

## MEDICAL GOD CHAPTER 412

After passing her the note, the bank staff walked out.

Since they were kicked out of the building, it was natural that the bank would similarly state that they breached the contract.

50 million to be paid in three days. Ouyang Yanyan's eyes rolled backward and she fainted on the spot.

"Mom! Mom! Call an ambulance!"

Within a day, Zhu Pharmaceutical descended into utter chaos. There was panic everywhere as staff members were sent on leave and manufacturing operations came to a halt.

If this continued, all of their suppliers and business partners would abandon them and might even sue them for breaching their respective contracts.

Zhu Pharmaceutical could face potential bankruptcy at this stage.

Meanwhile, Ouyang Yanyan lay in the hospital. Her eyes fluttered open and she stared blankly at the ceiling above her.

"Mom, are you feeling better?"

Shaking her head, she mustered all her strength and instructed, "Ask Linlin to come back."

She knew that all these would not happen if Zhu Linlin was still around.

The chain reaction started the moment they removed her shareholdings from the company.

Zhu Ming sighed, "Alright, Mom. Just rest well. I will get her to resolve this."

Stepping out of the ward, Zhu Ming phoned Zhu Linlin using his mobile.

"Hello? Zhu Linlin! What is going on! Are you pretending to ignore what happened to the company?" he yelled into the phone in an accusatory manner.

Zhu Linlin replied, "What? I don't know what is going on."

For these few days, Zhu Linlin took leave and was enjoying her time at Qingmei Manor. Naturally, she was oblivious to what happened outside of the place.

Zhu Ming scoffed, "Stop pretending! This is all because of you! How could you not know? Hurry up and come back to help with the company's problems. Otherwise, I will make sure you suffer!"

He hung up decisively after saying his piece.

On the other end, Zhu Linlin was also annoyed by Zhu Ming's attitude and felt that his chiding came out of nowhere.

Qin Jun let out a snort and took the phone from her as he said, "You don't have to bother with such people. Switch it off."

Before she could say anything, Qin Jun had already switched off her mobile and the two continued to fish from one of the ponds in Qingmei Manor.

Returning to the ward, Ouyang Yanyan looked at Zhu Ming worriedly and asked, "So?"

"Mom, don't worry. I have chided her and asked her to come back and help," Zhu Ming informed her.

She wanted to say something but her words got stuck at the tip of her tongue.

She had hoped that Zhu Ming treated Zhu Linlin with more respect since the latter's powers and status were already beyond their imagination.

When night fell and things did not progress, suppliers started to call and requested to terminate their contract. As of then, there were five partners who wanted their partnership to end.

Naturally, these businesses would want to play it safe after what happened to Zhu Pharmaceutical.

Ouyang Yanyan had to switch off her phone so that her frustrations would not get the better of her.

All she could do was switch on the TV and look at the news.

"Live report from Channel Eight. This morning, the famous Zhu Pharmaceutical descended into chaos as the CEO of the company, Ouyang Yanyan, was tossed from the building by members of the facilities management team. Apart from her, all of the management and staff were also kicked out of the building. It is rumored that Zhu Pharmaceutical failed to pay their maintenance fees according to the contract. We will follow up with more details."

Upon seeing the footage of her landing on the pavement in an embarrassing manner, Ouyang Yanyan's blood boiled once more and she fainted again.

Zhu Ming was utterly enraged upon this. Fishing out his phone, he attempted to call Zhu Linlin again but to no avail.

After which, he dialed Zhu Yong.

“Zhu Yong! What is going on with your family! Why is it so difficult to get Zhu Linlin to do something? Will she only be happy when Mom dies out of frustration!”
