Chapter 741: Two Formulas!

In Beijiāng,

After receiving Fang Qiu's call at 5:30 in the morning, Yang Ningyuan immediately booked a ticket. After breakfast, he flew to Beijiāng with Li Qihua.

When they landed at the airport, Yang Ningyuan immediately called Fang Qiu.

Originally, Fang Qiu wanted to pick them up personally, but Yang Ningyuan rejected his offer. He ended up sending them the location.

Then, Li Qihua made a phone call, booked a car and rushed to the location given by Fang Qiu.

Less than half an hour later, Yang Ningyuan and Li Qihua came to Fang Qiu's cultivation area.

In the desert, people could see into the distance within one kilometer. When the car was still on the road, Fang Qiu saw it, so he went outside to wait for them.

When they arrived at the gate of the factory, the car stopped.

Yang Ningyuan and Li Qihua got out of the car.

"Mr. Yang, Mr. Li."

Fang Qiu immediately came forward and greeted them with a smile.

“You’re not telling me that this is your cultivation area, are you?”

Looking at the large area in front of him with the construction in full swing, Yang Ningyuan asked in disbelief.

“This land is great.”

Li Qihua also raised his eyebrows and looked around in surprise.

“Yes, this is the place.”

Fang Qiu said with a smile.

“How did you suddenly get hold of such a huge piece of land?”

Yang Ningyuan was shocked.

Li Qihua was also amazed when he heard Fang Qiu’s confirmation.

Neither of them had expected that Fang Qiu could suddenly get such a large piece of land. Although it was a desert, ordinary people would not have been able to get hold of a piece of land here, let alone such a large piece.

Seeing their shock, Fang Qiu just smiled and did not say anything.

“It seems that the work is just starting.”

After observing for a while, Li Qihua stepped forward and said to Fang Qiu with a smile, “Don’t lie to us. Siqi Pharmaceutical Company and Taikang Pharmaceutical Company are on the brink of collapse. If we take over these two companies now, they will soon collapse if you can’t keep up with the demand.”

“Don’t worry. They won’t.”

Fang Qiu smiled and said, “If I can’t guarantee the results of what I’ve promised before, then I’ll be the specialist consultant for these two pharmaceutical companies that you are taking over. I think my reputation is still worth some money, isn’t it?”

Speaking of this, Fang Qiu chuckled, stretched out his hand and invited them inside, saying, “At that time, you can directly suspend the trading first and then do a reorganization of these two companies. When I announce that I will become the consultant, you can resume the trading. At that time, the stock price of these two companies will rise rapidly.”

Both their eyes lit up when they heard that.

“If that’s the case, we have to sign a contract with you first, so that you won’t run away!”

Yang Ningyuan laughed and said jokingly.

“Okay.”

Fang Qiu also responded with a smile and said, “We can sign the contract, but as long as I keep up with the speed, the contract will be invalid.”

“Don’t.”

Yang Ningyuan immediately said, “It will be great to have you as the consultant all the time.”

“It’s okay to sell my reputation once, but don’t sell it a second time.”

Fang Qiu said with a smile, “So, you should cherish it the first time round!”

“Cunning.”

Yang Ningyuan shook his head with a smile.

While they were talking, Fang Qiu brought them to the cultivation area.

At this time, the Desert Cistanche that was planted only yesterday, had already begun to grow and its growth rate was even better than the native Desert Cistanche here.

“The production is still a problem.”

Walking toward the Desert Cistanche cultivation area, Yang Ningyuan said, “Although it has been planted and it seems that there are a lot of them, you should know that you are dealing with two pharmaceutical companies which are ranked among the top ten in the country. The quantity you need to provide these two pharmaceutical companies is not as simple as that of a small pharmaceutical company. There are many employees at these two companies. With your current planting quantity, you are still lacking a lot.”

“The seedlings are already on the way.”

Fang Qiu said, “It won’t take long before we completely reach or even exceed the required amount for the two companies.”

“As far as I know, after Desert Cistanche is planted in spring or autumn, it will take two to four years for it to bloom.”

Yang Ningyuan frowned. A trace of doubt suddenly appeared on his face. He said, “Speaking of this, I’m a little confused. These seedlings are so small that they won’t be very big even when we use them. Are you going to use these seedlings directly?”

“Of course, the seedlings are also Desert Cistanche.”

Fang Qiu replied.

“It’s so small. Is it useful?”

Yang Ningyuan asked again.

“We will not know until we try it out, right?”

Fang Qiu pointed to the seedlings everywhere and said, “You can choose one randomly. I’ll make tea for you on the spot. Although it looks simple, making tea is indeed the most effective way to let you feel the efficacy of the medicine.”

“Okay.” Yang Ningyuan did not hesitate. After he agreed, he began to look around.

Li Qihua, who was standing next to him, was also searching.

After a while,

“Over here.”

Yang Ningyuan walked five meters away, pointed at a seedling under his feet and shouted out to Fang Qiu and Li Qihua.

The two of them immediately walked over.

“Cruel.”

As he went closer to take a look, Li Qihua smiled.

“Okay, that’s it.”

Fang Qiu also smiled.

The Desert Cistanche that Yang Ningyuan chose turned out to be the most mediocre looking one in the whole cultivation area. It seemed as if it was going to wither soon.

After selecting it, Yang Ningyuan and Li Qihua looked at each other and smiled.

“Gentlemen, why don’t you dig it out yourself and wash it to make tea?”

Fang Qiu asked.

“I’ll do it.”

Yang Ningyuan squatted down directly, dug around the soil for a while and finally pulled out the Desert Cistanche buried under the soil. Then, following Fang Qiu, he took the Desert Cistanche to the newly built factory and washed it.

After he washed it clean, Fang Qiu took a knife and was about to cut it.

At this time.

“Let me do it.”

Li Qihua said and took the knife from Fang Qiu’s hand.

Fang Qiu accepted readily.

He knew they were afraid that he would play tricks on them, not because they did not believe in Fang Qiu, but because they really wanted to give it a try. What kind of effect could this weak looking Desert Cistanche have?

After all, everyone in the world already knew that Fang Qiu could use Qi. Once this herb was in Fang Qiu's hand, maybe it would have Qi in it. In this way, they might not be able to feel its actual effect.

Yang Ningyuan and Li Qihua were both businessmen.

It was natural for businessmen to have their concerns.

Although they really wanted to be friends with Fang Qiu and even got along with him as a friend, there were no friends but interests first, when it came to business.

The two of them even boiled the water and cut up the seedling.

After cutting it into slices, they were ready to make tea.

Fang Qiu sat on one side, while the two of them made the tea.

Although the two of them kept watching Fang Qiu and did not let him touch anything, Fang Qiu could not help using his mental powers to channel some internal Qi into their cups, when they were making tea.

Of course, Fang Qiu was not cheating. He could sense that there was not too much Qi of Heaven and Earth in this Desert Cistanche because the terrain had just been completed a few hours ago, so he decided to inject some internal Qi into it. Of course, the amount of internal Qi was estimated by Fang Qiu himself, which was the amount of Qi of Heaven and Earth that every Desert Cistanche would eventually contain. The amount he injected into this seedling was reduced by half on that basis!

That was to say, the internal Qi injected by Fang Qiu could only make the seedling have the effect of growing for a few more days. There was no other effect at all.

Soon, the tea cooled sufficiently.

Yang Ningyuan and Li Qihua raised their cups to taste it at the same time.

They drank it.

“Emm...”

Yang Ningyuan pursed his lips and said, “It doesn’t taste like the tea you made for us before. The effect is not as good.”

“It’s not as good, but it doesn’t mean that it has no effect. It’s much better than normal tea.”

Li Qihua also nodded in agreement.

Both of them remembered.

At that time, Fang Qiu promised that there would be one-tenth of the effect of the tea he made that day.

Now, it was obvious that he had achieved it.

When the tea was still warm, the two drank it up and did feel much more comfortable.

“I did not feel there was much of a difference when I drank it at the beginning, but after drinking all of it, it seems as if the effect is quite good.”

Yang Ningyuan was surprised.

“I did not expect such a small and dry herb to have that kind of an effect.”

Li Qihua was also convinced of the effect of the Desert Cistanche seedling.

“This is just the herb.”

Seeing that they were so surprised, Fang Qiu smiled and said, “With the process formula, the effect of these Desert Cistanche will be better if they are combined with other medicinal materials.”

After saying that, he took out two pieces of paper from his pants pocket.

“These are the two formulas.”

Raising the paper in his hand, Fang Qiu said with a slight smile, “This is the formula of Dishou Yixian Pill.”

Taking a closer look, they found that there were indeed many types of names of herbs written on it.

“The main ingredient of this formula is Desert Cistanche. Desert Cistanche has the effect of warming the kidney and strengthening the Yang. It can nourish one’s body, engender essence, boost the marrow and prolong life. Together with other herbs in the formula, there are also many benefits such as dispelling wind, freeing Bi, curing uterine cold infertility, healing pain in the lumbar spine, fortifying the spleen, increasing the appetite, strengthening the bone and sinews, healing taxation damage, boosting the liver and Ying, and so on.”

“This formula is made of cinnabar. On the one hand, it protects against corrosion. On the other hand, it can also nourish the heart and calm the spirit.”

Fang Qiu put the formula on the table where the two of them drank tea and added, “The formula not only clearly states the dividing amount and method of processing all kinds of herbs, but also has all the taboos written on it.”

After listening to Fang Qiu, Yang Ningyuan and Li Qihua looked at each other and were surprised.

“How could a formula have so many effects?”

Yang Ningyuan said.

However, Fang Qiu did not explain even though he saw that they were surprised. Instead, he raised the second piece of paper in his hand.

“This is the formula for the second pill.”

Fang Qiu waved the paper in his hand and said, “The name of this drug is Trillium Root-Securing Pill.”

When they heard this name, Yang Ningyuan and Li Qihua became curious again.

Trillium and Root-Securing?

Was it really possible?

Seeing that the two of them were curious, Fang Qiu said, “This formula can supplement the liver and kidney, fortify the spleen and prevent dampness, regulate viscera, cure asthenia impairment, prevent premature graying and impotence. Taking this pill on a long term basis can help replenish internal Qi, strengthen health, improve Qi, prolong life and secure the root.”

“It can also cure all kinds of weakness. Middle-aged men who suffer from impotence or whose beards and hair have turned white before they are 50 years old, will be able to have sex after taking this pill for a month. They will look much younger after taking it for three months. If they continue to take it for a long time, their spirits will not decline. They will be filled with internal Qi and their bodies will be lithe and healthy.”

Fang Qiu put the formula down and added, “However, those who suffer from asthenic yin causing excessive pyrexia, Yang heat, or weakness of spleen and stomach are not allowed to take it.”

Medical Master

Chapter 742: Thinking Of Promote Chinese Medicine All The Time

“Does it really have that kind of effect?”

Yang Ningyuan could not believe it. This was simply satisfying the desire of most men.

“How can a small pill have such magical qualities?”

Li Qihua was also shocked.

“Yes!”

Fang Qiu nodded with certainty.

“The medicine is good, but...”

Yang Ningyuan suddenly frowned and said, “Some people are not allowed to take it. With this limitation, it will not be extremely popular in the market.”

“All drugs have contraindications. There is no medicine in the world that can be taken randomly without any contraindications.”

Fang Qiu shook his head.

Yang Ningyuan really did not know much about the qualities of Chinese medicines.

However, Fang Qiu seemed to have anticipated Yang Ningyuan’s concern. He immediately said, “Although there is a contraindication, you can use the first prescription first. The first prescription can regulate the five internal organs and stomach. As long as you use the first prescription to regulate your body, then you can use the second prescription.”

Both Li Qihua and Yang Ningyuan's eyes lit up as several methods of bundling sales occurred to them in an instant.

Thinking of this, the two of them exchanged glances and smiled as if they reached a mutual understanding.

But right at this moment,

Fang Qiu suddenly said, "But..."

"What?"

Yang Ningyuan paused.

Li Qihua also looked at Fang Qiu in puzzlement.

Both of them thought, "Are there any other side effects or conditions to this medicine?"

"However, in order to achieve these effects, the conditions required are usually very strict."

Fang Qiu pursed his lips and said, "There is a record in the ancient medical book 'Bao Pu Zi'. Any doctor who desires to make fine medicine can't be seen by livestock, juvenile and women when they are making it. Anyone who violates this will fail to achieve the effect."

"There is also a record in the other ancient medical book 'Thousand Gold Pieces Formulary': Don't let women, children, pregnant women, people who are in mourning, people with intractable diseases, people with disabilities and livestock see you when you are decocting the medicine. Be careful when you are making it. Small decoction, such as life-prolonging decoction and ephedra, need not be limited."

When they heard what Fang Qiu said, Yang Ningyuan and Li Qihua could not help raising their eyebrows.

They were businessmen. Although they had learned classical Chinese before, they had not read it for a long time. Therefore, they did not know what Fang Qiu meant by those words. They only understood the meaning of contraindication.

“It means that the processing of this medicine should be kept away from women, children, disabled people, pregnant women, people who are in mourning, sick people and livestock.”

Seeing that the two of them were still confused, Fang Qiu immediately explained and then added, “So you have to choose healthy men to help build the factory and process the medicine.”

After listening to Fang Qiu’s explanation, both of them breathed a sigh of relief at the same time and then could not help laughing.

“Are we a little tense?”

Li Qihua asked.

“Not just a little. I’m very nervous.”

Yang Ningyuan laughed and said, “I feel like I’ve returned to the stage when I first started my business. I’m dealing with an industry that I don’t know anything at all. I just started from the bottom and tried so hard to make progress, step by step.”

“That’s right. It’s like crossing a mountain when dealing with a completely different field. To cross this hurdle, courage and perseverance aren’t the only things required.”

Li Qihua also smiled.

While they were talking, Yang Ningyuan turned to look at Fang Qiu and said, “It won’t be a problem to get a factory with healthy males in it. But people might say that there is sexual discrimination in the recruitment process. And we also need to find a way to handle the female employees who are already working in the factory.”

“There’s nothing I can do about it.”

Fang Qiu spread out his hands helplessly and said, “This is the record for the ancient prescription. To achieve the full effects of the medicine, let’s just do it this way.”

“Yeah. We should give priority to the quality.”

Yang Ningyuan nodded in agreement.

“By the way.”

As if he had thought of something, Fang Qiu suddenly laughed and said, “Do you need Chinese Medicine doctors to help conduct the physical examination? To process medicine in such a huge factory, you’ll need Chinese Medicine doctors for guidance. I can introduce a group of people to you without any charge.”

The two of them immediately thought of the ten advertisement companies and the three video websites companies, which announced the establishment of their health management departments before.

Then they looked at each other and could not help laughing out loud at the same time.

“Kid, you are always thinking about promoting Chinese Medicine.”

Yang Ningyuan said, “Of course.”

Fang Qiu nodded naturally and replied, “I’m a Chinese Medicine doctor. Of course, I have to do my best to contribute to Chinese Medicine.”

The two of them expressed their admiration.

Then, the three of them discussed the details.

After the discussion, Fang Qiu also personally processed the drugs for the two formulas so that they could take them back to test and try it out. Of course, after Fang Qiu finished making the pills, he signed a contract with them.

The contents of the contract included the conditions that Fang Qiu had mentioned when they arrived earlier.

If the acquisition was completed and Fang Qiu failed to provide sufficient medicine or achieve the effect that Fang Qiu had mentioned before, then he would have to stand in and be the specialist consultant for the two pharmaceutical companies. But once the production of Desert Cistanche was achieved and the effect of the medicine was just like what Fang Qiu had promised, the contract would naturally be terminated.

After signing the contract, the three of them talked for a while. Then Yang Ningyuan and Li Qihua left with the contract and medicine. They were going to have a good discussion about how to carry out the plan when they returned.

Fang Qiu continued to stay in Beijiāng to help.

Actually, there was nothing important to do next. All he needed to do was to wait and see the show.

Yang Ningyuan and Li Qihua got on the plane.

"I can't see through Fang Qiu now."

In the business class area of the plane, Yang Ningyuan was lying on the sofa bed. He looked at Li Qihua beside him and said, "Mr. Li, what do you think of Fang Qiu?"

"Impressive."

Li Qihua directly gave a thumbs-up and exclaimed, "Before I knew him, I did not expect that he could make two listed companies bankrupt. His means are really incredible!"

"Yeah."

Yang Ningyuan nodded and said, "It's better to be friends with this kind of person."

"Aren't the three of us friends now?"

Li Qihua said with a smile.

"Yes."

Yang Ningyuan laughed and said, "We are friends!"

"When we get back, we should hurry and prepare the money."

Li Qihua smiled and said, "When trading starts the day after tomorrow, it will be the best time for us to buy it."

"Yeah, but before that, we have to contact the shareholders of Siqi Pharmaceutical Company and Taikang Pharmaceutical Company."

Yang Ningyuan nodded and said, "Now the staff of Siqi and Taikang Pharmaceutical are panicking. Although many people don't care or dare to take over these two companies in such a situation, the shareholders of these two companies must have been frightened by the current situation. They might want to sell off their shares as soon as possible to stop the loss."

"However, what I'm worried about is that other pharmaceutical companies might have a different opinion. Maybe they are trying to take the opportunity to buy it when the price goes down."

“That’s possible. After all, the core technology of the two companies is worth a little money.”

Li Qihua nodded and said, “However, this matter became so serious, so it won’t be so hard for us to do this.”

At the capital airport.

Yang Ningyuan and Li Qihua parted.

Li Qihua went back to his company while Yang Ningyuan got on the plane to Jiangnan.

After they went back to their own companies, it took Yang Ningyuan and Li Qihua a whole day to thoroughly check the composition of the two kinds of pills that Fang Qiu gave them. They had to ensure that there were no harmful substances, stimulants, or other drugs in the medicine.

After confirming that there was no problem with the medicine, Yang Ningyuan and Li Qihua contacted each other. Then they started to work on their plans. They sent people to secretly buy the stocks of the two major companies.

There was no doubt that the shareholders of Siqi and Taikang Pharmaceutical had been terrified by this incident. All of them sold their shares to Li Qihua and Yang Ningyuan at a low price.

During this period, they also encountered a little problem.

When the two of them secretly sent people to buy the shares of the two companies, they did encounter some issues. The shareholders of Siqi and Taikang Pharmaceutical had suffered strong pressure due to the low price.

Because the price was too low, the shareholders of the two companies were unwilling to sell it.

In this case, they happened to meet Yang Ningyuan and Li Qihua, who had come to purchase the stocks. Although they also lowered the price, they did not make it too low. When the shareholders heard that the price was fair, they immediately signed the transfer agreement.

As shareholders, they really could not see any hope of turning the tables.

Soon, Yang Ningyuan bought 33% shares of Siqu Pharmaceutical Company, while Li Qihua bought 31% shares of Taikang Pharmaceutical Company.

According to Article 84 of the Administration of the Takeover of Listed Companies Procedures, if the investors could acquire more than 30% of the shares of the listed company, they would be able to take charge of the listed company.

Because it was a listed company, besides the shareholders, there were still a lot of tradable stocks outside that had not been gathered together. Therefore, getting 30% would currently make them the biggest single shareholder.

Yang Ningyuan and Li Qihua received the transfer agreements, one after another.

In the blink of an eye, it was Monday.

In Siqu Pharmaceutical Company,

In the face of the great pressure of public opinion and the continuous drop in their stock price, Commander Zuo and the executives of the company were both helpless.

They had no choice.

But they had to find a way even if there was nothing they could do about it.

The board meeting was held.

There were only a few people in the office.

“Where are all the people?”

Sitting in the chairman’s seat, Commander Zuo looked at the empty meeting room and asked in frustration.

At this moment, most of Commander Zuo’s hair had turned gray. His face, which was always so serious and dignified, was now wreathed in wrinkles. He seemed much older and no longer looked so dignified.

“Coming.”

Just as all the leaders in the office were confused, someone came into the office.

Everyone turned their heads to look.

A strange and familiar man was leading a few people straight into the meeting room.

“Yang Ningyuan?”

Seeing the man coming in, Commander Zuo raised his eyebrows and asked.

“Mr. Yang is here to inform everyone that he has completed the purchase of 30% of the shares. From today on, the Siqi Pharmaceutical Company will be merged into Mr. Yang’s Zhiyuan Group.”

The lawyer brought by Yang Ningyuan directly announced this to everyone in the office.

All the leaders of Siqi Pharmaceutical Company were dumbfounded.

As the chairman, Commander Zuo looked devastated. His whole body went limp and he collapsed on the chair powerlessly, as if he had lost his soul.

Medical Master

Chapter 743: Awesome! Yang Ningyuan!

In Taikang Pharmaceutical Company,

“Pa pa pa...”

The sounds of someone banging on the table rang out in the conference room.

“What should we do? Tell me, what else can we do?”

In the conference room, all the elders and senior executives of Taikang Pharmaceutical Company had gathered together. The chairman, He Yilu, stood in front of the chairman’s seat, shouting angrily and thumping the conference table.

The elders of Taikang Pharmaceutical Company exchanged glances and then shook their heads.

“He Yilu.”

A relatively thin middle-aged man stood up, pointed at He Yilu, and said, “If Chairman He was still alive, how could our Taikang Pharmaceutical Company end up like this? Not only did you lose the lifework that Chairman He fought for you after going through so much hardship, but our years of loyalty to the chairman have also gone to waste.”

“Today, the company is on the verge of collapse.”

Another middle-aged man stood up, looked carefully at every corner of the conference room and said, “We have worked hard for decades for the company. It’s time for us to retire. I only hope that the business that we spent half our lives working for will be in good hands.”

The other elders also got up, one after another.

They had worked hard for Taikang for half of their lives and each of them was also a shareholder of this company. They knew that Taikang could not hold on any longer, so they sold off all their shares.

The reason why they held the board meeting today was because they wanted to see what would happen to the company that they had worked so hard to build and how He Yilu who only knew how to live off his parents and spend their money, would end up.

“What do you mean?”

He Yilu was stunned. He was furious just now, but froze in an instant. He looked at the elders and asked, “What do you mean?”

At this moment, “They mean that this company belongs to me now.”

An unfamiliar voice came from outside the office.

Everyone turned to look.

Li Qihua, who was dressed casually, walked in with a smile on his face, followed by several lawyers and one assistant.

“Who are you? Who let you in?”

He Yilu questioned angrily.

“Nice to meet you.”

In the face of He Yilu's rage, Li Qihua smiled indifferently and greeted him. Then he said, "As far as I know, among the 49% shares of Taikang Pharmaceutical Company, the He family holds 15% of the shares. The rest of the shareholders own less than 5% respectively, which accounts for 32% in total. The remaining 2% of the shares are left outside. Now the He family still holds 15% of the shares, right?"

"What, what are you trying to say?"

He Yilu's face changed. He stared at Li Qihua in panic.

"This is an equity transfer agreement."

Li Qihua did not say anything. The group of lawyers came out and placed the agreement in front of He Yilu. One of them said, "Mr. Li, the chairman of Tianqi Group, has already purchased 31% of the shares of Taikang Pharmaceutical Company and officially took charge of the Taikang Group."

"Let's go."

The elders of Taikang Pharmaceutical Company sighed, shook their heads and stepped out of the conference room.

"Pa!"

He Yilu's body went limp. He slid off the chair and fell to the ground. Looking at the elders leaving one by one, he was terrified and scared.

In the conference room.

"Chairman."

"Nice to meet you, Chairman."

The senior executives stood up and greeted Li Qihua.

Who was Li Qihua?

As the leaders of Taikang Pharmaceutical Company, how could they not have heard of this name?

As far as they were concerned, if Taikang Pharmaceutical Company fell into Li Qihua's hands, it would definitely rise again. It was not only because of Li Qihua, but also because of his remarkable financial strength.

Therefore, they wanted to make themselves known to Li Qihua as soon as possible. They hoped that when the Tianqi Group took over Taikang, they would not be fired.

But, was that possible?

Obviously not!

"Get our people to take over the company in the afternoon."

Faced with the awkward smiles from the executives, Li Qihua did not have any desire to stay there for another second. After saying that, he turned and left.

After informing the senior executives of the two companies, the people assigned by Yang Ningyuan and Li Qihua quickly took over the company in the afternoon. After all, the business of the two companies had basically stopped, so they did not require too much effort to clean up.

Then, the stock market opened.

The stock prices of Siqi Pharmaceutical Company and Taikang Pharmaceutical Company kept dropping.

When the stock of the two companies reached the lowest point again, Yang Ningyuan and Li Qihua took action at the same time. They purchased all the stock and then directly announced the suspension.

After the suspension, the official websites of the two enterprises issued a notice at the same time.

“Tianqi Group and Zhiyuan Group have jointly acquired the two pharmaceutical companies—Siqi and Taikang!”

As soon as the news came out, all the netizens and other pharmaceutical companies were stunned.

“What the f*ck, there is actually someone picking up this mess. What’s wrong with them?”

“Why are they so stupid? It’s obviously a losing deal, but there are still people who are willing to do it.”

“Why are these two companies so silly?”

While numerous people were discussing it, many people did a search on the Internet.

After the research, they instantly realized something.

“Zhiyuan Group? Isn’t this Yang Ningyuan’s company?”

“So it was bought by Yang Ningyuan?”

“Although it’s in alliance with Tianqi, Zhiyuan has also spent half of its money and energy.”

“It seems that the rich man is not heartless. Yang Ningyuan is quite kind. He must have come to avenge Fang Qiu. It’s so satisfying!”

“Fang Qiu saved his life. He not only donated 100 million yuan in the name of Fang Qiu, but also helped Fang Qiu to vent his anger. Yang Ningyuan is really loyal to his friends.”

“Yeah, Yang Ningyuan is awesome!”

“Haha, there is karma. If you don’t believe me, look up and see. No one will be spared!”

“It’s so cool. It looks as if they were slapped in the face and even got trampled on!”

After getting to the bottom of the matter, the netizens, who had been angry for many days, finally felt so relieved.

For the netizens, this was the best thing to happen this year!

On the Internet, there was a heated discussion because of this news.

The official websites of Siqi Pharmaceutical Company and Taikang Pharmaceutical Company announced that other than the company’s main product, all the other products would be discontinued and they would shut down and do a reorganization.

The new leaders and senior executives also assured the employees of the two companies, as instructed by Yang Ningyuan and Li Qihua. They would never fire any junior employee who had worked for at least two years, so that everyone could rest assured.

The news was also intentionally spread on the Internet.

The netizens gave likes after seeing this news.

“They’re really kind and righteous!”

“If these two companies shut down, all the employees will lose their jobs. Now that these companies have been acquired, they are able to keep their jobs still. Tianqi Group and Zhiyuan Group have done a really good job.”

“There is a lack of such a kind and righteous company in the country.”

When netizens complimented them, the original employees of the two companies heard the news and were finally assured. They waited quietly for the company to make their moves.

The newly appointed employees of Yang Ningyuan and Li Qihua also began to use various means to exclude the former chairmen of the two companies.

Now that they had lost the advantages of holding the shares, they could no longer be the chairmen. No one would offer them any managerial positions in the other departments. The stock had been suspended and the companies had closed down and had been reorganized.

They could not join in the discussion even if they wanted to.

Moreover, the new executives of the two companies did not pay any attention to them at all. No matter what they did, they would only report to Li Qihua or Yang Ningyuan.

Under these circumstances, the former chairman of Siqi, Commander Zuo, asked for a position with his shares. As a result, he was naturally demoted and his salary was reduced. Moreover, if the company was not open for business, it would be worthless.

How could he afford to fight against the Zhiyuan Group and Tianqi Group?

In addition, the new executives pulled all kinds of tricks, forcing him to have no room for survival in the company.

In a villa.

“Whew...”

Commander Zuo who seemed to have aged a lot, sat on the sofa. He took a long drag on his cigarette. There were already several cigarette butts in the ashtray on the tea table in front of him.

Commander Zuo’s eyes were bloodshot and his fingers, which were holding a cigarette, were trembling.

But even so, he still kept smoking cigarette after cigarette.

In his daily life, he attached great importance to health. He had stopped smoking for several years.

But today, he would not have been able to hold on if he did not smoke.

“Woo...”

In the He family’s villa, He Yilu was curled up in the corner of his room, with his head buried and his whole body trembling wildly.

If there was someone present, they could clearly hear his crying.

Yes.

He was crying.

He Yilu, who had never cried since he was a child, was crying hysterically.

However, no matter how hard he cried, his body was continuously trembling. For some reason, he was inexplicably scared and in a panic stricken state.

He looked like a child who had been tortured, and looked so disconsolate!

Of course, they were the only ones who knew about this.

No one could see it.

Perhaps, it was called “Bear one’s sin on his or her own”.

They knew that they could not stay in the country any longer. Even if they wanted to start a new business, they could not. As long as Fang Qiu was there, there was no way they could make a comeback.

Of course, although they sold their shares at a low price, they still had their properties, so it was fine for them to sit back and wait for death to come.

However, could they be satisfied?

They would definitely be looked down upon even if they did so.

In the end, both Commander Zuo and He Yilu chose to go abroad because only when they went abroad would they be able to find a chance to rise again!

From the time their companies were acquired till the time Commander Zuo and He Yilu to move abroad, it took only two days.

In these two days, people started to calm down.

After all, their companies had been acquired and the bosses had fled. Everyone had seen the result they wanted to see, so they were not as persistent and enthusiastic as before.

On the contrary, the netizens’ attention shifted to the purchase of these two listed companies. How much did it cost in total?

“These are two listed companies!”

“Yeah, how much does it cost to buy it out?”

“Why didn’t I think of it before? Yang Ningyuan did it to repay the debt of gratitude. It’s not worth spending so much money, is it?”

“The most important thing is that Tianqi Group and Zhiyuan Group are indeed powerful, but they have never been involved in the pharmaceutical industry. As the saying goes, the difference in the profession makes one feel worlds apart. No matter how I look at it, I feel that this action is a total loss.”

Medical Master

Chapter 744: Two Thousand Yuan Per Gram!

In the capital city, there was a small group of entrepreneurs who gathered in a hotel.

“In the past two days, the event that everyone is most concerned about must be the Tianqi Group and Zhiyuan Group’s joint acquisition of the Siqi Pharmaceutical Company and Taikang Pharmaceutical Company, right?”

A group of entrepreneurs had gathered in a reception hall. Everyone sat on a single-seat sofa and formed a circle around the center of the hall, discussing avidly with each other.

“It’s quite strange. Li Qihua and Yang Ningyuan have never been involved in the pharmaceutical business. It’s not an exaggeration to say that they are laymen in this industry. But why did they even acquire Siqi and Taikang?”

“It’s not strange for them to buy it. After all, the pharmaceutical industry is indeed profitable. But what’s odd is that they still bought it, despite knowing that they will suffer a loss.”

The leaders of several large-sized companies had gathered together.

“What do you think the Tianqi and Zhiyuan group will be doing?”

“They actually got involved in the pharmaceutical industry. Li Qihua and Yang Ningyuan are working together. What on earth are they up to?”

“Even if they want to run a pharmaceutical business, they should not have stepped forward at this time to buy these two companies that will definitely be a money losing scheme, right?”

People in the business circles in the whole country were talking about this matter.

Everyone was as curious as the Internet users. Why did the Tianqi Group and Zhiyuan Group work together to buy these two companies that would definitely be a money loser?

After all, any sane person could tell that the two companies were now totally ruined.

Because of public opinion, the credibility of these two companies had reached rock bottom. For ordinary people, the negative images of these two companies were imprinted in their minds. It would be difficult for them to rise again.

Even if they bought these two companies to produce medicine, it would be very difficult to make a profit.

However, it did not take long before people in the business world were left totally speechless.

Because just as they were talking about how they were going to lose money after buying these two companies, the stocks of Siqu and Taikang started trading again.

However, their stock price began to rise quickly and the increase was quite drastic!

This time, everyone in the business world were dumbfounded.

Who would have expected that the stock price would recover as soon as these companies were acquired and restarted trading?

If the price continued to rise like this for the next few days, they might be able to earn back all the money they had spent in purchasing the company.

“F*ck, what’s going on?”

“How could this happen?”

“The stock market was all green the day before yesterday, but why did it suddenly turn red today?”

“What the hell?”

“Damn it, Yang Ningyuan just got a great bargain.”

“Based on his relationship with Fang Qiu, Yang Ningyuan has won the favor of most people. In addition, with his benevolence and justice in helping Fang Qiu seek revenge, everyone has almost forgotten about the evil deeds done by Siqi and Taikang. On the contrary, they thought that any company under the charge of Yang Ningyuan is definitely a good company. In this case, it will be strange if the stock price does not rise.”

In Beijiāng.

Fang Qiu, who stayed back in the cultivation area to help, had been following the actions of Li Qihua and Yang Ningyuan, as well as the movements of Siqi Pharmaceutical Company and Taikang Pharmaceutical Company.

In the beginning, Fang Qiu was also shocked because he did not expect that Li Qihua would be the chairman of the Tianqi Group.

No wonder when they met for the first time, Yang Ningyuan introduced him as one of the top figures in the Huaxia business world.

Tianqi Group was a top-notch company in Huaxia.

After the initial shock, Fang Qiu was again surprised..

His thoughts were the same as the netizens and those in the business world. He did not expect that after Li Qihua and Yang Ningyuan took over, the stock prices of Siqi and Taikang would rise sharply as they had just hit rock bottom.

Looking at the continuously rising stock price, Fang Qiu could not help shaking his head and exclaiming, "These businessmen are really smart. These two business giants must have thought of this in advance. It also makes sense though. How could they agree to take over a loss making deal?"

While Fang Qiu was looking at the stock market, people in the cultivation area were still busy working.

Several days had passed.

All the construction work for the factories and residences were almost complete. After all, there were many people and there was strength in numbers.

During this period, Fang Qiu also spent large sums of money. He bought all the necessary goods and paid all the workers. However, Fang Qiu was not bothered about spending all this money at all. Anyway, it would not be long before he would earn all the money back.

"Beep, beep, beep..."

Just as Fang Qiu was thinking about how he was about to make money, the phone in his hand suddenly rang.

He took a closer look.

The person who was calling was none other than Yang Ningyuan.

“Here comes the money.”

Fang Qiu chuckled and answered the phone.

“Fang Qiu.”

As soon as the phone was connected, Yang Ningyuan could not wait to speak, “The efficacy of the two medicines you made for us has been sent for tests. The results are really amazing.”

“Of course. I’m a Chinese Medicine practitioner. The medicine I made using my method is definitely much better than the medicine on the market!”

Fang Qiu was not worried about singing his own praises at all.

He was aware of this.

At this moment, he could not be modest at all because they were going to talk about money. It would not be easy to talk about it if he was too humble. Therefore, he had to be superior and sell his skills as much as he could.

“Yes, yes, yes. Who in the world is not aware about Miracle-working Doctor Fang’s great skills?”

Yang Ningyuan laughed and said, “I will be flying to Beijiang today. I want to discuss this business with you, face to face.”

“Welcome, welcome.”

Fang Qiu said with a smile.

“Can you give me a hint first?”

Hearing Fang Qiu’s words, Yang Ningyuan immediately gave a wry smile and said, “How much are you going to sell the Desert Cistanche for? We’re old friends and we’ve accomplished a lot of things together. I’ve helped you before. You must be fair and give me a good rate. I’ve paid a lot of money to buy this company this time. You can’t use this opportunity to rip me off.”

“Don’t worry.”

Fang Qiu burst out laughing and said, “The price of Desert Cistanche here will definitely be higher than that in the market!”

Yang Ningyuan was speechless.

“Wait for me.”

After hesitating for a long time, Yang Ningyuan merely said that and hung up. He then rushed to the airport immediately.

In the past few days,

In addition to checking the contents of the medicine, he also especially examined their effects, only to find that the efficacy of the medicine was exceptional!

It was so great that the staff testing the medicine was also very amazed.

Of course, the crucial reason why Yang Ningyuan was in such a hurry was because the acquisition of Siqi Pharmaceutical Company had cost them too much liquid capital. He had to find a way to make a profit as soon as possible!

After booking a flight ticket, Yang Ningyuan rushed to Beijiāng.

Yang Ningyuan and Li Qihua had both invested in the purchase of the Siqi and Taikang. When the time came, these two companies would be merged and then listed again. Therefore, it was not a problem for him to come here alone.

In the afternoon, he arrived at the Beijiāng cultivation base.

Fang Qiu led Yang Ningyuan to a room in the newly built office. After making tea for Yang Ningyuan, he sat down.

“Well, since I came here in such a hurry, I will just cut to the chase. Let’s get down to business.”

After taking a sip of tea, Yang Ningyuan looked at Fang Qiu and asked, “What price do you intend to offer me?”

“2,000 yuan per gram.”

Fang Qiu replied.

“It’s too expensive.”

When Yang Ningyuan heard this price, he immediately frowned and said, “I’ve learned that the market price for the wild and good-quality Desert Cistanche is only 350 to 500 yuan per gram. The price you are offering is several times higher than the market price. Besides, we are old friends. We should not damage our relationship when it comes to business, right?”

“Let’s put it this way.”

Fang Qiu smiled and said, “Let me do a calculation for you first.”

Yang Ningyuan was confused.

Fang Qiu took out a bottle of Six-Ingredient Rehmannia Pill and put it on the tea table. He said, "A bottle of Life-prolonging Earth Pill like this can last for six days. How much are you going to sell it for?"

"More than a hundred."

Yang Ningyuan immediately gave an answer. It was obvious that he had secretly done the calculation.

Hearing the price, Fang Qiu glanced at him and then said, "Let me just take it as 100. There are a total of 360 pills. 100 pills weigh 20 grams. So 360 pills weigh 71 grams. The amount of Desert Cistanche needed is less than one-fifth of the Life-prolonging Earth Pill. That is to say, one gram of Desert Cistanche can help produce at least five grams of Life-prolonging Earth Pill, which is 2500 grams in total."

"You can get 35 bottles with 2,500 grams. One bottle costs 3,500 yuan and you're selling it as medicine. How could it be so cheap?"

"If you sell it as a health care product or a gift, you can sell it for more than 1,000 yuan, with two bottles in a gift box. That is to say, if you try to maximize the profit of one gram of Desert Cistanche, you can sell it for 15,000 yuan."

"Compared with 15,000 yuan, 2,000 yuan per gram is not expensive, is it?"

Upon hearing this, Yang Ningyuan immediately felt embarrassed.

He did not expect Fang Qiu to be so meticulous.

After confirming the efficacy of the pill, they really intended to sell the Life-prolonging Earth Pill as a health care product. The effect would be really good.

"What about the other medicinal ingredients?"

Yang Ningyuan said, "All the other medicinal materials cost less than 100 yuan, even if you take the cost of labor into account."

Fang Qiu replied.

As soon as he heard that, Yang Ningyuan suddenly had nothing more to say, but he was still a little hesitant.

However, Fang Qiu pursed his lips, touched his chin and said, "Why do I suddenly feel like I'm losing money? Speaking of which, your stock price is the real way to make money, isn't it?"

Upon hearing this, Yang Ningyuan did not hesitate any longer. He immediately made a decision in his heart and said, "Okay, 2,000 yuan it is. Let's sign the contract now."

After that, he thought for a moment and hurriedly asked, "How much Desert Cistanche can your cultivation base provide me every year?"

"If it continues to be cultivated according to this amount, we can provide you 500 tons a year."

Fang Qiu said.

Although Desert Cistanche's growth cycle was relatively long, it would be significantly reduced under the influence of the Qi of Heaven and Earth. The production time for making the medicine would also be greatly reduced. It was almost 500 tons a year.

Hearing the number given by Fang Qiu, Yang Ningyuan immediately began to calculate in his heart.

"There's no need to do the math."

Fang Qiu glanced at Yang Ningyuan and then said with a smile, "If you can earn 10,000 yuan per gram, it will be 5 billion a year!"

Five billion?

Yang Ningyuan's eyes lit up in an instant.

The profit of 5 billion yuan a year was incredible.

"If that's the case, then you'll also earn a billion yuan a year."

Yang Ningyuan laughed and said, "You see. I work so hard but I only earn five times more than you."

Medical Master

Chapter 745: A Crisis of Snakes and Insects!

"It's not easy for you to be a big boss, but being a farmer is also not easy for me."

Fang Qiu pointed at the Desert Cistanche growing on the ground outside the window and said with a sigh.

Fang Qiu did not grow Desert Cistanche for the purpose of making a profit at all. If he wanted to make money, it was quicker to earn the money by casting swords. Moreover, he could put all the money made from casting swords into his pocket, but now he was under close scrutiny by the public as he was growing the Desert Cistanche. However, Fang Qiu felt obliged to do this because he knew that the medicinal materials market was too chaotic at the moment. Therefore, from the beginning, his purpose was to clean up the present medicinal materials market and use this opportunity to tell everyone that really good medicine could be sold for a high price!

"Since we've reached an agreement, let's sign the contract now."

Yang Ningyuan urged, "By the way, when can you give me the first batch of Desert Cistanche?"

"In half a month."

Fang Qiu answered.

Going by the amount of the Qi of Heaven and Earth on the current terrain, Fang Qiu estimated that the Qi of Heaven and Earth in the terrain should be sufficient in half a month.

Although the Desert Cistanche that was planted during this period was still far from being fully mature, the effect of this batch of Desert Cistanche would definitely be fine, as long as there was enough Qi of Heaven and Earth!

“Okay, I’ll wait for you for half a month.”

After he nodded, Yang Ningyuan said, “I don’t think you’ve prepared a contract, have you?”

“Okay, I’ll get someone to draw up a contract and send it to me.”

After looking around the office, Yang Ningyuan found that there was not even a computer in the office, except for a printer.

“Sure.”

Fang Qiu did not feel embarrassed at all.

Yang Ningyuan did not hesitate and immediately called someone to draft a contract and send it directly to his email.

After making the call, the two of them continued chatting.

“Oh, by the way.”

While chatting with him, Fang Qiu suddenly said, "For the contract, I have a few requirements."

"What?"

Yang Ningyuan paused.

"Just one thing."

Fang Qiu said, "All the medicines must be of the best quality and must undergo stringent testing. No matter what happens, you must not allow any standard issues or quality problems to happen to the medicine. Once there is such a problem, we will immediately stop the supply of Desert Cistanche. This must be written clearly in the contract."

"Okay."

Yang Ningyuan was a businessman, so he was not worried about this matter at all. He nodded and agreed directly. Then he called the people who drafted the contract and asked them to add this requirement into the contract.

Fang Qiu continued, "And don't involve me when the medicine is being promoted."

"Why?"

Yang Ningyuan gazed at Fang Qiu with a puzzled look.

He had already thought it through. With the help of Fang Qiu's fame, this medicine would definitely amaze the whole country as soon as it came out and increase sales, which would save him a lot of money and effort.

But now Fang Qiu said that he could not do that.

Fang Qiu replied, "One can't be too famous. One should try to keep a low profile if one can. When a thing reaches its extreme, it reverses its course."

"We can't mention your name in the promotion?"

Yang Ningyuan asked.

"It's best if you don't."

Fang Qiu answered and nodded seriously.

"Okay, I got it."

Yang Ningyuan nodded. Compared with the short-term interests, he was more interested in Fang Qiu. It would be fine even if they had to spend lots of effort to promote the medicine. As long as Fang Qiu was there, he believed that there would be a lot of opportunity for him to make money.

After a while, Yang Ningyuan received the contract.

After using the printer in the office to print it out, the two of them went through the contract. After making sure that there were no issues, they signed it.

"Since the contract has been settled, I have to give you the deposit first."

After signing the contract, Yang Ningyuan directly asked Fang Qiu for his bank account and transferred 100 million to it. Then he put away the contract, stood up and said to Fang Qiu with a mysterious smile, "Nice to work with you. In order to celebrate the success of our cooperation this time, I will send you a great gift."

"Then I'll thank you first."

Fang Qiu replied with a smile.

After that, Yang Ningyuan left.

The next day.

“Beep, beep, beep...”

Just as Fang Qiu was about to join the planting of a new batch of Desert Cistanche seedlings, his cell phone suddenly rang.

He took it out and looked at it.

It was from Yang Ningyuan.

“Hello?”

Fang Qiu answered the call.

“Fang Qiu, please come over to the Beijiang Provincial Government office now.”

Yang Ningyuan’s voice came from the other end of the phone.

“Why?”

Fang Qiu was confused.

“Come over right away. I’ll wait for you here.”

After saying that, Yang Ningyuan hung up.

Fang Qiu did not think much about it.

Having informed Zhao Shanlin, he drove to the Beijiang Provincial Government office by himself.

Fang Qiu had asked Li Ji to help him buy the car because he always felt that the quality of cars bought by the people in the army would be better.

The reason why he bought a car was naturally to make it convenient for everyone to commute in daily life. After all, there were a large number of people in the cultivation base now and the base was at the edge of the desert, which was quite far from the city. With a car, everyone's life would be more comfortable.

Soon, he arrived at the Provincial Government office.

As expected, Fang Qiu saw Yang Ningyuan in the office.

"You're here."

When he saw Fang Qiu, Yang Ning came up to him with a broad smile.

Fang Qiu asked, "What's the matter?"

"Nothing."

Yang Ningyuan took out a contract from his bag and handed it to Fang Qiu, saying, "Just sign this."

Fang Qiu took it and had a look.

It turned out to be a land transfer contract.

The land outlined in the contract was the area surrounding Fang Qiu's cultivation base, which was suitable for planting Desert Cistanche.

These pieces of land were not cheap. They were worth at least hundreds of millions!

"Hurry and sign it."

Yang Ningyuan chuckled and said, "This is the gift from me. You did not expect this, did you?"

"I'm sorry to make you spend so much money."

Fang Qiu replied.

"The government gave it to me."

Yang Ningyuan immediately whispered in Fang Qiu's ear and said, "The authorities heard that I was going to build a pharmaceutical factory here, so they offered me an extra piece of land. I asked for this piece of land for you."

"Thank you."

Hearing that, Fang Qiu immediately nodded with a smile and then took the pen.

He signed it!

"Beep, beep, beep..."

As soon as Fang Qiu signed the contract, his cell phone rang.

Fang Qiu took out his phone and answered immediately when he found that it was from Zhou Xiaotian.

“Bro, come back quickly. Something has happened!”

On the other side of the phone, Zhou Xiaotian’s tone was urgent and he sounded nervous.

“What’s wrong?”

Fang Qiu asked hurriedly.

“I can’t explain it clearly on the phone. Anyway, you should come back soon.”

Zhou Xiaotian urged.

Fang Qiu covered his phone, turned to Yang Ningyuan and said, “Something happened at the cultivation base. I need to get there now.”

“Okay.”

Yang Ningyuan nodded.

After saying goodbye to Yang Ningyuan, Fang Qiu immediately got into the car. His phone call to Zhou Xiaotian connected automatically with the Bluetooth in the car. Fang Qiu then stuffed the phone into his pocket and asked directly, “What happened? Tell me clearly.”

“Snake, snake...”

Zhou Xiaotian’s panicked voice could be heard saying, “And scorpions and lizards!”

“Are there many of those?”

Fang Qiu frowned.

“What do you mean are there many? It’s as dense as a swarm of locusts. Everyone is terrified. What should we do now?”

Zhou Xiaotian’s tone became more anxious.

Fang Qiu could hear people shouting panickedly at the other end of the phone.

In the car.

As soon as Fang Qiu heard that, he knew that it was a disaster caused by the Qi of Heaven and Earth.

All these animals had spirits. Humans might not be sensitive to this, but these animals were sensitive by nature. For example, a lizard could change its skin color and sense the moisture and humidity in the air. Naturally, it could also sense the density of the Qi of Heaven and Earth. The same principle applied to the other animals.

Under the attraction of the terrain, the Qi of Heaven and Earth was increasing. After absorbing the Qi of Heaven and Earth, Desert Cistanche would definitely become the food for these animals.

Now the Desert Cistanche was still growing.

If he did not handle this well, they would suffer heavy losses.

Fang Qiu was anxious.

He had no time to think about anything else. He stepped on the accelerator and raced back.

When Mr. Zhao found out that this place was close to the desert, he knew there would be a lot of snakes and insects, so he bought a lot of pesticides. He sprinkled it around the cultivation area and that kept all the snakes, scorpions and lizards that were attracted to the Qi of Heaven and Earth, outside.

Even so...

Looking at the mass of cold-blooded animals, people were scared. Everyone in the whole base was frightened.

With the help of the pesticides, the base managed to keep them out until Fang Qiu arrived.

Fang Qiu entered the base.

As soon as he saw the snakes and insects around the cultivation area, he immediately strode forward.

“Fang Qiu.”

Sun Hao grabbed Fang Qiu and said, “Are you crazy? There are so many venomous snakes and scorpions. If you get closer to them, you will die. Don’t go!”

“Yeah, why don’t we call the fire brigade?”

Zhou Xiaotian echoed immediately.

“Don’t call them!”

Fang Qiu immediately stopped him and said, “Firemen are really busy. Let’s not bother them with this.”

Fang Qiu was afraid that if they called the fire brigade, they would get the firemen into trouble. After all, these things were poisonous vermin. Moreover, under the attraction of the Qi of Heaven and Earth, it was impossible to kill them all. He did not want the firemen to get hurt.

“Then what should we do?”

Zhu Benzhen frowned, hid behind the crowd and said, “I’m particularly afraid of snakes. I don’t even dare to look at them.”

“Haha.”

Fang Qiu laughed and said, “Let me go. I’m the nemesis of insects. There won’t be any problem. Don’t worry.”

Sun Hao still did not dare to let go.

Fang Qiu exerted some strength and slipped out of Sun Hao’s grip. And then, while everyone was still exclaiming, he headed straight toward the snakes and insects.

“Hiss, hiss, hiss...”

Although the sound of a poisonous snake spitting and hissing was soft, the sounds from thousands of poisonous snakes gathered together were particularly ominous and loud.

Besides that, the sounds of the scorpions and lizards also made people shiver with fear!

When Fang Qiu went out, no one dared to look, so they closed their eyes.

Fang Qiu stood outside the cultivation area and released his Qi.

The moment these snakes and insects felt Fang Qiu's power, they were so frightened that they immediately scattered. Soon, they all disappeared without a trace.

This scene amazed everyone.

"Damn!"

Seeing the sight of so many the snakes and insects retreating, Zhou Xiaotian immediately exclaimed and said to Fang Qiu, "Bro, are you really the nemesis of these poisonous insects?"

"Were you the king of insects in your previous life? You are awesome!"

Sun Hao also said in shock and then asked, "Can you call them out again and let me have a look?"

Fang Qiu chose to ignore these two fools directly.

Medical Master

Chapter 746: Invited A Guardian!

"Before coming here, I checked the environment and specially made some preparations. Although I know that there are a lot of venomous snakes and insects here, I didn't expect that there would be so many."

Seeing that the snakes and insects had dispersed, Zhao Shanlin frowned, walked to Fang Qiu with a solemn expression, and said, "It will be a problem if it goes on like this. What should we do?"

Fang Qiu was also frowning.

He knew that once the terrain was built, the Qi of Heaven and Earth would gather and would attract the poisonous snakes and insects in the surrounding areas. Although he could easily scare away these poisonous creatures with just a little bit of his powers, it was not a long-term solution.

Fang Qiu could not just drop everything and run over to this place daily, just to release his power.

Noticing that Fang Qiu was lost in thought, Zhao Shanlin did not want to disturb him. Instead, he hurried to check on the Desert Cistanche to see if there was any damage.

After a thorough inspection, he found that not a single Desert Cistanche had been damaged.

“It’s all because of those pesticides.”

Zhao Shanlin breathed a sigh of relief. Meanwhile, he was very satisfied with the fact that he had sprayed the pesticides in advance.

“I got it!”

After pondering for a while, Fang Qiu’s eyes suddenly lit up.

By nature, all these creatures had their own territories. For example, the territory of the king of the forest was a place that other animals did not dare to enter. Once they stepped into it, they were simply looking for death.

That was to say...

He had to find an animal that was able to defend this cultivation area and intimidate all the other types of beasts.

It seemed that only guardian beasts could frighten all these kinds of beasts!

If he was able to capture a guardian beast, those venomous creatures would definitely not dare to return.

“Yes.”

Thinking of this, Fang Qiu nodded lightly and murmured to himself, “It looks like I have to catch a guardian beast.”

“What did you say?”

Zhao Shanlin, who happened to be passing by, asked him.

“No, nothing.”

Fang Qiu chuckled and said, “You can continue to buy some pesticides to spread around. I’ll go and find someone to help. Maybe there will be another solution.”

“Okay.”

Zhao Shanlin immediately nodded and said, “I think this pesticide should be able to keep them away for a while.”

“Bro, do you really have a way to deal with it?”

Sun Hao asked from a distance.

“But there are just too many venomous snakes and insects.”

Zhu Benzhen added, with fear on his face.

“I should be able to come up with a solution.”

Fang Qiu replied.

“Sure.”

Zhou Xiaotian laughed and exclaimed, “He deserves to be the chairman of our company. He has a wide network of contacts.”

Fang Qiu rolled his eyes at Zhou Xiaotian, turned around and walked to an open space not far away. Meanwhile, he took out his phone and dialed Li Ji’s number.

“Hello?”

Li Ji answered.

“Do you have time to come to my place?”

Fang Qiu asked.

“It’s not far away.”

Li Ji replied, “Our station is over ten kilometers away from your cultivation base. I’ll come over right now.”

“Okay, I’ll wait for you.”

Fang Qiu nodded.

About half an hour later, Li Ji arrived at the cultivation base.

He actually ran all the way here, instead of driving over.

It was impossible for ordinary people to run more than ten kilometers in half an hour, even for some ordinary special forces.

But Li Ji was a Martial Superior.

It was easy for him to run swiftly for 30 minutes. He was not even out of breath.

“What’s the matter?”

He ran all the way into the cultivation base. When he saw Fang Qiu, he stopped and asked.

“There’s something wrong here.”

Fang Qiu said, “Half an hour ago, all the venomous snakes, scorpions and insects in this desert gathered at the cultivation area and surrounded the whole area. I tried to trace the problem, but I found that these Desert Cistanche were growing well because this area was filled with the Qi of Heaven and Earth. Obviously, those creatures were also attracted by the Qi of Heaven and Earth and treated my Desert Cistanche as food.”

“Can’t you give those venomous insects medicine?”

Li Ji teased.

“They are not taking medicine. They’re taking in the Qi of Heaven and Earth.”

Fang Qiu stared at Li Ji and said, “Look, your station is not far from my cultivation base. Anyway, it’s only about ten kilometers away, so I would like to ask you to run outside my base during these two days. When you run, release your power so it will frighten those poisonous insects.”

“Oh.”

When Li Ji heard this, he immediately raised his eyebrows and said, "Are you going to take me as the guardian here?"

"There will be benefits for you."

Fang Qiu said with a smile.

"Okay."

Hearing that there were benefits, Li Ji did not hesitate. He immediately nodded with a smile and said, "Then it's settled."

With the presence of Li Ji, the guardian here, there would definitely be no problem for the moment.

After informing Zhao Shanlin, Fang Qiu left.

After Fang Qiu left, everyone saw Li Ji appearing every two hours and running around the cultivation base.

After running two laps, he left.

Two hours later, he came again.

This scene made people in the cultivation base feel puzzled.

"What do you think this man is doing? Is he trying to lose weight?"

Zhao Shanlin asked the people in the cultivation base.

“Is he out of his mind? There are so many places where he could run in this wide land. Why does he have to run around our base?”

Zhou Xiaotian sneered and said, “Why are the people that Fang Qiu knows so weird?”

“Although he looks insane, I bet he must have some incredible skills.”

Sun Hao said, “At least, he’s not afraid of those venomous snakes or insects. Otherwise, he would not be so bold.”

“Eh?”

Hearing this, Zhou Xiaotian immediately said, “If you had not mentioned it, I would not have realized it. It seemed that those creatures are gone. This man must also be the king of the insect world in his previous life. Fang Qiu is the boss. And he is his subordinate. These two guys must have descended to the human world to experience the catastrophe. Those creatures are their descendants.”

“Tut-tut.”

Sun Hao rolled his eyes at Zhou Xiaotian and said, “I told you not to watch so many TV dramas. You just can’t be serious about things. Look at what you are now.”

“What do you know?”

Zhou Xiaotian snorted and said, “We are college students and we are the younger generation. We should follow the trend closely!”

“Follow the trend closely?”

Sun Hao glanced at Zhou Xiaotian and said, “Then go and play the game—PUBG. With your sense of direction, you will faint before you find anyone in the game!”

Zhu Benzhen shook his head speechlessly, turned around and went to do his work.

In his eyes, these two guys were simply fools. They were helpless!

Li Ji continued to run.

As for Fang Qiu, he went all the way to the West after leaving the cultivation base.

After about 20 kilometers, he would use his Divine Consciousness to probe and see if there were any Earth Treasures within 20 kilometers. Only by finding the Earth Treasures could he find the guardian beast and have a chance to subdue it.

He kept doing this until he was able to find one.

Subconsciously, Fang Qiu ran all the way to Tianshan.

“Yes!”

When they arrived at Tianshan, Fang Qiu wondered if there would be any Earth Treasure there.

As soon as he used his Divine Consciousness, he really felt that there was something strange about the Qi of Heaven and Earth in one place. However, judging from the exposed Qi of Heaven and Earth, it was obviously not as strong as the Earth Treasure. But it was almost the same.

“It’s not Earth Treasure. I don’t know if there are any guardian beasts. If there are, it will be great.”

Thinking of this, Fang Qiu immediately rushed to the place where he felt the movement of Qi of Heaven and Earth.

It was one of the magnificent mountains in Tianshan that was covered with snow. It was more like a mountain that was isolated from the rest of the mountains. If the entire mountain range was compared to a huge palm, then this mountain would be the thumb that was on the outer edge.

“Whoosh...”

As the wind of the mountain whistled through, Fang Qiu immediately rushed over.

He stopped at a snow-covered rock and looked at the source of the strange movement of the Qi of Heaven and Earth.

What appeared was a white flower about the size of a person’s head!

“Snow Lotus?”

When he saw this flower, Fang Qiu suddenly smiled.

This large Tianshan Snow Lotus was pure white, which was completely different from the ordinary light green colored type.

Like Desert Cistanche, the Tianshan Snow Lotus was also one of the nine magic herbs in Daoist.

Feeling ecstatic, Fang Qiu strode toward the Tianshan Snow Lotus.

However, just as Fang Qiu moved forward, he heard a muffled sound.

“Gurgle...”

All of a sudden, he heard a somewhat muffled sound.

“Eh?” Fang Qiu turned his head.

A little creature actually ran out from behind the rock where the Tianshan Snow Lotus grew.

“Tianshan Rat Hare?”

Looking at the little guy, Fang Qiu was shocked at first, but then his eyes lit up.

Tianshan Rat Hare looked like a rabbit and also a mouse. It was a kind of a small mammal. It had big ears, which gave it a cute appearance when seen for the first time.

Fang Qiu had seen it on the news.

This cute animal had been accidentally discovered by a Huaxia scientist in Tianshan 30 years ago. It had already been regarded as a new species.

Under normal circumstances, the Tianshan Rat Hare’s whiskers were very long and its fur was quite bright. There were spots on its forehead and neck. And its fur was brown-yellow or pure brown in color.

However, the whiskers of the Tianshan Rat Hare that appeared in front of Fang Qiu were not very long. There were no spots on its body and its fur was pure white.

He looked quite different from a normal rat-like hare.

“I really found it?”

Looking at this little creature, Fang Qiu’s eyes lit up.

Actually, when he left the cultivation base to look for guardian beasts, Fang Qiu thought that he should not look for a giant or mutated guardian beast. After all, it was difficult to tame that kind of guardian

beast. Even if he took it back by force, not only would it scare everyone, but it might even hurt them. Of course, it was very likely that he would eat all of the Desert Cistanche.

Therefore, the search for the guardian beast became a difficult problem.

If he did not find the giant or mutated ones, could they still be regarded as guardian beasts?

After thinking about it carefully, he realized that the Desert Cistanche in the cultivation base was not considered as an Earth Treasure. The venomous snakes and insects outside were also ordinary poisonous creatures, so there was no need to find powerful guardian beasts to intimidate them.

Now it seemed that this Tianshan Rat Hare was a perfect solution.

Although it could be seen at a glance that the little creature had mutated, Fang Qiu could feel that it was not very aggressive. Though it did not look like a guardian beast, it was much stronger than a normal beast.

Moreover, if he took this little hare back, not only would it not scare people, but it would also endear itself to everyone. It was a matter of killing two birds with one stone.

He could not let this little creature escape!

Medical Master

Chapter 747: Cute Rat Hare Pretending to Be Dead!

“Coo, coo...”

Hiding behind the snow-covered rock, the Tianshan Rat Hare glared at Fang Qiu with its round eyes. It looked as if it was going to eat someone, as muffled angry growls could be heard coming from it.

It looked as if it were trying to intimidate Fang Qiu with its power!

Fang Qiu could not help smiling.

This little guy did not only look cute, but also acted in a cute manner. It did not seem like an animal at all, but simply a funny creature.

“Come here.”

Fang Qiu grinned wickedly and waved at the hare.

“Coo, coo!”

The Tianshan Rat Hare suddenly straightened its body and continued to emit the muffled sounds.

“If you don’t come over, then I’m going over to pick you up.”

With great interest, Fang Qiu stepped forward with a smile and walked toward the Tianshan Snow Lotus. As he walked, he made the gesture of picking the Tianshan Snow Lotus in front of the hare.

“Coo!”

The Tianshan Rat Hare suddenly grew frantic.

It let out a loud cry and then moved.

Fang Qiu thought that this little creature would rush up to grab it. After all, it still had some strength. The ordinary lions, leopards and tigers were no match for it.

The strange thing was that although the little hare was angry, it did not charge at him.

It was still roaring angrily at the same place and its behavior appeared very human-like. It was so anxious that it kept turning in circles in the same place, looking extremely adorable.

“This little guy’s spiritual intelligence is not weak.”

Fang Qiu was a little surprised.

In Fang Qiu’s view, animals were wild, so was the Tianshan Rat Hare. However, their wild nature would never allow them to let their food to be snatched unless they encountered a formidable enemy that they could not deal with at all.

But from the beginning to the end, Fang Qiu did not release any of his power. This little hare obviously had the power equivalent to a lion or a tiger, but it still did not dare to charge at Fang Qi, who did not seem to be of the slightest threat at all.

That was to say...

Even though Fang Qiu did not release his momentum, the hare was still able to feel that Fang Qiu was stronger than it.

“Coo, coo...”

Watching Fang Qiu stop in front of the Tianshan Snow Lotus and squatting in front of it, the hare spun around anxiously in circles before it suddenly stopped. It looked at Fang Qiu and the rare Tianshan Snow Lotus. Then it suddenly screeched at Fang Qiu, turned its head resolutely and ran away quickly.

“Eh?”

This scene surprised Fang Qiu even more.

This Tianshan Rat Hare was indeed different from the others. The moment it realized that it could not get the Tianshan Snow Lotus, it immediately turned away and left without any hesitation.

Compared with the other animals and the guardian beasts of the Earth Treasures, it was obviously much smarter.

If Fang Qiu's intention was to look for the Earth Treasure and the Tianshan Snow Lotus was also an Earth Treasure, Fang Qiu would definitely ignore the hare and let it run away.

However, the reason why Fang Qiu came out this time was not because he was hunting for the Earth Treasure or the Tianshan Snow Lotus in front of him, but for the guardian beast!

How could Fang Qiu let such a suitable guardian beast go?

"You want to run?"

Fang Qiu grinned.

The more intelligent this little creature was, the more he liked it.

Looking at the Tianshan Rat Hare running away, Fang Qiu immediately ran after it.

"Coo..."

Sensing the noise coming from behind, the Tianshan Rat Hare turned its head. When it saw Fang Qiu catching up with it, it immediately screeched at Fang Qiu.

It seemed to be saying, "I've already given you the Tianshan Snow Lotus. Why are you still chasing me?"

Fang Qiu did not stop and rushed straight toward it.

"Coo!"

Seeing Fang Qiu rushing up in an instant, the Tianshan Rat Hare was so anxious that its fur stood on end. It screeched, turned around and ran away.

“Haha.”

Fang Qiu was overjoyed.

This little creature’s movements and expressions were so varied that it could easily make people chuckle.

Fang Qiu was having a great time, but the Tianshan Rat Hare became very nervous.

It kept running.

However, although it was agile, it was still too slow compared to Fang Qiu.

In the blink of an eye, Fang Qiu was right behind it.

“Cool!”

Seeing Fang Qiu catching up with it, the sprinting hare suddenly screeched and stretched its legs. Then it stiffened and instantly dropped to the ground as if it had fainted.

It looked like a frightened sheep.

Fang Qiu burst into laughter.

“Hey, you can’t run away now, can you?”

Knowing that the little guy was playing dead, Fang Qiu immediately stepped forward and reached out to grab it. He smiled smugly and then turned back to the Tianshan Snow Lotus.

Back at the Tianshan Snow Lotus, Fang Qiu threw the Tianshan Rat Hare which was playing dead beside the lotus and was ready to check it.

The little hare was no longer there.

“Whoosh...”

As soon as it landed on the ground, its strong hind legs kicked hard and then it suddenly ran off without looking back.

“Again?”

Fang Qiu pursed his lips and chased after the hare again.

After running for less than 20 meters, Fang Qiu rushed to the front of the Tianshan Rat Hare and blocked its way.

However, the hare was exceptionally agile. The moment Fang Qiu blocked its way, it immediately changed direction and continued to run desperately.

But not long after it ran, it was blocked by Fang Qiu again.

Things kept going on like this.

The hare kept running in different directions in an area with a 20-meter radius, but no matter how hard it ran, it could not run out of this area.

In the end, seeing that Fang Qiu was blocking its way again, the little hare, which could not run anymore, immediately rolled its eyes, twitched several times and fell down stiffly again.

“Still pretending to be dead?”

Fang Qiu was speechless.

He grabbed its stiff hind legs, carried it upside down and returned to the Tianshan Snow Lotus.

Fang Qiu did not let go of the hare this time.

He held the hare while observing the Tianshan Snow Lotus.

Then Fang Qiu found that this Tianshan Snow Lotus was indeed not an Earth Treasure. However, it should be able to achieve the effect of an ordinary Earth Treasure because it had been growing on the top of the mountain for years and had been nourished by the spiritual Qi of heaven and earth. It was also infused with a lot of Qi of Heaven and Earth.

The observation was completed.

“Since there is a terrain in the place where Fairy Desert Cistanche grows, is there also a terrain for this Tianshan Snow Lotus?”

Thinking of this, Fang Qiu muttered to himself, “Although it’s not an Earth Treasure, this place can forcibly nurture this Tianshan Snow Lotus to achieve the effect of an ordinary Earth Treasure. If there is a terrain, then this terrain must be extraordinary.”

Fang Qiu threw the Tianshan Rat Hare which was playing dead in the snow in front of him. Then he immediately used his Divine Consciousness to sweep out and began to check the surroundings.

Tianshan Rat Hare knew that there was another chance.

Without hesitation, the moment it landed on the ground, its hind legs kicked fiercely and it ran away again.

At this moment, Fang Qiu's Divine Consciousness was covering every inch of land within a radius of 20 kilometers. Of course, he was aware of the little creature's escape.

However, Fang Qiu was not worried about it.

Anyway, the hare lived nearby, so it would not run far away.

The most important thing now was to determine the topography of the terrain.

After a while, under the exploration of his Divine Consciousness, Fang Qiu finally confirmed the terrain of this area.

The existence of this Tianshan Snow Lotus was indeed related to the terrain, but this terrain was not large. It only covered an area of five kilometers around, which was two times smaller than the Fairy Desert Cistanche's terrain.

Because his understanding of the terrain was still in the initiation stage, Fang Qiu did not know what size of the terrain would be better. But he found another terrain now, which was enough to make him happy.

"A truly unexpected gain."

Fang Qiu burst out laughing.

"It seems that I will be able to get another type of immortal grass."

Since Desert Cistanche could rely on the terrain to be mass-produced, then why couldn't the Tianshan Snow Lotus?

“But I have to go back to the cultivation base first and simulate it with sand to see if the terrain is suitable or not.”

Although Fang Qiu had memorized all the terrain within five kilometers, the terrain was still too mysterious and magical. Fang Qiu could not completely master it. Even if he found a new terrain, he had to test it first to see if it worked.

After he made up his mind,

Fang Qiu squatted and picked up the special Tianshan Snow Lotus in front of him.

“Little guy, it’s time to go home.”

After picking the lotus, Fang Qiu grinned and turned to look in one direction.

It was another mountain peak in Tianshan.

It had to be said that this little hare was so swift, at least much faster than the leopard. Otherwise, how could it reach the top of another mountain in such a short time?

However, the person it encountered was none other than Fang Qiu.

Even if it ran for a few kilometers, Fang Qiu could still get it back, not to mention running to another mountain.

“Whoosh.”

Fang Qiu immediately flew toward the Tianshan Rat Hare.

The distance between the two mountains was neither long nor short.

“Crunch, crunch, crunch...”

The snow-white Tianshan Rat Hare ran all the way to another mountain before finally coming to a stop. It looked back at the long distance and finally calmed down. It then ran to a pale green Tianshan Snow Lotus not far away, squatted beside and began to eat it.

It looked like it was trying to use its anger to satisfy its appetite.

There was no doubt that if this little thing was sold on the market, it would definitely be the pet that numerous people would fight to own, no matter how much it cost.

“Burp.”

After taking a long time to eat the lotus, the little hare suddenly opened its mouth and burped.

Then, without turning its head, it continued to hold the lotus and gnawed at it as if it was starving.

It ate for quite a while until there was only one leaf left on the lotus.

“Are you full?”

At this time, a familiar voice sounded.

The little hare’s body stiffened and then it slowly turned its head, only to see that Fang Qiu was standing behind it with a smile and looking down at it.

The little hare was completely stunned when it saw Fang Qiu again. Its big eyes were very human-like, revealing a desperate look.

It looked at Fang Qiu and then looked at the last leaf of the lotus.

It quickly stuffed the leaf into its mouth, chewed it for a while, swallowed it and then raised its head to look at Fang Qiu. Then it stretched out its limbs and lay stiffly on the ground again, pretending to be dead.

“I’ll take you home.”

Fang Qiu laughed, grabbed the Tianshan Rat Hare and held it in his arms. Then he turned around and returned to the cultivation base.

Medical Master

Chapter 748: What a Powerful Little Hare!

On the way, the Tianshan Rat Hare kept pretending to play dead.

In Fang Qiu’s arms, it did not dare to move and just laid stiffly all the time.

Fang Qiu did not bother to play with it.

They flew all the way back to the cultivation base.

Back at the base, Fang Qiu went straight to the Desert Cistanche cultivation area.

When they arrived, Tianshan Rat Hare’s nose started to twitch. Its originally stiff body suddenly trembled. Then, it abruptly opened its eyes and immediately sprang to life.

Just a moment ago, its eyes were full of despair, but now they were lighted up.

“Coo, coo...”

As if it was no longer afraid of Fang Qiu, the little hare began to struggle wildly in Fang Qiu's arms after opening its eyes.

In the beginning, Fang Qiu did not know that this little hare could exert such powerful strength. Unexpectedly, the hare broke free from him.

What it did now was different from what it did on top of Tianshan.

After the little hare struggled free, it did not run away instantly. Instead, it ran wildly around the cultivation area. Looking at the flourishing plants covered with the Qi of Heaven and Earth, it seemed to have entered a huge treasure house. It immediately found a good spot in the cultivation area and began to dig a pit, ready to sleep in this "golden house".

But after digging for a while, it found that it was not a suitable spot. Then, it went to another place to dig. After a while, it felt that it was not the right place, so it went to another spot.

Seeing this, Fang Qiu shook his head and laughed. Then he ran over, caught the little hare which was digging the pit and picked it up.

"Coo..."

The skin on its neck, which was pinched by Fang Qiu, dangled like an ornament. The little hare struggled madly, its short legs kicking desperately.

But it was of no use even after it kicked wildly for a while.

In the end, it lost all its strength.

The little hare could only stare at Fang Qiu sadly.

"Listen carefully."

Fang Qiu looked at the little guy seriously and said, "I won't hurt you now, but if you want to stay here, you're not allowed to eat things randomly. You have to drive away all the venomous snakes and insects, or I'll roast you!"

"Coo, coo, coo..."

Tianshan Rat Hare didn't care whether it understood what he said or not. After Fang Qiu spoke, it immediately nodded its head crazily, which made people feel that it was just a perfunctory gesture at first glance.

"Pitter-patter..."

It had been two hours. Li Ji, the guardian, appeared again. But this time, he had just run to the periphery. When he saw Fang Qiu, he immediately stopped running and walked straight toward Fang Qiu.

When Zhou Xiaotian and the others, who were busy working in the factory, saw Fang Qiu coming back with a little hare in his hands, they immediately came up and surrounded him.

"Hey."

Walking closer, Li Ji looked at the little hare in Fang Qiu's hand and asked, "Is this the helper you found?"

"What?"

The three roommates who had just surrounded him were stunned. Zhou Xiaotian stepped forward directly, stared at the little hare in Fang Qiu's hand, and said, "Helper? Is this little rabbit a helper? If it is left here, won't it be eaten by snakes?"

"This little guy is so cute."

Sun Hao's eyes lit up.

"It doesn't seem as if it could be a match for the venomous snakes and insects."

Zhu Benzhen gave a wry smile and said, "Fang, are you being serious right now? If these poisonous snakes can't be driven away, I can't work. I was scared by a hemp rope once and almost got sick."

"Coo!"

Seeing so many people coming up, the hare which was held in Fang Qiu's hand, suddenly revealed its front teeth to everyone.

"Wow, you have a temper, don't you?"

Zhou Xiaotian directly reached out and pinched the ear of the Tianshan Rat Hare.

"Coo, coo, coo..."

The Tianshan Rat Hare made an angry sound, but because it was restrained by Fang Qiu and could not move at all. It could only glare at Zhou Xiaotian with rage.

Fang Qiu said, "Though this little hare looks weak, it might be useful. Why don't we try it first and see if it works?"

"How can we test it?"

Zhou Xiaotian asked.

"That's right. These venomous snakes and insects have already disappeared. What can we use to test?"

Sun Hao also asked.

Fang Qiu said, "Everyone, step back and hide. Those snakes and insects should appear soon."

"I think we can do that!"

Li Ji nodded in agreement.

Then, as Fang Qiu instructed, all the people retreated to the factory. The rest of the staff and interns also hid in the factory as instructed by Zhao Shanlin.

When everyone was well hidden, Fang Qiu and Li Ji looked at each other and restrained their strength at the same time.

Then, everyone sat in the factory, drinking tea, chatting and waiting patiently.

Ten minutes later, nothing happened.

Half an hour passed, but there was still nothing.

An hour later, when everyone could not wait any longer...

"It's coming, it's coming!"

Zhou Xiaotian, who had been standing at the gate of the factory and peeping outside, suddenly screamed and said, "There are even more poisonous snakes and bigger snakes than last time. Zhu Benzheng, don't come out."

Sun Hao hurriedly ran up to have a look.

“They really came.”

Looking outside, Sun Hao also turned his head in shock and said to everyone, “There are really more snakes than the last time and there are several big snakes. It looks terrifying.”

“Zhu, turn around.”

Fang Qiu said to Zhu Benzhen and then shouted, “Open the door.”

“Let the dog out!”

Zhou Xiaotian opened the door and said casually.

Fang Qiu was speechless.

The interns and the staff could not help snorting with laughter.

Even Li Ji, who was always so serious, could not help laughing.

“This is a rabbit. Can it be called a dog?”

Fang Qiu curled his lips and said, “Coo!”

Being held in Fang Qiu’s arms, the Tianshan Rat Hare screeched angrily at Zhou Xiaotian.

The door opened.

Zhu Benzhen quickly turned around with his eyes closed and did not dare to look at anything.

Fang Qiu walked out of the factory with the others.

When they looked up, on the periphery of the cultivation area, there was indeed a dense black mass of venomous snakes and insects!

This scene shocked everyone.

Even those who were not afraid of snakes shivered when they saw so many poisonous insects.

Among them, there were several interns who suffered from trypophobia. In an instant, they screamed and closed their eyes and one of them could not help throwing up.

“Go ahead.”

Fang Qiu put the hare on the ground.

Everyone was watching.

They all thought that it was impossible for this little white rabbit to drive away these poisonous insects. If it ran out, it would be eaten alive and only its bones would be left in an instant.

It was to the extent where...

Everyone had already thought of the scene ahead of time.

In the face of the pressure from the whole world, a little hare kept screeching and resisting and was eventually crushed to death by the darkness.

Some people felt it was so cruel.

This was simply like leading a lamb to the slaughter!

Just when everyone was filled with doubts, the Tianshan Rat Hare, which was released by Fang Qiu, ran out fearlessly in a flash when it landed on the ground.

It did not run to hide but rushed out of the cultivation area instantly. It charged violently into the group of poisonous insects outside the cultivation area and bumped away a large group of them in an instant. Even the largest poisonous snake, which was almost as big as a human's arm, was kicked away by it.

Although it was not a guardian beast, the Tianshan Rat Hare could be considered a quasi-guardian beast.

The power of the quasi-guardian beast was extraordinary. It was not something that ordinary cold-blooded animals could deal with.

"Coo, coo!"

After knocking away a group of insects and kicking away the biggest poisonous snake, the little hare roared a few times at all the vermin.

When those poisonous insects heard its roar, they were so frightened that they ran off, one after another.

Even those big venomous snakes made a quick getaway, no longer daring to get close to the cultivation base.

All the people present were stunned when they saw that.

"Oh my god! F*ck!"

Zhou Xiaotian expressed his shock in a horrified tone.

“Damn it, is this a rabbit?”

Sun Hao was also dumbfounded and said, “Why is it even crazier than a dog?”

“I, I touched it just now?”

Zhou Xiaotian looked at his hand and then looked at the little hare who came back with an arrogant air.. He was also instantly stunned.

The other people were so shocked that they could not utter a word.

“Where did you get this little white rabbit?”

Li Ji asked.

“I picked it up on the road!”

Fang Qiu answered.

“What?”

Zhou Xiaotian came up and said, “Why don’t you pick one for me? It’s a real fighter. I feel that this little guy with a rabbit’s face and a dog’s heart should be more powerful than a Tibetan Mastiff. But it has the appearance of a rabbit. If I take it out, it’ll be a powerful tool for me to pick up girls!”

“There’s no more. This is the only one.”

Fang Qiu shrugged his shoulders and spread out his hands.

“Fine.”

Zhou Xiaotian thought for a moment and said with a smile, “Since it’s the only one, I’ll lend this little thing to all the brothers.”

“Pa, pa, pa...”

After finishing its work, the Tianshan Rat Hare ran all the way back and stopped in front of Fang Qiu to ask for credit.

“That’s right.”

Fang Qiu laughed, squatted and gave it a Desert Cistanche to eat on the spot. As he fed it, he said, “If you stay here, you will be able to grow even if you don’t eat anything. If you want to stay, you should eat less. This thing is useful to me. At most, you can eat one in ten days. Do you understand?”

However, as soon as Fang Qiu finished speaking, the little hare immediately shook its head.

Seeing this, Fang Qiu was quite surprised.

Just now, he was wondering if this little guy could really understand what he said. Otherwise, why would it rush out and drive those venomous insects away as soon as he let go?

At the moment, it seemed that this little thing could really understand what he said!

Not only was it able to understand, but it was also able to negotiate terms!

“Five days!”

Fang Qiu frowned and said, “Take one after five days at most.”

“Coo.”

The little hare nodded, then turned around and ran to the center of the cultivation area. It began to dig a hole beside the Desert Cistanche which was the eye of the formation, ready to make its home there.

Fang Qiu was not worried.

For one thing, he had created some Internal Qi at the eye of the formation to protect it. On the other hand, it was the eye of the formation that connected the surrounding Qi of Heaven and Earth and the Qi of Heaven and Earth of the terrain, so ordinary creatures could not affect it.

After doing all this,

“It’s done.”

Looking at the little guy who was digging a hole, Fang Qiu said, “With this little guy here, there will no longer be any poisonous vermin around. You should hurry and tell Zhu. Don’t let his eyes stay closed because of fear.”

Medical Master

Chapter 749: Using the Terrain to Break Through to the Third Class

“Everyone, get back to work.”

In the cultivation base, everyone continued to work under Zhao Shanlin’s instructions.

“Since everything is settled, I’ll go back now.”

Li Ji came to say goodbye to Fang Qiu.

“Wait.”

Fang Qiu smiled and asked, “You don’t want your reward?”

“Of course! Who said I did not?”

Li Ji’s eyes lit up and he immediately asked, “What reward?”

“Follow me.”

After saying that, Fang Qiu walked out of the cultivation base.

Li Ji followed closely behind.

The two of them moved in one direction until they were out of the sight of everyone in the cultivation base. Then, Fang Qiu flew out quickly.

Li Ji turned his head and seeing that there was no one around, he immediately followed him.

In the end, under Fang Qiu’s lead, the two of them arrived at the depths of the desert.

“Why did you bring me here?”

Li Ji asked.

“Wait here.”

After saying that, Fang Qiu immediately flew out and began to work on the terrain according to the layout of Tianshan.

The terrain covered five kilometers.

It was much faster than what he did in the cultivation base.

Li Ji stood in the middle and watched Fang Qiu fly back and forth. He did not know what Fang Qiu was doing.

However, he believed that if Fang Qiu said that there was a reward, it must be good, so he was not worried.

After a long while, Fang Qiu finally stopped.

The terrain covering five kilometers was almost completed!

“Sit down.”

Coming back, Fang Qiu pointed to the ground and said to Li Ji, “With your current strength, you should have reached the peak of the second class. You are only one step away from breaking through to the third class. I made some preparations around here and am ready to help you break through to the third class!”

“Really?”

Li Ji’s eyes lit up.

“Sit down and channel your power.”

As he nodded and spoke, Fang Qiu also sat down cross-legged.

The place where Fang Qiu sat was not the center of the whole terrain. Li Ji was the one sitting in the center of this terrain because from the beginning, Fang Qiu had created this terrain with Li Ji as the center.

Li Ji did not hesitate.

He immediately sat down and began to run his power according to Fang Qiu's request.

After all, he had reached the peak of the second class for a long time, but he had never had the feeling of breaking through. He had always been very confused. He once thought about asking Fang Qiu for advice, but in the end, he gave up. After all, he was a soldier. He was used to using his own power to find a solution for himself no matter what happened, so he did not like asking for help constantly.

But in the end...

No matter how hard he tried, he still did not have the slightest sense of breaking through.

In this case, he could only continue to practice.

He still did not feel anything up till now.

He wanted to ask Fang Qiu for help several times, but always stopped on second thought.

And today, before he could say anything, Fang Qiu took the initiative to help him, which made him very excited.

"Oh, by the way."

Just as he was running his power, Li Ji suddenly stopped and asked, "Will it have any impact on my cultivation if you help me break through?"

“It absolutely will not have any impact.”

Fang Qiu said, “You’ve reached the peak of the second class. In fact, it’s natural for you to break through to the third class, but you have not been able to find a way. What I mean by helping you is actually to help you find the way and then provide you with enough Qi of Heaven and Earth to make a breakthrough. It won’t have any negative effect on you!”

“Okay.”

Li Ji said excitedly, “Let’s begin.”

After that, he immediately closed his eyes and began to practice.

“Great Hand of Destruction!”

As Fang Qiu shouted to himself, he immediately attracted all the Qi of Heaven and Earth around him and poured it into his body. Then, he activated the entire terrain with his own strength.

Although he was not sitting in the center of the terrain, Fang Qiu could still activate the whole terrain without affecting it at all.

After activating the terrain, Fang Qiu felt that the internal Qi under his spot was beginning to surge wildly, erupting from his body and spreading out underground.

In order to speed up the formation of the terrain, Fang Qiu did not disperse the Great Hand of Destruction. Instead, he used it to absorb the Qi of Heaven and Earth.

Under these circumstances, the Qi of Heaven and Earth gushed over swiftly. With Fang Qiu’s body as a medium, it poured into the ground and quickly activated the terrain covering five kilometers!

After the terrain was activated, Li Ji immediately felt as if the Qi of Heaven and Earth around him suddenly became much stronger.

At this moment, Fang Qiu stretched out his right hand.

He pressed directly on Li Ji's chest. While practicing his mental powers, he immediately grasped all the conditions in Li Ji's body.

"Don't resist it."

He reminded him.

Fang Qiu channeled his internal Qi into Li Ji's body so as to let the Qi of Heaven and Earth attracted from the surroundings run through Li Ji's body before it came back to himself. After that, the Qi seeped into the ground, which formed a cycle.

With such a large amount of internal Qi passing through Li Ji's body, it was undoubtedly the best way to help Li Ji sense it.

In addition, Fang Qiu led his internal Qi to the next meridian that Li Ji was about to break through so that he could quickly find the direction.

When Li Ji found the direction of the breakthrough and filled his body with internal Qi, his breakthrough officially began!

At this time, Fang Qiu also quickly withdrew his palm.

He tried his best to slow down the speed of absorbing the Qi of Heaven and Earth as the terrain medium. He gathered most of the Qi of Heaven and Earth around him in front of him so that Li Ji could absorb and use it more easily.

An hour later,

“Hah!”

Li Ji, who had successfully broken through, suddenly opened his eyes and stood up with a loud shout.

“Did you make it?”

Fang Qiu also stood up with a smile.

“I made it.”

Li Ji laughed and nodded, saying, “If there is such a good thing next time, you must let me know.”

“Let’s talk about it next time.”

Fang Qiu said with a smile.

Then, Li Ji thanked Fang Qiu again. Although he got it because he helped Fang Qiu with the vermin, he knew that he did not offer much help. Instead, Fang Qiu helped him a lot!

After thanking him, Li Ji left happily.

On the way back to the cultivation base, Fang Qiu dialed Yang Ningyuan’s number.

“Hello, President Fang?”

When the call was connected, Yang Ningyuan’s teasing voice sounded.

“Mr. Yang, don’t make fun of me. I have not achieved anything yet. You’d better call me by my name directly. I’ll feel better that way.”

Fang Qiu gave a wry smile.

“Why don’t I call you brother?”

Yang Ningyuan laughed.

“Okay.”

Fang Qiu simply nodded and then said, “By the way, I actually called you because of this.”

“It’s just a title. Is it necessary to formally make a call?”

Yang Ningyuan was stunned.

“It’s not that.”

Fang Qiu said with a wry smile, “Here’s the thing. The factory here has almost been completed and the whole cultivation base is almost done, but we can’t operate legally yet. So I want to ask you to help me register a company and get all the certificates that are required.”

“It turns out to be this.”

When Yang Ningyuan heard this, he immediately patted his chest and promised, “Don’t worry. I’ll get it for you immediately. I promise you that your company will be formal and legal and all the procedures will be completed.”

“Okay, thank you very much.”

Fang Qiu thanked him.

“We’re brothers. You don’t need to thank me for that. Haha.”

Yang Ningyuan answered and then hung up. He then immediately called someone to help Fang Qiu register his company.

After returning to the base, Fang Qiu drove out directly. He found a lawyer’s office nearby, drew up a contract and then returned to the base again. He called Zhao Shanlin and his three roommates to the office.

“What’s wrong? Are we going to have a meeting?”

When the four of them arrived and saw Fang Qiu sitting at the desk, Zhu Benzhen instantly became serious.

“Why do we have to hold a meeting? There are only a few of us here.”

Zhou Xiaotian pursed his lips.

“Fang Qiu, why did you call us here?”

Zhao Shanlin also looked at Fang Qiu with a puzzled look.

“Have a seat.”

Fang Qiu asked everyone to sit down on the sofa.

Then he took the printed contract and walked to them, saying, "The cultivation base is almost finished. I've signed the contract for the Desert Cistanche with the cooperative companies. Our company is going to be officially established. Before that, I asked you to come and see this contract. It's our own contract."

After that, Fang Qiu gave each of them a copy to read.

While everyone was reading the contract, Fang Qiu said, "What's written in this contract is the distribution of stock shares. The current distribution is that Mr. Zhao holds 15% of our company's shares. Zhu Benzhen, Zhou Xiaotian and Sun Hao get 15% of the shares in total and I hold 70%."

"You guys can tell me if you have any questions about it."

Speaking of this, Fang Qiu stopped.

"Me."

Zhao Shanlin was the first to raise his hand and said, "I have too many shares. I'm just an employee. It's not right for me to hold a company's share. Besides, you're already paying me a salary. It's a bit too much for me to get the shares."

"Mr. Zhao, that was what we did before."

Fang Qiu shook his head and said, "The money I am giving you is the salary before the company was founded. It can also be said that it's your research fee for helping cultivate the Desert Cistanche. Things are different from before the company was founded. In the future, I still need you to continue to help the company cultivate medicinal materials, grow and take care of the raw medicinal materials. Therefore, you should take this share."

"I agree."

Zhu Benzhen immediately nodded in agreement.

“I agree.”

Sun Hao nodded.

“Mr. Zhao, don’t refuse him. If you think it’s too much, you can split some with me.”

Zhou Xiaotian said with a smile.

“Well... all right.”

Mr. Zhao beamed. After reading the contract, he signed directly.

“Do the three of you have any objections?”

Fang Qiu asked Zhu Benzhen and the other two.

“No.”

The three of them shook their heads in unison.

They knew very well that the reason why this company was able to be established was due to Fang Qiu’s efforts.

Fang Qiu was the one who found the Desert Cistanche, got the place and invested in it. They did not expect that Fang Qiu would give them so many shares. After all, they did not do anything, except to work for him.

Even the three of them felt that 15% was too much for them.

“I know what you’re thinking.”

Fang Qiu looked at the three of them and said, "I've too many things to do, so I'll be so busy. I have to entrust you with the company's affairs in the future, so 15% of the shares is not a lot."

Medical Master

Chapter 750: I Am a Rich Guy with Ten Million?

In the end, the four of them signed the contract.

"By the way, I have good news for you."

After the four people signed the contract, Fang Qiu said, "The two companies working with us are Siqi Pharmaceutical Company and Taikang Pharmaceutical Company. Now, these two companies have been purchased by Yang Ningyuan and Li Qihua. I have discussed the cooperation with Yang Ningyuan before and the last time he came, Yang Ningyuan paid 100 million in advance."

"What?"

His three roommates were instantly stunned.

"100 million?"

Mr. Zhao was also astonished.

He had never seen so much money in his life.

"Is the Desert Cistanche so valuable?"

Zhu Benzhen was so shocked that he stammered.

“You should ask, why is it so valuable?”

Fang Qiu smiled and said, “Although our Desert Cistanche is artificially cultivated, the efficacy of these Desert Cistanche is much better than that of wild ones, so it’s worth the price. I’ve already started the registration of our company and the company’s registered capital is 100 million!”

“100 million. 15% of it will be 15 million. 15 million for three people. It will be 5 million for one person.”

Zhou Xiaotian counted with his fingers, then his eyes widened and the expression on his face changed dramatically. “What the f**k! We are all rich people with a net worth of 5 million now.”

The three of them were all dumbfounded.

In the blink of an eye, they changed from being a person with nothing to a millionaire. This change was so surreal.

Beside them, Mr. Zhao was even more bewildered.

He owned 15% of the company’s shares. That was to say, from the moment the company was established, he had a net worth of 15 million yuan!

“I, I need to take it slowly. Digest it first.”

Zhao Shanlin stood up and took a deep breath.

He was not the only one.

When they heard the price of these shares, the four people felt that they had been given too many shares. It would be equivalent to simply giving them money!

They all felt that they were just here to help Fang Qiu, but they did not expect that they would become rich and possess millions or ten million, while helping him.

The change of status came so suddenly!

Seeing the amazement of the four people, Fang Qiu immediately said with a smile, "Guess how much I sold one gram of the Desert Cistanche for?"

"300?"

Sun Hao answered right away.

"Normally, the price should be between 350 to 500 yuan. Since Yang Ningyuan has given so much deposit at once, I guess the price is not low. It should be about 400 to 450 yuan, right?"

Zhu Benzhen gave a rational analysis.

"Then I'll guess 500."

Zhou Xiaotian grinned and said, "When it comes to making money, the pricier it is, the better!"

"You can't say that."

Zhao Shanlin glanced at Zhou Xiaotian and said, "The medicine sold must be worth the price. According to our Desert Cistanche's quality, I don't think it's only 500. But I can't figure out the exact number."

"Mr. Zhao, you are indeed an expert."

Fang Qiu immediately gave Zhao Shanlin a thumbs-up and said, "The price I sold it for is indeed more than 500 per gram."

“So high?”

Zhu Benzhenɡ was surprised.

“Not high.”

Zhao Shanlin shook his head and said, “We’ve spent 10 million on research and development, including all kinds of investments, the purchase of the land here and so on. I guess the money we spent is more than the deposit. Moreover, I have carefully observed these days and found that the Desert Cistanche we cultivated seems to have a very positive mutation. Although on the surface, our Desert Cistanche looks the same as other Desert Cistanche, the efficacy of our Desert Cistanche is definitely not what other Desert Cistanche can achieve!”

“That’s right.”

Fang Qiu immediately nodded in agreement and said, “Yang Ningyuan has also found a professional institute to test it. After the negotiation, the price we finally agreed on is 2,000 yuan per gram!”

Hardly had he said that when his three roommates and Zhao Shanlin were all stunned!

“What the f*ck!”

Zhou Xiaotian exclaimed, stared at Fang Qiu and said, “Why don’t you just rob him?”

“Isn’t this price too high?”

Sun Hao was also dumbfounded.

“Too high, too high.”

Zhao Shanlin kept shaking his head and said, "Although the efficacy is good, it can't be sold at such a high price."

When Fang Qiu saw the shock on the faces of the four people, he immediately shook his head, smiled and said, "It seems that you guys still don't know about the efficacy of our Desert Cistanche."

After that, he walked out of the office directly. Under the gazes of the four people, he went to the cultivation area and dug up a plant, washed it and soaked it in water after cutting it to pieces.

This time, Fang Qiu did not secretly add his internal Qi to it.

It was because the terrain was now completely formed and all the Desert Cistanche had been nourished by the Qi of Heaven and Earth. It was now totally covered with a huge quantity of the Qi of Heaven and Earth.

While the four of them were puzzled, Fang Qiu washed the Desert Cistanche clean, cut them into slices, put them into four cups and then infused them with hot water.

After infusing it, Fang Qiu said, "We are all practitioners of Chinese Medicine. We should all know that the efficacy of the drug will be better after infusing it. After it cools down, let's try it together."

Hearing Fang Qiu's words, the four of them were really baffled. Was the Desert Cistanche they cultivated so exceptional that even Fang Qiu was surprised?

Soon, the water cooled down.

The four of them picked up their cups to taste it.

After drinking the water, they could feel the comfort spreading through their bodies. This kind of effect was simply unbelievable!

"This, this is the Desert Cistanche we planted?"

Zhao Shanlin was excited.

“Yeah!”

Fang Qiu nodded with certainty and said, “There is a spirit in heaven and earth, which means there is Spiritual Qi. Like this place, because of the abundant Spiritual Qi, the effect of the Desert Cistanche we planted here is quite good.”

After hearing that, the four of them exchanged glances and saw the surprise in each other’s eyes.

“You actually found a treasure land.”

Zhou Xiaotian said, “However, there are too many snakes and insects here, but you also managed to find a rabbit with such intelligence to guard this place. Bro, you are so awesome.”

The others also nodded in agreement.

“There’s more.”

Fang Qiu laughed and said, “I’ve deduced that the annual profit of our company will not be lower than 900 million.”

This figure was calculated by Fang Qiu after he took the cost into account. Excluding the cost, one billion would be reduced to 900 million. After all, he still needed to pay the employees and cultivate the Desert Cistanche and pay for the delivery of the products.

“What?”

Hearing the number given by Fang Qiu, the four people were amazed again!

More than 900 million?

That was to say, after a year, every one of them would have a tenfold increase in their net worth!

Moreover, their annual income was at least ten million or even a hundred million!

This figure was simply too terrifying!

“Bro, I love you so much.”

Zhou Xiaotian was so excited that he directly embraced Fang Qiu’s thigh and laughingly said, “Haha... I’m going to be a rich man with a net worth of ten million net soon.”

As soon as he finished speaking, he immediately jumped up from the ground, took out his phone and called his family. The moment the phone was connected, he shouted, “Mom, your son has become a rich man!”

“Stop it, you brat, what’s wrong with you again?”

A displeased voice came from the other end of the line and then the call was disconnected directly.

“Why don’t you believe me?”

Zhou Xiaotian muttered with a wry smile.

Sun Hao and Zhu Benzhen were also ecstatic.

From a poor student who even hesitated to go to the canteen on the second floor of the school to have a meal, they suddenly became rich and were worth millions. Thinking that they would become rich with ten million a year later, the two of them were naturally excited.

“They suddenly have so much money after being so poor. You have to watch them, Mr. Zhao. Don’t let them be led astray.”

Looking at his three roommates who were so ecstatic, Fang Qiu hurriedly said to Zhao Shanlin.

“Hiss...”

Zhao Shanlin took a deep breath and said, “Don’t worry.”

As he spoke, he looked at the three of them with the same trace of sternness in his eyes he had, when he was training the three of them at the school’s Yaowang Mountain.

However, when he looked at Fang Qiu, his eyes were filled with gratitude!

It was all because of Fang Qiu that he managed to achieve all these.

The appearance of Fang Qiu had changed his life greatly. He was already aged after having worked so hard all his life. It was only now that he managed to realize his dream.

If it weren’t for Fang Qiu, all of this would not have happened.

Therefore, he was grateful to Fang Qiu!

“By the way.”

Fang Qiu suddenly thought of something and said to Zhao Shanlin, “There’s one more thing I need to ask you to do.”

“What’s the matter?”

Zhao Shanlin asked.

“Tianshan Snow Lotus.”

Fang Qiu smiled and said, “I hope that after you finish your work here, you can try to cultivate the Tianshan Snow Lotus. If you can successfully cultivate it, our company will be able to add another business, then the company’s future development will no longer be a problem.”

“In that case, I’ll earn 100 million a year, won’t I?”

Zhou Xiaotian’s imagination had started to soar. While he was imagining, he was grinning foolishly all the while.

“Okay, no problem.”

Zhao Shanlin nodded and said, “Anyway, there are other people here that could help cultivate the Desert Cistanche. Although it’s difficult to find the Tianshan Snow Lotus and the environment for it to grow is also very special, I believe that there is still a great chance to cultivate it artificially.”

“Okay.”

Fang Qiu nodded with satisfaction.

“If there’s nothing else, I’ll go out first.”

After saying that, Zhao Shanlin left the office and Fang Qiu left with him.

Both of them chose to let his three roommates experience this huge impact by themselves. Only in this way could they accept the reality and then truly return to real life so that they would not be blinded by this sudden huge wealth.

Siqi Pharmaceutical Company and Taikang Pharmaceutical Company experienced a fall in their stock price. The companies were being purchased. Then they restarted the trading in the market. Their stock price increased greatly. After a series of events, these two companies, which had finally stabilized, finally announced the merger and restructuring under the watchful eyes of numerous people!

After the merger, the new company was called Hua Yuan Pharmaceutical Corporation!

It consisted of the name—"Hua" of Li Qihua and "Yuan" of Yang Ningyuan.

The official websites of the two companies also released detailed introductions and photos of Desert Cistanche after they merged. Meanwhile, they released a brand new product—Trillium Root-Securing Pill!
