Chapter 1351: Shocking New Cultivation Method!

“I can teach those brothers this guiding technique. With the cultivation method inside it and the large amount of Qi of Heaven and Earth in the ancient ruin, their strength will improve rapidly.”

Fang Qiu beamed happily.

With this technique, He Gaoming and the others’ promotion would come very naturally.

Fang Qiu wouldn’t have to worry about their strength anymore. On the contrary, he should let them make their breakthroughs slowly. Every time they reached a new realm, they had to fully stabilize their strength before moving on to the next stage.

He didn’t want his brothers to become fast-achieving gurus who only had half the strength of authentic gurus!

With this in mind...

Fang Qiu pondered over it for a while in silence.

“The Qi of Heaven and Earth can be absorbed fast at noon, at midnight, and during the conversion period between two solar terms. So, why can’t we do it at other times?”

With this sudden inspiration, Fang Qiu thought to himself. “Maybe I can try to improve the technique. With the upgraded guiding technique, they can take in the Qi of Heaven and Earth quickly at other times.”

At this thought...

Fang Qiu immediately took out the bamboo roll and began to read and study it.

“Although the ancient techniques are very powerful, they are all origin-based. Southern ancient apes have been considered the earliest human species. No matter how hard modern humans trained their bodies, they could not become as strong as these Southern ancient apes. Whether in terms of speed or strength, modern humans are inferior. However, they remain unbeatable in terms of intelligence.”

“It’s the same with cultivation techniques. This cultivation technique was absolutely top-notch in ancient times, but many more techniques appeared and advanced over thousands of years.” Fang Qiu wanted to adopt their strong points while overcoming their weak points. He wanted to strengthen and improve them based on the ancient guiding technique!

He read the bamboo roll again.

After memorizing every word, Fang Qiu put away the bamboo slips. With his eyes closed, he sat cross-legged and began to deduce carefully in his mind.

Of course...

This deduction was not something he created.

It was challenging to create a cultivation method. Besides, it could not be done in a day or two. Therefore, Fang Qiu tried to make some improvements by comparing the techniques he had learned with this guiding technique and deducing them. He absorbed good things from other techniques and added them to this guiding technique.

From the beginning of the deduction, Fang Qiu was immediately absorbed in it.

Of course...

Fang Qiu’s Divine Consciousness had been covering the surroundings. Once something unexpected happened, he would wake up instantly.

In the blink of an eye...

A day and a night passed.

The next day came.

Fang Qiu had been deducing with his eyes closed. At ten o'clock in the morning, he abruptly opened his eyes and a ray of light shot out from them.

"It's done."

Fang Qiu was pleasantly surprised.

When he did the deducing for a day and a night, Fang Qiu tried all kinds of techniques. In the end, he found this ancient guiding technique was very consistent with the cultivation technique of the Great Hand of Destruction.

The most powerful advantage of the Great Hand of Destruction was that it could quickly attract the surrounding Qi of Heaven and Earth.

He could attract the Qi of Heaven and Earth to the nearby area to speed up the cultivation and absorption process of this ancient guiding technique. Theoretically, the two techniques' critical points could be well combined. The effect should be unexpectedly good.

The deduction was complete.

After perfecting all the details of the technique, Fang Qiu immediately began to try it out.

It was still an hour before noon. Fang Qiu tried and was surprised to find that his absorption speed of the Qi of Heaven and Earth had increased eight times!

“I’ve improved the absorption speed of the Qi of Heaven and Earth at all times. At certain periods, the cultivation effect should be doubled on this basis.”

At this time...

Fang Qiu waited for a while.

At 11 o’clock at noon, he tried again.

With this attempt...

Fang Qiu was surprised when he felt the Qi of Heaven and Earth surrounding him. Initially, the Qi of Heaven and Earth around was not concentrated. As he started running the technique, dense flows of Qi of Heaven and Earth came and poured into Fang Qiu like streams of water.

“As expected!”

“Sixteen times!”

Fang Qiu couldn’t help but be shocked by the remarkable progress.

What did this result mean?

This set of cultivation techniques could accelerate a person’s cultivation speed by sixteen times.

In other words, if a cultivator who used this technique was talented enough to ignore the breakthrough shackles, he only needed one year to reach the realm that others attained within 16 years!

If this news got out...

It could cause a great stir in Wulin!

“Amazing!”

Fang Qiu exclaimed in his heart.

However...

In amazement, Fang Qiu shifted his attention to the time.

“Why would the absorption speed double at midnight and noon?”

In doubt...

Fang Qiu wondered to himself, “Is it related to Chinese Medicine?”

In Chinese Medicine...

The Yin and Yang conversion of the Qi of Heaven and Earth happened at noon and midnight. During these four hours, the Qi of Heaven and Earth would flow at a faster speed than usual. In this case, the cultivation speed also increased.

As for the twenty-four solar terms...

According to Chinese Medicine...

The spine is the largest energy transmission center of the human body. Through the nervous system, it can connect with the viscera. The human spine comprises seven cervical vertebrae, twelve thoracic

vertebrae, and five lumbar vertebrae. In total, there were twenty-four vertebrae, precisely in line with the twenty-four solar terms in a year.

According to the Inner Canon of the Yellow Emperor, the energy of every human organ is under the control of a specific vertebra that corresponded to the twenty-four solar terms of nature.

In addition...

In Chinese Medicine, there is a meditative therapy that corresponded with solar terms. A quarter before the arrival of each solar term, one could begin to sit still, concentrating on the corresponding acupuncture points on the spine for about half an hour.

Sitting still like this could improve fitness, restore health, and so on.

For martial arts practitioners...

During these solar terms, they could replenish their internal Qi!

As such, cultivating during these special periods could produce bigger harvests.

Fang Qiu confirmed the effect of the improved technique.

Then he stood up and took a deep breath. A smile appeared on his face.

Now...

Everything he needed was developing according to his plan.

With Wu Sanqing's help, wooden puppets would be produced. They would be powerful when he equipped them with mysterious jade stones.

Other than puppets, he had obtained this ancient cultivation technique.

All these things...

They were sources of strength for Fang Qiu to fight against the Nirvana Organization!

In the past...

Fang Qiu could only confront the Nirvana Organization alone. Even if he had brothers, he didn't dare to let them fight against the Nirvana Organization. Now, he was much more powerful than before.

This situation made Fang Qiu feel greatly relieved.

Moreover, this was only the beginning. With these achievements as the foundation, it would be easier to accomplish all the goals ahead.

“Beep, beep, beep...”

Suddenly, Fang Qiu's cell phone rang.

He took out his phone and looked at it.

It was a call from He Xue.

“Hello?”

Fang Qiu immediately answered the phone.

“Done.”

He heard He Xue’s voice. “The document has been officially signed. I just heard that a large ancient tomb was found near that mountain. The local government will soon build roads to transport the various artefacts from the tomb and ensure the tomb’s safety.”

“The great tomb is some distance from the mountain we wanted to rent. Luckily, it’s not far away. We can sponsor the road construction and ask them to build the road up to the foot of the mountain. When the road is ready, it will be much easier for us to transport medicinal herbs and other things.”

She finished her report.

Fang Qiu nodded with satisfaction.

Surprisingly, the discovery of this great tomb helped him solve one big problem: the transportation of medicinal herbs.

“Where are you now?”

Fang Qiu asked.

“I’m on my way there.”

He Xue said.

“How about this? Let’s meet in Chenyang County. I’ll find a place and inform you later.”

Fang Qiu said.

“Alright.”

He Xue nodded.

Fang Qiu hung up the phone and returned to the camp. After he said goodbye to Wu Sanqing, he went straight to the county.

Upon arriving at the county, Fang Qiu found a cafe near the high-speed railway station and sent the address to He Xue.

He waited for about half an hour.

Soon, He Xue arrived.

“These are the relevant documents for the formalities.”

As soon as she sat down, He Xue took out all the documents related to the rental of the mountain and handed them over to Fang Qiu.

Fang Qiu read them carefully.

There was no problem. After he confirmed that, he said, “Arrange for some people to prepare the herb seeds. We have many cultivation bases for indigenous medicinal herbs. Cover all the land available with herbs. Don’t worry about whether the planting density is suitable or not. Grow as many herbs as possible.”

“Will Mr. Zhao agree to this?”

He Xue asked with a smile.

“He will agree.”

Fang Qiu smiled and said, "He knows my extraordinary cultivating method. Even if our medicinal herbs are dense, it won't affect their growth, let alone the medicinal property of the herbs. You can tell him what I said if he thinks it's inappropriate. I believe he won't hinder you."

"Well, then I'll tell Mr. Zhao about it. He will check these cultivation bases for indigenous medicinal herbs one by one when our herb cultivation officially starts. He said he would not make any allowances for any improper medicinal herbs!"

He Xue smiled and said.

"There won't be any problems."

Fang Qiu shook his head.

"By the way, have you really found a way to grow herbs quickly?"

He Xue asked curiously.

"Yes."

Fang Qiu nodded affirmatively and said, "Help me contact a mining team. I need them to dig up some stones from that mountain. They can flatten the mountain and make it ready for planting the medicinal herbs."

"Alright."

He Xue began making phone calls.

In just a week...

All the jade in the mountain had been mined, nothing was left behind.

With the completion of the mining of the jade, the mountain was flattened. When the Foundation staff arrived, they sprinkled a lot of the local Chinese medicinal herbs' seeds at places designated by Fang Qiu.

After they left, Fang Qiu took a few pieces of jade and set up a terrain that covered the whole mountain. Very soon, the Qi of Heaven and Earth from around the area gathered at the site.

He sensed this briefly.

“With this concentration of the Qi of Heaven and Earth, these seeds should grow into herbs within a month.”

Fang Qiu nodded with satisfaction. As he breathed a sigh of relief, he turned to look down the mountain.

Next...

He would transport the jade stones to various locations.

It was great that all the jade had been loaded into and filled the huge rented truck.

Medical Master

Chapter 1352: Some People Snatched the Cultivation Bases!

Using the name of the Renyi Group, Fang Qiu had a discussion with the truck owner and rented it on a daily basis.

After they reached an agreement, Fang Qiu sat in the driver's seat, ready to escort the jade and do a cross-country tour.

Before he started, Fang Qiu took out his mobile phone and called He Gaoming.

“The oldest?”

When the phone was connected, He Gaoming’s voice came from the other end of the line.

“I’ve found someone here. Later, I’ll send you his contact information. Find some time to meet and cultivate him.” Fang Qiu said.

“Oh, a new brother?”

He Gaoming grinned and asked, “To what degree do you want me to train him?”

“It’s up to you. Just make him less arrogant.”

Fang Qiu replied with a smile.

“Okay, no problem.”

He Gaoming promised.

There...

Fang Qiu ended the call, put the truck in gear, and drove off. On the road, he keyed in the navigation coordinates on the phone. While the workers mined the jade in the past seven days, he worked out the fastest and most efficient route. He had already set up the whole route on his phone. At this time, he only needed to follow the navigational instructions.

Fang Qiu stopped at each region’s cultivation base for medicinal herbs. With the jade he took from the truck, he built the terrain in each cultivation base.

He returned to the truck and drove away as soon as the terrain was completed.

Just like that...

Twenty days later, Fang Qiu entered the Qilu Province and stopped at Jiaxiang County. Since this place produced indigenous chrysanthemums, he also built a cultivation base for indigenous medicinal herbs here.

After he parked the truck at the base, Fang Qiu asked the staff to prepare a room for him to rest for the night.

After all, he had been on the road for twenty days.

After he got a room...

Fang Qiu rested for an hour. It was getting dark. With a stir of his mind, he quietly left the cultivation base and came to the big mountain near Jiaxiang County.

He Gaoming and the others were in the Zengzi relic that was at this site.

He transformed into John Doe.

Fang Qiu, familiar with this place, went straight into the relic.

Upon entering, he saw everyone practicing conscientiously. Many people were sitting cross-legged in cultivation. Some were concentrating on exchanging moves to stabilize their cultivation bases. The site bustled with martial arts activities.

At a glance...

Everyone had obviously improved.

He took a closer look.

Over there...

Wu Sanqing, fervent and excited, was standing aside and watching the fierce combats between these brothers. He was so agitated that he jumped up and down on the spot. Frantically waving his hand in the air, he looked so eager to have a try.

In the meantime...

Those who were sitting cross-legged and cultivating saw John Doe.

One after another, they turned to look at Fang Qiu.

He Gaoming trotted up and grinned mischievously, "The oldest, why are you here?"

"I'm here to see you guys."

Fang Qiu responded coolly. Then he raised his chin at Wu Sanqing, who was watching the battle eagerly, and asked, "How is the boy's training going?"

"Sanqing?"

He Gaoming chuckled and said, "His father was audacious enough to give him this name. Sanqing means the three highest manifestations of the Dao. With such a great name that has significant meaning, no wonder this guy is so arrogant."

"You know, when this guy first came here, he was excessively ambitious and arrogant. He frequently announced publicly that he would become a guru in three years!"

“Later, we couldn’t stand it anymore. Thus, we made patient and painstaking efforts to give him ethical and practical training. Gradually, this guy started to realize that it was wrong to be so arrogant. Finally, he extended the deadline from three years to five years.”

“We learned that it was almost impossible to change this arrogant guy. Since then, the others began to avoid him. I had no choice but to teach him myself. I can tell this guy seems talented. Under my careful training and guidance, he is now determined to become a guru in twenty years.”

Fang Qiu heard about this impressive progress.

He shook his head and reached out to pat He Gaoming on the shoulder and said, “Good job, and keep trying.”

“Trust me, the oldest.”

He Gaoming confidently patted his chest and said, “Becoming a guru requires at least twenty years, right? If he doesn’t accept that he would become a guru in fifty years, my task won’t be considered as complete.”

Fang Qiu nodded with satisfaction.

Then, he strode forward.

He came to the thatched cottage.

“Clap, clap, clap...”

Fang Qiu suddenly clapped his hands and shouted, “Fall in!”

He issued the order.

These brothers sitting cross-legged in cultivation woke up from their cultivation. One by one, they stepped forward with smiles and stood at attention.

Those who were practicing in pairs also stopped fighting and came over.

“The oldest.”

Everyone greeted Fang Qiu loudly.

“Master, you’re here?”

Wu Sanqing ran up, looked at Fang Qiu excitedly, and asked casually as if he was very familiar with Fang Qiu.

“Master?”

He Gaoming stepped forward to slap him and rebuked harshly, “Didn’t you hear what the others said? Address John Doe as ‘the oldest’!”

“The... the oldest.”

Wu Sanqing helplessly called Fang Qiu, his face a little annoyed. Then he immediately pointed to He Gaoming and said, “I’m going to make a complaint. He abused me!”

As soon as he said that...

All the people present burst into laughter.

He Gaoming raised his hand and slapped Wu Sanqing again. Wu Sanqing was so scared that he attempted to hide behind Fang Qiu.

“I asked him to teach you.”

Fang Qiu looked at Wu Sanqing and said, “Go back to your place. I have something to announce.”

Hearing this, He Gaoming grabbed Wu Sanqing and pulled him away. He made Wu Sanqing stand facing Fang Qiu with the other brothers. They formed into lines like the neat formation in the army.

Wu Sanqing was curious.

“Why was everyone at John Doe’s beck and call? Their eyes lit up when they heard that John Doe had something to announce.

“Could it be that John Doe, the oldest, brought some treasures here again?”

Thinking of this, Wu Sanqing was also looking forward to it.

“Today, I will teach you a guiding technique. It can help you absorb the Qi of Heaven and Earth quickly.”

Fang Qiu spoke up.

Everyone heard his words clearly.

They were all stunned.

“Absorbing the Qi of Heaven and Earth quickly?”

“How fast could it be?”

“The things the oldest passes on to us must be the best.”

“When we cultivate in this relic, our speed in absorbing the Qi of Heaven and Earth is already very high. With the guiding technique from the oldest, I guess our speed will be increased by nearly a third or even half.”

“If that’s the case, that would be great!”

The more they talked, the more excited they became.

“All right, sit down cross-legged. I’ll teach you the guiding technique right now.”

Fang Qiu instructed them to learn.

Everyone immediately did as he said.

Next, Fang Qiu imparted the improved technique to them word by word.

When Fang Qiu was teaching...

These brothers listened and began to try it out.

As a result...

As soon as they put the technique into practice...

Everyone felt as if they were completely immersed in an ocean of Qi of Heaven and Earth. Meanwhile, streams of Qi of Heaven and Earth surged wildly into their bodies like waves in the sea.

The terrifying absorption speed stunned everyone!

Before that...

They had thought their cultivation speed in the ancient ruin was impressive enough. To their surprise, Fang Qiu mentioned the technique that could build up their speed of taking in the Qi of Heaven and Earth. Thus, they estimated that their cultivation speed could rise by one-third or half at most.

Surprisingly, their speed became eight times faster. Who would have thought that?

Everyone was startled to the core by the astonishing improvement.

They were so busy absorbing the Qi of Heaven and Earth that they couldn't think straight.

After a while...

When the Qi of Heaven and Earth filled their bodies, everyone came to their senses and stopped practicing the technique. One after another, they opened their eyes and looked at Fang Qiu. They wanted to say something but were at a loss for words.

It was overly frightening.

It was simply too terrifying.

Everyone marveled at his guiding technique!

“I, fuck!”

He Gaoming jumped up as soon as he woke up and said in great astonishment, “What a sky-rocking and earth-shaking surprise!”

After his exclamation, everyone echoed what he said.

“Too powerful.”

“This technique is simply invincible.”

“I feel I have one foot in the Guru Realm!”

All the brothers were beside themselves with excitement.

“Great.”

Fang Qiu clapped his hands and said, “It’s good you learned it. Yet, you haven’t experienced the best part of this guiding technique. At noon, at midnight, and during the conversion periods between the 24 solar terms, the effect of this technique will be doubled.”

After he revealed this...

Everyone was wide-eyed in mute amazement.

“The incredible speed will be doubled?”

“Then how fast could it be?”

It was beyond their imagination.

“In addition!”

Fang Qiu changed to a highly solemn tone, "This guiding method can help you improve your strength quickly, but I still have to remind you not to be too overwhelmed by your success. After you break through a realm, you must fully stabilize your state before continuing to cultivate with this technique."

"The oldest, please set your heart at rest. I'll keep an eye on them."

He Gaoming immediately promised, patting his chest with confidence.

Apart from Fang Qiu, he was the strongest among them. Thus, everyone was willing to listen to him.

"Mm."

Fang Qiu nodded and added, "This technique is exclusive to us. No one is allowed to tell it to outsiders."

On the spot...

Hearing that, everyone promised that they would guard this secret.

They were not stupid.

Only douchebags would spread the news of such a powerful technique!

"All right. Everyone, continue your cultivation."

Fang Qiu waved his hand.

The brothers immediately dispersed. They couldn't wait to practice intensely by fighting against each other and tried their best to consume the Qi of Heaven and Earth they had just absorbed to the full.

On the other side...

Seeing that everyone's interest had been aroused, Fang Qiu nodded contentedly. After giving He Gaoming a few instructions, he turned around and left the relic.

Back at the cultivation base...

Fang Qiu set up the terrain with jade stones overnight. Then, he sat cross-legged and rested in the room that night.

Early the following day, Fang Qiu continued driving the big truck to the next destination.

"Beep, beep, beep..."

After driving for more than half an hour, Fang Qiu received a call from He Xue.

"Hello?"

The phone was connected.

"Something's wrong."

He Xue's voice spoke, "Some people snatched away many good cultivation bases for indigenous medicinal herbs before us. A lot of such bases were taken."

"Eh?"

Fang Qiu immediately frowned at the news and said, "Make an investigation and find out who did these things. I'm on my way to visit all the cultivation bases we have. Let me know as soon as you find something."

Medical Master

Chapter 1353: Using Us As Tools!

Fang Qiu left Jiaxiang County.

Soon, he arrived at the next province.

Because He Xue had informed the staff beforehand, all the employees in the various sites knew Fang Qiu would be driving the truck across the country. These people had been waiting long before his arrival.

Just like the previous cultivation bases, the one here was made up of two mountains.

Those indigenous medicinal herbs should always be planted and grown in their authentic sites.

Therefore, when these people inspected the leased lands, they would choose the mountains that had the best soil, water source, and environment to grow their herbs. One mountain would be used for artificial planting. Meanwhile, the seeds of the local medicinal herbs would be spread on another mountain for them to grow freely there.

Frankly...

The medicinal herbs that grew freely in the wild were the so-called indigenous medicinal herbs.

However, the output of such medicinal herbs was so low that they could only be planted in passing.

Following his phone navigation, Fang Qiu drove to a small village. At the village entrance, he saw the staff of Renyi Group.

Under the guidance of the staff...

Fang Qiu drove through the village and headed for the rented mountain that was a short distance away. The cultivation base for medicinal herbs on the mountain was almost completed. The cultivation had begun.

However, the seeds of the wild medicinal herbs had not been sowed yet.

They arrived at the foot of the mountain.

A yellow muddy road had been cleared. Thus, his truck could go directly into the cultivation base with the medicinal herbs. But at the foot of the mountain, the road was blocked by a group of locals.

In the driver's seat...

Fang Qiu could clearly see that this group was made up of more than 20 people. Half of them stood in the middle of the road, and a dozen were on both sides. Strangely, they held items like sticks, clubs, or bricks. They didn't look like ordinary villagers but more like gangsters in the village.

When Fang Qiu saw so many people, he immediately got out of the truck. These Renyi Group members were about to go forward, but he asked them to stay behind him. Then, alone, he went up to these people.

"What are you doing here?"

Walking up to the group, Fang Qiu asked.

"What are you doing here?"

The leader who held a wooden stick as thick as an arm walked out from the crowd. Without saying a word, he raised the stick and pointed it at Fang Qiu's head, and asked in a menacing tone.

"The Three Billion Foundation and the Renyi Group sent us to grow herbs on the mountain. Please make way for us."

Fang Qiu spoke up.

“Hee, hee-hee.”

Opposite him, more than 20 people heard this. Immediately, they looked at each other and burst out laughing.

At the sight of this...

Fang Qiu knew this group was here to make trouble.

He wore no mask or hat now. Since they came here to block his way, someone must know who he was. How could they pretend not to know him?

“That’s right.”

The leader stepped forward and inserted the wooden stick into the ground. Holding the handle of the stick with both hands, he acted like a ringleader with his brash attitude. Then he threatened Fang Qiu with a sneer, “We are here to stop you. Listen carefully: you are in our territory and mountain. I don’t care who you are. No one is allowed to go up there when I am here!”

As soon as Fang Qiu heard that...

He turned around and looked at the staff sent by Renyi Group.

“This, this was an uncultivated mountain.”

An employee quickly ran up and took out a leasing contract from his briefcase. When he handed it to Fang Qiu, he said, “Look, we have signed the contract.”

Fang Qiu took it and had a look.

Sure enough...

This was a 70-year contract, that had been signed and sealed by the government!

“Did you hear that?”

After he read the contract, Fang Qiu looked up at the gang before him. Then, he raised the contract in his hand, and said, “If you didn’t hear it, take a closer look.”

“I can’t see it.”

The leader sneered disdainfully. As he reached out his hand to get it from Fang Qiu, he said, “Give it to me. Let me check through it carefully. Who dares to rent out our mountain?”

Fang Qiu was certainly not afraid of him.

He handed the contract to him without hesitation.

As a result...

The man just casually flipped through two pages. It was evident that he didn’t know how to read the contract at all. Afterward, he waved his hands and said, “What is this bullshit? It’s all forged!”

As he spoke, he was about to tear up the contract.

Quick as a flash...

Fang Qiu put out his right hand and grabbed the man’s right arm, his fingers exerting some force.

“Ah!”

A scream rang out.

Before the man could tear up the contract, he instantly loosened his grip on it because of the sharp pain in his wrist.

Fang Qiu had just gripped him in that manner.

He stretched out his left hand, took the contract from the man, and gave it back to the employee near him.

In the meantime...

“Boom...”

There was a roar of an engine.

They looked over.

A small and rather beat-up van drove over at full speed and stopped by the roadside.

“What? What are you doing?”

A sturdy middle-aged man jumped out of the van, walked up quickly, and said to the gang, “What the hell are you doing here?”

As he said that...

He turned to look back.

All of a sudden, he trembled.

“Fang, Fang Qiu?”

The middle-aged man asked in great surprise.

“Yes, I’m Fang Qiu.”

Fang Qiu nodded and asked, “Who are you?”

“I’m the Village Chief here. My surname is Dong.”

The middle-aged man quickly replied with a smile, “I didn’t know that you were coming. Why didn’t you tell us you were coming in person to our village? I would have sent a guide for you.”

“What’s going on?”

Fang Qiu asked as he pointed to the group of 20 people in front of him.

“I don’t know either.”

Village Chief Dong smiled wryly and gestured at the mountain, and said, “The two mountains had been left uncultivated for a long time, and no one managed them. These people like to hunt wild animals in the mountains. Since you have rented the mountains, they will be closed to them. But these people can’t accept the change.”

“Humph.”

As soon as Village Chief Dong finished speaking, the gang leader on the other side snorted. He squinted at Fang Qiu and shouted, "You can go into the mountain. Give us five hundred thousand yuan and we'll consider the matter closed."

Fang Qiu frowned immediately.

"Blackmail?"

"These hooligans must be severely punished!"

Taking out his phone, Fang Qiu called the police without wasting any time.

When the gang leader saw this...

He immediately became anxious and reached over to grab Fang Qiu's phone.

However...

"Pa!"

Before he could touch Fang Qiu's phone, Fang Qiu raised his right foot and kicked him to the ground.

"Damn it, how dare you to touch me?"

The man was furious. He hurriedly stood up, waved his hand, and said, "Beat him up!"

In a flash...

Over 20 people rushed up with wooden sticks, ready to attack Fang Qiu.

“Call the police.”

Fang Qiu turned his head and said to the worker. He then rolled up his sleeves and walked up to the gang of more than 20 people with a cold expression.

Behind him...

The worker hastened to call the police in a panic.

The next moment...

“Clap, clap, clap...”

Sounds of people being beaten up echoed all around.

After a short while...

Fang Qiu knocked down more than 20 people.

This scene was not something they could see every day.

Village Chief Dong, who stood next to them, was stunned.

Only then did the staff of Renyi Group realize how powerful Fang Qiu was — he alone flattened more than 20 rogues.

Of course...

When he dealt with these gangsters, Fang Qiu didn't use internal Qi. He knocked these people to the ground with some martial arts skills and rendered them totally weak. They could not retaliate against him.

The fight was over, and the police were called.

Not long after...

After the emergency call...

Some police officers from the local police station arrived.

"Village Chief Dong, you're here too?"

When the police came over, they first greeted Village Chief Dong. Then they turned to Fang Qiu and the group of gangsters.

They were startled when they saw Fang Qiu.

But right at this moment...

"He hit us."

The gang leader who was lying on the ground suddenly got up and clasped a police officer's feet with both hands. He then pointed at Fang Qiu and said, "He beat us up; he struck us all, look at how badly we've been beaten!"

The police officers weighed up the situation.

Before them were all these injured people lying on the ground.

Fang Qiu and the others were still standing.

It seemed that it was really Fang Qiu who did it.

“Get up, all of you!”

The police officers glared at these gangsters and said, “Do you think I don’t know who you are? Humph, take them all back to the police station.”

After that, he pointed to Fang Qiu and the others and added, “Including them!”

“I’ll make a call.”

Fang Qiu knew this matter would be tricky. He instantly took out his phone to call He Xue. Then he told her what had happened.

After He Xue heard the whole story...

She immediately called the town government.

The contract had been signed with the town authorities. What mattered most here was that it was a contract to attract investment. The town government was eager for them to invest and build factories here.

As a result, as soon as the government heard this, they panicked.

Before long...

Near them, the police captain’s phone rang.

It was a call from the town government.

The call was connected.

The police captain's face changed. As he glanced at the ruffians who had been severely beaten up, his face suddenly darkened.

“How bold they were that they thought they could blackmail and extort money from them?”

He hung up the phone.

The police captain pointed directly at the leader of the gang and ranted at them, “They worked so hard to help us to have a more comfortable life, but you came here and blocked their way and even wanted to extort money from them. This is a crime, and each of you will be sentenced to no less than three years!”

After his words...

Those people were terribly frightened.

They didn't expect that their obstruction of the group would cause such big trouble. Would they be thrown in jail?

“We're innocent. Someone incited us to make trouble. We didn't do it on our own.”

In a panic, the gang leader got up and poured out their grievances.

“Who put you up to this?”

When he heard that, Fang Qiu asked.

“I don’t know.”

The ruffian leader said bitterly, “A few days ago, someone gave me some money. The money was left at the threshold of my house, so I didn’t see anyone. Anyway, I received 1,000 yuan every day for ten days. Under the money was a note with instructions to stir up trouble. If I did this, whether it worked or not, I would get 50,000 yuan. It was a large sum for me. That is why I did this.”

After he revealed this...

The twenty or so people who were with him fumed with anger.

“What the fuck!”

“Damn it, does he think we’re fools?”

“Why didn’t you tell us you were getting paid for this?”

“Using us as tools? I’ll beat you to death, you bastard!”

Everyone was enraged.

More than 20 people immediately rushed forward and besieged the gang leader.

When the police saw this...

They hurried forward to stop them for fear of any fatalities.

But even so, it took them a long time to pull these people away.

Medical Master

Chapter 1354: Take Action! Snipe at Stocks!

“Take all of them back to the police station.”

After he rounded up all the people, the police captain asked the people around to help contain this gang of about 20 people. Then he called the police station and asked for backup. Soon two escort cars came over and took all the people back to the police station.

Because of the call from the town government, Fang Qiu did not encounter any problems. The police officers did not take him back to the police station. Instead, they told him to call the police station should he encounter such a problem in the future, and they would come and deal with it immediately.

After all, this was an investment promotion project. It was the engine to promote the economic development of the whole town.

After the police left...

Fang Qiu drove up the mountain.

“Some people seem to have been busy trying to make trouble for me. My opponents couldn’t compete with me on the big picture. Thus, they chose to play dirty tricks on me. They never showed up. It seems they are very cautious!”

Fang Qiu murmured with a frown as he drove.

Obviously...

Their little tricks were much more secretive than before. As a result, Fang Qiu didn’t even know who gave these gangsters the money this time. It would take some time to investigate it.

They arrived at the mountain.

Fang Qiu took out the jade from the truck. Quickly, he set up a terrain over the entire cultivation base of indigenous medicinal herbs. It covered the artificial medicinal herbs and even all the wild medicinal herbs that were scattered outside.

He soon finished his task.

Fang Qiu didn't stay any longer and drove straight to the next cultivation base of indigenous medicinal herbs.

After he drove for nearly ten hours, Fang Qiu came to another cultivation base of indigenous medicinal herbs.

As a result...

At the foot of the mountain where the base was located...

Once again, some rogues came and blocked Fang Qiu's way.

This time, Fang Qiu didn't bother to reason with them anymore. Instead, he directly faced the leader and said, "At the last place, the police helped me to round up 20 gangsters who blocked my way. They would be charged with extortion. The police said each would be sentenced to at least three years in prison. And the situation here seems to be the same. The leader received some money and gathered a group to stop me. It turned out those followers didn't know that their leader had been paid. Have you even told your guys that you received some money?"

When they heard that they would be sentenced to three years in prison...

Some who blocked the way were a little flustered.

They were just here to scare Fang Qiu. To their surprise, they would spend three years in prison merely because they held up someone on the road. In their eyes, the mountain belonged to them. It was reasonable for them to charge Fang Qiu some money. How could it be considered extortion?

However...

As everyone knew, Fang Qiu rented the mountain from the government. Since he had paid for it, they should ask the government instead of Fang Qiu for the money if they wanted money,

Therefore, they had nothing to argue about if they were convicted of extortion and blackmail.

Sure enough...

A three-year sentence for extortion would not scare away these ruffians. But their faces suddenly changed when Fang Qiu said their leader had received some money for this. In unison, they looked at their leader questioningly.

The head of this gang still wanted to deny it, but Fang Qiu asked, "Did someone put some money at your doorstep? Was there a note under the money that asked you to make trouble? All these facts were revealed at the last place I visited. The police will be here soon. It would be easy for them to find out whether you have received the money."

After he said all of this...

The leader of the pack hesitated.

Those guys who were with him heard everything. To their dismay and surprise, their leader had secretly taken some money. At this time, they knew they had been fooled.

In a fit of anger...

The 20 to 30 people were so pissed off that they threw away the thick sticks in their hands. After they glared at their leader, they declared they were completely finished with him. Then, they all turned around and left.

After that, Fang Qiu went to the next place.

He encountered a similar situation again, and the anger in his heart increased.

That group of people...

They steadfastly refused to give up their sinister designs!

It didn't happen in only one or two places. A group of bastards would emerge before he arrived at every destination. Although they didn't cause any substantial harm, it was really annoying. If someone who had ulterior motives posted this matter online, others would criticize the Three Billion Foundation and Renyi Group for forcibly taking over the land.

He was outraged. Yet, it was difficult to find any clues in a short time because their rivals sabotaged their plans secretly and cautiously.

Helplessly...

Fang Qiu could only suppress the anger in his heart, proceeded with his drive, and visited these cultivation bases one by one.

As a result, he came across the same situation everywhere he went.

The flames of anger grew in his heart, though he had been trying to suppress them. But gradually, Fang Qiu figured out something: the more people came to block him, the more likely his enemy would be exposed. Therefore, he continued to endure it and waited for his enemy to be exposed!

Ten days later...

Fang Qiu finally returned to the cultivation base.

It took Fang Qiu over a month to finish setting up all his cultivation bases of indigenous medicinal herbs across the country.

As soon as he returned to his office, He Xue came over.

“Here you are.”

Walking into Fang Qiu’s office, He Xue handed him a file bag and said, “This is the information about the mastermind who tried to snatch the cultivation bases of indigenous medicinal herbs from us.”

He opened it and took a look.

The folder contained a stack of investigation materials.

Fang Qiu checked these documents one by one. During the process, Fang Qiu found that all the information gained from the investigation pointed to one company. It was called the Shenglong Company.

The Shenglong Company was one of the top companies in Huaxia.

After he went through the investigation report...

Fang Qiu could see why the Shenglong Company went against him. It seemed that they were establishing more bases for fresh goods, but it did not seem to be the true picture.

After he went through the investigation information, Fang Qiu learned that the Shenglong Company was involved in the real estate business in Zhongzhou Province. Moreover, their competitor in Zhongzhou Province was a real estate company named Four Seasons Real Estate.

He checked through the information in detail.

He noticed the name of one of the major shareholders behind this real estate company known as the Four Seasons Real Estate. It was none other than the Kangtai Pharmaceutical Group. It was one of the best in the Chinese Medicine industry!

“Humph.”

After he read through it, Fang Qiu couldn’t help sneering and said, “Just as I had expected, they popped up and tried to stir up trouble again. Many people tried to stop and disrupt the normal operation of our cultivation bases. Have you found out who is plotting sinister strategies behind the scenes?”

“We’re still investigating.”

He Xue shook her head and said, “There is no solid evidence pointing to one party.”

“Mm.”

Fang Qiu nodded.

“What should we do next?”

He Xue looked at Fang Qiu and asked, “Are you going to expose the Kangtai Pharmaceutical Group?”

Fang Qiu raised his eyebrows, fell silent for a moment, and said, “No. This time, we won’t expose them.”

“Then what should we do?”

He Xue asked.

“Let’s target their stocks and purchase it this time!”

Fang Qiu narrowed his eyes and said, “Since we want to produce traditional Chinese medicine, we need to process the medicine. Now we are short of a pharmaceutical company. Since the company delivered itself to us, we can just take advantage of it. And this time, I want to give all of them a warning!”

“I want them to know that even if I don’t expose them, I have the means to destroy them!”

On the spot...

He Xue’s eyes lit up.

“Alright.”

“I’ll contact Yang Ningyuan and Li Qihua immediately to launch an attack against the Kangtai Pharmaceutical Group.”

After that...

He Xue quickly turned around. After she left Fang Qiu’s office, she took out her phone and started to make calls.

When it came to the cultivation of medicinal herbs, she might not have any commendable capability. However, He Xue’s combat capability in business was beyond doubt. When she teamed up with Yang Ningyuan and Li Qihua, the two business tycoons, wouldn’t it be a piece of cake for them to take down a company’s stock?

Soon, they got in touch.

He Xue, Yang Ningyuan, and Li Qihua took action together.

After Fang Qiu's revelation of the truth, the stock prices of all the pharmaceutical companies in the country had gone into a steady decline. Even a first-tier super-large group like the Kangtai Pharmaceutical Group couldn't stop this trend of decline.

However...

When He Xue, Yang Ningyuan, and Li Qihua went to work, the stock price of Kangtai Pharmaceutical Group began to rise.

This was the only time it had risen after a long decline.

Of course...

They found some operators. Since the stock price had been steadily falling, they soon obtained a large number of shares from the Kangtai Pharmaceutical Group. After all, because of Fang Qiu's revelation, no one dared to buy pharmaceutical stocks anymore. Many people wanted to sell them. In this way, the shares naturally fell into the hands of He Xue, Yang Ningyuan, and Li Qihua.

He Xue could have done it alone. However, if their opponent discovered the truth early, they would not be able to buy enough shares. To prevent such a situation, the three of them had to do it together.

The trend turned from a decline to an increase.

Soon, the sudden change was reported to the chairman of Kangtai Pharmaceutical Group.

"What's going on?"

Sitting in the office, Li Kangtai, the chairman of Kangtai Pharmaceutical Group, asked in a daze after he heard his subordinate's report, "The situation of the whole industry is declining day by day. How can the shareholders still be optimistic about our group?"

“I haven’t yet figured out what happened.”

The subordinate who came to report hurriedly replied.

“You have no idea about it?”

Li Kangtai frowned and couldn’t help but feel uneasy. The first thing that came to his mind was the Three Billion Foundation and Fang Qiu.

He feared that they would discover what he had been doing secretly. When the abnormal fluctuation of his group’s stock price appeared, he was worried that Fang Qiu and the Foundation caused it.

“Is it possible that some people are maliciously targeting our stock?”

Li Kangtai asked.

“I’ll go and check it out right away.”

When the subordinate heard this, he was shocked. After saying that, he immediately went to investigate.

In fact...

There was no need for him to look into the matter.

Under He Xue, Yang Ningyuan, and Li Qihua’s combined efforts, the stock price of Kangtai Pharmaceutical Group reached the ceiling price that day. They briefly checked these accounts that bought all the stocks so crazily and found they were all from the Renyi Group.

This result made Li Kangtai break out in a cold sweat.

There was nothing he could do.

He had a guilty conscience.

At first, he thought he had managed to do everything secretly without anyone noticing. Little did he think that Fang Qiu would discover the truth so quickly.

And the Renyi Group had targeted him!

At this time...

Li Kangtai soon made a decision. As soon as the stock market opened the next day, he would do his best to prop up his company's shares to prevent the Renyi Group from purchasing too many stocks.

The next day...

The stock market had just opened.

A large number of them were sold at a low price. Seeing this situation, Li Kangtai immediately asked some people to buy the shares quickly for fear that the Renyi Group would take them first.

While rushing to buy low-priced shares, Li Kangtai ordered the group to announce that it would spend at least 300 million yuan to save the market!

Medical Master

Chapter 1355: Fang Qiu, Versed in Both Literature and Military Affairs

Three hundred million yuan...

It sounded like a colossal sum of money.

But it was merely a drop in the bucket for such a first-tier group.

Because the group's stock price had been in a long period of decline, the shareholders of Kangtai Pharmaceutical Group had not been able to bear it long before. Many of them wanted to sell their shares as soon as possible.

Yesterday, a large number of shares were sold. The trend made everyone even more eager to sell them. The shareholders were not fools. They all knew the sudden rise of the stock price was likely to be a cover-up done by the company group. By doing this, it intended to keep the shareholders.

Then why would the group do this?

Something big must be about to happen. They had to calm down the shareholders!

With this in their minds...

Even though they saw the stock price rising, the shareholders had no intention of waiting for it to continue going up. One after another, they quickly sold their shares, more anxiously than yesterday.

Some shareholders were determined to stick to the end. But when they saw this abnormal situation, they chose to sell their stocks quickly when the stock price rose slightly.

On the other side...

He Xue, Yang Ningyuan, and Li Qihua had already been fully prepared. The moment the stock market opened, they immediately began frantically buying the shares of Kangtai Pharmaceutical Group.

The three of them took action together.

They bought shares at lightning speed.

Over there...

As the chairman of Kangtai Pharmaceutical Group, Li Kangtai paid special attention to the acquisition of stocks. Even though he was sitting in the office, he monitored the stock trading platform and concentrated on the stock situation of his company.

Soon...

Because of the large-scale acquisition, the stock price of Kangtai Pharmaceutical Group soon soared again.

Three minutes after the stock price hit the daily upper price limit...

The manager in charge of the stock acquisition department came to Li Kangtai's office.

"You've managed to retrieve them all, right?"

Li Kangtai looked less nervous than yesterday. After a sigh of relief, he asked.

"Chairman, they were too fast."

The manager said seriously, "According to my analysis, the other party had at least three teams operating simultaneously. We have tried our best, but did not manage to buy many."

"What?"

Ling Kangtai was stunned at first, but he immediately shot up from his seat and asked, "What did you say?"

“Most of the odd-lot stocks have been taken away.”

The person in charge said, “According to the current situation, they have taken in at least 8% of the shares of our group.”

“Damn it!”

Hearing this, Li Kangtai immediately panicked. He quickly took out his phone, frantically calling the other board members. He must tell them not to transfer the shares in their hands.

In the meantime...

He Xue was already sitting with the three shareholders of Kangtai Pharmaceutical Group and sipping tea.

“I was surprised. Why could the Renyi Group be interested in our Kangtai Pharmaceutical Group?”

With a smile, one shareholder looked at He Xue and said, “The current market of Chinese Medicine is not good, and the stock prices continue to fall. But it is a crisis for the whole industry. As long as this period passes, the Kangtai Pharmaceutical Group will be the first to recover. Its future will be promising.”

“That’s right.”

“This is not a dead end, but you came to talk about the shares transfer with us now. Isn’t your Renyi Group too anxious?”

The other two shareholders also burst out laughing.

“Do you think we are in a hurry?”

He Xue smiled indifferently. Then she took out a document from the folder she carried with her. After placing it before the three shareholders, she gestured for them to take a look.

Looking at each other, the three of them curiously opened the folder and started reviewing it.

As a result...

After they checked it...

Their faces instantly changed.

Much to their surprise, this document contained evidence of the Kangtai Pharmaceutical Group framing the Foundation back then!

“Everyone, are you going to sink with Li Kangtai? Or do you want to jump off the ship with a lifebuoy now?”

He Xue asked.

Their faces darkened, and they fell silent. No one spoke.

He Xue was not in a hurry. She sat there leisurely and waited.

After a while...

“In the past two days, our group’s stock price rose. Were you behind this sudden change?”

One of them asked.

“Sure.”

He Xue nodded affirmatively and said, "At present, we have bought 8% of the shares in the market. According to my investigation, the three of you and Li Kangtai make up the Kangtai Pharmaceutical Group's board. Li Kangtai holds 42% of the shares, while each of you holds 11%. There is 15% of the shares in the market. We now have three teams operating at the same time. Do you think we will lose to Li Kangtai?"

The three shareholders heard what she said.

They knew the other party must have thoroughly investigated their group. Evidently, the Renyi Group were determined to bring their group down. If they did not jump off the sinking ship now, there would not be another chance for them.

"I'll sell mine."

One shareholder thought it through and immediately said, "I can transfer all my shares to you."

"Me too."

"I'll do it too."

The three shareholders decisively chose to jump off the ship.

"Nice to cooperate with you."

He Xue had prepared the stock transfer agreements long beforehand. At this time, she took them out and signed them with the three shareholders.

She obtained their shares.

Before this, she had bought 8% of the shares.

He Xue held a total of 41% of the shares of the Kangtai Pharmaceutical Group, which was a little less than 42% in Li Kangtai's hands.

After she finished her calculations...

He Xue immediately made a phone call.

Under her instruction, the traders continued to attack while Yang Ningyuan and Li Qihua cooperated with them aside.

In this situation...

The stock price of the Kangtai Pharmaceutical Group immediately fluctuated wildly.

Somehow, the stock price suddenly plummeted.

There...

Li Kangtai found that the matter had turned severe. Hurriedly, he wanted to take out some money to maintain the stock price. It turned out that he couldn't afford it at all. In the past few days, the stock price had been declining daily. He had spent a lot of money propping up the share price. Otherwise, he wouldn't have held on to so many shares.

He had no choice but to watch the stock price fall.

This time...

Everyone could tell that something was wrong.

The stock price suddenly rose before falling sharply. It was obvious that the shares of the Kangtai Pharmaceutical Group were under attack. Who did it?

Everyone in the Chinese Medicine industry was confused.

On the Internet...

A video soon went viral...

The footage of the video was very clear. The chief party in the video was Fang Qiu. He rolled up his sleeves and challenged more than 20 people on his own. Soon, he knocked down all of them.

As soon as the video came out...

It immediately attracted a lot of attention on Weibo.

Countless netizens flocked over to give their comments and ask questions.

“Blogger, tell us this is not true!”

“What the fuck, Fang Qiu went to shoot a movie again?”

“Is this true? Can Fang Qiu be so awesome?”

“That act of rolling up the sleeves is simply too striking. This bunch of ruffians truly deserved to be beaten up. I can tell they were up to no good at a glance.”

“Is Fang Qiu a real master?”

“Badass, Legendary Fang Qiu deserves the reputation he enjoys.”

Soon...

While everyone was asking, the vlogger who had released this video reposted it and added, "It's true. It happened near a cultivation base for medicinal herbs rented by the Renyi Group. Before this, the Renyi Group and the Three Billion Foundation had rented this medicinal herb cultivation base jointly. However, these local gangsters emerged and tried to hinder and blackmail their workers. Before the police arrived, they came to blows. But these 20 or so rogues were surprisingly weak. They were all beaten up by Fang Qiu alone. The funniest part is that after the police arrived, they complained tearfully to the police officers that Fang Qiu gave them a sound beating. In the end, the police took away more than 20 hooligans!"

When these netizens saw this narration...

They gasped in admiration.

"Mighty police officers. Those gangsters should be taught a good lesson!"

"Legendary Fang Qiu is superb. He is endowed with civil and martial virtues!"

"Rogues: Sir, we didn't hit him. He alone beat more than 20 of us black and blue!"

For a moment...

All kinds of jokes emerged one after another that were a great source of amusement to those netizens.

Meanwhile...

Somewhere...

In the splendid hotel...

“Woo, hoo.”

A young man with long silver hair and an extremely coquettish appearance was reclining elegantly on the sofa. If he entered the entertainment circle, he could take the shine off all the young, delicate-featured, makeup-clad male stars. From the tablet computer in his hand, he watched the video of Fang Qiu smashing 20 gangsters. He smiled gently, turned off the tablet, and murmured, “I didn’t expect this little miracle-working doctor to be a martial arts practitioner. But from his kicks and beats, I must say he is only a layman.”

As he spoke...

A mature knowing look flashed across this seemingly very young man’s eyes.

“How about recruiting him?”

The young man asked.

“Report to Crowning Lord.”

In front of him, a middle-aged man in a steward’s uniform immediately cupped his hands and bowed, saying, “It’s very difficult. This man’s philosophy is to benefit the world, and we aim to save people. They sound similar but are way different.”

“It’s fine.”

The young man called Crowning Lord nodded understandingly. Then he threw the tablet aside and said, “It doesn’t matter whether we recruit him. Is there any news about John Doe?”

“No.”

The steward answered promptly.

“Mm.”

The Crowning Lord nodded, waved his hand, and said, “Continue the investigation!”

Here...

Bosses of pharmaceutical companies also noticed the abnormal fluctuation of Kangtai Pharmaceutical Group’s stock price. After they saw the video of Fang Qiu fighting against 20 people alone, they immediately connected this matter with the stock price.

“Could the Kangtai Pharmaceutical Group be so stupid that they played sinister tricks against and provoked Fang Qiu to fight back?”

Just when all the bosses were confused...

All of a sudden...

A beeping WeChat notification sounded.

These bosses turned on their phones and took a look.

To their surprise, Li Kangtai, the boss of Kangtai Pharmaceutical Group, added everyone to a new WeChat group.

“Chairman Li, we have seen the video of Fang Qiu beating up people. Don’t tell us you were the one behind this.”

“The share price of Kangtai Pharmaceutical Group has always been the most stable among all the prices of our companies. However, the prices have been undergoing strange changes in the past two

days. I'm afraid you must have done something that caused such a bizarre fluctuation. Right, Chairman Li?"

"How dare you provoke Fang Qiu again?"

"What the hell is going on?"

Everyone began to ask if he was behind the incident in the video.

"It's not me!"

Li Kangtai denied it.

"Impossible. If you did not do anything, how could your company's stock price fluctuate so sharply?"

"That's right. We're all fine. Why did something happen to you?"

No one believed him.

"I swear I didn't do it."

Li Kangtai felt incomparably bitter when facing these bosses in the group. In his heart, he couldn't help crying for being wronged because he indeed didn't do it!

Medical Master

Chapter 1356: Held a Board Meeting, The Group Changed Hands!

Li Kangtai felt depressed.

He was not the mastermind behind the conflict in the video. After Fang Qiu warned them the last time, how could he have the guts to play tricks behind Fang Qiu's back?

This time, he just urged others to buy the land, and the other party happened to need some cultivation bases for fruit trees. Then, his suggestion was accepted.

In Li Kangtai's eyes, it was not a dirty trick. It was in line with normal market competition.

"Why would Fang Qiu target you if it were not you?"

"Absolutely. If you did not take the initiative to provoke Fang Qiu, Fang Qiu won't go against you!"

"Don't you remember Fang Qiu asked Yang Ningyuan to send us a reminder after the four companies were exposed? He wouldn't target us if we didn't play tricks behind his back. Your situation is not simple. If Fang Qiu caused the abnormal fluctuation of your stock price, you must have done something serious. You made Fang Qiu directly attack your company. I have to say that I admire your courage!"

In the WeChat group, the bosses spoke one after another.

They all knew Li Kangtai must have done something fishy. Otherwise, Fang Qiu would not have targeted him. Under the current macro-environment of the traditional Chinese medicine market, only one Chinese Medicine group could crush him: the Renyi Group. Besides, the Renyi Group had already announced its cooperation with Fang Qiu's Three Billion Foundation. From this point of view, the one targeting the Kangtai Pharmaceutical Group was self-evident.

"But I really didn't do anything."

Li Kangtai quickly replied in the WeChat group, "A friend of mine wanted to buy some tracts of land on a national scale. Back then, I checked it and found Fang Qiu hadn't yet obtained the cultivation bases for medicinal herbs in several places. Then, I asked my friend to buy the few pieces of land selected by Fang Qiu. But this is reasonable market competition that is unrelated to the traditional Chinese medicine industry. I really didn't participate in the extortion in the online video!"

After he revealed this...

All the leaders of Chinese Medicine companies in the WeChat group were confused.

“Surely you can find some information. Was it Fang Qiu who targeted your company’s stocks?”

A boss asked.

“I don’t know.”

Li Kangtai smiled wryly and said, “According to my men’s survey, three groups of people are bidding for my company’s stocks. According to the information from the three teams of operators, the teams should be led by He Xue, Yang Ningyuan, and Li Qihua of the Renyi Group.”

“What?”

“The three of them?”

“Damn it. These three people are all business elites. It’s challenging for ordinary people to deal with one, let alone the three capable people working together.”

“To put it bluntly, these three people are the backbone of the Renyi Group. Except for the mysterious chairman, the three people contributed the most to the success of the Renyi Group. You may have a chance to get away with it if you provoked one of them, but how did you offend all three of them?”

“It seems to be the case. It should be Fang Qiu!”

“With the capabilities of Renyi Group, it is not worth the trouble if the group wants your company. If it takes a fancy to your company, it can openly buy it. Since they have chosen to target your stocks, you must have provoked them!”

“But since you did nothing to provoke them, why would they target your company’s shares?”

There was a commotion in the WeChat group.

“I don’t know either.”

Li Kangtai was anxious.

He was very clear about the Kangtai Pharmaceutical Group’s strengths. It was one of the top three companies in the domestic Chinese Medicine industry. Few other Chinese Medicine companies could match its power. However, it could not compare with the Renyi Group.

The Renyi Group could reap hundreds and thousands of billion yuan a year, while the Kangtai Pharmaceutical Group could only earn several hundred million yuan a year.

The Renyi Group and the Three Billion Foundation attacked his company in unison — they were unshakeable in their determination to swallow up his Kangtai Pharmaceutical Group!

What else could he do?

“Everyone, I’ve helped you a lot over the years. Now I’m facing a crisis. Could you guys help me out here? Please help me get through this difficult period. I’ll bear your great kindness in mind. As long as I can survive this crisis, it is of course my unshirkable duty to assist you in the future!”

A highly anxious Li Kangtai, quickly sent a message, saying, “Their unexpected activity will cause those shareholders to be flustered. We can’t stop them today. They would likely have been scared away by tomorrow. At that time, there is a strong possibility that my company’s shareholders will dump their shares at low prices. If they purchase these stocks, I will be finished!”

“Everyone, please help me!”

Li Kangtai begged, trying desperately to convey how urgent the situation was.

In the WeChat group...

When they saw Li Kangtai's desperate plea for help, all the bosses of the traditional Chinese medicine companies shook their heads and sighed.

“Chairman Li, it's not that we don't want to help you.”

One of them said, “We can hardly protect ourselves now. In this case, we can't afford to offend the Renyi Group. You know we are all small-scale companies. We are like an egg trying to crush a stone when we go against the Renyi Group.”

“That's right. This matter is difficult to manage.”

“Once we join the battle, Fang Qiu may turn on us. At that time, won't we be doomed as well?”

Everyone shook their heads.

They didn't dare to help.

“This is something out of the ordinary. You have to help even if you dare not.”

Li Kangtai hurriedly said, “I suspect that Fang Qiu and the Renyi Group cooked up this sinister conspiracy against us after they teamed up. Otherwise, why would he attack my shares when I didn't do anything to them? Their ultimate purpose is to acquire all our companies. Think about it carefully. If they happily acquired my company, will they be willing to stop at that?”

“No, it won't!”

“If they suffer some setbacks, they might become even more avaricious! How could you foolishly think they would stop?”

“Think about yourselves. After Fang Qiu and the Renyi Group acquire my Kangtai Pharmaceutical Group, they will be stronger. At that time, it will only be a matter of time before they eat you up.”

“Most importantly, Fang Qiu still has evidence against you!”

As soon as these words came out...

In the WeChat group, everyone fell silent.

What Li Kangtai said did make some sense.

From the beginning, they were afraid of Fang Qiu. They wanted to stop Fang Qiu from entering the traditional Chinese medicine industry and occupying their market. To prevent that from happening, they all targeted Fang Qiu.

Now, Fang Qiu had entered the market.

They knew what Li Kangtai meant. If he had not played any tricks behind Fang Qiu's back to provoke him, then the Renyi Group must have targeted the Kangtai Pharmaceutical Group's stock for a purpose essential to them. The Renyi Group would likely take the opportunity to occupy the entire Chinese Medicine market with Fang Qiu forcibly.

The Kangtai Pharmaceutical Group was one of the top three pharmaceutical companies in the country. If the Renyi Group were to swallow up the Kangtai Pharmaceutical Group, how could these smaller companies survive?

Even if Fang Qiu let them go, they could only drag out an ignoble existence!

However...

There was nothing they could do now.

It was because they feared Fang Qiu would act on impulse and crazily sacrifice all parties' interests. He might not dare to do so in the past, but the situation was completely different now. Fang Qiu had smashed four companies. Now, the general public was aware that this was a big conspiracy. Even if suppressed by the government, Fang Qiu might frantically declare war on all of them regardless of the dire consequences. At that time, even the government couldn't protect them. Public opinion would place unendurable strain on them and even make them go bankrupt in a short time!

Now, they were the ones who were truly afraid!

"Everyone."

Seeing that there was some hope, Li Kangtai quickly continued, "Can the eggs remain unbroken when the nest is ruined? Of course, I am not a nest in the Chinese Medicine industry. However, a single spark can start a prairie fire. This little problem of mine can develop into a big disaster for all of you."

"I won't ask for too much. It's fine if you don't dare to take action, but can you lend me some money? At least let me prop up my stock price!"

"I won't make it difficult for you. I'll talk to you in private one by one. I just hope you are able to lend me some money!"

After that...

Li Kangtai immediately began to chat privately with each of them, ready to borrow as much money as he could.

But right at this moment...

"Crack."

The door opened, and a figure rushed into the office, shouting at Li Kangtai in panic, "Chairman, something is seriously wrong. He Xue, the representative of the stockholders of Renyi Group, called our company. She asked that we hold a board meeting to select a new chairman!"

"What?"

Li Kangtai's face changed drastically, and he quickly called the other three shareholders.

As a result, he found that...

He Xue already held 46% of the shares of his company and achieved an absolute advantage. After all, 90% of its stock were current shares. Even if Li Kangtai took in all the remaining shares he could buy, he could only hold 44% of the shares. The remaining 10% of the shares were tied to the company and could not be purchased.

Under these conditions...

Li Kangtai knew that he was now at a dead end.

He went limp and collapsed on the chair.

"It's over. It's all over!"

At another location...

In Fang Qiu's office...

"The video on the Internet must have been secretly recorded by our staff. I can do an investigation. Do you want me to find out and fire the person?"

He Xue looked at Fang Qiu who sat before the desk and asked.

“No need.”

Fang Qiu shook his head and said, “It didn’t cause any impact. Just give the person a warning.”

“Alright.”

He Xue nodded before she said, “I’ve officially informed the Kangtai Pharmaceutical Group. A board meeting will be held tomorrow. At that time, I’ll kick the chairman out directly. Then, there shouldn’t be any more problems. When I wrap up the matter of the Kangtai Pharmaceutical Group, I’ll call the bosses of all Chinese Medicine companies and tell them to meet as you have ordered.”

“Mm.”

Fang Qiu nodded with satisfaction.

The next day...

The Kangtai Pharmaceutical Group’s board meeting officially began. Because the Kangtai Pharmaceutical Group was in the capital, He Xue went straight to the conference room of the company building.

With enough shares in her hand, she directly kicked Li Kangtai out and became the new chairman of the Kangtai Pharmaceutical Group!

Moreover...

To complete the acquisition, He Xue bought all of Li Kangtai’s shares at the lowest price.

At this point, the Kangtai Pharmaceutical Group had fallen wholly into the hands of the Renyi Group.

Soon...

The news that the Renyi Group had purchased the Kangtai Pharmaceutical Group hit the headlines on all major media platforms.

Right after the news came out...

All the leaders of Chinese Medicine companies were startled.

Yesterday, Li Kangtai had asked them for help, but in the blink of an eye, the Kangtai Pharmaceutical Group had changed hands!

The Renyi Group had been set up only for a few years.

How could it have such strong financial standing?

Medical Master

Chapter 1357: Everyone Here Is Trash!

On the Internet...

As soon as the netizens saw the news, they burst into an uproar.

“Didn’t the Renyi Group just cooperate with Fang Qiu’s Three Billion Foundation? At the start of their cooperation, they already acquired the Kangtai Pharmaceutical Group?”

“Sure enough, it’s the Renyi Group, it’s awesome. They acquired a large company without warning. It came so suddenly!”

“I remember He Xue seems to have a good relationship with Fang Qiu. According to the statement from the Renyi Group and the Three Billion Foundation, Fang Qiu played a leading role. It means Fang Qiu had a major role in the acquisition of the Kangtai Pharmaceutical Group!”

“The Renyi Group, nominally, is not a Chinese Medicine group. However, as everyone knows, the healthcare products and medicine produced by the Renyi Group are top-notch in the drug market. This proves the Renyi Group does not lack anything. Then why would it suddenly purchase the Kangtai Pharmaceutical Group?”

“In the past few days, something had been seriously wrong with the Kangtai Pharmaceutical Group’s stocks. Seemingly, the Renyi Group didn’t purchase the company through the normal procedures. Instead, the Renyi Group took control of the whole company by sniping at its shares. This method is fast and ruthless. Frankly, it can’t even be regarded as an acquisition. It’s none other than plain robbery!”

“Is Kangtai Pharmaceutical Group the fifth company?”

“No way!”

“The fifth one definitely exists. There are even more of them, but Fang Qiu chose not to go on to expose them. Is it because the fifth one is the Kangtai Pharmaceutical Group? After all, it is a top-notch group in the Chinese Medicine market. Exposing it would exert an enormous influence.”

“In that case, it seems to be true.”

“What’s the point of guessing? The Kangtai Pharmaceutical Group is the fifth one, and Fang Qiu did it for revenge!”

At the same time...

Fang Qiu decided to acquire the Kangtai Pharmaceutical Group. Soon, the news began to spread like wildfire.

When stock investors heard this...

“The Renyi Group and Fang Qiu?

“The shares definitely have potential!”

Instantly, they flocked to buy the Kangtai Pharmaceutical Group’s shares.

Initially, the Kangtai Pharmaceutical Group’s stock price seemed about to hit rock bottom. Ever since more and more investors rushed to purchase the shares, its stock price rose at a terrifying speed. Before long, it reached the ceiling price that day!

However...

When countless people were waiting to buy the Kangtai Pharmaceutical Group’s shares, not many people were willing to sell them. Those people who never intended to sell their shares were still holding on to them. The other stocks had all been taken over by the Renyi Group.

Without a doubt...

He Xue would release part of the shares she held, but not now.

It was because the current stock price was too low. She would release them only when they reached a reasonable price!

Here...

In the WeChat group established by Li Kangtai, leaders of all the Chinese Medicine companies were exchanging information. Then, there came an invitation letter. He Xue sent it in the name of Kangtai Pharmaceutical Group just after she took over the post. The bosses from all the Chinese Medicine companies were asked to be present at the office of Kangtai Pharmaceutical Group!

Soon...

The official invitations were sent to all the bosses of the Chinese Medicine companies.

When they received the invitation...

The leaders of those Chinese Medicine companies were shocked and suspicious!

None of them knew what He Xue was up to.

She had just acquired the Kangtai Pharmaceutical Group. Li Kangtai had said she would deal with them all eventually. Would that actually happen?

Although they were anxious and doubtful...

Now that the Kangtai Pharmaceutical Group had become a subsidiary of the Renyi Group, leaders of these Chinese Medicine companies had no choice but to attend the meeting. Thus, they could only hurry to the capital.

At dinner time that day...

All the leaders of Chinese Medicine companies were present.

Led by the staff of Kangtai Pharmaceutical Group, they arrived at a very large trapezoidal conference room.

The room was densely packed with chairs. After taking their seats, all the bosses from the Chinese Medicine companies started talking animatedly.

“What’s going on?”

“Why would He Xue get all of us here?”

“Does she want to swallow up all our companies in one go? She may die from overeating. Isn’t she afraid of that?”

“It can’t be. If they want to annex us, there’s no need to call all of us for a meeting!”

Everyone was discussing in low voices.

Fang Qiu and He Xue came in from outside the conference room, their faces grim.

When all of them saw Fang Qiu...

They were stunned.

They didn’t expect Fang Qiu to be here.

Opposite them...

Fang Qiu walked onto the conference platform with He Xue.

“Everyone.”

Looking at all the people present, Fang Qiu took the microphone from He Xue and said with a smile, “This should be the first time since you framed the Three Billion Foundation that we’ve met, right?”

After his first sentence...

All the people present were dumbfounded.

As soon as Fang Qiu arrived, he blew their cover. No one had expected that.

They stared at Fang Qiu.

Everyone looked embarrassed.

In the meantime...

Fang Qiu walked aside and gestured to a worker under the conference platform, who immediately turned on the projector. Then, one by one, pictures appeared on the projection screen of the conference platform.

Everyone could see what was written in those pictures.

These pictures...

They formed a whole chain of evidence.

It was related to all the Chinese Medicine companies whose bosses were present.

“Sure enough, there is evidence!”

“What does Fang Qiu mean? Is he going to turn against all of us?”

Everyone was a little flustered.

Fortunately...

There were no media or outsiders present here.

If anyone recorded the evidence, they would be ultimately doomed!

“Okay.”

After he displayed the chain of evidence, Fang Qiu waved his hand and motioned for the staff to turn off the projector. Then he walked back to the center of the conference platform and spoke, “Do you know why I set up the Three Billion Foundation? I wanted to help those who could not afford medical treatment. However, everyone here framed my Foundation for your own interests. You nearly caused the deaths of some people and ruined a few promising doctors.”

“In addition, you did a series of despicable actions such as cutting off the medicine supply for the Foundation, raising prices of medicinal herbs to threaten the Foundation, and disregarding the lives of patients.”

At this point...

After a brief pause, Fang Qiu said, “Even after my strong warning, you used the media to frame me and played tricks behind my back!”

In the conference room...

The more the bosses of these Chinese Medicine companies heard, the uglier their expressions became.

They felt even more alarmed and flustered!

Who would have thought this?

They had never imagined that Fang Qiu had investigated them so thoroughly.

It made them feel as if Fang Qiu had witnessed every shameful thing done by them.

They even saw the news that only appeared for less than half an hour before they withdrew it. Unexpectedly, Fang Qiu even discovered this fake news released by the media in Honggang.

As every sinister trick was displayed, they felt Fang Qiu had thoroughly exposed all their wrongdoings. He made them feel extremely ashamed, furious, and helpless!

“What’s wrong?”

Facing these people’s embarrassed expressions, Fang Qiu scolded them bluntly, “I am talking about all of you. You, you, and all of you are nothing but rubbish in my eyes!”

After that...

Their anger instantly rose!

Everyone could hardly suppress their anger.

However...

Before many of them jumped up to refute him, they calmed down and felt thoroughly despondent. When they met Fang Qiu’s eyes, they immediately thought of the chain of evidence he had shown — he discovered everything they had secretly done.

“From the looks of it, you still refuse to admit it?”

Fang Qiu sneered and continued, “Take a good look at it. With your joint efforts, you messed up the Chinese Medicine market. See what you did to the Chinese Medicine market. Don’t tell me you don’t know or can’t control it. These are all excuses for your benefits!”

“Huaxia Chinese Medicine is a fine example of our ancestral culture and a symbol of our state. It benefits the nation and the people!”

“However, you bastards turned the Chinese Medicine market into a profits-before-everything place. It is now a stinky ditch that is harmful to the nation, the people, Chinese Medicine, and patients. Only you douchebags can profit from this notorious market!”

“You should be ashamed of yourselves!”

As Fang Qiu disclosed their crimes, he became so agitated that he pointed to those bosses before him and asked indignantly, “How dare you still say you are contributing to traditional Chinese medicine? How dare you say you are working for the state and the people? How can you have the face to say you are from Huaxia?”

He let loose a stream of abuse against them.

Everyone got tongue-lashing.

Their faces darkened.

But on the platform...

Fang Qiu didn’t stop. Instead, he continued, “We are all bosses who value our reputation. I know you all want to get back at me and make trouble for me. I’m here to tell you if you want to take revenge, just come at me. If you fight openly and aboveboard, you will end up like the Kangtai Pharmaceutical Group!”

“Besides, I have so much evidence.”

“Are you still thinking about conspiring against me?”

“You’d better think it through. First, find out where my Desert Cistanche cultivation base is. Then, think about how you can kill me!”

After he revealed this...

Everyone’s face turned livid.

Meanwhile, the crowd was all stunned.

In fact...

There was no need for Fang Qiu to say it. They knew they had no way to deal with Fang Qiu, whether openly or secretly.

What should they do?

They had no idea!

“That’s right.”

Fang Qiu said coldly, “Why did I call you all here together? The reason is very simple: I could hardly wait to give you a piece of my mind!”

When every boss here heard this...

In an instant, tens of thousands of curses against Fang Qiu ran through everyone’s minds!

That sounded insulting, didn’t it? At this moment, their anger was totally beyond all control.

Right at this moment...

Fang Qiu's tone softened and he continued, "From the moment I knew you all targeted me, I wanted to scold you.

"It was because you deserve that!

"I caught the doctor who sold those shoddy medicinal herbs for you. But why would he be tempted to do that? His mother was terminally ill. After I sent him to prison, I went to heal his mother's illness. However, his mother knew nothing about his condition. She asked me to tell him to take good care of himself and not to worry about them. I hope he will have time to see his parents at home.

"Just like that, you ruined a good Chinese Medicine doctor who was supposed to have a bright future!"

"Don't you feel sad? It's all because of you!

"You should be harshly reprimanded, don't you agree?"

Everyone fell silent.

They didn't know about this at all.

To them, all that mattered was the outcome.

Medical Master

Chapter 1358: I'm the Chairman of Renyi Group

Their anger seemed to have subsided a little.

When they heard what Fang Qiu said, all the bosses of the Chinese Medicine companies who were present, lowered their heads in silence.

A man's nature was good at birth...

They were also human beings. Like the masses, they had sympathy for those who suffered. These people in the elite class were not aware of all the things that were done by their subordinates or what had happened behind the scenes. After hearing this, they couldn't help feeling ashamed and uneasy.

All the people present fell silent in an instant.

No one spoke, and the conference room was filled with a depressing atmosphere.

In this gloomy atmosphere...

Everyone gradually calmed down.

However...

On the conference platform...

Fang Qiu didn't allow them to stay that way for long.

"Raise your heads."

Walking to the edge of the conference platform, Fang Qiu waved his hand, signaling the staff to start up the projector. Then he said, "Take a good look. Fake drugs produced by your companies have caused unknown side effects. Look at these pictures carefully and see how the patients suffered after they took your medicine!"

The projector was turned on.

One after another, many pictures appeared on the projection screen at the back of the conference platform.

Every one of them was shocking.

In addition to the patients who were in pain, there were reports on the side effects of each medicine. They showed why these side effects would occur after patients took them, how the side effects caused such shocking consequences, and so on.

This time...

The leaders of these Chinese Medicine companies watched with rapt attention.

All of them were drenched in cold sweat when they saw these words and pictures.

On the other side...

When all pictures were displayed...

Fang Qiu walked back to the middle of the conference platform. He took a deep breath to suppress his negative emotions. Then, he looked up at all the bosses from the Chinese Medicine companies at the scene and rebuked, "You all are nothing but rubbish!"

Everyone heard that.

They all lowered their heads.

Although their expressions were ugly, they looked less furious. They panicked and were terrified when they saw the pictures.

However...

At the same time, they rejoiced secretly.

At least all their products had passed the test and were allowed to enter the market. Since their drugs were proven to be qualified, it meant they had redeeming features.

Therefore, even if they knew about the horrifying side effects of their medicines, they were not flustered at all. They were not afraid of getting into trouble because of these side effects.

However...

Just when they considered themselves lucky in their hearts...

Fang Qiu said again, "Today, I won't do anything to you, let alone threaten you. I want to tell you one thing. From now on, we can cooperate to benefit the country, the people, and Chinese Medicine. But if you hold onto your present misguided course, let's meet in the market, our battlefield!"

On the spot...

Everyone was taken aback.

"See us in the market competition?"

"Isn't that a threat?"

If they had to fight with him in the market, they would be doomed eventually. What happened to the Kangtai Pharmaceutical Group would happen to them too.

Just when everyone was at a loss about what to do...

He Xue went onto the platform.

Walking to Fang Qiu's side, He Xue whispered in his ear, "I've found out. The companies that hired those gangsters to hinder you were the Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company."

After hearing the outcome of the inquiry, Fang Qiu smiled.

"I just received a piece of good news."

Fang Qiu smiled and said, "Everyone, please wait for a moment."

All the people present were stunned.

They were all puzzled.

They didn't know what was going on.

Good news?

Good news for Fang Qiu should be bad news for them.

While everyone was in doubt...

Fang Qiu took out his phone, quickly wrote a Weibo post, and clicked to post it.

After that...

He put away his phone and looked at everyone under the platform with a smile.

After a while...

“Beep, beep, beep...”

All of a sudden, someone’s cell phone rang.

One boss quickly took out his phone to answer the call.

In the meantime...

Another cell phone rang.

A boss sitting elsewhere also quickly picked up his phone to take a call.

As a result...

When their phones were connected, the faces of the two bosses fell simultaneously.

“Sizzle.”

The moment they answered the calls, the two of them shot up from their seats, pointed at Fang Qiu, and shouted, “You...!”

“Ha.”

Fang Qiu sneered and said, “As we all know, I’m still a student studying at the University of Jiangjing Chinese Medicine. My roommates gave me a nickname: Revenge King!”

“As this nickname implies, if you challenge me, I must fight back!”

“Moreover, I’ve never lost a fight!”

After he announced that...

The faces of the two bosses who stood up and pointed at him turned deathly pale.

The others, on the other hand, looked puzzled.

They didn’t know what had actually happened.

In the meantime...

Fang Qiu jumped off the conference platform and came to the projector. He took the computer, opened his Weibo on it, and projected the computer screen on the large screen.

Everyone took a look.

All of a sudden, they were utterly stunned!

This Weibo post...

Fang Qiu deliberately published this post: the evidence chain to prove that the Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company had framed the Foundation!

When everyone stared at each other with wide-open eyes...

Fang Qiu deliberately clicked on the comment area below this Weibo post.

It had just been a few minutes since the Weibo post appeared, but thousands of comments had appeared in the comment area.

Everyone could see every comment clearly.

They were all scolding Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company. While many netizens hurled insults at the two companies, they also criticized the entire Chinese Medicine industry.

When all the bosses at the scene saw the netizens pour out torrents of abuse...

Their expressions became even uglier.

In their opinion, they never thought they would encounter this current situation in their lives, but they were forced to face it. This was the first time they had seen Fang Qiu do this!

Meanwhile, they were bewildered.

Fang Qiu had just said that he would not do anything to them and would not threaten them, but right after that, he resorted to threats of commercial battles. In the blink of an eye, he exposed two more companies.

“What did he mean?”

“Is Fang Qiu trying to make fools of us?”

“I know you don’t understand what is going on.”

After saying that, Fang Qiu turned to look at the leaders of the two companies and asked, “How about you two explain why I posted this on Weibo?”

After his question...

The two red-faced bosses immediately turned around and were about to leave in a towering rage.

They knew there was no point in staying any longer.

Now that Fang Qiu had exposed their companies' misdeeds, the following problems they had to face would be much more grave. They were no longer in the mood to listen to Fang Qiu's threats here.

They had to leave and deal with the severe crisis as soon as possible, or it would be too late.

Over at the side...

Fang Qiu saw the two of them turn to leave.

"Humph."

Fang Qiu snorted and said frankly, "You must have seen the video of me beating up more than twenty people alone on the Internet? They were the masterminds behind those gangsters' actions. They did the same thing in many different places!"

As soon as the words left his mouth...

Everyone came to a sudden realization.

No wonder Fang Qiu suddenly exposed these two companies.

It turned out that they were playing tricks behind the scenes.

At this point...

All the bosses on the scene thought of the message they received before the first WeChat group was disbanded.

Fang Qiu had asked Yang Ningyuan to deliver a message to them.

He would punish the person who resorted to little tricks!

From that day onwards...

Everyone abided by the law and behaved themselves.

But unexpectedly, the bosses of the two companies were unwilling to give up. They continued making plans and sparked off a whole chain of trouble for Fang Qiu.

They took the road to their doom!

“You two.”

Looking at the two bosses who stormed out, he said, “I won’t stop you from leaving. See you in the stock market!”

As soon as the two bosses heard it...

They stopped in their tracks.

Their faces changed drastically at the same time.

Fang Qiu had published the chain of evidence against them for framing the Foundation. After all, the matter about the Foundation had occurred some time back. Although public opinion might still bring horrifying disasters to them, they could get a chance to survive as long as they handled this crisis well.

But...

They would be finished if Fang Qiu attacked them on the stock market. Even if they could avoid the storm of public opinion, they could never hold their ground in the stock market!

They never dared to doubt the strength of the Renyi Group behind the Three Billion Foundation.

It could even swallow up the Kangtai Pharmaceutical Group.

Dealing with the two companies would be a piece of cake.

“The stock market?”

They turned around. One of them stared at Fang Qiu gloomily and said, “I’m not afraid of your Three Billion Foundation. I fear the Renyi Group, but can you represent it? Who the hell do you think you are?”

In their hearts, everyone nodded to themselves.

Indeed...

What they feared was never the Three Billion Foundation but the Renyi Group.

Fang Qiu played a leading role in the Renyi Group’s annexation of the Kangtai Pharmaceutical Group. But even so, Fang Qiu couldn’t represent the Renyi Group. After all, the Renyi Group could be regarded as the largest group in Huaxia.

At this moment...

Everyone's eyes were focused on Fang Qiu.

“Sure!”

In the face of the two men's doubts, Fang Qiu sneered indifferently and said, “I'm sorry, but I'm the chairman of Renyi Group.”

After he revealed this...

Boom!!!

As if they had heard a sudden clap of thunder, all the people present sprang out of their chairs in unison, totally shocked by this piece of news.

They all stared at Fang Qiu, stunned and speechless, as if they had heard something impossible.

“The chairman of Renyi Group turned out to be Fang Qiu?”

“No one could find any information about the mysterious chairman. How could the chairman be Fang Qiu?”

“How is this possible?”

“How could the Renyi Group belong to Fang Qiu?”

Everyone shook their heads in disbelief!

Over there...

He Xue hurried onto the platform.

She didn't expect Fang Qiu to announce his identity as the chairman of Renyi Group under such circumstances.

For a moment, she didn't know how to react.

She came up to the platform.

"That's the truth."

He Xue picked up the microphone and said, "Fang Qiu is indeed the chairman of Renyi Group. Because of this, his medicinal herbs are exclusively supplied to the Renyi Group. That is why the Renyi Group and the Three Billion Foundation could announce the reorganization of the market of medicinal herbs without extra communication."

After she explained the situation...

The reality shocked them to the core!

Then, they all laughed bitterly.

At this point...

They thought of Fang Qiu's various identities.

He was a miracle-working doctor, a representative of Chinese Medicine, and a rich philanthropist. Now, it turned out that this man, more famous than those stars, was the chairman of the Renyi Group!

How audacious were they to scheme against Fang Qiu?

At this time, they all drowned in bitterness and despair!

Medical Master

Chapter 1359: The Task Is Heavy and The Road Long

“Pa!”

Since He Xue confirmed the information, all the bosses, who jumped up in shock, felt inexplicably weak and collapsed back to their seats, one after another.

All kinds of complicated emotions appeared on the faces of all the company bosses present.

At this point...

Everyone was extremely shocked.

From before, it was not as if they had not tried to investigate it

However, no matter how hard they tried, they could not find out who the mysterious chairman of the Renyi Group was. This mysterious boss established the Renyi Group and developed it into a behemoth in such a short time. Who could be so capable?

Because they could hardly imagine there was such a competent man, they worshipped the chairman of Renyi Group like a god in their hearts.

Thus, when they heard Fang Qiu was the chairman of Renyi Group...

They felt it hard to accept the fact from the bottom of their hearts.

In their eyes, Fang Qiu was just a doctor and a student who had not graduated from college. At most, he could be honorably considered a boss in the cultivation industry.

But all of this had nothing to do with the Renyi Group.

It was a mega group that had entered the international market. How could such a young man own it?

Although they could scarcely believe it...

Everyone also understood something.

Their abilities carried them to the top of their profession. Each of them could build a successful company. Despite that, they were all shackled by Fang Qiu, who made them look like fools.

All this was because Fang Qiu was the chairman of Renyi Group!

Since he could lead a mega group, wouldn't it be a piece of cake for him to manipulate their business?

They pondered over the series of events.

In the beginning, Fang Qiu's reputation skyrocketed. Then there came the scandal of his Foundation selling fake medicine. Finally, they thought of the current situation. Everything Fang Qiu displayed was in line with his superordinate position and his identity as a leader. In any case, he was no weaker than any of them. Even if they were stronger when united, Fang Qiu had a strong background!

He was the only one who could set up a cultivation base within a restricted military area!

After a long silence...

In the crowd...

A slightly older middle-aged man with glasses slowly stood up.

He cupped his hands and saluted Fang Qiu standing on the conference stage and said, "Incredible. That is impressive. I admire you so much!"

When bosses of other companies saw this...

One after another, they also got up and made obeisance to Fang Qiu albeit with bitter expressions.

The middle-aged man, who got up first, led the others into this series of events. But because he was older and more experienced, he never put himself in the limelight to bear the brunt of attacks. So far, he and his company had not yet been deeply involved in the mess. These bosses admired the way he handled the situation.

It was just as he had said.

Now, all the people present admired Fang Qiu with the utmost sincerity.

Meanwhile...

Everyone was also secretly shocked and afraid of Fang Qiu's forbearance.

Fang Qiu had amazing endurance power.

He was enigmatic as he closely guarded the secret that he was the chairman of the Renyi Group. Only at this time did he admit it.

If they had known this earlier, they would never have dared to provoke Fang Qiu and the Three Billion Foundation, no matter what!

In the corridor of the conference room...

The bosses of Xincheng Pharmaceutical Company and Likang Pharmaceutical Company heard the news. Their faces turned ashen!

At this moment, all their hopes and ideas were dashed.

“Is Fang Qiu the chairman of Renyi Group? Is he actually the chairman of Renyi Group?”

“We’re finished. We’re finished for good.”

...

On the conference platform...

“See you in the Chinese Medicine market. Whether we can end the war and enjoy peace will be dependent on you.”

Fang Qiu gave everyone a hold-fist salute. After that, he turned around and was about to leave.

“Wait a minute.”

Suddenly, a shout came from the crowd.

Fang Qiu turned around to have a look.

It was the middle-aged man with glasses, the leader.

He was Zhao Xin.

He ran the Sanliu Pharmaceutical Group, the No. 1 company in the Chinese Medicine industry.

“As far as I know, the medicinal herbs you purchased from the herb farmers can’t last long. How will you continue your business when these medicinal herbs are used up?”

Zhao Xin asked in confusion.

His voice was not aggressive at all. Instead, he seemed full of doubt and curiosity.

“Think about how fast I cultivated the Desert Cistanche.”

Fang Qiu smiled gently and added, “Everyone, you’ve always underestimated me, haven’t you?”

When they heard this...

Everyone was startled.

Once again, they gave Fang Qiu a hold-fist salute.

Everyone’s faces were filled with frustration.

This time...

They had completely given up. After all, there was no way to keep Fang Qiu in check.

Fang Qiu had broken through the siege!

After that...

Fang Qiu stepped off the stage and left with He Xue.

In the conference room...

After Fang Qiu left, the bosses from the Chinese Medicine companies sighed, shook their heads, and turned to leave. They made an appointment in twos and threes to discuss what to do next.

Fang Qiu and He Xue walked out of the building and got in a car.

“Clap, clap, clap...”

He Xue applauded as she looked at Fang Qiu with a smile, and said admiringly, “Not bad. You looked quite domineering just now.”

“You are flattering me.”

Fang Qiu shook his head, smiled wryly, and said, “I was in an uncontrollable rage. I’ve been suppressing my anger since it happened.”

“Are you feeling better this time?”

He Xue smiled and said.

“Mm.”

Fang Qiu nodded and said, “I feel great after scolding them, but I still have a lot of things to do next. There’s still a long way to go.”

“Right,” Fang Qiu suddenly thought of something and quickly said, “Gather all the people who came to help during this period. It must have been hard on them and those staff members in the Foundation. Let’s have a good gathering and have a meeting in passing. After all, we will have to work hard together.”

“No problem.”

With a nod, He Xue said, “Okay. I’ll arrange it, but before that, we have to deal with the two companies, the Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company.”

“Alright.”

Fang Qiu replied, “It’s time to end these things.”

...

Soon...

The Renyi Group purchased the stocks of the Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company. The whole acquisition process was unusually smooth. After Fang Qiu’s disclosures about the two companies, their stocks declined by their daily limit.

For these people, for someone to buy their shares was like saving their lives, though the money they got by selling their stocks was not enough to pay back their debts.

When the subordinates were quickly purchasing shares...

He Xue went straight to meet all the shareholders of Xincheng Pharmaceutical Company in a teahouse in the capital.

This company had quite a few shareholders. There were a total of five people.

In a private room of the teahouse...

There was a large tea table carved out of tree roots. The five shareholders were sitting around it, as they waited anxiously for He Xue's arrival.

While waiting, they were also chatting with each other.

Not long after...

"Creak."

The door with bamboo features was pushed open. Accompanied by two staff members, He Xue came in and saw all the five shareholders of Xincheng Pharmaceutical Company there. Immediately, she smiled and walked over. Since the five of them had specially reserved a seat for her, she sat in the chairman's seat.

"Everyone is quite clear about the specifics, right?"

As soon as she took her seat, He Xue went straight to the point. "I'm willing to buy all the shares of Xincheng Pharmaceutical Company in your hands. I'll buy from whoever offers the lowest price."

After her plain-spoken words...

The five of them exchanged glances and looked very unwell.

They didn't expect He Xue to speak in such a straightforward way. She didn't give them any room to negotiate, as if their lifeblood was in her control. The situation made them a little embarrassed.

"Well..."

One of the shareholders, who had relatively more shares, said awkwardly, “Well, we all know you want to buy our shares. Also, we are fully aware that Xincheng’s stock price had plummeted to an all-time low. But we bought these shares with actual cash. Why don’t you offer us a high price?”

He Xue was well aware of this.

This group of people now wanted to gain as much as they could.

After all...

The Xincheng Pharmaceutical Company was about to go bankrupt.

Before it crashed, making a penny more would be a good thing for them.

Of course...

Some refused to sell their shares. In their eyes, the seemingly hopeless stock price might rise after the Renyi Group acquired the Xincheng Pharmaceutical Company. However, how could He Xue be that stupid?

Before she held the vast majority of shares, she would never announce that the Xincheng Pharmaceutical Company had been acquired by the Renyi Group!

“A high price?”

He Xue was amused as if she had heard a joke and said, “You’d better name a low price. The low price today is the high price tomorrow, and the low price tomorrow is the high price the day after tomorrow.”

Her words were very direct.

The five shareholders were all stunned.

He Xue was right.

This was indeed the case!

After that, everyone fell silent.

They couldn't bear to sell their shares at such a low price.

Before the incident, all the shares in their hands were worth a few hundred million yuan, but now they could only get about ten million yuan. Worse still, the price was dropping continuously every day. This made them very anxious and uneasy.

"It seems that no one is sincere."

He Xue stood up, shook her head, and said, "I thought you came to meet me with sincerity. Since you are not sincere, just sink with your company."

After that...

He Xue turned around to leave.

In the meantime...

"Please, don't."

A shout suddenly rang out. Among the five people, a middle-aged man, who had been silent and looked benign, suddenly stood up and hurriedly said, "Ms. He, don't be in such a hurry. Since we are here, we must have come with absolute sincerity. I promise you that all of us are anxious to sell the shares in our hands. As long as you are willing to take the shares, we will sell all of them."

After he said that...

He Xue turned around with a smile.

“My purpose is very simple. I want all your shares, but there is only one condition: the price.”

At this point, He Xue paused before saying, “You should know that if I had the intention to trick you, I could have waited for another three or five days before asking you out for a meeting. At that time, the stock price will be half or even one-tenth of what it is now. So I don’t want to talk nonsense with you. Give me a suitable price, and we can finish the negotiation today. Otherwise, I could only put this matter off.”

Medical Master

Chapter 1360: All We Need to Do Is to Do Our Best

“Does she plan to put this matter off?

“The longer it is delayed, the more losses we will suffer. After six or seven days, these shares might become useless. When the whole company is declared insolvent, the shares in our hands will be worthless.”

“I’ll sell mine.”

A shareholder took the lead and said, “But I will sell them only at the current market price. But I can’t bear it if the price goes lower. If you agree, I can sign the contract with you now.”

“What about the others?”

He Xue turned to look at the other four people.

Soon...

Three of them voiced their opinions one after another.

All of them were willing to sell their shares at the current market price!

In the end, only the one owning the least shares hadn't yet agreed.

“Could, could you give me more time to think about it?”

When the other four agreed to sell their shares, the man immediately pretended to be hesitant and said to He Xue, “I’ve never intended to transfer my shares. I’m not short of money, so I hope I can think about it for a few more days.”

“Okay, let’s talk about it after you make up your mind.”

He Xue stood up and was about to leave.

The five people saw this.

Immediately, they became anxious again.

The four people who promised to sell their shares turned their heads and glared at the last person!

Even they had seen through this guy’s mind. How could He Xue not know about it?

When it came to the Xincheng Pharmaceutical Company...

The five of them held more than half of the shares. As long as He Xue bought the shares from four shareholders, she could easily take control of this company.

It turned out that the other four were willing to transfer their shares. Upon learning this, the man didn't want to do it anymore. Instead, he attempted to keep his shares. After the Renyi Group annexed the Xincheng Pharmaceutical Company, his shares' price would soon be sky-high again.

But how could such a good thing happen to him?

"Ms. He, please don't be so anxious to leave."

The person with the most shares quickly stood up and called out to stop He Xue.

"You may have misunderstood my words."

He Xue turned around and said to the shareholder who wanted to take advantage, "Our Renyi Group wants to firmly grasp the Xincheng Pharmaceutical Company, which is now in a mess. We take your shares only to buy us a few more days. That is why we are willing to purchase your shares. But it doesn't mean we can't afford to wait a few days. As long as we choose to postpone it, we can even wait for a few months, let alone a few days."

"If you feel like playing tricks on me like this, I can only wait for your company to announce bankruptcy and take your shares!"

After that...

He Xue turned to leave.

As a result...

Just after she took two steps forward...

"I'll sell mine."

The shareholder trying to exploit an advantage quickly stood up and said, "I'll sell them all to you at the current market price."

He Xue turned to look at him.

She cracked a smile.

That was exactly what she wanted.

"Very good."

Sitting down again, He Xue reached out her hand to the two staff members standing at the door.

Soon...

Two workers came up, took out five printed share transfer contracts from the folder, and handed them to the five people respectively.

Then, they gave each of them a pen, telling them to write the facts of their shares and sign their documents.

In just a few minutes...

All the contracts were signed.

Without many others knowing it, the Xincheng Pharmaceutical Company had fallen into the hands of the Renyi Group.

Of course...

He Xue did not rush into announcing the news, nor did she hold a shareholders' meeting. Instead, she quickly made an appointment with the shareholders of the following company: the Likang Pharmaceutical Company.

The whole process of the negotiation was unusually smooth.

He Xue held a general meeting of stockholders. Only then did the two companies' bosses realize Fang Qiu was now controlling their companies!

In this situation...

The two companies' bosses barely had any choice. They could only agree to transfer all their shares to the Renyi Group at the lowest price to avoid going bankrupt.

The two companies' bosses signed their share transfer agreements. From then on, the Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company became the Renyi Group's subsidiary companies!

It had only been three days since the meeting.

The shareholders' meeting was over.

The Renyi Group directly announced that it had grasped the controlling share of the Xincheng Pharmaceutical Company and the Likang Pharmaceutical Company!

As soon as the news came out...

Headlines trumpeted the news. The contemporary financial media, especially, made a detailed comparison of all kinds of parameters. Many financial programs began to invite financial experts to talk about why the Renyi Group would purchase three domestic Chinese Medicine companies in succession.

On the Internet...

One after another, netizens applauded the reports of these media reporters, various speculations and explanations from financial experts, and so on.

When Fang Qiu exposed the dirt of these two companies, the netizens were furious and full of hatred for them. A large number of people had begun to boycott the medicine products of these two companies.

Now...

The Renyi Group had acquired these two unscrupulous companies. Hearing the news, netizens could not help praising the Renyi Group. In their opinion, the Renyi Group had affection and faith. It was better to let it improve these black-hearted pharmaceutical companies.

Fang Qiu's fans...

They went to the Renyi Group's Weibo account and thanked it for avenging Fang Qiu!

"As expected, it is a large company with a heart!"

"It deserves to be a conscience enterprise deeply respected by the people. The Renyi Group has a good name and does business with kind intentions. It's absolutely wonderful."

"Thank you, the Renyi Group, for venting the anger for Fang Qiu. Many thanks."

"The Renyi Group is so powerful anyway. Four companies were exposed at the beginning. Why not annex all of them? Just occupy the whole Chinese Medicine market. We people believe in you!"

"That's right. If we want to use domestic Chinese Medicine, we can only trust the Renyi Group."

Of course...

Fang Qiu's fans didn't know the relationship between Fang Qiu and the Renyi Group.

Leaders of these Chinese Medicine companies knew Fang Qiu controlled the Renyi Group. However, they didn't dare to expose this matter casually. After all, Fang Qiu had kept it a secret for such a long time. Since neither Fang Qiu nor the Renyi Group publicized this relationship, it meant Fang Qiu still wanted to hide it.

They knew pretty well they mustn't spread the news. Once they provoked Fang Qiu, they would land themselves in serious trouble.

Now...

All bosses of these Chinese Medicine companies were a bit overly suspicious!

They were cautious in everything they did. Everyone was afraid of offending Fang Qiu.

Then...

There were rumors online saying the Renyi Group would gobble up the four exposed companies. The four companies' stock prices had been on a declining trend. After that, surprisingly, they began to rise.

All the online shareholders felt the Renyi Group might acquire the four companies. Thus, many stock investors chose to take the opportunity to buy shares, waiting to make a fortune.

After all, once the Renyi Group successfully acquired the four companies, their stock prices were likely to leap upwards.

Here...

The shareholders of the four companies exposed were eager to take action long ago. After all, none of them wanted to go down with the companies. Therefore, with this reverse growth, they were ready to sell their shares at a high price.

Beyond that...

They even secretly bribed the media to widely spread the news that the Renyi Group might acquire the four companies. By doing so, they hyped others into buying their stocks.

They were disseminating various stories and gossip to palm off falsehood as truth and create confusion. Gradually, these stock investors might believe the news.

However...

Over there...

He Xue, who had just purchased two companies, returned to the Beijiang cultivation base. Then, she went straight to Fang Qiu's office.

"What do you think? Will you take them or not?"

He Xue asked with a smile.

"No!"

Fang Qiu didn't hesitate and said, "There's no need to think about it. Just announce the decision. Since we've just acquired three large companies, we need time to make new arrangements. We're not giants, after all. Why should we take in so much? We can't accomplish our aim in one move, can we?"

"Just as I thought."

He Xue nodded and said, "Okay, I'll let the company announce it immediately. We should save as many shareholders involved in this matter as possible, although they are speculators!"

Soon...

The official Weibo account of the Renyi Group directly released the news.

"Notice: Major online media have been reporting rumors about our possible acquisition of four Chinese Medicine companies. The Renyi Group can tell you explicitly that we have no such considerations and never intend to buy them. Please don't believe these rumors and avoid being deceived!"

Such short notice was sent out.

Originally...

When the stock prices rose, the shareholders were ready to sell their shares as quickly as possible. After this notice, the four companies' stock prices suffered a cliff-like drop!

Those who owned the four companies' stocks immediately sold theirs like crazy when seeing the Renyi Group's Weibo post. Even those profiteers were also in a hurry to sell their shares.

Notably...

After the abrupt change in the stock prices, some who originally owned the shares of the four companies made huge profits.

Of course...

More people suffered losses.

As for shareholders of the four Chinese Medicine companies, they were all dumbfounded when seeing the notice issued by the Renyi Group.

Had they known it earlier...

They would sell all their shares earlier.

Now, the stock prices had hit rock bottom.

They couldn't even think about selling their stocks.

There were only sellers but no buyers. How could they transfer their shares?

At this moment...

The shareholders of the four major companies were overcome with regret.

If not greedy, they could at least get some money back and start over with the seed money. But now, they could find no way out!

In some other places...

The other Chinese Medicine companies saw the two companies be acquired, and the stock prices of the four companies dropped to their limits.

But they were not surprised at all.

Everyone had a tacit understanding.

They had anticipated this result. Thus, when their guess was turned into reality, they only felt it was proper.

In the first place, reporters followed up to interview Zhao Xin. He was the chairman of the Sanliu Pharmaceutical Group, the leading company in the Chinese Medicine industry in Huaxia.

Since he couldn't avoid all of them...

He eventually granted a reporter an exclusive interview.

“Chairman Zhao, the Renyi Group bought out the three companies in a short time. What do you think of it?”

The reporter asked and added, “When the Renyi Group races to control the Chinese Medicine market, how will you handle this challenge?”

“All we need to do is to do our best.”

With that, Zhao Xin got in the car and left.
