Chapter 1501: Unfettered Souleater Powder

Hearing Ka Xin's wild laughter, You Ming's body suddenly trembled.

"This packet of powder is just in order to ensure that he and I fight under fair conditions!"

Ye Yuan's words were still ringing in his ears. You Ming suddenly realized that that packet of powder was in order to prevent Ka Xin from forcefully breaking through at the last minute to the Fiend Commander Realm!

But could that packet of powder really do it?

"You Ming, what's wrong with you?" Bloodeagle suddenly asked.

You Ming shook his head and said, "Nothing! I wonder if Ka Xin can succeed in breaking through or not. If he succeeds, Ye Yuan will be in danger."

Although Bloodeagle and he both belonged to the Blood Yama Hall, this kind of thing, the fewer people that knew, the better.

Ka Xin was the Ka Family's number one genius after all. A junior who would definitely be able to inherit the position of city lord in the future.

Once the news leaked out, it would be a troublesome affair.

Therefore, this matter, the fewer people that knew, the better.

Killing people did not necessarily need to use weapons.

How powerful the Assassination Hall was, only he, the hall master, as well as the Blood Yama Hall's hall master knew.

On the second day after Ye Yuan handed him this packet of powder, he had Ka Xin drink it in complete secrecy.

And now, it seemed like it reached the time for it to take effect.

But Bloodeagle's expression was ugly as he said, "With Ka Xin's strength, breaking through shouldn't be an issue. It will depend on whether Source Night can recover fiend essence rapidly or not."

The two people had both reached the point of total exhaustion right now. Whoever recovers strength first would be the victor!

Ye Yuan did not bother with Ka Xin's ridiculing. He took out a medicinal pill very indifferently, and started recovering fiend essence.

Everyone's heart leaped to their throats, watching this scene extremely nervously.

The violent spiritual energy gathered over from all directions. Ka Xin let out a long laugh, laughing brazenly without any fear.

This powerful sidelong glance made everyone cast a sidelong glance.

As long as Ka Xin broke through a realm, spiritual energy would instantly pour into Ka Xin's body, becoming his fiend essence!

The fiend race primarily cultivated the fiend soul. Ka Xin completely released the suppression of the fiend soul and let the fiend soul start getting into contact with Heavenly Dao.

As long as he obtained the recognition of Heavenly Dao, his fiend soul would be able to advance smoothly, becoming a Fiend Commander powerhouse!

Suddenly, Ka Xin's expression changed drastically.

He discovered that his fiend soul seemed to have run into a barrier. He was actually unable to break through!

The realm of Fiend Commander was right under his nose, seemingly within grasp.

But, this last step, he was unable to take it no matter what.

That feeling was like the reflection of the moon in the water. He could see it, but it could not be touched, driving him crazy.

"Damn it! Break through! What's going on?" Ka Xin cried out in his heart.

"Mn? What's going on? His Highness Ka Xin ... seems to be somewhat not quite right!"

"With his strength, breaking through the bottleneck should be something that happens naturally without extra effort. But why is the spiritual energy showing signs of dissipating?"

"No way, right? His Highness Ka Xin is actually unable to break through? This ... How is this possible?"

...

Very soon, the crowd on the grandstand discovered something amiss.

The spiritual energy that gathered over failed to be absorbed by Ka Xin and had signs of dissipating instead.

This discovery made everyone perplexed.

You Ming's expression became intent, titanic waves set off in his heart!

It indeed came!

The function of that packet of powder was indeed in order to prevent Ka Xin from forcefully breaking through!

You Ming as the Assassination Hall's hall master could be said to be experienced and knowledgeable.

He had never heard before that there was some kind of medicinal powder that could make people unable to break through realms. Furthermore, the party still did not have the faintest inkling.

This packet of medicinal powder was truly unknown to Gods nor ghosts!

Moreover, Ye Yuan said back then, this packet of medicinal powder would have an effect on his level of powerhouse.

If he did not believe in such heresy and tried it, would it be impossible for him to break through to the Fiend Lord Realm in this lifetime too?

Extreme horror after long deliberation!

The grandstand's third level, Yi Han looked at Ye Yuan who slowly stood up. A hint of a smile flashed across her eyes.

"Looks like the outcome is a foregone conclusion! City Lord Ka Long, you wouldn't blame me, right?" Yi Han said to Ka Long with a smile.

But Ka Long seemed very indifferent and said with a smile, "Hall Master Yi Han is too kind! Reaching our realm, those below Fiend Lord are all ants. Ka Xin losing to Source Night is his strength being inadequate. How could I blame you? Merely a junior, just groom another one will do."

If Ye Yuan heard this, he would definitely get a huge shock.

Yi Han who teased and flirted with him that time was actually the incomparably mysterious Blood Yama Hall's hall master!

And she was actually a Fiend Lord powerhouse, the same as City Lord Ka Long!

Hearing Ka Long say this, Yi Han covered her mouth and smiled as she said, "It's good that City Lord doesn't blame me! You rest assured, I owe you a favor this time."

Ka Long's brows raised up. Looking at Yi Han rather surprisedly, she said, "Hall Master Yi Han's favor is much more valuable than a junior."

...

Ye Yuan slowly walked towards Ka Xin and said nonchalantly, "I said before, your winning streak isn't anything remarkable. You see, nobody is cheering for you anymore."

A hint of panic finally flashed across Ka Xin's face.

"No, impossible! Why, why would I fail to break through? This ... This is impossible!"

Helplessness was written all over Ka Xin's face. He completely never thought before that he would fail breaking through the Fiend Commander Realm!

Let alone that Ye Yuan had long planned this scheme a year ago, in order to prevent him from breaking through his realm.

Everything was long already destined at that moment when he decided to kill Ye Yuan.

Ye Yuan had witnessed before Qin Tian breaking through at the last minute. So how could he possibly give him the opportunity to break through?

That packet of powder was called Unfettered Souleater Powder, a medicine specially made to target the fiend race's fiend soul.

As long as fiend race martial artists consumed it, the Unfettered Souleater Powder would directly act on the fiend soul, making the fiend soul unable to perceive heaven's secrets, unable to advance an inch further in this lifetime!

The Unfettered Souleater Powder was colorless and odorless and also would not cause any harm to a martial artist's strength.

But, as long as they succumbed, they could forget about breaking through again in this lifetime.

Until death, they would not know what was going on.

Although the Unfettered Souleater Powder that Ye Yuan refined could not affect You Ming to the point he could no longer advance an inch further for life, but for him to advance to become a Fiend Lord this kind of thing, he could forget about it.

"Impossible! I'm the King of Blood Battle! How can I lose to a high-rank Fiend General? Argh! I'll fight it out with you!"

Ka Xin roared, pouncing over toward Ye Yuan.

However, in his current state, he was unable to pose any threat to Ye Yuan at all.

Ye Yuan looked at him with pity and said coolly, "When you were immersed in the glory of the past, you were already doomed to today's outcome. You are not irreplaceable. The King of Blood Battle is it? What a ridiculous honor!"

Chiii!

Ye Yuan's long sword swung, directly crushing Ka Xin's fiend soul, not giving him any chance.

All those present were dead silent.

Although they had long already known the outcome, when this instant arrived, they still could not quite believe it.

The King of Blood Battle, the legend of the Blood Battle Stage, was defeated just like this?

Just what kind of terrifying existence is that handsome young man on the ring?!

"This battle, Source Night wins, Ka Xin loses!"

Finally, the referee's announcement shattered this silence.

[Unrivaled Medicine God](#)

Chapter 1502: Attracted by Fame

Even with Bloodeagle's shrewdness, he nearly jumped up.

He was simply too excited. A single fight actually earned back two to three years of profit!

This money was simply swept over by the wind.

The Blood Battle Stage was the most profitable hall among the halls within the Blood Yama Hall. It could be described using the phrase bringing in bushels of gold daily.

But earning money like this today had never happened in history before!

Deducting those who bet on Ye Yuan's victory, the Blood Battle Stage crazily pulled in 100 billion low-grade fiend essence stones today alone.

"Hahaha! It's still Lord Hall Master who had foresight. This money was earned too easily! I really didn't expect, really didn't expect! Before today, who would have thought that a middle-rank Fiend General could defeat the King of Blood Battle, Ka Xin?" Bloodeagle said excitedly.

Today, the Blood Battle Hall reaped a huge earning. He, this hall master, felt like his back was straightened.

You Ming was clearly not as excited as Bloodeagle and said indifferently, "Yea, it's still Lord Hall Master who had the foresight! This boy is absolutely not a creature that belongs in a shallow pond. His talent, methods, are all too terrifying!"

A few families rejoice and a few families are in sorrow!

Compared to Bloodeagle's excitement, wailing sounds echoed outside.

"It's over! This time, it's thoroughly over! Was I freaking stupid? Why would I pledge all of my assets? With this, I lost everything!"

"My fiend essence stones! Sniff sniff ... Your Father went through fire and water for several thousand years before saving up these few tens of thousands of fiend essence stones. Now ... returned to before liberation overnight!"

"Damn Ka Xin, to actually cause me to lose so badly! Ahh, ahh, ahh, I'm going crazy!"

"Hahaha ... Profit! Earned big profits! I wagered 50 thousand fiend essence stones and it flipped 15 times all at once! 15 times! Hahaha ..."

...

That person was immersed in excitement but did not notice that there were already many pairs of eyes staring at him.

Those mucking around the Blood Battle Stage, the majority were martial artists mucking around at the bottom-level.

Now that they lost all of their assets, they were already anxious until their eyes turned red.

This fellow who bet on Ye Yuan's victory earned money but did not know how to restrain himself. Later, he would not even know how he died.

However, there were always some people who were exceptions.

Fan Lin was hugging Li Ji at this time, wishing to hold her with his everything.

He had never felt that this daughter was so pleasing to the eye.

Ye Yuan was the Fan Family's special-grade retainer. Fan Lin naturally would not bet on Ka Xin's win like the others.

However, he was not optimistic about Ye Yuan at all.

Harboring the idea of cheering Ye Yuan on, Fan Lin bet on Ye Yuan one million fiend essence stones.

He never thought that in a blink, Ye Yuan earned him 15 million fiend essence stones!

Even to a large family like the Fan Family, 15 million fiend essence stones were absolutely not a small sum as well.

More importantly, there was excitement on his face!

The name of Source Night would reverberate throughout Capone Capital City tonight. His Fan Family would naturally benefit from association with it too.

“My good daughter, you’re really too discerning! This treasure, you have to help me keep in the Fan Family no matter what! Hahaha ...” Fan Lin said with a loud laugh.

Starting from just now, there was no idea how many Capone Capital City nobles coming over to congratulate him.

He, this Fan Family’s family head, immediately felt radiance on his face.

However, Li Ji was clearly not as optimistic as Fan Lin.

She kept feeling that Ye Yuan was neither friendly nor aloof to her. Regarding her active pursuit, he also seemed very perfunctory.

Sigh, can only take it one step at a time, Li Ji thought in her heart.

...

When the entire capital city was discussing how formidable Ye Yuan was and so on, Ye Yuan himself was not very aware of it.

Walking along the way, Ye Yuan had defeated too many geniuses, regardless of whether alchemy or martial arts.

Toward this kind of victory, he had long been able to treat it like a normal day.

Returning to the Fan Family to recuperate his wounds, Ye Yuan was not in a hurry to cultivate but spent all day in the Fiend Medicine Hall.

His prestige was like the noonday sun currently. Everyone in the Fiend Medicine Hall, including the hall master, all treated him with the courtesy of a teacher.

Such a good resource, Ye Yuan did not wish to squander.

He worked as a teacher in the Fiend Medicine Hall while making use of the Fiend Medicine Hall’s resources to comprehend the Alchemy Dao.

Ye Yuan’s research on Two-star divine pills had not reached the level of grand completion yet. It still required a great deal of practical work before it could attain grand completion.

The Fiend Medicine Hall's resources were abundant and they also had the greatest esteem for him. It was naturally the best place for Ye Yuan to study Alchemy Dao.

Therefore, Ye Yuan became the Fiend Medicine Hall's attending fiend apothecary, granting all demands.

Anyone who came to the Fiend Medicine Hall to request for pills, he would accept it all.

Of course, Ye Yuan studying Alchemy Dao still had a very important mission: to develop the pill formula to repair the divine sea!

Regarding Little Fatty Xie Jingyi, Ye Yuan had always kept him in mind.

No matter what, he had to let Fatty Xie restore his divine sea and cultivate anew!

But Ye Yuan also knew that this was not something that could be done overnight.

The study of Alchemy Dao required accumulated practice and research. The higher the grade of the divine pill, the harder to comprehend, let alone talk about developing new medicinal pills.

Half a year was about to pass in a twinkle. The matter of Ka Xin being killed by Ye Yuan had long faded away already.

But now, the title of Capone Capital City's number one Fiend Apothecary rose in the capital city.

Every day, the martial artists who surrounded the Fiend Medicine Hall's front door to request for pills lined up like a long dragon.

The fiend general powerhouses in Capone Capital City all took pride in getting one of Master Source Night's medicinal pills.

The medicinal pills that Ye Yuan refined were hiked to an extremely high price in the black market.

It was inevitable. The medicinal pills that Ye Yuan refined, the quality was high, and the medicinal effect was strong. Others could not compare to Ye Yuan's pills at all.

However, through this half a year of training, Ye Yuan corrected all the bad habits of Meng Qi and the others. This made their pill refining standard improve greatly.

The five elders were all shedding tears of gratitude.

On this day, Meng Qi approached Ye Yuan and said carefully, "Master Source Night, our Long Ping Capital City, Blackjade Capital City, and Purple Nether Capital City's Fiend Medicine Halls' associates heard that Master's alchemy standard is extremely high and came attracted by your fame, hoping to listen to master preach on Dao. Wonder what is Master's opinion?"

Ye Yuan's eyes narrowed slightly and he said indifferently, "Did you all listen too much and feel that my preaching isn't worth money? Anyone can come and listen?"

Meng Qi's heart thumped and he hurriedly said, "This ... Master's words are too serious! Master's preaching, every phrase is a gem, causing us to be enlightened at once. How could it be something cheap?"

Ye Yuan said coolly, "The reason why I stay here is that I owe your Blood Yama Hall a favor, not because I have nothing better to do. As for the other capital cities' Blood Yama Halls, I'm not acquainted with them, and I don't want to be acquainted as well. Let them go back where they came from!"

Meng Qi had an awkward look and withdrew helplessly.

After Meng Qi went out, Ye Yuan gave a cold snicker.

Did the Blood Yama Hall really take him to be a free labor force?

Not hemorrhaging any blood at all and wanted him to preach on Dao for them. Dreaming too beautifully.

Regarding those people coming to listen to the sermons, Ye Yuan did not have objections.

But they must repay it with a favor!

In this half a year, although Ye Yuan borrowed the Fiend Medicine Hall, this platform, his alchemy strength improved a lot.

But what the Fiend Medicine Hall obtained from here far exceeded what they paid.

Disregarding others, it was still very promising for the five elders to step into the realm of Three-star Fiend Apothecary in the future under his guidance.

Just this alone was already above their money's worth.

Unrivaled Medicine God

Chapter 1503: Congratulations, You've Already Been Blacklisted

After leaving Ye Yuan, Meng Qi had a bitter smile on his face.

He knew that it would be this result.

It was just that the hall master made him come over. So he had no choice as well. He could only come and give it a try.

The Fiend Medicine Hall underwent an earth-shaking transformation under Ye Yuan's hands in this half a year.

Recently, these few days, Meng Qi faintly felt his realm that had yet to loosen for a long time actually have signs of going to break through.

This discovery made him extremely agitated.

Meng Qi had already stopped at this realm for 10 thousand years.

He knew that he had long exhausted his potential and that there was basically no hope of breaking through in this lifetime.

But now, he actually had hopes of breaking through to the legendary Three-star Fiend Apothecary. How could this result not make him wildly ecstatic?

But Meng Qi knew, for him to be able to break through, it was entirely Ye Yuan's credit.

In this half a year, Ye Yuan opened another window for them, letting him see a whole new world.

The few little tricks that Ye Yuan imparted to them could be said to have polished up their alchemy skill, making their strength advance by leaps and bounds.

Meng Qi refining the Devil Dragon Flame Crystal Pill currently was basically all middle-grade as the start. There was a very large chance of being able to refine high-grade.

To be able to have this kind of improvement in half a year, it could simply be described using riding a rocket.

If it were before, Meng Qi never dared to think that he could still have such rapid improvement in alchemy!

He knew that the other four elders also obtained varying degrees of improvement.

And all this was all thanks to Master Source Night!

Meng Qi even knew that the hall master's improvement in this half a year was similarly very great. He already flung the other two Three-star Fiend Apothecaries in the city far behind.

The current Ye Yuan was already revered by them akin to a god!

The Fiend Medicine Hall's change was so great, but Ye Yuan never opened his mouth to ask for anything before.

Even with him being present and refining pills, it was the customers that prepared the required spirit medicines themselves for refinement. The Fiend Medicine Hall did not need to do much.

It was the Fiend Medicine Hall that owed Ye Yuan greatly.

Now, the other capital cities' people are coming to seek experience. This was clearly the interaction between the upper echelons.

The Blood Yama Hall treated Master Source Night as someone that could be squeezed dry. It would be weird if he was happy.

Kong Xiao was Blackjade Capital City's Fiend Medicine Hall's hall master. Regarding upstairs making him bring people over to listen to people preach on Dao, he was actually very disdainful in his heart.

Fiend Apothecaries were all proud. He, a Three-star Fiend Apothecary, how venerated was his status? Ordinary Fiend Apothecaries, he did not pay any attention to them at all.

His alchemy strength was also a first-rate existence among the hall masters in the nearby few capital cities.

What made him even more gloomy was that he heard that this Fiend Apothecary preaching on Dao was actually just a Two-star Fiend Apothecary.

How to make him accept this?

"Yi Mo, this master has such airs. Even you, a hall master, can't invite him?" Kong Xiao said unhappily.

A Fiend Medicine Hall's hall master wanting to meet a Two-star Fiend Apothecary actually still had to pass on a message. Wasn't this a joke?

Yi Mo was Capone Fiend Medicine Hall's hall master. Out of fear of losing face, that was why he made Meng Qi go and invite Ye Yuan.

Actually, he also knew that Ye Yuan most likely would not agree to meet these people.

"Kong Xiao, this place isn't the Blackjade Capital City. If you don't care about it, you can immediately leave, I didn't invite you to come!" Yi Mo said with a dark expression.

The moment Kong Xiao heard, he was delighted and said with a smile, "Yo, became courageous huh?! If not for my hall master asking me to come, do you think I'll come to this lousy place? What master still, pooh! A Two-star brat also dares to come out and show off! It's just your lousy standards that you call anybody your master when you see them, right?"

Capone Capital City's Fiend Medicine Hall was indeed ranked near the bottom of the few capital cities in the vicinity.

From numbers to strength, they were all far inferior to the other few cities.

Hence, when Kong Xiao saw Yi Mo, he had his head held high, not taking the latter seriously at all.

Yi Mo was livid with rage and said, "Good! Very good! Since you don't care for Master Source Night's preaching the Dao, then please go back!"

Kong Xiao was just about to speak when Meng Qi came out from inside and said to Yi Mo with a bow, "Hall Master, Master Source Night said, let them go back where they came from!"

The two people's conversation just now, Meng Qi heard all of it.

He originally wanted to say it a little tactfully. Now, he did not give face at all, directly reiterating Ye Yuan's words as it was.

When Kong Xiao heard this, he directly lost it and said furiously, "Ha, what high-sounding sentiments! A measly little Two-star Fiend Apothecary actually dares to speak to this hall master this way! I'll go and meet your hall master straight away. I want to see what she says! Wu Hao, Metalheart, they are kneading us here. Let's go find their hall master together then!"

Wu Hao and Metalheart were respectively Long Ping Capital City and Purple Nether Capital City's Fiend Medicine Hall's hall masters.

When Kong Xiao said finish, he turned around and was about to leave.

But walking a few steps, he discovered that Wu Hao duo did not follow after.

He could not help stopping and said with a frown, "Didn't the two of you hear? They are having us go back to where we came from? You guys still want to drag out your stay here to look at people's countenance?"

But Wu Hao chuckled and said, "You leave then. Our Long Ping Capital City came over harboring the attitude of learning. How can we sweep away the host's face? Since he's a master, he naturally has his pride. We should bring out some sincerity."

Metalheart also smiled and said, "Why not Brother Kong Xiao go and find Lord Hall Master? Perhaps we'll be able to meet Master Source Night."

Kong Xiao's brows furrowed, countless question marks flashing across in his heart.

What was with these two people?

He knew that these two people also looked down on the Capone Fiend Medicine Hall.

When they just entered the city, the three of them even met up and discussed together that they could not let Yi Mo become intoxicated by success, and had to extinguish their prestige properly.

Why did their attitudes have a 180-degree major change now?

There must be something that he did not know in-between this!

His face fell and he said, "The two of you, what's the meaning of this?"

Wu Hao smiled and said, "No meaning. We came to Capone Capital City without paying heed to the distance. We naturally have to have an exchange with Brother Yi Mo more. Brother Yi Mo, this Wu had some queries recently, let's ... explore it?"

Yi Mo had yet to speak when Metalheart also smiled and said, "Brother Yi Mo, I brought quite a few people this time. We're brothers, so we need to interact more!"

Yi Mo was confused, but one could not reach their hands out to hit a smiling face. He clasped his hands and said with a smile, "That is, of course!"

Kong Xiao's eyes narrowed slightly and he gave a cold snort as he said, "Humph! I don't believe that a Two-star Fiend Apothecary can actually defy the heavens? He's not meeting us, right? I'll make him crawl over to see me!"

Done talking, Kong Xiao was just about to flick his sleeves and leave.

Right at this time, Ye Yuan slowly walked out and just happened to hear this sentence. He said with a smile, "Is that so? Then congratulations to you, you've already been blacklisted and can head back home."

Kong Xiao suddenly turned around and said in a cold voice, "You're that whatever bullshit master? Heh, I was wondering who it was, turns out that it's a brat still wet behind his ears! Yi Mo, you all are really declining with the passing of time! Kid, you rest assured. I'll head back home. But you need to be on your knees and give me three kowtows first!"

But Ye Yuan did not even bother with him and said to Yi Mo, "Hall Master Yi Mo, this recent half a month, I want to return to the Fan Family for closed-seclusion. This half a month, don't send people to come and find me."

Finished talking, he did not wait for Yi Mo to answer either, directly walking past from Kong Xiao's side and left the Fiend Medicine Hall.

Unrivaled Medicine God

Chapter 1504: Redeeming Favor

Pfft!

A cloud of green smoke emerged from the medicinal cauldron. The medicinal pill inside already became a scrap pill.

Ye Yuan sighed slightly and said, "Failed again! Could it be that this medicinal pill to restore the divine sea really can't be refined?"

In order to refine the medicinal pill to help Xie Jingyi recover his divine sea, this half a year, Ye Yuan had already failed no idea how many times.

He attempted no less than one thousand over ways of combining spirit medicine, but he never succeeded even once.

These one thousand over kinds of combination methods were just the results that he derived in the end.

There were at least several tens of thousands of pill formulas derived in his mind.

It was just that in the end, a vast majority of them was rejected by him.

In order to derive this brand new pill formula, Ye Yuan could be said to have cudged his brain.

However, the result made him very disappointed.

"You've already done your best. Even though Alchemy Gods are Deity Realm powerhouses, they don't dictate all life on earth too. There are times when human strength would not do. You don't have to be discouraged either. A medicinal pill to repair the divine sea had never been heard of in the Heavenspan World. It's easier said than done for you to want to develop it yourself." Dustless' figure appeared and consoled him.

Ye Yuan smiled and said, "I'm not discouraged. In fact, through this half a year of deducing experiments, I feel that I'm already very close to it! It's just that, this layer of windowpane paper can't be poked through from start to end, making me somewhat depressed. I have a feeling that as long as I poke through this layer of windowpane paper, my alchemy strength will advance a step further!"

Dustless looked at Ye Yuan in surprise, as if he did not know the latter.

He knew that Ye Yuan's current alchemy level was already far stronger than the Heavenly Empyrean Immortal Grove in the same period.

Advancing a step further, he even did not quite dare to imagine it.

Could it be that this guy did not have a limit?

“Water will flow when a channel is formed. Being too deliberate can be counterproductive instead. This period of time, why don’t you relax a little first? Perhaps, you’ll straighten out your ideas one day,” Dustless said.

Ye Yuan nodded his head and said, “It’s also time to leave seclusion. I’m afraid some people are already tired of waiting.”

Ye Yuan exited seclusion, Long Zhan was long already waiting for him.

“Master, there’s a Blood Yama Hall’s guest waiting for you in the box room,” Long Zhan said.

Ye Yuan nodded his head slightly and said, “You withdraw then, I’ll handle it.”

Walking two steps, Ye Yuan suddenly turned back and said, “You go and find Fan Yu to fetch a batch of spirit medicines over, just say that I said it. This is the formula. You’ve already been stuck at half-step Origin Deity for very long, right?”

Hearing this, Long Zhan involuntarily trembled all over. A surge of wild elation welled up in his heart and he hurriedly knelt down and said, “This lowly one has already been stuck at this step for 15 thousand years!”

Ye Yuan gave an ‘mmn’ and said, “Your talent is pretty good. Originally, entering the Heavenspan World, you could break through to Origin Deity. It’s just a shame that it was delayed. Looking on the account of your diligence and earnestness these few years, I’ll give you a ride!”

Long Zhan’s entire body trembled agitatedly as he said, “Long Zhan thanks Master very much!”

Ye Yuan voiced his assent and turned around and left.

Long Zhan’s pair of fists were gripped tightly, his face appearing somewhat red because of excitement.

These 100 thousand years, it was his first time being so agitated.

His state of mind that was originally akin to low-level of water finally produced a trace of ripple.

For 100 thousand years, he bemoaned how tragic his own fate was all the time.

His entire person seemingly fell into darkness, all the way until Ye Yuan’s appearance.

Long Zhan had never thought that this bumpkin who came out of the Immortal Grove World like him actually had such outstanding talent.

The entire Capone Capital City was stirred until waves ran high by his new master.

All forces were revolving around his master.

“Sigh! One misstep and every step became wrong! Got to double down my efforts from now onwards. I hope that I can get Master’s forgiveness in the future!” Long Zhan said with a sigh.

...

When Ye Yuan saw Yi Han, he could not help being somewhat surprised.

“Source Night pays respect to Hall Master. I didn’t think that Hall Master actually arrived in person,” Ye Yuan said with clasped hands.

A hint of surprise flashed across Yi Han’s gaze and she said with a smile, “You actually guessed my identity long ago! Looks like I still underestimated you!”

Ye Yuan smiled and said, “Didn’t think of it at that time. But after coming back from the Hundred Knows Hall, I thought carefully, and I realised that Hall Master had many suspicious points on you.”

Yi Han smiled sweetly and said, “No wonder Ka Xin would die at your hands. His level of skill is far too lacking compared to you!”

Ye Yuan smiled and said, “Hall Master is too kind.”

Yi Han giggled and said, “I even find that I didn’t praise enough! It looks like I indeed didn’t find the wrong person.”

Ye Yuan gave Yi Han a glance with a profound expression and said, “Hall Master coming personally, could it be to have me return the favor?”

Yi Han gave Ye Yuan a glance reproachfully and said with devilish flirtatiousness: “You slippery little fellow, not even willing to help Elder Sister with a small favor. Must I use favor to pay it off??”

Ye Yuan broke out in goosebumps all over and said with a smile, “This favor of Hall Master isn’t small! If my conjectures are right, there are already quite a few capital cities’ Fiend Medicine Halls that have gathered at Capone Capital City, right? The moment I start a sermon on Dao, the entire Eminent Orchid Imperial City’s Blood Yama Hall’s Fiend Medicine Halls’ strength will collectively rise a major level. How big this favor is, Hall Master is adept at this and don’t need me to calculate, right?”

Yi Han had a bitter look on her face, looking delicate and pitiful. Truly a nuisance character.

She heaved a sigh and said, “The news of the Blood Yama Hall is all shared. The other capital cities’ hall masters learning about your existence, they naturally won’t let me off. So many people came to find me, I can’t very well push all of them away, right? Don’t look at how Big Sister is in charge of the Blood Yama Hall, Big Sister also has times where things are difficult!”

That expression of Yi Han made people unable to resist loving her upon seeing her, making people’s bones go soft.

Except, if not because he could not beat her, Ye Yuan wished that he could give a tight slap!

This woman really calculated well, wanting the horse to run and also wanting the horse to not eat grass.

You think that by putting on an act, this little lord will promise you?

Ye Yuan’s eyes narrowed slightly and said indifferently, “Hall Master, kill me then. Don’t talk about this matter!”

Yi Han’s expression instantly turned from sunny to overcast. A moment ago, she was still thinking of seducing Ye Yuan. The next instant, her face was already cold as frost.

A piercing cold killing intent arrived with a howl, but Ye Yuan was firm as a rock and not cowed in the slightest.

He knew that Yi Han absolutely would not kill him.

She personally came forward and took his favor, she definitely had something to request of him.

Sure enough, Yi Han's killing intent quietly subsided and she said gloomily, "You punk, really impervious to everything! Speak then, what conditions do you have!"

Ye Yuan smiled slightly and said, "Two! The first, this is considered half a favor, realized right now! The second, a month later, you'll gather everyone to the Blood Battle Stage, I'll preach on Dao for half a month continuously. How much they can comprehend will depend on themselves. I don't have time to waste on this daily. Uh ... There's still one more, that is that whatever Blackjade Capital City's Fiend Medicine Hall's people, this lord won't wait upon them! Have them scam!"

Ye Yuan knew that wanting to use this to cash in all of the favor, Yi Han absolutely would not agree.

Therefore, he had no choice but to go for second best, consume half a favor first before talking.

Yi Han sighed slightly and said, "You brat, really not willing to suffer any bit of loss at all! Fine then, Big Sister will promise you."

Finished talking, Yi Han took out the blood essence contract and slightly kneaded a seal. The blood essence in the contract began to combust.

[Unrivaled Medicine God](#)

Chapter 1505: 1505 Consequences of Offending a Master

"Are you satisfied now? Sigh, Big Sister has never suffered such a big loss before being this hall master," Yi Han said with bitterness on her face.

Ye Yuan did not want to get too entangled on this topic, so he said, "Lord Hall Master coming personally, you should have a notion about the other half of the favor, right?"

Yi Han laughed, her breath smelling like orchids, as she said, "Sly and cunning, can't hide anything from you!"

Ye Yuan did not follow up, quietly waiting for Yi Han to continue speaking.

"Our Blood Yama Hall discovered an ancient ruin. It's too bad that that ruin, only those below the Fiend Lord Realm can enter. Moreover, Fiend General Realms can't exceed 1000 years old. Fiend Commander Realm are not to exceed 3000 years old! At that time, Eminent Orchid Imperial City's most elite juniors will gather there. Our Capone Capital City's Fiend General Realms only have one spot. Therefore, the strongest person has to go. And that person is you!" Yi Han said.

Ye Yuan smiled and said, "So that's why you guided Ka Xin and my deathmatch in secret. It's to see who has the qualifications to enter the ancient ruins?"

Yi Han also smiled and said, "This is the world of the strong. Weaklings ... will only be eliminated!"

When saying this, Ye Yuan finally felt that this one in front of him was a ruler who dominated a region.

In front of her, those that had no value to be exploited could be abandoned at any time.

He was merely a chess piece in her hands.

Ye Yuan said without batting an eyelid, "When is it starting?"

Yi Han said, "One year later, I'll come and find you. You still have a lot of room for improvement in the Fiend General Realm. This period of time, set aside the matter of medicinal pills, use it on improving your strength."

Ye Yuan nodded his head, showing an expression that he understood.

Sending away Yi Han, Ye Yuan could not help but ponder.

This trip to the fiend race, his goal had already been achieved. Originally, he was already not planning on staying.

It was just that Ye Yuan did not expect that he actually attracted the attention of the Blood Yama Hall's hall master.

Since Yi Han chose him, his every movement and action was under her control.

Wanting to escape from under the hands of a Fiend Lord powerhouse was virtually impossible.

As for the blood essence contract, Ye Yuan did not think anything of it at all.

That thing was indeed very ingenious. To others, it had a fatal binding power.

But to Ye Yuan, it was totally useless.

Ye Yuan had refined the Lesser Heavenspan Mountain. Wanting to use this kind of contract power to deal with Ye Yuan was simply nothing more than wishful thinking.

How could Ye Yuan possibly put his fate in the hands of others?

The reason why he caused a bit of difficulty was to put on an act for Yi Han to see, let her feel that he was very apprehensive of this blood essence contract.

Looking at it now, the effect was pretty good.

It was just that this trip to the ancient ruins was most likely imperative.

...

These few days made Kong Xiao very depressed.

Only afterward did he learn that Wu Hao and Metalheart sent people to Capone Fiend Medicine Hall first to make a trip. They discovered that Capone Capital City's Fiend Medicine Hall's level was already no longer what it was long ago.

How astute were Wu Hao and Metalheart? How could they still not know Master Source Night's prowess?

For half a month, these two fellows stayed at the Fiend Medicine Hall every day and did not come out.

These two guys had clearly long known, and they actually tricked him!

At first, Kong Xiao thought, no matter how awesome this master was, could he still not listen to the hall master?

The matter that two great hall masters settled on was not up to Source Night to turn down.

Who knew that when he went to request an audience with the hall master, their hall master directly said that she could not influence Master Source Night's decision either.

Since he offended Master Source Night, then it would depend on his fortunes.

With this, Kong Xiao really despaired!

An existence that even the hall master could not control, then how incredible was his alchemy skills?

Right at this time, another heavyweight news came. Meng Qi of the Fiend Medicine Hall's five elders successfully broke through, and he already became a Three-star Fiend Apothecary!

This news, regardless of whether in Capone Fiend Medicine Hall or to the other capital cities' Fiend Medicine Halls, was a heavyweight bombshell.

Meng Qi was a veteran Two-star Fiend Apothecary and already stopped at this realm for 10 thousand years.

If barring no accidents, he would remain at this realm in this lifetime.

But now, he actually broke through!

If this had nothing to do with Master Source Night, they would not believe even if they were beaten to death as well.

Staying for a long time in Capone Capital City, some news naturally spread among the fiend apothecaries.

Master Source Night had merely preached about the Dao for the Fiend Medicine Hall's people for the greater part of a year.

More than half a year's time groomed a Three-star Fiend Apothecary?

This Master Source Night simply transformed the foul and rotten into the rare and ethereal!

Kong Xiao regretted until his intestines were green now. Looking around as one group after another of fellow professionals arrived, he was burning with anxiety.

This was the mission that upstairs ordered. If other people returned fully-loaded, but he returned empty-handed because he offended Master Source Night, this responsibility of his was not small.

Seeing Ye Yuan arrive at the Fiend Medicine Hall unhurriedly, Kong Xiao immediately went up to greet him.

"Haha, Master Source Night, you're here," Kong Xiao bowed as he said with a fawning smile.

Ye Yuan swept a glance over him and walked past him expressionlessly.

Kong Xiao knew that this round was not easy to clear. He did not mind either, following Ye Yuan into the Fiend Medicine Hall subserviently.

“Master, that day, it was all me who had eyes but failed to recognize Mount Tai, hope that a great man like you don’t stoop to harbor grievance for past wrongs,” Kong Xiao said.

With Ye Yuan entering the Fiend Medicine Hall, there were already a lot of people waiting to request for pills.

He came before his exclusive medicinal cauldron and said coolly, “Words that had been said before, water that had been spilled, I won’t take them back! Blackjade Capital City’s Fiend Medicine Hall has already been blacklisted. If they are here, everyone doesn’t need to wait here anymore in the future.”

Swoosh! Swoosh! Swoosh!

Everyone’s gazes immediately gathered on Kong Xiao’s face.

Kong Xiao’s expression also became extremely ugly all at once and said in a solemn voice, “Master Source Night, must you leave no room for maneuver?”

Ye Yuan smiled and said, “People have to pay a price for their actions. Yesterday, if I crippled you with a sword, then say sorry to you today, will you agree? Therefore, please do as you please.”

Wu Hao had already hung out with Yi Mo for quite a few days. He was already astonished by Yi Mo’s alchemy skill.

Yi Mo’s alchemy skill, he was aware of it, just a bit worse than his.

But now, Yi Mo’s alchemy standard already surpassed him all-round!

This discovery made Wu Hao inexplicably shocked.

More than half a year, Yi Mo’s strength actually had such great improvement. This was simply a joke.

The advancement of alchemy skills, who did not grind it out using time?

Half a year’s time, even if there was progress, it would be negligible too.

But Yi Mo’s improvement was too obvious!

No wonder when seeing Source Night this Three-star Fiend Apothecary, even Yi Mo, this Three-star Fiend Apothecary, was incomparably respectful.

Now, it was his, Wu Hao’s turn, to perform!

“Kong Xiao, not that I’m criticising you, but what you said that day was too much! Since Master Source Night said to blacklist you, could it be that you want to smack the master’s face in front of so many people? Please leave! Otherwise, you’re offending everyone present!” Wu Hao said in a solemn voice.

Metalheart also immediately stood up and said, “Kong Xiao, please go out! Do you want to cause so many people to not see the master refine pills because of you alone?”

Unrivaled Medicine God

Chapter 1506: Not Presentable If Lower Than Heaven-Grade!

“Yeah, it’s fine that you offended Master Source Night yourself. But don’t harm us!”

“Quickly go, quickly go! We’ve already waited for Master Source Night for half a month. Want to die, die yourself! Don’t drag us into the water!”

“I’m still waiting for Master Source Night to refine pills to save lives. Still not getting lost, I’ll fight it out with you!”

...

At this time, inside the Fiend Medicine Hall was packed with people. Everyone all turned the spearhead at Kong Xiao.

Kong Xiao discovered that he seemed to have become a rat crossing the street, everyone yelling to beat.

Especially Wu Hao and Metalheart, the two people’s attitudes. It made him burn even more with rage.

These two people wanted to step on him to get into Source Night’s good graces!

He discovered that he really seemed to not be able to stay on anymore.

Continue to thicken his face and stay on, he would be flayed and swallowed alive by these people.

“The two of you, I’ve remembered you! Go then, who’s afraid of whom? Humph! I don’t believe that listening to this kid’s sermon, one can still ascend to heaven?”

Done talking, Kong Xiao left resentfully.

He originally thought that he was, at any rate, a Three-star Fiend Apothecary, a Fiend Medicine Hall’s hall master, that Ye Yuan would more or less give some face. Who knew that this brat did not give any face at all.

In front of so many people, this face was completely lost.

Regarding this little interlude, Ye Yuan did not take it to heart at all.

He had his own pride. This kind of pride was not allowed to be blasphemed.

Since Kong Xiao desecrated his glory as an alchemist, he would have to bear the corresponding consequences.

“Next, starting the pill refinement!” Ye Yuan said coolly.

Other masters refining pills had all kinds of requirements. Ye Yuan did not.

As long as you did not rush up to make trouble, even if you made a racket below, it was no problem too.

This was everyone’s first time watching Master Source Night refine pills. Each and every one of them held their breaths, looking rather excited.

Although Ye Yuan did not request for it, inside the Fiend Medicine Hall was incomparably quiet at this time. Even if a needle fell on the ground, it could be heard clearly.

Only when Ye Yuan refinished refining the first medicinal pills did those Fiend Apothecaries abruptly wake up.

“This ... It’s done?”

Wu Hao blinked a few times, looking somewhat not quite daring to believe it.

This was a low-level Two-star divine pill. The majority of the people present could refine it.

But from the beginning of the refinement until now, merely two hours had passed!

Wasn’t this too quick?

Yi Mo and the rest had clearly long been accustomed to it and said smugly, “Otherwise? Do you think that I’ll call just any person my master? Ordinary Two-star divine pills, Master Source Night doesn’t take more than two hours to refine. Those a little harder wouldn’t surpass six hours either.”

Wu Hao’s eyes went wide and he said in disbelief, “No way, right? This ... This is also too exaggerated! What about the quality?”

Yi Mo smiled and said, “Won’t you know if you take a look?”

At this time, Ye Yuan opened the furnace, the pill formed.

That person who requested for the pill flushed red, incomparably agitated.

Although the medicinal pill was not out yet, he was not worried about the medicinal pill’s quality at all.

Ye Yuan’s palm shook, the medicinal pill flew out and landed in the jade container lightly.

The gazes of Wu Hao and the rest turned intent, looking at the medicinal pill with unbelievable shock.

Divine-grade!

My God, two hours to refine a divine-grade divine pill!

Are my eyes blurry?

It was not just him alone who was shocked. The exclamations in the hall rose one after another, clearly all being stunned by Ye Yuan’s alchemy skills.

Ye Yuan’s pill refinement was too profound. They could not understand at all and only felt a surge of Dao accumulations revolving around the pill furnace.

However, they could understand the medicinal pill’s grade!

A Two-star Fiend Apothecary refined a divine-grade divine pill in two hours. This was simply inconceivable.

Divine-grade medicinal pills were normally all high-rank Fiend Apothecaries refining low-level medicinal pills before there was a certain chance of being refined.

Just the level of these fiend race Fiend Apothecaries, for a Three-star Fiend Apothecary to be able to refine a One-star divine pill to divine-grade, he could already burn incense and worship the Gods.

Two-star divine-grade divine pills, one wouldn't even think about it!

"Divine-grade divine pill! It's actually a divine-grade divine pill! I've never seen before a Two-star divine-grade divine pill in my life before!" exclaimed a Two-star Fiend Apothecary.

Those martial artists waiting for the pill refinement gave him a glance using a look for looking at a fool, and said, "The medicinal pills that Master Source Night refines, he's too embarrassed to present it if lower than heaven-grade. What are you all making such a big fuss for? Getting excited about a commonplace thing!"

"Yeah! That was a Three-star Fiend Apothecary who was chased out earlier, right? That guy must be an idiot. That's why he would offend Master Source Night! Three-star Fiend Apothecaries also have to obediently call him as a teacher when arriving in front of Master Source Night!" said another person.

"L-Lower than heaven-grade, can't present it?"

The corners of that Two-star Fiend Apothecary's mouth twitched. He had never refined heaven-grade divine pills before in this lifetime.

No, wait, never even refined superior-grade before!

Those Capone Fiend Medicine Hall's Fiend Apothecaries had clearly become accustomed to this scene long ago. They did not feel that there was anything wrong.

Rather, if Ye Yuan really refined a heaven-grade medicinal pill, only then, would they get a surprise.

Wu Hao and Metalheart two people exchanged a glance, both seeing the astonishment from the other's eyes.

Although they had long known that Master Source Night was very impressive, being impressive to this sort of degree still made them too surprised.

Just looking at the pill refinement process earlier, Master Source Night was a person from a completely different world than them!

As a Three-star Fiend Apothecaries, they actually could not understand a Three-star Fiend Apothecary's pill refinement!

In front of Ye Yuan, they were like mortals who did not know how to cultivate, watching immortals soar into the sky and tunnel into the earth.

Knew that the other party was impressive, but just how impressive, they could not understand at all!

At this instant, they were extremely delighted to have drawn a clear line with Kong Xiao.

Missing the sermon this time, they would regret it for life!

"Next!" Ye Yuan said indifferently.

That martial artist who received the medicinal pill previously expressed a thousand thanks and left. The next one brought his own spirit medicines and pill formula over.

Ye Yuan did not have the intention of resting in the slightest, directly starting to refine.

Wu Hao and the rest immediately held their breaths, watching Ye Yuan refine pills without shifting their gazes, fearing of missing any detail.

Divine-grade!

Divine-grade!

Still divine-grade!

Half a day, the people who came to watch and learn were all dumbstruck with amazement.

Seeing the expressions on these people's faces, Capone Fiend Medicine Hall's fiend apothecaries all revealed an understanding slight smile on each and every one of their faces.

Only a short while ago, they were like these people too; extremely shocked.

But as time passed, they had long become numb.

Master Source Night's pill refinement level was not what they could imagine at all.

It was precisely because of so that Capone Fiend Medicine Hall would revere Ye Yuan like a god from top to bottom.

In the evening, Ye Yuan slowly got up and said, "Let's call it a day here. Continue tomorrow."

Everyone all stood up respectfully, automatically opening up a path, saluting with their eyes, seeing Ye Yuan away with their gazes.

"Marvelous work of art! Simply a marvelous work of art! Turns out that a marvelous work of art can still be refined like this!" Wu Hao sighed with admiration.

"This trip wasn't in vain! This trip wasn't in vain! This trip is really worth it! Sigh, really envious of you all, able to watch Master Source Night refine pills every day!" Metalheart said with a look of endless envy.

"No wonder each and every one of you, your strength improved by leaps and bounds. With Master Source Night teaching, you all are killing us with envy!" said another Fiend Medicine Hall's hall master.

[Unrivaled Medicine God](#)

Chapter 1507: No Way!

"Younger Sister Yi Han, you're a dignified Fiend Lord powerhouse and even a Blood Yama Hall's hall master. A puny little Two-star Fiend Apothecary, you can't even subdue him?"

In front of Yi Han was a man in black robes. His expression was somewhat dark, clearly very unhappy.

Yi Han saw him getting angry, but she just smiled sweetly and said, "Big Brother Mo Han, talk is cheap! Wait until after entering the ancient ruins, you can deal with him however you like. But right now, I

really can't subdue him! Don't you question this. This brat is clever and isn't easy to knead. Things that he isn't willing to do, even if you break him in half, he won't take a step back either!"

This Mo Han was Blackjade Capital City's Blood Yama Hall's hall master.

Kong Xiao could only pass this matter for him to know through secret channels in his helplessness.

Mo Han regarded this matter quite highly too and immediately rushed over from Blackjade Capital City.

He knew that Blackjade Capital City had already become all of the capital cities' laughing stock, angering him until he directly gave Kong Xiao two large slaps.

If not looking on the account that his alchemy skills were pretty good, he would have directly eradicated Kong Xiao.

Angry was angry, but what should be remedied ultimately had to be patched up.

Hence, he personally found Yi Han, but who knew that Yi Han actually said that she had no way.

A Fiend Lord powerhouse was actually powerless against a Fiend General. Wouldn't it make people laugh their heads off if this got out?

Mo Han said with a cold snort, "You're powerless against him, is it? I'll go and meet him personally. I want to see just how tough his bones are!"

Yi Han said coolly, "If you want to pressure him with strength, I advise that you'd better not go! Putting aside whether he agrees or not, if you get on his nerves, my side isn't easy to clean up the mess! You also know what entering the ancient ruin this time means. I don't want him to show up for work but not exert himself after going in. You have to know, I only tethered him with the blood essence contract!"

Mo Han's expression was slightly dark as he said, "Your meaning is to have me go and beg him?"

Yi Han smiled and said, "Why not? Don't think that your status is noble. You aren't aware that his current standing among Fiend Apothecaries, probably even you, this Blood Yama Hall Master, can't compare too! Don't talk about Two-star Fiend Apothecaries, even that bunch of Three-star Fiend Apothecaries all maintained manners of a student in front of him too. It is just that his current realm is still significantly lacking. When he grows up, you and I are both not enough to look at in front of him!"

Mo Han's gaze turned slightly intent, looking at Yi Han rather surprisedly.

This appraisal was also a bit too high, right?

He knew this Ye Yuan was formidable. But his understanding of Ye Yuan was all gotten from hearsay.

Mo Han came to find Yi Han straight away. He really did not understand the situation inside the city right now.

Could it be that this Source Night was really formidable to this kind of degree?

"Alright then, I promise you not to overwhelm him with force! I want to take a look at just what kind of person this brat is" Mo Han said in a solemn voice.

...

“No way!”

When Ye Yuan found out Mo Han’s intention of coming, he directly threw him these two words.

Mo Han’s expression instantly turned dark.

This punk was also too freaking arrogant, right?

He was an exalted Blood Yama Hall Master, a Fiend Lord Realm powerhouse, you actually did not even acknowledge me?

Mo Han was just about to fly off the handle but saw Yi Han winking at him non-stop.

Mo Han forcefully pressed down the anger in his heart and said, “This matter was all Kong Xiao’s fault. I’ve already severely punished him and removed his position as the hall master! Master Source Night, you’re a magnanimous person. Don’t stoop to his level.”

Although he said so verbally, a Fiend Lord powerhouse lowering his head to a Fiend General, this was simply unprecedented humiliation.

After the matter of the ancient ruins had passed, he would definitely find a chance to deal with this brat.

With Ye Yuan’s eyesight, how could he not perceive that the other party’s words were not sincere?

He just said indifferently, “I have my principles. Since I said to blacklist Blackjade Capital City, I never intended to take it back. Whoever comes to plead is useless too!”

“You!” Mo Han could not help being exasperated. This punk was also too impervious to everything.

He, a Fiend Lord powerhouse, already put the words to this kind of extent. Ye Yuan actually did not even give face!

“Alright, you state the terms! As long as we can let our people listen to you preach on the Dao, I’m willing to pay a certain price!” Mo Han said.

Yi Han by the side could not help revealing a peculiar expression. Why did this sound so strange?

A feeling of ... asking for it.

But Mo Han himself clearly did not think so. He was currently in a fit of anger and very aggrieved, how would he think of these?

However, Ye Yuan still said coolly, “Hall Master Mo Han, I think that you’re misunderstanding something. Even if you give me your position as hall master, I don’t care for it too. Alright, please go back.”

The Mo Han who had restrained his anger and suppressed indignation all along finally exploded.

“Me! What a rampant punk, do you really think that this hall master doesn’t dare to do anything to you?”

While talking, a surge of powerful pressure spread out from Mo Han, crushing over toward Ye Yuan.

Yi Han was long prepared. The power on her body suddenly released too, blocking Mo Han.

“Brother Mo Han, too far! If you’re like this, I won’t be courteous anymore!” Yi Han said in a solemn voice.

Mo Han said with a cold snort, “Yi Han, I’ll give you face this time! Punk, don’t land in my hands! Otherwise, you’ll die very horribly!”

Finished talking, Mo Han directly shuttled through the void, disappearing.

Yi Han looked at Ye Yuan and could not help saying with a bitter smile, “Why did you have to do this? What’s in it for you to offend a Fiend Lord powerhouse?”

But Ye Yuan said indifferently, “Even if the sky falls, isn’t there Hall Master Yi Han to support? I have my principles in doing things. Some things that are done, one will have to bear the consequences.”

Yi Han looked at Ye Yuan with gloomy resentment and said, “You brat, really making people worry!”

...

A month’s time, more and more capital cities’ Fiend Apothecaries gathered in Capone Capital City.

For some time, Capone Capital City became the holy land of Fiend Apothecaries.

Through Capone Capital City’s Fiend Medicine Hall’s statistics, the Fiend Apothecaries that came to listen to Ye Yuan preach on Dao this time were a total of 5000 over people.

These fiend apothecaries were subordinates of the Fiend Medicine Halls.

The others, even Capone Capital City’s Fiend Apothecaries, did not have the qualifications to listen to Ye Yuan preach the Dao.

Capone Capital City’s Fiend Apothecaries had long heard of Master Source Night’s great reputation.

It was just too bad that they were not in a favorable position, and could not get the moon first too.

How could the Fiend Medicine Hall possibly let other forces’ Fiend Apothecaries come and benefit from their own light?

Capone Capital City’s Fiend Medicine Hall’s Fiend Apothecaries all felt honored.

This kind of grand occasion, they had never seen before from birth until now!

All of the Fiend Apothecaries were akin to making a pilgrimage, pouring into Capone Capital City.

Due to overwhelming numbers, the Fiend Medicine Hall had long been unable to accommodate the Fiend Apothecaries’ observation.

Therefore, it was stipulated later on that only the hall masters of the various capital cities’ Fiend Medicine Halls could enter inside to observe.

Finally, it was time for the sermon on this day.

Passing from mouth to mouth, the Fiend Apothecaries later had already long learned how terrifying Ye Yuan’s strength was from the initial-most batch of Fiend Apothecaries.

Regarding this sermon, it could be said to be anticipated by millions.

Unrivaled Medicine God

Chapter 1508: Great Dao Heavenly Melody

For the sake of this grand meet, the Blood Battle Stage did not scruple for a lockdown for half a month.

Although the losses were great, Bloodeagle did not care at all!

Ye Yuan and Ka Xin's battle already helped him to earn three years of profit. What did a mere half a month count for?

The Blood Battle Stage that could accommodate several tens of thousands of people. Over 5000 people sitting on it seemed somewhat empty.

This time, on the main platform, there was only Ye Yuan's lone solitary figure.

But this figure was very strapping and powerful in the eyes of the group of Fiend Apothecaries.

That was an existence that made them admire with great admiration!

Martial artists held powerhouses in awe and veneration.

Fiend apothecaries were respectful towards powerhouses!

Respect from the bottom of their hearts!

Under everyone's watchful gazes, Ye Yuan slowly opened his mouth.

"Alchemy Dao is all-encompassing, convoluted and disorderly, seeming to have a multitude of things. As long as you sort out one end of the thread, you'll be able to reel silk from cocoons, reaching the other shore."

"Alchemy Dao isn't simple and inflexible pill refinement. If you all understand it as a dreary vocation, you'll become mediocre."

"Alchemy Dao is a Great Dao! The Dao of medicinal pills, the core lies in the medicine, and not the pill."

"..."

Ye Yuan's voice rose and fell, echoing throughout the entire Blood Battle Stage.

5000 Fiend Apothecaries were dead silent, listening like they were intoxicated.

After reaching the Alchemy God Realm, Ye Yuan's understanding of Alchemy Dao became even deeper.

Talking tirelessly at this time was like chit-chatting about domestic trivialities.

But in the other Fiend Apothecaries' ears, each word was a gem, containing the maxim of Great Dao.

The sermon this time, Ye Yuan did not sleep nor rest for 15 days, talking for 15 days in a row.

To Deity Realm powerhouses, not resting for 15 days was nothing. But this kind of sermon that contained the whereabouts of Dao was extremely energy-consuming. For ordinary people to be able to last five days was already pretty good.

Ye Yuan preaching for 15 days in one go was seldom-seen in the world.

For the sake of the sermon this time, Ye Yuan also tidied up what he had learned since becoming an Alchemy God.

At this time, he talked naturally and smoothly, without the slightest bit of sluggishness.

Ye Yuan went from shallow to deep, the things that he narrated became increasingly profound.

On the first day, everyone listened like they were filled with wisdom. Many areas of Alchemy Dao that they did not understand were enlightened all at once.

On the second day, the things that Ye Yuan talked about became much deeper. There was already a small portion of people who felt fogged up in the clouds.

On the third day, the fourth day, the fifth day ...

The things that Ye Yuan talked about became more and more profound. Even Three-star Fiend Apothecaries also gradually felt somewhat taxing.

However, not a single person left.

They knew that the things Ye Yuan talked about were extremely hard to come by. Even if they did not understand a single word, it was also an exceedingly rare experience.

Ye Yuan was using a very superficial way to display the Dao of medicinal pills to them.

Although they only had a hazy nothing, this kind of experience was one of a kind.

In the past, what was in front of them was a cloud of dense fog; unable to see the direction clearly at all.

Now, Ye Yuan helped them to push aside the dense fog, letting them go in front to look around a bit.

This kind of opportunity, not everyone had it!

But they did not realize that a mysterious aura was gradually filling the air around.

This aura developed from nothing, from weak to strong.

Gradually, they discovered that Ye Yuan's voice became more and more distant.

Ye Yuan was clearly speaking under the grandstand, but this voice seemingly came from the horizons.

"This ... What's going on?"

"The aura of Dao! This is the aura of Great Dao!"

"Great Dao Heavenly Melody! This must be Great Dao Heavenly Melody! Master Source Night's sermon has already triggered the resonance of Great Dao! Right now! Every word that he says contains the Dao!"

"Didn't think that I could actually witness this moment! Great Dao Heavenly Melody, legend says that it was only triggered once when the Medicine Ancestor preached about the Dao back then!"

“My God! Could it be that this world is actually going to have another Medicine Ancestor appear? Just what kind of level has Master Source Night’s Alchemy Dao Realm reached?”

“Stop talking freaking rubbish, pay attention to the lecture! This kind of opportunity, one might not encounter once in a lifetime! We only have to comprehend a tiny bit and it will be enough to benefit for life!”

...

The current Ye Yuan was already completely immersed in the ocean of Dao, his entire person in a state of emptiness.

Preaching Dao was giving others an advancement. How was it not a kind of advancement for oneself too?

In this half a month, Ye Yuan said his own understanding of Dao word by word. It could be said to be a summary and sublimation of his own Alchemy Dao.

Therefore, he was enlightened!

The doubt and puzzlement in during this period of time were brought together and understood thoroughly at this moment.

Dustless looked at this scene with incredible shock and murmured, “It’s really Great Dao Heavenly Melody! Legends have it that back then, the Medicine Ancestor preached on Dao to a group of Eight-star Alchemy Gods. Suddenly, Great Dao resonated. Heavenly melody played, attracting the envelopment of laws. Only then did it establish the Medicine Ancestor’s name! Could it be that Ye Yuan is already the same realm as him? But he’s just Two-star Alchemy God!”

No idea how long had passed either, everyone suddenly woke up.

Looking at the stage again, Ye Yuan’s traces were already long gone.

“Master Source Night already left!”

“Mn? I feel that ... I’m going to break through!”

“Me too! Master Source Night’s sermon made me have a feeling of being enlightened. Coupled with the Dao accumulations of the Great Dao Heavenly Melody, my realm finally loosened!”

“Master Source Night is truly a god! Perhaps he can really become the second Medicine Ancestor!”

...

Those whose alchemy realms did not improve for many years, as long as one’s talent was not too poor, it all produced a trace of insight this time.

Even if one did not break through realm, their strength also had a massive advancement.

These people left the Blood Battle Stage in haste, all finding a place to enter closed-seclusion.

Inside the World Suppressing Stele’s space, in front of the Lesser Heavenspan Mountain, Ye Yuan was wrapped up by the boundless aura of Great Dao.

Ye Yuan slowly opened both eyes, revealing an understanding smile.

The current Ye Yuan had already broken through his realm unknowingly, reaching grand completion Heaven Glimpse.

“I didn’t expect that unintentionally planting a willow led to the willow becoming shade. A single sermon on the Dao could actually let me break through the shackles. Not only did I create the Heart Healing Heavenly Mark Pill, it even opened the Chaos Heavenspan Canon’s third level’s door!” Ye Yuan said with a smile.

Dustless said in surprise, “Just what realm are you right now?”

Alchemy Dao was fleeting and ephemeral. Even comparing him with other Two-star Alchemy Gods, the disparity in strength could be very great.

But this realm, no one had been able to differentiate it.

Perhaps this Two-star Alchemy God could only refine one more kind of divine pill than another Two-star Alchemy God.

But, the current Ye Yuan had clearly already surpassed knowing how to refine a few types of divine pills, this kind of category. That was why Dustless would ask this.

Ye Yuan smiled and said, “This ... I can’t say for sure. But I think that right now, Two-star divine pills shouldn’t pose any difficulty to me anymore?”

Dustless’ pupils constricted, somewhat surprised by Ye Yuan’s words.

He knew that Ye Yuan was not someone who talked through his hat, let alone a man of hubris.

For him to dare say so, he definitely had some reliance.

Refining Two-star divine pills would not have much difficulties. This kind of words, probably only the Medicine Ancestor, this level of existence, dared to say, right?

“A long time ago, the Medicine Ancestor was once like you, triggering Great Dao Heavenly Melody when preaching on Dao. Laws descended, him achieving the realm of half-ancestor. Could it be that you and the Medicine Ancestor are already in the same realm?” Dustless said in alarm.

Chapter 1509: 1509 Messenger From the Imperial City

Ye Yuan was slightly surprised, but shook his head and said, “Although I don’t know what the situation of the Medicine Ancestor was back then, my realm is definitely far worse than him. He could attract a portion of laws to descend, but I can’t. But my current realm is still very low, many high-level Alchemy Dao laws are not yet comprehended. One day in the future, if I can step foot into the realm of Heavenly Emperor, I presume it wouldn’t be worse than the Medicine Ancestor.

Ye Yuan had confidence beyond ordinary people in alchemy.

Although the Medicine Ancestor was an existence that the entire Heavenspan World’s alchemists looked up to, he had confidence in being able to catch up head-on too.

These words might be incomparably arrogant if others heard it.

But Dustless had reason to believe that Ye Yuan had this strength and talent!

One had to know, from when Ye Yuan entered the Heavenspan World until now, it was less than a hundred years; time.

Being able to reach his current strength, it was simply inconceivable.

At least, with Dustless's horizons, apart from the Medicine Ancestor, no one could compare to Ye Yuan.

And the matter of Ye Yuan triggering the Great Dao Heavenly Melody set off a huge storm among the Blood Yama Hall's Fiend Apothecaries.

"Master Source Night is really too incredible! The things that he talked about simply subverted my understanding of alchemy!"

"Isn't that so! I feel that my understanding in the past was too superficial. Master Source Night's understanding of the Alchemy Dao is on a completely different level than us."

"That's of course. Otherwise, how would he trigger Great Dao Heavenly Melody?"

"I say, will Master Source Night become the second Medicine Ancestor or not?"

"Heh, that's hard to say. Medicine Ancestor, that level of existence, is simply not what you and I can imagine. Master Source Night is just a Two-star Fiend Apothecary after all. There's still a very long road to walk. However, if he keeps maintaining momentum, I feel that it shows great promise!"

"Shhh ... mustn't talk about this matter anymore. Upstairs already issued a gag order. If heard, you won't even know how you died!"

...

Inside Capone Fiend Medicine Hall, two Fiend Apothecaries who had heard Ye Yuan's sermon were discussing in whispers.

Except, the Fiend Medicine Hall had already issued a gag order. They also could not resist the astonishment in their hearts, that was why they would discuss softly.

Everyone was all guessing whether or not Master Source Night could reach the Medicine Ancestor's height.

After all, this was the second Fiend Apothecary who could trigger the Great Dao Heavenly Melody after the Dao Ancestor[1]!

Of course, the Heavenspan World was too big. Perhaps there were still other Fiend Apothecaries who could trigger Great Dao Heavenly Melody. But they had never heard before.

To be able to trigger Great Dao Heavenly Melody when while being a Two-star Fiend Apothecary, this was absolutely a sensational event.

...

Slap!

Slap!

Slap!

Inside Blackjade Capital City's Fiend Medicine Hall, Mo Han gave one slap after another, slapping Kong Xiao into a pig's head.

When he heard this news, his entire person was about to go completely berserk.

He could already imagine it. Blackjade Capital City's Fiend Medicine Hall's standard would be surpassed by all the capital cities very soon!

"Great Dao Heavenly Melody! That's Great Dao Heavenly Melody! Are you a pig? To actually offend a Fiend Apothecary who can trigger Great Dao Heavenly Melody?"

"The Two-star Fiend Apothecaries who broke through on the spot were 43 people!"

"Half a month later, the people who broke through were 228 people!"

"Now, there are still over a thousand people in closed-seclusion! More than 1000 people!"

"But what about us? Not one! Not a single one!"

"You pig, it's fine that you lose face yourself! But you even want to cause this hall master to lose face together with you!"

Mo Han roared at Kong Xiao, flinging one slap after another.

The others watched this scene, all silent like cicadas in winter.

The moment a Fiend Lord was enraged, corpses would litter a thousand miles!

But they understood Mo Han's anger very much. This matter, if it were them, they would also be as furious as Mo Han.

In reality, they had long already cursed Kong Xiao's ancestors several tens of thousand times in their hearts.

Such a fine opportunity was actually missed just like this!

Great Dao Heavenly Melody, missing this time, there probably would be no next time anymore.

Mo Han was seriously too angry!

According to the news from the Hundred Knows Hall, all who went to Capone Capital City, basically had one or two breakthroughs in every family.

Those who did not break through, their strength made remarkable strides too.

To be able to listen to Great Dao Heavenly Melody, even if it was a pig, it could also unlock spiritual wisdom and step onto the path of cultivation, let alone people?

But only their household alone did not have a single person present!

The initiator of all this was Kong Xiao.

How could Mo Han not be furious?

Finally, Mo Han's anger subsided.

"Purplecloud, from today onwards, you're the Fiend Medicine Hall's hall master! Kong Xiao will be degraded to a medicine slave from today onwards, and locked in the dungeons to refine pills for 3000 years!"

Finished talking, Mo Han gave a cold snort and disappeared.

Purplecloud was a Three-star Fiend Apothecary too, but his strength was much worse than Kong Xiao's.

He also did not expect that happiness came so suddenly.

Demoted to be a medicine slave for 3000 years, Kong Xiao basically did not have a day to hold his head up high anymore.

...

Two months' time had passed in a blink from Ye Yuan's sermon.

During this period, Ye Yuan had been in closed-seclusion cultivating the whole time.

Triggering Great Dao Heavenly Melody this time, the others had all rode on his coattails. The benefits that he obtained naturally need not be mentioned.

The melody of Great Dao needed time to slowly digest.

Two months later, Capone Capital City welcomed a very distinguished guest.

"I pay respects to Lord Heavenstar!"

Yi Han gave a deep bow to this old man in front of her, her words filled with respect.

"Huhu, oh, Yi Han, this time, you've made great contributions this time!" Heavenstar said with a beam.

Heavenstar, was Eminent Orchid Imperial City's Blood Yama Hall's Four-star high-rank Fiend Apothecary, a nine-layered heaven Fiend Lord powerhouse. His status was very venerated,

Yi Han smiled and said, "Yi Han doesn't dare to claim any credit.

Heavenstar smiled and said, "Heh, if there's merit, there's merit. Learning the humans' pretense for what? I really didn't expect that the tiny little Capone Capital City could actually give birth to a Fiend Apothecary who can trigger Great Dao Heavenly Melody! This boy must be controlled by my Blood Yama Hall!"

Yi Han nodded and said, "Lord Heavenstar rest assured. After the ancient ruin, I'll personally escort him to the imperial city."

But Heavenstar shook his head and said, "Hey, such a prodigy, how can you detain him over? Got to make him willingly serve our Blood Yama Hall!"

Yi Han's brows furrowed slightly and said, "This ... is probably very difficult! Lord Heavenstar doesn't know this. Yi Han used the blood essence contract before barely managing to tie him onto the Blood Yama Hall, this boat. This boy is arrogant at heart and haughty in manner. It's likely very hard for him to submit wholeheartedly."

But Heavenstar did not care and said with a broad smile, "How can a genius who can trigger Great Dao Heavenly Melody not be arrogant at heart and haughty in manner? Only people who are capable have the right to be arrogant! This seat naturally knows that you can't subdue him, that's why I came personally! You bring him over, don't startle anyone. This matter, the hall master has already issued a gag order. Other factions are absolutely not permitted to know."

Although the matter of Ye Yuan triggering Great Dao Heavenly Melody was sensational, it was also limited to within the Blood Yama Hall's boundary.

The sermon was conducted at the Blood Battle Stage. It was too easy for the Blood Yama Hall to seal off the news.

The Blood Yama Hall did not need to block all of the news. They just needed to seal off the news about the Great Dao Heavenly Melody, this incident, and that would do.

Ye Yuan's alchemy skill being formidable was already not a secret in Capone Capital City long ago.

[1] This sentence is weird. Firstly, I think the author made a mistake and mistyped Medicine Ancestor as Dao Ancestor. Second, this sentence insinuates that the first person who could trigger Great Dao Heavenly Melody was a fiend. I think the author made a mistake.

[Unrivaled Medicine God](#)

Chapter 1510: Blood Soul Curse

"You're Source Night?"

Heavenstar sized Ye Yuan up and could not help being somewhat surprised by Ye Yuan's good looks.

He actually did not look like a fiend.

However, the pure fiend energy on Ye Yuan's body made him unable to find any fault.

"I pay respects to Senior Heavenstar!"

Ye Yuan's attitude was neither obsequious nor haughty. He was not especially respectful toward Heavenstar even though the latter was a Four-star Fiend Apothecary.

He had long considered the consequences of the Great Dao Heavenly Melody. There was no way Eminent Orchid Imperial City's Blood Yama Hall headquarters would watch a genius like him slip by their side.

In reality, Ye Yuan also did not expect that he would trigger the Great Dao Heavenly Melody. Otherwise, he absolutely would not display it in front of people.

If this kind of thing was known by others, it was impressive, but it was very easy to attract a fatal calamity too.

Heavenstar coming to Capone Capital City could only have one purpose, that was to have him join the Blood Yama Hall!

A Fiend Apothecary capable of triggering Great Dao Heavenly Melody, his significance to the Blood Yama Hall was absolutely extraordinary.

Ye Yuan had long considered this result and also knew that if he did not agree, there was only one outcome.

That was death!

The Blood Yama Hall absolutely would not allow him to join other forces, then become their enemy.

But Ye Yuan could not be too deliberate either.

Geniuses needed to have the awareness of geniuses.

Arrogance was a natural attribute of geniuses.

Even though Ye Yuan was not haughty, in front of Heavenstar, he must show arrogance.

An alchemy genius capable of triggering Great Dao Heavenly Dao not being haughty at all, this did not conform to common sense. The other party would definitely be suspicious.

Hence, his attitude was lukewarm toward Heavenstar.

Of course, in Ye Yuan's heart, he did not have much veneration towards this so-called Four-star Fiend Apothecary.

He triggered Great Dao Heavenly Melody. Now, he already saw a world that others could not see.

"Hahaha, indeed, the young are to be feared! Everyone says that my fiend race's Fiend Apothecaries' level is too poor and can't groom powerful Fiend Apothecaries at all! Now, those people can all shut up!" Heavenstar said with a loud laugh.

Ye Yuan objected incessantly in his heart. Just the standard of your fiend race's Fiend Apothecaries, it was simply too unsightly to look at. You actually still wanted to groom a powerful Fiend Apothecary?

This Heavenstar was known as a Four-star high-level Fiend Apothecary. But Ye Yuan assumed that his standard was also not very high.

Compared to the human race's Four-star Alchemy Gods, it was probably far off.

"The strength of Fiend Apothecaries still need to depend on the person, nothing to do with the race." Although disdainful in his heart, Ye Yuan still had a proud appearance.

Heavenstar did not mind either, chuckling and saying, "Sit down and talk. Come and sample the Bloodgod Tea that this old man brought. This thing, ordinary people can't drink it!"

As he said, Heavenstar pushed a pot of tea in front of Ye Yuan. Fragrance immediately overflowed.

Ye Yuan swept a glance over the blood-like tea and did not detect anything strange.

But right at this time, Dustless warned, "Ye Yuan, this guy wants to put the Blood Soul Curse on you."

“Blood Soul Curse?” Ye Yuan said in puzzlement.

After Ye Yuan entered this room, he looked very conceited on the surface. Actually, he was very vigilant inwardly.

Except, he did not detect anything strange.

“The Blood Soul Curse is a very sinister and profound method of the fiend race. It doesn’t belong to the category of medicinal pills. Hence, you’re unable to detect it too. See those lanterns with varying different shapes in the corners of the house?” Dustless asked.

Ye Yuan glimpsed with his peripherals. Sure enough, he discovered that each corner of the room had a bizarre shaped lamp.

The fiend race’s preferences were very different from the human race to begin with. So Ye Yuan did not think too much either.

He did not expect that a profound mystery was actually hidden in these lamps.

Ye Yuan secretly thought what a close call. If not for Dustless being around, he would likely really fall for it this time.

“Saw it. What’s wrong with these lamps?” Ye Yuan asked.

Dustless said, “These lamps have a name. They are called Soul Refining Lamps. The wicks of Soul Refining Lamps are refined with countless people’s tendons. The refiner imprisons living souls in the wick of the lamps, incinerating with endless fire, tempering these living souls, making these living souls billow with monstrous resent. But on the surface, one can’t tell at all. Don’t talk about humans, even the fiend race themselves, if they didn’t understand this Dao, they can’t perceive the actual situation too.”

Ye Yuan drew a cold breath. This method was a little too cruel.

Members of the fiend race were indeed all vicious and cold-hearted people!

Back then, the fiend race also used similar methods to collect sanguine power, and also went on a massacre.

“Then what does this Blood Soul Curse have to do with the Bloodgod Tea?” Ye Yuan asked.

“The Bloodgod Tea is indeed a rare spirit tea of the fiend race. It can help them increase fiend essence, matching the result of medicinal pills. It’s just that this Bloodgod Tea is a crucial link of the Blood Soul Curse. It is the prelude to launching the Blood Soul Curse! Bloodgod Tea is grown by watering with those living souls’ blood. Once you drink the Bloodgod Tea, those living souls suppressed in the lamp wicks will collectively unleash the power of the curse, making you get hit by the Blood Soul Curse! People who get hit with the curse don’t have the slightest feeling. But once someone activates the Blood Soul Curse, you’ll suffer the torment of the soul being devoured, experiencing a fate worse than death! It looks like they want to use this method to control you!” Dustless said.

Ye Yuan’s heart sunk. He did not expect that this Heavenstar actually set up such a trap for him. His wrath rose with a whoosh.

This Blood Yama Hall was indeed well-deserving of being a mysterious underground force, an existence even more horrifying than the City Lord Manor.

He did not provoke anyone and they actually used this kind of insidious method to deal with him.

“Senior, do you have a way to deal with this Blood Soul Curse? If I don’t drink this pot of tea, that old thing probably won’t let it go!” Ye Yuan said in a solemn voice.

Ye Yuan felt a headache too. He did not expect that preaching on the Dao actually caused such a major trouble.

He broke through the Alchemy Dao shackles because of preaching on Dao, but he also attract massive trouble because of preaching on the Dao.

It was really misfortune goes hand-in-hand with fortune!

But Dustless smiled and said, “Did you forget what kind of existence I am? The Soul Suppressing Pearl is the ancestor of Soul Dao. Unless a Heavenly Emperor powerhouse comes personally, otherwise, how can a measly Blood Soul Curse harm you? Moreover, I have a secret art that can absorb the power of the curse and feed it back to the Soul Suppressing Pearl! You just drink the Bloodgod Tea. Leave the rest to me.”

Hearing this, Ye Yuan’s heart was put back in place.

He smiled slightly, picked up the teacup and drank the tea.

Seeing this scene, the corners of Heavenstar’s mouth revealed a smile of his wicked scheme succeeding.

“How’s the taste?” Heavenstar said with a smile.

Ye Yuan nodded his head and was full of praises, “Good tea! Refreshing the mind and actually has the effect of increasing fiend essence!”

Heavenstar laughed out loud and said, “Haha, if you like, I still have some here. I’ll give them to you.”

Ye Yuan hurriedly said, “How can this do? Such a grade of spirit tea, it must be very precious, right? Source Night cannot receive benefits without sowing anything!”

Heavenstar pressed him down and said with a smile, “Younger Brother Source Night, I’ll call you as my younger brother. You’re a clever person and should have guessed this old man’s intention of coming, right? My Blood Yama Hall’s strength is powerful until you can’t imagine it. With your talent, there’s only joining our Blood Yama Hall that can let you radiate splendor!”

Ye Yuan did not reveal a surprised expression and said with a smile, “Senior Heavenstar is very kind. It’s just that ... Source Night still doesn’t plan on joining any faction for the time being.”

Heavenstar was not surprised either and said very meaningfully, “Don’t be in a hurry to reject, you go back and consider it first. Perhaps ... you’ll have a change of heart?”
