Chapter 1651 Getting the First Highly-skilled Doctor Certification

Undoubtedly, everyone was shocked by the performance of Fang Qiu.

No one knew how Fang Qiu could perform so many acupuncture techniques. Even Fang Qiu's teacher, Xu Miaolin, felt his scalp go numb when he saw Fang Qiu perform these acupuncture techniques.

It should be noted that Xu Miaolin was a holy doctor and a highly-skilled doctor in all subjects before.

Even he didn't know how to perform these acupuncture techniques.

"Aargh..."

Just when everyone was shocked, a particularly embarrassing voice suddenly sounded on the scene. It was a very comfortable groan.

The moment the moan appeared, everyone present couldn't help but be stunned.

Everyone on the livestream channel on the Internet was also dumbfounded. They wondered if the streamer was not watching the live stream at all but secretly watching porn.

Fortunately, the moan only lasted for a short while.

Soon, everyone came to their senses. The moan came from the patient who was receiving Fang Qiu's acupuncture treatment.

At this moment, everyone's eyes were focused on the patient.

Sitting on the chair, he raised his head to moan a few times with a happy face.

Then, he seemed to find that it was a little inappropriate for him to moan, so he quickly withdrew and looked around awkwardly, saying, "I'm sorry, I really couldn't help it."

Hearing this, everyone couldn't help laughing.

The moan just now was truly embarrassing.

"How are you feeling now?" Fang Qiu asked timely before the acupuncture was done.

"I feel great. It's very comfortable."

The patient said directly, "I feel warm all over, just like being carefreely basking in the sun in a very cold winter. It's amazing."

"Don't be embarrassed."

Fang Qiu nodded with a smile and said, "If there's anything you want to express, just express it directly. People need to be released, and so do diseases. Only when you completely release your feelings can you feel your true self and freedom."

As soon as Fang Qiu finished speaking-

Poof!

Everyone couldn't help laughing.

"Feel his true self and freedom?"

“If that guy keeps moaning there, this challenge will have no way to go on.

“Even if he feels free to moan, no one can stand it.”

In the live stream room on the Internet.

Hearing what Fang Qiu said, the audience in the live stream room got even more ecstatic.

However, before everyone could come back to their senses from Fang Qiu’s joke, his acupuncture treatment was already done.

“It’s done.”

After the acupuncture, Fang Qiu didn’t retain the needles like Dr. Zhao Lipin but directly removed them the moment he finished the acupuncture.

Seeing this, everyone was all confused.

“He’s not retaining the needles?”

“I’m afraid the effect of the stimulation of the acupuncture points won’t be so obvious, right?”

“Is this a stop-and-go? The treatment needs to last for a certain period, even a few seconds. Otherwise, it will be difficult to achieve the treatment effect.”

The Chinese Medicine practitioners were confused.

“With Fang Qiu’s ability, he should know this, right?”

“Can he really cure the patient without retaining the needles?”

“Fang Qiu has finished his treatment.”

Just as Fang Qiu finished removing the last silver needle, the host said directly, “Next, let’s welcome Dr. Zhao Lipin to examine the patient with the Four Methods to Diagnose a Disease!”

Right after that, all the people on the scene quickly turned their eyes to Zhao Lipin, the highly-skilled doctor.

At the request of the host, Dr. Zhao Lipin quickly walked toward Fang Qiu’s patient to examine him with the Four Methods to Diagnose a Disease.

Looking carefully, one could see that Zhao Lipin didn’t look well.

He was shocked by what Fang Qiu had just shown. He didn’t expect that Fang Qiu would have so many secret skills in acupuncture.

In addition to using the long-lost Mountain-burning Fire Needle Technique, the most praiseworthy thing Zhao Lipin had just shown was that he had retained the needles for a very short time, but it worked perfectly.

But now, Fang Qiu didn’t even retain the needles. The time he used to perform the treatment was also shorter than Zhao Lipin’s.

That was to say, Fang Qiu had completely surpassed him in both the use of time and the use of acupuncture secret skills.

Now, the only thing Zhao Lipin could count on was the final treatment effect.

He was now performing the Four Methods to Diagnose a Disease very slowly and carefully, examining Fang Qiu’s patient in silence.

After a long time-

“This Highly-skilled Doctor Certification belongs to you.”

Zhao Lipin, the highly-skilled doctor, did not say who had won or lost. Instead, he directly took out his own Highly-skilled Doctor Certification and handed it to Fang Qiu.

Seeing what he was doing, everyone knew the result.

There was no doubt that Fang Qiu won.

From the beginning, when the doctors took the initiative to challenge Fang Qiu on Weibo, what they relied on was their Highly-skilled Doctor Certifications, and Fang Qiu seemed to need them.

Although Zhao Lipin didn't admit defeat in person, he was giving Fang Qiu the Highly-skilled Doctor Certification which represented victory or defeat, which was enough to prove the final result.

Everyone on the scene was shocked.

They didn't expect that Fang Qiu would win so quickly, and they didn't expect that Zhao Lipin, the highly-skilled doctor, would really admit defeat.

Hu Rentao and Liu Yiwen were also shocked by what Zhao Lipin was doing.

They had thought that no matter what, Zhao Lipin, the highly-skilled doctor, would never admit defeat.

It was because Fang Qiu was just a junior, and Zhao Lipin felt that what he had mastered was the real orthodox Chinese Medicine.

But they didn't expect that after the examination of the Four Methods to Diagnose a Disease, Zhao Lipin was really shocked by the skills of Fang Qiu.

In the short period of silence after the Four Methods to Diagnose a Disease, he had compared himself to Fang Qiu. He had been defeated in terms of effect, time, and technique.

He was utterly defeated.

The result was unquestionable.

Even if he didn't admit it, the host would invite other highly-skilled doctors of Chinese Medicine on the spot to perform the Four Methods to Diagnose a Disease. In the end, he would definitely fail.

Instead of being defeated by Fang Qiu in that way, it was better for him to admit defeat in person.

"Let's congratulate Fang Qiu for winning the first challenge!"

The host announced the result.

Clap! Clap! Clap!

There came a burst of warm applause on the scene.

In the lives tream room on the Internet, all the people who were watching the live stream couldn't help cheering.

"He won! He won!"

"Fang Qiu is awesome. Billion Fang is awesome!"

"So what if those people are highly-skilled doctors? Can they bully others? They still got defeated by Fang Qiu!"

“Humph, they should know how powerful Fang Qiu is!”

...

On the scene, the highly-skilled doctors who came to the scene to watch the battle all made a hold fist salute to Xu Miaolin to congratulate him.

Xu Miaolin nodded at them with a smile.

However, he was also very curious.

“Where on earth did Fang Qiu learn so many acupuncture techniques?”

Not only Xu Miaolin was wondering.

The other doctors of Chinese Medicine were also particularly curious.

In fact, there was a reason why no one knew about it.

During the period of time when Fang Qiu went to Phlippeanes to help with the rescue, he really learned a lot, and he would study whenever he was free. Not only did he learn the skills from the treasure books on acupuncture but also from the ten highly-skilled doctors who went with him at that time.

The point was that after reading so many ancient books, he had stored a lot of ancient acupuncture techniques in his mind.

However, everyone was merely shocked by what Fang Qiu did back then, so they didn't pay attention to these details.

“I hereby announce that the first challenge match has ended. Next, we shall proceed to the second challenge match.”

After the results were announced, the host immediately began the next part and said, “Next, let’s welcome the second pair of patients.”

Under the guidance of the staff, two patients came out of the patient’s lounge, came to the center of the field, and sat down in the middle.

“The rules of the second competition will be announced by Liu Yiwen, the second highly-skilled doctor.”

The host pointed at Dr. Liu Yiwen and invited him out.

After coming to the center of the field, Liu Yiwen looked at Fang Qiu indifferently and said, “Let’s make this competition simple. We’ll each write the classical prescriptions that can cure this disease. The one who offers more will win. What do you think?”

As soon as he finished speaking, the faces of all the Chinese Medicine practitioners present changed.

In the live stream room on the Internet, Dr. Wang, who was explaining to everyone, also got angry.

“What did he just say?”

In the live stream room, Dr. Wang said angrily, “A senior highly-skilled doctor competes with a young Chinese Medicine doctor on the number of classic prescriptions they have. This is simply bullying.

“Fang Qiu has only been studying Chinese Medicine for a few years while Dr. Liu Yiwen has been learning Chinese Medicine for decades. Chinese Medicine has always attached great importance to experience, especially the classical prescriptions. The more he sees, the more he knows, and the more he can remember.

“Liu Yiwen has mastered numerous classical prescriptions. And he is so aged that he must know more classical prescriptions than Fang Qiu. And yet he’s competing with Fang Qiu about classical prescription. He is so shameless!”

When the audience in the live stream room heard that, they also immediately began to swear.

“I thought the highly-skilled doctor was a highly respected senior. I didn’t expect that he would bully Fang Qiu with great power while Fang Qiu respects him so much!”

“He’s so shameless, isn’t he?”

“Damn. It’s already cheap enough for the three seniors to fight against one. How dare he do such a thing now?!”

For a moment, everyone got furious.

On the scene.

“Okay.”

After hearing the rules mentioned by Dr. Liu Yiwen, Fang Qiu was not nervous at all and directly nodded in agreement.

Seeing that he nodded, everyone on the scene was stunned.

No one had expected that Fang Qiu would agree.

It should be noted that this rule was not fair to him at all.

As such, why did Fang Qiu agree?

Hearing Fang Qiu agree, Liu Yiwen immediately smiled.

In terms of classical prescriptions, he was very confident in himself.

In his opinion, no matter how many ancient books Fang Qiu had read, it was difficult for him to achieve mastery through a comprehensive study of a certain disease. Once he made a tiny error in the classical prescriptions he offered, no matter how many classical prescriptions he gave, it would be useless.

Besides, the more one read, the harder it would be for one to remember all the contents.

Different from other prescriptions, each classical prescription contained the distribution of various medicinal herbs, at least four or five, or even dozens. Ten or a hundred classical prescriptions contained more herbs. Even if one succeeded in memorizing the classical prescriptions, one would tend to make errors while putting them down.

After all, there were many similar classical prescriptions.

Liu Yiwen had been studying Chinese Medicine for decades, and many classical prescriptions had become fixed memories in his mind. “How many years has Fang Qiu studied medicine?”

“He tries to defeat me?”

“It’s simply a pipe dream.

“Even though Zhao Lipin lost, I’ll never lose to Fang Qiu!”

Chapter 1652 The Prescriptions

The host shouted, “Let’s welcome Dr. Liu Yiwen to examine the two patients first.”

Liu Yiwen immediately stepped forward to examine the two patients with the Four Methods to Diagnose a Disease.

Before long, he completed this process.

Liu Yiwen directly said, “The patients’ symptoms are palpitations, chest pain, swelling, and oliguria. It can be also seen that they suffer from abdominal distension and plumpness, cyanosis, etc. Their tongues are purple with bruises, and they have slow pulses.

“This is a typical case of heart failure with deficiency and blood stasis!”

The Chinese Medicine practitioners on the spot nodded one after another.

The main symptoms that Liu Yiwen mentioned indeed belonged to this disease.

The host shouted, “Fang Qiu, please perform the Four Methods to Diagnose a Disease.”

Fang Qiu immediately stepped forward and felt the two patients’ pulses at the same time to examine them.

A while later-

“You deserve to be a highly-skilled doctor. Your diagnosis is very correct. I have nothing else to say.”

When the examination was over, Fang Qiu made a hold-fist salute to Liu Yiwen.

“Since you have nothing else to say, let’s get started!”

Liu Yiwen didn’t fall for Fang Qiu’s trick at all. He waved his hand directly and put on a master’s look. Then, he sat down at the consultation table arranged by the staff and began to write.

However, Fang Qiu began to introduce the disease to everyone.

“Heart failure with deficiency and blood stasis, also called chronic heart failure in modern medicine, is a syndrome of heart failure caused by various heart diseases. In traditional Chinese medicine, it is called heart failure.

“The deficiency of Qi and blood stasis permeate the whole process of chronic heart failure, which is the main pathophysiological basis of this disease.”

After a brief introduction, Fang Qiu also sat down and began to write the classical prescriptions.

“The first one.

“Nourishing Yang Soup Combined with Wuling Powder.

“Radix Astragali: 30g. Radix Angelicae Sinensis: 12g. Radix Paeoniae Alba: 15g. Radix et Rhizoma Dioscoreae: 10g. Radix Chuanqiong: 10g. Rhodiola Saffron: 10g. Peach Kernel: 12g. Rhizoma Zedoariae: 12g. Rhizoma Atractylodis Macrocephalae: 12g. Poria Coccidioides 15g. Poria Coccidioides: 30g. Osmanthus fragrans: 10g.

“For obvious Qi deficiency, add 12g of Codonopsis pilosula, 15g of yam to replenish Qi, and for severe edema, add 30g of Psyllium seed for decoction. Add 12g of Zeran and 6g of Wuga Pi to promote water retention and reduce edema.”

After quickly putting down the first classical prescription, Fang Qiu put it aside.

He continued to write the second classical prescription on the other piece of paper.

The second one was the prescription specialized in nurturing the heart and calming asthma with additional subtractions.

The third one was the Strengthening the Heart and Opening the Meridians Prescription.

The fourth prescription specialized in strengthening Qi and the heart.

The fifth one was the warm heart cream.

...

Fang Qiu kept writing the classical prescriptions.

On the other side, Liu Yiwen didn't stop at all.

Since he sat down, he had been writing and had no intention of stopping at all.

Under the gaze of all the people on the scene and those in the live stream room on the Internet, the two doctors were writing the classical prescriptions very fast.

Not long after, Liu Yiwen wrote down more than 20 classical prescriptions.

Everyone looked at the table where the highly-skilled doctor Liu Yiwen was sitting. When he finished more than 20 classical prescriptions, they all sighed with emotion.

"So many classical prescriptions?"

"That's amazing."

"This is a highly-skilled doctor. He actually has so many classical prescriptions in his mind. It's really amazing."

"This is incredible."

Everyone sighed with emotion.

They had to admit that Liu Yiwen was indeed the most proficient in classical prescriptions among all the highly-skilled doctors.

Normally speaking, it was impossible for anyone to write so many classical prescriptions.

While sighing with emotion, everyone turned to look at Fang Qiu.

They all thought that Fang Qiu was going to lose because he would not gain any benefits in this competition and was taken advantage of by the highly-skilled doctor Liu Yiwen.

In fact, when Liu Yiwen announced the rules of the competition from the very beginning, everyone on the scene, including those who were watching the live stream on the Internet, thought that Fang Qiu would definitely lose.

He would lose because of his age and experience.

However, no one thought that Fang Qiu was inferior to those highly-skilled doctors. Instead, they felt that it was natural for him to lose. It would be strange if he didn't lose.

Moreover, even if he was defeated, it wouldn't mean anything.

However, when everyone's eyes moved from Liu Yiwen to the desk in front of Fang Qiu, they were all stunned.

They saw a thick stack of classical prescriptions that had been written on the consultation table in front of Fang Qiu.

Judging from that thick stack, Fang Qiu had written twice as many as Liu Yiwen's classical prescriptions.

“Holy crap.”

“How can this be possible?”

“How did Fang Qiu write so many prescriptions?”

“Holy shit. Did he write them casually?”

“Even the highly-skilled doctor who specializes in classical prescriptions only wrote more than 20 prescriptions. How could Fang Qiu write so many?”

Looking at the stack of classical prescriptions, everyone was dumbfounded.

However, just at this moment, Fang Qiu finally stopped after writing the last classical prescription.

In his mind, there were still many prescriptions that could be used. After all, he had all the prescriptions passed down from ancient times in his mind. It was not difficult for him to write dozens of prescriptions for a disease.

Liu Yiwen had never looked at Fang Qiu because he felt that he would definitely win this round.

He had absolute confidence.

Therefore, he wrote neither fast nor slowly.

Sometimes, he would think for a while before continuing.

“Done.”

After writing the last prescription, Liu Yiwen pondered carefully for a while and found that he couldn't think of any other classical prescriptions that could cure this disease. Then, he put down the pen in his hand with satisfaction, looked at the more than 20 classical prescriptions in front of him, and proudly turned to the host and said, "I've finished it."

"It just so happens that I've also finished it."

Fang Qiu spoke at the same time.

Liu Yiwen glanced at Fang Qiu with disdain.

Unexpectedly, as soon as he looked over, his eyes widened.

He didn't expect to see a stack of classical prescriptions thicker than his on Fang Qiu's desk.

"That can't be possible!"

With his eyes wide open, Liu Yiwen stared at Fang Qiu in disbelief for a long time.

He thought to himself.

"This kid must have been pushed too far and started writing nonsense.

"Humph, what's the use of writing more? As long as you make one little error, the prescription will be invalid. I'd love to see how many of the prescriptions you wrote are correct!"

Thinking of that, Liu Yiwen began to sort out his classical prescriptions.

So did Fang Qiu.

“Wonderful.”

The host said, “Next, the two of you will check each other’s classical prescriptions.”

Under everyone’s gaze, Fang Qiu and Liu Yiwen exchanged their classical prescriptions with each other and began to check.

When Fang Qiu handed over his classical prescriptions, Liu Yiwen’s face couldn’t help twitching a few times.

As soon as Fang Qiu took Liu Yiwen’s classical prescriptions, he began to count.

“24.”

After counting, Fang Qiu made a hold fist salute to Liu Yiwen and said, “Senior, I’m impressed!”

Liu Yiwen’s face couldn’t help but twitch again.

“Fang Qiu is simply messing with me.

“I wrote 24 pieces of classical prescription, but Fang Qiu wrote a total of 46 pieces, and I counted them carefully like Fang Qiu in front of everyone.

“I wrote 24, and Fang Qiu praised me like that.

“So how should I respond to his 46 prescriptions?

“Should I also salute Fang Qiu and marvel at him?

“No!

“Never!”

“Alright.”

In the end, Liu Yiwen could only respond indifferently. He waved his hand and began to check the classical prescriptions of Fang Qiu.

At this very moment, Fang Qiu also began to check Liu Yiwen’s classical prescriptions with a smile.

He glanced over those classical prescriptions and found that there was no problem with the first four prescriptions.

Fang Qiu checked the prescriptions very quickly.

After a while, he finished it.

“Senior, there isn’t even a spelling mistake in your classical prescriptions. I’m truly impressed.”

After the check, Fang Qiu began to flatter Liu Yiwen.

Apparently, what he said meant that Liu Yiwen’s classical prescriptions were all correct.

No one had expected that Fang Qiu would check so quickly.

Immediately, everyone turned to look at Liu Yiwen, the highly-skilled doctor.

However, different from Fang Qiu, Liu Yiwen checked very seriously. He went through the classical prescriptions one by one. Sometimes, he would ponder seriously. After making sure that there was no problem, he put down the classic prescription that he finished checking.

He looked like he was checking very carefully.

The audience on the scene didn't think much of it.

But on the Internet, all the viewers who were watching the live stream couldn't take it anymore.

"What's wrong with this doctor? Why is he checking the classical prescriptions so slowly? Is he going all out to find fault with Fang Qiu?"

"That's right. This old man is too unprofessional."

"Even Fang Qiu can check his so quickly. As a highly-skilled doctor, isn't it too useless for him to check the classical prescriptions that slowly?"

The netizens' comments were quite sharp.

However, Liu Yiwen couldn't see these complaints, and what the viewers said didn't affect his examination at all.

If he saw or heard the netizens' complaints about him, he would probably faint out of anger on the spot.

As the person involved, Liu Yiwen was indeed very careful with his examination.

When he found that Fang Qiu had written the same classical prescription as him, he would go through it slightly faster. But when he checked the prescriptions he didn't come up with, he had to ponder carefully to think if they worked and were the correct ones.

During the examination, he even saw that Fang Qiu had written about how long it would take to cure the patient according to the classical prescription.

Fang Qiu had to be 100% sure about the patient's condition and be 100% familiar with the prescriptions he wrote down before he dared to write those words.

Not a single one of Liu Yiwen's 24 classical prescriptions mentioned the time needed to cure the patient.

But Fang Qiu had that in every single one of his prescriptions.

This greatly shocked Liu Yiwen.

He didn't expect that Fang Qiu would be so accomplished in classical prescriptions.

"Did I misjudge him?"

"I completely did!"

His heart was filled with shock.

Liu Yiwen continued to check other prescriptions.

After a thorough examination of all 46 prescriptions, he finally found that all of these prescriptions were feasible, and there was nothing wrong with them.

"Alas..."

After a long silence, Liu Yiwen let out a long sigh. Like Zhao Lipin, he took out his Highly-skilled Doctor Certification from his pocket and handed it directly to Fang Qiu.

"Thank you so much, senior."

Fang Qiu reached out to take it.

“The second battle is over. Fang Qiu is the winner!”

At the same time, the host announced the result.

All the Chinese Medicine practitioners on the scene were shocked.

“He wrote 46 prescriptions?”

“It’s terrifying that Fang Qiu can put down 46 prescriptions for just one kind of disease.

“Besides, it seems that Fang Qiu wasn’t finished at all.

“So here’s the question.

“How many classical prescriptions did Fang Qiu learn?

He couldn’t have possibly colluded with the patients. He wrote those prescriptions on his own without any preparation at all.

“This is truly terrifying!”

Chapter 1653 Is He Cured?

“What happened?”

In Dr. Wang’s live stream room on the Internet.

“What the fuck!”

In the live stream, when Liu Yiwen took the initiative to hand over his Highly-skilled Doctor Certification to Fang Qiu, the young Dr. Wang couldn't help but swear. He said with a red face, "In such a short time, I have only thought of five prescriptions. Liu Yiwen actually wrote 24, and Fang Qiu even wrote 46 prescriptions. This is terrifying!"

After he said that, all of Fang Qiu's fans and other viewers who were watching the live stream immediately cheered wildly.

Originally, Fang Qiu was at a disadvantage and was supported by everyone.

Now, Fang Qiu faced difficulties again and did what everyone thought he couldn't do.

This made everyone admire him.

"Awesome!"

"Master Fang Qiu is really awesome. He's so amazing!"

"He has already won two rounds. The two highly-skilled doctors have been defeated by Fang Qiu. He made them know that he is worthy of his reputation."

"There's still one more round. Master Fang Qiu, hold on."

"He will crush them all! They shouldn't have taken advantage of their seniority and bullied the weak!"

This happened not just in the live stream room.

Many people were watching the live stream and discussing this topic on Weibo.

With the second great victory of Fang Qiu, the topic “Fang Qiu Won Twice in a Row” directly rushed to the top of the real-time trending topic on Weibo. Although it was still a little far from the top ten of the trending topic list, it was almost there.

...

On the scene.

“Next, the third round!”

The host’s voice sounded again. “Let’s welcome the last highly-skilled doctor on the side of the three highly-skilled doctors, Hu Rentao!”

When Hu Rentao heard his name, he stood up and walked up proudly.

It appeared that he was not affected by the failure of the highly-skilled doctors Zhao Lipin and Liu Yiwen. He was still very confident.

Of course, Hu Rentao was not proud for no reason.

After all, he was the descendant of the ancient miracle-working doctor, Hu Qingniu.

After his ten-year closed-door training, his medical skills had been greatly improved. He was not afraid of challenging the holy doctors at all, let alone Fang Qiu.

Most importantly, what made him the most excited was that Zhao Lipin and Liu Yiwen had both lost, and he was the only highly-skilled doctor left among the three.

Previously, he had to think about how to consolidate his medical skills and his position in Chinese Medicine after defeating Fang Qiu. Now that both of his companions had lost, as long as he could defeat Fang Qiu, he didn’t need to think of any way to compete for the orthodox position at all. At that time,

the whole country and even the whole world would know that his medical skills represented orthodox Chinese Medicine.

With that in mind, Hu Rentao went straight to Fang Qiu.

Before they could greet each other, the host said, "Now, let's welcome the third pair of patients."

The staff invited the third pair of patients out of the patient's lounge.

Everyone took a closer look and found that the two patients were ordinary people. They were both in their forties and looked quite healthy. Their clothes didn't seem to be in pain at all.

While everyone was confused, the two patients didn't sit down on the chairs prepared. Instead, they stood there.

At this time, the host introduced, "These two patients both have congenital ankylosing spondylitis."

As soon as he said that, everyone present gasped.

Ankylosing spondylitis was a horrible chronic disease.

Although no one knew the principle and consequences of this disease, they still couldn't help exclaiming when they heard it.

Because in current showbiz, a singer who had received the attention of countless people was suffering from this disease.

Even that singer, who was so rich, couldn't be cured.

It could be imagined how difficult it was to cure this disease.

Not only the Chinese Medicine practitioners on the spot, the media, and the audience watching the live stream but also Fang Qiu and Hu Rentao frowned when they heard about this.

“Doctors, you may perform the Four Methods to Diagnose a Disease first.”

The hostess reminded the two.

Fang Qiu and Hu Rentao came forward to check at the same time and soon confirmed that the patient’s disease was indeed ankylosing spondylitis.

“Now, Dr. Hu Rentao will start his treatment first.”

While speaking, the host gestured to Hu Rentao and then continued, “Because this round is about treatment, Fang Qiu doesn’t need to cover his eyes. Both sides can watch how each other treats the patient.”

Fang Qiu nodded.

By then, Hu Rentao had taken action.

He stepped forward and chose a patient.

Everyone on the scene stared at the highly-skilled doctor with great curiosity, waiting to see how he would treat the patient.

Fang Qiu was also very curious.

This kind of disease couldn’t be cured easily. He wondered how Hu Rentao would treat it.

At this very moment, Hu Rentao directly wheeled a bed over.

“Now, the patient is in the attack stage, and it’s difficult for him to move. Under normal circumstances, we need hot water to wash his back and spine so that his condition can be temporarily relieved and he can move freely.”

As he motioned for the patient to lie on the bed, Hu Rentao said, “Now, what we have to do is to treat this disease, so we don’t need that method.”

With that, the patient lay down.

Hu Rentao used moxibustion to treat the patient’s spine.

When the moxibustion was over, under everyone’s gaze, he began to give the patient chiropractic.

He kept massaging the patient’s spine.

Seeing this, Fang Qiu frowned slightly.

He actually felt the Qi under Hu Rentao’s technique, and the Qi was massaging the patient’s Qi and blood.

The patient lying on the bed was also very comfortable with Hu Rentao’s chiropractic skills.

When the chiropractic was over, Hu Rentao began to boneset the patient and then prescribed medicine.

The whole process took more than two hours.

During this period, everyone on the scene had been watching it, while those who watched the live stream on the Internet were browsing Weibo and discussing it.

Two hours passed quickly.

“Done.”

When the treatment was over, Hu Rentao patted the patient on the back and asked him to get up.

Everyone actually saw that the patient could really move. Not only could he stand, but he could also move his shoulders. He looked much better than before.

It shocked everyone on the scene.

“Is he cured?”

“Can ankylosing spondylitis really be cured?”

“How is this possible? It only took him two hours to cure that patient!”

All the Chinese Medicine practitioners were extremely shocked.

They all had a deep understanding of the difficulty of curing this disease. It was almost impossible to cure it completely. Unexpectedly, Hu Rentao succeeded.

Although he merely used a total of four techniques, including moxibustion, chiropractic, boneset, and medicine, he had really cured that patient.

Another patient with ankylosing spondylitis looked enviously at the patient who had been cured and then looked at Fang Qiu with pleading and expectation in his eyes.

“I’ll teach you a warm-up method, Shaolin Internal Force One Finger Method!”

Hu Rentao said to his patient, "This warm-up method can be used for daily exercises. It can also strengthen your body and prolong your life!"

After that, he really began to teach.

The patient was very grateful and studied very hard.

Hu Rentao finished his teaching.

Only then did everyone turn their heads and look at Fang Qiu.

"Impressive."

Fang Qiu made a hold fist salute to Hu Rentao and said, "It's very difficult to treat ankylosing spondylitis. It's very hard to cure it with ordinary methods. Because the spine can't be moved, we can only use Qi to treat it.

"Senior, have you practiced Qi before?"

Hearing what he said, everyone looked at Hu Rentao.

Hu Rentao didn't deny it, nor did he admit it. He just reached out his hand to Fang Qiu and motioned for Fang Qiu to start the treatment.

Fang Qiu smiled and said, "I'll show myself up now."

As he spoke, Fang Qiu walked over.

He didn't let his patient lie down on the bed, nor did he force the patient to do anything. Instead, he went straight to the back of the patient.

He gently pressed his hands on the patient's spine.

"Everyone knows that I can use Qi to treat all kinds of diseases, but this time I will choose another way."

With that, Fang Qiu secretly controlled his mental power to penetrate the patient's spine.

In fact, Fang Qiu had tried to cure diseases with his mental power a long time ago. At that time, he had also succeeded and even performed an operation with his mental power.

However, Fang Qiu had never tried to cure diseases with his mental power.

He knew that like internal Qi, mental power was a kind of energy.

Since internal Qi could cure diseases, so could mental power. The reason why mental power was stronger than internal Qi was that internal Qi really existed and needed channels. However, mental power, like air, was safe and transparent. It could turn into a substance or become transparent according to one's needs.

Because of the physical contact, Fang Qiu's mental power quickly infiltrated the patient's spine, and the treatment began.

Under the treatment and operation of Fang Qiu's mental power, the inflammation of the patient quickly subsided, and then his spine gradually moved to a normal level.

While Fang Qiu didn't make any moves, the patient's spine was cured just like that.

Even so, Fang Qiu consumed a lot of energy.

By the time the treatment was finished, his forehead was covered in sweat.

When everyone was still wondering why Fang Qiu was sweating, he suddenly took a deep breath and withdrew his hands from the patient's back.

Wiping the sweat on his forehead, Fang Qiu said, "Done."

As soon as he finished speaking, the patient immediately twisted his neck and then began to stretch his shoulders. He even began to twist his waist and spin in circles. He was not stiff at all. Instead, he looked like a normal person and could move freely.

Everyone on the scene was shocked.

"What happened?"

"How did Fang Qiu cure the patient?"

"How did he do it? How did he cure the patient without doing anything?"

Chapter 1654 The Amazing Mental Power

It was really inexplicable.

The highly-skilled doctor Hu Rentao, who had been standing by, was completely shocked by this scene.

"How, how did you cure him? What did you do?"

Hu Rentao, the highly-skilled doctor, pointed at the patient and questioned Fang Qiu.

It wasn't just him.

All the Chinese Medicine practitioners, media, passers-by, all the people who were watching the live stream, and Dr. Wang who was explaining the live stream to everyone were stunned by the scene they saw.

It was simply inexplicable.

How did Fang Qiu cure such a terrible disease without doing anything?

“That can’t be possible!”

For a moment, everyone began to wonder if Fang Qiu had colluded with the patient or the three doctors. But after thinking about it carefully, they found that before each competition, both sides had to do the Four Methods to Diagnose a Disease for the patients. The patients’ conditions were personally recognized by the three highly-skilled doctors, so it was impossible for them to have colluded with Fang Qiu.

Then, how did Fang Qiu do it?

Just when everyone was shocked, Fang Qiu said with a smile, “This is another method apart from Qi. This kind of power is called mental power!”

As soon as Fang Qiu finished speaking, everyone on the scene shook their heads one after another.

“Mental power?”

“He’s not a Superman. What mental power?”

“Yeah. Does mental power exist?”

“Isn’t this explanation a bit too far-fetched?”

No one believed Fang Qiu and questioned him one after another.

Seeing that everyone's reaction was so intense, Fang Qiu said directly, "I'll show you my mental power now."

He turned to the host and said, "Please give me a pen."

Hearing that, the staff immediately handed him a pen.

"In order to ensure that it's neither magic nor a trick, I won't touch this pen. Everyone can check it. You can open the pen cover or even tear the pen into pieces and put them on the ground."

After everyone checked the pen, the staff directly put it on the ground.

"Watch carefully, everyone," Fang Qiu said with a smile and then stared at the pen on the ground.

The next moment, that pen actually started to roll.

"This is mental power."

Pointing at the pen rolling on the ground, Fang Qiu said, "Of course, in addition to the pen, there are many other things that can be controlled by mental power, such as the stool over there."

As he spoke, a small stool for five people not far away began to move.

"Such as your mobile phone."

Fang Qiu pointed to one of those people. The man quickly put his mobile phone on the ground, and it began to move.

At this point.

“Hiss...”

Fang Qiu took a deep breath and then put all the moving things back to their original positions.

“Of course, mental power is not infinite. I spent a lot of effort treating the patient just now, so I’ve consumed quite a lot of my mental power. That’s all I can do at the moment.”

However, everyone on the scene was stunned.

“Holy shit. Is this a magic trick?”

“Is there really mental power?”

“Is this superstition?”

“That is to say, is there really a superman in this world?”

“Wow, does this power really exist?”

In great shock, everyone began to doubt what they saw.

“It’s not superstition.”

Fang Qiu looked at everyone with certainty and said, “I can confidently tell you that this is definitely not superstition. There is a way to train your mental power.”

Upon hearing that, everyone went crazy.

“What should we do to train our mental power?”

“Teach us. We also want to do that!”

“I also want to have this power!”

Everyone on the scene spoke up one after another.

Even the three highly-skilled doctors, Hu Rentao, Zhao Lipin, and Liu Yiwen, asked with great expectation. If they really got this power and used it to treat patients, it would be amazing.

“I found this method in an ancient medical skill book. The training method is to hang a copper coin at a suitable position with a strand of horsetail hair, and then focus all your attention on this copper coin and try to shake it with your mental power.

“I was also trained in this way. From one copper coin to two, five, then ten, and finally, to the present stage, I obtained the power bit by bit with my own efforts. As long as you put in more effort, you will definitely be able to do it.”

As soon as Fang Qiu said that, everyone present immediately bore it in mind.

Meanwhile, in the live stream room on the Internet, all the people who were watching the live stream sent one bullet screen after another.

“Holy shit. I must give it a try when I get back.”

“I’m absolutely persistent. As long as I can really train it, I’ll definitely practice it every day until I succeed!”

“This power is so mighty. If what Fang Qiu said is true, Huaxia will rise completely. At that time, everyone can take things from a distance. Everyone will be a super metahuman. Other countries will not have the guts to mess with us!”

“Looks like the horses are going to suffer!”

“Haha, I have horses. Now horsetail hair is for sale now. 20 bucks for a strand!”

“I don’t have a horse, but I have an erhu. It’s also made of horsetail hair!”

...

On the scene.

“Since you have taught us a warm-up method, I will also teach everyone another set that can strengthen your body, eliminate diseases, and prolong life.

“This method is called the Seven Section Cultivation Method. It’s a secret technique!”

As he spoke, Fang Qiu began to teach.

All the people also followed him closely.

Soon, he finished his teaching.

Apart from the shock and learning just now, everyone fixed their eyes on Fang Qiu and the highly-skilled doctor Hu Rentao once again.

Who would win the final match?

Everyone looked at Hu Rentao first.

“In this round, it’s hard to tell who wins,” said the highly-skilled doctor Hu Rentao.

Everyone then looked at Fang Qiu.

Fang Qiu also nodded in agreement.

In fact, he won because he took too little time and didn’t use too many methods. It was just that his method was quite mysterious, and no one dared to believe it.

Fang Qiu didn’t want to argue with them. Whatever the result was didn’t matter to him.

“How about this.”

After thinking for a while, Hu Rentao said, “There must be a winner. Since it’s hard to tell who is the winner in this round, I have a proposal.”

“What is it?” Fang Qiu asked.

“It’s very simple.”

Hu Rentao said, “Besides the formal prescriptions, there are also some folk remedies. Why don’t we compete in that aspect? You will name one kind of disease, and I’ll name the relative folk remedies. We’ll take turns. What do you think?”

As soon as he said that, Xu Miaolin couldn’t remain calm at once.

All the people who were watching the live stream also began to complain.

“It’s obvious that Fang Qiu won, but that loser said that they were equally matched. He’s really thick-skinned!”

“Yeah. It only took Fang Qiu half an hour to cure his patient. It took that guy two hours to cure his. How dare he say that they’re evenly matched?”

“This is utterly shameless!”

“He should drop it when he shamelessly said that they’re on par with each other, and now he wants to have a competition in folk remedies. As a man in his 60s, he must know a lot of folk remedies. It’s so unfair!”

The netizens all started to complain about it.

However, the highly-skilled doctor Hu Rentao couldn’t hear their complaints at all.

On the scene, Xu Miaolin also became serious.

He knew that Hu Rentao was the descendant of the ancient miracle-working doctor, Hu Qingniu, and before he became a highly-skilled doctor, he was a doctor specializing in treating difficult miscellaneous diseases. Because of that, it wouldn’t be an exaggeration to say that he was the best in the country in his research on folk remedies.

In this case, he actually took the initiative to propose to compete with Fang Qiu in folk remedies.

Wasn’t this intentional bullying?

Xu Miaolin was so angry that he almost stood up and swore.

However, when he just stood up-

“Okay.”

Fang Qiu had already agreed.

“Fang Qiu agreed!”

Xu Miaolin paused.

He didn’t expect that Fang Qiu would agree.

However, since Fang Qiu said that, he must have his own reasons. Xu Miaolin could only suppress the anger in his heart, sit down again, and continue to watch.

He believed in Fang Qiu.

At this moment in Dr. Wang’s live stream room on the Internet.

“Come back, everyone. Prepare the paper and pen. It’s not so easy to have folk remedies. Many of them have miraculous effects. If you don’t keep them now, it won’t be so easy to have them later.”

In front of the camera of the live stream, Dr. Wang took out a small notebook while speaking and began to record the folk remedies the two competitors were going to talk about with great excitement.

However, just as he started doing so, there came countless bullet screens in the live stream room.

“Don’t you know that the live stream has a replaying function?”

“The match can be recorded and replayed.”

“All of this can be recorded. What’s the point of putting it down?”

...

Seeing these bullet screens, Dr. Wang shook his head and said, "If I don't put it down now, I will be delayed by other things. Only by keeping it in real time can I really master it. If it's just a pure record, it's too boring. What we need to do is to learn."

As soon as he finished speaking, Hu Rentao named the first disease on the live stream screen.

"The first disease I'm going to name is..."

Hu Rentao thought for a moment and said, "Alopecia areata!"

Except for some Chinese Medicine doctors, many people didn't know what kind of disease it was. Even some Chinese Medicine practitioners didn't know.

However, Fang Qiu smiled.

"Alopecia areata is a common skin disease."

Fang Qiu explained the disease to everyone and then added, "I have a folk remedy for this disease. The drugs consist of 50g fresh cypress leaves and 200g fresh ginger.

"The treatment method is as follows – take fresh lateral cypress leaves and soak them in 200ml of 90% alcohol for one week. In the first week, apply fresh ginger that is cut into slices. Apply it to the affected area every night before going to bed, and apply it until the scalp is warm. In the second week, use fresh cypress leaves extracted in fresh ginger slices every night before going to bed. Alternately apply the medicine to the affected area until the scalp gets feverish. Generally speaking, the number of new hair will increase gradually after one to two months of persistent applying."

After that, Fang Qiu said, "The first disease I'm going to name is nettle rash!"

Right after that, Hu Rentao immediately said, “Use 100g of *stemona sessilifolia*, 25g of white moss skin, 20g of white mustard, and 15g of horse boar. Apply the medicine with gauze wrapped tight. Use boiling water to fix the head of the medicine package, and then mix it with 60% alcohol. Pour it into the medicine package bowl and soak it for a few moments. After that, take the medicine package to rub the affected area. When the medicine package becomes cool, warm it and soak it with alcohol again. Do it 1 to 2 times a day.”

Chapter 1655 Masters Sharing Their Fortunes

As soon as he finished with his folk remedy, Hu Rentao immediately said to Fang Qiu, “Post-stroke hand and foot cramps.”

“Take the Chinese medicine elongation grass, translucent grass, and safflower 30g each, all together into the enamel basin. Add 2000ml of water. Boil it for 10 minutes, and then take it out. Put it into the bathtub. The temperature of the liquid should be 50-69 degrees.

“Soak and wash the affected limbs. First, soak and wash the hands, then soak and wash the feet. While doing so, dip the fingers and toes into the liquid until autonomous stretching and flexing activities can be achieved. Each time for 15-20 minutes. The temperature of the liquid should be heated again after it drops. This should be done three times a day, for two consecutive months.

“The patients with numb hands and feet can additionally have frost mulberry leaves of 250g. By applying the medicine to the whole body or frequent washing of the affected limbs, one can invigorate blood and collaterals, as well as regulates tendons and penetrates bones.”

Fang Qiu answered fluently.

After that, he immediately said, “Vitiligo.”

“20g amaranth, 10g brown sugar, and 70ml vinegar.”

Hu Rentao said, “The three kinds of herbs should be boiled and filtered. The medicine should be stored away from light. While applying, dip it in a little water and apply the medicine to the affected areas twice. The efficiency is more than 91%!

“Tympanitis!”

“15 grams each of Bupleurum, Pueraria Mirifica, Silkworm, Acorus calamus, Salviae Miltiorrhizae, and 12 grams each of vinegared aromatic herbs, ligusticum wallichii, tetrapanax papyriferus, scorpion, angelica dahurica, 30 grams of Poria, 6 grams of licorice. Decocted in water and taken once a day.

“Chronic laryngitis.”

“Sambucus root, maitake, sempervivum, cypress on the rock, and white-flowered snakeroot made into tablets. 5 tablets to be taken orally 4 times a day.

“Internal heat injury.”

“Furnace Glycolite 30g and 30g of Yuanming powder. Combine the two together into a very fine powder with sesame oil to rub the affected area.”

...

The two of them kept battling while speaking very fast.

Seeing this, all the Chinese Medicine practitioners, reporters, and passers-by on the scene were stunned.

“What the fuck!”

“What else can I say?”

“Are all these folk remedies effective?”

“According to the medicine in the remedies, they are indeed effective.”

It wasn't just the people present.

All the people who were watching the live stream on the Internet were also stunned by the speed of the two's conversation.

In Dr. Wang's live stream room on the Internet.

“What the fuck!”

Under the gaze of countless people, the young Dr. Wang wrote down what the two had said word for word.

However, because the two of them spoke too fast, he wrote in a flurry and exclaimed loudly, “The two awesome masters are sharing their fortunes. Everyone, hurry up and help me put it down!”

In the live stream room, the viewers roasted him wildly.

However, many people also turned on the video recording function, ready to save the video after the live stream was over and replay what the two doctors said later.

However, most of the people still fixed their eyes on Fang Qiu and the highly-skilled doctor, Hu Rentao.

The two of them kept talking.

Therefore, no one dared to relax.

In the blink of an eye, both of them spoke dozens of folk remedies.

Even so, there was still no sign of stopping. The two of them continued to give questions and answer questions crazily.

Not long after, each of them had named more than a hundred diseases, and the other answered with the relative folk remedy.

All the Chinese Medicine practitioners on the scene were dumbfounded.

“So many folk remedies?”

“It’s not surprising that the highly-skilled doctor Hu Rentao knows so many, but how did Fang Qiu know so many folk remedies?”

“Isn’t Fang Qiu still a student?”

“How does he know as many folk remedies as Hu Rentao does? It seems that they are evenly matched!”

“That’s amazing!”

While everyone was shocked-

“Ha-ha...”

Hu Rentao, who had spoken hundreds of folk remedies in a row, finally stopped. He threw his head back and laughed heartily. While laughing, he quickly waved at Fang Qiu and said, “Stop now. I’m really impressed!”

Hearing that, Fang Qiu smiled.

He didn’t expect that a highly-skilled doctor would keep so many folk remedies in his mind.

“That’s quite incredible.

“Hu Rentao is worthy of being a highly-skilled doctor who specializes in treating difficult miscellaneous diseases.”

“At first, I thought you got lucky when you won against Zhao Lipin and Liu Yiwen, but now I admit that you are really powerful. You are indeed young and promising.”

Looking at Fang Qiu, the highly-skilled doctor Hu Rentao’s face was no longer as proud as before. Instead, he said with a satisfied smile, “Thank you for your help in Chinese Medicine!”

With that, he reached into his pocket, took out his Highly-skilled Doctor Certification, and handed it directly to Fang Qiu.

“You deserve this Highly-skilled Doctor Certification!”

After Fang Qiu took it, Hu Rentao finally showed a helpless and depressed look on his face. He shook his head and walked to the side where Zhao Lipin and Liu Yiwen, who had already lost, were standing.

Clap! Clap! Clap!

Before the host could announce the result of the competition, there was a burst of warm applause on the spot.

Everyone congratulated Fang Qiu.

In the meantime, Dr. Wang, who was doing the live stream on the Internet, couldn’t help applauding from the bottom of his heart in front of all the viewers.

Of course, Dr. Wang wasn’t the only one doing the live stream. Many other doctors were doing the same thing. Especially when they saw that Fang Qiu had succeeded and that the highly-skilled doctor Hu

Rentao had handed over the Highly-skilled Doctor Certification to Fang Qiu sincerely, everyone couldn't help cheering for Fang Qiu.

In the end, the highly-skilled doctor Hu Rentao was not defeated.

Although he took advantage of the fact that he got to name the rules, the medical skills he showed were absolutely not something that others could compare with. He did not lose to Fang Qiu but to the Chinese Medicine doctors of this generation.

Undoubtedly, this was the best outcome.

In the warm applause, everyone focused on Fang Qiu again.

Everyone was looking forward to his speech.

It was because they already knew that after Fang Qiu defeated people, he liked to talk and reason with them.

Although people knew this and were used to it, they also knew that the truth given by Fang Qiu was really neutral.

"He won this competition.

"Will he give a speech?"

With this question, everyone looked at Fang Qiu.

However, Fang Qiu didn't say anything. Instead, he took out one Highly-skilled Doctor Certification after another from his trouser pocket.

He took out 15 in a row.

“These are 15 Highly-skilled Doctor Certifications.”

Fang Qiu held the 15 Highly-skilled Doctor Certifications and said to everyone on the scene and the camera of the live stream on the Internet, “Now, I have met the requirements for the promotion of doctor of brightness to a highly-skilled doctor. That is to say, from today on, I can also be regarded as a highly-skilled doctor!”

Whether it was the people on the spot, those who were watching the live stream, or the Chinese Medicine practitioners who were doing the live stream themselves, they were all shocked as soon as Fang Qiu finished speaking.

No one had expected that Fang Qiu actually got so many Highly-skilled Doctor Certifications.

It should be noted that a highly-skilled doctor could only get one certification. Moreover, there were only 50 highly-skilled doctors in the country. That was to say, only one-third of the highly-skilled doctors in this field had approved of him.

Why were there only 50 highly-skilled doctors in the country?

Because it was difficult to be one.

In the Chinese Medicine field, everyone’s research direction was different. Everyone had their own reasons and beliefs.

It was not difficult to get the approval of a highly-skilled doctor in the same research aspect, but it was not so easy to get the approval of doctors who did different research.

Each of the 50 highly-skilled doctors in the country had different research.

In this case, the only way to get the recognition of the 15 highly-skilled doctors and the Highly-skilled Doctor Certifications was to rely on hard strength.

15 Highly-skilled Doctor Certifications represented Fang Qiu's powerful strength.

Moreover, it should be known that of the 50 highly-skilled doctors in the country, none of them took this way to become highly-skilled doctors.

From this, it could be seen how difficult it had been for Fang Qiu to get 15 Highly-skilled Doctor Certifications.

"Since I've become a highly-skilled doctor, I think I should be qualified to speak."

In the face of the audience, Fang Qiu said, "Since I began to study Chinese Medicine and became a Chinese Medicine doctor, I have always held the same thought. For the development of Chinese Medicine, for the inheritance of Chinese Medicine, I always think that we should advance together instead of attacking each other as doctors.

"For decades, Chinese Medicine has always been weak. Now that it has finally improved a little, what we should do is make up for our shortcomings and lead Chinese Medicine to a better way, instead of starting to reject and compete with each other after seeing the little development of Chinese Medicine!

"In history, the predecessors of Chinese Medicine never established a sect, but studied widely.

"It was because the successors are inferior to the predecessors that there are now different sects and factions!

"I'm saying this because I want to tell everyone in the Chinese Medicine field that it's not easy for Chinese Medicine to start developing. I hope everyone can learn and improve together and surpass the predecessors, instead of sticking to the conventional inheritance and giving up what's more important."

Hearing this, all the Chinese Medicine practitioners who were watching the live stream were lost in thought.

What Fang Qiu said was true.

In the past few years, Chinese Medicine had always been suppressed by Western Medicine.

Now, led by Fang Qiu, Chinese Medicine finally rose and began to develop in a good way. Why should they fight and slander each other at this time?

Why should they have so much prejudice against other Chinese Medicine practitioners and other Chinese Medicine sects?

Wasn't it good to work hard to develop Chinese Medicine together?

On the scene, Xu Miaolin, who was sitting in the middle of the first row, couldn't help smiling and giving Fang Qiu a thumbs-up in his heart.

"Not bad, not bad. My student is different from others. He has a high vision!"

While praising Fang Qiu, Xu Miaolin also looked very proud. How could he not be happy to have taken such an amazing student?

Back then, Fang Qiu wanted to take him as his master.

Now that he thought about it, if he had really accepted such a disciple back then, it would have been extremely glorious.

However, he really didn't have much to teach Fang Qiu.

At that time, he was not qualified to accept Fang Qiu as his disciple. Now he had become a holy doctor, but he still did not dare to accept Fang Qiu as an apprentice, because this boy's potential was too great. Fang Qiu's contribution to Chinese Medicine was higher than anyone else in the Chinese Medicine field. In this case, who would dare to accept him as an apprentice?

“In fact, before participating in this challenge competition, I went back and forth in the city and saw patients for 20 days in a row. In these 20 days, I discovered a very serious problem while seeing countless patients and asking them about their past medical records.”

Everyone on the scene was confused upon hearing that.

“A very serious problem?”

“What does he mean?”

In doubt, everyone looked at Fang Qiu, but they saw a serious look on his face, which was rare.

Chapter 1656 Prescribe Too Much Medicine

“What on earth is it?”

“It sounds very serious.”

Everyone whispered to each other.

It wasn't just the people present.

All the people who were watching the live stream on the Internet with their computers and phones didn't know what problem Fang Qiu was talking about.

In particular, the solemn look on Fang Qiu's face made everyone even more curious about this matter.

Fang Qiu didn't continue directly.

Instead, he continued to look at the crowd with a serious face.

The reason why he paused was that he wanted everyone to pay attention to this matter. He needed everyone to feel his seriousness and really pay attention to this problem.

About 30 seconds passed.

When everyone began to be a little impatient and looked at him with urging eyes, Fang Qiu said, “I found that Chinese Medicine doctors nowadays prescribe a lot of medicine in order to highlight the effect of the treatment in a short time!”

As soon as Fang Qiu finished speaking, the Chinese Medicine practitioners present as well as the ones who were watching the live stream nodded in unison.

No Chinese Medicine doctor would deny this.

They did it to conform to the development of the times.

In the past, all the Chinese Medicine practitioners would do their best to treat the patients. Even during the treatment, they could come to check on the patients every day and intermittently reduce the dosage.

But now, who would do that?

It was not that the Chinese Medicine practitioners were unwilling to do so, but that no one had the time now.

The doctor had no time because there were too many patients.

The patients had no time because they had to live and raise the elderly and children.

In this case, the appearance of Western Medicine was undoubtedly in line with what people needed and became mainstream.

The most important reason was that Western Medicine worked quickly. Even if it couldn't cure the root cause, it could make the patient feel no pain in a short time and temporarily prevent the patient from being troubled by the disease.

As the era developed, time mattered more and more to people.

Compared to time, it seemed that health was not a big deal.

Therefore, more and more people chose Western Medicine, which led to a sharp decrease in the number of patients who adopted Chinese Medicine and the slow development of Chinese Medicine.

Even if there were still many people who insisted on taking Chinese Medicine, they would also tell the doctors to increase the dosage. They must get cured as soon as possible because they didn't have much time to see the doctors.

There were even many patients who took the initiative to ask if there was any way to recover quickly.

Under great pressure from Western Medicine and patients, a large number of Chinese Medicine doctors had to make changes.

They could only increase the dosage and use potent drugs to treat the patients.

This was the problem that Fang Qiu saw after 20 days of continuous consultation.

"During these 20 days of continuous consultation."

Looking at all the silent Chinese Medicine practitioners on the scene, Fang Qiu said, "I even found that someone actually mobilized the Primordial Yang in the human body to cure the disease.

"It should be known that everyone's Yuan Yang is fixed. If you use it a little, it'll be less. It can't regenerate. Once it's used, it'll be permanently depleted.

“In fact, as Chinese Medicine practitioners, you should know that even if you don’t use Primordial Yang, you can still treat patients. But in order to achieve the expected effect in a short time, many Chinese Medicine doctors have chosen to mobilize Primordial Yang to treat patients. You’re harming your patients by doing this!”

At this point, Fang Qiu couldn’t help shaking his head.

Almost all the Chinese Medicine practitioners present were highly-skilled doctors.

Of course, they would not do such a thing. Although they would not do it, they knew that this problem existed, but they could not stop those people.

Even if they tried to stop them, no one would listen to them.

After all, it was not only related to interests but also had a lot to do with the promotion and development of Chinese Medicine.

Without using potent drugs, the effect wouldn’t be good.

If the treatment was not effective, fewer and fewer patients would come to see the Chinese Medicine doctors.

The fewer patients there were, the more difficult it would be for Chinese Medicine to develop.

Therefore, even if those highly-skilled doctors were seniors and the top figures in the Chinese Medicine field, they couldn’t say much when they saw this kind of thing. They could only persuade the patients with a few words, but they would still be refuted by the patients.

As time went by, everyone gradually got used to it.

In front of the live stream screen on the Internet, many people felt their faces turn red upon hearing what Fang Qiu said.

Not only the Chinese Medicine practitioners but also those patients who had put pressure on those doctors blushed.

Previously, they had all done the same thing.

The patients didn't feel anything wrong about it. Anyway, it was their own bodies that were consumed, but those doctors of Chinese Medicine were different.

Because their medicine was indeed very strong and effective.

For example, if someone took more than 20 grams of Asarum a day, it would be very dangerous. However, in order to get a better effect, some people even dared to use more than 100 grams, because it would not kill them. Although it had some side effects, it didn't matter as long as it worked.

The most important thing was to cure the disease.

Fang Qiu was well aware that this was the problem that everyone had to go through in this era.

It was an unavoidable problem in the development of Chinese Medicine.

"I hope everyone knows that some drugs are used to save lives. They should not be used to treat ordinary diseases."

Fang Qiu continued, "I didn't mean to hold anyone accountable by saying this, because I know it's a request from certain patients, who pressure the doctors to do so. The reason why I proposed it is that I hope everyone can be benevolent as a Chinese Medicine practitioner. When we prescribe medicine, we must be careful.

“I also hope that the patients can take their health seriously. Work, fame, and money can all be earned. Once they lose their health, they will lose everything.”

After Fang Qiu finished speaking, he bowed deeply to everyone on the spot and to the camera of the live stream on the Internet.

Clap! Clap! Clap!

All the people present stood up and applauded.

Although Fang Qiu didn't say anything that must be done, everyone knew that the reason why Fang Qiu was so straightforward was that he wanted to use this very positive and straightforward way to tell everyone that it was not appropriate to take potent drugs or use extreme methods.

Fang Qiu didn't force them to avoid doing so. After all, everyone had the right to choose what to do.

Fang Qiu merely told everyone about the wrong choice and the possible results. As for what everyone would choose in the end, it had nothing to do with him.

“Thank you, everyone.”

After bowing, Fang Qiu straightened up and thanked everyone for their applause. Then, he walked out with a smile and finally left the Sijiqing Hotel under the escort of the staff.

As Fang Qiu left, the crowd at the scene also dispersed one after another.

All the highly-skilled doctors left the stage while thinking about what Fang Qiu had just said.

All the passers-by were so excited that they held their mobile phones and didn't even look at the road. They stared at their mobile phones, typed, edited, and posted on Weibo and WeChat Moments. Some people directly called their friends to show off.

Of course, the busiest ones were those reporters who couldn't do live streaming and could only record and take photos.

They recorded countless important moments and took countless photos during the entire challenge assembly. As soon as the challenge assembly was over, they couldn't wait to rush out of the field.

They were ready to go back to write drafts and release the news.

The live stream on the Internet was also interrupted, and it was replayed from the beginning.

Outside the Sijiqing Hotel.

Many media reporters who failed to witness the whole process blocked the gate of the hotel.

Fang Qiu came out.

Since he had the people of the Three Billion Foundation waiting to pick him up outside the gate and the security team of the hotel escorting him, these reporters couldn't get close to him at all. Before they could even ask a question, Fang Qiu had already gotten in the car and left.

Although Fang Qiu had left, these reporters did not leave. Instead, they continued to guard, waiting for the three highly-skilled doctors and the others who had witnessed the scene.

Many people came out, but those reporters didn't know any of them.

The three highly-skilled doctors also quietly left under the cover of a large number of people under the arrangement of Huitong Chinese Pharmaceutical Company.

The other highly-skilled doctors did the same.

They blended in with the passers-by and left.

However, one of them couldn't escape.

Even if he wore a hat like Fang Qiu, he was still captured by the media reporters.

Undoubtedly, it was Xu Miaolin, Fang Qiu's teacher.

After waiting for a long time, the media reporters, who didn't even have a target to interview, immediately rushed up the moment they saw Xu Miaolin.

"Excuse me, sir. Fang Qiu has defeated three highly-skilled doctors this time. What do you think of Fang Qiu's future? I heard that you have become the fourth holy doctor in Huaxia. Do you think as your disciple, Fang Qiu will get to be as skilled as you?"

Xu Miaolin heard the reporters' questions.

At first, he wanted to find an opportunity to slip away, but when he took a closer look, he found that he had been surrounded by reporters and couldn't get out at all.

Without other choices, he could only ask the hotel security for help.

Under the forceful escort of the security team, Xu Miaolin could finally move forward. As he walked, he said to all the media, "It won't be long before Fang Qiu surpasses me!"

In the end, the media reporters dispersed, and the challenge that had almost attracted the attention of the whole country came to an end in a hurry.

Everyone who paid attention to the challenge assembly got the result they wanted.

Of course, there were also countless people who wanted the contact information of the three highly-skilled doctors because the strength they showed was too strong.

No one really lost in this challenge assembly.

However, it made Fang Qiu establish his position in the entire Chinese Medicine field.

In the past, Fang Qiu was just a student.

Now, he was already a highly-skilled doctor. No one in the Chinese Medicine field could underestimate him.

The only thing he needed was his Highly-skilled Doctor Certification.

In the Three Billion Foundation, Fang Qiu waited for Xu Miaolin who was late. Then, accompanied by Xu Miaolin, he headed to the Chinese Medicine Association in the capital and took the 15 Highly-skilled Doctor Certifications he got. He would get his own Highly-skilled Doctor Certificate from the Chinese Medicine Association.

When they arrived at the Chinese Medicine Association in the capital, the Highly-skilled Doctor Certificate for Fang Qiu was ready. Everyone in the association had been waiting for him as they welcomed Fang Qiu.

Chapter 1657 Becoming a Highly-skilled Doctor

The Chinese Medicine Association in the capital was a quadrangle, just like the Chinese Medicine Association that Fang Qiu went to in Zhongzhou before.

However, the value of a quadrangle in the capital was quite different from that in Zhongzhou.

The environment was similar to that of some quadrangles in Zhongzhou.

In the quadrangle, there were a lot of flowers, plants, and green leaves. It was adjacent to two or three other courtyards. Each courtyard was planted with all kinds of flowers and trees, giving people a peaceful and elegant feeling.

After coming to the gate of the Chinese Medicine Association in the capital, Fang Qiu and Xu Miaolin got out of the car together, crossed the gate, and walked into the quadrangle.

At this time, the gate of the quadrangle was open.

Someone was already waiting in front of the gate.

“Greetings, Dr. Xu and Dr. Fang.”

Seeing Xu Miaolin and Fang Qiu coming, the guard at the gate immediately came up, bowed to them with a smile, and then said, “The president and everyone are waiting for you.”

“I see. Please lead the way.”

Fang Qiu nodded with a smile and returned a salute to him with Xu Miaolin.

Under the guidance of this guard, they walked into the quadrangle together.

They strolled back and forth in the courtyard. After a while, the group of people came to the front of an extremely classic ancient Huaxianese building. This building was completely built of wood. At a glance, one could see a lot of wood of different sizes and different lengths.

One didn’t even need to step in before feeling an ancient and intoxicating aura.

“This way, please.”

The guard reached out to the front door of the building and invited Xu Miaolin and Fang Qiu in.

Before the two of them took a step forward, two old men came out of the building.

“Dr. Xu.”

The two old men first saluted Xu Miaolin. After Xu Miaolin returned the salute, they turned their heads and looked at Fang Qiu with appreciation, saying, “You deserve to be the future of Chinese Medicine and the great hero who leads the development of Chinese Medicine. You are the first highly-skilled doctor in the world to get 15 Highly-skilled Doctor Certifications, and you did it at such a young age. This is really unprecedented.”

Hearing such praise, Fang Qiu was dumbfounded at once.

He didn’t know how to answer it at all.

He could only hurriedly bow to the two old men and say, “I’m flattered, seniors.”

“You deserve such praise!”

An old man laughed and said, “Let’s go in. You will get your Highly-skilled Doctor Certificate. We have prepared it for you.”

“Thank you so much, seniors.”

Fang Qiu hurriedly bowed to express his gratitude.

Xu Miaolin also walked in with a satisfied smile on his face.

“From today on, you are a highly-skilled doctor.”

In the room, an old man came over with a notebook and said, "With the participation of the highly-skilled doctor Cheng Yang from the University of Jiangjing Chinese Medicine, there were 51 highly-skilled doctors in Huaxia at first. But with the promotion of your teacher, Dr. Xu, the number has dropped to 50. Now you are the 51st. Congratulations."

With that, the old man showed Fang Qiu the notebook in his hand, which recorded the time and method for Fang Qiu to become a highly-skilled doctor.

"This is your Highly-skilled Doctor Certificate."

The other old man came over at the right time, holding something similar to a picture scroll in his hand, and handed it to Fang Qiu.

Fang Qiu took it and opened it. It was indeed the Highly-skilled Doctor Certificate.

"Thank you, seniors."

Fang Qiu expressed his gratitude.

"Alright. Now please give me the 15 Highly-skilled Doctor Certifications you got."

One of the two old men said with a smile, "You got this Highly-skilled Doctor Certificate with 15 certifications. It is not something that you can take away directly."

Of course, Fang Qiu knew it.

Xu Miaolin had already told him before.

Each of the 50 highly-skilled doctors had only one Highly-skilled Doctor Certification. After they used it, they couldn't make one by themselves. So the Highly-skilled Doctor Certifications that had been given out would be kept by the Chinese Medicine Association in the next few years after they were handed over to the association.

Otherwise, if Fang Qiu took the 15 certifications he got with him, and he gave them to someone, wouldn't that person get to be a highly-skilled doctor randomly?

Although Fang Qiu, the one who could get the 15 Highly-skilled Doctor Certifications, would certainly not do this, the members of the association still had to be prepared for the unexpected.

Fang Qiu handed over the 15 Highly-skilled Doctor Certifications.

An old man confirmed them himself. After confirming that there was nothing wrong, he packed the 15 Highly-skilled Doctor Certifications in a wooden box and put them away.

"This is your unique identification card."

Another old man came over with a golden bank card-like thing and handed it to Fang Qiu, saying, "This is the first highly-skilled doctor gold card we have issued here, because only by collecting 15 Highly-skilled Doctor Certifications can you get it. It can also be regarded as your identity card."

"And here is your Highly-skilled Doctor Certification."

After handing over the gold card, the old man handed over a Highly-skilled Doctor Certification engraved with the word "Fang".

"Thank you."

Fang Qiu nodded to thank him and reached out to catch it.

On the way to the Chinese Medicine Association, Xu Miaolin had told him that the Highly-skilled Doctor Certification was rare. Although it had very little effect, there were still countless people who wanted to get it. Moreover, once something like the Highly-skilled Doctor Certification was given out, it would be stored for ten years after it was taken back by the Chinese Medicine Association, and then it would be returned to its owner.

If the Chinese Medicine Association didn't receive it, the members would keep it for more than ten years after taking it from the owner.

"Phew..."

After taking the Highly-skilled Doctor Certification, Fang Qiu finally breathed a sigh of relief.

"I'm now a highly-skilled doctor!"

He had finally achieved this goal. He could finally become a real highly-skilled doctor and participate in the Chinese Medicine Conference.

Only with the qualification to attend the Chinese Medicine Conference could Fang Qiu find a way to treat the old master.

This was the reason why he studied Chinese Medicine.

"What a brilliant guy!"

The moment Xu Miaolin saw Fang Qiu get the certificate, he patted Fang Qiu on the shoulder with satisfaction and said, "You finally got it."

"Yeah."

Fang Qiu nodded excitedly.

"It's not bad to get it now."

Xu Miaolin said with a smile, "We planned that you would get it in two years. If it weren't for the change of the date of the Chinese Medicine Conference, you might have got this certificate last year."

Fang Qiu smiled.

He still remembered the anxiety he had last year.

If the Chinese Medicine Conference was held as usual, Fang Qiu would definitely spend more time on Chinese Medicine last year. He would definitely become a real highly-skilled doctor and get the certificate before the conference.

However, the change in the date of the Chinese Medicine Conference cost him another year to achieve his goal.

It didn't matter much to Fang Qiu.

After all, with his ability, he had long been qualified as a highly-skilled doctor.

Just his Qi alone was enough to make him famous all over the world.

Now, he became a highly-skilled doctor merely at his convenience.

"Alright."

Seeing the faint smile of Fang Qiu, Xu Miaolin made an obeisance by cupping one hand in the other before his chest to the two old men and said, "Since he has got the Highly-skilled Doctor Certification, we should leave."

"Okay."

An old man nodded and said, "Dr. Fang Qiu, you can choose a treasure book for highly-skilled doctors from all the Chinese Medicine Associations. If you want to choose one here, we can make the arrangements now."

"Okay."

Fang Qiu nodded with a smile and said, "If possible, I want to choose an acupuncture treasure book."

"Okay, we'll arrange it right away."

The two elders nodded at the same time.

"Although you've learned a lot of acupuncture techniques, it's still good if you can continue to strengthen your skills."

Xu Miaolin nodded and then said with a smile, "It's a great joy to get the Highly-skilled Doctor Certificate. Shouldn't you take this great day to invite me to have a good meal?"

"No problem."

Fang Qiu replied with a smile, "What do you want to eat?"

"I feel like having some herbal cuisine. Will that be okay?" asked Xu Miaolin.

"Of course. We'll have whatever you want."

Fang Qiu nodded and said, "Just take it as a celebration for me becoming a highly-skilled doctor and for you becoming a holy doctor."

"Well said."

Xu Miaolin nodded with satisfaction and said, "You're indeed a good student!"

Fang Qiu asked, "Should we call Ma'am over?"

"Sure."

Xu Miaolin put on an affirmative look and said, "She has been thinking about having herbal cuisine for a long time. It's just that she's too embarrassed to mention it to you, and she's afraid that she can't afford it, so it has been delayed. Today is a big day, and I'm sure she will be delighted with your invitation."

"No problem."

Fang Qiu immediately nodded and said, "I'll give you and Ma'am some big gift when we get to the restaurant!"

Before long, after Fang Qiu chose the acupuncture treasure book he wanted, he walked out of the Chinese Medicine Association with Xu Miaolin, arm in arm.

On the way, Fang Qiu directly made a phone call and asked the herbal cuisine restaurant to prepare some fine dishes. He also called Jiang Miaoyu.

After all, Jiang Miaoyu was his master's wife's disciple. It was rare for them to get together. They had to meet at least.

Xu Miaolin also made a phone call and invited Chu Yunyun over.

Surprisingly, when Holy Doctor Chu heard that they were going to the herbal cuisine restaurant for a meal, he tagged along.

Now, everyone was reunited.

During the meal, Chu Yunyun and Holy Doctor Chu kept praising Fang Qiu and the dishes in the herbal cuisine restaurant, while Xu Miaolin was proudly looking at his father-in-law.

As a holy doctor himself, he was not afraid of Holy Doctor Chu at all.

Holy Doctor Chu couldn't do anything to him.

"Sir, Ma'am."

When they were eating, Fang Qiu went out for a while. When he came back, he went straight to Xu Miaolin and Chu Yunyun as he said, "In order to thank you for your guidance on Miaoyu and me, as well as to celebrate your successful promotion to a holy doctor, and to celebrate the marriage of you two, I have prepared a congratulatory gift. I hope that you will like it."

Xu Miaolin rolled his eyes.

Seeing Fang Qiu holding a black card in his hand, he wondered if it was money.

Chu Yunyun took the black card from Fang Qiu and asked, "What is this?"

"This is the super VIP card of the herbal cuisine restaurant. If you like it, you can come over to dine at any time. You don't need to line up. Of course, you can also enjoy the same treatment in the herbal cuisine restaurants in other cities!" Fang Qiu said.

Hearing that, Xu Miaolin immediately widened his eyes.

He wanted to grab the card, but Chu Yunyun grabbed it and put it in her bag directly.

Xu Miaolin asked with a wry smile, "Boy, why didn't you hand such a good thing over to me?"

“Mr. Xu.”

Fang Qiu laughed and said, “You’re already so henpecked before the wedding ceremony.”

Chapter 1658 Invitation From the Alma Mater

“Brat, this is not cool!”

Xu Miaolin rolled his eyes at Fang Qiu, but when he met the eyes of Chu Yunyun, he immediately laughed again and pretended as if nothing had happened just now.

Holy Doctor Chu snorted to himself.

After Fang Qiu gave the two gifts, everyone continued to eat.

As for Fang Qiu, he was very happy. He took out his Highly-skilled Doctor Certificate and Highly-skilled Doctor Certification, took a picture of them with his mobile phone, and then directly posted it on Weibo.

Although the challenging assembly was over, the topics about Fang Qiu on the Internet were still trending, including the topics “Fang Qiu won”, “Fang Qiu defeated three highly-skilled doctors”, “Master Fang Qiu is awesome”, and “Fang Qiu became a highly-skilled doctor.

On Weibo, all kinds of topics about Fang Qiu quickly occupied the trending list, and most of the topics directly rushed into the top ten.

At first, everyone thought that Fang Qiu might not win. It was very likely that he would lose. After all, there were three highly-skilled doctors who challenged him.

Now, Fang Qiu once again proved his strength with his perfect performance.

Everyone was very happy about this.

After all, people were all quite familiar with Fang Qiu. Moreover, he was a miracle-working doctor who was particularly considerate of everyone, liked to do good deeds, and made others feel touched.

But people didn't know about the three highly-skilled doctors at all, including what contributions they had made to Chinese Medicine or what they had done for public welfare.

In this case, everyone naturally supported Fang Qiu and worried about him.

It was because of this worry that everyone released their joy completely in an instant after Fang Qiu won.

It was like a spring that had been pressed to the bottom. The moment it was released, the power that erupted was unimaginable.

This was the current situation on the Internet.

Although Fang Qiu was already very popular, with the appearance of his latest post on Weibo, every user couldn't help but be in an uproar.

"He has really become a highly-skilled doctor?"

"The Highly-skilled Doctor Certificate? It looks so awesome!"

"There are only 50 highly-skilled doctors in Huaxia, and Fang Qiu is the 51st. Isn't that awesome?"

"The most important thing is the age. Everyone can go and have a look. Now among the 51 highly-skilled doctors in Huaxia, except for Fang Qiu, the other 50 highly-skilled doctors are all over 50 years old. But how old is Fang Qiu this year? He is only 20 years old!"

"A 20-year-old highly-skilled doctor? It's incredible. Ordinary people haven't even become an apprentice of Chinese Medicine at the age of 20, but Fang Qiu is already a highly-skilled doctor?"

“Congratulations, Master Fang Qiu.”

“Although that sounds unbelievable, I have to say that Fang Qiu deserves this kind of talent. He is qualified to get this talent not only because of his kindness but also because of his hard work and his heart to devote himself to Chinese Medicine.”

“By the way, Fang Qiu became a highly-skilled doctor by getting 15 Highly-skilled Doctor Certifications. So the question is, who can get the Highly-skilled Doctor Certification of Fang Qiu?”

“It will be hard to get his certification, right?”

“Fang Qiu is already such a genius. No one will be qualified to get his Highly-skilled Doctor Certification unless there’s someone even more talented than him!”

For a moment, countless people came to congratulate Fang Qiu on his Weibo account.

Of course, there were also many netizens who began to talk about all kinds of jokes.

At the same time, all the Chinese Medicine students who were paying attention to Fang Qiu were also encouraged when they saw the Highly-skilled Doctor Certificate and the Highly-skilled Doctor Certification posted by Fang Qiu.

Students of the new era were different from Chinese Medicine apprentices of the old era.

In the past, Chinese Medicine apprentices were very modest. Even if they had the ability, they didn’t dare to think about things that seemed unattainable.

But the students nowadays were not only modest but also full of confidence.

In their opinion, since Fang Qiu could do it, they would definitely be able to do it.

They would achieve it in the same way as Fang Qiu did.

Zhang Guangshou from the University of Jiangjing Chinese Medicine chose to go to this university two years ago because of Fang Qiu.

He was the top scorer in sciences from Jiquan City.

He used to be a great talent.

To him, all high school courses were particularly easy, which were not difficult at all.

He thought that Chinese Medicine would also be the same.

However, when he entered the University of Jiangjing Chinese Medicine, he realized how extensive and profound Chinese Medicine was, and how hard it was to study Chinese Medicine.

Not only did he have to study, but he also had to go to work in the fields to plant and identify herbs. There were also hundreds of ancient books of Chinese Medicine for the students to study.

This kind of study made him have no spare time at all.

The top scorer in liberal arts from Jiquan City, Wang Pei, was the same as him.

Although both of them had good grades in school and had become apprentices, they would occasionally compare with each other when they met.

With the promotion and development of Chinese Medicine and their deep understanding and learning of Chinese Medicine, they felt that they had made the right choice.

Chinese Medicine was worth their efforts and time and energy to study.

Fang Qiu was their role model.

They would continue to work hard to make the same achievements as their role model.

...

Beep! Beep! Beep!

As soon as Fang Qiu saw Xu Miaolin and the others off after the meal, the phone in his trouser pocket rang.

He took it out and had a look.

It was a call from the high school class teacher.

"Hello?"

Fang Qiu answered the call.

"Do you remember me, Fang Qiu?"

The class teacher's voice came from the other end of the line.

"How can I not remember?"

Fang Qiu hurriedly said, "You will always be my class teacher."

“Ha-ha.”

A loud laugh came from the other end of the line. “Well, your time is also very precious. I won’t delay you anymore. I’ll make it short.”

“Please go ahead.”

Fang Qiu immediately nodded in response.

“Here’s the thing.”

The class teacher said, “I was entrusted by the principal to invite you to our school to cheer up your juniors who are about to take the college entrance examination. After all, you are now the idol of all the students in our school. Everyone wants to see you!”

“Okay, no problem.”

Fang Qiu was okay with helping out. He immediately nodded and said, “I’ll hurry to go over.”

“Okay, I’ll pick you up when you arrive.”

The class teacher replied with a smile.

After hanging up the call, Fang Qiu immediately booked a plane ticket back to Jiangjing with his mobile phone and booked a train ticket to his hometown. On the way to school, he would also take the opportunity to visit his parents.

...

Just as Fang Qiu was on the plane to Jiangjing, a piece of news went viral abroad.

“Fang Qiu defeated three highly-skilled doctors in Huaxia and became the 51st highly-skilled doctor in the country. He has officially become a new big shot in the Huaxia Chinese Medicine field!”

The news first spread in Murica.

Since his return from Murica, Fang Qiu had been paid special attention by Murican media.

Therefore, the news of Fang Qiu spread to Murica as soon as it became a hot topic in Huaxia.

Murica was the most developed country in terms of information transmission in the world. In this case, the news soon spread quickly all over the world.

This report not only mentioned Fang Qiu but also his teacher, Xu Miaolin.

And it was specifically marked out that Xu Miaolin was one of the four most powerful Chinese Medicine doctors in Huaxia.

Seeing this piece of news, the foreign netizens were also very surprised.

They spontaneously began to search for videos of the live stream on the Internet. When they couldn't find one, they made comments and asked for videos.

After those comments were read by the Huaxianese abroad, they immediately asked their friends in Huaxia to send the videos to them. Then, they translated the videos in person and posted them.

In just an hour, a related video had more than 5 million hits in Murica.

This click rate was already very high, and it had only been an hour.

At this rate, the click rate of 24 hours could exceed 30 million, or even 50 million.

In comparison, the main songs of the new albums of many super famous fashion stars could not reach such a click rate, which showed how popular Fang Qiu was abroad.

After watching the live stream video, undoubtedly, all the foreigners were shocked.

Of course, what shocked them was not the strength of Fang Qiu. When he competed with other people in traditional medicine in Murica, Fang Qiu showed a much stronger strength in Chinese Medicine than that he showed in Huaxia. They had witnessed how powerful Fang Qiu was.

It was the three highly-skilled doctors that stunned the foreign netizens.

“I always thought that Fang Qiu was the best doctor in Huaxia, but now it seems that I was wrong.”

“Are all the doctors in Huaxia so powerful? Their medical skills are so powerful. Compared with theirs, the medical skills of our country are extremely weak!”

“It’s amazing. It turns out that there are such amazing doctors in Huaxia in addition to Fang Qiu.”

“What did I see? Ankylosing spondylitis? They even cured that disease in such a short time. It’s amazing.”

“From today on, I must go to the Chinese Medicine clinic if I ever get sick. I must experience the magic of Chinese Medicine!”

Whether it was on Twitter or Instagram, people from all over the world were talking about it.

After watching the challenge video, people from every country were extremely shocked and said that they must start adopting Chinese Medicine and feel the magic of Chinese Medicine.

Some people even said that no matter what, they had to go to Huaxia to experience the charm of Huaxia, the atmosphere of Huaxia Chinese Medicine, and personally experience the secret and power of Huaxia Chinese Medicine.

This had become a trend on Twitter and Instagram.

Almost everyone was talking about Huaxia Chinese Medicine and envied the Huaxianese, saying that they really wanted to try Chinese Medicine treatment.

After landing at the Jiangjing Airport, Fang Qiu immediately took a taxi to the Jiangjing train station and then got on the train home.

A few hours later, the train stopped at Linxi County Station.

Fang Qiu got out of the train, took a taxi, and sneaked home.

Because today was the weekend, Fang Qiu wanted to give his parents a surprise.

However, as soon as he got home, he found that his parents had prepared dinner as if they knew that he was coming back. It seemed that the class teacher had informed them about his arrival.

In the evening.

“Qiu, your mother and I spent a whole day preparing this meal. Congratulations on becoming a highly-skilled doctor.”

Fang Qiu’s parents raised their glasses with a smile and congratulated Fang Qiu together.

Chapter 1659 Cheering for the Students

“Thank you, Dad. Thank you, Mom.”

Fang Qiu thanked his parents with a smile and said, "Thank you for what you've done for me over all these years."

As he spoke, he raised his head and drank a glass of wine.

"You're welcome. I'm glad that you're so grateful."

Fang Qiu's mother smiled with satisfaction.

"Your mother is right. One has to be grateful."

Fang Qiu's father said, "You wouldn't have become what you are today without your upbringing. You should be grateful to the ones who helped you and guided you in your primary school, junior high school, senior high school, or university."

"Got it."

Fang Qiu nodded affirmatively and said, "I came back to express my gratitude."

"Well. That's great."

Fang Qiu's father nodded with satisfaction and said, "We heard from your high school class teacher that you agreed to come back and cheer up the students who are about to take the college entrance examination. This is nice. You will not only help out the school but also guide the students. You also get to visit us by the way."

"Dad, don't worry."

Fang Qiu nodded and said, "I will never forget loyalty, filial piety, self-control, and justice. I will definitely keep them in mind."

At this point, Fang Qiu suddenly thought of a familiar figure, the old master.

As a matter of fact, except for his parents, the old master had educated Fang Qiu the most since he was a child.

Just as Fang Qiu's father said, without the help of the old master, it was absolutely impossible for Fang Qiu to achieve everything he had now.

Frankly speaking, the old master made him have his current achievements.

Therefore, since he knew that the old master was injured, Fang Qiu had been worried about him. He had been looking for a way to cure the old master. He even studied Chinese Medicine for the sake of the old master.

In terms of repaying kindness, Fang Qiu was definitely not inferior to anyone, and he would never do anything ungrateful.

"Well said, Son."

Hearing what Fang Qiu said, Fang Qiu's father nodded with satisfaction.

At this time, Fang Qiu's mother suddenly asked, "Qiu, you're now 20, aren't you?"

"Yeah."

Fang Qiu nodded.

"A man should get married and settle down at the age of 20. Shouldn't you date someone? Maybe get a girlfriend?" Fang Qiu's mother asked with a smile.

“What do you mean by getting married and settling down at the age of 20? It’s said that men should settle down in their thirties. That’s the best time. I’m only 20 and have just developed and matured. Why should I get married now?”

Fang Qiu gave a bitter smile.

“What’s wrong with doing that at the age of 20?”

Fang Qiu’s mother rolled her eyes at Fang Qiu and said, “You’re successful in your career and famous now. Why can’t you get married? You’ve exceeded most of our expectations of you. Now all you need to do is get married. Only when you do this can your dad and I live out our lives in retirement at ease.”

“Mom, you’re only in your forties, aren’t you?”

Fang Qiu gave a wry smile and said, “If you want to go to work or travel, just do it. You can do whatever you want. I’ll pay the bill for you, but you’re only in your forties. Can you stop pretending to be so aged? That makes me feel uncomfortable.”

“That’s right. Don’t pretend to be aged. It’s up to him when he gets married. Qiu is so excellent. Are you afraid that he can’t get married?”

Fang Qiu’s father spoke up for Fang Qiu.

“You take his side when he’s around. When he leaves, you’ll know that you’re wrong.”

Fang Qiu’s mother glared at Fang Qiu’s father, which made the latter not dare to speak.

Fang Qiu couldn’t help laughing when he saw his parents quarreling.

...

The next day.

After breakfast, Fang Qiu got up and rushed to high school in a low profile.

It was the beginning of June.

The college entrance examination was in a few days.

Now the students were almost finished with their notes reviewing. What they needed was a cheer.

At the school gate, Fang Qiu took out his mobile phone and called the class teacher.

After receiving the call, the class teacher knew that Fang Qiu had arrived at the school gate. He immediately rushed out to welcome Fang Qiu with a group of people.

Even the principal, the vice president, the director, and other leaders of the school came over.

Seeing this, Fang Qiu couldn't help but smile wryly. He had deliberately kept a low profile when he came over, but it turned out to be such a grand welcome.

Of course, Fang Qiu didn't say anything about it.

He knew that even if he said it, it would be useless. The school would still give him a grand welcome.

"Let's go to my office first."

The principal stepped forward and said, "The students are having morning classes now. We are still arranging the specific time. Let's go to the office to have a rest first. You'll show up when the time is right so as not to cause a sensation."

“Okay.”

Fang Qiu nodded and agreed. Then, led by the principal and the school leaders, he went all the way to the principal’s office.

However, as soon as he entered the principal’s office, Fang Qiu saw a very familiar figure.

It was Jiang Mengjie.

Seeing Jiang Mengjie, Fang Qiu was quite surprised, but he knew her presence was reasonable, so he said with a smile, “You’re so early.”

“You didn’t expect me here, did you?”

Jiang Mengjie asked with a smile and then said, “I wanted to ask you to come back with me, but you were too busy, so I didn’t take the initiative to contact you. I didn’t expect you to really come here on time.”

“I have to come over.”

Fang Qiu said, “This is our alma mater. I should come over no matter what. I knew you would definitely come here, but I didn’t expect it to be at this time.”

Hearing their conversation, the principal said with a smile, “It just so happens that you can have a reunion. Although you two work together, it’s not easy for you to meet each other. You’re both quite busy.”

Fang Qiu nodded with a smile.

“He’s busy.”

Jiang Mengjie looked at Fang Qiu and said, "I have plenty of time, but unfortunately, I often can't see him."

Fang Qiu felt deeply ashamed.

Indeed, he was quite busy as Fang Qiu and John Doe.

Not to mention Jiang Mengjie, he even had very few opportunities to meet Jiang Miaoyu. He even rarely met He Xue, whom he had to meet at work.

"That's understandable."

The principal immediately said with a smile, "Fang Qiu has a big career and a lot of things to do now. It's natural for him to be quite busy."

"Right! That's right!"

Fang Qiu hurriedly nodded in agreement.

Later, everyone chatted for a while.

After the other leaders arranged everything, they walked out of the principal's office at 10 o'clock in the morning and went all the way to the sports ground.

At this moment, all the students of the school were standing on the sports ground.

A rostrum was set on the flag-raising platform.

Surrounded by a group of school leaders, Fang Qiu and Jiang Miaoyu came to the flag-raising platform.

Seeing the arrival of Jiang Miaoyu and Fang Qiu, immediately, everyone on the sports ground was in an uproar.

"I'll go first," Jiang Mengjie said with a smile when she saw her junior brothers and sisters in an uproar.

"Okay."

The principal nodded. He then took the lead to walk to the rostrum and said to all the students present, "Quiet down, please."

After all the students quieted down, the principal said with a smile, "Today, we have invited two students who graduated from our school. They used to be students in our school, who are your senior brother and sister. But now they are the future of the country and the mainstay of society.

"The college entrance examination is around the corner.

"They used to be the top scorers in the college entrance examination in our county. We invited them over. They will tell you about the college entrance examination and cheer for you!"

As soon as he finished speaking-

Clap! Clap! Clap!

All the people present immediately applauded wildly.

"Well, let's cut to the chase. Let's welcome your senior sister, Jiang Mengjie, on the stage to give a speech."

As he spoke, the principal turned sideways and pointed at Jiang Mengjie.

Jiang Mengjie walked up to the rostrum with a smile on her face.

“Wow...”

All the students on the sports ground were shocked when they saw Jiang Mengjie on the stage.

“Jiang Mengjie. Jiang Mengjie Jiang Mengjie...”

All the students present shouted the name of Jiang Mengjie excitedly.

The boys, in particular, shouted at the top of their lungs.

Hearing the students’ shouts, all the leaders of the school were shocked.

They didn’t expect that Jiang Mengjie would be so influential.

Originally, they thought only Fang Qiu would have such an appeal.

Now it seemed that the influence of Jiang Mengjie was not inferior to that of Fang Qiu at all.

With the cheers of all the students, Jiang Mengjie walked to the rostrum and said into the microphone, “Hello, everyone. I’m your senior sister, Jiang Mengjie!”

As soon as she finished speaking, an orderly shout suddenly sounded.

“Hello, senior sister!”

At this moment, the students on the sports ground surprisingly shouted in unison, which shocked Jiang Mengjie.

“In the blink of an eye, it’s the annual college entrance examination again.”

When the cheers gradually dissipated, Jiang Mengjie looked at everyone with a smile and said, “I’ve been through it before, so I’m very clear that this is indeed an important day for every candidate to prove their strength. It’s definitely unrealistic to say that you’re not nervous.

“However, I think that although this moment is very critical, this is something that we must overcome in our lives, isn’t it?

“We can’t just stop because we’re nervous, can we?

“As an experienced person in the college entrance examination, I actually want to tell you that the closer you are to the college entrance examination, the more nervous and conflicted you will be. Sometimes, you even hope that time will pass faster. The earlier you finish the exam, the more relaxed you will be. But sometimes, you hope that time can pass slower so that you will have enough time to prepare yourself for the final trial.

“In fact, at this last stage, no matter if you have excellent grades or there is a certain gap between you and others, you must control your mood and maintain your confidence!

“Although confidence may not help you succeed, losing confidence will definitely lead to failure!”

At this point, Jiang Mengjie smiled and said, “Life is not like following the trend. Everyone has to be responsible for their own future. Here, I hope you don’t care about the gains and losses of the exam. Don’t overestimate the difficulties of the college entrance examination, and don’t consider its impact. As long as you keep a calm mind and relax properly, do your best to give full play to your level, that will be a victory!

“I’m Jiang Mengjie. I’m here to cheer for you.

“I wish everyone all the best on the exam!”

When she finished the speech, Jiang Mengjie raised her right hand, clenched her fist, and made a cheering gesture to everyone.

Chapter 1660 A Mysterious Man

Clap! Clap! Clap!

As soon as Jiang Mengjie finished her speech, there was warm applause on the sports ground.

On the stage, Jiang Mengjie smiled, waved to everyone below the stage, and then turned to leave the rostrum.

Meanwhile, the principal also returned to the rostrum after applauding. Facing all the students, he said, "Let's give another warm applause to your senior sister, Jiang Mengjie."

As soon as he said that, there was even louder applause from the audience.

At the same time as the applause sounded-

"Fang Qiu! Fang Qiu! Fang Qiu..."

Below the stage, all kinds of cheers for Fang Qiu rang out, which were even louder than the cheers for Jiang Mengjie.

Seeing that everyone was so enthusiastic, the principal on the rostrum stretched out his hand with a smile, indicating for everyone to stop. He hadn't introduced Fang Qiu yet.

When everyone stopped cheering for Fang Qiu, the principal said with some excitement, "The next one to come on the stage is also your senior. He is not only your senior, but also a doctor who brought Chinese Medicine abroad. He is the hero for promoting the development of Huaxia Chinese Medicine. He is the person in charge of the Three Billion Foundation. He is also one of the only 51 highly-skilled doctors in Huaxia. He's the contemporary miracle-working doctor, Fang Qiu!"

With the principal's introduction, all the students on the sports ground applauded one after another.

Everyone looked at the stage with expectation in their eyes.

In their opinion, Fang Qiu did not only represent the titles introduced by the principal but was also their idol, a superstar of the generation.

Therefore, all of them liked Fang Qiu very much.

They all wanted to see Fang Qiu.

Although this place was Fang Qiu's hometown and they studied at the high school where Fang Qiu used to study, the current man Fang Qiu was now was completely different from the man he used to be. They could only see Fang Qiu once or twice a year at most even if they went to stay by his house.

Compared with the boys, the girls liked Fang Qiu even more.

"Okay."

As soon as he finished his introduction, the audience cheered again. The principal shook his head with a smile and said, "Since everyone is so looking forward to it, I won't waste your time.

"Next, let's welcome Fang Qiu to the stage with warm applause and cheers!"

As soon as he said that, the audience burst into cheers.

"Fang Qiu! Fang Qiu! Fang Qiu..."

The name of Fang Qiu was shouted by everyone, making a loud noise.

With the applause of the whole school leaders, all the students, and Jiang Mengjie, Fang Qiu stepped onto the stage, nodded to the principal with a smile, and then stepped onto the rostrum.

As he stepped onto the rostrum, the students' shouts became louder.

"Thank you, thank you all."

Standing on the rostrum, Fang Qiu said with a smile, "I'm honored to return to my alma mater and meet you here, my junior brothers and sisters."

Everyone cheered even more enthusiastically.

However, because Fang Qiu was giving a speech, although they cheered very enthusiastically, they immediately quieted down after a short while.

"The college entrance examination is held every year, and there are various relevant topics. However, the students who take the college entrance examination are different every year."

Looking at all the students on the sports ground, Fang Qiu said with a smile, "Back then, I was just like you, standing on the sports ground and watching the principal and teachers cheering for us on the stage. At that time, I was different from you now."

"Yes, I was different."

Fang Qiu smiled.

All the students were confused.

The teachers and school leaders present were also confused.

“Why was he different?”

“Because I was not nervous.”

While everyone was confused, Fang Qiu said, “I was not nervous about every exam because I had been telling myself why I should be nervous. When I had enough knowledge reserves, I was confident that I could complete the exam according to my own expectations. When I didn’t have enough knowledge reserves, there was no need for me to be nervous. No matter how nervous I was, my knowledge reserves wouldn’t increase.

“Yes, the most important thing about the college entrance examination is mentality.

“Those who can do well are often not able to do well because of mental problems. Those who can’t do well are often unable to do well because of the same problems. They can’t even make a frantic last-minute effort. So it’s just an exam. Everyone, you must calm down first.

“Of course, I’m also envious of some students. They don’t think college entrance examination is important, and educational background doesn’t mean everything.

“Indeed, that’s true.

“But what I want to tell you is that although educational background does not represent everything, it can improve the starting point of your life!

“This is the worst era. Because the Internet is too developed, all kinds of information can be accessed in the brain, and no one can be the master of a subject.

“But this is also the best time because as long as you can master a subject, you can become experts who can look down on the masses.”

At this point, Fang Qiu paused for a moment and then continued, “Strong youths lead to a strong country.

“The development of the country requires new blood.

“The knowledge of high school may not be useful in the future, but this is your stepping stone. It’s just like building a house. If you need to build a large and beautiful building, you must have a foundation that can bear the weight of the building.

“However, your future is not determined by a test paper, a university, or a major, but by how hard you work in the future!

“I hope that everyone can keep a calm attitude from the beginning, position yourself objectively, and develop a plan based on this position. Don’t panic because others make faster progress than you, and don’t mess up your plans just because you like to have fun. Life is not like following the trend. Everyone should be responsible for their own future.

“That’s because your future is the future of the country.

“The revival of the country requires our joint efforts and sacrifices. Now I just took a few steps ahead of you. I believe you will definitely catch up with me.

“Finally, I wish everyone success on the college entrance examination!

“You have my support.”

As soon as he finished his speech, the audience applauded enthusiastically again.

Even the school leaders and teachers couldn’t help applauding.

Fang Qiu spoke very well.

Not only did he tell everyone what kind of mentality they should have to face the college entrance examination, but he also told them the importance of the college entrance examination

The students listened very carefully.

It seemed that many students took his speech to heart.

The goal of the school to invite Fang Qiu to give a speech had been achieved. With the guidance of the teachers, the students would definitely be able to do their best when the college entrance examination came.

“Thank you, everyone.”

Fang Qiu thanked everyone and stepped off the stage.

Right after that, the principal and the school leaders also came to the stage to give speeches one after another.

They added some key points based on the speeches Jiang Mengjie and Fang Qiu gave.

The pep rally was over.

When Fang Qiu and Jiang Mengjie were about to leave, the students immediately rushed up from all directions and surrounded the two. They wanted their autographs and photos.

Originally, the teachers were ready to stop the students but failed to do so.

When they saw that Fang Qiu and Jiang Mengjie were not unwilling to do so, they allowed the students to ask for autographs. After all, Fang Qiu and Jiang Mengjie rarely came to school. If they missed this opportunity, they didn't know when they would be able to see the two famous figures again.

Even some teachers went up to the two and asked for autographs, which made the students laugh out loud.

There were too many people.

The principal directly asked someone to bring two sets of tables and chairs so that Fang Qiu and Jiang Mengjie could sit down.

Everyone began to line up for autographs.

As this went on, suddenly, a junior who had just lined up asked, “Seniors, you two are a good match. I’ve seen photos of you having supper together on the news. Are you two a couple?”

As soon as what she said was heard, all the students who were lining up for autographs quieted down and listened carefully.

Jiang Mengjie blushed instantly.

Back then, she and Fang Qiu were indeed a couple in school, but neither of them confirmed their relationship.

But now, things were different.

Jiang Mengjie turned to look at Fang Qiu with a red face.

However, Fang Qiu quickly shook his head.

Seeing this, Jiang Mengjie looked gloomy.

“Eh?”

When the gossipy girl saw what Fang Qiu did, her eyes immediately lit up. She said to Fang Qiu with a gossipy look, “Senior Jiang Mengjie is so pretty, but you don’t woo her. So, are you gay?”

When Jiang Mengjie heard that, she couldn't help but burst into laughter.

Fang Qiu was speechless for a moment.

"What is this little girl talking about?"

...

In the afternoon.

After doing the autographs, Fang Qiu and Jiang Mengjie said goodbye to the class teacher and school leaders.

They left the school.

Fang Qiu put on a mask and sent Jiang Mengjie home.

He had taken this road many times when he was in high school. He used to send Jiang Mengjie back often, but now things were completely different from before.

They talked all the way about the feeling of returning to their alma mater. Soon, they arrived at the gate of the community where Jiang Mengjie lived.

As soon as they entered the gate, a middle-aged man walked toward them.

"Uncle."

Jiang Mengjie called out with a smile.

The middle-aged man nodded and passed by Fang Qiu with a smile.

Fang Qiu got curious and asked, "Is he your uncle?"

"No."

Jiang Mengjie shook her head and said, "He's an owner of our community. He's a nice person. I often meet him and he's younger than my dad, so I call him uncle."

"I see."

Fang Qiu nodded with understanding. He then turned around and glanced at the back of the middle-aged man.

When he saw the middle-aged man for the first time, Fang Qiu found that the man was a martial arts practitioner.

Because the observation time was too short and the other party had been hiding all the time, Fang Qiu did not notice his real strength, but he was sure that the man's strength was not low.

"This is a bit strange.

"Why is there a martial arts practitioner hiding in such a small county?"

Fang Qiu was very confused.

While sending Jiang Mengjie upstairs, he directly controlled the Divine Consciousness to spread out and keep an eye on the middle-aged man.
