Chapter 671: End of the Curtain, Head to the Hundred Thousand Mountains!_2

Li Yueming's expression didn't change much.

This slash was actually really blocked by the staggering Ji Fengyue.

From this, it could be seen how powerful Ji Fengyue was.

At the very least, he was more than a level stronger than the Great Ming Ancestor, who was also an ancestor.

But for Li Yueming, that was all.

The perfect genetic body had already transformed his body into a 'biological' level war machine.

Not only were all the organs and meridians dedicated to combat, but the only reason why the various physical features of the body existed was also for combat.

This state had a terrifying effect on Li Yueming's combat strength. Even if he was facing an existence that had truly ascended and left this world, he should still have the strength to fight now.

Naturally, it was not something that Ji Fengyue, who had yet to break away from Nirvana, could compare to.

After shattering the spiritual energy shield, Ji Fengyue flew back thousands of meters.

However, before he could stop, Li Yueming caught up with him in the air and slashed him in half.

Ji Fengyue's blood splattered dozens of meters away, mixed with a lot of black and strange substances.

After confirming that he had been killed in one blow, Li Yueming put away his bone saber and prepared to leave.

However, at this moment, he suddenly felt a creepy aura.

He turned around and saw that the mysterious black figure behind Ji Fengyue had not dissipated like the others.

Instead, it was twisting and struggling, as if it wanted to truly 'come alive' through time and space.

Li Yueming could also feel the fierce, resentful, and angry eyes of the black figure.

This made Li Yueming feel like he was facing a great enemy.

Fortunately, the worst-case scenario did not occur.

The black figure struggled for a few breaths before finally disappearing into the sky, as if it had never appeared.

Li Yueming heaved a sigh of relief.

He could not care less about what this thing was and looked at the remaining eight ancestors again.

This encirclement and suppression of Li Yueming.

The Six Nations sent out a total of twelve old monsters above Nirvana.

Now, the four strongest of them had been killed by Li Yueming on the spot.

The remaining eight people were scared out of their wits.

Even if they were once the strongest masters of a certain era, leading the world for hundreds of years, possessing unparalleled strength and faith, they were now crushed by Li Yueming's freakish junior.

One had to know that no matter if it was Ji Fengyue or Great Ming Ancestor, they were both super experts close to the soaring realm!

Whether it was power or backup, they were the oldest existences among the Sleepers.

But now, they had all died in Li Yueming's hands.

How could they continue fighting Li Yueming to the death?

After realizing that Li Yueming had turned around to look at them, the remaining few ancestors did not want to continue fighting at the first moment. Instead, they subconsciously prepared to flee.

This scene looked rather comical.

But in the eyes of Shu Tian and Li Wujiang, they couldn't laugh at all.

This was because they could not imagine that such a group of heroes who only existed in legends would one day flee for their lives like this.

Li Yueming subconsciously prepared to chase after them and eliminate them.

After all, although they were like stray dogs in front of him, they were still the strongest group of people outside.

If they couldn't deal with everything, the consequences to the outside world could be very serious.

However, before Li Yueming could make a move, the group of ancestors who had scattered and fled suddenly shouted. One by one, they fell from the sky and fell to the ground as if they had seen something terrifying.

Li Yueming stood in the sky and watched this scene silently.

The old ancestor, who had fallen to the ground, had a ferocious expression on his face. His entire body was emitting black smoke as he began to roll back and forth on the ground while screaming.

An ancestor let out an agonized scream, crying bitterly as he muttered, "Spare me... Spare me, please spare me!"

However, their struggles seemed to be useless.

As they rolled, their skin swelled up like balloons.

In the end, under the shocked gazes of Little Fox, Shu Tian, and the others, these eight unparalleled ancestors exploded like a bursting ball, and dirty black blood dripped onto the ground.

This terrifying scene stunned everyone who witnessed it.

Only Li Yueming was familiar with this scene.

If he remembered correctly, it was a similar scene before Ji Tian's death.

However, compared to Ji Tian, who suddenly exploded, the death of these ancestors seemed to be more tragic.

It was good that he died just like that.

It saved him the trouble of chasing after them for thousands of miles.

..

.0.

After making sure that everything was settled, all the people in the game sighed in relief.

Li Yueming had spent a lot of effort to finally decipher the ultimate evolution state of the perfect genetic body and returned to the appearance of a human.

This kind of genetic modification consumed a lot of energy stored in the body.

After a few rounds of torture, Li Yueming was already exhausted.

Even so, everything was not over yet. Li Yueming looked at Shu Tian and Li Wujiang, who were not far away, and bowed before saying, "Senior Shu Tian, senior...Ancestor, thank you for your help!"

Hearing this, Shu Tian nodded slightly, accepting his gratitude.

Li Wujiang opened his mouth to say something, but in the end, he only held the wound on his abdomen and gasped. He said with a trembling voice, "Aiyo, good grandson, it hurts so much that your ancestor will die..."

Chapter 672: End of the Curtain, Head to the Hundred Thousand Mountains!_3

Li Yueming didn't know whether to laugh or cry.

Ignoring their old ancestor who took advantage of his seniority, he continued to look at the giant bear and spirit wolf behind the little fox and said, "Thank you for your help, Seniors!"

The giant bear did not speak.

The spirit wolf spoke in human language. "We are all servants of the princess. If you want to thank her, thank the princess. After she sensed the aura here, she brought us here without stopping!"

Hearing this, the little fox turned her head slightly and said, "Hmph, you're a human pet. Have your wings hardened now? How long has it been since you came to the Snow Mountain to find me?"

Li Yueming touched his nose in embarrassment.

In this world, only the little fox could call him a pet without any scruples.

After all, he had relied on the little fox's power to establish Northern Ice River Town from the beginning. He did not expect the little fox's thigh to be so thick. Until today, it could be considered that she had hugged him from head to tail.

She could feel his shame.

The little fox rolled her eyes and said angrily, "It's fine if their relationship is weak, but the trouble is getting bigger and bigger! If this king hadn't arrived in time today, you would probably have been tortured by that guy!"

Towards the end, Little Fox felt that it was not entirely right to say this. Her pair of lively eyes sized up Li Yueming and added, "However, you are indeed a little heaven-defying. I wonder how you grew up!"

Li Yueming smiled bitterly. "My dear Lord Snow Fox, don't tease me. Let's find a place to rest. I have some questions for you!"

The little fox's background was definitely not simple.

This was something that could be seen from the entrance of the God Burial Ground that the Su Clan's worshippers had left behind.

Moreover, the spirit beasts in the Hundred Thousand Mountains were basically unable to speak. Until now, Li Yueming had only seen the little fox and the wolf king able to speak. Even the giant bear, who was at the peak of the Nirvana realm, seemed unable to speak.

All kinds of signs were enough to prove that the little fox was special. If Li Yueming was not wrong, the little fox might have some inexplicable connection with the person in the God Burial Ground.

The little fox glanced at him and snorted. "Now, this king has already bet all his assets on you. Even if you don't ask, this king will tell you everything..."

At this point, she paused.

His pair of lively eyes glanced at Shu Tian and Li Wujiang who were behind Li Yueming and continued, "But forget about the two guys behind you. It's not a good thing for them to know too much because they're too weak."

Li Yueming didn't say anything.

Shu Tian and Li Wujiang felt their faces burn.

If someone else had said that they were weak, the two of them would probably laugh coldly.

After all, the weakest among them was at the initial stage of the Nirvana realm. It was already difficult to find a match in this world.

But now, it was Little Fox who said this.

She was a super big shot who had withstood the combined attacks of the Great Zhou Ancestor, Great Ming Ancestor, and the other two Great Qin Ancestors. Even the two followers behind her were at the peak of the Nirvana Realm.

Therefore, let alone the little fox saying that they were weak.

Even if he pointed at the two of them and scolded them, he would probably have to lower his head and accept it.

Seeing the awkward atmosphere, the younger Shu Tian said in embarrassment, "That... Senior is right. Junior will go back and recuperate first. If you have any instructions, you can come and find me!"

With that, he slipped away without looking back.

He had no choice but to stay here and be humiliated!

The remaining Li Wujiang looked around and said, "Uh, I came out in a hurry today and forgot that I still have clothes to confiscate at home. I'll go back first before it rains!"

He then said to Li Yueming, "Good grandson, this old man will wait for you to come back in the ancestral hall. Our Li family's grand ambition has just begun!"

Li Wujiang also slipped away.

Li Yueming didn't stop him.

Whether it was Li Wujiang or Shu Tian, they were both heavily injured in this battle.

It was good to go back and recuperate now.

Moreover, it was indeed not appropriate for him to get too involved in the matter he wanted to discuss with the little fox.

Seeing the two of them leave, Little Fox turned around and said, "Let's go back to the snow mountain with me!"

Li Yueming nodded without saying anything.

One man and three beasts walked towards the Hundred Thousand Mountains.

Chapter 673: Sweep the Six Nations and Unify the World!_1

Not long after the three beasts and one person left the battlefield.

The secret agents of Great Qi, Great Qin, and Northern Ice River Town all rushed to the battlefield outside the Hundred Thousand Mountains.

When he had shattered Ji Fengyue's spirit qi shield, the power that had exploded out was simply too great, and the shattered spirit qi spread out over a large area. Great Qin, Great Qi, and Northern Ice River Town all felt that something was amiss.

Only then did the higher-ups of the various countries send a large number of secret agents to investigate.

However, when they arrived at the scene, both sides had already left.

Therefore, the group of secret agents who had arrived late could only look at the mess on the ground with their mouths agape.

What exactly happened here?

Why was it that the soil in the depths of the earth had surged to the surface, and there was not a single intact tree within a radius of nearly a thousand miles?

Could it be that the Earth Dragon's Reversal had erupted?

For the weak scouts, the scene before them was really difficult to understand.

As a result, the first thing they thought of was not the work of human strength, but the once-in-a-century turn of the earth dragon.

In their opinion, only such a natural disaster could cause such a terrifying scene.

However, the only thing that puzzled all the spies was: If it was really as they had guessed, and the earth dragon had turned over, why was there such a dense spiritual energy fluctuation here?

The chaotic wisps of spiritual energy in the air were emitting a terrifying pressure, constantly telling them that what was happening here was not ordinary.

The scouts investigated for a while but did not find any evidence that could directly prove what had happened here.

Thus, he could only report truthfully.

After the scouts left, the herbalists nearby who sensed the abnormality also rushed over one after another to investigate.

As a result, everything that happened outside the mountain inevitably spread to the outside world.

Everyone is confused

There were no records of earth dragons turning over.

Then what was the reason for the barren land thousands of miles away from the Hundred Thousand Mountains?

However, no matter how the outside world speculated, they would not be able to get any answers at this moment. In the end, as time passed, the impact related to this matter would gradually spread to the whole world ten times, or even a hundred times.

Deep in the snow mountain.

The bone-chilling wind whistled. The world was white and silent. Li Yueming and Little Fox came to the cave where she had always lived.

In the previous battle, the little fox had also suffered considerable injuries.

At this moment, he was lazily lying on the chair.

Li Yueming sat down beside him. He didn't waste any time and asked a question that had been buried in his heart for a long time,""What exactly is the so-called 'him'?"

The little fox thought for a moment before saying,"Who knows what 'he' is? This is beyond my knowledge!"

Hearing this, Li Yueming was stunned. He thought that Little Fox would be able to give him a reliable answer to this question. He didn't expect that she didn't even know herself.

Sensing the strange emotion in his eyes, the little fox rolled her eyes and said unhappily,"Hey, hey, hey, are you thinking too highly of this king? Although this king is indeed very awesome, I was not personally involved in that war after all..."

" Besides, apart from 'them', who knows what 'them'?"

Li Yueming nodded.

What Little Fox said made sense.

However, since the little fox was not related to the concept of ”

Then why was there a pattern similar to the little fox on the door to the God Burial Ground?

Li Yueming told the little fox what he saw and heard when he entered the God Burial Ground under Su Xuan’s lead.

At his current level, there was nothing in the world that was worthy of his curiosity.

Moreover, the little fox was a beast king in the Hundred Thousand Mountains. It was impossible for her not to know about the God Burial Ground in the depths of the mountains.

As expected, after hearing that Li Yueming had entered the God Burial Ground, the little fox’s expression became a little strange.

After a moment, he said,” No wonder you suddenly asked about this king’s background after coming out of the Hundred Thousand Mountains. You really saw something in the God Burial Ground, right?”

Li Yueming nodded.

Seeing this, the originally lazy expression on the little fox’s face suddenly disappeared. It revealed a rare serious expression and said,”Since you already know enough, there’s no need for this king to say any more unnecessary nonsense!”

“The picture you saw on the door of the God Burial Ground wasn’t this king, but this king’s mother!”

“This king’s mother was called the ‘Extreme Cold Snow Fox’ from the distant outer realm. She was the servant of that person in the God Burial Ground.”

“This king was born when my mother was about to die. After I was born, I inherited some of my mother’s broken memory fragments. What this king is telling you now is also what is left behind in the memory fragments.”

Li Yue Ming glanced at the little fox.

No wonder Qi Fan, a veteran reincarnator, had always been obsessed with Little Fox.

It turned out that the little fox’s mother was from the powerful extreme cold snow fox clan.

Li Yueming had never come into contact with this race before, but he had heard its name on the forum.

Therefore, he could react immediately now.

Little Fox paused for a moment and waited for Li Yueming to recover before continuing,””About 20,000 years ago, a universe level true treasure appeared in the universe that could unravel the mysteries of time!”

“After the news of the birth of the supreme treasure spread, it immediately became the fuse of a war that swept through the universe!”

“Under this premise, this king’s mother followed the master of the God Burial Ground and the faction behind the master of the God Burial Ground to fight countless enemies...”

“Mother and Master are both very powerful. The moment they attacked, they attracted the enemy’s attention. In order not to hurt the innocent, the mother and master left the battlefield and fought with the enemy!”

” In the end, Mother and Master were unable to fight against four hands with two fists. They were chased by the enemy all the way to the depths of the starry sky and were defeated in hatred.”

“When they were on the verge of death, they happened to pass by this planet. The terrifying aftershock of the battle almost wiped out all the life on the surface of this planet.”

“You should know about this, right? Back then, the one that was exterminated was the Ancient Great Gan!”

“And now, the extremely cold snow mountain you are standing on is the place where my mother died. As for the endless volcano that is always boiling in the depths, it is the place where my master died.”

Hearing this.

Li Yueming’s heart trembled even more.

No wonder he always felt that this world was full of strangeness. The level of the power system was always high and low. It was because it involved the ultimate masters who could fight in the universe!

However, this could not explain all the doubts in Li Yueming’s heart. Therefore, he thought about it and asked, “If that’s the case, then what about the war between the Human Sovereign Tiandu Clan and the Insect Race? Was the ‘Him’ that the Six Nations believed in the same as the one that destroyed this world?”

Li Yueming asked one question after another.

The little fox rolled her eyes again and said, “How do you know all these? This King was still in a deep slumber 10,000 to 20,000 years ago. The reason why I can tell you so much now is because I inherited my mother’s memories. Otherwise, this King might not even know more than ordinary people!”

After hearing her reply, Li Yueming realized that he had lost his composure.

However, there was nothing he could do about it. It was because he had too many doubts in his stomach that he would unconsciously ask questions as long as he found a channel.

The information provided by Little Fox was very important to Li Yueming.

Due to his limited strength, the information that Li Yueming could investigate was limited to this world.

Similar to Little Fox's description of the birth of a Universal Treasure that triggered a shocking war, Li Yueming could not and had no reason to find any clues in this world.

Now that all the information was combined, it was actually clearer.

Because of the treasure, a universe level war broke out.

Both sides had sent out more than 2 universe level supreme warriors to fight.

One of them was defeated and fled.

When he happened to pass by this world, the aftermath of the battle between the Supreme-Being experts destroyed the Great Gan Lord Dynasty, which was once prosperous in the ancient times.

This was supported by the Su Clan's description of the disaster in the ancient Great Qian Dynasty: The ancient Great Gan did not slowly decline in the river of time. Instead, it suddenly collapsed overnight, turning the entire world into ruins. The reason why the Su Clan was able to survive and continue the bloodline of the ancient Great Gan was because the Supreme Martial Artist in the God Burial Ground had protected them before he died.

It was also because of this friendship that the Su Clan would pay their respects to the Supreme Being of Death in the God Burial Ground for generations.

After perfecting all the relevant information, it seemed very simple to come to these conclusions.

However, before Little Fox provided him with this information, Li Yueming would never have thought that this LV5 world would have so many implications.

Seeing Li Yueming suddenly fall into silence, Little Fox could not help but comfort him, "Alright, although I don't know the problem, I know someone who does. As long as I send you there, everything will come to light!"

"Besides, as long as you move your feet, you can guess that 'He' that the six dynasties believe in is definitely inextricably linked to the existence that killed my mother and the owner of the God's Burial Ground!"

"You killed 'His' believers in this world, and 'He' will definitely come to find trouble with you. Your current strength is enough to be called invincible in the world, but when faced with such an unreasonable existence, you still have no chance of winning!"

After saying that, she was silent for a moment before she said resolutely, "Give this king some time to prepare. Half a year later, this king will bring you to open the God Burial Ground. Even if that person is already dead, he will definitely leave something behind!"

Li Yueming didn't say anything. After a long time, he nodded.

After figuring out the mystery of the destruction of the ancient Great Gan.

Now, the only thing that troubled him was the true identity of "Him".

Li Yueming already had some guesses in his heart.

However, before there was any concrete evidence, subjective guesses and anomalies might not necessarily represent the truth.

After chatting about some trivial matters related to it.

Li Yueming bid farewell to the little fox and embarked on the journey back to Northern Ice River Town.

Although Northern Glacier Town was no longer the Starmoon Troop's headquarters in name, it still held the position of headquarters in the hearts of countless Starmoon Troop members and the people of the Northwest.

When he was still on his way back to Northern Ice River Town.

Rumors about the phenomenon outside the Hundred Thousand Mountains had already spread through the streets.

Most of the people thought that it was just an earthworm that had not affected a large area. Only a few people who had personally gone to the scene knew that it was not that simple.

According to the signs at the scene, there were several different versions of the rumors circulating in the outside world.

Chapter 675: Sweep the Six Nations and Unify the World!_3

Some people said that the super powerful spirit beasts from the Shiwan Mountain had appeared on the periphery and caused large-scale destruction.

There were also people who said that Li Yueming from Northern Glacier Town had triggered the wrath of heaven when he broke through here.

There were also people who said that it was because two incomparably powerful Qi Practitioners were fighting here, causing this place to be barren and the land to be overturned.

As the matter escalated, the upper echelons of the Six Nations began to panic.

Only a few people knew that the ancestors of the various countries had woken up from their slumber and went to Northern Glacier Town to kill Li Yueming.

But now that so much time had passed, the most terrifying thing was that there was no news from the ancestors.

Assuming that the terrifying marks on the periphery of the Hundred Thousand Mountains were left behind by the ancestors during the battle, then what was the current situation between the two sides? Why was there no news?

The various countries had never thought that the ancestors, who were the rule-makers of this world, would fail.

But now, he couldn't help but start to mutter.

However, just as they were feeling uneasy, a secret agent from Northern Ice River Town sent them a message that made them feel as if they were struck by lightning.

Li Yueming was back!

Once again, he appeared in Northern Glacier Town!

This information, which was usually unremarkable, was now so terrifying.

The upper echelons of the five nations couldn't help but feel their bodies turn cold, as if they had fallen into an ice cave.

How was this possible?

The ancestors of the various countries moved out together. Even the remaining two ancestors of the Great Zhou Dynasty went.

Logically speaking, even if Li Yueming had nine lives, it shouldn't be enough to kill the ancestors.

But why was he still able to appear now?

..

After Li Yueming returned to North Glacier Town, he didn't waste any time. He immediately gathered all the upper echelons of the Star Moon Army for a battle meeting.

Over the years, the Starmoon Army had expanded by millions.

Due to the death of the older generation of soldiers, the spirit and cohesiveness of the Star Moon Army had declined. Now, under the leadership of the founder, Li Yueming, they had returned to their peak state.

It was not an exaggeration to say that with the current speed of development, the Star Moon Army, which occupied countless fertile lands of the Great Zhou, would be able to form a force that could sweep across the world in just a few years.

However, Li Yueming couldn't wait that long.

Especially when the foundations of the various countries had already been destroyed.

It had been decades since the last time he stood here.

However, Li Yueming's influence in the Starmoon Troop had never dissipated.

Especially after Li Yueming came out again and led the Star Moon Army to defeat the Great Zhou, Li Yueming's personal reputation reached a peak.

Now, all the members of the Star-Moon House looked at him with admiration and respect.

Li Yueming looked around and saw the familiar and unfamiliar members of the Star Moon Army. He said, "After so many years, it's my honor to meet you again! I've already achieved half of the dream that I've described to everyone. The next goal should be to achieve the remaining half."

Upon hearing this, the eyes of almost every member of the Star Moon Army lit up.

Realizing the common ideal that they had made in the past, this belief had now become the greatest force that supported Northern Ice River Town and the Star-Moon Army to bravely advance.

‘Join the Star-Moon Army and become a part of Northern Ice River Town.’

It was also the best decision many of them had ever made.

However, under such circumstances, Li Yueming’s next order still shocked all the upper echelons of the Star Moon Army.

Many people could not believe their ears.

However, Li Yueming’s words were clear and clear, ””Pass on my orders. The main force of the Star Moon Army near North Glacier Town will attack Da Qi in the north, and the new force in Haojing will attack Great Song in the south! In the course of the battle, all the old forces that dared to stop the Star Moon Army’s attack were to be swept into the trash heap!”

“Sweep through the six countries and unify the world today!”

Li Yueming paused for a moment to give everyone some time to react. Then, he smiled and said, ””Trust me, everything will go smoothly.”

Chapter 676: Destroy Qi, Destroy Song, Invincible in the World!_1

When they heard that Li Yueming was going to mobilize the soldiers of North Glacier Town and Haojing to attack the northeast of Da Qi and the southeast of Great Song, they were shocked.

Including Ding Yi, Huang Li ‘er, and the others, everyone’s faces revealed an incredulous expression.

It had only been a few years since the Star Moon Dynasty was established. Even with the help of the Fire Sect, the Star Moon Army had cleaned up the remaining forces of the Great Zhou Dynasty very quickly. However, a few years was not enough to completely eliminate the ruling power of the Great Zhou Dynasty.

Although the number of soldiers in the Starmoon Troop had increased by several million compared to three years ago, the territory controlled by the Starmoon Troop had also expanded by several times.

Whether it was soldiers or talents, they were not what they had been when they ruled the northwest.

In summary, the Star Moon Empire itself was still unstable. It was already very good to be able to protect their territory from being disturbed.

Under such circumstances, how could they take the initiative to attack other Dynasties?

If this order was given by any other high-ranking officer of the Star-Moon Army, it would probably cause a huge uproar. There would be many voices of doubt and dissuasion from the internal department.

Only Li Yueming said it himself, so it didn’t cause chaos and doubt.

After all, Li Yueming was a well-deserved god within the Starmoon Army. He was the faith of all the members of the Starmoon Army!

Even so, hearing such an order was still hard for many to accept.

It was not easy for him to recover from Li Yueming's instructions.

As the current commander of the Star Moon Army, Ding Yi was the first to step forward and ask a key question. "Great General Li, is the objective of this battle to deplete the enemy's main force or to annihilate the enemy?"

Hearing Ding Yi's question, the other Star Moon Troop higher-ups couldn't help but secretly give him a thumbs up.

Great General Li had personally given the order. Currently, only Ding Yi and a few other people were able to raise questions in person. The others were either not experienced enough or of a low level.

And Commander Ding Yi's question was just right.

It not only highlighted Great General Li's unquestionable legal principles, but also cleverly understood Great General Li's true thoughts.

Li Yueming looked around and found that only a few of the Star Moon Army high-ranking officials in the entire Northern Ice River Town dared to look at him. He knew that the Star Moon Army he was familiar with in the past had already left the Northern Ice River Town.

Now, what was left behind was a colossus called the Star Moon Empire.

However, he did not say anything.

The history of mankind was a circle that could not be bypassed, and the hegemony of dynasties always repeated the process of walking from one end of the circle to the other.

Li Yueming founded North Glacier Town, wanting to do his best to break this historical law, but the facts now proved that he had only jumped from one circle to another.

After thinking for a while, Li Yueming said word by word, "Of course it's a war to destroy a country. Don't worry, everything will go smoothly!"

Hearing this, Ding Yi nodded and did not continue asking.

In fact, he didn't mean to be afraid of Li Yueming. The reason why he asked was just his usual style of doing things.

Countless lessons from the past had proven that Li Yueming's long-term vision was absolutely correct.

Therefore, no matter how outrageous Li Yueming's order was, Ding Yi, Huang Li'er, and the other elders would never doubt it. They would only confirm if they had any misunderstanding of what Li Yueming wanted to express.

However, he knew these things, but others might not know.

Just like how other people always had ulterior motives.

Northern Glacier Town moved very quickly.

After Li Yueming returned and gave his orders, it only took half a month for the million-strong Star Moon Troop to be reorganized. Like a swarm of locusts, they began to march toward the Great Qi and Great Song.

Such a big move naturally could not hide from the eyes of the outside world.

In the beginning, no one understood why the Star Moon Army, which had just established a country and was still unstable, suddenly reorganized its troops.

But as time passed, the Star Moon Army's strategic goal became clearer.

Only then did the outside world realize that the Star Moon Army was actually preparing to send troops to Great Qi and Great Song!

After repeatedly confirming that he was not hallucinating, it immediately caused a huge shock in the outside world.

"My god, is the Star Moon Army crazy?"

"If I remember correctly, Northern Ice River Town changed its name to Star Moon Dynasty and took over the land of Great Zhou only a few years ago, right?"

"At such an awkward time, it's fine if the Star Moon Empire doesn't take the opportunity to recuperate and digest the land and population they have seized. Instead, they actually took the initiative to send troops to provoke the Great Qi and Great Song...Wasn't it afraid of being attacked by all countries?"

"The Star Moon Empire is originally in a good situation. As long as they calm down and settle down for a few decades, they will have the military strength to fear nothing...Now that he dared to mess around like this, did Mo Fei become arrogant because the battle was too smooth?"

"Such an inconceivable order, I guess only Li Yueming has the ability to push it, right? What does Li Yueming want to do?"

"It's over, my brain is not working well enough. Who can tell me what kind of mental state Li Yueming is in to give such an outrageous order?"

Chapter 677: Destroy Qi, Destroy Song, Invincible in the World!_2

Seeing the Star Moon Troop gathering such a large number of troops and splitting them into two groups to attack the Great Qi Dynasty and Great Song Dynasty at the same time, all the people of insight in the world were dumbfounded.

They simply couldn't understand how the brains of the Star Moon Troop's higher-ups worked!

Logically speaking, it was impossible for a normal person to make such a brainless decision.

But now, the truth was right in front of them.

Putting aside the fact that the Star-Moon Army's current top priority was to digest the population and territory in their stomachs.

Even if Li Yueming had nothing better to do and wanted to attack a country, he shouldn't have split up and provoked two countries at the same time!

Back then, it was still so difficult to fight one-on-one with the Great Zhou!

Now that he was fighting on two fronts, did he think that he was not going to die fast enough?

That's why.

When they heard the news, no one in the outside world could understand.

However, it didn't take long for them to see a phenomenon that made them even more unable to understand.

Under normal circumstances, if the Star Moon Army was so arrogant and attacked two large countries at the same time without any concealment, the other five countries should have stood up and condemned them or even sent troops to stop the Star Moon Army.

After all, when the six countries were fighting for hegemony, no country would watch as one of them suddenly became the strongest.

The Star Moon Army's annexation of the Great Zhou was already enough for the other five countries to be on guard against a great enemy. Now, they even showed a stance of wanting to sweep through the six countries and unify the world...

Uncle can tolerate it, but Auntie can't tolerate it!

It was impossible for the countries to turn a blind eye to this and swallow their anger.

However, this was the problem.

This time, the Star Moon Troop had caused such a huge commotion. The millions of soldiers were extremely arrogant. Under the watchful eyes of everyone, they split into two groups and attacked the two neighboring countries at the same time.

The higher-ups of the other five countries were like roosters whose eggs had been crushed. They did not even fart!

It was truly unbelievable.

"Crazy, this is crazy. This world is crazy, and I'm crazy too!"

"Why don't the other five nations say anything? Is the Star Moon Army that terrifying?"

"My youth is over. I suddenly feel that this world is so unfamiliar..."

"The warlords are fighting for supremacy, and the six countries are fighting for hegemony... Is the chaotic era going to end in the hands of our generation?"

As countless people in the world muttered in disbelief.

This war that concerned the fate of the entire Nine Regions finally broke out without any accident!

The first to attack was the main force of the Star-Moon Troop heading towards Da Qi.

Most of them were the garrison troops of the North Glacier Town headquarters, and they were the more elite troops of the Star Moon Army.

Now that they were fighting, their combat strength was even more ferocious.

In just a month, they had broken through six cities of the Great Qi and thrown the Great Qi into chaos.

Many of Da Qi's high-ranking officials couldn't figure out how the Star Moon Army dared to do this.

However, in the face of the increasingly fierce attacks, they had to accept the fact that the Star Moon Legion was not only waging war on two countries at the same time, but their preparations for war were also not as simple as just attacking cities and seizing land.

They were really prepared to attack the capital and completely destroy Da Qi!

After confirming this point.

The officials of Da Qi finally abandoned their fantasies and prepared to fight.

But at this moment.

A shocking piece of news came.

An old man with white hair and a beard suddenly appeared in the palace of Da Qi. With just one hand, he directly smashed the entire palace into pieces.

At that time, Qi Tianzi was in the palace discussing countermeasures with the ministers.

When the disaster came, it was crushed by the collapsed rubble and bricks.

By the time the guards dug through the ruins, there was only a pile of flesh left.

This sudden blow stunned Da Qi and the entire world.

What the f * ck, what kind of situation was this?

However, before they could discuss it, the same news came from the Great Song.

The Star Moon Army attacked the Great Song, but still didn't get too big of a result.

However, the battle report from the front line still frightened all the civil and military officials of the Great Song.

Just as the Song Emperor was discussing with the ministers whether to prepare for the one-stop service of moving the capital, ceding territory, paying reparations, and seeking peace.

A crazed middle-aged scholar suddenly appeared in the palace.

With a wave of the scholar's hand, all the civil and military officials in the Great Song Dynasty were sent flying, falling everywhere. The Emperor of the Great Song was so scared that he wet his pants on the spot. The next day, he ordered the entire country to stop resisting and surrender to the Star Moon Army.

The two events happened at almost the same time.

The higher-ups in the country were instantly disintegrated.

In a time of war, it was a sign of national subjugation for a dragon without a leader!

In other words, didn't that mean that the war had already ended before it even started?

How was this possible?

The Six Nations had been passed down for so long, yet they didn't even have a single ancestor to guard the world?

Impossible!

Back then, wasn't the Great Zhou Dragon Emperor Ji Tian a manifestation of the trump cards of the six dynasties?

Why were they so easily defeated by the Starmoon Army?

Everything happened so suddenly that everyone in the world who heard the news went blank.

For a moment, he did not even know how to think.

They had lived for so many years and had shallow knowledge. They simply could not imagine that something like destroying two countries in a day could happen in reality!

Fortunately, Li Yueming took the initiative to step forward and said to the whole world, "Ever since the collapse of the Tiandu Dynasty, there has been an ancient ballad circulating in the Nine Prefectures that only those who exterminate the six dynasties and unify the world can ascend!"

Chapter 678: Destroy Qi, Destroy Song, Invincible in the World!_3

"However, since the birth of the ancient ballad, no one has ever achieved this goal. As a result, there are always endless wars and endless pain in the Nine Provinces..."

"Now that the Star-Moon Troop has already destroyed the three kingdoms, the remaining three kingdoms will be destroyed in the blink of an eye."

"However, the members of the Starmoon Troop who sacrificed their lives for the Starmoon Troop did not seek to transcend this world, but to create an utopia where everyone has freedom and equality, clothes to wear, and food to eat!"

"Now, I stand here to convey a message to all the people and soldiers in the world who are troubled by war: All those who put down their weapons and embraced the future, the Star Moon Army would let bygones be bygones. All enemies who dared to obstruct and resist would be killed by the Star Moon Army, no matter how far away they were!"

Li Yueming's words were very long.

But now, his influence was too great.

Therefore, even if it was just a tone verb, it was perfectly restored and conveyed.

As the saying goes, it's easy to see the King of Hell.

The high-level forces of the various countries that had stopped the Star-Moon Troop from sweeping across the world had basically been wiped out in the battle outside the Hundred Thousand Mountains.

The twelve Patriarchs were the core of maintaining order in the Six Nations.

Destroying them meant that the royal families of the six dynasties were basically empty shells.

In fact, there was no longer any foundation to rule the world.

As for those who were not finished yet, they only needed Li Yueming or the old ancestor to personally go to the imperial palaces of the various countries and they could easily deal with them.

Therefore, it was no longer the royal families of the various countries that were blocking the Starmoon Troop from unifying the world, but the middle and low-level nobles and aristocratic families of the various countries that had yet to figure out the situation.

Li Yueming's current rumors gave them an attitude of putting down their weapons and letting bygones be bygones.

Otherwise, this war to unify the Nine Provinces would probably be difficult to end in a short period of time.

As for whether they knew what was good for them, it was not within Li Yueming's consideration.

..

.0.

After the upper echelons of Great Qi and Great Song were forcefully disintegrated, the entire internal order was in chaos.

The generals and soldiers on the frontlines could not form a fighting force without clear instructions from the higher-ups.

Coupled with Li Yueming's personal promise to 'lay down their weapons and let bygones be bygones,' in the face of death and survival, the vast majority of people naturally chose survival without any suspense.

Under the influence of many factors.

The Starmoon Troop did not encounter much resistance and smoothly advanced all the way to the two kings' capitals.

It was only in the capital that they encountered some decent resistance.

Some nobles and aristocratic families who were unwilling to give up their authority had mobilized their forces to rely on the capital to fight against the Starmoon Army. However, this did not affect the unstoppable and powerful offensive of the Starmoon Army at all.

In the third month after the war began, the Great Qi and Great Song were officially destroyed.

At this point, three of the Six Nations that had been passed down from the Tiandu Dynasty had been destroyed, leaving only the terrified Great Qin, Great Ming, and Great Tang.

Now, no matter how stupid they were, they knew that their ancestors were probably all gone. Otherwise, Li Yueming would not have the courage to declare war on the world.

The problem was that the twelve elders at the peak of the Nirvana realm attacked together, but not only did they fail to kill Li Yueming, but they were all killed by him instead.

Did Li Yueming still have any opponents in this world?

Where should they go?

Chapter 679: Opening the God Burial Ground!

In just one day, the royal families of the Great Qi and Great Song had been reduced to ashes by the mysterious expert.

When the news reached them, the entire world fell silent.

How did this world end?

There was actually a mysterious expert who dared to barge into the imperial palaces of various countries and start a massacre?

Almost everyone's first reaction after hearing the news was disbelief.

Each country had been passed down for tens of thousands of years, and the order of the world had not changed much in such a long period of time. This was enough to highlight the transcendence of the six countries. How could they not have trump cards and be so easily slaughtered?

Such an outcome was hard to accept.

It was also very difficult to understand.

Countless rumors and gossip had enveloped the land.

At this moment, the group of people finally remembered what had happened outside the Hundred Thousand Mountains some time ago.

Back then, when the cause of the unrest was investigated, there was a brief discussion that was not mainstream. Some people speculated that the real cause of the sudden change in the Hundred Thousand Mountains was the war between the awakened ancestor of the Six Nations and Li Yueming of the Star Moon Army.

The process of this war was not revealed to outsiders, but who won and who lost would directly determine the fate of millions of people in this world.

From the conclusion that Li Yueming had appeared safely in North Glacier Town, it was very likely that the ancestors of the six countries did not get what they wanted. Otherwise, Li Yueming would not have appeared in North Glacier Town as if nothing had happened.

The only thing he couldn't figure out was whether the six forefathers had suffered any injuries.

However, because this inference was too shocking, it did not attract much attention from the outside world at that time.

But now, there were more and more signs that the order of this world seemed to have been completely reshuffled by most people.

The theory that the Six Nations were the supreme rulers of the world had finally been completely overthrown. Even the royal families of the Six Nations that had been passed down for tens of thousands of years had been washed away in this reshuffle.

What replaced it was the Star Moon Empire, which was getting more and more powerful.

As a result, the argument that was scoffed at by others appeared again and finally attracted the attention of people from all over the world!

If his deduction was correct.

Not long ago, the ancestors of the six countries who established the world order should have woken up briefly. They all went to Northern Glacier Town to encircle Li Yueming.

The primeval forest thousands of miles away from the Hundred Thousand Mountains was reduced to ashes under the battle between the two sides.

As for the final outcome of the war...

From the conclusion of the observations so far, it was estimated that Li Yueming had won a great victory and personally killed a group of old monsters who had stood in the clouds and overlooked the world for tens of thousands of years!

Such power was truly terrifying!

After disintegrating the superstructures of the various countries, the remaining scattered resistance basically could not cause too much of a storm.

In the next half a year.

The mighty Star Moon Army began to send talents and soldiers to various places to seize the occupied cities. Such a huge territory and the huge amount of wealth seized from the imperial palaces of various countries caused the power of the Star Moon Dynasty to rapidly expand.

The internal structure was changing day by day.

With Li Yueming in charge of North Ice River Town, as long as it wasn't 'him' personally taking action, the Star Moon Dynasty sweeping across the six countries and unifying the world would become the trend.

No one in the world dared to disobey.

Therefore, Li Yueming didn't waste his energy on those trivial matters that had already been settled.

After making his stance clear to the world, he began to consolidate his cultivation.

This world involved everything, and it was not as simple as it seemed on the surface. It was also because of this that Li Yueming could now practice to the peak of this world's theory.

But in the end, he did not dare to stop.

Just like that, half a year passed quietly.

In the sixth year of the Star Moon Dynasty's Northern Ice River Calendar, Little Fox, who had not heard from her for a long time, sent a message to Li Yueming, saying that she was ready to go to the Endless Volcano to open the God's Burial Ground. She urged Li Yueming to go to the Hundred Thousand Mountains to meet her as soon as possible after settling the matters in the outside world.

After receiving the news, Li Yueming ended his cultivation.

He brought Su Xuan, who had already become a part of Northern Glacier Town, and quietly left Northern Glacier Town on a normal afternoon. He headed to the Hundred Thousand Mountains to meet up with the little fox.

A few days later, he saw the Hundred Thousand Mountains getting closer and closer.

Li Yueming's eyes were filled with complicated emotions.

Ever since he entered this world, he had formed a very magical fate with this land.

Every time he stepped in or left, it seemed that his life had entered a completely different stage.

When Li Yueming entered the Hundred Thousand Mountains to find the little fox, he was surprised to find that the originally lazy little fox had transformed into a young woman in her twenties.

At a glance, the young lady's skin was as smooth as cream, her eyes were as clear as autumn water, and her skin under the beast skin coat was as white as the flawless snow on the peak of a snowy mountain. A pair of nimble fox ears was still retained on her black and yellowish hair.

After seeing Li Yueming, the little fox was very happy. She spun around and said, "How is it?"

Li Yueming didn't say anything.

After silently sizing him up for a while, he rubbed his chin and asked, "Your tail... Is it a plug-in or a pendant?"

The smile on the little fox's face immediately froze. After a moment, she replied, "This king is asking you how this body looks. Why are you paying attention to this king's tail?"

Chapter 680: Opening the God Burial Ground!

Li Yueming still felt that something was strange.

How should he put it... Why did it feel a little familiar?

Seeing his face full of doubts about life.

The little fox suddenly smiled again and said with a sly look, "Didn't you bring a girl with you last time? This King changed according to her appearance and even optimized it according to its characteristics... Do you like it?"

Listen to her announce her name

Li Yueming finally understood.

No wonder he felt that the little fox in front of him was a little familiar. It turned out that it was based on the change in Suxuan's appearance last time.

So Suxuan was still at the door!

Wasn't this awkward?

After some simple greetings, the little fox returned to its original posture.

Only then did the two of them get down to business.

In the past half a year, not only did Li Yueming think of all ways to increase his strength, but the little fox also did not idle at all.

She went to the place where her mother died and learned all the legacies left behind by the Snow Fox King. She also took advantage of this opportunity to successfully leave her infancy and enter adulthood.

Changing into a human form was one of the characteristics of an adult Extreme Frost Snow Fox. Only when the little fox's bloodline was concentrated after adulthood could it successfully open the door to the God Burial Ground.

Although this world had not yet deviated from the right track.

However, no one knew if 'He' would appear or when 'He' would appear. However, with just a little thought, one could guess that 'He' would probably be a catastrophe to the entire world.

Therefore, every minute and every second of time was precious and could not be easily wasted.

Three days later.

Li Yueming, Little Fox, Su Xuan, and the others arrived at the Su Clan.

Su Haotian led his clansmen to welcome them.

After sensing the unfathomable aura from Li Yueming's body.

Su Haotian couldn't help but feel speechless.

One had to know that the last time Li Yueming came here, although his strength was not weak, he was still very strong.

At least, he still dared to compete with Li Yueming.

But how many years had passed?

He had painstakingly studied it, but he had only broken through a major realm.

However, Li Yueming, who had similar strength back then, had already grown to the point where even a wisp of his aura could make his hair stand on end.

When he learned of Li Yueming's destination, Su Haotian wasn't surprised.

In fact, it would be strange if Li Yueming didn't come to a place like the God Burial Ground with his amazing talent and world-devouring mentality.

Su Haotian thought for a moment and said, "If it was decades ago, I would have advised you not to bite off more than you can chew. The existence buried in the God Burial Ground is not something ordinary people can reach!"

"But now that you have grown to a level that I can't predict, I won't say anything to persuade you. However, the Su Clan doesn't have a way to enter the core of the Divine Grave Burial Ground.!"

"Alright." Li Yueming nodded. "I just need to trouble you to bring me to the area where the God Burial Ground is located. I've already prepared the rest!"

The God Burial Ground was like an independent space that had no roots. It opened in different places every year. Only the clan leader Su Haotian, who had been worshipping the gods for generations, could accurately find its location.

Seeing how indifferent he was.

Su Haotian couldn't help but nod his head. He didn't waste any more time and directly led the group of people into the depths of the Endless Volcano.

Halfway through the journey, Su Haotian's gaze repeatedly swept towards the little fox.

In the end, he said with some uncertainty, "You... Are you the Snow Mountain Spirit Fox King? The only descendant left behind by that person?"

The little fox was originally a little listless as she squatted on Li Yueming's shoulder. She was used to living in the snowy mountains. It was her first time coming to the hot volcanoes, so she was naturally uncomfortable.

Upon hearing Su Haotian's question, the little fox's spirits were lifted. She raised her head and said, "This king is the real deal!"

Seeing that the little fox actually admitted it, Su Haotian's pupils could not help but contract abruptly.

Looking at the little fox on Li Yueming's shoulder, and then looking at the indifferent Li Yueming, Su Haotian was so scared that he almost jumped three feet high.

The Su Clan had lived in the Hundred Thousand Mountains for thousands of years, so they naturally knew a lot of information about the Hundred Thousand Mountains.

There were countless beast kings in the Hundred Thousand Mountains, but there was only one recognized king of the snow mountains, and that was the Spirit Fox King of the extremely cold snow mountains!

Moreover, it was because of the era's sacrifice to the God Burial Ground.

Su Haotian knew more than ordinary people.

The Spirit Fox King of the extremely cold snow mountain was the only bloodline left behind by the Snow Fox King, and the Snow Fox King was inextricably linked to the one in the God Burial Ground!

In other words, this little fox in front of them could be considered an existence at the level of their Su Clan's ancestor!

Of course, this was not the most ridiculous thing in his opinion. The most ridiculous thing was that such an existence was now lazily lying on Li Yueming's shoulder!

So this young man had unknowingly reached this stage?

No wonder he needed to find and enter the God Burial Ground!

He had complicated thoughts.

Su Fengtian brought the three of them to an altar.

This altar was not in the same place as the altar that Li Yueming had come to last time. It was obvious that it was because the God Burial Ground had moved.

After chanting an incantation and sprinkling a basin of fresh blood from the Su Family, the altar glowed brightly.
