

## Medical M 1701

### Chapter 1701 Fighting against the Eighth Guardian

Bang!

In that chaotic battlefield, the two of them collided fiercely with each other in an instant with their own strength without any energy erupting.

Along with a stunning sound, a crack appeared on the ground under their feet.

Even the glass wall next to them was filled with cracks in an instant. Fortunately, it was not broken.

In the face of such a situation, Fang Qiu moved and rushed straight out of the hotel.

Swoosh!

The Eighth Guardian didn't lag behind either. He followed Fang Qiu all the way and chased after him quickly.

It was not until they left that the crowd in the hotel realized that the glass was broken. They immediately stopped. Seeing that the black-robed men of Nirvana rushed out of the hotel quickly and that the glass was not completely broken, they continued to fight.

Outside the hotel.

Fang Qiu was extremely fast.

He directly rose into the air, crossed the building in front of the hotel, and then quickly rushed to the seaside in the distance.

The Eighth Guardian followed closely behind.

“John Doe?”

Staring at the back of Fang Qiu, a cold light flashed in the eyes of the Eighth Guardian.

After several tests in a row, he clearly felt that John Doe’s combat capability was not as strong as it was rumored. Even when John Doe killed five incapable gurus and five Murican metahumans in a rage before, he did not show enough strength to make the Eighth Guardian fear.

Therefore, not only was he not afraid of John Doe now, but he also wanted to catch up with him and find an opportunity to kill John Doe on the spot.

As long as John Doe was dead, all the following plans of the Nirvana Organization could be carried out without any scruples, and the members of Nirvana no longer needed to worry about anyone destroying or stopping them.

With this in mind, the Eighth Guardian chased after John Doe, rushed all the way out of the city, and then flew along the seaside.

Soon, they came to a place where there was no one around.

In the distance was the mountain where Wei Jian and the others were hiding.

At this point, Fang Qiu stopped.

“How dare you come back?”

The Eighth Guardian stared at Fang Qiu with a cruel smile on his face and said, “I have to say that you are really courageous. But unfortunately, you’ll die here because of your courage!”

“Go to hell.”

Fang Qiu clenched his right hand, and the divine sword instantly condensed in his hand. Then, he waved it with his right hand and directly attacked the Eighth Guardian without hesitation.

“Tsk, tsk...”

“Since you wish to die, I’ll fulfill your wish!”

The Eighth Guardian let out a sinister laugh. He put his hands together deeply, and an incomparably powerful energy immediately burst out from his body. A layer of black mist immediately broke out of his skin and spread rapidly around him.

With the appearance of this layer of black mist, a gust of Qi power comparable to that of an expert in the One-Flower Core Realm suddenly rose.

Like a raging flame, it expanded in the wind.

With the eruption of the energy Qi power here, on a high mountain near the sea in the distance, Wei Jian and the other two, who had been hiding on the mountain, immediately came out. They each stood behind a big tree and cast their eyes in this direction.

Fang Qiu rushed to the Eighth Guardian in an instant, waved the long sword in his right hand, and immediately burst out a dazzling sword light, stabbing directly at the chest of the Eighth Guardian.

Just as the long sword was about to reach the Eighth Guardian, the layer of black energy mist around him quickly surged and gathered. It was directly condensed into something like a heart-protecting mirror in front of him to resist the fierce stab of Fang Qiu’s divine sword.

Clang!

After a crisp sound, the heart-protecting mirror made of black mist suddenly spewed out thick black energy like a cuttlefish, which instantly pounced on Fang Qiu.

...

Early in the morning in Belgon, the city was filled with continuous alarm sounds.

From a distance, it could be clearly seen that police cars rushed toward the hotel from all directions and then directly formed a circle, completely surrounding the hotel.

In the hotel.

Boom! Boom! Boom!

The crazy sound of collision kept ringing out.

The hotel, which was originally extremely luxurious and was completely built of glass walls, was in chaos at this time. All the glass walls were covered with dense cracks.

From the outside, it was impossible to see what was going on inside.

It was even more chaotic inside the hotel.

At first, it was just a chaotic battle in the lobby, but now people were even fighting on the second, third, and fourth floors.

Almost every floor was in a melee.

Hearing the sounds of fighting coming from the hotel, the policemen outside did not dare to enter at all. They just surrounded the hotel and did not allow ordinary people to approach.

...

Dozens of kilometers away from the downtown area, by the sea in the uninhabited mountain area.

Boom!

There was a muffled thunderclap that shook heaven and earth.

Under the violent sea breeze, a gust of extremely terrifying energy Qi burst out from the place where the two figures collided and spread in all directions.

Wherever it passed, the huge pressure directly squeezed the sea dozens of meters down, causing a large-scale dent. On the other side of the mountain, with the fluctuation of this energy Qi, the trees and boulders all over the mountain were shattered in an instant.

It looked extremely terrifying.

On the top of the mountain in the distance.

“That’s incredible!”

Looking at the battle from a distance, Wei Jian and the other two widened their eyes in shock.

This was the first time that they had seen John Doe go all out.

Such power was indeed incredible.

Even though they were far away, they could clearly feel how powerful the energy Qi caused by the fight between the two people was.

“How can a Guardian of Nirvana be so powerful?”

Luoyun and Luohua stared at the Eighth Guardian in shock.

They didn’t expect a mere Guardian of the Nirvana Organization to be strong enough to fight with John Doe.

On the battlefield.

“Eighth Guardian?”

After the collision, Fang Qiu retreated a few meters and reached out to take off the black cloth covering his face, revealing the face of Lin Yu. He stared at the Eighth Guardian and asked, “It seems that there are still many people of the last generation who stay in the Nirvana Organization.”

“It’s not up to you to inquire about these things.”

The Eighth Guardian shook his head and sneered. “You are just an insignificant obstacle in the way of Nirvana’s advance. Today, I will crush you to death here!”

“I heard that there are only ten Guardians left of the previous generation of the Nirvana Organization, and many of them have hidden. Since you have reemerged as the Eighth Guardian, doesn’t it mean that the other Guardians have all been summoned back?”

Fang Qiu stared at him indifferently and said, “Could it be that the Nirvana Organization has been destroyed by me?”

“You want to know?”

After the Eighth Guardian waved his right hand, the deep black heart-protecting mirror immediately disintegrated into black mist energy. Then, with a wave of his right hand, it directly turned into an extremely sharp arrow. He moved as the arrow directly shot toward Fang Qiu.

“When you die, I’ll tell you everything you want to know.”

As the Eighth Guardian spoke, he had already rushed to Fang Qiu.

Surrounded by the black mist energy, he was like a God of War on the battlefield in ancient times. With a point of his finger, the arrow formed by the black energy fiercely attacked the space between Fang Qiu’s eyebrows.

“To do you the same favor, I will also tell you a secret when you die.”

When the black arrow was about to hit him, Fang Qiu suddenly withdrew and then waved his right hand. The long sword was immediately covered with a layer of golden luster.

Whiz!

With a wave of his right hand and a twist of his wrist, a golden Sword Lotus, under the light of the morning sun that had just broken through the coastline, burst out dazzling light and directly smashed the dark energy arrow.

“Ancient Swordsmanship, Combat!”

While destroying the black energy arrow, Fang Qiu moved and immediately turned into a shadow. With a gust of extremely powerful energy Qi, he rushed toward the Eighth Guardian who was coming at him.

“Nirvana Black Flame!”

Seeing John Doe suddenly fight back, the Eighth Guardian darkened his face and put his palms together. The energy of the black arrow that had just been crushed by John Doe immediately gathered back and

condensed into a heart-protecting mirror again in front of the Eighth Guardian. It directly rushed toward the long sword in John Doe's hand again.

When they were about to get close, a layer of dark energy flame suddenly burned on the energy heart-protecting mirror, bursting out a gust of extremely hot heat.

It was so hot that steam rose all over the sky even from dozens of meters away.

In the blink of an eye, the mountain nearby was charred black.

"Hmm?"

Fang Qiu narrowed his eyes, looking closely at it.

He didn't expect that the Eighth Guardian mastered fire elements.

However, this kind of flame didn't seem to be formed by the Heaven and Earth energy but was a kind of real flame.

"Is the energy he cultivates a kind of flame?"

As Fang Qiu was shocked, the long sword in his hand collided fiercely with the heart-protecting mirror formed by the Eighth Guardian's energy once again.

Different from the previous collision, at the moment when the two collided, a golden light flashed on the divine sword in Fang Qiu's hand, and a gust of energy Qi that was sharper than before burst out, directly piercing through the Eighth Guardian's energy heart-protecting mirror.

"What?"

Seeing this, the face of the Eighth Guardian changed dramatically. Just as the long sword, which had penetrated the heart-protecting mirror, was about to pierce his chest, he forcefully controlled his body to stop in the air and then quickly retreated.

After the long sword pierced through the heart-protecting mirror, Fang Qiu was about to catch up with the Eighth Guardian.

However, he was surprised to find that the layer of black flame burning around the heart-protecting mirror seemed to be alive, quickly burning toward his arm along his long sword.

The temperature around him suddenly rose in an instant.

Whiz!

Fang Qiu immediately withdrew his long sword and then swung it in the air, directly extinguishing the flame on the sword.

“Tsk, tsk...”

The Eighth Guardian laughed in a chilling manner and said, “Nothing in this world can withstand the burning of the Nirvana Black Flame. Soon, I will turn you into ashes all over the sky and scatter you in the boundless sea.”

Fang Qiu raised his eyebrows and said, “Your body can actually withstand such a degree of fire?”

“Are you afraid?”

The Eighth Guardian chuckled and said, “Don’t worry. There won’t be any pain if you’re entangled by my black flames. You’ll turn into ashes in a short time.”

Chapter 1702 He Lost

In the distance.

“What a strong energy aura.”

In the mountain forest, Wei Jian and the other two stared at the Eighth Guardian in shock while looking at the battlefield in the distance.

Even from a distance, they could clearly feel the heat of the horrible black flames and even smell a trace of danger from them.

They didn't expect the Eighth Guardian to use such terrifying flame energy.

On the battlefield.

Buzz! Buzz!

The strange black flames spread out from the body of the Eighth Guardian. As the burning heat of the black flames spread in all directions, a kind of horrible aura that made people dare not get close to it also swept out from his body in all directions. It was like a black cloud pressing the city, giving people an extremely oppressive and fearful feeling.

Boom! Boom! Boom!

Soon, the black flames that rose to the sky surged wildly and covered the entire place, forming a dark sea of fire in the sky above the sea.

Shocking energy Qi was released from the black flames, firmly suppressing the surging waves below, forming an empty beach area.

Looking at the energy flames released by the Eighth Guardian, Fang Qiu couldn't help but become serious in an instant.

He felt a long-lost sense of crisis in that vast sea of black fire.

Staring at his opponent seriously, Fang Qiu loosened his grip, and the divine sword in his right hand immediately broke down and disappeared into thin air.

After that, he spread out his hands to both sides.

The surrounding Qi of Heaven and Earth immediately seemed to be pulled by a huge attraction. It quickly poured in from all directions and gathered on his hands.

Clatter!

The Qi of Heaven and Earth, which was surging like a river, gradually lit up with a layer of golden light as it gathered on Fang Qiu's palms.

After all the internal Qi in his body was transformed into golden internal Qi, Fang Qiu would be running the golden internal Qi every time he launched an attack.

In just half a minute, a small golden sun condensed on each of his palms. Originally, they could not be seen at all. They were two transparent energy balls, but now they became extremely dazzling.

With the appearance of these two balls of golden scorching sun-like energy, the heat emitted by the black flames all over the sky was immediately suppressed.

"Is this the power of the One-Flower Core Formation?"

In the distant forest, when Wei Jian and the other two saw the energy balls bursting from John Doe, they couldn't help but widen their eyes and look at Fang Qiu with admiration.

Just now, they could clearly feel the terrifying energy erupting from the Eighth Guardian and the terrifying heat emitted by the black flames.

Even though they had all reached the Venerable level, the three of them were still not confident that they could resist the Eighth Guardian's attacks.

However, John Doe easily suppressed the terrifying heat emitted by the black flames and completely suppressed the Qi power of the Eighth Guardian.

How could Wei Jian and the other two not admire such formidable strength?

With the black flames all over the sky as his backing, the Eighth Guardian looked at Fang Qiu with a trace of madness in his eyes.

Then, his hands were like wings, waving violently.

Whoosh!

The black flames all over the sky immediately surged wildly under the control of his hands and quickly gathered together in front of him.

In a flash, it turned into a towering saber in front of him.

The black flames burned fiercely.

"Black Flame Slash!"

A crazy roar came from the Eighth Guardian.

In the meantime, as the Eighth Guardian waved his hands, the towering black flame saber fell from the sky toward John Doe along with the crackling sounds of fire. It was like a tall building being pushed down.

This black flame saber was not a lethal weapon. Instead, it was like the bloody mouth of a giant beast, trying to swallow John Doe whole.

Boom! Boom! Boom!

The black flame saber hacked down, causing muffled rumbling sounds to ring out in the sky wherever it went.

The seawater had been completely suppressed below. On the beach by the sea, a huge crack was directly pressed out by the huge pressure of the black flame saber.

It looked as if the saber was going to cut the beach into two halves.

The speed of the black flame saber was extremely fast.

It almost instantly landed in front of Fang Qiu.

Fang Qiu's golden light was dazzling.

In the face of the wildly falling black flame saber, Fang Qiu put his hands together.

The two golden energy balls, which were like two scorching suns, collided with a loud bang.

One could see that at the moment when the two energies collided, they suddenly twisted. Not only the two energies but even the space was distorted.

All of a sudden, a gust of extremely crazy and terrible energy burst out from the two merged energy balls.

The energy and Qi power surged wildly.

In the blink of an eye, the two golden energy balls, which were like two scorching suns, completely merged into one energy ball that was not so dazzling. It was covered with a layer of golden light and looked like a bubble.

This energy bubble seemed very ordinary. There was nothing special about it at all.

However, after sensing it carefully, one could clearly feel a particularly terrifying energy fluctuation coming from the energy bubble and spreading out in all directions.

It could be seen with the naked eye that the space around the energy bubble had become quite distorted.

In the distance, Wei Jian and the other two stared at which energy bubble John Doe had displayed, and the shock on their faces became more intense.

Under the gaze of the three people, John Doe pushed with both hands.

Bang!

It was like a cannonball.

The energy bubble seemed to have been hit by some kind of huge force and shot out violently. The huge recoil force instantly sent John Doe more than 10 meters away.

The pupils of Wei Jian and the other two immediately shrank when they saw this scene.

In just an instant, the energy bubble that John Doe burst out of collided with the huge black flame saber falling from the sky.

Swoosh!

At the moment when the two extremely horrible energies collided, a dazzling light suddenly flashed.

After that, a devastating aura of energy fiercely swept in all directions.

With the sweeping of this energy, even the surface of the sea that was surging with big waves in the distance was affected, and the waves directly rushed in the opposite direction.

The trees and boulders in the surrounding mountains were directly shattered into powder by this energy.

This energy was so strong that it even affected Wei Jian and the other two in the distance.

Even if they were far away, the three of them couldn't help but take a few steps back and continue to look at the battlefield with horror in their eyes under the impact of this energy.

The next moment-

Boom!

The two forces collided fiercely at the same time.

Raging flames rose to the sky from the black flame saber.

But as the black flames rose to the sky-

Boh!

The golden energy bubble suddenly exploded as if it had been poked by someone.

After that, a torrent of golden energy in the bubble suddenly rose to the sky. It was like a huge mouth of the abyss, fiercely devouring the black flames that rose to the sky from below.

When the Eighth Guardian saw this, he was dumbfounded.

He felt that only his black flames would be able to devour everything.

But he had never expected that the energy of John Doe was actually stronger than that of his Nirvana Black Flame. John Doe's energy was actually able to swallow his black flames unceremoniously in such a terrible collision.

"How is it possible?"

While the Eighth Guardian was shocked-

Whoosh!

The incomparably violent golden energy didn't give him any chance at all. In an instant, it completely swallowed the black flames that rose to the sky and tried to escape.

After that, it directly turned into a torrent and rushed to the Eighth Guardian with lightning speed.

It was so fast that the Eighth Guardian could react at all.

Bang!

A loud bang was heard.

The Eighth Guardian didn't even have a chance to dodge before he was ruthlessly struck by this extremely formidable energy. He fell from the sky and heavily smashed onto the pitch-black reef below, causing an enormous force to shatter the reef.

Poof!

The Eighth Guardian spat out a mouthful of blood.

One could see that his chest had caved directly, and his eyes were full of horror and shock.

He could never imagine that the power that John Doe burst out was so strong.

John Doe was terrifyingly powerful. Even if the Eighth Guardian hid his strength, he couldn't resist the attack of John Doe at all. Even Nirvana Black Flame, the move he was the most proud of, was completely defeated by John Doe.

He had lost.

Swoosh!

Fang Qiu moved and instantly rushed to the Eighth Guardian. He slowly squatted down and whispered in his ear, "Before you, I also killed two previous Guardians, the Ninth Guardian and the Tenth Guardian!"

When the Eighth Guardian heard that, he trembled all over and widened his eyes in disbelief.

The next moment, Fang Qiu waved his right hand.

The internal Qi turned into flames and instantly enveloped the Eighth Guardian's whole body. Then, with a flash of sword light, the blood of the Eighth Guardian burst out of his throat and he died in an instant. Then, under the burning of the internal Qi flames, he was directly turned into ashes all over the sky and dissipated between heaven and earth.

"Phew..."

Fang Qiu let out a long breath.

He didn't notice that Wei Jian and the others were watching the battle in the distance at all. After a slight sigh of relief, he moved and quickly rushed back to the downtown area of Belgon.

He had to find the speed-up technique. He couldn't let it get out.

Once the technique was successfully taken away by people from other countries, it would inevitably cause turmoil in the world in a short time.

In this way, not only would it kill more people who practiced the speed-up technique, but it would also disturb the pattern of the whole world.

Therefore, Fang Qiu had to find the speed-up technique that the Muricans got from the Nirvana Organization.

He flew all the way swiftly.

When Fang Qiu arrived at Belgon, he found that the battle in the hotel was still going on. Although the hotel had been surrounded by the local police, the battle did not weaken at all. Instead, it spread to every corner of the entire building.

## Chapter 1703 Snatching the Technique

Boom! Boom! Boom!

All kinds of fierce fighting sounds came from the hotel.

After the policemen around the hotel received the order from their superiors, they directly set up a cordon around the hotel. Then, most of the policemen drove away, leaving only a few people guarding the cordon to prevent ordinary people from entering.

After all, it was a matter between metahumans. Although there were no powerful metahuman forces in the local area, the local government still knew about the existence of metahumans.

After Fang Qiu returned to Belgon, with great speed, he flew straight to the roof of the Kleista Hotel.

Because his speed had completely exceeded the range of the naked eye, no one could see Fang Qiu at all.

Back on the roof of the hotel, Fang Qiu immediately activated his Divine Consciousness to completely cover the entire hotel and began to search carefully.

“There are a total of three informants!”

Fang Qiu remembered very clearly that while the two sides were confronting each other, there were a total of three informants summoned by Zach Lyder.

Moreover, all three of them were protected by the elites of Murica.

However, as soon as the melee broke out, plus with the fact that Zach Lyder was seriously injured, the combat capability of the Muricans would be greatly reduced, and they would soon be suppressed by the union of other countries.

In that case, there was no doubt that the countries that united hated those spies who betrayed them the most.

Therefore, Fang Qiu was worried that those spies would become the targets of those people at the first possible moment.

Obviously, the reason why the three spies dared to step forward was very likely that they knew where the speed-up technique was. If they didn't know, there was no need for them to step forward at all.

Now, what Fang Qiu needed to do was to find the three people, locate the speed-up technique, and then take it away.

Luckily, before the melee, Fang Qiu had been keeping his eyes open and secretly memorized the energy auras of the three people.

“Hmm?”

His Divine Consciousness fluttered.

Fang Qiu found that two of the three people’s auras had completely disappeared, leaving only one, and that remaining aura was very terrified.

“He’s on the third floor!”

Fang Qiu narrowed his eyes.

He clearly felt that the remaining person was fleeing on the third floor in panic. His aura was very unstable, and it seemed that he could not hold on any longer.

Swoosh!

Fang Qiu immediately rushed downstairs.

Along the way, Fang Qiu clearly saw that people were fighting fiercely on every floor of the hotel. The hotel, which was originally extremely luxurious and comfortable, was now filled with the smell of blood.

Every place in the hotel was a mess.

Soon, Fang Qiu went straight to the third floor.

Because the lobby of the hotel was not far away, there were a lot of people on the third floor of the hotel. Almost every room was smashed.

Fang Qiu glanced over.

People were everywhere, all types of energy clashing back and forth.

Whoosh! Whoosh!

Some people who couldn't stand being beaten rushed upstairs with their heads down.

Some people even rushed upstairs crazily.

At the sight of Fang Qiu, these people directly brandished their weapons and slashed down without hesitation. However, they were all sent flying by Fang Qiu with no exception.

There were many separate rooms on the third floor with no suites. There was a corridor in the middle, and there were seven or eight rooms on each side.

In the fierce battle, the entire corridor was full of people.

"He's at the back!"

With the perception of his Divine Consciousness, Fang Qiu clearly felt that the remaining person among the three spies was running madly toward the last room.

A wanderer from Nihon was waving his long knife and chasing after that spy fiercely. He was about to catch up with him.

Fang Qiu moved and immediately rushed up.

Whiz!

A sword cry rang out.

“Aargh!!!”

A terrified scream suddenly shook the whole floor.

The Nihonese wanderer held the long knife with both hands and chopped down heavily on the young informant’s head.

The informant looked at the cold blade and ran to the corner of the last room. In a desperate situation, he raised his hands in front of his eyes and screamed in horror.

His scream lasted for quite a while.

The young informant raised his head in panic and fear when he noticed that the long knife didn’t reach him as he expected.

What reflected in his eyes was no longer the long knife shining with cold light, but a very familiar face.

It was John Doe.

Swoosh!

Grabbing the collar of the informant, Fang Qiu moved and directly grabbed him aside. Then, he waved his right hand and directly closed the door with his internal Qi.

“Tell me, where is the speed-up technique?”

Staring at the young informant in front of him, Fang Qiu narrowed his eyes and said, “If you don’t want to die, tell me everything you know!”

“I... I...”

The informant looked at John Doe in horror and said, “If I tell you, will you keep me safe?”

Without a doubt, now the Muricans could no longer keep him safe, and it seemed that John Doe was the only one who was powerful enough to protect him.

“Yes.”

Fang Qiu replied indifferently, “Tell me what you know, and I’ll keep you safe!”

The informant said hurriedly, “The speed-up technique lies in different people.”

“Hmm?”

Fang Qiu raised his eyebrows and asked, “Isn’t the speed-up technique put in a metal container by the Muricans?”

“Those people have long expected that the Muricans would do that, so they are prepared in advance. As soon as they got the speed-up technique, they took it out and directly divided it into eight parts. Each force has a share,” said the informant.

Fang Qiu understood.

The eight countries and forces staying in the hotel could keep each other in check by dividing the technique like that.

Fang Qiu asked, "Who are those people?"

"I have their information."

The informant immediately took out a note from his pocket and handed it to Fang Qiu, saying, "This is what I recorded. You can find them according to the clues on the note."

After taking the note, Fang Qiu opened it and read it.

As expected, the note recorded the identities of the eight people.

Taking a closer look, Fang Qiu found that the names, figures, heights, countries, and forces of these eight people were recorded on the note, and even the hotel room numbers of the eight people were recorded.

"You're quite meticulous."

As he spoke, Fang Qiu waved his right hand and grabbed the informant directly out of the room.

Then, Fang Qiu moved in a flash and quickly came to the reception desk of the hotel.

Throwing the man to the reception desk, Fang Qiu completely ignored the fierce battle in the lobby of the hotel. He directly began to check the information of the eight people on the computer at the reception desk.

Sure enough, the information he got was exactly the same as what was recorded on the note.

Fang Qiu nodded with satisfaction.

“Find a way to leave this place after I throw you out.”

After saying that to the informant, Fang Qiu directly grabbed him and threw him out of the hotel, giving him a chance to survive.

After throwing him out of the hotel, Fang Qiu moved and went upstairs again.

He went to the rooms of the eight people that were recorded on the note and searched carefully, only to find nothing.

“It seems that they’re keeping the parts with them.”

As this thought came to his mind, Fang Qiu once again activated his Divine Consciousness to cover the entire hotel and began to carefully explore the positions of the eight people.

The strength of these eight people was not bad.

That was why all the countries and forces were relieved to hand over the speed-up technique to them.

Within 50 meters, Fang Qiu could clearly see everyone’s appearance, and his observation speed was very fast.

Soon, Fang Qiu found the location of two of the eight people.

One of them happened to be on the floor he was on.

This person was very powerful as an S plus expert from L’hexagone.

At this time, he was fighting fiercely with an S-plus expert from Murica.

Fang Qiu quietly approached him.

He observed this person carefully in the dark.

It was obviously not easy to snatch something directly from the hands of an expert at this level. The most important thing was that Fang Qiu didn't even know where that man was hiding the speed-up technique. Therefore, he had to carefully observe and find the location of the speed-up technique before he could take action.

"Hmm?"

After observing carefully for a while, Fang Qiu suddenly smiled.

He found that during the fierce battle, that man had been protecting his left chest with his left hand. It didn't matter to him when the clothes of the right part of his body were cut. The clothes on his left body had always been well-protected.

"Is it in the inner pocket of the clothes on the left?"

Fang Qiu had an idea.

Just as the man couldn't care about anything else in the fierce battle, Fang Qiu moved and immediately rushed forward without hesitation. He suddenly reached out and grabbed the man's clothes on the left side. Then, he directly tore off the clothes.

And what was torn apart was exactly where the inner pocket of his clothes was.

After tearing off the man's clothes, Fang Qiu turned around and ran without any hesitation.

Because of his mask, the sudden appearance of Fang Qiu shocked that man, as well as the expert from Murica.

By the time they came to their senses, Fang Qiu had already disappeared around the corner of the corridor.

“Stop there!”

The expert from L’hexagone reacted and immediately shouted angrily as he was about to chase after Fang Qiu.

However, as soon as he moved, the expert from Murica immediately attacked him fiercely from behind, making it impossible for him to chase after Fang Qiu.

People thought that he looked furious because his left chest was completely exposed since his clothes had been torn by Fang Qiu.

No one had expected that the piece of clothing that was torn by Fang Qiu would contain an eighth of the speed-up technique.

Fang Qiu rushed directly to the other floor and then came to a stop in a room. He opened the clothes he was holding and found two pieces of ancient paper.

“Sure enough.”

Fang Qiu heaved a sigh of relief.

After taking a closer look and confirming that it was the technique, he immediately kept an eye on another one of the eight people on the floor with his Divine Consciousness.

Fang Qiu was well aware that he didn’t need to snatch all eight parts of the technique. He only needed to find two of them to prevent the other countries from forming the complete technique. In this way, he could achieve his goal.

Putting away the incomplete copy of the speed-up technique, Fang Qiu walked out of the room, grabbed another incomplete copy from the second person in the same way, and then immediately ran away.

## Chapter 1704 Surrounded

Unlike how the first person reacted, the moment the second person's part of the speed-up technique was snatched away, he was furious and immediately chased after Fang Qiu crazily with a roar.

Seeing the second person chasing after Fang Qiu angrily, the man from L'hexagone, who was the first to be robbed of the incomplete piece, immediately chased after Fang Qiu angrily as well.

When the other six saw this, they seemed to understand what was going on and immediately chased after Fang Qiu crazily.

Although they still had their pieces with them, they would completely lose this speed-up technique once any part of it was missing, so those six people were not only helping the two people who were robbed but also themselves.

The speed-up technique was what every country and force dreamed of. In the case that they had already got it, they would never allow the speed-up technique to be lost like this.

The Murican experts were also stunned in the hotel.

They didn't understand what these people were doing at all.

"Weren't they targeting us?"

"We've been fighting for so long. Why are they chasing after the others now?"

Zach Lyder, who had been severely injured and suppressed by the leader of SoviETT, suddenly came back to his senses and immediately shouted, "They have the speed-up technique! Get them!"

Upon hearing those words, all the Muricans immediately stopped fighting and quickly chased after Fang Qiu.

Realizing the situation was not good, Fang Qiu immediately ran to the gate of the hotel.

When he arrived at the gate, he immediately slowed down and then ran out of the hotel as fast as he could like a normal athlete.

Not only Fang Qiu but almost all the people who were chasing after him suppressed their energy and continued their chase crazily like ordinary people after they passed the gate of the hotel.

They had no other choice but to do that since they couldn't show their power in public.

After all, they were completely different from ordinary people, not to mention that the Nirwegian police had already set up a cordon around the hotel.

If they didn't hide their strength, they would probably be taken away by the local officers before they could run far away.

Even if they were powerful, they had to show respect to the local authorities since they were in others' territory.

Initially, people in the city were very curious about what had happened at the Kleista Hotel. The tourists from all over the world had been in a state of panic, for fear that there had been some terrorist attacks here. After all, the unusual sounds coming from the hotel were too scary.

However, what these extremely curious and frightened people saw was a large group of people running out of the hotel, who were not injured at all. All of them were in a sorry state and chasing after a person crazily.

It didn't look like they were fighting, but more like an ongoing marathon.

For a moment, the dense crowd from the hotel that had been running wildly all along the way directly attracted special attention in the downtown area of Belgon.

They even attracted some people who were not interested in running after them.

However, those who loved running couldn't keep up with these metahumans at all. It didn't take long for them to be left far behind by the metahumans.

This kind of situation caused many people to burst into laughter.

With the appearance of this large group of people who were running wildly, the heavy and depressing atmosphere in the downtown area of Belgon finally completely dissipated under everyone's laughter.

The city, once again, was lively.

Fang Qiu ran at the forefront.

Noticing that everyone was chasing after him crazily, Fang Qiu directly chose a direction, ran all the way with his head down, and soon ran out of the city.

Then, after running along a road for more than ten kilometers, he activated his internal Qi and rushed straight into the forest on the side of the road.

Behind him, the crowd also displayed their powers to catch up with him at a faster speed.

Running wildly all the way, Fang Qiu soon reached the depths of the forest. Because he was faster than those people, he had left them three kilometers away.

However, these people continued to chase closely behind.

Fang Qiu knew that the people chasing after him were not ordinary people.

These were metahumans from all over the world. While they were going after him, they must have sent the news back to their own countries. Now, it was likely that several satellites from other countries were watching Fang Qiu.

Moreover, it was almost impossible for Fang Qiu to get away under the surveillance of the satellite in a small country like Nirway.

Therefore, the only thing he could do now was to find a way to stop these people.

A bright idea occurred to him.

Fang Qiu immediately activated his Divine Consciousness to spread out quickly.

“Eh?”

As his Divine Consciousness spread, Fang Qiu suddenly sensed a kind of not-strong but very fierce energy aura in the forest.

It seemed to be a very powerful animal.

Without hesitation, Fang Qiu immediately turned around and rushed toward the location of the energy aura.

Behind him, everyone pursued relentlessly.

“A bear?”

After running for about a kilometer, Fang Qiu saw a giant brown bear as tall as two people’s heights combined standing in the jungle in front of him.

There was still a trace of red liquid flowing from the corner of the brown bear's mouth. It did not look like blood, and there was no smell of blood in the air.

There were no animal corpses around the giant brown bear.

There was only a plant that looked like a small tree. The fruits on it had disappeared, and the giant brown bear was standing next to this small tree.

It seemed that the red liquid at the corner of its mouth should be the fruit growing on this small tree.

“An Earth Treasure?”

Fang Qiu was surprised.

He could feel that the blood-red juice in the giant brown bear's mouth contained fire-type energy. It seemed to be from a fire-type Earth Treasure.

It was no wonder that this brown bear could become so big.

Although it was a pity that the Earth Treasure had been eaten, the existence of this brown bear gave Fang Qiu a chance to get rid of the people behind him.

Swoosh!

As Fang Qiu rushed toward the brown bear, he waved his right hand.

A stream of energy shot out of his hand and slammed into the brown bear's face.

After Fang Qiu delivered this strike, the giant brown bear was immediately enraged.

“Raaaaaargh!”

In a rage, the brown bear roared wildly to the sky.

When it turned its head, Fang Qiu, who first appeared in front of it, had disappeared. Instead, the eight people who chased after Fang Qiu and the people of the major forces in various countries were there.

“Raaaaaargh!”

Seeing the dense crowd, the brown bear roared angrily at everyone and then rushed forward.

As it ran wildly on the ground, its huge feet directly caused the surrounding ground to tremble wildly.

Seeing the giant bear rushing over, the faces of the eight men at the front darkened and they attacked at the same time.

None of them were weak.

At the same time, the huge power that erupted directly knocked over the brown bear that was rushing toward them.

Then, the eight people continued to lock on to the direction where Fang Qiu escaped and chased after him crazily.

The giant bear, which had been flipped over, stood up again in a crazy struggle. Its eyes were red with anger. It directly rushed into the crowd behind the eight people and instantly clashed with the people.

Some people who hadn't been hit continued to chase quickly, while some people who had been targeted by the giant bear could only helplessly entangle with it.

Fang Qiu had achieved his goal.

Although he couldn't stop all of them, at least some of them were stopped.

Nevertheless, Fang Qiu was indeed located by the satellite. Although he was far away from the crowd behind, these people still had a clear mind and chased after Fang Qiu quickly.

They traced him all the way, which lasted for more than an hour.

"It seems that I can't get rid of these people."

Fang Qiu shook his head. He also wanted to fly directly into the sea and step on the water to leave.

If he did that, these people would never be able to catch up with him.

However, since these people were so persistent, and in order to getting the speed-up technique, they were about to go crazy. Fang Qiu supposed that even if he managed to escape, these people would still try their best to find him.

The thing was – these people all represented the forces of the various countries.

Once Fang Qiu escaped, these countries would undoubtedly target him endlessly, just like Murica. They might even unite to deal with Huaxia.

Fang Qiu would never allow his country to be targeted because of him.

Therefore, he didn't go to the sea.

Instead, he chose a completely uninhabited direction and continued moving fast.

He would only stop at a suitable place where he would deal with this matter head-on.

More than half an hour later, Fang Qiu saw a series of tall snowy mountains.

Fang Qiu stopped directly at the foot of a snow-capped mountain.

Behind him, the eight experts from different forces who were chasing after Fang Qiu quickly rushed up and surrounded him from all directions.

The rest of the people also caught up from a distance.

In just a few minutes, Fang Qiu was surrounded by these people.

At this moment, these people finally realized that the person who snatched away the pieces of the speed-up technique was John Doe.

Everyone was astonished.

“Didn’t John Doe escape because the Huaxianese were seriously injured by the alliance of Murica and the Nirvana Organization? Why did he appear again? And he even robbed two pieces of the speed-up technique.”

Of course, no one asked any of those questions because they had all witnessed what John Doe could do when he showed his real strength. Ten S-class experts were all killed by him in less than five seconds.

With such strength, if John Doe fought with them, how many of them would be killed in an instant?

No one dared to think about it.

Even the eight people who were the first to catch up with John Doe did not dare to attack him directly. They just stared at him from a distance, waiting for the arrival of reinforcements.

They were afraid that once they took action, John Doe would take away all the remaining pieces of the technique and even kill them.

Soon, all the people who had been chasing after John Doe had arrived.

They all surrounded John Doe at the foot of the snowy mountain.

Except for the Muricans, the faces of the other major forces were unusually gloomy.

Chapter 1705 Burning the Pieces

“We’re so unlucky.

“After the auction, it took us a lot of effort to get the speed-up technique from the Muricans, but we got discovered and fell out with them.

“But the most unexpected thing is that John Doe actually took away two of the eighty pieces of the speed-up technique.

“If we had known this would happen, we could have left directly after snatching the speed-up technique.

“We should’ve gone back to our own homes and protected the pieces first. Wouldn’t that be nice?”

“Why are you chasing me?”

After all the people caught up with him and surrounded him from all directions, Fang Qiu glanced at them indifferently and said, “I have no grudge against you. Why are you chasing me?”

Upon hearing that, all the people present were stunned.

The people of the eight forces led by SoviETT, Anglan, and L'hexagone didn't know what to say at all.

It was because the Muricans had also caught up with them.

Previously, they had been denying that they had not robbed the speed-up technique from the Muricans. If they said that John Doe had stolen the technique now, wouldn't it prove that what they had said earlier was a lie?

Zach Lyder, who had recovered a little from his serious injury, didn't say a word either. After glancing at John Doe, he looked gloomily at the people of other countries and forces.

He wanted to know what these people could say now.

"You're not going to say it?"

Fang Qiu glanced at everyone around him. He then shook his head with a chuckle and said, "Then I'll say it!"

As he spoke, he directly reached out and took out a few pieces of ancient paper with Huaxianese characters written on them from his trouser pocket.

"Just now, I accidentally got these pages from you two. Can you tell me what these pages are?"

Fang Qiu looked at the people from L'hexagone and Anglan.

These two incomplete copies happened to be snatched from the people from those two countries.

After John Doe said those words, the people from L'hexagone and Anglan instantly looked gloomy.

“Give that back to me!”

The man from L’hexagone whose clothes were torn directly showed up and glared at Fang Qiu angrily. He stretched out his right hand and asked for his part.

“Return our things to us.”

The leader of the Anglanish also stood up with a livid face and said, “You already have two enemies, Murica and Nirvana. You don’t want to have eight more enemies, do you?”

“Enemies?”

Fang Qiu sneered and said, “I don’t mean to be your enemy. Since you said that what I’m having is yours, then please tell me what this thing is and what is written on it to prove that it is really yours!”

After he said that, the faces of the people from Anglan and L’hexagone instantly darkened.

None of them had expected John Doe to say that.

What should they say in the current situation?

Moreover, how could they know what was written on the incomplete pieces?

“You don’t know?”

Seeing the awkward expressions of those people, Fang Qiu smiled indifferently and said, “Then let me tell you about it. These pieces of paper are written in Huaxianese. If you say that this is yours, then it means that you must be Huaxianese. If you’re not from Huaxia, why would you need something written in Huaxianese?”

The people from L’hexagone and Anglan looked embarrassed and furious.

Right at this moment-

“That’s mine!”

A loud shout suddenly rang out.

In the crowd of the Muricans, Zach Lyder stepped out, stared at John Doe, and said, “This is what I openly bought from Nirvana at the cost of 10 billion. Give it back to me!”

“Is it yours?”

Fang Qiu shook his head and said, “Did I take anything from you?”

Zach Lyder looked sullen.

“Why should I give you what I took from them?” asked Fang Qiu.

Zach Lyder said furiously, “Because this thing is mine!”

“Even if it’s yours.”

Fang Qiu shrugged indifferently and said, “Why should I give it back to you? You looked like you were going to kill me just now. Do you expect your enemy to help you?”

The Muricans were dumbfounded.

What John Doe said made sense.

Since Zach Lyder tried to kill John Doe, why should John Doe do what he was told?

The people of the six forces, including SoviETT, sneered and watched the show.

They were also very nervous about the two pieces of the speed-up technique, but they also knew that it was obviously not easy to get the two pieces from John Doe.

Besides, the ones from Anglan and L'hexagone were asking John Doe for the two pieces. It was inappropriate for the others to make a sound or take action, so they could only watch the show with a smile.

"Humph!"

After being rendered speechless by John Doe, Zach Lyder snorted angrily. Then, he turned to look at the ones from L'hexagone and Anglan as he rebuked them angrily, "Do you still refuse to admit it now? Didn't you say that you haven't robbed our speed-up technique? I'd love to see how you are going to explain it!"

"Explain?"

A man from L'hexagone snorted coldly with a gloomy face and said, "Why should I explain it to you? Did you see that we robbed the speed-up method with your own eyes? Did we ever have it?"

"He's right."

The leader of the Anglanish also immediately said, "We didn't rob you of your speed-up technique. You are framing us. Please show us the evidence!"

"Fuck you!"

With that, Zach Lyder pointed at the incomplete pieces of the speed-up technique that Fang Qiu was holding and rebuked them angrily, "John Doe now has the speed-up technique. He stole it from you. Why don't you admit it now?"

"Like I said, did we ever have the speed-up technique?"

The man from L'hexagone snorted disdainfully and said, "Do you believe everything he said? If I say that what he took from us is not the speed-up technique but the treasure book of L'hexagone, what will you do?"

"That's right."

The leader of the Anglanish also stepped forward and said, "You'd better not frame us without evidence. If you want us to admit it, ask him to return our things to us."

Zach Lyder's face was livid out of rage.

He could never expect the ones from Anglan and L'hexagone to be so shameless.

"They've been caught red-handed, but they still refuse to admit it. They are too shameless!"

"John Doe, hand over the pieces, and our grudges will be canceled once and for all."

Overwhelmed with anger, Zach Lyder said to Fang Qiu, "I promise, as long as you give me what you have, Murica will never have any conflict with Huaxia again. We will get along in peace and never fight with each other!"

"That's a nice proposal."

Fang Qiu immediately nodded.

“Don’t listen to him.”

The leader of L’hexagone immediately said, “You can’t trust whatever the Muricans say. If you return the things to me, I can contact the top management of our country now and ask them to sign a trade contract and a military cooperation contract with Huaxia immediately!”

“We can do it too.”

The representative of Anglan immediately said, “You’ve witnessed how shameless the Muricans can get. They’ve tried to kill you countless times and target Huaxia. They’re not trustworthy at all. So I hope you can cooperate with us. We can work together to deal with Murica and help you take revenge. As long as you give us back our things, we’ll be allies!”

The faces of all the people from Murica darkened.

Indeed, they had a deep grudge against John Doe.

Previously, they had ambushed John Doe several times. Now it was almost impossible for them to draw John Doe to their side.

“Go to hell!”

Zach Lyder was completely enraged.

He didn’t expect that the ones from L’hexagone and Anglan would draw John Doe over to their side to deal with Murica together.

“I can inform my government to sanction you now!” Zach Lyder threatened in an angry voice.

“Just try it. Will you sanction us, or will our other countries unite to sanction you?”

The leader of Anglan sneered.

Now, Zach Lyder was completely dumbfounded.

“You’re all telling me to give what I have to you.”

Fang Qiu said with a playful smile, “Then, who should I give it to?”

Hearing that, all the people of the surrounding forces suddenly became nervous.

“Put, put it on the ground!”

Knowing that it was impossible for John Doe to give him the thing in his hand, Zach Lyder shouted directly in a panic, “This is a grudge between Murica and several other countries and forces. You don’t have to get involved. You just need to put the thing on the ground and I promise that you will be able to leave safely.”

“Haha.”

Fang Qiu couldn’t help laughing and said, “Will I need your protection if I want to leave?”

As he spoke, he waved his right hand.

He directly turned his internal Qi into flames and instantly burned the pages of the speed-up technique in his hand into ashes.

Everyone on the scene was stunned when they saw it.

“John Doe actually burned the pieces of the speed-up technique?”

After a brief moment of confusion, everyone went crazy.

“How could John Doe destroy the speed-up technique that we’ve been dreaming of?”

“How could he do this?”

“How could he?!?”

“In addition to these two, you should have the other six pieces, right?”

When everyone was about to go insane, Fang Qiu turned his head and said to the other countries and forces, “You need to keep yours well. Maybe you can even gather them together.”

As he spoke, he moved and quickly fled into the distance.

No one chased after him because everyone present knew that the pieces of the speed-up technique John Doe had were now gone.

Even if they continued to chase after him, it would be useless. It was impossible for them to kill John Doe to vent their hatred because they didn’t have the strength to do that at all, and these people couldn’t unite.

The thing was that they still had six incomplete pieces, and they had to continue to keep them.

After Fang Qiu left, the Muricans glared at the ones from SoviETT and said angrily, “Give the remaining pieces to us NOW!”

The people of SoviETT and the other five forces looked at each other in confusion, pretending that they didn’t understand at all.

“Kill them!”

In the end, Zach Lyder couldn't stand it anymore. Just now, John Doe challenged him, and then he was challenged by the ones from Anglan and L'hexagone. At this moment, the anger in his heart completely erupted. He waved his hand fiercely and ordered angrily, "Leave no one alive!"

## Chapter 1706 Sneaking

"Leave no one alive!"

Zach Lyder's angry roar rang out.

At the same time, all the Muricans immediately rushed toward the ones from SoviETT without hesitation.

At the foot of the cold snowy mountain, an intense chaotic battle began once again.

Right at this moment-

Clatter! Clatter! Clatter!

The ground suddenly began to shake violently.

People looked over and saw that a giant brown bear suddenly rushed out of the distant jungle, roaring and charging fiercely toward the chaotic battlefield.

This giant brown bear had several deep wounds on its body. It seemed to have been injured in the battle just now.

Its pair of blood-red eyes showed that it was in a state of madness.

In the chaos, neither the Muricans nor the ones from the other eight countries and forces could bother with the giant bear.

They did nothing about the giant bear roaring and rushing into the crowd.

With the addition of the giant bear, the already chaotic battlefield instantly became even more chaotic.

The Muricans didn't care about the giant brown bear at all. Under the command of Zach Lyder, they attacked the six people who still had the remaining pieces of the speed-up technique fiercely, trying every means to find an opportunity to seize those pieces.

At the same time, the ones from L'hexagone and Anglan, which had lost their pieces of the speed-up technique, also joined the battle as soon as possible.

While helping the other six forces resist the Muricans' attacks, they also secretly kept an eye on the pieces of the speed-up technique possessed by these six forces, trying to find an opportunity to seize one.

Since they had lost theirs, they would lose the qualifications to be on equal footing with the other six powers, and there would be no way for them to learn the contents of the speed-up technique, which was something they had to get.

After their pieces were robbed and destroyed by John Doe, the only thing they could do was to help fight so that the other six forces would not abandon them.

It would be great if they could get another piece.

Even if they couldn't get it, as long as they helped to resist Murica, the other six forces would not ruthlessly exclude them.

In the ice and snow, the chaotic battle was fierce.

In the distance.

When Fang Qiu, who had fled far away, found that no one was chasing after him, he immediately stopped and quietly hid himself on the snowy mountain.

Then, he quietly returned under the cover of the snow.

Behind a stone covered in snow halfway up the snowy mountain, he leisurely watched the battle in front of him.

Now, he was no longer worried.

Once the Eighth Guardian died, the plan of the Nirvana Organization had been ruined.

Moreover, after the death of the Eighth Guardian, the remaining members of the Nirvana Organization were leaderless at present in Nirway.

Previously, Fang Qiu had been very worried during the battle.

He was afraid that the Nirvana Organization would take the opportunity to take action.

Now, without this concern, Fang Qiu didn't bother to care about the big battle between these people. He would let them fight wherever they wanted to and see how far they could go.

Sitting in the snow with great interest, Fang Qiu fixed his eyes on Zach Lyder with a smile.

"This guy is not very strong, but he is very insidious.

"I have to find an opportunity to kill him!"

Since the battle for the Laozi Relic, the Muricans had been targeting Fang Qiu, who had killed so many Muricans in a row and had issued a warning. He didn't expect that the Muricans not only didn't listen but also joined forces with the Nirvana Organization to continue to target him at this time.

In fact, if the Muricans had some backbone and sent their men to make trouble for Fang Qiu, he wouldn't be so angry. However, they had to join hands with the Nirvana Organization.

Fang Qiu knew very well what kind of organization Nirvana was.

As a major force, it was shameless of Murica to cooperate with such an organization.

As the world's top country, Murica actually joined forces with a terrorist organization.

If this matter was made public, Murica would probably be despised by billions of people all over the world.

Even the people of Murica couldn't accept it, could they?

However, the cooperation between Murica and the Nirvana Organization had not harmed any other countries, nor had it affected the situation in the world at present.

But in the long run, things would inevitably go out of control.

At that time, the world would definitely fall into chaos.

Fang Qiu would never allow such a thing to happen.

Thus, Fang Qiu was furious.

He had to let Murica know that joining hands with the Nirvana Organization was a very wrong decision.

Just like what happened to Iryens.

Of course, Fang Qiu had to kill all the people who joined hands with the Nirvana Organization.

He would do it to cut off the connection between Murica and the Nirvana Organization. Even if it couldn't be completely cut off, he had to let the high-level officials of Murica know that joining forces with the Nirvana Organization would not end well.

"Hmm?"

Staring at Zach Lyder, Fang Qiu found that under the fierce attack of the leader of SoviETT, this guy was at a disadvantage not long after because his injury had not completely recovered. But in the case of being at a disadvantage, Zach Lyder actually took out a bottle of blood-red potion from his trouser pocket.

Seeing the bottle of potion, Fang Qiu instantly frowned.

He had seen this kind of potion before.

However, could this potion work on people at the level of Zach Lyder?

Fang Qiu remembered very clearly that this kind of potion produced in the biological laboratory of Murica could only raise a person's strength to the S class.

However, Zach Lyder was an S plus expert.

His own strength had completely exceeded the greatest increase that the potion could bring to its user. In this case, could the potion still work on him?

While Fang Qiu was puzzled, on the battlefield, Zach Lyder opened the bottle, raised his head, and poured all the potion into his mouth.

Boom!

After taking the potion, a terrifying aura of energy suddenly erupted from Zach Lyder's body.

Layers of blood-red energy continuously surged out from Zach Lyder's body and swirled around him.

It was like a bloody cloud, giving people a particularly gloomy feeling.

Moreover, it was visible to the naked eye that with the appearance of this blood-colored energy, Zach Lyder's body also underwent some changes. His body became shriveled, his ears became sharp, and his teeth quickly grew into bat teeth. His eye sockets quickly caved in, and his eyes completely sunk, turning gray.

"SS level?"

Fang Qiu was quite taken aback.

He could clearly sense the Qi power of the SS level from Zach Lyder.

Just then-

"Raaaaaargh!"

A furious roar suddenly rang out.

The body of Zach Lyder's opponent, the leader of SoviETT, had also changed. With a roar to the sky, the muscles all over his body expanded. His palms had grown into sharp claws, and his teeth had become unusually sharp. Even his body had instantly grown larger. There was even a layer of blue fur on his body, which made him look like a giant wolf that could walk on its hind legs.

Swoosh!

The moment he transformed into a giant wolf, that leader let out a long howl. With lightning speed and a powerful aura that was not weaker than that of Zach Lyder, he pounced on the other party.

The two collided violently again.

“It seems that these guys who can transform by genetic inheritance all have a way to improve their strength in an instant!”

Fang Qiu murmured to himself.

However, he also knew that these people, who could transform by genetic inheritance, were commonly known as monsters in Huaxia.

Monsters, under normal circumstances, could be linked to demons.

The demonized sects, including organizations like the Nirvana Organization, like these monsters, could use forbidden arts to improve their strength in an instant.

From this point of view, these monsters seemed to be no different from the demonized sects.

A great battle broke out.

It seemed that the battle between Zach Lyder and the leader of SoviETT had quickly attracted the attention of the giant brown bear that was crushing the others.

It threw its head back and roared.

At the same time, the giant brown bear, which had been provoked, immediately rushed in this direction and engaged in a fierce battle with Zach Lyder and the leader of SoviETT.

“Well done.”

Fang Qiu looked at all this with a smile.

He knew very well that it was not easy to kill Zach Lyder.

Without a doubt, this ongoing chaotic battle was helping him exhaust the power of Zach Lyder, who would use all his trump cards during his battle.

Even if he wasn't dead when the battle was over, Fang Qiu could easily kill him by then.

The elites of Murica were engaged in a fierce battle with the people of other countries and forces. Because of the large number of elites they brought this time, there were actually three experts at the S plus level in the fierce battle, who had been frantically suppressing one of the forces with a piece of the speed-up technique.

Because the battlefield was too chaotic, no one else noticed this situation.

The people of this force really couldn't stand the suppression of the three experts at the S-plus level. In the end, the only S plus expert they had who had the piece of the technique was seriously injured.

Their piece of the speed-up technique was also snatched away by the Muricans.

After getting it, all the Muricans immediately stopped attacking.

In the meantime, the giant brown bear was sent flying.

In the fierce battle with the giant brown bear and the leader of Soviety, Zach Lyder, who had already been injured, was once again injured to the point of vomiting blood. The powerful Qi power that erupted from his body at the SS level had also been completely exhausted and dispersed at this moment.

The leader of SoviETT was also injured.

All of a sudden, the battle came to a halt.

“We got it!”

The three S-plus experts from Murica who had snatched the piece quickly handed it over to Zach Lyder.

He opened it and took a look.

“This is the speed-up technique.”

In the auction, he successfully won the bid for the speed-up technique. When he was trading with the Eighth Guardian on the auction stage, he carefully read the content. Although he couldn’t understand Huaxianese characters, he remembered some of the characters and patterns in his mind.

Under such circumstances, he was able to clearly determine with a single glance that this was the speed-up technique.

Chapter 1707 Snatch Another One

“What is this?”

Faced with all the forces in front of him, Zach Lyder shouted angrily, “You even said that you didn’t steal it. Now that you’ve been caught red-handed, what else do you have to say?”

Right after he said those words, the faces of the people from the eight forces immediately darkened.

No one had expected the Muricans to succeed in snatching one piece of the speed-up technique.

The fight had already started.

However, this kind of thing involved the national level after all, so the people of all countries on the scene were not willing to admit that they had done such a dirty thing as robbing.

Because once they admitted it, it would inevitably affect the reputation of the country.

With the narrow-mindedness of the Muricans, they would definitely make an issue of this matter.

Under such a situation, no one wanted Murica to be in the right.

However, the Muricans had succeeded in snatching a piece of the speed-up technique.

Now that they had the evidence, it was impossible for the other forces not to admit it.

The previous battles were all for the so-called innocence and national honor.

Now that the Muricans had the evidence and it was impossible to kill them, there was no need to continue to fight.

“I’ll give you one last chance.”

Seeing that the expressions of the people from the various powers were unpleasant, Zach Lyder immediately said in a cold voice, “Now, hand over all the remaining pieces of the speed-up technique you have, and I can let bygones be bygones!”

The remaining five countries and forces that still had the pieces of the speed-up technique were stunned at first. Then, they looked at each other and pretended that they didn’t hear what Zach Lyder had said at all. They turned around and fled in different directions quickly.

Seeing this, the Muricans were dumbfounded.

They didn't expect that these people would turn around and run away without warning.

"Don't let them escape. Go after them!"

Zach Lyder roared with an angry face.

The other people of Murica immediately divided into five teams and quickly chased after the people who were fleeing in five directions.

With a gloomy face, Zach Lyder quickly chased after an expert with the strength of the S plus level. He no longer wanted to fight with the leader of SoviETT.

He had to get rid of the other forces first and try to get as many pieces of the speed-up technique from them as possible.

Finally, he would deal with SoviETT.

Otherwise, it would be impossible for the Muricans to collect all the pieces of the speed-up technique if they were entangled with the people of SoviETT all the time.

"Hurry up, everyone, hurry up!"

Zach Lyder roared furiously, "We absolutely cannot allow them to take our things away!"

At this moment, all the Muricans flapped out.

Without a doubt, these five forces turned around and fled, which undoubtedly meant that they acquiesced in the fact that they robbed the speed-up technique. In this case, since they had acquiesced

in robbing, there was no need for them to argue with the Muricans, nor did they need to continue to fight for their fake innocence.

Therefore, as long as they got rid of the pursuers from Murica, the people of these countries and forces would inevitably leave Belgon or even Nirway as soon as possible.

When that happened, it would not be so easy for the Muricans to take the pieces of the speed-up technique from them.

Through the analysis, now was the last chance for the Muricans.

They had to seize this opportunity. They couldn't let the five forces escape with the speed-up technique.

In a twinkling, the fierce melee at the foot of the snowy mountain ended inexplicably after a sudden pause. It turned into an endless pursuit.

Halfway up the snowy mountain.

Swoosh!

Just as the forces at the foot of the mountain fled in different directions, Fang Qiu, who had been hiding to watch the battle, also moved and immediately chased in one direction.

Because he was looking down from above, he could clearly see that the force running in this direction only had one S-plus expert. Additionally, the Muricans chasing after them only had one S-plus expert as well.

The situations in two other directions were the same.

The reason why Fang Qiu chose this direction was that the two S-plus experts in this direction were both injured. It would be easier for him to catch up with them.

After rushing out of the snowy mountain, in the blink of an eye, Fang Qiu went straight into the depths of the forest.

When he caught up, the Muricans had caught up with the whole force, and the two sides had already started a war. However, because the number of people on both sides was almost the same, and the main fighting experts were injured, no one could do anything to the other side.

Seeing this, Fang Qiu thought about it carefully.

Initially, he could have just left and not gotten involved in this chaotic battle because he had already destroyed two parts of the speed-up technique.

But upon seeing these people so crazy, Fang Qiu felt that leaving would be inappropriate.

Although the speed-up technique belonged to Huaxia and these foreigners could not understand it at all, Fang Qiu didn't know whether these people would ask some Huaxianese for help to study the remaining pieces.

Moreover, he felt that although he had killed the Eighth Guardian, he still didn't know the purpose of the Nirvana Organization.

Since he was determined to destroy the conspiracy of the Nirvana Organization, he must destroy it completely. He could not give up halfway.

He didn't have a chance to destroy another piece of the speed-up technique before, but now he did.

Once such an opportunity was missed, it would be gone forever.

Therefore, he had to seize this opportunity as much as possible and quickly destroy more pieces of the speed-up technique.

With that idea in mind, Fang Qiu moved and rushed straight out while the two sides were fighting fiercely. He rushed toward the injured expert at the S-plus level and grabbed him by the waist.

After his observation, he found that this person must have hidden his piece of the speed-up technique on his belt.

The appearance of John Doe shocked the Muricans and the person who had the piece of the speed-up technique.

They didn't expect that John Doe would suddenly appear at this time when they were all injured.

Fang Qiu was extremely fast.

Because of the injury and the long-term battle, that man didn't have enough energy to react at all. He was directly grabbed by the waist by Fang Qiu, who then pulled down his belt and pants.

The man didn't even have time to react before his pants fell off.

Fang Qiu took a closer look.

There were indeed a few pages of paper in the rags of the clothes and pants in his hands.

After getting the piece, Fang Qiu moved and quickly retreated.

While retreating, he opened the paper to check and found that what was recorded on it was indeed part of the speed-up technique he had obtained in the Mysterious Realm in Zhongdong.

"It is indeed the speed-up technique.

"But why did the Nirvana Organization do this?

“Why did they offer the speed-up technique and sell it to all the countries?”

The more Fang Qiu thought about it, the more skeptical he became.

“However, Nirvana must be up to something unusual.”

Fang Qiu had an idea and immediately put away the paper he had snatched.

Then, he moved and directly rushed to those who were chasing after him.

This time, Fang Qiu did not hold back.

As soon as the divine sword appeared, it directly burst out all its strength and quickly killed both sides on the spot, leaving no one alive.

After the slaughter, Fang Qiu moved and chased in the second direction.

It was also a dense forest.

The strongest combatants on both sides were at the S-plus level.

When Fang Qiu arrived, the two sides were locked in a fierce battle.

Because the Muricans had more men, the force being pursued had been completely suppressed at this time.

Moreover, most of the people in this force had been killed with very few people left.

The super expert from Murica led his men to suppress the other party directly. When they were about to wipe out their enemies-

Swoosh!

A gust of wind blew over.

The Muricans were shocked and immediately turned to look.

When they saw the man who had arrived, their faces changed in an instant.

It was John Doe who appeared in front of them.

At this moment, they were all dumbfounded.

However, Fang Qiu didn't hesitate at all. In an instant, he rushed to the man who had the piece of the speed-up technique. He directly grabbed the man and flew out.

Before the other party could react, Fang Qiu quickly found the piece from the man's body. Then, he threw the man on the spot, continued to move, and carefully opened the paper to read it.

After confirming that it was the technique, he put away the paper.

Looking back, Fang Qiu found that the Muricans were chasing after him angrily.

As for the person who had been robbed by him, he had already fled somewhere.

Running away now was the best choice for that man because he was no match for John Doe at all. If he continued to get involved, even if John Doe didn't kill him, the Muricans would definitely kill him first.

Compared to the piece of the speed-up technique, his life mattered more to him.

“Humph!”

Seeing the furious pursuit and the curses of the people of Murica, Fang Qiu snorted and immediately stopped. He suddenly turned around and clenched his right hand.

As the divine sword took shape in his hand, he fiercely waved it and immediately went to the Muricans.

“Hand it over to us!”

The people of Murica roared angrily while rushing to Fang Qiu.

The current S plus expert was clearly much stronger than the previous two. His strength was almost on the same level as Zach Lyder.

But it was a pity that he meant nothing to Fang Qiu.

Fang Qiu could even kill Zach Lyder, let alone someone weaker than him.

“Three-point Shadowless!”

Without any hesitation, the moment Fang Qiu went up to that expert, he directly wielded his sword.

The moment the deep shout sounded, three rays of blinding sword light burst out.

This time, the three rays of sword light did not fuse into one. Instead, they split apart and hacked out.

Although the S plus expert who rushed to the front had resisted the sword light, the other people of Murica had no way to resist it at all.

With a sweep of the sword radiance, four or five of the pursuers were killed in an instant.

The face of the leading S-plus expert changed. He immediately mobilized all his strength and rushed toward John Doe.

Chapter 1708 Why Don't We Work Together?

"Die!"

With a cold shout, Fang Qiu waved his right hand. At the same time as the man rushed over, the divine sword in his hand directly burst out a dazzling golden light. With a gust of extremely sharp energy Qi, he slashed directly at the man.

Swoosh!

There was a sharp sound of something breaking through the air.

The next moment-

Clack!

Before the opponent's attack could land on Fang Qiu, his head was cut by the divine sword shining with dazzling golden light in Fang Qiu's hand.

Blood splattered in all directions.

This expert at the S-plus level widened his eyes and looked at John Doe in disbelief, his eyes full of horror.

He had underestimated John Doe.

He had always thought that John Doe's strength was similar to that of Zach Lyder, who was on the same level as him, so he dared to face John Doe head-on.

He didn't expect John Doe to be so powerful.

When he found that he couldn't resist the attack of John Doe, it was too late.

Clap!

In the midst of horror, the man went limp and fell to the ground as he died.

Fang Qiu loosened his right hand, and the long sword in his hand suddenly shattered and disappeared in the air.

Then, he looked around.

He found that all the people here were dead.

After turning around quickly, Fang Qiu glanced in the third direction and then immediately chased after those people.

On the way, his Divine Consciousness had been covering the area of 60 kilometers around him, so he knew very well what was happening there.

At this moment, the two sides in the third direction were engaged in a fierce battle.

It was very intense.

Fang Qiu also clearly felt that the Muricans, led by Zach Lyder, had already obtained the second piece of the speed-up technique.

“They succeeded again?”

Fang Qiu was about to go in the third direction, but when he found that Zach Lyder had gotten another piece, he immediately frowned.

He must not let the Muricans get what they wanted no matter what.

With that thought in mind, Fang Qiu immediately rushed in the direction of Zach Lyder.

As he quickly flew over, Fang Qiu directly activated his Divine Consciousness to carefully detect the aura of Zach Lyder.

He found that Zach Lyder seemed to have been injured again in this snatching.

At first, he had been seriously injured by Fang Qiu in the hotel and hadn't recovered yet. At the foot of the snowy mountain, he was injured again while fighting against the leader of Soviett and the giant brown bear. Now, he was injured for the third time.

Right now, Zach Lyder was undoubtedly in his weakest state.

It was the best time to kill him.

As long as Fang Qiu killed him, not only would Fang Qiu be able to avenge himself, but he would also be able to deter the Muricans so that they would not dare to be so presumptuous.

Soon, Fang Qiu arrived at the area where Zach Lyder and the others were.

At this moment, Zach Lyder was standing there with a cold smile on his face. He looked at the corpses on the ground in front of him and gasped for breath as he read the piece of the speed-up technique in his hand.

There were also five people gathered together opposite him.

These people weren't weak, but under the fierce attacks of Zach Lyder and his men, they all suffered different degrees of injuries and looked quite weak.

"None of you will survive!"

After confirming that what he had snatched was the piece of the speed-up technique, Zach Lyder stared at those people with a cold face and said angrily, "This is the consequence of going against Murica. You shouldn't have messed with us!"

As he spoke, he waved his right hand, ready to take action.

Just then-

Swoosh!

The sound of something breaking through the air suddenly came.

The Muricans turned their heads and saw a black shadow shooting over from a distance, aiming at Zach Lyder.

Zach Lyder turned to look over as well.

"John Doe."

The moment he saw Fang Qiu, Zach Lyder immediately shouted, "Cover me!"

The only S-plus expert in the team, with the exception of Zach Lyder, immediately rushed toward Fang Qiu, while the others instantly surrounded Zach Lyder and protected him.

Boom!

There was a loud collision.

With a wave of his right hand, Fang Qiu directly punched back the S plus expert who was rushing toward him. Then, he stopped and landed on his feet.

“What’s wrong?”

As soon as he stopped, Fang Qiu stared at Zach Lyder with a sneer and said, “Are you shocked that I’m here?”

Zach Lyder said angrily, “You will go to hell!”

“Can you kill me?”

Fang Qiu sneered and said, “With your current strength?”

Zach Lyder said with a gloomy face, “All my men will be here soon. At that time, you won’t be able to escape!”

Fang Qiu narrowed his eyes and said in a cold voice, “So, should I kill you before they arrive?”

“Haha.”

Zach Lyder immediately burst into laughter and said, "I have so many people. How are you going to kill me?"

"This is indeed a problem."

Fang Qiu raised an eyebrow. He then turned to look at the five people around him who were gasping for breath and forced into a desperate situation by Zach Lyder as he said, "He just killed many of you and threatened to kill all of you, didn't he?"

Looking at Fang Qiu, these people nodded warily.

"That's right."

Fang Qiu grinned, turned to look at Zach Lyder, and said, "Just as you said when you joined forces with the Nirvana Organization, the enemy of your enemy is your friend. Now you are my enemy, and they are also your enemy, so..."

"Friends."

Fang Qiu then turned his eyes to the five people around him and said, "He took away your things. How about we work together to get them back?"

Hearing what he said, the five of them were instantly tempted.

"Not only do we want to take our things back, but we also want to avenge our dead brothers."

One of them stared angrily at Zach Lyder and said, "If you are really willing to join forces with us, we are willing to help you kill this son of a bitch from Murica!"

"Excellent."

Fang Qiu nodded and said, "I'll leave his men to you. I'll take his life."

When Zach Lyder saw that John Doe actually asked for help in front of him, his face instantly darkened.

"Attack!"

Without giving the Muricans any time to think and respond, Fang Qiu shouted and took the lead in rushing up.

Seeing this, the five people next to him also rushed forward.

This made the Muricans on high alert.

As the leader, Zach Lyder was seriously injured. Now, he almost had no strength to make a move. The rest of his people couldn't do anything to John Doe at all.

"Send a signal flare!"

Zach Lyder shouted.

A man next to him immediately took out a signal flare and was ready to shoot it into the sky.

However, just as he was about to launch the signal flare-

Swoosh!

In an instant, Fang Qiu, who was the first to move, rushed to the front of Zach Lyder before that S-plus expert could stop him. With a wave of his right hand, Fang Qiu directly slapped the signal flare out of the hand of the person next to him.

Two of the five people had already entangled the expert at the S-plus level. The other three, together with Fang Qiu, surrounded Zach Lyder.

“You, you...”

When Zach Lyder, who was instantly at a disadvantage, saw that the tables had been turned with the appearance of Fang Qiu, his face immediately darkened. Surrounded by the people around him, he kept retreating. It was obvious that he was in a panic.

“Will you be able to leave today?”

Fang Qiu snorted coldly.

Zach Lyder pointed at John Doe and said with a ferocious expression, “You can’t kill me! You can’t kill me!”

“Attack!”

Fang Qiu shouted in a deep voice and clenched his right hand. The divine sword instantly condensed in his hand, and then he waved it directly at the group of Muricans. The other three also attacked this group of people from three different directions.

Seeing that John Doe didn’t give him a chance at all, a look of madness suddenly appeared on Zach Lyder’s panicked and ferocious face.

He searched his pocket with both hands and directly took out two bottles of blood-like potions.

The next moment, with a crazed look on his face, Zach Lyder raised his head and poured two bottles of potions into his mouth at the same time.

“Humph!”

Seeing this, Fang Qiu snorted and rushed to him in an instant.

On the way over, Fang Qiu could clearly feel that Zach Lyder was seriously injured and that all the energy available in his body had been used up.

Because of this, he was now a pushover that couldn't defend himself and even at others' mercy.

In an instant, Fang Qiu rushed to him and waved his right hand.

Whiz!

A sword cry rang out.

The golden sword Qi suddenly burst out.

It swept out and instantly cut off both of Zach Lyder's hands from his wrists when he couldn't block it at all.

"Aargh!!!"

A cry of pain erupted from Zach Lyder's throat.

His hands were cut off by John Doe.

Listening to the loud shout in his ear, Fang Qiu grabbed the potion bottles in Zach Lyder's hands with an indifferent face and looked at them carefully.

"Blood?"

At a glance, Fang Qiu found that these two bottles didn't contain ordinary potions.

Fang Qiu grabbed Zach Lyder's neck and asked, "What kind of potion is this?"

"You will die. You will definitely die. Murica will not let you go, and neither will the Nirvana Organization!"

With a face full of pain and ferocity, Zach Lyder shouted in a heart-wrenching voice.

Fang Qiu tightened his grip on Zach Lyder's neck and asked, "What kind of potion is this?"

"You will go to hell. You will go to hell!"

As if he had gone mad, Zach Lyder stared at Fang Qiu and kept saying the same thing.

"If you don't tell me, you'll die!"

Fang Qiu snorted and pinched Zach Lyder's neck hard.

Clack!

A clear sound was heard.

He crushed the man's neck.

As the crisp sound spread, the faces of all the Muricans on the spot changed in an instant.

No one had expected their leader to be killed by John Doe without even resisting.

The morale of the five people who were fighting against the Muricans immediately soared.

The five of them directly besieged the S-plus expert.

In the meantime, Fang Qiu found the two pieces of the speed-up technique from Zach Lyder. He glanced at the crowd and found that the S plus expert from Murica couldn't hold on any longer. When he was about to be killed, Fang Qiu directly waved his hand to destroy the two pieces in his hand and then turned to run.

Right now, he had already destroyed most of the speed-up technique and no longer needed to worry about the remaining pieces.

## Chapter 1709

In fact, judging from the current situation, Fang Qiu was entirely powerful enough to rob and destroy all the remaining pieces of the speed-up technique, but after thinking about it carefully, he found that he had robbed two pieces among the remaining five. Coupled with the one that he took from Zach Lyder, at present, there were only two pieces left.

In this case, there was no need for Fang Qiu to snatch and destroy more.

Although it was best to leave no remaining pieces, Fang Qiu had robbed and destroyed enough pieces. If he continued to snatch, it would easily arouse anger from others, and the loss would outweigh the gain.

Leaving now was undoubtedly the best choice.

Anyway, since Zach Lyder was dead, the Muricans would not be able to cause any big trouble. Those forces that still had their pieces of the speed-up technique would definitely leave as soon as possible.

With the death of the Eighth Guardian of the Nirvana Organization and the leader of the Muricans, this matter was dealt with.

Of course, the five people working with John Doe saw him leave.

Although they didn't manage to get the pieces of the speed-up technique in the end and witnessed John Doe destroying them with their own eyes, they didn't hate him. Instead, they were grateful to him for what he had done.

Before John Doe arrived, they saw their companions being killed by the Muricans one by one with their own eyes. They felt very upset when they saw their companions die weakly.

They were even forced to a dead end by the Muricans. If John Doe hadn't appeared in time, they would have definitely been besieged and had no chance to escape.

It could be said that John Doe saved their lives.

Therefore, they couldn't hate John Doe. Instead, they were grateful that John Doe gave them a chance to avenge their companions.

At last, the five of them worked together to kill the S-plus level expert from Murica before turning to leave.

Fang Qiu went all the way back.

Soon, he returned to the high mountain by the sea.

With the return of John Doe, Wei Jian, Luoyun, and Luohua, who were hiding in the woods, immediately came out to welcome him.

"Brother John Doe."

As soon as Fang Qiu landed, Wei Jian, who was walking in the front, immediately made a hold fist salute to Fang Qiu and said, "I'm greatly impressed!"

Right next to him, Luoyun and Luohua also made a hold-fist salute to Fang Qiu with admiration.

They didn't know what John Doe had done during his departure, but they clearly remembered the scene of the battle between John Doe and the Eighth Guardian. Even though it had been a long time, it still seemed to be happening right in front of their eyes. That scene still shocked them.

"What are you all doing?"

Fang Qiu was also stunned and looked at the three of them in surprise.

"Look over there."

With a smile, Wei Jian pointed to the seaside in the distance.

Fang Qiu fixed his eyes on it.

He saw a charred mountain, the stormy waves on the beach below, and a layer of scorched sand in the sea.

Seeing this, Fang Qiu found that it was the place where he fought with the Eighth Guardian.

"Did you see all of that?" Fang Qiu asked.

"Yeah."

The three nodded in unison.

"This is the most exciting battle I've ever seen!"

Luoyun immediately said, "You're too powerful. I didn't expect the One-Flower Core Formation to be so powerful. It's horrifying."

“No wonder you’re a legend in Wulin, John Doe.”

Luohua immediately echoed with admiration.

“Thank you for what you’ve done.”

Wei Jian looked at Fang Qiu very seriously and said, “Eighth Guardian is dead, and the power of Nirvana Organization in Belgon has completely collapsed. Although we don’t know what Nirvana’s purpose is, we are now sure that no matter what conspiracies the organization has, they must have been destroyed by you.

“Now, the most important thing is to find a way to take away the speed-up technique from the Muricans.”

Speaking of this, Wei Jian frowned and added, “We can’t have the Muricans take away the speed-up technique. Now they have gone crazy. Once they get the speed-up technique, the first thing they will do is deal with Huaxia. We must stop this from happening.”

“But it’s not easy to deal with the Muricans.”

Luoyun also frowned and said with a serious face, “According to the news from our country, Murica has sent one-third of their elite forces here this time to join forces with Nirvana to deal with Huaxia and John Doe. They have attacked us several times before, but they haven’t sent out all their manpower. I’m afraid it won’t be so easy for us to snatch the speed-up technique from them.”

“It’s not that hard.”

Luohua also began to analyze. “I remember that after the bid for the speed-up technique, the Muricans put it in a metal container, in which there is a strong acid solution. What we need to do is not snatch the technique. We just need to attack the metal container and let the strong acid solution destroy the technique.”

Hearing their words, Fang Qiu couldn't help laughing.

It seemed that everyone had the same idea.

"Brother John Doe, what do you think?" asked Wei Jian.

Fang Qiu responded with a smile, "I've already destroyed it."

"I see."

Wei Jian nodded with understanding and then suddenly trembled all over as he asked in shock, "What did you say?"

Beside him, Luoyun and Luohua were also stunned at the same time.

"I've already destroyed the speed-up technique."

Fang Qiu said, "Before killing the Eighth Guardian, I got the news in the hotel that after the siege of the Muricans and Nirvana Organization failed, the speed-up technique they possessed had been robbed by other countries and forces. And because they had expected that the Muricans would try their best to protect it, those forces opened the metal container at the first possible moment and took the technique out. Then, they divided it into eight parts.

"When I returned to the hotel, the Muricans were confronting these eight countries and forces.

"After I killed the Eighth Guardian, I returned to the hotel and snatched two pieces of the speed-up technique. I was about to leave, but I didn't expect that they would join forces to chase me all the way.

"In the end, I destroyed the two pieces of the speed-up technique.

“The Muricans and those eight forces launched a big melee at the foot of the snowy mountain to fight for the remaining six pieces. After the Muricans took one piece, the other five forces with the speed-up technique fled separately. I found an opportunity to break them one by one and snatched two pieces.

“In the end, I encountered the Muricans. I snatched two more pieces from them and killed Zach Lyder, their leader. I then destroyed the four pieces of the speed-up technique before returning.”

Hearing what Fang Qiu said, Wei Jian and the other two widened their eyes.

Just now, they were worried about how to deal with the situation, but John Doe did it alone while they were resting.

“John Doe was alone!

“He has actually done the job!”

“Zach Lyder is dead?” Luoyun said.

“Yes.”

Fang Qiu nodded affirmatively and said, “I killed him myself.”

“Well done.”

Luoyun immediately nodded and said, “It’s right to kill this insidious and cunning guy!”

“According to what you said, you’ve already destroyed six pieces of the speed-up technique?”

Wei Jian stared at Fang Qiu in disbelief.

“Yeah.”

Fang Qiu nodded again and said, “There were a total of eight pieces. I’ve destroyed six of them. The remaining two pieces are meaningless.”

After he finished speaking, he found that the three of them were staring at him in shock.

“Well, um...”

With a wry smile, Wei Jian said, “Why do I feel that we are not here to help you, but to drag you down?”

“I have the same feeling.”

Luoyun said gloomily, “You’re too fast. We haven’t even come up with a plan yet. How did you do it all?”

“I’ve always heard about how powerful you were, John Doe. Today, I finally see that you’re stunningly formidable.”

Luohua echoed with a wry smile.

At this moment, their self-esteem suffered a very serious blow.

They felt that it would be better if they didn’t come. They were seriously injured, while Luoyun almost got himself killed and implicated John Doe.

If it weren’t for the three of them, what John Doe would have done would definitely be better than it was now.

The more they thought about it, the more bitter they felt.

Except for the fight where they got seriously injured in the beginning, they didn't do anything after coming to Belgon. John Doe did everything by himself. They felt that they were really useless.

"We are a team."

Aware of their thoughts, Fang Qiu said with a smile, "If it weren't for you, I wouldn't have achieved this."

The three looked at each other and smiled bitterly.

After learning that everything was over, the three of them, together with Fang Qiu, went from Nirway to another country nearby and then transferred back to their country.

Of course, as the matter was over, people from other countries and forces also went back.

What had happened in Belgon, along with the ending of the matter, soon spread to the world underground-force forum.

As soon as the news spread, it immediately caused an uproar on the underground-force forum.

"Holy shit. Nirvana Organization really offered the speed-up technique to auction?"

"Ten billion dollars? Isn't that terrifying?"

"I didn't expect the auction of the Nirvana Organization to be so successful."

"The Muricans got it?"

"Sure enough, Murica is rich and powerful. They actually spent 10 billion dollars to buy the speed-up technique. Unfortunately, it was robbed!"

“Haha, the Muricans suffered a double loss this time. They spent so much buying the speed-up technique, but it was robbed by someone else in the blink of an eye.”

“Muricans are too arrogant. So what if they spent 10 billion? All the countries and forces in the world are eyeing the speed-up technique. How dare they spend so much money to buy it? The thing is that they didn’t take it away as soon as possible after buying it. Instead, they dared to cooperate with the Nirvana Organization to deal with John Doe outside the auction house. Weren’t they asking for trouble by doing that?”

“John Doe is ranked third in the world. With his ability, how can Murica deal with him?”

“So many people were killed by John Doe before, but Murica still doesn’t give up and wants to kill John Doe?”

Chapter 1710 One Billion for One Copy

“Murica has been humiliated by John Doe again!”

“The Muricans still haven’t learned from their lesson. They’ve attacked John Doe so many times but to no avail. They even joined forces with Nirvana to kill John Doe and failed. John Doe is simply the nemesis of Murica!”

“Why do I feel that the only one who has been tricked in this auction held by the Nirvana Organization is Murica?”

For a moment, everyone on the underground-force forum began to discuss in a feverish manner.

No one had expected that so many things would happen at this auction held by the Nirvana Organization, and Murica soon became the laughingstock of the entire underground-force forum.

The people on the forum didn’t know why Murica was so obsessed with John Doe.

The Muricans actually wanted to kill John Doe again and again.

Moreover, after John Doe made himself famous by killing so many of their men, they still refused to give up.

Now, they were humiliated by John Doe again.

“Murica deserves that!”

“Murica is so miserable.”

“It’s so funny. Muricans thought that with the cooperation of the Nirvana Organization, they could pose a threat to John Doe, but they didn’t expect that John Doe had far exceeded their expectations. With their strength, they are not qualified to go against him at all.”

“Muricans obviously flipped out because they feel that Huaxia is getting stronger and will soon surpass them. So they flipped out and try to weaken the strength of Huaxia as soon as possible. Unfortunately, they have got themselves the wrong target.”

“I guess from today on, Muricans will be traumatized. Let’s see if they dare to target John Doe ever again. Haha!”

There were all kinds of laughter on the underground-force forum. Everyone took Murica as the object of ridicule and teased it to their heart’s content.

At the same time, the authorities of Murica also discovered the situation on the forum at the first possible moment.

Being ridiculed and ridiculed by countless people, the high-level officials of Murica were extremely furious.

The people they had sent to Belgon had also returned. Only a few of the one-third of the elites they had sent out had returned, and those who were slightly stronger had not returned.

This sort of situation caused the high-level officials to go mad.

In addition to the ridicule on the underground-force forum, the high-level officials of Murica were even more enraged.

When the entire underground-force forum was mocking and teasing Murica, the Muricans finally couldn't stand it anymore and directly issued a statement on the forum.

"Regarding the incident in Belgon.

"First of all, Murica did not join forces with the Nirvana Organization to kill John Doe. The news circulating on the forum is just a rumor. It is definitely not the subjective intention of Murica.

"Secondly, we did participate in the auction held by the Nirvana Organization and spent money to buy the speed-up technique. But after we bought it, out of jealousy and hatred for Murica, John Doe of Huaxia openly united with other countries and forces to snatch the technique that belonged to us. We strongly condemned what Huaxia has done!"

Judging from the contents of this statement, it was obvious that the Muricans wanted to put all the blame on John Doe.

But it was a pity that the trick they used to frame John Doe was too clumsy.

It was just a statement, but there was no evidence. The Muricans tried to change the whole situation by doing that, which made all the people on the underground-force forum scoff at it.

After all, everyone knew what had happened and how shameless the Muricans were, so no one believed them at all.

Soon, those who participated in the auction held by Nirvana in Belgon also showed up on the underground-force forum one by one.

“I participated in the whole auction.”

A man not only showed the photos of himself attending the auction but also complained directly, “Muricans are simply slandering Huaxia and John Doe. I was on the spot at that time and saw with my own eyes that the Muricans and the Nirvana Organization joined forces to kill John Doe more than once!”

With the appearance of his statement, more and more people who participated in the whole auction showed up later on and complained about Murica.

“The Muricans joined forces with the Nirvana Organization to besiege and kill John Doe three times in total. In the first two times, they tried to test his strength while hiding their identities. In the third time, they took action directly.”

“When the Muricans besieged John Doe, I was at the scene. Those people are shameless. Not only did they unite with the Nirvana Organization to kill the Huaxianese, but they also launched a sneak attack on a Huaxianese and seriously injured him when they couldn’t defeat John Doe.”

“The leader sent by Murica is Zach Lyder. This guy is the most shameless person I have ever seen!”

“The Muricans are too shameless. They dared to join forces with the Nirvana Organization to kill John Doe, but now they don’t dare to admit it. Why is that? Do they know that they have been humiliated? They have tried to kill John Doe so many times but have been humiliated by him. This time, not only have their men been successfully killed by John Doe again, but they also want to slander John Doe. They are simply shameless!”

All the people from other countries and forces who had participated in the auction held by Nirvana began to curse the Muricans crazily and complain about their shamelessness.

For them, John Doe was not their enemy. Maybe he used to be. But after the auction, he was no longer their enemy.

Murica had completely become their enemy after this incident.

After what had happened, they naturally chose to take John Doe's side and rebuke Murica.

However, the powerful Murica still had some allies.

Seeing that Murica was besieged by the relevant countries and forces, the countries and forces under the control of Murica immediately stood up to support Murica, trying to put the blame on Huaxia and John Doe as the Muricans did. As a result, they were scolded by countless people.

Even some people who didn't participate in the auction began to complain about Murica crazily at this moment.

There was a fierce fight on the forum.

In the quarrel between the two sides, some people on the forum who didn't know the process and hadn't participated in the auction felt confused and didn't know what the truth was.

...

In the living room of a luxurious hotel somewhere.

A man was sitting cross-legged in the air with his eyes closed for cultivation.

Suddenly, there was a slight sound of rushing wind.

He looked in the direction of the sound.

A man in black suddenly appeared in the living room out of nowhere, knelt directly, and lay prone on the ground.

“Hmm?”

In the middle of the living room, the young man suspended in midair raised his eyebrows.

The man in black lying on the ground raised his head and said, “My Young Lord, I have something to report.”

“Go ahead.”

The young man suspended in midair responded without opening his eyes.

The man in black immediately said, “My Young Lord, our auction in Belgon is over. Although the whole process of the auction is particularly smooth, the Eighth Guardian has gone missing. Judging from the current situation, he may have been dead. We haven’t found his body yet.”

“Is that so?”

The young man froze, opened his eyes, and asked, “How did the plan go?”

“It was disturbed by John Doe!”

The man in black said, “The speed-up technique was delivered to the Muricans and snatched by other countries. However, more than half of it was robbed by John Doe and destroyed.”

“John Doe again?”

Hearing this, the Little Saint Lord immediately narrowed his eyes and snorted. “It’s really like what you said. John Doe is indeed a shit-stirrer. He is everywhere!”

The man in black lying on the ground did not speak but quietly waited for the order of the Little Saint Lord.

“Send out the news.”

After thinking for a while, the Little Saint Lord said, “Tell the whole world that the price of the speed-up technique they want is one billion dollars. Anyone can get it as long as they have the money!”

“Yes, My Young Lord.”

The man in black nodded and quickly retreated.

Soon, the official account of Nirvana on the underground-force forum was online and released the second piece of news.

“Thank you for participating in our auction in Belgon. The law will be applied as soon as possible. Starting today, the speed-up technique will be available with a price tag attached.

“Although the auction went very smoothly, no one has gotten the auction items for real yet. In order to prove that our Nirvana Organization is kind to everyone, we have decided to offer the speed-up technique and sell it at a clearly marked price. With one billion dollars, you can get a complete speed-up technique.

“Whoever offers one billion dollars can get it.

“If you need it, contact me!”

After this message was sent out, it immediately caused a sensation in the entire underground-force forum.

“Really?”

“Is it true? Is it really one billion dollars for one copy?”

“Holy shit. The Muricans spent ten billion dollars at the auction to buy it. Now it only costs one billion?”

“Ten billion is enough to buy ten copies!”

“Nirvana Organization does know their stuff. They kept it, auctioned it at the auction first, and then are selling it. One billion dollars for one copy. All the countries and forces in the world will definitely rush to buy it, won't they?”

“Why did they ask us to go there in the first place? Why did they have everyone fight for so long before selling it? Are they doing this on purpose?”

Although many countries and forces were complaining, after reading the news, they didn't dare to hesitate and immediately contacted the account Nirvana to purchase the speed-up technique.

For a moment, almost all the countries and forces in the world began to collect money to buy it.

Some countries and forces that didn't have much demand for the speed-up technique were pressured to buy a copy in this case.

After all, they did not wish to lag behind.

Now that Nirvana Organization had made the sale of the speed-up technique, all the countries and forces around the world would definitely buy it. Once they bought it, the strength of these countries and forces would inevitably increase greatly. The countries and forces that did not buy it would soon be eliminated.

Therefore, everyone could only go with the flow to buy the speed-up technique.

And the first one to get it was undoubtedly the Muricans.

Of course, the Muricans did not buy a copy with money, but it was a gift from the Nirvana Organization.

After all, Murica had spent 10 billion dollars. The Nirvana Organization planned to continue to cooperate with Murica in the future. It didn't matter to them to give the Muricans a copy of the speed-up technique.
