

Since there was no geographical advantage to rely on.

Therefore, they could only use manpower, material resources, and financial resources to forcefully build a human wall and do their best to prevent the Star Moon Army from breaking through the northwest and endangering the safety of the royal capital.

If it was decades ago when the Great Zhou's national treasury was still full.

Not to mention that the Star Moon Troop had only sent less than 200,000 elites to approach Haojing, even if they doubled the number to 400,000, it wouldn't have much of an impact on Haojing.

After all, the Great Zhou Dynasty had ruled thousands of miles of land for tens of thousands of years and was definitely not to be trifled with.

The people in Futian Pass, Dragon Subdue Pass, and Tiger Subdue Pass had an extremely strong sense of identity with the Great Zhou.

The people of the world were already used to calling themselves citizens of the Great Zhou and were also used to being ruled by the Great Zhou.

Just this alone was completely different from the people in the Northwest.

As an invader, the Star Moon Army would definitely encounter powerful resistance after entering the territory of the Great Zhou Dynasty.

The Great Zhou only needed to send enough troops to face the enemy and be invincible.

However, it was not the same as decades ago.

The Great Zhou, which was involved in the war between the six countries, was a defeated country. Its treasury had long since dried up in the long war.

The war between the six nations had finally ended.

The Great Zhou, Great Qin, and Great Qi attacked Northern Ice River Town.

In the end, Zhou did not gain any advantage in this war.

Not only did it not cause much substantial damage to Northern Ice River Town, but it also made Northern Ice River Town hostile for no reason.

The war finally came to an end.

Just as they were preparing to recuperate and replenish their livelihood, the fire sects in the country caused trouble everywhere, causing the grain production in the central and southern regions of the Great Zhou to decrease on a large scale.

Time and time again, they were either overt or covert, strong or weak.

With the accumulation of many factors, even the Great Zhou, a powerful country that had stood for ten thousand years, could not hold on.

Therefore, although they had mobilized a sufficient number of troops, the Great Zhou was still not confident. They could only hope that the other countries would not kick the Great Zhou when it was down at this time and deal a fatal blow to the Great Zhou that was already wearing a mask of pain.

Haojing, above the Emperor's Hall.

Hundreds of civil and military officials slowly walked out of the meeting hall. At this moment, all of them had solemn expressions on their faces. Some of them even whispered to each other and sighed.

In the main hall, the emperor's face was numb and his emotions were complicated.

After everyone had left, he casually grabbed an inkstone from the side of the table and threw it on the ground.

“Bang!”

The loud noise frightened the palace maids and eunuchs around him.

Seeing that his expression was getting uglier, an old eunuch said nervously, “Your Majesty, please calm down. Your Majesty, please calm down...”

The emperor glared at the eunuch.

The eunuch, who was extremely familiar with the man before him, immediately fell silent, not daring to say another word.

The emperor stood up from the dragon throne and scolded angrily, “Trash, a bunch of trash... The Great Zhou Dynasty had been established for more than 13,000 years, and there had never been anyone like this. All the civil and military officials in the court were people who lived in vain!”

The Great Zhou Dynasty implemented the clan blood system, and official positions were passed down from generation to generation through the ties between the family and the academy.

It was still fine in the first few thousand years.

After all, the world had not yet settled down at that time, and many families had not lost their desire to advance. In addition, generations of marriage had made the relationship between the entire interest alliance very strong.

Therefore, the Great Zhou relied on this system to prosper and stabilize for a long time.

The longer it lasted, the more the Great Zhou would be restricted by this system.

When the various large families formed an unbreakable alliance, the so-called imperial power was actually just a tool to bind interests in the eyes of the aristocratic families.

If not for the fact that the emperor was powerful enough to control the most elite batch of Qi Refiners...

In the long years, it had probably long since been used as a figurehead by the great clans, becoming a dispensable mascot.

Of course, none of this was important.

After all, the emperor's surname was Ji. Just based on this point, as long as the Great Zhou Dynasty existed, the emperor would forever hold power that the other great clans could never shake.

However, havinz Dower did not mean that they would not Derish.

After all, although Zhou's 'authority' was greater than that of the other countries, the Great Zhou Empire was not as powerful as the other countries.

But in the end, it had not reached the level where he could do whatever he wanted.

As long as the other countries joined forces, the Great Zhou would still be destroyed.

However, what the emperor could not accept the most was that the Great Zhou had not been destroyed by the other countries in the war of the six countries. Instead, it had been forced into a corner by a group of traitors in the northwest and a group of rebels in the country.

The emperor of Great Zhou believed that although he was not a famous ruler, he should not have become a ruler of a nation.

This group of great clans had truly rotted to the roots.

In the face of danger, there was not a single person in the entire court who could be of great use. There was only a group of submissive second-generation aristocrats who were full of greed.

Back then, when a group of scholars in the country were in a mess because of the decisions made in the northeast..

Chapter 619: Returning to Northern Glacier Town, the youths who once chased their dreams!_3

There were already clues, right?

It was just that his mind was filled with the Six Nations contending for hegemony and unifying the world.

He did not see the seriousness behind this question.

As a result, many scholars and talented people fled in all directions, no longer having any hope for the Great Zhou.

Thinking of this...

The emperor closed his eyes.

After a long silence, he finally calmed down.

He thought about how his Imperial Uncle, Ji Ni, who he had high hopes for, had actually died in that godforsaken place in Fengnan County.

If the emperor still didn't understand that there was an existence beyond imagination behind the Fire Transmission Sect.

His brain would probably have grown for nothing.

After dismissing the palace maids and eunuchs behind him, the emperor silently left the meeting hall and came to an inconspicuous dilapidated hall in the depths of the palace.

There was a long silence.

The emperor finally mustered his courage and walked in.

North Ice River Town, Star Moon Army camp.

A group of core high-ranking officers of the Star Moon Army swarmed into the tent. Looking at Li Ruyue who was not far away, they said with a bit of anger, "City Lord Li, I heard that you instigated General Ding to send troops to attack the Great Zhou?"

The other Starmoon Troop higher-ups also echoed, "Yes, yes. City Lord Li, although your status is extraordinary, don't forget that you don't have direct control over the Star-Moon Army. Isn't it overstepping your authority to interfere with the internal affairs of the Star-Moon Army?"

Li Ruyue's expression was cold and she said neither servile nor overbearing, "I can do whatever I want. Besides, even if I propose to attack the Great Zhou, isn't the final decision made by General Ding? Do you think that a woman like me is easy to bully?"

Her words were very unpleasant.

The people around them were a little embarrassed when they heard this.

To some extent, they did have such thoughts.

After all, whether it was Ding Yi or Huang Li'er, their positions in the Star Moon Army were still very stable. They were the core backbones who had followed Li Yueming since the establishment of the Star Moon Army.

It was definitely unrealistic for them to find trouble with these two. Other than asking for trouble, there was a high probability that there would be no good outcome.

However, they could not vent their dissatisfaction and doubts about the sudden mobilization of the army to Ding Yi and Huang Li'er, but it did not mean that they would do the same in front of Li Ruyue.

Compared to Li Ruxing, who had an extremely high reputation in the North Ice River.

Li Ruyue, the eldest sister of the Li family, had a far lower status in the eyes of the members of the Star Moon Army.

Li Ruyue was already married and could no longer be considered a member of the Li family.

Li Ruyue's own achievements and talents were far from enough to control the smartest people in the world.

Now, Li Ruyue had mercilessly exposed his thoughts.

The originally aggressive crowd paused for a moment before denying it again, "City Lord Li, we don't mean to blame or make things difficult for you. We just want to ask you not to overstep your authority and interfere in the affairs of the Star Moon Army in the future. After all, since ancient times, military power and management power have been separated. We don't recognize anyone other than the leader who holds the two great powers..." Hearing that they were still unwilling to let go.

Li Ruyue's expression turned even worse.

She didn't expect her position in the Starmoon Troop to be so awkward.

She didn't expect the Starmoon Army to be so disgusted by her City Lord's interference.

However, after thinking about it carefully, she calmed down a little.

Who were the only two people who controlled the Starmoon Troop? Whether it was Li Yueming or Li Ruxing, compared to Li Ruyue who was like a firefly, they were both like the bright moon.

Just as the group of people were expressing their dissatisfaction.

At some point in time, a cold figure suddenly appeared behind everyone.

He felt a sudden strange movement.

All the higher-ups of the Starmoon Troop were stunned.

However, when he saw the face of the figure not far away. The Starmoon Troop's upper echelon, who had been frozen stiff, suddenly revealed an expression of disbelief. "Li Li...General Li Ruxing?"

Li Ruxing was wearing a white robe, and her long hair was loose. Her eyes were like the most brilliant stars in the world. She looked at the unfamiliar and familiar faces in front of her and slowly said, "It was my order to attack the Great Zhou. Why? Do you have any objections?"

Looking at the cold and gentle figure in front of them, the expressions of the Starmoon Troop's higher-ups were complicated to a certain extent.

There was surprise, uneasiness, excitement, fear...

Everyone had different expressions on their faces.

However, Li Ruxing obviously had no intention of chatting with them. Her eyes that were as bright as stars swept across everyone. After a moment, she retracted her gaze and said, "My brother once promised you a paradise on earth. Unfortunately, my ability is limited, and I've always blamed myself for not being able to bring you guys to complete this incredible dream he left behind..."

"But it doesn't matter, because that man has come back to fulfill his promise!" As she spoke, she paused.

After a moment of silence, he suddenly revealed a relieved smile and said, "So now, let me take a good look at how many of you who followed him closely back then are still willing to accompany him on this path of no return!

"Everyone who is still standing with him, gather at the Star Moon Central Plaza

After he finished speaking.

Just like before, Li Ruxing turned around and disappeared from everyone's sight in an instant, leaving behind a group of shocked Star Moon Army high-ranking officers.

Chapter 620: 258, Horrifying appeal, veterans don't die! 1

Northern Glacier Town, Starry Moon Central Plaza.

Li Ruxing appeared here a long time ago.

At this moment, her expression was extremely indifferent, and her pair of gorgeous eyes swept the sky aimlessly.

The crystal clear floccule fell on Li Ruxing's skin and quickly turned into a pool of water, bringing with it a chill that made people tremble.

Snowflakes fell again.

Just like how he had landed on this land countless years ago.

Heaven and earth were always like this, neither happy nor sad. They just repeated the program set by God, mechanically repeating the cycle of the four seasons of the year.

Sometimes, Li Ruxing's thoughts would always wander.

Was there really a so-called 'god' in this world?

Or was the so-called 'god' just a bug that was slightly bigger than a human?

If the so-called 'God' really existed, would he be able to fight against the endless time?

This question had troubled her for a long time. It had even blurred her vision and made her unable to see the road ahead clearly.

But now, Li Ruxing had never felt so lost and helpless before.

From the day Li Yueming left North Glacier Town until today, it seemed that nearly 30 years had passed.

The moon does not stay, the season is like flowing water.

When Li Yueming left, the two regions in the northwest under the control of North Glacier Town were still a poor land with a population of 20 million. There was no food and no talent.

Many of the people living here still lived a life of hunger and satiety every day.

At that time, the Star Moon Army was very pure. Including her, everyone followed closely behind Li Yueming, carefully guarding the small boat that could capsize at any time, Dravmg tne nna ana waves, Drave1Y aavanclng forward.

However, the human brain was like a hard disk that could be degaussed at any time.

Forgetting and letting go were the underlying logic that had been engraved into the deepest part of the disk.

Even her resignation as the City Lord of Northern Ice River Town and the leader of the Star-Moon Army had been more than ten years ago, not to mention that Li Yueming had left thirty years ago.

Currently, the registered population of the Northwest had exceeded 80 million, and the number of trained Starmoon Troops had exceeded 5 million...

The rapid development of Northern Glacier Town had caused everything that had happened to her to turn into a puddle of water on her skin like snowflakes falling on her body, and she was no longer the same as before.

Time was merciless.

Not only could it take away all the pain, but it could also take away all the beauty.

All the unforgettable memories, all the undying memories, would become a withered flower in the passage of time. No one would remember the fragrance it once emitted.

Thirty years was neither long nor short.

In the long river of time, it might only be an instant.

However, it was an unbearable pain for ordinary humans.

The surging waves of the Northern Ice River continued to roll forward.

It was a pity that the new generation had replaced the old.

After all, not everyone was a powerful Qi Refiner, and not everyone had a firm and tenacious will. Most of the people in the world were just ordinary people.

Many of the core soldiers of the Star Moon Army who used to follow Li Yueming had already aged.

At this moment, could Northern Ice River Town and the Star-Moon Army abandon the glory, wealth, and stability they had already obtained and once again embark on the road full of thorns and no future?

Just because of a sentence and a wish from an old leader who had 'passed away' for 30 years?

To be honest, Li Ruxing didn't know.

In fact, other than the members of Northern Ice River Town and the Star-Moon Army, no one else in this world knew about this.

Anyway, Li Ruxing had done what she could and had already passed on Li Yueming's instructions.

As for whether there were still people in the Star-Moon Army and Northern Glacier Town who were willing to abandon everything and follow a dream-like bubble, it was not something she could decide.

The sunset in winter always came earlier than usual.

At around five o'clock in the evening, Northern Glacier Town had already fallen into darkness.

Li Ruxing stood alone in the Star Moon Center Square of North Ice River Town. Feeling the still lonely and uninhabited surroundings, his expression could not help but darken slightly.

Although she was already mentally prepared for this.

However, when all of this really happened in front of her, it still made her feel a little dejected.

She believed that if the news of Li Yueming had come eight or ten years earlier, Northern Ice River Town and the Star Moon Army would not be like this.

Too many things had happened in the years she had been away.

The most powerful group of soldiers in Northern Ice River Town had basically reached the age of retirement.

If the first generation was included.

The fresh blood of the Star-Moon Army was already the fourth generation of soldiers.

As the saying goes, the grace of a gentleman will decline after three generations and be cut off after five generations.

It might be a little biased in such a fantasy world, but in the end, there was no way to completely break away from this concept.

The soldiers who had just joined the Star Moon Army had never even seen Li Yueming, so how could they expect them to listen to the orders of a person who had long disappeared from their memories?

At 5:30 pm.

The Central Plaza of Starmoon was still empty. Snow fell like goose feathers, gradually wrapping the ground in a layer of silver..
