

## Medicine God 141

### Chapter 141: Spatial Spirit Artifact!

The Ape King fully opened up his divine soul. Ye Yuan formed a seal with both hands, and a wisp of soul strength reached into the divine soul of the Ape King.

Regardless whether it was demonic beasts or human martial artists, the divine soul was the most mysterious and also the most fragile place.

The Ape King only felt his divine soul quiver and his entire being feeling like he was dead tired.

The Ape King knew that he and Ye Yuan already set up a soul contract. He shall serve Ye Yuan as his master for ten years.

Currently, the Ape King no longer had his former pride. He said respectfully, "Yuan Fei pays respect to Master."

Ye Yuan nodded and said, "So, you're called Yuan Fei? En, since you acknowledged me as your master, there are some things I wanted to make clear to you."

"Pray tell, master."

"You have your pride as the Ape King, and I also won't control your words and actions as I please. Hence, under most circumstances, you're free. If you sincerely acknowledge me as your master, I can even choose not to use soul strength. That way, you're virtually completely free. However, if I find out that you feign compliance while acting in opposition even just once, I'll use the soul contract without hesitation. Understood?"

"Yuan Fei understands! Don't worry, Master. Since this Yuan Fei chose to follow Master, I naturally won't have other thoughts," Yuan Fei said deferentially.

Methods like soul contracts were actually quite gentle. It primarily looked at the contents of the contract entered by the two parties. Because Yuan Fei and Ye Yuan's soul contract was not on equal footing, Yuan Fei must serve Ye Yuan as master.

Even so, apart from restrictions on the contract and having to do things for Ye Yuan, there was pretty much no difference from normal times.

It was possible to forcefully plant a slave seal to control others. The party being enslaved could not hide any thoughts from the master. That was a true slave and not some master-servant relationship.

There were some even more impressive techniques which could directly obliterate the consciousness of the person being controlled to make him completely submit to his master. As long as the master did not take the initiative to come into contact with the spell, the person being controlled would forever be a walking corpse.

It was precisely because a method like a soul contract was very gentle that Yuan Fei agreed to Ye Yuan.

Otherwise, he would not agree with Ye Yuan and just kill him instead.

One had to acknowledge that Ye Yuan's words dispelled Yuan Fei's last bit of apprehension.

Ye Yuan's meaning was that they were equals. But when Ye Yuan required something, he had to help Ye Yuan unconditionally.

Rather than saying master-servant relationship, they might as well say full-time bodyguard.

Furthermore, Yuan Fei and Ye Yuan had already entered a soul contract. There was also an indistinct hint of telepathy between them.

Yuan Fei could sense that Ye Yuan truly turned his nose up a little at him, this servant.

This sort of turning his nose up was not looking down in disdain, but . . . a sort of indescribable feeling.

Anyway, this master was very mysterious!

"En, don't need to call Master either, just call me Young Master," Ye Yuan instructed.

"Yes, Young Master."

From the beginning since just now, Feng Zhirou's mouth had always been wide open. She was already so amazed that she grinned from ear to ear.

A Tier 3 demonic beast was subdued just like that with a few sentences from Ye Yuan?

This was a Tier 3 demonic beast and not some Tom, Dick, and Harry!

In this thousand mile radius of the Endless Forest, a Tier 3 demonic beast was absolutely a kinglike existence! He actually became Ye Yuan's servant just like that?

She still suspected that Ye Yuan was bragging a little just now, but only when she saw the Ape King's attitude now, did Feng Zhirou become aware of her ignorance.

"You . . . You really subdued him?" Feng Zhirou was still a little hesitant to believe and wished to confirm it from Ye Yuan.

Ye Yuan smiled and said, "Look at his appearance. Is there still anything else to doubt? En, en, with Yuan Fei tagging along, time to beat up Su Yubai first after heading back. Heh heh."

Feng Zhirou was thoroughly defeated by Ye Yuan. At the start, he still had a certain air, but he revealed his true colors in his last sentence.

This fellow was simply a troublemaker!

"But, he's the Ape King! How did you subdue him?" Feng Zhirou could not resist asking again.

"Everybody has a weakness. As long as you grasp their weak point, they can naturally be used by you. To the Ape King, what do you think he desires the most?" Ye Yuan smiled and countered with a question.

Feng Zhirou thought about it after hearing the question. After some time, she answered uncertainly, "Breakthrough to Tier 4? Well, I don't think there's anything with a greater allure than this."

"Smart! Yuan Fei is just like you. If you can't break through to the Spirit Condensation Realm, then it would be even more excruciating than killing you. You should be able to understand this sort of feeling," Ye Yuan smiled and said.

"En. En? You actually dare to compare me to a demonic beast?!"

Feng Zhirou nodded her head first but quickly realized that something was wrong and promptly burst into anger.

"Haha! I didn't have that intention. Why are you always so sensitive? Don't hit me! I have a Tier 3 bodyguard now! You can't beat me!"

"Humph! Even if you have a Tier 4 bodyguard, so what? I'll beat you anyway!"

Feng Zhirou simply did not care. She did not believe that Ye Yuan would really dare to make the Ape King come and beat her.

"Ouch, I was wrong, my grandaunt!"

"That's much better!"

.....

After a bout of play fighting, a problem remained in front of Ye Yuan.

How should he handle the mountain full of Long-arm Stone Apes?

Once Yuan Fei left with him, this mountain full of Long-arm Stone Apes would lose their support.

In the Endless Forest, Yuan Fei was not the only Tier 3 demonic beast. If he were to leave, these Long-arm Stone Apes would be without a head. Sooner or later, they would be annexed by other forces.

The demonic beast world was at times crueler than the human world. It was impossible for other species to tolerate the Long-arm Stone Apes to continue occupying the mountain and calling themselves king. The final outcome would be complete annihilation.

"Yuan Fei, what about your fellow clansmen? If you leave, they'll probably be swallowed up by other powerful races," Ye Yuan enquired.

Not that Ye Yuan was unwilling to bring them away, but because there were simply too many Long-arm Stone Apes!

If he brought them all away, how would he settle them down?

These Long-arm Stone Apes, when brought outside, could virtually destroy a mortal country. There was no place safe to put such a colossal force.

If somebody with some bad intentions found them, these Long-arm Stone Apes could be in even greater danger than at the Endless Forest!

No matter how powerful Yuan Fei was, he was just a single person. Furthermore, the experts from some of the great sects were even stronger than Yuan Fei!

When Yuan Fei saw that Ye Yuan took the initiative to mention his clansmen, he felt incredibly touched.

If it were some other person, having acquired such a powerful helper, who would bother about the life and death of Yuan Fei's clansmen?

"Don't worry, Young Master. I have an extremely powerful spatial spirit artifact on me. It's ample to store my clansmen and me.

As he said, Yuan Fei flipped over his palm. A small-scale mini palace floated about his palm.

Ye Yuan's eyes lit up, and he said with a smile, "To think it's actually 128 restrictions spatial spirit artifact! This toy is probably extremely rare in the Endless World. Looks like you, Yuan Fei, are really fortuitous! No wonder only you among so many clansmen could awaken inherited memories and breakthrough to Tier 3."

Yuan Fei smiled. "If Young Master can help me breakthrough to Tier 4, you would be Yuan Fei's greatest fortuitous encounter!"

Ye Yuan chortled and said, "Relax. I won't let you down."

Chapter 142: Chain Assassinations!

A 128 restrictions spirit artifact was practically the utmost limit of a spirit artifact.

If more restrictions were added, the spirit artifact would find it very hard to withstand the oppression of the restrictions. The final outcome would be the destruction of the spirit artifact.

Furthermore, spatial spirit artifacts were extremely scarce. A 128 restrictions spatial spirit artifact was even more valuable than.

If this spirit artifact were known to the outside world, it would surely set off a wave of bloodshed!

Ye Yuan did not expect that Yuan Fei actually possessed such a spirit artifact.

"Where did your spirit artifact come from, Yuan Fei?" Ye Yuan asked curiously.

"Back then when I was at peak Tier 2, although I awakened inherited memories, I remained unable to find the juncture for a breakthrough. Hence, I hardened my heart and entered the depths of the Endless Forest alone to seek out the opportunity for a breakthrough. Who knew that I would randomly barge into a human grotto. This spirit artifact was obtained from inside that grotto," Yuan Fei did not hide it and explained to Ye Yuan.

Ye Yuan was surprised. "A human grotto? Isn't the Endless Forest under the rule of demonic beasts? Why would there be a human grotto?"

Yuan Fei shook his head and said, "That I don't know. But I acquired this spirit artifact from the outermost area of that grotto. The inhibitions inside are overly powerful. I simply dared not go in too deep. Back then, I obtained several Demon Spirit Pills and this spatial spirit artifact inside the grotto, and then quietly retreated. I only broke through to Tier 3 after swallowing the Demon Spirit Pills."

"Oh? There's actually such things like Demon Spirit Pills inside that human martial artist's grotto? Looks like you, Yuan Fei, really have a tremendous fortune. Your future accomplishments definitely won't be low!" Ye Yuan said admirably.

From Yuan Fei's recount of the situation, his luck was simply freaking amazing!

Yuan Fei was only at peak Tier 2 back then. Entering deep into the Endless Forest was simply no different from courting death. But not only did he not die, he even bafflingly obtained the opportunity to breakthrough and successfully broke through to Tier 3.

And now, Yuan Fei encountered Ye Yuan. This could no longer be described as good luck!

Accompanying by Ye Yuan's side, as long as Yuan Fei did not die, his future accomplishments would be immeasurable!

Just like Yuan Fei said himself, meeting Ye Yuan was his greatest fortune!

"Thank you, Young Master!" Yuan Fei exclaimed respectfully.

Ye Yuan nodded and said, "Looks like this human grotto should be the temporary dwelling of some extremely powerful existence. This Endless Forest is really such an interesting place!"

Yuan Fei's words filled Ye Yuan with a deep curiosity about that grotto. After he became stronger, he must absolutely pay a visit to that grotto.

"Alright, there's no time to lose. Yuan Fei, quickly pack up and put your clansmen inside the spatial spirit artifact. Then follow me. You and your clansmen just stay inside the spatial spirit artifact normally to cultivate. When I need you, I'll naturally call for you," Ye Yuan instructed.

"Yes, Young Master!" Yuan Fei acknowledged and started to carry out the great migration feat.

This Crimson Summit Ridge was also a rich treasure land. Apart from the Crimson Soul Grass, there were quite a few other precious medicinal herbs.

As for those things, Ye Yuan naturally would not waste them. He made the apes pack them all up and deliver it inside the spatial spirit artifact.

Of course, to the present Ye Yuan, the most precious was still the Crimson Soul Grass.

Ye Yuan got three to four stalks of it from Yuan Fei and made him keep the rest away inside the spatial spirit artifact.

Once everything was settled, Yuan Fei and his clansmen all entered the spatial spirit artifact. Then, the spatial spirit artifact shrunk to become a small bead the size of a soybean and was carried on Ye Yuan's body.

.....

Ye Yuan and Feng Zhirou continued down the ridge. The Crimson Summit Ridge originally bustling with noise and excitement was abnormally still now.

But this sort of situation would not last long. What the Endless Forest lacked the least were demonic beasts. This place would soon be occupied by other demonic beasts.

There would naturally be a bout of fighting and killing over this, but that had nothing to do with Ye Yuan.

It could be said that he returned fully loaded from this trip to the Crimson Summit Ridge. Not only did he obtain the Crimson Soul Grass, he even subdued a Tier 3 demonic beast.

Feng Zhirou felt that she was still dreaming even now. This entire day and night's experience was overly bizarre.

"Am I still dreaming, Ye Yuan? Did we really subdue a Tier 3 demonic beast?"

"You can pinch yourself. If it hurts, that means you aren't dreaming. Ouch! I asked you to pinch yourself! What did you pinch me for?"

"You're actually in so much pain. Looks like this really isn't a dream! But I still feel like this isn't real. Ye Yuan, if you let out the Ape King and his clan, wouldn't they be able to directly obliterate the State of Qin?"

Ye Yuan said helplessly, "Don't be silly! Yuan Fei can't be exposed. He can only be used during crucial moments. Just think about it, if a Tier 3 demonic beast appeared in the human territories, what would be the outcome? Furthermore, Yuan Fei and the rest are hiding inside the spatial spirit artifact. If the spatial spirit artifact is exposed, forget about me, even the State of Qin will face annihilation! So we must keep our mouths tightly shut after we return, understood?"

Feng Zhirou had a casual personality. She just felt that having a Tier 3 demonic beasts subordinate was very glorious. She honestly did not think that the consequence would be so severe.

"No way? I was still thinking about bringing Yuan Fei out to show off just now. They actually can't even show their faces?" Feng Zhirou felt dejected.

Ye Yuan put on a solemn face when he saw that and said, "Senior Apprentice Sister, you must treat this matter as if it didn't happen when we return. Or else, the consequences are not something that you and I can bear!"

"Fine, fine! I understood already! I won't even tell Aunty. Just relax!"

Feng Zhirou just had a more roguish personality, but she was no fool. Ye Yuan already spoke to such an extent, she obviously knew propriety.

Especially that spatial spirit artifact. That was virtually a ticking time-bomb!

The duo chatted as they walked and quickly descended the mountain.

The Crimson Soul Grass was already obtained, so the next step was the Pine Yang Fruit.

The place the Pine Yang Fruit grew at was called Gray Pine Forest. It was not really an extremely dangerous place, just the territory of a Tier 2 demonic beast.

Now that they had Yuan Fei, plucking the Pine Yang Fruit was effortless.

Walking, the pair reached a dense forest.

Killing intent appeared in a flash without any warning signs!

An arrow passed through layers of trees and shot toward Ye Yuan's heart at extreme speed!

The distance of this arrow was neither too far nor too near. It made Ye Yuan unable to detect it in advance and also did not give him the slightest bit of time to react!

However, Ye Yuan managed to react to it. His sensitivity towards qi activities was incomparable with regular Essence Qi Realms.

Spirit Void Shattering Space was executed right away as he leaped to the side, barely evading this arrow!

Just as Ye Yuan was planning on summoning Yuan Fei out, warning bells appeared again!

A figure charged out from the grass straight for the direction he dove towards!

That was to say, this evasion by Ye Yuan positioned him perfectly for the next wave of assassination!

A saber beam flashed past, and a powerful aura came from straight ahead. That was a full powered attack from a Fifth Level Spirit Condensation Realm!

Right at that moment, Ye Yuan also unleashed a palm!

Except that this palm of his was not aimed for the assassin, but towards the ground.

Stacking Waves Layered Palm, Eighth Layer Wave!

Rumble!

Dirt flew everywhere, and then Ye Yuan's figure could be seen forcefully changing its direction, and he had a close shave with that saber!

Chi! This saber still managed to graze lightly Ye Yuan's arm.

However, it was not over yet!

A third attack headed for Ye Yuan once more!

This was a chain assassination precise to the limits!

The other party calculated all of Ye Yuan's reactions!

Ye Yuan was in deadly danger!

Chapter 143: Nine Swords Stance Completed!

The assassination this time was inter-connected, making a chain attack. It virtually took into account Ye Yuan's every reaction!

Just now, Ye Yuan borrowed the recoil from the Eighth Layer Wave to barely avoid the second attack.

But now, Ye Yuan was in midair. The third attack connected seamlessly without giving Ye Yuan any opportunity to catch his breath.

The grasp on timing was precise, and coordination was marvelous. It was virtually flawless!

More importantly, the strengths of these three people were extremely strong. All of them at the Fifth Level Spirit Condensation Realm and above.

For three Fifth Level Spirit Condensation Realm and above martial artists to lay down such an ingenious killing trap, it was simply an unavoidable certain death scenario!

"Ahh! Ye Yuan!" Feng Zhirou also reacted in a flash and was about to go over and help Ye Yuan.

But right then, another figure flashed out and shot directly at Feng Zhirou.

"Your opponent is me!" An azure figure attacked Feng Zhirou with unimaginable speed.

"It's you, Su Yishan!" Feng Zhirou angrily exclaimed in shock.

The two people instantly exchanged a blow. They were actually on par.

"Heh heh, if not, who do you think it is? Nanfeng Zhirou, this young master has chased after you for so much, but you refused to give any face. Today, I'm going to let you taste this young master's prowess!" Su Yishan smiled nastily.

As the Su Family's young patriarch, Su Yishan was naturally aware of Nanfeng Zhirou's true identity.

The Su Family's relationship with the Imperial Family had always been very delicate. Su Yishan had also pursued Nanfeng Zhirou for a very long time in the academy, but Nanfeng Zhirou always spoke bluntly to him.

Su Yishan had been pursuing Nanfeng Zhirou. On the one hand, it was in consideration for the Su Family's interests. On the other hand, it was obviously because of Nanfeng Zhirou's beauty.

Not only was Nanfeng Zhirou's looks outstanding, but she was also a famous ice beauty. How could Su Yishan not be moved?

Nanfeng Zhirou involuntarily flew into a great rage upon seeing Su Yishan tease her with words. "Such gall, Su Yishan! I'll definitely return and report to Imperial Father about this incident and make him administer punishment onto your Su Family!"

Su Yishan sneered coldly and said, "Then, you have to be able to go back first! Hehe, the dazzlingly gorgeous Senior Apprentice Sister and the super genius both fell in the Endless Forest. Truly lamentable!"

"With the likes of you?" Nanfeng Zhirou said with similarly a cold sneer.

.....

Over here, Su Yishan intercepted Nanfeng Zhirou. On the other side, Ye Yuan already arrived at the critical juncture of life and death!

Ye Yuan could naturally call out Yuan Fei at this time, but after he summoned him, he would already be a dead man.

The Chang trio brothers were clearly unaware that Ye Yuan had subdued Yuan Fei, but their chain assassination this time coincidentally sealed shut the possibility of Ye Yuan summoning Yuan Fei!

Chang One was born cautious. His investigation concerning Ye Yuan was also quite thorough.

Regardless of how much of a wastrel Ye Yuan was in the past, he was now currently an opponent that barred absolutely no negligence!

If they looked down on Ye Yuan just because he was at the Essence Qi Realm, they would definitely suffer a huge loss.

In reality, Ye Yuan's performance affirmed Chang One's thoughts.

If it were some other Essence Qi Realm martial artist, that deadly arrow from Chang Three would have already pierced through his heart. But not only did Ye Yuan evade Chang Three's arrow under the situation where it was impossible to change his body's inertia, he forcefully altered directions in midair!

This could no longer be described as being tough!

Two Fifth Level Spirit Condensation Realm's immaculate assassination was actually dodged ingeniously by a Ninth Level Essence Qi Realm!

But that was alright because Chang One himself was the person in charge of the final strike!

Chang One, a Sixth Level Spirit Condensation Realm expert!

Since the beginning when Ye Yuan entered the area they were lying in wait, Chang One was already accumulating his energy and waiting to release it, all for this final lethal blow.

This strike was a Sixth Level Spirit Condensation Realm martial artist's most powerful strike!

Due to the addition of that Eighth Layer Wave from Ye Yuan earlier, his current airborne speed was even faster than before!

And Chang One's speed was greater than Chang Two's. That was to say that Ye Yuan's and Chang One's speed which was greater than Chang Two's were coming together!

Chang One also used a sword. It seemed as if he already saw the result of Ye Yuan being gored through and breathing his last.

"Ah! Careful, Ye Yuan!"

Nanfeng Zhirou was entangled by Su Yishan and could not free herself. But she saw the scene of Ye Yuan about to be killed.

"Better take care of yourself first, Princess Nanfeng!"

Seeing Nanfeng Zhirou's reaction, Su Yishan also felt a wave of delight. That hateful Ye Yuan was finally about to die!

Boom!

Nanfeng Zhirou was sent flying and spat out blood on the spot.

But at the same time, the script did not play out according to Chang One's plan.

The tip of Chang One's sword was about to stab Ye Yuan when the scene before his eyes suddenly blurred. Nine Ye Yuans actually appeared at the same time in front of him!

Afterimages?

Ye Yuan was currently airborne, how could he possibly create afterimages?

And these nine Ye Yuans were incomparably realistic. Just which one was the real body?

Chang One's divine sense swept across these nine figures instantaneously, but to his shock, he discovered that these nine silhouettes were actually all real bodies!

What sort of situation was this? Seeing ghosts?

However, Chang One was currently like an arrow fitted to a string, being at the point of no return. He could not tolerate any hint of hesitation.

"Humph, paltry tricks! It's just camouflage!"

Chang One chose the centermost Ye Yuan without hesitation. That was also his initial target.

Creating afterimages under this sort of situation, it was ten to one a camouflage. The aim was to confound Chang One's senses.

And the true body had never changed from the very beginning!

Swoosh!

Chang One's body passed through the afterimage just like that.

There was no unsmooth feeling of penetrating a body. He passed through the air!

Chang One's heart involuntarily sunk.

To deal with a Ninth Level Essence Qi Realm, the three brothers employed all of their skills to its limits and meticulously laid out this certain death situation. The result was just making Ye Yuan suffer some light injuries?

When setting up the scenario, Chang One had absolute confidence that let alone a Ninth Level Essence Qi Realm, even a Seventh Level Spirit Condensation Realm would suffer major losses when caught unprepared.

Towards Ye Yuan, Chang One had already placed great emphasis until he could not think any higher of him. But the outcome still exceeded his expectations.

All the way up to now, Chang One could not figure out just how Ye Yuan created eight afterimages while in an airborne state.

Also, just which one was his real body?

Bang!

The Ye Yuan behind Chang One fell heavily onto the ground. Chang One also landed softly, appearing to be very relaxed without Ye Yuan's shabby appearance.

Ye Yuan stood up and dusted off the grass bits on his body and said calmly, "I really have to thank the three of you. Without you guys, I'm afraid that my Nine Swords Stance wouldn't be completed so quickly!"

On the boundary of imminent danger, Ye Yuan remained calm and immediately entered Heart Like Still Water state.

Under that sort of situation just now, the more he panicked, the more certain he would die.

Ye Yuan understood that to shake off this strike, he could only utilize the Nine Swords Stance's movement technique!

But his Nine Swords Stance was incomplete. There must be a foothold to execute the movement technique, but he was currently suspended in midair.

In the moment of crisis, relying on Heart Like Still Water state, Ye Yuan stimulated his potential to the greatest extent and finally completed the Nine Swords Stance!

Chapter 144: You're Really a Genius!

Meanwhile, the Chang Brothers gathered together. The complexions of the trio did not look too good.

Hearing the meaning of Ye Yuan's words, their painstakingly designed killing scenario actually helped Ye Yuan to have a breakthrough!

That movement technique just now was very profound. Even Chang One, the Sixth Level Spirit Condensation Realm, was actually unable to differentiate which was the true body.

"Ye Yuan, you aren't naïve enough to think that you can retreat safely after evading our ambush, right? Although that move just now was incomparably profound, your cultivation realm is still too low," Chang One said in a low voice.

Chang One designed this death trap as a precautionary resolute measure to resolve a complicated problem. All done to prevent unnecessary complications.

Even if they did not ambush, with his cultivation realm, killing Ye Yuan was as easy as taking something out of his pockets. Not to mention there were even Chang Two and Chang Three by his sides.

"Hur hur, you guys are thinking too much. Why do I have to retreat? If I didn't have a breakthrough at the last moment just now, I would already have been killed by you all. How can I let you off so easily?"

Though Ye Yuan said these words while smiling, those familiar with him knew that Ye Yuan was truly enraged!

It was just that Ye Yuan's threat sounded rather comical. A Ninth Level Essence Qi Realm rookie actually threatening three Fifth Level Spirit Condensation Realm and above experts. No matter how they looked at it, it just seemed like stubbornness.

When Ye Yuan finished talking, the Chang Trio Brothers involuntarily exchanged glances. They were wondering if Ye Yuan had a problem with his brain.

With their understanding of Ye Yuan, while Ye Yuan might be very unbridled, he never did something he had no confidence in.

However, the current circumstances did not seem to allow him to be overbearing.

Ye Yuan could not naively think that he was a match for the three of them, right?

"Ye Yuan, I think that you haven't made clear of the situation, right?" Chang One asked rather bafflingly.

"Of course I understand the situation. The three of you are the Su Family's lackeys, right? Received that old dog Su Yubai's order to come and kill me, yes? No?" Ye Yuan scoffed coldly.

Chang One had clearly heard of the power of Ye Yuan's eloquence, so he did not plan on bickering with him. He nodded and said, "You're mistaken. Elder Su did not order us to come. We're under the family head's command to come and kill you."

Ye Yuan was taken quite by surprise. "Family Head? Su Yishan's old man? Well, same thing! Looks like I really have to give a good one to the Su Family when I return. Otherwise, they will really think that this little lord is nice to provoke!"

Chang One felt rather confused. Although he went through an in-depth investigation on Ye Yuan before this task, this was his first time meeting Ye Yuan after all.

Only now did he discover that Ye Yuan's personality was entirely different from what he understood.

In his impression, Ye Yuan was calm and steady, seemed like he was reckless, but entrenched himself at every step.

But now, Ye Yuan was clearly an incomprehensible good-for-nothing from a wealthy family. He completely could not make clear of the situation!

If not for Ye Yuan's performance being overly stunning just now, Chang One might even think that Ye Yuan was a moron.

Just as Chang One was dazed, Ye Yuan pointed at his nose and scolded, "Hey, do the three of you still have a sense of shame? A Sixth Level Spirit Condensation Realm, two Fifth Level Spirit Condensation Realm, came to kill me and yet dare not do it openly. Instead, you guys used this sort of underhanded sneak attack tactics! Indeed, the type of master one has will have the same kind of lackeys! Su Yubai that old dog is also so sinister and enjoys sneak attacking others! You are all indeed cut from the same cloth!"

Chang One was scolded by Ye Yuan until he was stupefied. He unwittingly started to doubt his own judgment.

Could it be that Ye Yuan this fellow was really just a hothead? A 100% good-for-nothing silkpants?

Of course, Ye Yuan's talent was beyond all doubts. He was definitely a peerless genius. Even the young patriarch, Su Yishan, would have to admit defeat.

Other than this, was Ye Yuan really a rash fellow?

Was his actions back in the Dan Wu Academy just a random coincidence?

Ye Yuan finished scolding the Chang Brothers and turned his head toward Su Yishan. He started to cursed, "Su Yishan, you tortoise's grandson! You only know how to bully women! If you have the capabilities, then come and one on one with this Little Lord! Spineless fellow! Want to kill me but dare not make a move in the academy. You even run all the way to the Endless Forest to do this. In the future when the Su Family lands in your hands, it will be squandered away to nothingness eventually! Oh no, the Su Family won't be able to exist for a long time. When I go back, I'm going to beat the Su Family until they can't raise their heads!"

Su Yishan was currently in a heated battle with Nanfeng Zhirou when he suddenly heard Ye Yuan's cursing and could not help burning with rage after hearing it.

Forcing Nanfeng Zhirou back with a blow, Su Yishan arrived in front of Ye Yuan with a few leaps.

Nanfeng Zhirou also followed tightly behind and came to Ye Yuan's side. Both parties entered a stalemate.

Ye Yuan casually fished out a medicinal pill and threw it to Nanfeng Zhirou. Then he said with a smile, "It's been hard on you, Senior Apprentice Sister Nanfeng. Eat it. No need to mind this sort of small injuries."

Nanfeng Zhirou caught the medicinal pill but lowered her head instead. She knew that her identity had already been made aware to Ye Yuan, making it rather awkward.

"Don't get cocky, Ye Yuan! Even if you avoided the Chang Brothers' ambush, do you think that you can still exit the Endless Forest today?" Su Yishan was displeased when he saw Ye Yuan's composed appearance.

Shouldn't the current Ye Yuan be in a panic?

Ye Yuan stared at Su Yishan and said with a smile, "I don't plan on leaving the Endless Forest."

"Humph! Good that you know!"

"The Endless Forest is so fun! I still plan on playing for a few more days! As for whether you guys can walk out or not, that I dare not guarantee."

"Is your brain spoilt, Ye Yuan? Can't you tell what kind of situation you two are currently in? Just now, I heard that you want to fight one on one, yeah?" Su Yishan stared at Ye Yuan like he was looking at a fool.

Ye Yuan beamed and said, "That's right. Does the dignified Su Family's Young Patriarch only know how to bully women? If you have the capability, let's go one-on-one!"

"Hahahaha . . ." Su Yishan roared with laughter when he heard that and said, "Alright, I'll fight you one on one! But . . . it's us as a group fighting you alone!"

Ye Yuan's face fell after hearing that, and he said in terror, "Su Yishan! Are you a man or not?! If you have the capabilities, let's fight one-on-one!"

Seeing Ye Yuan's appearance, Su Yishan felt incredibly venting. He chuckled and said, "Ye Yuan, I think your brain really broke down! The four of us combined can kill you like slaughtering a dog! Why should I entertain you with a duel? Do you think this is the academy?"

Ye Yuan stared at Su Yishan who looked proud of himself and suddenly grinned, smiling very happily.

"You can still laugh when death is knocking, Ye Yuan? I got to hand it to you. Chang One, Chang Two, Chang Three, kill Ye Yuan! Leave Nanfeng Zhirou alive, I still have a use for her!" Su Yishan ordered.

While the Chang Brothers were secretly displeased that Su Yishan was still lustful at such a time, they would not refute Su Yishan's words. After all, he was the future Su Family's family head.

Just as the Chang Brothers were prepared to make a move, their face suddenly changed!

Swoosh! Swoosh! Swoosh!

In a blink, hundreds of white colored apes appeared in front of their eyes, enclosing them in the center together with Ye Yuan.

The weakest one of these white apes was at the Initial Stage Tier 2!

"Haha, Su Yishan! I found out that I really like your idea of one on one! All of us versus you guys! Man, you're really a genius to even come up with this sort of one on one method!" Ye Yuan looked at Su Yishan as he burst into laughter.

Chapter 145: Complete Breakdown

"Wha-what's going on?"

Su Yishan stared wide-eyed at this unbelievable scene and could not even hear Ye Yuan's mocking him.

Several hundred Long-arm Stone Apes appearing out of thin air. This visual impact was seriously enormous!

With their vision filled with Tier 2 Long-arm Stone Apes, this sort of pressure was absolutely unforgettable for life.

Su Yishan could even feel his own legs quivering!

Not just Su Yishan, the Chang Brothers were also completely dumbstruck at the moment. Even though they had experienced too many things, they had never seen such a huge occasion before!

These hundreds of Tier 2 Long-arm Stone Apes was enough to plow the Su Family one time over.

Although the majority of these Long-arm Stone Apes were at Initial Stage Tier 2, there were also quite a number of Middle Stage and Late Stage Tier 2.

Just one Middle Stage Tier 2 demonic beast was enough for him to choke over. What kind of outcome if hundreds were added up?

At this moment, their nerves were already tensed to the limits.

"Spatial spirit artifact! It must be a spatial spirit artifact! If not, it's impossible to contain so many demonic beasts! Ye Yuan, he . . . actually has a spatial spirit artifact!" Chang One suddenly exclaimed in shock.

"Spa-spatial spirit artifact? H-how's that possible?" Even though the truth was in front of his eyes, Su Yishan still felt that it was unreal.

"That's right. It is indeed a spatial spirit artifact. I didn't think that you would have such knowledge, quite a figure. However, you offended this Young Master. This is the most foolish thing you've done in your entire life!"

Although it was just a few short breaths of exchange, Ye Yuan could tell that among these four people, Chang One served as a brain-center character.

With Su Yishan's personality, it was impossible to lay down such an elaborate killing trap to wait for the hare to land in it.

The absolute strength of the four of them was much greater than Ye Yuan's pair. There was simply no need to be so cautious.

That final strike from Chang One was remarkably brilliant. In fact, it was a flawless blow. Ye Yuan truly arrived at the borders of life and death at that time.

If not for him remaining calm in the final hour of peril and having broken through at the last moment, he would already be a corpse now.

From this, one could see that this Chang One was absolutely a very nasty character to deal with!

But sadly, his opponent was Ye Yuan! He was a young master who would definitely avenge any grievances, not some old good-two-shoes who returned good for evil.

Towards Ye Yuan's words, Chang One did not refute them, because he knew that what Ye Yuan said was the truth.

The stupidest thing that he, Chang One, ever did in his life was to offend Ye Yuan!

Chang One was naturally crystal clear on Ye Yuan's actions in the Dan Wu Academy and knew about his personality of seeking revenge for the smallest grievance. Hence, he dismissed the thought of begging for mercy.

"Fight it out, brothers! Ignore those demonic beasts and directly kill Ye Yuan!" Chang One was also a very decisive person as he directly laid down an order.

When Chang One's command was issued, he took the lead to burst towards Ye Yuan. Chang Two and Chang Three and Big Brother had incredible synergy. Following closely behind, the trio charged towards Ye Yuan in a triangle formation.

This was Chang One's dying act. Facing so many Tier 2 demonic beasts, he did not feel that he could kill Ye Yuan. However, what made Chang One speechless and pleasantly surprised was that these Tier 2 demonic beasts actually did not react at all to this!

These demonic beasts unexpectedly did not move out to stop the three of them!

Could it be that these demonic beasts were just what Ye Yuan pulled out to intimidate them? Ye Yuan could not command these demonic beasts at all?

This discovery filled Chang One with wild elation!

"Haha! Nearly got hoodwinked by you! So, you can't command these demonic beasts at all! Brothers, kill him with me!" Chang One roared with laughter.

Ye Yuan did not take any actions. He just looked at Chang One with a smile that was not a smile filled with ridicule.

"Humph! At gates of death already and yet, you're still pretending there! Wind Thunder Sword!"

Chang One's sword appeared in front of Ye Yuan once again. But this time around, Ye Yuan did not exhaust all his energies to defend. He remained motionless there.

Right at this moment, a white figure flashed out from the side and grabbed hold of Chang One's sword very violently, twisting it into scrap metal.

Boom! Boom! Boom!

One exchange, three palms landed respectively on Chang One, Chang Two, and Chang Three's chest.

This figure was as fast as lightning. The three of them did not even make clear of what it was before being sent flying out.

"Ti-Tier 3 demonic beast!"

Chang One's face finally flickered as he stared at that white ape built like an iron pagoda in horror. Only now did he know why Ye Yuan did not move this whole time. Because he did not need to move at all.

With a Tier 3 demonic beast guarding by the side, why would he need to make a move personally?

However . . . why would a Tier 3 demonic beast obey Ye Yuan? He was merely an Essence Qi Realm martial artist!

Chang One suddenly recalled that Ye Yuan had just descended down the Crimson Summit Ridge and finally understood some things. His complexion changed greatly against his will!

"You . . . you brought the entire Crimson Summit Ridge's Long-arm Stone Ape clan under your control?" Chang One stared at Ye Yuan with dread.

"Hur hur, you finally realized. I even thought that you were pretty smart. Didn't think that you're so slow! That's right. Yuan Fei and his clansmen will be following me in the future."

Of course, it was not because Chang One was dumb, but because the impact he received today was too tremendous.

An Essence Qi Realm martial artist subduing the entire Crimson Summit Ridge's Long-arm Stone Ape clan. If this spread out, other people would surely treat him like a lunatic!

However, this sort of impossible matter genuinely happened!

"H-how's this possible? The Ape King is a Tier 3 demonic beast. Why would he willingly obey you? Also, humans and demonic beast have a language barrier. How can you possibly subdue him?" Chang One questioned unwillingly.

"Do you feel that I have a need to answer your question?" Ye Yuan said with a cold smile.

Chang One only asked because of the burning uncertainty in his heart. Truthfully, he did not hope for Ye Yuan to answer him.

Chang One sighed and shut his eyes painfully. He gave a long exhalation and said, "Sigh, the Su Family going against you is the Su Family's greatest failure! Perhaps the Su Family will vanish entirely from the scene of the State of Qin because of this! Make your move!"

Yuan Fei waved his long arm, and immediately, over a dozen Tier 2 Long-arm Stone Apes rushed up, carrying away the Chang Brothers who already had no means to retaliate.

Before long, blood-curdling screams came from far away, making the scalp of those who heard it tingle.

The Long-arm Stone Apes were originally wild and untamable. They had always just killed any human martial artists they saw. Only Ye Yuan who knew the universal beast language could communicate with Yuan Fei who activated his spiritual wisdom. Otherwise, their end result would not be much better than the Chang Brothers.

Each one of the wretched screams transmitted into Su Yishan's ear, impacting his mind repeatedly. It already completely collapsed his mental defense.

Su Yishan only abruptly roused with a jerk after Ye Yuan slowly walked towards him. He retreated non-stop, all the way until he bumped into a Long-arm Stone Ape before jumping in fright and dodging hurriedly.

"Y-Ye Yuan, I-I was wrong, I deserve death! I deserve death! I beg you, please don't kill me! It's all because Su Yubai that old bastard forced me! It's all because he forced me!"

Su Yishan could not hold on any longer and slammed his knees onto the ground as he begged for mercy by shouting himself hoarse.

Chapter 146: Feeding Moves

Ye Yuan looked at Su Yishan kneeling on the ground with snot dripping from his nose and said with a smile, "I also didn't say that I'm killing you, Young Master Su! Look how frightened you are!"

Su Yishan was already like a bird startled by the twang of a bowstring right now. His brain was already no longer in charge.

Hearing that Ye Yuan had the intention to let him off, he spontaneously became overjoyed and said, "You're for real? Then I can go?"

"Of course you can't go. All of my secrets have already been seen by you. If you were to leave and spread outside that I possess a spatial spirit artifact, then wouldn't I die without a burial place?"

Su Yishan was so terrified that his legs weakened. Ye Yuan's meaning was to kill him for sure.

"Don't worry, I can swear a Heavenly Dao Oath to absolutely not spread the things I saw today!" Su Yishan then raised his hand and looked as if he was really about to swear a Heavenly Dao Oath.

Ye Yuan waved his hand and said, "That isn't necessary, Su Yishan. I'll give you a chance; a chance to fight one-on-one! After you kill me, you can leave this place."

Su Yishan was stunned and quickly returned to his wailing and said, "Y-Young Master Ye, Great Hero Ye, I really know that I was wrong. I shouldn't have opposed you. I shouldn't have brought people into the Endless Forest to come and kill you."

Ye Yuan also did not expect Su Yishan to be so spineless. That normally haughty bearing was all gone. At this time, he was like a despicable person devoid of any sense of shame.

Sometimes, people were like that. Without arriving at the final juncture of life and death, one could never see through a person's true character.

People who normally appeared to be incomparably lofty would become shamelessly menial when facing death, while those who typically appeared to live a licentious life and had improper conduct would remain incomparably unperturbed in the face of death.

There were numerous manners of life.

It was very clear that Su Yishan belonged to the former.

If Ye Yuan made the Long-arm Stone Apes attack, Su Yishan might still give a desperate struggle. But Ye Yuan surrounded him and did not kill him yet. Also, with the Chang Brothers' horrifying way of dying as the precedent, Su Yishan's mind collapsed entirely.

Ye Yuan suddenly pulled a long face and said solemnly, "I have no time to joke with you! If you don't want this opportunity, I can kill you right now."

The current Su Yishan was clearly someone who yielded to force but refused a soft approach. With Ye Yuan riling up, the words sunk into Su Yishan instead.

"Bu-but . . ." Su Yishan stammered.

"But I'm not a match for you, right?" Ye Yuan said with a smile.

Su Yishan lowered his head. Clearly, he tacitly agreed. But at such a time, he did not dare to say these words out.

"This Little Lord asks to fight one-on-one, it means one-on-one with you. You don't need to doubt this. However, the one-on-one I mentioned is not right now. There are also conditions for giving you this chance."

Hearing Ye Yuan say that, Su Yishan's eyes lit up as he felt like he had grasped hold of his final life-saving straw.

"What conditions? As long I can do it, I'll comply!"

"Well, I feel that my cultivation is almost consolidated. After my cultivation realm consolidates, I can break through to the Spirit Condensation Realm. At that time, we'll have a deathmatch! But before then, in order to help me consolidate my cultivation realm, I'll have to trouble you to feed me moves," Ye Yuan said.

"Spi-Spirit Condensation Realm? So quickly?" Su Yishan was stunned.

Ye Yuan had just broken through to peak Ninth Level Essence Qi Realm not long ago. He was going to break through to the Spirit Condensation Realm now?

Who among martial artists when breaking through a major realm was not filled with trepidation as if they were treading on thin ice?

Back then when Su Yishan broke through to the Spirit Condensation Realm, he prepared for a full half year, all the way until he was very certain before he dared to take this step.

And at that time, Su Yishan was already at half-step Spirit Condensation Realm.

Ye Yuan was obviously still just peak Ninth Level Essence Qi Realm now. Could it be that he wanted to break through to the Spirit Condensation Realm directly?

Wasn't this too exaggerated?

In the State of Qin, breaking through to the Spirit Condensation Realm must go through the process of half-step Spirit Condensation Realm. This was something everyone knew. Never had anyone been foolish enough to directly breakthrough to the Spirit Condensation Realm.

Not that it was impossible to breakthrough directly, but because the success rate of a direct breakthrough was too low. So low that nobody dared to attempt this step!

The success rate of breaking through directly from Ninth Level Essence Qi Realm to Spirit Condensation Realm was so low that it was negligible!

With such a low success rate, who would dare to try it rashly?

Ye Yuan had not broken through to Ninth Level Essence Qi Realm for long. Now, he wanted to directly breakthrough to the Spirit Condensation Realm. Was this possible?

"None of your business whether it's fast or not. Either way, you can forget about escaping if I don't break through to the Spirit Condensation Realm. Hence, you'd better pray for me to breakthrough earlier," Ye Yuan said coolly.

"B-but if I win you, what if you go back on your words then?" Su Yishan was not a fool either and enquired about his doubts.

"Hur hur, that will have to depend on my mood. Doesn't matter to me anyway. But you can't not take this gamble! Lose, you're a dead man. Win, you can go back and continue to be the Su Family's young master! This is your only chance. Up to you whether you want to or not," Ye Yuan said indifferently.

"D-don't . . . I want this chance! Of course I want this chance!" Su Yishan hurriedly said.

This was Su Yishan's sole lease on life. He would be a fool to give it up.

Ye Yuan could completely make those demonic beasts destroy him right now, but he just had to find trouble for himself. How could Su Yishan give up this opportunity?

Ye Yuan nodded and said, "Since that's the case, you have to remember, you can only defend and not attack! Fully be my human sandbag! At that time, I'll let Yuan Fei watch the battle by the side. If you have the slightest intention to attack, you'll die horribly!"

Su Yishan had certainly thought of harming Ye Yuan when the latter was feeding moves, but now that Ye Yuan said that, he immediately tossed this idea out of his mind.

You got to be joking. A Tier 3 demonic beast watching the fight by the side, if he revealed even a trace of killing intent, the other party would finish him off without hesitation.

If Ye Yuan was an ordinary Ninth Level Spirit Condensation Realm, then forget about it. However, it was impossible for Su Yishan to kill in one strike with Ye Yuan's practical combat abilities.

Hence, he better obediently become his human sandbag.

.....

"Are you joking, Ye Yuan? You're only at the peak Ninth Level Essence Qi Realm, not even at half-step Spirit Condensation Realm. How are you going to breakthrough to Spirit Condensation Realm? Ah! I know already! You must be messing with Su Yishan!" Nanfeng Zhirou was pleasantly surprised that she discovered something.

However, Ye Yuan shook his head and said, "Breaking through to the Spirit Condensation Realm within a few days is a must. It has to happen even if it can't! If I don't break through, I can't even refine the Essence Yang Pill, and Lu-er can't be saved. Therefore, I have to break through to the Spirit Condensation Realm by hook or by crook."

"But . . . you aren't even half-step Spirit Condensation Realm!"

"What kind of crap is half-step Spirit Condensation Realm? Essence Qi Realm to Spirit Condensation Realm is meant to be done in one shot. You people separating it into half-step Spirit Condensation Realm and Spirit Condensation Realm are actually self-ruining your foundations, making Spirit

Condensation Realm's foundation unstable!" Upon mentioning half-step Spirit Condensation Realm, Ye Yuan's face was filled with contempt.

"But . . . everybody impacts the Spirit Condensation Realm from half-step Spirit Condensation Realm. Could everyone be wrong?" Nanfeng Zhirou refused to accept.

Ye Yuan retorted with a question after hearing that, "Are those everyone you say more amazing than my master when added up? My master said it's good to break through directly. Do you think that he would harm me?"

". . ." Nanfeng Zhirou had nothing to refute with.

Chapter 147: Commencing Breakthrough!

Rumble!

An Eighth Layer Wave from Ye Yuan was easily warded off by Su Yishan.

Chi!

Another Absolute Yang Finger from Ye Yuan shot towards Su Yishan with abnormally fierce, incomparable force, but was defended by him again.

However, Ye Yuan did not feel dispirited. In fact, he became more excited as he fought.

He completely did not need to consider the problem of defense as he unleashed all the moves he knew over and over again.

While the threat to Su Yishan was not great, the other party was very ragged looking.

Ye Yuan's attack was not something which could be released by the average Ninth Level Essence Qi Realm. Even if he did not use his strongest trump card, the Nine Swords Stance, his attacks could cause substantial damage to Second Level Spirit Condensation Realm martial artists.

If Su Yishan had not broken through to the Fourth Level Spirit Condensation Realm, just these moves could exhaust him to death.

Furthermore, Ye Yuan was attacking all out wildly while Su Yishan could only endure being hit. Under the waxing and waning, Ye Yuan's attack became fiercer.

Ye Yuan already continued the reckless attacks for two days.

These two days, apart from eating, sleeping, and mediation, Ye Yuan spent the rest of the time training with Su Yishan.

With such a free human sandbag, hitting it was very delightful and satisfactory.

The more Ye Yuan hit, the more excited he got. The more he hit, the more he did not know fatigue. Sometimes, when he got excited, he could fight for several hours at a time.

In contrast, Su Yishan was already on the verge of collapse being tormented by Ye Yuan.

He simply could not understand how Ye Yuan had such incredible endurance when he was merely a Ninth Level Essence Qi Realm.

With such a powerful attack, logically speaking, the expenditure of essence energy should be enormous. But Ye Yuan could fight for several hours at a time and did not need to consume Qi Returning Pills!

Even if he was the one doing the frenzied attacks, he probably could not sustain for two hours!

However, were Fourth Level Spirit Condensation Realm and Ninth Level Essence Qi Realm on the same level?

Not that Su Yishan did not think of sneak attacking Ye Yuan, but Yuan Fei's aura remained indistinctly locked onto him this whole time, leaving him not daring to make any reckless moves at all.

Su Yishan believed that as long as he retaliated once, what awaited him was definitely a lightning blow!

He had already witnessed the terror of this Ape King. He was completely unable to last even a round with him.

These two days, Yuan Fei had also been observing Ye Yuan's wanton attacks the whole time. At times, his gaze was shining. It was uncertain what he was thinking.

Rather, it was Nanfeng Zhirou who had nothing to do these two days. But she also had a knot in her heart which was unresolved and was somewhat weighed down with worries.

Ye Yuan had heard 'Nanfeng' this surname. Most likely, he already guessed her identity.

'Nanfeng' was the imperial surname. Nobody was unaware of it in the State of Qin.

Nanfeng Zhirou and her aunty were already considered very good friends with Ye Yuan. But they had always concealed their identity. No matter what, it was not very justifiable.

These two days, Ye Yuan was consolidating his cultivation realm at full force, so he completely did not bother about this matter. Once he broke through his cultivation realm, would he dig into this matter? Would he drift away from her?

Nanfeng Zhirou started to become somewhat anxious about her gains and losses.

.....

After another day passed, Ye Yuan continued to unleash his wanton attacks on Su Yishan as usual.

Suddenly, Ye Yuan halted his attacks and sat down crossed-legged.

Yuan Fei narrowed his eyes and seemed to have guessed something. His body moved, and he instantly appeared between Ye Yuan and Su Yishan, isolating the two.

Su Yishan also seemed to have guessed something and knew that it was impossible for Yuan Fei to give him the opportunity to get close to Ye Yuan. Hence, he withdrew to the sides sensibly and meditated on his own.

Ye Yuan wanted to breakthrough, and Su Yishan also needed to recuperate.

Though he did not feel that Ye Yuan could directly breakthrough to the Spirit Condensation Realm, it was still best to prepare for everything!

What kind of joke was this? Ninth Level Essence Qi Realm directly breaking through to the Spirit Condensation Realm. Even his old man did not dare to do that back then!

Not only his father, Su Yulin, but also Lord Dean, Wan Donghai, Nanfeng Yi, these well-known Crystal Formation Realm experts, who among them was not a peerless talent back then?

But not one of them dared to directly breakthrough to the Spirit Condensation Realm when they were at the Ninth Level Essence Qi Realm!

What kind of joke was this?

Transitioning from half-step Spirit Condensation Realm was the method to impact the Spirit Condensation Realm fumbled out by countless ancestors. Does Ye Yuan wish to challenge countless ancestors with his own strength?

Even a genius like Su Yishan prepared for a full half years' time.

Back then when Nanfeng Zhirou broke through to the Spirit Condensation Realm, the amount of time she prepared for was a little lesser than Su Yishan, but there was still four to five months' time.

However, Ye Yuan did not make any preparations at all. He only used a few days to consolidate his cultivation realm and then directly initiated breakthrough.

If he succeeded, then what did they, these so-called geniuses, even count as?

Nanfeng Zhirou saw that Ye Yuan was preparing to breakthrough and also became nervous immediately.

Even though Ye Yuan said it like he was very confident, this sort of matter like challenging the limits known to martial artists still made Nanfeng Zhirou feel quite worried.

A major realm could not be broken through as and when one liked. Facing the breakthrough to Spirit Condensation Realm, nobody dared to be negligent in the least bit.

Because if the assault failed, they would suffer varying degrees of injuries, possibly even facing the risk of a drop in cultivation!

Although it could be cultivated back once more, the difficulty when impacting the bottleneck next time would increase tremendously!

This was also why all martial artists would be extremely prudent when breaking through to the Spirit Condensation Realm.

"You must succeed, Ye Yuan!" Nanfeng Zhirou silently cheered.

She knew that if Ye Yuan could not break through, Lu-er would die for sure.

Once Lu-er dies, the blow to Ye Yuan would definitely be huge!

This was something which Nanfeng Zhirou did not wish to see.

Ye Yuan just sat cross-legged like that for an hour, the aura on his body gradually stabilizing.

His eyes suddenly snapped open. Retrieving a Spirit Surge Pill from his storage ring to consume, he said to Yuan Fei, "Yuan Fei, help to guard me. I'm going to begin the breakthrough. Eye Su Yishan properly and don't let him escape."

"Be at ease and breakthrough, Young Master. There's Yuan Fei here for everything," Yuan Fei answered.

Ye Yuan nodded and shut his eyes again.

Not far away, Su Yishan witnessed this scene and was secretly alarmed in his heart.

Ye Yuan could actually really communicate with this demonic beast!

No wonder he could subdue this Tier 3 demonic beast!

There were really innumerable secrets on Ye Yuan's body!

Ye Yuan adjusted his condition and consumed the Spirit Surge Pill, and he officially commenced the attempt to break through into the Spirit Condensation Realm!

While the onlookers felt that Ye Yuan impacting the Spirit Condensation Realm was filled with incomparable danger, to the party involved, Ye Yuan, it was not really a very amazing thing.

His understanding towards heaven and earth essence energy surpassed any so-called expert in the State of Qin considerably.

Those Crystal Formation Realm experts' understanding towards heaven and earth essence energy was not even fit to carry shoes for Ye Yuan.

To them, the Spirit Condensation Realm was a massive ridge. To Ye Yuan, the Spirit Condensation Realm was merely a small threshold; that's all.

The Spirit Surge Pill entering his abdomen was just like tossing a small pebble onto the surface of a peaceful lake; breaking the original equilibrium state of essence energy within Ye Yuan's body.

Practically instantaneously, the essence energy within Ye Yuan's Dantian seethed!

Woo! Woo!

A whirlwind started to howl underneath Ye Yuan. This whirlwind continuously enlarged, expanding more, whipping up fallen leaves.

The essence energy tempest! Commenced!

Chapter 148: Nine Drops of Spirit Liquid!

A vortex formed from the essence energy tempest brought forth a violent tornado, and this storm grew increasingly larger!

The Endless Forest was originally a land rich with essence energy. Ye Yuan recklessly absorbed all the essence energy converging without any care, flowing into his dantian.

"En? What's going on? This essence energy storm is not right!" Su Yishan exclaimed in shock.

Back then, the essence energy storm he caused when he himself broke through to the Spirit Condensation Realm was simply a small apprentice in the presence of a great sorcerer when compared to Ye Yuan.

Ye Yuan's essence energy tempest gave him the feeling like it was a great flood or savage beast, incomparably violent.

With such violent and turbulent essence energy gushing into the dantian ceaselessly, would it not burst the dantian?

"Hehe, burst it! Burst it! Let's see how you posture after it bursts!" Su Yishan was chuckling inwardly over his misfortune.

But just as he was taking pleasure in the misfortune of others, his collar was suddenly grabbed from behind, lifting him up like carrying a baby chick.

Yuan Fei carried Su Yishan and speedily headed for the distance. Nanfeng Zhirou followed behind them.

The essence energy tempest formed from Ye Yuan's breakthrough grew larger and larger, almost about to spread over here. Hence, Yuan Fei decisively brought everyone to retreat a certain distance away.

Su Yishan who was being dragged felt unbearable shame and humiliation. But facing a Tier 3 demonic beast, what could he do?

He did not wish to end up like the Chang Brothers, being torn to shreds by those damnable apes!

Yuan Fei landed far away after a few flashes; roughly a thousand feet away from Ye Yuan.

Even with such a distance, they could still feel that surging essence energy storm.

The expansion of the essence energy storm showed no signs of stopping. Instead, it grew even larger.

Ye Yuan was situated in the eye of the essence energy storm, oblivious to all that was happening in the outside world. Currently, all of his thoughts were placed on refining essence energy.

Unlike the wild essence energy in the outside world, the essence energy inside Ye Yuan's body was impossibly tame.

If the essence energy in the outside world was a violent wild beast, then the Spirit Bristle Nine Yang Divine Art was a powerful beast tamer. Essence energy which went through its domestication became very obedient.

Ye Yuan was currently revolving the Spirit Bristle Nine Yang Divine Art, Mortal Chapter's second phase's cultivation method. He also did not expect that breaking through to the Spirit Condensation Realm would actually require such an enormous amount of essence energy.

No wonder Spirit Bristle Divine King that fellow was so powerful. This was only breaking through to the Spirit Condensation Realm, and the necessary essence energy was already so titanic. If one entered the Divine King Realm, just how terrifying would the quantity of essence energy required be?

Ye Yuan was just like a diligent little bee, refining the essence energy non-stop using the Spirit Bristle Nine Yang Divine Art, then sending it into his dantian.

The essence energy within the dantian accumulated more and more, gradually inflating Ye Yuan's dantian to the limit!

And right now, the critical juncture of breaking through to the Spirit Condensation Realm had arrived, and that was to gather the qi and liquefy it!

However, Ye Yuan did not bother about the essence energy inside the dantian but continued to refine essence energy ceaselessly, steadily pouring it into the dantian.

Ye Yuan's dantian was inflated even much more bigger with the risk of exploding at any time! If he did not take measures right away, it could really be like how Su Yishan desired; stuffing the dantian so full it explodes!

"No way right? Is Ye Yuan still refining essence energy? His dantian is probably about to explode from fullness, right? Turns out he didn't even know how to impact the Spirit Condensation Realm! To actually wager with me by making such a shameless claim! Hahaha!" Su Yishan was full of delight from his misfortune.

Nanfeng Zhirou glared viciously at him and said angrily, "Shut your mouth for me! If Ye Yuan dies, the Ape King will kill you too! Therefore, you'd better pray for him to survive. At least that way, you theoretically still have the possibility of staying alive!"

Su Yishan was full of disdain as he said, "Even if he breaks through to the Spirit Condensation Realm, it's merely First Level Spirit Condensation Realm! I'm a small stage higher than him! You're so sure that he can defeat me?"

Nanfeng Zhirou sneered coldly and said, "Wasn't Lin Tiancheng also a small stage higher than Ye Yuan back then? And what was his end result? Do you think that Ye Yuan is a fool? To suggest such a duel under the circumstance where he had no confidence? I dare to bet that as long as he enters the Spirit Condensation Realm, killing you will be as simple as slaughtering a dog!"

"Humph! Then he has to break through to the Spirit Condensation Realm first! You look at him. Right now, what's the difference from suicide?" Su Yishan remained stubborn.

Nanfeng Zhirou did not make any sound this time. Ye Yuan's actions were truly no different from committing suicide!

What Ye Yuan needed to do at this time was to gather the qi and liquefy it, not to refine essence energy. No matter how large a martial artist's dantian was, it also could not contain so much essence energy!

Nanfeng Zhirou looked at Ye Yuan in the distance; her eyes full of concern.

Rather, it was Yuan Fei who stared at Ye Yuan glowing eyes, uncertain whether it was worry or reassurance on that ape face.

Ye Yuan naturally did not know what they were thinking. Just as his dantian was about to blow up, a warm qi flow poured into the dantian, enveloping the violent essence energy.

This flow of qi was precisely the medicinal strength transformed from the Spirit Surge Pill!

This flow of medicinal strength was just like a tight pocket; wrapping up all the inflated essence energy tightly inside. No matter how they swelled up, it was to no avail.

With the assistance of the Spirit Surge Pill's medicinal strength, Ye Yuan's dantian swiftly recovered to its original size, while that newly refined essence energy was compressed by the medicinal strength!

Finally, the essence energy within Ye Yuan's body reached saturation. He was unable to continue refining essence energy, so he started to condense the gathered qi into liquid according to the Spirit Bristle Nine Yang Divine Art's method!

As soon as the cultivation method was revolved, the essence energy within the dantian started to form a cyclone!

While at the same time, the medicinal strength of the Spirit Surge Pill and the essence energy which were refined had fused together, causing the essence energy inside Ye Yuan's dantian to become even more massive!

The Spirit Surge Pill already contained massive amounts of essence energy to assist martial artists to breakthrough to the Spirit Condensation Realm under the effects of other medicinal herbs.

The pill formula of the Spirit Surge Pill was not much to Ye Yuan, but it could absolute give rise to a storm of blood in the State of Qin.

This was the best supplementary medicinal pill which Ye Yuan knew to attack the Spirit Condensation Realm.

Under the guidance of the Spirit Bristle Nine Yang Divine Art, the cyclone inside Ye Yuan's dantian became increasingly smaller, and ever more condensed.

The originally formless essence energy actually transformed into a hazy mist inside his dantian!

However, the mist was unstable at the moment and had yet to truly form the liquid state of essence energy.

This was also the most crucial moment of gathering qi to liquefy it!

These mist seemed to be only a step away from liquefied essence energy, but this was also the most unstable period. Once a rebound occurred, the essence energy would swiftly return to its original state.

If it was minor, the martial artist's cultivation realm would fall. But if it was severe, the dantian would suffer damage, affecting future cultivation!

The incredible aspect of the Spirit Bristle Nine Yang Divine Art was that it was matchlessly tyrannical! With such an overbearing cultivation law, how could it possibly give these mist the opportunity to rebound?

Under the overwhelming oppression of the Spirit Bristle Nine Yang Divine Art, these mist finally continued to condense together!

Drip!

A liquid state of essence energy dripped down. The first Spirit Liquid had completely taken shape!

However, this was merely the beginning!

Drip . . . Drip . . .

Drops of Spirit Liquid fell down. At the end, nine drops of Spirit Liquid completely took form!

"Nine drops of spirit liquid huh? Didn't expect that the breakthrough this time would actually be so perfect, way stronger compared to my previous life!" Ye Yuan gasped in admiration.

However, the breakthrough to the Spirit Condensation Realm was not over yet!

Chapter 149: Divine Soul Transformation!

"How is it? Dumbfounded, right?"

Nanfeng Zhirou glanced at the slack-jawed Su Yishan and appeared to be very pleased with herself as if she was the one who broke through.

Su Yishan was truly befuddled.

The essence energy which Ye Yuan absorbed was multiple times of others!

With such a colossal amount of essence energy, should it not burst the dantian?

Could it be that Ye Yuan was a natural-born freak with a dantian several times larger than the average person?

What kind of joke was this?!

This was not a genius but a freak! Looking at Ye Yuan's appearance, it totally did not look like his dantian was multiple times bigger than others!

However, how on earth did he do it?

"Hey, do you want to guess how many drops of spirit liquid Ye Yuan's formed? I guess that it's definitely seven drops, maybe even eight drops!"

Su Yishan jumped like a cat that had its tail stepped on when he heard that. "Eight drops?! How's that possible? Forget about our State of Qin, even in the entire Tranquil Cloud Sect's domain, the current highest record is just six drops! No matter how monstrous Ye Yuan is, seven drops is the pinnacle already. How can it possibly be eight drops?"

"Why can't it be possible? You said that it was impossible for him to break through directly to the Spirit Condensation Realm, but now, didn't he break through? Furthermore, you also saw that essence energy storm just now. It was multiple times the size of when we broke through! Such a terrifying essence energy storm, condensing eight drops shouldn't be strange either, right?"

"Perhaps . . . Perhaps a lot of the essence energy was wasted by him? That must be it!"

"Idiot! You still refuse to accept reality even now!" Nanfeng Zhirou could not be bothered with him anymore.

Nine represented the pinnacle of numbers. As a First Level Spirit Condensation Realm martial artist, the most was condensing nine drops of spirit liquid!

During the process of martial artists cultivating essence energy, it was also the process of using essence energy to strengthen the entire body.

It was just that the strengthening effects for the divine soul were too poor and very hard to detect.

But every breakthrough in a major realm would cause a qualitative leap in terms of body strengthening. The divine soul would also follow and experience a qualitative change, resulting in a one-time transformation!

However, even after martial artists break through to the Spirit Condensation Realm and their dantian received an immense boost, it could at most endure a total of nine drops of spirit liquid.

Any more would only result in the dantian to burst.

Each one of these nine drops of spirit liquid contained a colossal amount of essence energy. Every drop was virtually the total sum of essence energy held in reserve by Essence Qi Realms. One could imagine just how formidable nine drops of spirit liquid was.

However, for a martial artist to achieve nine drops of spirit liquid when breaking through to the Spirit Condensation Realm, it could only be described using these words: as difficult as ascending to Heaven!

The vast majority of Spirit Condensation Realm martial artists condensed between one to three drops. Some genius martial artists could condense four drops and above.

Such as Nanfeng Zhirou and Su Yishan, they both condensed four drops of spirit liquid!

But above four drops, there would be a huge spike in difficulty!

Because the more spirit liquid that was condensed, the more essence energy would be required. And a martial artist's dantian simply could not support such horrifying essence energy.

The reason why Long Tang could suppress all with his Third Level Spirit Condensation Realm cultivation was that he condensed five spirit liquid drops!

Each realm breakthrough in the Spirit Condensation Realm, due to limitations of the dantian, could only once again condense the same amount formed at the First Level Spirit Condensation Realm.

That was to say, when Long Tang was at the Third Level Spirit Condensation Realm, he already had 15 spirit liquid drops, while other Fourth Level Spirit Condensation Realm students merely possessed 16 spirit liquid drops.

To perception geniuses such as Long Tang, such a minute difference was simply unworthy of being mentioned. Hence, he could firmly occupy the place of number one on the Martial Roll!

In other words, the number of spirit liquid drops condensed when breaking through to the Spirit Condensation Realm represented the kind of heights a martial artist could reach in the future!

Just think about it. When a nine spirit liquid drops martial artist is at the Ninth Level Spirit Condensation Realm, it would be nine by nine, 81 spirit liquid drops! While a one spirit liquid drop martial artist would only have nine spirit liquid drops.

It was simply impossible to compensate for this sort of difference with other aspects!

Of course, the vast majority of martial artists were at three drops and below. Hence, the difference between them would not be overly distinct.

It was just that if three drops and below martial artists did not have any heaven-defying lucky chances, they would stop at the Spirit Condensation Realm in this lifetime. Desiring to breakthrough to the Crystal Formation Realm would be impossibly difficult.

To want to break through to the Crystal Formation Realm, one must possess at least four spirit liquid drops and above. Even so, not everybody could break through to the Crystal Formation Realm.

The more spirit liquid, the greater the chances of advancing to the Crystal Formation Realm.

However, there were merely a meager two martial artists who condensed six spirit liquid drops when they were at the First Level Spirit Condensation Realm in the entire Tranquil Cloud Sect domain!

One of them was the current Tranquil Cloud Sect's Sect Leader, Yan Traceless!

The difficulty of condensing six spirit liquid drops was evident from this.

As for seven drops and above, those were all myths . . .

At least within the Tranquil Cloud Sect's domain, condensing seven spirit liquid drops was completely unheard of!

This was also the reason why Su Yishan was so astonished.

Even if he did not believe Ye Yuan could condense eight spirit liquid drops, he could not refute the fact that Ye Yuan condensed seven spirit liquid drops! That was because the quantity of essence energy which Ye Yuan absorbed just now exceeded the amount he absorbed back then by quite too much!

It far surpassed the volume of essence energy required for six spirit liquid drops.

Which was to say, Ye Yuan had already surpassed everyone in the Tranquil Cloud Sect domain!

This fact made Su Yishan infinitely depressed, endlessly jealous, and also utterly terrified.

Sure enough, the degree of Ye Yuan's monstrousness already far exceeded his understanding.

Seven spirit liquid drops! That meant that no matter how casually Ye Yuan cultivated in the future, he could cultivate to the Crystal Formation Realm!

Furthermore, Ye Yuan was already so terrifying while at the Ninth Level Essence Qi Realm. Now that he condensed seven spirit liquid drops in one go, what extent would his strength soar to?

If he knew that Ye Yuan did not condense seven spirit liquid drops, but instead, the nine drops which he dared not even think about, who knew what he would think.

In reality, not only Su Yishan dare not imagine it, but even Nanfeng Zhirou also did not dare to imagine that.

She said eight spirit liquid drops just to ridicule Su Yishan. Honestly speaking, even she did not really believe that Ye Yuan could condense eight spirit liquid drops.

Because . . . that would be too inhuman!

"Nine drops of spirit liquid huh? Didn't expect that the breakthrough this time would actually be so perfect, way stronger compared to my previous life!" Ye Yuan also felt rather emotional.

In his previous life, Ye Yuan only condensed seven spirit liquid drops. Among the pinnacle powers in the Divine Realm, seven spirit liquid drops were not considered very impressive.

The true-blue geniuses all condensed nine spirit liquid drops!

In the Lower Realms, nine spirit liquid drops were something which only existed in the legends. But in the Divine Realm, there were a few people who could achieve it.

Of course, that was also because Ye Yuan did not hold any interest in the Martial Path. Otherwise, with his degree of monstrosity, nine spirit liquid drops was not at all that amazing.

But this time around, under the double effects of the Spirit Surge Pill and the Spirit Bristle Nine Yang Divine Art, he finally achieved the perfect nine spirit liquid drops.

Right then, Ye Yuan suddenly felt his divine soul quiver and a head-splitting pain transmitted over.

"Siiii . . . So painful! Is it starting?"

Condensing spirit liquid was only fulfilling half of the breakthrough to Spirit Condensation Realm. There was still another half, which was the baptism of the divine soul!

This was the true sense of the first qualitative change of the martial artist's divine soul. It was of vital importance!

Chapter 150: Sudden Change in Situation!

Crack . . . Crack . . .

The initially vast clear skies of the Endless Forest had an abrupt change and was covered up by layer upon layers of dark clouds.

Countless streaks of lightning flashed across the sky, while the sound of rolling thunder came from the far away to near.

"What happened? What's going on?"

Su Yishan's complexion turned ashen. He had never seen such abnormal weather and could instinctively sense that things were not quite right.

The feeling that this sudden change in the situation did not seem to have formed naturally. Rather, it seemed like a phenomenon brought about when some powerhouse broke through cultivation realms.

Yuan Fei's eyes shone like he seemed to know what was happening. Hence, he lightly patted Nanfeng Zhirou's shoulder, and his other hand picking up Su Yishan like a baby chick as he shot away even further in the distance.

This time around, Yuan Fei moved away even further away from Ye Yuan. A distance of several miles!

Smack!

Yuan Fei casually threw Su Yishan down, but his gaze was fixed firmly at the place Ye Yuan was breaking through.

Nanfeng Zhirou also caught up right then as she stared at Yuan Fei in total bewilderment. She really wanted to ask Yuan Fei just what in the world happened, but they were unable to communicate so Yuan Fei would not understand even if she asked.

But looking at Yuan Fei's actions, could it be that the source of this phenomenon was actually Ye Yuan?

How was this possible?

Such a phenomenon was impossible to have even if one broke through to the Crystal Formation Realm, let alone breaking through to the Spirit Condensation Realm!

Just what on earth happened on Ye Yuan's body?

Su Yishan picked himself up rather miserably and just happened to meet Nanfeng Zhirou's baffled gaze. He involuntarily became pissed. "Don't look at me; how would I know what happened? This Ye Yuan is a natural-born freak! Freak! Freak!"

Su Yishan did not dare to get mad at Yuan Fei, so he could only say 'freak' three times consecutively to express his displeasure, and at the same time, conceal the deep shock within his heart.

Through Yuan Fei's reaction, Su Yishan clearly also realized that the source of this phenomenon was Ye Yuan.

However, he just could not figure out how Ye Yuan could invoke such a horrifying phenomenon when he was merely breaking through to the Spirit Condensation Realm.

Nanfeng Zhirou was speechless for some time before she said, "Ye Yuan's gathering qi and then liquefying it is already completed. Now, it should be the divine soul transformation. But would the divine soul transformation invoke such a phenomenon? Could it be due to him condensing seven spirit liquid drops?"

"I already said that I don't know! Divine soul transformation is just symbolical. How can it possibly trigger such a phenomenon?" Su Yishan said crossly.

Nanfeng Zhirou thought about it for a long time and also could not come up with an explanation. She could only observe Ye Yuan's movements closely.

.....

Meanwhile, over ten thousand miles away, at the Tranquil Cloud Sect, an old man filled with a sage-like bearing broke out of his seclusion and looked at the phenomenon in the distance with a grave expression.

"It's over at the Endless Forest. What happened? Could another Tier 4 demonic beast be born? But it's also not possible for Tier 4 demonic beasts to trigger such a phenomenon!"

.....

Somewhere deep in the Endless Forest, an elderly man who was only skin and bones looked at the phenomenon towering the skies with a similarly solemn expression!

"Which old demon broke through? Such a level of phenomenon is simply inconceivable! I'd better stay further away from him! Breaking through in the Endless Forest, doesn't this fellow scared of provoking that old demon in there?"

Although the elderly man was very curious about what happened, he still turned around and left without looking back.

.....

Over at the other side of the Endless Forest, this place was hailed as a land forbidden to humans, the Ten Thousand Demons Valley. There were countless powerful demonic beasts within!

In the deepest part of the Ten Thousand Demons Valley, inside a cave, a youth actually sat there cross-legged.

The youth was presently training in meditation when he suddenly opened his eyes. He murmured to himself, "It's the aura of a human! To think that such a heaven-defying existence appeared once again among the humans! What a pity! I'm also at the most critical juncture right now. Otherwise, I would go and meet him."

Finishing, the youth shut his eyes again, cutting off all of his senses.

.....

This instant, countless masters in the Endless World was startled by the phenomenon caused by Ye Yuan.

It was just that no matter how they thought, they did not imagine that such a level of phenomenon was caused by a puny little Spirit Condensation Realm.

However, Ye Yuan's current body condition was not great.

"Siii . . . Why is the divine soul transformation in the Spirit Condensation Realm so painful?!"

Ye Yuan was currently experiencing a head-splitting pain, his divine soul feeling like it was being shredded, making him wish that he was dead.

Ye Yuan had the past experience of breaking through to the Spirit Condensation Realm, so of course he knew what the Spirit Condensation Realm's divine soul transformation was all about.

But now, this sort of agony had greatly surpassed his experience.

"Argh!!!"

Ye Yuan finally could not take it anymore. He clutched his own head and started rolling around on the ground in anguish.

In the distance, Nanfeng Zhirou who saw the situation was greatly alarmed. She was about to launch herself over when she was stopped by Yuan Fei.

"Ape King, can't you see how much pain Ye Yuan is in? Quickly go and save him!" Nanfeng Zhirou was almost in tears.

Yuan Fei just shook his head and did not have any intention of heading over.

"Yuan Fei! Ye Yuan is your master! If something happens to him, you'll also suffer retribution!" Nanfeng Zhirou threatened when she saw that she could not persuade Yuan Fei.

Yuan Fei waved his hands again and continued to be unmoved.

Nanfeng Zhirou saw Ye Yuan rolling around non-stop on the ground appearing like he was in increasingly tormenting pain and could no longer endure it. She raised a palm to attack Yuan Fei.

However, Yuan Fei's speed was even greater than her's. He directly gave a hand-chop to the back of Nanfeng Zhirou's neck, and Nanfeng Zhirou promptly fainted.

Su Yishan who was watching at the sides was unclear what was going on. Did this Yuan Fei really want to see Ye Yuan die?

However, Yuan Fei did not give him much time to ponder. With the same hand-chop down, Su Yishan also fainted.

Finishing these, Yuan Fei seated on the ground and quietly watched Ye Yuan who was struggling on the ground.

The current Ye Yuan felt that his entire body was about to be ripped apart. Even as somebody who had been through two lives, he had never tasted this sort of feeling.

Ji Qingyun was an expert in terms of souls. Otherwise, it would not have been possible for him to become the youngest Alchemy Emperor.

However, he had never experienced this sort of torment even during his previous life where he broke through so many cultivation realms.

This was only breaking through to the Spirit Condensation Realm!

Ye Yuan's mind was on the verge of being extinguished. During this time, it was the desire towards life which sustained him, making his soul preserve that last trace of clarity and eternity!

He, Ji Qingyun, wanted to take revenge!

He, Ji Qingyun, wanted to charge back to the Divine Realm and kill that traitor with his own hands!

Ji Canglan was still living well in the Divine Realm. How could he, Ji Qingyun, die just like this?

Ye Yuan was unresigned!

Using his last trace of clarity, Ye Yuan revolved the Thousand Augmenting Soul Incantation!

This was his first time revolving the Thousand Augmenting Soul Incantation in this lifetime. Because cultivating soul strength below the Spirit Condensation Realm did not hold any meaning whatsoever.

Even so, Ye Yuan's familiarity towards the Thousand Augmenting Soul Incantation originated from the deepest parts of the soul!

In his previous life, he cultivated this technique countless times. This skill was akin to a part of his body!

In his previous life, Ji Qingyun did not hold much interest towards cultivation methods and was also uninterested in martial techniques. He was only infatuated with soul manuals!

As an alchemist, Ji Qingyun could not do without soul manuals!

However, the Thousand Augmenting Soul Incantation which had proved effective every time actually failed this time!

How was this possible?!
