Chapter 701: Nine Cauldrons as One, Ascending!\_3

Time passed silently. It was the early spring of the 33rd year of the Northern Ice River Calendar.

All things burst forth, and the world was born.

Li Yueming appeared in the central square of North Glacier Town where the nine cauldrons were placed.

Currently, the central square was a super large square that covered an area of tens of thousands of square meters. It was usually one of the training grounds of the Star-Moon Army and would only be opened occasionally during special festivals.

However, even so, it could not stop its exuberance.

After all, the so-called central square was the economic and social development center of the entire Northern Glacier Town.

It was the core area where every inch of land was worth gold.

Now, the moment Li Yueming appeared on the nine cauldrons, the soldiers of the Star Moon Army who were responsible for guarding the nine cauldrons immediately noticed the abnormality.

When they saw that the person who appeared was Li Yueming, the group of soldiers heaved a sigh of relief. However, their expressions quickly became serious again. They knelt on the ground and said, "Greetings, General Li Yueming!"

Li Yueming waved his hand, signaling him to leave.

Confusion and struggle appeared on the faces of the soldiers.

The group of people looked at each other before nodding and leaving.

When they left the edge of the square.

He turned around and saw Li Yueming wave his hand. Nine heavy and huge cauldrons suddenly flew up and quickly combined in the air.

When the nine cauldrons merged into one, the originally ordinary nine cauldrons suddenly emitted a dazzling light.

This colorful light was so eye-catching that even the people of Northern Glacier Town stopped what they were doing and looked in the direction of the source of the light.

When they realized that the light was coming from the nine cauldrons that had always been simple and unadorned, everyone's eyes widened in unison!

Was General Li Yueming really going to abandon the Star Moon Army and the people of North Ice River Town and ascend to the outside world?

If that was the case... Then, how could they be self-sufficient?

The light in the sky grew brighter and brighter.

It was as if a five-colored sun had suddenly appeared, illuminating everyone's entire body and making them panic.

However, Li Yueming did not care about these phenomena at all. Instead, he stared at the nine cauldrons, as if he wanted to see something that he should not see.

After a while.

The nine cauldrons that had completely fused into one burst out with extremely powerful fluctuations. It was as if a meteorite had been thrown into a calm lake, causing huge ripples!

In an instant, almost all the people in Nine Regions stopped what they were doing and looked in the direction of Northern Glacier Town in confusion.

As for those Qi Practitioners or chosen ones who were born with luck, the feeling was even stronger and intense.

Everyone felt the luck in their bodies...It seemed to be flowing away continuously!

Northern Glacier Town's central square.

Li Yueming's eyes narrowed involuntarily as he watched more and more luck gather from all directions and fill the nine cauldrons.

His expression was also rather solemn.

If this world had really been modified by 'him'.

Then, there was no reason for the other party to leave behind these nine cauldrons. Now, these nine cauldrons had been passed down and were guarded by the various countries like national treasures.

If there was nothing fishy going on, Li Yueming would never believe it.

As for the so-called ascension...Li Yueming had never expected or believed in this from the beginning.

Now, he was even more certain that it was definitely not that simple. It was even very likely that it was a complete scam!

As the power of providence condensed and dissipated, the power of providence disappeared.

Almost everyone in the world sensed that something was amiss, and a monstrous public opinion was brewing.

When the remaining losers of the Six Nations saw this, they were even more excited. They all stood up and announced,""Once upon a time, someone kept saying that he wanted to create a country without poverty and hunger. He wanted all the elderly to be raised and all the children to be educated..."

"In the end, he betrayed his promise as soon as he unified the world!"

"Look, look, everyone open your eyes and take a good look!"

"This is the Star Moon Dynasty that you have always yearned for, this is the Star Moon Army that you have always believed in, this is the Li Yueming that you have always relied on!"

“The so-called ‘utopia’ is nothing but a waste paper used to deceive and fool you!”

He could feel the endless flow of luck.

The entire world fell silent.

Star Moon Empire and Star Moon Army were even more confused.

Everyone raised their heads and looked towards the far north. If their senses were not wrong, the fate of the world seemed to be gathering in that direction!

Only the Nine Cauldrons and Li Yueming could do all of this.

What was going on?

Did General Li really betray his ‘ideal’?

No, impossible.

This was absolutely impossible!

Chapter 702: The world was shaken, ascension was imminent!\_1

The so-called utopia that Li Yueming spoke of was just a piece of waste paper used to gain trust.

If it was in the past, perhaps no one in the entire Star Moon Dynasty would be willing to believe it.

After all, in their eyes, Li Yueming was their absolute spiritual idol. He was the ultimate supporter of their ‘ideal’.

But now, when it was discovered that the power of fate in Nine Regions was actually gathering in the direction of North Ice River Town, the world was boiling in an instant. Everyone looked at the distant north in disbelief.

The entire Star Moon Dynasty was in a daze. They could not believe that Li Yueming had really chosen to abandon them.

“How is that possible? How could Great General Li use the nine cauldrons to swallow the fate of the Nine States?”

“General Li, are you really going to give up on your promise and ascend alone?”

“This... This was too unbelievable, no...I absolutely don’t believe it. I want to go to Northern Ice River Town and see for myself. The one controlling all of this is definitely not General Li!”

Many idealistic members of Star Moon Dynasty were stunned.

After finally regaining his senses, the first thought that rose in his mind was to head to Northern Glacier Town to investigate.

Only by seeing it with their own eyes could they completely shatter their fantasies and doubts.

Of course, there were countless people in the entire Nine Regions who had the same thoughts as them.

It couldn't be helped. Li Yueming's influence was too great now!

In a sense, Li Yueming no longer represented him alone, but represented the common goal of all the people in the world who pursued their ideals.

If his image crumbled in front of the world.

Who knew how many people's ideals would be shattered because of this!

..

As time passed.

The endless fate energy that had affected the entire Land of the Nine Prefectures was still flowing towards Northern Ice River Town.

The nine cauldrons gathered Fate very quickly, but the Fate of the world was also very strong.

For a while, it did not cause too much of a phenomenon.

Li Yueming was not in a hurry. He sat alone in the central square of North Ice River Town. He had already made up his mind to see what kind of strange movements would happen after the Nine Cauldrons swallowed enough Fate.

However, he was not in a hurry.

However, there were many people in the outside world who were extremely anxious.

Countless people who were puzzled were rushing towards Northern Ice River Town. Although they had already guessed what was going on, they still wanted to go to Northern Ice River Town and see for themselves.

At the same time as they headed to Northern Glacier Town.

Some of the hidden sentries left behind by the remaining factions of the Six Nations in Northern Ice River Town were already in full swing.

They were hiding in Northern Ice River Town, so they were naturally faster than the outside world in gathering information.

Thus, the outside world had yet to find out what had happened in Northern Ice River Town.

The remaining factions of the Six Nations couldn't wait to stand up and announce this.

"Hahaha, we were right. In front of the Nine Cauldrons that involve ascension, Li Yueming couldn't help but tear off that hateful disguise!"

"It's a pity that so many people in this world have been deceived by such a shameless scoundrel and sacrificed their lives for the so-called 'ideal', only to end up like this!"

"That's right. When the Six Nations ruled the world, we at least gave enough benefits to those who served us! This Li Yueming was good. It was fine if he deceived the world, but in the end, he was the only one who could benefit from ascending!"

“There are so many people, but they were all played like dogs by him alone! Even shamelessness couldn’t describe his behavior!”

Originally, the remaining members of the Six Nations wanted to skin Li Yueming alive and pull out his tendons.

It was a pity that they had failed on the battlefield. They would definitely not be able to skin them alive.

Even so, they could still infamy Li Yueming in his previous life.

If they still had their own countries, they might not have dared to be so unscrupulous. However, now they had fallen from the clouds to the dust.

As the saying goes, the barefoot are not afraid of the ones wearing shoes.

At worst, they would just suffer revenge. They didn’t believe that the Star Moon Army had the ability to find them all from the Horn Gada.

After hearing this news.

A gust of wind instantly blew in the outside world.

It was still fine for the commoners.

They were not very clear about the so-called luck.

Most of them did not have much luck.

However, to the surviving aristocratic families and Qi Practitioners of the various countries, this was a terrifying blow to their lives.

There was no need to talk about the great clans. Aside from human factors, the greatest influence on their prosperity and decline was the increase or decrease of luck.

Now that so much of the providence of various places had been sucked away by the nine cauldrons, it was undoubtedly a fatal blow to their families.

As for the Ki Refiners...

They were also one of the lucky ones who were blessed by luck.

After all, if one wanted to embark on the path of Qi cultivation, the first thing they needed to do was to obtain the recognition of heaven and earth.

This so-called heaven, earth, and man could also be considered a type of heaven and earth’s fate.

It was also because of this that the luck they received was much stronger than ordinary people.

The nine cauldrons devoured the Fate of various places. Without a doubt, they were also robbing them of their limited Fate.

Back then, there was a saying that everyone in the world had a tacit understanding of.

The reason why there had not been another ascendant who could stand shoulder to shoulder with the Human Emperor of the Tiandu Clan in the Land of the Nine Prefectures for tens of thousands of years was that the Human Emperor of the Tiandu Clan had absorbed too much fate of heaven and

earth when he ascended, causing the Qi Practitioners who came later to lose the protection of heaven and earth.

Chapter 703: The world was shaken, ascension was imminent!\_2

Whether it was talent or dexterity, they were instantly reduced by a large margin.

That was why there were not many talented cultivators in the years to come.

After tens of thousands of years, the power of providence gradually recovered, and Nine Regions finally ushered in a golden age of qi practitioners!

However, he did not expect Li Yueming to gather the nine cauldrons and ascend again.

If he really succeeded, what would happen to the thousands of qi-trainers behind him?

Without the protection of heaven and earth, he could no longer continue to cultivate to the highest peak?

It was better to cut off a person's source of wealth than to kill his parents.

Now, Li Yueming was not only cutting off people's income, but also cutting off people's hard-earned Qi cultivation realm.

This was much more ruthless than cutting off a person's source of income. Naturally, it would cause a strong reaction in the world of Qi Refiners.

When Li Yueming was transporting the nine cauldrons to Northern Ice River Town from various countries, the world of Qi Refiners already had a bad feeling about this.

However, at that time, most of the Qi Practitioners still held onto a sliver of hope.

After all, with Li Yueming's courage, he might not really choose to activate the nine cauldrons and ascend.

Even if he really wanted to activate the nine cauldrons, he might choose to wait until the Star Moon Dynasty was completely stable and the world's luck gradually returned to stability before stealing the results.

However, he didn't expect Li Yueming to be so unpredictable.

He actually activated the nine cauldrons in Northern Ice River Town and began to absorb the fate of heaven and earth.

As such, the Qi Refiners who felt their luck gradually draining could no longer remain calm. If the believers of the Star Moon Dynasty were going to Northern Ice River Town to explore their ideals, then they were going to Northern Ice River Town for their own benefits.

Even if they had the guts, they wouldn't dare to face Li Yueming head-on.

However, with so many Qi Practitioners gathered together to plead with Li Yueming, the other party would at least give some response, right?

Even if the other party really had made up his mind to ascend, he would at least leave some luck for them and leave some hope for them.

After the Nine Cauldrons incident.

Countless people from all over the world set sail, leaving their hometowns and rushing towards the distant Northern Ice River Town.

They wanted to witness it with their own eyes.

Or for personal benefits.

However, the goal was basically the same, which was to stop Li Yueming from using the Nine Cauldrons!

About half a month later.

The first batch of Qi Practitioners had entered Northern Ice River Town.

However, what awaited them was not the Star Moon Army's welcome, but the soldiers who were lined up in a tight formation.

Li Ruxing sat on a tall horse and raised his head to drink a mouthful of strong wine. The murderous aura around him made no one dare to say a word.

Seeing this scene, the Qi Practitioners who were originally aggressive immediately revealed a hint of fear.

There were even many people who took a few steps back timidly.

It couldn't be helped. Many of them were usually awesome.

However, if the enemy they were facing was the Star Moon Empire, they would not be able to muster up any courage.

After a long while, someone finally mustered up the courage to step forward and say, "We're not here to denounce you. We just want to ask Great General Li to give us a chance on account that it's not easy for us to cultivate!"

Li Yueming's actions were violating their core interests.

However, as the weaker party, they could only lower their stance and hope that they could fight for a result that both sides could accept.

Li Ruxing took a big gulp of wine and burped before replying, "What does your reason for coming here have to do with me? What does my brother want to do? When is it your turn to point fingers?"

Her words had obviously aroused the anger of many Qi Practitioners.

Someone couldn't help but stand up and shout, "The fate of the Nine Provinces is shared by all living beings in the Nine Provinces. No matter how invincible Great General Li is, he should not harm the world and benefit one person, right?"

"Besides, there are not only a few Qi Refinement Cultivators in the world. We are just the pioneers of thousands of Qi Refinement Cultivators!"

"Northern Ice River Town can hold them off for a while, but can they hold them off forever?"

Li Ruxing licked her scarlet lips and revealed a thought-provoking expression. After a long time, she said, "You have some guts. Come and spar with me!"

"As long as you have the ability to get past me, so what if I let you in?!"

Li Ruxing said.

The gathered Qi Practitioners looked at each other in dismay.

Li Yueming was so powerful that no Qi Practitioner dared to breathe loudly in front of him.

But what about Li Ruxing now?

One had to know that there were more than ten thousand of them now, and this was only the first batch of qi refiners to arrive.

Who knew how many Qi Refiners would come knocking on his door in the future.

What right did Li Ruxing have to be so arrogant in front of them?

The crowd was in an uproar.

A moment later, three Qi Practitioners walked out of the crowd and bowed slightly to Li Ruxing. "In that case, don't blame us for being impolite!"

The three of them were the best among this batch of Qi Practitioners. The weakest among them was at the peak of the Origin Returning Realm, and the strongest among them was at the initial stage of the Divine Aperture Realm. They were also the main decision-makers elected by the tens of thousands of Qi Practitioners.

Now that they had encountered such a situation, they naturally needed to take the lead.

Li Ruxing nodded and put down the wine pot. "The three of you can attack together to save time!"

The three of them were a little unhappy with Li Ruxing's arrogance, but they did not refute in the end.

Although the three of them didn't know how strong this woman was, as long as she was someone from Northern Ice River Town, they couldn't be too careful.

Chapter 704: The world was shaken, ascension was imminent!\_3

The battle started quickly and ended quickly.

In just a few breaths, the three of them were sent flying by Li Yueming.

Such power had shocked countless Qi Practitioners.

Li Ruxing sat back on the chair and took a sip of the still warm liquor. Then, she looked at two of the three and said, "The two of you are qualified to enter. If the others are not stronger than them, then disperse. Don't hinder me from waiting for the next batch of 'guests'!"

Everyone looked in the direction she was pointing and realized that the two Qi Practitioners she had chosen were not the strongest two, but the two Qi Practitioners at the peak of the Returning Origin Stage.

The defeated Qi Refiner of Divine Aperture Realm asked in confusion, "Why can't I go in?"

Li Ruxing glanced at him and didn't say anything. She just warmed the wine by herself.

At first, the Qi Refiner at the Divine Aperture Realm was a little angry.

However, after thinking for a while, he seemed to have figured it out. He looked at Li Ruxing and said, "Then let the two of them represent our 30,000 people to meet Great General Li. I hope that Northern Ice River Town can guarantee their safety. Otherwise, we can only fight each other!"

Li Ruxing didn't even look up. He just nodded slightly to indicate that he agreed.

In the next one to two months, an endless stream of qi-refiners came to visit them almost every day.

Li Ruxing was not in a hurry. She blocked everyone at the door.

Only some of the best ones were allowed in.

At present, the Northern Ice River Town had gathered 80% of the Qi Practitioners' power in the entire Nine Regions. It was like a bomb that could explode at any time, waiting for the selected representatives to bring a result, and this result would directly determine whether the bomb would explode on the spot or disappear without a trace.

Time passed day by day.

In the blink of an eye, another two months had passed.

The nine cauldrons in the sky above Northern Glacier Town were still emitting a hazy, dense light.

The Qi Refiners who were waiting for the results outside gradually became anxious.

After all, Li Yueming and the Star Moon Empire had not given them any clear answer so far. Moreover, they had taken away many powerful Qi Practitioners from them and had not heard from them until now.

Everyone wondered what Li Yueming was up to.

In the strange silence, three months later, the Qi Practitioners who had rushed over from all over the world finally could not help but explode.

Nearly a million Qi Practitioners flew into the sky, causing the entire sky to turn dark in an instant. It was as if a layer of thick dark clouds had appeared on the horizon, filled with a heavy and terrifying aura.

A Qi Refiner cultivator stared at Li Ru Xing with a fierce expression and said, "General Li, if you don't want this world to flow with blood... Give way to the stream!"

If it wasn't for the fact that their personal interests had been violated, they would have gathered together.

Perhaps it was hard to imagine that there were so many qi refiners in the world in the entire Nine Regions!

Even though the Star Moon Empire was the most powerful empire in the world, they still felt their scalps go numb when faced with such a terrifying army of Qi Practitioners.

It was hard to imagine what kind of enemies such a large army formed by Qi Practitioners from all over the world would have in this world.

It seemed that it was not the case. The only enemy in the world who could face the army of Qi Refiners was probably the general of the Star Moon Army, Li Yueming, who was known as the strongest Qi Refiner Cultivator in ten thousand years.

Li Ruxing's face was cold, but he still did not give in. He said indifferently, "When have I, Li Ruxing, ever gone back on my word? Even if you don't trust me, don't tell me that even Great General Li doesn't trust me? If he wants to deal with you, forget about a million people, so what if he sends another million people?"

This was probably the longest sentence she had said while standing here.

One could imagine how much pressure she felt when so many Qi Practitioners were gathered together.

Fortunately, the Li family's Ancestor and Shu Tian also appeared silently at this time.

With the two supreme experts of Nirvana Stage guarding the place, the Qi Practitioner's terrifying aura had dissipated considerably.

The two sides were at daggers drawn.

A world-shaking war was about to break out.

Finally, the nine cauldrons that had been absorbing the spiritual energy of heaven and earth in Northern Ice River Town burst out with a terrifying fluctuation that made countless people's hearts palpitate!

A devastating rainbow bridge appeared in the void not far away. It was like the first ray of light falling from the sky, making people unable to help but be enchanted.

The rainbow bridge slowly dissipated, turning into a path that extended beyond the sky.

It seemed to be guiding the world to transcend.

And the place where this rainbow bridge was connected to undoubtedly pointed to the central square of Northern Glacier Town!

After realizing that, countless qi-trainers were all furious. They no longer cared about Li Ruxing and the others who were blocking their way and rushed toward the rainbow bridge like a swarm of bees!

Legend had it that the Rainbow Bridge symbolized the power of guidance from the Upper Realm.

In other words, as long as anyone could ascend the rainbow bridge, they would have the chance to be extradited to the Upper Realm beyond this realm!

This was the ultimate goal that countless Ki Refiners dreamed of!

Now that it was placed in front of them so blatantly, countless Qi Practitioners had lost their rationality and only wanted to climb up to the top with everything they had and become the first person to ascend to the upper realm in tens of thousands of years after the Human Emperor Tiandu Clan.

As for the obstacles along the way, the crowd who had lost their minds could not care less.

He looked at the crazy crowd in the sky.

Shu Tian and Li Wujiang both gave Li Ruxing a look. Li Ruxing sighed and shook his head. "There's no need. This is part of the plan!"

The two of them fell silent and did not choose to attack.

High in the sky.

Li Yueming sat cross-legged quietly.

Above his head, the nine cauldrons that had already fused into one were emitting a dazzling light, rendering him as powerful and sacred as a god.

Li Yueming opened his eyes and looked at the approaching crowd. There was no joy or worry in his eyes. After a while, he muttered to himself, "It's time to return the truth to the world!"

As he spoke, he stood up and looked at the rainbow bridge that was extending toward him in the sky, as well as the seven-colored light behind it.

Under everyone's gaze, Li Yueming didn't head toward the rainbow bridge.

Instead, he swung his arm fiercely and slapped the nine cauldrons with his incomparably solid palm. With lightning speed, he sent them flying.

However, the nine cauldrons did not attack the Qi Practitioners who were rushing over to snatch the opportunity to ascend. Instead, they attacked the auspicious clouds behind the rainbow bridge!

Chapter 705: Insect Clan Phantom, Prologue to the Final Battle!\_1

Under everyone's incredulous gaze, the nine cauldrons above Li Yueming's head, which symbolized the fate of the world, did not attack them. Instead, they turned around and headed toward the rainbow bridge in the sky.

Because this operation was too bizarre, the Ki Refiners who were about to rush to the Rainbow Bridge were all stunned. They were frozen on the spot and did not know what to do.

What was going on?

Why did the nine cauldrons fly towards the rainbow bridge?

Was Li Yueming crazy?

If any of the nine cauldrons or the rainbow bridge were destroyed, wouldn't the once-in-a-lifetime ascension fail on the spot?

A large group of Qi Practitioners felt that their minds were temporarily on standby. They could not understand what Li Yueming was doing now.

..

It was fine if he didn't make a move, but once he did, he moved like lightning.

Li Yueming's movements were too fast. The nine cauldrons in his hands were like cannonballs that flew out and hit the seven-colored auspicious clouds behind the rainbow bridge in an instant.

“Puff!”

It was like a drop of water falling onto the surface of the water, or like a palm knocking on porcelain.

A voice that made everyone feel extremely strange came from behind the rainbow cloud.

The nine cauldrons, which were shining with seven-colored light, shook violently, shattering the surrounding clouds and dissipating them into the air.

Then...

Everyone saw the person hiding behind the seven-colored auspicious cloud. A colossal creature!

What kind of creature was that?

There were so many knowledgeable Qi Practitioners present, but none of them knew how to describe the scene before them.

Its body was as huge as a mountain, covered in dark brown scales. The scales were filled with reddish-brown muscles, which seemed to be breathing, bulging and then drying up.

As it opened and closed, countless dark brown energy gushed out.

Instead of a 'head' on the creature's body, there were three densely packed mouthparts that made people feel uncomfortable.

The mouthpart looked like an ant, but it also looked like a beetle. At the end of the scales, there was a huge tail that looked like a dragon!

No matter what kind of characteristics it was, none of the Ki Refiners present could associate it with a 'lifeform'. They could only conclude that it was a monster that they could not understand!

The moment he saw this strange monster.

All the Ki Refiners were not just having a brain crash.

Instead, his CPU was completely burned and he stopped thinking!

The nine cauldrons merged into one, gathering the fate of the world, and ascending was within sight...

This was an ancient legend that had spread in Nine Regions since the ascension of the ancient Human Emperor Tiandu Clan.

However, no one had ever told them that such a monster was behind the seven-colored auspicious cloud that had been waiting for them on the path of ascension that had been passed down since ancient times!!!

Of course, even the Qi Practitioners who were watching the battle were dumbfounded.

Li Yueming was not confused at all.

The monster in front of him looked a little miserable. Not only was a large part of the scales on its tail shattered, but there was also a huge hole in its abdomen. Black blood flowed from the wound.

Of course, this was not the most terrifying thing. The most terrifying thing was that after the blood left his body, it quickly dissipated and turned into hazy seven-colored auspicious clouds.

” The so-called ‘ascension’ is full of lies and deception from the beginning to the end!” Li Yueming pointed at the seven-colored auspicious cloud blood flowing out of the monster’s wound and said, “And this monster in front of us is the culprit who has deceived the world for tens of thousands of years!”

Li Yueming’s voice was still calm.

But on the battlefield, it was like a heavy hammer.

It woke up all the Qi Refiners from their ignorance.

When he heard this, he looked at the monster. After a brief moment of confusion, his eyes were immediately filled with shock and anger. “This... What was this? Why was the seven-colored auspicious light gushing out of its wound?”

“So...The truth behind the ascension was actually a monster?”

When they discovered the possible result, all the qi-trainers widened their eyes.

This was truly somewhat unacceptable to them.

The monster seemed to be in a deep sleep.

At this moment, he finally woke up after sensing the abnormality.

” He ” opened a pair of huge and scarlet eyes that were like the setting sun. When ” He ” raised his huge head and walked out of the seven-colored auspicious cloud... Even the sun was covered by its huge body, and the entire sky turned pitch-black!

The sunlight was hidden, and darkness descended once more.

An extremely terrifying energy swept through the sky like a storm.

The Qi Refiners who had been shocked and furious at first could not help but flee thousands of miles away after sensing the chilling aura.

This was not a body they controlled themselves, but their subconscious had already allowed them to escape on their own.

At this moment, when he looked at the ‘monster’ in the air... Their faces were filled with uncontrollable fear!

It was too terrifying.

The aura that erupted from this monster was too terrifying!

Even a million Qi Refiners were not worth mentioning in front of him.

If possible, it would be best to change planets to survive!

This was the best response that the sixth sense of humans told them.

He didn’t even need to use his brain to think.

The thousands of people who had originally surrounded them all fled thousands of miles away.

At this moment, Li Yueming was the only one who had not left.

Chapter 706: Insect Clan Phantom, Prologue to the Final Battle!\_2

Of course, Li Yueming was not surprised by this.

He stared at 'Him' who had already woken up not far away.

"You didn't expect this, did you?" Li Yueming said coldly. We will meet in such a way!"

'He' opened his blood-red eye and looked at Li Yueming. He slowly stretched his body and said, "I have slept in this world for a very long time. I do not know how many years have passed. My life is a little too boring..."

"But now that I can see you, it seems that all the waiting is worth it!"

As he spoke.

The monster had finally fully recovered.

Its huge body slowly stretched out in the sky.

There was no way to hide such a huge commotion.

Even the countless people around Northern Ice River Town could see it with their naked eyes.

At this moment, many people felt that their worldview was collapsing.

The monster's body was still covered in wounds. After carefully feeling its body, it suddenly lowered its head to look at the nine cauldrons that Li Yueming had attacked it. A scarlet light suddenly bloomed from its blood-red eye and said, "I didn't expect that you would have already sent me the tribute without me having to do it personally... Since that's the case, I won't stand on ceremony and accept this gift!"

As he spoke.

He opened his bloody mouth and swallowed the nine cauldrons.

When the immense power of providence flowed into His body, His body visibly recovered.

This scene had frightened countless qi-refiners.

One had to know that this was the fate of the entire Nine Regions!

It was an unknown amount of power.

But now, this monster could swallow him whole.

From another point of view, didn't it mean that it could also swallow the entire Nine Provinces in one gulp?

The qi-trainers could not imagine that there was such a level of life in this world. At this moment, they felt cold all over, as if someone had poured a bucket of cold water on them in winter.

Li Yueming narrowed his eyes and said, "What should I call you? The Supreme Being of the Insect Race or the Human Sovereign Tiandu Clan? Or a false god who hid in the shadows and controlled this world?"

The monster licked its lips. After absorbing the immense power of providence from the nine cauldrons, the scales on its body were healing continuously.

Therefore, it was in a very good mood now. It replied, "Only you humans need to be called hypocritical, our universe bug clan never needs such useless things!"

"That damned old thing has been dead for so many years, yet he can still attack!"

"Fortunately, I was prepared. Otherwise, I might not have been able to kill you, the bane of fate!"

Li Yueming's mind was spinning, but he didn't say anything.

It was no wonder that after so many years, 'He' had not taken the initiative to jump out and cause trouble for him.

As expected, it was because Han Bufan had left the God Burial Ground with a serious injury when he made his final move.

However, after the nine cauldrons were devoured by 'him', his 'power seemed to have recovered by a large margin. His aura also became more terrifying and powerful.

After his injuries gradually recovered, 'He' was not in a hurry to make a move. Instead, he looked down at Li Yueming below his feet and said with a sinister smile, "You humans have joined forces with the Order Alliance to create a Universe-Grade Space-Time Treasure, wanting to change the future from the past... Little did they know that the Zerg race had also prepared for and responded to this?"

"Fate is already decided the moment it happens. All struggles are futile. They will be mercilessly corrected by the power of spacetime and finally return to the right track!"

"Just like how I'm standing in front of you right now, just like the twilight of the Alliance of Law!"

"Ten million years later, the entire universe will belong to the Zerg!"

When he said these words.

The ferocious and terrifying giant bug in front of him was very fanatical, as if it had already seen the future with its own eyes.

However, Li Yueming's reaction was very calm. He only smiled and said, "So you think you're the winner now? I don't think so!"

Hearing this, his hysterical smile stopped abruptly.

A pair of huge blood-red eyes stood up and looked at Li Yueming. "There's no point in saying anything more. I'll let you take a good look at what it means to be a supreme natural disaster that rules the world!"

” He ” slowly spread out a pair of black transparent wings that looked like cicada wings. With a flicker of the incomparably light wings, it actually caused him to disappear from where he was!

In the next second.

A huge figure appeared in front of Li Yueming.

Li Yueming raised his arm to block the attack. At the same time, he concentrated all his power on his body and activated his perfect genetic body at the same time.

“Bang!”

The black mountain pressed down, and Li Yueming was sent flying from the sky to the ground.

The power of this attack was so great that it directly smashed a bottomless pit in the thousands of miles of red land downstream of Northern Ice River Town!

The hundreds of meters high thick city wall of Northern Ice River Town, which was at the edge of the battlefield, had collapsed by more than half due to the aftershock of the ground shattering. Countless soldiers and civilians were buried in the rubble and stones!

However, this was only the beginning!

After being blasted into the ground, Li Yueming, who was covered in dust and dirt, finally crawled out. However, he was immediately sent flying thousands of miles away!

The sound of the air explosion tore through countless eardrums!

He had suffered two consecutive defeats. Although he had not suffered any fatal injuries for the time being, Li Yueming’s heart was still very heavy.

One had to know that he had already fully activated his perfect genetic body and evolved to the limit that a ‘living creature’ could reach under normal circumstances!

Chapter 707: Insect Clan Phantom, Prologue to the Final Battle!\_3

But even so, he still couldn’t gain any advantage in front of the ridiculous number of bugs.

This was one of the strongest forms of a perfect genetic body!

Not being able to gain an advantage meant that the other party’s level on the path of evolution had already reached a certain level.

However, thinking about it carefully, the Insect race was born at the edge of the universe and had to face the most desolate and harsh living environment at all times.

And this bug in front of him was very likely a clone or illusionary body of the top-tier Supreme Being of the Bug Race.

If it hadn’t evolved to the top level, then it would be a ghost!

Li Yueming didn’t fight here.

After all, he had led the Star Moon Empire to fight for the land under his feet inch by inch.

There were also many innocent people and Qi Practitioners around.

Therefore, he quickly adjusted his body and fled toward the Hundred Thousand Mountains.

The two figures were like the fastest rays of light in the world. In an instant, they disappeared from the original battlefield, leaving behind a group of dumbfounded people and many Qi Practitioners who were scared out of their wits.

So what exactly happened just now?

They came from all directions. The purpose of gathering here at the beginning was just to persuade Li Yueming not to drain all the luck of the Nine Regions and leave them a way out.

Why did everything turn out like this?

Everyone's mind was filled with doubts.

He finally came back to his senses and looked at the deep pit under his feet as well as the surrounding farmland, villages, and towns that seemed to have been destroyed by meteorites...The group of people felt a deep chill in their bones.

Today, the Dao hearts of countless Qi Refiners had been shattered!

He could still vaguely feel the terrifying fluctuations on the distant horizon.

Northern Glacier Town was silent.

Li Ruxing found Li Ruyue and asked her to arrange for the army to rescue the people before flying out of North Glacier Town.

Looking in the direction Li Yueming had left, Li Ruxing's eyes were filled with complicated emotions.

At this moment, her entire body exuded a completely different aura from before.

Unfortunately, other than her, no one in the entire Northern Ice River Town could notice her abnormality.

He stood there for a long time and muttered, "I didn't expect that he would really have the ability to fight that damn Primogenitor Insect Soul...After waiting for so many years, can someone finally help me free myself from this endless nightmare?"

As he said this, Li Ruxing's eyes revealed a rare look of confusion.

After a long while, he finally came back to his senses and said resolutely, "No, that's not right...He is definitely not a match for me alone. It seems that I have no other choice. I can only bet everything. I only hope that guy won't lie to me!"

After making up his mind.

Li Ruxing combed her hair, closed her eyes, and sat cross-legged.

If someone were around her, they would be able to feel the terrifying changes happening to her!

She was already a Qi Refiner at the peak of the Divine Aperture Realm, and now, her energy waves were surging up layer by layer. It was as if she had a cheat that allowed her to break through the three stages of heavenly tribulation, nirvana, and ascension!

The fluctuation of the realm breakthrough spread out and formed a small spirit qi tornado.

One had to know that these were three obstacles that countless geniuses could not cross in their entire lives.

However, in front of Li Ruxing at this moment, it was as easy as breaking through paper.

After breaking through Nirvana and entering the realm of Ascension, the endless power of providence in the world slowly surged towards her.

Closing his eyes and sensing for a moment, Li Ruxing frowned slightly and said, "The exhaustion of my origin energy is already very serious. Just now, another wave was cut away. I wonder if I can still help..."

"But no matter what, we can't lose, my good brother!"

Reining in his emotions, Li Ruxing stood up and looked at Northern Glacier Town not far away, as well as the Qi Practitioners who were at a loss for what to do further away. He regained his status as the Lord of Northern Glacier Town and said with a stern expression, "Men, pass the order!"

Chapter 708: The God-slaying Battle

At the edge of the Hundred Thousand Mountains thousands of miles away from North Glacier Town, Li Yueming was fighting with the remnant soul left behind by the Supreme Being of the Insect Race.

Unfortunately, this battle didn't seem to be on the same level from the beginning.

Even though the Supreme Being of the Insect race had left behind only a wisp of his soul, and even though tens of thousands of years had passed, it was still not something that the extreme combat power of the natives of this world could contend against.

Even if Li Yueming had already transcended this world.

However, it was just jumping from a small bottle into a larger basin.

Compared to the supreme existences who dominated the universe, he was still a frog at the bottom of a well who did not know the immensity of heaven and earth.

If Han Bufan hadn't used all his strength before he died and caused serious injuries to the Supreme Being remnant soul of the Insect Race, Li Yueming wouldn't have had any chance at all.

Of course, the current situation was not much better.

It only gave Li Yueming a little more leeway.

Boom!!!!

The sound of the ground collapsing at the edge of the Hundred Thousand Mountains rang out again.

At this moment, not a single spot on the surface of the ground within a radius of nearly ten thousand miles was intact. The battle between the two had already turned the surrounding area into ruins.

Amidst the dust and dirt, Li Yueming, who had already activated his Perfect Genetic Body, climbed up from the ground.

“How is it?” He laughed contemptuously. Do you feel despair? Fate cannot be changed!”

Li Yueming wiped off the dust, but his expression was still extremely calm. He said indifferently, “If there really wasn’t any way to change it, I wouldn’t even be standing in front of you now, right?”

The Bug Tribe Supreme Being Remnant Soul raised its huge head, its mouthpart wiggling as it said, “End you, this is the future!”

As he spoke.

It opened its mouth, which was full of jagged teeth, and spat out a stream of stinky mucus towards Li Yueming.

Li Yueming did not dare to be negligent and dodged the attack.

At this moment, he was already mobilizing the power in his body.

There was no need to talk about the two great treasures of the human body, the Returning God and the Ascending God.

The Four Polarized Dragon’s Hidden Treasure that was developed a few years ago was the source of Li Yueming’s combat power that had truly transcended this world!

After dodging the attack, Li Yueming finally lost his patience.

After activating the Four-sided Polar Dragon’s Hidden Treasure, he didn’t retreat. Instead, he turned around and pounced toward the direction of the Supreme Being of the Bug Tribe.

The remnant soul of the Supreme Being of the Insect race thought that Li Yueming would run away like before, but he didn’t expect Li Yueming to come to him this time.

Without any hesitation, he rushed straight in Li Yueming’s direction.

The two figures passed each other in the air.

Because the speed was too fast, only a sonic boom could be heard. Then, two figures appeared in the sky.

Compared to the huge body of the Supreme Being Remnant Soul of the Insect Race, Li Yueming was as small as an ant.

But now, the most unlikely scenario had appeared:

The two figures in the air separated after a brief intertwining. However, the one who suffered this time was not Li Yueming, but the incomparably huge remnant soul of the Supreme Being of the Insect Race!!!

However, Li Yueming actually tore off a piece of flesh that was still dripping with blood from the Supreme Being of the Insect Tribe!

He felt the bloody ‘flesh’ in his hand gradually turn into a strange seven-colored energy and slowly dissipate.

Li Yueming turned his head to look at the remnant soul of the Supreme Being of the Bug Tribe, revealing a mouthful of white teeth as he smiled, "How is it? Do you still have that much confidence now?"

The Bug Tribe Supreme Being Remnant Soul was obviously shocked by Li Yueming's sudden display of terrifying combat strength.

He turned his head and stared at Li Yueming for a moment before asking in confusion, "As a human, it is already incomprehensible enough that you are able to be close to me in terms of life level. Now...How is that possible?"

As a universe level warrior.

Even if it was just a remnant soul.

"He" was also unable to understand the situation in front of him. It wasn't that "He" was too inexperienced.

It was because a freak like Li Yueming was rare even in the entire universe.

Whether it was the perfect genetic body or the Four-sided Polar Dragon's Secret Treasure, each of them could only be on par with 'Him' at most.

Only when he activated the Perfect Genetic Body and the Four-sided Polar Dragon's Hidden Treasure at the same time could such an unbelievable result appear!

After all, the Four-sided Polar Dragon's Hidden Treasure was one of the ultimate human secret realms that could increase the strength of the human body by 10 to 100 times. After activating the Perfect Gene Body, it would also increase the strength of the human body.

When the two were superimposed, it was not a simple addition or deduction.

It was a proper multiplication!

Of course, the price to pay for such a terrifying bonus was also extremely terrifying.

If something went wrong, Li Yueming's body would explode into a pile of meat paste because it could not withstand the extreme backlash from the genetic level.

The reason why Li Yueming hadn't used this final trump card was that he had been hiding his edge and waiting for an opportunity.

He looked at Li Yueming, whose muscles were bulging and looked even more like a monster than "He".

The Insect Race Supremacy Remnant Soul looked at him in shock for a long time before he finally said, "I see. Your method is somewhat similar to my Zerg's!"

"But how long can you maintain such a high-load state? You know, my body..."

However, such a small injury was nothing to worry about!"

Chapter 709: The God-slaying Battle!

As he spoke.

A new carapace grew out of the place where Li Yueming had torn it apart.

The aura on his body was just as 'he' had said. He did not show any signs of weakening.

Such a simple attack did not even scratch the Zergs.

However, just as the Supreme Being Remnant Soul was about to say something...

"He"s expression suddenly changed. His body that had just healed began to rot again in just a moment, turning into wisps of black smoke that dissipated in the air.

"He" refused to believe it and once again mobilized the energy in his body to try to repair the wounds on his body.

However, no matter how hard "He" tried, the energy that healed the wound still quickly dissipated like rotten meat.

After discovering this, he was shocked.

"He"s expression changed drastically. He looked at Li Yueming with a single eye that was filled with blood-red light and said fiercely,""There's a problem with the nine cauldrons? If it was not the luck of the Nine Provinces, what was inside?"

After confirming that his scheme had worked.

Li Yueming finally breathed a sigh of relief and replied with a smile,""Even a three-year-old child knows not to eat food of unknown origin, but you don't know. Could it be that you're not even as good as a three-year-old child?"

At this point, Li Yueming patted his head and revealed a look of realization."Sorry, I forgot that you're a Zerg, known as the Calamity of the Universe. Under normal circumstances, you'll naturally eat anything. Even if there's poison in the world, it can only become a ball of energy in your stomach..."

"But don't forget that although you have an indestructible body, you are only a remnant soul clone!"

In fact, he had left the God Burial Ground several years ago.

Li Yueming and Li Ruxing were already speculating about the current state of the Zergs in outer space.

According to all the information he had gathered from all directions.

Then, they gathered their basic understanding of this kind of life form.

In the end, they unanimously agreed that the state of the Supreme Being of the Insect Tribe should be similar to the remnant soul of Han Bufan in the God Burial Ground. It was just that the Supreme Being of the Insect Tribe who won the battle might be in a better state.

After finding out that the enemy in the dark was very likely to be a wisp of a remnant soul, he was shocked.

The two of them continued to discuss further.

What exactly did the remnant soul of the Supreme Being of the Insect race rely on to exist in this world?

After all, even the most sealed energy could not escape the measurement of time.

If the Supreme Insect Remnant's purpose of leaving behind was to wait for Li Yueming's arrival, then it would definitely have to consider the issue of time. It was impossible to leave behind only one consumable. It had to reserve one or more ways to replenish its energy.

After obtaining these few points, it was more logical to deduce further.

Since it was known that the Supreme Being of the Insect Race was a remnant soul like Han Bufan, and that he had left behind a method to replenish his energy in this world, then what kind of energy could replenish the Supreme Being of the Insect Race?

In the beginning, Li Yueming and Li Ruxing were unable to come to a clear conclusion.

After all, no one knew what the Zergs in the universe had up their sleeves, so how could they easily figure out what chess pieces the other party would bury?

This question had been bothering the two of them.

As a result, the two of them pondered for a long time.

Later, when the nine cauldrons were transported here from the six capitals, they saw that the nine cauldrons, which should have been filled with the power of providence, were actually empty. The two of them suddenly came to a realization.

The saying that the nine cauldrons gathered luck had been passed down for a long time, and it could even be traced back to the era of the ancient Great Qian Dynasty.

However, the fate that symbolized the Nine Provinces did not really stay in the nine cauldrons. The cauldron was empty.

This meant that the power of providence in the nine cauldrons might have been stolen and become the energy that allowed the Supreme Being of the Insect Race to live forever.

The situation just now also confirmed Li Yueming and Li Ruxing's guess.

The Insect Race Supreme-Being Remnant Soul had been injured in the battle with Han Bufan, and it had used the power of providence to repair its body. Even the energy that had dissipated from the wound had turned into a cloud of seven-colored smoke.

It was also because of this that Li Yueming deliberately threw the nine cauldrons.

However, what was contained in it was not the luck of the Nine Provinces, but the power of faith that Li Yueming had accumulated over the years.

If the luck of the Nine Provinces was said to be a panacea that could cure all diseases, then the power of faith that contained the prayers of the people of the world could only have unpredictable extraordinary abilities for those who were worshipped and respected. However, for those who wanted to steal this power, this power was the densest poison in the world!

Li Yueming injected his power of faith into the cauldron and deceived the Supreme Being of the Bug Tribe with the eyes and ears of the world, making him mistakenly think that the Nine Cauldrons gathered the fate of the Nine Provinces.

Little did he know that it was actually Li Yueming who had painstakingly set up a trap for 'him'.

If the Supreme Being Remnant Soul of the Insect Race could keep using the power of providence and other energy to revive its body, Li Yueming believed that it would definitely not pose a threat to its life.

After all, after activating the Perfect Genetic Body and the Four-sided Polar Dragon's Secret Treasure, although his attack power would become very strong, his realm was still not high enough to use large-scale destructive skills.

The only way to kill the opponent was to lower his HP, which was the simplest and most efficient method.

And now, the foreshadowing that he had laid down in advance had finally come to fruition.

Unable to use his energy to recover his body, the Supreme Insect had lost his prideful ability to recover HP. As long as he dealt enough damage, he might still have a chance of winning!

Li Yueming did not continue to delay.

There was a saying that delay led to change.

Moreover, his current state was destined to not last long.

Now, it all depended on who could last until the end!

After realizing that he had lost his 'pseudo undying body,' the Supreme Being of the Bug Tribe was obviously panicking.

However, 'he' was not an ordinary person after all.

After a brief moment of panic, he quickly made the right choice.

The two of them fought even more fiercely.

Blood flowed everywhere on the battlefield, and countless terrifying aftershocks almost turned the surrounding ground into powder.

A huge crater with a diameter of nearly ten thousand miles appeared on the outskirts of the Hundred Thousand Mountains in Nine Regions.

It would become a world-famous masterpiece for a long time in the future.

In the end, Li Yueming was covered in blood.

Of course," He " wasn't any better. His wings, which were originally like cicada wings, had already drooped down. More than half of them had been torn off by Li Yueming.

The scales on its body were also covered in dazzling wounds.

Balls of energy that were sometimes sacred and sometimes treacherous were running around 'His' wounds, looking extremely dazzling.

'He' stared at Li Yueming with his red, sunset-like eye and said,""Now I know why the Zergs were so afraid of that person. I have to say, it's unbelievable that a human can have such terrifying combat strength!"

The Supreme Being Remnant Soul of the Bug Tribe stuck out its long and thin tongue and licked its lips.”However, if you think that you can kill me like this, then you’re underestimating me!”

With that, ‘He’ disappeared from the edge of the Hundred Thousand Mountains battlefield in a flash.

Li Yueming panted heavily. Every bone in his body was in so much pain that it felt like it was about to break.

However, at this moment, there was no reason to take pity on his body.

Looking at the direction ‘he’ had left in, he could only grit his teeth and chase after him.

He could only hope that this battle would not end as he had initially imagined.

After their combat power broke through the limits of this world, both Li Yueming and the Supreme Being Remnant Soul of the Bug Tribe had power and authority that exceeded the imagination of the creatures of this world.

In just a few breaths.

The two of them arrived at Northern Ice River Town, which was thousands of miles away.

Looking at the human city beneath his feet, the Supreme Being of the Insect Race’s Remnant Soul laughed sinisterly,”“Since I can’t use the power of heaven and earth providence in the nine cauldrons to heal my injuries, I can only take a step back and devour the power of these ants!”

“Back then, I left behind my orthodoxy in this world to guard against today!”

“All the humans who cultivate the orthodoxy I left behind are the seedlings of my vegetable garden. Now that you’ve forced me to this point, it’s time to harvest them and make you and all the humans in this world pay the price!”

Chapter 710: Gather all the power that can be gathered!\_1

Back then, the remnant soul of the supreme being of the Insect race had changed his name to Human Emperor Tiandu Clan, leaving behind a cultivation orthodoxy called ‘Qi Refinement’ in this world.

Since then, countless people had followed behind him and groped along the path of ‘Qi Refinement’ that was destined to have no results.

The so-called gathering of the nine cauldrons scattered in the world, gathering the fate of the world and ‘ascending’ to the heavens was a complete lie.

Since ancient times, hundreds of millions of people have tried their best to achieve the goal of achieving the goal of transcendence.

However, the remnant soul of the Supreme Being of the Insect race hid behind this world and controlled everything. Who could truly transcend?

No matter how talented he was.

He would not be able to escape the outcome of turning into dirt.

This way...

Not only did the remnant soul of the Supreme Being of the Insect race leave behind a deformed path that was destined to have no future, but it also lured all the living beings in the Nine Provinces to cultivate.

To curb the barbaric development of the indigenous civilization in Nine Regions.

The royal families of the Six Nations and the ancestors who had been sleeping for ten thousand years were the watchdogs that helped the Supreme Being Remnant Soul of the Insect Race guard this world.

It could be said that since the Great Qian Dynasty was destroyed in the aftermath of the battle, the native creatures of Nine Regions had never had true freedom for tens of thousands of years.

The bodies of Qi Refinement cultivators were filled with the spiritual energy of this world, but their bodies were mostly extremely weak.

How could he possibly resist against the remnant soul of the supreme being of the Insect race that was extremely sensitive to energy?

However, in Northern Ice River Town, it wasn't as the Bug Tribe Supreme Being Remnant Soul had expected. They weren't terrified when they saw 'His' figure.

On the contrary, he seemed to have been prepared for this.

Countless troops were gathered in the square in the middle of the town.

Looking from afar, the ground below them was densely packed. It was like the scene of worker ants gathering and waiting for an attack when an ant's nest was destroyed.

The Bug Race Supremacy Remnant Soul was stunned when he saw this, but he could not help but laugh out loud."I was just worrying that it would be too troublesome to devour them one by one. Now that we're all gathered together, it saves me a lot of effort!"

Li Yueming also appeared behind "him".

He looked down at the city walls of Northern Glacier Town that had been built brick by brick from the open ground, as well as the millions and tens of millions of terrified citizens of Northern Glacier Town.

Li Yueming's mood was also very heavy at this moment.

Beneath his feet.

Li Ruxing appeared in the central square of North Glacier Town.

Beside her were millions of soldiers.

At this moment, Li Ruxing felt the gaze of the Supreme Being of the Bug Tribe. He said with a cold expression,"Go ahead and fight 'him'. As long as I'm still here, as long as the Star Moon Troop is still here, I won't let the people of Northern Ice River Town suffer any casualties!"

As he spoke.

"Star Moon Troop, listen to my command and form a formation!" she ordered loudly.!!"

After the words 'formation' fell.

In an instant, the Star Moon Army, which was originally in a mess, quickly formed a huge formation similar to the Yin-Yang Eight Trigrams.

Looking down from the sky, Li Yueming could clearly feel the energy contained in the array.

If he was not mistaken, this formation should be one of the formations recorded in the Book of Changes of the ancient Da Qian Dynasty. The general effect was to accommodate and amplify everyone's strength and form them into an adult.

Using tens of thousands of ants and insects to form the formation, it could fight against the ancient elephant.

With tens of thousands of people forming this formation, it could fight against powerful Ki Refiners.

And using Ki Refiners to form a formation, they could fight against the heavens!!!

Now that Li Ruxing was using the Star Moon Army as a formation, the spiritual energy in the bodies of the soldiers of the Star Moon Army might not be enough.

But don't forget, the Star Moon Troop's strongest asset was not their flesh and blood, but their strong will forged from steel, as well as the terrifying army spirit that followed the strong will!

With this array and Li Ruxing, who had broken through to the Ascension Realm, as the array core, he was able to use the array formation.

Perhaps he would have the power to fight against the Supreme Being of the Insect race for a short period of time!

However, the Book of Changes had suffered heavy damage.

When Wang Ziwei had traveled the world personally, he had only found a few incomplete scrolls for Li Yueming. It was because of this that Li Yueming was able to guess that the formation under his feet was related to the Book of Changes.

But here came the problem.

Even he could not find the core of the Book of Changes.

How did Li Ruxing know the full text of the formation?

Of course, the current situation was urgent, and it was not the time to be troubled by this.

Since Li Ruxing was able to protect the peace of Northern Ice River Town.

At the very least, he could avoid Li Yueming's worries.

When he saw that the array under his feet was in effect, the remnant soul of the Supreme Being of the Bug Tribe was obviously a little angry. It stared at Li Ruxing with its single eye for a long time before it gritted its teeth and said, "The will of a small planet, an existence that I could easily wipe out with a flick of my finger. Now, you actually dare to get involved and seek death?"

Li Ruxing's eyes were filled with determination as he replied loudly, "You destroyed the world that I developed, and yet you don't allow me to take revenge on you?"

Seeing that she still dared to provoke him shamelessly.

The Bug Race Supreme-Being Remnant Soul waved his hand and struck the ground beneath his feet.

The massive energy fluctuations were like water that surged into the sky, pouring into the earth from the boundless sky.

If this attack landed, it could easily wipe out more than half of Northern Glacier Town!!!

Seeing this situation, Li Yueming did not hesitate and rushed forward to block the attack.

However, Li Ruxing seemed to have read his mind. She shook her head and said, "Go ahead, don't worry about us!"

As she spoke, she had already walked up to him.

With a wave of her hand, she actually managed to block the attack of the Supreme Being of the Insect Tribe.
