

Maxing MT 741

Chapter 741: The Space Fragment Expands Again!_2

Li Yueming didn't rush out of the room. Instead, he raised his left hand that wasn't engraved with the mark of reincarnation and called out, "Hey, are you still there?"

A breath passed.

Two breaths have passed.

There was no response.

It seemed that the world fragment had fallen into a deep sleep.

After calling out to him several times, Li Yueming couldn't help but mutter, "I even specially bought a bit of broken World Origin. Since you're in a deep sleep, I can only use it to open up a chaosworld!"

Li Yueming muttered.

The so-called chaotic world was a broken world without clear order and world consciousness.

Although such a world could also be called a world, it also had some functions and characteristics of a world.

However, the unstable factors were frighteningly high.

After all, the origin of the Chaosworld was incomplete. Who knew how long the world could last?

Perhaps one day, the chaos world that he had created would be destroyed due to the flaw in the origin.

At that time, not only would the things placed in the chaotic world be ruined, but the reincarnators who possessed this chaotic world would also be affected by the destruction of the world.

That was the power to destroy the world.

It was not something that reincarnators could withstand at all.

Even the slightest bit of damage could put one's life in danger.

Therefore, under normal circumstances, few reincarnators would use the damaged world origin to create a chaotic world. Most of them would only use it as nutrients to nourish worlds with a certain order or world consciousness.

However, just as Li Yueming thought that he could only wait for a while before dying...

The world fragment that was sleeping suddenly reacted.

A blurry consciousness was transmitted to Li Yueming's mind, and he asked, "When I was sleeping just now, I seemed to have heard you mention the 'broken world origin.'"

He could feel the urgent consciousness of the world fragment.

Li Yueming was speechless.

So why was this guy so sensitive to all kinds of keywords?

Could it be that it had a keyword search function that would automatically wake up when it sensed or heard certain keywords?

She seemed to have guessed his thoughts.

The world fragment's consciousness whined,""Don't judge me with such a narrow mindset. For you humans, ten days is enough to do a lot of things, but for species with long lifespans like us, ten days isn't even enough for us to close our eyes!"

" So this baobao didn't really fall asleep at all. It was just in a state similar to standby mode..."

"I sensed it when you came back from the reincarnation world. However, I saw that you were empty-handed and didn't bring anything. Moreover, standby mode saves more energy, so I didn't reply!"

It would be better if he didn't explain.

Li Yueming was even more depressed after hearing his explanation.

Probably only this damned guy could eat free rice so confidently.

He rolled his eyes." Alright, you're only in high spirits now anyway. You're not interested in me normally..."

As he spoke, he took out the broken world origin that he had exchanged for from his bag.

The World Origin looked very small.

It was only the size of a fist and looked like a water ball. It contained the stars in the deep sky and endless darkness.

Although there were a few places that were broken, they were still dazzling.

The moment it was taken out, even the sunlight in the sky paled in comparison.

The entire world was left with a dazzling spiral of stars.

The moment it saw it, the world fragment's consciousness was stunned. It swallowed and said,""D * mn, it's really the true origin of the world...It seems that my mother's judgment is right. She's been following you for a long time!"

As he spoke.

Li Yueming's left arm emitted a bright light.

The World Fragment's consciousness could not wait to take this broken World Origin into its bag.

Seeing this, Li Yueming reacted quickly and immediately put it back into his backpack.

The duck in his hand flew away.

The world fragment's consciousness immediately became anxious and said excitedly,""Aiya, what are you doing?"

Li Yueming looked at it and said after a while, ” I spent a lot of money to get this thing, but can't it be like the previous few times when I beat a dog with meat buns and never returned...”

The consciousness of the world fragment shrank.

Clearly, he felt a little guilty.

However, she quickly became self-righteous again and sent him an emoji of rolling her eyes. ”This time is naturally different. Whether it's the World Molt or anything else, it can only speed up the growth of the space, but it can't replenish itself!”

“Let this baby absorb this broken world's origin and replenish its energy. This baby might be able to help you in the next reincarnation...”

“If you encounter any trouble, how about this baobao grit his teeth and open up a path to give you some treasures in return?”

As the saying goes, raising a ball is like using a ball for a thousand days.

Li Yueming had adopted and fed so many resources to the bottomless pit of the world fragment consciousness. Wasn't it all for the sake of being able to use a cheat one day?

Now that the world fragment's consciousness had taken the initiative to propose a return plan, it was simply stepping on the tip of his heart.

Therefore, Li Yueming nodded without hesitation.

However, to prevent this guy from going back on his word, Li Yueming still asked, ”Uh, I entered the reincarnation world. Logically speaking, I'm not in the same time or space. Under such circumstances, you can still open a path and give me treasures?”

The world fragment rolled its eyes again and replied, ”This is the means of our planet, why should you care? When the time comes, you just have to tell me what you need and wait for me to give it to you. I will naturally take care of the rest!”

All this while, the consciousness of the world fragment had always been harmless.

This time, he probably really saw a treasure. It was rare for him to be a little tough in front of Li Yueming.

However, as he spoke.

It seemed to have thought of something bad and added, ”But one day, I have to make it clear that you can't be in a high-level world with perfect laws. Otherwise, not to mention me, even the so-called reincarnation mark might not be able to protect you!”

Hearing this, Li Yueming still felt that it was a little unreliable.

But since he had already said so much, what else could he do?

He could only pinch his nose and admit it!

Li Yueming didn't search anymore. He took out the broken World Origin from his backpack and handed it to the world fragment consciousness.

The world fragment's consciousness was clearly already impatient.

As soon as Li Yueming took out the item, it immediately swallowed it. Li Yueming could only feel a pure and incomparably terrifying energy constantly rippling.

It's like the world is falling apart

It was as if the world was being born.

Between life and death, an incomparable chaotic aura was produced.

Fortunately, this feeling came and went quickly.

After the World Fragment's consciousness swallowed the broken World Origin, all the strange fluctuations suddenly disappeared.

Seeing this situation, Li Yueming closed his eyes and calmed down. He carefully felt the world in his arm.

Some time ago, he had planted a lot of spiritual rice and fruits.

By setting the flow of time and temperature to cultivate, many fruits in the world had already matured.

However, Li Yueming's main focus was not on these details, but the changes in the origin of the world fragment after swallowing the broken world origin.

The space of the world fragment was expanding.

Previously, Li Yueming had already planted the entire world fragment with crops.

However, as this round of expansion continued.

The entire fragment space expanded by dozens of times.

The vegetables and fruits that Li Yueming had planted before were no longer even one-tenth of the size of this world.

Li Yueming also realized that the fragment world had become more real.

Be it the wind or the rain, the mountains or the earth, everything was much more real than the hazy and chaotic appearance before.

This should be the effect of the broken world's origin.

It could not accelerate the growth of the world, expand the world's area, or replenish the world's Foundation Orders.

It made the originally flawed world more perfect, and it made the already perfect world more perfect.

Chapter 742: The Nervous Zhao Shiya, Taking Care of the Spiritual Fields!_1

It was just a moment.

Li Yueming could clearly sense that after absorbing the broken World Origin, the World Fragment was much more complete than before.

He looked at the mountains and rivers in the fragment world that were becoming larger and more complete.

Li Yueming's mood improved a lot.

Let's not talk about whether the world fragment origin could really enter the reincarnation world to give him treasures.

Just this tenfold expansion of the space was enough to make up for Li Yueming's huge loss this time.

After swallowing the World Origin, the World Fragment's consciousness chuckled and said, "How is it? Do you feel like you've made a killing? 'Hmph, my control over the world has become more precise, so your authority in the fragment world has also increased. You can find a few people to take care of this world that belongs to you. The treasures produced in it will be my food expenses!'"

It was obviously in a very good mood. As it spoke, it yawned and said, "It's just sauce. If you don't have anything else, this baobao will run away first. Remember to bring more delicious food for this baobao next time... Oh right, I don't want the world consciousness remnant. It made me sick the last time I ate it. I still feel traumatized now!"

Li Yueming nodded, indicating that it could leave.

As for the food expenses...

This guy still hadn't made him recoup his losses.

The number of reincarnation points he ate was at least a few million.

If they didn't even give him any benefits, who could afford to raise a Pi Xiu that couldn't enter?

He roughly estimated the area of the world that had expanded this time. He did not expect that there would be additional gains from feeding the world fragment consciousness.

The flow of time in the fragment world and the main world was different.

With Li Yueming's careful temperature and humidity settings, the high-grade spiritual melons, spiritual fruits, and spiritual rice planted in the fields were basically ripe.

Reaping all these things would allow him to recover a small amount of HP.

In addition, the area of the fragment world had expanded by ten times.

Not to mention the benefits of other laws and order, just in terms of size, the fragment world was already larger than the small worlds that the senior reincarnators' families had passed down for generations.

As long as he cultivated a few more times and harvested.

The reincarnation points that were fed to the consciousness of the world fragment could be earned back with interest.

There was also an endless supply of treasures.

Rounding up, this round of blood was not a loss.

Thinking of this, Li Yueming was in a good mood.

The consciousness that was immersed in the fragment world left and returned to the main material plane. He opened his eyes and scanned the city lord's mansion.

For more than half a month, there was not much change in the City Lord's Mansion.

It was still ancient and quiet.

This was normal.

If he woke up and found that the surrounding environment had changed greatly, then he would need to be vigilant!

After all, the City Lord's Mansion was his only residence, and it was also the most heavily guarded place in Star-Moon City.

Without his permission, even Zhao Shiya did not dare to enter casually.

It was impossible for anyone to dare to modify the City Lord's Mansion without his consent.

Li Yueming stood up and stretched his limbs. The joints and muscles all over his body made crisp sounds as if he had just woken up from a dream.

Even if Li Yueming didn't do anything.

However, just from his appearance, even an ordinary person could tell that his current physique was extraordinary.

Although he didn't get any body strengthening in the fantasy world, Li Yueming's gains weren't any less than the last time.

It couldn't be helped. The level of the fantasy world was high.

Moreover, he had obtained the high-level administrator authority of the reincarnation mark.

This time, the power returned was more than the power returned in the previous reincarnations combined.

Among the various bonuses of returning power, the bonus to physique was the most powerful!

Therefore, Li Yueming could easily punch the ground with his physical strength.

Even among the many experienced reincarnators, his current strength could definitely be considered outstanding.

Hearing the sound from inside the room, a series of hurried footsteps came from outside the door.

A moment later, Zhao Shiya's voice came from outside the door and asked gently, "City Lord, are you back?"

Li Yueming stopped stretching and replied casually, "En, come back!"

Hearing his answer, Zhao Shiya was clearly a little surprised. She hurriedly said, "Congratulations to City Lord for coming out of seclusion. This subordinate has already prepared hot water in advance. May I ask if you want to bathe and change your clothes now?"

"Yes!" Li Yueming nodded.

After obtaining Li Yueming's permission, Zhao Shiya pushed open the door and walked in. Looking at Li Yueming who was emitting the aura of a strong person, Zhao Shiya could clearly feel that her City Lord had become stronger again.

If he remembered correctly.

Li Yueming should have just become a reincarnator, right?

It had only experienced a few reincarnations, but it had already become so powerful.

He was truly talented!

Although Zhao Shiya was deep in thought, her body did not dare to be negligent.

He quickly helped Li Yueming clean up the room, which was already a little dusty. Then, he turned around and took out a change of clothes and a towel to dry his body.

It had to be said that she was definitely a smart person with decent manners.

This time, Li Yueming had entered a public reincarnation dungeon.

Although there would be differences in the time taken for many reincarnators to return to the real world.

Chapter 743: The Nervous Zhao Shiya, Taking Care of the Spiritual Fields!_2

However, the difference wasn't too great.

Therefore, Zhao Shiya had already expected Li Yueming to return during this period of time.

Furthermore, he had arranged everything in advance.

Li Yueming had been suffering in the reincarnation world for many years. His nerves had always been tense. It was not easy to solve those annoying things. Now, he really needed to relax.

Walking into the bath, Zhao Shiya was very smart. This time, the bath water was the same as the one Li Yueming had mixed last time. She didn't make any changes.

The only difference was that Li Yueming's physique was now even stronger.

Therefore, he felt that boiling water at 100 degrees Celsius was a little uncomfortable. It could not even make his body slightly hot.

However, Li Yueming didn't blame him.

After all, Star-Moon City had just been established not long ago, and the conditions were limited. Moreover, Zhao Shiya, the head butler, was only an ordinary person.

If it was really based on his concept of bathing, it would probably only be more reasonable to run into the lava.

He could vaguely feel Li Yueming's dissatisfaction.

Zhao Shiya thought for a moment and guessed where the problem was. She hurriedly lowered her head and said, "This subordinate didn't consider it properly. Please punish me!"

Li Yueming waved his hand to indicate that it was fine.

After running for a while, he stood up from the bath, dried his body, and changed his clothes.”How’s the development of Star-Moon City? Is there anything I need to solve?”

Li Yueming didn’t blame her.

However, this matter still made Zhao Shiya feel a little sad.

If nothing unexpected happened, Li Yueming’s physical fitness and strength would only become more and more terrifying. It wouldn’t take long for her to be eliminated as a butler, right?

She thought that she would be able to serve Li Yueming for at least ten years before she was eliminated by more outstanding talents.

After all, it took time for a reincarnator to grow. Before Li Yueming had grown up, her secretary was still considered above average.

However, he did not expect Li Yueming to grow so fast. In less than a year, he had already completed the transformation that ordinary reincarnators might not be able to complete in ten or twenty years.

The current Li Yueming should be fully qualified to hire a woman who was also a reincarnator as his secretary.

Such a terrifying growth rate made her, a not-so-outstanding secretary, seem particularly pale.

Thinking of this, she could not help but feel a little depressed.

However, he still forced himself to be spirited. He looked up at Li Yueming and smiled,”City Lord, in the past half a month, the people of Star-Moon City have been working overtime. The houses in the city have basically been built. Nothing worthy of your attention has happened, and no other reincarnators have come to visit!”

Li Yueming nodded.

“That’s good!” He straightened his clothes and glanced at Zhao Shiya, who was forcing a smile. After a moment of contemplation, he guessed what she was thinking, but he did not expose her. He walked to the door and said,”Accompany me to the city to see the development!”

Zhao Shiya bowed respectfully and said,”Yes, sir!””

The two of them came out of the bathroom one after another.

The City Lord’s Mansion was the highest point of the entire Star-Moon City.

Standing on the city wall outside the City Lord’s Mansion, one could overlook the entire Star-Moon City.

Thus, Li Yueming did not need to spend too much effort to patrol.

After a period of drastic modifications.

Star-Moon City, which was originally barren and lifeless, had undergone great changes. The city walls that had been broken due to years of neglect had now been filled with various kinds of stone

materials. The collapsed buildings that had been cleaned up by the dark energy pollution had also been cleaned up. Moreover, new buildings had been built on the original site.

One after another, new buildings rose from the ground. From afar, craftsmen and laborers could be seen busy.

Li Yueming glanced from afar.

Although he did not get close, his eyesight and hearing were beyond the imagination of ordinary people.

Therefore, he nodded after a moment and said, "You did well. This month's salary will be increased by one packet of spiritual rice!"

Zhao Shiya trembled when she heard that. She was a little flattered and said, "City Lord, I'm just... He was just doing something that was part of his job. Wasn't a bag of spiritual rice too expensive?"

Li Yueming smiled. "Reward for meritorious deeds and punish for wrongdoings. Although spiritual rice is precious, don't you know who I am? Do I look like someone who lacks such rewards?"

Zhao Shiya thought about it and did not refuse. Instead, she said seriously, "City Lord is the most generous person I've ever seen. It's Shiya's blessing to be able to follow behind you and help you manage the city!"

Usually, when she talked to Li Yueming, Zhao Shiya would be more or less flattering.

Then this time, Zhao Shiya thought that she could pat her chest and swear that she was sincere.

After failing the assessment and being unable to become a reincarnator.

Often, people like them who were neither high nor low would end up extremely miserable.

After all, if ordinary people failed, they would at most continue to be ordinary people.

However, this batch of reincarnators could not. They had been placed high hopes by their families since they were young, and the investment and training of their families naturally could not be without a price.

If they did not become official reincarnators, they could only go to the territories of other reincarnators to compete for various positions.

It would be fine if she was lucky enough to meet a city lord with a good character like her.

If they were unlucky enough to meet those with special hobbies, not only would they lose their dignity, they might even lose their lives.

It was also because of this that she was so grateful to Li Yueming.

Seeing that Zhao Shiya's eyes were a little red because of her emotional fluctuations, he could not help but ask,

Li Yueming didn't say anything.

He didn't think he was a good person, but he also didn't think he was a bad person.

As long as they were loyal to him and could do their best to help him solve some complicated problems, he would not be stingy with praise and rewards.

On the contrary, if Li Yueming found out that he was being disloyal, he would act rashly.

He would also punish or fire them without any mercy.

Grace and power are given at the same time, and there is tolerance.

This was what a superior should do.

As for what Zhao Shiya thought and whether she was grateful, it was not within Li Yueming's consideration.

After checking the development of Star-Moon City, Li Yueming was very satisfied.

After thinking about it, there seemed to be an urgent matter that needed to be resolved.

Li Yueming said, "I'll give you three days to find ten reliable subordinates. Tell them to bring another 100 strong and patient laborers who are good at farming to the City Lord's Mansion to look for me. I have something for you to do!"

At this point, Li Yueming's voice paused. He looked at Zhao Shiya and smiled. "If you do it well, there's still a grand prize waiting for you!"

Although Zhao Shiya didn't know what Li Yueming was talking about, she didn't need to think to know that it was definitely not ordinary.

However, it was clearly unwise to be obsessed with rewards at this moment.

Therefore, Zhao Shiya suppressed the curiosity and excitement in her heart and bowed. "Yes, City Lord. I will do my best!"

Li Yueming nodded and waved his hand, "You can go!"

Zhao Shiya bowed again and turned around to do her job.

He watched her leave.

Li Yueming touched his chin, a thoughtful look on his face.

Although he did not know what the ultimate assessment that would be held in three months was, he did not know.

However, since the Reincarnation Mark reminded him to be prepared.

There was nothing wrong with pulling his condition and combat strength to the maximum in the following time...

The last time he entered the fragment space to plant spiritual rice and all kinds of spiritual melons and fruits, it took him a lot of time. This time, he had limited time and did not have the time to go to the fragment world to farm.

However, it would be a waste to leave such a large piece of land empty!

Therefore, Li Yueming planned to get Zhao Shiya to find a few reliable subjects to go to the fragment world to help him manage the ling fields.

Moreover, the fruits and spiritual rice that he had planted earlier had also ripened.

If he sold all of them, he estimated that he would earn at least hundreds of thousands of reincarnation points.

These were all small amounts of money!

Fortunately, the fragment world had given him an increase in his authority. Not only could he enter the fragment world at will, but those who had his permission and authorization could also enter the fragment world.

Now, he could find someone to do it for him.

Chapter 744: Reaping the ling fields, giving him the right to reincarnate!_1

After sending Zhao Shiya away, Li Yueming once again glanced at the prosperous Star-Moon City.

Although he knew that it might be wrong to think like this.

But sometimes, he actually envied mortals.

Life was only a short hundred years, good or bad was just a matter of opening and closing one's eyes.

Unlike him, who needed to be extremely energetic at all times.

The higher one climbed, the more tired one would be. The wider one looked, the smaller one would feel. Perhaps it was better to be an ordinary person and spend the rest of his life busy.

Li Yueming stood on the city wall in a daze for a while.

After a long while, he came back to his senses and laughed.

There was nothing in the world that did not require a price.

Mortals envied reincarnators, and reincarnators would also envy mortals. As for the ups and downs, only individuals knew.

Retracting his gaze, Li Yueming turned around and returned to the City Lord's Mansion. He closed the door and continued his seclusion.

According to the special reminder of the Reincarnation Mark, he would be forcefully involved in a so-called 'ultimate assessment' three months later, although Li Yueming did not know what this so-called ultimate assessment was.

However, it should be related to the Zerg race and instance dungeons.

Since there was still enough time, Li Yueming had to digest his gains from the public reincarnation dungeon as soon as possible.

Although the power return this time was only SSS-rank.

However, the power returned to Li Yueming was more than the previous worlds combined.

Therefore, Li Yueming's seclusion these few days was mainly to adapt to the new strength in his body.

After digesting all the energy, Li Yueming could use the reincarnation points to go to the reincarnator forum or Group chats to buy some treasures such as cultivation techniques and secret manuals to continue to increase his strength.

Time passed quietly.

Li Yueming's control over the power of return was also increasing.

On the third day.

Zhao Shiya came back to report.

She did not disappoint him. She successfully found more than ten carefully selected officers and more than a hundred reliable laborers from Star-Moon City.

After receiving the report, Li Yueming woke up from his seclusion.

Looking at the excited and nervous people in front of him, he slowly said, "I asked Secretary Zhao to find you because I want to give you a job! As for what I'm going to do, I believe you've heard of it before. That is to enter the secondary dimension space and help me sow and harvest the feys in the spiritual field!"

After hearing that Li Yueming was planning to hire them to help manage the ling fields, they were all shocked.

A group of ignorant people might not understand what this meant.

However, the experienced and knowledgeable officers were all overjoyed.

Previously, when Zhao Shiya found them, they were still a little hesitant. After all, even Zhao Shiya herself did not know why Li Yueming had recruited so many people.

Not to mention this group of officers who were not very familiar with Li Yueming.

Therefore, when they decided to sign up, the group of people were somewhat nervous.

Now, they were all rejoicing over their decision.

One had to know that the spiritual field was an extremely private thing to a reincarnator. To be able to get them to help the reincarnator manage the spiritual field meant that this group of people had already changed from ordinary citizens under the protection of the reincarnator to retainers who specialized in providing services to the reincarnator.

Whether it was his salary or status, it would be greatly improved.

Looking at the group of people in front of him with different expressions, Li Yueming paused for a moment, giving them enough time to react before continuing, "I'm not asking too much of you!"

"Firstly, the person who manages the ling fields must be reliable. They cannot reveal any topics related to the ling fields to the outside world!"

"This is unquestionable. Once I find out that someone has leaked the situation of the ling fields, I don't need to say what will happen, right?"

“Secondly, secondly, you must be careful and serious in managing the ling fields and sowing. Ling plants are very precious, and the slightest setback will affect the harvest. Therefore, your work cannot be reduced in any way.”

“As for salary and benefits, the officers who manage the ling fields will receive a salary of 2,500 reincarnation points per month, and the people who work will receive a salary of 2,000 reincarnation points per month. According to the output of the ling fields, you will be given some feys every month as benefits!”

“In addition, there will be additional rewards for those who work seriously according to the specific situation...Secretary Zhao Shiya was in charge of the supervision and reporting of the above!”

At this point.

Li Yueming’s eyes slowly swept across everyone,” Do you have any questions? You can ask me now!”

The ling fields were very important to his future development.

Therefore, even if it took some time, Li Yueming had to set the rules as well as possible.

He felt Li Yueming’s gaze.

Beneath them, the officials and citizens shook their heads.

Putting aside the feys and other rewards, just the monthly salary of 2,500 reincarnation points was enough for them to obey unconditionally.

Seeing that no one had any doubts, Li Yueming nodded. As he slowly raised his right arm, a light blue halo appeared in the City Lord’s Mansion.

The faint blue light dissipated and transformed into balls of flame-like substance that entered everyone’s bodies.

This was the authority that Li Yueming had granted them to enter the fragment world.

Of course, if Li Yueming could bestow it, he could also take it away at any time. He could even monitor their every move in the fragment world at any time according to the authority given to him.

Chapter 745: Reaping the ling fields, giving him the right to reincarnate!_2

Therefore, he was not afraid that any of them would dare to play tricks.

After sending them all into the fragment world, Li Yueming looked at Zhao Shiya, who was left alone by him, and said,”These are the things that you need to pay attention to when planting and harvesting feys. It won’t be wrong to do it according to the contents written on it. In the next period of time, you have to supervise them to pick the spiritual rice, vegetables, and fruits in the spiritual fields!”

She could feel how much Li Yueming valued her.

Zhao Shiya's delicate body trembled slightly. After a long while, she nodded solemnly and said, "With the City Lord's love, Shiya will definitely do her best until she dies!"

Seeing her solemn expression, it seemed that she was really prepared to go through fire and water at any time.

Li Yueming couldn't help but smile. "Just do it with all your heart. You don't have to do this until you die!"

Zhao Shiya did not say anything, but her expression was still extremely serious.

Seeing this situation, since she insisted, Li Yueming had nothing to say. He waved at her and said, "Come here!"

Hearing this, Zhao Shiya's face revealed a hint of doubt.

The outside world might think that there was some kind of ambiguous relationship between her and Li Yueming.

After all, it was normal for the City Lord and his secretary to have an ambiguous relationship these days. The phrase 'if there's something to do, the secretary will do it. If there's nothing to do, the secretary will do it.' was not empty talk.

Otherwise, why would the secretary be so trusted?

However, only Zhao Shiya herself knew that Li Yueming would never let her get too close. The two of them barely had any physical contact, let alone an ambiguous relationship.

However, this time, Li Yueming asked her to go over...

Was he finally going to hand over his virginity?

Zhao Shiya's heart trembled a few times.

To be honest, when she became Li Yueming's secretary, she was already prepared to face this day.

But now, everything seemed to be happening.

Zhao Shiya could not help but feel nervous.

However, perhaps even she did not realize that when she thought of this matter, she was nervous, excited, and afraid.

However, there was not much resistance.

Was this a bad thing?

If it had been half a year ago, she definitely wouldn't have been able to accept it.

However, as she got along with Li Yueming, she unexpectedly realized that it wasn't that scary.

As she thought about it, Zhao Shiya could not help but blush. She said helplessly, "City... City Lord... This, this isn't good, right?"

She was actually acting like a shy little girl.

"What's wrong? Are you feeling unwell?" Li Yueming asked curiously.

Hearing this, Zhao Shiya's face turned even redder.

After struggling for a moment, he seemed to have accepted his fate. He lowered his head and said timidly, "No... No, can I take a shower first?"

Li Yueming didn't know what she meant at first.

It would be stupid if he didn't know.

He sized up Zhao Shiya. To be honest, he had seen many beauties in so many worlds.

Even so, Zhao Shiya was not inferior in any way.

Normally, he might have just eaten it half-heartedly.

However, he was clearly not in the mood to do so.

However, it was rare for Zhao Shiya to show her feminine side in front of him. Li Yueming held back his laughter and said seriously, "Come over first. It won't affect you if you take a shower or something!"

Hearing this, Zhao Shiya seemed even more at a loss.

She thought that Li Yueming would allow her to take a shower before serving her, but she didn't expect Li Yueming to refuse. She could only walk towards Li Yueming with a red face.

As he got closer, he felt the masculine and hot aura emitted from Li Yueming's body.

His muscles were as firm as a knife cutting through an axe.

Zhao Shiya could not help but feel her entire body go weak.

However, when her eyes met Li Yueming's, she realized that Li Yueming's eyes were extremely clear and there was no ambiguity in them. Zhao Shiya's entire body trembled as if she had been electrocuted. It was as if she had just woken up from a dream. She quickly lowered her head and said, "City Lord, what orders do you have?"

Seeing this, Li Yueming smiled. "Don't be so nervous and restrained. I don't have many friends in this world. If I have to say, you might be the only one!"

Zhao Shiya was clearly a little shocked when she heard that.

She raised her head and glanced at Li Yueming. Her beautiful eyes lit up, but it didn't take long for them to dim again.

How could she not want to be friends with Li Yueming?

However, reality was an insurmountable wall.

She was not a reincarnator, and this alone was a huge gap.

Therefore, she lowered her head and said seriously, "Thank you for your kindness, but this subordinate doesn't dare to be compared to you!"

Li Yueming didn't answer and just smiled.

After a moment, he extended his right hand. The reincarnation mark under his arm flickered with a faint yellow light.

Before Zhao Shiya could understand what Li Yueming was doing.

Three balls of light flew out of the reincarnation mark and disappeared into her body.

After doing all this, Li Yueming said, "I won't tease you. As the secretary of Starmoon City, you will be my most capable subordinate in the future. Your current strength is too insignificant..." I just gave you three temporary reincarnation privileges. You can use these three temporary reincarnation privileges to enter the reincarnation world again!"

"Of course, as for how many resources you can obtain in the reincarnation world and whether you can obtain the recognition of the reincarnation mark to become an official reincarnator, that's not something I can decide!"

Li Yueming's voice wasn't loud, and his tone was no different from usual.

However, the contents of the letter were like a bolt from the blue to Zhao Shiya. Her eyes widened in disbelief.

The three orbs that Li Yueming had given her earlier... Three temporary reincarnation authorities?

Didn't everyone only get one temporary reincarnation?

This had long been confirmed by countless reincarnators that it could not be changed, right?

Why was Li Yueming able to grant her three temporary reincarnation privileges?

Without a doubt, Zhao Shiya's mind was in turmoil.

He finally came back to his senses. After raising his arm and carefully observing the marks on it, he was surprised to find that he really had three additional marks of temporary reincarnation authority!

After confirming that he wasn't seeing things.

She looked up again, and the emotions in her eyes were overflowing!

Suspicion, anxiety, excitement, disbelief...

There were so many of them.

Li Yueming was a little flustered by her passionate gaze. He waved his hand and said, "It's fine. You can leave. I'll be in seclusion for the next few months. If there's nothing, don't disturb my cultivation!"

Within the high-level administrator authority granted by the Reincarnation Mark.

Not only did it contain the function of silencing and removing the administrator, but it also had the function of giving temporary reincarnation permission.

Every year, Li Yueming could give three temporary reincarnation privileges to any designated target. Through these three temporary reincarnation privileges, they also had the chance to become an official reincarnator, but the difficulty of the assessment was higher than others.

But no matter what.

For ordinary people who had failed to reincarnate, this thing could definitely be called a treasure that could defy the heavens and change their lives.

Zhao Shiya was the closest secretary to Li Yueming.

As a boss, he could get free benefits, so he would not be stingy to reward his obedient and smart subordinates.

Hearing Li Yueming's cough, Zhao Shiya came to her senses.

She pursed her lips and looked at Li Yueming carefully with a pair of gentle eyes, as if she wanted to engrave Li Yueming's figure into the deepest part of her mind.

After a long while, Zhao Shiya knelt on the ground respectfully and kowtowed. "Shiya thanks City Lord. I don't need to thank you for your kindness. In the future, Shiya's life will be yours. As long as you need it, Shiya will definitely work hard for you!"

Li Yueming didn't deny it and just waved his hand. "Go, remember, you can't tell anyone about this!"

Even if Li Yueming had only lightly reminded her not to spread the idea of granting temporary reincarnation authority to eliminated people, Zhao Shiya could figure out the pros and cons of doing so with just a little thought.

Therefore, she nodded solemnly before she got up and left.

Chapter 746: Buying a new one to increase his strength!_1

After sending Zhao Shiya away, Li Yueming did not waste any time. He closed his eyes and continued to digest his various powers.

So far, he had basically completed the control of his body. He only needed to make the final adjustments and adjustments before he could start the next step of intensive training.

Time passed day by day.

A week later, Zhao Shiya led more than ten Star-Moon City officers who had entered the fragment world to the City Lord's Mansion. She reported to Li Yueming that the feys in the fragment world had been collected.

Li Yueming was not stingy either. After checking that there were no mistakes, he rewarded each of them with a bag of spiritual rice and some vegetables and fruits.

One had to know that Li Yueming's crops were all high-grade goods.

These spiritual rice, vegetables, and fruits were luxury items even for weaker ordinary reincarnators. However, to Li Yueming, they were just items that he casually gave to his subordinates.

Therefore, following a leader was very important.

The group of people left happily after receiving the reward. Li Yueming was left alone in the City Lord's Mansion.

He thought about it.

He was prepared to sell all the insights he gained from the fragment world this time, along with the reincarnation points that he had not finished trading last time. He would use the reincarnation points he obtained to trade for the various secret manuals he needed.

After all, ever since he found out the truth about the Reincarnation Mark, Li Yueming's heart had never been at ease.

For others, the prime material plane might be a good place to hide.

However, to him, whether it was the reincarnation world or the prime material world, they could only be considered as the moon in the mirror. If he was not careful, it would be a vain joy.

After all, from a certain perspective, the Reincarnation Mark... It was set up for him alone.

The others could seek asylum.

He was the only one who could not escape and had to bear this responsibility.

It was also because of this that Li Yueming lamented that sometimes knowing too much and shouldering too much wasn't a good thing.

Wearing a crown and being crowned as the king could still gain the respect and supreme rights of the people, but he did not gain any right to do whatever he wanted, nor did he gain anyone's surprise and respect.

He could only bear everything he faced alone.

There were many hardships among the reincarnators.

But someone like him was probably the first.

There were less than two and a half months left until the 'Ultimate Assessment' in the Reincarnation Mark's notification. As the date gradually approached, Li Yueming became more and more nervous.

Logically speaking, it was just an assessment, so it shouldn't have brought him so much psychological pressure.

However, his intuition told him that it was definitely not that simple.

Forcefully suppressing the chaotic thoughts in his mind, Li Yueming entered the reincarnator forum and walked around. After listening to the recent news for a while, he did not stay for long. He went straight to the administrator group and the Cloud Maple Leaf Group chats to sell.

There was no lack of additional reincarnation rights in the administrator Group chats.

After all, be it Fu Dalong or Su Yue, they were both top-notch reincarnators. In addition, they had additional authority over the Reincarnation Mark. It was impossible for them not to have additional authority over the Reincarnation Mark.

Therefore, Li Yueming still sold the reincarnation authority in the Group chats of Maple Leaf in the Cloud as usual.

It was still the young masters of the big cities and the families behind them who needed the extra reincarnation authority more.

As expected.

The remaining ten or so reincarnations were all swept away by Yunduan Fengye and the others.

Now, Li Yueming was about to become a super rich person in the group who created additional reincarnation rights.

Qin Ritian and the others had never seen anyone like Li Yueming. The additional reincarnation authority was like a cabbage in the market.

As for the remaining spiritual items...

Li Yueming thought about it and didn't continue to trade in the Group chats.

Instead, he switched to the administrator Group chats.

After all, this thing was different from the additional reincarnation authority. It was not a hard resource.

Moreover, the spiritual rice, vegetables, and fruits planted by Li Yueming were all the most expensive varieties that could be bought on the market. Now that they had finally obtained a harvest, they naturally had to look for a big dog if they wanted to sell them for a high price.

Without a doubt, in this aspect, Su Yuefu, Dalong, and the other City Lords were the first choice.

Therefore, Li Yueming happily tagged everyone in the Group chats and said, ""@ All members, sell some spiritual rice and spiritual melons produced in your spiritual fields. The varieties are not bad.""

Compared to the Group chats of Maple Leaf in the Clouds.

Although there would occasionally be people chatting in the Group chats, most of the time, it was relatively quiet.

After all, the people in this group were all big shots. Even though they were all busy, they definitely did not have the time and mood to chat with Faded Cloud Maple Leaf and the other rich second-generation heirs.

After seeing his message.

The administrators in the group suddenly popped up.

Fu Dalong said, ""Yes..."" The spiritual rice and fruits produced in Daren's spiritual fields? This is incredible. I'll reserve a portion for you, thank you!"

Li Fuwen: "" Lord Li, you're in such a good mood. You actually have the time to plant spiritual plants yourself. I'll order one too!""

""Good day, Lord Li. I'll naturally order a portion of the spiritual rice and fruits that you planted personally!""

Fu Wentao: "" The adults are raising the fruits very well. I wonder what methods they used to cultivate them? I'll share it with you. I'll try it out when I have time!"

. The ten administrators in the Group chats basically all popped up.

They all expressed their intention to reserve a portion of the feys.

In fact, anyone who could manage a large city would not lack such feys.

Chapter 747: Buying a new one to increase his strength!_2

However, Li Yueming was a high-level administrator.

Anyone with a brain would not not not give Li Yueming face when it came to such matters.

However, even so, the group of people still had some doubts in their hearts.

Li Yueming was already a high-level administrator.

Logically speaking, even if their status in the Main Material World was temporarily inferior to theirs, it should not be much lower.

During this period of time, in order to understand Li Yueming's true identity.

In fact, the various City Lords had already launched an intelligence network to search for City Lords with the surname Li in some first-tier cities and second-tier cities in order to be able to build a relationship with Li Yueming faster.

However, they had paid a considerable price, but no City Lord who met their expectations had appeared.

Coupled with the fact that Li Yueming was selling spiritual rice and fruits in the Group chats...

Could it be that Li Yueming was not a second-tier city lord, but an unremarkable ordinary reincarnator?

This was impossible...

To be able to obtain an SSS-level score, which one of them wasn't a dragon among men?

Even if he didn't climb to the top, he shouldn't be unknown.

It could only be said that Li Ming's identity had been shrouded in a mess in the eyes of many City Lords.

If Li Yueming didn't take the initiative to reveal some information to them, they probably wouldn't be able to find any clues no matter how much manpower and material resources they invested.

But would Li Yueming reveal more information?

Obviously, not for the time being.

Of course, he couldn't hide forever. As long as he wanted to participate in the planning of the prime material plane, he couldn't avoid these ten city lords.

Therefore, sooner or later, Li Yueming would definitely come into close contact with them.

The reason why he was so mysterious was that he had to hide his true strength before he could master it.

After all, although he did have the authority of a high-level administrator, he could only make a ruling based on the rules.

The human heart was like water. No one could guarantee that if his true strength was exposed in front of this group of top-notch reincarnators, it would not cause some unnecessary trouble.

Only when his fist was strong enough to settle everything with his own strength would Li Yueming be able to show his face in front of them openly.

Therefore, when he saw someone in the Group chats asking for information about him in a roundabout manner.

Li Yueming remained silent and didn't answer at all. He just silently put up the feys he wanted to sell.

Seeing that he didn't say anything, some people didn't dare to continue asking.

He was afraid of angering Li Yueming.

There weren't too many fancy things.

The feys collected in the fragment world were sold for more than a million reincarnation points.

Actually, according to the market price, the feys added up should be around 800,000 to 900,000.

However, it was still the same sentence. Who asked Li Yueming to be a senior administrator?

Even though he was bidding according to the market price, this group of people still paid him more reincarnation points for various reasons such as 'good plants', 'good varieties' and 'good taste'.

As for whether it was true or not, that would depend on one's opinion.

Li Yueming couldn't care less. After all, he couldn't possibly reject the money that the other party was rushing to give him, right?

Now he finally understood why some people found it hard to resist temptation.

It was really a willful act with little power. After tasting the sweetness, it went out of control.

After trading all the tradable items in his hand, Li Yueming once again obtained more than two million reincarnation points.

Adding on the remaining reincarnation points from before, it was a total of five million.

Li Yueming made a rough estimate.

These reincarnation points might be equivalent to the savings of some small reincarnator families for a few years.

To ordinary reincarnators, this was definitely a huge sum of money. Only the City Lords of first-tier and second-tier cities could easily take out so many reincarnation points.

He looked at the seven-digit balance in the Reincarnation Mark.

Li Yueming pondered for a moment.

He decided to head to the reincarnator forum to participate in the auction.

He had bought the personal secret manuals from Wang Linlin the last few times.

But this time, he needed a lot of secret manuals.

Wang Linlin probably wouldn't be satisfied.

In order not to make things difficult for her, Li Yueming decided to go to the reincarnator forum to take a look after considering for a moment.

Of course, the main reason was that Li Yueming had now become a proper authority dog. Not only did he not have to pay additional transaction taxes when he went to the reincarnator forum to buy resources, but he could also use his authority to punish any reincarnator who wanted to cheat him of his reincarnation points.

With such a huge advantage, if he did not make use of it, he would really be letting down the painstaking efforts of the reincarnator authority.

Thinking of this, Li Yueming did not hesitate. He left the administrator Group chats and returned to the reincarnator forum.

The forum was still bustling.

This was because the invasion of the dark energy had been severe over the years.

Reincarnators usually had to guard their own cities and rarely walked around.

The City Lords of the large cities were still fine. The cities might recruit dozens of reincarnators to guard the cities together.

However, the City Lords of small cities like Li Yueming were in a more difficult situation.

He had no one of his own to vent his emotions, nor could he communicate with his subordinates.

Therefore, he could only spend all day on the reincarnator forum.

This was also the reason why the reincarnator forum was always lively.

After all, reincarnators were also humans. They also had emotions. They could not vent them in the real world, so they could only complain on the forum.

However, Li Yueming was obviously not here to watch them talk nonsense.

Chapter 748: Buying a new one to increase his strength!_3

He immediately scrolled through the post and found the [Reincarnator Stall] section. With a thought, he clicked on it.

Suddenly, a familiar yet strange feeling appeared in front of Li Yueming.

How should he describe this feeling?

It was as if he had returned home.

[Long-term seller of technology related secret books. Handsome and good character. Buyers with technology reincarnators can chat privately!]

[Spiritual rice for sale, spiritual rice for sale. I don't want 998, I don't want 98, I only want 9.8. Take one jin of spiritual rice home!]

[Chat service is provided. I am 170CM tall and have a face value of 9 points or above. I can cosplay as a fairy from the Xianxia World, a witch from the Martial Arts World, a chivalrous woman, a catgirl from the Spirit Beast World, a bunny girl... He only needed 998 reincarnation points to chat with her for an entire day!]

Among all kinds of exaggerated and ridiculous headlines, Li Yueming picked the last one at a glance.

After subconsciously opening the last post related to 'chatting,' Li Yueming was surprised to find that there were a few photos of the female reincarnators taking selfies under the thread.

All kinds of nosebleed-inducing large-scale photos made Li Yueming dizzy.

That...

He did not expect that this group of reincarnators... You're playing quite well!

They could even openly sell their chat services.

Li Yueming almost couldn't help but feel his blood rush up. Fortunately, his willpower was still firm. Otherwise, he would have forgotten what he was here for.

He closed the post with great willpower.

Li Yueming continued reading.

He finally found what he was looking for among the dazzling posts.

[Selling personal strength cultivation techniques and secret manuals. Those with guaranteed character can chat privately!]

He opened the post.

Li Yueming took a glance.

All of them were indeed secret manuals of personal strength cultivation techniques.

However, most of them were trash worth tens of thousands.

Only a handful of them were more expensive, and the introduction of the technique was quite unique.

[Name: Apocalypse]

[Type: World of Martial Arts Cultivation Method]

[Description: Level 5 martial arts world's top-notch cultivation technique. By circulating the cultivation technique to compress the true essence in the body, it will obtain extremely powerful destructive power when it explodes. When cultivated to the extreme, it will not be weaker than ordinary Xianxia or fantasy cultivation techniques!]

[Remarks: The destructive power of this cultivation technique is directly related to the level of one's energy. It is not limited like ordinary martial arts manuals, so it is extremely rare.]

[Price: 800000 reincarnation points]

[Turtle Breathing Technique]

[Type: Xianxia World Secret Manual]

[Description: Level 2 Xianxia world's ordinary cultivation method. By adjusting one's breathing, one can increase one's lifespan. When cultivated to the extreme, one can have a long lifespan like an old turtle. Not only that, but practicing this technique could also extend the diving time, making you as durable as a turtle... Well, although it was useless.]

[Remarks: Although this cultivation method is not precious, it is produced in the Xianxia world and is directly linked to one's lifespan. It can be considered an extremely rare item.]

[Price: 800000]

[Heavenly Gate Thirteen Blades]

[Type: Fantasy World Cultivation Technique]

[Details: Level 3 Fantasy World cultivation technique. It is suitable for personal power reincarnators who like to use knives. When cultivated to the extreme, they can slash thirteen times in a row in an extremely fast time. Each slash has extremely destructive power!]

[Remarks: It is said that this cultivation technique was originally called the Twelve Blades of Heaven's Gate. The founder was a world-famous demon in a certain fantasy world. He once used this cultivation technique to kill hundreds of famous experts in one night... The reincarnators had gone through a lot of hardships and gathered tens of thousands of righteous people to barely suppress him. Before the Demon Lord died, he sublimated this saber technique, which was why there was this thirteenth saber technique!]

[I racked my brains to make up such a story with a beginning and an end. It's not too much to sell it for an extra 80,000, right?]

[Price: 1080000]

He looked at the introduction of the various cultivation techniques in the post.

Although some of the sellers made up ridiculous stories, to be honest, it was difficult for any reincarnator not to be tempted.

However, the price...

All of them were rather touching.

Li Yueming glanced at his five million yuan.

These reincarnation points were probably enough for ordinary reincarnators who did not have any pursuits to lie flat for a lifetime.

However, it didn't seem to be much for Li Yueming.

After all, his personal growth was inseparable from the nourishment of those high-level secret manuals, and those secret manuals that could be cultivated in the prime material plane were not cheap.

Just this expenditure alone was a bottomless pit that could never be satisfied.

Not to mention that there was a world fragment consciousness behind him.

This guy opened his mouth and shut his mouth.

Even if it was just a small ball of broken World Origin, it would cost more than 500,000 reincarnation points at a 50% discount. The price of a complete World Origin was even more unimaginable.

If he didn't think of ways to earn some money, he probably wouldn't even be able to maintain his basic living expenses...

Shaking her head, Li Moonming quickly pulled herself together.

Although his rapid growth was at the cost of burning money crazily.

But how many people could not grow even if they wanted to burn money?

Now that he saw the various top-notch secret manuals in the post, Li Yueming only hated that his reincarnation points could not have another zero.

After getting rid of the distracting thoughts in his mind, Li Yueming once again carefully read the information of the cultivation technique manuals in the post from beginning to end, focusing on those that were priced at more than 500,000 yuan.

There was no doubt that whether it was Apocalypse, Turtle Breathing Technique, or the Thirteen Blades of Heaven's Gate, they were all within his scope of choice.

Five million reincarnation points might not be enough to buy more, but it was more than enough to buy these.

Chapter 749: When the darkness breaks, the dawn finally appears!_1

Currently, Li Yueming still had five million reincarnation points. It should be enough to buy these cultivation technique manuals.

After thinking for a while, Li Yueming clicked on the contact information on the merchant's homepage and asked through private chat, "Are you there? He used Ten Directions Annihilation, Turtle Breathing Technique, Heavenly Gate Thirteen Blades, Gale Grass Force, and so on... Could you give me a discount for the cultivation technique manuals of several high-level worlds?"

After sending the message.

The seller waited for a while before replying, "Who are you sending it to? Are you kidding me? These few cultivation techniques are the best treasures I've obtained through painstaking efforts. All of them cost nearly three million reincarnation points. You, an empty level 0 buyer, dare to ask?!"

Li Yueming was stunned.

Only then did he realize that perhaps because the question he asked was rather ridiculous, he was directly treated as a troublemaker by the seller.

Before he could explain, the other side continued, "I'm warning you not to get around for nothing. Otherwise, our merchant can blacklist your ID. If you can't buy anything in the trading market, don't cry!"

If it were an ordinary person, they would have been furious after being reprimanded and threatened like this.

However, Li Yueming was obviously not an ordinary person.

First of all, he did not have any transaction records in the trading market. It was a pure white account, so it was normal for the seller to think that he was looking for trouble.

Secondly, just as the seller said, the secret manuals in his hands were all rare treasures.

If it was any other shop, they might not have such an item that suited Li Yueming's taste.

In summary, Li Yueming finally chose to calm down and explain, "Three million reincarnation points, right? I can verify the balance in my account for you. After confirming that there's no problem, we can continue talking!"

He replied very quickly.

After a moment of silence, the seller said doubtfully, "Really? Show me! If it's fake, I'll blacklist your ID and inform the others in the industry. Think carefully!"

Without hesitation, Li Yueming sent a screenshot of his account balance to the seller.

This thing was similar to some auction houses. In order to prevent those bored guys from causing trouble, they needed to prepare a capital verification report in advance.

After the screenshot was sent, the other party was silent for a long time before finally saying, "I'm sorry, I didn't recognize Mount Tai. Boss, do you really want to pack these six cultivation technique manuals? Even if you're a senior reincarnator in the martial arts world, you shouldn't be able to use so many high-level cultivation technique manuals, right? Moreover, these cultivation techniques of mine not only include martial arts, Xianxia, but also a very small number of fantasy techniques. It's probably difficult for you to digest so many of them..."

Under normal circumstances.

Although the cultivation techniques and secret manuals of the individual power side had their own similarities.

However, there were still many differences.

Therefore, many individual reincarnators of the Magnificent Power Realm would also have their own cultivation system that they specialized in.

Even if it was compatible with the cultivation techniques of other types of worlds, only a very small number of talented reincarnators could enjoy it. Moreover, it was very likely that they would need to put in more effort and time than this type of cultivation technique to achieve the desired effect.

This was also why reincarnators who mainly cultivated the physical body were more inclined to buy martial arts or fantasy cultivation technique manuals, while reincarnators who mainly cultivated the laws were more inclined to buy Xianxia cultivation technique manuals.

People like Li Yueming who wanted to pack three top-notch cultivation technique manuals at the beginning were simply impossible to appear except for the big spenders or the leaders of some large forces who bought them in bulk.

Li Yueming's account was a blank slate without any extra information, so it was naturally impossible for him to be the leader of a large force.

The seller was also apologizing for not recognizing Mount Tai before, so he reminded him.

Hearing the reminder.

Li Yueming smiled and replied, "Thank you for your kindness, but I'm indeed interested in these six cultivation techniques. If it's convenient, please give me a fair price. If it's suitable, I'll take them all away!"

Li Yueming insisted.

The seller didn't say anything else.

After waiting for about two minutes, he deliberated and reported the price to Li Yueming, "Among the few cultivation techniques that you want, the most expensive one should be the 'Thirteen Blades of the Heavenly Gate.' Although I'm somewhat bragging about this cultivation technique, there's actually no need for me to say more about its preciousness... The Fantasy World and the Immortal World were known as the two great graves of reincarnators. It was already very difficult for ordinary reincarnators to enter such worlds and ensure that they did not die. It was even more difficult to obtain results, especially for top-notch cultivation techniques like the Heavenly Gate Thirteen Blades!"

"This cultivation technique is priced at 1,080,000 reincarnation points. I can directly round it off and give you 1,000,000 reincarnation points!"

"As for the later 'Turtle Breathing Technique', it is also produced in a Xianxia world. Although the characteristics of the technique itself are ordinary, it involves a core element that the reincarnators cannot reject, and that is... Lifespan!"

"Although reincarnators have long lifespans, they are ultimately not immortal. If you want to live a few more years and change your fate, the more cultivation techniques you have to increase your lifespan, the better!"

"In fact, although this cultivation technique hasn't been sold yet, many people have already asked about it. It's priced at 800,000 reincarnation points. I'll give you 50,000, and you can take 750,000!"

Chapter 750: When the darkness breaks, the dawn finally appears!_2

"As for that Ten Directions Annihilation, it's an extremely destructive martial arts secret technique. Its power is at the level of a trump card!"

"You should also know how terrifying the increase in the combat strength of a reincarnator is with an additional cultivation technique like this. Therefore, the price can only be reduced by 50,000 yuan, 750,000 yuan!"

At this point, the seller paused.

Then, he continued to introduce, "The other three cultivation technique manuals also have their own strengths. However, compared to the value of these three cultivation techniques, they can only be considered as an addition at most. I won't elaborate too much..." The six secret manuals add up to a total of 3.3 million reincarnation points. I wonder if you think this price is fair?"

As expected of a professional businessman.

He could recite the strengths of every cultivation technique manual backwards.

He was even more skilled in business.

However, Li Yueming wasn't stupid enough to agree.

3.3 million reincarnation points was not expensive, but it was definitely not fair.

After thinking for a while, Li Yueming retorted, "The Heavenly Gate Thirteen Blades is indeed a high-tier cultivation technique, but it's not the most kingly type, right? Moreover, there was still a threshold to cultivate this cultivation method. One had to be extremely proficient in the Dao of Saber in order to be able to play a role like adding wings to a tiger!"

"Ordinary reincarnators probably won't be able to understand it even if they buy it..."

Hearing Li Yueming's reply, the seller immediately knew that Li Yueming was not easy to fool, but he still stubbornly said, "The King Dao cultivation technique is not something that can be obtained at this price!"

"As for the threshold of the cultivation technique... Indeed, in the eyes of ordinary reincarnators, this specialized cultivation technique was indeed tasteless and a pity to throw it away. "But from another perspective, if you encounter a sword cultivator reincarnator who suits your appetite, wouldn't this cultivation technique be more competitive than other cultivation techniques? It's not that I want to raise the price, but one million reincarnation points is really the limit price I can offer..."

The seller's words were extremely sincere.

However, Li Yueming was not moved at all. He said directly, "In that case, it's a pity that I'm not a sword cultivator. It seems that this cultivation technique is destined to be fated with me. Shopkeeper, continue to wait for the fated person!"

Seeing that Li Yueming didn't dawdle, the seller had already roughly figured out Li Yueming's background.

Although the information he had just said was indeed true.

However, in business, it was impossible to survive if one only told the truth or lies.

Half-truths were the way to go.

The Heavenly Gate Thirteen Blades was indeed a rare top-notch sword cultivation technique.

However, the number of reincarnators who specialized in saber techniques was pitifully small.

And the Thirteen Blades of the Heavenly Gate was so expensive.

Those who wanted to buy it did not have money, and those who had money mostly already had similar exclusive cultivation techniques.

He had been hoarding this cultivation method for almost half a year, but he still hadn't sold it.

If they continued to hoard, it would be difficult to not lose money, let alone make money.

It wasn't easy to meet a hothead like Li Yueming. The seller originally wanted to make a little profit, but now it seemed that he was already burning incense and praying to Buddha if he could keep his losses.

After weighing the pros and cons, the seller gritted his teeth and said, "I'll drop another 50,000 reincarnation points. 950,000, I really can't drop anymore!"

At this moment, Li Yueming was certain that the seller wanted to make a move, so he said unhurriedly, "Didn't I say that I'm really not a sword cultivator? This item is not fated with me!"

Seeing that he was still unmoved.

The seller could only say with hatred, "900,000. This is really the lowest price. If you still don't want it, I can only continue to wait for the fated person!"

Hearing this, Li Yueming roughly estimated in his heart and finally nodded. "In that case, deal!"

Seeing how he was suddenly so happy, the seller immediately realized that he had been tricked.

He almost spat out a mouthful of blood.

Suppressing the urge to burst into tears, the seller was determined to regain some face with the next item, so he continued to ask, "Then what about the Turtle Breathing Technique? Do you still want it?"

Li Yueming used both his hands to defend himself and said indifferently, "Yes, why not? However, this price..."

The seller immediately said bitterly, "Boss, there's really no way to lower the price..."

Li Yueming seemed to have known that he would say this, so he said, "This Turtle Breathing Technique is indeed not bad. However, this side effect... How many people would be willing to turn themselves into a turtle for a technique?"

The seller was speechless.

In the introduction of the cultivation technique, he emphasized the effect of Turtle Breathing Technique on increasing lifespan.

As for the side effect of becoming abnormally slow after cultivation, he had infinitely reduced it or even ignored it. Now that Li Yueming had exposed him, he could only say awkwardly, "I'll lower your bid by another 100,000 yuan!"

After the first few tit-for-tat battles.

After realizing that Li Yueming wasn't an ignorant noob, the subsequent transaction was smoother. As long as Li Yueming picked out the flaws, the seller didn't refute much and directly showed the starting price that he could accept.

After several discussions, the original business of 3,000,000 reincarnation points was finally cut down to 2,900,000 by Li Yueming. In the end, under the boss's tears, Li Yueming even gave him an auspicious number.

[Final transaction price: 28,888,888 reincarnation points.]

After negotiating the price, he decisively paid.

Although the seller wondered why Li Yueming was so generous and dared to pay before seeing the goods, he did not play any tricks and sent all six cultivation techniques to Li Yueming's email.

After all, although there were many scammers in the reincarnator forum, there were still many people who were not willing to accept it.

However, as long as they were not greedy and traded with legitimate merchants, the probability of stepping on a scam was not high.

However, this made Li Yueming a little disappointed.

He wanted the seller to keep his reincarnation points for himself, so he could give him a self-righteous zero-yuan purchase.

However, the boss actually resisted the temptation and did not give him any leverage.

After completing the transaction, Li Yueming opened his mailbox and took out six cultivation technique manuals to check one by one.

Even though he had already slashed the boss's neck.

However, this transaction still cost him more than half of the reincarnation points he had saved up.

It could only be said that the infinite deduction talent and the constantly improving Star Moon Art were truly a bottomless pit that could not be filled.

Every step of the path of taking the strengths of hundreds of schools and completing one's own body had to be paved with white money.

Of course, he had spent so many reincarnation points.

Li Yueming's gains were also extremely huge.

Whether it was the Ten Directions Annihilation or the Heavenly Gate Thirteen Blades, they were both top-notch cultivation techniques that sold for nearly a million yuan each.

Even in a small or medium-sized reincarnator family, these laws were even qualified to be used as a family treasure.

Most of the cultivation techniques he had bought from Wang Linlin were products of small and medium-sized worlds. In terms of rarity and preciousness, they were not even worthy of carrying shoes for these top-tier cultivation techniques.

Absorbing the essence of these cultivation techniques could not only further improve the Star Moon Art, but also further deepen Li Yueming's understanding of the strengths of the various worlds, greatly improving Li Yueming's strength.

After checking the cultivation technique manuals in his hands, he did not find any problems.

Li Yueming got up and sat cross-legged again.

He began to use his Infinite Deduction talent to absorb the essence within.

Time passed day by day.

In the midst of the boring cultivation, Li Yueming could clearly feel that the Star Moon Art was becoming more and more perfect.

As long as he put in a little more effort, he reckoned that before the start of the next final assessment, the [Starmoon Art] would be able to become its own, and become the foundation of his ultimate existence.

At that time, even if there was no personal power order in the unknown reincarnation world.

With the self-contained Starmoon Arts, Li Yueming could continue his legend of individual power according to the world's environment.

In a sense, this should be the ultimate goal that many reincarnators pursued together.

Countless people had fallen on the road to cross the river. Only Li Yueming and a few other people could make it to the end and see the most beautiful moment of dawn.

It took about a month.

Li Yueming had almost deduced the six top-notch secret techniques of the individual power side. What he needed to do next was to integrate the theoretical essence into the Star Moon Art.

After completing this task.

He would then be able to calmly face the so-called 'ultimate test' of the Rebirth Mark.

Probably...
