

Medicine 566

"Lu Zhan! Enough!"

Chen Xuening stared at Lu Zhan and then walked behind Xiao Chen.

She stretched out her hand and pulled Xiao Chen.

Xia yunshang looked back.

The moment when the two women made eye contact.

Xiao Chen only felt as if thousands of troops and horses rushed past him.

He couldn't help but sweat from his back.

"I bet you for him!"

Xia yunshang looked at Lu Zhan and said coldly.

"Miss Xia, you?"

Chen Xuening looked at Xia yunshang with some doubts.

"Miss Chen, this is between me and Xiao Chen, and it's also our family business, so don't bother you?"

Chen Xuening frowned slightly.

She has heard the voice outside Xia yunshang's words.

Smile.

Chen Xuening retreated to one side.

"Is that it?"

Lu Zhan looks at Chen Xuening.

His heart was filled with joy.

This summer's cloud clothes can't be released. As long as the contradiction between Chen Xuening and her exists, Xiao Chen cannot be robbed by Chen Xuening.

Anyway.

All he cares about is Chen Xuening.

"OK."

Lu Zhan looked at Xia yunshang.

"Since you insist. You are husband and wife again, I will give you this opportunity."

Lu Zhan is really confident.

Xia yunshang himself just said that there is no elixir for more than a hundred years to cure sun Lijiang's injury. Immortals are actually very difficult to do.

He simply agreed.

Watching Xia yunshang lose and Xiao Chen lose, the result is the same.

Xia yunshang nodded when he saw Lu Zhan.

She stepped forward.

He took out a cloth bag wrapped with silver needles from his waist.

"What are you doing?"

Xiao Chen saw that she took out this.

He frowned slightly and asked, "do you want to treat him with acupuncture?"

"Yes, we don't have time to use this method."

"But?"

Xiao Chen looked at Xia yunshang, lowered her voice and said, "in the needling method, I know only one method, but..."

He hesitated for a moment.

"Can you really?"

Xia yunshang looks pale.

She shook her head slightly.

"I won't."

"Since you can't, why do you still rule him with this needle?"

Xia yunshang could only take a deep breath and said, "I've seen an introduction to this lost needlework for hundreds of years in ancient books. I think... I want to have a try."

"Crazy!"

Xiao Chen reached out and grabbed Xia yunshang's hand.

"How can you save him if you don't know the 'Fairy needle thirteen moves'?"

Xia yunshang thought.

"I think Fengchi and Taigu can save his acupoints. But... But I don't know the needling technique of the thirteen forms of immortal needle, so..."

Xiao Chen shook his head.

It's not just the technique of using needles. In fact, the real core of the thirteen movements of immortal needles is the assistance of genuine Qi.

No real Qi.

What about the thirteen movements of immortal needle?

Even if Xiao Chen told her the technique needed for the thirteen moves, what could it be?

"Get up!"

Xia Yunshang was obviously in a hurry to save people.

She pushed Xiao Chen away.

"Don't get in the way. If I delay any longer, I'm afraid I can't save him even if I really know the thirteen movements of immortal needle."

Xia Yunshang said and went to Sun Lijiang.

She opened the needle bag.

After thinking about it, I finally took out a filiform needle.

This is the most slender silver needle in her hand. It's only a little thicker than her hair.

Just as she picked up Sun Lijiang's wrist. When he was ready to give him an injection.

Xiao Chen walked to her side step by step.

"Calm your heart and keep your mind on Dantian. Remember, do as I say..."

He said with two fingers. Directly at Xia Yunshang's elbow.

Xia Yunshang only felt that a warm current slowly flowed into his body from the position ordered by Xiao Chen.

"You?"

Xia Yunshang looked at Xiao Chen in surprise.

"Calm down."

Xiao Chen smiled at her.

Xia Yunshang nodded.

According to Xiao Chen, she calmed her mind.

"Gently insert the filiform needle, rotate it counterclockwise, insert it obliquely, twist it nine times and lift it nine times. Remember not to use force, but let me inject the true Qi into your body. Use the needle slowly."

Xia Yunshang listened to Xiao Chen's words. Really shocked.

But her mind just moved.

Xiao Chen already knew.

"Don't be distracted. Just use the needle as I say."

Xia Yunshang was absorbed.

She just guided Xiao Chen to inject the true Qi into her body.

Apply slowly on the filiform needle.

The first filiform needle was stabbed into sun Lijiang's body by her.

I only heard sun Lijiang um say a few times.

The breath is also more stable.

"Taigu."

Xiao Chen whispered a reminder.

Xia yunshang picked up the second filiform needle.

The same way.

She stabbed sun Lijiang's acupoint again.

"Ah!"

Sun Lijiang stabbed Xia yunshang into the second acupoint.

He shouted.

The whole man sat up from the ground.

"Sir, sir, are you okay?"

Wang Xue was about to come forward.

"Go away!"

Xiao Chen said in a deep voice.

This sound.

Wang Xue was also startled.

"You, what are you yelling at me!"

Wang Xue angrily pointed to Xiao Chen and asked.

"Get out!"

Sun Lijiang opened his eyes slightly at this time. He looked at Wang Xue angrily.

"Ah?"

Wang Xue was surprised.

She didn't expect that sun Lijiang could really talk.

But.

To her surprise. His own man, unexpectedly for a Xiao Chen, will scold himself in front of so many people.

"Sir, i..."

"Shut up."

Sun Lijiang was obviously afraid that she would disturb Xia yunshang and Xiao Chen.

His eyes stared at Wang Xue coldly.

Scared her aside.

But she looked at Xiao Chen like two knives. If there were a knife in her hand at the moment, it might have been inserted into Xiao Chen's body.

Xia yunshang here took out the last filiform needle.

"Which acupoint?"

She asked in a low voice.

"Jade pillow."

"What?!"

Xia yunshang was stunned by the acupoints he said.

"If the jade pillow is inserted into the needle according to the angle you said, I, I'm afraid..."

"What are you afraid of?"

"I'm afraid I'll hurt him."

Xiao Chen smiled faintly and said, "don't worry. With my true Qi to help you, you can't hurt each other."

Xia yunshang hesitated.

"Come on."

Xiao Chen made a voice and urged.

Xia yunshang was the first to see. Xiao Chen was so serious and spoke to himself in such a heavy tone.

But somehow.

She was not angry at all.

Instead, sink your heart and pick up the filiform needle.

He touched the jade pillow on the back of sun Lijiang's brain.

She pressed her finger slightly on the acupoint.

Then hand up and needle down.

The filiform needle slanted into sun Lijiang's jade pillow.

Hoo

Sun Lijiang took a deep breath.

Then he took a long breath.

He slowly opened his eyes.

"Thank you, doctor Xiao, and doctor Xia."

Xiao Chen looked at Sun Lijiang and said faintly, "don't talk first, guide the true Qi into the Dantian, and remember not to be too fierce."

Sun Lijiang nodded slightly.

Close your eyes.

About ten minutes.

Remove the three needles of summer clothes.

Sun Lijiang slowly opened his eyes.

He glanced at the crowd in front of him.

Then he set his eyes on Lu Zhan.

Sun Lijiang said coldly, "Lu Zhan, you are so cruel!"
