

Medicine God 161

Chapter 161: Blood Bodhi!

The two humans and one tiger walked towards the deep parts of the Blackwater Ravine. Roughly after 15 minutes, an enormous cliff in front cut off their path.

"Yii, no path? There isn't even anything good on the way here!" Nanfeng Zhirou said dispiritedly.

Ye Yuan also halted his footsteps. Surveying the surroundings, he also failed to discover anything useful.

This whole road here, he had been paying attention to the surroundings. If there were any natural treasures, it absolutely could not escape his eyes.

But up until now, he also did not have any discovery.

"Could it be that the Seven Colored Flowing Cloud Python truly just took a liking to this place and wanted to have it to itself? That doesn't make sense! With that big black python's strength, it could totally go into the deeper areas to occupy even better territories. Why did it choose here?" Ye Yuan also remained puzzled after pondering over it.

"Hahaha . . . Didn't you boast that you're all-knowing? To think that you also have times where you stumble! What knowledge is power, now, knowledge has become a popped bubble, right?" Nanfeng Zhirou ridiculed relentlessly.

Towards Ye Yuan's repeated verbal attacks on her being brainless, Nanfeng Zhirou held a deep grudge against it.

Women bore grudges the most. Beautiful women harbored resentment even more!

It was just that every time, Ye Yuan's prediction was all very accurate. Nanfeng Zhirou kept being unable to get a hold of something, so she had no way of retorting.

This time, it was not easy for her to see Ye Yuan shrivel. Nanfeng Zhirou naturally chose to hit a person who is down!

The corner of Ye Yuan's mouth twitched. He had the sort of feeling like he dug a hole for himself to jump into.

However, he kept feeling that his judgment was not wrong. The problem was, where was the natural treasure?

"Ye Yuan, please, next time, don't you . . . yii, White Light, where are you going?"

Nanfeng Zhirou was currently reproving Ye Yuan, but White Light turned into a beam of white light and ran towards the cliff.

Ye Yuan's eye involuntarily lit up when he saw the situation. Could it be that this little fellow knew where the stuff was?

White Light came to the cliff and directly ran upwards, stepping onto a piece of rock, and then left jump, right leap as he scaled up like it was flat ground.

At an extremely high place, White Light's figure flashed, and suddenly vanished!

Ye Yuan and Nanfeng Zhirou looked closely and saw that there was actually a little cave there. White Light entered the cave!

"Could there really be something good?" Nanfeng Zhirou muttered to herself.

At this time, she clearly also guessed what White Light went over to do and could not resist quietly cursing, hoping that White Light just went to play. It would be best if it did not find anything.

Even though White Light did not come out yet, not knowing why, Nanfeng Zhirou felt that her face was somewhat burning hot.

"So, it's hidden in such an obscure place. No wonder I couldn't find it even after searching for so long. I didn't think that White Light actually had this sort of ability!" Ye Yuan was also very surprised by White Light's abilities.

Thinking about it, Ye Yuan was also relieved. Most likely, it was fruits or something similar, so White Light smelled it.

Before long, White Light's figure appeared at the entrance once again. Except that this time, his mouth held a tiny object.

White Light clamped down on that tiny object as it ran down the cliff, arriving at Ye Yuan's side.

White Light's mouth held a flower stem. A tiny fruit grew on it. It passed this thing over to Ye Yuan and even wagged its tail in a bid to garner likes, looking rather cute.

Ye Yuan smiled as he petted White Light's little head to show encouragement. He picked up that tiny fruit rather excitedly because he had already recognized this tiny fruit.

"It's actually Blood Bodhi! No wonder that Seven Colored Flowing Cloud Python is attached to this place. Turns out that it's for this!"

Nanfeng Zhirou was rather embarrassed. But she was unable to resist her curiosity and secretly sized up that tiny thing.

That was a tiny blood-red fruit which did not appear to be very eye-catching. If it were her, most likely when she saw it, she would have treated it like she didn't see it and directly pass it over.

Ye Yuan could not help finding it funny when he saw Nanfeng Zhirou wanting to speak but stopping and her furtive appearance.

Aware that girls are thin-skinned, Ye Yuan also did not agitate her anymore, but explained. "This Blood Bodhi is good stuff! This is a Tier 3 medicinal herb, and it's also exceedingly rare! If that Seven Colored Flowing Cloud Python swallowed this item, it would most likely directly breakthrough to late-stage Tier 2 demonic beast."

Nanfeng Zhirou saw that Ye Yuan did not have any intention to reverse checkmating her and could not help quietly letting out a sigh of relief. But her mouth still remained stubborn as she said, "I also didn't make you explain!"

"Fine, fine. It's me who likes to show off and just have to explain for you to listen, alright?"

Only then, was Nanfeng Zhirou pleased. But she immediately could not hold back her curiosity, so she asked, "Since this Blood Bodhi is so incredible, why did it not eat this for so long?"

Ye Yuan smiled and said, "Also counts as that fellow being unlucky I guess. If what I predict is right, this Blood Bodhi was not yet ripe before. It maturing was also a matter of these two days. He had yet to eat it when he encountered the white tiger and us, which let us pick up a ready-made freebie. But it would be a reckless waste of God's gift to let it eat this thing like that. Using this to refine a Tier 3 medicinal pill, the Bodhi Pill, it can let Crystal Formation Realm martial artists rise a minor realm unconditionally! Furthermore, there's completely no side-effects!"

Nanfeng Zhirou could not help opening her mouth wide after listening to it all. Unconditionally letting Crystal Formation Realm martial artists rise by a minor realm, just what kind of concept was this?

For Crystal Formation Realm martial artists, forget about breakthrough a minor realm, even if there were a tiny bit of advancement, it would require the accumulation of time!

Among the State of Qin's Crystal Formation Realm martial artists, apart from the Lord Dean and the Alchemist Association's Lord Wu Daofeng who were at the Second Level Crystal Formation Realm, the rest were all at the First Level Crystal Formation Realm.

Nanfeng Zhirou's father, Nanfeng Yi, who was also the ruler of the State of Qin, had already broken through to the Crystal Formation Realm for over twenty years. However, he still remained at the First Level Crystal Formation Realm.

It was clear just how challenging a matter it was for Crystal Formation Realm martial artists to want to advance a step forward!

There were two high-rank Alchemy Grandmasters in the State of Qin, but they were unable to refine medicinal pills which could allow Crystal Formation Realm martial artists to directly breakthrough a minor realm. Yet, Ye Yuan could!

If Ye Yuan displayed this medicinal pill in front of these people, there would only be two outcomes.

The first was that they kill Ye Yuan, then fight to the bitter end for this single medicinal pill. There was another, which was to follow behind Ye Yuan and hope to obtain his favor so that he would bestow that medicinal pill to him.

Even the two high-rank Alchemy Grandmasters would be unable to remain unperturbed when they see the Bodhi Pill, right?

In reality, when Ye Yuan said he could help Yuan Fei breakthrough to Tier 4, Nanfeng Zhirou still did not have much of a concept, because that was too far away from her.

But to help Crystal Formation Realm martial artists rise a minor realm, the shock this brought her was tremendous.

Nanfeng Zhirou looked at Ye Yuan with eager eyes; an appearance like she was holding back the words at the tip of her tongue.

Ye Yuan laughed out loud and knew what she was thinking of right away. He said, "Relax, this Blood Bodhi can refine at least ten Bodhi Pills. When the time comes, I'll save one for your father!"

Ye Yuan finished speaking. Nanfeng Zhirou's face reddened, but she still said gratefully, "Thank you!"

Ye Yuan said deridingly, "You've never thanked me regarding your own matter, but you thank me for your Imperial Father's matter. It really makes me feel overwhelmingly flattered! However, you also know that I just broke through to the Spirit Condensation Realm. Wanting to refine the Bodhi Pill, most likely, I still need a few days."

Nanfeng Zhirou did not lose her temper this time around. Instead, she hurriedly shook her head, "No rush. There's no hurry."

Chapter 162: Medicinal Pill Dealer

The Lotus Moon Gorge.

An immensely vast gorge, which took up a huge area, was located over a thousand miles from the Endless Forest.

The thousand mile radius was the limits for Spirit Condensation Realm martial artists. The danger would increase significantly when heading further north.

The thousand mile radius of the Endless Forest was mostly the territories of Tier 2 demonic beasts. Only in extremely few places would there be Tier 3 demonic beasts, such as the Crimson Summit Ridge.

Rather, beyond the thousand mile radius, the number of Tier 3 demonic beasts would have a substantial increase.

Under normal circumstances, Spirit Condensation Realm martial artists were absolutely unwilling to cross this thousand mile marker.

Normally, the Lotus Moon Gorge was a land where few traversed.

But these few days, there were more and more human martial artists gathering at the Lotus Moon Gorge. Their strength also became increasingly more powerful.

From the weak First Level and Second Level Spirit Condensation Realm martial artists to the Eighth Level and Ninth Level Spirit Condensation Realm martial artists, they were numerous of them here. Among them, there were even some human martial artists who were the same as Su Yubai being at the half-step Crystal Formation Realm!

Then in the depths of the gorge, unusual undulations were faintly reverberating out. Everyone knew that there were extremely rare natural treasures about to be born.

On the other side of the gorge, large numbers of Tier 2 demonic beasts similarly gathered, facing the human camp across the distance.

Both sides maintained relative restraint and did not come to blows.

In reality, when the Lotus Moon Gorge demonic beast outbreak started, humans and demonic beasts both had frictions which were not small.

But following the increase in the number of human martial artists and demonic beasts and along with the increase in cultivation realm, both sides fell into a stalemate.

Because even more powerful experts appeared on both sides, so the restraint became even stronger.

Crystal Formation Realm martial artists appeared among the human martial artists, while Tier 3 demonic beasts also appeared among the demonic beasts.

Even though Tier 3 demonic beasts were unable to communicate with humans, their intelligence was no longer low. Naturally, they did not wish to suffer too great a loss of power before the treasure was born.

The human martial artists also felt the same.

Ye Yuan and Nanfeng Zhirou were currently hanging around those low level human martial artists.

Presently, Ye Yuan's and Nanfeng Zhirou's attire had already been changed into ordinary demonic beast hunter outfit. Even Nanfeng Zhirou's face was now different. Otherwise, with her appearance, it was very easy to stir up unnecessary trouble.

There were too many experts in this place. Drawing people's attention was clearly not a wise move.

As a matter of fact, Ye Yuan initially planned to let Nanfeng Zhirou head back first, and he would come here alone. But when he mentioned letting Nanfeng Zhirou go back first, Nanfeng Zhirou flew into a rage and wielded her sword to fight with Ye Yuan.

The result naturally concluded with Ye Yuan losing, so he had no choice but to bring her along.

But, Ye Yuan raised a demand which was that no matter what situation it was, she had to obey him.

This was Ye Yuan's bottom-line!

Lotus Moon Gorge could not be compared to previously. The pair's strength was too weak; they could only fish in muddied waters. If they did not lay low, they would only be eaten by others until not even bones were left.

At that time, even if there was Yuan Fei around, they might not obtain any advantage.

Currently, on the human side of the gorge, they basically existed in small groups of threes and fives.

Ye Yuan and Nanfeng Zhirou formed a small team. Among these groups, they should belong to the lowest level of existences, so they obviously would not draw people's attention.

"Ye Yuan, did you manage to inquire any information when you went out just now?" Nanfeng Zhirou asked through transmission.

"En, I heard some things. But the majority of them were rumors. However, what's basically confirmed now is that what's going to be born should be a fire-attribute treasure! According to the undulations coming from the depths of the gorge, it would be a matter of these two days," Ye Yuan replied.

"But there are so many people, and they are so powerful. Even Crystal Formation Realm martial artists also appeared. Do we have any chance?"

Nanfeng Zhirou originally did not think that there were actually so many people gathered here. She thought that it was only an ordinary treasure.

Who knew that after arriving, they would see so many Spirit Condensation Realm martial artists, which instantly put a damper on their mood.

So many experts; how could it come to their turn?

She admits that Ye Yuan was very amazing, but his cultivation realm was too low after all. Dealing with one or two people was not yet an issue, but with so many people, how should they make a move?

Furthermore, the current distribution of terrain was completely divided based on strength.

Those half-step Crystal Formation Realm, Ninth Level, Eighth Level Spirit Condensation Realm martial artists were basically in the innermost area. Once the treasure was born, they would definitely be the foremost to charge inside. How could they, these outer-ring martial artists, get their turn?

Ye Yuan just smiled and said, "Natural treasures are obtained by those who are fated for it. Doesn't mean that their strength is high and they would definitely obtain it. With me, Ye Yuan around, why do they even bother?"

"Tch, keep bragging! How do you know that you're the fated person?" Nanfeng Zhirou had a scornful face.

"I said before, a naturally born sovereign, who else but myself?" Ye Yuan boasted without shame.

"Enough crap; be serious! What on earth should we do?" Nanfeng Zhirou was thoroughly defeated.

"What else can we do? Conserve strength and build up energy, then wait and see! The moment the treasure is born, there would definitely be a violent clash between the human martial artists and demonic beasts. At that time, you just have to stay out of trouble, and that will do. Let me handle the rest," Ye Yuan said.

"."

Nanfeng Zhirou felt that she became a burden in a flash.

Aunt clearly made her come and protect him. But up till now, why did Nanfeng Zhirou feel that it was always Ye Yuan protecting her?

Moreover, Ye Yuan's current strength was already not beneath her. He did not even require her protection anymore.

This world changed too quickly . . .

Just as Nanfeng Zhirou was cursing inwardly, a hubbub of voices was heard.

"Excellent medicinal pills! Top quality medicinal pills! Drunken Star Manor's products are definitely the cream of the crop! Tier 2 Qi Returning Pill, Tier 2 Heart Protecting Pill, Tier 2 healing medicine, Tier 2

Detoxification Pill. All sorts of medicinal pills are available!" a martial artist wearing gray shouted at the top of his voice.

This shout immediately drew the attention of many martial artists.

The majority of these martial artists were demonic beast hunters who had already been roaming within the Endless Forest for a very long time. All the necessary medicines on their bodies were pretty much all gone.

For a medicinal pill merchant to suddenly appear at this time, it naturally stirred up quite a commotion.

When Ye Yuan heard that someone was selling medicinal pills, he also could not help but look over. Many people were already surrounding him.

At this time, perhaps a medicinal pill could save lives.

However, Ye Yuan's nose lightly moved and already sniffed out that those medicinal pills were fake goods. While the outer appearance was virtually the same as some medicinal pills from the Drunken Star Manor, the medicinal effects were most likely not even 50% of them.

Ye Yuan just gave a faint smile and no longer bothered with the things happening over there. What he needed now was to remain low-key, not to be in the limelight.

Nanfeng Zhirou seemed to have seen that something was wrong and could not resist asking, "What are you smiling for? Does that person have a problem?"

"There's no issue with the person, the problem lies with the medicinal pills. But eating them won't kill people anyway, so let him be," Ye Yuan said indifferently.

"No way! How did you see it?" Nanfeng Zhirou was at the very least an alchemist, but she could not see any issue at all.

"The medicinal pill's ingredients don't have any problem. It's just that when refining, Mist Yuan Water was added in. The portion originally capable of refining one medicinal pill was refined into four/five pills by him. The medicinal effects would naturally be much worse," Ye Yuan explained.

"You saw that at a glance?" Nanfeng Zhirou asked in shock.

Chapter 163: Not Buying!

"Not saw it, but smelled it," Ye Yuan pointed to his nose and said.

"But the Mist Yuan Water is odorless. How did you smell it?" Nanfeng Zhirou asked in amazement.

"The Mist Yuan Water is odorless, but when mixed into medicinal pills, it would give off a faint sort of special fragrance," Ye Yuan said.

"But you're so far away from there! Do you have a dog's nose?" Nanfeng Zhirou was flabbergasted.

Ye Yuan rolled his eyes and was similarly speechless. Couldn't you make a better comparison?

"This is an ability that has been repeatedly tempered out. Heh heh," Ye Yuan said with a smile.

Ye Yuan's sensitivity towards medicinal pills was etched deeply into the divine soul after repeated tempering.

Virtually every type of medicinal herb; he was able to sensitively detect it.

Rather than say it was the smell, it should be that it was his divine soul's instinctive reaction.

After the incident last time, Nanfeng Zhirou no longer doubted Ye Yuan.

This fellow, as long as it was something which involved medicinal pills or herbal ingredients, his predictions and judgment were virtually 100% accurate. He had never made any errors!

He said that these medicinal pills had problems, so these medicinal pills must have issues!

Nonetheless, Nanfeng Zhirou followed Ye Yuan and was not worried that the medicinal pills had problems. Who knew how many medicinal pills this fellow refined for this trip; it was like they were never-ending.

Nanfeng Zhirou knew that Ye Yuan clearly only prepared for a day. Where did so many medicinal pills come from?

Nanfeng Zhirou felt that she was becoming more and more interested in Ye Yuan.

The more she could not understand Ye Yuan, the more she wanted to understand him. What sort of feeling was this . . . ?

Ye Yuan and Nanfeng Zhirou were chatting over here, but that medicinal pill merchant's business was abnormally good. He had his hands full.

"This Brother, aren't you going to buy some pills? In a crisis, these medicinal pills can save lives! My medicinal pills are all Drunken Star Manor products. The medicinal effects are definitely exceptional!"

After that medicinal pill merchant busied himself for some time, he started to promote his medicinal pills to a cold-faced demonic beast hunter.

Ye Yuan had long noticed that demonic beast hunter. When others were swarming to buy medicinal pills, he never moved. Not only did he not move, none of the four people in his small group moved.

"Not buying!" the cold-faced man just lightly said these two words.

"Brother, these medicinal pills of mine are top-quality medicinal pills! You're also aware of the Drunken Star Manor's pills. They are matchless in the State of Qin . . ." the medicinal pill seller kept on praising the good points of the Drunken Star Manor's medicinal pills repeatedly.

Hearing that medicinal pill seller praising the Drunken Star Manor so fervently, Ye Yuan also felt somewhat displeased.

However, he also understood that he was doing business. Bragging a little was a necessity. But now was not the time to get angry, so he held it back.

After that demonic beast hunter calmly listened to that medicinal pill seller's touting, he said two more words lightly, "Not buying!"

"I say, Brother, why?" The medicinal pill seller was somewhat dispirited.

That demonic beast hunter gave him a look and said, "I only buy Fragrant Medicine Pavilion's medicinal pills and nothing else!"

When Ye Yuan heard that, he promptly felt more soothed. There were still clear-minded people in this world!

Once he said this, the medicinal pill seller became unhappy. "Brother, not that I'm reproaching you, but the Fragrant Medicine Pavilion is close to shutting down. What are you clinging onto that tree for? From the way I see it, before one month, the Fragrant Medicine Pavilion will definitely shut down. Could it be that you, Brother, aren't going to eat medicinal pills in the future?"

The icy-faced man gave the medicinal pill seller a cold glance and said, "The Fragrant Medicine Pavilion definitely won't shut down! Pavilion Lord Ye is currently in closed-seclusion. After he exits seclusion, he'll definitely have means to turn the tide! Humph!"

"Dream on! Who doesn't know that the Fragrant Medicine Pavilion already doesn't have the strength to save the situation? How many days has it been? The Fragrant Medicine Pavilion remained silent this whole time, while the Drunken Star Manor already relied on the Essence Gathering Pill to completely dominate the State of Qin's medicinal pill market. In future, it will be the Drunken Star Manor having a monopoly! Furthermore, Manor Lord Wan has always been suppressing Ye Hang in terms of cultivation realm. What is the Fragrant Medicine Pavilion relying on to turn around?"

The cold-faced man gave a cold laugh. "So what? The Drunken Star Manor appears to be dignified and honorable, but everyone is clear in their hearts how many filthy things they did secretly! Pavilion Lord Ye has a benevolent heart and mind. He treats us demonic beast hunters like brothers! I believe that Heaven has eyes. The Fragrant Medicine Pavilion will surely tide over this crisis!"

After the man said all this, regretful expressions involuntarily showed up on the faces of those who originally bought the medicinal pills.

Many of them had received the grave of the Fragrant Medicine Pavilion, but their support towards the Fragrant Medicine Pavilion at this time was inferior to this small team.

"Humph! Truly thickheaded! Alright, don't buy now. In the future, even if you beg to buy from me, I also won't sell to you!" Finishing, the medicinal pill seller flicked his sleeves and left.

The cold-faced man could not be bothered with him and sat back down.

The medicinal pill seller was not too affected by it and continued to tout his medicinal pills. It was just that after that man caused such a commotion, his business immediately fell drastically.

The cold-faced man stared at the back view of the medicinal pill seller and let out a cold snort.

Right then, a voice from god knows where secretly transmitted directly into his ears.

The cold-faced man heard that, and his expression instantly changed. After musing for some time, he suddenly stood up.

"Everybody, don't buy his medicinal pills! These medicinal pills are all fake! This fellow is a cheat!" the cold-faced man shouted loudly.

Hearing the cold-faced man's shout, all those who bought the medicinal pills tensed up. What followed was using unkind eyes to stare at the medicinal pill seller.

The medicinal pill seller was also greatly alarmed. He was somewhat guilty, but in front of so many people, he had to remain strong.

"Don't slander me! It's fine if you didn't purchase, but you're even ruining my business here. Do you really take me to be easy to bully? These medicinal pills have the unique marking of the Drunken Star Manor. They are absolutely genuine goods. You dare to besmirch the name of Drunken Star Manor?" the medicinal pill seller said furiously.

The cold-faced man smiled coldly and said, "Snort! It's true that these medicinal pills are from the Drunken Star Manor, but are the medicinal pills refined by the Drunken Star Manor truly without problems?"

"What problem is there, say it! If you don't give a proper justification, then this grudge of ours is set! After returning to the capital, I'll pass these words to the Drunken Star Manor!" the medicinal pill seller threatened.

These past one month, the Drunken Star Manor had become incomparably domineering.

The Fragrant Medicine Pavilion gradually fell, and they virtually became a monopoly. The people who came out from the Drunken Star Manor basically all had their noses pointed to the skies.

Since this medicinal pill seller was selling the Drunken Star Manor's pills, he definitely had significant ties with the Drunken Star Manor.

The cold-faced man remained unperturbed and said with a smile, "I'm afraid that the medicinal effects of these pills aren't even half of the finished products! What intentions are you harboring to use these medicinal pills to hoodwink everyone?"

When he said this, everyone's faces changed again.

While medicinal effects being insufficient is not a big issue, at the crucial time, it could kill.

For example, a Tier 2 Qi Returning Pill; if the medicinal effects were lacking and could only recover a very small part of essence energy, wouldn't that be waiting for death?

Hearing the cold-faced man said this, the medicinal pill seller did not get nervous. Instead, he smiled gleefully and said, "You say that my medicinal pill's effects are lacking, won't we know after letting everyone try it?"

Chapter 164: Try Testing a Few Moves

Seeing the medicinal pill seller so full of confidence, the cold-faced man's heart started to falter.

Could it be that he really fell for someone else's trap?

That person said that he also received great kindness from Pavilion Lord Ye, which was why he wanted to expose this scammer. Could it be that he was simply screwing with him?

While he was talking, the medicinal pill seller already walked in front of a martial artist he sold pills to earlier and sincerely invited him to test the medicinal pill. He even promised that as long as he was willing to test it, he would gift another five Tier 2 Qi Returning Pills!

That martial artist was initially somewhat reluctant, but after thinking that at most it would be insufficient medicinal effects and should not have too big an effect on him, he nodded his head and agreed.

The medicinal pill seller cupped his fists and said to everybody, "Everyone also saw that. This brother over here refused to buy my medicinal pills. That's also fine. But now, he came out to defame my character. This one cannot turn a deaf ear to this. In order to prove my innocence, I invited this brother here to help test the medicinal pills. There shouldn't be a problem, right?"

After the medicinal pill seller finished talking, there was someone who called out to the martial artist preparing to test. "Lin Feng, you aren't bought over by that guy, right?"

"Bought over your granny! I, Lin Feng, have worked among demonic beast hunters for so many years. Who isn't aware of my character? If you don't feel assured, then come and test yourself!" Lin Feng directly told him off.

"Hahaha . . . We can trust you. Quickly test it and tell us how you feel after trying it!"

"Don't worry, with so many people watching, could I scam everyone?"

Finishing, Lin Feng no longer dilly-dallied. He directly retrieved a Tier 2 Qi Returning Pill just bought from the medicinal pill seller and swallowed it.

Having consumed the medicinal pill, Lin Feng meditated on the spot and started to refine the medicinal strength.

Everybody was watching each and every one of Lin Feng's actions, especially the cold-faced man and his small team. Even though their expression remained cool and collected, their heart started drumming long ago.

The cold-faced man was currently somewhat regretting his impulsiveness earlier. But for the sake of Benefactor Ye Hang, even losing face once was also worth it!

Back then, the cold-faced man was heavily injured and dying and also penniless. The Drunken Star Manor straightaway barred him outside the door, but Ye Hang treated him for free.

This grace, even if he were smashed to pieces, it would be difficult to repay.

Hence, he only hesitated slightly when he heard that mysterious transmission just now before standing up right away.

Making a mistake would at most be losing face once. At the most, he won't take part in this treasure seizing operation. But if it were really true, then it would be a heavy blow to Drunken Star Manor's reputation, and also an opportunity for the Fragrant Medicine Pavilion to come back from the dead!

He was willing to gamble!

"Ye Yuan, why does that cold-faced man also know that the medicinal pills are fake? Could his standards actually be around your level?" Nanfeng Zhirou could not help feeling astonished when she saw this situation as she transmitted her voice to ask.

Ye Yuan smiled and said, "I told him."

"I knew that it was your doing! But why would he listen to you, a stranger?"

"I was just testing him, didn't think that he really stood up. Hum . . . I can let father take him in to be a retainer or something after going back. It's also time for our Ye Family to nurture our own forces. And today, just take it as the first step to eradicating the Drunken Star Manor," Ye Yuan said nonchalantly.

"You . . . You . . ." Nanfeng Zhirou heard Ye Yuan say all that, but her expression turned even uglier.

Ye Yuan smiled and said, "Don't you worry. My father and I have no interest in secular authority. Why we are doing this is just so that the Ye Family would have a relatively safe environment. If your Imperial Father can't set his mind at ease, in future, I can make Father relocate from the State of Qin."

"No no no, no need! I . . . I'll do my best to prevent this sort of thing from happening."

Ye Yuan just smiled and did not say anything else.

He knew that Nanfeng Yi was very fearful of the Su Family and Wan Family, which was why they secretly propped up his father, Ye Hang.

But the Wan Family had to be extinguished. As for the Su Family . . . at least Su Yubai and Su Yulin, these two people, he did not plan on letting off.

That was to say, the Ye Family would be a monopoly in the future. Would Nanfeng Yi still be at ease?

Nanfeng Zhirou was ultimately still a little girl. Unless she broke through to the Crystal Formation Realm, her words would forever lack any weight.

While talking, Lin Feng already finished refining. He opened his eyes, and everyone stared at him.

Lin Feng stood up and slowly opened his mouth to say, "There's no issue with the medicinal pill. My essence energy which originally only had 50% or so left has already recovered to 80% now."

Once Lin Feng finished speaking, the medicinal pill seller looked at the cold-faced man with a pleased face. "Brother, just what intentions do you have for slandering me so? Unless you are Ye Family's minion and saw that things cannot continue for you all, that's why you used this sort of underhanded tricks to besmirch the Drunken Star Manor?"

The medicinal pill seller no longer hid his support and directly opened fire.

The cold-faced man was infuriated after hearing his words. This medicinal pill seller had sinister motives and wanted to make a false countercharge to thoroughly ruin Fragrant Medicine Pavilion's reputation. How could he tolerate?

Just as the cold-faced man was about to make a move, he heard that mysterious voice again.

"No rush. You let that Lin Feng try using essence energy."

Hearing this voice again, the cold-faced man's heart settled down a bit. Maybe this fellow was not screwing him?

"Lin Feng, try testing a few moves and see if there's any change in essence energy!" the cold-faced man suddenly shouted.

When the medicinal pill seller heard this, the originally pleased look instantly faded, and he could not help flying into a great rage. "This fellow! Truly rude! You and I have no grudge. I just said a few sentences about the Fragrant Medicine Pavilion. Just why do you keep repeatedly setting yourself against me? Could I have really hit the mark? You're Fragrant Medicine Pavilion's lackey?"

The cold-faced man ignored him and just said to Lin Feng, "Lin Feng, try testing a few moves. If there's really no issue, our team's gains this time will all belong to you!"

The cold-faced man really risked it all and directly took out all the gains from the operation this time as the bargaining chip.

The medicinal pill seller's expression changed when he heard this and was just about to stop it when he heard Lin Feng chuckle and say, "Shi Kaiyong, you said it! Alright, I'll test out a few moves!"

Finishing and without waiting for the medicinal pill seller to stop him, he directly unleashed several palm knives.

Who knew that after a few palm knives were struck out, Lin Feng's face greatly changed!

"This . . . This medicinal pill really does have problems! My essence energy expenditure is actually three to four times faster than normal!" Lin Feng cried out.

These words were just like throwing down a bomb. All the martial artists' gaze locked onto the medicinal pill seller.

"Mali . . . Malicious slanders! My . . . My medicinal pills don't have any issues! It . . . It must be that you guys colluded together!" The medicinal pill seller remained stubborn and refused to admit it.

"Screw your uncle! I, Lin Feng, have worked in this occupation for so long, no one has ever said that about me, your father! You sold fake medicine to me, your father, and even said that your father is slandering you?! Brothers, go and waste him!" Lin Feng unwittingly flew into a great rage and was about to call his team to waste that medicinal pill seller.

The medicinal pill seller was greatly alarmed and instinctively wanted to run. But the surroundings were encircled by demonic beast hunters, where to flee to?

"Wait!" Lin Feng's team was about to take action when Shi Kaiyong stopped it.

Chapter 165: Expert

"What? Shi Kaiyong, you aren't trying to protect him this time, right?" Lin Feng asked in a harsh tone.

Emotions were running high at the moment. Lin Feng himself was also the person who was swindled. His tone naturally would not be good.

However, Shi Kaiyong did not mind. He just said icily, "Lin Feng, leave it to me! I have ways of making him yield everything. At that time, it wouldn't be too late to deal with him."

As he spoke, Shi Kaiyong looked over to the medicinal pill seller. That ice-cold gaze made the medicinal pill seller unwittingly shudder.

When Shi Kaiyong said so, Lin Feng was no longer so insistent. He dusted his hands and said, "Fine, up to you."

Shi Kaiyong looked at the medicinal pill seller and asked coldly, "Are you going to submit, or do you want me to take action?"

The medicinal pill seller gritted his teeth and advanced instead of retreating as he attacked Shi Kaiyong.

But before he even touched Shi Kaiyong, a person shot out from the sides to attack his flank.

The medicinal pill seller was greatly shocked and hurriedly evaded. But another person cut off his path of retreat.

Boom!

The medicinal pill seller took a blow to his back and staggered as he charged over towards Shi Kaiyong.

What greeted him was a solid punch, right in the abdomen. The medicinal pill seller was in so much pain that his mouth went wide open.

Right then, a tiny thing which shot out from who knew where flashed past and accurately landed inside his mouth.

"Gulp!" The medicinal pill seller involuntarily swallowed on his own and immediately felt that things were not good.

"Urgh . . . Hurrk . . ."

The medicinal pill seller desperately tried to vomit out the thing he swallowed, but that thing melted once it entered his mouth. Just a short while and it vanished with trace.

Immediately after, he felt his divine soul tremble, and then, he became unaware of anything.

When Shi Kaiyong saw this scene, he also felt slightly afraid. Just now, he wanted to find who threw that object but did not manage to do so. That mysterious person was clearly an expert.

"You can ask now. Ask him anything, and he will answer."

At this time, that voice appeared inside Shi Kaiyong's mind once again.

Shi Kaiyong was stunned. Only now did he know why that mysterious person wanted him to pry that medicinal pill seller's mouth open.

Could that be a medicinal pill which was thrown in just now? What kind of medicinal pill could actually have such an effect?

Shi Kaiyong collected his emotions and opened his mouth, and asked the medicinal pill seller, "Just who in the world are you? Why did you come here to peddle medicinal pills?"

The medicinal pill seller answered woodenly, "I'm called Huang Song, a retainer . . . of the Wan Family. The owner sent me to the Endless Forest to sell medicinal pills to you all. At the same time . . . plan to defame the Fragrant Medicine Pavilion to make them unable to rise again."

Shi Kaiyong instantly felt his blood boil when he heard that. This Drunken Star Manor will really stop at nothing!

They already occupied such a huge advantage, yet they had to drive the Fragrant Medicine Pavilion to their wits ends!

"Did Wan Donghai make you sell these fake medicinal pills?" Shi Kaiyong gnashed his teeth as he held his patience and asked.

"No, it's the Second Boss, Wang Dongyang. He . . . He said that those demonic beast hunters are all . . . all miserable wretches, unworthy of using such fine medicinal pills. Hence, he refined these medicinal pills anew, lessened the medicinal strength, and even added some stuff to make you all temporarily unable to feel the decline in medicinal effect. But as long as essence energy is utilized, it will be exposed."

Pouring beans out of a bamboo tube, it directly turned the whole matter upside down.

"I'm going to f*ck him, that Wang Dongyang! He's the miserable wretch! His whole family is all miserable wretches!"

"F*ck your mom! Your father won't ever go to the Drunken Star Manor to buy medicinal pills anymore!"

"Mother . . .! Indeed, none of those brothers are good things! Who supported the Drunken Star Manor? Isn't it us, these demonic beast hunters? To actually scold us miserable wretches?! And even sell fake medicine?!"

.

Briefly, public sentiments were raging!

With this, the Drunken Star Manor's reputation among demonic beast hunters is already utterly rotten.

Next, Shi Kaiyong asked a few more inner-circle questions, but Huang Song did not know much.

Even so, some behind the scenes were still dug out by Shi Kaiyong; such as killing demonic beast hunters to rob them and etc. All these touched the bottom-line of the demonic beast hunters even more.

The demonic beast hunters present most likely took up a significant percentage of the State of Qin's demonic beast hunters. One could imagine how the Drunken Star Manor's business would be like in the future.

After some time, Huang Song suddenly woke up. Seeing the countless vicious gazes, his heart instantly trembled.

"I . . . What happened to me earlier? Wh-What are you thinking of doing? I . . . I'm someone from the Drunken Star Manor! You dare to touch me?!" Huang Song stammered.

Lin Feng looked at Huang Song and kept smiling. Except that the smile, no matter how one looked at it, did not appear too friendly.

"Brothers, we bought so many medicinal pills just now. Since these medicinal pills are all fake, then shouldn't we return them to him?" Lin Feng suddenly said to everyone.

These demonic beast hunters were all experienced. When Lin Feng said that, they guessed Lin Feng's intentions and could not help praising.

The outcome that followed was apparent. This Huang Song was stuffed by those medicinal pills until he exploded. It was an extremely tragic end.

.

"Big brother, just who was the person secretly directing you just now?" a member of Shi Kaiyong's team could not resist asking out of curiosity.

Shi Kaiyong shook his head and said, "Don't know, but this person is undeniably an expert! I've never even heard of this type of secret transmission skill! And that medicinal pill which made Huang Song tell the truth is completely unheard of! In my opinion, this person definitely has deep relations with Pavilion Lord Ye and is extremely powerful!"

"Big Brother is right. This person is abnormally mysterious. Just now, you made me pay attention to the surrounding people, but I didn't even get a clear view of how that expert moved to fire out that medicinal pill! This person actually saw through those fake medicinal pills easily and also possess such incredible medicinal pills. Definitely also an Alchemy Dao expert!"

Shi Kaiyong nodded and said, "That's right! From my conjecture, this person has the strength of Alchemy Grandmaster at the minimum! But since there's such a powerful aid behind Pavilion Lord Ye, why hasn't there been any movements? I have a feeling that as long as this person is willing to lend a hand, the Drunken Star Manor is surely no match!"

The teammates said in shock, "Al-alchemy Grandmaster? Doesn't that mean that there's a Crystal Formation Realm expert among us?"

The teammates lifted their heads to scan around and felt rather worried.

A Crystal Formation Realm expert hiding among a bunch of Spirit Condensation Realm martial artists. This is absolutely not a good feeling.

Shi Kaiyong frowned and said, "Dumbass! What are you looking for? That senior is hiding among us, so he definitely doesn't wish to expose his identity. Otherwise, he also wouldn't be so cautious. With his capabilities, just a slap and he can smack Huang Song to death. Why would he cause such a mess for? This matter is concluded. I'll also talk to the two of them in a while. Just take it as if this incident never happened!"

Those team members broke into a cold sweat again after hearing Shi Kaiyong say that and hurriedly nodded like chicken pecking rice.

Shi Kaiyong also lowered his voice and said, "The treasure seizing event this time, we'll just do our best. Take utmost care to not irritate some dreadful existences. Otherwise, you won't even know how you die! I reckon that there's already no small number of Crystal Formation Realm martial artists among the humans. And I have a feeling that there will be even more amazing experts appearing!"

Before Shi Kaiyong finished talking, a surge of mighty aura abruptly appeared. The crowd which had already calmed down was once again stirred up.

This aura was powerful to the point it was suffocating!

These people were all Spirit Condensation Realm martial artists, but they could not even muster up the courage to resist!

Chapter 166: Sea Transformation Realm Expert!

"So . . . So powerful!" Nanfeng Zhirou clenched her jaw and was clearly straining to withstand this pressure.

Just then, a faint soul strength extended in front of her. The pressure instantly reduced.

Nanfeng Zhirou looked at Ye Yuan in astonishment but saw Ye Yuan flash her a light smile.

This fellow, towards the utilization of soul strength, he has actually already reached such a degree? Nanfeng Zhirou was very amazed in her heart.

To her, Ye Yuan was just like a map which could never be fully unfurled.

Every time she felt that she understood Ye Yuan more, she would discover that her understanding was only a part of him.

"This . . . This person is so strong. What's his background?" Nanfeng Zhirou asked.

"How would I know? I only know that there's that few Crystal Formation Realm martial artists in the State of Qin. I don't know anything else. Furthermore, I don't feel like the State of Qin has Sea Transformation Realm martial artists." Ye Yuan was dumbfounded.

His predecessor was a top-tier noob, so no need to talk about that.

Ji Qingyun was also utterly unfamiliar with the Boundless World. Such a long time and he had not even heard of any powerhouses' name.

"Sea . . . Sea Transformation Realm?"

Nanfeng Zhirou's eyes popped out. This was her first time seeing a Sea Transformation Realm expert.

"If not? It's also impossible for Ninth Level Crystal Formation Realms to release such powerful pressure, right?" Ye Yuan curled his mouth and said.

Just then, a shadow cut across the skies. A large bird-like creature stopped in mid-air just like that. On it, an elder stood upright with a majestic aura.

"All get lost for old me! Within a mile radius from the gorge entrance, any trespassers will be killed without mercy!"

The elder's words were just like rolling heavenly thunder, spreading out in all directions and entering everyone's ears. He left these words extremely arrogantly and drove the large bird to fly towards the entrance of the gorge.

"Who's that person? So rampant! He asks your father to leave, and your father leaves? Your father just refuses to leave!"

The people by the sides looked at him like they were looking at a fool. "Then you stay. We're going!"

"Aiya, don't! Together, go together! Just who on earth is that person? Why is he so powerful? Glancing once at him gave the feeling like I was crumbling!"

"If I didn't see wrongly, that old man is the Black Crow Old Man who went missing for many years! When he went missing, he was only at the Crystal Formation Realm. I didn't think that not only did he not die, but he also even advanced a step and stepped into Sea Transformation Realm!"

"My god! Sea Transformation Realm! It's hopeless in my entire life . . ."

"We all know . . ."

The crowd retreated like tidal water. Even the Crystal Formation Realm martial artists who arrived previously also fell back sensibly.

In front of Sea Transformation Realm martial artists, Crystal Formation Realm martial artists were simply not worth looking at!

Sea Transformation Realm did not lie within the major realms carved out by martial artists, but it laid between the Crystal Formation Realm and Soul Sea Realm. It was a special type of state!

The Sea Transformation; its full name should be Shattering the Core, Transforming into Sea!

After martial artists enter the Crystal Formation Realm, the compression of essence energy already reached the limits!

It was no longer possible to want to continue storing essence energy inside the body.

When Crystal Formation Realm martial artists reach the Ninth Level Crystal Formation Realm, the dantian became the greatest obstacle of shackling martial artists' breakthrough instead!

Thereupon, ancient sages used powerful soul strength to shatter the dantian's fetters, creating this step of Shattering the Core, Transforming into Sea, which also laid a solid foundation for martial artists to continue breaking through their limits!

Crystal Formation Realm martial artists pulverize the dantian along with the crystallized state essence energy and transform into a miraculous state. This process was Sea Transformation!

This sea was called the Dantian Sea.

After the dantian transforms into a sea, martial artists could take their first steps to communicate with the outer world's heaven and earth essence energy, transferring the outside world's heaven and earth essence energy for their own use. Their strength would experience a substantial increase.

Invoking the outside world's heaven and earth essence energy when compared to using the heaven and earth essence energy within the body, the former was naturally more superior.

Hence, the strength of Sea Transformation Realm martial artists and Crystal Formation Realm martial artists were not even on the same level!

No matter how powerful Crystal Formation Realm martial artists were, it was impossible to make everybody feel such pressure. But Sea Transformation Realm martial artists who borrowed Heaven & Earth essence energy could easily do this.

However, Shattering the Core, Transforming into Sea was only a special state. It should be said that it was the embryonic form of the Soul Sea Realm. Therefore, it could not be categorized as a major realm.

Even so, the might of Sea Transformation Realm martial artists already exceeded the understanding of ordinary people.

It could be said that Crystal Formation Realm martial artists still belonged to mortal martial artists, while Sea Transformation Realm martial artists already took the first step to transcending beyond mortal and the secular!

Ye Yuan looked at the back figure of that old man who floated away and could not resist sneering. "Just the First Level Sea Transformation Realm, what's there to be arrogant about?"

Nanfeng Zhirou hurriedly covered his mouth. "You don't want to live anymore?! That's a Sea Transformation Realm expert!"

Feeling the faint aroma coming from Nanfeng Zhirou's palm, Ye Yuan felt very comfortable and invigorated.

"Isn't it just Sea Transformation Realm? Give me ten years. I guarantee that you will break through to the Soul Sea Realm! Uh . . . However, ten years seem to be a little too long," Ye Yuan transmitted his voice.

The ten years being too long was Ye Yuan saying that he might not stay in the Boundless World for ten years.

Even if he could stay in the Boundless World for ten years, he would also leave the State of Qin in the future, and leave the Tranquil Cloud Sect. It was not possible to keep staying by Nanfeng Zhirou's side to be a nanny.

But Nanfeng Zhirou did not think so. "Ten . . . Ten years? Soul Sea Realm?"

Even though it was a voice transmission, Nanfeng Zhirou felt tongue-tied.

Ten years to breakthrough to the Soul Sea Realm, forget about the State of Qin, even in the Tranquil Cloud Sect, nobody dared to boast like this.

Furthermore, Ye Yuan did not say it was him breaking through, but to help her break through!

Also, Ye Yuan did not say break through to the Sea Transformation Realm, but break through to the Soul Sea Realm!

Is there a mistake?

This feeling did not feel like they were talking about breaking through cultivation realm, but more like playing a game, casually talking about it to breakthrough cultivation realms.

Ye Yuan also misunderstood. He glanced at Nanfeng Zhirou and said, "Ten years too long? Uh . . . Eight years is also possible! But it can't be any lesser! With your talent, just eight years is somewhat overly forceful already. Your foundation will be unstable."

"Puchi!" Nanfeng Zhirou nearly vomited a mouthful of old blood.

Although she knew that Ye Yuan was very amazing, why did these words feel so unreliable?

Ye Yuan also could not be blamed. Not too much time had actually passed since his rebirth. Even though he already gradually adjusted to the State of Qin's lifestyle, many concepts were still stagnated in his previous life.

The way he saw it, with the assistance of medicinal pills, as long as talent was not too poor, breaking through to the Soul Sea Realm was something that was easy to accomplish.

Nanfeng Zhirou's talent was not considered bad. But compared to genuine geniuses, there was still quite a disparity.

Hence, Ye Yuan saying ten years was actually already a broader time frame.

But these words totally did not sound like that from how Nanfeng Zhirou heard it. It was simply like bragging to the skies.

"Will you die if you don't brag? Ten years to breakthrough to the Soul Sea Realm, then you can be the Tranquil Cloud Sect's Sect Leader already!" Nanfeng Zhirou said with a face full of disdain.

Only now did Ye Yuan react as he seemed to realize that what he just said was a little over the top. With Nanfeng Zhirou's horizons, she simply could not understand it.

"Haha, this was also found out by you. We'd better hurry up. Otherwise, it wouldn't be worth it if we will get killed by that old freak."

"I know that you were bragging! But can't you just think first before saying all that?" Nanfeng Zhirou rolled her eyes at Ye Yuan.

Chapter 167: Essence Fire Born!

"Roar!"

Right then, a colossal cry sounded out.

A large bird howled through the air and stopped in front of the bunch of demonic beasts, facing off with Black Crow Old Man across a distance.

After that large bird demonic beast appeared, the demonic beasts' side also retreated far away.

"Hey hey, what demonic beast is that? Seems to be very amazing!"

"What rubbish! To think that you're a demonic beast hunter, to actually not even recognize the Golden Sword Condor! That's a Tier 4 demonic beast! I heard that this Golden Sword Condor is the lord of the Lotus Moon Gorge! Before this, it was lurking god knows where. Now that it saw the Black Crow Old Man appear, it also could not resist coming out."

"Look at what you're saying. While I may be a demonic beast hunter, do you feel that I have the ability to hunt a Tier 4 demonic beast? It would be pretty good if he doesn't come to kill me."

"Uh . . ."

The appearance of the Golden Sword Condor also caused a commotion over at the human martial artists' side.

Initially, they all felt that the treasure this time was most likely the Black Crow Old Man's already. But now, a Tier 4 demonic beast actually appeared. There was a good show to watch now.

While the Sea Transformation Realm was not a major realm, the power of Sea Transformation Realm martial artists could already match the power of early-stage Tier 4 demonic beasts.

Like human martial artists, Tier 4 demonic beasts, at this level, the span of power is exceptionally huge.

The vast majority of demonic beasts would all stop at Tier 4 in the end. Because the advancement from Tier 4 to Tier 5 is too tough.

From Tier 4 to Tier 5, they would experience the most important phase for demonic beasts that is Taking Form!

Demonic beasts who successfully took form would be like a fish leaping over the Dragon Gate; becoming an extremely powerful existence.

Demonic beasts who failed to take form would become ashes under the Heavenly Tribulation!

Hence, the entire stage for Tier 4 demonic beasts was virtually all for the sake of preparing for this Heavenly Tribulation!

This also resulted in the differences in strength being extremely huge for Tier 4 demonic beasts.

Normally speaking, Early Stage and Middle Stage Tier 4 was equivalent to human Sea Transformation Realm. But Late Stage Tier 4 demonic beasts was equivalent to human Soul Sea Realm!

This Golden Sword Condor should have just broken through to Tier 4 not long ago. In terms of power, it was probably the same as the Black Crow Old Man.

Therefore, the current situation became quite subtle.

Seeing a Tier 4 demonic beast appearing, the human martial artists were close to losing all hope.

A Black Crow Old Man already made them lose all chances of snatching the treasure. With the addition of a Tier 4 demonic beast, wouldn't that be deadly?

Ye Yuan was not surprised to see this Tier 4 demonic beast.

This place was the Endless Forest; it was the territory of demonic beasts right from the start. It would be even weirder if no high-level demonic beasts came over!

Moreover, Ye Yuan was currently secretly delighted. These two fellows would surely battle it out to seize the treasure. At that time, he could just sit down and reap the spoils without lifting a finger.

The Black Crow Old Man shot a glance at the Golden Sword Condor not far away, gave a cold snort, and simply sat down to meditate.

Tier 4 demonic beasts had extremely high intellect. It clearly did not wish to strike at this moment, so it similarly landed on the ground to conserve strength and build up energy.

"Senior Apprentice Sister, I reckon that the treasure will be born today. To be able to attract a Sea Transformation Realm and Tier 4 demonic beast over, this treasure most likely isn't simple. In a while, you'd better enter the spatial artifact. This way, I can search for the treasure with full force. I have a feeling that this treasure is very important to me so Senior Apprentice Sister will have to put up with this a little," Ye Yuan advised very earnestly.

Nanfeng Zhirou clenched her jaw tightly, and her face changed a few times.

Was she still going to be of no help at all in the end? A fierce unwillingness was born in her heart!

But she also knew that with Sea Transformation Realm experts here, she really could not help Ye Yuan with anything. Not dragging him down was already pretty good.

Even though Ye Yuan's strength was not great, he had endless streams of means and methods. Searching for the treasure alone might be somewhat safer instead.

"Fi-Fine then." Nanfeng Zhirou finally relented.

Ye Yuan was overjoyed. He brought Nanfeng Zhirou to a place with nobody around and put her away inside the spatial artifact.

Right at this time, an extremely powerful heatwave spread out from the depths of the gorge, making all the martial artists feel like they were being cooked.

But everyone perked up because they all knew that the treasure came into being!

Ye Yuan saw the situation and his expression was also one of joy.

"Is it possible that an essence fire came into being? Such a powerful essence fire, I'm afraid that it's at least Tier 4! This trip was indeed the right call!"

Ye Yuan's experience was far beyond what these people could compare to. He could guess from this wave the general situation of the treasure born this time.

The so-called essence fire referred to the fire-seed born from the heaven and earth. Its might was extremely powerful!

The moment a martial artist owned an essence fire, their combat power would shoot straight up. Of course, the prerequisite was that they could subdue the essence fire.

Many martial artists wanted to obtain essence fires but were finally burnt until not even cinders were left.

However, there was another application of essence fire, and that was to aid alchemists in refining pills!

Tier 1 and 2 medicinal pills did not have a high requirement towards the flame. Ordinary earth fire could satisfy the requirement.

But using earth fire for Tier 3 and above medicinal pills would be very forced. As for Tier 4 medicinal pills, earth fire would be completely insufficient.

Hence, what an alchemist dreamed for the most was to be able to own essence fire!

Even for Alchemy Apprentices and Alchemy Masters, if they could own a Tier 1 or 2 essence fire, the success rate and quality of their pill refinement would increase tremendously.

It was just that compared to the number of alchemists, there were too few, too few essence fires. So scarce to the degree it made people despair. Hence, the vast majority of alchemists did not have essence fires.

Ye Yuan's previous life was an Alchemy Emperor. Tier 9 essence fire was the standard. It was just that after the death of his flesh body, the essence fire was unable to be brought over for rebirth.

If it turned out as expected, that essence fire was obviously taken away by Ji Canglan.

The essence fire in Ye Yuan's previous life was named Cangli True Fire. It was prepared for Ye Yuan personally by Ji Zhengyang.

In reality, Ji Qingyun could be considered to have grown up in a honey jar. Since the beginning when he came into contact with alchemy, from Tier 1 to Tier 9, Ji Zhengyang would help him prepare the essence fire nicely.

What he had to do was to refine those essence fires!

Ji Qingyun did that very well.

.....

After the heatwave passed, the Black Crow Old Man and the Golden Sword Condor exchanged glances and swept towards the depths of the Lotus Moon Gorge at virtually the same time.

Other people and demonic beasts only dared to flood inside by following the footsteps of others after those two major powers left.

Of course, there were some people who saw this sort of situation and sensibly retreated.

However, they normally did not even dare to come to Lotus Moon Gorge this sort of place. With such a fine chance this time, why would they let that pass by?

Apart from that treasure which was born, there were a lot of good stuff in the Lotus Moon Gorge!

However, Ye Yuan saw that it might be an essence fire which came into being. How would he have the thought to bother with those things? His figure moved, and he swept over to the depths of the gorge.

"Hey, you guys saw that? Just now, a First Level Spirit Condensation Realm brat rushed inside."

"Forget it, don't bother about him. He's in a rush to reincarnate, what has it got to do with us? We'd better hurry and source for some precious herbs. There are quite a few Tier 3 herbs here!"

"Ah ah ah! You're despicable! I saw that Dragon Serpentine Grass first!"

The deeper Ye Yuan went inside, the more he sensed that there were several powerful auras ahead. They were definitely the few human Crystal Formation Realm martial artists and those Tier 3 demonic beasts.

Ye Yuan was just pondering what should he do when White Light who had been following by his side all along suddenly moved away, following a small path, and darted in.

Ye Yuan was about to stop him when he suddenly thought of something. A smile crept into the corner of his mouth, and he also hurried after it.

Chapter 168: Earth Flame Lizard

Where White Light passed by were all deserted and precipitous places. Ye Yuan followed the whole way but hardly bumped into anybody.

"Could this little thing really have the ability to search for treasure?" Ye Yuan became more and more certain about this view.

If that was really the case, then the white tiger back then should have been led by White Light to search for the Blood Bodhi but did not expect to encounter the Seven Colored Flowing Cloud Python occupying that place.

After the two parties fought a great battle, the white tiger lost.

This way, everything could be explained.

"Do Flowing Light White Tigers have such abilities? This little fellow is really extraordinarily talented!" Ye Yuan sighed in admiration.

Ye Yuan had researched very thoroughly into demonic beasts and had never heard of the Flowing Light White Tigers having this treasure seeking skill. Looks like it was this little fellow's own attribute.

He really picked up a treasure.

Thinking back then when he found White Light to be a hindrance, Ye Yuan could not help sweating heavily.

The further into the gorge they went, the hotter Ye Yuan felt. It looked like nine out of ten it was essence fire. It was just he did not know what rank it was.

Following White Light, Ye Yuan's terrain grew increasingly higher, but that treasure was obviously at the bottom of the gorge.

"This little fellow isn't blindly leading the way, right? Or is he just finding food to eat?" Ye Yuan could not help criticizing.

Although it felt like they were getting progressively closer to that treasure, this route did not seem too right.

Right at that instant, Ye Yuan suddenly heard intense fighting sounds from the bottom of the gorge.

"Wicked beast! Are you trying to fight to the bitter end with me?!"

His answer was several bird cries with extremely powerful penetrative force.

They were precisely the Black Crow Old Man and that Tier 4 Golden Sword Condor!

Ye Yuan withdrew his aura and poked his head out to see. Indeed, he saw a human and a bird in a fierce battle at the bottom of the gorge.

A Sea Transformation Realm powerhouse and a Tier 4 demonic beast's battle, that aura indeed could not be mentioned in the same breath. Those hair-raising clashing sounds, even if one was thousands of meters away, they would also feel waves of palpitation.

If it was close up, just the aftershocks of the battle would probably be enough for him to suffer, right?

Ye Yuan looked at the place the pair were fighting, and his heart inevitably felt a chill. The place the Black Crow Old Man and the Golden Sword Condor was fighting was precisely the entrance of a cave.

Very clearly, that cave was precisely the passage leading to the whereabouts of the essence flame.

With these two major powers guarding the cave entrance, who could enter? And them fighting so intensely was clearly also to snatch the initiative of entering the cave.

Truly dangerous!

Could it be that this time, he would really have to enter the treasure mountain but return empty-handed?

"No way! If it was some other treasure, then forget it. But to the current me, essence fire is very important! I must get this essence fire!"

Right then, White Light suddenly bit the corner of Ye Yuan's sleeve wanting to pull him away.

"You're saying to make me follow you still? But the entrance is over that side! You heading this way, isn't that reversed?" Ye Yuan also criticized another bout in his heart.

The direction White Light pulled him towards was the back of the mountain. It was simply far apart from that cave!

White Light ignored Ye Yuan, left him behind and ran down the mountain.

Ye Yuan suddenly had a flash of inspiration. "En? Could it be that there's another entrance?"

Once this thought popped up, Ye Yuan quickly displayed his movement technique and tagged along.

Before long, a small cave that could allow a person to pass through really appeared in front of Ye Yuan! White Light wagged his tail in front of the cave with a cute face as if he was claiming credit.

Ye Yuan was elated when he saw that. Rubbing White Light's tiger head, he said in a lowered voice, "Well done, Little Fellow! There will be rewards for you after we return!"

White Light seemed to understand Ye Yuan's words as he jumped twice on the spot, appearing to be ecstatic.

Ye Yuan arrived at the cave entrance. An extremely gargantuan heatwave came from face-on and nearly pushed him directly down the mountain.

Ye Yuan was not alarmed when he saw this, but became thrilled instead! This signified that this tiny cave entrance should really connect to the bottom of the gorge!

"White Light, you also go inside the spatial artifact. The temperature here is exceedingly high, so you probably can't withstand it," Ye Yuan said and then directly put away White Light inside the spatial artifact.

Then, a strand of faint essence energy poured out and completely enveloped Ye Yuan's body. He entered this small cave without any hesitation.

This cave was extremely narrow. But Ye Yuan could sense that it really linked to the direction of the gorge floor.

And the further in he went, the more scorching the air in the cave became. Ye Yuan had no choice but to strengthen the essence energy shroud to withstand this heat.

Without knowing how much time passed, the front suddenly brightened up. But the scenery in front of his eyes exceeded Ye Yuan's expectations.

As far as the eye could see, the surroundings were actually all lava! This cave actually linked directly to the gorge floor!

Just what kind of essence fire actually came into being here?

"Forget about it. I'll go inside to retrieve the essence fire first before anything else. Any later, after those two fellows determine a victor and loser, it would probably not be so easy to want to subdue the essence fire anymore!"

Thinking up to here, Ye Yuan no longer hesitated. He swept directly towards the depths of the cave.

Just having walked several dozen steps, Ye Yuan suddenly felt his scalp tingle and instinctively sensed that things were not good.

Whoosh!

A green colored shadow abruptly appeared in front of Ye Yuan and directly confront him head-on!

Ye Yuan wielded the Canghua Sword without any hesitation. A sword beam flashed past. That green figure seemed to know its power and actually jumped aside in midair!

"Sss . . . Earth Flame Lizard!" Ye Yuan instantly recognized this green silhouette.

The Earth Flame Lizard is just a Tier 2 demonic beast, but it was just like the Long-arm Stone Apes; both were social demonic beasts. One Earth Flame Lizard appeared in this place, so there was definitely a large group following behind.

Indeed, at the back of the underground rocks, dense green figures suddenly appeared, making Ye Yuan's scalp tingle when he saw it.

This number simply stretched to infinity!

Immediately after, the Earth Flame Lizard automatically opened up a path. An enormous Earth Flame Lizard appeared in Ye Yuan's sights!

Tier 3 demonic beast, Earth Flame Lizard King!

The Earth Flame Lizard King's colossal eyes stared at Ye Yuan and its mouth emitted the sound "Chi chi." It was unmistakably giving a warning to Ye Yuan!

Ye Yuan tried using the universal beast language to communicate with the Earth Flame Lizard King, but to his dismay, it had not awakened its inherited memories from the start.

Ye Yuan's furrowed his brows. He did not have time to waste here, so he directly made his move.

Swoosh! Swoosh! Swoosh!

In a blink, countless Long-arm Stone Apes appeared and formed a face-off with the Earth Flame Lizards.

"Yuan Fei, I'm out of time. I'll leave this place to you. Just an Earth Flame Lizard King that did not awaken its inherited memories. It shouldn't be an issue for you, right?"

"Rest assured, Young Master. Leave this place to me."

"Alright. I'll pass the spatial artifact to you. Clean this place up and then hide inside the spatial artifact and don't come out! There are two powerful fellows up there. You aren't their match."

"Alright, Yuan Fei understands. Yuan Fei assists Young Master to open up the path!"

Finishing, Yuan Fei brought along a large number of Long-arm Stone Apes and directly headed for the Earth Flame Lizard King to crush it.

While they were both Tier 3 demonic beasts, having awakened inherited memories and not awakening inherited memories were two completely different concepts.

And Yuan Fei brought along the Long-arm Stone Apes to attack the Earth Flame Lizard King at once. He simply could not hold his own and instantly made space for a path.

Ye Yuan hesitated no more and directly rushed over!

Chapter 169: Cleansing Sandal Flame Lotus!

The counterattack was not as tragic as imagined. Yuan Fei brought along a bunch of Long-arm Stone Apes and directly burst open a large entrance.

That Earth Flame Lizard King was taken by surprise when he saw Yuan Fei who suddenly appeared; it was not prepared to react with an effective response.

Yuan Fei had awakened his inherited memories. His intelligence already did not lose out to humans. It was not the slightest bit inferior when compared to Tier 5, Taking Form demonic beasts.

Making him lead a team was clearly much formidable compared to the Earth Flame Lizard King.

Ye Yuan did not hesitate and directly rushed over to the big entrance.

His movement technique was extremely fast, and very quickly, he vanished from within the tangled melee troops and headed deeper into the cave.

Ye Yuan discovered that the deeper he went, the wider this underground cave became.

Finally, he arrived at the end of the cave. This place was actually a vast underground plaza.

The plaza was entirely empty. Other than underground rocks, there was the lava which occasionally shot up.

At the end of the place was a very large magma pool.

Ye Yuan took a step into the plaza and instantaneously felt the exceedingly horrifying heatwave coming from the direction of the magma pool as if it wanted to incinerate some into oblivion.

"Really didn't expect that the treasure which came into being this time is actually the Cleansing Sandal Flame Lotus! This underground magma can actually give birth to the Cleansing Sandal Flame Lotus, truly inconceivable. Although it's newly formed, it already possesses the Tier 4 Cleansing Sandal Sacred Flame!"

Seeing that horrifying heatwave, Ye Yuan did not get worried. Instead, he was delighted that it went beyond his expectations!

In this stretch of heaven and earth, apart from the Divine Realm, there were countless Lower Realm planes. The types of essence fires were also beyond count.

There was once a major power from the Divine Realm who added up the statistical data, classifying all the known essence fires into categories and compiling them into a book. Listed on it were several thousand types of essence fires from Tier 1 to Tier 9!

And the newborn Cleansing Sandal Sacred Flame was a pinnacle existence among Tier 4 essence fires!

The Cleansing Sandal Sacred Flame could not exist independently. Instead, it was the accompanying essence fire of the Cleansing Sandal Flame Lotus. As long as one refined the Cleansing Sandal Flame Lotus, the Cleansing Sandal Sacred Flame would become theirs.

Not only that, the Cleansing Sandal Sacred Flame was the most suitable essence fire for alchemists among all the Tier 4 essence fires and even among higher tier fires!

Because the Cleansing Sandal Sacred Flame had a built-in attribute, and that was cleansing all creation!

A lotus symbolized sanctity, and this Cleansing Sandal Flame Lotus was exceptional even among lotuses.

If alchemists could properly employ the Cleansing Sandal Sacred Flame, they could purify the impurities in medicinal pills when refining pills and make the quality of the medicinal pills rise to another level!

Apart from this, the Cleansing Sandal Sacred Flame by itself could even refine an avatar body, which could allow Ye Yuan's power to improve a step further!

Hence, when Ye Yuan saw the Cleansing Sandal Sacred Flame at first sight, he was also indescribably excited!

This Cleansing Sandal Sacred Flame was simply custom-made for him!

If it were during his previous life, a newborn Tier 4 essence fire naturally would not be placed in his sights. But now, this could become an extremely huge aid to him!

Even with Ye Yuan's Heart Like Still Water realm, his heart also could not help palpitating with excitement.

Ye Yuan took a step forward towards the Cleansing Sandal Sacred Flame. But right then, an instinctive warning suddenly arose!

Even though he did not turn his head back, Ye Yuan could sense that there was an extremely powerful palm wind attacking from behind.

Ye Yuan directly displayed the Nine Swords Stance movement technique without thinking at all and turned into nine Ye Yuans.

Bang!

Not far off, a rock was struck by the palm wind and instantly turned into fine powder!

The might of a single palm was overwhelmingly powerful!

"Tch tch, I didn't think that a paltry little First Level Spirit Condensation Realm could not only recognize the Cleansing Sandal Sacred Flame, but you can also even avoid my Soul Chasing Palm! Truly remarkable! Your movement technique just now seemed to be quite interesting!"

The ambusher did not seem to have the intention of hunting him down, instead, started to praise Ye Yuan.

Ye Yuan turned around. A middle-aged man who appeared slightly aged showed up on the path he came from and actually cut off his path of retreat!

It looked like this fellow knew that someone was coming and had long laid in ambush here.

"Senior, as a Crystal Formation Realm martial artist, you sneak attacked a junior. If this spreads out, it wouldn't be proper, don't you think?" Ye Yuan said icily.

"Haha, there's only the two of us here. As long as you die, it naturally won't spread out. We demonic beast hunters put the word benefit as the top priority. We have never bothered with these conventional rules. As long as I can kill you, I don't mind sneak attacking."

The middle-aged man was not ashamed, but took pride in it instead,

Ye Yuan was also secretly astonished when he saw this middle-aged man.

This person can actually hide from the eyes and ears of Black Crow Old Man and the Golden Sword Condor and secretly sneak into the cave. It seemed like he had some capabilities.

Without talking about other things, just this one ability of concealment was most like eminent among the demonic beast hunters.

However, to actually encounter a Crystal Formation Realm demonic beast hunter made Ye Yuan feel quite surprised.

Crystal Formation Realm martial artists tended to be proud and normally would not impersonate as demonic beast hunters. According to what Ye Yuan knew, the State of Qin did not seem to have Crystal Formation Realm demonic beast hunters. And this demonic beast hunter was also an Alchemy Grandmaster!

It seemed like this person should be a reclusive powerhouse or some other country's Crystal Formation Realm martial artist.

From the undulation of the middle-aged man's divine soul, Ye Yuan could determine his strength.

"But pity, Senior still failed to kill me." Ye Yuan said lightly.

"It doesn't matter. You already have no way of escaping. You can only fight head-on with me. I don't think that a First Level Spirit Condensation Realm brat can escape with his life under my, Fang Yaojiang's' hands."

Ye Yuan's face darkened. It was clear what is Fang Yaojiang said was the truth. The situation was very unfavorable to him right now!

"Senior really have the confidence to kill me just like this? Or should I say, do you have the certainty of killing me in this short time? Don't forget, Senior; there are still two even more powerful people outside glaring covetously! If I try everything to delay senior and wait until any one of those two arrives, at most the outcome is everyone fights it out to the death. Even if senior really kills me, I'm afraid that you also

won't have the time to retrieve the Cleansing Sandal Sacred Flame. Am I right?" Ye Yuan said with a cold smile.

Fang Yaojiang's face changed. It was clear that Ye Yuan struck his sore spot.

Ye Yuan's movement skill just now made him feel quite fearful. Although a First Level Spirit Condensation Realm did not pose any threat to him, with that movement technique there, it probably would not be such an easy matter to have a quick battle.

Initially, he saw a Spirit Condensation Realm brat breaking in here recklessly and thought that he could get some petty gains. But he did not expect it to become a burning potato.

"Humph! What a rampant junior! Do you really think that I can't do anything to you?" Fang Yaojiang said stubbornly with a black face.

"It's not that I'm rampant. I'm just stating a fact. And even if Senior kills me, I'm afraid that you will also find it hard to subdue the Cleansing Sandal Sacred Flame, right?" Ye Yuan said calmly.

The Cleansing Sandal Sacred Flame was a Tier 4 essence fire, and the Cleansing Sandal Flame Lotus itself was not something to be messed with. This Fang Yaojiang was only a First Level Crystal Formation Realm martial artist. His soul strength only at the low-rank Alchemy Grandmaster. Wanting to subdue the Cleansing Sandal Sacred Flame was way too difficult.

He himself already knew about this point. That was why he was in no rush to make a move but laid in here to ambush Ye Yuan.

When martial artists were subduing essence fires, the vast majority would subdue essence fires close to the level of their own strength. Leaping ranks to subdue essence fires would basically result in the outcome of being burned to ashes.

Of course, this excluded Ye Yuan.

As an Alchemy Emperor, he was the ancestor of playing with fire. Even though his strength was a little poor at the moment, he still had the means to subdue a Tier 4 essence fire.

Chapter 170: Capital to Negotiate!

"Humph! Whether I'm able to obtain the Cleansing Sandal Sacred Flame or not, that is my business. But you must die now! I'll kill you first and then slowly think of a plan."

Having Ye Yuan expose his awkward situation, Fang Yaojiang appeared to have turned angry from embarrassment.

His current situation was just like walking into a gold mountain but lacking the tools to take away this gold mountain. This sort of feeling was really quite unpleasant.

Yet, Ye Yuan just had to mercilessly expose this point. How could this not make Fang Yaojiang pissed?

Ye Yuan ridiculed relentlessly, "Slowly think of a way? You aren't naïve enough to think that those two fellows outside will leave you alone to slowly think of a way, right?"

Fang Yaojiang's face was rather black. Killing a First Level Spirit Condensation Realm brat did not affect the overall situation. Those two outside were the truly troublesome existences.

He expended enormous effort before managing to conceal himself from those two's eyes and ears and entering here. Yet, he could see the things but not eat them. How could this not upset him?

"Just what are you trying to say?" Fang Yaojiang could also tell that Ye Yuan's words had another meaning as he asked with a black face.

"If I can help Senior get the Cleansing Sandal Flame Lotus, I wonder if Senior is willing to let me off?" Ye Yuan asked.

Fang Yaojiang burst into laughter when he heard him and said, "You? Stop joking! Even I, a Crystal Formation Realm martial artist can't do it. You're only at the First Level Spirit Condensation Realm, and yet you say that you can help me subdue the Cleansing Sandal Flame Lotus? Seriously making me die of laughter! Don't rack your brains to make me let you off. That's impossible!"

"Is that so?"

Ye Yuan also did not waste his breath anymore. With a step forward, he arrived at the edge of the magma pool.

The Cleansing Sandal Flame Lotus was a spiritual object born from heaven and earth. Although it had not unlocked sentience, it had its instinctive consciousness.

It noticed that somebody approached and seemed to have suffered a shock. The lotus actually spat out a bundle of flame tongues which attacked Ye Yuan!

Fang Yaojiang snickered coldly and did not plan on stopping Ye Yuan's actions. This brat courting death himself saved him some trouble.

The Cleansing Sandal Sacred Flame was a Tier 4 essence fire. A First Level Spirit Condensation Realm rookie would die upon contact with it.

Even if this was just the instinctive attack of the Cleansing Sandal Flame Lotus, its might was very terrifying. Even Fang Yaojiang himself did not dare to easily challenge this Cleansing Sandal Sacred Flame, let alone a First Level Spirit Condensation Realm.

Fang Yaojiang seemed to have seen the outcome of Ye Yuan being burned to cinders.

But in the next moment, when that bundle of flame tongues extended in front of Ye Yuan, Fang Yaojiang's pupils constricted as if he witnessed something unbelievable!

"This . . . How is this possible? That's a Tier 4 essence fire! Even if Crystal Formation Realm martial artists touched it, it would virtually be certain death! This First Level Spirit Condensation Realm brat is actually completely fine?"

Even though there were a hundred disbeliefs in his heart, the reality that happened in front of his eyes left him no choice but to believe it. The Cleansing Sandal Sacred Flame really could not do anything to Ye Yuan!

That bundle of Cleansing Sandal Sacred Flame was surging with tumultuous momentum just like a fierce tiger. But when that 'fierce tiger' arrived in front of Ye Yuan, it became incomparably docile; just like a tame little kitty.

After which, Ye Yuan waved a single hand, and that bundle of Cleansing Sandal Sacred Flame dissipated into nothing.

This . . . was too incomprehensible.

Oh, right, that brat seemed to have formed a set of seals. It was just that with Fang Yaojiang's realm and horizon, he actually could not understand at all!

This brat is bizarre!

Ye Yuan showed this move and then floated back, saying to Fang Yaojiang with a smile, "Not sure if I have the capital to negotiate with Senior now?"

Only now did Fang Yaojiang recover and said, "Of course! To think that you actually have such an ingenious fire controlling seal. Since that's the case, of course you have the chips to negotiate. However, I want to add a condition, and that is you have to teach this fire controlling seal to me!"

A greedy look flashed across Fang Yaojiang's eyes.

A complex expression appeared on Ye Yuan's face. "This . . . This is passed down from my ancestors. My family's elders will punish me if I rashly impart this to senior!"

"Haha, there's only the two of us here. You don't say, I don't talk, who would know? At the very most, I'll swear an oath to never display this seal in front of others in the future. But if you don't teach me the seal, I'd rather kill you! If you don't even have your life, then what's the talk about punishment?"

The current Fang Yaojiang was like a big gray wolf as he started to intimidate with threats and beguile with benefits.

Ye Yuan was silent for a moment and seemed to be having an intense inner struggle. Fang Yaojiang also did not rush him. He was grasping Ye Yuan's life and death right now. There was no need to rush.

"Fine then, but Senior must swear to never display this seal in front of other people. Otherwise, Junior's name will be removed from the family clan!" Ye Yuan said rather worriedly.

"But of course!" Fang Yaojiang agreed right away.

"Heh heh, looks like this brat came out of some hermit family clan for a trial test, but is a fledgling who has yet to experience worldly affairs. After your father learns this seal technique, how can I let you leave? If you were to return and call for reinforcements or something, then wouldn't I, Fang Yaojiang, have no path to the heaven and no door into the earth? A hermit family clan that can possess such a remarkable seal is definitely extremely powerful. Hence, a dead person is more reliable!" Fang Yaojiang laughed coldly in his heart.

It was very evident that Fang Yaojiang did not plan on letting Ye Yuan leave from the start and already had the intent to kill.

An overjoyed expression showed up on Ye Yuan's face when he heard that Fang Yaojiang agreed. "Okay. Senior, swear a Heavenly Dao Oath first, and then we'll work together to subdue the Cleansing Sandal Sacred Flame. After subduing the Cleansing Sandal Sacred Flame and we leave, I'll then teach this fire controlling seal to senior. Otherwise, our small lives will be hard to keep if we wait for those two to come in."

Fang Yaojiang also felt that Ye Yuan's arrangements were very appropriate when he heard it. So he nodded and answered, "Fine, do as you said."

"My strength is still insufficient and can only forcefully pin down the Cleansing Sandal Sacred Flame. The matter regarding subduing the Cleansing Sandal Flame Lotus will have to be up to senior yourself," Ye Yuan said.

"Haha, that's natural. As long as you lure the Cleansing Sandal Sacred Flame away, leave the rest for me to do." Fang Yaojiang patted his chest and said.

What he dreaded was the Cleansing Sandal Sacred Flame. As long as Ye Yuan could draw away the Cleansing Sandal Sacred Flame, wouldn't refining the Cleansing Sandal Flame Lotus be very easy for him?

"Alright, there's no time to lose. We'll make a move now. We can't drag any longer!"

Ye Yuan finished talking and directly turned around and headed for the magma pool. At this moment, he was not worried that Fang Yaojiang would suddenly deal a pre-emptive strike from the back, because the benefits Ye Yuan brought him was too great.

The Cleansing Sandal Flame Lotus plus the fire controlling sea was enough to let Fang Yaojiang's strength rise several levels. How could he let this pass?

As for Fang Yaojiang's schemes, how could Ye Yuan not know? He was just playing along with the other party's acting.

Ye Yuan arrived at the edge of the magma pool. That Cleansing Sandal Flame Lotus was startled again and took the initiative to attack Ye Yuan.

Ye Yuan repeated the same trick and that Cleansing Sandal Sacred Flame dispersed once again.

The Cleansing Sandal Flame Lotus seemed to have suffered stimulation and spat out a strand of Cleansing Sandal Sacred Flame again. The blaze this time was much more powerful than previously. Even Fang Yaojiang could feel that scorching heat.

Ye Yuan formed the seals once more. But this time, it just held down the Cleansing Sandal Sacred Flame and could not make it dissipate.

The flames spat out by the Cleansing Sandal Flame Lotus became increasingly stronger, but ultimately could not do anything to Ye Yuan. All the way until the end, a small faint yellow fireball flew out from the lotus flower. The temperature in the entire underground cave soared as if it wanted to melt everything.

This faint yellow tiny fireball was the Cleansing Sandal Sacred Flame origin fire essence!

"Quickly get to work, Senior!" Ye Yuan had a very strained appearance as he shouted at Fang Yaojiang.
