

Maxing MT 631

Chapter 631: How Do You Know If You Don't Try? 1

The old man's departure did not shake Li Yueming's will.

The development of Northern Ice River Town and the establishment of the Fire Sect were all preparations made by Li Yueming to resist the Great Zhou Dynasty.

He had already paid too much.

The others behind him had already sacrificed too much.

There was no reason for the members of Northern Ice River Town and the Fire Sect to still be bleeding, and for him to hide behind and sell everything out.

Hence, they had come to this point.

Any hesitation or cowardice would be disrespectful to oneself.

Moreover, let's not talk about the mission first... Wasn't the dream that everyone had entrusted to him something that they had to gamble their lives to realize?

The situation on the battlefield was still tense.

Previously, Li Yueming didn't dare to show his face, and he didn't even dare to have a trace of contact with North Ice River Town. He was afraid that the news that he wasn't dead would spread, causing North Ice River Town to be surrounded and intercepted by several countries.

After all, without Li Yueming, North Glacier Town would not have a core that could control the overall situation. The threat to the Six Nations would suddenly decrease, and it could completely serve as the sharp knife for the Six Nations to weaken the Great Zhou.

If Li Yueming didn't die...

Then Northern Glacier Town was undoubtedly a sharp knife. It was fine if it hurt the Great Zhou, but it might even backfire on the six countries.

Therefore, in order to prevent any accidents from happening, North Glacier Town, which had Li Yueming, would definitely be a thorn in the side of the Six Nations.

If they had known that Li Yueming was still alive, the three countries' alliance would not have been a small fight against each other when besieging North Glacier Town. Perhaps even the other three countries that had not participated in the war would have sent their men.

If such a situation really happened, Li Yueming, who had just broken through to the Void Refinement Realm, would definitely not be able to withstand it. The entire Northern Glacier Town would be overturned in the blink of an eye.

That's why.

Li Yueming had been quietly disappearing for more than 30 years.

Until his strength broke through the Heavenly Tribulation Realm and he was confident enough to protect himself. Li Yueming then left the Hundred Thousand Mountains and entered the Spring Water Lake. He began to do some things in a low-key manner.

Up until now.

Li Yueming's strength as a Qi Refiner had already reached the peak of the Heavenly Tribulation Realm.

The few human body treasures that he had previously developed had also been polished to perfection. However, even so, there were still people in the Great Zhou who could threaten him.

If Li Yueming's perception was correct, the old man's condition was very strange.

The two powers of life and death intertwined in his body, forming a strange energy that seemed to be dead but not alive, as well as a terrifying pressure.

If he was not mistaken, the other party was very likely an existence in the Nirvana realm.

He was only a step away from ascending.

If it was said that a powerhouse in the Heavenly Tribulation Realm could already be considered the strongest force that could walk in this world.

According to Li Yueming's estimation, a Nirvana Realm expert like the old man should be the strongest combat force that the six countries could bring out under normal circumstances.

The only thing that was uncertain was how many existences like the old man there were in the Great Zhou, the six dynasties, and the world.

However, no matter what, they would just have to deal with whatever came their way.

If the old man still decided to attack him in the end, Li Yueming did not mind experiencing how powerful the top old monster in the fantasy world was...

After I think it through,

Li Yueming sat cross-legged on the Spring Water Lake for about a month.

Although it was destined that he would not be able to break through to Nirvana Realm in a short period of time, it was still good for Li Yueming even if he could only advance a little.

Time passed very quickly. The willow branches on both sides of the Spring Water Lake sprouted new branches. The green tender shoots were like boneless beauties, swaying in the wind in a beautiful posture.

“Northern Glacier Town has broken through the fifth defense line in the northwest of the Great Zhou Dynasty and is advancing towards the sixth!”

Suxuan stood not far away, silently watching the man in front of her who was both familiar and unfamiliar.

Hearing this, Li Yueming opened his eyes and stood up from the Taoist temple.””It’s time to end this farce. I hope there won’t be any accidents!”

Su Xuan nodded and did not say anything, but her eyes revealed a trace of worry and confusion.

Over the years, she had been helping Li Yueming collect information. In the process, she also knew a lot of things that she should know and shouldn’t know.

In other words, as a descendant of Da Qian, Su Xuan knew more than 99% of the people in this world. Now, she only knew more than she already knew.

However, it was precisely because he knew so much.

Su Xuan became even more worried.

Although Li Yueming was indeed very strong now, there were probably not many people in the world who could threaten him.

However, the things behind this matter were too big.

Not only was it related to the secret of the destruction of the ancient Great Qian Dynasty, but it could also be related to the birth of the God Burial Ground!

This level of power was not something that humans could reach.

If he was not careful, there was a possibility that he would be reduced to ashes.

However, Su Xuan also knew that since Li Yueming had already made his decision, he had already considered the cause and effect and made up his mind.

Therefore, she did not stop him at this moment. She just quietly went forward to tidy up Li Yueming’s clothes and said gently, ””If it doesn’t work, then you should follow me back to the Hundred Thousand Mountains and hide in the God Burial Ground. That place should be able to guarantee your safety!”

Li Yueming didn’t say anything. He just nodded and disappeared without looking back..

Chapter 632: How Do You Know If You Don ‘t Try? 2

Smoke filled the air near the Great Zhou Northwest battlefield.

Countless dejected soldiers drove their horses to the sixth defense line further south.

Today, the fifth line of defense that Prince Yu had set up was broken through by the Star Moon Army, who disregarded the cost.

If the first four lines of defense could not be considered the main line of defense.

Then the fifth defense line that had been broken through this time was definitely defended by the Great Zhou with all its might.

But even so.

This line of defense, which the Great Zhou officials thought could last for more than half a year, lasted less than two months under the fierce attacks of the Star Moon Army.

At this moment, the soldiers of the defeated fifth defense line were all pale and dejected.

Because of their defeat, the entire northwest region of the country had fallen into a dangerous situation.

At present, the Star Moon Army was only left with the sixth final line of defense established by King Yu with the help of Luoshui.

Standing on the watchtower of the sixth defense line.

Prince Yu looked at the thick smoke rolling over from afar and the terrified soldiers who were slightly closer.

The expression on his face was a hundred times darker than coal.

Beside him, a deputy general braced himself and asked, “Your Highness, these scattered soldiers... Do we want it?”

Prince Yu put down the telescope in his hand, turned around and coldly glanced at the deputy general behind him. “Do you want what?”

She was stared at by his cold, venomous eyes.

The vice-general immediately felt his calves and stomach tremble. He hurriedly said, “Nothing, nothing. Prince Yu, your order is to defend to the death, but these soldiers dare to disobey the order and flee. In this subordinate’s opinion, they should be executed on the spot!”

Prince Yu glanced at him but didn’t say anything.

A moment later, he turned around and looked at the Starmoon Troop that had appeared on the horizon. He snorted coldly and said, “Looks like this place is destined to become a new meat grinder. I wonder how Tian Zi is doing...” After breaking through the fifth line of defense.

Although the losses were severe, it did not affect the morale of the Starmoon Troop at all.

After all, this was an ancient country that had been passed down for tens of thousands of years. It had long established an unattainable and powerful image in front of the world.

Therefore, in many people’s inherent impression.

Other than internal strife, it was almost impossible for the six states, including the Great Zhou, to be defeated.

But now, in front of the Starmoon Troop...

However, they showed a weak and exhausted side, which undoubtedly strengthened everyone’s confidence!!!

Since the other party was also a human, he could also be defeated.

Then why couldn’t this person be them?

Or rather... The person who would end everything would definitely be them!!!

On the battlefield.

The Starmoon Troop, who had arrived from afar, began to set up camp. It seemed that they were preparing to reorganize before the battle.

One simple tent after another appeared on the other side of the Luo River.

As a soldier waiting for the rabbit, Prince Yu naturally could not let the Star Moon Army rest and recover their strength on his face.

Therefore, when the Star Moon Army was setting up their tents, Prince Yu sent out troops to harass them one after another, attempting to disrupt the order of the Star Moon Army and tire them out.

This plan had a certain effect, but it was only a little.

The Starmoon Troop was building tents, but there were also small groups of troops wandering around the camp. If they saw the Great Zhou army approaching, these wandering teams would rush out to stop them.

Both sides exchanged blows, and the battle was extremely intense.

As a natural war goddess, Li Ruxing's arrangement of the battle formation was at the peak of perfection.

The Starmoon Army's defensive forces were not as many as the Great Zhou's harassment forces.

However, Li Ruxing's arrangement of the positions of the small troops was perfect.

Basically, they did not leave any openings for the Great Zhou army that was wandering around and ambushing.

Therefore, after a few rounds of confrontation.

Prince Yu did not gain any advantage.

After a few rounds of probing, everyone on the sixth defense line felt that Li Ruxing and the Star Moon Army were difficult to deal with.

If military talent had a value...

Then Li Ruxing definitely belonged to the existence of ninety-five points and above.

Coincidentally, the Starmoon Army, which had just awakened its military spirit a few decades ago, was also a unique existence in the army.

A divine weapon matched with a divine general.

If the Great Zhou wanted to win this war, they needed to show absolute strength.

On the third morning after arriving at the sixth defense line.

The Star Moon Army began to tentatively attack the Great Zhou on the other side of the Luo River.

Under Li Ruxing's command, the Star Moon Army split into three groups to attack the three core cities of the Luo River defense line.

After receiving the news, Prince Yu immediately made preparations for war.

Although it was only a probing feint.

However, the firepower was far more ferocious than expected. The two sides fought for an entire night. The entire Luo River was in flames and roars were endless. It was not until the next morning when the sun rose that the Star-Moon Army withdrew.

Looking at the Star Moon Army leaving, the Great Zhou defenders who had survived the disaster heaved a sigh of relief.

His heart was filled with fear and confusion towards this war.

However, before they could eat anything warm.

The Star Moon Army, which had been retreating, suddenly appeared outside the defense line. The panicked city guards did not dare to delay and could only put on their armor and pick up their weapons in a hurry.

However, the Starmoon Troop had already reached the bottom of the city wall.

A heavily armored knight riding on a bear several times larger than an ordinary spiritual horse suddenly emerged from the cloth covering the siege weapons..

Chapter 633: How Do You Know If You Don 't Try?_3

The heavy armored knight drove the huge and heavy bear into a violent attack.

He crashed into the city gate at lightning speed.

Boom!!! !!

A loud sound rang out.

The city gate was pushed open by the giant bear like a piece of paper.

The beast tamer, who was riding a spirit beast and covered in armor, whistled. The giant bear waved its bear paw and slapped the surrounding soldiers into meat paste. Then, it took the lead and rushed in.

Thousands of soldiers of the Star Moon Army followed behind him and entered the city at almost the same time. It took them less than half a day to wipe out the city built on the sixth defense line.

This could be considered the Starmoon Troop's first victory since the start of the battle.

For this, the Star Moon Army paid a price.

While retreating, the leading Beast Tamer was surrounded by three Great Zhou reincarnators and almost bled on the spot.

Looking at the beast tamer of Northern Ice River Town who was covered in injuries but still managed to escape from the siege, King Yu was so angry that his teeth almost shattered. He said fiercely, "If it wasn't for the heavy losses suffered by the guest masters, would you have been able to return safely?!"

Back then, the emperor had sent a group of visiting officials to exterminate the Fire Transmission Sect.

Everyone thought that this was just a small matter.

However, they never expected the mastermind behind the Fire Relocation Sect to be so powerful. He had actually forced the entire group of Guest Masters to stay and even killed the Great Elder of the Guest Masters, Ji Ni.

When this matter spread.

The entire Great Zhou and the other five countries were in an uproar.

Only those who were also in the Heavenly Tribulation Realm or above could kill a Qi Refiner in the Heavenly Tribulation Realm.

However, in this world, be it luck or spiritual energy, there was a limit. When did such an unknown Heavenly Tribulation realm expert appear in the Great Zhou?

However, what was even stranger was that the emperor did not send back any news about this matter.

No matter how noisy the outside world was, the emperor remained silent.

He didn't even mention Ji Ni.

Sensing that something was wrong, Prince Yu wrote a letter to ask the emperor.

However, even he, the younger brother of the current emperor, did not receive any clear answer.

The emperor only asked him to be in charge of unifying the power of the Great Zhou royal family and use all means available to protect Haojing from the flames of war.

Under the attack of Northern Ice River Town, the Great Zhou suffered a considerable loss in the first battle.

This news tugged at the heartstrings of countless people.

There were discussions everywhere.

“Will the Great Zhou really collapse under the attack of a group of rebel soldiers? To be honest, I can't accept it...”

“To be honest, the combat strength of Northern Glacier Town is simply terrifying... The world had been stable for so many years, and the birth and development of Northern Glacier Town was definitely the most unbelievable thing that had happened in this period of time!”

“The war between the six kingdoms hasn't ended yet. Could it be that Northern Glacier Town is prepared to remove the Great Zhou from these six kingdoms?”

“Let's wait and see. I don't think things are that simple. Don't forget that although the army and the kingdom are important, the ones who are truly standing behind everything are still the strongest batch of Qi Practitioners in the world!”

Northern Ice River Town is indeed very powerful, but there are not many powerful Qi Practitioners. If we force the Great Zhou into a corner, who knows how many half-dead old demons will pop out of the unfathomable Great Zhou!”

“That’s right. Before the experts who set the order made their move, all the answers we saw could be changed in an instant. If that’s the case, then wouldn’t everything that Northern Glacier Town is doing now be a lie? After all, they did not have any powerful Qi Practitioners backing them up!”

To be honest.

When discussing this war, almost everyone judged the situation based on the victory of the army and the war.

Actually, they couldn’t be blamed for this.

It had been many years since Qi Refiners of the Divine Aperture Realm had been active in history.

A Qi Refiner in the Heavenly Tribulation Realm would only appear once every several thousand years.

Therefore, many people had subconsciously neglected the existence of powerful Qi Refiners who could turn the world around on their own.

Only a very small number of people revealed the important information that most people had forgotten, or rather, deliberately ignored, which was the powerful Qi Refiners above the level of the heavenly tribulation.

Now, it was brought up again.

This awakened the memories in the depths of many people’s minds.

All the order in this world was actually just an extension of the will of a small group of people.

The reason why the Great Zhou was called the Great Zhou was that, other than the unquestionable bloodline, the ancestor of the Great Zhou had enough strength among the many descendants of the Tiandu clan’s human emperor.

Now, there was a problem.

For the time being, there was no powerful Qi Refiner in Northern Ice River Town that could shake the order.

Why did they go through so much trouble to challenge the order set by the Great Zhou?

He couldn’t have gone crazy!

After thinking of this question, all the voices in the outside world suddenly fell silent.

Other than the fact that Northern Ice River Town had gone crazy, which was an impossible reason, the two of them were still in the same boat.

Everyone could only think of one answer, and that was that there must be an existence behind Northern Ice River Town that could support all of this!

Year 7898 of the Great Zhou Dynasty.

Frost fell on the day, and the whole place was filled with a murderous atmosphere.

Li Yueming appeared at the bank of the Luo River alone.

On his left side, the remaining million soldiers of the Star Moon Army were crossing the river in a mighty manner, preparing to cut off their retreat and fight to the death with the Great Zhou.

If they won this battle, the gateway between Luoshui and Haojing would be completely opened.

The Great Zhou would lose its final barrier, and its destruction would only be a matter of time.

However, to break through this barrier without paying the price of blood was no different from a fool's dream.

The originally crystal clear Luo River had long been dyed red by the blood of the soldiers on both sides of the river bank.

At this moment, the Luo River was filled with corpses.

The old man also appeared on the river surface. He looked at the calm Li Yueming not far away and sighed, "Young man, is this your answer? You really won't turn back until you hit a brick wall..."

His voice paused for a moment, and after a moment, an aura that belonged to the peak of Nirvana Realm erupted. He continued, "You can't even get past me with your little strength, and you still want to pursue the so-called truth?"

Li Yueming turned his head and glanced at the Star Moon Army who was crossing the river without hesitation.

Under the dense rain of arrows, they fell one by one.

The blood that flowed out dyed the already bright red Luo River even redder.

Whose children were they, and whose husbands were they?

In the face of death, everything seemed to be unimportant.

Li Yueming took a deep breath and turned to look at the old man in front of him. He said, "Some things, if you don't try, how will you know if it will work?"

Chapter 634: The Shocking Battle Begins!_1

Rain fell from the sky without any warning.

The autumn wind swept away the smoke on the banks of the Luo River, and the entire world turned dark.

Amidst the sound of the rain.

The dried blood that had seeped into the soil regained its vitality after being soaked in the rain. One after another, small blood-red snakes flowed into the river.

The soldiers of the Star Moon Troop rushed into the rapid river and fought to cross the river to the other side.

As long as they broke through the sixth line of defense, the army that the Great Zhou had gathered with the strength of the entire country would basically be disintegrated.

The road from Luoshui to Haojing would no longer be obstructed.

Of course, the Great Zhou also knew this.

At this moment of life and death, the factions of the Great Zhou that were originally not united had also abandoned their internal conflicts, which was rare. They did their best to deal with the huge pressure brought by Northern Ice River Town and the Star Moon Army.

However, at the most intense moment of the battle.

The two figures standing in the middle of the Luo River attracted everyone's attention at this moment.

It wasn't that the two of them were eye-catching.

In fact, in this battlefield where millions of people were fighting, no one would notice the situation of one or two people.

It was because the auras of these two people were too terrifying on this battlefield where most people were only at the Foundation Establishment or even the Spirit Pool Realm. Even though it was thousands of meters away, it was like a sun that could not be opened.

No one could ignore their existence.

At this moment, countless people were looking in the direction of the two of them, their faces filled with confusion.

“What happened? How could there be such a powerful aura on the battlefield?”

“Could it be that the top-notch Qi Practitioners of the Great Zhou could not stand it anymore and took action to organize us to continue marching?”

” The Star Moon Troop is not to be trifled with. So what if they are top-notch Refinement Cultivators? A million soldiers can still fight!”

“What should we do? They seem to be blocking our path!”

These two incomparably terrifying auras temporarily disrupted the arrangements of both sides.

It directly caused a small-scale chaos on the battlefield.

However, the higher-ups of both sides seemed to have been prepared for such a situation.

As for the Star Moon Army, the moment they sensed the aura on the river, Li Ruxing immediately issued the order to retreat. The Star Moon Army, which was originally prepared to fight to the death, was urgently withdrawn.

Prince Yu's side was similar.

As soon as they heard that something was wrong on the river, they immediately ordered the soldiers guarding the city to stop the artillery and arrow rain.

This was also a rare tacit understanding between the Great Zhou and the Star Moon Army since the beginning of the war.

Because of the appearance of the two, the originally murderous battlefield instantly quieted down.

Even the soldiers nearby were ordered to retreat dozens of miles.

The series of strange orders puzzled many soldiers.

The Starmoon Troop was still alright.

After all, in the Star Moon Army's objective, obeying orders was a soldier's nature.

Therefore, even if they didn't understand the situation on the battlefield.

They still carried out Li Ruxing's orders to the letter.

However, it was different for the Great Zhou.

When he heard Prince Yu's order to stop the attack.

The group of princes who received the news instantly exploded. They rushed over in groups of three to five to demand an explanation from Prince Yu.

After all, in the eyes of the dukedom kings, the Star Moon Army had suddenly retreated halfway across the river. It would be fine if they didn't send troops to chase after them.

He actually ordered the soldiers to stop attacking?

If it wasn't for the fact that Prince Yu was the younger brother of the current emperor, his status and power would be very stable.

At this moment, the group of princes were probably going to flare up on the spot.

Prince Yu's response was still very cold. He stared at the river and said, "Don't tell me that you think that the Great Zhou Dynasty is able to survive in this chaotic world because of you pig heads with fat brains and your good -for- nothing ants

Hearing this.

The originally furious princes were stunned.

When they finally recovered from their shock, other than a few minor dukedom kings who had distant blood relations and shallow foundations, the other dukedom kings who had long inheritances shuddered.

Obviously, Prince Yu's words had awakened the fear hidden deep in their memories.

The emperor of the Northern Zhou Dynasty was surnamed Ji.

They were also surnamed Ji.

However, after so many years of reproduction, how much blood could this so-called Ji surname have?

The reason why they could bow down to the emperor now was naturally not because of some bullshit blood relationship. Instead, those princes who did not obey the emperor or had other thoughts about the emperor had long disappeared in the long river of history.

The last time was about six thousand years ago.

There were six great feudal lords who joined forces to force the emperor to hand over the throne.

That group of dukedom kings had been conferred before the Tiandu Dynasty disintegrated, especially these six dukedom kings. They were all extremely huge, and whether it was their power or autonomy, they were many times greater than the current dukedom kings.

However, it was precisely this group of princes who had been wiped out within half a month after they turned against the emperor.

The families of the six leading dukedom kings were almost wiped out, and not even a single dog was left.

In the residence of the vassal king, which was once incomparably glorious and considered itself a behemoth, blood stained the front hall all the way to the backyard. There was almost no inch of land that was not stained with blood. The minor dukedom kings who didn't participate in the battle were all scared silly..

Chapter 635: The Shocking Battle Begins!_2

It was also because the previous batch of noble princes had been eliminated that the descendants of the princes who had not participated in the battle had a chance to rise up.

Now, Prince Yu had once again brought up the old matter from more than six thousand years ago.

Naturally, it made them think of the past events recorded in their ancestral homes.

They couldn't help but turn pale, and their bones were trembling. All the schemes in their hearts were swept away, and they trembled as they

said, "Prince Yu is right. We are all pigs and dogs who have enjoyed the emperor's grace for generations. To be able to contribute a little to the emperor at this moment is already very grateful."

Prince Yu nodded and did not say anything. His gaze was still on the river surface.

The group of princes couldn't help but wipe off their cold sweat. They didn't dare to have any more complaints. They gathered their courage and looked at the river not far away, wanting to know what had happened that made the usually calm King Yu pay so much attention.

Li Yueming and the old man stood on the river.

When one's realm reached their level, ordinary probing would already be unable to figure out the other party's strength.

The most direct way to measure one's combat strength was to fight with one's aura.

Therefore, when the old man's aura was rising, Li Yueming did not hesitate and also released his aura.

Although this kind of competition in terms of aura would not cause any substantial damage to both sides.

However, it could leave a shadow in the other party's heart.

After all, in a battle between experts, a difference of one millimeter could cause a thousand miles of error.

In terms of aura, they were at a disadvantage. If it was small, it might only affect the confidence of the defeated party. In the following battle, the defeated party would not be able to let go.

To put it more bluntly, a slight difference in aura could even break the psychological defense of the defeated party, making the defeated party afraid to fight again.

Therefore, whether it was Li Yueming or the old man, it was not something that could be easily admitted to. Neither side made a move.

He just stood there quietly.

However, just the aftermath of the aura was enough to make the Luo River surge like the sea.

During the last competition.

Although Li Yueming was not completely defeated, he was still slightly inferior in terms of momentum.

After all, no matter what, the old man's realm was still a whole realm higher than Li Yueming's. Moreover, it was a huge realm difference between the Heavenly Tribulation and Nirvana.

However, this time, in terms of aura, Li Yueming and the old man were already evenly matched.

This discovery shocked the old man.

He had never expected that it would only be a little more than a month. To the top Qi Practitioners who had long lifespans, it was just a blink of an eye. However, Li Yueming had improved so much in just one month!

She was actually able to match him in terms of aura!

“Hualala!”

As the two of them fought with increasing auras.

The Luo River, which rarely had waves, had completely turned into a turbulent sea.

Waves of several meters or even dozens of meters swept across the two banks.

In addition to the pitch-black sky and the increasingly heavy rain, the millions of soldiers present felt a sense of gloom in their hearts.

He looked at the figure on the Luo River that was still as unmoving as a reef.

Both sides on the battlefield could not help but feel a chill in their hearts. In Northern Ice River Town, the sound of a small mosquito discussing something could be heard.

“Such a terrifying commotion. We haven’t even made a move, but just the aura alone is enough to cause a monstrous wave that is dozens of meters tall. Is this really a power that a human can mobilize?”

“How would I know? However, if those two were really Qi Practitioners, they were definitely existences above the Heavenly Tribulation or even Nirvana!”

“Really? How many years has it been since an expert of this realm has made a move? I heard that the last time was when the Great Zhou sent people to destroy the Fire Transmission Sect...’

“How can this be fake? Take a closer look. Is the clothes on that old man imprinted with the patterns unique to the Great Zhou Imperial Family?” “It seems to be the case...”

“It’s very normal for the Great Zhou to have experts above the Heavenly Tribulation Realm. I don’t even doubt that if we break through the Great Zhou’s sixth defense line, a few terrifying experts will appear in the next second and massacre our Northern Ice River Town and the Star Moon Army...”

“Then here comes the problem. If the person who appeared now is a top Qi Refiner of the Great Zhou, then the person who stood opposite that Qi Refiner and helped us resist that Qi Refiner’s attack... Who is it?” On both sides of the river.

Pairs of eyes looked at the center of the battlefield.

At this moment, the two figures on the river were so close to them, but also so far away.

If he hadn’t seen it with his own eyes.

It was hard for anyone to believe that such a war involving millions of people and two behemoths.

He had no choice but to stop because of two people.

That’s right!

If the old man standing on the river was a top Qi Refiner of the Great Zhou Dynasty.

Then who was standing in front of the old man?

Northern Ice River Town was powerful.

However, this strength was only in terms of the army. If they were to talk about the number of top-notch Qi Practitioners, it was estimated that even ten Northern Glacier Towns combined would not be a match for the Great Zhou.

And now, the Great Zhou had dispatched a top-notch Qi Practitioner to stop the million-strong army from crossing the river.

However, where did this mysterious expert from Northern Ice River Town come from? He had actually forcefully dragged such a terrifying existence into the middle of the river?

Not to mention the others, even Northern Ice River Town itself didn't understand this question..

Chapter 636: The Shocking Battle Begins!_3

Only the seasoned soldiers standing at the edge of the battlefield felt hot blood rush to their eyes when they saw the familiar yet unfamiliar figure on the river. The white-haired old soldier muttered to himself, "He's back, he's back. As expected, as expected...'

Some people even cried and choked, "It's a pity that so many old friends are gone. Before they died, what they wanted to know the most was the whereabouts of Great General Li...

There were also people with solemn expressions, tidying up their clothes and polishing their spears. "You don't need to grieve. We are still here, General Li is still here, and the Star Moon Army is still here! Now, we only need to follow behind General Li and cut off all the thorns in front of him!"

The new generation of soldiers had never seen Li Yueming before, so they naturally didn't know about his aura.

However, as the core backbone of the previous generation of the Star Moon Army, the soul of the Star Moon Army, how could the old soldiers not be familiar with the aura that erupted from Li Yueming's body?

Time was merciless.

Thirty years, a hundred and twenty years.

They had gone from the hot-blooded, ambitious prime of their lives to the current age where they were staggering and slow-witted.

However, time had changed them, but it had not changed the young man in their minds.

It was still that unlined garment.

It was still the back of his lonely and despondent figure.

It was still a heaven-defying act of creating possibilities in the impossible.

With just a glance, even without seeing the face, they were extremely sure that the figure on the river was the owner...It was the Great General Li Yueming for countless years!

The horses neighed, the veterans wept, and the river was silent.

After an unknown amount of time.

It could be a moment, it could be a long eternity.

The confrontation on the river finally came to an end.

The old man, who thought he could easily control Li Yueming, couldn't help but take the lead.

He slashed down with his fingers like a sword. The extremely huge spiritual energy cut off the river water and slashed towards Li Yueming. Li Yueming did not hold back. In a few flashes, he appeared beside the old man and smashed his fist down.

Although Li Yueming was very fast, the old man's finger blade still hit Li Yueming's back.

In an instant, the flesh on Li Yueming's back rolled up, and hot blood dripped down.

Of course, the old man did not retreat unscathed.

Li Yueming's punch hit him in the chest, sending him straight into the Luo River, smashing a huge hole in the water. The surrounding water flowed backward. At this moment, his individual power was ten times more terrifying than the turbulent waves in the vast ocean!

No one had expected that the battle between the two sides would be so fierce and radical.

In just a flash, he had already begun to fight to the death.

All of them held their breaths at the same time.

After being thrown into the water, the old man narrowed his eyes and quickly appeared on the river surface again.

Looking at Li Yueming who was standing not far away, he laughed and said, "' It's great to be young. You have exuberant vitality and endless potential to exploit. Poor old man. I've lived happily for eight thousand years. I thought that I could still struggle at death's door in the dark corner for a while, but I didn't expect that I would have to fight against a little monster like you in person at the end. I'm really unlucky!"

His voice was very hoarse, and when he mentioned 8,000 years old, it was as if he was just saying an insignificant number.

Li Yueming didn't say anything.

At this moment, his entire body was burning hot.

The wound on his back was healing at a speed visible to the naked eye.

This was the powerful self-healing ability brought about by the perfect genetic body.

Li Yueming had rarely used his unlimited genetic body in recent years.

Because he was afraid that before he could end the monsters in this world, he would become the next monster.

However, at this moment, it would be underestimating him if he didn't use this brilliant gold talent.

The old man obviously sensed the abnormality. His dark eyes glanced at the wound on Li Yueming's back, and his expression was obviously a little shocked.

However, an old monster like him, who was so old that even his eyelashes were empty, had long been used to all kinds of strange scenes.

Therefore, when he noticed that the wounds on Li Ming's body were healing rapidly, he didn't show much reaction.

The battle continued.

The two of them fought from the surface of the river to the bottom of the river, even diverting the entire Luo River.

In the end, they fought from the bottom of the river to the sky.

The endless clouds and mist were dispersed, revealing the sun that stood tall behind the clouds and mist.

This battle was too difficult to understand for all the living beings under their feet.

When the clouds dispersed and the sun appeared.

No one who witnessed the battle felt any warmth.

The sunlight that fell on their bodies was still unable to dispel the coldness in the depths of their souls.

In terms of overall strength, the old man was clearly stronger than Li Yueming. However, Li Yueming was still young, and he also had the abnormal talent of unlimited genetic body.

Li Yueming quickly gained the upper hand.

From the beginning, it turned into Li Yueming suppressing the old man.

However, the old man remained as calm as ever, as if he did not care about this at all.

Until the clouds dispersed and the sun shone down.

Only then did the old man break free from Li Yueming's entanglement. He stood alone under the sun and closed his eyes. After a moment, he suddenly laughed maniacally, "It's been a long time since I've felt the sunlight. Since I can't continue to struggle at death's door, then let me properly thank you for the relief you've brought!"

Li Yueming stopped and looked at the old man not far away. He still did not say a word.

The old man obviously didn't want to waste his breath on Li Yueming.

His wrinkled and aged body was suddenly injected with a strange life force.

Under the surge of this strange life force, the wrinkles on the old man's body were rapidly fading away.

In just a few breaths, he had transformed from an old man to a spirited middle-aged man. His originally yellow and white hair had also regained the luster of life, turning black and shiny again.

As the boiling life force continued to flow, a pair of strange wings grew out of the old man's shoulders, and other parts of his body also changed slightly.

At the same time, a shadow similar to Ji Ni appeared.

However, compared to Ji's blurry and chaotic shadow, the shadow behind the old man was clearer and larger, like a prehistoric monster.

He could feel the abundant vitality in his body.

The old man, who had changed into a middle-aged man, slowly opened his eyes and looked at Li Yueming, who was calm and unperturbed. He slowly smiled and said, "How is it? Was there a need to continue this battle?"

Chapter 637: Today, God's Punishment!

Everything that happened in the sky could not be said to be very fast, but it could not be said to be very long either.

From a wrinkled old man to an energetic middle-aged man, it only took him a dozen breaths of time.

The old man, who had recovered to his peak state, looked down at Li Yueming under his feet. His pair of scarlet eyes were filled with bloodlust and madness.

Li Yueming remained silent.

However, there were already cries of surprise from the direction of the Great Zhou's sixth defense line under his feet.

A few of the princes with higher cultivation and good eyesight did not have any manners at all. They almost fell to the ground and looked at the middle-aged man in the sky. They said in disbelief, "This... This... Could this be the 13th Dragon Emperor of the Great Zhou Dynasty?"

When he heard the words 'Thirteen Dragon Emperors'.

The others might not have felt anything, but the expressions of a group of great dukedom kings with long inheritances changed drastically.

All of them stared at the man in the sky as if they had seen a ghost.

He still remembered that six thousand years ago, because they were dissatisfied with the emperor's repeated cuts, the six feudal lords joined forces to rebel and sent millions of troops to attack Haojing.

This matter caused a huge commotion in that era.

Even the entire Great Zhou fell into an endless turmoil. Things developed to the end, and just as everyone thought that it would be out of control.

Someone made a move.

The six great feudal lords were suddenly wiped out overnight.

Blood dyed every inch of the ground red.

It caused an uproar in the entire nine provinces of China.

One had to know that these were six dukedom kings, and each of them had been enfeoffed since the Tiandu Dynasty and had great autonomy.

The army was so powerful and the force was so powerful that even the emperor of the Zhou Dynasty could not fight them head-on.

Who could uproot them in such a short period of time?

At that time, the mainstream public opinion suspected that this matter was the rebellion of the 13th ancestor of the Great Zhou Dynasty, the peerless talent of the Great Zhou Dragon Emperor, Ji Tian.

After all, back in the most prosperous era of the Great Zhou Dynasty, Dragon Emperor Ji Tian was not only the most powerful Emperor of the Great Zhou Dynasty in thousands of years, but he had also always been an insurmountable hurdle in the cultivation world.

Although the outside world had rumors that he had already fallen, most of the top experts believed that he had not reached the end of his life and had only retired behind the scenes.

Only he had the ability to turn the tide at that time.

And now, seeing the person depicted in the portrait of the Great Zhou Dragon Emperor that had been passed down for generations in the various large families appear in reality again, it was no wonder that the group of dukes and kings would lose their composure.

It might not be accurate to say that he lost his composure.

It should be said that he was so scared that he almost peed.

The Great Zhou Dragon Emperor!

Not only was he talented in Qi cultivation, but he was also extremely ruthless and decisive.

In the days when he became the Great Zhou's Emperor, the Great Zhou's national strength had reached a certain level. It had launched war after war against the Great Qian Dynasty, successfully damaging the originally prosperous Great Qian Dynasty.

It could be said that the war 5,000 years ago and the destruction of the Great Qian Dynasty had already been foreshadowed when the Dragon Emperor of the Great Zhou Dynasty was in power.

If there was a ranking for the emperors in the history of the Great Zhou, Ji Tian would definitely be ranked in the top three, second only to the ancestor of the Great Zhou, the Martial Monarch Ji Wu, and the Emperor Wen of the Great Zhou, Ji Fengyue.

Even if the threshold was raised a little higher, Dragon Emperor Ji Tian would definitely be ranked in the top ten in the entire Great Zhou Imperial Family's circle where geniuses frequently appeared!

Such a figure that should only exist in history had suddenly appeared on the battlefield and fought with a mysterious young expert. This was an incomparably huge mental shock to everyone who witnessed everything.

"I've seen the portrait. Although the figure in the sky is a little strange, it really looks like the Dragon Emperor!"

"It's been nearly eight thousand years, right? The Dragon Emperor hadn't died yet. Could it be that he had broken through Nirvana and ascended?"

"Ascension shouldn't be in this world, right? Moreover, if the Dragon King could ascend, the Great Zhou would have long unified the world.. ' "

“So what is the current situation? How can a Nirvana expert live for so many years?”

“I don’t know. Logically speaking, the lifespan of a Nirvana expert should be around two to three thousand years. Even if there is some secret technique that can extend one’s lifespan, it should not exceed four thousand years...”

“But the Dragon King is already over 8,000 years old, right? How could he still appear in this world?”

When the name Dragon King was mentioned, the most shocked people were not the soldiers of Northern Ice River Town and the Star Moon Army. Instead, the higher-ups of the Great Zhou Dynasty were all boiling with disbelief.

After all, information about Dragon Emperor Ji Tian was only recorded among the core higher-ups of the Great Zhou and the Six Nations.

It was impossible for a rising star like the Star-Moon Army of Northern Ice River Town to know the secret information from thousands of years ago.

Of course, Li Ruxing, Li Ruyue, Ding Yi, and the other Star Moon Troops had definitely heard of this name. It was also because they had heard of the Dragon King’s reputation and achievements that they were all looking at the sky battlefield with worry.

In the sky, the confrontation between the two sides continued.

Beneath his feet, the people who finally accepted the news that Dragon King was still alive finally came back to their senses.

When they looked at the mysterious figure standing opposite the Dragon King, all the high-ranking officials of the Great Zhou Dynasty were puzzled..

Chapter 638: Today, God’s Punishment!

“The Dragon Emperor seemed to have broken through to the Nirvana Realm more than 7,000 years ago, right? Who was this mysterious person who could fight with the Dragon Emperor?”

“Not only that, the Dragon Emperor seemed to have been suppressed previously and was actually not his match. This person can’t be a nameless person!”

“Could it be an old monster sent by Great Qin or Great Ming? Otherwise, I can’t imagine anyone in this world who can be an enemy of the Dragon King!”

“But right now, we’re fighting against the Starmoon Army. Great Ming and Great Qin are hiding behind us and watching the show. How can they send experts to provoke our Great Zhou at this time?”

The group of people below discussed.

However, it was still too difficult for them to identify a person with just a thin figure.

At the scene, it was estimated that only King Yu vaguely knew who the two parties fighting in the sky were.

He stood tall in the sky.

The aura emitted by the two of them was enough to suffocate an army of millions.

Looking at Ji Tian, who had recovered to his peak, the aura emitted by him was basically the same as the aura emitted by Ji Ni.

Even the black shadow behind him was no different.

However, this technique that Ji Tian used was much stronger than Ji Ni's.

One could imagine that this was a secret technique with a huge side effect. Li Yueming didn't believe that Ji Ni and Ji Tian could ignore the ravages of thousands of years and revive an old man.

The reason why they were able to use it now was because they had been able to use it.

The only explanation Li Yueming could think of was that this was taught to them by the existence hidden behind them.

Of course, no matter what method Ji Tian used to regain his peak combat strength, he would not be able to do so.

It was no longer important to Li Yueming.

After stretching his body, Ji Tian suddenly swooped down from the sky.

It was also a close combat.

However, after turning into a monster, not only did Ji Tian return to his peak state, but the strength of his body had also undergone a huge change. Under the same premise of not relying on spiritual energy, he was actually able to fight back and forth with Li Yueming!

One had to know that Li Yueming had a strong physical body and had developed several powerful human body treasures. These two points had always been the reason why Li Yueming could fight above his level.

It was precisely because of these two points that he was able to repeatedly defeat opponents stronger than him.

But now, one of his trump cards, his powerful physical body, had been dispelled. The danger involved could be imagined!

They exchanged less than ten moves.

Li Yueming was slapped down by Ji Tian's palm, and his body crashed heavily onto the water surface.

“Boom!”

Whoosh! Whoosh! Whoosh!

Waves that were hundreds of meters tall rolled up, blocking the vision of all the spectators present.

The owners of the millions of pairs of eyes on the battlefield all held their breaths.

On the Great Zhou's defense line, King Yu, who had witnessed everything,

The surrounding dukedom kings, who were also staring intently, were all shocked. "Is this the true strength of the Dragon Emperor? After so many years, the Dragon Emperor was still so powerful!"

On the other side of the battlefield.

The Starmoon Troop couldn't help but exclaim in shock when they saw this.

Although many soldiers did not understand who was fighting against the Dragon Emperor for them in the air, they were still confused.

However, it did not hinder their natural yearning and closeness to that figure.

This was something that was engraved in the soul of the army.

Even if the people who formed this unit were dead, the military spirit was still there. The faint military spirit could sense whether the other party was an enemy or a friend.

Ding Yi, Huang Li 'er, and the others, who knew everything, felt even more worried.

After the monstrous waves subsided.

Everyone widened their eyes, trying to find the figure that had been blasted into the water.

However, after a few breaths, that thin figure did not appear again.

This made all the members of the Star Moon Army feel a heavy pressure.

Li Ruyue, who was originally in charge of logistics dispatch on the battlefield, was even more tearful. If someone hadn't stopped her, she would have rushed out by now.

Under the water.

Li Yueming felt a sweetness in his throat and coughed a few times. The functions in his body continued to operate, so he did not cough up blood.

But even so, this palm still made Li Yueming feel the difference between the major realms.

The biggest difference between heavenly tribulation and nirvana was one's understanding of the laws of heaven and earth.

If the greatest difference between a Qi Refiner in the Heavenly Tribulation Realm and a Qi Refiner in the Divine Aperture Realm was the control of an incomparably large amount of spiritual energy, then the greatest difference between a Qi Refiner in the Nirvana Realm and a Qi Refiner in the Heavenly Tribulation Realm was the ability to comprehend and control a certain law of heaven and earth.

By using the laws of heaven and earth that they had comprehended, Nirvana Stage experts could not only gather the spiritual energy in their bodies as they wished, but they could also draw any spiritual energy in the world as they wished.

Moreover, it could also interweave laws to form a spiritual energy structure with extremely destructive power, causing a dimensional reduction attack on low-level Qi Refiners.

The gap between them did not sound like much, but in fact, it was a huge gap that was difficult to cross.

To put it bluntly, it could even be considered the difference between immortals and mortals.

After stepping into the Heavenly Tribulation, he could barely be considered half a step away from becoming an immortal in the eyes of the world.

However, only by stepping into Nirvana could one truly be called invincible in the world and form their own sect..

Chapter 639: Today, God's Punishment!

Now, Ji Tian had not only recovered to the peak state of the Nirvana realm.

Furthermore, he had received a powerful secret technique from a strange source. His combat strength was even on the verge of ascending.

If it wasn't for Li Yueming's extremely strong physical fitness...

Furthermore, the treasures of the human body were thoroughly exploited.

Now, this palm strike was not as simple as making him cough a few times.

He would probably have been smashed into a pile of meat paste long ago. He couldn't be any more dead.

Seeing that Li Yueming was still alive, the red light in Ji Ni's eyes became even more intense. He looked at Li Yueming as if he was looking at a rare treasure. He licked his lips and said, "Your body is actually so strong? No wonder you dared to reject my suggestion!"

"It has been a long time since I have seen a young man with such a clear-cut stand like you. If I can send your corpse to be used as a breeding ground for them to hatch, I might be able to live for another one to two thousand years..."

"As expected, there's no way out at the end of the road!"

"Interesting, really interesting!"

Li Yueming stumbled up from the water and snorted coldly. He wiped the blood from the corner of his mouth and said coldly, "Old monster, is he still exposed?"

Ji Mi did not say anything, but the look in his eyes gradually turned cold.

Previously, when he was old and lifeless, he rarely had too many emotional fluctuations.

However, now that he had received the enhancement of the secret technique and his vitality had become more vigorous, Ji Tian's emotional fluctuations had also become extremely intense.

Staring at Li Yueming with his cold eyes, Ji Tian said, "Since you already know the truth of this world, why do you still dare to provoke me?"

Li Yueming also licked his lips and revealed a bloodthirsty look. "Do you think you're the only one who can forcefully increase your combat strength by turning into a monster? You're wrong. I can do the same!"

"Because...I'm a monster too!"

After he finished speaking.

Li Yueming's body also began to change.

Bone spikes grew out of his body, and more and more red scales appeared on his body.

In just a few breaths, Li Yueming's body structure had completely changed.

At this moment, there was almost no weakness in his entire body, because his body was purely born for battle!

Not far away, Ji Tian witnessed everything.

He had lived for more than eight thousand years.

Regardless of age or strength, Ji Ni, who had died in Li Yueming's hands, could only be considered a junior who had not even grown his hair.

But even so.

With his long life experience.

He had never seen such a monstrous existence like Li Yueming!

If Li Yueming, who was standing in front of him previously, could still feel that he was a 'human'.

So now, in his perception, Li Yueming had gradually distanced himself from the human race.

Rather than calling it a monster, it would be better to call it a simple predator. A predator that was even more terrifying than the wolves, tigers, and leopards in nature!

He didn't have any extra aura.

He did not make any unnecessary movements.

Every organ and every scale on his body was purely for battle!

This gave Ji Tian an extremely bad feeling.

One had to know that he could be considered a monster among monsters now.

Not only had his realm reached the limit that could be reached under normal circumstances, but he also had the authority bestowed by God as the source of life to support his battle.

But even so.

However, Li Yueming seemed to be standing at the top of his food chain and became his natural predator, giving him a strong sense of threat.

Before Ji Tian could get used to this strange feeling.

Not far away, Li Yueming had already moved.

At this moment, he was as fast as a beam of light.

It disappeared a second ago and immediately appeared in the next second. The palm that had evolved from a finger to a sharp bone claw pounced over with traces of afterimages.

Ji Tian felt a strong sense of danger and took a few steps back to dodge the attack.

It had to be said that Ji Tian's reaction speed was also extremely fast.

In just an instant, he had already taken a few steps back and escaped Li Yueming's attack range.

However, Li Yueming turned a blind eye to it.

Five sharp bone spikes shot out from his fingers.

Ji Tian, who was still retreating, suddenly trembled.

In the next second, a few drops of red and black blood slowly dripped from his cheeks.

Ji Tian staggered back a few thousand meters before he finally broke free from Li Yueming's pursuit.

He subconsciously touched the wound on his face.

Ji Tian's face was filled with disbelief.

How was this possible?

With the power that he had just unleashed, how could anyone in this world be able to hurt him if those extremely terrifying old monsters did not attack with their full strength?

But regardless of whether he believed it or not, the bloody truth was right in front of him.

He was injured.

Although his injuries were not serious, it still made him feel incredulous, so much so that even his mind fluctuated violently in an instant.

He opened his mouth and subconsciously wanted to say something.

However, before he could say anything, Li Yueming's attack arrived again.

This time, Li Yueming not only used the treasures of the human body and his powerful body, but also mobilized a terrifying amount of spiritual energy!

Li Yueming's appearance had not only evolved to the most suitable state for combat.

The meridians and internal organs in his body had also been more or less slightly adjusted. All of them were targeted evolutions in order to maximize the efficiency of the circulation of spiritual energy..

Chapter 640: Today, God's Punishment!

In this form, although Li Yueming still could not achieve the level of spiritual energy explosion in the Nirvana Realm, he could also obtain extremely terrifying spiritual energy mobilization efficiency.

In other words, the gap between Li Yueming and Ji Tian in terms of Qi Practitioner was closed by a large margin due to the super evolution of the Perfect Genetic Body.

He could feel the efficiency and scale of Li Yueming's spiritual energy mobilization.

The look on Ji Tian's face became even more shocked. He was able to return to his peak and even reach a combat strength that was even stronger than when he was at his peak because of the divine gift.

However, Li Yueming was not a believer chosen by the gods, so how did he become so terrifying?

Could there be an existence in this world that was more omniscient and omnipotent than the god he believed in?

It was only for a moment.

Many thoughts flashed through Ji Tian's mind.

These chaotic thoughts were the last glimmer of his humanity, and also one of the biggest reasons why he was bound to lose.

Li Yueming stuck close to him again.

In just a few breaths, the two of them had exchanged thousands of blows in midair.

In the beginning, Ji Tian was still able to keep up with Li Yueming's attacks. However, as time passed, Ji Tian slowly lost his ability to keep up.

Hundreds of shallow and deep wounds appeared on his body, and black blood kept dripping from the wounds.

Ji Ni's insufferably arrogant aura began to gradually wither, and her powerful body, which had already been filled with vitality, also rapidly declined.

After a while.

Li Yueming finally stopped attacking.

He panted heavily.

Li Yueming's body also had many hideous wounds, but most of them had already healed.

Even though his body was already nearing its limit, Li Yueming's gaze was still fixed on Ji Tian, in case this old monster who had lived for more than 8,000 years still had some trump cards that he hadn't taken out.

Ji Tian was still bleeding.

At this moment, it had once again returned to its original old appearance.

Moreover, compared to the previous state where he was still conscious despite his old age, Ji Tian was now in a daze and his face was extremely pale. It was obvious that he was on the verge of death.

The Infinite Genetic Body tried to control Li Yueming from the genetic level to immediately kill the old monster in front of him.

After all, in the biological sense, being alive meant danger.

Only by completely killing them would it be considered safe.

However, with his own will, Li Yueming still forcefully resisted the urge to kill.

Li Yueming barely managed to unlock the battle mode of his unlimited genetic body. Looking at Ji Tian who was not far away, Li Yueming asked, “Do you have anything to tell me?”

Ji Tian looked at the sky and laughed miserably. He spat out a mouthful of blood and do you think I can tell you?”

Li Yueming didn't answer him. He just stared at him for a long time.

Ji Tian coughed out another mouthful of blood and waved his hand weakly. know what you want me to tell you, but I really can't tell you...I can only tell you, young man, this path will not work, will not work...”

Ji Yueming still didn't sav anything and just stared at him

Ji Tian was silent for a moment before he suddenly smiled and said, “You won't turn back until you hit the south wall, right? Alright, then I'll tell you what I can say.”

“There are two existences like me in the Great Zhou and ten in the other countries. As for who they are, they are just some lonely ghosts. Their names are not important...”

“They're still in a deep slumber. They should wake up soon after I die!”

“Young man, this is only the mortal enemies that you need to face. There are also enemies in the heavens...”

Ji Tian's eyes suddenly widened when he mentioned the Heavenly Enemy.

He looked as if he had seen a ghost.

In the next second, Ji Tian, who was about to lose all his blood, suddenly swelled up like a rubber ball. Black and stinky blood flowed out of his seven orifices.

When his skin swelled to the limit.

Ji Tian's entire body exploded with a crackling sound.

It turned into a pitch-black blood rain that filled the sky.

Li Yueming, who was standing beside him, witnessed everything. At this moment, he couldn't help but feel a chill run down his spine.

He didn't know why Ji Tian would suddenly explode.

However, he had clearly sensed an extremely cold aura just now!

Even Li Yueming, who was still maintaining a perfect genetic body, couldn't help but shiver in front of this aura! Fortunately, this aura came and left quickly.

In just a breath.

Sunlight shone down from the sky once again, and the blood rain that filled the sky also turned into specks of red and disappeared.

It was as if Ji Tian's appearance just now was just an illusion.

Li Yueming stood alone in the air, feeling the warmth of the sun shining on his body, but his heart was only cold.

On the battlefield.

Millions of soldiers had witnessed the entire battle.

The vast majority of the soldiers were unable to see or understand the battle situation in the sky due to their low realms.

But even if they couldn't understand the process, they could still understand it.

When he realized that the sun was shining down, only that thin figure was left in the sky...

The entire battlefield instantly fell silent!
