Chapter 661: A Chaotic Battle, a narrow escape!_1

At the edge of the Hundred Thousand Mountains, there was no one for a thousand miles.

Li Yueming and the ancestors of the various countries stood on top of each other and confronted each other. The terrifying aura that erupted from each other made all the birds and beasts that lived here within a thousand miles run away.

No living creature could remain unmoved under such a terrifying aura.

Looking at the fearless Li Yueming, Ji Wu walked out of the crowd and said, "This old man will first test your depth and see if your strength is worthy of your arrogance!"

There were a total of twelve ancestors who came to kill Li Yueming. On average, there were two ancestors in deep sleep in each country.

The weakest among them was an existence above Nirvana.

Those who were lower than this realm, such as Ji Feng of the Qi Kingdom, were not worthy of sleeping side by side with them after falling into Nirvana.

And now, they had been ordered to move out in full force.

However, in the end, everyone was still a legendary figure who had left a deep mark in history. Naturally, they all had their own pride. If there was no need, they would disdain a group of people to attack a junior like Li Yueming.

The Great Zhou Martial Emperor, Ji Wu, was the first to stand up and express his desire to test Li Yueming's strength.

The others tacitly opened up a path and spread out to seal off the surroundings of the battlefield in case Li Yueming escaped.

Li Yueming didn't say anything.

The monk could run, but the temple could not.

Since he was here, he had no intention of escaping.

Looking at the old man in grey robes who had a rotten smell, Li Yueming said calmly, "How much effort does it take to do them one by one? It might be safer to attack together!"

Hearing that Li Yueming still dared to provoke him at such a time.

The expressions of all the ancestors present changed.

However, Li Yueming obviously had no intention of continuing to talk nonsense with them. The aura of Nirvana Realm and human body treasure burst out without reservation.

This terrifying aura that was as strong as the sky made everyone's faces change. Ji Wu, who was the first to bear the brunt of this, widened his eyes in disbelief.

According to the information they received, although Li Yueming was able to defeat Ji Tian at his peak a few years ago, he must have paid a heavy price.

This was also the biggest reason why the ancestors of the various countries could be so calm.

After all, Ji Tian's strength could only be considered to be in the middle to lower class among them. Li Yueming could barely defeat Ji Tian, but most of the people present were stronger than Ji Tian.

Even if he fought alone, Yue Mingming might not be able to defeat anyone present.

However, the terrifying aura they felt from Li Yueming did not seem to be just a little stronger than Ji Tian's!

It was too late to say, but it was too fast.

Ji Wu's mind was filled with doubts, but Li Yueming's figure still rushed over at lightning speed. He was so fast that even the group of top-notch experts could only sense his blurry afterimage and could not see his figure completely.

Plop!

As the two figures crossed paths, they exchanged thousands of blows in an instant.

Suddenly, a muffled groan sounded, and the contest between the two sides in the sky came to an abrupt end.

Ji Wu was sent flying thousands of meters away.

Li Yueming did not hold back at all. He used his strongest strength in his normal form, and a huge amount of spiritual energy was attached to his fists.

After sending Ji Wu flying, the remaining power of his fist didn't dissipate completely. Instead, it formed a ripple-like swirl of spiritual energy, which swept out and uprooted many hundred-year-old trees under his feet. Just the aftermath of one punch had turned the battlefield into a mess.

The strength of this punch was evident from this!

Fortunately, the surrounding spectators were all experts of the same realm. Otherwise, if it were any existence with a slightly lower realm, the aftershock of the exchange just now would probably be enough to make them miserable.

Ji Wu flew back thousands of meters like a kite with a broken string.

Ji Wu finally steadied himself and wiped the blood off the corner of his mouth. Instead of checking his wounds, he looked as if he had seen a ghost and said in shock, "Is this your true strength? You didn't use your full strength when you fought against Ji Tianshang?"

It was no wonder that he was so incredulous. Li Yueming's current combat strength was too supermodel.

It was only a few moves, but he was actually able to seriously injure him.

What did this mean?

This meant that the combat strength between the two sides was not on the same level at all!

However, Ji Wu believed that he had already reached the peak of the Qi Refinement Realm in this world. Even if a powerful cultivator of the same realm could defeat him, he would have to pay a huge price.

Then the question was, how could this young man suppress him so easily when they were of the same realm?

Could it be that he had been asleep for too long, and the power in his body had drained over time?

Compared to the physical blow, the spiritual blow was the most unacceptable to Ji Wu.

Ji Wu's clothes were torn and he looked like he had lost his soul.

Li Yueming stood still and did not continue to pursue.

It wasn't that he didn't want to, it was that Ji Wu wasn't the only enemy at the moment..

Chapter 662: A Chaotic Battle, a narrow escape!_2

The other Patriarchs who were eyeing him covetously wouldn't let him kill Ji Wu in front of everyone.

Therefore, after hearing Ji Wu's question, Li Yueming didn't continue to attack. He explained seriously, "It's not that I've been hiding my strength. It's just that I've become stronger again!"

Back when he was still in the Heavenly Tribulation Realm, Li Yueming was already able to rely on his human body treasure and perfect genetic body to defeat Ji Tian at his peak.

Now, Li Yueming had broken through the Heavenly Tribulation Realm and reached the peak of Nirvana.

Moreover, because he had been constantly deducing and cultivating the Book of Changes over the years, Li Yueming's understanding of the human body's treasures had become more and more profound. His understanding of the 'Dao' and 'Dharma' of this world was also much stronger than a few years ago.

In many aspects, even Li Yueming himself was not sure where his current limit was.

In any case, to him, it was nothing more than betting his life on this battle.

As for the outcome, only the heavens knew...

Hearing Li Yueming's answer, Ji Wu and the other great ancestors gasped.

A few years ago, when they were forced to wake up by the order, they still did not understand why He wanted to wake all of them who were sleeping.

But now, he could feel the terrifying demonic power in Li Yueming's body.

The group of people finally understood.

This guy was a complete pervert!

Under normal circumstances, after breaking through Nirvana, every step forward was as difficult as ascending to the heavens.

However, how long had it been since Li Yueming died?

His combat strength had actually soared to such a level. His growth rate was too shocking!

..

After a short fight, Ji Wu suffered a great loss in Li Yueming's hands.

This result stunned all the ancestors present.

Ji Wu was known as the Martial Emperor of Great Zhou. He was one of the founders of the Great Zhou Empire and the most famous emperor in the history of the six dynasties. His strength was considered outstanding among their group of Great Destruction ancestors.

However, such a powerful Qi Practitioner, who was famous in history, only lasted for a few breaths in front of Li Yueming before he was injured and retreated.

Such an illogical and powerful combat strength had even exceeded the understanding of their brains for a moment.

It was to the extent that many ancestors only reacted at this moment. They looked at each other at the same time and saw the disbelief in each other's eyes.

Ji Wu wiped off the blood, stood up, and prepared to fight Li Yueming again.

However, right at this moment, the founding father of the Great Zhou Dynasty, Emperor Wen of Great Zhou, Ji Fengyue, stood out and waved his sleeve to stop Ji Wu, who was about to fight with his life. He said, "You're not his opponent. Don't give up your life for nothing!"

Ji Wu was stunned, but he still insisted, "Ancestor, but..."

As one of the most powerful prodigies.

Ji Wu had never met anyone of his age who could stand shoulder to shoulder with him.

Now, there was no reason for him to be humiliated by a junior when he was old.

Therefore, his meaning was very simple. Even if he had to risk his life, he had to maintain his pride as the Imperial Emperor, even if he knew that he might not be a match for Li Yueming.

Ji Fengyue ignored his anxiety.

A pair of slightly turbid eyes that still showed deep wisdom stared at Li Yueming and sized him up a few times. Ji Fengyue said with a solemn expression, "If my senses are correct, he might not be a pure Ki Refiner!"

As soon as he said this.

Instantly, everyone's eyes widened.

Not a pure Ki Refiner?

If it was an ordinary person, they would definitely find it unbelievable.

After all, other than the omnipotent ability of Qi Refiners, what other powerful abilities were there in this world?

However, the people present were all extraordinary.

Basically, each of them was an ancestor of their respective countries.

Therefore, they naturally knew more about the secrets of this world.

If Li Yueming was really a Qi Refiner, then there was only one possibility. He was from the same lineage as the ancient Great Qian Dynasty. He was called a cultivator!

But wasn't the secret of the ancient Great Gan wiped away by him personally?

Why would such a strange creature still exist in the world?

The group of people's expressions were uncertain, and their gazes towards Li Yueming were filled with deep fear.

Of course, while they were observing Li Yueming, Li Yueming was also observing them without stopping. From the expressions of Ji Fengyue and the others, it could be seen that this group of old monsters knew much more than the current group of people.

However, this was normal, because a lot of information might have been erased by their hands. Their minds naturally stored a huge amount of information that far exceeded what ordinary people knew.

On the battlefield that was originally incomparably desolate.

At this moment, due to Li Yueming's sudden burst of combat strength, it was a little quiet for a moment.

In the end, Ji Fengyue was the first to break the silence. With a serious expression, she asked, "This old man had already felt that it was strange. The aura that erupted from your body did not seem to be something that a pure Qi Refiner could possess!"

At this point, Ji Fengyue narrowed his eyes and hit the nail on the head. "Junior, did you obtain the inheritance of the ancient Da Qian?"

Li Yueming did not answer directly. Instead, he spread his hands and said, "So what if I am? So what if he wasn't? The reason why I can grow to this stage is because of my own hard work. What does it have to do with inheritance?"

Chapter 663: A Chaotic Battle, a narrow escape!_3

Li Yueming could reveal the other secrets.

However, the secrets of the Great Qian Dynasty and the Book of Changes were obviously more deeply involved. Li Yueming had yet to completely unravel them. Therefore, he would definitely not reveal any unnecessary information on this.

Ji Fengyue stared at his eyes. After realizing that she could not force him to tell her the answer with her aura, she lowered her eyes and sighed. "In that case, you are 'His' mortal enemy. All the people and things related to you will be erased from this land...Don't blame us for being ruthless!"

The others also reacted.

It was different from the cold onlookers from before.

Now, their eyes were filled with killing intent when they looked at Li Yueming.

Hearing this, Li Yueming was so angry that he laughed and said sarcastically, "Bullshit, you want to erase everything related to me? I'm standing right here. You guys can line up and fight me alone or in a group. Bring it on!"

Although he was smiling, Li Yueming's expression was very cold.

The killing intent in his words was like a bone-scraping knife.

It was so sharp that it made people feel cold all over.

Ji Fengyue was the first to make a move. He was dressed in a wide white robe. With a swing of his arm, a huge spiritual qi hurricane appeared. The ground that was originally destroyed by Li Yueming shook even more violently.

The spirit qi hurricane destroyed everything. Ji Fengyue gently grabbed with his left hand. With a rumble, a hundred-meter-long boulder flew out of the earth's crust. This boulder also contained a very terrifying spirit qi. Ji Fengyue gently pressed his arm and smashed it toward Li Yueming.

The other ancestors did not stand by and watch anymore. They all used extremely destructive power.

It was obvious that they had given up on the one-on-one battle they had initially expected and had decided to lose face and attack Li Yueming.

Li Yueming wasn't too surprised.

Rather than counting on this group of old men who were half a step into the coffin to talk about martial arts, it was better to hope that the sun would rise from the west.

The so-called fair battle.

It was when one side was too strong and the other was too weak.

This was why some rules needed to be set to add some fun to the fight.

However, Li Yueming was not weak.

Therefore, this rule was not valid from the beginning.

Therefore, Li Yueming was already prepared to take on the attacks of the twelve ancestors alone.

Now that this scene had appeared, it was just as he had expected.

Li Yueming didn't waste any time. He silently activated his Perfect Genetic Body and used the fastest speed to evolve his body into the most suitable state for battle.

At the same time, he also used all the cultivation techniques he had bought from Wang Linlin.

Just as Ji Fengyue said.

This battle was not only related to himself, but also his elder sister, Li Ruyue, and second sister, Li Ruxing...And the lives of millions of Starmoon Troops.

According to the usual practice of the Six Nations.

As long as he was defeated and died today.

It was estimated that it would not be long before the entire Northern Glacier Town was brutally wiped out by them in the long river of history. The results of thousands of people's painstaking efforts would also be destroyed overnight!

This was something Li Yueming couldn't accept.

Compared to his own death, he was even more unhappy that his results were destroyed.

Therefore, he could only win today's battle.

Li Yueming, who was covered in scales and had already transformed into a humanoid monster, did not even use spiritual energy when he saw the huge rock that Ji Fengyue smashed over. He only used his powerful physical body to punch out, and the huge rock was shattered into pieces inch by inch. Even the huge spiritual energy contained in the huge rock was forcefully withstood by Li Yueming.

Before Li Yueming could even catch his breath.

The attacks of the other ancestors also flew over.

Li Yueming dodged three or four of the attacks at an incredible speed, while he blocked the other two with his spiritual energy. After withstanding this round of attacks, he appeared in front of the injured Ji Wu again like a flash of light.

He was prepared to use Ji Wu as a breakthrough point in this war.

After all, although the two of them had only fought for a short while, Li Yueming's attack power was not a joke.

Caught off guard, Ji Wu was hit in the chest and was severely injured.

Because of his injury, Ji Wu's attack was slower than usual, which gave Li Yueming an opportunity to get close to him.

He dodged the attacks from the others behind him.

Li Yueming looked at Ji Wu, who was in a panic, and said with a cold smile, "Transform, or you won't have the chance. Let me see what kind of monsters you are!"

Then, he turned his palm into a blade and slashed at Ji Wu's head.

Although Li Yueming's hand wasn't a real knife, it was sharper than any weapon in the world.

If he was hit by this attack, Ji Wu would lose a layer of skin even if he didn't die.

Seeing that he was in a life-and-death situation, Ji Wu finally gave up all unnecessary thoughts. A huge black shadow also appeared behind him.

Logically speaking, Li Yueming should be used to this scene.

However, this time, it was unknown whether it was because they were close to each other or because Ji Wu was stronger than Ji Tian.

Li Yueming felt as if the black shadow in front of him was real. He could even feel a cold gaze sweeping down from the black shadow, staring at him.

Ji Wu's two extra arms blocked the attack.

Fortunately, Li Yueming was prepared. After realizing that this attack did not achieve the expected effect, he immediately dodged the attacks that followed behind.

But even so, there were still a few bloody wounds on his body.

Fortunately, the recovery ability of a perfect genetic body was strong enough. Otherwise, these small wounds would be enough to make Li Yueming unable to take it.

It was not easy for him to escape from the core of the battlefield.

Li Yueming turned around and saw that Ji Wu had turned into a humanoid figure.

At this moment, Ji Wu had a very strange head. A ferocious bone horn grew out of his head, and two more arms grew out of the original position of his arms. Behind the four arms, there was a transparent black wing.

Li Yueming was now a humanoid monster.

Then, Ji Wu would no longer have the shape of a human.

He was a deformed monster!

Even his aura had become completely different from before.

Even though he was already prepared for this, Li Yueming couldn't help but spit. If these old guys didn't master this strange secret technique, he would still have the confidence to say that it was still unknown who would win.

But if these twelve people in front of him could all use secret techniques, then today's trip would really be a narrow escape!

Chapter 664: I'm still here, but I didn't retreat. That's enough!_1

How big was the fluctuation when existences above Nirvana fought?

There were no direct attacks, but the aftermath of the battle was only the spiritual energy that spewed out. The jungle under everyone's feet seemed to have experienced an earthquake of more than ten magnitude!!!

The powerful destructive force from the battle destroyed the trees in the forest inch by inch. Even the soil dozens of meters underground was overturned by the huge air waves.

Even so, it did not affect the dozen people fighting in the sky.

The battle between the two sides became more and more intense, and at the same time, the aftershocks caused by the battle became more and more exaggerated. In the end, the entire forest's surface was dug down by them by dozens of meters!

Even though the battlefield was already barren for thousands of miles, both sides still had no intention of stopping.

At the beginning, under the siege of the twelve ancestors, Li Yueming was still able to find a chance to counterattack at the critical moment.

However, as the battle became more and more intense, more and more wounds began to appear on Li Yueming's body. If it wasn't because his physical fitness was too strong, perhaps his life would have been in danger under the siege.

After dodging a new round of attacks, he finally stopped to take a few breaths. Li Yueming looked at the old monsters not far away with a slightly angry gaze.

At this moment, besides Ji Wu, the other few old monsters were forced to use their trump cards.

A black figure appeared behind them. Under the protection of the black figure, their physical fitness suddenly increased rapidly in a short period of time. Although they were still unable to compete with Li Yueming's powerful physique, it also made up for the biggest flaw of their weak bodies.

This kind of unreasonable secret technique made Li Yueming not know where to start.

The reason why he was so much stronger than the other Qi Practitioners was not because of the Qi Practitioners' own strength, but because of his strong physique and the treasures of the human body that could turn the rotten into the magical.

But now, the strange secret technique allowed each of these old fellows to avoid death.

This directly caused Li Yueming to have no way to end the battle quickly. He could only struggle to hold on under the siege.

Just as Li Yueming stopped to look for a fighter jet.

Not far away, Ji Wu and Ji Fengyue launched their attacks again.

Li Yueming didn't dare to tangle with him for too long. He wanted to dodge.

But almost at the same time, several other figures blocked the few directions that Li Yueming could escape from and launched a joint attack to stop him in place.

Li Yueming Ming gritted his teeth in anger, but he had no other choice. He could only resist the two attacks with relatively weak damage and forcefully break free from their encirclement.

He felt a piercing pain in his back, as well as two bloody wounds.

Li Yueming knew that he couldn't continue like this, so he finally decided to go all out. He gritted his teeth and endured a few attacks, diving to Ji Wu and roaring, "Die!"

As he spoke, a dazzling golden light burst out from Li Yueming's body.

At this moment, there was still sunlight in the sky.

However, in front of Li Yueming, even the sun in the sky seemed to have dimmed.

The entire world was dyed gold.

No one expected Li Yueming to be able to unleash such power.

Therefore, the moment the golden light bloomed, the surrounding ancestors subconsciously chose to shift their gazes.

However, it was in this short second.

Li Yueming waved his long golden sword and slashed down. A beam of golden light that was dozens of meters long cut through the sky and cut Ji Wu, who was standing not far away, in half.

Ji Wu's body was covered in black shadows. When he was struck by the golden blade light, these shadows seemed to have their own consciousness. They kept growing tentacles and tried to protect Ji Wu behind them.

However, Li Yueming had concentrated all of his essence, spirit, and spiritual power into this slash. It carried Li Yueming's conviction to kill. How could it be so easy to block?

Therefore, under the powerful attack of the golden blade light, the black shadow on Ji Wu's body dissipated bit by bit.

When the head and the body were separated, Ji Wu's eyes were still wide open with a look of disbelief.

Looking at this scene that made one's hair stand on end.

The remaining eleven Forefathers of Great Destruction felt their bodies turn cold.

They didn't expect Li Yueming to be so crazy. He didn't care if they would die together.

They didn't expect Li Yueming to be so powerful. He was able to fight back and kill Ji Wu who had activated God's Descent.

The remaining ancestors could not help but heave a sigh of relief.

Fortunately, that was all.

A hysterical counterattack could only succeed once.

In that instant, the damage they had dealt to Li Yueming was already fatal!

Next, as long as they fought steadily, Li Yueming would not be able to escape even if he had wings.

After discovering that Ji Wu was killed, Ji Fengyue was probably the most sorrowful one among all the ancestors.

At this moment, the founder of the Great Zhou Dynasty, who was also the oldest slumber, closed his eyes and let out a few drops of turbid tears. He sighed and said, "Why bother? Why bother?"

He muttered a few words.

Ji Fengyue's voice came to an abrupt stop. A moment later, he suddenly opened his eyes. At this moment, everyone realized that there was no longer any white in his pupils, only darkness!

Chapter 665: I'm still here, but I didn't retreat. That's enough!_2

Staring at Li Yueming, Ji Fengyue said, "Young man, you are walking on the right path, but this world may not be so right! Ji Wu is my favorite grandson. If you kill him, I will tear you into pieces!"

Li Yueming was covered in blood, but his smile was still bright.

He revealed a few white teeth and said, "Don't do to others what you don't want others to do to you. Since you want to erase everything around me, then be prepared to be killed by me."

Just now, when he was trying to get close to Ji Wu, he had suffered five or six attacks on the way and was seriously injured.

Of course, as long as his body wasn't completely dried up, and he wasn't hit by a fatal attack that he couldn't recover from, no matter how serious the other injuries were, it wouldn't be a problem for Li Yueming, who had a perfect genetic body.

However, the problem was that it would take time for his injuries to heal.

The perfect geno body was heaven-defying, but it wasn't heaven-defying enough to instantly heal all injuries.

And now, the battlefield was changing rapidly.

There was no time for Li Yueming to recover.

“Stop talking nonsense. Hurry up and kill him before anything unexpected happens!”

After such a long period of battle, the ancestors clearly knew that Li Yueming's physical strength was very heaven-defying. They had to take advantage of his illness to kill him. They could not give him a moment to breathe.

The group of people nodded.

Without any hesitation, he launched another round of attacks while Li Yueming's injuries had yet to recover and he was unable to move freely.

And this time, the first to attack was also Ji Fengyue.

A pair of wings also grew out of Ji Fengyue's back.

Compared to the others, the black shadow behind him was even clearer. From afar, it looked like it was real, and some details could even be seen!

Ji Wu's strength could only be considered to be above average among this group of ancestors.

Then Ji Fengyue was undoubtedly one of the strongest people.

Now, Ji Fengyue had activated the God's Descent state in a fit of rage, and the state of his entire body had been raised to the peak of his youth.

Whether it was the momentum or the destructive power, it was completely different from before.

Even the other old monsters who had activated God's Descent were inferior to him.

“Hu hu hu!”

A wave of spiritual energy fluctuation that made people speechless erupted from Ji Fengyue's body. The violent energy made the expressions of the surrounding ancestors change. They said in fear and anger, “Ji Fengyue, are you crazy? Do you want to die?”

Ji Fengyue, who had already returned to her peak condition when she was young, ignored their doubts and questions.

He walked forward and appeared beside Li Yueming in an instant.

Li Yueming subconsciously wanted to dodge, but because his injuries had not fully recovered, his reaction was a step slower.

He was only a beat slower. With a step from Ji Fengyue, Li Yueming flew out like a cannonball and directly sank hundreds of meters underground!

After finally catching his breath, Li Yueming dragged his heavily injured body and fled thousands of miles away without any hesitation.

In the next second, an extremely hot beam of light appeared at the place where the former had stopped. The surrounding muddy ground was heated by the terrifying heat of the beam, turning into red lava!!!

Ji Fengyue's face was still expressionless even though his attack had missed.

At this moment, he had completely shed his previous aging state and turned into a handsome young man. His pitch-black eyes stared at Li Yueming, who was coughing blood, and he said unhurriedly, "We were once young and high-spirited, thinking that we could change everything in this world with just our hands...How could you not look like us in the past?"

"However, there is an end to human strength. It will never be able to compete with the gods who control everything."

"Right now, we have no other thoughts. We just want to continue living. For this, we have already paid too much!"

"Now that you have ended our dreams, don't blame us for ending yours. This is very fair, right?!"

As he spoke, he came in front of Li Yueming and raised his right hand.

Li Yueming wiped the blood from the corner of his mouth.

Ji Fengyue had lived the longest and was also the most senile.

Previously, he was only slightly stronger than Ji Wu.

But now, after he activated God's Descent and his body returned to its peak condition, he was able to feel the pain in his chest.

Li Yueming was shocked to find that Ji Fengyue was much stronger than he had imagined. The other ancestors who had activated the God's Descent state and Ji Fengyue who had activated the God's Descent state were almost completely different!

Li Yueming's bones were almost shattered by Ji Fengyue's kick just now because he could not dodge in time. His internal organs were also violently displaced.

In such a short period of time, a perfect geno body wouldn't be able to heal much of his injuries.

If you can break through to the peak of Nirvana Nirvana Realm, or if you can open a layer of Human Treasure, then you can.

Perhaps everything would be rewritten.

Unfortunately, there was no medicine for regret in this world.

He was already on the verge of dying.

Even so, Li Yueming still smiled and said, "It is naturally fair for the person who kills to be killed!"

Chapter 666: I'm still here, but I didn't retreat. That's enough!_3

Ji Fengyue nodded and said coldly, "In that case, die!"

As he spoke, he grabbed down with one hand. If this attack was real, Li Yueming would definitely be turned into ashes.

But at this moment.

Li Yueming, who was originally gloomy, suddenly stood up. He grabbed Ji Fengyue's arm with one hand and tore it with his other hand...

"Rip!"

The sound of cloth shattering rang out.

At this critical moment, Li Yueming actually tore off one of Ji Fengyue's arms!

At the same time, a holy light erupted from his body, forcefully blocking the attack of the black phantom behind Ji Fengyue!

This sudden scene stunned everyone!

Li Yueming should have been at the end of his rope just now, so why did he suddenly have such a huge amount of power?

Under the pain, Ji Fengyue's expression was very bad. He suddenly took a few steps back and stared at Li Yueming for a while before saying, "This is... Power of faith?"

Li Yueming casually threw away the arm that was still dripping blood. He ignored Ji Fengyue's shock and answered, "There are too many joys and sorrows in this world. How much can a pair of hands control?"

He looked at Ji Fengyue and said word by word, "Maybe I can't control anything, maybe I can't change anything, but I'm still on the road, but I haven't retreated.!"

Ji Fengyue was stunned. After a long while, he laughed involuntarily and said, "Perhaps you're right, but it doesn't matter, it doesn't matter... There are only a few who have the courage. Look behind you, there's no one else but yourself!"

Behind him, the remaining ten ancestors had already surrounded him again.

Li Yueming had surprised them many times. He had killed Ji Wu with his strong physique and injured Ji Fengyue with his power of faith.

However, small tricks could only fight for a moment.

In the face of absolute strength, everything seemed to pale.

Of course, no matter what, Li Yueming's strength was still recognized by them.

It had to be known that in the long river of history, they were the strongest people who stood at the end of the long river.

But now, Li Yueming was able to achieve such a result under their joint siege.

If word got out, it would probably set off a huge wave.

Unfortunately, if nothing unexpected happened, everything would be buried today.

Looking at the ancestors who still had no casualties, Li Yueming's expression was a little ugly.

Up until now, Li Yueming had basically used all the trump cards he could.

However, this group of old things were like cockroaches. They could not be killed no matter how hard they fought.

Was this the fantasy world after the world level rose?

Even if they were already many times stronger than other reincarnators, there were still enemies who could stand tenaciously in front of them and spit fiercely in their faces.

The first two worlds were not so ridiculous...

Just as Li Yueming was in a dilemma.

Several auras suddenly came from several directions in the Hundred Thousand Mountains behind him.

This group of people present were all elites among elites.

Therefore, the moment he sensed the aura, he turned around.

A snow-white figure slowly walked over from the depths of the Hundred Thousand Mountains. Behind him were two spiritual beasts following closely.

The snow-white little fox with a lazy expression chewed on the spiritual grass and said, "You killed my pet in my territory, did you ask me? How dare you!"

Sensing this aura.

Including Ji Fengyue, the expressions of all the ancestors changed. Someone said in disbelief, "Snow Fox King? No, you're not the Snow Fox King. Did that person really leave a backup plan?"

A figure with disheveled hair and tattered clothes appeared at the end of his vision. He looked at Ji Fengyue in the battlefield and said, "Who says no one has the courage to stand behind Little Friend Li?"

"I, Shu Tian, am here today to help little friend Li!"

This crazy figure came very suddenly and very quickly.

Li Yueming looked over and saw that the other party was actually the crazy teacher of the Great Zhou Cultivation College, Shu Tian!

When she saw that it was him.

Li Yueming's first reaction was shock.

However, after regaining his senses, Li Yueming felt relieved.

Back then, Shu Tian had been thought to be crazy by the Great Zhou Cultivation College.

But now, not only did he not go crazy, he might even be more clear-headed than anyone else.

He was just pretending to be crazy to protect himself...

The figures that appeared one after another disrupted the rhythm of the battlefield.

After Shu Tian appeared, another white-haired purple-robed old man rushed over.

The purple-robed old man glanced at Li Yueming, then turned to look at Ji Fengyue, who was not far away with half of his sleeve empty, and said, "Ji Fengyue, you have a grandson, and I have a grandson too. If you dare to bully my grandson for your old age, I will risk my life to take your life!"

After saying that, the old man quickly flew in front of Li Yueming, scratched his head, and explained, "Grandson, I'm sorry. Your ancestor hasn't been feeling well recently and almost overslept!"

Li Yueming,[Concealment.]

Who is your grandson?

If Li Yueming hadn't seen the portrait of his ancestor in the clan, he probably wouldn't have been able to resist punching him.

Chapter 667: Ultimate evolution of a perfect genetic body!_1

At this moment, the person standing in front of Li Yueming was the founder of the Li family, Li Wujiang.

More than a thousand years ago, Li Jiang was already a Heavenly Tribulation Qi Refiner. Now that more than a thousand years had passed, Li Wujiang could still appear in front of the world alive and kicking. There was obviously only one possibility, and that was that Li Wujiang had also touched the Nirvana Realm above the Heavenly Tribulation.

In addition, Shu Tian, who had chosen to pretend to be crazy after waking up, and the two spiritual beasts following behind the little fox.

Currently, there were five Nirvana Realm experts standing behind Li Yueming.

This number was beyond Li Yueming's expectations, but it was reasonable after thinking about it carefully.

The Hundred Thousand Mountains was so vast that it was impossible for there to be no Nirvana Realm Beast Emperors among them. However, Li Yueming was a little surprised that they followed behind the little fox.

The outside world naturally didn't need to be said.

Although old monsters like Ji Fengyue were still paying attention to the changes in the outside world, the six empires were also following the will of the old monsters to consciously prevent the emergence of powerful Qi Refiners.

However, even if gods would occasionally take a nap, whether it was the old monsters or the dynasties, they still could not see the world. Over time, there would always be some smart people who would notice the truth and hide it.

In fact, Li Yueming had been trying to find it for a long time.

It was just that he had not been able to find any traces.

Looking at the figures that suddenly appeared in front of them, the expressions of the ancestors of the various countries could not help but change.

Of course, in terms of combat strength, they still had the absolute advantage. After all, there was only one Li Yueming. It was impossible for the others to have the terrifying combat power of one against ten like Li Yueming.

Especially since Li Wujiang and Shu Tian were only at the initial stage of Nirvana Realm.

It could not change the balance of the battle at all.

The reason why his expression was not good was because he did not like accidents that were beyond his control.

..

.0.

With a few more reinforcements, Ji Fengyue and the others still had the absolute advantage on the battlefield.

Li Wujiang and Shu Tian were only in the early stage of Nirvana realm. Under normal circumstances, they could barely deal with a peak Nirvana realm ancestor. Now, they were gritting their teeth and fighting one ancestor each. It was already very difficult.

Fortunately, the two spiritual beasts from the Hundred Thousand Mountains behind the little fox were quite powerful.

One of the spirit wolves was a super spirit beast that had broken through to the peak of the Nirvana realm. Its sharp teeth and claws could even threaten Ji Fengyue to a certain extent!

It was also the most ferocious and brutal.

It was fine if he didn't make a move, but the moment he made a move, he directly rushed towards Ji Fengyue, who was the strongest person present.

The two sides exchanged a few blows in midair, but the Spirit Wolf actually did not show any obvious signs of defeat!

One had to know that although Ji Fengyue's arm was torn off by Li Yueming, with the help of God's Descent, Ji Fengyue's combat strength did not decline too much. It could be said that he was still at his peak.

Even Li Yueming had to treat Ji Fengyue with caution in this state. Now, he was stopped by this spiritual beast in the Hundred Thousand Mountains. It was enough to show how terrifying his strength was.

The other giant snow bear was not weak either. With its innately powerful body and almost innate killing instinct, it was enough to fight against two elders at the peak of the Nirvana realm.

After the two humans and two beasts entered the battlefield.

Li Yueming's awkward situation was greatly alleviated. Li Yueming also took this opportunity to recover from his injuries and quickly pull up his combat strength as soon as possible.

However, Li Yueming's presence was too conspicuous.

The only variable in this battle was him.

As for the rest, be it the spirit wolf or the giant bear, they did not have the overwhelming strength of Li Yueming.

Therefore, the remaining ancestors obviously wouldn't give Li Yueming a chance to recover.

To be on the safe side, they surrounded the Spirit Wolf and released Ji Fengyue, who was the most powerful among them. Together with the other two Great Qin's Great Destruction Peak Stage Ancestors and Great Ming Peak Stage Ancestor, they rushed over to kill Li Yueming.

Looking at Ji Fengyue and Great Qin's Old Ancestor getting closer and closer, Li Yueming took a deep breath. Even though he had not fully recovered from his injuries, he still had the strength to fight.

Just as he was about to rush out to see if he could find any fighter aircraft.

A snow-white figure suddenly appeared in front of Li Yueming.

The little fox glanced at Li Yueming and did not say anything. She turned her head to look at Ji Fengyue and the others and said, "Don't you think too little of me?"

Looking at the little fox standing in front of Li Yue, Ji Fengyue and Great Qin's ancestor paused.

Logically speaking, at such a critical juncture, there was no reason for the ancestors to be distracted and hesitate because of a single sentence. However, they had really stopped now.

There was a hint of fear in his eyes as he looked at the little fox.

However, after a moment of silence, Ji Fengyue still stood up and replied coldly, "There hasn't been any news about that existence for tens of thousands of years. The Snow Fox King should have been powerless to turn the tide long ago, right?"

"We have no intention of becoming enemies with you, nor do we intend to disturb the rest of the King of the Snow Mountain. However, this brat in front of us is the person 'he' personally named to kill after he woke up for a short period of time. He's also our mortal enemy..."

Chapter 668: Ultimate evolution of a perfect genetic body!_2

"If you insist on protecting him, we can only fight each other."

Everyone looked at the little fox, waiting for her reply.

The little fox snorted coldly when she heard that. She ignored Ji Fengyue and the others in the air and turned to look at Li Yueming. "Brat, tell this king honestly how much time do you need this king to help you buy!"

Li Yueming was stunned and subconsciously replied, "It won't take long. Half an incense's time should be enough!"

The little fox was obviously stunned when she heard this. After a moment, she replied with a strange expression, "Half an incense worth of time, right? Kid, your timing is very accurate. Looks like you're really prepared to make this king risk his life for you!"

Li Yueming smiled bitterly.

In just a moment, the little fox had already rushed up.

Ji Fengyue and the others were stopped by the little fox.

The other patriarchs were still in the middle of the battle, unable to escape. Li Yueming quickly sat down and began to use his perfect geno body to heal his injuries.

Half an incense's time passed.

This was not only the time limit estimated by Little Fox, but also the time limit estimated by Li Yueming.

At this moment, Li Wujiang and Shu Tianzheng were fighting each other with a Nirvana realm ancestor. Although they could still deal with it at the moment, the two of them would definitely not be a match for the two ancestors as time went on.

It wasn't that they were too weak, but that the two ancestors were too powerful.

Not only had the other party's ancestor stepped into the Nirvana realm thousands of years earlier than them, but he had also activated the secret technique 'God's Descent' to raise his strength to the peak. He was not someone that ordinary Qi Practitioners could compete with.

On the other side, the spirit wolf and the giant bear were very powerful. They were probably the ancestors of the Hundred Thousand Mountains.

But now, they were facing a large number of enemies.

In front of the spirit wolf, there were three elders at the peak of the Nirvana realm. In front of the giant bear, there was one less, but there were still two. Although they could still resist, they were also relying on their thick skin to forcefully stall for time.

Little Fox, who was under the most pressure, was in an even more dangerous situation.

If Li Yue Ming couldn't recover to his peak state in this half an incense's time, then the result of this battle wouldn't change much. The only difference was whether one person died or a group died.

But since they knew that the situation was dangerous, they still came without hesitation.

Wasn't it also a form of trust towards him?

Li Yueming didn't want anyone to die because of him.

He also did not wish to disappoint the trust that the people of Northern Glacier Town and the Northwest had in him.

Therefore, not only did he have to win this battle, he had to win it beautifully!

Restrain the excess emotions, feel yourself, because of injury, become somewhat weak, body, Li Yueming, make up your mind, and make up your mind.

When he had obtained the Perfect Genetic Body talent in the previous world, the system had given him an item called [Perfect Gene Supporter].

[Name: Perfect Gene Serum Supporter]

[Introduction: There was once an incomparably powerful planet that developed a super evolutionary drug. After injecting the super evolutionary drug, the creature can evolve into countless perfect forms according to its own will and the changes in the external environment...]

[However, in the end, this drug evolved into a terrifying disaster due to its infinite evolution. The entire universe was swept by the disaster, and the planet that developed the drug also suffered a devastating blow!]

[When you discover that your brain is unable to control your body to stop evolving, please inject this potion. Perhaps it can save your life!]

When he first obtained this potion.

Li Yueming never thought that he would need it one day.

After all, Li Yueming felt that he had the infinite deduction talent at that time. His infinite deduction ability could suppress the side effects of evolution to a certain extent.

But now, Li Yueming had to be glad that he still had this thing to cover for him.

He closed his eyes and began to fully control the two top-tier golden talents, Infinite Deduction and Perfect Genetic Body. He was ready to undergo a complete evolution of his current body form.

Although the previous evolution could be said to be perfect, it was still only the evolution of the 'human' form. The starting point of evolution was the enhancement of the concept of 'human'.

However, this wasn't the limit of a perfect genetic body. It wasn't even half of its potential.

The evolution that started with the concept of 'humans' and the evolution that started with the concept of 'lifeforms' were two completely different concepts.

The result of developing these two different concepts would be an absolute difference in the increase in combat strength.

The reason why Li Yueming hadn't explored this area was that he hadn't been forced into a corner and needed to use this ultimate method. It was also because Li Yueming didn't want to take unnecessary risks.

After all, evolving from a biological perspective meant that one had to first overthrow some of their genes as humans.

There were too many risks and uncertainties in this process. Even the infinite deduction talent could not guarantee that there would be no accidents during the evolution process.

If anything went wrong, the consequences would be terrifying.

It was considered elegant to turn from a human into a meatball. In more serious cases, one might even turn into an uncontrollable and indescribably terrifying monster!

Chapter 669: Ultimate evolution of a perfect genetic body!_3

If it wasn't for the fact that he was in desperate need of strength now.

Under normal circumstances, Li Yueming would not open Pandora's box.

He closed his eyes and took one breath, two breaths...

Li Yueming's sweat became more and more. If one looked closely, one would find that his bones and muscles were squirming violently at this moment.

The perfect genetic body was giving his body an even stronger physique and an even more terrifying recovery speed.

However, this process looked a little scary.

For others, a perfect genetic body might be a Pandora's box that was completely uncontrollable. However, for Li Yueming, the infinite deduction talent reduced the uncontrollable factors in the evolution process by a lot.

Under normal circumstances, as long as one was willing to spend time to deduce it over and over again, there should not be too many problems.

The only pity was that what Li Yueming lacked the most was time.

..

As time passed, the battlefield not far away became more and more unstable.

The giant bear and the spirit wolf had several hideous and terrifying wounds on their bodies. The little fox was also beaten back step by step, and dark red blood flowed out of its mouth.

Li Wujiang and Shu Tian were even more miserable. One of them lost a leg, and the other lost an arm.

After suffering such heavy injuries, their combat strength had already fallen to an extent that they could not continue.

Finally, the time for half an incense stick to burn was up.

However, Li Yueming was still sitting cross-legged on the ground, showing no intention of getting up.

Several ancestors present had been paying attention to Li Yueming's movements. When they saw this, they could not help but laugh out loud."The injuries on his body might not be able to heal even if he recuperates for ten days to half a month. What can half an incense stick of time do?"

"You're actually stupid enough to listen to this junior's one-sided words. Failure is the inevitable outcome for you!"

The others also heaved a sigh of relief. This was the outcome of going against 'His' will! "Many years ago, we knew that someone had broken through to Nirvana, but they were suffering from a deep sleep, so we couldn't find any traces of you. Now that you've delivered yourselves to our doorstep, we can save the effort needed to clean up the world!"

With that, Ji Fengyue, who was at the forefront of the battlefield, suddenly slapped the little fox away.

The little fox, who was already heavily injured and at the end of her rope, fell rapidly like a kite with a broken string. She fell to the ground and struggled for a long time, but she could not get up again.

At the same time, the other three ancestors who were fighting with the little fox finally got out of the chaotic battle.

Without any nonsense, he flew straight towards Li Yueming.

Looking up at this scene, the little fox wiped the blood from the corner of her mouth and smiled helplessly. "This young lady is betting her life on you. You promised me half an incense stick worth of time, so don't disappoint me!"

No one responded.

Even the other patriarchs who had yet to come out slowed down the frequency of their attacks at the same time. They divided their attention to look at the scene where Li Yueming was killed not far away.

In the beginning, more than ten ancestors came together to kill Li Yueming.

They were all very disdainful.

After all, at that time, they thought that there was no one in this world that they needed to work together to encircle and annihilate.

However, as the battle continued, the group of ancestors realized that they had made a huge mistake.

Li Yueming's combat strength was so strong that it shocked them!!!

Not only did he withstand the attacks of more than ten people, but he also successfully killed Ji Wu.

Not only did he kill Ji Wu, he even tore off one of Ji Fengyue's arms!

Although the sudden appearance of a few reinforcements was still unable to change the direction of the battle, Li Yueming's existence was still like a thorn in their throat, making them uneasy.

Now that everything was about to be settled, even with their temperament, they could not help but feel relieved!

The Patriarchs who had left the battlefield were extremely fast.

Among them, the strongest and fastest one was the founder of the Darming Dynasty. Like Ji Fengyue, he was also the ancestor who had fallen asleep at the beginning.

Everyone watched as he grabbed Li Yueming's head with one hand...

"As long as we crush this demon-like young man's head, this world should be able to return to the right track that has lasted for nearly ten thousand years."

At this moment, all the ancestors thought so.

The Darming Dynasty's ancestor didn't let them down, and he clenched his five fingers.

And so, the most ridiculous scene appeared. Li Yueming's head did not explode as expected. Instead, dozens of protruding bone spurs grew out!

These bone spikes were sharp and hard.

Not only did the Darming Dynasty's ancestor not crush Li Yueming's head, but his palm was pierced by a sharp and hard bone spike!

Li Yueming, who was still in deep sleep, seemed to have sensed the abnormality of the outside world. He suddenly opened his eyes and swept a cold glance at everyone. He got up and stretched his body."All of you...Go to hell!"

As soon as he finished speaking.

The Darming Dynasty's ancestor, who was closest to him, widened his eyes.

Under the pain, Great Ming Ancestor subconsciously retracted his pierced palm.

However, before he could do anything else, he lowered his head and realized that his wound had turned black. Countless purple-black liquids were crazily moving up his palm like maggots in his bones, rapidly corroding his body.

The Darming Dynasty's ancestor had lived for more than ten thousand years, but this was the first time he had seen such a ridiculous thing, and he couldn't help widening his eyes in shock as he said,""Poisonous? How is that possible?"

Li Yueming responded with a bone knife.

There was only a "Puff" sound.

The sharp bone blade carried a terrifying brute force and cut open half of the Great Ming Ancestor's body. In the end, his head was chopped off.

Until the moment of his death, Great Ming Ancestor still did not know what had happened.

Why did Qian Jin, who was still a perfectly fine person, suddenly become a monster that even he could not understand?

Li Yueming licked his lips and appeared in front of Ji Fengyue in a few flashes. He licked his lips and said,"It's your turn, old man!"

Chapter 670: End of the Curtain, Head to the Hundred Thousand Mountains!_1

After dealing with Great Ming Ancestor.

Li Yueming looked at Ji Fengyue, who was not far away, and licked her lips."It's your turn, old man!"

Hearing his voice, the surrounding ancestors finally came back to their senses.

After discovering that the Great Ming Ancestor had died in an instant, all the ancestors looked at Li Yueming with disbelief.

Let's not talk about how Li Yueming recovered from his physical injuries in less than half an incense stick's time. Just the sudden riot just now, Li Yueming only used one attack to forcefully split the Great Ming Ancestor into two halves.

It stimulated the senses of the other ancestors around him!

Especially the few ancestors who were closest to Li Yueming, they were stunned by Li Yueming's ferocious aura for a moment. They even had the urge to escape.

They could not be blamed for not having a firm mind. It was indeed because Li Yueming's aura was too terrifying. The pressure he gave them was as if they were not in the same life dimension. It was a higher level of life overlooking a lower level of life!

It was just a face-to-face encounter.

The group of ancestors were frightened by Li Yueming's current state.

As the second target that Li Yueming had targeted, this feeling was even stronger for Ji Fengyue.

If Li Yueming gave him the feeling of a ferocious beast before, then the feeling he gave him now was like an unknown monster at the top of the food chain!

Whether it was his strength or aura, they were no longer the same as before.

It was hard to imagine what kind of monster this young man in front of him was to make him feel a sense of fear despite being in the state of God's Arrival.

Forcefully calming down, Ji Fengyue said coldly, "Even if we return with a halberd today, you can only be considered a grasshopper after autumn. You won't be able to survive for a few days!"

Clearly, even Ji Fengyue was no longer as confident as before.

After the initial feeling of 'everything is under control' dissipated, what followed was an invisible fear of 'falling into a bottomless abyss with one step.'

Even though Ji Fengyue had already prepared for death thousands of years ago, when he really reached this step, he still couldn't help but feel a little flustered.

However, the battle had already progressed to this stage. It was already a battle to the death.

Li Yueming wouldn't give them any chance.

Li Yueming, who had evolved from a 'living creature' to a 'non-human monster', now had endless power in his body. All the functions of his body, whether it was speed, strength, or the recovery speed that best reflected the characteristics of a 'monster', had reached a peak that even Li Yueming himself had never reached before.

It could be said that the current Li Yueming was one of the top existences in this world!

He took a few deep breaths and felt the vigorous power in his body.

Li Yueming did not waste any more time. He took a step forward and flew through the battlefield in a flash. He got rid of all the other ancestors who tried to stop him and approached Ji Fengyue.

Sensing the danger approaching, Ji Fengyue's reaction speed had to be said to be very fast. The moment he noticed Li Yueming appearing in front of him, he immediately retreated quickly, wanting to avoid Li Yueming's long-prepared attack.

However, he still underestimated Li Yueming's reaction speed.

He only retreated a few dozen meters.

Li Yueming had already quickly approached like a ghost. He did not make any fancy movements. He only raised his right arm that had already turned into a bone knife and slashed at Ji Fengyue who was not far away.

This slash did not have much spiritual energy fluctuation. In the perception of the remaining ancestors, it was not even fast!

If it was before, everyone would probably think that this was just an ordinary attack.

But just a moment ago, everyone had witnessed Li Yueming use this blade to directly slash the Darming Dynasty's soldier vertically, so they knew how astonishing the destructive power of this seemingly simple attack was.

In Ji Fengyue's perception, this saber move seemed very terrifying.

His eyes widened as he watched the incomparably sharp bone blade grow larger and larger in front of him. Subconsciously, he wanted to mobilize his body to escape quickly.

However, at this moment, he did not know if it was his own body that was too slow or Li Yueming's attack that was too fast. Even when the bone saber was almost close to his body, he could not take a step back.

He barely raised his right hand and gathered all the spiritual energy in his body to form an invisible wall of spiritual energy, trying to block the attack of the bone blade.

“Kacha...”

The moment the bone blade fell, the sound of the spiritual energy wall shattering could be heard.

All the ancestors who witnessed this scene could not help but gape.

In the next second, cracks appeared on the spiritual energy wall that was almost condensed from all the spiritual energy in Ji Fengyue's body!

As the crack continued to expand, a wave of spiritual energy that could be called a nuclear explosion exploded.

“Bang!”

Almost all the living beings within a radius of thousands of miles were killed by this terrifying shockwave. Millions of tons of soil were rolled up under their feet, and hundreds of thousands of towering ancient trees were shattered into pieces.

Even in the faraway North Glacier Town, as well as the Jiayu Pass in the southeast of the Great Qin Empire and Hu Province in the southwest of the Great Qi Empire, a portion of Qi Refiners had sensed the abnormality.
