Chapter 1601: Fervent Self-confidence

Looking at the heartbroken Ning Siyu, Xuan Yu also did not know what to say.

He sighed slightly and said, "This was the path that he chose, nobody can change it. Sigh, before leaving, he entrusted me to take good care of his dear ones. We can only put in what meager effort we can."

Entering the spatial inheritance in time, Ye Yuan did not bring Li-er they all inside.

After all, the journey this time was very perilous. If he was trapped inside the chaotic space, no matter how many divine essence stones Ye Yuan had, it could not support the necessary expenditure.

Without divine essence stones to provide spiritual energy, the Purple Extreme Hall was also just a metal lump.

At this time, Lu Yi suddenly came in and said to Xuan Yu with a bow, "Master, Head Elder that side gave notice to have you go and take part in the elders meeting."

Xuan Yu's face fell and he said with a cold snort, "Came so fast! He can't even wait for a moment?"

Lu Yi also had a solemn expression as he said, "Master, even though the time we know Elder Ye wasn't long, he had tremendous grace toward our lineage. We ..."

Xuan Yu gave a cold snort and said, "You rascal, could it be that in your heart, your master is that sort of person who repays kindness with ingratitude?"

Lu Yi was a little embarrassed as he smiled. Xuan Yu slowly got up and went to the Elders Hall.

...

Ruo Xu glanced at Xuan Yu and said with a grim look, "Even though this old man once had some unpleasantness with Elder Ye, I still held his strength with great respect! Originally, Elder Ye would become our Heavenly Eagle Imperial City's pillar of society, but he perished inside the spatial inheritance. This old man feels deeply aggrieved!"

Ruo Xu had an appearance of shedding crocodile tears. Those present naturally would not think that having an elders meeting was in order to mourn over Ye Yuan.

Sure enough, his face fell and he said to Xuan Yu, "Second Elder, this matter, you have an inescapable responsibility! Your personal relationship with Elder Ye is considered the best. You clearly know that the spatial inheritance is very dangerous. Why didn't you stop him?"

Actually, Xuan Yu also condemned himself greatly in his heart.

He heaved a sigh and said with a nod, "What Head Elder said is right. This matter, I indeed have a responsibility. If my attitude back then could be a little firmer, perhaps Elder Ye wouldn't have entered inside."

Ruo Xu snorted coldly and said, "What's the use of saying this now? Since you have no objections towards this, then I propose for you to forfeit 10 years of all resources enjoyed, do you have objections?"

The muscles on Xuan Yu's face twitched, but he said nothing and directly left.

Head Elder looked at Xuan Yu's back, the corners of his mouth revealing a smug smile.

...

On this day, Lin Dong brought a group of people and came to the Ye Manor.

He came today to chase Li-er they all out.

Ye Yuan already died. So Head Elder could not wait to erase all of Ye Yuan's sense of being.

"Steward Long, we meet again," Lin Dong looked at Long Zhan and said with a smile that was not a smile.

Long Zhan snorted coldly and said, "You look pleased with yourself huh!"

Lin Dong smiled indifferently and said, "Could it be that I shouldn't be pleased with myself? Not long ago, you were still lecturing me here. But now, you all don't even have a place to stay anymore. Looking at it now, it seems like my choice back then wasn't wrong."

Long Zhan's expression flickered incessantly, but White Light by the side could not watch on anymore and said with a cold snort, "Lin Dong, let me tell you, Big Brother won't die! When he comes back, all of you will tremble!"

Lin Dong laughed loudly when he heard that and said, "Haha, looking at your expressions, seems like you all don't think that Ye Yuan would die! You guys are really fervently self-confident. The Martial Tower's spatial inheritance, those who entered has never come out before! You actually tell me that Ye Yuan will come back? It's really killing me!"

Li-er gave Lin Dong a glance and said coolly, "Other people not coming out doesn't mean that Big Brother Yuan won't come out! If you don't believe it, let's wait and see!"

Lin Dong felt that this group of people was simply impervious to reason. He originally wanted to come and reprove them well, who knew that this bunch of fellows completely did not believe that Ye Yuan already died.

His face fell and he said with a cold snort, "The few of you, don't think that with Second Elder protecting you guys, you can be high and mighty like before! Let this protector tell you this. Without Ye Yuan, you all are just a bunch of ants! Before long, your corpses might be strewn on the streets! Now, get lost for me!"

White Light still wanted to say something, but he was held back by Li-er who said indifferently, "Let's go!"

...

“Kid, don’t waste your effort anymore! You’ll eventually mess yourself to death one day like this,” Coldfeather looked at the Ye Yuan covered with cuts and bruises and said coolly.

Not that he did not want to go out, but that it was seriously too dangerous inside the chaotic space.

A single misstep and he would play himself to death.

These few years, he watched Ye Yuan enter the chaotic space time and again, fooling around by himself until he was about to die over and over again. Hence, he could not resist secretly scolding that Ye Yuan was a lunatic in his heart.

Over 130 thousand years of loneliness made Coldfeather very much long for someone to interact with.

If a person finally managed to come in but died in the end, he would really cry until he had no place to cry.

Ye Yuan could not help laughing and said, “I came to this place in order to comprehend spatial laws. Not entering the chaotic space to comprehend, could it be staying here and wait for death?”

“Heh, I was the same as you when I just came in, also running into the chaotic space every day, thinking that I can comprehend spatial laws. But, thousands of years passed, the spatial laws that I comprehended became lesser and lesser, but my injuries grew heavier and heavier. All the way until one time, I almost didn’t come back, and I never dared to go in again,” Coldfeather said.

Coldfeather was frightened. That time, he was badly wounded and on the verge of death, almost dying in the chaotic space.

After returning to this spatial node, he recuperated for a full decade before recovering.

Since then, he never dared to enter the chaotic space again.

The chaotic space that Ye Yuan was at previously was just the peripherals of the entire spatial inheritance. The power of the spatial collapse was not considered strong.

But this spatial node’s chaotic space, once it collapsed, the power would be unimaginable.

A single misstep and one would perish, their Dao disappearing.

Ye Yuan smiled and said, “If I were you, I’ll enter again!”

Finished talking, Ye Yuan ignored Coldfeather and started meditating.

Coldfeather naturally did not know that these few years, Ye Yuan’s spatial laws improved further. It was just that his closed-seclusion inside the spatial node was all meditative comprehensions.

Without him breaking through, Coldfeather would not be able to feel it.

Comprehending spatial laws with Sword Dao was indeed a shortcut.

Although compared to the past, the difficulty was more than a hundred times, a thousand times greater, without a doubt, Ye Yuan was continuously improving.

Ye Yuan said so, and he achieved it.

A few times, when Ye Yuan returned from the chaotic space, he was virtually already at his last gasp.

Coldfeather naturally could not dispense with taunting and jeering remarks by the side. But after Ye Yuan recuperated his injuries, he resolutely entered the chaotic space once more.

Coldfeather's expression at that time was really fascinating to the max.

Apart from scolding that Ye Yuan was a madman non-stop, Coldfeather seriously could not find a better adjective.

Just like this, the days passed by, from one year to another, Ye Yuan's spatial laws improved with each passing day.

Chapter 1602: Hundred Years of Dao Enlightenmen

The prime of youth easily passed. Time flashed by. In a blink, over ten years passed.

On this day, a spatial ripple occurred in the spatial node once again.

Coldfeather's entire body trembled all over, suddenly snapping open both eyes and staring fixedly at Ye Yuan.

"Impossible! It's just been over ten years, and he actually already comprehended late-stage first-layered heaven spatial laws?"

Coldfeather kind of doubted whether just now was a misconception or not. One had to know, he was also merely late-stage first-layered heaven currently!

Back then, he spent over ten thousand years and comprehended to this step, and even patted himself on the back, feeling quite satisfied.

After all, entering the spatial inheritance, there was only him who could survive.

However, this guy in front of him whose hair was not even fully grown yet was actually already keeping up with him!

Coldfeather was instantly flustered.

These few years, he had no lack of reproving Ye Yuan.

It was not that he wanted to scheme on something, but it was just that he felt that Ye Yuan was wasting his life.

He felt that Ye Yuan would come to regret it one day.

But now, he discovered that he was so ignorant.

He only used over a decade's time and went from middle-stage to late-stage!

This disparity could only use the difference like cloud and mud to describe it.

What was this called?

There would not be harm without comparison!

Finally, Ye Yuan slowly opened both eyes. His eyes also faintly revealed excitement.

Spatial laws were indeed entirely different from the laws that he comprehended in the past; too difficult!

The Heavenspan World's spatial structure was on a completely different level from the Immortal Grove World.

Space was the foundation to give rise to myriad life. It was one of the forms of this world's most fundamental source.

If there wasn't space, whatever Sword Dao laws, whatever laws of fire, whatever laws of wind, they would not have the foundation to exist at all.

The more he comprehended, the more Ye Yuan felt its extensiveness and profoundness.

"You ... You broke through?" Although he knew the answer, Coldfeather still could not resist asking.

Ye Yuan smiled and said, "So many years of hard work finally wasn't in vain! But what you said is right. The difficulty of spatial laws indeed exceeded my imaginations! Most likely, I can't go out within a short time."

Ye Yuan did not fear the danger of the chaotic space. It was just that not going out within a short time, he was rather worried about Li-er they all.

But Ye Yuan was still reassured of things with Xuan Yu around. This person's personality was warm, and both master and disciples also received considerable benefits from him. Presumably, he should take care of Li-er they all.

Coldfeather swallowed his saliva, feeling rather parched as he said gloomily, "This is spatial law, even if one's talent is heaven-defying, I've also never heard before being able to breakthrough within such a short time! How did you do it?"

Ye Yuan smiled and said, "Actually, it's also an accident that I could comprehend spatial laws. It's because I cultivated Sword Dao laws to a transcendent realm that I drew parallels from inference, and accidentally comprehended spatial laws."

Coldfeather's gaze turned intent and he said in surprise, "So ... each time you enter the chaotic space, it's actually entering the space to comprehend spatial laws with Sword Dao?"

Ye Yuan nodded his head, considered to have tacitly acknowledged it.

Coldfeather never thought that there was actually someone capable of comprehending spatial laws through this kind of method.

Drawing parallels from inference, he naturally knew. But comprehending other laws with this kind of method was normally all lower-level laws.

It was still his first time hearing of someone being able to comprehend a higher-order law through a lower-order law!

Although Sword Dao laws were formidable, compared to spatial laws, it was a long way off.

Ye Yuan smiled and said to Coldfeather with clasped hands, "Brother Coldfeather, I'm going in. If I can comprehend it one day, I'll bring you out!"

Finished talking, Ye Yuan took out the Junyi Sword, leaped, and entered the chaotic space once more, leaving behind Coldfeather with a dazed look.

Suddenly, Coldfeather's entire body started trembling.

What did he say just now?

I ... I can go out?

I, Coldfeather, actually have a day where I can still go back!

In these hundred over thousand years, Coldfeather had long given up on hopes of going out already.

He thought that he would slowly grow old inside this cold space and slowly die.

But one day, a young man ran in front of him and said, "I'll bring you out!"

This kind of agitation, who could understand?

If Ye Yuan said these sorts of words when he just came in, Coldfeather would definitely turn his nose up in contempt and ridicule the other party's ignorance.

In reality, he also did so.

But now, Coldfeather really saw hope!

If he developed according to this momentum, perhaps Ye Yuan could really comprehend spatial laws?

Coldfeather discovered that he, this so-called genius, was on a completely different level from Ye Yuan.

Not just comprehension ability, also tenacity and heart of Martial Dao!

Coldfeather knew that this kind of cultivation was completely dreary and tasteless.

Being able to go up a level, one would definitely somewhat relax their thinking.

But Ye Yuan did not even stop for a second and plunge into training once more.

Furthermore, Ye Yuan narrowly escaped death inside the chaotic space. After treating it, he would enter the chaotic space once more without hesitation.

But him?

He was still afraid!

He had come to terms with death!

But Ye Yuan became more courageous in the face of setbacks. He could defeat his heart of fear.

...

Time flew by quickly. In a twinkle, another 20 years passed.

Inside the chaotic space, Ye Yuan's figure was akin to an illusion, flashing erratically.

Suddenly, he stopped in a region of space, his brows tightly locked.

"My first-layered heaven spatial laws had already been perfected for quite a while now. But this second-layered heaven, I keep failing to find the breakthrough point. Second-layered heaven, just what is it?" Ye Yuan muttered to himself.

Spatial inheritance, the inheritances left behind were exceedingly few. The people who knew its profundities were even in the minority.

Ye Yuan entered first-layered heaven spatial laws by stumbling about blindly.

But this second-layered heaven, he kept failing to comprehend it.

Ye Yuan's gaze suddenly landed on the space above his head.

There was his reflection.

Ye Yuan's eyes lit up, a hint of understanding flashed across in his heart.

...

A hundred years in a flash, this was an extremely short time to any Deity Realm powerhouse.

But to Ye Yuan, it was like the sea had changed into a mulberry field.

After rebirthing, all of his cultivation time added together was also merely a short hundred over years.

But comprehending spatial laws actually used a hundred years of his time.

On this day, Ye Yuan was in closed-seclusion in the spatial node.

All of a sudden, the entire space started trembling.

The originally incomparably stable spatial node actually had signs of collapsing too.

Coldfeather was greatly alarmed and said, "What happened? Mn? Ye Yuan he ... he comprehended the laws?"

Coldfeather looked over towards Ye Yuan and discovered that Ye Yuan was clearly right in front of him, but was so unreal.

This kind of feeling was contradictory to the extreme.

In these 100 years, Ye Yuan's growth, he took it all into his sights and had long prostrated on all fours in admiration already.

He finally knew that there was an insurmountable gulf between him and Ye Yuan.

Genius was already insufficient to describe this young man.

But even so, he also did not think that this day actually came so quickly!

Rumble ...

The spatial node started collapsing, fragmenting into countless pieces. A terrifying energy undulation squeezed over toward Coldfeather.

Coldfeather's expression changed and he cried out in alarm, "Ye Yuan ... s-save me!"

Chapter 1603: Bullying People Too Far

Ye Yuan slowly opened his eyes and took a step out, and he then instantly arrived beside Coldfeather.

He grabbed Coldfeather's collar and said coolly, "Come, let's go out."

Finished talking, Ye Yuan took a step out once more, and already entered inside the chaotic space.

The surrounding space was collapsing non-stop. The horrifying energy undulation made Coldfeather's heart palpitating.

These energy undulations, if he touched a little bit, it was also dying without any burial ground.

However, Ye Yuan brought him along akin to strolling idly in a courtyard, shuttled back and forth inside these chaotic spaces without any obstruction at all.

Seeing these surrounding spaces shatter piece by piece, but it was like they were situated between two worlds, it did not affect them at all.

After the astonishment, Coldfeather was envious to the extreme.

What did he enter this spatial inheritance for?

Wasn't it in order to comprehend spatial laws?!

Only a short while ago, he was also puffed up with pride, thinking that he could rely on his outstanding talent to comprehend spatial laws and become a powerhouse of his generation.

But the blow of reality made him utterly give up hope.

Spatial laws were really not what so-called geniuses could comprehend.

All the way until later, Coldfeather thought that it was completely impossible for someone to comprehend spatial laws in the spatial inheritance.

Hence, after Ye Yuan entered, he beat Ye Yuan down relentlessly without any mercy, mocking him for overestimating his own ability.

But today, this young man in front of him really succeeded!

Furthermore, he only used 100 years!

This made him have an impulse to vomit blood.

This kid was simply a freak!

He was clearly the Pill Tower's elder and was actually so perverse when comprehending spatial laws.

Just how freakish was this guy?!

...

During these 100 years, for Yue Mengli and the others, their days were tough.

Although there was Xuan Yu looking after, he was the second elder, standing high above the masses after all. It was also not possible to care for them every day in all matters no matter how major or trivial.

When time passed, there would always be many vexing issues.

Xuan Yu arranged for them a large residence in the city, letting Li-er and the rest stay inside.

All food and clothing were also not an issue.

It was just that Xuan Yu's instructions were Xuan Yu's instructions. When it reached people below, it was another matter altogether.

"Truly preposterous! Now, the divine essence stones given to us are lesser and lesser. At this rate, how will we still cultivate?" White Light said furiously.

Li-er heaved a sigh and said, "Big Brother Yuan has been gone for a hundred years, his prestige has long already been lost. For Second Elder to be able to remember their old friendship and take extra care of us, it's already rather not easy."

White Light said furiously, "That Zhou Wei, simply bullying people too far! No way, I can't stomach this, I'm going to find Second Elder!"

Li-er hurriedly pulled him and said, "Enough, don't cause any more trouble! Before Big Brother Yuan comes out, we all don't bring trouble on ourselves anymore! If you go to find Second Elder right now, putting aside whether or not he can meet us, even if you can meet him and then he punishes Zhou Wei fiercely, and then after that? In the future, Zhou Wei will definitely go from bad to worse! Big Brother Yuan's favor can be used for some time, but can't be used for life. If Big Brother Yuan were to really stay inside for a thousand years, do you feel that Second Elder's lineage can still protect us for so long?"

Clearly, Li-er saw through the current situation very incisively.

Originally, with their strength, it was impossible to enter the Heavenly Eagle Imperial City's inner city.

The reason why they could still remain here was entirely because of Ye Yuan.

Second Elder was indeed a good person that was quite rare to find. But he was the second elder who was far removed from the masses after all. He was not in the same world as them, these people, at all.

At first, Second Elder might take care of them because of his relationship with Ye Yuan.

However, there would always come a time when a favor is used up.

A powerhouse like Second Elder, one closed-seclusion might be several hundred, a thousand years, how could he keep on taking care of them?

The few of them were merely Heavenly Eagle Imperial City's bottom-level residents. Staying in such a mansion was already out of the norm in the first place.

Such a situation, how could it not attract people's covetous eyes?

Yue Mengli was very clear, as long as Ye Yuan did not come back, this kind of situation could continue to deteriorate.

Going to find Second Elder might be able to obtain temporary help. But it would only make this situation worsen faster.

"Then ... Then we deserve to be bullied like this?" White Light said unhappily.

Li-er heaved a sigh and said, "Big Brother Yuan isn't around, what we have to do is take care of ourselves! If anyone of us is harmed, what do you think the consequences will be? What he has to face is Heavenly Eagle Imperial City, this leviathan!"

White Light's expression changed, breaking out in cold sweat.

Ye Yuan's personality, he was naturally all too clear. Once they had a conflict with Heavenly Eagle Imperial City's forces, or even get any injuries, the result would be very frightening.

"Elder Sister Li-er, Young Master he didn't come out for so many years, could he have encountered some danger?" Lu-er said rather worriedly.

Li-er smiled and said, "Your family's young master, could it be that you still don't know? Even if the whole world thinks that he's dead, we should also have faith in him!"

Lu-er nodded her head and said resolutely, "Mn, when Young Master comes out, he'll definitely stir up the entire city again, and give a vicious slap to those people who rolled their eyes at us!"

"Hahaha! It's already been a hundred years, you guys are still harboring delusions? It's impossible for your Young Master Ye Yuan to ever come out again!"

Right at this time, a laughter that made people abhor sounded out, the words full of mockery.

The moment White Light saw the arrival, he could not help burning with rage and said with an angry snort, "Zhou Wei, what did you come again for?"

This Zhou Wei was the Martial Tower's low-level protector, holding a post in the City Lord Manor.

The mission of taking care of Yue Mengli and the rest was handed to him.

Because it was Second Elder personally giving a heads up, the few years at the start, Zhou Wei naturally did not dare to neglect.

But later on, Song Qiyang found him and bought him over.

Therefore, the days of Yue Mengli and the rest became worse day after day.

As time passed, Second Elder was in seclusion all year round, the attention paid to this area naturally lessen.

Even though he already had Lu Yi take care of Li-er and the rest, Lu Yi himself also had to cultivate. Being able to come once every few years was already pretty good.

In the course of time, Zhou Wei's courage also gradually grew.

Zhou Wei swaggered into the hall and said with a cold smile, "I came to tell you guys this. According to the City Lord Manor's rules, starting from today, each of you has to pay a tax of 500 thousand divine essence stones every year. If you can't hand it over, then get out of the inner city for me as soon as possible! Our inner city doesn't support idle people!"

One person 500 thousand, this was not a small sum.

Even though Ye Yuan left behind quite a bit of divine essence stones for them, paying according to this figure, they could not last for long at all.

The moment White Light heard, he was greatly enraged and howled, "Zhou Wei, don't bully people too far! Us staying here was Second Elder arranging it personally, you dare to treat us like this?"

Zhou Wei chuckled and said, "It's important to know your own limitations! If I were you guys, I would have long gotten lost from the inner city myself. Staying here will only bring disgrace on yourselves! Second Elder? Second Elder attends to a myriad of problems every day, so how could he care about you all, these few minor characters?"

Chapter 1604: Returning Domineeringly

"The few of you are merely ants living under Ye Yuan's wings! Without Ye Yuan, you guys are nothing!"

Zhou Wei's words struck the heart one by one, deeply provoking the few people's self-esteem.

Especially White Light, his anger rushed to his head with a whoosh.

"A scholar prefers death to humiliation! This little lord, I, will risk everything and fight it out with you today!"

White Light's figure flashed, transforming into a fierce tiger and rushed over toward Zhou Wei.

A hint of an imperceptible smile flashed across the corners of Zhou Wei's mouth, and he suddenly smacked a palm out.

White Light only felt a burst of power that was strong until it made people despair surround him from all directions.

"Puhwark!"

White Light sprayed out a mouthful of fresh blood, feeling like the bones in his body cracked.

Yue Mengli's expression changed, hurriedly catching him.

But the immense force directly knocked her flying out too.

Divine Lord Realm powerhouses were too strong!

Zhou Wei looked at this scene coldly and said coolly, "Do you see that? Can't even receive a single palm from me, and you still dare to say that you all aren't ants? If not because you all are staying here, you guys would already be dead people now. However ... you all can't stay too long."

Yue Mengli looked at Zhou Wei and said in a cold voice, "Treating us like this, aren't you afraid of Second Elder finding out?"

Zhou Wei laughed loudly and said, "Second Elder is currently in seclusion, and his few disciples that are close to Ye Yuan are also all busy right now. When you all are chased out of the inner city and die outside, do you think that Second Elder will kill a protector for a dead man?"

Yue Mengli's expression changed and she said in a cold voice, "Looks like Head Elder that side finally can't control the situation any longer!"

Zhou Wei smiled and said, "Therefore, want to live, earn divine essence stones desperately then! Now, hand over our divine essence stones! There are a total of five of you, according to the rules, you have to pay 2.5 million divine essence stones."

White Light gritted his teeth, wanting to stand up, but he could not do it at all.

Yue Mengli's gaze was cold and she looked at Zhou Wei and said, "We'll pay!"

As she said, Yue Mengli took out a storage ring and threw it to Zhou Wei.

By the side, Long Zhan clenched his teeth and said, "Miss Li-er, I ... I'll leave the city today, you all don't need to pay so many divine essence stones for me!"

Yue Mengli said, "Stop! If you go out of the city now, do you think that you can see tomorrow's sun?"

Long Zhan could not help choking and gritted his teeth and said, "Long Zhan is merely a lowly life. It was His Excellency who gave me the chance to be reborn! Today, what does it matter if I return my life to His Excellency?"

Yue Mengli's eyes were firm as she said, "We came together. So wanting to go, we naturally go together too! This kind of word, don't say anymore in the future."

Zhou Wei looked at this group of people and said with an amused look, "Looks like each and every one of you is still harboring hopes of getting lucky in your hearts! Those who enter the spatial inheritance, I've yet to hear of any who return alive. You guys, just give up on the idea forever! Haha ..."

Zhou Wei left with a loud laugh. Everyone was angry until their faces were livid.

But just as Zhou Wei said, leaving Ye Yuan, they were really powerless to contend with these Divine Lord Realm powerhouses!

Actually, when Ye Yuan left, he left them hundreds of millions of divine essence stones.

But after a hundred years, five people's cultivation expenditure was not small.

Originally, with Second Elder's support, they could still barely manage to maintain.

But these few years, they were exploited by Zhou Wei. The remaining divine essence stones on hand right now were also merely four to five million.

And today, more than half was gone all at once!

The next time Zhou Wei came again, they could not afford it.

...

Originally thought that Zhou Wei would come again after a year, who knew that he came again after a few days!

“Zhou Wei, the tax that you want us to pay, we’ve already paid. What do you still want?” Li-er’s good-temper also could not quite hold back from erupting anymore.

Zhou Wei smiled and said, “Who told you all that the Heavenly Eagle Imperial City’s tax is just one kind? The one collected last time was headcount tax. But the one collected this time is spiritual energy tax! The inner city’s spiritual energy is ten times of the outer city. You all staying here, your cultivation speed is several times faster than others, could it be that you shouldn’t pay a bit of tax?”

Li-er’s face changed and she said, “How much do you want again this time?”

Zhou Wei smiled and said, “Not a lot, not a lot, two million will suffice!”

“Two million! Why don’t you go and rob us!” Li-er said, denouncing him.

Zhou Wei said coolly, “This is all the City Lord Manor’s rules. If you don’t pay, then sorry, you all might have to move out of the inner city.”

Yue Mengli’s expression flickered incessantly. She really could not take out that many divine essence stones anymore.

She drew a deep breath, seemingly making a very big resolve, and said, “Fine, we’ll move out!”

“No way! Sister-in-law, you stay, we’ll go!” White Light said.

“Elder Sister Li-er, you can’t go!” Lu-er also said.

Li-er said, “You guys don’t need to say anymore, my mind is made up! Everyone pack up, we’ll leave right now!”

Zhou Wei had a smug look and said, “Huhu, that’s more like it. Ants like you guys are only fit to go stay in the outer city or capital cities. An inch of land in the inner city is like an inch of gold, you all staying here is simply a waste.”

Facing Zhou Wei’s reproving, the few people just endured it.

Packing up for a while, and then the few people were just about to head out when suddenly, a burst of powerful aura surged to the sky from the Martial Tower’s direction.

The entire imperial city’s spiritual energy swarmed over frenziedly in the direction of the Martial Tower.

At this time, the spiritual energy in that direction seemed to be drained by a pump. The other directions’ spiritual energy poured over there crazily.

“Mn? What’s going on? Someone is breaking through?” White Light said in surprise.

“Who’s breaking through? To actually be able to create such a terrifying effect?” Long Zhan also revealed a shocked expression.

Zhou Wei's expression also changed slightly, but he snorted coldly and said, "Whoever breaks through is none of your business! Could it be that it's Ye Yuan breaking through? Heh heh, this commotion, even a Divine Lord Realm powerhouse likely can't match up too. Quickly get lost, this place isn't a place that you all should stay!"

At this moment, the entire imperial city was startled.

This breakthrough was like an enormous pump, frenziedly plundering the spiritual energy in all directions.

"What's going on? Could it be some elder who broke through?"

"This commotion, even fourth or fifth-layered heaven Divine Lord probably can't match up too, right?"

"Just who is breaking through, this is also too crazy, right? So much spiritual energy entering the body, even Divine Lord Realm powerhouses will burst too!"

...

Countless martial artists were swarming in the direction of the Martial Tower, wanting to see who it was, causing such a terrifying commotion when breaking through.

Seeing Yue Mengli stalling and not moving, Zhou Wei's brows furrowed and he said in a solemn voice, "You guys are not leaving yet, could it be that you want this protector to personally send you all out?"

Yue Mengli still did not move. She suddenly opened her mouth and said, "It's Big Brother Yuan! It's Big Brother Yuan breaking through! He came back!"

Zhou Wei's expression changed and he scolded angrily, "What nonsense are you saying?! Ye Yuan already died in the spatial inheritance, so how can he possibly be breaking through? Moreover, can this commotion be an Origin Deity Realm martial artist breaking through?"

Yue Mengli turned and gave Zhou Wei a glance, and said coolly, "Zhou Wei, if it's really Big Brother Yuan who came back and you still dare to chase us out, you should know the outcome!"

Zhou Wei's face changed, and his heart involuntarily started racing.

Chapter 1605: The Coldfeather Whose Seniority

Up high in the sky, spiritual energy surged, forming an enormous vortex.

The terrifying spiritual energy undulation gave people a feeling of heart palpitation.

More and more martial artists gathered here, wanting to see who caused such a big commotion.

"Isn't that Elder Ye?"

"Elder Ye? Which Elder Ye?"

"Which Elder Ye can there be? It's that Elder Ye who refined the void spirit divine-grade Vastsun Universe Pill a hundred years ago!"

“It really is! He ... Didn't he die inside the inheritance space? Why did he come out now?”

“Are you dumb?! For him to be able to walk out of the Martial Tower, it clearly shows that he has already obtained the spatial inheritance! You look at him, even though he's still at the Origin Deity Realm, he can already fly in the air!”

“Hiss! He is really terrifying! 100 years passed, everyone virtually forgot his existence. Most likely, no one would have thought that he actually came back! He's the first to come out of the spatial inheritance!”

...

When the people recognized that it was Ye Yuan, all of them were extremely surprised.

Ever since that predecessor left behind the spatial inheritance, nobody came out from inside before.

However, when everyone thought that Ye Yuan already died inside, he suddenly charged back!

The moment he took the stage, it was heaven-shocking!

It was not that Ye Yuan deliberately caused such a huge commotion, but his law comprehensions improved too much in these 100 years.

As the saying went, water brimmed only to overflow, the spatial inheritance inside the spatial inheritance was too thin. Ye Yuan did not breakthrough at all in these 100 years. It was equivalent to severely suppressing his realm.

But now, the moment he came out, under the stimulation of the abundant spiritual energy of Heavenly Eagle Imperial City's inner city, he could not control it any longer. He started to directly break through crazily.

Ye Yuan's divine sea was like a lake that had dried to the extreme already; thirsting to the extreme.

Seeing spiritual energy at this time, it was akin to a good rain after a long drought and started to absorb water frantically.

If it were others, such frenzied absorption of spiritual energy, the meridians within their bodies would have long burst apart.

But Ye Yuan even complained that the spiritual energy was not strong enough, not turbulent enough.

This bit of spiritual energy was not even enough to fill the crevices between his teeth!

Very soon, the Pill Tower's and Martial Tower's upper echelons were alarmed.

Ruo Xu looked at that figure in the sky, his expression ugly to the extreme.

How can it be?! How is it possible?! He clearly already died inside the spatial inheritance, why would he show up here? Why?! Ruo Xu shouted frantically in his heart.

News of Ye Yuan's return was absolutely like a thunderclap from a clear sky to him!

An Alchemy Dao powerhouse who could refine void spirit divine-grade, replacing him in the future was virtually a sure thing.

He did not wish for this kind of thing to happen to him.

Not far away, the elders were incomparably amazed.

“It’s really Elder Ye! He came out of the Martial Tower! Could it be that he has already understood spatial laws? This talent is a little too monstrous, right?”

“Isn’t that so! His Alchemy Dao talent is already formidable until it makes people despair in the first place. Didn’t expect that his martial arts talent is actually so terrifying too.”

“The inheritance of spatial laws is what nobody has ever successfully comprehended before. He actually succeeded, truly inconceivable!”

“Mn? Who is that? So unfamiliar!”

Suddenly an elder noticed a black-robed person below the Martial Tower.

The black-robed person had his gaze fixed on the Ye Yuan in the sky, his gaze flicking incessantly. No one could guess what he was thinking.

Suddenly, someone came forward and berated, “Who are you? Don’t you know that this place is the Martial Tower’s restricted area? Arbitrarily barging into the Martial Tower’s restricted area, do you know what crime that is?”

Coldfeather’s brows furrowed and suddenly threw a slap out like lightning.

That person laughed coldly and was just about to make a move to block when Coldfeather’s slap disappeared bizarrely.

Slap!

This slap directly sent the other party flying!

“Who the hell do you think you are, to also dare shout and wrangle at this seat?” Coldfeather said in a cold voice.

Lin Dong held half of his face, his eyes filled with fear.

Originally, when he saw Ye Yuan returning, he was incomparably irritated in his heart.

At this time, he just happened to see Coldfeather, this person whose background was unknown. Hence, he wanted to find the other party to vent his frustration.

He reckoned that his strength was about the same as the other party. If really getting into a fight, it might be able to interrupt Ye Yuan’s breakthrough.

But he never dreamed that the other party’s strength was actually so formidable, sending him flying with one slap.

Lin Dong was incomparably astonished in his heart. That slap just now was absolutely spatial laws!

Why did this person of unknown origins also know spatial laws?

“You ... You made a move in the Martial Tower! Today, you can forget about walking out of the Martial Tower!” Lin Dong said furiously.

The commotion here drew the attention of quite a few powerhouses. An old man’s gaze turned intent and he carefully sized Coldfeather up.

He kept feeling that this face was rather familiar.

Coldfeather gave Lin Dong a glance and could not even be bothered with him.

That old man’s face suddenly changed and he walked over to this side.

Lin Dong seemed to have detected the old man’s movements and could not help being overjoyed. Looking at Coldfeather, he said with a cold smile, “Who asked you to be wild?! Now, even Head Elder is startled, I see how you die!”

Coldfeather’s gaze also looked over towards that old man, his face revealing a ruminating look.

Lin Dong hurriedly went up to greet, bowing to that old man and said, “Head Elder, this fellow’s origin is unknown and he actually even dared to attack and injure people; having no respect for our Martial Tower at all!”

This old man was none other than precisely the Martial Tower’s head elder, Zheng Qi.

Zheng Qi waved his hand at Lin Dong, indicating for him to not be wordy. Then he gave a bow to Coldfeather and said, “Dare I ask, could your esteemed self be ... Coldfeather, Grandmaster Coldfeather[1]?”

Coldfeather was rather surprised as he said, “Mn? You know me?”

When Zheng Qi saw the other party acknowledged it, he could not help being overjoyed and bowed down deeply towards Coldfeather and said, “I didn’t expect that it’s really Grandmaster Coldfeather! I am Grandpupil Zheng Qi, my master is Wu Xingtang!”

Coldfeather revealed a look of surprise and said in amazement, “You’re Xingtang’s disciple? Looking at your strength, you’re currently the Martial Tower’s head elder?”

Zheng Qi hurriedly said, “Grandpupil is incapable and shamelessly being the Martial Tower’s head elder.”

Coldfeather nodded his head and said with a sigh, “Xingtang this boy is pretty good, it’s also considered to have developed our lineage to greater heights. You’re already the head elder, then where is he now?”

Zheng Qi was crestfallen as he said, “Several tens of thousands of years ago, Master died in a mystic realm.”

Coldfeather looked dejected and immediately let out a sigh and said, “It’s a pity! Xingtang was the disciple I was most proud of. I didn’t expect that us master and disciple, two people, had limited luck!”

Lin Dong listened by the side until he nearly bit his own tongue, his entire mind completely blanked.

Head Elder actually called this old man as his grandmaster!

Grandmaster!

Lin Dong completely did not expect that this old man who popped out from God knows where, his seniority was actually high until it was frightening!

What did he do just now?

But Coldfeather two people were immersed in grief and did not have time to go and pay attention to him at all.

Zheng Qi was careful as he asked, "Grandmaster Coldfeather took the risk and entered the inheritance space back then, Master even thought that you ... fell inside the spatial inheritance. He wouldn't expect that your elderly self is actually still alive! Master's spirit in heaven must be very relieved."

Coldfeather gave a self-mocking laugh and said, "Didn't die, but also not much difference from dead. If not for encountering Ye Yuan, I can only stay inside the spatial inheritance all my life and be a person who is not dead, and yet not alive."

Chapter 1606: Consecutive Breakthroughs in Realm

Up in the sky, not only the violent spiritual energy did not diminish, it had signs of becoming increasingly fiercer instead.

His aura was also rising steadily and burst through the middle-stage Origin Deity bottleneck very soon, breaking through to late-stage Origin Deity Realm.

Ye Yuan was like a bottomless hole, devouring the spiritual energy from all directions frenziedly.

These hundred years of deficient spiritual energy made him thirsty to the extreme, absorbing to his heart's content in one shot.

When Zheng Qi saw this scene, his expression flickered repeatedly and he said in surprise, "Grandmaster, this Ye Yuan, could he ..."

Coldfeather slowly nodded and said, "If not for seeing with my own eyes, I also wouldn't dare to believe in my dreams that someone can comprehend two-layered heaven spatial laws within a hundred years. No idea what kind of cultivation method this kid cultivates either, to actually be able to withstand such terrifying spatial laws. Tsk tsk, all in all, this kid is leaking strangeness everywhere on his body."

Coldfeather said it flatly, but monstrous waves surged in Zheng Qi's heart.

The two supreme laws were what everyone was dreaming after.

But apart from that predecessor of the Martial Tower, nobody was able to comprehend it anymore.

So many years had passed, to say that Zheng Qi was not moved, that would be false.

But he did not have the courage to go and try his luck.

Over 100 thousand years ago, Coldfeather was known as the number one genius whose accomplishments surpassed ancient and modern times!

Even he 'died' inside the spatial inheritance, so who else dared to go and attempt?

Nobody would have thought that Ye Yuan actually succeeded!

...

Zhou Wei's current emotions were in a jumbled mess. It was really bitter to the extreme.

The reason why he dared to treat Yue Mengli, White Light, and the rest this way, was because he was certain that Ye Yuan already died inside the spatial inheritance.

But reality gave him a resounding slap.

"This ... This is impossible! He ... Didn't he die inside the spatial inheritance? Why would he show up here?!"

Zhou Wei's entire person was flustered. The moment he laid eyes on Ye Yuan, he knew that he was finished.

A hundred years ago, Ye Yuan was already extremely domineering, even defeating Head Elder Ruo Xu.

Now, Ye Yuan actually comprehended spatial laws and returned domineeringly.

Ye Yuan who was exceptional in alchemy and martial arts would bound to be scalding hot to one's touch in Heavenly Eagle Imperial City.

If he were to blame someone for something, nobody would be able to save the person!

"Hahaha, indeed worthy of being my big brother! Zhou Wei, didn't you say that my big brother died inside? Open your dog eyes wide and see who that person is!" White Light said with a loud laugh.

These few years, they were brutally bullied by Zhou Wei.

Now, seeing his soft-shelled turtle-like appearance, he was incomparably liberated in his heart.

Zhou Wei's face revealed a smile that was even uglier than crying. Kneeling down with a thud, he hugged White Light's calves and cried bitterly as he said, "Lord White, it ... it was all this lowly one who had eyes but couldn't see! This ... This lowly one was bewitched by others. That's why I would do this kind of foolish thing! L-Lord White, please raise your hand high up in mercy and let me off!"

Yue Mengli and the rest all looked at Zhou Wei with scorn. This guy was a typical snobbish despicable person, bullying the kind and fearing the wicked, grass on top of a wall that swayed wherever the wind blew.

When Ye Yuan was not around, he created all kinds of difficulties.

Now that Ye Yuan returned, he immediately became a grandson.

This kind of person, others looked down on them from the bottom of their hearts.

“Heh, know to ask your Lord White to raise his hand high in mercy now? Already missed the chance! But it’s also useless for you to beg me now. This matter, better let Big Brother make a final decision.” White Light said with a cold smile.

“If you had long known this day would come, why act like that in the past! You and Song Qiyang acted in collusion, but you wait and watch properly. I want to see whether or not Song Qiyang will come and plead on your behalf!” Yue Mengli said with a cold snort.

Zhou Wei regretted it in his heart. He really did not expect it!

One should leave a ray of hope when conducting oneself in any action, but he pushed Yue Mengli and the rest to extermination.

“I ... I was wrong! Grand aunt, I really know that I was wrong! I had eyes but couldn’t see, I was blinded by obsession, I ...” Zhou Wei said, as he slapped himself viciously.

The strange gazes that others cast over, he could not care anymore as well.

He knew that if he could not get these people’s forgiveness, then his life would be ruined.

With his status, offending an elder, that was no different from seeking death.

Furthermore, with the talent that Ye Yuan displayed, his status in Heavenly Eagle Imperial City, probably even Head Elder would find it hard to hold a candle to.

Zhou Wei jabbered a whole bunch, slapping his own mouth as he spoke, making it loud and clear.

In front of so many people, he, a dignified Divine Lord Realm powerhouse, was also considered to have utterly lost face all the way back to his granny’s house.

“Isn’t that Protector Zhou Wei? Why would he kowtow frantically toward a bunch of Heaven Glimpse Realm martial artists?”

“Those few people look like Elder Ye’s close kin. Zhou Wei this person is the most snobbish. These few years, everybody all thought that Elder Ye died. He definitely offended them to the core.”

“Heh, nobody could have ever thought that the spatial inheritance which no one succeeded before, Elder Ye actually succeeded!”

“Yeah, when a man attains the Dao, his fowls and dogs ascend to heaven too. Even if his kin is just at the Heaven Glimpse Realm, who dares to offend them?”

...

Bystanders discussed animatedly. But when it landed in Li-er’s and the others’ ears, it was rather grating on the ear.

A strange emotion spread out in everyone’s heart.

White Light was greatly enraged and said coldly, “You get lost for me, I don’t want to see you now! If you still pester endlessly, I’ll make Big Brother mess you to death, do you believe it or not?”

Zhou Wei jumped in fright and hurriedly said, “Yes, yes, yes, I’ll get lost! I’ll get lost!”

Finished talking, he scrambled and ran away.

...

No one would have thought that Ye Yuan's breakthrough was for ten days and ten nights.

Heavenly Eagle Imperial City's martial artists even felt that the spiritual energy around them was much thinner.

Spiritual energies were all absorbed clean by Ye Yuan.

Even though everyone was cultivating normally, that was all a step-by-step process.

Even though the spiritual energy around was plenty, they could not suck it in at all.

How could it be like Ye Yuan? This was completely disregarding one's life.

And Ye Yuan's realm was also rising crazily.

"Elder Ye's breakthrough is simply too crazy. These few days, he actually directly cultivated to peak late-stage Origin Deity from middle-stage Origin Deity."

"Looking at this, he isn't going to directly breakthrough to grand completion Origin Deity, right?"

"Very likely! You look, he broke through! Really broke through! My God, turns out that you can cultivate like this!"

...

Ye Yuan's breakthrough gave people an extremely strong sense of impact.

Origin Deity Realm was not like when at the mortal realms back then. Each breakthrough of a minor realm, the spiritual energy required was an extremely horrifying number.

Even a more prodigious martial artist, even if the cultivation method they cultivated was of a higher level, it was also unheard of to break through two minor realms in a row within a few days.

But Ye Yuan did it!

At this time, Ye Yuan's aura rose sharply, breaking through the bottleneck of late-stage Origin Deity in one stroke, reaching the grand completion realm of Origin Deity.

When Zheng Qi saw this scene, he was incomparably shocked in his heart.

But Coldfeather smiled and said, "This boy wants to make up for all of these 100 years of delayed cultivation! Looks like he's ending soon. It's also this old man's turn now. Tsk tsk, if this old man can also break through like him, how good would it be!"

[Unrivaled Medicine God](#)

Chapter 1607: Benefiting for Generations to Come

Ye Yuan's realm rose all the way until it reached the point that it just could not breach the next realm any longer. By then, he already stopped devouring spiritual energy.

Finally, his realm also reached peak grand completion Origin Deity Realm. He was only a step away from the Divine Lord Realm.

Seeing Ye Yuan finally stop breaking through, the others let out a sigh in relief.

“My goodness, it finally stopped! I was even wondering what if he keeps on breaking through all the way like that!”

“Elder Ye is really a freak. It’s still my first time hearing that someone can break through like this within the Origin Deity Realm!”

“What the hell do you guys know? Elder Ye is unleashing his vast accumulation over the years! With his talent, how could it be possible to not break through for 100 years? He accumulated things for a hundred years. That’s why there was this magnificent feat today!”

“Makes sense. But a hundred years’ time, breaking through from the middle-stage Origin Deity to the peak grand completion Origin Deity, this is also very heaven-defying.”

...

Heavenly Eagle Imperial City’s spiritual energy finally returned to tranquility. The spirit gathering formations were also slowly recovering the inner city’s spiritual energy.

During these few days, Ye Yuan had devoured no idea how much spiritual energy. Even the spirit gathering formations practically could not quite catch up to his speed of devouring already.

His breakthrough this time was really eating a fat piece of meat in one mouthful. Even if those Divine Lord Realm powerhouses were breaking through, they could not be compared with his speed of absorbing spiritual energy.

“Hahaha, congratulations, Elder Ye, for attaining the Dao and returning back!”

“Elder Ye is truly a peerless genius, to actually only use a hundred years and fully understood spatial laws!”

“Congratulations, Elder Ye!”

...

The group of elders all came forward to greet, congratulating Ye Yuan.

They knew that with Ye Yuan returning domineeringly this time, the momentum of his ascension was already unstoppable by anyone.

Moreover, he even brought a great deity back.

They heard with their own ears that the Martial Tower’s head elder, Zheng Qi, actually called that old man as his grandmaster!

At this time, Zheng Qi also brought Coldfeather and walked over. He directly clasped his hands at Ye Yuan and said, “Elder Ye, recovering Grandmaster Coldfeather who went missing for over 100 thousand years, this Zheng is endlessly gratefully!”

Ye Yuan's brows raised up and revealed a hint of surprise and said with amazement, "Brother Cold ... uh, Senior Coldfeather is actually Head Elder's grandmaster?"

The moment he opened his mouth, Ye Yuan discovered that something was not quite right.

The Martial Tower's head elder called him as Grandmaster Coldfeather, but Ye Yuan called him as Brother Coldfeather. Wasn't this clearly taking advantage of everyone?

It still did not matter inside the spatial inheritance, but returning to the imperial city and learning of Coldfeather's seniority, he naturally could not simply call him casually anymore.

Even though Ye Yuan had his pride, it did not mean that he did not understand the ways of the world.

If he called like this, even though others would not say anything on account of Coldfeather's face, they would definitely be very unhappy in their hearts.

After all, he was just an Origin Deity Realm martial artist.

Although Ye Yuan did not fear to make enemies, provoking enemies unnecessarily like this was clearly not a wise move.

Ye Yuan was having a headache on how to address him. But who knew that Coldfeather was totally unconcerned and said, "Kid, you don't need to be courteous with me. Let's each do our own thing! In the future, you still call me Brother Coldfeather. As for the rest, they go about as they should. This old man was trapped for over 100 thousand years, so why would I still care about such trivial formalities? Uh, Zheng Qi is the apprentice of the disciple that I was most proud of. I also didn't expect that over 100 thousand years passed, he actually became the Martial Tower's head elder."

Coldfeather did not care, but the faces of Zheng Qi and the other elders were rather awkward.

Your elderly self already said so, how could we dare to say anything more?

Ye Yuan was not a bashful person either. He also smiled and said, "Looks like Brother Coldfeather's lineage is indeed all talented people! Even though I and Head Elder don't interact much, I've also long heard that his martial prowess is unmatched, a sea-stabilizing divine needle of Heavenly Eagle Imperial City!"

The moment Coldfeather heard, he could not help saying angrily, "Let you, Younger Brother, had a laugh! What do you call this? I, as the grandmaster, am only third-layered heaven Divine Lord, while he, the grandpupil, is already ninth-layered heaven Divine Lord!"

Each sentence that Coldfeather said, Zheng Qi's expression would be a shade more looking embarrassed.

But this kind of phenomenon indeed made people rather speechless.

Not that situations of surpassing one's predecessors did not happen, but it was just that Coldfeather's talent back then had amazed the entire imperial city.

Who knew that the affairs of the world were inconstant? Over 130 thousand years passed, he only cultivated to third-layered heaven Divine Lord.

Ye Yuan smiled and said, "Brother Coldfeather doesn't need to be like this. With your current realm comprehensions, breaking through to become a ninth-layered heaven Divine Lord is merely a matter of time. Misfortune may be an actual blessing. Perhaps you can unleash your accumulations and break through to the Celestial Deity Realm!"

Coldfeather chuckled and said, "That's true! If this old man wasn't trapped inside the spatial inheritance back then, I might really have a possibility of breaking through the fetters now and assault the Celestial Deity Realm."

Ye Yuan smiled and said, "Brother Coldfeather, you and I are also considered fated. When I break through to the Divine Lord Realm, I'll help you refine medicinal pills and aid you to break through realms as soon as possible!"

Coldfeather froze, only then, recalling that Ye Yuan's identity seemed to be a Pill Tower's elder and not Martial Tower's elder.

He was rather curious on what basis Ye Yuan could become the Pill Tower's elder.

Seeing Coldfeather wondering, Zheng Qi said, "Looks like Grandmaster still doesn't know about Elder Ye's freakish aspect. A hundred years ago, he refined a void spirit divine-grade Vastsun Universe Pill. It rocked the imperial city for some time back then!"

Coldfeather's pupils constricted and he exclaimed, "Void spirit divine-grade! Vastsun Universe Pill! You aren't joking with me, right?"

Zheng Qi smiled and said, "How can Zheng Qi dare to crack jokes with grandmaster? This matter, all of the elders present are witnesses."

Coldfeather drew a cold breath and pointed at Ye Yuan as he said speechlessly, "You, kid, are truly a freak! This old man was known as Heavenly Eagle Imperial City's number one genius whose accomplishments surpassed ancient and modern times back then. But in front of you, it's simply not worth mentioning!"

Ye Yuan smiled and said, "Merely luck! Oh, right, Head Elder, the Martial Tower's spatial inheritance, I've already improved it. In the future, if somebody wants to go in and comprehend spatial laws, it wouldn't be so dangerous anymore. That senior who left behind the inheritance is too extreme. Although the method of inheritance is very profound, it's also too dangerous."

Ye Yuan did not wish to entangle on this topic and could only change topics.

Zheng Qi's entire body trembled and he said in disbelief, "Is Elder Ye serious? It ... It can't be joked around!"

Not just Zheng Qi, all of the elders and deacons by the side, even the protectors a little further away, after hearing this news, each and every one of them was incomparably excited.

To say that they were not moved by spatial laws, this large breadcake placed in their house, that was false.

But this large breadcake was poisonous!

Eat one bite and you would be dead, who dared to eat?

Back then, including Coldfeather, didn't they all entered the spatial inheritance because of spatial laws, this supreme law?"

In the end?

Apart from Coldfeather being trapped inside, none of the rest came out!

But now, Ye Yuan said that he improved the spatial inheritance. How could this not drive them crazy?

Ye Yuan laughed in spite of himself and said, "Head Elder, this kind of major thing, how can this Ye dare to joke around? However, after this Ye improved it, although the spatial inheritance is much more gentler, the difficulty of comprehension also greatly increased. With this Ye's current realm, I can only do it to this step."

But Zheng Qi did not care and said with an excited look, "Elder Ye truly did a great thing that benefits the Martial Tower for generations to come!"

Chapter 1608: Unexpected Departure

At the Ye Manor, a young man gave Ye Yuan a bow respectfully and said, "Elder Ye, Zhou Wei has already been banished to Jiang Gu City. His cultivation was sealed and to be enslaved for 300 years. As for Song Qiyang, Head Elder did his utmost to protect him. However, Head Elder made him kneel for a month in the Pill Tower's plaza, so as to appease Elder Ye's fury."

After Ye Yuan listened, he said coolly, "Ruo Xu that old punk making concessions in order to gain advantages! However, kneeling for a month is also a considerable punishment to Song Qiyang. You've worked hard, Tianping."

The young man bowed and said, "Sharing Elder Ye's worries isn't hard."

Ye Yuan glanced at him and said with a smile, "Tianping, actually, with your talent, you don't need to become my follower. Why do you have to put yourself at a great inconvenience?"

This young man was called Ning Tianping, the Ning Family young generation's number one person!

Even Ning Fangrong also could not match up to Ning Tianping's talent.

Back then, Ning Lixiao spent a price of 3.5 billion and won the Vastsun Universe Pill, it was to give it to him.

After consuming that Vastsun Universe Pill, Ning Tianping realized the extraordinariness of this medicinal pill very quickly.

He was still just a grand completion Origin Deity at that time, but he comprehended things very quickly, directly crossing over half-step Divine Lord, this threshold, and then he became a first-layered heaven Divine Lord powerhouse.

After breaking through, his cultivation was like turning on a hack, his strength advancing by leaps and bounds.

In a short less than 100 years' time, he already cultivated to become a peak second-layered heaven Divine Lord!

Such cultivation speed was simply outrageous to hear.

Ning Tianping realized very quickly that this was the Vastsun Universe Pill's effect.

He originally wanted to thank Ye Yuan, but hearing that Ye Yuan died inside the spatial inheritance, he was even upset for quite a while.

But this time, Ye Yuan returning domineering shook the entire imperial city.

When Ning Tianping heard that they were going to find another follower for Ye Yuan, he took the initiative to request for the assignment.

Originally, with his identity, there were only others being his attendants. Where was there him being other people's attendant, this sort of thing?

Even those elders did not dare to use Ning Tianping as an attendant too.

But the Ning Family held a supportive attitude toward this matter and even helped Ning Tianping campaign in many ways, making him stand out from among the numerous protectors.

Now, wanting to become Ye Yuan's follower was not that easy of a matter anymore.

In the past, Ye Yuan was merely a heaven-defyingly talent to them.

Ye Yuan could only refine rank three divine pills, which was of no use to them at all.

But now, Ye Yuan was only a step away from becoming a Four-star Alchemy God.

Once he successfully broke through, that significance was totally different.

With the benefits of a favorable position, whoever could become Elder Ye's follower, the benefits obtained would naturally be unimaginable too.

Hence, arranging for Ye Yuan a follower this time could be said that everyone had long racked their brains over it already.

It was a shame that Lin Dong could only sigh at home like a little wife now.

A massive opportunity was once placed in front of him, he did not go and cherish it. Losing it now, it could only be too late to repent.

He did not put in much effort with Ye Yuan. It was more or less because Ye Yuan was a Three-star Alchemy God, just due to this reason.

But he never dreamed that this day came so quickly.

In a short 100 years, Ye Yuan broke through to the peak grand completion Origin Deity from the middle-stage Origin Deity.

Wanting to turn back now was already impossible.

Moreover, when Ye Yuan was trapped in the spatial inheritance back then, he even reproved Li-er they all before.

Ning Tianping smiled and said, "100 years ago, our Ning Family won the bid for Elder Ye's Vastsun Universe Pill. Everybody said that the Ning Family was using divine essence stones to repay your grace. Actually, I also thought so at that time. But when I consumed the Vastsun Universe Pill and broke through to the Divine Lord Realm in one stroke, I knew that it was actually our Ning Family who took advantage of Elder Ye! That medicinal pill's value simply cannot be measured using divine essence stones."

Ye Yuan also smiled and said, "So, you're here to repay the kindness?"

But Ning Tianping shook his head and said, "I know that Elder Ye doesn't need repaying of gratitude. There's also nothing to hide here. Right now, in the entire imperial city, who doesn't hope to come join as Elder Ye's followers? As long as they follow you, there will be limitless possibilities in the future. Putting it bluntly, everyone actually wants to benefit from your light!"

Ye Yuan looked at Ning Tianping rather surprisedly, not expecting that he would actually be so honest.

Knowing was one thing, saying it in front of his face was another.

At the very least, Ning Tianping's forthright personality made Ye Yuan admire greatly still.

If Ning Tianping said some ostentatious and pretentious words to brush him off, his impression of the other party would naturally be much worse.

Toward him, he naturally would not trust him so much anymore as well.

Toward people he was unfamiliar with, Ye Yuan naturally had to observe and study them a bit.

Just like Lin Dong, Lin Dong helped him deal with Qin Xiao. But Lin Dong was filled with misgivings and fear when encountering Song Qiyang, so Ye Yuan would not give him another chance.

Regarding Ning Tianping, even though he was a member of the Ning Family, if he could not pass his test, he similarly would not do.

The two people were currently talking when Yue Mengli and White Light few people suddenly came over.

When Ye Yuan saw these few people's battle array, he could not help getting a fright.

"What's with you guys?" Ye Yuan said curiously.

Ning Tianping was very sensible, seeing this scene, he immediately took his leave and left. This made Ye Yuan's impression of him become much better again.

The few people 'bore down menacingly', but when they arrived in front of Ye Yuan, they suddenly collectively went mute.

They looked at each other, exchanging glances, and actually did not know how to start talking.

This appearance made Ye Yuan become more curious.

“Sister-in-law, better for you to say!” White Light said.

Yue Mengli thought about it and suddenly mustered up her courage and said, “Big Brother Yuan, actually, coming to find you, we want to tell you that we want to go out and train by ourselves.”

Ye Yuan’s expression changed when he heard that and said in a solemn voice, “No way!”

Powerhouses were abundant like clouds in the Heavenspan World, Yue Mengli their bit of strength, going out alone to train was simply no different from seeking death.

One should not look at how the Heavenspan World was very well-ordered. Actually, dangers were everywhere.

Just take Coldfeather, their generation of powerhouses, how many were truly able to live more than 100 thousand years?

Li-er the few of them, if something were to happen to one of them, he could not forgive himself for life.

Ye Yuan’s attitude was clearly long within Yue Mengli’s expectations.

“Big Brother Yuan, Li-er knows that you have our interest at heart. But being under your protection all along, we can forever only look at you from behind! With your talent, the disparity between us will get greater and greater. All the way until the end, we are no longer able to keep up with your footsteps. I know how much hardships you suffered for Elder Sister Lingxue these few years, how much pressure you endured. We don’t hope to forever only be able to quietly watch you from behind and not be able to do anything! We hope that one day, we can fight side by side with you and not just be nervous with worry behind you,” Yue Mengli said.

White Light also spoke up at this time and said, “Big Brother, back then, we rampaged in all directions in the Immortal Grove World. At that time, I could still keep up with your footsteps. But now, I can only cheer you on at one side? Do you know how torturous it is for me? When at the Immortal Grove World, when that Heavenly Sin Heretic God appeared, you don’t know how powerless and in despair I felt! I don’t hope to forever only be able to pray for you to appear when I encounter danger! You can save us once, save us twice, but in the future?”

Ye Yuan looked at them, opened his mouth, but he did not know what he should say.

[Unrivaled Medicine God](#)

Chapter 1609: Believe in Yourself

Ye Yuan had first experienced the pain of losing his father. Later, he experienced the premature death of Mu Lingxue, so he was even more sensitive about the protection of those around him.

He absolutely did not allow the people around him to suffer any bit of harm.

Hence, when he returned to the Immortal Grove Region and encountered Heavenly Sin Heretic God, he dealt with the latter with that kind of nauseating method.

For so many years, he had always been doing his best to protect the people around him but had never thought about the feelings of those around him.

Seems like his way of doing things made Yue Mengli, White Light, and even Lu-er, all live in a stifling atmosphere.

Very clearly, regardless of Yue Mengli, White Light, or Lu-er, they were all people with extremely strong pride.

Putting Ye Yuan aside, they were all first-rate genius martial artists.

Even when placed in the Heavenspan World, their talents were still stronger than the vast majority of martial artists.

But Ye Yuan's way of doing things stifled their talent.

It seemed like this period of time in his absence, it finally made the pride of the people around him being challenged to the limit.

Ye Yuan let out a sigh and said, "Li-er, White Light, sorry. Looks like I've neglected your feelings."

White Light blurted, "Big Brother, what are you saying! The things that you do for us, we can all understand. Furthermore, you indeed have that capability too! But we likewise also know how much you endured these few years! Us wanting to become strong isn't only not wanting to become your burden, but to be able to let you advance forward without scruples!"

Yue Mengli also said, "Big Brother Yuan, I ... I just want to offer a bit of my meager strength for Elder Sister Lingxue."

Ye Yuan nodded his head and said, "Alright, I got it. Every person has their own path. These few years, it was indeed me who was too nervous, wiping out your talent instead. You guys go then, but ... let's set an agreement of 500 years! 500 years later, no matter where we are, we have to return to Heavenly Eagle Imperial City!"

The moment everyone heard, they could not help being overjoyed. There was naturally no reason to refuse.

Ye Yuan understood these few people too well. Since they decided to come to find him, that meant that they already made a decision.

Disregarding White Light, Li-er seemed to have a gentle temperament, but actually, she had her strong side too.

Otherwise, she also would not directly escape to the lower realms back then and meet Ye Yuan.

Among the few people, the one Ye Yuan was most worried about was naturally Lu-er.

Lu-er's thoughts were simple and had not experienced worldly affairs. In the complicated and disorderly world of martial artists, it was hard to guarantee that she would not suffer a loss.

For this, Ye Yuan handed Gui Yun to Lu-er, and had him protect Lu-er's safety along the way.

Apart from this, Ye Yuan gave each of them several divine lord mystic treasures.

With divine lord mystic treasures, they could jump realms and battle, their ability to survive naturally increased greatly.

On the day they left, Ye Yuan did not go and send them off.

Although you escort a person a thousand miles, there was bound to be a parting at last.

Weal and woe were hard to predict with this trip, Ye Yuan really did not have the courage to face it.

Hiding in the Ye Manor, Ye Yuan was depressed by himself.

“Senior, I’m still not strong enough!” Ye Yuan gave a long sigh and said to Dustless.

Dustless was silent for a moment and opened his mouth and said, “You’ve already done very well! Life is like the moon, waning and waxing. People have sorrow and parting. Dao Ancestors seem to stand at the summit of the world, but the life and death partings they experienced, how many are able to understand it? In the end, Deity Realm powerhouses are not true deities!”

Ye Yuan smiled bitterly and said, “I understand all the logic, but when it really comes to this day, I still can’t let it go. I have to become strong as soon as possible, powerful until Li-er they all don’t need to worry about me, powerful until nobody dares to roll their eyes at them again!”

Dustless consoled him and said, “I’ve never doubted that before!”

...

Li-er and the rest departing stirred up even stronger determination in Ye Yuan instead.

From then on, he threw himself into even more frenzied cultivation.

These few days, Ye Yuan had been constantly hiding inside the World Suppressing Stele’s space, wanting to comprehend the Chaos Heavenspan Canon’s fourth level cultivation method.

But reality did not accord with hopes, he comprehended for more than ten years inside the World Suppressing Stele’s space and could not find the slightest clue either.

Origin Deity Realm to Divine Lord Realm was a massive threshold to all martial artists.

A heaven’s darling like Ning Tianping was after all just a minority existence.

No idea how many martial artists were blocked outside the door of Divine Lord Realm all their lives.

Ye Yuan’s cultivation encountered a huge bottleneck for the first time.

“Senior, why do I feel that there’s an extremely contradictory feeling? All of the Divine Lord Realm powerhouses open up the inner-world, achieving the position of a sovereign. That’s how one corroborates their Dao as a Divine Lord Realm. But why is it that according to my deductions in these ten over years, this path wouldn’t work at all? Just where did I go wrong? Could it be that ... I was wrong right from the start?”

Not progressing for a long time, Ye Yuan was abnormally irritable in his heart and had to get some words out of his system.

Over the past ten years, Ye Yuan had done countless deductions in front of the Lesser Heavenspan Mountain, wanting to find the method to open up an inner-world.

However, no matter how he deduced, there was only one outcome: this path was closed!

Corroborating one's Dao as a Divine Lord, opening an inner-world, and becoming the sovereign of a world, this was the path that must be taken for all Heavenspan World powerhouses.

But Ye Yuan did not know why, continuing according to the first three levels in his cultivation method, this path was actually completely wrong.

He had attempted to forcefully break through before as well, but without exception, it all failed.

For the first time in his life, Ye Yuan doubted his own path.

Ye Yuan's situation, Dustless naturally took it into his sights.

But honestly speaking, he did not have the faintest idea too. Dustless could only sigh and said, "Right from the start, I told you that this path is extremely arduous. It's a path that no one has ever walked before. Without a doubt, the first three levels in your cultivation method are extremely strong! This old man has followed Immortal Grove and roamed unobstructed for millions of years in the Heavenspan World, and has never seen before such a powerful cultivation method! But this cultivation method has clearly reached a watershed now. If you cross over, it will be a smooth road ahead. If you don't step over it ... you can only stop using this cultivation method and re-cultivate anew!"

Ye Yuan's expression flickered incessantly. This result was clearly not what he wanted.

He was very clear, with his talent, even if abolishing the Chaos Heavenspan Canon and cultivating Heavenly Empyrean Immortal Grove's cultivation method anew, he could also cultivate to an extremely high boundary.

But this also signified that he might never be able to save Mu Lingxue in this life anymore.

This result was not what he wanted.

If he could not save Mu Lingxue, then what was the point of his many years of struggle?

Even if he could become a transcendent heavenly emperor in the future and laugh proudly across the entire Heavenspan World, what was the use?

If you are not around, why do I want this world for?!

Now, it reached the biggest fork in the road in Ye Yuan's life.

Dustless gave Ye Yuan a glance and said, "Ye Yuan, actually, rationally speaking, I feel that you should abandon this path! This path's uncertainty is too great!"

Ye Yuan gave Dustless a glance and quietly waited for him to continue.

He knew that this was not the meaning that Dustless really wanted to express.

Sure enough, Dustless paused for a bit and said with a bitter smile, “This old man, as an artifact spirit, has lived to this ripe old age, and has never been crazy before. But this time, I’ll gift you a sentence: believe in yourself!”

Chapter 1610: Alchemy and Martial Dual Prodigy

Actually, Dustless also did not know whether this path would work or not. He only knew that this was an unprecedented path.

For Ye Yuan to be able to have his current accomplishments in the Heavenspan World, a very large degree was derived from this cultivation method.

He understood Ye Yuan’s mind. Giving up now for Ye Yuan was an unbearable outcome.

Since that was the case, then walk the path until it was dark.

Even if knocked until his head was broken and bleeding, it was also better than just being able to feel depressed in the end.

The confusion in Ye Yuan’s eyes was swept clean, what replaced it was a firm look.

He calmed his heart down and returned in front of the Lesser Heavenspan Mountain again, and started comprehending Dao.

However, this did not bring him good luck. In a twinkle, another decade passed, the fourth level cultivation method still did not make the least bit of progress.

“Looks like drawing up plans behind closed doors won’t cut it. I have to go out and walk around, see if I can find the opportunity to break through,” Ye Yuan sighed and said.

“Mn, going out for a walk is good too. Your deduction is indeed hard to believe. At this rate, it won’t have any benefits to your cultivation.” Dustless agreed.

Ye Yuan nodded and said, “This is really an inconceivable thing. If the next realm isn’t Divine Lord Realm, then what is it? Can this path really work?”

These 20 over years, Ye Yuan had experienced no idea how many deductions. But the final results were all entirely contrary to the already mature cultivation system.

Before this, Ye Yuan had never thought that the Chaos Heavenspan Canon would walk to this current step.

It seemed to have entered a dead end.

Presently, the Heavenspan World’s cultivation system was already mature until it could not be any more mature than this.

After Origin Deity Realm, it was opening up an inner-world, evolving the power of the world for one’s own use, obtaining powerful unmatched strength from there.

But no matter how Ye Yuan deduced, it seemed to go against this realm.

Dustless smiled and said, "Time will prove everything! Go out and take a look, maybe one day, you'll suddenly see the whole thing in a clear light."

Ye Yuan nodded his head and no longer hesitated, directly exiting seclusion.

The moment Ye Yuan came out of seclusion, Ning Tianping came to find hastily.

"Elder Ye, you finally exited seclusion! Right now, the imperial city is in an utter mess!" Ning Tianping said anxiously.

Ye Yuan was rather surprised as he said, "Why? Could it be that there's still someone who demolished Heavenly Eagle Imperial City?"

Even though over 20 years had already passed inside the World Suppressing Stele's space, merely two years plus had passed in the outside world.

This was not a very long time, no sudden turn of events should occur.

Ning Tianping said, "Not demolished, but it's also pretty much there! Our Heavenly Eagle Imperial City's face is already utterly lost."

Only after hearing Ning Tianping's report did Ye Yuan know what had happened.

Turned out that some time back, River Eternal Imperial City's head elder brought several disciples and came to Heavenly Eagle Imperial City, saying that there were important matters to discuss.

This was originally not a big deal. But among their group, there was a genius disciple called Gu Han. The moment they arrived at Heavenly Eagle Imperial City, he challenged the Pill Tower and Martial Tower's disciples everywhere.

Not to mention, this Gu Han was really a rare genius that appeared once every ten thousand years.

In this one month, he practically challenged the Pill Tower and Martial Tower's famous disciples, without any defeat!

This Gu Han was merely a half-step Divine Lord, but among the same rank martial artists, no one was his match at all.

The most terrifying thing was that this Gu Han was skilled in both alchemy and martial arts. Not only was his talent in martial arts exceedingly high, but he also turned his nose up at everyone in alchemy.

Ning Siyu was indignant and went to find Gu Han to challenge. In the end, she was also defeated.

After Song Qiyang broke through to Divine Lord Realm, becoming a Four-star Alchemy God, Ning Siyu was practically the number one person among Three-star Alchemy God disciples already.

Even she was defeated at Gu Han's hands. Where would Heavenly Eagle Imperial City's face be put?

Most importantly, Gu Han alone challenged all of the Pill Tower and Martial Tower's experts!

Hence, that was why Ning Tianping said that the imperial city was akin to being demolished.

Speaking of this, Ning Tianping said indignantly, "I only hate that I broke through too early. Otherwise, I'll definitely teach that punk a brutal lesson! Elder Ye, you really don't know how unbridled that punk is!"

When Ye Yuan heard that even Ning Siyu was defeated at Gu Han's hands, he could not help being rather surprised.

Ning Siyu's current Alchemy Dao strength, he had a score in his heart.

It was not that she was already invincible among Three-star Alchemy Gods, but the Three-star Alchemy Gods able to win her were really already very few.

One had to know, even Song Qiyang was defeated at her hands.

Even though Song Qiyang's strength was not worth mentioning in front of Ye Yuan, his strength was very formidable, this left no room for doubt.

What was even more terrifying was that this kid was skilled in alchemy and martial arts. Not only was his alchemy powerful, but his martial arts also overwhelmed everyone, even defeating the rank one disciple of Heavenly Eagle Imperial City's Origin Deity Realms.

But hearing finish, Ye Yuan was rather curious as he said, "Since he already defeated Heavenly Eagle Imperial City's young generation, then shouldn't this matter already be over? What are you so anxious about?"

Ning Tianping said gloomily, "How can it be over so easily? That punk is currently challenging Song Qiyang right now! In martial arts, he's unable to jump realms and battle. But this doesn't hinder him in defeating Four-star Alchemy Gods in alchemy!"

Presently, over a hundred years had gone by, with Song Qiyang's talent, breaking through to Divine Lord Realm was naturally not a difficult matter.

At present, he was already the Pill Tower's low-level protector, a Four-star Alchemy God.

With his strength, he was also considered as a very formidable existence among initial-rank Four-star Alchemy Gods.

Defeating him was equivalent to smacking the faces of the Pill Tower's Four-star protectors once more.

Ye Yuan laughed in spite of himself when he heard and said, "This kid is really vicious enough!"

Indeed, alchemy competition was different from martial arts.

The competition of martial arts, Origin Deity Realms could not contend with Divine Lord Realms at all.

But alchemy was different. Even Four-star Alchemy Gods could not possibly refine all of the rank three divine pills too.

Even if one refined them, the grade refined was also hard to say.

Ning Tianping said indignantly, "Isn't that so? You don't know how the martial artists in the city are all talking about our Pill Tower and Martial Tower. It's really losing face all the way back to our grandmother's house."

Ye Yuan patted his shoulder and said with a smile, "Bring me to go take a look."

...

In the plaza of the Pill Tower, Song Qiyang was sweating profusely and had long cursed Gu Han's eighteen generations of ancestors in his heart.

This kid is too despicable, to actually pick an extremely difficult medicinal pill.

Right now, refining it, it was exceptionally strenuous and might fail at any time.

After breaking through to Four-star Alchemy God Realm, one's understanding of Alchemy Dao would become more profound along with the increase in realm.

Hence, refining rank three divine pills actually held an advantage.

But even so, he still struggled a lot.

The medicinal pill that they were refining was called Unbosom Immortal Cloud Pill, belonging to the extremely difficult kind among rank three divine pills.

The refining difficulty of medicinal pills was not easy to grade, because each medicinal pill's refining difficulty was different.

If insisting on dividing into levels, dividing according to level one to level nine, Gale Celestial Stone Pill, Crimson Thunder Heavenly Spirit Pill, they should belong to level five, while the Unbosom Immortal Cloud Pill pretty much belongs to level six.

As for the Vastsun Universe Pill this kind, it should belong to peak level nine!

After Song Qiyang broke through to Four-star Alchemy God, he could barely manage to refine level six difficulty rank three divine pills.

Therefore, his current refinement was very strained.
