

Medicine 518

Xia yunshang stepped forward and took the paper from the big man. After careful identification, she nodded and said, "yes, this paper is used by my Xia family. What are your brother's symptoms now?"

The big man snorted coldly and said, "just admit it. My brother is outside the door now. "

With that, he turned and walked to the door. He waved and walked into a man who was only five feet tall.

"Is this your brother?" Qin Ming pointed at the little man incredulously.

"Why do I look like you?" The big man stared and Qin Ming asked.

"Ah? Like, really like. "

Xia yunshang looked at Qin Ming and said, "Why are you lying with your eyes open? "

Qin Ming pointed to the big man's knife. Way: "cloud clothes, he....."

"All right, if you're afraid, you can leave now. "

Xia yunshang said this. Qin Ming pointed to her and said, "yunshang, that's what you said. It's just that I have something to do with the Qin family. I'll go first... Go. "

Qin Ming ran away from the hospital.

Seeing this, the big man came forward and said, "Hey, this is my brother. He can't speak now. You say your Xia family medical school doesn't care?"

The little man pointed at himself. Abba walked to Xia yunshang.

The two men are tall and short, as if they were going to eat Xia yunshang.

Right now.

"What are you doing?"

Xiao Chen walked out of the back hall and pushed the little man away.

When the big man saw his brother being pushed, he grabbed Xiao Chen with a big hand, but before he could catch it, Xiao Chen turned his wrist and grabbed the big man's wrist.

A little force.

"Ah!"

The big man cried out when Xiao Chen caught him.

The big man was hurt by Xiao Chen and became angry with shame. The dagger in his other hand stabbed him.

Xia yunshang screamed when he saw this.

The next second, the big man's dagger was hit by Xiao Chen.

Then he kicked the man in the stomach. The man covered his stomach and stepped out a few steps. He didn't stand firm at his feet and fell to the ground.

"Abba, Abba..." seeing this, the little man's brother came forward to help his brother, then pointed to Xiao Chen and kept shouting.

"Since you're talking to my Xia family, what do you mean by doing it?"

Xiao Chen asked coldly, and the mute little man stopped talking. He looked at the big man who was picked up by him.

"Aren't you a fool of the Xia family? What's the matter with you here?"

Xiao Chen said faintly, "since you know I'm a fool of the Xia family, the matter of the Xia family is of course my Xiao Chen's matter. Tell me, when did you get the medicine?"

"Ten days ago. It was the prescription written in your Xia family and the medicine caught in your Xia family."

The big man said it really. At this time, the people watching the excitement also pointed at Xiao Chen.

"How can the Xia family eat people like this?"

"That's right. If you come to the door now, you should admit it. Do you think so?"

"Yes, yes, there is a problem with the medicine. That's the problem of the Xia family. Look at how poor this man is?"

Xiao Chen frowned. He looked at the people who were talking coldly and coldly. It seems that he is not in the medical school just now, and he is not one of the students who often come to the medical school.

I'm looking at this pair of brothers who claim to be brothers. It's not like two brothers. Even if one dragon has nine sons, they are different, but it's too different, isn't it?

Do you?

Xiao Chen naturally thought of several medical schools competing with the Xia family medical school. These days, more and more people see doctors in the Xia family medical school because of themselves and Xia yunshang. Is it because these people are jealous that they arranged this hand to frame our medical school and damage the reputation of the Xia family?

In fact, his analysis is right.

The big man and the small man. And those who spoke to provoke people's emotions were all found by a medical museum called Jishitang in Binjiang city.

The doctor of this medical school was once the best doctor in Binjiang. His name was Ji Heng, but Xia yunshang's reputation has been compared by Xia yunshang since he took charge of the medical school.

Ji Heng is stingy and cruel, so he came up with this idea to let people play dumb. To frame up the poison scheme of Xia family medical school.

"You said there was something wrong with the medicine. Do you have a prescription?"

"I threw the prescription away."

Xiao Chen saw that the big man said so and more determined his idea. How can a normal person throw away the prescription before he has cured his disease and finished his medicine?

"Well, we have accounts." Xiao Chen looked at Aunt Wang and said, "go and get the account."

Aunt Wang was stunned and was about to speak, but she was winked by Xia yunshang.

She had to go to the counter and take out the account book.

Xiao Chen raised the account book and said, "this is the account of drugs in and out in recent three months. What's your name? There are clear records of what drugs you buy."

The big man was slightly stunned and said, "what do you mean by this, account? After all, didn't you write it down yourself? How do I know? Did you rewrite it?"

"Yes, you remember it yourself. How do you know it's not false?"

"Isn't it? Let's say that this fool is so cunning. This Xia family medical school is a black heart medical school. We can't come back to such a medical school again."

"Yes, such a place will only make people sick. The more they see, the more serious they become. Look, what do they eat people like?"

The little man pointed to his mouth and shouted.

People believed what these people said and looked at Xia yunshang as if they were waiting for her explanation.

"Well, you didn't have the prescription, and you said our accounts were false. Then you said, with this medicine wrapping paper alone, how can you say that you ate our medicine and made people dumb? Can't you come to blackmail us?"

Xiao Chen's words made some people who had just doubted the Xia family medical school look at the big man and the small man.

"We blackmailed you. You ate my brother into a mute. Can't we come to you? Don't you treat us poor people as people because you have money and power?"

"Yes, I think it is. Their Xia family despises us poor people and gives them poisonous drugs. Now they admit it. Everyone says, should we call the police and seal it?"

"How dare you?"

Xiao Chen ignored these people, and he was already moved to kill at this time.

If these guys really dare to make trouble here and threaten Xia yunshang's safety, he doesn't mind letting them regret that their parents gave birth to them.

"You, you fool, what do you want?" The big man has just suffered from Xiao Chen's loss. Now he doesn't dare to rush forward to embarrass him.

At this time, one of their accomplices suddenly pointed to Xia yunshang and said, "what are we doing? We have the same experience with a fool. She is a miracle doctor Xia. We still need to find her to solve this matter. "

The man said, and even threw his arms at Xia yunshang.

"Ah! "

Xia yunshang was frightened and screamed.

Just when she was so frightened that she turned and hugged her head and didn't know what to do.

I only heard a dull hum behind me.

The man who just jumped at himself didn't come?

Xia Yunchang turned around curiously and saw that the man was already lying in the corner of the hospital, covering his stomach and crying.
