Chapter 641: One Man Suppressing a Million Army! 1

Sunlight shone on the battlefield.

Threads of golden light smoothed out the ripples of the Luo River. Looking at the thin figure standing in the sky, the millions of people present were stunned.

How was this possible?

The legendary thirteen Dragon Emperors of the Great Zhou Dynasty had lived for 8,000 years.

He actually...Defeated?

Moreover, he was defeated by a young junior whose identity and name were unknown to them?

One question after another suddenly appeared in everyone's minds. Countless people were shocked to the point of panic.

Especially the princes of the Great Zhou who had witnessed the entire process. They could not believe their eyes.

Of course, the ones who lost their composure the most were not the princes, but Prince Yu, who had personally participated in part of the plan.

At this moment, King Yu's eyes were lifeless as he muttered to himself, "Dragon Emperor...He actually lost to that young junior of the Li family?! It was impossible...This is absolutely impossible!"

As the younger brother of the Emperor, Prince Yu knew more than anyone else.

Some of the less important plans were even personally participated in by him.

Therefore, he not only knew the identity of Dragon King, but also the identity of Li Yueming, who was his enemy.

Even so, when he heard that the mastermind behind the Fire Sect was Li

Yueming...

Prince Yu doubted life even more than the emperor.

After all, the emperor and Li Yueming had only met a few times, but he had truly interacted with Li Yueming before.

Back then, Prince Yu and the Li family were not on good terms. When Prince Yu's son and Li Yueming were in the Cultivation College, they had some conflicts. At that time, Li Yueming was only a teenager. To him, he was only a worm. It was only because Li Yueming was a son of the Li family that he was qualified to sit at the table.

However, it had only been a few years.

At most, it would only be sixty years.

The young man who was once of the same generation as his son had still grown to such an extent.

He could actually stir up the entire Great Zhou with his own strength.

And now.

Seeing Li Yueming kill Ji Tian with his own eyes, Prince Yu's emotions collapsed even more.

This was a young man who was once of the same generation as his youngest son!

Now, his youngest son had just broken through to the True Form Realm and could already be considered a talented junior. However, this unreasonable young man could already defeat the Great Zhou ancestor at the Nirvana Realm at the same age.

Was there any justice left?

Was there any law?

Li Yueming slowly looked at the battle line under his feet.

Prince Yu's heart turned cold.

Now, he didn't even know if he should pray for another ancestor like the Dragon King to step on Li Yueming's prestige.

He looked at the Great Zhou soldiers who were like ants under his feet.

Li Yueming's face was expressionless as he said indifferently, ""Those who don't want to die, put down your weapons and surrender!"

She heard his voice.

Everyone who had been in a daze woke up.

On the Great Zhou's sixth defense line, the soldiers looked around and then looked at Li Yueming in the sky. Their faces were filled with confusion.

Although they knew that Li Yueming was a powerful Qi Practitioner, they could not understand how powerful Li Yueming was.

When they heard that Li Yueming dared to force them to surrender, they thought that Li Yueming had gone crazy. The soldiers were at a loss.

However, they didn't understand, but the higher-ups of the Zhou Dynasty understood.

The soldiers on the battlefield were still at a loss.

The vassal kings, who were the pillars of the Great Zhou Dynasty, hurriedly peed their pants and opened the city gates of the sixth defense line.

They were afraid that Li Yueming would come down and kill them all.

He looked at the door of the defense line that had opened from the inside.

At this moment, everyone felt a sense of absurdity.

The soldiers of the Starmoon Troop were dumbfounded.

One had to know that this was the sturdy defense line that had blocked their millions of troops for dozens of days!

But now, it had been conquered by a person with a light sentence.

One person could subdue an army of ten thousand!

How terrifying was this?

How could they not be shocked?

In the Star Moon Troop, Li Ruxing, who was sitting on the command platform, was trembling. He resisted the urge to go up and talk to Li Yueming and ordered, "Everyone, listen up. Send the front troops across the river to receive the surrendered soldiers. The left and right troops will be responsible for covering them. If they encounter resistance, they can be killed immediately!" The order was quickly passed down.

The Star Moon Troop began to organize their troops to cross the river again.

However, this time, they were not attacked by thousands of arrows and cannons like before.

"Great General Li is invincible!" a group of veterans shouted excitedly. Their voices were not obvious at first.

However, as the army that was crossing the river slowly gathered.

More and more people heard their roars.

Great General Li?

Was he talking about General Li Ruxing?

That's not right. The Star Moon Army did not address General Li Ruxing with the word 'big'.

Could it be...General Li Yueming?

At the thought of this, the Star Moon Army, who seemed to have just woken up from a dream, could not help but stop. They looked up at the sky again, trying to match the thin figure with the Great General Li Yueming in their hearts.

After a while.

The Star Moon Army suddenly erupted into a huge cheer, "Great General Li Yueming has lived for thousands of years.."

Chapter 642: One Man Suppressing a Million Army!_2

Currently, most of the young people who formed the Star Moon Troop's main force were the third generation.

Only a small number of second-generation soldiers had not retired.

The third generation of Star Moon Army soldiers had no impression of Li Yueming at all.

However, the second generation of soldiers grew up under Li Yueming's care!

Therefore, their admiration for Li Yueming was even stronger than that of the first generation members of the Star Moon Army!

At this moment, they were the ones who cheered the loudest and looked the most excited.

No wonder this mysterious expert would appear on the river at such a critical moment to confront the Great Zhou experts.

It was no wonder that the first reaction of this mysterious expert after suppressing the Great Zhou was to make the Great Zhou surrender.

No wonder... No wonder!

If this was Li Yueming, then everything made sense!

However, they never expected that after so many years, the soldiers of the Star Moon Army would meet their founder again in such a way!

When they heard the name 'Li Yueming,' the entire Starmoon Troop's millions of soldiers were in an uproar.

The cheers grew louder and louder.

Its momentum was ten times or a hundred times greater than the previous Luo River tide!

In stark contrast, the higher-ups of the Great Zhou Dynasty were naturally in disbelief when they heard the words 'Li Yueming.'

Didn't Li Yueming die decades ago?

Why did it appear again now?

Moreover, he was not even a hundred years old yet, right?

He was already so powerful that he had killed the world-famous 13 Dragon Emperors head-on.

It was simply inconceivable and unbelievable.

Such a monstrous talent had already revealed an inhuman appearance.

If he was given another hundred years, wouldn't he have a chance to become the second Human Emperor of the Tiandu Clan, unify the world, and ascend?

Thinking of this...

The group of dukes couldn't help but feel glad that they hadn't chosen to continue resisting.

Otherwise, in front of such a prodigy, he probably wouldn't even know how to die.

They heard the cheers from the Star Moon Army that spread for dozens of miles.

He looked at the young faces of the new blood.

Li Yueming's tense heart relaxed a little.

The reason why he had been racing against time and did not dare to stop at all, other than completing his mission, was not his greatest motivation to let this group of people who followed behind him survive better in this world?

Now, all his efforts were not in vain.

However, seeing that everything was developing in a good direction, he did not show much joy.

After all, the higher one stood, the more painful it would be to fall. He had only solved the problem at hand and was far from being able to rest easy.

At this moment, he was still thinking about the information that Ji Tian had revealed before he died.

As the saying goes, when a man is about to die, his words are kind.

The words of an old monster like Ji Tian couldn't be completely believed, but they couldn't be completely untrusted either.

According to Ji Tian.

There were two existences like him in the Great Zhou alone.

The other five nations had ten more.

In other words, there should be two of each.

However, under normal circumstances, this group of people seemed to be in a deep sleep.

This made sense.

After all, the Nirvana Realm had yet to ascend, and his lifespan was very limited.

To live for thousands of years.

Naturally, he would have to pay a price.

He could only sleep all year round and maintain his body relatively still.

Only by using some heaven-defying secret techniques could he possibly extend his life.

Now that Ji Tian was dead, the world order inevitably became chaotic under Li Yueming's influence.

That was why.

Ji Tiancai said that after he died, the group of old monsters who were in deep sleep would wake up one after another!

Of course, if it was just this, it was not enough to make Li Yueming so concerned.

After all, in his opinion, as long as it was a power that could be touched by this world, with his current strength, he had the courage to face it.

So what if all the experts of the Six Nations attacked him?

As long as he was given a little time to grow, he was completely confident that he could kill them all.

What really made him feel threatened was the words 'enemy in the sky' that Ji Tian had said before he died. After Ji Tian's strange explosion, the strange and cold feeling pervaded his body.

– as if something had glanced at him through the infinite reaches of time and space.

There was no fluctuation, but the killing intent was strong.

This was the real source of the pressure on Li Yueming.

Just as Li Yueming was still thinking.

The Reincarnation Mark, which had not moved for a long time, suddenly felt a burning pain.

The piercing pain pulled Li Yueming back from his thoughts.

He opened the interface and saw red messages appearing in front of him.

[Detected that you have triggered the ultimate hidden mission. The dungeon you are in will be forcefully leveled up!]

[Leveling up...]

[Level upgrade successful!]

[The public reincarnation dungeon has been upgraded from level 5 to level 9!]

[Level 9 dungeon Reincarnation Mark cannot be automatically removed. It may cause the reincarnator to die. Reincarnator, please pay attention to your personal safety!]

[Beep beep beep, you have received a new email!]

[The mail is being forcibly opened...] [The email has been successfully expanded. The details are as follows:] “Our ‘trial has officially begun!]

[I believe that you have already touched some of the ‘truth’ that belongs to reincarnators.. Destined youth, don’t forget the courage and love in your

heart!]

Chapter 643: One Man Suppressing a Million Army!_3

[Unite everything that can be united... Live well!]

After reading the information on the Reincarnation Mark panel, Li Yueming fell into a long silence.

According to the information he had, the Zergs were the ones who destroyed

Da Qian.

It wasn’t hard to guess.

This was not the truth hidden under the endless lies.

Instead, it was the so-called ‘Human Emperor of the Tian Clan defeating the Zerg’. In fact, it should be ‘the Zerg Clan defeating Human Emperor of the Tiandu CIClan’.

This could be seen from the Su Clan in the Hundred Thousand Mountains.

The so-called battlefield where the Zergs were defeated did not have any traces of the Zergs.

The creatures that lived in the deepest part of the forest were not Zergs or wild beasts, but a group of humans.

Moreover, they were the surviving descendants of the ancient Great Gan Dynasty. They had been worshipping the gods in the God Burial Ground for generations.

Even the overall shape of the Hundred Thousand Mountains was more like a humanoid creature than a strange inhuman monster.

Ever since the Tiandu Clan’s era, the Six Nations had been diligently destroying ancient books.

The reason why they spent so much effort to hide the truth was that this world was not ruled by humans, but had long become the nest of the Zergs.

Of course, this didn't surprise Li Yueming.

After all, the cultivation and rearing of the Insect race were not new.

What surprised Li Yueming the most was actually the combat power of the Human Emperor of the Tiandu Clan.

From the records in the ancient books and the information that Li Yueming had pieced together.

The Renhuang of the Tiandu Clan, who had founded the Tiandu Dynasty, only had the power above Nirvana.

In other words, they should be the so-called ascended experts.

His combat power was not beyond Li Yueming's understanding.

However, in reality, in Li Yueming's knowledge, be it the power that destroyed Da Qian or the power of the existence in the God Burial Ground, they should be hundreds of times stronger than him.

Then, the problem came.

What secret was the Human Sovereign Tiandu Clan hiding that could restore everything to the right track?

He didn't remember that the Zergs had the habit of rearing humans as parasites.

The only explanation was that there was a deeper secret behind this matter that Li Yueming could not understand.

This was probably the reason for the various abnormalities in the Reincarnation Mark, right?

At the same time.

All the reincarnators in the public reincarnation dungeon also received this message.

They could not help but be scared out of their wits.

A level 5 reincarnation world was already considered relatively dangerous among the reincarnators.

But now, it had suddenly risen to Level 9...

Even if all the reincarnators in the entire main world were to be brought over.

Probably no one had experienced such a high-level reincarnation instance dungeon!

One had to know that the higher the level of the reincarnation world, the more dangerous it would be.

Between level 5 and level 6, between level 6 and level 7, there was a huge gap between each level in the world.

The difference between the higher level 8 and level 9 was even greater.

Looking at it directly.

The higher the level of the reincarnation world, the stronger the local aborigines were, and the higher the probability of accidents happening.

And what did the world level increase mean?

Since when could the reincarnation world level up continuously in a short period of time?

A Level 5 reincarnator suddenly entered a Level 9 reincarnation world...

Wasn't this luring people in to kill them?

The group of reincarnators who were originally fearless could not help but panic at this moment.

Chapter 644: The Fall of the Ten Thousand Year Dynasty!_1

The sudden rise in the world level caused all the reincarnators in the public reincarnation dungeon to panic.

One had to know that those who could enter the level 5 public reincarnation dungeon were already considered experienced veterans among the reincarnators.

Even so, they were still at a loss.

Fortunately, there was no time for them to think too much.

As the vassal kings of the Great Zhou on the sixth line of defense surrendered first, the road from the northwest to Haojing was finally completely opened by the Star Moon Army. The world situation that had been stable for decades became turbulent again.

As ambitious reincarnators, it was naturally impossible for them to be alone.

Li Yueming, the founder of Northern Ice River Town, who had disappeared for decades, appeared again. He was fighting against the Great Zhou Dragon

Emperor, Ji Tian, who had dominated the world for more than 7,000 years.

When this news spread to the outside world, the shock it caused was no less than a volcanic eruption.

From the Great Zhou officials' statements and the various signs that had been revealed over the years, shouldn't Li Yueming have died long ago?

Why did he suddenly appear above Luoshui again?

For some small families with shallow inheritances, the name Ji Tian might be a little unfamiliar.

However, as a citizen of the Great Zhou, he had heard of the word 'Great Zhou Dragon Emperor'.

After all, the other party was one of the invincible Ultimate Holy Kings of the Great Zhou seven or eight thousand years ago.

Not only did the Dragon King have an extremely powerful talent in refining Qi, but he was also extremely intelligent. He was also very talented in military affairs and politics. He once led the Great Zhou Dynasty to expand its territory. Today, many lands were left behind from his era.

Until now, he was still benefiting future generations.

In the era he lived in, the Great Zhou was undoubtedly the strongest among the six dynasties, be it in terms of the Dragon Emperor's strength or the Great Zhou's national strength.

It could be said that the Great Zhou Dragon Emperor was a legend that still existed in the memories of many people in the Zhou Dynasty.

The question was, when was the era when the Dragon Emperor of the Great Zhou Dynasty ruled?

If he remembered correctly, at least six or seven thousand years had passed, right?

Under normal circumstances, such a long period of time was long enough for a beauty to die. No matter how shocking a legend was, it should have turned into dust without ascending.

But now, the Great Zhou Dragon Emperor had appeared in the world again and confronted the founder of Northern Ice River Town?

More than 7,000 years ago, Dragon Emperor Ji Tian had already reached Nirvana Realm.

Li Yueming was not even 100 years old yet, right?

How could a Qi Refiner who was less than a hundred years old be compared to an existence from seven thousand years ago?

Due to the chaos of the battle, the news within Dazhou could not be transmitted immediately. Moreover, even if the news could be transmitted, it was impossible for it to spread to the outside world.

Therefore, the vast majority of people in the outside world could only get some bits and pieces of information.

There was no way to fully understand the ins and outs of the entire matter.

However, just a few words of information was enough to cause a huge commotion.

Everyone was wondering what had happened on the Great Zhou battlefield that caused such shocking news to spread...

As the war continued to progress, more and more relevant information was spread.

Only after understanding it did everyone feel the true horror.

The Star Moon Army had broken through the five lines of defense set up by the Great Zhou Dynasty and destroyed nearly a million Great Zhou soldiers on the battlefield.

Although many of these numbers were cannon fodder, such an exaggerated number was enough to cause an uproar and panic.

However, this was not the most ridiculous news in this war. The most ridiculous news was the battle between Li Yueming Ming and the Great Zhou Dragon Emperor.

When he received the first-hand news.

Countless people felt their worldview shatter, and their minds were filled with disbelief.

“The Dragon Emperor was defeated? He lost to a junior from Northern Ice River Town?”

“Really? F * ck!”

“That’s right, are you kidding me? The Dragon Emperor was an expert who had broken through the Nirvana Realm thousands of years ago. If he had lived until now, even if his combat strength had decreased slightly, he would not have been defeated by a junior, right?”

“It’s absolutely true. Now that the Star Moon Army has crossed the sixth defense line, it won’t be long before they attack Haojing!”

“It sounds like a dream. Could it be that the Great Zhou will perish in our generation?”

“I thought that the six dynasties would compete with each other after the Tiandu Dynasty disintegrated. I didn’t expect that the first one to stand on the stage would be Northern Ice River Town, a new power that had risen less than a hundred years ago.”

“Li Yueming...How should he put it? It was simply too terrifying! If he can destroy the Great Zhou now, will he be able to destroy our country in the future? The one who would unify the world in the end wouldn’t be Northern Ice River Town, right?”

“Impossible. If the Great Zhou Dynasty is really destroyed, North Glacier Town will probably be surrounded and intercepted by the other five countries immediately. They don’t need to do anything. Just with the number of troops under their banner, the other five countries will be able to flatten the entire North Glacier Town!”

“Hehe, if it was before today, I definitely wouldn’t believe that Northern Ice River Town could unify the world. However, after today, I changed my mind. In my opinion, the other five nations might not be able to destroy Northern Glacier Town and the Star-Moon Army!”

“That’s right. Once the Star Moon Army destroys the Great Zhou and takes the Great Zhou’s territory into its territory, it will really be considered a dynasty that rules over a rich country..”

Chapter 645: The Fall of the Ten Thousand Year Dynasty!_2

“If the other five countries don’t attack in time, and give Northern Glacier Town some time to digest the population and turn it into combat strength, the other countries might not be able to suppress them!”

“Times have changed...Right now, it was up to Northern Ice River Town or the other five countries to decide who was the most efficient. If the five countries could successfully form an alliance within these two years and send out their armies, they might be able to completely annihilate Northern Ice River Town while the old forces were gone and the new forces had yet to be born!” When he heard that the Starmoon Troop had won another great victory in this battle...

The entire world was shocked.

The comments on Li Yueming and North Glacier Town changed again and again.

In this war, the Star Moon Army had almost disintegrated all the troops that the Great Zhou could mobilize.

The princes and their soldiers were the foundation of the Great Zhou’s operation.

Now that they had collapsed, it symbolized that the Great Zhou Dynasty, which had lasted for more than 15,000 years and had experienced ups and downs, had completely reached the end of its life.

The remaining soldiers and officials would more or less put up a symbolic resistance.

However, with the main force defeated, it was impossible for them to resist the general trend. Moreover, in order to deal with the omnipresent Fire Sect, the local officials were already too busy to take care of themselves.

He could not care less about what was happening in the Imperial Court.

This world-renowned battle ended with the victory of the Starmoon Troop.

Even though the Starmoon Troop had paid a heavy price.

However, compared to the huge fruits of victory in this war, this price seemed to be nothing.

Li Yueming had just personally killed the 13 Dragon Emperors of Great Zhou, Ji Tian.

At this moment, its power had almost reached its peak.

He looked at the sixth path that King Yu had built. With just a few words, he had easily subdued a million soldiers.

Once upon a time, the insufferably arrogant princes of the Great Zhou were all frightened out of their wits at this moment.

His troops had yet to react.

They had already joined forces to kidnap Prince Yu, and all of them had lined up to surrender to Northern Ice River Town.

He had no choice.

The higher the status of Dragon Emperor Ji Tian in their hearts, the greater the pressure he brought.

The more terrifying Li Yueming, who had stepped on Ji Tian, became.

Li Yueming was only a hundred years old!

He could be considered a junior among the Qi Practitioners.

Ordinary Qi Practitioners at his age who could cultivate to Spirit Focus or even True Form Realm could be considered a heaven's pride.

Yet, he had gone against the heavens.

His combat strength was comparable to an existence at the peak of the Nirvana realm before he was even a hundred years old.

If he was given a little more time to develop, what would happen?

Therefore, rather than becoming enemies with such a terrifying existence, it was better for the princes to surrender early. Perhaps they might be lucky enough to leave behind some family property.

In fact, that was indeed the case.

After the Great Zhou Army surrendered, the Star Moon Army entered the city in batches and completely controlled the sixth defense line.

The disarmed soldiers were also dealt with appropriately.

Northern Ice River Town and the Star-Moon Army were taking advantage of the Great Zhou Empire on the main battlefield, while the members of the Fire Sect were taking advantage of the Great Zhou Empire on the rear.

The cities and towns in various parts of the Great Zhou Dynasty responded to the call to send troops to reinforce the central hub, causing their military strength to plummet.

The Fire Sect's activities immediately became more than ten times more rampant.

They occupied many cities and stole a lot of food from the local rich and the imperial court's granaries. Then, they used this food to expand their troops and continuously nibble away at the foundation of the Great Zhou.

And now, after a complete victory on the battlefield.

The Fire Sect was responsible for helping the surrendered soldiers find jobs again.

Hence, many people noticed this strange scene.

The soldiers of Northern Ice River Town and the disciples of the Fire Sect hit it off. One side was responsible for escorting the surrendered Great Zhou soldiers, while the other side was responsible for sending these soldiers to various parts of the Great Zhou for re-distribution. This scene stunned many officials of the Great Zhou.

Good heavens.

Was this Great Zhou their Great Zhou or the Fire Sect's Great Zhou?

It was clear that the Great Zhou Dynasty had not yet fallen and had not even given up on resisting. Why were those damned disciples of the Fire Sect already setting up institutions in various places to replace the government?

Was there still justice?

Of course, no matter how angry they were, they were still in a daze.

However, in the end, it was still difficult to protect himself.

He watched as the Star Moon Army, which was fully equipped and ready to go, charged towards Haojing without stopping.

The entire Haojing was panicking.

It had been so many years.

Thinking about it carefully, Haojing, as the core of the Central Plains, had not faced such a large-scale army as it did today for at least ten to twenty thousand years.

Peace and stability, prosperity and prosperity.

This seemed to have become a fixed impression of Haojing. The people and officials in Haojing were well protected.

No one had ever thought that such a pass would be like today, facing the valiant army from the north.

Therefore, from the court to the people, almost everyone was completely panicking.

In the Emperor's Hall.

The emperor's eyes were tightly shut and his skin was black.

Ever since he heard that Ji Tian had died in Li Yueming's hands and that the sixth defense line had fallen, he had become like this. In order not to scare the officials and cause panic, he had not been to court for almost half a month..

Chapter 646: The Fall of the Ten Thousand Year Dynasty!_3

Of course, at this moment.

It didn't matter whether he went to court or not.

He was just looking for more trouble for himself.

He opened his eyes.

The emperor sat on the high dragon throne and looked down at the outline of the city wall outside the hall. He couldn't help but recall that night many years ago.

At that time, the old supervisor of the Imperial Astronomical Bureau was dragging his broken body and telling him that if he could not subdue Li Yueming, he must kill him as soon as possible.

At that time, although he seemed to have listened, he was still extremely proud and full of conceit.

Now that he had fallen to this state, he deserved it.

Thinking of this, the emperor sighed. ””Pathetic, hateful...The foundation that my ancestors had accumulated for thousands of years was lost in the hands of an unfilial descendant like me...”

Year 7890 of the Great Zhou Dynasty.

It was said that ever since the sixth defense line was broken, the emperor had contracted a strange disease.

Seeing that the vanguard of the Star Moon Army was getting closer and closer.

The high-ranking officials of the Great Zhou were at a loss, but they could not see the emperor for a long time.

Under such circumstances, the Dazhou Kingdom could not mobilize much resistance.

But even so.

To conquer the capital of a huge empire was not something that could be done in a day.

After another half a year, the Star Moon Army finally conquered Haojing City.

When the army entered the city, the doors of every household in Gaojing City were tightly shut. Groups of soldiers on the streets, who had no intention of defending the city, raised their hands and surrendered.

During this process.

The other countries, who were originally prepared to wait for the Great Zhou and the Star Moon Army to fight until both sides suffered heavy losses, finally could not help but launch an attack.

It was the closest country to North Glacier Town.

In the northeast, the Great Qi urgently sent many troops from the northeast of the Great Zhou to the north.

They wanted to besiege Northern Ice River Town.

Fortunately, after so many years of operation and development, Northern Glacier Town’s foundation in the north was still quite solid.

Thus, the soldiers of Great Qi did not pose much of a threat.

The other four countries in the other directions also made their own moves. Clearly, they were not willing to let Northern Glacier Town monopolize such a large piece of territory.

At this moment, Li Yueming’s pre-prepared methods were showing results.

The Star-Moon Army did not encounter any large-scale resistance when they occupied Gaojing City.

This was because as the power center of the Great Zhou Dynasty, the vassal kings all over the country had already been uprooted at the sixth defense line, and the power of the Great Zhou Imperial Court itself had been mostly divided by the Fire Transmission Sect.

There was no need to mention the people everywhere.

After joining the Fire Sect, they couldn't wait for the Great Zhou to die as soon as possible!

Therefore, under such circumstances, the Star Moon Army took less than half a year to break down the resistance of the old forces in Haojing City and began to quickly build a new order on the ruins after the war.

Such high efficiency shocked the other five nations.

According to their original estimation, after the Star Moon Army broke through Haojing City, it should have taken three to five years to wipe out the remnants of the old forces.

After all, the Great Zhou Empire was so vast, and there were remnants of forces everywhere. It was normal for the Star Moon Army to have difficulties in the early stages.

It was also because of this that after seeing the Star Moon Troop defeat the sixth defense line, they waited patiently for a while. After confirming that the Great Zhou could no longer pose much of a threat to the Star Moon Troop on the battlefield, they began to take action and prepare to take a share of the spoils.

If they were lucky, they might be able to kill North Glacier Town.

That would be even better for everyone.

However, the Star Moon Army's efficiency was many times faster than they had expected. While they were still gathering their troops, the Star Moon Army had already taken care of the rebellion in the Great Zhou.

He also recruited a large group of young talents from the academy set up in North Ice River Town and began to rush to the distant Haojing City to take up their posts.

At this time, a few countries belatedly realized that Northern Glacier Town seemed to have been prepared for all of this. Even the response plan seemed to have been rehearsed many times in advance.

Damn it, why was the Star Moon Army so full of talented people?

Could it be that the heavens were really not going to favor the five countries and were instead going to favor Northern Glacier Town?

Chapter 647: One Person Suppressing a Country!

In the year 7890 of the Great Zhou Royal Calendar, the first batch of talents was transferred to Northern Ice River Town.

A large number of young talents from the Northwest had all embarked on the journey to the unknown land with the main force.

It was the first time for most of them to leave the desolate land of the northwest, their parents who raised them, and their teachers who educated them.

It was also his first time stepping into the prosperous Central Plains.

He was confused and hopeful, excited and nervous.

How many people could understand his feelings?

When they were in school, their teacher had taught them a principle: 'How can there be thousands of mansions to shelter the poor scholars of the world?' Learning knowledge was not about fame and fortune.

Instead, he wanted to contribute to this devastated world and the poor and numb people.

The ideal of Northern Ice River Town was the ideal of a unified world.

The goal of Northern Glacier Town was something that ordinary people could not understand.

To achieve all of this, one needed thousands of brave warriors who dared to fight against reality for their ideals.

And they had read so many saint books and understood so many principles in the academy's education. There was no doubt that they were the most solid next generation of strength that Northern Ice River Town had painstakingly nurtured.

That's why.

They, the scholars, should shoulder this heavy responsibility.

To complete their destiny.

However, due to the limited territory of Northern Ice River Town, they had a belly full of poetry and books, but they had never had the opportunity to display their talents.

The world could accommodate the universe, the mountains and rivers could accommodate birds, fish, and insects, but there was no place for them in the dimension. Their ideals could only turn into flowing water and flow into the sea with the North Ice River...

And now, Northern Glacier Town had finally welcomed its biggest turning point.

The Star Moon Army occupied Haojing, and the Great Zhou was officially declared to be destroyed.

As the talents behind them, they finally had the opportunity to show off their talents.

After the Great Zhou was destroyed, the other five countries all made their own moves.

It was obvious that they were preparing to take advantage of the weakness of the Star-Moon Army and the fact that they had yet to completely control the Great Zhou to put on a show of 'the mantis stalking the cicada, unaware of the oriole behind it'!

In fact, this was indeed a good opportunity.

After all, the Great Zhou Empire had a vast territory. With the current population and army of Ice River Town in the north, it was not easy to completely digest such a vast land.

Under such circumstances, as long as the other five countries could send out their armies, they could easily seize the countless territories along the border of the Great Zhou Dynasty. They could easily snatch the peaches that the Star Moon Army had painstakingly plucked.

However, the Starmoon Troop moved very quickly.

It still gave them a big fright.

In just over two months, the Star Moon Army had basically wiped out the remaining forces of the Great Zhou near Haojing City.

As for the towns further away, the Starmoon Army had yet to send troops to clear them out.

However, the Fire Sect acted as the backing to disintegrate it.

Using two methods, it took about half a year for the Great Zhou's rebellious forces to be basically cleaned up.

Those troublesome forces that had resisted the Starmoon Army on the surface had already suffered a thunderous blow, either in the open or in the dark. Although there were still people who had other thoughts in the dark, at least they did not dare to show it on the surface.

At this time, the other countries had just mobilized their armies and began to think of ways to get a share of the pie.

It wasn't until a period of time before the Star-Moon Army began to send scholars from North Glacier Town to various towns to take over the political system that the five countries finally began to show their fangs.

There was no need to say much about Great Qi. It was a neighboring country of Great Zhou and had long coveted the land of Great Zhou for many years.

Now that such a thing had happened, there was no reason to miss it.

On one hand, the Great Qi sent troops to attack North Binghe Town, wanting to force the Star Moon Army to return to defend. On the other hand, they sent troops to take over the land in the northeast of the Great Zhou that originally belonged to King Yu.

In less than half a year, Great Qi had won many battles and seized many towns and lands.

Although Northern Glacier Town was extremely angry about this, just taking over the power vacuum left behind by the Great Zhou's higher-ups was already enough to make them anxious.

In the end, he did not have the spare energy to care so much.

Great Qin was currently one of the most powerful countries among the five countries.

Naturally, he could not remain indifferent.

Even though Great Qin's territory was not directly connected to the Great Zhou Empire, they could attack the West Garrison Fortress from the northwest.

The Western Garrison Army was the strategic ally of the Star Moon Army. In the past, both sides had always advanced and retreated together on the battlefield. Even the current Western Garrison Lord was Li Ruyue's husband.

Therefore, the battle in the Western Garrison Fortress was in full swing.

Not only that, but Great Qin was also using force to put pressure on Great

Song, which was to the southwest of Great Zhou. They wanted Great Song and Great Qin to send out an alliance army and take this opportunity to annex Great Zhou's territory.

When the news reached Li Yueming's ears, Li Yueming happened to be outside the ancient records library of the Great Zhou Imperial Palace.

He looked at the ruined palace not far away.

Li Yueming's expression was extremely ugly.

After realizing that there was nothing he could do.

The members of the Great Zhou Imperial Family set fire to the most important imperial family's ancient records vault.

It was said that the fire lasted for seven days and seven nights. The entire sky of Haojing City was filled with the ashes of the books..

Chapter 648: One Person Suppressing a Country

By the time the Star Moon Army opened the city gates and occupied Haojing, the national treasury that recorded the history of the Great Zhou Dynasty for tens of thousands of years and a large number of books and pictures had already been burned into a mess, leaving only ashes everywhere.

After seeing this scene, Li Yueming's heart was bleeding.

This group of fellows were really taking the world as their own!

Even if it was the imperial palace's treasure vault, it should not be the private property of the Great Zhou Imperial Family.

Now, an indiscriminate fire had destroyed the only collection of books that had been painstakingly written by countless people in the past dynasties.

Therefore, when Li Yueming heard that the other countries had made strange movements and wanted to take advantage of the unstable Northern Glacier Town to take a bite of the meat, his expression was very strange.

For a moment, he did not know whether to be angry or laugh. He said sternly, "Where did they get their guts from? Do you think I'll be afraid of the five countries joining forces? If I can destroy Great Zhou, I can destroy Great Qi. If I can destroy Great Qi, I can destroy Great Qin. If you don't believe me, you can let them try!"

Although he was only talking to the herald who was reporting the news, he was still not sure if he could do it.

However, Li Yueming directly recorded it and spread it word for word.

One should know that the current Star-Moon Troop had gathered the attention of the entire world. Even if it was just a boring action, it would be magnified infinitely and affect the nerves of countless people.

Under such circumstances, the general of the Star Moon Army, Li Yueming, who was ranked as the number one hero, publicly announced that he would cause a huge shock.

In the blink of an eye.

Li Yueming's arrogant words spread throughout the entire Nine Regions of China.

The world was in an uproar again.

“My God, is Li Yueming crazy? It was fine if they did not keep a low profile at this critical moment when the Star Moon Army was taking over the territory of the Great Zhou Dynasty, but they actually dared to publicly provoke the various countries in the world?”

“Although I feel a little arrogant, I still want to say that Li Yueming is mighty!”

“If we can destroy Great Zhou, we can destroy Great Qi, and if we can destroy Great Qi, we can destroy Great Qin. To trample on two superpowers with a single sentence, only Li Yueming would dare to say such a thing, right?”

“He's arrogant and domineering. He's insufferably arrogant. However, I like it...”

If the Star Moon Army had not made such a vicious statement before they destroyed the Great Zhou, they would probably be ridiculed by everyone in the world.

Li Yueming would probably be treated as a clown.

However, now that the Star Moon Army had already flattened the once-invincible Great Zhou, Li Yueming's ruthless words finally had the influence to make the world face him.

Due to the lack of time.

Most of the other five countries fought for their own countries and did not have time to form an alliance.

Even so, when they heard Li Yueming's high-profile provocation, the rulers of the various countries still changed their expressions.

The other three countries were fine.

Although he was more or less angry.

However, they were not like Great Qin and Great Qi, who were scolded by Li Yueming.

The ones who felt the most depressed were Great Qin and Great Qi.

Great Qin was still fine.

After all, the current Emperor of Great Qin was flexible. After being scolded by Li Yueming, he was not as furious as the Great Qi Dynasty. Instead, he seemed to have suddenly come to his senses.

They actually retreated without even letting out a fart.

Therefore, only the Emperor of Da Qi was the most furious after hearing this sentence. Not only did he increase the number of troops overnight, but he also publicly mocked Li Yueming, ””Brat, don’t think that no one in this world can cure you!”

“Not only do I want to occupy a large area of your territory in the northeast, I also want to lead the army to attack your Northern Ice River Town headquarters. I want to see what you can do to me!”

The words of the Emperor of the Great Qi Dynasty also brought about a monstrous heat.

The dignitaries of the various countries, including many commoners, all focused their attention on this matter, wanting to see how both sides would deal with it.

The reason why the higher-ups of the various countries were paying so much attention was that they wanted to find out the bottom line of Northern Glacier Town.

As for the commoners, most of them were just listening to it for fun after dinner.

Although the world was filled with smoke and chaos.

However, it had indeed been many years since Nine Regions had been as lively as today.

The war brought death, bringing new life to this already lifeless continent.

The flowers on the treetops are withering

The seeds buried in the soil were germinating.

Da Qi mobilized their troops and set off from three roads.

The two armies went deep into the northeast of Great Zhou and occupied more cities and land.

The other main force was heading to the northwest, intending to take advantage of the absence of the Star-Moon Legion’s main force to break through the defenses of Northern Glacier Town.

Although the Emperor of Da Qi was furious, he was not a fool.

Although Li Yueming’s simple ridicule made him furious, the most fundamental reason that prompted him to send troops to gamble on the fate of the country was actually because of benefits.

If they could break through North Ice River Town before the Star Moon Army recovered, then the territory of Da Qi would expand by a third. This was a temptation that the Emperor of Da Qi could not refuse.

Such provocation towards Great Qi.

Northern Glacier Town was silent.

Just as everyone was wondering why Li Yueming had admitted defeat after saying those harsh words.

Northern Ice River Town finally made a move and began to mobilize troops to launch a counterattack.

All along, the Star Moon Army had been known for their strict discipline and determination.

The speed at which they mobilized troops and resources was unparalleled in all countries.

In a short month, Northern Ice River Town had recruited 300,000 soldiers..

Chapter 649: One Person Suppressing a Country

This group of soldiers could not be considered elites of the Star Moon Army. Strictly speaking, they could not even be considered as the Star Moon Army. They were soldiers trained in the major cities in the northwest.

In other words, this hastily assembled army couldn't even be considered as the central regular army of Northern Glacier Town. It could only be considered as a local motley crew.

It was such an army that rushed to the front line of Jin City's Wing City without stopping, looking out from the river with the Great Qi army.

When Daqi Heaven heard the news, he almost laughed out loud. He openly mocked in the hall, "The main force of the Star Moon Army is in Haojing. I thought that Li Yueming would have some ability. In the end, he came up with a motley crew from the North Ice River."

"It's just a mantis trying to stop a chariot. If the main force of the Star-Moon Army dares to not return to defend, our Great Qi will definitely flatten the headquarters of Northern Glacier Town in less than two months!"

The emperor of Da Qi laughed disdainfully, and the officials around him were also very excited.

After all, expanding the territory meant expanding the cake.

It was also a good thing for them.

However, before these words could spread out in the court, a cold voice came from outside the hall."Oh? Really?"

This voice came very suddenly, and it contained a chilling killing intent.

The elite soldiers of Da Qi who were guarding the hall immediately gripped their weapons tightly. Looking at the god-like voice not far away, they said in horror,""Come...Who is it? This is the palace of Da Qi, no...If you don't want to

die...

Before the guard could finish his words, the man who had come waved his hand and exploded like a piece of paper.

Fresh blood splattered on the corridor in front of the Imperial Palace.

Under the incredulous gazes of everyone in the Imperial Court, Li Yueming walked through the exploding blood mist and arrived at the Golden Hall of the Great Qi Imperial Palace.

He looked around with his cold eyes and finally landed on the emperor of Da Qi who was sitting on the dragon throne. He said indifferently, "Ji Haochen, you asked me what I can do to you."

His voice was not loud.

But at this moment, the originally peaceful court was completely silent.

If it was any other time, someone would have barged into the royal court and injured the guards to question the emperor in public.

They were probably about to explode.

After all, they could not tolerate such a ridiculous thing happening in such a grand place.

But now, everything was different.

Because the person who entered the hall was also not an unknown person. It was the Star Moon Army's General Li Yueming, the most powerful existence in the world.

Northern Ice River Town had yet to become a king.

However, his status was still comparable to any emperor in the world.

Moreover, the most important thing was that this guy was an existence above Nirvana. He was the strongest individual in the world.

Even the Great Zhou Long Jitian died in his hands.

Even if they had to queue up and charge forward, they would still be able to do it.

He was probably no match for a single finger.

All the ministers present had no doubt that as long as they dared to say no in front of Li Yueming, they would be able to do so.

The fate of those guards was their fate.

Therefore, he saw Li Yueming barging into the meeting hall as if no one was around.

All the important officials in the court could only choose to remain silent and protect themselves.

From this, it could be seen how terrifying Li Yueming's current power was.

As for the emperor?

I'm sorry, you sent the army yourself, and you're the one who caused this mess.

Now that the culprit had come to seek revenge, he had to pray for his own good!

For many years in the past until now, because of the agreement and checks and balance at the top, the individual power of the nine provinces of China had always been relatively controllable.

Those who walked on the ground were usually Void Refinement Realm and Origin Returning Realm Qi Refiners.

A Qi Refiner in the Divine Aperture Realm was already able to dominate a region.

On the other hand, the Heavenly Tribulation and Nirvana Realm experts above the divine aperture might not even show their faces once in thousands of years. It was also because of this that all order was established based on this system.

At this moment, Li Yueming's existence became the biggest anomaly.

In the absence of the old fogeys who set the rules, Li Yueming was at the peak of his personal power, stronger than the others.

In other words, his existence could not be restricted by rules.

However, Great Qi was still stuck in the mindset that had been imperceptibly fixed for thousands of years, thinking that no matter how strong the Qi Practitioners were, they could not control the authority of a country.

What Li Yueming was doing now was to show the world what it meant to be strong!

Chapter 650: Invincible in the World?

Li Yueming swaggered into the throne room through the Meridian Gate and stood in the middle of Da Qi's supreme hall as if no one else was around.

Although he was currently sitting below the dragon throne, just from his aura alone, it seemed as if he was the true king of this place. On the other hand, Great Heaven's Equal, who was sitting on the dragon throne, had become a nondescript clown.

On both sides of him, a large group of important ministers of the Qi Kingdom lowered their heads and did not dare to say a word.

Li Yueming ignored everyone else and stared coldly at Ji Haochen on the dragon throne. He opened his mouth and provoked, "Didn't you ask me what I would do to you? Now that I'm here, what do you want to do?"

Seeing how arrogant and domineering he was, he felt that he was insufferably arrogant.

Ji Haochen's face turned pale.

He had never expected that Li Yueming would actually have the guts to come to the palace after he had just berated him.

After all, this was the palace!

The most heavily guarded area in the entire Da Qi.

Normally, even a mosquito would be stared at several times when it flew in.

But now, Li Yueming completely ignored all of this.

And the most ridiculous thing was that this guy was almost in front of him. The aura of a god on his body could even be felt at a close distance, but none of the experts raised in the Great Qi Imperial Palace had sensed it and came to save him.

It was only at this moment that the Emperor of Da Qi recalled Li Yueming's glorious battle achievements in the Great Zhou Dynasty and tasted a trace of bone-chilling coldness.

After suppressing the fear in his heart with great difficulty, Ji Haochen reluctantly said, "If nothing unexpected happens, Zhen's army has already moved to the battlefield of Northern Ice River Town. No matter how powerful you are, you can't stop what has already happened!"

This was because the core and upper echelons of the Six Nations had jointly maintained order.

As a result, for many years, there had been no Qi Practitioners who could ignore the rules of the Heavenly Tribulation and Nirvana Realm walking in the outside world. The individual power to maintain the balance of power and order in Nine Regions was built on the foundation of Qi Practitioners under the Heavenly Tribulation.

And now, Li Yueming had broken this order that had been running smoothly for nearly ten thousand years.

In the absence of experts of the same realm, a Nirvana Stage Qi Practitioner could safely enter and exit 99% of the world's territory without being surrounded by thousands of troops and horses.

This naturally included the Royal Palace of the Great Qi.

After all, Li Yueming had already received the news that the old monsters of the various countries were still in a deep sleep. If the country was not in a crisis like the Great Zhou, they would not have forcefully woken up to suppress them like Ji Tian.

Therefore, Li Yueming had completely freed himself from all his restraints. He laughed disdainfully and said, "With just your three melons and two dates, you dare to have designs on Northern Ice River Town? Are you even worthy?"

"You don't need the Starmoon Troop's main force. I'm afraid it'll be very difficult for you to break through the fortifications from all over the place!" As he spoke.

His voice paused and revealed a hint of killing intent. "And what makes you think that I can't change anything? As long as I kill all of you, won't everything change?"

When it came to killing everyone.

Everyone present could feel a sharp killing intent.

It was as if an invisible blade was slowly slicing through their bodies.

This aura didn't bring any real pain, but he couldn't help but feel a chill in it.

This terrifying aura directly frightened a few of the more timid officials. A few of them fell to the ground and trembled, unable to stand up. The expression on their faces was worse than crying. They trembled and said, "Li Yueming... You..."

Don't go too far!"

One had to know that everyone present was the core higher-ups of the entire Great Qi. Without a certain amount of power and influence, it was simply not enough to stand here.

But even so, in front of Li Yueming, they were like lambs waiting to be slaughtered, trembling uncontrollably.

Hearing that someone still dared to threaten him.

Li Yueming narrowed his eyes and smiled.” I’m going too far. What do you

Without any unnecessary movements, with just a glance, that guy immediately exploded into a pool of blood in the crowd.

Even the throne room was stained with blood. This Li Yueming was really prepared to fight to the death with Great Qi today!

Such a scene really frightened a group of people.

The faces of the few high-ranking officials around him were splashed with blood, but it still could not hide the paleness on their faces.

Even Ji Haochen was shocked.

Previously, he had killed the guards and stained the stone steps outside the throne room with blood, but now, Li Yueming had actually scattered the core officials of Da Qi in front of everyone.

Such an action was tantamount to declaring war on Great Qi.

However, it was just as Li Yueming had said.

So what if he had gone too far?

Even if the hundreds of officials present held the supreme power of the Great Qi, they would not be able to do so.

However, it was still not worth mentioning in front of Li Yueming.

So this was the power of a Nirvana Stage expert?

He was indeed an existence that transcended all rules in the world!

Just as Ji Haochen was at a loss for what to do, he asked,”

An old woman suddenly appeared outside the throne room.

From her appearance, the old woman, MO, seemed to be about a hundred or eighty years old. She was currently holding a walking stick, her body hunched over as she hobbled over the threshold of the hall.

The moment he saw the old woman, Ji Haochen, who was already panicking, finally seemed to have grabbed onto a life-saving straw.. He hurriedly said, “Sixteenth Ancestor, you’re finally here!”
