

Maxing MT 711

Chapter 711: Gather all the power that can be gathered!_2

“Bang!”

The short exchange between the two sides caused an extremely terrifying fluctuation.

Under Li Yueming’s feet, hundreds of thousands of Star Moon Troops gathered together, but at this moment, they all suffered a backlash. They couldn’t help but groan, and countless soldiers fell to the ground, bleeding from their seven orifices.

Someone quickly rushed in from outside the array and helped the fallen soldiers away. Then, someone else immediately took over.

Seeing this, Li Yueming also decisively changed his attack. He changed from blocking to attacking, once again leaving a medium-deep wound on the body of the Supreme Being Remnant Soul.

Under normal circumstances.

This kind of insignificant damage would not be placed on him at all.

Because ‘He’ was in the form of energy, the so-called injuries could be healed as long as there was enough energy.

The reason why he was in such a sorry state now, other than the fact that Li Yueming was indeed very difficult to deal with at this moment, the biggest reason was the power of faith that had been stirring the energy balance in his body.

It was precisely because this poison-like power was wearing down the power of faith in ‘His’ body that not only could ‘Him’ not attack with all his strength, but this body formed by the power of providence had also lost its original powerful characteristics.

It was to the extent that even the injuries on his body could not be healed.

Now, seeing that Northern Ice River Town could not be easily broken through, he could not help but ask,”

The Bug Tribe Supreme-Being Remnant Soul could only turn around and head towards the other towns.

The Nine Regions was very big, and there were many Qi Practitioners, so there was no need for ‘him’ to waste time in one place.

If he were to heal his injuries in other places, it would at most be a little less efficient.

Li Yueming could sense ‘his’ intentions.

Li Ruxing felt it too.

However, she did not panic at all. Instead, she looked at Li Yueming and said,”Little brother, stall ‘Him’ and buy me some time!”

Lee Yueming glanced at Lee Ruxing and nodded.

This sister of his was indeed not as simple as she seemed.

Judging from the reaction of the Supreme Being's remnant soul just now and his deep understanding of the Book of Changes, Li Ruxing might really be the manifestation of the world consciousness of this world!

He just didn't know if Li Ruxing was the world consciousness, or if the world consciousness was Li Ruxing, or both.

The Insect Race Supreme-Being Remnant Soul snorted coldly.

He turned around and headed toward the nearest big town.

Li Yueming took a deep look at Li Ruxing, who was not far away. In the end, he did not waste any time and immediately chased after her.

His current physical condition was actually not very good.

Although it could barely stop the Bug Tribe Supreme Being's remnant soul, it was still a small matter.

However, it was still too difficult to defeat and kill him.

If there was no other way, 'He' would only need to find a large city where many Ki Refiners gathered.

It would probably not be long before the other party would be able to recover his peak combat strength.

At that time, Li Yueming wouldn't be able to do anything about it.

Even if all the qi-trainers in the world of the Nine Provinces were tied together, they would not be enough to kill 'him' in a rage.

Although it was not clear what methods Li Ruxing, as the world consciousness, had to reverse the situation.

However, Li Yueming could only choose to believe it.

To the south of Northern Glacier Town, the most prosperous and prosperous town was the town that had been rebuilt from the ruins of the eighteen counties in the northern part of the Great Zhou Dynasty.

As for the largest city, it was Dingyuan City, which You Aotian had defended to the death.

In order to prevent the Bug Tribe Supreme Being's remnant soul from entering the vicinity of this area, Li Yueming had completely thrown caution to the wind. Even if he had to use all his skills, he had to stall for as much time as possible.

On the other side, in Northern Glacier Town.

After discovering that "He" and Li Yueming had disappeared into the air, the originally silent Northern Glacier Town suddenly broke into an uproar.

Even though Li Ruxing had blocked the attack of the Supreme Being Remnant Soul of the Insect Race just now.

However, just a wisp of its aura was enough to suppress the tens of millions of people in Northern Ice River Town.

Now that the crisis was temporarily resolved.

Countless people and Qi Practitioners could not help but sit on the ground with a dazed expression.

However, Li Ruxing was obviously unwilling to give them time to catch their breath.

She looked at the Qi Practitioners who were enveloped by another small array not far away. These Qi Practitioners were the ones who had entered North Glacier Town to beg Li Yueming not to devour the Nine Regions 'fate.

Li Xingyue drove away a batch and left a batch behind.

The group that had been chased away had already fled in all directions during the previous battle.

The remaining batch was hidden by Li Ruxing in North Glacier Town.

At this moment, Li Ruxing's gaze slowly swept across this group of people. With a solemn expression, he said, "See? The so-called Qi Cultivation and ascension was a scam from the beginning to the end!"

"The so-called Human Emperor Tiandu Clan is an alien race that distorts this world to fulfill itself!"

"When I told you before, you didn't believe me. Now that the truth is in front of you, you have to believe it or not!"

"Just now, if it wasn't for Great General Li posing a threat in the sky and me setting up an ancient formation on the ground to defend myself...All of you, including me, and the tens of millions of people in Northern Ice River Town would have long become 'his' food!"

When he heard these words.

All the gathered Qi Practitioners were still in a daze.

This was not their fault.

The truth that they had believed in for thousands of years was suddenly overthrown one day.

No one could easily accept the bloody reality.

Now, Li Ruxing's words had completely shattered their last bit of fantasy.

When they first discovered that everything was a scam, they were so shocked that even when they saw the terrifying monster with their own eyes, they still could not believe that everything was real.

However, as everything faded away.

Many of the Qi Practitioners who had lost their souls finally found their souls again.

The anger in his chest immediately boiled like lava in the depths of the earth's crust.

Someone clenched his fists and gritted his teeth. With red eyes, he said, "No wonder it's like this, no wonder it's like this... No wonder none of us Aura Refining cultivators have been able to transcend for tens of thousands of years!"

Some people were so angry that their fingernails were deeply embedded in their flesh. They gritted their teeth and said, "Leaving behind a wrong path for us to cultivate, just to cut off our future and treat us as leeks..."

"In the past tens of thousands of years, there have been countless talented people in the Nine Regions. They originally had the chance to transcend... However, they had all fallen at the hands of this damned monster. Their blood feud was simply irreconcilable!"

At this moment, even the weakest person could not help but clench their fists.

If the anger in his heart could be turned into reality, it would probably burn the universe.

Li Ruxing looked at them and said coldly, "There's definitely no chance for revenge with your own hands. Ever since the day you cultivated the Qi Refinement technique, you've long lost the ability to resist the Creator!"

As soon as he said this.

Instantly, countless sensitive qi-refiners' eyes turned red.

If it wasn't for the fact that their remaining rationality reminded them not to make an enemy out of Li Ruxing.

They probably couldn't help but fight now.

Li Ruxing paused. Seeing that they could still control their rationality, she continued, "However, even an ant can shake a tree. Now that the world is uncertain, are you willing to follow me and fight with Great General Li?!"

When the surrounding Qi Practitioners heard this, their expressions revealed signs of struggle.

Li Ruxing didn't urge them, but said indifferently, "No one has a way out in this battle. Once Great General Li loses the power to restrain that monster, the entire Nine Regions will be buried with him!"

Hearing this, the qi practitioners' expressions changed several times. They finally let go of the last bit of hope in their hearts and nodded, "We... I'm willing to follow you to the death!"

Although most of them were afraid of death.

After all, they were different from those mortals who lived and died in the blink of an eye. They had extraordinary power and a long life.

However, there was still no way out for them.

Li Ruxing was right. Once Li Yueming was defeated, all of them would be buried with him.

He was certain of this.

A Ki Refiner could not help but stand up and ask, "So, how should we help Great General Li achieve victory?"

Li Ruxing's expression was still cold.

He replied indifferently, "Naturally..." Gather all the power that can be gathered in the world!"

Chapter 712: The End Was Destined From the Beginning!_1

While Li Ruxing was still gathering the Qi Practitioners.

The news of the terrifying monsters beyond the ascension had also spread throughout the world along with the batch of Qi Practitioners who had escaped.

After a short silence, everyone in the world was in an uproar.

Qi cultivation was actually a winding path from beginning to end.

Ascension was a complete lie.

It was a devastating blow to the Refinement Cultivators who believed in it!

"This... How could this be? Cultivating qi and ascending is our lifelong wish, but now this is the result?"

"Ever since the Human Emperor of the Tiandu clan ascended the Nine Provinces and established the Tiandu Dynasty, tens of thousands of years have passed...Why was it that no one in the world could see through the conspiracy?"

"In the past ten thousand years, there have been so many geniuses in the world. I'm afraid it's not that no prodigy has seen through the dark secrets hidden behind them. However, the monster did not allow anyone to see through it. Or rather, the person who could see through the truth would either become the guardian of the rules or disappear from this world without a trace!"

"Yes, this can also explain why the truly powerful Qi Refiners in the world always end up in a silent state!"

"This time, if it wasn't for the Star Moon Army's Li Yueming, I'm afraid that we would still be kept in the dark and end up in a state of confusion for the rest of our lives!"

"Damn it, it's really despicable...When the Six Nations besieged Li Yueming, we were all clapping our hands in joy. Now, we know that the clown in the play is ourselves!"

In the beginning, many Qi Practitioners in the world were unwilling to believe it.

However, the ones who were spreading this information were all the Qi Practitioners who had gone to Northern Ice River Town.

It should be known that the group of Qi Practitioners who could travel a long distance to North Ice River Town to seek justice were not unknown people in all parts of Nine Regions. At least they were famous in various places, and they were the best among the Qi Practitioners.

Only they had the confidence and ability to cross such a long distance.

Most of the other low-level Qi Refiners were not qualified to participate at all.

Therefore, the low-level Qi Practitioners might not believe the news of a monster beyond ascension.

However, after hearing this from the mouths of these high-level Qi Practitioners, the Qi Practitioners from all over the world had to believe it no matter what.

“I heard that the monster is hidden behind the seven-colored auspicious clouds. It is a thousand meters long and can cause the world to change color just by stretching its body...General Li Yueming was fighting the monster at this moment. He wondered if he could win the final victory!”

” The monster is the culprit who deceived us for thousands of years, the enemy of all the Refinement Cultivators in the world, and the culprit behind all the conspiracies. I hope that General Li can be as brave and invincible as ever and kill him and avenge the thousands of Refinement Cultivators who died unjustly because of it!”

“Difficult, difficult...Great General Li was also born as a Qi Refiner. How could he possibly defeat the monster itself under the Qi Refinement System created by the monster? I wonder what our fates are!”

The Ki Refiners from all over the world were all sighing.

He was filled with hatred for the deceiver, but also worried about his own fate and future.

Unfortunately, fate was never in the hands of the majority.

Even a Ki Refiner would not be able to control his own fate in the end.

Just as the world was in turmoil.

Another piece of world-renowned news spread throughout the entire Nine Regions.

Back then, Dingyuan City, which was originally one of the twelve cities in the northern regions of the Great Zhou Dynasty, was attacked by monsters.

The enormous monster only stayed in the sky for a few breaths of time.

The millions of people in the city and the thousands of Qi Practitioners who did not manage to escape in time were all turned into nutrients to repair his body.

When they first heard about the monster, the outside world was only shocked.

Now that they heard that the monsters had really begun to slaughter the entire world, everyone felt a chill in their hearts.

A few hours after this incident.

The Star Moon Empire, which had remained silent until now, finally made a relevant declaration to the outside world."General Li Yueming is fighting with the alien monsters and has already obtained some results!"

"Now that the monster is seriously injured, it is looking for human towns to absorb spiritual energy to heal its injuries!"

"Great General Li tried his best to stop it, but in the end, he was still alone and unable to continue..."

"The sins committed by the monster to the people of the Nine Regions are hard to write. The Star Moon Dynasty hereby calls on the millions of people in the world to pray for the blessings of General Li, gather endless power of faith, and jointly forge an invincible golden body for General Li!"

"Also, please do not gather in any city on a large scale. The spiritual energy that the monster wants to devour mostly comes from your bodies. The best way for you to protect yourself and love your loved ones is to live alone in the countryside!"

The declaration was very messy.

It was personally drafted and promulgated by Li Ruxing.

Now, Li Yueming wasn't around.

In the entire Star Moon Empire, only Li Ruxing had the prestige and ability to save the world.

Li Ruxing didn't stop at all after releasing the news. She gathered all the soldiers of the Star Moon Army from all over the world almost at the same time and immediately rushed to the towns she designated in a specific order.

The Dao of arrays in the Book of Changes was extremely profound.

Chapter 713: The End Was Destined From the Beginning!_2

Naturally, not only could people be used as the foundation of the array, but cities and even the entire world could also be used as the foundation of the array.

Now, the only thing that hindered her from making a plan was time.

She didn't know how long Li Yueming could hold on, nor did she know how many towns the Supreme Being's remnant soul of the Insect Race would slaughter and how much power it would recover.

He could only do his best and leave it to fate.

Three thousand miles south of the Twelve Northern Cities.

Li Yueming was fighting with the Bug Tribe Supreme Being Remnant Soul.

Before this, he had already tried his best to delay the remnant soul, but he still managed to recover some of its injuries.

Originally, Li Yueming was already on the verge of death.

After all, although the Infinite Gene Body and the Four-sided Polar Dragon Secret Realm could indeed make people powerful, the consumption was still quite large. It was not easy to support it for so long with just the little energy stored in the body.

However, just as he was about to give in...

However, the wish power of the people in the world gathered and surged into his body.

Only after obtaining this new strength did he stop his decline.

The Bug Tribe Supreme Being Remnant Soul, who had been very confident earlier, had now deeply felt how difficult it was to deal with Li Yueming.

Although he was indeed the one who was schemed against first.

However, 'he' was a clone of a universe supreme.

Even if his strength was less than one thousandth of his original body, it was definitely not so easy to deal with.

And now, Li Yueming was able to cause a lot of damage to 'Him' with his limited strength. It was obvious how heaven-defying he was.

It was no wonder that the upper echelons of the Bug Tribe were so terrified when they talked about that battle.

At that time," He " still didn't understand, but now, he suddenly felt the same way.

Facing such a terrifying guy, even if he wanted to calm down, he couldn't!

Of course, the more this was the case, the more he had to kill Li Yueming.

Otherwise, once he escaped, no one knew what would happen in the future.

Both of their eyes were red from killing.

Li Yueming rushed to the front of the Supreme Insect Remnant Soul with his bare hands and used his incomparably tyrannical brute force to tear off a piece of bloody tissue from 'His' body.

The Bug Race Supreme-Being Remnant Soul did not let him off either.

With a backhand palm, Li Yueming was sent flying, and many of his ribs were broken.

If it wasn't for the fact that he had a perfect genetic body, a normal human would definitely be unable to withstand such a level.

Fortunately, Li Yueming was also a monster. He swallowed the flesh and blood torn from the Supreme Being's remnant soul into his stomach and used the energy he digested to heal his injuries.

The battle had reached this stage.

Neither side had any way out.

Every move was a desperate move filled with killing intent.

Unlike Li Yueming, the Supreme Remnant Soul of the Insect Race could replenish itself by absorbing the energy of all living beings in Nine Regions, which was equivalent to being invincible.

At this moment, 'He' was rushing towards the next large human town after Dingyuan City.

After seeing the outline of the city in the distance, the remnant soul of the Supreme Being of the Insect Race stopped and looked at Li Yueming behind him. His eyes were cold and his tone was bloodthirsty. "See? I will always be invincible. I can't fight my fate. What do you have to fight me?"

Li Yueming also saw the city.

However, the expression on his face remained as calm as ice. "I've already answered this question before you. It doesn't matter if fate can be changed. What's important is... We will never give up fighting!"

As he spoke.

He signaled the Bug Tribe Supreme Being Remnant Soul to look at the town behind him and said, "Look, they haven't given up yet!"

Sensing the strange aura, the remnant soul of the Bug Tribe Supreme Being turned around and looked at the town behind him.

A huge array appeared in the town again. This array was somewhat similar to the one he had seen in Northern Ice River Town.

However, the difference was that the one in Northern Ice River Town was a perfect formation.

And now, this human town had become a part of a huge array that spanned thousands of miles.

The Bug Race Supremacy Remnant Soul was extremely knowledgeable.

With just a glance at the array, he immediately understood what had happened. He gritted his teeth and said, "This damned remnant soul of the world's consciousness. If I had known this would happen, I would have directly killed you!"

Obviously, Li Ruxing's actions had made 'him' feel extreme anger that he had not felt for a long time.

If he hadn't fallen into Li Yueming's scheme at the beginning and swallowed a ball of faith power that didn't belong to 'Him' and was completely contrary to 'Him' in the first place...

It would not have led to such a miserable ending.

However, at this moment, 'His' state was already very bad. He could only forcefully suppress his anger and say, "I don't have that much time to break a small formation, but if I find the core of such a large formation, I can easily break it!"

As he spoke, 'He' observed for a while.

After confirming the trajectory of the spiritual energy and other energy in the array, he immediately turned around.

About three days later.

Li Yueming followed 'him' for thousands of miles.

In the end, they arrived at the land outside the capital of the Great Zhou Dynasty.

This was the core of Li Ruxing's array. As long as it was cracked, hundreds of cities around it would be destroyed in an instant.

However," He " could think of this.

Of course, Li Ruxing could also think of this.

All the gathered Qi Practitioners and millions of soldiers of the Star Moon Army had been waiting for a long time.

Chapter 714: The End Was Destined From the Beginning!_3

When the Bug Tribe Supreme-Being Remnant Soul Li Yueming stepped into this place.

Li Ruxing completely opened the center of the entire array, and the array links were connected to Li Yueming's body. Almost endless power filled Li Yueming's body.

This was the power of the Star Moon Army's military soul after being amplified by the array formation.

In addition, there were countless other powers lingering in Li Yueming's body. These were the power of faith and prayers of all living beings in the world.

In addition to the two powers mentioned above, there was also an extremely pure energy. It was the power of many Qi Practitioners who had placed their hopes on Li Yueming.

Each of the three forces had tens of thousands of people gathered behind them.

Each of them was so huge that it was boundless.

The ordinary people in Gaojing City had already been evacuated.

Only tens of thousands of Star Moon Army soldiers and Qi Practitioners were left.

At this moment, when they felt Li Yueming's gaze, they shouted in unison,""I hope that Great General Li can help us kill the evildoer and return the world to peace!"

"I hope that Great General Li can help us kill the evildoer and return the world to peace!"

He looked at the people below him.

Li Yueming's heart felt a little dazed and relieved.

Finally, he looked at Li Ruxing, who was still in the core of the array, and slowly nodded."Today, I will kill this parasite in front of everyone!"

The energy gathered behind the array was too huge.

Sensing that something was wrong, the remnant soul of the Insect Race Supreme-Being immediately wanted to retreat.

But it was too late.

Li Yueming stood in front of 'him' and said coldly,""That's why fate isn't predestined. Even if it's really predestined, who knows what the outcome will be if we don't fight until the last moment?"

The Insect Race Supreme Being Remnant Soul's expression was extremely gloomy, and its incomparably ferocious single eye was also filled with brutality."Hehe, so what if you get past me? The later stages would only get more difficult. The Zerg would never sit idly by and watch you travel through the gaps in time and space!"

"This time, you were lucky to escape, but it wasn't the time for you to die. It's also a part of fate!"

"Moreover, my original body has not died. Sooner or later, it will return. At that time, this world will still be destroyed."

Obviously, the setbacks had caused the remnant soul of the Bug Tribe Supreme Being, who had thought that everything was under control, to panic.

The remnant soul was not the main body. It only inherited a portion of the main body's memories and senses.

At this moment, although the Supreme Being of the Insect Race still wanted to show a calm appearance, he still felt a little flustered and exasperated.

Li Yueming did not reply. After all, there was nothing more to say now.

From the moment 'he' believed that the Nine Cauldrons contained the luck of the Nine Provinces,'he' had fallen into the trap carefully woven by Li Yueming and Li Ruxing.

Perhaps Li Yueming's preparations were not as thorough as he had imagined, but Li Ruxing was one of the concrete manifestations of the world's consciousness. As early as thousands of years ago, when the Great Qian Dynasty was destroyed, she had already had the intention to kill the remnant soul left behind by the Supreme Being of the Insect Race.

It was just that he had always been hindered by the fact that he could not be the core candidate at this time.

That was why he could only endure the feeling of being controlled and parasitized.

However, for so many years, the planet's will seemed to be obedient on the surface, but in reality, it had never given up on all kinds of preparations.

The so-called 'army spirit' that was recognized by heaven and earth was born because of this.

The 'army soul' system could reasonably avoid the Qi cultivation orthodoxy left behind by the Supreme Being of the Insect race. Through this, it could retain more power that was not controlled by the remnant soul of the Supreme Being of the Insect race. The same was true for the power of faith. It was not in the Qi cultivation orthodoxy, but it could be used to forcefully create gods during necessary times.

It could be said that the world consciousness of this world had put in a lot of effort and did everything for today!

Li Ruxing was one of the manifestations of this world's consciousness and the main planner of this battle, while Li Yueming was the sharpest blade of fate!

Chapter 715: The End of Everything!

The so-called " fate of heaven and earth ", the so-called " army spirit ", and the so-called " power of faith " were all just the struggles of the world's consciousness in this world in order to get rid of the remnant soul of the Supreme Being of the Bug Tribe.

Under normal circumstances, these channels were not open to ordinary people.

Fate, army souls, and power of faith would not take care of any life.

Only when a heaven-defying existence like Li Yueming appeared would the world consciousness of this world selectively give him special care.

And now.

Li Ruxing had already decided to place all his hopes on Li Yueming.

With her full help, gathering the power of the entire Nine Regions, Li Yueming finally had the power to compete with the Supreme Remnant Soul of the Insect Race!

The following battle went smoothly.

If the Supreme Being Remnant Soul of the Insect Race had swallowed the power of faith by mistake, it might not have been able to fight.

However, there were no ifs.

Northern Ice River Calendar, Year 33, Winter Month 20th.

Li Yueming gathered the power of heaven and earth into his body and finally killed the remnant soul of the Supreme Being of the Insect Race in the sky above Haojing, the capital of the old dynasty.

When the hundreds of thousands of Qi Practitioners heard the news, they cheered in unison. Countless people from all over the world knelt on the ground and kowtowed, tears flowing down their faces.

The pressure that the Supreme Being Remnant Soul of the Insect Race brought to Nine Regions was too great.

Many people couldn't even imagine what would have happened if Li Yueming hadn't been in this battle.

After this battle ended, the world celebrated.

A lot of people were killed, but they were all killed. Li Yueming was regarded as the savior of the world, and Li Yueming was regarded as the savior of the world. He was regarded as the savior of the world, and Li Yueming was regarded as the savior of the world.

This kindness was not only for killing the remnant soul of the Insect Race Supreme Being.

When Li Yueming founded the Star Moon Empire, he solemnly promised and always abided by the great ideal of working hard for the people of the world to have clothes to wear, food to eat, support for the elderly, and education for the young.

Although this dream had not yet been fully realized, it still took root and sprouted under his tireless efforts.

At this moment, as the well-deserved strongest person in Nine Regions, Li Yueming's fame and influence had undoubtedly reached an unprecedented peak.

Countless people in the world were praising his merits.

However, it was at this moment when the world was praising him and the people were praising him.

As the main character, Li Yueming didn't stay in Hao Jing for too long. She left behind a lonely figure and slowly disappeared from everyone's sight.

Regarding this.

Be it the Ki Refiners or the people, they all felt worried.

There was no doubt that Li Yueming was powerful.

However, his opponent was still the remnant soul of the supreme being of the Insect race who had already fallen into a deep slumber outside the world thousands of years ago.

Although they had won the bloody battle.

However, no one knew how much Li Yueming had paid.

Now, they only hoped that Li Yueming's situation was not too bad and that he could lead them to an even more glorious era.

In the deepest part of Northern Ice River Town, all the unrelated people were isolated from the outside.

Only Li Yueming and Li Ruxing were left alone in the mansion.

He looked at Li Yueming, whose face was pale and her hair had turned white.

"How are you? Are you alright?" Li Ruxing asked with a complicated expression."

Li Yueming took a deep breath and smiled,""It doesn't matter if he's good or not. As long as he's alive and not dead, it's enough, right?!"

After obtaining the power of all living beings in the world, this battle seemed to be won very easily.

But don't forget, before Li Ruxing had completed all the arrangements, Li Yueming had stopped the remnant soul of the Supreme Being of the Insect Race alone to prevent it from going to the human town to plunder spiritual energy to recover its strength.

The interception battle during this period of time was the most intense moment between the two sides.

The battle on the walls of Haojing was just the final conclusion on this basis.

The consumption of activating the Perfect Genetic Body and the Four-sided Polar Dragon's Hidden Treasure at the same time was too terrifying.

Halfway through, Li Yueming could not hold on any longer.

The reason why he could still grit his teeth and continue fighting.

It was only because Li Yueming had burned everything he had, just like when he was being chased.

Now, although they had barely obtained victory.

However, Li Yueming's overdraft of his body had already reached the point where his origin was injured.

Graying hair was the side effect of burning too much lifespan.

Unstable breathing and weak body was the side effect of squeezing out the potential of the undisputed.

There was also a side effect on the genes that were at a deeper level. Originally, using the perfect genetic body to activate the strongest combat form was already very taxing on the genes.

In addition, he had used the Four-sided Polar Dragon's Hidden Treasure under such circumstances.

It was even worse.

Li Yueming was in a terrible state.

Moreover, these terrible conditions were all irreversible. It was estimated that only the Life Essence left behind by Han Bufan might have some effect. As for the rest, even Li Ruxing, who was the world's consciousness, could not do anything about it.

Li Ruxing obviously knew the seriousness of the matter, so he did not answer immediately.

With her seemingly endless lifespan as the World Consciousness, a thousand years or ten thousand years would only be a snap of her fingers. Logically speaking, even if she could not be omniscient and omnipotent, she should have already read through thousands of sails and understood a little of everything.

Chapter 716: The End of Everything!

Coincidentally, she did not know how to deal with interpersonal relationships.

After all, the existence of the world's consciousness was too special.

Under normal circumstances, there was no need for him to personally appear and make deals with humans.

Therefore, although she wanted to ease the relationship with Li Yueming, she didn't know what to do.

After all, she had helped Li Yueming at the last minute.

However, she couldn't hide the fact that she had been using Li Yueming all this while.

Although the two of them were mutually beneficial.

But they still couldn't help but be suspicious of each other.

Because neither side spoke, the atmosphere in the hall became cold and cheerless.

At this moment, the citizens of Northern Glacier were setting off fireworks to celebrate their victory.

The dark sky of Northern Glacier Town was also illuminated red at this moment.

The colorful skyline flickered.

After a moment of silence, Li Yueming finally spoke first. He looked at Li Ruxing in front of him and said with a serious expression, "Are you Li Ruxing or the consciousness of this world?"

Hearing this question.

Li Ruxing was a little confused for a moment. After a while, she answered, "What's the difference? Be it the world's consciousness or Li Ruxing, I was the one who deceived and used you in the end..."

Li Yueming's expression was still very serious, so much so that he looked a little serious. "Of course there is a difference. One is my sister, and the other is a stranger."

Li Ruxing was stunned for a moment, then he smiled and said, "I understand what you mean. Let's put it this way. I'm the consciousness of this world. As long as I want, any life in this world can be me. I can also be any life in this world. It's just that because she has the closest relationship with you and has the best talent, I'm her..."

"Do you understand now?"

Li Yueming listened very seriously and nodded, "I understand. In that case, if you have anything to say to me, please leave the bodies of my family and friends first and become your own body before we talk!"

Li Ruxing stared at Li Yueming for a long time before finally nodding. "As you wish!"

He finished speaking.

She closed her eyes, and wisps of aura rippled out of her body, slowly turning into a figure condensed from spiritual energy.

The figure flickered with a hazy light.

It was as if she was standing here, but at the same time, she was not there.

There was only a faint feeling, but no physical body could be seen.

After more than ten breaths, Li Ruxing, whose eyes were tightly shut, finally woke up.

He looked around and saw the white-haired Li Yueming. He stood up and said in a hoarse voice, "Little brother..."

Li Yueming shook his head, indicating that she did not need to say anything more.

The world consciousness took a look at Li Ruxing and then at Li Yueming. He emitted a faint spiritual fluctuation and said, "I have kept my promise. As a reward for helping me free myself, I will not take back the energy in her body, nor will I stop her from transcending!"

Li Yueming thought about it.

Although this reward sounded a little light, it was very generous when calculated carefully.

The energy was not mentioned.

The power of ascension could save Li Ruxing a hundred years of bitter cultivation.

Moreover, because it was actively injected by the world's consciousness, it could be considered a part of Li Ruxing's body. There would not be any side effects that would affect Li Ruxing's subsequent advancement in strength.

The most important thing was the second condition. The world's consciousness would not stop her from transcending.

This condition was the key to whether Li Ruxing could become extraordinary in the future.

It could be said that there were many talented people in each world.

However, there were only one or two people who could transcend the world they were in and head to the myriad worlds.

It was not entirely because those who had not transcended were not strong enough.

It was because the world's consciousness would stop it.

After all, the energy of the world was always limited. If the strong were to complete the cycle in this world from the beginning to the end, then the energy would only be transferred from the left hand to the right hand and would still remain in this world.

However, once an expert transcended, it was equivalent to completely breaking away from the control of the world's consciousness and becoming a part of the universe.

Not only would the strong take away the world's energy, but the energy that dissipated after death would also dissipate in the universe. It would be fine if the original world could obtain some benefits, but if they could not obtain any benefits, it would be a complete loss.

Thus, under normal circumstances, the world's consciousness was unwilling to allow experts to transcend. If one wanted to transcend, they had to pay a corresponding price.

Now, this world's consciousness had actively expressed that it would not stop Li Ruxing from ascending. It could be said that it had given Li Yueming enough face. It was not stingy and had set a good condition.

Thinking of this, Li Yueming finally didn't feel so hostile.

He glanced at Li Ru and waved his hand. "Second Sister, you can go out first. I'll look for you, Father, and Eldest Sister after I'm done with my matters here!"

Hearing this, Li Ruxing's eyes were a little moist.

But in the end, he didn't say anything. He nodded and turned to leave.

After she left the courtyard, the world consciousness said, "So, can we continue our negotiations?"

Li Yueming nodded.

"I don't know what else you're coveting about my crippled body. Tell me!" he said with a hint of self-mockery.

The illusory world consciousness did not respond to his self-mockery.

Although Li Yueming's current condition was extremely poor, it was not a problem to say that he was crippled.

However, if he really thought that Li Yueming's current state did not have any combat power...

That would be a huge mistake!

Although Li Yueming's body was on the verge of destruction, his combat power was unprecedentedly powerful. Even her world consciousness felt a trace of pressure in front of him.

This was also the biggest reason why she was unwilling to show herself.

After all, she didn't want Li Yueming to beat her up if the negotiation failed.

Without much refinement, the world consciousness said, "The Ancient Great Gan is the world that I am most satisfied with. If not for this unexpected disaster, I should have already stepped into the starry sky of the universe..."

Hearing this, Li Yueming also revealed a rare profound look and sighed, "Who knows what hasn't happened yet? Even if he stepped into the universe, it might not be a good thing, right?"

The illusionary world consciousness was stunned. It obviously didn't expect Li Yueming to answer like this.

After a long while, he sighed. "What you said makes sense. However, just like how the ultimate goal of all life in this world is to become supreme, our planet's will only wants to become bigger in our entire lives..."

"As you said, the road ahead may be difficult, but this is not a reason to stop."

Li Yueming nodded without saying anything.

The world consciousness continued, "Back then, the Great Gan was at its peak, and there were traces of it in the surrounding small worlds. Thus, I would like to ask you to make a trip to the small worlds in outer space and help me find if there are any survivors left behind."

"If you find anything, no matter what method you use, please help me bring back a few cultivators to continue the inheritance of the ancient Great Gan!"

He seemed to be afraid that Li Yueming would reject him.

"In return, I can give you the entire cultivation system of the ancient Da Qian Dynasty, as well as the Book of Changes, which is known as the source of the Great Dao and the ancestor of the Hundred Classics!"

The illusionary world consciousness spoke very sincerely.

Although it was a little strange to use the word sincere in such a long life.

However, Li Yueming couldn't find any other words to describe it.

He thought about it and was not in a hurry to refuse.

Going to outer space meant danger, but as long as they did not encounter anything too terrifying, Li Yueming's current strength was enough to deal with it.

Besides...

After the Bug Race Supremacy's remnant soul was destroyed.

The seal of this world had already disappeared. Even if they really encountered any problems, they would at most use the Reincarnation Mark to directly leave this public Reincarnation Dungeon.

After carefully weighing the pros and cons, Li Yueming was already somewhat tempted.

But even so, he was not in a hurry to agree.

“What’s the situation of those small worlds you mentioned?”

” Yes!” The world consciousness replied,” Back when we were exploring, the natives of the small worlds discovered by the ancient Da Qian were quite weak. Even after so many years of development, they definitely couldn’t surpass your strength! The only thing you need to pay attention to is to be careful of what the remnant soul of the Supreme Being of the Insect race has left behind in outer space. However, there shouldn’t be a need for me to remind you about this. Anyway, you will make a trip there sooner or later!”

Hearing this, Li Yueming closed his eyes. After a while, he said,””Wait a little longer. My matters in this world have come to an end. If I can still walk at that time, I’ll go and take a look for you!”

Chapter 717: Farewell, this life is over!_1

The danger that threatened the entire Nine Regions caused the world to boil in a rare manner.

For the next few months, both the people and the Qi Practitioners all over the world were discussing related topics.

However, because Li Yueming, the initiator of this battle, had remained silent, this matter was eventually buried in the trivial matters that came face to face with the passage of time.

Li Yueming didn’t say anything.

Star Moon Empire did not dare to stand out rashly.

Therefore, they could only leave it at that and could not come to a clear conclusion.

However, although Li Yueming did not stand up to publicize anything, nor did he boast about his achievements, many people in the world spontaneously built ancestral halls and temples for Li Yueming.

The first was to commemorate the monstrous achievements he had created for the people of the world. The second was to pray that Li Yueming could continue to protect the peace of the people of this world as he did in the past.

At the same time, as Li Yueming displayed his might.

The rule of the Star Moon Dynasty in various places also became more stable and unshakable.

After all, the Six Nations ‘elders who had refused to be disciplined had become more and more unpredictable after this attack.

At this moment, he was already like a rat on the street that everyone wanted to beat up. He no longer had the strength to continue inciting public opinion.

However, while the people of the world had settled down, the qi-trainers of Nine Regions had all lost their direction.

Over the past tens of millions of years, the 12th tribulation of ascension had always been the ultimate goal of thousands of qi-refiners.

However, it was not until today that they realized that this ultimate goal was different from what they had imagined. It was actually a scam from the beginning to the end...

The blow to one's spirit was something that only those who had personally experienced it would be able to understand.

Northern Ice River Calendar, Year 34, early summer.

After a period of stable life.

Finally, after a year, Li Yueming, who had been silent for a long time, sent another message.

However, what shocked everyone was that...

The message that Li Yueming announced in front of the world this time actually expressed that he would resign from the position of the Star Moon Dynasty's Great General!

The moment these words came out, all the people were shocked.

According to the lifespan of powerful Qi Practitioners, Li Yueming was currently at the peak of his prime and was undoubtedly the strongest person in the world!

However, it was under such circumstances.

The first message that Li Yueming read out was not to expand the territory and adjust the world according to his own wishes. Instead, he was going to resign from his position and retire into the mountains?

Many people found it unbelievable.

However, Li Yueming's decision was not to be questioned by outsiders.

The Star Moon Empire ignored the doubts and clamor of the outside world.

At the end of the summer of the same year, a grand abdication ceremony was held for the entire world.

Under the watchful eyes of countless people, the white-haired Li Yueming, who was rarely dressed up, solemnly handed over the authority of the Star Moon Dynasty to his elder sister, Li Ruyue.

Li Ruyue wouldn't accept this position for long. She had no choice but to accept this result for the sake of a smooth transition of authority.

In fact, when his nephew, Su Zhuling, successfully grew up and had enough experience and strength to convince the masses, the responsibility of the Star Moon Dynasty would most likely be handed over to him.

Of course, this was the internal decision of the Star Moon Troop. The outside world was naturally unaware of it.

Everyone who participated in this event could only see Li Yueming's pale face and a few strands of white hair among the black ashes.

The outside world, who had been suspecting what Li Yue-ming was up to, finally understood.

No wonder Li Yueming wanted to retreat at such an important juncture. It was because he had suffered serious injuries in the battle with the monster. He chose to recuperate and no longer care about the world.

After the grand event organized by the Star Moon Empire ended.

Li Yueming completely withdrew from the Star Moon Army.

Everything would be left to Li Ruyue and Su Zhouling to handle.

Northern Ice River Calendar, early autumn, 38th year.

Li Ruyue resigned from her position as the general of the Star Moon Dynasty, and her son, Su Zhouling, took over everything in the Star Moon Dynasty.

As Li Yueming's personal disciple.

Su Zhouling was a well-deserved core figure in the sixth generation of management in Star Moon Empire.

Not long after he took office, he began to implement his own policies.

Not only was he willing to take the initiative to push the path of writing and cultivation to the homes of ordinary people, but he was also willing to promote the second path of personal power other than Qi cultivation to the entire world.

The concept of Li Yueming's human body treasure reached its peak under his promotion and promotion. The Qi Practitioners who did not know the future finally found a second path.

After a period of practice and testing, many qi-trainers were ecstatic and regarded Su Zhouling as their new parents.

In just a few years, Su Zhouling's reputation in Nine Regions had reached its peak.

In response, Su Zhouling took the initiative to explain that the 'human body treasure' and 'body tempering' techniques came from her uncle, Li Yueming.

Now that he had stepped forward to promote this method, he had obtained his uncle's permission and affirmation before he dared to benefit the world.

Now that he had obtained such great results, most of it should be thanks to his uncle, Li Yueming. It was true that he was a little fearful and fearful when he was forced to do so.

After this news spread, Li Yueming's name, which had been silent for several years, finally rose to the clouds again.

This time, not only were the people grateful to Li Yueming.

Even the Qi Practitioners had to thank Li Yueming for his kindness.

It is not too much to praise the grace of passing on the law for thousands of years.

Chapter 718: Farewell, this life is over!_2

Northern Ice River Calendar, Year 40.

Li Yueming was cultivating with Little Fox in the Hundred Thousand Mountains when a group of familiar and unfamiliar guests suddenly came outside.

Huang Li 'er, Tian Liang, and the other reincarnators had returned.

Before the battle with the Supreme Remnant Soul of the Insect Race, they were sent by Li Yueming to the Endless Volcano's Earth Vein Divine Spring. Over the years, they had been absorbing the essence of life to cultivate.

Now, they had finally digested all the energy inside and returned to the civilized world.

Their first stop was originally at Northern Glacier Town.

After they got the information and found out that Li Yueming was not in Northern Glacier Town, they returned to the Extreme Cold Snow Mountain to search.

The moment he saw Li Yueming.

All the Qi Practitioners were shocked.

The figure in front of them was exactly the same as Li Yueming in their memories, be it in shape or appearance.

However, they were unable to connect this stooped figure in front of them with the peerless and independent figure in the past!

At the same time, when they were sizing up Li Yueming, Li Yueming was also sizing them up.

He didn't have much of a psychological burden. He smiled and said, "It seems that you have gained a lot this time!"

The life essence was left behind by Han Bufan, a universe supreme being.

Only a dead Supreme Martial Artist could be decomposed into so much life essence.

It could be said that it was precious.

Under the nourishment of the Life Essence, it would be difficult for the group of reincarnators not to reap a bountiful harvest.

Hearing this, Huang Li 'er, Tian Liang, Ding Yi, and the others bowed to Li Yueming and said solemnly, "Great General, long time no see!"

Li Yueming nodded, indicating that there was no need to be so polite.

The reincarnators themselves did not have the habit of bowing and scraping. The reason why they did so was only to express their gratitude and respect for Li Yueming. Now that they had expressed their gratitude, they quickly relaxed.

Huang Li 'er walked closer and looked at Li Yueming with a worried expression, "General, your body..."

Li Yueming waved his hand. "Don't worry. Although my body is a little injured, it doesn't affect my combat strength!"

Hearing this, a trace of shame flashed across their faces.

Back then, Li Yueming had sent them to the Endless Volcano to cultivate, allowing them to escape this disaster that swept across the world.

The reincarnators of the other countries were not so lucky.

Many had died in this wave of calamity.

He did not know if his soul had left this world or if he had really been imprisoned and dissipated in this world.

They managed to avoid it and even benefited from it.

However, Li Yueming was the only one who took all the pressure, and that was why Li Yueming had fallen to such a state.

This made them feel extremely ashamed.

Fortunately, Li Yueming didn't intend to argue with them, which made them feel relieved.

Li Yueming looked at the few of them. After thinking for a while, he understood the purpose of their special visit. He took the initiative to ask, "You came all the way here, so it's impossible for you to just chat with me. If you have anything to say, just say it!"

Hearing his words.

The group of reincarnators became even more embarrassed.

You must know that as the walking four natural disasters, many reincarnators in the big world are not recognized by the six relatives.

But now, in front of Li Yueming, they really felt the condemnation of their conscience.

Therefore, Huang Li 'er gritted her teeth and replied, "We came here to ask if there is anything else that Great General can ask us to help you with. Wherever your sword points, the mountains and seas can also be pacified!"

Li Yueming glanced at the group of reincarnators whose eyes were flickering.

After so many years of getting along, although there were occasional scheming and scheming between them.

But overall, both parties got along quite well.

Now, the main mission had been completed.

Many years ago, on the day the Supreme Being's remnant soul died, the seal on the reincarnation mark in this world had already been unlocked.

After discovering that they could forcefully leave this world, most of the reincarnators who were still in shock chose to leave immediately. Now, there were very few reincarnators who dared to stay in this world.

At the moment, the reincarnators led by Ding Yi, Huang Li 'er, and Tian Liang could already be called the most powerful group of reincarnators in Nine Regions.

Thus, the only choice left for them was to leave this world.

Or they would go to Nine Regions to find hidden missions or other treasures.

The only thing Li Yueming was curious about was how Huang Li 'er and the others would feel if they knew that he was also a reincarnator.

Of course, Li Yueming also believed that the other party had suspicions, but there was no evidence. Moreover, the topic of Li Yueming being a reincarnator was too unbelievable.

Therefore, even if they had some guesses in their hearts, no one was willing to believe it.

Thinking of this, Li Yue stopped thinking and smiled, "I've already resigned from my position as the general of the Star-Moon Army. I'm no longer your superior, and there's nothing for you to do on my behalf..."

"I know you came here to say goodbye to me. Don't feel sorry for me. This is all the path I chose, so even if you have to bear any price, you don't have to feel guilty about it!"

After saying that, he closed his eyes and remained silent for a long time before saying, "Let's go, let's go..."

Huang Li 'er and the others said nothing.

I just stared at him.

After an unknown amount of time, he finally stood up and left.

Chapter 719: Farewell, this life is over!_3

Before leaving, Huang Li 'er suddenly stood still, turned her head to look at Li Yueming and said, "Great General Li, I actually have another name, Wang Linlin. I hope we can meet again one day!"

Hearing this, Li Yueming opened his eyes and looked at Huang Li 'er who was not far away. He opened his mouth and wanted to say something.

However, he didn't say anything in the end.

After they left.

Li Yueming sat cross-legged for a long time.

Meeting or parting were the two major pains that one had to experience in life.

No matter what he experienced in which world.

But in the end, he still couldn't escape these four words.

He had already bid farewell to Li Ruxing, Li Ruyue, and the others. Now that he had reunited with Huang Li 'er and the others, he heard them bid farewell to him.

Although no one said it out loud.

However, both of them knew that if nothing unexpected happened, they would probably never see each other again.

Not far away, the illusory body of the world's consciousness, who had witnessed everything, asked in puzzlement, "Are you all travelers from another world? Why do they not seem to know of your existence?"

"Isn't that good?" Li Yueming smiled. I hid in the dark and guided everything, but I didn't cause them to dislike or stop me...Isn't it a win-win situation?"

The illusory world consciousness: "?"

Obviously, Li Yueming's meaning was too difficult for her to understand.

However, this was not important.

She looked back at Li Yueming and asked, "So do you have time to go to the small world to see the situation now?"

Li Yueming stretched his back and glanced at her. He said unhurriedly, "I still have some questions. After you tell me the truth, I'll go to the small world to help you!"

The illusory world consciousness frowned. "Didn't we agree on the conditions before?"

Li Yueming smiled. "It's just some unimportant questions. You don't have to be so nervous. Besides, it's the privilege of humans to cheat, isn't it?"

"So you're not afraid that I'll go back on my word?" the world consciousness replied.

Li Yueming Ming spread his hands and said, "Lying to me is not good for you!"

The illusory world consciousness didn't say anything.

"First question," Li Yueming said, "I want to know why you chose me to be this blade, other than the special self that I revealed." With your years of careful preparation, even if you don't choose me, your chances of winning are still not low!"

"Isn't it obvious? Choosing you has a higher chance of winning than anyone else!"

"Is that really all?"

The illusory world consciousness pondered for a moment before saying, "That's not all. The existence in the God Burial Ground has revealed to me that you... This is also part of the trial!"

Hearing this, Li Yueming nodded and continued to ask, "To the will of your planet, what exactly is the Zerg?"

The illusory world consciousness fell silent again.

The silence this time was longer than any of the previous ones.

In the end," He " opened," Naturally, it's a calamity, a calamity that destroys everything!"

Feeling the heavy atmosphere, Li Yueming nodded and did not continue to ask.

Looking at Li Yueming, the world consciousness projection's expression was cold as it said indifferently, "Are you done with your questions? It's time to fulfill your promise!"

Hearing this, Li Yueming didn't refuse anymore.

He slowly walked out of the cave abode in the Hundred Thousand Mountains with a hunched figure. He turned his head and said, "Give me the coordinates. I will do my best. As for the result, I can't guarantee it!"

Chapter 720: Who in the world can stop me?_1

Northern Ice River Calendar 41.

Li Yueming left this world and went to the small world outside the Nine Regions to search for traces of cultivators left behind from the Great Qian Dynasty according to the requirements of the Nine Regions World Consciousness Illusion Body.

This trip wasn't very interesting for Li Yueming.

After all, he didn't care about the experience of transmigrating to another world.

During the heyday of the ancient Great Qian Dynasty, the people of the Great Qian Dynasty had already begun to transcend this world. They began to look at the vast universe, trying to find other worlds in the vast universe except for the Nine Regions.

In this process, they encountered many difficulties and obstacles.

But in the end, he did gain something.

If it weren't for the aftermath of the battle between the Supreme Remnant Soul of the Insect Race and Han Bufan's main body, which destroyed the Nine Regions and the ancient Great Qian Dynasty in an instant, after so many years of development, the Nine Regions might have already begun to move towards the interstellar era.

Of course, there were no ifs.

If the so-called destiny really existed.

Then everything that happened was both the cause and the effect, and they could only let it happen.

According to the description of the world will, there were a total of seven worlds discovered in the surrounding areas of the ancient Great Gan.

There were only four Small Worlds that might have descendants of the Great Qian Dynasty. The Great Qian Dynasty had only discovered the existence of the remaining three Small Worlds and had not had any deeper contact with them.

In other words, Li Moonming wanted to go to these four small worlds that might have descendants of the ancient Da Qian Dynasty. He wanted to see if there were any descendants of the cultivators from the past that still existed.

Li Yueming didn't go back on his word. He followed the directions given by the world consciousness illusion.

However, the final harvest was very bleak.

Out of the four small worlds, only two were left with life.

Among the two small worlds that had already disappeared, one of them had been occupied by the remnant soul of the Supreme Being of the Insect Race and became his resting place. The reason for

the destruction of the other small world was unknown. There were basically no decent living beings left.

Other than that, although the other two small worlds still had civilizations, their energy systems were too fragile. Even the special species were basically no different from ordinary creatures.

Only a few lifeforms had special abilities.

It was also because of this that Li Yueming did not find any existence related to the descendants of the ancient Great Qian Dynasty in this small world.

It was estimated that there had been a break in the distant past.

In the end, the legacy was lost.

Out of the four small worlds, only the last small world still had some vitality.

This small world was known as the Heart Returning Continent. All Beyonders were divided into different classes based on the strength of their spirit force. The people of the secular world called them the Heart Force Spirit Reader.

The most powerful spiritual reader was known as the Saint of the Heart.

And among this group of spirit readers, there was a unique spirit cultivation method.

Li Yueming didn't pay attention to it at first.

After all, the so-called heart reader was too weak in his eyes.

Even the most powerful Saint of Heart might not be able to defeat a Qi Practitioner in the True Form Realm in Nine Regions.

This level of cultivation method did not attract Li Yueming's interest at all.

However, after wandering around this world for a few rounds, Li Yueming discovered that although the spiritual cultivation methods of this group of heart spirit readers didn't have many redeeming points, there was a method to control the mind that was very interesting.

This method could effectively strengthen one's mental power.

Moreover, when it was strengthened to a certain extent, it could also use spiritual attacks to obliterate the enemy's spirit.

It could achieve the effect of killing the enemy from the spiritual level.

In fact, under normal circumstances, the attack of a Spiritual Cultivator would also follow this step.

However, what was interesting about this method was that it was more efficient in strengthening mental power than most of the mental cultivation methods that Li Yueming had heard of.

Therefore, Li Yueming simply stopped and began to carefully study and figure out the essence of it, and then summarized and integrated it into his own cultivation system.

If there was anything that could move Li Yueming now.

This was probably the only unexpected gain.

After absorbing the essence of this mental control technique, Li Yueming walked around the small world again and finally found traces left behind by the descendants of the ancient Great Qian Dynasty.

The descendants of the ancient Great Qian Dynasty in this small world were not broken.

However, after so many years of evolution, it was no longer as powerful as it was when it first came to this world.

Thirty thousand years ago.

The sudden appearance of cultivators had once caused a large-scale panic in this world.

After all, compared to the weak Returning Heart Mainland, the unknown Nine Regions was much stronger.

No one knew what kind of consequences would arise after the cultivators of Nine Regions occupied the Heart Returning Land.

However, under such circumstances, the Heart of Returning Mainland's spirit readers had no other choice.

He could only pinch his nose and treat Nine Regions as a distinguished guest.

The cultivators who walked on two legs naturally had the upper hand compared to the crippled Heart spirit reader.

However, this world was not suitable for cultivators to cultivate.

Back then, if the Great Qian Dynasty had not been destroyed, with the support of the entire Nine Regions, the cultivators who went to the foreign world to explore might have been able to forcefully reverse the outcome through various means and bring this small world into the small world ruled by the Great Qian Dynasty.
