

## MEDICAL GOD CHAPTER 403

Zhuang Daniao's face went pale and he felt ashamed and embarrassed.

When he bought his twenty-million property, he tried to brag to Wang Yun about it. He did not know that she already moved into Qingmei Manor!

The two properties were night and day and Qingmei Manor was beyond comparison!

As they stared at this top-notch mansion in awe, Zhuang Daniao and his family could no longer look at Qin Jun in the eye.

"Haha, Wang Yun, why don't you go ahead with your day? We have some other matters to attend to, so we will take our leave."

The whole family scurried out of the manor in shame. How could they be so thick-skinned to stay if they were already defeated in this manner?

After the Zhuang family left, Wang Yun took a closer look at the mansion and asked, "Qin Jun, how did you get hold of this place?"

Zhu Linlin was curious too.

Qin Jun said, "Well, my old place was demolished. I got a sum of money from there."

He spoke the truth. He Nianying introduced him to this location to build a manor because the old Qin residence was demolished.

Of course, it was impossible to build such a big place just from the compensation.

Wang Yun frowned, "Compensation for the demolition? Do you take me for a three-year-old kid?"

She thought about it. It was impossible that Qin Jun bought this place since it was so expensive. Furthermore, with the Qin family's status, no one would gift them such valuable property.

There was only one explanation.

"Is this an inheritance of the Qin family?"

Qin Jun paused for a moment before replying, "Sure, if you want to think of it that way."

Wang Yun was satisfied with this explanation.

The Qin Family was an almighty, powerful and prominent family many years ago. At least in Donghai, they were one of the top families and were considered an authoritative and omnipotent presence.

Even the other three big families could not compare to them when they joined forces with other families.

Hence, if this was a decade ago, Qingmei Manor must belong to the Qin family.

As such, Qin Jun's ownership over Qingmei Manor was definitely related to the Qin family.

It was possible that they invested in real estate and started building this manor then. Now that ten years passed, the manor was completed and the only remaining family member was Qin Jun and thus, he naturally became the owner of this place.

This young man was really lucky! Even if the Qin family was no more, he was left with such a luxurious place.

No, this manor must belong to the Zhu family!

“Qin Jun, I’m sure you know we treat you well. When you were in despair, we took care of you and fed you. Surely there would be no problem if you were to give a portion of this place to us?”

Zhu Linlin frowned and chided, “Mom! What are you saying! Why should we be getting any part of Jun’s house!”

Wang Jun shot her a glare and responded, “Why not? If the Zhu family did not protect him, he would have already been beaten up by the three big families this time. Furthermore, what happened to the Qin family back then affected us too! Shouldn’t we at least be compensated?”

“Mom! How can you speak like this!”

Zhu Linlin was truly frustrated. How could my mom be so thick-skinned!

When Qin Jun was poor, she wanted nothing to do with him and even wanted to kick him out of their house!

Now that he had this manor, she started to pull strings and even wanted a piece of his pie! What right did she have?

Qin Jun replied, "This is for Linlin. It all depends if she wants you to live with her or not."

Wang Yun breathed a sigh of relief upon hearing this. Zhu Linlin was her biological daughter. She would never go against her will, especially if she wanted to stay here.

"Oh right, Mom likes Qingmei Manor a lot and always said that she wanted to live here so that she could die without regret. Why don't we fetch Mom over too?"
