

But just as he walked a few steps, a voice slowly spoke.

“Tell your father: if you want to use my powers, you must be willing to give something in return.”

“Nowadays, even an artisan who trims the bushes in a garden gets paid; what more to say a master?”

Responding with a light grunt, Wu Zhengde hurriedly left.

After he left, the other old man asked Zhong Wuqi, “Do you think your student will accept your condition?”

“That student of mine was born with a silver spoon.”

“His entire family raised him to be self-centered and arrogant.”

“Prominent families like theirs care about nothing but their pride.”

“They would do anything to those who ever wound their ego.”

“So I'll just wait and see.” He smiled.

The other old man paused, then asked Zhong Wuqi, “By the way, have you properly investigated that guy Li Hang?”

Zhong Wuqi smiled with disdain, “He's nothing but a maggot.”

“Wait till my men point their blades at Ning Province and be the first to kill him!”

The moment Wu Zhengde returned to the hospital, he relayed everything Zhong Wuqi had said to Wu Zhirong.

Hearing that, Wu Zhirong's aggravated expression cooled.

He looked hesitant.

But in the midst of that doubt, he was also influenced by anger and other emotions.

Afraid that Wu Zhirong would make more rash moves, Wu Zhengde hurriedly enquired.

“Father, just what are Master Zhong's conditions?” “Does he want a place in our family business?”

Wu Zhirong coldly harrumphed, “Nothing in this world can escape feelings and interests.”

“If it were just the family business, I'd easily hand over half of it to him.”

“But he wants far more than something like that.”

“What he wants is to control the entire Wu family!”

Wu Zhengde was shocked. “We can't let that happen!”

“Our family has ruled over Gu Su for so many years. We would normally even suppress our competitors very heavily.”

“If we were to hand our power over to someone else, wouldn't we just end up becoming their dogs?”

“Do you think I'm not aware of all this?” Wu Zhirong sounded cold. “But look at the current situation of the Wu family.”

“Your brother Wu Hai is dead, and all our elites were killed in just one night.”

Chapter 278 Interview

“We're left with just a rabble.”

“Don't even mention those tigers from the North; just having a small number of Shanghai's big families come at us would be enough to wipe us out.”

“By then, we wouldn't even have the chance to be anyone's dogs.”

Wu Zhirong looked like he had made up his mind. His expression turned increasingly vicious.

“Under my control, our Wu family has never had the chance to expand.”

“This could be our turning point.”

“As the Master's student, I know how he treats others.” “More than that, I understand how he thinks.”

“He doesn't only have his eyes on Gu Su City, but the entire Yangtze River Delta!”

Wu Zhengde was so shocked that he couldn't speak!

Merchants and banks from all over the world would gather there to harvest their 'leeks'.

If one could rule over the Yangtze River Delta, the benefits generated from it would be so great that it could shock the entire world!

At that moment, the eyes of Wu Zhirong and even Wu Zhengde looked like they had been set ablaze.

Ning Province, Lingxiao Group headquarters.

Xu Haoran was being sneaky in the hallway, probing here and there.

He peeked into one of the rooms.

Several interviewers were carrying out interviews on a new batch of recruits.

Among the panel was Xu Muqing.

There was something important to note about how Lingxiao Group recruited

employees.

They did not look at the recruit's background, nor did they judge them by their education.

It was much more comprehensive.

One of the most important aspects was a person's moral fiber.

Meanwhile, Xu Haoran continued to watch in secret.

He was looking at a girl being interviewed by Xu Muqing and her team.
