Chapter 1531 The Nirvana Organization's Lair?

Everyone's expression changed slightly at what Sword Fanatic said.

Just not long ago, they had fierce combat with the members of the Nirvana Organization. It ended up with their great victory, and they killed a guru of the Nirvana Organization. However, everyone knew that it was because the Nirvana Organization was not prepared.

These days...

They destroyed over a dozen small strongholds of the Nirvana Organization in a row, and everyone truly realized how terrifying the Nirvana Organization was.

It had numerous members, and most importantly, they were very powerful.

They came batch by batch, and every batch was stronger than the last.

And even three gurus were sent out.

This time, one of the three gurus died. Next time, the Nirvana Organization would inevitably send out a stronger replacement. When the time came, it would probably not be an ordinary guru but very likely a Venerable.

In this case...

Sword Fanatic could deal with one Venerable, but what if the Nirvana Organization sent over two Venerables?

Even if only one Venerable was sent over, the Nirvana Organization would definitely send at least three gurus to follow him. If Sword Fanatic was tangled by the Venerable, what about the three gurus?

With their strengths, they could not defeat three gurus.

That was why Sword Fanatic took these brothers into the deep mountains once they won the battle. If this place was a large stronghold of the Nirvana Organization, it would be equivalent to sending these brothers to their doom.

A few brothers, who were impulsive to eliminate the Bone Sickle Society just now, couldn't help shivering at the thought of this.

Fortunately, He Gaoming and Sword Fanatic were with them.

Otherwise...

They must have rushed to court death on a whim.

"What shall we do now?"

He Gaoming looked at Sword Fanatic seriously and asked, "Shall we retreat?"

"Not for now."

Sword Fanatic shook his head and said, "I'll go up and check it out, and you guys hide here until I come back. Don't act rashly."

"Got it."

He Gaoming nodded.

All the brothers lowered their figures, for fear of being discovered by the people in the fortress base.

Fortunately, it was at night now.

If it were in the day, Sword Fanatic would not even dare to go up to check the situation.

“Brother Sword Fanatic, be safe.”

He Gaoming reminded.

“You must be careful.”

The other brothers also expressed their concern and said.

“No problem.”

Sword Fanatic nodded with a smile and said, “In case something unexpected happens later, you should retreat immediately. Don’t worry about me. No one can stop me if I want to run. I will catch up with you when you are safe, understood?”

Hearing that...

Everyone frowned.

They vaguely felt that what Sword Fanatic said about sensing a guru was not a joke, and it did not seem to be as simple as it appeared on the surface.

Otherwise, Sword Fanatic would have not said such words.

“Understand.”

When everyone was silent, He Gaoming said with a smile, "Don't worry. We won't drag your feet. We will never be used by the enemy to threaten you."

Everyone was a little surprised at this.

All of a sudden, they realized what it meant.

That was true.

If even Sword Fanatic thought it difficult, what was the point of them not retreating even if they were worried about Sword Fanatic? To die together?

The others nodded successively as well.

Sword Fanatic smiled at He Gaoming. He understood that He Gaoming was reminding other brothers.

But it was also true.

What he sensed was somewhat different from what he had said.

Sword Fanatic indeed sensed the guru's aura, and it was not just one but many, at least five. However, he was not sure about the exact headcounts.

"Phew..."

Taking a gentle breath, Sword Fanatic quietly got up and went up to check it out.

He quietly approached the fortress base.

At the same time, he kept an eye on the situation in the fortress base, observing his surroundings carefully, for fear of being discovered.

However...

It looked like there were no guards against outsiders in the fortress base.

Although he could sense human beings, Sword Fanatic didn't see anyone along his way to the edge of the fortress base.

This situation confused him greatly.

After cautiously moving forward for a long time, Sword Fanatic finally arrived at the periphery of the fortress base.

This fortress base was circular.

There were three-meter-high walls on all sides, with only one gate leading into it.

Sword Fanatic tiptoed, controlled himself not to make any sound, and then floated up like a gust of wind.

When he approached the top of the wall...

He found that...

This wall was very similar to the city wall of ancient Huaxia, but it was not as wide as the city wall. It just could accommodate one person, and there were some observation holes and gun holes inside.

It looked like a wall trench that could be built, but it was covered with thick dust. Obviously, it had been vacant for a long time.

Taking a glance inside...

Sword Fanatic quietly jumped into the wall trench.

The wall trenches were connected. Sword Fanatic could easily move between them.

The position that Sword Fanatic entered was the front of the fortress base, so many things inside were blocked by the front buildings.

In this case, Sword Fanatic had to walk quietly inside the wall trenches. He squatted down to avoid those observation holes and gun holes, and soon, he went around to the back of the entire fortress base. Through the observation holes, he could see the situation in the entire base.

Upon a closer look...

Right now...

Six people were standing in the square of the fortress base.

All of them looked in the same direction and seemed to be waiting for something.

Just then...

“Boh!”

A light sound was heard.

Sword Fanatic looked in the direction of the sound. He saw that in the center of the square, in the place where the six people were staring, the air suddenly fluctuated, and then a figure came out of the energy fluctuation.

“Is it an ancient relic?”

Sword Fanatic was surprised at this scene.

It was out of his expectation that there would be a Relic Mysterious Realm in this fortress base.

It seemed that...

The guru’s aura, which Sword Fanatic had sensed just now, should have been emitted by the six people standing in the square when they came out of the Relic Mysterious Realm.

Just when Sword Fanatic was surprised...

Another wave of energy fluctuation arose, from which another figure walked out.

Sword Fanatic sensed it carefully.

And he realized that the six people in the square and the two people who just came out were all gurus.

In other words...

There were eight gurus in total!

Even though Sword Fanatic did not feel any pressure from these eight people, they were eight gurus after all. If they joined forces, Sword Fanatic would be no match for them.

With a flash of wit...

Sword Fanatic decided to continue walking down the trench to the nearest place to the eight people, which was closest to the building in the fortress, and to take a closer look so as to find out what was going on.

When he just moved his feet...

Another wave of energy fluctuation came.

Sword Fanatic turned to look in that direction.

He saw that the entrance of the ancient relic in the center of the square rippled again.

This time, two figures stepped out of it at the same time.

As they appeared...

The aura of energy emitted from their bodies, and Sword Fanatic couldn't help but become nervous, with his hair on end.

Apparently...

These two people were different from those eight.

These two were real gurus. Sword Fanatic could tell from their Qi power that they must be stronger than him!

Seeing these two gurus...

The eight people in the square immediately lowered their heads to greet them.

“Are they big shots?”

At this very moment...

Sword Fanatic was quite sure that these people were from the Nirvana Organization.

It was because only the Nirvana Organization had so many gurus.

Moreover...

It was in Zhongdong, where the strongest one was only a Half-step Guru.

Sword Fanatic stopped his steps.

Sword Fanatic tried his best to suppress his aura to the lowest level. Then he carefully retraced to the place where he entered the wall trench. Under the obstruction of the buildings, he didn't dare to use any internal Qi. He climbed out of the wall trench with his bare hands and walked silently toward He Gao Ming and others.

Shortly after, Sword Fanatic came to everyone.

Before everyone could ask, Sword Fanatic immediately waved his hand and motioned for them to retreat.

Everyone got the point.

And they carefully retreated.

They did not stop until they retreated to a valley outside a mountain.

“Brother Sword Fanatic, what’s going on there?”

When they arrived at a safe place, everyone finally breathed a sigh of relief. He Gaoming also asked.

Then...

Everyone shifted their eyes to Sword Fanatic.

Seeing that Sword Fanatic did not dare to run any internal Qi when he returned and looked a little embarrassed, everyone got more and more curious about the fortress base.

“It’s very dangerous.”

Sword Fanatic let out a long sigh and said, “It’s pretty much certain that it’s not the Bone Sickle Society. Maybe it used to be their territory, but now it belongs to the Nirvana Organization. I even suspect that the so-called ‘Bone Sickle Society’ is just a small force under the Nirvana Organization.”

“Are there gurus inside?”

Li Boqing asked.

“Yes, I saw ten!”

Sword Fanatic said with a serious face, “Eight of them should be the incapable gurus that John Doe mentioned. The one-on-one battle is no threat to me. However, two of them are very powerful, and I can’t defeat either of them in a one-on-one battle. It seems that they two are high-ups in the Nirvana Organization!”

Hearing that...

These brothers were all shocked.

No one had expected it.

There were so many gurus inside the fortress base.

“The key is that I don’t know if this is the total headcount of them.”

Sword Fanatic took a deep breath and said, “There is a Relic Mysterious Realm inside. These gurus all came out of there. If we had arrived here earlier, they might have found us as soon as they came out. Fortunately, we came late. Otherwise, we would have all died there!”

When the brothers heard this, their hearts skipped a beat.

“What should we do, then?”

One of the brothers asked.

“Don’t act rashly for the time being.”

Sword Fanatic shook his head and said, “It’ll be troublesome if they discover us and then come at us again.”

“How about we inform the oldest about the situation here?”

He Gaoming thought for a moment and said, “We are no match for so many gurus. We can leave, but they are from the Nirvana Organization, the oldest’s sworn enemy. Even if we can’t defeat them, we should help to keep an eye on them for the oldest!”

Chapter 1532 Fang Qiu Is Here!

"You're right."

Sword Fanatic nodded and said, "We should be in a safe area by now. However, it's not far from them. Since we have to inform John Doe, we must keep an eye on them. Maybe we can spy out something else before John Doe arrives."

After Sword Fanatic said that...

"I'll do it."

Liang Fen raised his hand and said, "Leave the matter of tracking to the nine of us. Even if we are exposed, we can resist for a while with our Combined Attack Sword Formation. Also, with Brother He as the head, everyone can rest assured. After all, he used to be a detective."

"Alright, it's decided then."

Sword Fanatic nodded in agreement and said, "Other brothers take a break for now. He Gaoming, after informing John Doe, go up to probe with the other eight brothers. Whether their people come in or out, don't follow them. It's very suitable to keep an eye on this top of the mountain. Don't go down the mountain. Even if they find us here, we can take advantage of the terrain to delay for a while."

"Don't worry, I understand what to do."

He Gaoming nodded, then waved to the other eight brothers including Liang Fen. While they went up the mountain together, He Gaoming took out his cell phone and made a call to John Doe.

...

In Huaxia...

Fang Qiu had just returned to Beijiang. He just held a few meetings to officially set up the project of the Traditional Chinese Medicine amusement park and made the plan. He was going to conduct field research to expedite the process of this project.

Just then...

His phone rang.

Seeing the caller ID was He Gaoming, Fang Qiu paused slightly. Then he cleared his throat and changed his voice to John Doe's before picking up the phone.

"Master."

On the other end of the line, He Gaoming immediately shouted.

"What's the matter?"

Fang Qiu asked.

"Something big happened!"

He Gaoming said in a dignified tone, "We wiped out over a dozen small-scale strongholds of the Nirvana Organization in Zhongdong. We met many seventh, eighth, and ninth-class experts. We also met gurus several times, and they were all solved by Brother Sword Fanatic. But this time, we may have encountered a big problem."

"Tell me in detail. What's going on?"

Fang Qiu raised his eyebrows and asked immediately.

“Here’s the thing.”

He Gaoming said, “We were attacked by the Nirvana Organization. We killed a guru and then defeated them. Afterward, to prevent the Nirvana Organization from making another attack, Brother Sword Fanatic led us to hide in the mountains.

“As a result, we found a base deep in the mountains.”

“When Brother Sword Fanatic went to check the situation, he found that there was a Mysterious Realm in the ancient ruins in this base, and he also saw ten gurus inside. Among them, eight were ordinary gurus, and two were even stronger than Brother Sword Fanatic!”

Hearing that...

Fang Qiu changed his expression and immediately guessed what these brothers had encountered.

“Fortunately, the members of the Nirvana Organization didn’t find us, and Brother Sword Fanatic also returned safely. We have now arrived at a relatively safe place.”

He Gaoming continued, “You don’t have to worry about our safety. It’s just that we have discussed it and decided to inform you of this information. We are now monitoring this stronghold of the Nirvana Organization. If you want to come in person, we will wait for you. If you can’t come here for the time being, I will send you the location of this base of the Nirvana Organization, and then we will evacuate immediately.”

Fang Qiu listened intently.

“Well done.”

Fang Qiu nodded with satisfaction, thinking, “He Gaoming is indeed the mainstay of the team, and fortunately, Sword Fanatic is with them. Otherwise, these brothers would have died young on this trip to Zhongdong.”

“Don’t act rashly. I will rush over as fast as I can to meet up with you guys!”

Fang Qiu said.

“Great. I’ll send you the location information right away,” He Gaoming responded.

After hanging up the phone, He Gaoming immediately sent his current location to John Doe.

Fang Qiu received the location message from He Gaoming.

Fang Qiu raised his eyebrows.

“Among the ten gurus, two of them are even stronger than Sword Fanatic?

“That is to say, eight of them are incapable gurus, and the other two should be Venerables!”

Fang Qiu muttered to himself.

Then he remembered what had happened to him in Africo.

Back then, two Venerables guarded the stronghold in Africo with more than a dozen gurus.

“Is this place the real stronghold of the Nirvana Organization in Zhongdong?”

This idea popped up into Fang Qiu’s mind.

Fang Qiu nodded.

He thought that it was necessary for him to go to Zhongdong.

If it was really a stronghold of the Nirvana Organization in Zhongdong, he would destroy it directly.

After making up his mind...

Fang Qiu immediately came to the next door, He Xue's office.

"What's up?"

Seeing Fang Qiu, He Xue was a little surprised.

"Um, would you please do me a favor?"

Fang Qiu touched his nose awkwardly and said, "I have something very urgent to handle, and I need to go out for a while. So, please take full charge of the company's affairs next."

"Again?"

He Xue looked at Fang Qiu in confusion and said, "The project of the Traditional Chinese Medicine amusement park has just started. Are you leaving now?"

"It's urgent, so I have to."

Fang Qiu gave a bitter smile.

Seeing the embarrassment and bitterness on Fang Qiu's face, He Xue sighed softly and said, "You might be evolved from a snake, When it is time, you have to go out to shed your skin."

"Actually, there's nothing for you to worry about next. I've already arranged all the work during the meeting. You just need to follow up."

Fang Qiu said with a bitter smile, "Thank you for your hard work as always."

"All right, all right, go ahead."

He Xue waved at Fang Qiu as she shook her head.

After arranging everything at the company...

Fang Qiu left the cultivation base.

In the desert, Fang Qiu dressed up as John Doe, put on the human skin mask, and then rushed all the way to the border quickly.

He crossed the border.

Fang Qiu continued to go on his way for hundreds of kilometers. When it got dark, he finally arrived at the foot of the mountain, the location sent by He Gaoming.

Then...

With his Divine Consciousness, Fang Qiu found out the location of the brothers and the stronghold that He Gaoming had mentioned.

On the top of a mountain far from the stronghold of the Nirvana Organization.

"Whoosh."

A sound of breaking wind was heard.

He Gaoming and the others were lying prone on the ground and staring at the stronghold at the foot of the mountain. Just then, a black shadow suddenly flew past them, which shocked everyone.

They hurriedly stood up and took a closer look.

They saw John Doe standing in front of them.

He Gaoming and the others breathed a sigh of relief and then walked toward John Doe one after another.

“Go down first and talk later.”

Fang Qiu said before He Gaoming and the others spoke. Then he went down the mountain with the nine brothers and came to the valley.

Upon seeing John Doe...

The brothers, who were resting in the valley, finally breathed a sigh of relief.

“Brother John Doe, here you come.”

Sword Fanatic immediately walked up to John Doe.

“Mm.”

Fang Qiu nodded and said, “I’ve already known about the situation. According to the information you’ve collected, this place should be the real stronghold of the Nirvana Organization in Zhongdong, if I am not wrong, and the two men, who are a little stronger than you, should be the Venerables of the Nirvana Organization.”

“Venerable?”

Sword Fanatic was stunned.

“Yes.”

Fang Qiu nodded and said, “I met three Venerables from the Nirvana Organization before, and I killed them all in the end. Venerables in the Nirvana Organization are equivalent to Hall Masters in Jianghu. Their strength is at the real guru level, unlike those incapable gurus who forcibly improved in a short period.”

“Well, it seems that they have been gurus for quite a long time.”

Sword Fanatic nodded and said.

“Is there really an ancient relic inside?”

Fang Qiu asked.

“Yes.”

Sword Fanatic nodded with certainty and said, “I saw it with my own eyes. It’s in the center of the square inside this stronghold.”

Fang Qiu nodded and said, “That’s very likely. In a place with ancient ruins, even if it was not their stronghold, they would turn it into their stronghold.”

Then he continued, “You guys take a break here. I’ll go and check the situation first.”

“I’ll go with you.”

Sword Fanatic said.

“No need for that.”

Fang Qiu shook his head and said, “I’ll go alone. They can’t sense my existence.”

“All right.”

Sword Fanatic nodded knowingly and said, “The walls of that stronghold are trenches. You can enter from there. It will be safer inside.”

“Okay.” Fang Qiu nodded.

Then Fang Qiu moved and rushed down with a swoosh.

He Gaoming and the others went up the mountain to check hurriedly, for fear that something would happen to John Doe.

Rushing to the foot of the mountain, Fang Qiu completely blocked his aura and then jumped directly into the wall trench.

Then he began to observe it carefully.

As a result...

Fang Qiu didn’t see the door of the Mysterious Realm at all, but he only saw many men in black in the stronghold, including several gurus.

Of course...

Fang Qiu didn't think that Sword Fanatic would lie to him.

Since Sword Fanatic said that there was an ancient relic in it, there must be one!

It was just that...

If those people didn't open the ancient ruins, Fang Qiu would have no idea how to open the door to the ruins, nor would he know what was going on inside the ruins.

Since he couldn't find the door to the ancient ruins, Fang Qiu shifted his attention to the rooms in the buildings inside the stronghold.

Fang Qiu carefully sensed it.

Sure enough, there were two Venerable-level experts and eight gurus inside.

In addition...

There were many seventh, eighth, and ninth-class cultivators.

At present, it seemed that this crowd of people did not take any action. They seemed to be waiting for something.

Fang Qiu observed for a long time.

He did not leave until he confirmed that there was no unusual movement in this stronghold.

Fang Qiu then returned to the valley.

"What did you find?"

Sword Fanatic asked.

“Nothing special.”

Fang Qiu shook his head and said, “Those people seem to be waiting for something as if they are ready all the time for starting an attack when it’s time.”

“When we followed them today, we found that there are a total of three groups of people who went out of the stronghold. Until now, none of them has come back. Those people went out in different directions. They should have gone out to inquire about the news, I suppose.”

He Gaoming said.

“Have they been looking for us?”

Hearing this, Li Boqing immediately said, “We killed so many of them and then suddenly disappeared, so they assigned ten gurus to wipe us out. As it turned out, they couldn’t find us. Could it be the case?”

Chapter 1533 Alert the Enemy On Purpose to Lure Them Out

“It could be.”

Hearing what Li Boqing said, Fang Qiu nodded slightly. He said, “Based on the recent situation in Zhongdong, the Nirvana Organization hasn’t revealed any intention of planning in Zhongdong for the time being. Plus, Crowning Lord was dead, and all its strongholds in Huaxia were destroyed. In this case, the Nirvana Organization should keep a low profile in the near future.

“You have destroyed over a dozen strongholds in a row. Even though they launched a sneak attack at night, you beat them back and caused them to lose a few gurus.

“It seemed that...

“The Nirvana Organization has put you guys on their must-kill list.”

Speaking of that...

Fang Qiu paused for a moment and then added, “Presumably, it’s because of the excessive losses that the Nirvana Organization sent eight gurus and two Venerables at one time.

“This group of people has never left the fortress base since they came out of the Relic Mysterious Realm. That is to say, they are waiting for some news, which should be about your tracks. They are going to catch you all in one fell swoop.

“Unfortunately, they would never have imagined that you were hiding by their side!”

Hearing that...

Everyone laughed.

“Is this so-called ‘dark under light’ in Jianghu?”

One of these brothers said with a smile, “We can always hide here if we don’t take action, and they won’t find us within a year.”

The other brothers all laughed as well.

“This time, we came to the Life Door by accident.”

Sword Fanatic said with a smile, looking obviously relieved.

For Sword Fanatic...

He had asked John Doe for his consent before bringing these brothers out. He had also promised John Doe that he would ensure these brothers' safety unless he died.

In other words...

The lives of more than 30 brothers all relied on Sword Fanatic.

Luckily, they had accidentally run to the stronghold of the Nirvana Organization in Zhongdong and hid in a place nearby without their notice. Otherwise, they couldn't have been so relaxed now.

Judging from the strength of those people in the stronghold, if they found the tracks of these brothers and ambushed them, these brothers would definitely be wiped out!

When they thought back...

They realized that every step he took was a trap.

Fortunately, Sword Fanatic had led the team to avoid all those traps.

"Brother John Doe."

While he breathed a sigh of relief in his heart, Sword Fanatic asked, "What are you going to do next?"

Everyone turned to look at John Doe.

"I am here for two purposes."

Fang Qiu narrowed his eyes and said, "One is to protect our brothers and keep them safe, and the other is to destroy the stronghold of the Nirvana Organization in Zhongdong.

"I once destroyed the Nirvana Organization's stronghold in Africo, so I know very well that the stronghold of the Nirvana Organization in every region is a very powerful force under its command. Every Nirvana Organization that we destroy will weaken its power a little.

"Besides, the head of the Nirvana Organization is very cunning, and their strongholds are very well hidden. It's a rare opportunity this time, so we must seize it."

After Fang Qiu said that...

Everyone clenched their fists to express their determination.

In the past...

Before, none of them had an idea how John Doe was fighting against the Nirvana Organization outside. Now, after being trained by John Doe, they finally grew stronger and could come out honorably and followed John Doe to fight against the Nirvana Organization.

This was the first time.

And it was also the beginning of their charge!

"We are all ears, the oldest. What should we do?"

He Gaoming came up to Fang Qiu and said.

"Based on the current situation, we can do nothing if they hide inside all the time. With our current strength, it won't work if we rush in and start the fight."

Fang Qiu analyzed and said, "So, I've decided to alert the enemy on purpose to lure them out!"

"Eh?"

Everyone was stunned.

"Alert them on purpose?"

"Why?"

"What does John Doe want to do?"

Everyone was puzzled.

They fixed their eyes on John Doe, waiting for him to continue.

"Do you mean that we lure some of them out first and then wipe them out in batches?"

Sword Fanatic asked.

"Yes."

Fang Qiu nodded with a smile and said, "They have too many members. If we confront them head-on, we won't gain the upper hand. Instead, our brothers will be in danger.

"So, I plan to lure some people out and kill the group first."

Hearing that...

The brothers all looked forward to it.

To kill the first batch...

It was a great opportunity for them to gain experience.

“Then how can we lure him out?” He Gaoming asked.

Then he added, “If their target is searching for our tracks, they will definitely attack us together once we show up. I’m afraid that our brothers will be in danger by then.”

“I’m here.”

Fang Qiu smiled and said, “Brother Sword Fanatic and I will hide in the dark. If they find your traces and confirm that Brother Sword FanaticTao is not with you, they will definitely underestimate your strength. At that time, it will be a good time for you to gain experience through real combat.

“Brother Sword Fanatic and I will wait for the opportunity secretly. Once the enemy’s strength is beyond the bottom line that you guys can resist, we will act immediately.”

Hearing that...

The brothers nodded one after another.

The fire of anger and the hot blood in their hearts began to burn.

For them...

John Doe was the person they could trust unconditionally.

In the face of the current situation, they would be doomed eternally if they took one wrong step. Even so, they were willing to believe in John Doe and would do as John Doe said.

“Got it.”

He Gaoming was excited to laugh, saying, “So, we need to find a good place to fight.”

“Southwest.”

Fang Qiu pointed to the southwest and said, “Three kilometers away, there is a wasteland, where a third-rate force is stationed. It’s a terrorist organization. They have killed many people including several Huaxianese.”

When everyone heard this...

Their faces darkened immediately.

They thought hatefully, “Another terrorist organization? And they have also killed Huaxianese people!”

Fang Qiu continued, “That place was not far from here. Those from the third-rate terrorist organization happen to be suitable for you guys to warm up. By the time you guys eliminate the third-rate terrorist organization, the news should be already spread here, and the members of the Nirvana Organization should rush over there as soon as possible.”

Hearing that...

Everyone nodded in agreement.

Previously...

Everyone only saw John Doe's side of having powerful combat capability to fight against the enemy. To their big surprise, apart from that, John Doe was so smart.

In the blink of an eye, he came up with such a good idea.

"Go."

Fang Qiu turned his head, glanced at the stronghold of the Nirvana Organization, and then led everyone to head for the third-rate terrorist organization three kilometers southwest.

"Here is the information about it."

On the way, He Gaoming said, "The third-rate terrorist organization that the oldest mentioned is called Devil Tower Society. It's an organization of cults in Zhongdong. They believe in a fictional devil, which drinks human blood and takes human bones as decorations. It's a very evil organization. Thousands of people have died in the hands of this organization, and their means are extremely cruel."

Hearing the shared information by He Gaoming...

Everyone clenched their fists.

"Exterminate them!"

Li Boqing said angrily, "There is no difference between these people and those killing machines!"

Everyone nodded in agreement.

In just a few minutes, they had covered three kilometers.

Looking from the distance...

Ahead of them was indeed a vast wasteland.

In an area of the wasteland, there were several towers built up with stones.

Over there...

It was the stronghold of the Devil Tower Society.

“I’ll leave the rest to you. Brother Sword Fanatic and I have to go now.”

Fang Qiu said to He Gaoming.

“Okay.”

He Gaoming nodded with understanding.

Fang Qiu and Sword Fanatic looked at each other, nodded at the same time, and quickly flew toward the front.

Shortly after...

They rushed straight to the stronghold of the Devil Tower Society. With a flash, they entered a stone tower and completely hid themselves.

Both of them were very fast.

Therefore, the members of the Devil Tower Society did not notice it at all.

On the other side...

Watching John Doe and Sword Fanatic left...

He Gaoming immediately waved his hand and shouted at these brothers, "Brothers, speed up and destroy the Devil Tower Society!"

In an instant, the brothers became excited.

Everyone immediately sped up.

They rushed straight to the stronghold of the Devil Tower Society quickly.

However...

In contrast, the speed of He Gaoming and the others were not fast enough, so they were soon discovered by the members of the Devil Tower Society.

Without hesitation...

The members of the Devil Tower Society immediately used their thermal weapons, aimed at He Gaoming and the others from a distance, and shot at them wildly!

Several members, who had about sixth-class or seventh-class strength, flew out of the stronghold directly. They waved their weapons and rushed toward He Gaoming and the others.

"Kill!"

He Gaoming shouted angrily. While quickly dodging the bullets, he took the lead in rushing into the stronghold of the Devil Tower Society and fought those sixth-class and seventh-class members.

There was a big gap between their strengths.

Almost in an instant, those sixth-class and seventh-class members were killed by He Gaoming.

Then...

The other brothers rushed in together and quickly started killing other members one by one, without mercy.

When the members of the Devil Tower Society realized that they were no match for He Gaoming and the others, they set off bombs.

“Boom...”

A loud explosion sounded in the air.

...

In the fortress base...

“Fourth Venerable, Fifth Venerable!”

A man in black ran into the room and said, “We received the news from the members we’ve sent out, reporting that the Devil Tower Society three kilometers away in the southwest has found some people from an unfamiliar force, who are combating the members of the Devil Tower Society.

“So far, no gurus have been found!”

In the room...

Hearing that, two middle-aged men, one in a blue robe and the other in a green robe, looked at each other and curled their lips into a sneer at the same time.

“As expected, they show up!”

Fourth Venerable, the one in a blue robe said, “It’s just a small force, but we had to take action to deal with the trouble they caused, which wasted a day of my time. Damn it!”

“Fourth Brother, now that they have come out, it’s time for us to act. This time, Lord Virtuous has given a strict order. As long as those people show up, we must kill them!”

Fifth Venerable, who was wearing a long green robe, reminded Fourth Venerable.

“Then what are we waiting for?”

Fourth Venerable said, “The sooner they get killed, the earlier the game is over!”

With that...

He immediately stood up and walked out.

Fifth Venerable followed closely behind.

And behind them, followed by the eight gurus and a large crowd of men in black.

Chapter 1534 One Fight Against Two Venerables!

There were only three kilometers away.

It took only a few minutes for Fourth Venerable and Fifth Venerable to bring their men to the stronghold of the Devil Tower Society.

Just like what Fang Qiu had planned...

When this crowd of people came, He Gaoming and the others had just wiped out the Devil Tower Society.

“There they are.”

At the Devil Tower Society’s stronghold, one of the gurus holding a black awl immediately stood out, pointing at He Gaoming and the others, and said, “It seems that the guru who attacked us last time is not present.”

“Oh?”

Fourth Venerable narrowed his eyes and looked around carefully. After ensuring no one was around and that He Gaoming and the others were tensed up, he nodded slightly.

“My Lords, please allow me to combat.”

The other guru holding the black awls held a fist salute and said, “I want to avenge my brother. Our brothers died in their hands. Please give us a chance to personally take revenge.”

“Okay.”

Fourth Venerable waved his hand and said, “I’ll give you this chance. Anyway, they had nowhere to escape, and by the way, let’s wait for that guru and wipe them out at one time.”

“Thank you, My Lord.”

The two gurus holding the black awls immediately stepped forward. They stared at He Gaoming and the others with sinister smiles, and they went straight up with a large group of men in black.

“You ran away last time. Let’s see how you can escape this time!”

Then...

The two gurus holding black awls rushed straight toward He Gaoming and the others. They waved their awls, and with extremely fierce energy Qi, they smashed hard at He Gaoming, who was the leader.

“Combined Attack Sword Formation!”

Seeing that the enemy had sent two gurus over, He Gaoming immediately shouted and immediately formed a Combined Attack Sword Formation with the other eight brothers including Liang Fen. They quickly rushed toward one of the gurus.

“I’ll leave the rest to you.”

While surrounding a guru, He Gaoming called out to Li Boqing.

Among these brothers...

Li Boqing looked solemn.

He was a ninth-class cultivator with one opened meridian, but his opponent was a guru.

The other brothers were only at the level of the eighth-class with one or two opened meridians. Even if the opponent was an incapable guru, with his strength, Li Boqing could only resist for a while at most.

Once the opponent shifted his target to the other brothers, could Li Boqing protect them?

“Brother Li, let me help you.”

Just when Li Boqing felt the great pressure, a voice suddenly was heard.

As the voice came into his ear...

A wooden puppet as tall as a man walked up to Li Boqing, and stood with him shoulder to shoulder, facing the other guru who was rushing toward in this direction.

Upon seeing the puppet...

Li Boqing immediately breathed a sigh of relief.

The strength of this puppet was literally at the peak of the ninth-class.

Li Boqing couldn't defeat a guru alone. However, with the help of a puppet at the peak of the ninth-class, who was not afraid of pain or injury and didn't need to care about its life at all, things would be different.

“Kill!”

Li Boqing shouted. When the second guru rushed in front of him, Li Boqing suddenly moved, waved the long sword in his hand, and collided it with the guru's awl fiercely.

At the same time, the puppet joined in and attacked the guru wildly.

In a flash...

The two gurus, who led the men in black rushing over, were held back.

“Brothers, kill!”

Seeing the dense crowd of men in black rushing over, one of the brothers suddenly shouted.

More than thirty brothers...

They immediately waved the weapons in their hands and rushed toward the dense crowd of men in black. They rushed straight into the middle of the enemies and fought with them wildly.

In the meantime...

Sword Fanatic was still hiding in the shadows and carefully observing the situation on the entire battlefield. He was ready to make a move at any time.

As for Fang Qiu, he first took a glance at Fourth Venerable and Fifth Venerable and sensed their aura of energy emitting from them. Also, he secretly judged that their strength was a little stronger than that of Sixth Venerable, whom he had met before, but not much.

With his current strength, it was no problem for Fang Qiu to kill these two Venerables.

Even if one or two more Venerables were here, Fang Qiu could still gain the upper hand.

That was why...

Fang Qiu was not nervous at all.

If these two Venerables had any intention of attacking or his brothers encountered danger, Fang Qiu would immediately rush out and help his brothers solve the problem.

Then Fang Qiu observed the battlefield...

The combat was extremely fierce.

Even though He Gaoming and the other eight brothers had surrounded one guru with their Combined Attack Sword Formation, there were too many men in black in the Nirvana Organization. While they were besieging the guru, they had to be vigilant and defend against the attacks from the men in black.

So did Li Boqing and the puppet.

The rest of the brothers were fighting fiercely with the dense crowd of men in black.

Judging from the current situation...

The brothers could resist for the time being, but they probably couldn't hold on much longer.

After all...

There were too many enemies.

"Why has he not come yet?"

After waiting for a long time, seeing that his men gradually gained the upper hand, Fourth Venerable turned his head to look around, but he did not find the powerful guru around.

It seemed that...

He didn't intend to come.

“Don’t waste time.”

Fourth Venerable narrowed his eyes, waved his hand at the other six gurus next to him, and instructed, “Attack!”

With that...

The six gurus moved.

They immediately rushed up. Three of them rushed to He Gaoming and the eight brothers, and another three rushed directly to Li Boqing and the puppet.

“Humph!

“We actually need so many gurus to deal with two ninth-class good-for-nothings.”

Fifth Venerable snorted and said, “The gurus’ strength is getting lower and lower nowadays!”

“Although they are gurus, they are just soldiers.”

Fourth Venerable shook his head and said, “No matter how many such gurus die, it’s not a pity!”

“That’s true.”

Fifth Venerable nodded in agreement.

In the place that Fang Qiu hid...

“Soldiers?”

Fang Qiu heard the entire conversation between Fourth Venerable and Fifth Venerable.

However...

Fang Qiu didn't have time to think about it.

Instead, he suddenly moved, rushed out of the stone tower, and quickly ran toward He Gaoming and the others.

In the meantime...

Sword Fanatic also rushed out from the other stone tower. He quickly rushed toward Li Boqing to help him resist the surprise attacks from the three gurus.

On the other side...

"Whizz!"

The moment Fang Qiu showed up, the sword in his hand flashed.

With a clear sound of the sword, the three incapable gurus, who rushed toward He Gaoming and the others, lost their lives before they could even make a move.

Now, in the eyes of Fang Qiu, these incapable gurus were no different from Half-step Gurus. He could kill them easily.

Fang Qiu killed three incapable gurus with one strike.

Then Fang Qiu moved.

He rushed straight into the Combined Attack Sword Formation of He Gaoming and the others and waved his divine sword.

Fang Qiu decisively killed the gurus besieged by He Gaoming and the others on the spot!

All of this...

It all happened too fast.

Over there...

Fourth Venerable and Fifth Venerable were startled by this sudden scene.

They didn't expect at all that there would be two gurus hidden in the two stone towers in front of them, and they were not ordinary gurus.

With a closer look...

One of them was John Doe.

John Doe had just killed three Venerables, and even Crowning Lord also died in his hands.

In that instant...

Fourth Venerable and Fifth Venerable felt their hairs stand on end.

However...

They had no intention of cowering.

They moved and rushed to John Doe at the same time. Without hesitation, they went straight to attack. They wanted to see if John Doe was really as powerful as the legend.

“Go over there. I’ll leave the rest to you.”

After killing the four incapable gurus, Fang Qiu said to He Gaoming and the others. Then he immediately rushed to Fourth Venerable and Fifth Venerable who were rushing over.

“Brothers, kill them!”

He Gaoming waved his hand.

While shouting angrily, He Gaoming led the other eight brothers to rush toward Sword Fanatic and Li Boqing.

Sword Fanatic fought against two gurus alone.

Li Boqing and the puppet continued to join forces to fight against one guru. He Gaoming and the others surrounded the guru again, and the other brothers kept fighting fiercely with the men in black.

Such a combat situation made all the brothers feel particularly excited and comfortable.

The opponents they were facing now were the most appropriate ones for them to gain experience in real combat.

Apparently...

Fang Qiu deliberately left these four gurus to these brothers.

Meanwhile...

Fang Qiu was already in combat with Fourth Venerable and Fifth Venerable.

When Fang Qiu was in Africo...

Fang Qiu could combat two Venerables alone without being defeated before he made a breakthrough. After the breakthrough, he even killed two Venerables and ten incapable gurus.

Now, with the surge of his strength, it was even easier for Fang Qiu to deal with two Venerables.

“Whoosh.”

Rushing to the two Venerables at lightning speed, Fang Qiu waved the long swords in his hands. With a large amount of internal Qi being input, layers of sword light were immediately emitted from the blades of the two long swords. With an extremely sharp aura, they straightly slashed at Fourth Venerable and Fifth Venerable.

In the face of John Doe’s attack, Fourth Venerable and Fifth Venerable did not dare to hesitate at all. They waved their hands at the same time, showed the gloves they were wearing, and activated all their internal Qi together. And meanwhile, each of them threw a punch at the divine swords in Fang Qiu’s hands.

“Bang!”

A loud collision was heard.

When the two sides collided, the terrifying energy collided and exploded, forming a layer of terrifying energy Qi, which was like a tide, rushed out in all directions with a bang.

The terrifying energy of Qi shook almost everyone on the scene to take a small step back.

With one hit down...

Fang Qiu turned over his wrist and swung his sword at Fourth Venerable and Fifth Venerable again.

The two Venerables saw this.

While they were shocked, they punched out to resist again.

Just now, they had exerted all their strength in that punch. They had thought that they could push John Doe to step backward at least a little if they joined forces.

To their surprise...

John Doe did not step back. Instead, he immediately attacked again.

They didn't expect such a situation at all.

The two Venerables were shocked.

Just then, the second move of Fang Qiu's sword fell.

"Bang..."

The moment the two fists collided with the blade of the swords in Fang Qiu's hands, a torrent of extremely terrifying energy burst out from the divine sword and impacted the fists of Fourth Venerable and Fifth Venerable fiercely.

This force caught Fourth Venerable and Fifth Venerable off guard and instantly sent them flying.

The two Venerables' expressions changed dramatically.

At first, they thought that they should at least be able to fight John Doe to a draw even though they couldn't suppress John Doe together. However, they didn't expect that John Doe didn't exert his full strength in the first collision.

Even in the second collision, John Doe still didn't exert all his strength.

When they realized it...

The eyes of Fourth Venerable and Fifth Venerable were instantly full of horror.

Chapter 1535 Tracking

"How can he be so powerful?"

Fourth Venerable and Fifth Venerable were both panicking.

They had heard that John Doe was terrifyingly powerful a long time ago, but they had never expected that John Doe would be powerful to such an extent.

With a flash of wit...

They immediately thought of Lord Virtuous' order.

Once they found John Doe's whereabouts, they were supposed to report it to Lord Virtuous right away!

It seemed that...

Lord Virtuous already knew that they were no match for John Doe.

“Go.”

Knowing that they could not defeat John Doe, Fourth Venerable and Fifth Venerable immediately shouted and ran away quickly, with no hesitation.

“You want to run away?”

Fang Qiu sneered.

He moved, exerted all his strength, and chased after them instantly.

The long sword in Fang Qiu’s hand emitted a sharp sword light, which was just like a shooting star. It hacked toward Fourth Venerable, who was wearing a blue robe, at an unimaginable speed.

In terms of speed...

Fourth Venerable and Fifth Venerable were no match for Fang Qiu at all.

Therefore, in the face of John Doe’s attack, Fourth Venerable knew that he couldn’t escape. If he blindly ran away, he was sure that he would be hit hard by John Doe’s sword.

Based on the powerful fighting capacity that John Doe had just shown, Fourth Venerable could tell that he couldn’t resist such an attack, no matter what.

The only way was to stop running away to resist with all his strength.

When Fifth Venerable saw this scene...

He didn't dare to delay, nor did he have any intention of helping Fourth Venerable. He simply sped up to flee.

The next moment...

"Bang!"

There was a loud sound.

Just as Fifth Venerable fled about ten meters away, the sword light heavily hit Fourth Venerable's gloves which were emitting black energy Qi.

In a split second, Fourth Venerable was smashed from mid-air to the ground by this tremendous force.

"Whoosh."

Before Fourth Venerable could struggle to stand up, Fang Qiu had already rushed in front of him. Without hesitation, he thrust the long sword in his hand at Fourth Venerable right in the heart.

"Ah!"

Fourth Venerable roared angrily.

He suddenly lifted his hands to block the long sword with his gloves. At the same time, an extremely dense black mist burst out from his body.

It was like a miasma. As soon as the black mist appeared, it quickly covered Four Venerables all over.

On the other side...

Seeing that Fourth Venerable and Fifth Venerable were escaping...

The two incapable gurus, who were fighting fiercely with Sword Fanatic, and another incapable guru, who was fighting with Li Boqing, all turned around and fled without hesitation at the same time.

And the directions they fled in were completely different!

Sword Fanatic did not chase after them.

Li Boqing and the puppet did not chase after them either.

As they all knew, with their strength, even if they could catch up with those three incapable gurus, they would not be able to kill them.

Moreover...

Most importantly...

It was meaningless to catch up with them.

It was because John Doe was dealing with Fourth Venerable. After that, he would definitely chase after Fifth Venerable.

Compared with the Venerable, those three incapable gurus were indeed of no value.

Thus, three incapable gurus ran away.

However, the remaining incapable guru was trapped by the Combined Attack Sword Formation of He Gaoming and the others.

At this moment...

The guru, who was trapped in the Combined Attack Sword Formation, felt really bitter in his heart.

Originally, he didn't intend to collide with this sword formation at all. He was aware that once falling into the sword formation, he couldn't flee if he didn't win.

Unexpectedly...

He was defeated.

Even Fourth Venerable and Fifth Venerable ran away, and so did the others. However, it happened that he was the only one left, and he had to face the siege of so many people.

Thinking of this, the guru was filled with despair.

Just then, Sword Fanatic and the others came over.

They didn't kill the incapable guru directly.

Instead, they surrounded the incapable guru and let He Gaoming fight him one-on-one.

When He Gaoming couldn't defeat him, Li Boqing came up to fight him one-on-one.

And, when Li Boqing couldn't defeat him, it was He Gaoming's turn again.

When this incapable guru's strength was consumed to a weak level, the other brothers took turns fighting him. They simply used this guru as a target to practice.

This guru had no choice but to hold on.

In the end, he could not endure such humiliation anymore and committed suicide.

He Gaoming and the others felt sorry for this guru's suicide for a long time. If the guru hadn't committed suicide, maybe they could have caught him and kept him as a sparring partner.

On the side of Fang Qiu...

Fang Qiu slashed down with his sword.

"Clank!"

A clear sound was heard unexpectedly.

Fang Qiu's long sword seemed to be blocked by something and couldn't pierce it through at all.

"Eh?"

Fang Qiu was stunned.

Fang Qiu took a closer look at Fourth Venerable and noticed that the position of his heart was covered with a layer of bones.

They looked like ribs.

It seemed that all his ribs had been squeezed together to form a shield.

"Whizz!"

When Fang Qiu was observing, Fourth Venerable suddenly straightened up, turned around, and was about to escape.

However...

He ran too slowly.

“Die!”

With a cold shouting...

The divine sword in Fang Qiu’s hand suddenly burst out a layer of extremely sharp sword lights.

“Crack!”

A bone-cracking sound was heard.

The long sword instantly pierced into the layer of bones from the front of Fourth Venerable’s heart through his chest.

Fourth Venerable’s eyes widened.

He lowered his head in horror, looking at the long sword that had completely pierced through his heart. Then he turned his head and took a look at Fang Qiu in hatred. After that, the layer of black mist around Fourth Venerable dissipated, and his body leaned forward feebly. He fell to the ground heavily and died.

Fang Qiu loosened his right hand.

The divine sword shattered into pieces and dispersed in the air.

After glancing at the dead Fourth Venerable on the ground, Fang Qiu turned to look at He Gaoming and the others.

It turned out that...

Everyone was staring at him.

“There’s another Venerable. I’ll go chase after him.”

With a casual glance, Fang Qiu understood the situation of the combat. After saying that, he moved and rushed toward Fifth Venerable.

“How on earth powerful is the eldest?”

“I used to think that the oldest was a guru, but now, it’s obvious that his strength is far beyond a guru.”

“The two Venerables are no match for the oldest. The oldest is too awesome!”

The brothers were all amazed.

Indeed...

They had never expected that John Doe would be so powerful!

John Doe’s strength was simply too frightening.

On the side of Fang Qiu...

Fang Qiu had been focusing his Divine Consciousness on Fifth Venerable. In fact, with his strength, it was absolutely no difficulty for him to kill both Venerables.

The reason why he killed one and left the other alive was that he wanted to leave a clue.

After all, inside the stronghold of the Nirvana Organization, there was a Relic Mysterious Realm that Fang Qiu hadn't known how to open it.

It was used as a stronghold by the Nirvana Organization.

Then, there must be something important in the Relic Mysterious Realm.

Thinking of the endless supply of incapable gurus in Zhongdong from the Nirvana Organization, Fang Qiu speculated that there was probably a method to quickly become a guru hidden in this Mysterious Realm.

Fang Qiu had always been curious about how the Nirvana Organization cultivated people to become gurus in a very short time.

The last time he was in Africo...

Fang Qiu suspected that there was a method of quickly cultivating a guru in the stronghold of Africo. However, after destroying that stronghold, he didn't find any clue about the so-called method of becoming a guru quickly.

It was certain that there was no such method in the stronghold of Africo.

In that case, the method of quickly becoming a guru should be hidden in a more secretive place than the stronghold of Africo.

Undoubtedly, the Relic Mysterious Realm in the stronghold of Zhongdong was one of the most secretive places.

Perhaps...

It was really hidden in it.

Even if it was just a guess, Fang Qiu didn't want to miss such a good opportunity.

Anyway, his ultimate goal was to completely destroy this base of the Nirvana Organization in Zhongdong. In this case, he would have to destroy it along with the Relic Mysterious Realm.

Before destroying the Relic Mysterious Realm, Fang Qiu had to figure out the situation in it first.

Therefore...

Fang Qiu left one alive.

He let Fifth Venerable take him into the Mysterious Realm.

...

Two kilometers away...

Fifth Venerable kept looking back while running away. He was afraid that John Doe would catch up with him.

In front of John Doe, Fifth Venerable really had no strength to fight back at all.

"Toot, toot, toot..."

As he ran away, Fifth Venerable took out his cell phone and dialed a number.

“Hello?”

A short while later, the phone was connected.

“Lord Virtuous, I found John Doe.”

Fifth Venerable said in a little panic.

“Where is he?”

The voice of Lord Virtuous was heard over the phone.

“He is in Zhongdong, three kilometers away from our stronghold. Fourth Venerable has been entangled by John Doe. I don’t know how he is now. He may have been dead.”

Fifth Venerable said in a panic.

“I got it.”

Lord Virtuous nodded knowingly and said, “You’re no match for John Doe. Find a chance to avoid him for the time being. I’ll set off right away.”

After that, Lord Virtuous hung up the phone.

Fifth Venerable heaved a sigh of relief.

Since Lord Virtuous had said so, he would not have to take the blame for the failure of this mission.

However...

At present, the most important thing was to find a safe place to hide, waiting for Lord Virtuous to arrive.

Fifth Venerable turned his head and swept around.

After making sure that John Doe didn't catch up with him, Fifth Venerable quickly put away his cell phone and then carefully fled in a direction.

It was just that...

He didn't expect that...

Fang Qiu, who was behind a stone pile hundreds of meters away, had heard everything Fifth Venerable said.

"Lord Virtuous!"

Thinking of the unparalleled strength that Lord Virtuous had shown before, Fang Qiu couldn't help turning his hands into fists.

This time, there were so many brothers around.

Once Lord Virtuous personally came, the brothers would be in danger.

"I have to end this combat as soon as possible."

Fang Qiu made up his mind.

Then he continued to chase after Fifth Venerable.

As Fang Qiu knew, in any case, Fifth Venerable and the others would return to the Relic Mysterious Realm eventually because it was the safest place for them.

As expected...

As Fang Qiu secretly followed behind...

Fifth Venerable soon arrived at the foot of a mountain.

It happened that...

Those three incapable gurus, who had escaped from the other directions, also came to the foot of this mountain. They joined up with Fifth Venerable.

“Have you been followed?”

As soon as they met, Fifth Venerable looked around vigilantly and asked.

“No.”

The three gurus immediately shook their heads.

Hearing that...

Fifth Venerable carefully checked the surroundings. Then, he immediately led the three gurus to detour. They went zigzag while observing the situation.

After taking a big detour, they finally returned to the outside of the fortress base.

In the end, they re-entered the base.

Fang Qiu quietly entered the wall trench. He took a closer look. Sure enough, Fifth Venerable and the three incapable gurus immediately started to open the ancient ruins as soon as they came back.

Chapter 1536 The Way to Become a Guru Quickly

In the wall trench.

Fang Qiu stared at Fifth Venerable and the other three gurus through the observation hole.

After returning to the base, Fifth Venerable, who had been nervous along the way, finally heaved a sigh of relief and relaxed a lot.

However, he was still on high alert.

When he walked to the center of the square and was about to open the gate of the ruins, he deliberately turned his head to look around. After reconfirming that no one was around, he immediately stretched out his right foot.

He stomped hard on a flat area of the ground.

Upon a closer look...

There was no trace on the ground. It looked like an ordinary floor without even a crack.

However, when Fifth Venerable stepped on it, the area that was about the size of a foot caved in.

Following that...

An energy fluctuation emanated from the depression in the ground.

Layers of spatial ripples spread out, quickly forming a gate to the ruins in the center of the square.

The gate of the ruins was not large.

There was nothing on it either.

It seemed that it could be entered at any time.

As expected...

The moment the gate of the ruins opened, Fifth Venerable and the others didn't pay any attention to it at all. They walked straight into the Relic Mysterious Realm.

Without any obstruction, Fifth Venerable and another three walked straight in.

Until they entered the Mysterious Realm and the entrance of the Mysterious Realm completely dissipated, Fang Qiu jumped out of the wall trench. He walked to the square and took a closer look, but he did not dare to enter rashly.

After all, he didn't know what the situation was inside for the time being. If there was an ambush inside, or there were a few Venerables or even Lord Virtuous inside, it would be very troublesome.

After all...

Fifth Venerable had just called Lord Virtuous. Fang Qiu couldn't hear their conversation over the phone, so he wasn't sure where Lord Virtuous was.

Now, it seemed...

Fang Qiu could only continue to observe and see if anyone would open the gate of the ruins again.

While thinking, Fang Qiu carefully observed the location of the gate of the ruins, and at the same time, he used his Divine Consciousness to scan the situation outside.

Not long after...

“Rumble...”

Suddenly, the roar of the engines was heard.

With a stir of his mind, Fang Qiu immediately rushed into one of the rooms in the base and hid.

After a while...

“Crack!”

He heard the sound of the base’s door opening.

Fang Qiu hid in the room, quietly revealed one of his eyes, and carefully observed the situation outside.

It turned out that...

The gate was completely opened.

And two trucks drove in from outside.

Upon a closer look...

The people sitting in the two trucks were all ordinary beings. They were all armed, with tattoos all over their bodies, looking particularly scary.

“They are from the Bone Sickle Society?”

Fang Qiu raised his eyebrows.

From their outfits and the symbol on the two trucks, they were supposed to be members of the Bone Sickle Society, an organization that belonged to this base.

Moreover, there was a large amount of food loaded in the two trucks.

The car stopped in front of the gate of the ruins and adjusted to the proper positions, looking like they were ready to enter the relics.

They got out of the trucks, and one of them made a phone call.

Judging from the phone call he made...

He should be calling somebody in the Relic Mysterious Realm. It seemed that they were delivering food to the people inside the Mysterious Realm.

So...

Fang Qiu got the clue.

Back then, the Bone Sickle Society provoked the armies of the three major countries and were besieged by their armies, but they escaped. It turned out that they hid in this Mysterious Realm. That was the reason why the people of the three major countries could not find them at all.

As for the reason why the Nirvana Organization helped them, it was very likely that they wanted to put a protective shell on their stronghold in Zhongdong.

The Nirvana Organization took the base of the Bone Sickle Society as a cover, which was equivalent to adding a layer of insurance to the Relic Mysterious Realm.

In this way...

The base of the Nirvana Organization in Zhongdong was even more secret.

Thinking of this, Fang Qiu quickly spread out his Divine Consciousness and sensed that He Gaoming and the others were far away, so they couldn't come over in a short time.

Fang Qiu felt a little relieved.

It was not until then that Fang Qiu moved.

He quietly came to the front of a room near the trucks and hid there.

Just then...

The gate of the ruins opened again.

A man in black came out from inside. He waved at the two trucks filled with food and urged, "Hurry up."

The armed men from the Bone Sickle Society did not dare to delay a second. They immediately got in the trucks and drove inside the Relic Mysterious Realm.

When the first truck just started...

Fang Qiu moved in a flash and rushed to the bottom of the second truck. He immediately stuck to the bottom of the truck, taking advantage of the truck to take him in.

Shortly after...

The truck entered the Relic Mysterious Realm.

And the gate of the ruins closed.

As soon as he entered, Fang Qiu immediately sensed that the Qi of Heaven and Earth in the Relic Mysterious Realm was so rich that it was amazing. It was even richer than that in another Relic Mysterious Realm that he had found for his brothers.

“There’s definitely a huge jade mine inside this relic!”

Fang Qiu thought in shock.

As he knew, the richness of the Qi of Heaven and Earth in the relic had a lot to do with the scale of the jade mine. Since the Qi of Heaven and Earth here was so rich, the jade mine inside must be very large.

Halfway through the truck.

Fang Qiu detected with his Divine Consciousness and found that no one was around. He immediately let go of his hands and crawled out from the bottom of the truck.

Then...

He got up and glanced around.

The scenery in the relic came into his sight.

It turned out to be an enormous mine.

In front of the mine, there was a spacious square with nothing around, except for a huge stone tablet standing in the middle.

The stone tablet was engraved with inscriptions in both Anglanish and Huaxianese.

Now...

Fang Qiu was sitting in the square blatantly, without any cover in all directions, and a few people were walking in the distance.

“Hiss...”

Taking a deep breath, Fang Qiu immediately got nervous at such a situation.

Just then...

“What are you doing here?”

Suddenly, a man in black came over and questioned Fang Qiu, who was also dressed in black.

“I just showed the way to the food-delivery truck drivers.”

Fang Qiu hurriedly stood up.

“Hurry up! Go to unload the cargo!”

The man in black glared at Fang Qiu fiercely. When he was about to turn around to leave, he suddenly paused. He turned his head to stare at the Fang Qiu and said, "Wait. Why do I feel that you look a little familiar?"

"Crack."

As soon as the man in black finished speaking, Fang Qiu stretched out his hands to spin the man's head by 180 degrees.

Fang Qiu put his arm around the man's shoulder.

Fang Qiu controlled the man's body with his internal Qi, pretending to chat with him while walking, and quickly walked toward the stone tablet in the middle of the square.

When they got closer...

Without hesitation, Fang Qiu stuffed the man in black into the groove next to the stone tablet. He randomly waved his hand, and a cloud of sand rushed over and buried the groove.

Fang Qiu turned his head to sweep around, making sure that he didn't attract anyone's attention.

It was not easy to arouse suspicion because the clothes on him were in black just like the people here. Fang Qiu directly stood in front of the stone tablet openly and looked carefully at the inscriptions engraved on it.

Then...

Fang Qiu turned pale.

He found that what was engraved on the stone tablet was the method of how to become a guru quickly from the Nirvana Organization.

This method was created mainly based on certain ancient approaches in Huaxia and mixed with various approaches from all over the world.

In terms of creation alone...

The person who could create such a method was definitely a top-notch genius with fabulous experiences. To create it, he might even have a deep understanding of the various techniques all over the world.

However...

At the same time as he was shocked...

Fang Qiu was also amazed.

As he found, this method of quickly becoming a guru was very powerful and terrifying, but it was the most fundamental way to stimulate the potential of the human body.

The potential of the human body would be completely released by using this method, and at the same time, it would be huge side effects on the cultivator.

The cultivator could only live for 50 years at most.

After all, the human body could not withstand such a forceful consumption.

And every few years, the cultivator would have to experience the pain of paralysis all over, which made his life a living hell.

“Evil. It’s too evil!”

After reading it...

Fang Qiu was too shocked.

According to the records on the stone tablet, this was simply a way to change one's fate against natural law. Even ordinary people could become martial arts practitioners or even break through to the Guru Realm through this cultivation method!

At this point...

Fang Qiu finally understood why the Nirvana Organization could have so many gurus.

It turned out that most of the gurus were ordinary people whose strengths had been forcibly improved.

If the Nirvana Organization wanted martial arts practitioners to be forcibly improved, it would be difficult to find so many.

Finally, Fang Qiu found out the source of the incapable gurus.

Fang Qiu quickly wrote it down. Maybe he could find a way to deal with the incapable gurus in the future.

After that, he looked around again and then quietly walked toward the mine ahead.

The mine was divided into three floors.

There were ten caves on each floor.

There were a total of 30 caves.

On the side of the mine, stood several buildings.

Right now...

The two trucks carrying food were parked next to the buildings. It looked like the members of the Nirvana Organization should live in those buildings.

Fang Qiu could clearly feel Fifth Venerable's aura from the buildings.

"Since those buildings are provided for the members of the Nirvana Organization to live in, what are these 30 caves for?"

Fang Qiu was puzzled.

Fang Qiu chose a cave nearby and sneaked in quietly.

And he found that...

In the depths of this cave, there was a person sitting there. He was using the method recorded on the stone tablet to break through to the guru realm.

"Damn it!"

With an idea coming up in his mind, Fang Qiu directly flashed up and hit the person hard in the chest, killing him on the spot.

One was killed.

Fang Qiu quickly sneaked into the next cave.

He saw the same situation there.

“Thirty caves in total?

“That is to say, 30 people’s strengths can be quickly improved to the guru realm in these caves at the same time?”

When this idea popped up into his mind...

Fang Qiu left the cave quietly.

He had already killed one, so he didn’t dare to make another move for the time being.

If he continued to kill and accidentally caused a disturbance, he would be in trouble.

After leaving the second cave...

Fang Qiu took glanced at the two trucks and noticed that all the food had been unloaded. They were supposed to leave soon.

Without hesitation...

Fang Qiu quietly approached the fleet and sneaked under one truck again. When the truck started, Fang Qiu began to observe the surroundings.

He saw someone stepping heavily on a place.

Then the gate of the ruins appeared again.

And the trucks drove out of the Relic Mysterious Realm.

Chapter 1537 Explode the Nirvana's Relic Mysterious Realm

Knowing how to leave the Relic Mysterious Realm, Fang Qiu came out of it with the truck, without noticing during the whole process.

When the trucks came out, they didn't stop but drove straight outside the stronghold.

Fang Qiu got out from the bottom of the truck quietly.

Until the trucks drove far away and the gate of the stronghold was closed, Fang Qiu leaped out of the stronghold and rushed to the high mountain where He Gaoming and the others had ambushed before.

With the help of his Divine Consciousness, he distinctly sensed that He Gaoming and the others were right on that mountain.

It seemed that...

However, they didn't dare to break in rashly.

The moment Fang Qiu leaped out of the stronghold, He Gaoming and the others on the mountain saw him.

"The oldest."

As soon as Fang Qiu arrived, everyone immediately came up to surround him.

"Brother John Doe, did you enter that Relic Mysterious Realm?"

Sword Fanatic asked.

“Yeah.”

Fang Qiu nodded affirmatively and said, “I just went in to check the situation.”

“What’s going on inside?”

Sword Fanatic asked.

“There are a lot of people inside.”

Fang Qiu frowned and said, “Well, except for Fourth Venerables, all others are incapable gurus, but there are too many of them. Moreover, I found out the method of quickly becoming a guru there. Many people are using that method to break through to the guru realm. If we just let them be, it won’t take long for the Nirvana Organization to have hundreds or even thousands of gurus!”

After Fang Qiu said that...

Everyone’s expression changed.

“There are 30 caves inside, and each cave is a place used for people to sprint to become a guru. That is to say, they can be measured by 30 people in a batch and made such incapable gurus by batches.”

Fang Qiu explained, raising his eyebrows.

“No wonder there are so many gurus in the Nirvana Organization. It turns out to be like this!”

Sword Fanatic’s face also became serious. As he knew, what the information that Fang Qiu had told them meant. If they left the Nirvana Organization alone to make mass production of gurus, the power of the Nirvana Organization would grow bigger and bigger, and the problem would become more and more serious.

And it might even form a guru army eventually.

In that case...

It would not be so easy to fight back against the Nirvana Organization again.

"In such a situation, we can't defeat them at all," He Gaoming said with a frown.

Then he asked, "What should we do?"

"Indeed..."

Sword Fanatic also nodded in agreement. He looked at Fang Qiu and said, "Based on the current situation, we are no match for them. What do you think we should do next?"

"Fight!"

Fang Qiu said decisively.

"Hmm?"

"Fight?"

"How to fight?"

Everyone was puzzled about what Fang Qiu meant.

Apparently, the Nirvana Organization had a great advantage in the current situation, and they were no match at all. Even if John Doe could kill Venerables, there were so many gurus in the Mysterious Realm of the Nirvana Organization. If John Doe went there alone, he would definitely be besieged.

No matter how powerful John Doe was, it was difficult for him to destroy the Mysterious Realm by himself.

But if the brothers followed him to fight together, how could they defeat so many gurus?

Once the fight broke out, their team would suffer heavy casualties, without a doubt.

However...

Everyone was clear.

Fang Qiu would never let them court death. Since he had decided to fight, he must have thought of a way.

“Since we can’t defeat them head-on, why not play dirty tricks on them?”

Fang Qiu sneered, “They had no idea that we have detected the situation inside the Mysterious Realm at all, so we can go straight to blow them up with explosives.”

When everyone heard this...

All of a sudden, their eyes lit up.

That was right!

Why did they have to fight head-on?

“That’s a good idea.”

Sword Fanatic smiled.

“I have grasped the method of how to enter and leave Mysterious Realm. You can set off right now. Just follow the two trucks of Bone Sickle Society to go to their real stronghold to find explosives and then wipe them out, by the way.”

Speaking of this, Fang Qiu paused for a moment and then continued, “But, you guys must do it quickly. As far as I know, the reinforcements of the Nirvana Organization are already on their way here, and probably Lord Virtuous is the leader. I’m no match for him at present, so we must destroy this place as soon as possible before he arrives.”

“Got it.”

He Gaoming knew the seriousness of the matter, so he immediately nodded and responded. Then he quickly chased after the two trucks with several brothers.

And the rest of the brothers stayed in place.

Fang Qiu and Sword Fanatic continued staying to observe the situation of the Mysterious Realm.

Soon...

He Gaoming returned alone from the Bone Sickle Society’s base with two full sacks of explosives.

“How was it going?”

Fang Qiu asked.

“We didn’t attack the Bone Sickle Society’s base but just stole the explosives in a rush. The other brothers are monitoring them there. I’m afraid that it will arouse the vigilance of the Nirvana Organization if we attack the Bone Sickle Society.”

He Gaoming explained.

“That’s all right.”

Fang Qiu nodded in agreement.

Fang Qiu originally planned to eliminate all the members of the Bone Sickle Society secretly and quietly. There were no martial arts practitioners at the Bone Sickle Society, just some ordinary people. With the strength of He Gaoming and others, they could easily do it.

But, He Gaoming’s handling method was not bad though.

As long as they were not noticed by the people of the Bone Sickle Society when they stole the explosives, everything would be fine.

One sack each for Fang Qiu and Sword Fanatic.

They took the explosives from He Gaoming.

Fang Qiu opened it and took a look.

To his surprise...

They were all superfine detonators.

Such a detonator was more powerful than a grenade, and the detonators were almost tied together every three per bunch. If they exploded, they would be very powerful.

“These two sacks of detonators are enough to blow up the inside of Mysterious Realm.”

Fang Qiu said, then turned to look at Sword Fanatic and added, “When we enter, you take care of all the caves in the mine and leave the rest to me.”

“Okay.”

Sword Fanatic nodded with understanding.

“Let’s go.” Fang Qiu waved his hand.

Then he quickly flew to the fortress base at the foot of the mountain with Sword Fanatic. They arrived at the gate of the ruins.

Without any hesitation, Fang Qiu stepped heavily on the ground under his foot.

While stepping on the ground, he took a step back.

“Move.”

The moment the gate of the ruins appeared, Fang Qiu ordered and then immediately entered it.

Sword Fanatic followed closely behind.

Sword Fanatic scanned the situation at a glance and understood Fang Qiu’s plan inwardly.

They walked into the Mysterious Realm.

The people inside did not notice their arrival.

They looked at each other and then walked toward the mine side by side.

They arrived at the center of the square.

Fang Qiu took out a bunch of detonators from the sack and put them below the stone tablet, where the cultivation method of the incapable guru was engraved.

Just then...

“What are you doing?”

A man in black suddenly came over and pointed at Fang Qiu. It seemed that he didn’t see Sword Fanatic whose clothes were in different colors.

Sword Fanatic quickly leaned to one side and use the stone tablet to block the man’s sight.

“Well, I’m here to carry the food,” Fang Qiu hurriedly explained.

As he spoke, he leaned toward the man in black and said, “Two sacks fell from the two trucks that delivered the ingredients just now, and I was assigned to carry them over.”

“Where’s the other sack?”

The man in black glared at Fang Qiu, then bypassed the stone tablet and fixed his eyes on the other sack.

When he was about to nod in agreement...

The man in black suddenly noticed a person standing behind the sack, a man who was not wearing black clothes.

“You!”

The expression of the man in black changed. He immediately pointed at Sword Fanatic and was about to shout.

Just then...

A hand suddenly reached out, covered his mouth, and then exerted force.

“Crack!”

A crisp sound was heard.

The man in black could not even react before his neck was broken by Fang Qiu.

This was the second one killed by Fang Qiu.

Fang Qiu threw this man to the place where he had just buried the detonators.

“Wait a second.”

Sword Fanatic voiced out and pulled the body over. Using the stone tablet as an obstacle, he quickly took off the clothes on the body of the man and wore them on himself.

“Let’s go.”

After changing his clothes, Sword Fanatic grinned and said, “See you later.”

“Hmm.”

Fang Qiu nodded.

Sword Fanatic, who now was in black, swaggered out with the sack on his shoulder. When he met someone asking him, he simply said that he went to distribute food.

As a result, he bluffed it out.

When no one asked him further questions, Sword Fanatic began to set up the detonators at ease.

He set up enough detonators in every cave. He used up all the detonators in the sack.

If these detonators exploded at the same time, the entire mountain would collapse in an instant.

When he had done all this...

Sword Fanatic swaggered out and looked for Fang Qiu around.

He was surprised to see that Fang Qiu was already waiting for him at the exit.

“How’s it going on your side?”

Sword Fanatic came over and asked.

“It’s all ready.”

Fang Qiu nodded and said, "There are detonators everywhere now. With one press on the remote control in my hand, this stronghold in the Mysterious Realm will be destroyed in an instant."

"It's almost the same on my side. I'm sure it can blow up the entire mine."

Sword Fanatic nodded and said.

"It's time to leave."

Fang Qiu stepped on the ground hard. Immediately, the gate of the ruins appeared, and they rushed out quickly.

At the last moment before the gate of the ruins dissipated...

Fang Qiu suddenly pressed the remote control in his hand.

The next moment...

"Boom..."

An extremely loud sound suddenly spread out.

Within three kilometers of the area, the earth was shaking wildly.

In the distance...

In the stronghold of the Bone Sickle Society, which was about one kilometer away from the fortress base, a middle-aged man, whose forehead had a tattoo of the Bone Sickle Society's symbol, suddenly changed his expression while feeling the earthquake. He immediately stood up and looked in the direction of the stronghold of the fortress base.

He realized that something had happened there.

However...

He was not anxious.

Instead, he narrowed his eyes and stood where he was, motionless.

Originally, he was the head of the Bone Sickle Society, and everything of the Bone Sickle Society belonged to him.

However...

With the arrival of the Nirvana Organization, he, as the head, completely lost the dignity he deserved. The entire Bone Sickle Society was forced to become a subsidiary of the Nirvana Organization. Hence, he had always been particularly reluctant to the current situation.

Therefore, even though he realized that something had happened to the Nirvana Organization, he wouldn't be too worried.

Instead...

He wished something happened to the Nirvana Organization. It would be better if this incident could help him get rid of the shackles of the Nirvana Organization.

However...

What on earth had happened?

“Somebody!”

The man raised his eyebrows, called two armed men over, and said to them, “Go and find out what’s going on over there at once. No matter what, don’t get involved. Come back to report to me right after you figure it out!”

Chapter 1538 Extermination!

“Yes, sir.”

The two armed men responded. Then they immediately went out, heading for the fortress base.

As a result...

When they just walked out of the stronghold...

They were stopped by several people.

These people were the brothers led by He Gaoming.

At the beginning...

These two armed men tried to shoot.

As a result, they were directly sent flying with their guns, and even their guns were broken into several pieces.

In such a situation...

These two armed men were dumbfounded.

They hadn't expected that this group of people would have been so terrifying.

In the end...

These two men had no choice but to hurriedly run back.

When the head of the Bone Sickle Society saw his men, who had just gone out, ran back in embarrassment, his expression suddenly changed, and he hurried up to ask them what was going on.

The two men reported it to the head honestly.

The head was also scared.

As he knew, the enemy of the Nirvana Organization must have come to the door.

He had only seen such terrible strength in the members of the Nirvana Organization before. Such a strength did not belong to human beings at all. Their entire organization was coerced by this force.

And now...

He finally understood.

This was not something that he could participate in anymore.

And meanwhile...

In the Mysterious Realm.

Wild explosions sounded.

Almost at the same time, all the places, where whether there were people or not, exploded.

Some of the weaker ones were blown to death in a second.

Those incapable gurus were shaken by the horrible blast waves so badly that they spat out blood one after another. Even Fifth Venerable, who was hiding in the building, was blown away.

And the entire mine collapsed from the explosions.

All the people cultivating in the caves were blown up to mute, only left with a breath.

For a moment...

The entire Mysterious Realm had turned into a purgatory.

Everyone was dumbfounded by the explosions.

They had no idea what had happened at all.

Just then, the gate of the ruins was opened.

“Kill!”

A cold voice was heard.

Fang Qiu and He Gaoming entered the Mysterious Realm at the same time. Then, they rushed to one side respectively. The violent sword Qi shot out wildly in all directions. All the people they saw were almost instantly killed by them.

At this very moment...

The members of the Nirvana Organization had no strength to fight back at all.

Fang Qiu and Sword Fanatic started a massacre!

In just one minute, they had killed many eighth-class and ninth-class experts, as well as six or seven incapable gurus.

As they were killing to their heart's content...

"Who is it?"

An extremely angry roar suddenly sounded.

They looked in the direction of the voice.

In the few buildings that had been blown up, two figures suddenly rushed out of the broken stones and bricks all over the ground.

With a closer look...

One of them was Fifth Venerable, who was wearing a long green robe.

There was a young man in a red robe next to Fifth Venerable. The aura emitted on the young man was even stronger than that of Fifth Venerable.

“John Doe?”

Fifth Venerable’s expression changed greatly when he saw Fang Qiu.

It was out of his expectation that John Doe could find this place.

“Third Venerable, that is John Doe.”

Fifth Venerable shouted at the young man beside him in panic.

“Shut up.”

Third Venerable stared at Fang Qiu with a gloomy face. Then he said angrily to Fifth Venerable, “I’m not blind! I’ll hold you accountable when Lord Virtuous arrives!”

Fifth Venerable’s face turned pale.

“Great. Another Venerable shows up because of the explosion. It appears that I have very good luck today.”

With a sneer, Fang Qiu immediately rushed toward Third Venerable and Fifth Venerable.

“And me.”

Sword Fanatic immediately caught up.

As he knew, there was no problem for John Doe to defeat these two Venerables alone. However, in addition to these two Venerables, seven or eight incapable gurus had just crawled out of the ruins.

Sword Fanatic's goal was to kill the few incapable gurus.

But...

When Sword Fanatic had just flown up...

Fifth Venerable immediately turned around to confront Sword Fanatic head-on.

"Third Venerable, leave this side to me."

While rushing to Sword Fanatic, Fifth Venerable did not forget to tell Third Venerable loudly.

When Third Venerable heard that...

His face immediately turned ashen.

Fifth Venerable had just told him that John Doe was so powerful that they were no match for him at all. But now, when John Doe came to them, Fifth Venerable just ran away like that!

This made Third Venerable very angry.

However...

John Doe had already rushed to him.

"Kill!"

Third Venerable was aware that he couldn't be careless, so he immediately shouted and then instantly burst out all his strength to confront John Doe, who was attacking him fiercely.

Hearing Third Venerable's shout, the seven or eight incapable gurus immediately rushed up and surrounded John Doe.

They left Fifth Venerable to fight with Sword Fanatic alone.

At the same time...

Fang Qiu turned his palm into a fist and threw a punch at Third Venerable with an extremely majestic Qi power.

Third Venerable mobilized all the internal Qi in his body and raised his fist to resist.

"Bang!"

There was a loud sound.

The moment their fists collided...

A huge force surged out of Fang Qiu's fist like a torrent, impacting Third Venerable's fist fiercely and directly dispersing all the power that burst out of his fist.

The huge force ruthlessly impacted Third Venerable's body and sent him flying away.

The next moment...

While Third Venerable was sent flying out...

Fang Qiu clenched his right hand in the air, and the divine sword instantly formed in his hand.

“Swoosh!”

Fang Qiu moved in a flash.

Ignoring Third Venerable who was sent flying by him, Fang Qiu waved his divine sword and rushed to those seven or eight incapable gurus.

They had just been stunned by the explosion of the detonators and suffered some injuries respectively. In addition, they had a huge gap in strengths compared with Fang Qiu. In the face of Fang Qiu’s fierce attack, they couldn’t react at all before they were killed by Fang Qiu on the spot.

And over there...

Seeing that, Third Venerable immediately ran away in an attempt to break out of the Mysterious Realm.

“Die!”

Fang Qiu didn’t give Third Venerable a chance at all. After killing the seven or eight incapable gurus, he rushed up to stab Third Venerable fiercely with his divine sword.

Third Venerable quickly resisted.

Third Venerable burst out all the internal Qi in his body and condensed it into a sun-like ball of red light the size of a basketball in front of him.

The ball of light emitted a particularly terrifying aura. With the wave of Third Venerable’s arm, it straightly smashed toward Fang Qiu.

“Humph!”

Fang Qiu snorted coldly.

He turned his wrist.

“Three-point Shadowless!”

As soon as the first move of the divine sword was launched, three sword shadows burst out in an instant and merged together, condensing into an extremely dazzling sword light. Fang Qiu slashed down with his sword decisively.

Then...

Traces of golden color could be vaguely seen on the blade of the sword light.

The moment the sword light collided with the red energy ball, it cut the red energy ball in half, just like cutting cheese.

Then...

Third Venerable’s eyes were filled with horror when the extremely sharp sword light hacked down.

It was too late for Third Venerable to resist.

He was cut into two halves, dead.

After killing Third Venerable...

Fang Qiu immediately turned around and rushed toward Sword Fanatic’s side to help him kill Fifth Venerable.

“Leave him to me.”

When Fang Qiu was about to make a move, Sword Fanatic suddenly voiced out, "This is my whetstone. You can go to deal with the others."

"Okay." Fang Qiu nodded.

Fang Qiu glanced around and found that almost all the people, who had not been dead during the explosions, stood out from the broken stones and bricks all over the ground.

What he needed to do now was to wipe out all these people!

Upon a closer look...

Among them, there were a few incapable gurus.

Waving the divine sword in his hand, Fang Qiu rushed straight to those people without hesitation. He quickly killed them one by one on the spot.

All the members of the Nirvana Organization must die!

After killing all those people here...

Fang Qiu turned to look at Sword Fanatic.

He saw an earth-shattering sword light burst out over there, which was extremely dazzling.

Fang Qiu waited for a little while.

When the sword light gradually weakened, Fang Qiu saw Sword Fanatic holding a thin and long energy sword, which pierced through Fifth Venerable's chest.

Fifth Venerable was dead.

Seeing this scene...

Fang Qiu nodded silently.

It seemed that Sword Fanatic's strength had improved a lot.

Fifth Venerable was not at his peak, and he was injured by the explosion. However, Sword Fanatic was able to kill Fifth Venerable, which was enough to prove how powerful he was.

After all, Sword Fanatic joined Wulin with his swordsmanship, so his combat capability could not be underestimated.

As soon as the energy sword in Sword Fanatic's hand dispersed, Fifth Venerable fell from the high air to the ground heavily.

"How is it going?"

Turning around, Sword Fanatic looked at Fang Qiu and asked.

"Kill them all."

Fang Qiu answered as he rushed over.

They stood side by side.

Fang Qiu and Sword Fanatic took a glance at the situation in the entire Mysterious Realm and then looked at the corpses all over the ground. After that, they look at each other and burst into laughter at the same time.

What an exciting slaughter this time!

They not only killed over a dozen incapable gurus, but they also killed 30 people who were sprinting to become gurus quickly in advance. At the same time, they also killed the Third, Fourth, and Fifth Venerables.

This was an almost devastating blow to the entire Nirvana Organization.

For Fang Qiu and Sword Fanatic...

They had gained a lot.

“Let’s go,” Fang Qiu called out.

Then he added, “Let’s go to see how it is going with our brothers over there.”

So Fang Qiu and Sword Fanatic left the Mysterious Realm.

Soon, they arrived at the place where He Gaoming and the others were.

“What’s going on inside?”

Fang Qiu asked.

“These people tried to go over there to check the situation, but we stopped them.”

He Gaoming said and then added, "It seems that there is not even a metahuman inside. These people seem to know that they can't afford to offend us, so they simply do nothing but just stay inside."

"I have a mission for you."

Fang Qiu thought for a moment and said, "Don't attack them yet. Ask them to find me a transport fleet as soon as possible. It's of great use to me."

"No problem."

He Gaoming immediately agreed.

"I'll leave here to you. I have to return to the Mysterious Realm to detect the situation and look for clues left behind by the Nirvana Organization."

Fang Qiu said to Sword Fanatic.

"Hmm."

Sword Fanatic nodded knowingly.

"Remember, you must be quick."

Fang Qiu turned around. When he was about to return to the Mysterious Realm, he said to He Gaoming, "Now, there is not much time left for us."

"Don't worry." He Gaoming nodded.

He immediately walked toward the stronghold of the Bone Sickle Society.

After He Gaoming left...

Fang Qiu frowned and returned quickly.

As he knew...

Probably, Lord Virtuous was already on his way or even not far away from them. Fang Qiu's Divine Consciousness had not yet sensed the aura of Lord Virtuous, but he would definitely come.

Fang Qiu had to dig up the fortress base as soon as possible and take away all the jade before Lord Virtuous arrived!

Chapter 1539 Taking Away the Jade!

Fang Qiu went back to the fortress base.

He opened the gate of the ruins once again, entered it, and searched around. He found nothing but the method of quickly becoming a guru engraved on the blown-up stone tablet.

Then...

Fang Qiu began to search inside the Mysterious Realm.

The so-called Mysterious Realm was formed naturally because the energy emitted by the jade mine was too much. Therefore, even though everything in front of Fang Qiu was different from what he saw outside, in fact, the ground he stepped on was exactly the ground outside.

It was just like the jade mine he had excavated before.

In the Mysterious Realm, Fang Qiu stood in the square which had been blown up into ruins.

With a wave of his right hand, a beam of sword light slashed out.

The ruins were cut open immediately, revealing a large number of jade hidden under the ground.

As expected...

Seeing the jade mine under the ground, Fang Qiu couldn't help getting excited.

He waved his hands.

A layer of energy Qi quickly surged out, directly touched the surface of the jade mine, and broke through the soil above.

The next moment...

A large piece of the white flawless jade stone surface came into Fang Qiu's sight.

"What a large jade mine!"

Fang Qiu thought in shock.

He had mined two jade mines. The first one was mined by himself, and the second one was snatched from the Nirvana Organization in Africo.

Now, it seemed that the output of this jade mine was greater than that of the previous two.

Without hesitation...

Fang Qiu immediately condensed a divine sword and began to cut and dig the jade mine quickly while waiting for He Gaoming and the others to come.

...

In the territory of the Bone Sickle Society...

He Gaoming led the brothers into the stronghold of the Bone Sickle Society.

As soon as they entered, they were surrounded.

“Are you courting death?”

He Gaoming raised his eyebrows.

In his eyes, the group of people from the Bone Sickle Society were like ants that could be crushed easily.

Moreover, those people had long been intimidated by He Gaoming’s powerful strength. How could they dare to attack him now?

“It’s hard to say who will die.”

When He Gaoming was about to take action...

In the stronghold...

The man with a tattoo of the Bone Sickle Society’s symbol on his forehead came out with a middle-aged man in black, who was giving off a faint aura.

“Uh?”

He Gaoming was stunned.

He couldn't see through the middle-aged man.

In other words, this middle-aged man was stronger than He Gaoming.

“I was wondering why they dared to attack us. It turns out that he has some backer.”

Li Boqing smiled.

“Get out of my territory. I can pretend that nothing happened. Otherwise, don't blame me for being merciless!”

The head of the Bone Sickle Society narrowed his eyes, staring at He Gaoming and the others.

“Well, give it a try.”

He Gaoming sneered.

He had already guessed the strength of the middle-aged man in black, even though he couldn't see through it. It was because he didn't feel the guru-level pressure from the middle-aged man. That was to say, the middle-aged man was not a guru.

The middle-aged man in black was not a guru, but his strength was stronger than He Gaoming.

Then there was only one answer.

He was a ninth-class expert with two opened meridians.

That was why He Gaoming was not afraid at all.

John Doe was not with them.

But they had Sword Fanatic there.

Not to mention Sword Fanatic, even Wu Sanqing's puppet couldn't be defeated by the middle-aged man in black.

"You want to die?"

Hearing what He Gaoming said, the face of the middle-aged man in black instantly became gloomy.

He moved in a flash.

He rushed toward He Gaoming and the others and was about to attack them.

Just then...

"Whizz!"

A sword hum sounded.

Before the middle-aged man in black could rush to He Gaoming, a beam of sword light suddenly flashed and sent him flying, and he had no strength to fight back at all.

"We don't have time to listen to your nonsense."

Sword Fanatic flew out of the crowd and landed in front of He Gaoming. He stared at the middle-aged man in black coldly and said, "If you wish to survive, do as we say, or I'll kill all of you!"

While Sword Fanatic was speaking...

An extremely terrifying killing intent burst out of his body.

All the members of the Bone Sickle Society were trembling in fright.

The killing intent from Sword Fanatic was too terrifying.

"You... What do you want to do?"

Seeing that the ninth-class expert with two opened meridians was knocked to the ground in an instant, the head of the Bone Sickle Society, who didn't even dare to move in horror, asked in a panic.

"Get me a truck fleet."

He Gaoming said.

Just then...

"Beep, beep, beep..."

The phone in He Gaoming's trouser pocket suddenly rang.

"The oldest?"

It was a call from John Doe, and He Gaoming immediately picked it up.

“Get me some mining equipment and a truck fleet. Speed up.”

The voice of John Doe was heard from the other end of the phone.

“Yes, I will.”

He Gaoming replied.

“Randomly arrange a few brothers to guard over there and let the others come over.”

John Doe added.

“Okay.”

He Gaoming responded and then hung up the phone.

At the same time...

Sword Fanatic waved his right hand.

A beam of sword light flashed, and the fallen ninth-class expert with two opened meridians was killed on the spot.

“I’ll guard here. Randomly leave several brothers to go with them to get what John Doe needs, and the others go there right now.”

Sword Fanatic had heard the phone conversation between John Doe and He Gaoming, so he instructed directly.

“We nine stay here. The rest of you, go over.”

He Gaoming stood out and said to Li Boqing.

Li Boqing immediately returned to the fortress base with his other brothers.

In the stronghold of the Bone Sickle Society...

The ninth-class expert with two opened meridians was the last protection to the Bone Sickle Society. Seeing that he was killed in an instant, they got panicked immediately, for they didn't expect this group of people to be so decisive and merciless.

If they didn't obey, this group of people would definitely kill them all.

There was no other choice.

The head of the Bone Sickle Society had to use his connections to quickly find the truck fleet and mining equipment.

On the other side...

Led by Li Boqing...

The brothers quickly returned to the fortress base.

Upon seeing the brothers...

Fang Qiu immediately opened the gate of the ruins and brought everyone in.

“Do your best to dig up this mine. We'll take away all the jade!”

Fang Qiu ordered.

He knew that it was a very difficult job to dig jade stones.

When he mined the jade back then, his strength got improved a lot because of this.

Now...

These brothers' strengths were just right for mining.

In addition, they were running out of time, so they had to be fast. That was why he hurriedly gathered everyone to do mining.

Of course...

Fang Qiu joined them to do mining, too.

At first, everyone felt it was very difficult to dig, which was to their surprise. With their current strengths, they could have cut through iron easily, but why was it so difficult for them to dig this jade mine?

After mining for a while, some of the brothers had to sit down to recover their internal Qi before continuing to dig.

As they were digging and digging...

Everyone realized that this was a practicing method, so they worked harder.

Shortly after...

He Gaoming and the others drove trucks back with the equipment that John Doe requested.

When they saw the full jade mine, everyone was shocked.

They didn't know what these jade stones were, but they could feel that these jade stones contained the abundant Qi of Heaven and Earth.

And most importantly...

Everyone had seen the jade mine before.

They saw a jade mine when Wu Sanqing tore down his puppet. They knew that these jades could provide the puppet with action capability and enable it to move flexibly.

"Awesome! We are going to make a fortune!"

He Gaoming was overjoyed.

"Oh, my god. there are so many white stones. How many puppets do I have to make to use up all of them?"

Wu Sanqing was also dumbfounded.

"Don't just stand there. Hurry up and dig."

Fang Qiu shouted and asked everyone to do mining together.

And he began to assemble the searching unit of the mining equipment. When it was assembled, Fang Qiu injected his internal Qi into the equipment and began to dig quickly.

Sword Fanatic was not idle either. He knew these jade stones were good things, so he helped mining on the spot.

As they dug, they loaded the jades into the trucks.

Under the command of Fang Qiu...

It didn't take long for them to dig all jades out of the whole jade mine.

When the jade mine was empty, the entire Relic Mysterious Realm quietly dissipated, and everyone found themselves standing in the square of the fortress base.

Each truck of the transport fleet was filled with jade stones.

Fang Qiu did not hesitate.

He ran his internal Qi to envelope all the jade stones, completely isolating their aura.

"Brother John Doe, what are these jade stones?"

Sword Fanatic asked.

"I don't know either."

Fang Qiu shook his head and said, "I only know that there must be such a jade mine vein in every place where the ancient ruins are located. You should have felt that these jade stones contain a large amount of Qi of Heaven and Earth, right? If we can make use of these jade stones, they will be of great help to us!"

Everyone understood.

No wonder John Doe wanted to come back first. It turned out that he came back to find the location of this jade mine.

“Let’s go.”

Fang Qiu said, “We have to get out of here now.”

“Wait a second.”

He Gaoming suddenly voiced out, “What about the Bone Sickle Society? After Sword Fanatic came with us, the members of the Bone Sickle Society probably are going to escape.

“They have done so many bad things and killed a lot of people.

“Should we eliminate them along the way?”

Hearing that...

Everyone looked at John Doe, waiting for his order.

“No.”

Fang Qiu immediately shook his head and said, “The Nirvana Organization is their protection. Without it, they can’t escape anywhere. Even if we don’t take action, they will be targeted by other forces and organizations. They won’t live long unless they turn over a new leaf.

“Now, the most important thing for us is to leave here as soon as possible.”

Speaking of this...

Fang Qiu paused and frowned tightly in an instant.

He sensed at the edge of the area covered by his Divine Consciousness, there was a very powerful person rushing over.

“The reinforcements from the Nirvana Organization are coming soon.”

Fang Qiu’s face turned gloomy. He immediately said, “Don’t say anything more. Take our brothers to escort the transport fleet to leave at once.”

When everyone heard this...

They all became nervous.

“Brother Sword Fanatic, please take care of the brothers and ensure their safety,” Fang Qiu turned to tell Sword Fanatic.

Then he said, “Although our opponent only assigned one person coming to support, he is very powerful. Most likely, it would be Lord Virtuous.

“His target is me, so I can’t leave with you together.

“All of you, drive away right now.”

Fang Qiu urged.

No one dared to delay.

They got in the trucks one after another and drove away in a hurry.

Fang Qiu stayed behind, cleaned up the traces of the trucks, and then said to He Gaoming, "You guys go first. I'll go to lure them away!"

Chapter 1540 Second Venerable Shows Up!

"Go." Fang Qiu waved his hand to the rest of the brothers.

He Gaoming didn't hesitate. He was aware that it was the best choice to leave with the brothers as soon as possible. If they stayed, they would be a burden for John Doe.

Soon, the transport fleet filled with jade stones drove out of the fortress base, heading for the distance at a high speed.

Watching He Gaoming and the others leave...

Fang Qiu quickly cleaned up the traces of the departure of the trucks. Then he immediately walked into a room in the base and hid his aura completely.

Fang Qiu was waiting silently.

He continued to detect the surroundings with his Divine Consciousness.

Actually...

Fang Qiu could have hurried up to leave, but he had a concern. If the comer was Lord Virtuous, he would soon catch up with He Gaoming and the others.

After all, Lord Virtuous was too powerful. He must have his own way to sense it, even though the Qi of Heaven and Earth emitted from the jade stones had been completely blocked by Fang Qiu. No one knew whether Lord Virtuous could feel it or not.

Therefore...

Fang Qiu had to stay to check it out.

If the opponent didn't chase, Fang Qiu would have to hide. If the opponent chased in the direction of He Gaoming and the others, Fang Qiu would have to show up and lure him away.

His Divine Consciousness sensed that the aura was rushing toward him.

But...

With the aura getting closer, Fang Qiu's expression changed slightly.

Fang Qiu realized that the comer's aura was very similar to that of Lord Virtuous, but it was not as strong as that of Lord Virtuous, which was not the type that he could not resist.

"Is it possible another Venerable?"

Fang Qiu wondered.

He immediately thought of the Venerables at the Nirvana Organization.

So far, a total of six Venerables had died at Fang Qiu's hands, and there were only two Venerables left in the Nirvana Organization. They were First Venerable and Second Venerable.

Venerables were ranked according to their strengths.

Fourth Venerable was stronger than Fifth Venerable. Third Venerable was stronger than Fourth Venerable. Hence, First Venerable and Second Venerable must be stronger than Third Venerable.

In the face-to-face combat just now...

Fang Qiu realized that Third Venerable's strength was almost as good as his. The reason why he could kill Third Venerable so easily was up to his recultivation power.

After all, after Fang Qiu recultivated, his strength and speed were much better than those of the experts at the same level as him.

When Fang Qiu was in deep thought...

"Swoosh!"

There was a sound of breaking through the air.

Upon a closer look...

A man in a yellow robe rushed over from a distance.

The man was quite burly and looked like in his forties. At first glance, his temperament was very similar to that of a hero in TV series.

"Is this First Venerable or Second Venerable?"

Seeing the man, Fang Qiu thought to himself.

At present...

Fang Qiu didn't know how to differentiate the rank among the Venerables.

Perhaps, it differentiated according to the colors of the robes on them.

"Who was it? Who did it!"

In mid-air, when the burly middle-aged man saw the empty square in the fortress base, his face instantly turned gloomy, and he was extremely furious.

Apparently...

The Relic Mysterious Realm was gone.

Even the jade mine that supported the Mysterious Realm had been completely dug up, leaving nothing.

This caused him to be extremely furious.

He threw his head back and roared.

Then he narrowed his eyes and looked around carefully.

In the end...

He aimed in the direction where He Gaoming and the others departed.

For the safety of He Gaoming and the others, Fang Qiu had told them to turn around right after leaving the fortress base and leave in another direction to avoid being caught up.

To Fang Qiu's surprise, this burly man found it out.

"It seems that I have to show up."

Fang Qiu gave a wry smile inwardly.

When the burly man moved and rushed in the direction that He Gaoming and the others left, suddenly, a voice in a slightly joking tone was heard.

"Where are we going?"

Fang Qiu came out of the room. He flew up, walked in mid-air, and looked at the man who talked.

"Uh?"

The middle-aged man in a yellow robe was stunned. Suddenly, he turned his head and stared at Fang Qiu.

After a while...

The anger on the face of the middle-aged man in a yellow robe faded away, replaced by a cautious look.

"John Doe?"

Looking at Fang Qiu, the middle-aged man in a yellow robe questioned, "Did you do it?"

"Yes." Fang Qiu nodded affirmatively.

Then he pointed to the corpses scattered around the pit under his feet and said, "I killed all of them."

“You’re courting death!”

The middle-aged man in a yellow robe said through his teeth coldly.

“It sounds like you won’t go against me if I don’t kill your people.”

Fang Qiu sneered, “However, your people, including Third, Fourth, Fifth, Sixth, Seventh, Eighth Venerables, and even Crowning Lord, all died at my hands. Do you think you can kill me?”

“Humph!” The yellow-robed middle-aged man snorted coldly.

His eyes narrowed tightly, with a wisp of bright light flickered in them.

“If I’m not mistaken, with your strength, you should be First Venerable, right?”

Fang Qiu asked.

“It’s unnecessary to bother First Venerable to kill you.”

The yellow-robed middle-aged man said disdainfully.

“So you are Second Venerable.”

Fang Qiu was slightly stunned. He was a little surprised.

He never thought that a Second Venerable could possess such formidable strength.

If that was the case...

How powerful would First Venerable be?

“No, that’s not right.”

Thinking about it carefully, Fang Qiu immediately realized something strange.

From the Qi power, Fang Qiu could tell that Second Venerable’s strength should be about the same as his, so First Venerable’s strength must be a little stronger.

But the problem was...

Nirvana Crowning Lord’s strength was not as strong as Fang Qiu’s current strength. Fang Qiu was already able to kill Crowning Lord back then, so how did Crowning Lord rise to the top?

Weren’t First Venerable and Second Venerable more qualified than him to take the position of Crowning Lord?

“Hmph, go to hell!”

In the face of being questioned by Fang Qiu, Second Venerable had no intention of responding at all. Instead, with a wave of his hands, two pitch-black weapons, which looked like thorny vines shining with lightning, were immediately thrown out of his sleeves.

It could be seen that...

Both weapons were made of dark iron.

The spikes on them were exceptionally sharp.

“Whips?”

Fang Qiu raised his eyebrows.

This was the first time he had met someone who used whips as weapons.

In ancient Huaxia, those who used whips as weapons were mostly women. However, it was a burly man in front of Fang Qiu. It was so incongruous for him to hold whips in his hands.

But...

Before Fang Qiu could make fun of it, Second Venerable suddenly raised his hands and poured all his internal Qi into the whips.

“Crackle, crackle, crackle...”

The black lightning on the sharp iron thorns of the whips suddenly enlarged, wrapping around the two whips, and emitting a terrifying destructive aura.

And meanwhile...

Fang Qiu didn't dare to neglect it.

He immediately ran his internal Qi to condense a divine sword.

“Kill!”

At the moment when the divine sword was condensed, Second Venerable moved. He spread out his hands behind his back, dragged the two whips covered with black lightning, and rushed toward Fang Qiu at an extremely terrifying speed as a shooting star.

The next moment...

“Whoosh.”

Rushing five meters away from Fang Qiu, Second Venerable suddenly waved his arms behind his back. His two whips wrapped in black lightning immediately lashed fiercely at Fang Qiu from both sides.

Seeing that...

Fang Qiu quickly dodged.

But right then...

Second Venerable moved his arms. The two whips, which were thrown in front of Fang Qiu, seemed to come alive, swam quickly in the air like poisonous snakes, and chased after Fang Qiu.

“The whips can chase after me!”

Fang Qiu narrowed his eyes and immediately waved his sword to fight back.

“Clang! Clang! Clang...”

The whips hit the long sword in Fang Qiu’s hand, causing a burst of flames.

At a glance...

Fang Qiu was suppressed by Second Venerable at the moment of the collision of their weapons.

The whips in Second Venerable’s hands were too long. Even though Fang Qiu blocked the whips with his divine sword, the tips of the whips lashed from another direction.

Besides...

Second Venerable was using two whips.

In this case, Fang Qiu had no choice but to keep waving his sword to block.

“Sword Lotus!”

In the face of Second Venerable’s fierce attack, Fang Qiu had to use ancient swordsmanship to fight back. With the rotation of his wrist, the divine sword condensed into Sword Lotuses in front of him, completely blocking Second Venerable’s attack.

“Hee, hee...”

However, Second Venerable didn’t stop even though Fang Qiu had blocked all his attacks. Instead, he burst out a sinister laugh and continued to slash Fang Qiu wildly with greater force.

“Uh?”

Being sandwiched by the two whips, Fang Qiu instantly felt some great pressure.

He had never felt such pressure from other Venerables before.

But...

With such pressure appeared...

Fang Qiu lit up his eyes.

“How long has it been since I felt such a great deal of pressure?”

The way that Fang Qiu recultivated was to use practical combat pressure to force his strength to improve. However, since he had recultivated to become a guru, he never felt such pressure in combats again.

That was why...

He had to keep thinking to make breakthroughs on his own.

As a result, after he recultivated to become a guru, his strength improved very slowly.

When he fought with Crowning Lord before, he didn't feel this kind of pressure at all. And when he combated Lord Virtuous, the pressure was so great that he could not bear it.

Now, the pressure given him by Second Venerable was just about right.

“Looks like this guy's strength is only one step away from the One-Flower Core Formation Realm.”

In their combat...

Fang Qiu soon felt Second Venerable's real strength.

“In this case, I'll have to push myself again.”

With this in mind...

Fang Qiu immediately got rid of the scruples, completely abandoning the intention of preparing a big move to confront the opponent head-on. Instead, he simply used his practical combat experience and means to confront Second Venerable moves one by one.

Thus, he would make use of the pressure given by his opponent to force out his potential.

“Clang! Clang! Clang...”

The sounds of intense collisions could be heard constantly.

Fang Qiu and Second Venerable collided with each other wildly. Their strengths were almost the same. In addition, Fang Qiu deliberately controlled his force and speed. In this case, their strengths were completely at the same level.

Then...

In the wild combat, Fang Qiu kept forcing himself to run his internal Qi at a faster speed and make quicker reactions.

In the blink of an eye...

They exchanged nearly a hundred moves.

As Second Venerable fought more and more fiercely, Fang Qiu deliberately controlled his force and speed, so he was gradually suppressed by Second Venerable.

Under such pressure...

Fang Qiu ran his internal Qi faster and faster. His muscles tensed up to an unprecedented extent, and the speed of each reaction reached its peak.
