Chapter 1151: Bad Terms on Meeting

Along the way, through Shark One's introduction, Ye Yuan got to know that the merman clan's king was called Tong. His strength was fearsome.

Upon meeting today, it indeed lived up to the reputation.

"Ye Yuan has seen Your Majesty." Ye Yuan cupped his fists, considered to have paid his respects.

His way of doing things made the group of powerhouses behind His Majesty change countenance agitatedly.

"Audacious human! To actually dare be so impertinent towards His Majesty!"

"Insolence! Seen His Majesty and still not bowing!"

"Your Majesty, this boy is haughty and rude. He definitely doesn't have much capability. Perhaps, he's here to swindle the Pearl Have Tears!"

Tong had yet to say anything when those merman clan powerhouses behind him already erupted.

Ye Yuan's attitude made them very displeased.

In their view, humans were lowly. Seeing His Majesty, they should give a solemn bow.

No matter how powerful Ye Yuan was, that was all Shark One saying it when he returned. They all had not witnessed with their own eyes.

Now, when they saw that Ye Yuan was only Seventh Level Dao Profound, all of them could not help looking down on him, thinking that Ye Yuan was deliberately deceiving them.

Alchemists capable of refining the Purple Void Vitality Spirit Pill also had to reach Divine King Realm no matter what, right?

Not just them, even when Tong saw Ye Yuan, he had a disappointed look too.

Shark One praised how very powerful Ye Yuan was previously, but he did not mention Ye Yuan's Martial Dao cultivation.

Him coming out to welcome in high spirits could be said to be very sincere already. But seeing that Ye Yuan was only Seventh Level Dao Profound, he was naturally greatly disappointed.

Ye Yuan swept a glance over everyone, and his expression turned intent as he said, "His Majesty hasn't even spoken yet, and each and every one of you jumped out. Do you have any respect for His Majesty at all? Could it be that the merman clan's officials are all so insolent?"

With just one sentence, it made those merfolks who were jumping around instantly become mute.

"Y-Your Majesty, we didn't mean that."

Tong waved his hand, indicating for them to shut up. He then said to Ye Yuan, “Young man, you ... really have confidence in refining the Purple Void Vitality Spirit Pill? I’ll say the nasty things first. If you let this king discover that you’re making a fool out of our merman clan, this king definitely won’t spare you!”

Only when those merman powerhouses saw that His Majesty did not have the intention of pursuing it did they let out a sigh in relief.

Ye Yuan said with a smile, “Your Majesty, I haven’t even entered the front door yet, and you’re threatening me. Could it be that this is your merman clan’s hospitality? Also, doesn’t Your Majesty know that alchemists ... can’t be offended? Your attitude, this young master don’t dare to guarantee what the hell I’ll refine out!”

Ye Yuan originally did not want to be overbearing. Who knew that this bunch of fellows went from bad to worse.

He originally saw Tong receive personally and was even a little bit moved. He did not think that Tong was also a stuck up fellow.

If not for the Pearl Have Tears, he would have just left without saying goodbye.

Alchemists naturally could not be offended. Because it was seriously too easy for them to want to do a little underhanded trick in the medicinal pill.

At that time, they would not even know how they died.

Tong had underestimated Ye Yuan too. Otherwise, he would not say such words either.

Ye Yuan’s words made everyone’s faces change.

This was a blatant threat!

In this underwater world, there was actually someone who dared to threaten the merman clan’s king. Truly had no idea of death or danger.

“You dare to threaten this king?” Tong’s eyes glared. A terrifying aura pressed over towards Ye Yuan.

However, when this aura arrived in front of Ye Yuan, it actually directly dissipated into nothing, as if it had never appeared before.

Seeing this scene, Tong’s two eyes could not help turning intent, and he put away the belittling intent.

This young man did not seem to be as simple as on the surface!

By the side, Shark One saw that the situation seemed to be getting rather out of control and hurriedly stepped forward to resolve the awkwardness by saying, “*Haha*, everybody, calm down, calm down! Your Majesty, Master Ye is absolutely the most formidable alchemist that this official has seen, not one of! Don’t humans have a phrase called seeing is believing? Not personally seeing his strength, how can one easily deny it?”

Tong gave him a glance and said coolly, “Alright then. Whatever there is, go back to the clan first before talking!”

Shark One hurriedly came before Ye Yuan and apologized vigorously.

The clansmen did not know Ye Yuan's terror, but he was deeply aware of Ye Yuan's terrifying aspects.

How Ye Yuan killed the Heavenspan Island Master, he did not see it.

But the spectacle of Ye Yuan killing Hei Meng was still vivid in his mind!

Too astonishing!

It was just that saying this sort of words, nobody would believe at all.

A Seventh Level Dao Profound martial artist actually finished off a peak Void Mystic powerhouse so effortlessly.

Ye Yuan gave him a glance and said smilingly, "This minor thing, I naturally won't take it to heart. But ... I don't wish for people to come and provoke me."

The moment Shark One heard, he hurriedly nodded his head and voiced his assent, "Your Excellency, rest assured. When Shark One returns to the clan, I'll explain to His Majesty!"

Bad terms on the first meeting!

Actually, Ye Yuan was very understanding of the merman clan's thoughts too. He was seriously too young. It was very easy to give people the impression that young people could not be trusted with important tasks.

In reality, it was also not once or twice that he encountered such a thing.

As long as these people did not act blind and provoke him, everything could be discussed.

After all, he really needed a one-million-year-old Pearl Have Tears too.

...

"Shark One, look what you've done! You sent Shark Three back, saying that you found a very formidable alchemist. But what kind of person did you bring back? *Huh?*"

Upon returning to the clan, Shark One first arranged residences for Ye Yuan's party, then hurriedly came to find Tong to explain.

Of course, what greeted him was Tong's raving bellows.

"Exactly! Shark One, His Majesty saw that you're normally sharp, that's why he let you go to the Nine Phoenix Island to handle affairs. But you brought back such a brat whose hair isn't even fully grown. What can he do?"

"Shark One, don't think that we don't know if we don't go ashore. The human race's apex alchemists, how can they be of this age? You ... Aren't you messing around here?"

...

Not just Tong, the merfolk clan's clansmen also started to reprove Shark One.

It was seriously that the feeling Ye Yuan gave him was too unreliable.

Originally, they heard Shark One boast until flowers cascaded from the skies. Now, upon seeing Ye Yuan, this contrast was too great.

Shark One did not defend himself either, just quietly waiting for these guys to finish reproving before laughing coldly and said, "Nine Phoenix Island? That has already become the past!"

"En? Shark One, what's the meaning of your words?" Tong's gaze turned intent, and he asked.

No idea why, he had a feeling that the meaning in Shark One's words seemed like this matter had some connections with Ye Yuan.

Shark One gave a bow toward Tong, then told the events that happened on the Nine Phoenix Island exactly as it was.

"Impossible! That Hei Meng is the blood brother of the Black Shark Clan's king! His cultivation was only slightly inferior to the Black Shark Clan's king. How can a mere Seventh Level Dao Profound human possibly kill him?"

"Shark One, your ability of cooking up wild tales is getting more and more impressive!"

"That brat looks to be around 30 years old. Even though his strength is decent, to say killing Hei Meng, isn't it preposterous?"

Shark One met with the clansmen questioning the moment he finished telling.

Telling this sort of words, nobody would believe it either.

However, Tong became lost in thought.

Chapter 1152: The High Priest Knows!

"You're saying that the 20 feet in front of him is a restricted area?" Tong asked with furrowed brows.

Shark One nodded his and said, "Ain't that right! When Master Ye was transcending tribulation, so many people were watching! The power of that heavenly tribulation absolutely rivals the all-out attack of a Void Mystic powerhouse. But that heavenly tribulation actually spontaneously dissipated when it reached 20 feet in front of him!"

Thinking of Ye Yuan's god slaying-like 20 feet restricted area back then, Shark One still had lingering fear in his heart until now.

But Tong fell silent when he heard it.

Him releasing pressure previously also carried the intention of probing.

But just as Shark One said, when his aura arrived 20 feet in front of Ye Yuan, it was no longer able to advance an inch further.

With his strength, going to pressure a Seventh Level Dao Profound, such a bizarre situation had never occurred before.

“Shark One, then how confident do you feel this Ye Yuan refining the Purple Void Vitality Spirit Pill is? You’re also aware of the importance of the Purple Void Vitality Spirit Pill to Xun-er,” Tong inquired.

When Shark One heard, he said with a bitter smile, “Your Majesty, pill refinement this sort of thing, who can guarantee? Even our sea race’s alchemists, likely no one dares to say this sort of words to Your Majesty either, right? However, I witnessed Master Ye’s alchemy skills with my own eyes. It absolutely reached the acme of perfection! This point, Shark Two can bear witness!”

Shark Two immediately said when he heard: “Your Majesty, Shark Two can bear witness, Master Ye’s Alchemy Dao is absolutely seldom seen in my lifetime! High Priest Li ...”

Talking up to here, Shark Two suddenly felt like he spoke too much and hurriedly shut up

However, everyone understood his meaning!

High Priest Li was far inferior to Master Ye Yuan!

High Priest Li was the most formidable alchemist of the merfolk clan. His Alchemy Dao’s strength was also among the very best in the entire sea race.

It was just that ... his temper was very explosive.

The matter of finding Ye Yuan to come and refine pills, Tong deliberately hid from him. He was afraid of him jumping out and causing trouble

When Tong heard that, he let out a sigh and said, “Although that’s the case, the Purple Void Vitality Spirit Pill is Xun-er’s last hope.”

Tong also knew that the Purple Void Vitality Spirit Pill was not easy to refine. But he lost himself in his concern and somewhat lost his composure for a moment.

Mystic grade medicinal pills, how many alchemists dared to guarantee that they could 100% refine it?

The Purple Void Vitality Spirit Pill was not an ordinary medicinal pill. Even Ye Yuan also just saw it in records. The difficulty of refining could be imagined.

Forget about 100%; the sea race’s alchemists did not have even 5% assurance.

Listening to what Shark One saw and heard on the Nine Phoenix Island, those merfolk powerhouses all felt like they were listening to a fairy tale.

They were still half-doubtful, half-believing. Could a Seventh Level Dao Profound human martial artist have such terrifying Martial Dao strength and Alchemy Dao strength?

This sounded like a fairytale no matter what.

But they were not worried either. Alchemy, this sort of thing, ultimately needed one to showcase their true abilities.

If they discovered that Ye Yuan was only here to swindle the Pearl Have Tears, his outcome would definitely be very tragic!

This large group of people was discussing official matters when all of a sudden, there was a subordinate who came to report flusteredly.

“Your Majesty, not good! Things are not good!”

Tong’s expression turned sullen, and he reproached, “Kicking up a big fuss for what? Don’t you see that we’re discussing official business?”

That subordinate said, “High Priest Li, he ... he went to challenge that human alchemist!”

That subordinate’s words made everyone’s expression change.

Tong’s face turned black, and he said, “Didn’t I say that nobody is allowed to let him know? What’s the matter with you all? Who let it slip out of their mouths, beat them to death for me!”

“Wait a minute, Your Majesty! Since High Priest Li wants to go and challenge him, then why don’t we ... push the boat along the current, and witness his Alchemy Dao’s strength a bit?” At this time, an elder stopped Tong.

Tong’s eyes lit up, thinking that this idea was good.

But the expression of Shark One by the side changed.

But when he saw His Majesty’s highly-spirited appearance, he sensibly shut his mouth.

He knew that if he did not let them take a look at Master Ye’s strength, they would not give up.

...

After reaching the residence, Ye Yuan studied the Black Tortoise Treasure Body Divine Art.

This cultivation method was indeed incomparably powerful. If he could cultivate the Human Path chapter to the realm of Tier 9 great circle of perfection, it was virtually impervious to blades and swords.

Unless it was the Ten Great Divine Kings, that kind of powerhouses who grasped Divine Dao laws, even if he stood there and did not move, ordinary martial artists probably could not even breach his defenses.

The black tortoise clan’s defensive prowess was indeed powerful until it made people despair.

It was just that this cultivation method was not easy to cultivate.

Even if Ye Yuan’s horizons were exceedingly broad and his foundation was exceptionally good, he could only cultivate to the fifth level too. There was still a very great distance away from the ninth level.

Bang bang bang!

Suddenly, a series of knocking sounds interrupted Ye Yuan’s thoughts.

Ye Yuan’s brows knitted together. Clearly, he was very displeased towards this sort of interruption.

Opening the door to take a look, it was a merfolk clan’s little girl.

Different from the merfolk clan’s men’s hideousness, this clan’s women were all beautiful like celestials. They were even more beautiful than the vast majority of human girls.

This young lady in front of him was precisely the girl that Shark One arranged to be in charge of his daily life and accommodations, called Lian Qiu.

Toward this little girl, Ye Yuan was still very satisfied. She was beautiful, obedient, and very sensible.

He instructed her not to come and disturb. Could it be that something happened?

Ye Yuan had yet to figure out what was happening and was dragged out by Lian Qiu. As she ran, she explained, "Your Excellency, quickly go! High Priest Li heard that His Majesty invited a human alchemist over and is greatly enraged, and is already rushing over here! High Priest Li's Martial Dao's cultivation is extremely formidable. Furthermore, his temper is very bad. I'm afraid that he will hurt you. Hurry up and leave from the back-door!"

The moment Ye Yuan heard, he was tickled.

He did not expect that this little servant girl was actually still so concerned about him.

Ye Yuan's figure stopped. How could Lian Qiu be Ye Yuan's match? With a bounce, she actually bumped into Ye Yuan's embrace.

A masculine figure hit her head-on, making Lian Qiu involuntarily flush bright red.

Ye Yuan asked with a smile, "I'm just a human, so why do you want to help me?"

Lian Qiu used pure eyes to look at Ye Yuan and said in puzzlement, "I ... Lord Shark One made me take care of you. I ... I naturally can't let anything happen to you!"

Talking up to here, she suddenly came back to her senses, dragging Ye Yuan's hand and was about to go, saying anxiously, "*Oh* no, Your Excellency, there's no time, quickly leave! High Priest Li is going to reach soon!"

But Ye Yuan was unwilling to go and said with a faint smile, "*Huhu*, if I can't even best your clan's high priest, do you think that Shark One will invite me back? Relax. On account of your face, I won't fuss over trifles with him"

The moment Lian Qiu heard, she was dumbstruck.

Not fuss over trifles with the high priest?

In her eyes, the high priest was a paramount existence, second only to His Majesty.

But this young man before her eyes looked to be merely 30 plus years of age no matter how one looked.

What right did he have to say such raving words?

But Lian Qiu also felt that what Ye Yuan said was very reasonable.

If Lord Shark One felt that Ye Yuan was inferior to the high priest, why would he invite him back?

Just as Lian Qiu was wavering hesitantly, High Priest Li rushed over in great haste.

Chapter 1153: On-the-Spot Teaching

“Where’s the human alchemist?”

“Where’s the human alchemist? Quickly get out here for this seat!”

A boorish, loud voice shook until the building was about to collapse.

“Stop shouting, I’m here.”

Ye Yuan’s figure slowly walked out, while Lian Qiu followed behind him carefully, her eyes filled with worry.

When Li saw Ye Yuan, his gaze was filled with disdain.

“Did Shark One that brat lose his head? Finding a brat like you over, is this making fun of our merfolk clan? This seat already came to an agreement with His Majesty and was going to help Xun-er refine the Purple Void Vitality Spirit Pill. Is Shark One this punk finding trouble?”

Li’s voice was like a resounding bell, shocking until people’s eardrums hurt.

This appearance did not look like a person who did pill refinement, this kind of meticulous work.

Ye Yuan said coolly, “You say making fun, that works too. It’s just that ... I wonder if you have enough strength or not to amuse me.”

With Ye Yuan’s perception, he had long detected that there were quite a few people currently spying upon here.

He knew that if he did not bring out a bit of ability, he would really be looked down upon by this bunch of fellows.

Might as well, Ye Yuan would simply teach this old man a good lesson and let the merfolk clan’s people know the terror of his, Ye Yuan’s, Alchemy Dao’s strength.

“You! Age isn’t big, but your tone isn’t small! A brat like you hasn’t even fully grown your hair, and you dare to speak this sort of big talk? Originally, I even thought that Shark One that punk invited some experts. Seeing you, I can’t be bothered to even take action! Brat, take the chance when this seat is in a good mood today, hurry up and scam out of the merfolk clan. Otherwise, you can forget about ever leaving!” Li said in a solemn voice.

Ye Yuan smiled and said, “What? You, as the merfolk clan’s high priest, could it be that you’re still scared of me, this junior?”

Li’s fish eyes glared, and he shouted at the top of his voice, “Scared? You brat, I think you’re tired of living!”

Ye Yuan could not be bothered with him and said coolly, “Not scared, so then let’s have wager. How’s that?”

“Betting with this seat? Brat, this seat wagers your life, do you dare or not?” Li said with a cold smile.

“What’s to not dare? If I lose, take away this life. If you lose, kneel down and give this young master three kowtows, and acknowledge me as your master. How’s that?”

Seeing Ye Yuan's appearance of cornering him, how could Li still endure it? He barked, "Compete then, would this seat be scared of you, this brat?"

As he said, his fish eyes swiveled, and he said with a cold smile, "Boy, you set up a trap for this seat? Don't tell me that we're competing in refining human medicinal pills! The, this seat won't!"

It was already pretty good for the sea race's alchemists to be able to refine demonic pills well.

Having them refine human medicinal pills, that was impossible.

Ye Yuan said indifferently, "Compete in demonic pills then! As for the pill formula, you pick it."

Li's face turned black. Ye Yuan's attitude was looking down on him from the start!

As the high priest, how could he endure such triggering?

"*Hahaha*, what an arrogant boy! Letting this seat choose the pill formula, don't you regret it!" Li was thoroughly infuriated by Ye Yuan's attitude.

Ye Yuan shrugged his shoulders and said, "There is no regret, this word, in this young master's dictionary. Just pick the one that you're best at. To this young master, there's no difference."

"Good, arrogant enough! Since you have no idea of life or death, compete in the Demon Whirl Pill then! Don't blame this seat for bullying you. If you don't know the pill formula, this old man can give you three days' time to deduce the pill formula," Li said.

The moment Ye Yuan heard, he was tickled. This old man's temper was a little explosive, but he seemed to be identical as Shark One; his thoughts were very pure. He actually even wanted to give him three days' time to deduce the pill formula.

However, this Demon Whirl Pill was just a very ordinary Tier 9 demonic pill. It did not count as much. Ye Yuan naturally knew the pill formula.

At once, Ye Yuan said coolly, "No need, begin right now."

Gong!

Ye Yuan directly brought out the Dragon Sovereign Cauldron and started refining.

The Demon Whirl Pill was just an ordinary demonic pill. The spirit medicines it required, Ye Yuan did not lack any inside his storage ring.

He scoured the entire Immemorial Medicine Garden. The spirit medicines in his storage ring were too numerous to count.

As long as it was not overly valuable spirit medicines, he really did not lack.

However, when Li saw this scene, his eyeballs popped out.

Before refining pills, didn't one need to take a bath and burn incense, meditating to concentrate?

This ... What kind of pill refinement was this?

Furthermore, when he came out, he did not bring along the Demon Whirl Pill's spirit medicines on him. At this time, he could stand at one side blankly, and watch Ye Yuan refine pills.

"Hehe, you all look! This human alchemist is displaying meager skills before an expert in front of the high priest!"

"High Priest is one of the very best alchemists in the entire sea race. This human is merely Seventh Level Dao Profound. Compared to High Priest, he's far too lacking, right?"

"Isn't that so! Heard that this is the human alchemist that Lord Shark One invited back, saying to refine the Purple Void Vitality Spirit Pill for Young Patriarch. Isn't this messing around?"

...

At this time, quite a few servants also crowded over.

However, they were clearly not optimistic about Ye Yuan.

They were all not alchemists, but more or less still knew a little about alchemy.

They had never seen before which alchemist would refine pills 'unprofessionally' like this in front of everyone.

"Hahaha, ignorant child! Refining pills like this, how is there the logic of forming the pill? Wasted a bunch of Tier 9 spirit medicines in vain!" Li laughed loudly and was full of disdain.

Ye Yuan did not care about him and started refining on his own. His actions were completed from the beginning to the end without stopping.

Soon enough, Li could not laugh anymore.

When experts made their move, the genuine and the fake would become clear at a glance!

Ye Yuan's set of alchemy technique was simply too pleasing to the eyes and mind.

Not just the high priest, those servants surrounding and watching could not laugh anymore either.

They were completely brought into a daze with this pill refinement by Ye Yuan!

Ye Yuan forcefully turned the dreary pill refinement into a grand banquet of art!

Those who knew the profession, they gleaned considerable benefits. Those who did not know, they had a feast for their eyes.

Li had long tossed the matter of the competition beyond the ninth heavens already. He was already completely absorbed by Ye Yuan's alchemy skills.

The refinement of demonic pills was not exactly the same as the human race, but all roads led to Rome.

In Ye Yuan's eyes, there were originally no distinction of whatever human race, demon race.

When researching medicinal pills in his previous life, he had always broken down the medicinal pills to the most primitive make-up to research.

This solid foundation skill was not done in vain.

Alchemy Dao would not be divided into human and demon.

Grasping the true Great Dao, many things were drawing parallels from inferences.

Previous life, Ye Yuan's researching into demonic pills similarly reached the degree of the acme of perfection.

"Ah? Turns out that when refining the Demon Whirl Pill, I need to reduce the flames' intensity at this time!"

"Ah! So that's how it is! Using the complete extinguishing method here to quench the medicinal pill, why didn't I think of it!"

...

Li was just like a curious baby at this time, contributing emoticons by the side non-stop. How was there still that fierce and awe-inspiring appearance earlier?

Ye Yuan's alchemy skills brought him into another world.

"Condense!"

Following Ye Yuan's light cry, only then, did Li came back to his senses from inside the world of pill refinement.

Seeing the transcendent-grade Demon Whirl Pill in Ye Yuan's hand, Li involuntarily shuddered. Only at this time did he remember the bet.

Unrivaled Medicine God

Chapter 1154: Completely Convinced

"High Priest, it's your turn," Ye Yuan looked at Li and said with a smile that was not a smile.

Li's face turned red, and he stammered, "This ... This ... This doesn't count! The Demon Whirl Pill is merely the simplest Tier 9 demonic pill. Want to compete, let's compete in high-grade Tier 9 medicinal pills!"

This Li actually acted scoundrelly.

"High Priest, the Demon Whirl Pill was suggested personally by yourself. How can you go back on your words?" Lian Qiu said this sentence at the behest of supernatural powers.

This sentence made Li even more embarrassed.

His face turned back, and he glared with his fish eyes as he said fiercely, "Little lass, you dare to say such words to this seat?"

Lian Qiu was frightened by him and instinctively hid behind Ye Yuan.

Ye Yuan scoffed, "What? Is it very impressive to put on airs in front of a little girl?"

Li's expressions alternated between green and purple. Actually, he already admitted defeat in his heart. It was just due to a matter of face that he did not wish to kowtow and acknowledge Ye Yuan as his master in front of so many people.

Letting him refine a transcendent-grade Demon Whirl Pill, if he had pure dumb luck, he could still refine it.

But it was absolutely impossible to be so relaxed and cheerily like Ye Yuan.

Right at this time, Ye Yuan suddenly said, "Don't want kowtow and acknowledge as your master, also can. But you have to agree to a condition of mine!"

The moment Li heard this, it was like he was granted amnesty, and he hurriedly said, "Okay, okay, okay! As long as you don't let this seat kowtow, any conditions will do!"

Ye Yuan pushed Lian Qiu in front of the high priest and said, "Take her in as a disciple!"

Li was stunned, somewhat perplexed by Ye Yuan's action.

He even thought that Ye Yuan would state some harsh conditions. He did not think it was actually to have him take a servant girl as disciple.

This was a huge favor. He did not expect that Ye Yuan used it up so easily.

It was just that to Lian Qiu, it was undoubtedly a bolt out of the blue.

She turned around and looked at Ye Yuan strangely as she muttered, "Y-Your Excellency, I ... I ..."

Ye Yuan smiled and said, "What? You're not willing?"

Lian Qiu's head started nodded like a chicken pecking for rice.

Of course she was willing!

In this place, she was merely a servant; she had no resources, no background, fading away into the masses.

But, if she became the high priest's disciple, that was really the carp leaping over the dragon gate ¹.

"Good that you're willing. What are you still standing there for? Why haven't you hurry up and acknowledge as your master?" Ye Yuan said with a smile.

Lian Qiu turned around again and look towards Li timidly, fearful that he would not agree.

Li's face turned back, and he said, "What are you still standing there blankly for? Kowtow and acknowledge me as your master! From this day forth, you're my, Li's, final disciple! Uh ... what's your name called?"

Lian Qiu was overjoyed and knocked her head to the ground and said, "Lian Qiu pays respect to Master!"

Lian Qiu never would have dreamed that she could actually have such a day.

The sea race's social stratum was stringent. A little servant girl like her absolutely did not have the chance to see daylight.

But now, Lord Ye Yuan, gave her this opportunity, changing her life.

"Haha, good, good disciple! All of you listen up for me, from today onwards, Lian Qiu is my last disciple! If anyone of you were to dare bully her, that's setting yourselves against this seat! Now, all get lost for this seat!" Li's expression changed, saying to everyone.

These people were all aware of the high priest's prowess. How could they still dare to stay? They immediately dispersed in an uproar.

However, those clansmen who had once bullied Lian Qiu before, each and every one of them was alarmed and on tenterhooks at this time, fearful that Lian Qiu would come and find trouble with them.

Lian Qiu was only a little servant girl. There was naturally no lack of people bullying normally.

It was just that they never thought that this little servant would have a 180 degree transformation, becoming the high priest's disciple.

The high priest's disciple, in the clan, even some elders could not compare!

Seeing everyone disperse, Li actually changed to a smiling face and said to Lian Qiu, *"Haha, good disciple, you go out first. Tomorrow, come and report to master. Right now, I still have matters to discuss with Master Ye."*

Lian Qiu looked at the high priest with a look of surprise, as if feeling like she did not recognize him.

When did the high priest become so amiable and friendly?

However, Lian Qiu still used soliciting eyes to look toward Ye Yuan.

To her, Ye Yuan was her greatest benefactor!

This point, she was deeply aware of it.

Ye Yuan naturally knew what ideas Li had. At once, he smiled and said to Lian Qiu, *"You go out first then."*

...

"Lian Qiu, ah, no no no! Lord Lian Qiu, that ... The things in the past, it was all me who was blind and didn't have eyes. Y-Your Excellency, just treat me as a fart and let me go!"

The moment Lian Qiu came out, a merman came up to greet, kneeling down with a thud, slapping his own face desperately. But it gave her a fright.

This merman, Lian Qiu was naturally familiar. It was her direct superior who had no lack of bullying her normally.

But now, he was kneeling in front of her like a dead dog.

This sort of change made Lian Qiu have a feeling like she was dreaming.

Lian Qiu suddenly realized that the current her actually already had the power to control the life and death of the people who bullied her originally.

However, Lian Qiu was still that kind-hearted little girl. She attempted to pull a long face and said, "The past matters, forget about it! But, if you let me discover that you bully my sisters, I definitely won't let you off!"

It was like that merman was granted amnesty, and he hurriedly said, "Yes, yes, yes! Lord Lian Qiu, rest assured. I won't dare anymore in the future, won't dare anymore in the future!"

Those waiting for Lian Qiu were not just that one. When the others saw Lian Qiu spare that merman, they all scurried out all at once.

There were those who fawned on her, those who begged for forgiveness, those who relied on connections to request for help, so on and so forth.

Lian Qiu did not refuse the arrivals, handling them one by one.

But she deeply sensed that she really seemed to be different already.

And all of this was bestowed upon by that man!

Lian Qiu thanked Ye Yuan from the bottom of her heart.

...

After Lian Qiu left, High Priest Li followed Ye Yuan into the room subserviently.

Seeing Ye Yuan sit down, High Priest Li did his utmost to please and actually took the initiative to pour tea for Ye Yuan!

If this scene were to be seen by other people, their eyeballs would probably fall out.

The fiery-tempered high priest actually served tea for someone!

Ye Yuan received the tea that Li passed over and said coolly, "Whatever you don't understand, ask away. If your appearance was seen by your clansmen, wouldn't they exterminate this young man?"

Li glared and said angrily, "They dare?!"

Immediately after, he changed to another expression and asked carefully, "That Demon Whirl Pill ... how can it be refined like that still?"

Ye Yuan smiled and countered with a question, "Why can't it be refined like that? However ... with your Alchemy Dao's standard, better don't think anymore for the time being."

Ye Yuan's pinnacle refinement was established on his extremely solid foundational skills.

This level of refinement was not what anybody could achieve.

Disregarding other things, for Li to want to refine a Demon Whirl Pill, it needed at the very least three days and above too.

But Ye Yuan only used two hours plus and was done.

It was also precisely because of the refinement this time that Li knew how great the disparity between him and Ye Yuan was!

Although he did not wish to acknowledge Ye Yuan as his master due to face, if he was able to obtain Ye Yuan's guidance, it could let him glean considerable benefits.

Chapter 1155: Deducing Pill Formula

"Shark One, this matter, you did very well! Letting you go to the Nine Phoenix Island was truly a wise decision! This Master Ye, this king is satisfied to the extreme!"

Witnessing Ye Yuan's strength, Tong's tightly knitted brows finally eased up.

He had heard that the high priest had been hanging around Master Ye constantly these two days like a little attendant, just missing calling Master, this word.

Shark One smiled simple and honestly when he heard that and said, "Your Majesty is too kind! This ... The Purple Void Vitality Spirit Pill hasn't been refined yet. Shark One doesn't dare to claim the credit."

Towards Shark One, Tong was extremely satisfied.

Seeing that Shark One was actually so modest, he felt even more pleasing to the eyes no matter how one looked.

"En, if Xun-er is able to recover this time, I'll reward you to enter the ancestral land and comprehend divine inscriptions!" Tong said in great delight.

The moment Shark One heard, his heart involuntarily raced wildly.

A powerful tribe like the merfolk clan, their ancestors had Deity Realm powerhouses too. Their legacies were preserved very wholly.

But this inheritance could not be exhausted without moderation.

The quotas for entering the ancestral land each time were extremely limited too.

With Shark One's present strength, it was not sufficient to enter the ancestral land at all.

But because he found Ye Yuan this time and obtained Tong's approval, he actually obtained the reward of entering the ancestral grounds.

How could this not make him beside himself with joy?

"Th-Thank you very much, Your Majesty!" Shark One said agitatedly.

The clansmen all looked at Shark One with extreme envy, thinking inwardly that this guy really got lucky.

Tong waved his hand and said, "Sent the pill formula to Master Ye yet?"

Shark One said, "Already sent over. He said that starting tomorrow, he's going to deduce the pill formula and go into seclusion for ten days' time. In these ten days, nobody is allowed to disturb him!"

Tong nodded and said, "Okay! Tomorrow, you bring him to the Emerald Tranquil Pavilion for closed-seclusion, then personally guard there. Within ten days, nobody is allowed to disturb him!"

"Yes, Your Majesty!" Shark One received the order and left.

...

To Ye Yuan, refining a medicinal pill that he had never refined before was similarly a challenge.

The Purple Void Vitality Spirit Pill was not an ordinary mystic grade medicinal pill. The difficulty of refining was rather great.

This point, he was perfectly clear.

Li was also considered to have barely managed to touch the threshold of peak alchemy emperor. But with his strength, he did not even have 5% assurance.

If not for so, Tong would not have been to the point of being so hopeless too.

With inner core being broken, it was equivalent to a human martial artist's dantian being broken. One was basically equivalent to a cripple already.

However, not only was this Purple Void Vitality Spirit Pill able to repair the inner core, it could even recover 50% of the demon's strength!

The other 50%, as long as one spent a hundred years, they could still cultivate it back.

Of course, this was only the medicinal effect of a high-grade Purple Void Vitality Spirit Pill.

As for superior-grade, even transcendent-grade, the merfolk clan did not dare to hope at all.

After all, this kind of obscure to the extreme, as well as extremely high refining difficulty medicinal pill, barely anyone could refine it in the world too.

High-grade was already the most ideal circumstance.

"The alchemist who created the Purple Void Vitality Spirit Pill was truly a rare talent! The medicinal pills that this medicinal pill requires are not very heaven-defying, but it can unleash such a heaven-defying effect! This pill formula let me glean considerable benefits! To be able to utilize mystic grade medicinal pills to such a transcendent degree, it has to be none other than a Deity Realm powerhouse! Looks like the alchemy path is boundless!"

Researching the pill formula, Ye Yuan praised the Purple Void Vitality Spirit Pill to no end as well.

This ingenuity of this pill formula's design, even Ye Yuan could only see the dust of the rider ahead too.

In this world, a pill formula that even he was unable to keep pace with, it absolutely originated from the hands of a Deity Realm powerhouse.

"Heh, if not for comprehending the Medicine God's Soul Canon, wanting to refine this medicinal pill would probably really be not too easy. One can only say that that Shark Xun had good fortune." Ye Yuan started laughing to himself.

After marveling for a while, Ye Yuan started to officially deduce the pill formula!

To refined a mystic grade medicinal pill, the spirit medicines required were not cabbages.

Even if Ye Yuan scoured the entire Immemorial Medicine Garden, he only had one set of medicinal herbs on his hands too.

Looking according to the medicinal herb quantities on the pill formula, it was barely enough to use to refine twice.

However, even if it was two refinements, to an alchemist, it was still a tremendous endeavor.

Ye Yuan's soul force slowly spread out. His sea of consciousness was revolving at high speed, deducing each detail of the medicinal pill's refinement.

At this time, Ye Yuan was enveloped in a ball of golden light. This was the profound and mysterious power of Divine Dao laws!

For the first time refinement of a pill formula, deduction was a very important thing.

The success rate of the refinement had the most direct relations with whether or not the deducing succeeded.

However, this was not a simple task!

Mystic grade medicinal pills could be said to have myriad changes in an instant during the process of refinement.

Wanting to deduce the pill formula fully, the calculations that one needed to go through, that was an astronomical magnitude.

For ordinary alchemists, just this magnitude of calculations was sufficient to make them breakdown.

There were even some top-tier alchemists who became mentally-handicapped because of forcefully deducing pill formulas!

Such examples were not unavailable!

This Purple Void Vitality Spirit Pill could be said to be one of the pinnacle-most mystic grade medicinal pills. The calculation load required in it was simply immeasurable.

Following the deduction getting deeper and deeper, Ye Yuan's brows also gradually knitted together tightly.

The pill formula created by a Deity Realm powerhouse was indeed not that easy to work out.

If not for Ye Yuan comprehending the Medicine God's Soul Canon, wanting to deduce this pill formula was probably not that easy of a matter.

Time slowly trickled by. Ye Yuan was already completely immersed in contemplating the pill formula, having no stray thoughts in his mind.

While outside the door, Shark One was like an ant on a hot pan.

Whether or not Ye Yuan's refinement succeed concerned whether he could have the chance to comprehend divine inscriptions.

This opportunity was too important to him!

"I say, can you stop pacing around anymore or not! Moving to and fro, you're swaying until my eyes are dizzy!" Li said crossly.

Shark One had an awkward look, and he said with an obsequious smile, "High Priest, I ... aren't I nervous here? It's already the tenth day, Master Ye ... he hasn't come out yet!"

Li shot him a glare and said, "Do you think deducing pill formulas is the same as cultivating cultivation skills? Let me tell you, if it were me going all out to deduce this Purple Void Vitality Spirit Pill, I'll definitely vomit blood and die!"

Shark One was startled when he heard that. He really did not know that deducing a pill formula actually had such severe consequences.

"N-No way, right? It's just deducing a pill formula, there are such serious consequences? High Priest, didn't you deduce this pill formula before too?" Shark One said in shock.

Li coughed dryly twice and said, "Deducing and deducing are different! My kind of deduction is only a crude deduction. I can't even accomplish one-ten thousandth of a true deduction! But, wanting to use one set of medicinal herbs to refine successfully, even if one doesn't carry out a 100% deduction, they need to deduce 90% too! That degree of deduction is sufficient to make a high-level Alchemy Emperor vomit blood and die! I only deduced one-ten thousandth and was already about to vomit blood!"

This version, it was still Shark One's first time hearing. His face turned as pale as paper straight away.

He really did not know that deducing a pill formula was actually this perilous!

Unrivaled Medicine God

Chapter 1156: Refinement Failed!

"High Priest, then ... to what degree do you think Master Ye will deduce the formula to? He ... Something wouldn't have happened to him, right?" Shark One said worriedly.

"How is that possible? When alchemists are deducing pill formulas, they will naturally do their best! Those who truly pushed themselves to death were either fools or had no other options. How much Ye Yuan's limit is, I really can't say for sure. But I reckon that he has hopes of working it out to the extent of 30%, right?" Li thought about it and said, feeling rather uncertain.

The moment Shark One heard, he couldn't help saying somewhat disappointedly, "Only 30%? Then ... the Purple Void Vitality Spirit Pill most likely isn't that easy to refine!"

The moment Li heard this, he suddenly burst into anger and said, "You fool! The Purple Void Vitality Spirit Pill is a pill formula left behind by a Deity Realm powerhouse! Being able to deduce 30% is already a heaven-defying existence!"

Shark One did not dare to rebut and mumbled, "I ... Aren't I worried that Master Ye can't refine the medicinal pill here? Young Patriarch is waiting for the medicinal pill to save his life!"

Li calmed down too and heaved a sigh as he said, "Whether or not he can refine it out will depend on Xun-er's luck! In my view, if even Ye Yuan can't refine the Purple Void Vitality Spirit Pill, probably no one can refine it in this world too."

These few days, he followed behind Ye Yuan while fussing around and indeed learned quite a bit of stuff.

The extensiveness of Ye Yuan's knowledge in alchemy made Li ashamed of his inferiority.

Although Li was hailed as one of the sea race's strongest alchemists, compared to Ye Yuan, it was simply comparing a firefly to the full moon.

Just as the two people were sighing, the Emerald Tranquil Pavilion's front door behind them opened with a creak.

Ye Yuan walked out in a calm manner.

"Apologies, I made you guys wait a long time. The mental strength expended from deducing the Purple Void Vitality Spirit Pill was too great. I slept for three days and nights in one go," Ye Yuan said with a guilty look.

In truth, he already finished deducing three days ago.

Just as Li said, deducing pill formulas exhausted mental strength too much. Hence, he dozed off for three days and nights.

Li had an expression like he had seen a ghost and said in surprise, "You're done resting in three days? I previously deduced one-ten thousandth and rested for a full ten days before recovering!"

Honestly speaking, although Ye Yuan said closed-seclusion for ten days, Li actually did not have much faith for Ye Yuan to come out in just ten days.

Ye Yuan smiled and said, "En, pretty much recovered."

Li scooted over and asked, "Then, how much ... did you deduce in seven days?"

"How much? Of course it's deduced fully! Deducing all of it can't even guarantee refining a finished medicinal pill. Not deducing fully, is there still any meaning?" Ye Yuan retorted with a question.

Li opened his mouth wide, wanting to say something, but did not know what he should say.

What was the meaning of fully?

100%?

This ... was this really something that humans could do?

This guy must be bragging!

Yes, definitely bragging!

Ye Yuan's alchemy skills, he was absolutely convinced.

But to say that Ye Yuan fully deduced the pill formula in seven days, he did not believe even if he was beaten to death!

Of course, he was totally unaware that not only did Ye Yuan's heart realm reach the great circle of perfection, his calculation ability far surpassing normal people, his Alchemy Dao even comprehended Divine Dao laws.

Although the deduction was hard, it still could not stump Ye Yuan.

"Alright, begin refining the pill then. *Heh*, haven't felt my blood boil like this for a long time! This Purple Void Vitality Spirit Pill has enough of a kick!" Ye Yuan said rather excitedly.

To him, ordinary mystic grade medicinal pills were already unable to enter his arcane sights.

With his current alchemy strength, refining mystic grade medicinal pills would not be too troublesome.

But the Purple Void Vitality Spirit Pill was different!

This medicinal pill successfully stirred up Ye Yuan's wild fervor from the depths of his heart.

...

The Emerald Tranquil Pavilion was originally the pill refinement venue prepared for Ye Yuan. At this time, inside the hall of the Emerald Tranquil Pavilion, it was already packed with the merfolk clan's powerhouses.

There was even a young merman lying horizontally in the great hall. It was precisely Young Patriarch Xun.

Toward these people surrounding and watching, Ye Yuan did not have much objection.

To him, once he entered the pill refinement state, he would concentrate 100% and do not need to be like others, chasing everyone away before they could maintain a peaceful state of mind.

Regarding Shark One finding Ye Yuan, Tong was still very gratified.

But when it really came down to the pill refinement, he became somewhat hesitant again.

Regarding, Ye Yuan's strength, he already did not doubt in the slightest. But as the king, he was deeply aware of this Purple Void Vitality Spirit Pill's terror.

Ever since Xun was injured, he was still unconscious until now.

His injuries already could not endure the time to find another set of spirit medicine.

If Ye Yuan's refinement failed, then what awaited Xun was only death.

"High Priest, in your view ... how much is Master Ye's success rate?" Tong could not resist asking.

Li mused for a moment, but he finally still shook his head and said, "Your Majesty, it's not that I'm speaking up for Ye Yuan, but wanting to refine the Purple Void Vitality Spirit Pill in two refinements is truly making it too hard on him! Although he said that he fully deduced the pill formula, deduction and refinement are two separate matters. Even if he really fully deduced the pill formula, wanting to succeed in two refinements, that's virtually impossible!"

Hearing Li's words, Tong's heart involuntarily sunk.

“Could it be that ... Xun-er’s fate is meant to be like so? If Xun-er meets with any mishap, this kind will make the Black Shark Clan pay the price even if I have to risk this old life!” Tong gnashed his teeth in hatred as he talked.

Li gave him a glance and said, “Your Majesty doesn’t need to despair either. Xun-er might not be without hope. Ye Yuan’s Alchemy Dao’s strength, this seat is wholeheartedly convinced! If there are people capable of refining the Purple Void Vitality Spirit Pill in this world, nobody is worthy except for him! Although there are only two chances, with his strength, there should be hopes of refining out a defect Purple Void Vitality Spirit Pill! If his luck is good, low-grade might not be impossible too!”

Tong’s eyes lit up and he said, “Seriously?”

Li nodded and said, “*En*. If it were me, I absolutely can’t refine it. But he absolutely have hope! It’s just that, if it’s a defective product, for Xun-er to want to recover his strength, it will likely have to expend a great deal of effort.”

Talking to the back, Li also let out a sigh.

While talking, Ye Yuan already started refining.

Ye Yuan directly used the Nine Stars Imperial Heaven Art. The nine stars formation diagram opened up fully, covering the clouds and obscuring the sun!

Seeing this scene, everyone revealed a deep look of astonishment.

Especially Li, he even had an excited look.

The Nine Stars Imperial Heaven Art was the human race’s alchemy skill. But reaching this level, alchemy skills were already different roads leading to the same destination.

Previous life, Ye Yuan had once researched the demon race’s alchemy skills before and improved the Nine Stars Imperial Heaven Art. It was similarly able to refine demonic pills!

Following the progression of the refinement, the nine stars on the nine stars formation diagram were lit up in proper order.

In a twinkle, a day’s time passed. The nine stars formation diagram already had five lit up.

Everyone was beside themselves with excitement. The refinement seemed to progress very smoothly.

But right at this time, the Dragon Sovereign Cauldron emitted intense vibrations. Everyone’s faces changed!

Among them, included Ye Yuan!

The nine stars formation diagram in the sky dissipated with a loud bang. The medicinal cauldron also gradually cooled down.

Everyone’s expression was incomparably ugly. They knew that this first refinement was considered a catastrophic failure.

Unrivaled Medicine God

Chapter 1157: Great Enemy Forces Bearing down upon the Border

"It ... failed?"

"What a pity! It clearly already lit up five stars, If the nine stars were all lit up, it should be able to succeed, right?"

"What's to pity! Just five stars, it's still far away! This whatever Master Ye boasted to the skies previously. Looking at it now, he's also merely thus!"

"*Sigh!* Could it be that Young Patriarch Xun really can't tide over this hurdle? The patriarch, he's clearly so nice. I'm really unreconciled to it!"

...

The nine stars formation diagram collapsed, making everyone's faces reveal a look of disappointment.

While on Tong's face, a look of hopelessness revealed even more.

One failure was equivalent to Xun's life cutting in half.

If Ye Yuan condensed the nine stars to seven stars, or even the extent of eight stars, he would not be so hopeless either.

After all, that was already very close to success.

However, Ye Yuan merely condensed five stars!

The nine stars formation diagram, even a fool could tell that nine needed to be lit up before one could form the pill.

Five stars only barely managed to go over half.

Seeing this sort of outcome, Tong seriously could not sit still anymore.

He was just about to go up but was held back by Li.

Li shook his head at Tong, and then he said to the others solemnly, "All shut your mouths for this seat!"

With his yell, everyone understood that this was to keep them from disturbing Ye Yuan.

At this time, Ye Yuan was currently sitting with his legs crossed, propping up on his knees, his head in his hands. He actually went into a daze.

But everyone knew that he obviously did not really go into a daze here.

"High Priest, he ..." Tong said in puzzlement softly.

Li shook his head and said, "I don't understand either! But at this time, we'd best not disturb him. Looks like he wants to carry on refining!"

"Carry on refining!"

Tong could not resist raising his voice for a bit, drawing numerous gazes. But he realized the inappropriateness very quickly and lowered his voice and said, "At this time, shouldn't he sum up the experience of failure, and refine again after a few days?"

Li said, "Logically speaking, it's like that. But ... I really can't figure this Ye Yuan out. But no matter what, our only hope lies on him!"

The two people were currently discussing at length when the corner of Ye Yuan's mouth suddenly curled up. Ye Yuan immediately leaped up.

With this, everyone burst into an uproar.

"What's Master Ye doing here? How long has it been only? Could it be that he's going to continue refining?"

"He ... He wouldn't be abandoning himself to despair, right?"

"Yeah, this is also too reckless! At this time, how can one carry on refining?"

However, Ye Yuan treated them as air, completely living in his own world.

Other people's discussion, he did not take in a word from start to end.

Without the slightest hesitation, Ye Yuan directly started purifying the remaining half of the medicinal embryo, then threw it into the Dragon Sovereign Cauldron.

The nine stars formation diagram activated once more!

It happened as if it was simply natural. It was smooth and spellbinding.

It was just that everyone's confidence in him became even more lacking.

Tong said in a solemn voice, "This guy is also acting too recklessly! If he wastes this final chance because of his arrogance, this king definitely won't spare him!"

Li gave Tong a glance and showed a bitter smile.

Honestly speaking, he was also very perplexed by Ye Yuan's action.

To be able to light up five stars already made Li greatly astonished.

Li felt that as long as he accumulated and deduce the pill formula one more time, perhaps he would really have hopes of refining it.

But Ye Yuan just thought for 15 minutes with his head in his hands, and he immediately started refining.

What could 15 minutes of time do?

Except, Ye Yuan refined like nobody else was around just like that.

One star, two stars, three stars ...

Gradually, one star after another was being lit up.

When it reached the fifth star being lit up, everyone held their breaths, eyes glued onto the nine stars formation diagram.

The refinement earlier, Ye Yuan toppled here!

This time, would it still be here or not?

Time slowly trickled by. The merfolk powerhouses did not dare to breathe loudly.

They felt that this was simply torturous.

Finally, a beam of light shot straight for the nine stars formation diagram from inside the Dragon Sovereign Cauldron. The sixth star was lit up!

Seeing this scene, everyone heaved a light sigh in relief without prior agreement.

This refinement was seriously too exciting.

But Li had a black face and lowered his voice and said, "What are you all agitated for? Starting now, it is the most difficult time! At any moment, he has the possibility of failing! All of you shut your mouths for this seat. If the refinement failed because of you all, I'll annihilate you guys!"

When everyone heard that, each and every one of them sensibly shut their mouths, and did not dare to make a tiny bit of noise anymore.

But the subsequent refinement following that was unexpectedly smooth.

Seven stars, eight stars, nine stars!

"Nine stars formation diagram, withdraw!"

Following Ye Yuan's light cry, the nine stars formation diagram was directly taken into the Dragon Sovereign Cauldron!

"Condense!"

Light faded away. Everyone crowded over.

Tong had an appearance of being concerned about personal gains and losses as he asked Ye Yuan, "Master Ye, h-how is it? Can it ... reach low-grade or not?"

"Low-grade?" Ye Yuan's brows raised up, as he said rather surprisedly.

Seeing Ye Yuan's expression, Tong said with a disappointed look, "Could it be that ... it's only a defective product?"

Although he did not take the Purple Void Vitality Spirit Pill's grade to heart too much, low-grade and defective product still had a difference in the end.

If it was a defective product, it was basically equivalent to Xun being crippled.

If it was low-grade, Xun still had hope to recover to his peak state in his remaining years.

But a hint of a light smile flashed across the corners of Ye Yuan's mouth as he said, "You all are also looking down on this Ye too much! See for yourselves!"

Done talking, Ye Yuan opened the furnace. Beckoning with one hand, a medicinal pill shot out and landed on the jade tray.

All those present were dead silent.

They gathered in front of the table, all shocked until their mouths could not close.

Only after a long time did Li come back to his senses and said stammeringly, "T-T-Transcendent-grade! This ... How is this possible?"

He was seriously unable to understand. Ye Yuan already failed the first time. Based on what, could he refine out a transcendent-grade Purple Void Vitality Spirit Pill on the second try?

This was the Purple Void Vitality Spirit Pill!

A medicinal pill refined for the first time, even a mystic grade medicinal pill, he actually refined out transcendent-grade!

This ... Was this possible?

Ye Yuan smiled and retorted with a question, "Whether impossible or not, didn't you already see it?"

Li opened his mouth, wanting to speak, but did not know what he should say.

Everything before his eyes gave him an extremely unreal feeling.

The best expectation he gave Ye Yuan was also merely just low-grade. Between low-grade to transcendent-grade, the jump was too great.

How could there possibly be an alchemist who could accomplish to this extent?

However, Ye Yuan did it!

"Don't be staring blankly anymore. Since the medicinal pill is already refined, quickly let him consume it then," Ye Yuan urged.

"Ah? Oh, right, right! Stop looking! Stop looking! Quickly let Xun-er consume the medicinal pill!" Li shouted at the top of his voice and changed all of the clansmen away.

A group of people was bustling about, all waiting upon Xun for him to swallow the medicinal pill.

But, right at this time, somebody suddenly came to report. The person exclaimed, "Your Majesty, not good! Not good! The Black Shark Clan is bearing down upon the borders in great forces, and already enclosed us in!"

Chapter 1158: Bright Moon's Crisis

At this time, in the far away Great Xiang Region.

Inside Bright Moon City, killing sounds shook the heavens. Violent essence energy suffused everywhere.

Some powerhouses of unknown identities were slaughtering without restraint in the city.

Apart from these people, there was still another group of people.

These people were shockingly the Vastsun City's martial artists!

"Zhou Jia, you actually broke our two clan's agreement and allied with other forces to overthrow my Bright Moon City! You'll die a horrible death!" Yue Jianqiu said fiercely.

The person opposite him was precisely Vastsun City's city lord, Zhou Jia!

This morning, Zhou Jia got Bright Moon City's gates to open through hoodwinking, leading a group of black-clothed people with unknown identities on a wanton massacre in Bright Moon City.

The entire Bright Moon City already fell into an abyss of suffering.

"Yue Jianqiu, don't think that I don't know. The Sun Moon Heavenly Pupil is already not in the Vastsun Bright Moon Realm anymore. Since there's no more Sun Moon Heavenly Pupil, then why is there a need for our two families to be tied together anymore? At present, your Yue Family's ancestor is already dead, while my Zhou Family is akin to the noonday sun! This Great Xiang Region naturally has to belong to my Zhou Family!" said Zhou Jia, who was incomparably pleased in his heart.

Yue Jianqiu's face turned cold, and he said, "Fine, today, you and I will determine a victor! I want to take a look at just how much capability you have!"

Finished talking, Yue Jianqiu wielded his sword and stepped forward, peak divine king strength erupting with full power.

"Right on time! *Haha ...*"

Zhou Jia was not alarmed but rejoiced instead. Laughing wildly, his divine king domain instantly opened up!

Seeing this scene, Yue Jianqiu's expression changed drastically, his figure abruptly stopping.

"Divine king domain! You ... You broke through to the realm of Void Mystic?" Yue Jianqiu said in shock.

"*Huhu*, now, do you know the gap between you and me? Surrender without resistance!" Zhou Jia laughed savagely, advancing forward!

Yue Jianqiu turned pale with fright. But behind him were all the Yue Family's dependents, not allowing him to shrink back in the slightest.

Yue Jianqiu gritted his teeth and urged his essence energy to the limits, toughening his scalp and receiving it.

Right at this time, an enormous palm charged out from diagonally, heading straight for Zhou Jia!

Zhou Jia was just about to crush Yue Jianqiu when his expression changed drastically.

Boom!

A palm smacked out and actually directly sent Zhou Jia flying.

Everyone was stunned. They looked at the enormous figure behind Yue Mengli, incredibly shocked.

Her battle soul already virtually condensed into a corporeal body.

“Li-er! Your strength is actually already comparable to Void Mystic powerhouses!” Yue Jianqiu said in surprise.

But Yue Mengli’s brows furrowed slightly, and she said to Yue Jianqiu, “Father, you bring the clansmen away first. I’ll bring up the rear with Wu Luo! After exiting the city, escape in the direction of the Demon Region. Wu Luo and I will rush over soon after!”

Yue Jianqiu was stupefied. He did not quite understand. His daughter already clearly had the strength of a Void Mystic powerhouse. Why would they still have to run?

This Bright Moon City was the Yue Family’s several hundred thousand years of foundation. How could they give up so easily?

Yue Mengli could not help saying furiously when she saw that Father did not have any movements: “No time to explain! If you don’t go, you won’t be able to leave! This matter is absolutely not that simple! Quickly go!”

Yue Mengli was a good-natured and gentle daughter. Yue Jianqiu had never seen such an enraged side of her before.

He realized that the matter seemed to really not be that simple!

“Okay, I’ll bring them away right now!” Yue Jianqiu nodded and said.

“*Heh*, leaving? No need! Today, none of you can leave!”

A black-robed man blocked everyone’s path of retreat, his aura astonishing, involuntarily making Yue Jianqiu’s expression change greatly.

“You ... You’re Sun Man! Medicine King Hall, Sun Man!” Yue Jianqiu said panic-strickenly.

This black-robed powerhouse was shockingly the Sun Man who escaped from the Immemorial Medicine Garden by chance on that day!

The Medicine King Hall party that went to rescue Holy Mother Devil Flower at that time were virtually all killed by the Evil Extermination Sword.

Fortunately, the Evil Extermination Sword’s primary objective was Holy Mother Devil Flower. Sun Man still escaped by chance while severely wounded.

At this time, Yue Jianqiu finally understood. Turns out that the Vastsun City actually colluded together with the Medicine King Hall!

“Go!” Yue Mengli said frostily.

This Sun Man gave her immense pressure.

“Li-er, Sun Man ... is a middle-stage Void Mystic powerhouse!”

“GO!” Yue Mengli’s voice practically fell to freezing point.

Yue Jianqiu gritted his teeth and said, “Yue family members listen up, follow me!”

“Heheh, want to go? How can it be that easy?” Sun Man said with a cold smile.

At this time, a large group of divine king powerhouses showed up, blocking their retreating route.

Yue Jianqiu said in a cold voice, “Kill!”

The Yue Family’s divine king powerhouses clashed together with those divine kings.

Yue Mengli was just about to move when Sun Man already charged over.

“Heh, indeed, a first-rate beauty! No wonder Ji Qingyun that brat would be moved! Little lass, surrender obediently without resistance!” Sun Man said with a cold laugh.

“Dream on! Phaseless Divine Palm!”

...

Garnersky Sea Region, underwater world.

The Black Shark Clan joined forces with the seabed’s five great royal clans, encircling and suppressing the merfolk clan.

Tong’s expression darkened, and he instructed, “Looks like the Black Shark Clan is planning on fighting it out to the bitter end! But, is my merfolk clan really that easy to annihilate?”

At this time, Xun slowly opened both eyes, with a look of absent-mindedness on his face.

“Xun-er!” Seeing Xun wake up, Tong’s face revealed a look of surprise.

“I ... I actually didn’t die? Yii? My demonic essence is actually recovering rapidly! This ... how is this possible?”

Xun suddenly discovered the changes within his body and was incomparably shocked.

He remembered crystal clear that he had his inner core shattered by a Black Shark Clan’s powerhouse.

But now, his strength was actually in the midst of rapid recovery.

Tong smiled and said, “It was Master Ye who saved you. He refined a transcendent-grade Purple Void Vitality Spirit Pill, restoring your inner core completely. Why haven’t you quickly thanked him!”

“Purple Void Vitality Spirit Pill! Transcendent-grade!”

Xun drew a cold breath!

He naturally knew what the Purple Void Vitality Spirit Pill was. This shock was by no means insignificant.

There was actually really someone who refined the Purple Void Vitality Spirit Pill!

He hurriedly prostrated toward Ye Yuan and said, “Many thanks for Master Ye’s grace of rebirth!”

Ye Yuan helped him up and said smilingly, "Get up, it's not worth thanking. I didn't gift you the medicinal pill for free either. It's considered a transaction between His Majesty and me."

Xun was extremely surprised when he heard. Something that could rival the Purple Void Vitality Spirit Pill, the clan most likely paid a considerable price!

Tong smiled by the side and said, "As long as I can bring you back, what does a drop of one-million-year-old Pearl Have Tears count for? In fact, it was us who took advantage of Master Ye. A transcendent-grade Purple Void Vitality Spirit Pill is much more valuable than a drop of Pearl Have Tears! Shark One, order people to go inside the spirit stone cave and retrieve a drop of one-million-years-old Pearl Have Tear."

Ye Yuan smiled and said, "Alright, you all are confronted by a formidable enemy, better go and deal with it quickly."

Just as he was talking, Ye Yuan's expression suddenly changed drastically, his expression becoming incomparably ugly.

Thud, thud ...

His heart started pounding fiercely, his entire person sweating profusely.

In just a blink of an eye, he was already soaked in sweat from head to toe.

"Master Ye, a-are you alright?" Xun asked concernedly.

Ye Yuan's complexion was deathly pale, but he did not hear Xun's words at all. The foreboding feeling in his heart became stronger and stronger.

Unrivaled Medicine God

Chapter 1159: Noisy!

Sudden Impulse!

This was definitely Sudden Impulse!

But could there be an existence that could threaten him here?

Right now, apart from the Ten Great Divine Kings, those kind of existences, there should not be anyone capable of threatening him, right?

Even if he could not beat them, at least preserving his life was still not an issue.

Tong's strength was at the very most on the same level as Han Qing Zi. He could not threaten him at all.

But, why would he have a feeling like he was almost suffocating?

"Li-er?"

Ye Yuan's entire body trembled. The more he thought, the more likely it felt!

"Could it be that ... something really happened to Li-er?" Ye Yuan's heart suddenly raced.

"M-Master Ye, are you alright?" Xun shook Ye Yuan and asked worriedly.

Ye Yuan abruptly startled awake and said weakly, "I'm fine. Help me to the bed and lie down for a while will do."

Tong gave an apology and said, "Master Ye, a great enemy lies ahead. I'll have Xun take care of you first. This king will go and meet the enemy first."

Ye Yuan's heart was burning with anxiety. But at this time, he had strength but could not muster it up. He could only nod and said, "Your Majesty, go ahead. I'll be fine after resting for a while."

Refining the Purple Void Vitality Spirit Pill already made Ye Yuan somewhat drained. Sudden Impulse this rush, heaped on one disaster after another, making him virtually unable to move already.

"My lord, are you alright?"

Hearing that Ye Yuan was not well, Ao Qian and the rest hurried over when they heard the news. All of them turned pale with fright.

Seeing Ye Yuan's ashen pale complexion, they were even more stricken with worry.

"I'm fine. I'll recover for a bit first. You guys go outside the door and guard. Taicang, go and take the Pearl Have Tears. We're leaving here right away!"

Resting for a while, Ye Yuan gradually recovered some strength and started consuming medicinal pills, restoring essence energy.

Ye Yuan was wracked with anxiety currently, but he knew that the more anxious he was, the calmer he had to be.

Great enemy forces were bearing down upon the border outside. If he did not even recover his strength, then that was no different from courting death.

A day later, Ye Yuan finally recovered completely.

Going out, Ao Qian already guarded outside for a day and night.

But Xun was already gone. Most likely, he was worried about the war outside and already went to rendezvous with his clansmen.

"Milord, what in the world happened?" Ao Qian asked with a concerned look.

Ye Yuan frowned and said, "Something might have happened to Li-er. We must hurry back to Bright Moon City as soon as possible! An unexpected change will occur if late!"

The expressions of Ao Qian and the rest changed drastically. They knew that Ye Yuan had the ability of Sudden Impulse. These words were likely not baseless.

Putting away the Pearl Have Tears, Ye Yuan directly led Ao Qian and the rest and left the merfolk clan.

...

"Hahaha, Tong, you didn't expect it, right? The Garnersky Sea Region's five great royal clans already all pledged allegiance to this king! Now, there's just your merfolk clan left! Today, I, Hei Wu, shall rule the Garnersky Sea Region! Those who bow to me will prosper, and those who resist will perish!"

The Black Shark Clan plus five great royal clans, a massive group formed by six major ethnic groups, blocked the entire stretch of sea region until not even water could flow through.

In front of the array, the Black Shark Clan's king, Hei Wu, was in high and vigorous spirits, laughing wildly to no end.

On the opposite side, Tong already sustained heavy injuries.

This Garnersky Sea Region, the strongest was the Black Shark Clan and the Merfolk Clan, while the eight great royal clans took second place.

In this period of time, Tong's attention was all on the Purple Void Vitality Spirit Pill, resulting in overlooking the Black Shark Clan's moving direction.

He did not think that Hei Wu actually took the opportunity to subdue five great royal clans among the eight great royal clans. Moreover, surrounding the Merfolk Clan with a sneak attack approach.

After a bout of bloody battle, Tong and the merfolk clan's powerhouses all suffered heavy injuries.

The Black Shark Clan was very powerful in the first place. Adding in five great royal clans, the powerhouses were even more numerous beyond counting.

How could the merfolk clan resist such an offensive?

"Into formation!"

Under Tong's command, the merfolk clan's warriors each unleashed moves individually, condensing a powerful array formation, sheltering everyone inside.

When Hei Wu saw the situation, he could not help laughing hard as he said, "Already at this point, do you still want to put up a last-ditch struggle? Even if I don't breach your array formation, how long can your demonic essence sustain?"

Tong said solemnly, "Hei Wu, you despicable person! Previously, you ambushed my son. Now, you made the Octopus Clan submit with devious schemes. Even if I die today, this king will also drag you down!"

Before coming out, Tong also did not expect that the war this time would actually be so grim.

Hei Wu could be said to have put in painstaking efforts for the sake of today.

First was sneak attacking Xun, diverting the merfolk clan's attention. Then, plotted to capture the Octopus Clan's young patriarch, causing the Octopus Clan to be cautious in taking action, and could only join their camp.

Finally, Hei Wu avoided the other three royal clans with heaven-deceiving means, slaughtering straight to the merfolk clan's main camp.

All these schemes were intricately woven together.

By the time Tong reacted to it, it was already too late.

"Haha, don't humans have a phrase, called all's fair in war? When this king rules the Garnersky Sea Region, who dares to call this king despicable? Tong, do you wish to get into formation and wait for the

other three clans to come over to assist? *Haha*, do you think that this king will give you this chance?" Hei Wu said with a wild laugh.

Tong's expression changed when he heard that. Did not think that he was actually seen through by Hei Wu.

What he was planning was precisely this.

At this time, the other three great royal clans should have already gotten the news and were currently rushing over here.

As long as they rushed over, the crisis this time might be able to weather through.

"*Hahaha*, all attack for me, break their grand array! I want to see how long they can last!" Hei Wu ordered.

The densely packed crowd of sea people all pressed over towards the merfolk clan.

This commotion was truly earth-shaking.

But, just as they advanced, a figure slowly passed through from inside the merfolk clan's grand array.

When Hei Wu saw this scene, he could not help saying with mild surprise, "Human? *Heh*, brat, if you don't want to die, get lost for this seat!"

Seeing that figure, Tong and the rest could not help being startled, similarly saying in surprise, "M-Master Ye?"

Xun had just recovered. Seeing Ye Yuan, he could not help being greatly alarmed and shouted, "Master Ye, it's dangerous! Quickly return into the grand array!"

It was as if Ye Yuan was deaf, turning a deaf ear to Xun's shout, and still walked towards Hei Wu neither too fast nor too slowly.

"Father, Master Ye is this child's savior. We can't look on with folded arms!" Xun said anxiously.

At first, Tong's face indeed had a look of bewilderment.

Very quickly, he thought of the words that Shark One had once said, and he could not help revealing a look of pleasant surprise.

He said to Xun with an excited look, "Xun-er, Master Ye ... might be our merfolk clan's last hope! All merfolks listen up, kill! Today, fight to the death with the Black Shark Clan!"

Tong did not hesitate anymore, directly giving up on the array formation, and charged towards the Black Shark Clan.

Seeing this scene, Hei Wu could not help being stunned. Was Tong's brain damaged?

But at this time, Ye Yuan already arrived in front of him and said coolly, "Get lost!"

Hei Wu was stupefied again. Then he grinned hideously and said, "A mere human Seventh Level Dao Profound also dares to speak to this king like this. Truly tired of living! Forget it, this king will kill you

first, then exterminate the merfolk clan. After today, the Garnersky Sea Region will be my world! *Hahaha ...*"

Ye Yuan's brows furrowed, and he lightly spat out a word: "Noisy!"

Chapter 1160: Flicking One's Sleeves and Leaving After It's Done!

"Conceited and ignorant human, go to hell!"

Hei Wu was utterly enraged by Ye Yuan's attitude.

Instantly expanding his divine king domain, he was going to exterminate Ye Yuan.

In his view, exterminating a Seventh Level Dao Profound human was too effortless.

"Shark's Roar!"

The divine king domain that carried Divine Dao laws instantly enveloped Ye Yuan inside.

He saw that Ye Yuan actually did not try to avoid it, standing there without making a move. A hint of a hideous grin involuntarily flashed past the corners of his mouth.

However, his smile froze on his face very quickly.

"*En?* This ... What's going on?"

When Hei Wu's Shark's Roar arrived ten-plus feet in front of Ye Yuan, it was actually unable to advance an inch further anymore!

This shock was by no means insignificant!

One had to know that his divine king domain carried the power of Divine Dao laws.

Forget about a measly little Seventh Level Dao Profound, even divine king domains of Void Mystic powerhouses, he could instantly shred it too.

But facing Ye Yuan, the all-conquering divine king domain actually failed.

However, because of the influence of the power of his Divine Dao laws, it still compressed Ye Yuan's Domain of Sword a little bit.

It was just that this bit of distance did not affect Ye Yuan much at all.

Suddenly, his entire body trembled, and he thought of a possibility. His face revealed panic as he said, "Impossible! Could it be ... Could it be a pure Divine Dao Domain?"

"Just this bit of strength? Then you can go and die already!"

Ye Yuan's indifferent voice sounded out beside his ear.

Hei Wu's expression changed drastically, only coming back to his senses now, and instinctively wanted to run away.

Yet, it was already too late ...

Ye Yuan's figure suddenly disappeared. Hei Wu's eyes became wide-circles, and he said in alarm, "G- Greater teleportation!"

Hei Wu knew that he really encountered a monster today!

A terrifying monster!

These were all abilities that were impossible to come into existence in the present Divine Realm. But they appeared before his eyes over and over again.

Except, he already did not have time to regret it.

Ye Yuan broke through and came in front of him effortlessly with his Domain of Sword's firepower releasing fully!

Hei Wu was dead!

Just one exchange and a great king of the Garnersky Sea Region fell at Ye Yuan's hands just like that.

When the Black Shark Clan's and the five great royal clans' powerhouses saw this scene, their eyes became wide-saucers.

"This ... What happened? What in the world did that human youth do?"

"L-Lord Hei Wu, he was finished off just like that?"

"Lord Hei Wu is dead! Lord Hei Wu is dead! Q-Quickly run!"

...

Those seafolks all finally reacted to it. Each and every one scattered in all directions desperately.

Capture the ringleader first in order to round up the bandits!

Hei Wu already died, this six great royal clans' alliance instantly collapsed and dissipated.

For a moment, the underwater world fell into chaos.

"Kill! Kill!"

The originally low-morale merfolk clan immediately roused in spirits greatly when they saw Hei Wu being killed, battle-cries shaking the heavens.

Tong's gaze never left Ye Yuan's body all along. At this time, he stared at that tall and straight figure of Ye Yuan's, incomparably astounded in his heart.

What did he do before? Threaten Ye Yuan?

Tong felt a chill run down his spine, hit by waves of lingering fear.

If he really fell out with Ye Yuan back then, the one dead right now would probably not be Hei Wu, but him, the merfolk clan's king!

This young man's strength was truly too frightening!

Not only condensing a Divine Dao Domain, even cultivating heart realm to the great circle of perfection realm, comprehending greater teleportation!

Such talent was simply unheard of!

He previously still had some doubts about Shark One's words. But only now did he know that Shark One's description was not exaggerated at all.

It was even somewhat lacking.

Because Shark One did not see the scene of Ye Yuan cutting down Han Qing Zi at all.

Swoosh!

In the midst of chaos, Ye Yuan's figure vanished once more!

Tong's pupils constricted and actually could not sense Ye Yuan's moving direction.

"ARGH!!"

In the midst of the disorderly army, a shrill and miserable cry was suddenly heard.

The Crimson Silk Starfish's king was directly blotted out!

Tong was dumbfounded. He had never seen before that killing a peak Void Mystic powerhouse would be so easy!

The eight great royal clans' kings were all peak Void Mystic powerhouses. It was just that they did not comprehend Divine Dao laws. That was why their strength was a notch weaker.

But these eight great royal clans' kings, their strength could virtually already catch up to Cloudsky and Nangong Zifeng, that kind of degree.

However, he was easily written off by Ye Yuan just like that!

Swoosh!

Ye Yuan's figure disappeared once more. In a blink of an eye, another king was killed!

Merely 15 minutes of work from start to end, the five great royal clans' kings all died!

Ye Yuan was simply a killing machine!

His figure moved. Ye Yuan appeared not far from Tong.

"Your Majesty, this Ye still has urgent matters on hand and will take my leave first. This is considered gifting your merfolk clan a present then. In the future, Lian Qiu is my younger sister. You all have to treat her well. Otherwise, I'll come back and settle scores!" Ye Yuan called out in a clear voice.

Lian Qiu as Li's disciple, she was also at the rear of the merfolk clan at this time.

Hearing Ye Yuan's words, her entire body involuntarily shuddered.

The strength that Ye Yuan displayed just now was simply akin to a deity up in heaven to her!

Lian Qiu also did not imagine that just a few simple words of reminder from her would actually obtain such care from Ye Yuan.

But Lian Qiu was not dumb either. She knew that her life in the future would have an upheaval change!

“Master Ye, thank you!” Lian Qiu’s face actually left behind tears.

Ye Yuan’s gaze suddenly penetrated the crowd and looked over in Lian Qiu’s direction, giving her a smile.

Tong’s heart went cold, and he hurriedly nodded his head and said, “Lord Ye, rest assured. Lian Qiu will be my merfolk clan’s most honorable princess in the future. Absolutely no one will dare to be disrespectful towards her!”

Unknowingly, Tong’s term of address toward Ye Yuan underwent a change.

Ye Yuan nodded his head, figure flashing, and disappeared.

Tong did not think that Ye Yuan actually left so urgently.

And also did not think that he actually paid special care to Lian Qiu before leaving.

Looking at Ye Yuan’s fading back view, Tong let out a long sigh.

“Shark One, you’ve performed exceptionally meritorious services this time! I truly didn’t expect Master Ye that you brought back was actually so monstrous!” Tong said to the Shark One beside.

Shark One smiled good-naturedly. He also did not think that accidentally stumbling upon this time, it actually brought such a change to the merfolk clan.

With Hei Wu’s death, the Garnersky Sea Region’s situation would undergo an upheaval change.

The merfolk clan had never liked to lord over everyone. But now, due to Ye Yuan’s appearance, they already become the Garnersky Sea Region’s irreplaceable overlord!

A human youth actually changed the underwater world’s situation in a blink of an eye.

This was something that everyone did not expect from start to end.

Want to blame, people could only blame Hei Wu himself for courting death.

“Lian Qiu!” Tong suddenly yelled out.

“This lowly servant is present!”

The moment Tong heard, he could not help laughing in spite of himself.

This lass still did not change yet, regarding herself as the identity of a maidservant.

“*Huhu*, from today onwards, you mustn’t call yourself lowly servant anymore! Now, this king will acknowledge you as my god-daughter. In the future, you’re my merfolk clan’s princess!” Tong called out in a clear voice.
