

## Maxing MT 691

Chapter 691: Overturn everything and change the future from the past!\_1

Star Moon Dynasty Northern Ice River Calendar Year 22.

Under the systematic implementation of the reform, the land under the control of the Star Moon Dynasty began to emit vitality.

Humans were strange creatures.

He would reminisce about the past.

He would also embrace the future.

The smoke of war had only dissipated for more than ten years. The people under the rule of Great Qi, Great Zhou, and Great Song had already forgotten the mountains of corpses and seas of blood. They had begun to walk towards this new era that was started by the Star Moon Dynasty.

Falling flowers blotted out the moonlight.

Under the mottled ancient tree, there were countless sorrowful thoughts.

Under the Star Moon Empire's relentless efforts, the citizens slowly understood and accepted the Star Moon Army's dream of achieving the Great Unity of the World.

How can I have thousands of houses to shelter the poor people all over the world?

In the utopia.

Utopia...

An ideal ideal country!

The people did not understand what a utopia was.

However, the simple goal proposed by the Star Moon Empire was for everyone to have food to eat and clothes to wear. Having someone to support when young, having someone to rely on when old... They could still understand!

Moreover, unlike the Great Song, Great Qi, and Great Zhou, the Star Moon Empire did not only talk about their ideals, but they also took action!

Whether it was schools or high-yield crops, whether it was clean government or tools to increase production efficiency.

They all declared the determination of Star Moon Empire.

How long had it been since Star Moon Dynasty conquered Great Qi, Great Zhou, and Great Song?

At most, it would be less than thirty years!

However, in just 30 years, the lives of the people under his rule had been significantly improved, especially after the various reforms were launched. The villages and towns in various places were even more different every day.

Under such circumstances, the efficiency of the people's support was terrifying. The favorability of the people towards the Star Moon Army rose almost in a straight line.

Although the people were not smart, they were not stupid either.

They might not listen to the government's propaganda. After all, it was not the first time the government had deceived them. It was a problem if they could even get one or two points.

However, if it was also spread by the aunties of the seven villages and eight villages, the credibility of it would obviously become very high for them.

As a result, the people of the Great Qin, Great Ming, and Great Tang had been waiting anxiously for this day.

There were even quite a number of people who brought their families across the border and sneaked into the region where the Star Moon Dynasty was located, just to seek a better life.

It could be said that the Star Moon Empire had perfectly explained to everyone what the people's hearts were like in the Sage Book.

..

The vast and mighty reform in the outside world was still in full swing.

In the depths of the Hundred Thousand Mountains, in the God Burial Ground.

In the stone coffin with the universe inside, Li Yueming and the little fox were sitting cross-legged on the ground. Countless life essence surged from all directions. If one looked carefully, one could see that their skin was moving.

He didn't know how much time had passed.

Finally, the little fox frowned.

After coughing twice, he woke up from his meditation.

He glanced at the boundless sea of clouds and said reluctantly, "So much energy. It's really an unimaginable great fortune... Unfortunately, this king has already made great progress and it's difficult for him to advance further. If he wanted to continue devouring, he would have to break through and ascend. However, how could it be so easy to break through and ascend?"

As she spoke, she looked at Li Yueming, who was still unconscious not far away. She couldn't help but gasp, "If my perception is correct, until now... The amount of Life Essence you absorbed should be ten times more than mine!"

"I really can't imagine what kind of monster you are!"

After saying that, the Little Fox did not disturb Li Yueming's meditation and left the coffin in a flash.

She had no choice. If she continued to stay here, she felt that she was about to explode from the huge force!

He didn't know how Li Yueming did it.

The amount of life essence he had absorbed was more than ten times that of hers, yet he still acted as if nothing had happened.

Although Li Yueming had not woken up from his cultivation state, his five senses were sharp enough to capture the movements of the outside world.

After realizing that the little fox had left, not only did he not slow down the speed at which he absorbed the life essence, but he also accelerated the circulation of the Star-moon Art, making the devouring efficiency even faster.

I don't know, it's not an illusion

In the process of absorbing these life essences, Li Yueming also keenly captured some cultivation techniques and cultivation experience fragments.

If nothing went wrong, it should be the remnant of the power that was engraved in the depths of Su Wu and the little fox's mother's power.

This could be considered a pleasant surprise.

Li Yueming successfully broke through to the late stage of Nirvana Realm based on some of the experiences he had gained.

What was worth mentioning was that Su Wu's cultivation experience actually coincided with Li Yueming's in many places.

For example, he pursued the ultimate individual power and did not rely too much on external forces.

There was even the development of the human body's treasures, as well as the repeated hammering of various powers.

All of this was in line with Li Yueming's thoughts.

However, as a universe level supreme warrior, Su Wu's cultivation experience was clearly many times more complete than Li Yueming's.

Even if it was just a few fragments, it was enough to give Li Yueming a lot of inspiration.

The reason why Li Yueming was devouring life essence at a faster speed was because he was preparing to concentrate his strength to break through to the realm above Ascension after gaining more experience.

Chapter 692: Overturn everything and change the future from the past!\_2

Once, twice, thrice.

In the process of constantly trying to break through, Li Yueming repaired the meridians of the spiritual energy circulation in his body again and again, but he still could not break through the door of the realm that was as stable as Mount Tai.

This made Li Yueming even more confused.

As a thief who had stolen countless fortunes of heaven and earth, Li Yueming was already enjoying the treatment of the chosen one of this world.

Therefore, the barrier of the ascension realm should no longer be a reason to stop him from continuing to break through.

But now, with the support of endless life essence, why couldn't he break through the realm above Nirvana?

After failing again and again, Li Yueming was increasingly certain that there was definitely something wrong with the cultivation system left behind by the ancient Tiandu clan's Human Emperor. It was just that with his current ability, he was still unable to fully detect the problem.

But no matter what, Li Yueming didn't have the habit of leaving any hidden dangers.

Especially in the current situation where the enemy was right in front of them, a little negligence and hidden dangers could lead to a disaster, not to mention such a fundamental thing.

There was no room for sloppiness.

Therefore, after discovering these problems in the process of breaking through to the realm above ascension, after a long period of deduction and pondering, he finally understood the situation.

Li Yueming decided to go for broke and build up again. He would completely give up on the current cultivation results and open up a new cultivation path based on his own understanding of 'Dharma' and 'Dao', as well as the experience gained from the remaining life essence fragments of Su Wu and the little fox's mother!

This was undoubtedly a huge project.

It was undoubtedly a huge risk to put forward the agenda at this critical moment of time.

Fortunately, ever since Li Yueming entered this world, he had been deducing and thinking about the feasibility of this path.

Therefore, he already had some clues.

The reason why he hadn't tried it yet was that the time wasn't ripe yet, and he lacked an environment like today where the energy was extremely abundant.

What he wanted to do was to create a cultivation path that fused the treasures of the human body with the spiritual energy meridians.

Perhaps this was the only way to break the shackles of the path of Qi Refinement in this world.

After all, the treasure of the human body was the foundation of his existence.

Thinking of this...

Li Yueming Ming finally stopped hesitating and started to take action.

Time passed in the blink of an eye.

More than ten years had passed in the outside world.

Li Yueming, who was in the coffin, had almost exploded twice and almost died three times. He had almost been played into a piece of trash by himself. Finally, he had completely broken away from the path of Qi Refinement left behind by the ancient Human Emperor Tiandu Clan and became a pure body cultivator.

Of course, this didn't mean that Li Yueming's cultivation was in vain.

The meridians in his body that had been widened by the spiritual energy were only connected to the human body's treasures. It did not mean that he could not mobilize the power of the spiritual energy between heaven and earth. It was just that the spiritual energy had been completely stripped out of Li Yueming's flesh and blood and was no longer a part of Li Yueming's body.

Li Yueming could still draw spiritual energy into his body to exert terrifying power, but the spiritual energy did not come from the storage in his body, nor could it invade his body. It was purely borrowing the spiritual energy of heaven and earth.

As long as the Heaven and Earth Spiritual Energy was not exhausted, Li Yueming could still use the power that was incomparable to before. If the Heaven and Earth Spiritual Energy was dense enough, Li Yueming could use even more power!

However, the operation of throwing away the spiritual energy and connecting the human meridians with the human body's treasure increased the power of the human body's treasure by several times!!!

This was a huge difference in the increase in Li Yueming's combat strength!

Of course, the chain effect brought about by breaking and then building was not just that.

In the process of transforming his body's cultivation system, Li Yueming had faced near-death situations several times. Now that he had survived, Li Yueming realized that his understanding of the human body's treasures had become even deeper!

The seventh human body treasure that was originally still blurry and unknown suddenly became clear.

Therefore, Li Yueming put all his energy into developing the seventh human treasure.

His intuition told him that this new human body treasure might bring him an even more terrifying improvement!

Spring passed and autumn came, cold and heat alternated.

Another ten years passed in the blink of an eye.

At this moment, the sea of life spiritual energy in the stone coffin had become much more sparse.

One had to know that the little fox had only absorbed 1% of the life essence of the sea of clouds when she almost exploded. But now, in order to open up this new human body treasure, Li Yueming had absorbed most of the life essence in the stone coffin in one go.

After many attempts, he finally obtained the long-awaited result ten years later!

Li Yueming called this new human body treasure trove the Four-sided Polar Dragon's Hidden Treasure. It was a brand new human body treasure trove in Kamitani.

In fact, it was not quite accurate to say that it was a pure human treasure.

The Four-sided Polar Dragon represented the four limbs of the human body, while the Dragon represented the spine of the human body. These five parts were the foundation of the human body that could dominate the world.

If the God Returning Treasury was an acupoint that gathered a person's heart, body, and spirit, then the God Returning Treasury was a place where a person's heart, body, and spirit were gathered.

It controlled the power of the human body, the source of power, and the words.

Then, the Four-sided Polar Dragon's Hidden Treasure represented the five parts of the human body.

It symbolized the foundation of the human body's ability to be higher than the sky.

When this treasure was developed to the extreme, the human body could evolve all kinds of techniques with just its hands and feet. Just its every move could destroy the world.

Chapter 693: Overturn everything and change the future from the past!\_3

The boost to combat strength was simply too terrifying!

Li Yue Ming was very satisfied with this result.

At the very least, he didn't waste so much life essence to nourish his body.

In the remaining time, he continued to consolidate the Four Polarized Dragon's Hidden Treasure.

However, while Li Yueming was still immersed in it, a terrifying fluctuation suddenly came from the outside world.

Li Yueming Ming opened his eyes and appeared outside the stone coffin. He looked at the stone tablet that was originally carved with Su Wu's picture and saw that for some reason, there were many cracks on it!

As if it had felt Li Yueming's gaze, the stone tablet suddenly shook twice, emitting a faint golden light, outlining a dreamy transparent phantom.

The mysterious man looked at the boundless darkness above his head and then at Li Yueming, who had a serious expression on his face. He slowly said, "The old man has already discovered this place. You don't have much time!"

Li Yueming didn't panic.

After all, there was no use panicking at this point. Everything that could be prepared had already been done.

Next, he could only do his best and leave it to fate.

However, for some reason, Li Yueming felt that Su Wu, who was not far away, was somewhat familiar.

Seemingly sensing the doubt in his eyes, Su Wu, whose figure was blurry, revealed a faint smile. "Master, to be able to see you here... That's great!"

When he heard the word 'master', Li Yueming was stunned. He suddenly shivered and said in disbelief, "You... Are you extraordinary?"

When he said the word 'extraordinary'.

Li Yueming could feel his voice trembling.

However, 'Su Wu' did not answer his question. Instead, he said slowly, "The ending of this life is too miserable. All my hopes can only be placed on you, master...I hope that at the end of time, my unfilial disciple will be able to meet you again!"

As soon as he finished speaking, the faint radiance on Su Wu's body finally shattered completely.

It turned into a huge trident and rushed into the sky."Old thing, so what if you left behind many backup plans? Let me blind one of your dog eyes first, and then Master will crush your plan!"

The trident gently slashed a hole in the sky of the God Burial Ground, and it disappeared from his perception almost instantly.

In that instant, he could vaguely see a huge blood-red eye appear from the tear in space!

Li Yueming stood on the ground in a daze, unable to come back to his senses for a long time.

Su Wu didn't admit that he was Han Bufan.

However, Li Yueming was not stupid. Before he saw the shadow, he had not thought about this problem.

Now, he already knew everything.

Under normal circumstances, even if Su Wu was a universe level absolute warrior, he shouldn't be able to leave behind such a life essence pool that was so compatible with his body.

For example, the little fox could only absorb the life essence left behind by the Extreme Frost Snow Fox, which was a direct relative.

However, Li Yueming and Su Wu were not related to each other. Under normal circumstances, the cultivation technique that the two of them used and their understanding of Dao and Law would deviate.

Even if Li Yueming could inherit and absorb a part of the power that did not conflict with each other, it was impossible for him to be like this. Basically, there was no conflict.

Not to mention, when he absorbed the experience fragments, Su Wu's cultivation philosophy was similar to Li Yueming's in many ways. Even if there were some subtle differences, they were only similar.

At that time, Li Yueming thought that everything was just a coincidence.

But now, he knew that all of this was not a coincidence at all. It was because this Supreme Martial Artist who called himself 'Su Wu' was his disciple in the martial dao world, Han Bufan!!!

It was precisely because of this.

Only then could he absorb the life essence in the stone coffin without any obstruction.

The reason why Han Bufan changed his name and even corroded the portrait engraved on the stone tablet with black blood, leaving only a remnant soul to hide, was because he did not want Li Yueming to discover the truth in advance!

After all, if Li Yueming knew that it was his disciple who had died, he would not be able to absorb the remaining life essence without any psychological burden.

Was it because the outcome of walking normally was too miserable, so he thought of ways to use the treasure to travel back and forth in time, trying to change the future from the past?

In other words, as long as he seized every opportunity to strengthen himself and rewrite the fate set in the reincarnation mark again and again, he would have a chance to reverse what had already happened in the future?

Thinking of this, Li Yueming couldn't help but clench his fists.

He didn't know how bleak the future would be, but as long as everything hadn't happened yet, there would still be a chance for change. At the very least, for the sake of Han Bufan, he had to pass this public reincarnation instance dungeon beautifully!

The stone tablet shattered, and the remnant soul within turned into a trident and disappeared.

The God Burial Ground lost its stable foundation in the small world and began to tremble violently.

Li Yueming waved his hand and used a powerful force to dig a tunnel leading to the outside world. He took the lead and stepped into it before saying, "Let's go and end everything!"

Chapter 694: Blood Rain, High in the Sky!\_1

After the stone tablet shattered, the God Burial Ground became unstable.

Li Yueming slowly came back to his senses. He looked at the darkness that could no longer be seen in the sky and did not speak for a long time.

A moment later, he punched out and opened a path to the outside world.

While he was tricking Little Fox and Su Xuan into leaving this unstable space, Li Yueming sorted out his thoughts based on the information he knew so far.

After all, the information he had obtained earlier was too chaotic. If he did not sort it out clearly, he might still not be able to understand what was happening.

Everything should have started from the war between the Alliance of Law and the Zergs.

The Alliance of Order occupied the main universe and shared the vast sea of stars. For a long time, the factions of the Order races were numerous, and the internal conflicts were also very serious.

As for the Zergs, they originated from the desolate planets at the edge of the universe.

In order to survive on the barren planet, the Zerg had evolved into a terrifying civilization through continuous genetic improvement: It could devour all substances that could be devoured, even rocks could be digested into energy.

After obtaining the energy, the mother bug would then produce a terrifying number of offspring to continue the optimization of the genes.

This cycle repeated itself, and the number of Zergs grew rapidly like an explosion. Soon, they became one of the overlord races in the universe.

When their numbers reached a certain level, the Zerg, which had been wandering at the edge of the universe, began to be dissatisfied with the current situation. They then began to devour the rich and

vibrant territory in the center of the universe. In this process, they gradually became a cosmic disaster that terrified countless races!

Wherever the army passed by, the energy of the entire universe would be swept away by it, turning into an even more terrifying and huge race. Almost no resources would be spared.

Under such circumstances, the races of the universe could only unite.

That was how the Alliance of Law and Order came into being.

However, at this time, the Zerg race had already grown to an unstoppable level. Their natural catastroph-like expansion efficiency and evolution speed were not something that a group of ordinary races in the main universe could resist.

In the tug-of-war that lasted for several eras, the Alliance of Order was defeated step by step, and countless star areas fell into the hands of the Zerg.

Li Yueming didn't know how he had grown up before the timeline changed.

However, according to Han Bufan's description, he could roughly guess that he had transcended from his original world and wandered into other worlds, eventually growing to a level where he could take charge of his own affairs.

During this process, he made many friends and witnessed many joys and sorrows.

In the end, he represented the human race and became the supreme leader of the Alliance of Order.

Even though he, the supreme leader, was ultimately unable to resolve the bug race's corruption of the universe, and even ended up dying in the war with the bug race.

However, because he had used his terrifying personal strength to enter the Zerg nest and severely injured many of the Zerg's supreme champions, even causing the Zerg to be unable to recover for an entire era, he had always been regarded as the leader of the Alliance of Order who had the most hope of defeating the Zerg. The era he was in was also known as the last opportunity for the Alliance of Order to counterattack the Zerg.

After this defeat, the Zerg finally entered a mature stage. The Alliance of Order had completely lost the power to stop the Zerg's attack.

After discovering that he was powerless on the battlefield.

Li Xiyue decided to look for the legendary Universal Space-Time Treasure, the Tesseract.

Using the Spacetime Power contained in the Tesseract to form a Spacetime Anchor Point, one could achieve the heaven-defying operation of changing the past in the future and then changing the future through the past.

This plan was known as 'Plan A of Salvation.'

Of course, under normal circumstances, the best time to use the Tesseract to change the past should be to reduce the dimension of the Zergs before they became powerful.

However, the rise of the Zergs was not something that happened overnight.

The time needed to be traced back was too long, and there were too many uncontrollable factors. The most important thing was that the consumption of spacetime power in the Tesseract was too terrifying.

Therefore, he didn't think much of this.

In reality, it was impossible to achieve.

Only by interfering with Li Yueming's time node would this plan have a certain degree of feasibility.

Han Bufan was Li Yueming's disciple before the world line changed. He was also the Commander-in-Chief of the Third Army of the Alliance of Law. Naturally, he knew the specific information of the 'Salvation Plan A'.

Similarly, he had died fighting for the Tesseract.

And after he died, he saw a 'Li Yueming' in the world where he should have died.

What did this mean?

Naturally, it meant that Plan A had succeeded!

At the same time, the methods that he had long prepared could also be put to use.

Combining all the information.

The Mark of Reincarnation should be a space-time treasure made from the Tesseract, and its purpose was to nurture talents for future Zerg wars.

Especially Li Yueming, who was the most important person in this plan.

The reincarnation imprint was similar to the software of a good program.

After installing it on Li Yueming's body, everything that was set up was expanded.

Li Yueming's growth trajectory and the process of each world were mostly not accidental, but Li Xiyue and the higher-ups of the Alliance of Law brought Li Yueming to various worlds to train in advance through the power of time and space in the reincarnation mark.

Chapter 695: Blood Rain, High in the Sky!\_2

The 'our' letter was a guaranteed mechanism.

Obtaining more than three SSS grades in the reincarnation world meant that Li Yueming's strength and experience in the various major reincarnation worlds were mature enough.

The Reincarnation Mark would automatically send this letter and randomly bring Li Yueming to a world that contained the truth.

As for whether they could touch the truth, and whether they were willing to touch the truth.

The choice was up to Li Yueming.

As for the so-called 'Reincarnation Point,' it was a spell used by the creator to guide and restrict the actions of Li Yueming and other reincarnators who were protected by the power of time and space. It prevented them from playing too much and causing them to lose control.

After sorting out his thoughts.

Li Yueming's gaze completely calmed down.

No matter how complicated the truth contained in the Reincarnation Mark was, it did not make much of a difference to him.

It was nothing more than surviving and becoming stronger.

The only difference was that before he knew the truth, Li Yueming was simply living for himself. After finding out the truth, more and more people were supporting Li Yueming.

This might not be a bad thing for him.

After all, compared to living in a muddleheaded state and dying in a muddleheaded state in the end...

After seeing the truth, it would feel better to have his fate and choice in his own hands.

Shaking his head, he tossed the messy thoughts out of his mind.

At this moment, Su Xuan and the little fox had already left the God Burial Ground that was about to collapse.

Li Yueming no longer needed to maintain the stability of the passage.

He took a step forward and appeared outside the boiling volcano in an instant.

"Hualala..."

Raindrops were actually falling outside the extremely hot endless volcano.

Su Xuan and Little Fox were both surprised.

One had to know that this place was known as the hottest and driest place in the world.

Under normal circumstances, as long as the boiling lava had not extinguished, the lava would be able to melt.

There shouldn't have been any water falling from the endless volcano even if it had been thousands of years.

But now, there was 'water' that defied this logic.

Suxuan stretched out her hand to catch a handful of scalding raindrops. She looked at them and realized that it was not rain.

It was clearly scarlet and sticky blood!

The two of them looked up at the same time and saw that the sky was as dark as ink, filled with a terrifying and oppressive aura!

Su Xuan, who had the weakest cultivation among the three of them, felt her entire body trembling. Even her soul had fallen into a deep fear. After a long while, she whispered, "This... What was going on? The Lord God and 'Him' are fighting?"

The little fox shook her head.

Even though the three of them had personally witnessed Han Bufan's remnant soul transform into a trident and fly out into the sky.

However, they could not see what was happening in the sky.

The only thing he could be sure of was that the terrifying phenomenon in the outside world was definitely related to that person in the God Burial Ground.

Li Yueming was calmer and said, "No matter what, let's go back to Northern Ice River Town first. The world is already chaotic enough, we can't let it continue!"

At this point.

Li Yueming suddenly looked up at the dark sky and said coldly, "No matter what you are, as long as your main body doesn't come personally, I'll think of a way to kill you!"

Han Bufan used the last of his strength to charge into the sky and help him stall 'him'.

What Li Yueming had to do was to set up all the traps and gather all his strength to give 'Him' a fatal blow!

At this moment, they were not the only ones who felt it. All the living beings in this world could feel the terrifying and oppressive aura in the sky!

The weak ones didn't need to say much, they knelt on the ground, crying and trembling.

The so-called strong were no exception. Under the terrifying might of 'him', they all trembled and did not dare to make any moves.

The rain of blood fell for an entire day.

In the beginning, the blood was still bright red. However, towards the end, the aura in the blood rain had become even more stinky and dirty.

Such a strange phenomenon that had never been recorded in the history books had scared the guts of countless people. Countless people in the Land of the Nine Prefectures, including the commoners, were so scared that their faces were pale and bloodless.

It was not easy for him to endure until the blood rain stopped.

The entire world was silent, and only the beating of the heart and the heavy panting of the air meant that this life still existed.

It was not until the next day that the crowd finally recovered from yesterday's strange phenomenon. The entire world was suddenly in an uproar, and all kinds of demonic winds rose in all directions. It was unknown how many voices were discussing what had happened.

"Could it be that the heavens have witnessed too many killings in this world, so they shed tears of blood to warn all living beings?"

“It must be the souls of those who died unjustly in the war between the six states a few years ago who have come back to claim their lives. We are not looking for the culprits. If you vengeful souls want to find them, go find the culprit who started the war!”

“To be honest, I thought the world was going to be destroyed yesterday!”

” Such a terrifying aura makes people wonder if the so-called ‘gods’ really exist in this world!”

“I wonder if the various governments can give an explanation for this matter?”

This sudden blood rain was the most widespread and influential phenomenon in the history of Nine Regions.

Everyone in the world was discussing this.

Naturally, it was impossible for the government to not have any explanation.

Chapter 696: Blood Rain, High in the Sky!\_3

The Great Tang, Great Ming, and Great Qin finally came to a conclusion after deliberating word for word. This rain of blood was a warning from the heavens to the human world. The Star Moon Empire had caused too many killings, and it was almost to the extent of angering the heavens and resenting the people!

In order to not anger the Star Moon Empire and at the same time put pressure on the Star Moon Empire.

It was hard on them.

The conclusion he came up with had to be carefully considered word by word.

He was deeply afraid that he would accidentally anger the Star Moon Empire and cause a fatal disaster.

If it wasn't for the fact that their ancestor had been killed, why would they need to be so careful?

In addition, Li Yueming had not appeared in the Star Moon Dynasty for many years. Normally, it would not attract too much attention. After all, Li Yueming had a record of disappearing from the world last time. Most of the people who thought he was dead had now become dead.

The other three countries naturally did not dare to have any disloyalty.

However, this sudden rain of blood was strange in every way. Although there was no clear record of this in the documents of the other three countries, they knew more than others because they had the ancestor.

Now that he had released the news, he wanted to test the reaction of the Star Moon Empire.

Just as they announced their conclusion to the public, wanting to not anger the Star Moon Empire anymore, but putting pressure on the Star Moon Empire.

Li Yueming brought Little Fox and Su Xuan back to Northern Ice River Town.

A rain of blood suddenly fell from the sky.

Originally, the entire Star Moon Dynasty was actually a little flustered.

They couldn't be blamed for this. After all, who wouldn't be scared out of their wits when they saw such a scene?

However, after the expressionless Li Yueming appeared in North Ice River Town, the entire Star Moon Dynasty settled down again.

Li Yueming was the pillar of the Star Moon Dynasty.

As long as he was here, not to mention a bloody rain, even if a knife fell from the sky, so what?

The members of the Star Moon Troop were not necessarily afraid!

After returning to North Glacier Town, Li Yueming didn't explain about Sanguine Rain. He just found Ding Yi, Huang Li 'er, and the others and said, "I've found a place for you to retire and cultivate in the mountains. Get ready, resign and leave!"

Ding Yi and Huang Li 'er were the elders who followed him.

When the Star Moon Troop had just been formed, they had already followed behind him.

As for Huang Li 'er and Tian Liang, they had already known each other when they were in the school founded by Wang Ziwei.

During the long years of interaction.

They could already be considered old friends among old friends.

However, even so, when they heard Li Yueming asking them to resign and leave the Star Moon Army, Huang Li 'er, Ding Yi, and the others were still shocked.

It was not that they were greedy for power in the Star Moon Army.

In fact, to them, the power of the Star Moon Troop could only be considered as a reflection of the moon in the water. After waking up from a dream, Yu Huan was deeply attached to them.

It was because they were shocked by Li Yueming's attitude.

After all, they had faced so many ups and downs together, and in the process, they had tied their heads to their belts countless times.

However, Li Yueming had never said anything to them at that time.

However, at this moment, Li Yueming took the initiative to come to them and asked them to resign from their positions and go to the Hundred Thousand Mountains to recuperate?

To them, this was simply unbelievable!

Li Yueming didn't explain anything to them. It seemed that he only read the order one-sidedly. He didn't pay attention to Huang Li 'er and the others who were shocked. He turned around and left alone.

Previously, he could use Huang Li 'er and the others without any scruples because Li Yueming knew that they would not really die.

But now, the battle between him and the 'He' was completely different.

The reincarnators lost the ability to leave the reincarnation world.

If he was killed by 'him', he would really be in danger of dying!

Li Yueming couldn't care less about the reincarnators from the other countries, but he was more inclined to leave a stable path of retreat for the reincarnators under him.

Chapter 697: You're Not Alone

This order was just a sentence to Li Ming, but it had a huge impact on the Star Moon Empire!

After the news of Ding Yi, Huang Li 'er, and the others being dismissed spread.

Even the entire Star Moon Dynasty welcomed a huge reshuffle.

The elders abdicated one after another, and new blood began to rise to the stage.

Li Yueming carried a resolute and cold attitude as he began to mobilize his army to march into the territory of the remaining three countries. It was obvious that he was prepared to use a tough and iron-blooded war method to sweep away everything!

The chaos caused by the blood rain that suddenly fell from the sky some time ago had not ended yet.

The Great Tang, Great Ming, and Great Qin explained that this blood rain was because the Star Moon Dynasty had been too brutal in recent years, causing the heavens to be angry. This was why the blood rain was sent to warn everyone.

Originally, they had only wanted to make the Star Dynasty wary of them, so that they would not dare to raise their knives against them.

After all, for the various countries, even if they could survive for one more day, it would be good.

However, he did not expect that this move would be like shooting himself in the foot.

Li Yueming did not care about the opinions of the outside world at all. He still did his own thing and mobilized the army to attack them!

After sensing the intentions of the Star Moon Empire.

The entire world was in an uproar, especially the nobles of the old forces who had been swept away by the Star Moon Army. At this moment, they were all gnashing their teeth, wishing they could drink their blood and eat their flesh!

"This Li Yueming is really crazy..."

"Even the heavens have sent down a rain of blood as a warning, yet he still dares to go against the heavens. Is he really not afraid of retribution?"

“The world is so vast, and there are many capable Qi Practitioners. Why is there no one who can teach Li Yueming a lesson?”

“They actually put those commoners in an important position and expelled us, the nobles with prominent statuses. The Star Moon Empire is seeking death!”

“I’ve already opened my eyes wide. Even if I have to die, I want to witness the fall of Li Yueming and the Star Moon Empire with my own eyes!”

..

When the Great Qi, Great Song, and Great Zhou were destroyed, the Star-Moon Army captured many of the old nobles who had committed crimes and vowed to resist.

However, in such a short period of time, it was impossible for the factions of the old nobles to be completely wiped out. Many noble families from various countries fled to Great Qin and other countries to seek refuge.

Now, the Star Moon Army actually had the intention to attack them again.

This group of people was the most anxious.

Almost all of them were cursing.

If their resentment was useful, Li Yueming and the Star Moon Empire would have already gone to hell under their daily blessings.

Of course, there were also many people who felt that this move was the right one.

Instead of leaving the Tang, Qin, and Ming Kingdoms to continue to cause trouble on this mainland, it was better to take advantage of the Star Moon Dynasty and Li Yueming’s peak to sweep away all obstacles!

After all, even if it was the same thing, it would lead to different results at different time nodes.

The Starmoon Troops had the ability to easily destroy the three kingdoms, but it did not mean that they would have the ability in the future.

..

Of course, no matter how the outside world commented, Li Yueming turned a deaf ear to it.

He wasn’t even afraid of the real ‘him’.

How could he be influenced by a bunch of stray dogs who had already lost in a fight?

Therefore, after more than half a month of preparation, the Star-Moon Army set off without hesitation under Li Yueming’s mobilization!

In the 24th year of the Northern Ice River Calendar, the main force of the Star and Moon Army attacked the Ming Empire all the way to the south. In the third month of the following year, they invaded the capital of the Ming Empire. The Ming Emperor took the initiative to surrender, and the Star and Moon Army took away all the power in the hands of the Emperor. However, they did not

completely exterminate him. Compared to the emperors of Qi, Song, and Zhou, the Ming Emperor was still able to keep his life.

Northern Ice River Calendar, year 28.

The Star Moon Army basically annexed the Ming Dynasty.

Under normal circumstances, to annex a country that had ruled the world since ancient times and had a vast territory would require a huge amount of manpower, material resources, and financial resources.

Moreover, it would take tens of years to disintegrate its influence.

However, the Star Moon Troop had clearly simplified this process.

After all, there was no longer a third time.

The long period of terrifying expansion had allowed the Star Moon Dynasty to form a very efficient political operation system. Coupled with the experience of annexing countries in the world, the Star Moon Dynasty was the only one that was outstanding.

Although the old nobles and resistance forces would still exist for a long time in the future.

However, under the initial governance, Great Ming was already considered to have submitted to the territory of the Star Moon Empire.

At this point, the land area of the Star Moon Dynasty skyrocketed again.

After the Great Tang and Great Qin saw that the other four countries had been annihilated, they finally felt the threat of destruction. They gave up on the idea of struggling at death's door and began to gather their armies for a final counterattack.

Li Yueming naturally wouldn't indulge them.

The Star-Moon Army had long since established their belief in invincibility through victory after victory.

Even in the history books, the Star Moon Army could be called the most powerful army collection in Nine Regions since the concept of 'army soul'. Before the Star Moon Army, there had never been an army that could reach nearly ten million!

In front of such a fighting spirit and firm conviction, the strongest army in history.

Even if Great Qin and Great Tang joined forces, they would be like mantis trying to stop a chariot.

Chapter 698: You're Not Alone (2)

When the war started, it was basically one-sided.

The armies of Qin and Tang were completely defenseless.

In the 30th year of the Northern Ice River Calendar, the Star Moon Army defeated the main Tang army on the battlefield and captured more than 300,000 surrendered soldiers. At the end of the same year, they invaded the capital of the Tang Empire.

The Great Qin Empire, which was left alone, saw that it was powerless and surrendered in the spring of the following year.

The Star Moon Army did not find it difficult to become Great Qin's ruler.

According to some unreliable rumors, Great Qin's current ruler, the Ninth Prince, might have had some unknown relationship with Li Yueming.

Such a turbulent war had begun in a way that no one had expected, and it had also ended in a way that no one had expected. It had come quickly and ended even faster.

When they heard that the war had ended, many people could not believe it.

How glorious were the Six Nations in the past?

Standing at the peak of the world today, each country had a long heritage and extremely noble bloodline.

In the end, he did not expect it to end in such a miserable evening.

Countless people were at a loss for words.

On the day that the army entered the capital of Qin, the entire Star Moon Dynasty was in an uproar.

A grand celebration was held the following month.

Almost everyone in the Star Moon Dynasty was immersed in the revelry of 'unifying the six countries and sweeping the world'.

Without a doubt, this was an achievement that would be recorded in history.

Even if tens of thousands of years had passed.

As long as the civilization was not destroyed, as long as the legacy was not cut off.

Many of their names would be imprinted in the annals of history, shining brightly even after thousands of years!

However, there weren't many core higher-ups attending this celebration.

As the supreme commander, Li Yueming didn't come, nor did the deputy commander, Li Ruxing.

The highest-ranking person who came was the current City Lord of Haojing, Li Ruyue.

However, this did not affect the joy of the Star Moon Troop.

After all, Li Yueming and Li Ruxing rarely showed up in the Star Moon Army. Li Ruyue was the only one who was often active in the front line.

In the endless mountains thousands of miles north of North Ice River Town, the old capital of Star Moon Dynasty.

Looking at Huang Li 'er and the others with complicated expressions, Li Yueming's face was cold as he said, "Let's go. Cultivate well in the coming years!"

The people standing in front of Li Yueming were all veterans of the Star Moon Army.

It included almost all the reincarnators who had followed Li Yueming back then.

Ding Yi, Huang Li 'er, Tian Liang, Qi Fan...

After Han Bufan's remnant soul left the stone tablet, the real God Burial Ground had already collapsed because it had lost its core support. However, the outer space of the God Burial Ground was not affected.

Not only did it not collapse, but it also benefited a lot.

Before the core of the God Burial Ground collapsed, Li Yueming took out all the remaining life essence that had not been completely absorbed from the stone coffin and placed it into the earth vein divine spring in the outer space.

Although he had already absorbed most of the life essence in the stone coffin, he was still a little worried.

However, there was still quite a bit left.

This portion of life essence was dispensable to him now, but after being poured into the earth vein divine spring, it still increased the grade of the earth vein divine spring by more than one level!

It was simply the most suitable time for a group of reincarnators to come here to cultivate.

..

Under Li Yueming's lead.

The group of people went around in circles and arrived at the outer area of the God Burial Ground, which had already changed its landscape.

Due to the loss of the power of the core space, the periphery of the God Burial Ground had completely turned from a mysterious place into an ordinary volcano.

Although the temperature was still very high, it no longer had that oppressive feeling.

It could no longer affect the Ki Refiner.

However, when they saw the spring water that was filled with terrifying energy in Volcano, the group of reincarnators could not help but gasp.

Even if they were not close.

They could also sense that this divine spring was extraordinary.

No wonder Li Yueming personally brought them here to cultivate. It was so terrifying!

The group of reincarnators finally came back to their senses. They looked at each other, but they could only look at each other.

A long time ago.

They were still chasing after Li Yueming.

At that time, they were still young. They thought that as long as they worked hard, with their identity as reincarnators, they would be able to catch up to Li Yueming one day and easily leave him behind.

But later, they realized that they were wrong.

Li Yueming was simply ridiculous.

One couldn't even use the word 'chosen one' to describe how overboard he was. It could only be said that this guy was definitely the biological son of the world's will. Everything he had done over the years was like a cheat.

And now, the strongest among them had just broken through the divine aperture and advanced to the heavenly tribulation.

Li Yueming was so terrifying that they could not even see his shadow.

He was simply a man who made people fear him!

"Are you sure? We don't have to worry about the outside world anymore?" As one of the higher-ups who had the best relationship with Li Yueming, Huang Li'er stood up and asked Li Yueming.

Li Yueming nodded. "I only discovered this pool recently. If we leave it alone, the pure energy in the pool may slowly dissipate. Therefore, after thinking about it, I decided to let all of you retreat and focus on cultivating here for a period of time!"

Hearing this, the group of reincarnators nodded.

After all, although they did not have much attachment to power, and their mission completion rate was high enough, they did not have to stay in their posts to continue to shine. However, they were suddenly transferred out of nowhere. It would be a lie to say that they did not have any thoughts.

However, due to Li Yueming's personal strength and the mutual trust that they had built up all this time, the two of them were still in the same boat.

It was just that no reincarnators expressed it.

If the 'retirement cultivation' area that Li Yueming mentioned was such a magical place, the group of reincarnators felt that 'retirement' seemed to be completely acceptable.

After all, they had already completed the most difficult and rewarding quest of the public reincarnation dungeon, the 'Become a King' quest.

If nothing unexpected happened, compared to the reincarnation points they obtained from completing the highest difficulty mission, the reincarnation points obtained by other reincarnators were definitely much worse.

Therefore, they no longer had to worry about most of the things in the outside world.

There was only one thing that made them uneasy: Something seemed to have gone wrong in this world. Not only did it cause the world level to soar to Level 9, which many of them had never experienced before.

It even cut off their passage to leave this world on their own.

This was undoubtedly very bad.

It was unknown how many reincarnators had given up on the mission in order to save their lives and turned to hide in the mountains. Moreover, because of their limited strength, most reincarnators really could not find out the truth like Li Yueming.

In conclusion, Li Yueming had asked them to retire from the Star Moon Army in advance to cultivate.

It might be a good thing for them.

At the very least, they didn't have to worry so much about the possible 'unexpected events' that might happen in the future!

..

After arranging the reincarnators.

Li Yueming left the Hundred Thousand Mountains.

Li Ruxing followed behind him without saying a word. Her expression was relatively calm and peaceful.

Seeing that the cold North Ice River was still rolling past, she looked at Li Yueming and said, "Little brother, you seem to be very impatient recently. Are you going to face the real mastermind?"

Li Yueming heaved a sigh of relief and calmed down. He looked up at the sky and replied, "Yes, it should have already begun when the blood rain fell. However, someone chose to sacrifice himself and bought me some time!"

"Are you ready?"

"Perhaps...Roughly? I don't know either!"

"No matter what, you don't have to be so worried. There's always a way out, right? Besides, you have to believe that there are thousands of people in this world other than you and us..."

"You are not fighting alone. We are all your strong supporters!!"

Chapter 699: Nine Cauldrons as One, Ascending!\_1

Northern Ice River Calendar, Year 32.

The Star Moon Dynasty had basically wiped out the main resistance forces in various places, and the world welcomed a rare peace.

He had single-handedly wiped out the six countries and finally established a unified and huge country.

Such an achievement was clearly recorded in the ancient history of the entire land of the Nine Regions. Only the Human Emperor, the Tiandu Clan, had ever accomplished it. No one else could compare to it.

This matter had shocked everyone in the world.

Northern Glacier Town had taught them what it meant to be unstoppable, and Li Yueming had taught them what it meant to be gifted.

After unifying the world.

The Star-Moon Army began to transport the nine cauldrons back to Northern Ice River Town from the conquered Six Nations.

According to ancient legends, as long as one could cross the threshold of the peak of Nirvana and gather the nine cauldrons to gather the fate of the human race, the Qi Refiner could ascend to the Heaven Realm like the Human Emperor in ancient times.

After the Tiandu Dynasty disintegrated, the nine cauldrons, which symbolized the ultimate power of the world, were divided up by the nine sub-dynasties.

Originally, each sub-dynasty had been given a cauldron, which was relatively considered a breakthrough.

However, in the long years that followed, Great Gan, Great Han, and Great Xia had already been conquered and disappeared into the river of history.

The three cauldrons they possessed were naturally divided among the remaining six sub-dynasties.

Among them, the Great Zhou, Great Ming, and Great Qin were the victors of that war, and each of them received a cauldron.

And now.

It had been more than 5,000 years since the last time the nine cauldrons were divided.

This land, which had been silent for countless years, finally had a huge force that could destroy the six countries and bring out the complete nine cauldrons from the six countries.

The world was shaken by this!

“Li Yueming has already broken through the Nirvana Realm, right? He was probably only one step away from ascending. Now that he had obtained the nine cauldrons... Didn't this mean that as long as he collected enough power of providence, Li Yueming could possibly become the second ascender after the Human Emperor Tiandu Clan?”

“Hiss...If you didn't mention it, I would have forgotten about this!”

“According to the ancient legends, we might really be able to witness this historic scene!”

“Li Yueming will become the second ascender after the Human Emperor of the Tiandu Clan? No, no, no. No, no, no. It was impossible! I can't accept this!”

“That's right. How can a damn clown like him be compared to the Human Emperor of the Tiandu Clan?”

Countless people felt their emotions fluctuate violently after hearing this news.

Especially the remaining factions of the six countries that had been wiped out. They almost hated him to the point that their teeth turned sour.

One had to know that these were nine cauldrons!

It was originally a national treasure used to suppress the fate of the Nine Provinces!

The true trump card of the Six Nations!

But now, he had become a stepping stone on Li Yueming's path to immortality.

How could they accept this?

Regardless of whether they were happy, happy, sad, or angry...

In this world, there was no room for losers to point fingers. They could only watch as the Nine Cauldrons were transported from all over the world to Northern Glacier Town, getting closer and closer to Li Yueming.

At the end of August of the same year.

It was another autumn season.

The nine exquisitely-shaped bronze cauldrons with lifelike carvings were eventually transported to Northern Ice River Town.

This news shook the entire Northern Glacier Town.

After all, the legend of the Nine Cauldrons was too widespread, and the things they carried were too huge and heavy. The oldest history could even be traced back to the ancient Great Qian Dynasty, which was long untraceable.

Not to mention the nine cauldrons, they were all in one place.

Even if one of them was taken out, it would definitely be at the level of a national treasure, and it would cause a country or even several countries to fight over it.

And now, nine of these legendary cauldrons had appeared in Northern Ice River Town at the same time.

It would be strange if it didn't cause a commotion!

Even Li Yueming sent out his divine sense to take a look from afar after hearing the news.

However, for some reason, the legendary nine cauldrons were more ordinary than Li Yueming thought.

Although he could vaguely feel that it had indeed withstood an incomparably huge amount of power of providence, it had long since been completely exhausted for some reason.

Other than the traces of aura that showed that it was extraordinary.

From the outside, it looked no different from an ordinary bronze cauldron.

The people of Northern Ice River Town who were watching from nearby were initially excited and had specially applied for leave to come here to admire. They originally thought that the legendary nine cauldrons would be extremely divine and that their bodies would emit nine-colored halos like those of the immortal world.

However, the reality was cruel.

After squeezing for a long time, they only saw a few gray broken cauldrons. Other than the simple and heavy shape, the unusually exquisite patterns, and the layer of bronze rust on the surface that looked very old, they were not much different from ordinary large cauldrons.

The group of people were extremely disappointed.

Of course, the people could not sense anything special about the nine cauldrons.

However, it did not affect its incomparably heavy value at all.

After the nine cauldrons were transported to Northern Ice River Town, the outside world became even more boisterous.

This was especially true for the Six Nations.

However, this did not stop them from sneakily hiding and mocking him.

Smuggling Li Yueming was the most important thing in this business.

After all, as the ultimate culprit who destroyed the Six Nations, Li Yueming was an irreconcilable enemy of the old and young.

“Hehehe...He actually dared to move the nine cauldrons to Northern Glacier Town with such fanfare. Li Yueming finally couldn't help but reveal his fangs?”

Chapter 700: Nine Cauldrons as One, Ascending!\_2

“When he founded Northern Ice River Town, he made it sound so good. He preaches nonsense ideals all day long, but in the end, he still wants others to work hard to achieve his own ideals.”

“I don't know how Li Yueming managed to bewitch the people, but he managed to make so many Starmoon Troops willingly work for him. But now that the Six Nations have been defeated, Li Yueming no longer needs to maintain his disgusting hypocritical face!”

“The so-called ideal is just a piece of cloth in front of your eyes. Now that the cloth has been removed, open your eyes and take a good look. The General Li that you are loyal to has long changed!”

“If I'm not wrong, he expelled the core elders of the Starmoon Army some time ago in preparation to monopolize the fate of the world, right?”

“Gathering the providence of the nine provinces just for one person to ascend...Such actions were truly nauseating!”

“It's just that the pitiful people of the world didn't do anything, but their luck was snatched away by him!”

Under the propaganda of the remaining factions of the Six Nations, Li Yueming and the Star Moon Dynasty were instantly pushed to the forefront.

After all, whether it was the Star Moon Empire or Li Yueming himself, they were the focus of the world at this moment.

Under such circumstances, even the slightest movement of grass could cause a huge commotion under the watchful eyes of countless people, not to mention monopolizing the nine cauldrons, a super big event that could be engraved in history.

The people of the world had a good impression of Li Yueming.

However, it could not stop people from spreading the news that ascension would plunder the fate of the people of the world.

This had violated the interests of countless people across the nine provinces, and the denouncement of public opinion gradually occupied the mainstream.

..

Because of the distribution of the nine cauldrons, the outside world was in chaos.

In the end, even Li Ruxing could not bear the pressure and specially came to the depths of the small courtyard to ask Li Yueming how to deal with the nine cauldrons.

According to the normal process of the legend.

Li Yueming only needed to combine the nine cauldrons into one, and the nine cauldrons would automatically absorb the fate of the world. It would give the holder of the nine cauldrons an unparalleled amount of fate, helping him to break through the restrictions set by this world and fly out of the Heaven Realm, completely breaking away from the scope of the mortal world.

But now, before they could do anything, the public opinion in the world had already become more and more turbulent. Li Yueming himself had been criticized by thousands of people.

If he really dared to use the Nine Cauldrons to ascend, he would probably be cursed for breaking his word in history.

After all, the foundation of the Star Moon Dynasty was Li Yueming's promise to the people of the world. It was because of this that the Star Moon Dynasty could settle down so quickly without being feared and resisted by the people.

To put it bluntly, the reason why the Starmoon Troop was able to succeed was because of the 'ideal' that was the cornerstone.

As a result, even the soul of the Starmoon Troop was engraved with the burning fire of ideals.

This promise was the biggest difference between the Star Moon Army and other armies, and it was also a shackle that Li Yueming had personally buried.

If Li Yueming, as the general of the Star Moon Army and the actual ruler and founder of the Star Moon Dynasty, were to take the lead and break this promise...

Even if it hadn't happened yet, one could already see what kind of terrifying earthquake it would cause.

However, even so, Li Yueming did not respond much.

He just nodded lightly at Li Ruyue, indicating that he already knew.

Even Li Ruyue couldn't figure out his attitude. However, because Li Yueming had become more and more elusive over the years, even Li Ruyue had a strange fear of him.

Seeing that her brother didn't seem to have any intention of responding directly, Li Ruyue could only choose to turn around and leave.

Before she left, Li Ruyue stopped at the door.

He turned around and looked at Li Yueming with a serious expression, "You're still my little brother, aren't you?"

Upon hearing this, Li Yueming opened his eyes and looked at Li Ruyue, who was not far away. Her dark eyes flashed with a complicated light. After a long while, he sighed and said, "Just pretend that your brother died a long, long time ago!"

Li Ruyue nodded without saying anything.

However, when he left, his back seemed a little bleak.

As he watched her leave, Li Yueming's eyes revealed a rare look of pity.

However, in the end, he did not say anything and let her leave alone.

After his back completely disappeared from sight, Li Yueming looked at Li Ruxing who was not far behind him and said, "Isn't this too cruel for Big Sister?"

Li Ruxing couldn't bear it, but in the end, she said resolutely, "If we fail, the world will definitely undergo a major reshuffle. No one knows what the outcome will be. It will definitely be beneficial to cut ties with our families as soon as possible!"

Li Yueming nodded.

"Instead of sitting here, it's better to take the initiative to attack!" After a long silence, Li Yueming stood up and said, "The Nine Cauldrons can be combined to see the ascension... Let me see just how terrifying the Nine Cauldrons of the Nine Cauldrons are!"

Li Ruxing nodded, obviously agreeing with his approach.

After Li Yueming disappeared, Li Ruxing's eyes flashed with determination.
