

Maxing MT 681

Chapter 681: Opening the God Burial Ground

The portal that did not exist in this world suddenly appeared, and the surrounding time and space became somewhat distorted, emitting strands of terrifying fluctuations.

The last time he entered with the thought of giving up everything he had.

Li Yueming didn't have such a feeling.

However, as his strength grew stronger, he did not feel relaxed when facing this place again. Instead, he felt more and more terrified.

Just like in the past, Su Haotian maintained the passage outside. Only Li Yueming, Su Xuan, and the little fox went in.

After entering the entrance of the God Burial Ground, the temperature inside was even higher than outside.

Logically speaking, Li Yueming was already a peak Nirvana Realm expert, so his resistance to high temperatures should be much stronger than before.

But in reality, Li Yueming did not feel any difference.

This further confirmed Li Ming's speculation that the danger level of the God Burial Ground was not directly related to one's cultivation level. The dangers faced by Nirvana Stage cultivators and Return to Void Stage cultivators were the same.

The two people and one fox followed Su Xuan's directions and followed a path that had no end in sight.

After walking a short distance, Li Yueming and Su Xuan were already drenched in sweat.

Only the little fox was extremely unusual.

When she was outside, she felt that the temperature was very high and it was difficult for her to adapt.

However, after entering the God Burial Ground, she did not feel hot anymore. She was even full of energy. She took the initiative to jump off Li Yueming's shoulder and lead the way.

Even Suxuan was flabbergasted.

She had always thought that Concubine Su should be the one closest to the God Burial Ground in the world.

Because of this, the Su Clan was able to travel freely in the God Burial Ground.

But now that she saw the little fox, she knew that she was wrong.

The God Burial Ground was very lenient to the little fox. The little fox walked in front and did not even need to stop on the path that needed to be carefully searched and explored. After the thick fog that was filled with sulfur smell dispersed, a path would automatically be revealed.

The little fox felt like she had returned home.

The depths of the God Burial Ground was still desolate and desolate, with all living things dying.

Lava that was as red as blood flowed, and the surging lava emitted raging smoke.

Under the guidance of the little fox, Li Yueming and Su Xuan had a smooth journey. They arrived at the huge stone door in the core area of the God Burial Ground in less than one-third of the time.

Looking at the stone door that was as thick as a mountain in front of her, the little fox's originally excited face suddenly revealed a touch of sorrow.

The stone door was engraved with a huge image of an extreme cold spiritual fox.

If nothing went wrong, this should be its mother.

However, the problem was that the little fox had never seen her mother with her own eyes. Now that she had finally met her, it was a lifeless stone carving. They were separated by the furthest distance in the world.

Wasn't it cruel to her?

A sad look flashed in her eyes. The little fox restrained her emotions and turned to look at Li Yueming. "You guys retreat, I'm opening the door!"

Li Yueming nodded and took Su Xuan back dozens of steps.

After the two of them left.

Only then did the little fox turn around again. It used its sharp canine teeth to bite its forefoot, dripping dark red blood onto the stone.

Bit by bit...

As the little fox's blood seeped into it, wisps of blood-red light bloomed. The stone inscription in front of him seemed to come alive.

The huge and oppressive Extreme Frost Snow Fox suddenly opened its eyes.

Looking at the tiny little fox under his feet, his sharp gaze suddenly softened as he said softly, "So it's you... What, did you find someone you want to follow?"

Chapter 682: Our First Meeting!_1

The carving of the Arctic Snow Fox on the stone door emitted wisps of blood-colored light, as if it had come alive!

Looking at the little fox, the snow fox's eyes were very gentle.

Hearing her question, the little fox's emotions fluctuated. She paused and said, "You are... My mother?"

The Snow Fox replied softly, "I'm just a remnant. I'm stationed here to prevent unrelated people from disturbing the Lord's sleep." Besides, I haven't fulfilled my duty as a mother, so I don't seem to have the right to call myself that in front of you."

The little fox did not speak. After a while, she said, "In that case, please open the stone door!"

The Snow Fox's gaze swept past the little fox and did not linger for long before it swept its gaze towards Li Yueming and Su Xuan, who was beside Li Yueming. It then said, "You are my bloodline, and the man behind you has obtained the recognition of his ancestors. The two of you can enter!"

"As for the Su Clan...Forget it, considering that you have defended the mausoleum for the Lord, I will make an exception and allow you to enter once!"

As he spoke.

The snow fox phantom turned around and made a path for her. The door behind her that was blocked by a huge rock suddenly opened.

When the door was still open.

"Although my lord has fallen, he will not die so easily. What kind of opportunities you will have will depend on yourself." In addition, I have to remind you that no one has entered the Master's resting place for many years," she said with a faint expression. "I don't know if there was a spatial collapse or a space-time turbulence inside, or if something else had quietly entered."

"For the sake of your lives, you must not stray too far from the core region!"

After he finished speaking.

The door behind the snow fox opened almost at the same time.

A burst of fiery light burst out from inside the door. The light was so dazzling that even Li Yueming had to close his eyes.

After a long time, when they opened their eyes again, they realized that the scene in front of them was completely different from the scene in their memories.

If the outer area of the God Burial Ground gave people the feeling that it was an underground place with lava flowing, it would not be a place that was filled with lava.

Then, the God Burial Ground in front of him was a world independent of time and space.

Broken, cold, desolate...The ground was covered with shattered hard rocks and all kinds of messy iron fragments.

Li Yueming was fine. After all, he had experienced this kind of space jump scene countless times. Even if he was not mentally prepared this time, he only showed a slight surprise.

He quickly calmed down.

However, it was obvious that neither Little Fox nor Su Xuan had such an experience.

At this moment, they were all dumbfounded by the scene in front of them.

How should he put it?

This place was too big!

It was many times larger than they had imagined.

All kinds of fragments and iron wreckage gave them the illusion that they were at the end of the universe.

They finally came back to their senses. The three of them remembered the instructions of the snow fox and restrained their curiosity to investigate.

They moved together and slowly passed through the ruins that were filled with debris and debris.

If there was a core location in this world, then the direction they were heading in must be the most likely to be the core area, because they could see wisps of starlight on both sides.

The surrounding scene also seemed very real, and there was nothing strange about it.

However, just as the three of them were still muttering.

The scene in front of him suddenly became clear.

At this moment, everyone finally saw something unbelievable!!!

In the deepest part of the broken and silent space, there was an ancient and huge stone coffin. Its length, width, and height had already exceeded the limits of what one could see!

And it seemed that because it was too huge, there were no patterns on the ancient coffin that looked very rough and mottled.

If not for the fact that the coffin's shape was too eye-catching, no one would be able to associate the huge rock in front of them with the coffin.

How should he put it? This ancient coffin looked like a dead world from afar!

Su Xuan, who had the lowest realm among the three of them, only raised her head to look at the stone coffin. She was so suppressed by the strands of aura that were inadvertently leaking out of it that she could not speak.

After struggling for a long time, she said with a red face, "Is this the coffin of that person? The god we have guarded for generations... Just a coffin was so huge?"

The little fox glanced at Su Xuan. Although she was also surprised, she did not want to show her fear in front of a junior like Su Xuan.

Thus, he forced himself to show a disdainful expression of rolling his eyes. He looked at Su Xuan as if he was looking at a country bumpkin who had never seen the world. He said proudly, "Master and mother are both universe level supreme beings, how could a little girl like you who has never seen the world understand how terrifying they are?"

Suxuan lowered her head when she heard that. Her pretty face also turned red. It was unknown whether it was because she was shocked by the huge coffin in the distance or because she was mocked by the little fox, or perhaps both.

Only Li Yueming was relatively calm.

Although the coffin was indeed huge, the Supreme Being of the Bug Tribe he had seen before was even bigger than this.

If this Supreme Martial Artist died in the war with the Zergs, then it was normal for him to have a big coffin.

The three of them looked around for a moment and decided to walk in the direction of the coffin.

Chapter 683: Our First Meeting!_2

There was no other way. This world was too dilapidated. There was not a single place that could contain opportunities. If he did not approach the giant coffin, he would not know where to look for opportunities.

As they got closer and closer to the giant coffin.

The three of them could clearly feel that the environment around them had changed drastically.

The closer he got to the huge coffin, the smaller the coffin that was as huge as a star in the universe became. At the same time, the surrounding temperature became more and more chaotic.

The cold and hot airflow was like a knife, cutting people all over.

The distance was getting closer and closer.

The three of them discovered that there were actually two rivers flowing beside the giant coffin.

The other was a river of fire that was as red as blood and illuminated the entire sky red.

The boiling lava was the life of this river.

The terrifying heat emitted from the flowing process caused the space to distort.

The other was the bone-chilling Yin River.

The Yin River did not freeze.

However, the coldness was so dense that it was enough to make the little fox, who lived in the extremely cold snow mountain all year round, shiver.

Two rivers, one hot and one cold, flowed around the coffin like the dividing line between life and death.

It was unknown where the river originated from, but the final destination was undoubtedly the giant coffin that had become normal size.

The three of them still did not feel anything when they were more than ten meters away from the coffin.

However, just as the three of them were about to move forward to investigate, Li Yueming stopped for some reason.

Little Fox and Su Xuan stopped at the same time and looked at Li Yueming with confusion.

Li Yueming didn't say anything. His eyes were fixed on the corner under the coffin.

Only then did the two of them follow his line of sight.

Only then did he realize that there was a black bloodstain at the bottom of the coffin!

The black blood was at the bottom of the coffin, and only a small corner was exposed. If one did not pay attention, they would not be able to see it.

Black blood actually flowed out of the coffin that buried the 'god'.

This discovery made the three of them feel uneasy. Only then did they stop the urge to get close to the coffin and investigate. Instead, they circled around the coffin to observe.

After walking half a circle around the coffin.

Only then did the three of them realize that there was an altar on the other side of the coffin.

There were many things piled up on the altar.

This discovery made the three of them feel refreshed.

After entering this place for so long, the three of them had not seen anything of value other than the ruins.

It was indeed a little different from what he had expected.

Now that they could see an altar, perhaps they could fulfill their wishes.

They carefully bypassed the two rivers. The aura of ice and fire emitted from them made people feel very uncomfortable, but it was still within the range that the three of them could endure.

After entering the altar.

The first thing that entered the eyes of Li Yueming and the other two was a giant stone slab.

A human figure was carved on the stone slab.

In addition, very dazzling, very dazzling, very dazzling, very dazzling, very dazzling, very dazzling.

Compared to the inconspicuous marks on the bottom of the stone coffin, the bloodstains on the stone slab were much clearer and more ferocious.

The black blood stained the slate, causing the carvings on the stone slabs to be severely corroded. In many places, only a few shallow marks were left. One could only see a rough outline, but one could not see its true appearance.

The three of them stopped in front of the stone slab. They looked at the stone slab in front of them with strange expressions and did not know what to do.

Li Yueming could not help but frown. The black blood stains on the stone slab made him feel a familiar aura again.

If he remembered correctly, the blood that had dripped from his body when he had supported the ancestors of the six dynasties to use the so-called 'God's Descent' secret technique to raise their combat strength to the peak had also been black.

Although the blood that the ancestors of the six states had dripped was far from being comparable to the blood that was now on the stone slab, it was still not enough.

However, there was no doubt that the two originated from the same source.

This discovery undoubtedly proved that the so-called 'Him' who controlled the ancestors of the six dynasties had a deep connection with the existence that killed the master of the God Burial Ground.

Or perhaps the two were the same person.

This discovery didn't make Li Yueming feel relaxed, but it made his heart even heavier.

If the other party was really a Universe Grade Supremacy, then even if the owner of the God Burial Ground was resurrected, he wouldn't be able to turn the situation around, let alone the fact that he was only at the Nirvana Stage.

Perhaps it was safer to stop the losses and run as soon as possible.

However, Li Yueming believed that it shouldn't be that ridiculous.

After all, the Reincarnation Mark only needed Reincarnation Points. It was not ridiculous enough to issue a mission that was completely impossible to complete and let the Reincarnators die in vain.

He looked at the slate that was stained with black blood.

For a moment, the three of them were in a dilemma, not knowing what to do.

In the end, it was the little fox who spoke up, "This stone slab is humanoid, but the material and carvings are not much different from the stone door guarding the outside world. Why don't the two of you try to use your blood to awaken it?"

This proposal was still considered reasonable.

Suxuan volunteered to be a test subject. She bit her finger and used her spiritual energy to control the blood flow to the stone slab.

This action did not trigger a response from the stone slab at first.

Only after a lot of blood had been transferred did the stone slab finally flash with a dim light.

Chapter 684: Our First Meeting!_3

But in the end, it did not come to life like the stone slabs outside.

Suxuan took a few steps back with a pale face.

Clearly, she had failed.

It was unknown whether it was because the stone slab was too damaged or because her blood could not resonate with the stone slab.

Without hesitation, Li Yueming also went forward and bit his finger to try.

This time, when his dark red blood was injected into the stone slab, the stone slab finally showed obvious changes.

More and more red light was flashing continuously, as if it was charging the stone slab. Even the figure engraved on the stone slab emitted red light several times, as if it wanted to wake up.

However, the three of them waited for a long time. Even when Li Yueming's body could not withstand the speed of blood loss, the figure pattern on the stone slab still did not come to life as before.

It was probably because the damage was too serious and the divinity in the patterns was lost, causing the stone slab to completely become a common object.

However, just as Li Yueming was about to give up...

A voice suddenly came from the stone slab. The dignified and imposing voice sighed and said, "I've waited for you for many years. The methods I left behind have all been destroyed in the river of time, but I didn't expect that one of them would still come in handy!"

The moment this voice sounded.

The three of them, including Li Yueming, were stunned.

Waiting for you for many years?

Who was he waiting for? Li Yueming?

Did the other party know that they would come here?

The three of them were full of questions, but the owner of the voice seemed to have no intention of explaining. He just continued, "Traveler from another time and space... Perhaps you are full of questions about everything around you, but please don't panic!"

When he heard the words 'Otherworldly Wayfare'.

Li Yueming's entire head buzzed as if it had exploded, so much so that he didn't hear a single word of his comforting words.

He did not expect the other party to be able to see through his identity as a reincarnator at a glance. After all, under the disguise of the reincarnation mark, even the world consciousness of their respective reincarnation worlds might not be able to accurately identify their existence!

But now, a spiritual remnant that could not even be considered a 'human' knew.

This was undoubtedly a huge shock to Li Yueming.

A creature that could clearly recognize the existence of a reincarnator at a glance represented a huge power that meant that the other party could kill Li Yueming on all levels.

Even the reincarnation mark could not protect him from returning.

The unlucky reincarnators who occasionally died in the prime material plane were also killed because they encountered such unreasonable existences. This resulted in them being unable to return and dying completely.

To reincarnators, this was simply a nightmarish existence.

Fortunately, the stone slab in front of him was only a trace of spiritual residue and not a real creature. Moreover, the reincarnation mark did not give any warning, so it should not have any malicious intentions towards him.

Suppressing her somewhat uneasy heart, Li Yueming calmly replied, "Since you know everything, there's no need for me to ask anymore, right? Please tell me what you can answer me, what you can give me, and what you need me to do!"

The existence in the stone slab seemed to reveal a smile.

Although he couldn't see or touch it, Li Yueming could still clearly sense that the other party was 'watching' him.

After a moment of silence, the voice said,"" Everything needs to be told from a very long time ago. Traveler from another world, this should be the first time 'we' have met you!"

Chapter 685: The Truth Behind the Mark of Reincarnation!_1

This is the first time we've met?

The words described by the existence in the stone slab stunned the three people present. Su Xuan and Little Fox did not need to say much as they were completely confused by these words.

Only Li Yueming, who knew the truth, felt even more shocked when he heard this!

'We' were the mysterious force that wrote to Li Yueming.

Its existence could even bypass the Reincarnation Mark and directly send the letter to the mailbox to contact Li Yueming without alerting the Reincarnation Mark.

According to Li Yueming's guesses.

The other party should be related to the Reincarnation Mark, or even the creator of the Reincarnation Mark.

Otherwise, there was no way to explain how she could contact him so smoothly.

However, the information revealed by the stone slab in front of him mercilessly broke Li Yueming's imagination!

The so-called 'us' were not mysterious existences from the prime material plane, but creatures with physical bodies in the public reincarnation instance dungeon!

This news was too shocking.

Li Yueming couldn't even imagine who could do all of this.

He seemed to have sensed Li Yueming's shock.

The remnant of the spirit engraved on the stone tablet smiled and said,""I know you have a lot of questions. Since that's the case, let me introduce myself. My name is Su Wu, and I am the commander of the Order Alliance's third army from the end of the sixth era to the beginning of the seventh era. I am in charge of setting up a defense line to defend against the Zergs from the third universe nest!"

After hearing Su Wu's self-introduction.

This time, not to mention Li Yueming, even Little Fox and Su Xuan could not help but widen their eyes.

To them, the terms 'sixth and seventh epochs', 'cosmic calendar' and 'commander-in-chief of the Alliance of Order' mentioned by the other party were too distant.

He couldn't even imagine how magnificent it was.

However, one thing was certain. The expert behind the stone tablet in front of him was very powerful. Even in the entire universe, he was close to being invincible!

But now, such an existence could only talk to them through this stone tablet.

If it was not unexpected, it would have died in this world for many years.

In the end, Li Yueming was the first to calm down. He looked at the ancient stone tablet in front of him and said, "So what's your relationship with the Reincarnation Mark? And how did you know that I would come here?"

Hearing this, the spiritual fluctuation in the stone tablet paused for a moment before sighing and replying, "Is the mark of reincarnation the result? Forget it. To be able to see you now is the greatest success for the Order Faction after putting in countless efforts!"

"I don't have a strict relationship with the 'Reincarnation Mark' that you mentioned. If I have to say it, I might be considered one of the core people involved in this Universe Grade Space-Time Treasure. Of course, I'm only responsible for collecting the materials. It's not up to me to interfere with the specific research!"

Universe level spacetime treasure.

This was the second time Li Yueming had heard such a term.

The first time he heard it was from the little fox.

According to Little Fox's description back then, her mother and the existence in the God Burial Ground fought with the enemy over a Universe-Grade Space-Time Treasure. In the end, they died here with hatred.

It could be said that the stone tablet in front of him was right.

In this way, the spiritual fluctuation contained in the stone tablet in front of him was undoubtedly the little fox's master.

However, Li Yueming still noticed a problem.

If the remnant spiritual fluctuation of the stone tablet in front of him was the little fox's master, then the little fox's master was the little fox's master.

Then where did the black bloodstains and stains on the stone tablet come from? What was the relationship between the Reincarnation Mark and the so-called Universe Grade Space-Time Treasure?

"My time is limited, so I can't answer all your questions. Next, I will try my best to explain the whole thing clearly. This is the final mission that my remnant soul has to complete!"

The remaining spiritual waves on the stone slab continued, "Before we talk about the universe level time space treasure, I have to tell you about the grudges between the bug clan and the other races in the universe!"

“In short, the war between the bug clan and the various races in the universe has lasted for seven eras. In these seven eras of war, the various races in the universe only obtained some advantages in the first three eras.”

” As time passed, the Zergs evolved stronger and stronger through the terrifying reproduction speed that was like a natural disaster. In the next few eras, all the major races were forced to retreat in front of the Zergs without any resistance!”

” The end of the Third Epoch and the beginning of the Fourth Epoch were the times when the races shed the most blood. One after another, the incomparably prosperous star areas were taken away by the Bug Tribe and turned into nourishment for their race to multiply and grow.”

All the races in the universe, who had suffered heavy losses, were under pressure. They began to unite to form an alliance of order to jointly resist the invasion of the Zerg.”

“After the establishment of the Alliance of Order, the barbaric expansion of the Zergs has finally been curbed to a certain extent!”

“However, this is not enough to tilt the scales of victory. The Zerg race is still evolving. At the beginning of the fifth era, the Supreme Bug Queen appeared on the frontline of the Alliance of Order. Through its terrifying fertility, it gave birth to several types of super powerful Zerg soldiers that were famous throughout the world. It forcefully changed the situation on the frontline that was originally evenly matched, directly causing the first line of defense set by the Alliance of Order at the edge of the universe to be broken!”

Chapter 686: The Truth Behind the Mark of Reincarnation!_2

” At the end of the fifth era, under the attacks of more and more Queen Mothers, the Alliance of Order suffered serious blows one after another...If no one stood up to turn the tide, the Alliance of Order might not even last until the sixth era!”

“However, during this most silent period of time in the entire universe, two incomparably dazzling new stars appeared among the originally not so dazzling human race!”

At this point.

Su Wu’s voice paused on the stone slab.

Li Yueming could clearly feel the other party’s nonexistent gaze sizing him up. He couldn’t help but reveal a puzzled expression and asked, ””And then?”

What Su Wu introduced was the background of an unknown universe.

Even the units were calculated in eras.

In the face of such a terrifying amount of time.

Li Yueming really didn't know what he had to do with the above content.

Su Wu obviously ignored him and continued, "These two new stars are brother and sister. They came from a very inconspicuous small place. They transcended their respective small worlds and wandered in the myriad worlds. They grew all the way and finally became the strongest existences in the Order Alliance!"

"You might be wondering why I'm telling you this, right? Then I'll introduce you to another existence. You should understand!"

"At the end of the sixth era, my superior, who is also the commander-in-chief of the Alliance of Law, was called Li Xiyue!"

The moment Li Xiyue said those three words.

Li Yueming froze on the spot.

Not to mention his body, even his mind stopped thinking for a moment.

Su Wu's voice paused for a moment, giving Li Yueming some buffer time before he continued, "Not only that, but the brother of the Commander-in-chief was also the number one person in the Alliance of Law at that time. Guess what his name was?"

Li Yueming didn't say anything.

However, in her heart, she already had the answer.

Su Wu didn't say it out loud and changed the topic. "The beginning of the 6th era should have been the most dazzling period of time for humanity in the universe. The names of humans shone like stars, illuminating the universe that was originally dead and cold due to the invasion of the Zerg!"

"In the sixth era, the war between the bugs and the Alliance of Order reached its climax. Every moment, millions of lives were fighting against the hideous bugs in the desolate lands at the edge of the universe, swearing to protect the last remaining pure land!"

"The human constellations have also made their move. Commander-in-chief Li Xiyue personally killed more than ten Zerg Empresses, and her brother was even more ferocious among ferocious people. In order to protect a small blue planet, he directly charged into the depths of the Zerg mother nest, killing six Saint Emperors in a row and destroying twelve grade-8 Zerg nests!"

"Such a powerful battle force made the Bug Tribe feel terrified. Even though the Bug Tribe used a massive bug tide that could destroy one's heart and twelve Saint Emperors to successfully kill that powerful existence, the shadow that it left behind for the Bug Tribe was engraved in their bones. As a result, the Bug Tribe didn't dare to take a single step into the territory of the Order Alliance from the sixth era until the end of the sixth era!"

” Unfortunately, at the beginning of the seventh era, the Bug Tribe army appeared in the vision of the Alliance of Law again, but it was even stronger than before.”

Hearing this.

Not to mention Su Wu, who had personally experienced the changes of the times.

Even Li Yueming himself felt deeply powerless.

The existence of such a race was a terrifying thing.

There were countless of them.

Furthermore, he was always getting stronger through rapid transformations.

Just like a cockroach that couldn't be killed, as long as it was given a little breathing time, it could recover its vitality or even become even more terrifying.

” Many people in the Alliance of Law and Order have given up hope in this hopeless war. They have even suggested giving up on their base camp in the universe and moving to a small plane, hoping to survive.”

“In the end, it was the commander-in-chief who personally vetoed this suicidal proposal. After realizing that they could not escape, everyone placed their hopes on the Commander-in-chief, hoping that she could come up with a plan to turn the situation around!”

“After evolving to that extent, the Zergs were no longer something that the Alliance of Order could resist.”

“The only way the Commander-in-Chief could think of to win was to turn back time to the Sixth Epoch and lead the entire Alliance of Order to accompany his brother in a fight to the death against the Zergs.”

” You should have roughly guessed what happened after that. The Alliance of Order used all their power to search for the legendary supreme treasure that could reverse time and space and change the past, the Tesseract. They wanted to use the Tesseract to create a space-time treasure that could change the past in the future.”

” In this way, not only will we be able to find a way to rewrite the fate of that person in countless time nodes, but we can also gather the countless generations of powerhouses of the entire human race together and train more talents for the Alliance of Order to face the ultimate war that concerns the fate of the universe!”

This is the plan to raise the queen because it is not determined, the factor is too much, even once it is unable to carry out the face of shelshelving. I chose to believe in the Commander-in-Chief's judgment, so I never gave up. In the end, I became the first person to find the Tesseract!”

“Even though I still couldn’t escape from the Zerg’s ambush, I still managed to deliver the supreme treasure to the Commander-in-chief. Now, to be able to see you at this time, this plan may be more successful than I expected!”

Hearing this.

Li Yueming’s confused expression gradually turned serious.

Chapter 687: The Truth Behind the Mark of Reincarnation!_3

If he was still confused by the various wars that were based on eras, then he would be able to tell that this was the case.

Now, Li Yueming already knew the general context of the whole matter.

But even so, he still felt that it was a little illusory.

So the Tesseract was the mark of reincarnation in his hands?

Although it seemed unbelievable at first glance, Li Yueming realized that there was nothing wrong with it.

When the reincarnation mark was awakened, an awakening ritual was needed.

Although the Prime Material Plane had always believed that the talents in the Rebirth Mark were randomly refreshed, it was still a pity.

However, Li Yueming had always been skeptical about this.

Assuming that the mark of reincarnation was an ‘item’ created by a higher existence, then there must be a reason for its existence. How could it randomly give ordinary people talents without any meaning?

If it was as Su Wu had said, the reincarnation mark would be given to the known future strongest human beings, everything would make sense.

However, Li Yueming still had a question in this situation. He asked, “Why is my talent different from others?”

Su Wu’s spiritual fluctuation was a little confused. After a moment, he explained, “I don’t know what your so-called talent is. The only thing I can tell you is the concept of the Rubik’s Cube Project!”

“Hmm, let me think... If I’m not wrong, in order to avoid being discovered by the Zergs, you should be in a relatively independent and sealed small space. Other than the Tesseract, nothing else should be able to enter your world!”

” Since the Tesseract is called the ‘Reincarnation Imprint,’ it should be an extension of the second version of the plan. The so-called talent should be something that the Awakened possess. The Tesseract only allows the Awakened to obtain it in advance, thereby greatly reducing the growth rate of the Awakened! Under such

circumstances, it was normal for your talent to be different from others. With your uniqueness, it would be strange if your talent was the same as others!"

"The rules set by the Tesseract will lead you to different worlds in different space-time and universes for training. After returning, it will absorb a portion of the power from the world it is in and return it to you!"

"When you are strong enough, when the day of your destiny arrives, you will bear the hopes of the past and the future, and save this universe that is about to turn into the ashes of the Zerg army!"

This explanation should be the clearest answer that Su Wu could give.

After all, he was not directly involved in the specific matters of the Tesseract. He was only one of the few people who knew about it.

Li Yueming touched his chin. His heart was already in a mess. He finally calmed down and asked, "So you're here just to tell me about this?"

"Yes!" Su Wu nodded.

"Then what would have happened if I hadn't come today?"

"It doesn't matter if you didn't come. Anyway, to you, I'll always be here. "Even without me, there will still be others who will tell you. The mark will guide you, and you will understand everything sooner or later." At this point, Su Wu smiled bitterly. "But how should I put it? Your appearance here is actually not a good thing!"

"What do you mean?" Li Yueming asked with a puzzled expression."

"If you see me, you see me, you die, you are in the beginning of the 7th era, you are in the middle of the battle. However, because you touched the Tesseract, you left a time anchor point in your body. Even if you die, as long as your body does not disappear, this anchor point will always be fixed here!"

"Even though the Saint Emperor who killed me had no choice but to leave because of his injuries, he must have left a backup plan in this world. Once he senses your appearance, he will definitely not let it go, so you might be killed!"

Li Yueming, [Concealment.]

Why didn't you say so earlier?

Chapter 688: In the sea of energy, the road ahead was fiery and bright!_1

The universe level supreme being who fought against Su Wu and won.

To Li Yueming, it was an unimaginable existence.

When he heard that the other party had already set his eyes on him, Li Yueming immediately thought of the unknown 'Him'.

If there was anything in this world that could match the image of the Supreme Insect that Su Wu had mentioned, then 'He' who stood above the world and overlooked all rules and order was undoubtedly the most likely existence!!!

He thought about how he might have been an enemy of such an existence all along.

Li Yueming could not help but feel a lingering fear in his heart.

After all, the other party was an existence that could really cut off the connection between the Reincarnation Mark and the Reincarnators and kill them in the Otherworld.

It was no wonder that the Mark of Reincarnation would raise the rating of this world to the most terrifying level 9.

He could feel the panic in Li Yueming's emotions.

Su Wu's remaining spiritual fluctuations emitted a wave of calming energy as he said, "Judging from your reactions, perhaps you have already come into contact with it in the outside world? Is it impossible to return to the sealed world you are in now?"

Li Yueming's expression wasn't too good. He nodded and said, "If nothing unexpected happens, we have indeed been targeted. The Reincarnation Mark reminds us that the world's level is too high and we can't take the initiative to leave..."

Su Wu smiled. "That old bug has some plans. But you don't have to worry. In terms of strength, I'm much stronger than that bug. I lost because I couldn't fight against four people with two fists."

"It left behind a backup plan. How could I not have made any preparations?"

Hearing that Su Wu was prepared, Li Yueming finally calmed down a little.

After all, he came here to find more information and to see if Su Wu had any backup plans.

Although there had been some twists and turns, everything had finally returned to the right track without any problems.

At this point, Su Wu's remaining spiritual fluctuation on the stone slab seemed to be a little tired. He said intermittently, "The backup plan left behind by that old monster is very powerful, but in the end, it's not its own body. It will still be obliterated by time and the world's consciousness! After so many years, its strength should have dropped drastically!"

"If you came to this world thousands of years ago, perhaps I wouldn't be able to do anything to that old monster. But now that so many years have passed, it's still unknown who will win!"

"I'll help you open the stone coffin later. There's some power left behind by me and the Extreme Frost Spirit Fox Race's supreme expert after our deaths. You can go in and absorb it!"

“As for how much you can absorb and whether you can successfully defeat that old monster, I cannot guarantee it. I can only guarantee that you will obtain the strength to protect yourself and not die here...”

When he said this, Su Wu’s voice paused. He ‘looked’ at the little fox not far away and smiled. “Little guy, your mother left a portion of the remaining energy inside. You can also go in and absorb a portion after the coffin is opened!”

The little fox was stunned when she heard this. After a moment, she said excitedly, “Thank you, Senior!”

Li Yueming thought for a while and bowed, “Thank you!”

Although Li Yueming didn’t know how much of Su Wu’s words could be completely trusted, the other party didn’t make things difficult for him and even prepared a way out for him. He still needed some respect.

Hearing the little fox’s words of gratitude, Su Wu did not express much.

However, Su Wu’s remnant soul seemed to tremble when he heard Li Yueming lean over to thank him. After a long while, he recovered from his stiffness and said reluctantly, “I dare not...”

The conversation ended here.

Su Wu’s remnant soul had no intention of continuing to speak.

He gathered the rest of his soul power, turning it into a hazy white halo that shot towards the stone coffin not far away.

A moment later, the three of them heard the ancient stone coffin not far away open and close.

“I’ll leave you here.” Su Wu’s weak voice sounded. “My remaining soul will protect you for the last time. Go!”

Hearing this, the three of them bowed respectfully to the stone tablet.

After the ceremony, Li Yueming and Little Fox slowly got up and walked towards the stone coffin.

Only Suxuan could only stay at the same place to keep watch for them because she did not have the inheritance.

After the stone coffin was opened, there was no stench or unpleasant smell coming from inside.

On the contrary, the closer he got, the more he could smell the fragrance in the air.

Before he got very close, Li Yueming felt that his pores had involuntarily opened up, and even his skin was involuntarily swallowing the rich life aura in the stone coffin.

This dispelled Li Yueming’s last bit of worry.

After all, he was still a little skeptical about Su Wu’s words and did not completely believe them.

When the two of them approached, a seven-colored light bloomed from the stone coffin.

Looking at the stone coffin, he realized that it was not as narrow as he had imagined.

Instead, it was a hazy sea of clouds, and the material that formed this sea of clouds was all extremely dense life essence!!!

This rich life essence was completely different from the spiritual energy of the mainstream cultivation in this world.

If there was a difference, the life essence in the stone coffin could be transformed into any kind of energy after being refined, but the spiritual qi could only be spiritual qi and could not be transformed into any other energy.

Chapter 689: In the sea of energy, the road ahead was fiery and bright!_2

Moreover, the energy contained in the life essence of the sea of clouds in the coffin was much more than the energy contained in ordinary spiritual energy.

After refining a small amount of life essence, it could turn into a large amount of spiritual energy.

Compared to the sea of clouds formed by the extremely terrifying life essence in the coffin, the Earth Vein Divine Spring that Li Yueming had absorbed outside the God Burial Ground was not worth mentioning.

One was in the sky and the other was on the ground.

The little fox was obviously frightened as well. She looked at the endless sea of clouds in the coffin and said, "This... So many? When will we be able to absorb all of it?"

No one could answer this question.

He would probably only know the answer after trying.

He did not hesitate.

The little fox was the first to jump in and began to absorb the energy in the cloud sea.

Li Yueming quickly followed him in.

If the little fox felt that the rolling essence energy in the sea of clouds was almost endless, then it would be impossible for her to get rid of it.

Li Yueming didn't think so.

After all, the little fox specialized in cultivating spiritual energy. Even if it tried its best to absorb it, there was still a limit to the amount of spiritual energy that could be contained in its body. If he could not break through successfully after reaching the upper limit, he might explode and die if he continued to devour.

However, Li Yueming didn't need to consider this problem.

Although he also cultivated spirit qi, the source of his super high combat strength came from his powerful physical fitness and the various human body treasures that had been developed.

After transforming the life essence into spiritual energy, he would reach the peak of the Nirvana realm. Even if he could not advance further, Li Yueming could still refine this huge life essence into the human body's treasure.

One had to know that Li Yueming had been mistreating his human body treasures all these years.

Other than endlessly extracting its power, there were not many resources to nourish it.

Now, with so much Life Essence, Li Yueming could go back and polish the human body treasure again to perfection.

Even if there was still energy left, Li Yueming could swallow it and store it in his body as the initial power to open the next human treasure.

It could be said that as long as Li Yueming was given enough time.

He could definitely transform to a very terrifying level in this coffin.

As for how terrifying it could be, it would depend on how magical the human body treasure would be.

The only thing Li Yueming was worried about was the lack of time.

After all, no one knew when 'he' would wake up.

..

Just as Li Yueming and the others were still starting their final cultivation in the God Burial Ground...

The turmoil in the outside world did not end there.

Li Yueming had opened up a new era. This new era belonged to Northern Ice River Town, to all the members of the Star Moon Army, and to all the people of this world.

After taking down the two ancient imperial cities of Great Qi and Great Song, the two ancient imperial cities of Great Qi and Great Song were destroyed.

The insufferably arrogant Star Moon Dynasty had finally stopped its conquest of the Six Nations and entered a long period of digesting its gains.

Originally, the Star Moon Army was just a small kingdom in the northwest of the Great Zhou Dynasty.

It could not even be considered a dynasty. It could only be considered a separate force.

However, it was this originally unremarkable small force that had erupted with terrifying vitality over the years. Now, it had successively annexed the Great Zhou, Great Qi, and Great Song, three huge ancient countries, and leaped onto the world stage, becoming the second and only powerful country in the world.

The remaining three nations of the six nations.

Even the once arrogant Great Qin Empire could only tremble in fear in front of the Star Moon Army.

One could imagine how big the Star Moon Troop had been in the past few years.

There was a price to pay for this rapid expansion. However, the cake that had been made over the years was big enough, and there were not many people who had a share of the cake. This eased the internal conflicts of the Star-Moon Army and did not cause too many consequences.

However, the territory they currently ruled had already reached the limit of the Starmoon Troop.

It might make people envious and jealous.

However, this had indeed become the biggest problem that the Star-Moon Army had to face.

That was because there were too few talents who could do things!

As a talent cultivation base, Glacier Town had been drained of blood in the past few years. As long as a student could read and write, and had learned a certain amount of knowledge, they were basically sent to all parts of the world.

Even so, there was still not enough talent.

As a last resort, the Star Moon Army could only set up schools and post recruitment notices everywhere to deal with the current situation of the lack of talents.

Of course, these were not the most important points that the entire world paid attention to.

After all, the entire world knew that the Starmoon Troop was in desperate need of talent. Any young man with an idea would choose to give it a try.

But most importantly, the order issued by the Star Moon Army did not discriminate between different social classes. Anyone who had the ability, knowledge, and moral integrity would have a chance to seek an official position in the Star Moon Army after passing the assessment set up by the Star Moon Army.

This kind of operation, in the current world that emphasized the difference between families and blood relations, caused unimaginable fluctuations!

Almost all the poor children in the world who had no way to seek an official position were in an uproar. They rushed toward the territory that the Star Moon Army claimed to rule like carps crossing the river.

Of course, this action was naturally cursed by all the nobles and aristocratic families in the world.

If not for the fact that the Starmoon Troop's fists were too strong,

It was so hard that even if they used everything they had, they would not be able to fight against it.

Chapter 690: In the sea of energy, the road ahead was fiery and bright!_3

At this moment, the great clans would not just be beating their chests and stomping their feet as they complained. They would have already rolled up their sleeves and prepared to fight the Starmoon Army to the death.

But even if the great clans didn't dare to openly oppose it...

However, he had secretly used countless methods to stop it.

However, no matter how much they jumped up and down, the Star Moon Army had already made up their mind, and their execution was incomparably efficient and powerful. The great clans that stood in their way were like grasshoppers after autumn, unable to change the general trend of the world.

Star Moon Dynasty Northern Ice River Calendar Year 12.

The first round of the talent recruitment plan had achieved very good results.

All the positions in the three dynasties that the Star-Moon Army ruled were filled by new recruits.

At this point, the Star-Moon Army had officially completed the unification of the three countries.

After the initial reorganization, the town that was originally shrouded in the dark clouds of war finally breathed a sigh of relief.

But even so, the world was still impoverished.

Years of war had consumed too much food, and the young laborers of every household had suffered heavy casualties.

These were wounds that could not be healed in a short period of time. Many of them could only be healed with time.

Therefore, in the first few years, the Star Moon Dynasty did not launch a drastic reform. Instead, they chose a relatively gentle recuperation and large-scale tax reduction to allow the people to recover from the shadow of war as soon as possible.

This decision was obviously much better than the mess he made after going on stage.

After five to six years of recuperation.

The fertility rate of the people under the rule of the Star Moon Dynasty had increased significantly in recent years.

It was also in these few years that the Star Moon Dynasty completely took over the mess in various places and began to reform and recover.

In the 18th year of the Northern Ice River Calendar of the Star Moon Dynasty, the Star Moon Army began to set up schools throughout the country.

The first classes that were set up in various places were only the elementary classes, adult classes, and official education classes. The elementary classes recruited children around the age of six in the country for pre-school education, while the adult classes provided professional skills for adult adults.

As for the Official Cultivation Class, it was a method to restrict the officials in Northern Ice River Town. If they wanted to continue being an official, they had to meet the set assessment standards before they could be promoted.

After annexing three countries, the Star Moon Army had obtained countless wealth and was now rich. In a short period of time, they did not have to worry about the money and food that they had invested not being able to produce.

To put it simply, I have money and can afford it!

In order to let the people of the country feel the power of education and not resist the act of building a school, Northern Glacier Town also sent the people of Northern Glacier Town to various places to publicize.

Not only would he teach them the techniques of scientific farming, but he would also promote all kinds of excellent grain seeds.

After a few punches, the people were dazzled.

As a result, many people did not know what Star Moon Empire was up to.

Only some knowledgeable people knew what this meant.

The Star Moon Empire was digging up the roots of those great clans!

If these reforms could be successfully implemented, then the entire world would probably become...

Unimaginable!

These plans were not personally led by Li Yueming.

However, it was clearly written in Li Yueming's future plans for the Star Moon Army.

However, the main executors had changed from Li Yueming to Li Ruxing, Li Ruyue, Ding Yi, Huang Li 'er, and the other high-ranking officers of the Star Moon Army.

Under the push of these two aspects.

Everything was progressing in an orderly manner. The road ahead was fiery and bright!

..
