Chapter 461: Offer An Explanation Regardless Of Victory Or Defeat

“Hiss...” In the hall, everyone present was a martial arts practitioner, so even if they were far away, they could clearly see it. When they saw the big man being beaten by Fang Qiu, everyone in the hall couldn’t help but gasp in astonishment.

The steward exclaimed, “He’s so powerful. He at least reached the peak of the sixth class and may have even reached the seventh class.”

“Hmm.” Ling Xiuqi’s face changed.

He didn’t expect that the man would be so powerful.

“I’ll go.” At this time, down the hall, an old man with a long beard on the first right chair stood up. “Even if he is a seventh-class Martial Superior, he’s going to lose!”

“Please, Elder.” Ling Xiuqi saluted.

The old man, the oldest elder of their Ling Family, had already reached the seventh class with two meridians. He was the most powerful person in the Ling Family in most people’s eyes.

As for Ling Xiuqi, this elder must be able to solve the problem.

That man in black must be finished.

“Whoosh!” In the hall, the elder stepped forward, slowly walked to the entrance of the hall, and stared at Fang Qiu who had just walked to the stone tripod in the center of the square outside. The elder’s face was cold, and he moved immediately. He rushed to Fang Qiu fiercely with incredible speed.

“Seventh-class Martial Superior with two meridians?” Taking a look at the old man who was racing to him, Fang Qiu raised his eyebrows slightly.

His strength had also gained a huge increase after he broke through from the third class to the fifth class.

While he was a third-class Martial Superior, he was already able to defeat three seventh-class Martial Superiors with two meridians and one seventh-class Martial Superiors with three meridians in Outer Mongolia.

Now he had reached the fifth class, a seventh-class Martial Superior with two meridians was no longer a threat to Fang Qiu.

Since he had already broken in, it was necessary to show sufficient deterrence!

“Swoosh.” Clenching his right fist, Fang Qiu waved his right hand when the elder rushed to him. He directly met the elder’s fist with his own punch.

The next moment, a loud crackle was heard. “Boom!”

Everyone was taken aback by the huge sound.

Some people with lower strength even felt the pain in their ears because of the sound.

However, just when everyone thought that the man in black must have been hit by the elder and flew out, they only found that the man in black was still standing still, without moving a single step.

But the elder was gone.

Everyone looked around blankly.

It turned out that the elder actually lay on the ground in the distance, and there was still blood gushing from his mouth.

It only took one move. No, it was only one punch!

The eldest elder who reached the seventh class with two meridians was hit and threw away by the man in black.

At this moment, everyone in the Ling Family was dumbfounded in the hall.

In their eyes, the elder was an ultimate expert. He was one of the top fighters in the entire Ganzhou Province and almost the strongest person except for the Old Ancestor, let alone in the Ling family.

However, now the strongest man was hit by the man in black and flew away.

How was that possible?

“No!” Ling Xiuqi’s face changed drastically and said, “The strength of this person is at least at the seventh class with three meridians. Go and get the Old Ancestor.”

Down the hall, everyone in the Ling Family was panicking.

Without any hesitation, a middle-aged man immediately rushed into the forest behind the attic through the passage on the side.

“Hmm?” Seeing this, Fang Qiu frowned and murmured, “Is he going to invite the strongest person over?”

Before he came to the Ling Family, Fang Qiu had carefully done his research.

It turned out that the strongest one in the Ling Family was only a seventh-class Martial Superior with two meridians, but there was still an expert hidden in the bamboo forest behind the house, who was an eighth-class Martial Superior with one meridian.

Fang Qiu didn't expect that the Ling Family should send someone to invite the expert as he just started the fight.

But as he gave it some thought, he came to his realization.

Who else dared to come out in the Ling family after the seventh-class Martial Superior with two meridians was defeated in such a short time?

Knowing their intentions, Fang Qiu wasn't worried.

He continued to move forward slowly.

This matter must be settled today.

Not to mention the eighth-class Martial Superior, even if there were ninth-class experts or even a guru-level fighter, Fang Qiu would never step back!

"Swoosh!" After a while, just as Fang Qiu came to the attic and was walking towards the hall, a figure suddenly fell from the sky and landed in front of the door, blocking Fang Qiu.

Taking a closer look, he found that the man was an old man with grey hair.

The old man looked like he was about ninety years old, but his complexion was surprisingly good. His face was extremely rosy, and he didn't actually look like an old man.

"Wait." As soon as he landed, the old man said to Fang Qiu. Then he said with a smile, looking quite gentle, "My little friend, you have such powerful strength at a young age. You're indeed a specially privileged person."

Fang Qiu looked at the old man and asked nonchalantly, "So?"

The old man asked, "I see that you can channel such a powerful blow so easily and fast. I'm wondering who your master is."

Fang Qiu didn't want to talk to him at all. "Who is my master? Does it have anything to do with you?"

The old man shook his head, smiled, and said, "Yes, it does. I've figured out what had happened before. It's really our Ling family's fault. But you did disgrace us by breaking into our house like that. The reason why I ask about your master is that I don't want to hurt my old friend's disciple by mistake. If you don't appreciate it, then I can only do things in my way."

Fang Qiu snorted and said, "Aren't you just afraid that someone will back me up? And you just put it so decently. The people in your family are really hypocritical."

The old man squinted. "It seems that you have a deep misunderstanding about our family."

Fang Qiu replied indifferently, "It's really deep, but not a misunderstanding!"

The old man squinted and said, "Oh, now it looks like you want to speak by your strength, my friend. Decide the winner through the fight, huh? In this case, I have no choice but to fight with you. But don't worry, my little friend. I'll give you an explanation no matter what may happen in the end."

Fang Qiu raised his fist. "If you want to fight, then fight!"

Within his body, all his internal Qi in the reopened meridians burst out instantly.

With his current strength, he didn't need to worry if he confronted a seventh-class Martial Superior with three meridians.

However, the eighth class was different.

The gap between the seventh class with three meridians and the eighth class with one meridian was not as simple as the figures.

Therefore, as they were about to start the fight, Fang Qiu was ready to channel all his strength.

“Come on!” The old man squinted his eyes, shouted, and flew forward immediately.

There was no doubt that the eighth class was indeed powerful.

When the old man came over, Fang Qiu could even clearly feel that the entire body of the old man had transformed into a gust of wind. He directly charged to Fang Qiu with an immense amount of power.

Moreover, the old man had not used all his strength!

“Just the right time,” Fang Qiu said to himself.

He immediately greeted the old man with his fist.

The next moment, “Bang, bang...”

The sound of the punch-to-punch collisions were heard.

As they collided with each other, the old man was shocked.

He could clearly see that Fang Qiu was only a fifth-class Martial Superior.

However, as he fought Fang Qiu, he felt a huge amount of power from him, which was no less than his. Not only was his power not worse than his, but even slightly stronger than his internal Qi.

The old man never saw anything like this in his life.

How could a fifth-class Martial Superior possess such power?

Different from the old man, Fang Qiu was also surprised, but not amazed by the strength of the opponent, but by his own strength.

After using the Mei Leaf to break through from the third class to the fifth class at once, Fang Qiu felt that his strength had been greatly improved. Both internal Qi and his own power were several times stronger than before.

Because after the breakthrough, he didn't fight with anyone. Fang Qiu wasn't clear that to what extent he could fight.

What he didn't expect was that he was able to suppress an eighth-class Martial Superior with one meridian while he channeled all his power.

Fang Qiu was quite amazed.

During the battle with the old man, Fang Qiu could feel that he was able to suppress the opponent in terms of strength, speed, and even the internal Qi.

Even in the situation of suppressing the opponent, Fang Qiu still had time to think about other things.

His power seemed a bit too strong.

"No. It isn't easy to meet an eighth-class opponent with one meridian, so I must take this opportunity to become familiar with my power after the breakthrough." Fang Qiu thought to himself.

With that in mind, while Fang Qiu nodded secretly, he quickly withdrew some of his power.

His power soon fell to the same level as that of the old man.

But just at this moment, the old man seemed to be aware of the reduction of Fang Qiu's power, so he quietly transported all of the energy from his body and instantly burst out, wanting to take down Fang Qiu with one blow.

In the hall. "This kid is over!"

"He dared to provoke our Ling Family and hurt the elder. He's digging his own grave."

"When the Old Ancestor took a move, let alone this kid, even a group of people like him came again, he would be able to take down all of them."

All the people of the Ling family stood up and looked at the battle in the square outside the door.

In the beginning, seeing the old man unable to take down the man in black for a long time, everyone was a little worried.

But now, seeing that Fang Qiu was beaten by the old man, the people of the Ling family immediately got excited.

They started to insult and scold Fang Qiu.

Even Ling Xiuqi, the host of the Ling family, who had been so scared just now laughed proudly at this moment.

Ling Tianxiao was staring at Fang Qiu gloomily.

He stared at Fang Qiu as if looking at a dead person.

On the square, the battle was fierce.

With the power of the old man fully channeling, Fang Qiu who withdrew part of his power gradually fell into a weaker position and was suppressed by the old man.

After dozens of moves, Fang Qiu's face changed. "No."

While the old man was attacking rapidly, he suddenly grabbed Fang Qiu's right arm and pulled it fiercely, kicking Fang Qiu extremely fiercely in the chest.

"Boom!" With a huge sound, Fang Qiu was directly kicked out by the old man like a ball.

Seeing this, everyone in the Ling family laughed smugly.

Fang Qiu fell to the ground.

"Phew..." Taking a deep breath, Fang Qiu covered his chest with his hands and stood up.

"You can still stand up?" When the old man stared at Fang Qiu, his face which was so gentle before instantly became cold. He then said with a sneer, "You dare to mess with our family. You're simply digging your own grave."

"He has been seriously injured. Somebody, come here. Destroy his kung fu, break his leg, and throw him out!"

Medical Master

Chapter 462: Hypocritical? Then I Won't Show Any Mercy!

"Destroy his kung fu, break his leg, and throw him out!" The old man's voice came.

He didn't show any mercy at all.

“Didn’t you say that you would give me an explanation regardless of victory or defeat?” Fang Qiu covered his chest and looked up at the old man.

“Humph.” The old man sneered and smiled coldly, saying, “This is what you get!”

Fang Qiu’s face fell.

In the hall, Ling Tianxiao stepped out smugly and looked at Fang Qiu with a sarcastic look, saying, “This is my business. I’ll finish it by myself.”

The others nodded.

Dozed of people of the Ling Family stared at Fang Qiu with sneers.

They looked at Fang Qiu as if looking at a beggar or a poor tiny worm.

Fang Qiu smiled.

However, under the cover of the mask, people of the Ling Family didn’t see it.

With his strength, how could he be so easily injured by the old man?

In the battle, he had withdrawn part of his strength early, so he was gradually suppressed by the old man. If he burst out all his power, the old man was definitely going to lose.

The reason why Fang Qiu didn’t break out all his strength even he was in great danger was that he wanted to see if the Old Ancestor of the Ling Family would really give him a fair explanation.

If he really did, then Fang Qiu would leave the Ling Family alone and forget the whole thing. He would just take it as a small punishment.

Unfortunately, the old man not only failed to do so but also led everyone in the Ling Family to make such an evil deed.

The Ling Family now was unforgivable.

Fang Qiu slowly squeezed his hand which was covering his chest.

He was not injured, not at all.

Not to mention that the old man wouldn't be able to hurt him, for his strength had reached the level of a guru, even after he reopened the meridians and broke through to the level of the fifth-class Martial Superior, his internal Qi was much better than that of the eighth-class elder with one meridian.

Under these circumstances, how could the old man's move hurt him?

Although the old man really beat him in the chest, Fang Qiu had already resolved the blow with his internal Qi before the old man's strength broke out and caused damage to him.

He just pretended to be injured.

"Ha-ha." At this time, Ling Tianxiao was walking towards Fang Qiu with a sneer on his face. He then said, "Loser! Whoever dares to provoke the Ling Family is doomed to perish!"

He walked up to Fang Qiu, raised his right hand, punched Fang Qiu's lower abdomen, and even tried to smash Fang Qiu's Dantian with one punch.

However, just as he was about to make the move, he was also going to laugh louder. Fang Qi who had been covering his chest with his hand suddenly stood upright. And before Ling Tianxiao's fist hit him, he punched him directly at an incredibly fast speed.

The horrible internal Qi erupted like a torrent.

The punch carrying horrible power instantly hit on Ling Tianxiao's chest, which was like thousands of horses galloping towards him.

Before Ling Tianxiao could laugh out loud, his face changed dramatically, and he instantly turned panic.

"Boom!" The next moment, a loud bang was heard.

A flow of violent internal Qi suddenly burst out. Ling Tianxiao who just stood in front of Fang Qiu suddenly flew out like a cannonball, hitting the wall next to the hall heavily.

"Puff..." A mouthful of blood was spouted out from his mouth like a fountain.

Falling to the ground, Ling Tianxiao felt so painful and his face was rather grim. His eyes were so red. He then started at Fang Qiu with an unbelievable look. Another mouthful of blood was spouted out from his mouth. Ling Tianxiao could barely breathe and then fell into a coma.

"Tianxiao!" Everyone in the hall was shocked. Ling Xiuqi's face went pale, and he gazed at Ling Tianxiao who was in a coma. When he wanted to step forward, he found that his legs were trembling.

Compared with Ling Xiuqi, everyone else in the hall was astounded.

"You're dead!" In front of the hall, seeing Ling Tianxiao was struck away with a punch and was seriously injured and unconscious, the old man immediately flew into a rage.

Fang Qiu sneered disdainfully before glanced at the old man. "Humph. Ling Family. The apple doesn't fall far from the tree."

The old man's face changed, and he looked at Fang Qiu in shock and immediately asked, "Hmm? You are not injured?"

Fang Qiu laughed indifferently and said, "Injured? I just want to see what the morality of your family is.

"With my strength, when I was outside the auction house on that day, I would have destroyed your younger master of the Ling Family. But I didn't do that. Do you know why?" Fang Qiu said.

As he heard that, the old man's face fell, so did everyone in the Ling Family.

Fang Qiu stared at the old man without any fear and said, "Do you know why I said I would come in person in front of so many people? I'm here to show you my might! Therefore, when other people encounter the same situation again, they would know how to deal with this."

After saying that, Fang Qiu glanced at the old man coldly and continued, "Just now, I wanted to spare all of you and show some respect since I've seen you're being polite. If you gave me a fair statement, I would immediately turn around and leave. But I didn't expect you to be so hypocritical.

"That being the case, I don't need to show any mercy!" Fang Qiu finished his words.

Fang Qiu moved his body, channeled all his internal Qi, and rushed to the old man in an instant. He then burst out all his strength and waved his punch, striking the old man with a powerful force.

"What?" As the old man felt the force bursting from Fang Qiu, his face changed in shock. He panicked and immediately resisted his attack.

The next moment, Fang Qiu punched fiercely to the old man's wrists that crossed in front of his chest.

"Boom!" The impact of the blast was loud.

Under the blow of Fang Qiu, the old man staggered back a few steps.

"Humph, you're not powerful enough to mess with the Ling Family!" The old man was also furious.

He was an outstanding eighth-class Martial Superior with one meridian, but now he was forced to step back by a fifth-class Martial Superior in front of so many people from his family.

How was he supposed to live as the Old Ancestor?

How could he live as the top expert in Ganzhou Province?

As he flew into a rage, the old man immediately channeled all his strength, held back his anger, and stormed towards Fang Qiu.

This time, it was completely different.

As they channeled their strength, the two collided fiercely.

The horrible internal Qi spread wildly to all sides like layers of strong sound waves.

In just a moment, the columns on both sides of the hall were crashed with hundreds of marks leaving on them.

The terrifying energy Qi was raging.

The people of the Ling Family who were standing at the entrance of the hall were forced to retreat. Even the tables and chairs in the hall at this moment were flipped away as if they were experiencing the whole gale.

Looking at the fierce battle, everyone in the Ling Family was amazed.

“Retreat, everyone! Go right now!” Ling Xiuqi shouted.

Everyone didn't hesitate and immediately ran away.

"You want to ruin my family? I'll make you suffer!"

The Old Ancestor roared and punched Fang Qiu fiercely.

As a result, Fang Qiu dodged in an instant.

The next moment, along with Fang Qiu's counterattack, the old man moved and flew towards the square immediately.

"Humph!" Fang Qiu snorted.

He knew that the Old Ancestor of the Ling Family wanted to lead him to the square to avoid hurting the younger people of the Ling Family and avoid destroying their reception hall.

However, this was what Fang Qiu wanted.

It was not easy for him to exert all his power in this limited area.

Anyway, to punish the Ling Family, the first thing he needed to do was to take down the Old Ancestor.

As long as he destroyed the strongest fighter of the Ling Family, everything that followed would be much simpler for him.

"Swoosh! Swoosh!" The two flew to the square at the same time.

In the blink of an eye, they reached a huge stone tripod in the center of the square.

The stone tripod had ears on both sides. One of them landed on the left while the other one stood on the right side. They were staring at each other.

“Do you really want to destroy our whole family?” The old man stared gloomily at Fang Qiu.

Just now, although the old man had just exchanged a few moves with Fang Qiu, he felt a great deal of pressure from Fang Qiu.

He felt that he was completely suppressed by Fang Qiu, which startled him.

At the same time, he couldn't help but be panic.

Fang Qiu replied indifferently, “Destroy all of you? The opportunity was given to you. You're the one who wants to kill me.”

The old man's face fell.

Just now, he did something wrong.

In the beginning, he thought that Fang Qiu was very strong, so he treated Fang Qiu with courtesy and promised to give Fang Qiu a fair explanation. However, when Fang Qiu showed his weakness, he immediately took the opportunity and didn't even give him a chance to live.

Obviously, the old man brought all this to himself.

The old man said, “Spare some room for whatever you do in case we meet again.”

Now he didn't look like he was talking to Fang Qiu about the terms. Instead, he was asking Fang Qiu to let him go.

Fang Qiu snorted, “Does it ever occur to you that you need to spare my life earlier?”

He finished his words. "Swoosh!"

As soon as he moved, he was like a meteor swishing through the sky. With a flow of extremely sharp energy Qi, he charged straight to the Old Ancestor like a long sword.

At this time, the old man was grim.

He knew that there was no way out in this matter.

He had nothing to do but to fight.

"Bang, bang..." The fierce battle began again.

The two collided together over the stone tripod and then fell into it together.

There was water in the tripod.

In the fierce battle between the two men, the water in the tripod surged like heavy rain.

Although it seemed that the two were fighting fiercely, if you took a closer look, you could clearly see that the Old Ancestor who had been suppressing Fang Qiu before now was suppressed by Fang Qiu. And now he could only defend himself. Sometimes he would even lose his pace after being constantly struck by Fang Qiu.

Under these circumstances, Fang Qiu's suppression on him was getting stronger and stronger!

Faced with the increasing pressure from Fang Qiu, the Old Ancestors suddenly growled.

"Aargh!!!" He had never been treated like this.

He couldn't stand it anymore. He wanted to kill this young man.

He was about to lose his calmness.

As he roared, the old man was not defending but directly used his body to take Fang Qiu's punch. At the same time, he punched directly to Fang Qiu's heart!

Seeing this, Fang Qiu snorted, "Humph." He was about to rush to the old man, but he suddenly twisted forcibly in the air and immediately spun backward to avoid the old man's deadly blow.

The energy in Fang Qiu's body surged, and the muscles on his right arm swelled.

With all the internal Qi surging from his meridians, Fang Qiu flung his right arm, bursting out a force that even he felt terrified and banged fiercely towards the old man.

Medical Master

Chapter 463: Find the Book of Heaven Treasure and Earth Treasure!

From a distance, Ling Xiuqi held up Ling Tianxiao who was severely injured and had just woken up from a coma and stood with the elder who was also seriously injured, as well as the big man with a bad temper. They were all defeated by Fang Qiu.

The rest of the Ling Family were around the four.

"Old Ancestor, you must avenge me!" Ling Tianxiao covered his chest with his hand, his face was blue with pain, and every word he said could cause great pain to him.

"He will definitely avenge us." The Elder of the Ling Family fixated his eyes on the stone tripod, from which internal Qi was constantly erupting, saying, "When Old Ancestor wins, I will definitely kill that son of a bitch and rip his body apart!"

The big man also exclaimed, “Yes, I’m going to chop his legs!”

Ling Xiuqi also said firmly, “Old Ancestor is sure to win!”

Old Ancestor had already won John Doe once. Although John Doe faked his injury, the battle also proved that he was no match for Old Ancestor. This time he would definitely defeat John Doe!

Not only the four of them, but all people of the Ling Family also had faith in the Old Ancestor.

In their eyes, the old man was invincible.

Not to mention in Ganzhou Province, even if they looked around the world, the old man also ranked among the top ten experts.

They had never seen anyone more powerful than the old man.

Although this mysterious man was fairly impressive, there was no way he could compete with the old man.

There was no doubt that all the people of the Ling Family were frightened after seeing Fang Qiu’s horrific fighting power. Therefore, all their hopes were pinned on their Old Ancestor.

They hoped that he could win.

In the stone tripod, the energy Qi around the two people erupted, slashing wildly to all sides like the blades in a meat grinder.

Under the eruption and impact of the horrific energy Qi, the stone tripod which was about 50 cm thick was riddled with holes within less than one minute.

People outside couldn’t see the condition of the stone tripod at all.

In the eyes of all the people in the Ling Family, the stone tripod was still the same without any change.

“Boom!” However, the next moment, a thunderous sound was heard all of a sudden.

In the stone tripod, Fang Qiu channeled all his power, waving his right arm and colliding with the old man’s deadly blow fiercely.

The moment their fists collided, the energy Qi which had become extremely unstable during the battle suddenly broke out like an atomic bomb.

Coupled with the collision between the two, a more powerful force burst out from their fists.

Suddenly, it was as if a buried bomb had exploded in that stone tripod.

In an instant, the extremely huge stone tripod was shattered by the force.

All the pieces of the tripod flew out.

The huge stone tripod, which had been the landmark of the Ling Family for decades, was destroyed in the blink of an eye.

From a distance, all the people’s jaws dropped.

They could only see that a man just withdrew his fists and stood straight in the spot where all the stones were scattered. Opposite this figure, another person was thrown away by the force and his falling speed was much faster than the dropping stones in the air.

The man fell heavily on the outer wall about 25 meters away.

The man turned out to be the Old Ancestor of the Ling Family!

“Puff...” The moment the old man landed on the ground, his face was so red, and he opened his mouth, spitting out blood.

It looked like he was seriously injured!

After seeing the two of them, everyone in the Ling Family was dumbfounded.

Ling Tianxiao who had just awakened from a coma resulted by a serious injury couldn't help showing a hint of panic on his face. He even began to retreat and was about to shake off the hand of Ling Xiuqi who was holding him, ready to escape.

Fang Qiu just stood there, looking at the seriously injured young man, saying, “You want to run? Where can you go?”

As he heard what Fang Qiu said, the last hope of Ling Tianxiao was shattered.

Ling Tianxiao didn't even turn around. He was so frightened that he felt his knees start to buckle and then fell to the ground.

The face that had been extremely arrogant before turned out to be so terrified today. He was so scared that he burst into tears.

The rest of the Ling Family dared not move.

At this moment, they finally understood.

What they provoked was not an ordinary martial arts practitioner, not a person stupid enough to want to take down the entire Ling Family with his own strength, but a demon, a supreme devil who was capable of destroying the whole Ling Family.

Ling Tianxiao fell to the ground in horror and crawled to the corner with tears on his face, holding a round stone pillar like a child who was aggrieved. Facing the pillar, he didn't even dare to look at Fang Qiu.

"Swoosh!" Seeing Ling Tianxiao act like this, Fang Qiu didn't hesitate and showed no mercy, rushing to him.

The other people, even Ling Tianxiao's father—Ling Xiuqi, didn't dare to act recklessly, so he could only watch what Fang Qiu was going to do.

"Pow." Fang Qiu grabbed Ling Tianxiao and lifted him with one hand, then moved his right hand to strike the lower abdomen of Ling Tianxiao, destroying his Dantian and breaking his meridians.

There was no blood for Ling Tianxiao to spout anymore.

Ling Tianxiao's complexion went pale. He fell to the ground, motionless as if he went numb and couldn't feel anything at all.

After that, Fang Qiu turned around and looked at all the people who were just behind him earlier but now stood more than ten meters away.

Fang Qiu said, "Now give me an explanation!"

The host of the Ling Family came to Fang Qiu while holding up the old man who was seriously hurt and vomited blood.

"Hiss..." Facing Fang Qiu, the Old Ancestor took a deep breath and said, "Thank you for your mercy and not killing every one of my family."

He then signaled to Ling Xiuqi.

Ling Xiuqi didn't dare to hesitate, quickly took out a bank card from his trouser pocket, and handed it to Fang Qiu.

The Old Ancestor of the Ling Family opened his mouth and said, "This is thirty million. This compensation is already prepared in advance. In addition to the price you paid for the Heaven Treasure at that time, an additional 10 million is paid as an apology from us."

Fang Qiu smiled and said, "You've prepared for this in advance? Your family is so capable of dealing with this kind of thing, right? You got everything planned out. In the battle just now, I could have received the money earlier if I didn't pretend to be injured. Am I right?"

Fang Qiu then added, "And now you just want to solve this matter by offering me 30 million?"

The Old Ancestor of the Ling Family was shocked as he heard that.

This was a plan that Ling Xiuqi discussed with him in advance, and they did not tell the other members of the Ling Family, for fear that it would hurt the confidence of their family.

They didn't expect that the plan they'd made was even seen through by Fang Qiu.

To their disappointment, Fang Qiu was more thoughtful than them.

Fang Qiu was so powerful that he could beat them like this before they had time to react.

There was no other way.

In the face of absolute power, all the plans were meaningless.

The Old Ancestor asked, "What else do you want?"

Fang Qiu replied, "I want what you almost made me miss."

“A Heaven Treasure?” The old man was stunned.

Fang Qiu nodded. “Yes.”

The old man of the Ling Family immediately shook his head and said, “No. It’s not easy to find Heaven Treasures and Earth Treasures in this world. If we have a Heaven Treasure, why should we compete with you at the auction?”

“Then there’s no other way.” Fang Qiu shook his head. His eyes went cold, and he was ready to make a move.

In fact, Fang Qiu was deliberately pressing them.

He didn’t even want to do anything.

After all, he had already taken his revenge.

Besides, he had taken down the entire Ling Family. These people in front of him were just a group of losers.

Therefore, even it seemed that Fang Qiu was about to make a move, his real intention was to put pressure on them to see if they had a Heaven Treasure or any clues about the Heaven Treasure.

As Fang Qiu expected, when the old man saw the murderous intent in Fang Qiu’s eyes, his face changed, and he immediately shouted, “Wait.”

Fang Qiu stopped. “Hmm?”

The Old Ancestor hesitated for a while and then said, “I, I have a treasure book which can locate Heaven Treasures and Earth Treasures.”

“Really?” Fang Qiu was surprised but he didn’t show it. His eyes were still cold.

The Old Ancestor said, “Yes.”

Fang Qiu nodded and said, “Well. If it’s true, I would spare all of you!”

“Please wait a moment,” the Old Ancestor said, and then immediately walked into the bamboo forest behind the attic.

After a while, the Old Ancestor returned with an ancient book.

Going forward, the Old Ancestor handed the ancient book to Fang Qiu. “This is it.”

Everyone in the Ling Family was shocked.

They had never heard that the Old Ancestor had this kind of treasure book.

If that was true, why hadn’t the Ling Family been wealthy yet?

If they did have this kind of book, they should have traveled around the world in search of Heaven Treasures and Earth Treasures.

Why did they have to scramble for the Mei Leaf at the auction house? And they wouldn’t have provoked the mysterious man in the first place.

All the people in the Ling Family were at a loss!

Fang Qiu took the ancient book from the old man, opened it, and skimmed through it. Then he found that neither the paper nor the notes and ink on the book were fake. This was indeed an ancient treasure book.

Closing the ancient book, Fang Qiu nodded and said, "Good. That's it. I'll leave you alone!"

After that, Fang Qiu turned around and left.

As soon as Fang Qiu turned and left, a bit of wickedness suddenly flashed through the eyes of the Old Ancestor.

However, Fang Qiu happened to catch that.

But he didn't say anything. He just snorted, flying away.

Seeing Fang Qiu leave, Ling Xiuqi immediately ordered the servants to clean the battlefield. He then took other people of the Ling Family and Ling Tianxiao whose kung fu had been destroyed to follow behind the Old Ancestor. They went all the way into the bamboo forest behind the attic.

In the forest, there was a large basement.

Normally, the Old Ancestor would separate himself from the outside world and practice here.

Soon, a group of people came to the basement.

They blocked all the passages of the basement.

Ling Xiuqi asked, "Old Ancestor, is it true that you gave him the treasure book?"

The Old Ancestor nodded, "It's true."

Ling Xiuqi smiled wryly, “Why? You didn’t have to give it to him. With that book, as long as we find a Heaven Treasure, we can help restore Tianxiao’s kung fu. If we can find two of them, your strength will also be improved again. By then, our Ling Family will become more powerful.”

The ancestor snorted coldly and said, “Humph. Although the book is authentic, it is simply a remnant. After I got it by chance, I also tried to practice, but I couldn’t get anything at all.”

Everyone knew his intention as they heard that.

The Old Ancestor shuddered, and his face looked grim. He looked rather wicked and said word for word. “Besides, I want to... use it to kill that bastard.”

Medical Master

Chapter 464: Such A Great Plan!

In the basement of the bamboo forest, everyone was confused as they heard what the Old Ancestor said.

How to use this treasure book to kill the mysterious man?

Ling Xiuqi asked. “Old Ancestor, what do you mean?”

The Old Ancestor snorted and said, “Humph. Although the treasure book is true, it is equivalent to waste for the owner cannot cultivate it. However, being able to perceive the locations of Heaven Treasures and Earth Treasures is enough to cover its disadvantages. If we secretly leak the news of John Doe possessing the treasure book which can locate Heaven Treasures and Earth Treasures, do you think whether it will cause anyone with a higher strength to crave for it?”

“By then...” Before the Old Ancestor had finished speaking, all the people’s eyes lit up.

In particular, Ling Tianxiao, who had been stripped of his kung fu, suddenly raised his head. There was a burst of madness in his gloomy eyes.

His complexion was even more ferocious.

Ling Tianxiao roared, "Kill him, kill him..."

Ling Xiuqi hurried forward to comfort him.

The Old Ancestor took a glance at Ling Tianxiao with pity, saying, "Tianxiao, you can rest assured that I'll definitely find a way to cure you. I'll help you with revenge!"

Ling Xiuqi raised his fist and said angrily, "Yes, he dared to mess with our Ling Family. We'll make him suffer in Wulin. He won't live in the martial arts world any longer."

Everyone nodded grimly.

However, at this moment, a familiar voice suddenly sounded. "Such a great plan!"

As they heard the voice, all the people in the Ling Family were shocked and their faces fell.

That voice came from the outside.

All of a sudden, everyone turned their heads and stared at the entrance to the basement.

"Boom!" The sound of the explosion was heard.

At the entrance of the basement, the door made of steel burst into pieces in an instant.

A figure flew in through the entrance.

Landing in the basement, he stopped in front of the people of the Ling Family.

The man was none other than Fang Qiu.

At this moment, everyone in the Ling Family was dumbfounded.

When he saw Fang Qiu, Ling Xiuqi's face turned pale instantly.

He knew that the Ling Family was done.

The Ling Family would be completely destroyed in his hands.

Next to him, the Old Ancestor's face was also extremely grim. He watched Fang Qiu leave with his own eyes. And after Fang Qiu left, he also used his perception to make sure that Fang Qiu had left the area where he could sense him. Only then did he take all the people to the basement.

He didn't expect that Fang Qiu would come back.

The entire Ling Family was caught off guard by Fang Qiu's return.

Among them, the person whose face changed dramatically was Ling Tianxiao.

After his kung fu was destroyed, he seemed to have lost his soul and had no feeling shown in his eyes.

When he heard that the Old Ancestor would use the book to kill Fang Qiu and use the experts in Wulin to deal with Fang Qiu, he saw hope again.

Nevertheless, his hope lasted only ten seconds.

Fang Qiu's reappearance drove him to the valley bottom again.

As Ling Tianxiao saw Fang Qiu break into the basement, his knees buckled. He finally chose to cave in.

Looking at everyone in the Ling Family, Fang Qiu said coldly, "Such an excellent method. However... Since you guys like to kill people through others' hands, don't blame me for being merciless!"

Then Fang Qiu rushed forward.

The Old Ancestor shouted, "Fight together!"

He also rushed out first, collided with Fang Qiu with his severely injured body, and tried to lead everyone to siege Fang Qiu.

Unfortunately, he was no match for Fang Qiu even in his prime. Being seriously injured now also made him inferior to Fang Qiu.

Their punches met in the air.

The Old Ancestor was unable to resist Fang Qiu's attack so he staggered back several steps due to the force and almost fell to the ground.

Fang Qiu showed no mercy and didn't hesitate as he struck.

In the siege of everyone in the Ling Family, he made a counterattack that they could not block with absolute strength and speed.

Within three minutes, every one of the Ling Family fell to the ground, including Ling Xiuqi and the Old Ancestor.

Everyone's kung fu and meridians were destroyed by Fang Qiu.

“So what if you’re an ancient martial arts noble family?”

Watching the people lying on the ground and looking rather depressed, Fang Qiu said coldly, “You’re not noble at all. You don’t deserve to possess kung fu. You’ve abused your power in Wulin for so many years. I don’t know how many people are forced to death by your power. From now on, you should be ordinary people and experience the hardships of being ordinary people!”

Fang Qiu then turned around and left.

Fang Qiu also knew that there were all Ling Family’s core members and powerful fighters in the bamboo forest. Apart from them, there were still other people in the Ling Family who were competent too.

As for those people, Fang Qiu didn’t bother to go after them.

After all, he never thought about taking down the entire family.

Now the powerful fighters of the Ling Family had gotten their kung fu stripped, which made the family almost useless. Those who were previously bullied by their family would definitely come over to teach them a lesson for what they had done before as soon as they got the news.

With the current strength of the Ling Family, it should be fine to deal with some small forces, but it wouldn’t be so easy to deal with a group of small forces.

The reason why Fang Qiu did this was that he wanted to see how many people the Ling Family had bullied!

If there were few people that they had bullied and no one looked for revenge, it could prove that the Ling Family should not be destroyed.

But if they had provoked so many people, the Ling Family was doomed, and Fang Qiu didn’t even need to take any action.

Leaving the Ling Family, Fang Qiu ran wildly in the mountains and forests, taking the same route as he got here before to return to Linxia City.

Halfway on his journey, his phone suddenly rang. “Dee dee...”

During a quick run, Fang Qiu took out his phone and took a look.

It was a text message from the Young Chinese Medicine Doctor program group. The title was the list of the 30 contestants who passed the assessment today!

Fang Qiu stopped to read the text message.

The first place that caught the eye at first was undoubtedly the name of Fang Qiu, followed by the second place— Luo Jie, who was the apprentice of Holy Doctor Chu.

Behind them were the descendants of the four famous families, Li Sanxiao, Leng Wenzhuo, Gu Shaoyu, and Chen Ziju.

Reading carefully, Fang Qiu found that Jiang Miaoyu also entered the top 30. Although she fell into the bottom half and ranked 16th, it was great for her to enter the next round.

After reading the message, Fang Qiu immediately called Jiang Miaoyu.

He knew that Jiang Miaoyu must be worried for he suddenly left, so it was better to tell her that he was safe and congratulated her as well.

The call got through.

Jiang Miaoyu answered in seconds. “Hello?”

Fang Qiu said jokingly, "Nice! You've got into the top 30. Congratulations. Now we got two good things happened in our home."

Jiang Miaoyu snorted and said, "Humph. You didn't help me cheat. I'm very angry now!"

Fang Qiu laughed and said, "Ha-ha. If I did cheat for you, you would really get angry, wouldn't you? I know you have your pride. Anyway, you are also the descendant of the Chinese Medicine family, and you are also an apprentice of a highly-skilled doctor and the granddaughter of the holy doctor. Even if I wanted to, you would never let me help you cheat."

Jiang Miaoyu responded naturally, "Of course. But my refusal is one thing, whether you do it or not is another thing. Don't you know that sincerity matters the most? I don't see your sincerity at all, so I'm furious right now."

Fang Qiu laughed. "I remember that I offered to help you cheat in front of two cameras."

Jiang Miaoyu snorted. "That doesn't count, everyone knows that it is a joke. If you are serious, will you be so brazen?"

Fang Qiu thought about it and said, "How about this? I'll bring something delicious back for you. Could you forgive me by then?"

Jiang Miaoyu said happily, "Well, that will do. If there is something delicious when you come back, I will forgive you."

"Okay, see you tonight." Fang Qiu hung up with a smile.

At the same time, people were watching the Wulin online forum.

"The List of Martial Superiors was updated again?"

"No way."

“Recently, this list has been updated a bit frequently.”

“This time, it seems like a big update.”

“I just took a glance and found that many people’s names have disappeared from the list!”

The Wulin online forum which had been quiet for a long time suddenly was in a tumult again.

Many people who browsed the forum daily all found that the List of Martial Superiors was updated and it was a big change.

At this update, at least more than ten people disappeared from the list, and more than ten young people made it into the list.

What surprised everyone was that under these circumstances, the administrator would post a notice on the forum in advance if it was going to make a big update.

But this time, nobody was informed.

Suddenly, the List of Martial Superiors was inexplicably updated.

Just when everyone was puzzled, the sudden appearance of a post immediately caught everyone’s attention throughout the forum.

“The latest ranking of the List of Martial Superiors, the mysterious man John Doe: 648!”

As soon as this post appeared, it immediately caught everyone’s attention.

Although Fang Qiu's continuous rising ranking before had attracted many people's attention and it had also become a heated topic in Wulin for a while, with the passage of time, the influence of John Doe gradually faded.

As a result, everyone's attention to the mysterious man was getting weaker.

They didn't expect this. Just when everyone almost forgot the mysterious man, his ranking soared once again.

And this time, he soared from No.788 to No. 648.

This ranking was really incredible.

For many people, being ranked among the top 1,000 of the List of Martial Superiors was almost a lifetime glory.

The competition within the top 1,000 people was extremely fierce, so it was rather difficult to advance one place.

But John Doe made rapid progress every time he increased his ranking.

Everyone was just exclaiming when he was below No.700.

However, they were shocked when he rose above No.700.

"No. 648? Are you kidding me?"

"Oh my God, what did the mysterious man do?"

"Damn, I remember people who rank above No.700 are all seventh class experts with three meridians and even eighth-class experts. How did John Doe make it?"

As they were all amazed, everyone went to check the List of Martial Superiors.

However, they were even more shocked as they saw it.

“John Doe ‘s record has been updated!”

“Being a fifth-class Martial Superior, he fought against the Ling Family in Ganzhou Province and defeated the Old Ancestor who was an eighth-class Martial Superior with a meridian!”

After seeing the information below the ranking of Fang Qiu, a new record was updated. Everyone on the forum was dumbfounded!

Did he battle the Ling Family alone?

Moreover, he defeated the Old Ancestor who was an eighth-class Martial Superior with an opened meridian?

But his real strength only reached the level of a fifth-class Martial Superior.

Oh My God!

Was the mysterious man an actual human being?

Medical Master

Chapter 465: The Treasure Method of Divine Consciousness

While everyone on the forum was in a state of shock, they started to search carefully on the List of Martial Superiors.

It turned out that everyone of the Ling Family on the List of Martial Superiors had disappeared from the list.

“Damn, the Ling Family is really gone.”

“Are all these people defeated by the mysterious man?”

“I’ve heard before that the Ling Family is particularly powerful in Ganzhou. It is simply the local emperor of Ganzhou Province. No matter where they go, they’re always so arrogant and hold their head high. They often pull rank on others. I didn’t expect that they were actually all destroyed by the mysterious man.”

“The strength of the Ling Family is not weak though, their Old Ancestor is an eighth-class super expert with one meridian. How could they suddenly be destroyed by John Doe?”

“Maybe they tried to mess with John Doe?”

“Does anyone know what is going on?”

“The Ling Family is so unlucky. They can mess with anyone in the world except John Doe. Anyone who has provoked him before was all defeated by him and their kung fu were destroyed, even those who went abroad couldn’t escape from him.”

“Request for insiders! What’s the grudge between the mysterious man and the Ling Family in Ganzhou?”

The news was spread everywhere, so more and more people were participating in the discussion.

An hour later, the entire forum’s homepage was occupied by the grudge between Fang Qiu and the Ling Family.

Many people who had just logged in the forum also joined the discussion.

Eventually, after a long discussion, a post popping up attracted everyone's attention.

"Insiders: details about the grudge between the Ling Family and John Doe!"

Everyone on the forum rushed to read it immediately as soon as this post came out.

In the post, it elaborated on the grudge between John Doe and the Ling Family.

Their grudge began at the Yangzhou auction. It started in the competition of the Heaven Treasure—Mei Leaf. Ling Tianxiao, the youngest son of the Ling Family, was competing with John Doe for it.

In the auction agency, the competition between the two was going smoothly.

Even if the price reached over twenty million, they were still voluntary.

There was nothing wrong so far.

However, putting aside the competition, Ling Tianxiao's approach to winning the treasure was indeed too mean and shameless.

First, in the name of the Ling Family, he oppressed everyone who was present and tried to win the Mei Leaf at the lowest price.

As a result, John Doe intervened in the auction.

From this point of view, it was Ling Tianxiao who bullied others first.

Then at the end of the auction, after John Doe managed to get the Mei Leaf, he claimed that he didn't have enough cash, so he was only able to auction the treasures he took with him.

However, as Ling Tianxiao knew that John Doe didn't have enough cash, he took the lead, together with all of the people present, to bring the auction prices of John Doe's items to a minimum, trying to stop John Doe from getting enough money to pay for the Mei Leaf.

Fortunately, John Doe brought a lot of items with him. With a huge loss, he finally collected enough cash.

Under the circumstances, Ling Tianxiao also mocked John Doe, again and again, even trying to induce everyone. After the auction, he and dozens of people went to siege John Doe and tried to rob the treasures from him.

Therefore, John Doe came to the Ling Family in person!

Under the circumstances, everyone on the forum was finally aware of what had happened.

No one expected that these things actually happened.

From the perspective of the whole thing, John Doe had always been at a disadvantage.

It had always been Ling Tianxiao, the youngest son of the Ling Family, who was so arrogant and aggressive.

No wonder John Doe went to the Ling Family for an explanation, which was naturally a matter of course.

In the martial arts world, many people knew how wicked the Ling Family was.

They thought the mysterious man would only come to them and do such a thing because he was really pissed off by the Ling Family.

"The Ling Family deserved it!"

“Humph, it’s time for someone to crush them. John Doe did a good job.”

“I didn’t expect that John Doe actually had so many treasures. He even has the Earth Bead which ranks No.10 among the Earth Treasures, as well as those guru-level promotion books. The most terrifying thing is that he also has a book that can help one promote from the sixth class to the seventh class. This man is unbelievable.”

“Yeah. If his strength isn’t written specifically on the List of Martial Superiors, I would have thought he was a guru!”

“John Doe is awesome!”

“Well, the Ling Family which always bullied the weak was finally taken down. It’s so gratifying!”

Just as everyone on the Wulin online forum was discussing intensely, Fang Qiu had returned to Linxia City. He changed into his normal outfit, carried a backpack, searched for local special snacks with his mobile phone, went across several streets, and bought different kinds of snacks. Then he went back to the hotel and delivered them to Jiang Miaoyu.

Seeing the snacks brought by Fang Qiu, Jiang Miaoyu was ecstatic.

The two of them finished all the snacks.

However, these snacks were not enough to fill their stomachs.

In order to wait for some delicious food, Jiang Miaoyu didn’t even have dinner. Fang Qiu didn’t eat his dinner either because he hurried to buy the snacks for Jiang Miaoyu.

Therefore, with their stomachs rumbling, Fang Qiu could only take Jiang Miaoyu to leave the hotel and go to the local night market. They were also touring around as they found something to eat.

The two didn’t return to the hotel until ten in the evening.

After walking Jiang Miaoyu back to her room, Fang Qiu returned to his room alone.

Locking the door and closing the curtains, Fang Qiu sat on the bed, cross-legged.

He directly took out the treasure book which he took from the Old Ancestor of the Ling Family. The book could search Heaven Treasures and Earth Treasures.

Fang Qiu murmured to himself, "Now that I have it, I have to study it, even though part of it was missing."

Fang Qiu began to watch carefully.

"Divine Consciousness!"

"Based on the Qi of the Heaven and Earth, hold it."

"Based on the power of the mind, use it."

As he just read a few words, Fang Qiu was completely caught in it.

Fifteen minutes later, Fang Qiu finished reading.

Fang Qiu smiled wryly as he closed the book. "Sure enough it's a fragmentary book!"

However, he also saw many things in this book.

It mainly elaborated that this kind of secret method that could explore Heaven Treasures and Earth Treasures was called Divine Consciousness.

In fact, Divine Consciousness was also a kind of cultivation method of kung fu.

However, because this method was an unpopular one, it was gradually eliminated by people who practiced martial arts. As a result, no one in Wulin today knew how to use this method. Moreover, most people had never heard of it.

The book said that one needed to master the Qi of Heaven and Earth to cultivate Divine Consciousness.

Meanwhile, the person also needed to possess the incredible power of the mind.

Then, in the case of mastering the Qi of Heaven and Earth, the person needed to use his mental power to drive the Qi and keep it spreading outwards, just like a stone entering the water. The ripple would be the Qi of Heaven and Earth while the mental power was attached to it. Mental power needed to follow the Qi wherever it went.

In other words, the Qi of Heaven and Earth was just a carrier holding the mental power.

A person could use the Qi of Heaven and Earth to guide the way and explore with mental power.

Thus, wherever the mental power reached, he would be aware of the situation there.

Why could a person possessing this kind of power find Heaven and Earth Treasures?

In the process of exploration, if there was no Heaven or Earth Treasure, the Qi of Heaven and Earth wouldn't change while it was spreading. However, once there were Heaven and Earth Treasures, the Qi would change immediately. The mental power which was attached to it would sense the change in the first place.

If the Qi of Heaven and Earth were ripples in the water, then Heaven and Earth Treasures would be the duckweed.

After all, Heaven and Earth Treasures themselves also had the ability to absorb and spread the Qi of Heaven and Earth, which could form a unique magnetic field. This search method actually aimed at this magnetic field.

However, if one wanted to explore Heaven and Earth Treasures, the first thing one had to do was to make every effort to expand the range that the Qi of Heaven and Earth could spread. The larger the coverage was, the easier it would be able to find the treasures.

As for the range covered by the Qi of Heaven and Earth, it depended on the degree of one's cultivation.

After reading these, Fang Qiu already had a comprehensive understanding of Divine Consciousness.

To his disappointment, this book was indeed a remnant. What was missing was exactly the most critical cultivation method of Divine Consciousness. It didn't show how to control the Qi of Heaven and Earth, cultivate mental power, and how to control the spread of the Qi.

This made Fang Qiu speechless.

However, Fang Qiu was not too depressed because he had already learnt how to cultivate mental power.

Wasn't it the mental power he had been practicing all the time?

Although his mental power couldn't be considered to be superb now, he was getting the hang of it. It should not be a problem to support Divine Consciousness.

However, putting aside the mental power, how should he master the Qi of Heaven and Earth and spread it?

Fang Qiu had no clue of this.

The only thing he could do was to absorb the surrounding Qi of Heaven and Earth with the Great Hand of Destruction, and then take the opportunity to explore before launching the thunderous strike.

Because before the strike, the surrounding Qi of Heaven and Earth was all attracted to him and would be approaching him. He could naturally use this Qi to find out the internal Qi existing in the surrounding area.

After all, those who possessed internal Qi were all human beings. The living blood was too strong, and it was easy to be perceived. He didn't even need to use the mental power.

But Heaven and Earth Treasures were different.

Different from living people, Heaven and Earth Treasures were tiny and delicate.

It was hard to detect such things by using the Great Hand of Destruction.

"How should I control the Qi of Heaven and Earth?" Fang Qiu thought to himself.

Putting away the treasure book, Fang Qiu began to ponder with furrowed brows.

"Divine Consciousness is to control the Qi of Heaven and Earth and push it out in all directions. Great Hand of Destruction is forcibly attracting and gathering the Qi of Heaven and Earth."

"Since they could all drive the Qi of Heaven and Earth, is there any connection between the attraction and repulsion?" Fang Qiu thought.

Fang Qiu immediately recalled the practice of the Great Hand of Destruction.

It was self-centered, with his own meridians as its array, diffusing the energy in his body, connecting it with the surrounding Qi of Heaven and Earth, and then pulling different kinds of energy over.

“That’s right!” As Fang Qiu thought of this, his eyes lit up.

“Great Hand of Destruction uses one’s own energy to assimilate the surrounding Qi of Heaven and Earth so as to pull and gather. Can I also control the Qi of Heaven and Earth in the same way?”

“Like driving or striking the Qi with my own energy?”

Thinking of this, Fang Qiu got excited.

He couldn’t wait to start testing the method immediately.

“Get up!” He growled to himself.

Fang Qiu immediately followed the method used by the Great Hand of Destruction to direct the energy from his body to the outside and then started driving it.

Medical Master

Chapter 466: Really Discovered an Earth Treasure!

“No!” When using his own energy to push the Qi of Heaven and Earth, Fang Qiu found that the Qi was just like air. Only when it was absorbed, would it give him a particularly obvious physical sense. When it was pushed, it didn’t move at all. Just like punching into nothing, it took him quite a while to try hard, but nothing happened.

Fang Qiu was dumbfounded. “How could this be?”

The method of driving the Qi of Heaven and Earth didn’t work at all.

But he did feel that his own energy got connected with the Qi of Heaven and Earth.

Fang Qiu could clearly feel that he had some connections with the surrounding Heaven and Earth energy.

Under the circumstances, since he couldn't drive it, how could he spread the Qi of Heaven and Earth connecting with him?

Fang Qiu was lost in thought again.

"My own energy is no different from the Qi of Heaven and Earth. They are all the same, except that my energy comes from my own internal Qi while the Qi of Heaven and Earth belongs to the energy from Heaven and Earth."

"Since the energy is connected to me, why can't I drive it? How do I drive my own energy then?"

Thinking of it in this way, Fang Qiu felt like he was getting into a dead end.

He could perfectly control his own energy and channel it like using his hands and feet.

However, the Qi of Heaven and Earth was different.

Obviously, it wasn't feasible to control the Qi of Heaven and Earth by driving his own energy.

Then what was he supposed to do?

With his brows knitted, Fang Qiu was in deep thought.

"The Qi of Heaven and Earth is just like air. I can't push it if I'm not able to touch it. In this way, I won't be able to form the airflow, which can't spread the Qi."

"So, what should I do to push out the untouchable Qi of Heaven and Earth?"

“In addition to pushing it, maybe I can only vibrate it!”

Thinking of this, Fang Qiu immediately set about trying the new method.

Releasing the energy from his body to the outside again and connecting it with the surrounding Qi of Heaven and Earth, Fang Qiu controlled his own energy and began to vibrate the Qi quickly.

As a result, the vibration made the Qi of Heaven and Earth which had a connection with him immediately rush out in all directions like a wave in the sea.

Fang Qiu didn't even try so hard!

Fang Qiu was ecstatic as he knew it.

He didn't expect the vibration of energy could work so well.

He effortlessly pushed out the surrounding Qi of Heaven and Earth.

“It's done!” Fang Qiu instantly stopped vibrating immediately and withdrew his energy.

Fang Qiu was surprised.

It was just a small experiment just now. After all, he couldn't really exert his power in a hotel. He would be violating others' privacy if he accidentally saw something that he wasn't supposed to observe.

Although it was just a small experiment, he finally found a clue on how to do it.

“I need to go out and have a try!” As Fang Qiu was excited, he immediately got up, opened the window, and jumped out of his room.

In the dark night, Fang Qiu moved so fast all the way, rushing directly into the mountains and forests.

“It’ll be far enough.” Fang Qiu stopped after flying for five kilometers in the mountains.

“Let’s start!” With that in mind, Fang Qiu immediately guided his energy to the outside, quickly connected it with the surrounding Qi of Heaven and Earth, and then immediately controlled his energy to start vibrating.

As he did before, he vibrated lightly.

The surrounding Heaven and Earth energy immediately spread out in all directions.

At the same time, Fang Qiu immediately drove his mental power, making it attach to the Qi of Heaven and Earth and burst out.

At this moment, Fang Qiu felt like he was a radar.

He was scanning the surrounding area but didn’t know the exact range he could scan.

After a long while, the Qi of Heaven and Earth stopped surging.

Fang Qiu’s mental power also stopped and disappeared.

“I’ve entered the city!” Fang Qiu found that his mental power followed the flow of Qi of Heaven and Earth and came to the edge of the city.

“Five kilometers!” He did a rough estimate.

Fang Qiu found that this time, the Qi of Heaven and Earth and mental power spread out for about ten kilometers. It was not ten kilometers as the crow flew. The power had spread out in all directions, forming a circle, a circle of ten kilometers in diameter!

“Try again. Maybe I can push harder to get further.” Taking a deep breath, Fang Qiu tried again.

This time, his control over his energy vibration was significantly greater than before.

After the vibration, the diffusion speed of the surrounding Qi of Heaven and Earth was still the same as before. It didn’t accelerate or slow down. It seemed to be the fastest speed now.

After a while, the Qi of Heaven and Earth and mental power dispersed again in the same spot where they stopped last time.

“Again?” Fang Qiu was puzzled.

The result of the third attempt was still the same!

“So this is the largest range I can sense for now?” Fang Qiu raised his eyebrows.

From that treasure remnant, he learned that the range that Divine Consciousness could cover was directly related to the level of his internal Qi and mental power.

Although he didn’t know whether this method he comprehended was the Divine Consciousness, it should not make much difference.

Fang Qiu nodded in satisfaction. “It doesn’t matter, the area of ten kilometers in diameter is already large enough.”

“I should practice a few more times and look around to see if this can work.” With that in mind, Fang Qiu immediately flashed, rushed ten kilometers away, and used the Divine Consciousness again, but found nothing.

Then he went for ten more kilometers.

He started to perceive but found nothing.

Until the fourth time, Fang Qiu went from the west to the east of the city, and he finally noticed something different.

“There’s something!” In the diffusion of his mental power with the Qi of Heaven and Earth, Fang Qiu clearly felt that there was an abnormal energy flow in the east of the forest.

Without any hesitation, the moment he felt this unusual energy flow, Fang Qiu flew out immediately.

He rushed to the exact spot in an instant.

“One-leaf Flower!” A flower looking like an eye immediately caught Fang Qiu’s attention.

The flower had only one leaf. The leaf was pure white except that the middle was black. In the middle of the black area, there were red stamens. All these made the leaf looked like a human eye.

Fang Qiu smiled. “What a piece of luck!”

One-leaf Flower was an Earth Treasure which ranked No. 46 in the Scroll of Heaven and Earth Treasures.

Collecting the One-leaf Flower, Fang Qiu continued to search in other places.

Unfortunately, no Earth Treasure could be found.

Fang Qiu didn’t stop until it was almost dawn because his phone rang.

Taking out his phone to take a look, he found it was He Gaoming.

Fang Qiu answered the call. "Hello?"

He Gaoming immediately said as soon as the phone got through, "Master, it's me. Something terrible has happened."

Fang Qiu asked, "What?"

He Gaoming smiled wryly. "You are going to be a public enemy soon."

Fang Qiu froze. "I'm sorry. What?"

What had happened?

"What did he mean that I would become a public enemy soon?"

He Gaoming hurriedly explained, "I don't know why. Some news spreading in the Wulin forum claimed that you had a way to find Earth Treasures. The rumor is so real as if someone had seen it in person. They all say that the reason why you can take out so many Earth Treasures to sell is that you have the secret method."

Fang Qiu's eyes narrowed. "Oh?"

He didn't even need to think about it.

He knew that the news must have been leaked by people of the Ling Family.

He had already taught them such a great lesson yesterday, and they still dared to do so.

These people were incredibly insane.

Didn't they know that this would cause trouble for their family?

Of course, even if he was aware that it was the Ling Family that had leaked the secret, Fang Qiu would not come to them again because he didn't want to kill anyone.

Besides, when the Ling Family did this, the whole practitioners in Wulin would definitely follow the trace. Where did John Doe get the secret method of finding Heaven and Earth Treasures? They would eventually find that it was the Ling Family that had all these hidden treasures.

By the time, all the people in Wulin would think that in addition to John Doe, the Ling Family also possessed this secret method.

It was hard to trace the mysterious man's whereabouts, but the Ling Family was different.

Obviously, this malicious act of the Ling Family inadvertently led all the wicked to their family.

Under the circumstances, Fang Qiu didn't need to take any action at all. The Ling Family would be doomed by then.

With a grunt, Fang Qiu said, "They're just digging their own graves! They're coming at the right time!"

At the other end of the line, He Gaoming was startled and said, "What? Master, what do you mean by that?"

Fang Qiu said directly, "I mean, the rumor is real. I did have the secret method to detect Heaven and Earth Treasures. Help me tell them if anyone wants my method, come and get it by himself!"

He Gaoming was shocked. "Master, do you really have it?"

Fang Qiu nodded. "Yes."

He Gaoming hesitated. "But, if you really say so, wouldn't it be a little too aggressive?"

Fang Qiu shook his head indifferently and said, "It's all right. All I need is this effect!"

As for Fang Qiu, this method of revenge by the Ling Family not only did not hinder or harm him in the slightest but also helped him greatly.

What he needed most right now was a battle.

He only had a year left. After one year, he must get two flowers in his Dantian.

To reach this level, he must fight endlessly.

He Gaoming said wryly, "You, if you really do this, then I dare not say I'm your apprentice. If those wicked people know about it, they will definitely take me to threaten you. Will you give them the secret method to trade for my safety?"

Fang Qiu responded, "Of course not."

He Gaoming was completely speechless as he heard that.

After hanging up, Fang Qiu returned to the hotel with the Earth Treasure.

He had no intention of taking the One-leaf Flower to auction.

Anyway, the Ling Family had compensated him 30 million, so he didn't lack money now.

Moreover, the No. 46 Earth Treasure wouldn't sell much money at auction.

The most important thing was that this Earth Treasure had a low ranking but had gentle energy.

Fang Qiu could use it to strengthen the bodies of his father and mother and remove the hidden diseases on them.

As for Jiang Miaoyu, he would help her later when he found another one.

Anyway, she was still young and didn't have any disease.

Fang Qiu hurried back. After entering the city, Fang Qiu took a taxi directly and returned to the hotel to start packing, preparing to return to Jiangjing.

This time he came to Ganzhou just to record the third episode of the show.

As for the fourth episode, the rules wouldn't be announced until three days later.

The next recording time was scheduled for next Monday, the same as this time.

Medical Master

Chapter 467: Is There a Manuscript?

In Jiangjing City, finishing the call with Fang Qiu, He Gaoming immediately used his phone to log in to the mysterious man's account on the Wulin forum.

At this moment, everyone on the forum were discussing intensely.

"Really? John Doe has a secret method to detect Heaven and Earth Treasures?"

"If there is such a secret method, it would be great."

“Yeah. If John Doe is willing to sell, I’ll buy it no matter how much it costs.”

“How would he possibly sell this secret method?”

“No way. If John Doe really has this secret method, why would he go to an auction and pay a great deal of money for a Heaven Treasure? For him, Heaven Treasures should be worthless cause he can find a lot.”

“It’s really strange. Although John Doe has sold a lot of Earth Treasures, he never sells Heaven Treasures.”

“Is this news real or not?”

Reading a few comments on the forum, He Gaoming laughed again wryly as this news had already caused a stir on the forum.

When browsing through these posts and comments, he especially looked at the IDs of the people involved in the discussion and found that most of these people were martial arts practitioners, only several of them were Martial Superiors.

However, this didn’t make He Gaoming feel relieved. Instead, he felt more and more stressful.

He knew that those super experts must have received the news at this moment, but no one came forward to ask and discuss cause they didn’t want to disgrace themselves.

In some places they couldn’t see, these people were watching closely.

“Do we really have to do that?” When thinking of what his Master said on the phone, He Gaoming felt like he was doing something very stupid, as if holding a gun against his head. Knowing that the gun was loaded, he still had to shoot himself.

This was not only their own business but involving the whole martial arts world.

Once the post was sent, the mysterious man would immediately become the target of the entire Wulin, and as his apprentice, he would inevitably be implicated.

He didn't even dare to think how crazy this matter would get and how terrible the consequences would be.

"Post it or not?" He Gaoming clicked to enter the post editing page.

Hesitating for a long time, He Gaoming finally made a decision.

"Alas... Anyway, everyone knew about it. With my master's temperament, even if I don't send it, he will definitely send it by himself. At that time, I will not only face the bad intentions of people from the whole Wulin but my master will also abandon me. If I post it, at least I can continue to stick with my master.

"Besides, I've never suffered any hardship since I became his apprentice.

"Since my master asked me to do this, he must have his own consideration.

"Okay. That's right!

"Well, it's just the national martial arts world. Even the outer Mongolian Wulin has been destroyed by my master. How else can people in this Wulin do to my master and me?"

As if he was hypnotizing himself, He Gaoming started to type after saying some words to encourage himself.

He quickly tapped on the phone with both hands and soon finished editing a post.

“Want the secret method? I have it!”

As always, He Gaoming still made the post’s title quite vigorous.

There was only one sentence in the post. “Yes, I have the secret method to detect Heaven and Earth Treasures. If you want it, come and get it yourself!”

The content was much more aggressive than the title.

He posted it and then logged out immediately.

He needed to calm himself down.

Then he went back to the forum to see what a scene the post had caused after he was able to calm himself down.

On the forum, it caused an uproar as soon as the post appeared.

Not only people on the Wulin forum, but everyone in the real martial arts world was shocked.

This was different from the event that happened before.

Anything that happened in the past was confined to a certain area or between some families, but this time it was completely different.

Everyone in Wulin was startled.

Whether it was those martial arts practitioners who exercised every day with martial arts, or those experts who were hidden in every part of the world and possessed superb power, when they heard this news, they were all shocked.

No one had ever found a way to locate Heaven and Earth Treasures. This method should never appear in this world, but now it did appear and it fell to the mysterious man who was really powerful.

In the beginning, many people thought it was fake news and felt that it was absolutely impossible for such a method to exist.

However, to their surprise, John Doe admitted it himself!

In somewhere in Huaxia, there was a very wide mountain canyon covered with greenery.

In the canyon, there was a huge square surrounded by tall wooden buildings.

In the lobby of one of the wooden buildings, a middle-aged man in a white robe was sitting on a square wooden chair in front of the guest table. There were two teapots steaming on the table.

There was another middle-aged man who also wore a robe next to him.

One of them had a square jaw, slightly sunken brows, and dark skin.

The other person was fair-faced with dashing eyebrows and sharp eyes. His eyes were bright.

One of them asked, "Is the news true or false?"

The other one replied, "It's hard to tell."

"Is there really a secret method to locate Heaven and Earth Treasures?"

"According to historical records, when Wulin thrived, there were some special cultivation methods to detect Heaven and Earth Treasures. But those methods were too special, so they were gradually

eliminated in the process of inheriting over thousands of years. It has completely disappeared hundreds of years ago and no longer exists in the world.”

“So the news is fake?”

“Not necessary. Although these methods disappeared, they did exist after all, and some copies will inevitably remain.”

“Be careful. Don’t fall into the trap of others.”

At the same time, many powerful forces in Wulin started to talk about it throughout the country.

Nobody knew if they should believe it.

Even though the mysterious man had acknowledged its existence in person, many people still couldn’t believe it.

From the perspective of ordinary people, they wouldn’t say it out loud so blatantly if they just got a priceless treasure.

Obviously, it was impossible for anyone to say it out loud even if they possessed incredibly great power.

Although John Doe was powerful, he was still a human. He was not invincible. As long as someone truly wanted to take him down, then there must be a way to kill him.

However, if he didn’t have it, why would he stand up and admit it?

Thinking of this, the major forces in the country were confused.

However, just when all the major forces in the country were confused about this matter, wondering whether they should believe it, suddenly there was another piece of news spreading quickly throughout the entire Wulin like a tsunami.

“John Doe really got the secret method of detecting Heaven and Earth Treasures from the Ling Family in Ganzhou!”

When the news came out, it instantly caused a commotion in Wulin.

It wasn't difficult to judge.

The grudge between the mysterious man and the Ling Family had just settled. The ones with superb combat power of the family were severely injured by the mysterious man.

However, in this case, the Ling Family still existed.

What did this mean? It meant that the mysterious man spared the family after he severely injured the capable ones.

Why would the mysterious man spare their lives?

The only possibility was that the Ling Family must come up with something worthy, which was the secret method of detecting Heaven and Earth Treasures.

Connecting the two things together, people in Wulin were excited.

In three days, those major forces from all over the country gathered together and rushed to the Ling Family.

Without the support of the ones with superb combat power, the Ling Family now was just a paper tiger. Under the invasion of Wulin's major forces, they couldn't resist them at all. The Ling Family could only let them do whatever they wanted.

Without encountering the slightest resistance, the major forces were even outrageous, making the Ling Family suffer.

As a result, they found nothing even though they turned the place upside down.

They couldn't even find anything valuable, not to mention the secret method to detect Heaven and Earth Treasures, which made those people traveling a long way here rather depressed.

Those who were already hostile to the Ling Family even took the opportunity to cause trouble to them. All the people of the Ling Family were captured and taken to the Ling Family's reception hall.

Those seats which belonged to the seniors of the Ling Family were taken by the major forces coming from every part in the country, so the people of the Ling Family could only stay in the center of the hall.

In the end, they were forced to kneel to the ground by the families which had a feud with the Ling Family.

It looked like a public trial of Wulin.

At this moment, the Old Ancestor of the Ling Family was frustrated.

He leaked the news that John Doe got the secret method, but he didn't expect that it would eventually destroy his family.

The Ling Family was already on the verge of destruction after the strike of the mysterious man.

Now, with such ruthless devastation, the only remaining people in the Ling Family who practiced kung fu were already eager to alienate the Ling Family.

As soon as those people left, the Ling Family was completely doomed.

One person approached the Old Ancestor and asked him, "Tell me, where are you hiding the book of the secret method?"

The Old Ancestor said helplessly, "I really don't have it. That book has been snatched by the mysterious man. If you want that book, go and get him."

A man snorted, "Well, don't you have the manuscript for such an important secret book?"

As known, when people in Wulin got some powerful treasure books, they would choose to copy them. Those with high strength would copy one, and those who were weaker would copy a few of it to avoid being robbed.

From this point of view, since the book could perceive Heaven and Earth Treasures, the Ling Family would definitely leave a manuscript even if they were powerful. But they had been searching for so long but found nothing, which really pissed them off.

The Old Ancestor quickly explained, "I didn't. I tried to practice it, but the secret method is too difficult. I can't even read it, not to mention practice it. So I have left it aside as waste. I didn't have any manuscript."

He really didn't have any. If one really wanted to use a treasure book to kill someone else, then he couldn't keep any copies at all. Otherwise, others would find out sooner or later. At that time, no one would ever come to mess with John Doe since they had already got the copies.

The most important thing was that it was useless to keep a copy. He didn't know how to practice it. It was a remnant.

As he said so, everyone just flew into a rage.

People present were thinking that without the manuscript, he should just take a picture of it. Now it was a high-tech era, why was he being so foolish?

In the end, they had tortured the Ling Family for quite a while and finally determined that there were really no such things as manuscripts and photos. Then all the major forces left and went back.

Although they found nothing in the Ling Family, everyone was sure that John Doe really had this secret method.

However, it wasn't clear whether John Doe was holding a remnant.

It was impossible for the Ling Family not to leave a copy if they got the entire book.

But if that was a remnant, was it really worth it? John Doe was risking his own life to confront the people of the entire Wulin.

Medical Master

Chapter 468: The Second Episode Of the Young Chinese Medicine Doctor Was Broadcast!

On Saturday, Fang Qiu returned to school from his hometown.

While in Ganzhou, Fang Qiu told Jiang Miaoyu that he needed to go back to his hometown and let her return to school first.

Fang Qiu then went back to his hometown with One-leaf Flower.

He used the One-leaf Flower to cure his parents and removed all their hidden diseases, then he immediately took the train back to Jiangjing.

Fortunately, Fang Qiu came back and left quietly and quickly.

Otherwise, perhaps he wouldn't be able to leave the town.

Fang Qiu had already become famous in his hometown before he went to the show. Now, not only did he join the Young Chinese Medicine Doctor in Central Television, but he also did such a great job in the show, which made him gain more popularity in his hometown. He was almost like a big star. There were many neighbors waiting for Fang Qiu to come back to treat them.

If Fang Qiu didn't leave as soon as possible, then he wouldn't be able to leave if everyone in the neighborhood knew that he came back.

On the way back to Jiangjing, Fang Qiu also received a text message from the show's crew.

It said the fourth episode would be 20 out of 30 and the fifth episode would be 15 out of 20. The recording of these two episodes would be held in Bocheng, Huizhou Province. All participants were required to arrive before 8 p.m on Monday.

On Sunday, with all the people watching, the second episode of the Young Chinese Medicine Doctor was broadcast on time.

It was just like when the first episode was aired.

Countless people had already waited in front of their TVs half an hour in advance and tuned to Channel 3 of Central Television, waiting for the show to begin.

On the Internet, there were a large number of netizens waiting in the live TV room of Central Television's official website.

Everyone was eager to watch the show.

This time, it was more attractive than the first episode.

After a week of publicity, the influence of the Young Chinese Medicine Doctor was growing day by day. Many people who didn't pay attention to the show and weren't interested in Chinese Medicine couldn't help but watch the first episode out of curiosity within the week.

As a result, they were completely obsessed with the show.

In addition, while some people were bored waiting for the second episode of the Young Chinese Medicine Doctor, they recorded all the knowledge and questions in the first episode related to Chinese Medicine and collected answers and medical principles to write a popular science post for those who needed reference.

This post was popular but its popularity couldn't reach the level of the show.

Admittedly, the reason why the Young Chinese Medicine Doctor became a big hit was not that the audience was truly interested in Chinese Medicine. They actually cared more about the contestants, the directors of the show, and the drama that happened between the contestants during the competition. Although the number of people who really followed Chinese Medicine had indeed increased, not everyone who watched the show was interested in Chinese Medicine.

Even so, people practicing Chinese Medicine were already very happy and excited about this result.

After all, this was just the first episode, and there were several more coming.

They believed that as long as things kept going on like this, the show's popularity would inevitably increase. Thus, more and more people would pay attention to Chinese Medicine.

Ten minutes before the show aired, Fang Qiu's parents had already seated on the sofa in the living room on time and tuned the TV to Channel 3 of Central Television. They were chatting while waiting for the show to begin.

Fang Qiu's mother asked, "Do you think our son can get into the Top 50 in this round or not?"

Fang Qiu's dad held up his head and said, "Of course. He's my son!"

Fang Qiu's mother immediately said proudly, "Mine! I gave birth to him!"

Fang Qiu's father smiled helplessly, "Okay, okay. You get all the credit."

Fang Qiu's mother asked, "In the last episode, the kid named Zheng Chao was so rude. He actually aimed at my son in front of so many people. Judging from the trailer, this time our son would take the initiative to pick someone to fight. Do you think our son would choose him?"

Fang Qiu's father shook his head and said, "Oh, you know our son. Zheng Chao is going to suffer this time."

At the same time, Jiang Miaoyu, Jiang Mengjie, Chen Yinsheng, Xu Miaolin, Chu Yunyun and others from various places were waiting to watch the second episode.

In Dorm 501, the four boys gathered together, staring at the computer screen on Sun Hao's desk.

Sun Hao asked Fang Qiu, "Fang, how about the second episode? Did you enjoy yourself on stage?"

Fang Qiu smiled and said, "What do you mean 'enjoy'? What do you want to know? Maybe I can tell you everything and I promise to describe it better than TV."

"Don't, please don't!" Before Sun Hao spoke anything, Zhou Xiaotian and Zhu Benzhen yelled immediately, "The spoiler is rude and the worst thing in the world. And we strongly against it."

Sun Hao also echoed them, "Yes, we against it."

"Then there is nothing I can tell. You guys watch it. I need to pack some things. I have to leave for the show tomorrow."

Then Fang Qiu left Sun Hao's table and returned to his seat, starting to pack up.

The other three continued to wait for the show.

Five minutes later, "It's started!"

From the beginning of the show, the theme song sung by Fang Qiu sounded.

Zhou Xiaotian commented, "This song is pretty good. Fang is going to be popular."

Sun Hao laughed. "That's great! Then we will have a brother who is a celebrity. By that time, I hope that won't be a problem if we ask you to hang out and have dinner together."

Fang Qiu said, pretending to be fastidious, "Sorry, I'm busy."

Sun Hao's laughter stopped. He raised his hands and extended his middle fingers towards Fang Qiu, then turned back to watch TV.

After a while, the show officially started.

"Hello everyone, welcome to watch our second episode of the Young Chinese Medicine Doctor on time."

The host faced the camera with a smile and said, "Today, this is the second round. Only 50 people will enter the next round among 100 contestants. As long as the contestants win in this round, they'll be able to advance to the Top 50."

"First of all, let me introduce the rules for this round."

The host then introduced the rules clearly.

Hearing the rules, everyone online went wild.

"Damn, is there going to be a fight?"

“One-on-one, asking each other questions? Now it’s going to get nasty.” Visit vipnovel.com

“It’s awesome. They actually came up with such brilliant rules. It is simply to let the competitors eliminate each other.”

“It’s worthy of Central Television’s fame. This is reality. The rules are much better than those of the talent shows where the contestants were just presenting their miserable lives to the audience. Some shit just kept happening in those shows, like something terrible happened to their family or they grew up in a tragic family or some guys just couldn’t help crying out loud because their teammates got eliminated.”

“This is the real competition. Everyone has to fight for themselves.”

Even Fang Qiu’s mom and dad were surprised by the rules of this round, let alone those Internet users.

However, they had faith in Fang Qiu.

On TV, the host walked towards the answering area with a smile. “Before the show officially starts, I will interview a few contestants first.”

At this time, the camera swept across the face of each contestant and eventually stopped on Fang Qiu.

At the same time, the host happened to stop next to Fang Qiu.

This move had reduced the feeling that the host deliberately went to interview Fang Qiu while they were recording at that time.

The host asked, “Fang Qiu, do you have confidence in such a brutal one-on-one elimination round today?”

Fang Qiu looked at the camera with confidence. “I have always been confident.”

The host asked again, "So, is there anyone you want to challenge today?"

Fang Qiu shook his head and said lightly, "For me, anyone will do."

When that came, people who were watching TV or the live broadcast immediately became restless.

"WOW!" People instantly commented on the screen.

"That's my idol. He's really awesome!"

"Fang Qiu is indeed the main character of this show."

"He can just interview my idol by random choice. Oh man, I really like this show more and more. What should I do?"

"Anyone will do! WOW! Fang Qiu is so awesome!"

"Well, Fang Qiu is indeed confident, but he is a bit arrogant. How does he manage to provoke everyone by every word he says?"

"It was ok at first, but now it looks like Fang Qiu is always pretentious."

At this time, the screen turned to the interviews of other people.

Different from Fang Qiu, only one or two of them were interviewed on the set while most of the other people were interviewed independently.

As a result, in interviews with dozens of people, more than half of them chose to challenge Fang Qiu.

It seemed that they came to this show just to challenge Fang Qiu.

Seeing that, the audience couldn't help but chuckle.

"You should stop pretending to be somebody. Look! Now you're being the target, right?"

"Take Fang Qiu down!"

"Defeat him!"

"Fang Qiu will win!"

For a while, all kinds of comments appeared. Some of them supported Fang Qiu while others hissed him.

In this case, everyone was more interested and more absorbed in the show.

Soon, the show was on track.

Just when everyone was expecting someone to come out and challenge Fang Qiu, the host randomly selected a number. What were the odds? It turned out to be Fang Qiu!

The host said, "Number 68, Fang Qiu!"

When hearing the host's announcement, the audience was dumbfounded.

They were looking forward to someone challenging Fang Qiu. How come Fang Qiu became the first one to take the initiative to challenge others?

However, as they thought of the trailer, they immediately got excited.

“Fang Qiu turned out to be the first. Who would he choose?”

“Isn’t it also a random one?”

“Absolutely not. In the longer version of the trailer, Fang Qiu clearly chose one person by himself.”

“Yeah!”

“Maybe... ”

Just when all the audience was discussing, Fang Qiu had come to the stage.

“Stop looking around. Come on, it’s you!”

As what happened in the trailer, Fang Qiu reached out, pointed to the answering area, and selected one person.

The camera moved as he pointed.

A familiar figure stood up.

Taking a closer look, the audience found that it was none other than Zheng Chao.

“Damn!”

“Wow, a great choice!”

“Ha-ha. They finally met on the stage.”

“Didn’t you just challenge my idol in the first episode, Zheng Chao? You got challenged now. How do you feel? Huh?”

“It’s you, come down! Come down!”

In the crazy discussion of the audience, the showdown between Fang Qiu and Zheng Chao finally began.

Fang Qiu’s performance, as always, was impressive. He answered three questions in a row and got them all correct.

When it turned to Fang Qiu who gave his questions, Zheng Chao’s face changed as soon as he heard the questions.

Seeing that, the audience supporting Fang Qiu suddenly went wild. Even those who did not support Fang Qiu were extremely excited. Anyway, they did not support Zheng Chao. In the first episode, Zheng Chao deliberately targeted Fang Qiu, which caused a lot of people’s disgust. Watching him being challenged by Fang Qiu, everyone was feeling so relieved and excited.

At last, Zheng Chao got one correct and answered two questions incorrectly. His face turned pale, and he entered the elimination zone with frustration.

Medical Master

Chapter 469: The Audience Was Furious!

In front of the TV, everyone was extremely excited.

They hadn’t missed Fang Qiu and Zheng Chao’s PK even for a second, for they didn’t even dare to blink.

After seeing Fang Qiu effortlessly answer Zheng Chao’s three questions and get Zheng Chao eliminated with strong competence, everyone felt so relieved and ecstatic.

Especially when they saw Zheng Chao who was awkwardly guessing the answers to Fang Qiu's questions when he didn't know the right answers, everyone burst into laughter.

They couldn't help it, cause Zheng Chao was so annoying.

Judging from the first episode, Zheng Chao was the only one who proactively provoked others. Although the one he targeted was Fang Qiu, which helped him boost a little man's ego, people in this world respected the strong people. It was taken for granted that one could find fault with others when he had strength, but if he found fault with others without enough strength, he was asking for trouble.

"You won't get burned if you don't play with fire."

"Zheng Chao's face is as awkward as a piece of shit. It's so funny."

"Just as I expected, Zheng Chao was defeated by Fang Qiu in the end."

"Zheng Chao must be furious because he failed to win the competition. Instead of taking down Fang Qiu, he was defeated."

"Wow. Fang Qiu is literary showing his strength. The boy just challenged him last time, and this time he just paid him back."

"Zheng Chao is so pathetic."

"There's nothing to feel sorry for him. He's just not powerful enough. As for Fang Qiu, he was acting like if you couldn't take me down, then I would definitely come to you and make you suffer."

On the Internet, the audience who watched the live broadcast was excited about the discussion.

The show continued.

The host said to Fang Qiu. "Next, the winner of the first match, Fang Qiu, will choose a number for us."

Fang Qiu then said, "Number 77."

"No. 77, Zhang Yalong, please come on stage."

As the host's shout sounded, a thin young man stood up.

Seeing who he was, the audience froze.

"No way. They're already putting a good show at the beginning?"

"Damn, all the highlights of this episode are in the first half of the show?"

"Isn't this the guy who chose Jiang Miaoyu on the trailer? He turned out to be the second one?"

"Maybe he chose Jiang Miaoyu in the second round."

While people were in doubt, they continued to watch it.

On TV, the camera turned to the host.

The host didn't ask until Zhang Yalong got on the stage. "Are you going to choose your opponent?"

Zhang Yalong looked nonchalant. "Can I choose Fang Qiu?"

The moment he spoke, not only the audience on the set but also all the audience sitting in front of the TV couldn't help exclaiming.

Fang Qiu had just taken down a person who targeted him, and now there was another person who challenged him in public.

However, could this man really beat Fang Qiu?

The host shook his head and said, "Of course not. Fang Qiu has entered the safe zone."

Zhang Yalong spoke again, "But, I only want to choose Fang Qiu!"

His words caused a stir online.

"Does Fang Qiu have a grudge against this man?"

"Zhang Yalong? I've never heard of him."

"What's wrong with him? Everyone dares to challenge Fang Qiu."

"This guy is definitely using Fang Qiu's popularity to hype himself. He has apparently seen Fang Qiu enter the safe zone, but he still dared to say that."

"That's right. He knows he can't challenge Fang Qiu due to the rules, so he's acting so aggressively. Isn't he afraid of being slapped on the face?"

Netizens particularly didn't fond of this person named Zhang Yalong.

First of all, his impression of everyone in the preview was not good. Now that the show had finally been broadcast, and he asked a question which he already knew the answer, which would simply cause everyone to dislike him.

Knowing that he could not choose Fang Qiu, Zhang Yalong helplessly spread out his hands and shrugged, then turned to look at the answering area. After glancing at it casually, he immediately reached out to point at Jiang Miaoyu and said, "All right then. I'll choose her!"

The bullet screen in the live broadcast room of the internet suddenly exploded!

"He really chose Jiang Miaoyu!" Everyone was stunned.

No one had expected that a man would take the initiative to choose a woman to battle on the challenge platform.

However, Jiang Miaoyu was not afraid at all.

The duel started immediately.

Zhang Yalong gave his questions first.

The first question was to recite knowledge about Chinese Medicine.

Everyone present was stunned, so was the audience who was watching the show.

"What the fuck! He was supposed to come up with some questions, but now he just requested his opponent to recite. He's so shameless."

There was no doubt that everyone who watched the show had experienced the time of being a student. It was very difficult for them to recite knowledge of books. What was more, what Zhang Yalong requested to recite was an ancient medical book.

However, since it was just the first question, everyone didn't think too much about it.

Reciting was just like some questions written based on ones' memory in the exams. It was natural for a person to encounter one kind of this question occasionally.

Compared with the difficulty of the question, everyone was more concerned about whether Jiang Miaoyu could answer it or not.

Eventually, Jiang Miaoyu recited every word correctly.

Hearing Jiang Miaoyu's answer, all the audience applauded and exclaimed.

"Amazing."

"It's very difficult to recite an ancient medical book. I didn't expect Jiang Miaoyu could actually do it."

"She is a great beauty who is in the same university as Fang Qiu is. She is really competent."

The second question was a reciting question again.

This time, all the audience began to feel unfair for Jiang Miaoyu.

"Damn it. Not only did he choose a girl, but he also asked such a strange question. How fucking shameless he is!"

"Is Zhang Yalong a real man or not?"

"Shameless, too shameless!"

"This is too much. Not only did he ask his opponent to recite, but he also requested her to recite a specific paragraph. Zhang Yalong is too sinister and cunning!"

While everyone was in fierce indignation, Jiang Miaoyu couldn't carry it on when she was halfway through.

This time, all the audience was anxious.

Everyone favored the weaker side, especially when Zhang Yalong, as a strong side, was still so shameless.

"I'll give up on this question." With half of the reciting process, Jiang Miaoyu could only give up when she really couldn't remember the rest of it.

This made all the audience in front of the TV flew into a rage.

Such a grown man actually forced a girl into such a situation. This person was really an asshole.

The third question was still reciting.

As soon as the question was out, all the audience was furious.

"Zhang Yalong, go to hell!"

"Can you be more shameless?"

"He's such a shitty man. He actually gave three reciting questions."

"Shit, if I were at the scene, I would definitely beat him to death!"

"Shameless. He's really a bully."

Not only people on the Internet but also all the people who were watching the show were angry.

At the same time, people were all indignant.

The TV camera turned to Jiang Miaoyu's face. Visit vip.novel.com

At this moment, Jiang Miaoyu was frowning and looking a little embarrassed. At first glance, she looked really pitiful.

But in the blink of an eye, Jiang Miaoyu's face suddenly changed.

As people were worried about her, Jiang Miaoyu began to recite aloud.

Within one minute, according to Zhang Yalong's request, Jiang Miaoyu recited every word without missing a word!

As she finished the last word and the host announced that she was completely correct, all the audience who was so nervous finally relaxed.

At the same time, they began to be curious about what kind of question Jiang Miaoyu would give her opponent.

"Let him taste the power of our women!"

"This person is too shameless. I'll be sorry if Zhang Yalong doesn't get eliminated."

"Miaoyu, come on, take him down!"

Jiang Miaoyu's questions were taken over by the host.

Zhang Yalong answered the first question correctly, but he was greeted with loud boos.

The second question was related to electroacupuncture.

After the host finished reading the question, everyone immediately saw Zhang Yulong's face fall.

All the people were excited to see that.

As everyone wished, Zhang Yulong gave the wrong answer.

The third question was still related to electroacupuncture.

As soon as they heard the question, all the audience laughed out loud.

Zhang Yulong's expression also became extremely awkward.

Just when everyone thought that Zhang Yulong was going to be eliminated, Zhang Yulong actually questioned that the question was not about Chinese Medicine.

As soon as the question was heard, it immediately aroused the indignation of the netizens.

"Your questions can be regarded as Chinese Medicine questions even if you let someone recite. But this one relating to electroacupuncture doesn't count?"

"That's right. Electroacupuncture is at least a kind of therapy of traditional Chinese Medicine. And what does reciting have to do with Chinese Medicine?"

"You actually have the nerve to say such things. This person's face is even thicker than the city wall!"

The picture then shifted. The judge directly determined that Jiang Miaoyu's questions belonged to the category of Chinese Medicine.

All the audience was happy to see that.

Especially when they saw Zhang Yalong's livid face, all the audience felt overjoyed!

In the end, Zhang Yalong who had an awful look on his face gave the wrong answer.

He walked into the elimination zone with a gloomy face.

"You deserve it!"

"What a slap in the face. You wanted to bully a woman, but you were sent to the eliminated area instead. Let's see how you can act so arrogant."

"You want to win by using such a despicable trick?"

"Thank God! Such a sinister man should be eliminated."

It made the audience feel more comfortable than when Fang Qiu threw Zheng Chao into the elimination area because Zhang Yalong was even more abominable than Zheng Chao.

The duel continued.

The people from the four prominent families went on stage in turn.

Every one of them answered the questions correctly and perfectly. And every question they gave was extremely difficult.

After watching the performance of the four of them, all kinds of exclamations were constantly heard from the audience.

For a time, the reputation of the descendants of the four prominent families began to spread on the Internet.

Among them, Li Sanxiao got the biggest attention because this guy always smiled, like a natural comedian. When people saw him, they couldn't help but want to laugh out loud.

In addition to the descendants of the four prominent families, another man also attracted everyone's attention. It was Luo Jie.

Although his opponent on the stage was not the descendant of the four big families or an expert like Fang Qiu, the opponent was also a very powerful scholar who got qualified to participate in the competition with full score.

Eventually, three of Luo Jie's questions made his opponent completely confused. He didn't know how to answer them at all.

As for Luo Jie himself, he correctly answered the three questions easily and got into the next round.

Besides, he was dressed in a strange way and his long hair, which was quite eye-catching.

Luo Jie soon became the focus of everyone's discussion.

After a while, the show was over.

What made everyone speechless was that Zhang Yalong, who was struck into the elimination area by Jiang Miaoyu, had successfully advanced into the second round.

In the end, the picture was also fixed on Zhang Yalong staring at Fang Qiu.

There was no doubt that this also kept everyone in suspense.

Just like the first episode, there was a heated discussion on the Internet as soon as the second episode was over, which was even more intense than that after the first episode was aired.

Medical Master

Chapter 470: The Ratings Exceeded 3%!

Soon, the ratings of the second episode of the Young Chinese Medicine Doctor came out.

Compared with the 2.5% ratings in the first episode, the second episode's ratings directly exceeded 3%!

As they received the news, everyone in the entire crew was excited.

No one expected that the ratings of the second episode of the show broke 3 %, which was merely a phenomenal effect!

Everyone felt that it would be great if the ratings could increase a little as they were able to maintain the ratings of the last episode, but they didn't expect that the increase was enormous.

The ratings just rose by 0.55%!

It was so incredible.

For a moment, everyone started looking forward to it.

At this rate, they were wondering whether the final ratings of this show could exceed 4%.

That would be awesome if the ratings could eventually exceed 4%!

Meanwhile, here came a report of the ratings.

In the report, two points with the highest ratings in the whole show were marked. One was the opening PK between Fang Qiu and Zheng Chao. The ratings reached the highest point of the whole show, which was 3.3%. Another high point was the PK between Jiang Miaoyu and Zhang Yalong. During this period, the ratings reached 3.1%.

What made the crew feel embarrassing was that in the second round when Zhang Yalong came out, the ratings unexpectedly dropped from 2.9% to 2.7%.

Of course, the data was only known to the people in the crew. They wouldn't spread it out carelessly.

After all, if this data was spread, it would easily affect the contestants' emotions and lead to their poor performance in the future.

As the crew of the Young Chinese Medicine Doctor received the report, other major provincial entertainment TV stations in other places also received the reports.

Seeing that the ratings of the Young Chinese Medicine Doctor had actually exceeded 3%, everyone was shocked.

"Really? Is it so popular? The second episode just exceeded 3%?"

"Wow, the ratings are too high, aren't they?"

"Exceed 3%?"

"Oh My God, a boring Chinese Medicine program can actually make such an achievement. Central Television and Director Li Huawen really live up to their names. It is amazing!"

At the same time, the show's ratings also got released online.

Of course, it was just the ratings of the entire show, not the exact ratings of each time period of the show.

There was no doubt that the show with the highest ratings was the Young Chinese Medicine Doctor!

Seeing the form, many people online immediately began touting.

“This show is really invincible.”

“Ha-ha, the ratings of this show crushed other shows!”

“Is anyone else watching other shows?”

“I only take a look at other shows when I’m really bored. Only after watching the Young Chinese Medicine Doctor, I want to continue watching it.”

“Celebrities? Those young and handsome guys? How can they compete with our Huaxia traditional culture?”

Just when everyone was shocked by the ratings of the second episode and started discussing, the official Weibo account of the Young Chinese Medicine Doctor suddenly updated a new post.

“The third episode’s trailer is right here!”

It was a short post, attaching a video with it.

This time, no one tried to resist their curiosity because they knew that they couldn’t help it. Even if they could resist it for one day, they wouldn’t be able to hold it for seven days.

Anyway, they were going to watch it one way or another. Why didn’t they just watch it right now?

Therefore, as soon as the trailer was released, all the people who were following the Young Chinese Medicine Doctor immediately clicked on the video and watched it.

Everyone was stunned as they finally saw it.

The previous shows were recorded in the studio, but there was no studio in the third episode. Instead, it was replaced by picturesque landscapes with beautiful mountains and clear water.

In the trailer, each participant had a back basket and a hoe used for collecting herbs, heading to the forest to collect medicinal herbs.

“Damn, what are they thinking? It should be recorded well in the studio, but why did it suddenly become an outdoor recording?”

“Outdoor Chinese Medicine?”

“Did they go to the mountains to collect herbs?”

“What? It’s awesome! Why doesn’t the crew just build a clinic directly in the next episode, in which the participants can try to cure real people.”

“Then what’s the point of that? If things keep going on like this, there is going to be a nametag ripping game in the fourth episode, like what the participants do in those variety shows!”

At this moment, not just the audience, even staff from other TV stations were shocked.

In their eyes, traditional Chinese Medicine always had a stereotype. It was incredible since they could make the show so eye-catching in a studio.

Who would have thought that such a stereotyped Chinese Medicine show could even shoot outdoors?

What was more, it seemed that the shooting was going very well.

Just when everyone was shocked, the trailer screen flashed and Fang Qiu appeared in the picture.

Voiceover: "Do you find this round difficult?"

Fang Qiu asked back, "Difficult? Is it?"

"Do you mean there is no difficulty at all? Is it because you have experience in collecting herbs in the mountains?"

Fang Qiu replied confidently, "Obviously, no one here has more mountain exploration experience than me."

Then the PD asked again, "If that is the case, are you positive of getting the first place?"

As he heard what the PD said, Fang Qiu grinned and made a whispering gesture to the camera, saying, "Let me tell you a secret. There is a Yaowang Mountain in our school, and there are various medicinal herbs which can also be found in most parts of the country."

Then everyone who was watching the video couldn't help but start taunting.

"Can I report it? Fang Qiu is just a bug of the show. His performance in the first two episodes is so good. Now finally, there is something different. They're going to shoot outdoors. And it happens to be at his advantage. Isn't he a bit too lucky?"

"He's Fang Qiu! Of course, he's kick-ass!"

"Well, but the competition in this period is probably more fierce than the previous two episodes. Don't forget that Li Sanxiao is adept at herbal medicine, and he is also a descendant of the Li family in Huainan. Collecting herbs in the mountain must be easy for him."

“And Luo Jie. Luo Jie is also quite competent!”

In the video, the picture flashed again. It was still Fang Qiu.

This time, it was no longer an interview for Fang Qiu, but a scene of Fang Qiu running wildly in the forest alone with a honeycomb in his hand.

Behind him was a large group of hornets chasing him.

This scene startled all the people.

“Catching a honeycomb with his hand? Did Fang Qiu want to die for it?”

At the next moment, sure enough, the screen went black.

A voiceover from Fang Qiu: “It’s too hot today. If only there were a watermelon.”

Then the screen lit up again.

A big watermelon appeared in the green field.

The next moment, Fang Qiu already held the big watermelon in his hand and started gorging.

The audience was speechless.

What the hell was that supposed to mean?

“Fang Qiu is unbelievable. How can he pick up a watermelon on the mountain?”

This was too unrealistic!

However, before everyone could start taunting, the picture changed again.

Fang Qiu said, "Looking at the terrain, I think there should be wild ginseng in this area."

After he finished speaking, the screen flashed.

Fang Qiu was moving forward at a high speed.

Then the screen darkened again.

The voiceover from the PD, "Could it really be real?"

Then the trailer was over.

After watching the trailer, everyone online was furious.

"Is this a preview shooting A Journey to the West?"

"Golden Touch?"

"You can't just say it and then it'll show up. That's impossible, isn't it?"

"I heard that wild ginseng is hard to find. Is there really wild ginseng?"

"Where on earth did that watermelon come from? Was it prepared by the show's crew?"

“Why did Fang Qiu grab the honeycomb with his bare hand?”

“It seemed that he was not injured.”

For a moment, various topics about the third episode appeared. And everyone was talking about it.

Of course, the other people’s performances in the middle of the picture of Fang Qiu were completely ignored because what Fang Qiu did in the trailer was simply too strange, just like shooting a mythical TV series.

With the attention growing, everyone’s expectations for the third episode were getting stronger. After all, it was an outdoor program. Everyone thought it should be funnier than the second one.

At the same time, after watching the trailer, the main creators of other variety shows all looked at each other.

“Can a trailer be edited like this?”

“Damn. Fang Qiu’s picture took 80% of the entire trailer. What kind of person would make such a trailer?”

“Central Television intends to let Fang Qiu be the only highlight of the entire show!”

“Central Television is not an ordinary TV station. Every choice they make will be very careful, especially Director Li Huawen, he knows what he is doing. Since they decide to do so, it means that Fang Qiu has his value.”

“Director, since Central Television values Fang Qiu so much and Fang Qiu has become so popular recently, should we also invite Fang Qiu to come to our top interview program as a guest?”

Meanwhile, many major TV stations’ interview programs began to plan to invite Fang Qiu.

The next day, the popularity of discussion about the Young Chinese Medicine Doctor in the whole country not only didn't decline but something about the show actually affected the reality, which had a great impact on many people.

Especially in many Chinese Medicine schools all over the country, teachers of all the subjects took out the difficult questions that had appeared on the show to elaborate on their students.

Some universities even started video study classes.

The teacher took the students to watch the replay of the first and second episodes of the Young Chinese Medicine Doctor. Every time a question showed up, the teacher would stop the video, and then explained it to everyone. After all the students knew about it, they would continue to play the video.

Surprisingly, as soon as this kind of video course was launched, it immediately became the most popular course in the major Chinese Medicine schools.

Almost all the students had selected this course. Even those who didn't study hard normally began to work hard for this course.

At the same time, the questions in the previous episodes of the Young Chinese Medicine Doctor had unexpectedly become the critical research topics of the major Chinese Medicine schools.

For example, they were interested in the third question that Fang Qiu gave to Zheng Chao as they were battling.

The question was being questioned at the scene and people said it was wrong. In addition to Fang Qiu, only nine out of 340 people answered the question correctly, which undoubtedly became a hot topic for the major Chinese Medicine schools.

Apart from this, Jiang Miaoyu's electroacupuncture questions and reciting questions had also become the key knowledge that students should know in all the major Chinese Medicine schools.

Of course, they were only facing students who chose this major.

Under such circumstances, the name of Fang Qiu quickly spread throughout the country's TCM colleges. Fang Qiu, who was already very famous, left a very deep impression on all his peers of the same age and even older age this time.

What was more, some Chinese Medicine clinics across the country began to use the popularity of the Young Chinese Medicine Doctor.

Apparently, the popularity of the Young Chinese Medicine Doctor had almost reached a level that it was known by everyone!
