

The Medallion

CHAPTER 17 STRONG PERFORMANCE (PART TWO)

"Okay, I will try not to look at you again." Rocky had a few moments ago suffered great pain. He didn't want to experience it again, so he pretended to look away immediately. Mia also was not in the mood to argue or fight with Rocky. She took a deep breath to calm herself down a little bit and began her lecture: "The so-called spiritual method is a magic method that makes the spiritual power condense in your body and circulate in the meridians of the whole body. Besides, it can release the spiritual power out of your body to produce some effect... To learn the spiritual method, you must guard yourself against arrogance and rashness. It is necessary for you to learn it step-by-step with great patience. Now I'm going to teach you the basic circulation of spiritual power. You shall first make your spiritual power rise and let the breathing go down to your elixir field." "Would you please tell me where the elixir field is?" Rocky asked in a weak voice, not wanting to annoy her. "You don't know that also?" Mia felt that she had put herself into trouble. If she had known about his situation, she would have found someone else to teach this guy. "I have lost my memory, so I don't remember the most basic common things." Rocky pretended to sigh plaintively. "You've lost your memory?" Mia was slightly stunned to hear that, but she immediately returned to her normal state and said, "Lower abdomen, navel, and half finger..." "Navel, half finger..." Rocky gesticulated with his finger near the navel, then he took a deep breath. Suddenly his expressions changed and it appeared as if he was having constipation. "What are you doing?" Seeing his strange behavior, Mia couldn't help asking. "You asked me to make my breathing go down to the elixir field, didn't you? Therefore, I am trying to make it go down," Rocky said solemnly. After hearing his words, Mia couldn't stop herself. At first she felt annoyed, but it also amused her. She took a look at Rocky and hesitated for a moment. She suddenly put her fingers together, and a silver light like flames rose from her fingertip immediately. She pointed her fingertip towards Rocky's lower abdomen. Rocky felt like something had suddenly jumped into his body from his lower abdomen. It was a little itchy and tingly, but it was not painful. "I will demonstrate the circulation route of meridians in your body with my spiritual power. If you can't remember it, I will no longer teach you," Mia told Rocky staring at him. While reading the formula of the first grade to be taught to Rocky, she

used her spiritual power and injected it into Rocky's body to circulate the spiritual power in his meridians starting from his abdomen. After a round of circulation, Mia withdrew her hand and asked, "Do you remember it?" Rocky nodded with a smile. "Really?" Mia asked him uncertainly, because she felt that even if she taught the most basic spiritual method to him, Rocky would take at least half a month to learn it. Another thing was that when she used her spiritual power to enter Rocky's body, she found his spiritual power to be very weak. It was almost equal to nothing. It was no wonder that when he was tested just now, he could hardly release the dragon spiritual power. With such weak spiritual power, it would be very difficult for him to form a circulation. 'It's not his fault that he has poor qualifications, but he should have some self-knowledge. I'm afraid he won't be able to stick to his cultivation. Sooner or later, he will choose to give up. I really can't understand why the Holy Dragon Bead chose such a weak person to merge,' Mia thought to herself. Quickly Mia came back to the present situation. She saw Rocky reading his pithy formula for the first time and gathering up the little weak spiritual power in his body. Rocky then began to form a circulation of the spiritual power according to the meridian route she had just guided him with. Although his spiritual power was so weak, she could vaguely see a bright spot swimming in Rocky's body. Rocky completed the first circulation of the spiritual power, and surprisingly he didn't make even a single mistake. "You are able to remember the whole process after only one practice?" Mia was really surprised at Rocky's performance. In fact, she was just saying it casually, because even the gifted spirit manipulators found it hard to distinguish the meridian route of the spiritual force's circulation when they just began to learn the spiritual method. At least she hadn't seen one who could remember it completely after one time. More importantly, Rocky didn't even know the exact place of his elixir field till now. Therefore, it was hard to accept that he was able to complete the circulation of the spiritual power on his own after she guided him just one time. "Is this supposed to be very difficult?" Rocky asked Mia with a smile when he saw that she was surprised by his performance. It was undeniable that he really didn't find it difficult. He was born with a strong memory, for he could even memorize the genetic code of animals backwards. Even if he was asked to remember the cultivation of the spiritual method, the meridians circulation or any other abstract knowledge of which he had never heard before, he could quickly remember and master them with ease. Mia stood speechless. 'This guy obviously has very poor qualification, but he can master the circulation of the spiritual power at one time. How

can that happen?' Mia couldn't understand the contrast in the abilities of Rocky. 'If one masters the circulation of spiritual power in one attempt, he must have extremely high talent and qualifications. However, Rocky was that kind of spirit manipulator who seemed to have no talent, ' Mia thought to herself, and she was in great doubt. "Is there something wrong with what I just did?" Rocky couldn't stop himself from asking her. He was confused when he saw that Mia had stopped talking, "No, Whatever you did is very general. There is no big problem with that," Mia said against her will. Later, Mia passed on the formulas of the other eight grades of the Mysterious Dragon Skill to Rocky. This too he remembered at one go. "You shall continue to practice. When the time comes, come and gather with others." Saying that, Mia turned and walked away. 'Am I too smart to scare her?' Rocky thought to himself. He gave a loud laugh and continued to concentrate on his cultivation. He laughed because he knew that this was the first step that would make him stronger. At the same moment, Mia, who had walked a few steps away, suddenly turned and looked back at Rocky. She had an odd look as she softly murmured to herself, "This guy is really quite strange. Her Royal Highness asked me to take care of him, but it seems like a difficult task as he seems to know just exactly how to piss me off."
