Chapter 1741: Leaving Alone

Ye Yuan did not say a word and swallowed the medicinal pill.

Raging spiritual energy was instantly converted into divine essence, pouring into the divine vortex.

Bang!

The divine vortex within Ye Yuan's body started quaking once more.

Not only did his divine vortex not become bigger, but it also shrunk up even more under some kind of mysterious force instead.

Around Ye Yuan, spiritual energy surged crazily, bolts of blue lightning flashing around him intermittently, looking very astonishing.

This medicinal pill was called Dark Fragrance Concentration Pill, a pill formula in Immortal Grove's hands. The medicinal effect was extremely strong.

It was just that the Netherworld Dark Fragrance Flower was too rare, so this pill formula was virtually useless.

Ye Yuan reached peak Third Firmament Divine Vortex in the first place and was only a step away from Fourth Firmament Divine Vortex. Now, under the impact of this colossal spiritual energy, Ye Yuan's breakthrough happened without extra effort.

As if sensing Ye Yuan's steadily rising aura, the Purple-eyed Devil Ape pounced over toward Ye Yuan once more.

This Purple-eyed Devil Ape was clearly very intelligent and was able to sense Ye Yuan's might.

Now, seeing that his breakthrough was near at hand, it decided to interrupt his breakthrough!

The expressions of Duan Peng and the rest changed. Duan Peng warned in a loud voice, "Brother Ye, be careful!"

At this time, the Purple-eyed Devil Ape's eyes were purplish-red, looking incomparably demonic.

His speed and power seemed to be even greater than before!

In a blink, a punch arrived in front of Ye Yuan.

The Purple-eyed Devil Ape bellowed wildly to no end, appearing very excited.

This punch landing, this damn human would definitely turn to ashes.

Because this human already did not have time to back down.

Bang!

"Ahh!"

A cry of surprise came from Duan Peng that side.

But the scene that followed left them dumbfounded with shock.

The Purple-eyed Devil Ape's punch going down, Ye Yuan was safe and sound. But it was akin to being struck by lightning, directly being blasted far away.

The Purple-eyed Devil Ape fell to the ground, twitching non-stop. There were still some blue lightning dancing on its body.

Duan Peng and the rest exchanged glances, looking at this scene in disbelief, dumbfounded looks on their faces.

"W-What happened? Why did the Purple-eyed Devil Ape fall by itself?"

"Don't know! The power of that punch just now was so strong, but it seemed like it smashed on his own body."

"Brother Ye is really too strange! When breaking through, one actually can't get close to him?"

...

In the midst of everyone's shocked gazes, Ye Yuan's aura finally climbed to the peak, and broke through the bottleneck of Fourth Firmament Divine Vortex in one go!

The current Ye Yuan was akin to a different person than before!

Ye Yuan breaking through a minor realm, the amount of spiritual energy required was more than several dozen times of ordinary martial artists.

Breaking through a stag this time, it was even more of thick accumulations erupting.

How much stronger was his aura compared to before?

Even separated so far away, Duan Peng and the rest could also feel Ye Yuan's might.

Duan Peng's face changed slightly and he said, "So strong! I feel like if he wanted to kill me now, just twitching his fingers will do!"

The others nodded silently, clearly agreeing to this very much.

Even Duan Peng had this feeling, let alone them.

Ye Yuan walked to the Purple-eyed Devil Ape's side slowly. The Purple-eyed Devil Ape was still twitching on the ground currently. He said coolly, "I know that you can understand me. This matter was indeed our fault, so I won't kill you. Go."

The Purple-eyed Devil Ape twitched twice before crawling to its feet with some difficulty and knelt down very human-like, and kowtowed toward Ye Yuan. Clearly, it was thanking his grace of not killing it.

The purple light in the Purple-eyed Devil Ape's eyes already completely faded. But it also seemed to have suffered a serious illness, aura diminishing drastically.

Duan Peng and the rest also came over and was very perplexed by Ye Yuan's way of doing things as one asked, "Brother Ye, he almost killed us just now. Why let him go?"

One had to know, when Ye Yuan killed Luo Yong and Qi Dongyu previously, he was not as softhearted as now.

Ye Yuan said coolly, "All lives have spirituality. Those who should be killed should be killed, while those who shouldn't be killed shouldn't be killed. It guarded the Silverwing Earthspirit Fruit for many years but was snatched away by us. If we commit anymore killing sin, it goes against nature and reason. Leave a ray of hope when conducting oneself."

The few people exchanged glances, uncertain what it meant.

Ye Yuan waved his hand, the Purple-eyed Devil Ape was akin to being granted amnesty, immediately sprinting away.

Regarding Ye Yuan's decision, Duan Peng and the rest naturally did not dare to have the least bit of objection. He had an excited look as he said, "Brother Ye's strength is truly inconceivable! This trip, if not for you, the few of us would probably have died until not even dregs remain! This Duan thanks Brother Ye's life-saving grace here! These Silverwing Earthspirit Fruits and Green Vine Emerald Net Flowers, please accept them."

As he said, Duan Peng handed a storage ring over.

Ye Yuan smiled and pushed the storage ring back and said coolly, "A man's promise cannot be taken back once made, how can I go back on my word now? These things, the few of you divide them."

Duan Peng had a difficult look as he said, "Brother Ye, I don't have other intentions, I just ... I just feel apologetic."

Ye Yuan said, "I've received your goodwill, but I have my own principles. These things, I won't accept them."

Actually, these two spirit medicines, Ye Yuan was naturally not indifferent to them.

It was just that he had his own principles. Previously, in order to made Duan Peng they all go to the Evil Water Ravine, since he made the promise, he would not go back on it.

Moreover, these few years, Ye Yuan followed Duan Peng they all and also pretty much inquired about some of the Skydemon Mountain Range's things.

These spirit medicines, just take it as remuneration.

Duan Peng said with vicissitudes of emotion, "Brother Ye is truly trusting. This Duan has traversed in this Skydemon Mountain Range for many years, what I learned was all mutual suspicion and deception. Meeting Brother Ye today, I'm truly ashamed!"

Ye Yuan said coolly, "Everyone's standpoint is different. In this Skydemon Mountain Range, wanting to live naturally can't dispense with mutual suspicion and deception. If I were here, I might not be better than Brother Duan."

At this time, Yu Jing came up and said, "Brother Ye, you're really different from the average person!"

Ye Yuan smiled and said, "Alright, this trip is done. Everyone, I'll say goodbye here then."

Yu Jing's face changed and she said in surprise, "You're not going back with us?"

Ye Yuan shook his head and said, "I'm making a trip to the Demon God Plain and won't be going back with you all."

Duan Peng said in surprise, "Brother Ye, the Demon Divine Region is abnormally perilous and there are countless great demons. It's too dangerous for you to head there alone!"

Ye Yuan smiled and said, "I naturally know this. But I have reasons that I must go. Elder Sister Jing, after you go back, let your brother eat these spirit medicines. In less than half a month, he'll sure be cured. At that time, you'll be able to return to your hometowns."

Hearing the news that Ye Yuan was going to leave, her heart seemed to be pricked by something.

But so many years of making a living in the Skydemon Mountain Range, Yu Jing was no longer that kind of young girl anymore.

She forcefully held back years, gave Yu Jing a salute with her hands folded at the lower right side, and said, "Many thanks for Brother Ye Yuan's great kindness. Elder Sister Jing will definitely remember it well!"

Ye Yuan smiled and bade farewell to everyone.

Seeing Ye Yuan's back view vanish into the dense forest, Duan Peng sighed and said, "Sister Jing, Brother Ye he ... is destined to be someone that doesn't belong in the same world as us!"

Chapter 1742: Priest Temple

Tyrant Origin Imperial City was a high-order imperial city near the Skydemon Mountain Range at the Demon God Plain.

The demon race was different from humans. Due to the many races, conflicts would frequently erupt among them.

Furthermore, some demon races were extremely intelligent, not even the slightest inferior to humans.

These demon races transformed into the appearance of humans and also established their own faces.

Hence, in the Demon God Plain, one city after another rose from the ground.

Just like the humans.

Of course, there was also a portion of extremely intelligent demon races that did not condescend to transform.

They lived in the Skydemon Mountain Range, ruling over a large number of territories, living a life of being a local despot.

Outside Tyrant Origin Imperial City's Priest Temple, a group of young demons had excited faces.

Today was the day the Priest Temple recruited apprentices. Quite a number of young demons all gathered at the Priest Temple to take part in the test, wanting to become a priest trainee.

In the demon race, becoming a priest of the Priest Temple was a very sacred thing.

The Priest Temple was similar to the Alchemist Association but was also somewhat different.

Even if these demons could refine medicinal pills, they might not be able to become a real priest too.

Only by reaching a certain strength and getting the approval of the Priest Temple's elders could one become a true priest.

Once become a priest, one would possess a very lofty standing in the demon race.

Even demons that had yet to take human form also would not easily offend a priest.

Because the Priest Temple was created by an extremely powerful major power of the demon race. It had a paramount status in the entire demon race.

"Saw that? That's the priest trainee, Kong Lin, that Master Huo Rong took in the last time. I heard that he already officially became a priest last year."

"Really envious of him! Priest apprenticeship is too hard to pass. I already took more than ten times and didn't pass it!"

"You only took roughly over a dozen times? I already took hundreds of times and didn't pass!"

"Heh, it's all the same! Each trainee test, it's already pretty good to have two people admitted. But this time, the most promising one should be Mu Yuanchun, right?"

...

Young demons were discussing animatedly, all lamenting at the difficulty of the priest trainee test.

Clearly, it was not an easy thing to become a true priest in the demon race.

The priest exam was carried out once every ten years. Not passing several dozen times, that was a thousand year's time.

Spending a thousand years on one thing but not even reaching the entry level, it could be imagined how great the difficulty of this test was.

At this time, a figure slowly walked into the Priest Temple, immediately drawing a series of sidelong glances.

"Eh, a human! Why did a human come to the Priest Temple for?"

"He went to the registration office. Is it possible that ... he's going to take part in the priest examination?"

"Haha, is this human a fool? How can a human possibly refine a demon divine pill?"

“A Fourth Firmament Divine Lord human was actually not beaten to death after entering the city. This is simply a miracle!”

...

This human was none other than precisely the Ye Yuan who arrived at the Demon God Plain after passing through the Skydemon Mountain Range.

Ye Yuan inquired about a relatively safe route from Duan Peng they all, and he finally passed through the Skydemon Mountain Range with only scares but no danger.

However, the Demon God Plain was far too big. Wanting to find White Light’s news was undoubtedly like finding a needle in a haystack.

He heard about the Priest Temple from Dustless there. Hence, he thought of a method, to make use of the Priest Temple’s powerful influence to search for White Light. That was why there was the scene of signing up for the priest examination currently.

“Senior, I wish to sign up for the priest examination,” Ye Yuan said to the registration old man.

That old man looked at Ye Yuan with a strange look and shook his head as he said, “How can a human participate in the Priest Temple’s assessment? Go to one side. Keep causing trouble and this old man won’t be courteous!”

Ye Yuan smiled, a vigorous but pure demonic divine essence was released.

The old man’s expression changed and he said in surprise, “How can you, a human, possibly possess such pure demonic divine essence?”

Due to physique, the demon race was greatly different from the human race’s divine essence; very easy to distinguish.

Ye Yuan smiled and said, “Junior has a half-demon race bloodline, so demonic divine essence is naturally not a problem.”

For Ye Yuan to be able to possess demonic divine essence, it was naturally not because he had a demon race bloodline, but because of his chaos divine essence.

The old man gave Ye Yuan a glance suspiciously and said, “In that case, you’ve lived in the human race’s territory for a long time? Demon divine pills can’t be refined by hugging Buddha’s leg at the last minute and begging for help! See them? Some people cultivated bitterly for thousands of years and also can’t refine a qualified demon divine pill. You ... best forget about it!”

The old man was responsible for enrollment, so he naturally had to ensure the initial screening too.

If any random Tom, Dick, and Harry could take part in the priest test, this test would also be too worthless.

Ye Yuan naturally saw through the old man’s concern and said with a smile,

“Senior rest assured. If I don’t pass the test, I’m willing to be punished at will by the Priest Temple!”

The old man's face changed slightly, but he heard a cold laughter. "Heh, truly shameless boasting! With your age, even among the human race's alchemists, you're also considered very young, right? Demon divine pills and divine pills are two completely different kinds of pill refinement systems. Just like you also want to pass the Priest Temple's test?"

Behind Ye Yuan, a young demon looked at him with a disdainful look. It was precisely the Mu Yuanchun everyone spoke of.

Demon divine pills and divine pills were indeed two different pill refinement systems.

It was impossible for human alchemists to refine demon divine pills.

The fiend race's constitution was similar to the humans. So their pill refining system was also inherited from the humans and did not have much difference.

Therefore, Ye Yuan could rely on his Alchemy Dao talent when he entered the fiend race back then and rampaged in all directions, causing a stir among the fiend race's upper echelons.

But this time, it would not work!

Even though Ye Yuan was similarly extremely proficient in demonic pills when at the Immortal Grove World.

After demons stepped into Divine Dao, their constitutions would undergo tremendous change. The refinement of demon divine pills would also naturally be totally different from when they were mortals.

Even Heavenly Empyrean Immortal Grove could not possibly refine demon divine pills at all because he did not have demonic divine pills.

It was also precisely because of this that Ye Yuan would come and take part in this seemingly very low-level priest trainee examination.

This time, he came completely harboring the attitude of learning.

In reality, he was totally clueless about demonic divine pills.

Of course, Ye Yuan's horizons were no longer what ordinary alchemists could compare to long ago.

As the saying went, 'A myriad Great Daos, all led to the same goal.'

Ye Yuan's understanding of Alchemy Dao already reached the realm of seeing the essence through phenomena.

Even though the refining system of demon divine pills was different, just in terms of pill refinement, the intrinsic nature had similarities.

Ye Yuan had confidence in being able to get a grasp on it very quickly and obtain the Priest Temple's recognition.

Ye Yuan looked at Mu Yuanchun and said coolly, "Does pill refinement strength have anything to do with strength?"

Mu Yuanchun sneered and said, “Rubbish! Of course it’s related! Alchemy Dao strength comes from the accumulation of time! You don’t even understand such a simple truth and still want to become a temple priest? I’m suspecting now that you’re simply here to cause trouble!”

Ye Yuan said coolly, “Then I’ll tell you today, your understanding doesn’t work on some people!”

Chapter 1743: Burning Paper

“Hahaha, what an arrogant punk! To dare to say such words at the Priest Temple, where do you place the elders in your mind?” Mu Yuanchun said with a cold laugh.

The Priest Temple’s elders, each one used countless years to accumulate strength.

Regardless of whether in the human race or demon race, being an alchemist was an extremely time-consuming profession, this was universally acknowledged.

But Ye Yuan uttered wild ravings right now!

These demon race’s young geniuses also pointed and gestured at Ye Yuan one by one, very scornful.

Not that Ye Yuan was arrogant, but that he wanted to borrow the Priest Temple’s power and influence, so he had to attract the Priest Temple’s high regard.

How could ordinary geniuses have the capital to speak?

Since that was the case, then he might as well be more high-profile and let the Priest Temple’s elders see his strength!

Uh ... Even though he could not talk about strength currently.

Ye Yuan said coolly, “Don’t play this kind of word game anymore. Since it’s an assessment, it’s naturally using results to speak.”

The old man responsible for enrollment said in a solemn voice, “Young man, if I find out that you’re toying with the temple, you know the consequences!”

Ye Yuan nodded and said, “Junior is naturally aware!”

The old man said, “What’s your name?”

“Ye Yuan!”

The old man nodded and threw a wooden plaque to Ye Yuan.

Ye Yuan caught the wooden plaque and lined up in the last place.

Among a group of demon race powerhouses, Ye Yuan appeared very different.

At this time, on the high platform above the temple, three old men appeared in succession, their auras astonishing.

These three old men were dressed in purple priest robes, five stars embroidered on their chest. They were shockingly five-star priests, also the Priest Temple’s elders!

The elder in the middle slowly opened his mouth and said, “Kong Lin, start!”

Kong Lin bowed to give a salute and said, “Yes, Master!”

Seeing this scene, the demons below were all incredibly envious.

Kong Lin went in front of the crowd and said in a clear voice, “The priest apprentice examination begins now. First round, fire control! I believe that everyone isn’t foreign to this round. There are three kinds of material papers, made from namely Goldsilk Divine Wood, Purple Fume Divine Incense Wood, Willow Cloud Wood. You all randomly pick one according to your own strength. As long as you don’t burn them down, it’s considered a pass! But I have to warn you guys, the choice of the paper, the elders will pay attention to them. This concerns your resources and status after entering the temple. Therefore, hope that you all bring out your greatest strength and display it for the elders to see! Each person has two chances, start now!”

Ye Yuan looked at the papers placed in front and his eyes involuntarily lit up.

These three divine words had different qualities and also different grades. The heat resistance of the paper refined was naturally different.

Using divine fire to burn paper, the fire-control requirements on the alchemist was exceedingly high.

A moment of carelessness and it would be burned to ashes.

One had to know, the terrifying temperature of rank four divine fire could virtually burn rank three martial artists to ashes, let alone a piece of paper as thin as cicada wings.

This level of test was indeed ingenious, but also very concise and clear, broadening Ye Yuan’s horizons too.

But fire control was too easy for him.

Under Kong Lin’s command, those demon race youths started to go up and undergo the assessment one by one. But what they picked were mostly paper made from Goldsilk Divine Wood.

These three wood types, Goldsilk Divine Wood was the strongest, Willow Cloud Wood the weakest.

So their choice was naturally the strongest. This way, it was not easy to burn it down.

Ye Yuan looked at these young geniuses’ fire control and could not help secretly shaking his head.

Too weak!

Although the demon race’s alchemy skills formed its own system, same as the fiend race, the demon race was still much more crude compared to the human race.

In this kind of delicate work, it was still a notch inferior.

But, these demon race alchemists were clearly much stronger than the fiend race’s.

“Goodness! Just a little bit more!”

“Don’t catch on fire! Don’t catch on fire! Goodness me!”

“Oh my goodness, why did it ignite again? My ten years of hard work are wasted again!”

...

There were hundreds of demon race geniuses in the great hall presently.

But the vast majority of the people were unable to even complete the Goldsilk Divine Wood’s test.

However, there were also some decent ones who completed the Goldsilk Divine Wood’s test.

There were even a few people who completed the Purple Fume Divine Incense Wood’s test!

“Next, Mu Yuanchun!” Kong Lin shouted.

Finally, it was Mu Yuanchun’s turn to take the field.

Mu Yuanchun shot Ye Yuan a proud smile and said, “Punk, open your eyes wider and take a look at this young master’s fire controlling skills!”

Ye Yuan just smiled and did not speak.

Mu Yuanchun felt like his punch landed on cotton and was very depressed.

He went up and directly came to the Willow Cloud Wood area, immediately causing a stir.

“My God, Mu Yuanchun actually wants to challenge Willow Cloud Wood. Is his strength already horrifying to this degree?”

“Heard that last season, Priest Kong Lin challenged the Willow Cloud Wood, it was incredibly astonishing back then!”

“Heh, what the hell do you know? I heard that Elder Stonefeather already internally decided him to be a personal disciple. If he doesn’t even have this bit of strength, how can he make it as one?”

...

To these young geniuses, the difficulty of the Willow Cloud Wood was extremely high.

Even some priest apprentices were unable to complete this challenge.

Those able to challenge successfully were all top geniuses among the demon race’s young alchemists.

After entering the Priest Temple, they would definitely be valued highly.

Just like Kong Lin, after he challenged the Willow Cloud Wood, he was taken in as a personal disciple by an elder, and became an official priest several years later!

One had to know, even if some people passed the test, they were unable to become true priests within several hundred years and were still just priest trainees.

Everyone held their breaths, looking at Mu Yuanchun.

Mu Yuanchun was clearly extremely confident. A faint-blue flame flashed out of his palm area, gentle like water.

That piece of Willow Cloud Wood paper suspended over the flame quietly, not moving a trace.

The light blue flame was akin to flowing water, slowly spreading below the paper, all the way until it extended to every corner of the paper.

When those young geniuses saw this scene, each and every one of their eyeballs popped out.

“What formidable fire control techniques, to actually not have the slightest hint of undulation!”

“I saw before Kong Lin’s fire controlling technique last season. Mu Yuanchun’s strength is absolutely not beneath his!”

“No wonder he could be internally decided as a personal disciple, this strength is really not for show.”

...

At the seats of honor, the three elders all nodded slightly, clearly very satisfied with Mu Yuanchun’s performance.

Even Ye Yuan also secretly nodded his head.

This Mu Yuanchun’s fire controlling technique was indeed praiseworthy.

Very soon, Mu Yuanchun withdrew his palm, the paper floated down onto his palm.

Kong Lin received it and took a look. Nodding his head, he smiled and said, “Temperature is well-distributed, without a hint of damage, pass! Junior Apprentice Brother Mu, we’ll likely become fellow disciples in the future!”

Mu Yuanchun bowed respectfully and said, “Yuanchun pays respect to Senior Apprentice Brother Kong Lin!”

Kong Lin smiled and said, “The two rounds at the back, you have to perform well too, Master is watching from above!”

Mu Yuanchun said respectfully, “Yes, Senior Apprentice Brother!”

Clearly, Mu Yuanchun already regarded himself as an elder’s disciple.

When everyone saw this scene, they could not help being very surprised.

An empty hole invites wind, it was indeed like so!

Chapter 1744: Mortal Grade

“Saw that, kid? Big talk isn’t boasted! If you can complete the Purple Fume Divine Incense Wood, consider it my loss!”

After returning, Mu Yuanchun was rather pleased with himself and looked scornfully at Ye Yuan.

With his strength, passing the test was simply a breeze.

This assessment was merely a formality for him.

Kong Lin already said that Mu Yuanchun was already his junior apprentice brother in front of so many people. This was not the treatment that ordinary people could get.

Hence, Mu Yuanchun was fired up with boundless enthusiasm currently.

Of course, no one felt that it was improper, and instead cast looks of admiration towards him.

Ye Yuan looked at him and said coolly, "Then you'll lose for sure."

The moment Mu Yuanchun heard, he was tickled and said with a sneer, "Really taking yourself to be someone noteworthy! Cocky, continue being cocky! I'll see how you still be arrogant in a while!"

Toward this, Ye Yuan shrugged his shoulders and was disdainful to dispute.

"Next, Ye Yuan!"

Finally, it was Ye Yuan's turn to take the field. Everyone all showed sympathetic looks towards him.

Were there geniuses among alchemists?

Yes!

Mu Yuanchun was a genius!

But this genius similarly needed the accumulation of a long time.

For Mu Yuanchun to be able to have his current strength, it was absolutely not achieved overnight, but also through long-term accumulation.

Hence, what Ye Yuan said about how this kind of understanding would not work on him, everyone rejected it in their hearts.

One had to know, even a genius like Mu Yuanchun, when he was at Ye Yuan's age, he also could not possibly pass the Purple Fume Divine Incense Wood's test.

As for the Willow Cloud Wood, that was even more impossible.

Ye Yuan slowly walked in front of Kong Lin. Kong Lin said indifferently, "Pick one yourself."

The scene earlier, Kong Lin naturally took it into his sights too.

Regarding Ye Yuan's remarks, he was naturally disdainful.

"Can I pick a wood outside of these three types or not?" Ye Yuan did not choose but asked Kong Lin.

Kong Lin frowned slightly and said, "Messing around! The rules of the priest examination are decided by the temple, how can it be easily changed? I think that you're deliberately here to cause trouble, right?"

Seeing this scene, the other examinees all revealed gloating smiles.

They were already very sure that Ye Yuan was here to cause trouble.

Ye Yuan was indifferent and said, "Brother Kong said earlier to display your greatest strength. I feel that these three kinds of wood can't display my strength."

The moment Kong Lin heard, he laughed from extreme anger and said, "Is that so? Then what kind of wood can show your strength?"

Ye Yuan thought about it and said, "Is there any mortal grade paper?"

When these words came out, the audience burst into an uproar.

A wood that was easier to ignite than the Willow Cloud Wood, there were naturally many.

But mortal grade, that was simply an impossible task.

This guy was being funny, right?

What kind of concept was mortal grade?

Even if the most rubbish divine fire revealed an iota of heat, that thing would turn to ashes!

Using rank four divine fire to burn mortal grade paper, did this guy's head really have no problem?

After the shock, mockery came in quick succession.

Kong Lin finally could not resist erupting and said furiously, "Blind and reckless fool, to dare toy with the Priest Temple!"

As he said those words, Kong Lin was about to take action to take Ye Yuan down, but then he saw Ye Yuan smiled faintly. Ye Yuan said, "Whether or not I'm messing with the temple, you need to at least wait for me to complete the test before having a final verdict, right? It's just a matter of a short while. Does Brother Kong not even have this bit of patience?"

Kong Lin smiled coldly when he heard that and said, "Mortal grade paper, even elders can't do it, with just the likes of you, a snotty brat?"

"Heh heh, I said it long ago, this guy is simply here to cause trouble! Senior Apprentice Brother Kong Lin, immediately take him down!" At this time, Mu Yuanchun also spoke up.

Kong Lin was just about to make a move when the Elder Stonefeather sitting in the middle spoke.

He said, "Kong Lin, let him try."

Kong Lin's face changed and he bowed and said, "Yes, Master!"

He could not figure out, this punk who was clearly making trouble. So why did his master give Ye Yuan this chance?

Before long, the servants found a piece of mortal grade blank paper.

Ye Yuan received it, took a look, and said, "Mortal grade tier 9, uh ... forget it, I'll make do with it."

Kong Lin sneered when he saw the situation and said, "Could it be that you still want to use mortal grade tier 1 wood?"

Ye Yuan smiled and said, "If you can find it, it's not impossible too."

Kong Lin was greatly enraged the moment he heard and said, "Arrogant!"

Ye Yuan said coolly, "Alchemists need to have a calm mind. Brother Kong is angered so easily. This won't do!"

"You! You dare to lecture me?" Kong Lin was already about to rampage.

Ye Yuan said coolly, "Dare not, I was just stating a fact. Excuse me, can I start?"

Kong Lin's expression changed several times and he said in a solemn voice, "I want to take a look at how you pass the round! Begin!"

Ye Yuan smiled faintly and tossed the piece of paper upward. His palm moving, a cluster of pale-yellow flames immediately rose up, wrapping the piece of paper up.

When everyone saw this scene, they were immediately dumbfounded with shock.

Did this guy really know how to control fire?

Using such a big fire to go and burn a sheet of mortal grade paper, it would become flying ashes upon contact, right?

Forget about mortal grade, even the Goldsilk Divine Wood could not withstand this kind of burning too!

When they controlled fire, which one wasn't watchful and cautious, fearful of producing a bit more fire.

But Ye Yuan was completely operating without any regard for niceties!

This kind of fire control, using it to directly deal with the enemy was more like it.

Refining pills?

Better forget it!

Refining pills like this would refine medicinal pills into black charcoal.

When Kong Lin saw this scene, he could not help smiling coldly and said, "I knew it! Ignorant fool, prepare to suffer the wrath of the temple!"

Mu Yuanchun even laughed himself into fits and said, "This brat ... This brat is simply here to be a fool, I was successfully amused with him."

Not just them, the other examinees all guffawed with laughter.

At this moment, they were incomparably certain that Ye Yuan was here to make trouble.

Although they did not know what was the goal, his objective of seeking popularity by doing something sensational was achieved.

However, they did not notice that the eyes of those three elders on the high platform emitted rays of brilliant light, full of incredulity.

Because being enveloped in flames, the others could not see the appearance of the paper at this time.

Because no need to think and they also knew that the paper already turned to ashes at this time.

But Ye Yuan was still putting on a pretense there.

Kong Lin shouted coldly, "Alright, stop pretending there. Watch this!"

Kong Lin was just about to make a move to take Ye Yuan down, but then he heard Stonefeather said coldly, "Stop!"

Everyone was stunned. Kong Lin also revealed a doubtful look and said, "Master, this ..."

Stonefeather just said coolly, "Carry on watching!"

With this, they could not laugh anymore.

It was only for them to see Ye Yuan pull his palm back, and the divine fire dissipated into nothing. A piece of paper drifted down.

Everyone's pupils constricted, looking at this scene in disbelief.

"R-Really did it! This mortal grade paper is actually completely unscathed!"

"This is impossible! I'm so far away and could even feel the temperature of the flames! How can such a weak piece of paper be completely fine?"

"Could it be that his fire controlling technique is truly transcendent to this kind of degree? To actually be even more impressive than Mu Yuanchun!"

Unrivaled Medicine God

Chapter 1745: Demonic Attraction Ar

The paper was still floating as Ye Yuan said with a smile, "Brother Kong, please look it over!"

Kong Lin's expression changed, reaching his hand out and catching the piece of paper.

The moment it came into his hand, it was actually extremely hot!

Bang!

The piece of paper immediately combusted, turning into a cloud of ashes!

"This ... Critical temperature! How did you do it?" Kong Lin looked at Ye Yuan with a look of astonishment.

Those present were all professionals, they naturally would not say that Ye Yuan failed because the paper was burned.

The reason why it burned away was that the paper's temperature was heated to the critical point by Ye Yuan.

When Kong Lin received the paper, friction was produced between his palm and paper, making the paper instantly exceed the critical point, that was why it started immolating.

Combustion and not burning depended on just a touch!

This level of fire-controlling means was truly inconceivable.

In the usual assessment, no one dared to play with fire like this, no matter how great his strength!

Because critical temperature was too difficult to grasp. As long as there was the tiniest hint of not controlling well, the paper would be burned.

If Ye Yuan used the Willow Cloud Wood to achieve this, even though it was impressive, it would not be inconceivable either.

But he used a mortal grade paper to achieve this. This was extremely terrifying!

Ye Yuan shrugged his shoulders and said, "This is nothing difficult. I could already do it when I was 300 years old. Uh, if you can find a piece of mortal grade tier 1 paper, I can display my real strength."

Everyone was rendered speechless.

Mortal grade tier 1 could not be found in the Heavenspan World at all.

There were countless trees in the Skydemon Mountain Range but forget about mortal grade tier 1, even mortal grade tier 5 or tier 6 could not be found at all.

Want a mortal grade tier 1 tree, one could only go find it in a small world.

Furthermore, the 300 years old that Ye Yuan said was not this lifetime's 300 years old, but the previous life's 300 years old!

Previous life, when he was still Ji Qingyun, he could already achieve this at 300 years old.

Now that close to a thousand years had passed, Ye Yuan's fire controlling technique was absolutely not what a mere mortal grade tier 1 paper could measure anymore.

But this was already shocking enough!

On the seats of honor, the three elders also exchanged glances, extremely shocked.

"Young man, what's your name?" Stonefeather opened his mouth and asked.

"Ye Yuan!"

Stonefeather nodded and said, "Ye Yuan, your fire controlling technique is indeed impressive! Even the few of us old fellows are likely not your match too."

The moment these words came out, those examinees were all shocked until they stared dumbfounded with gaping mouths.

Someone as powerful as Elder Stonefeather actually took the initiative to admit that he was inferior to such a young man?

Especially Mu Yuanchun, he wished to find a hole on the ground to tunnel into when he heard this.

Wasn't Stonefeather's words slapping his face?

Previously, Ye Yuan said that this kind of understanding would not work on some people.

Now, didn't it affirm such words?

Those elders above, which one wasn't an old monster who lived more than 100 thousand years?

Their accumulations, ordinary people found it hard to imagine.

However, Ye Yuan said that he reached this kind of standard when he was 300 years old, was there something more disgraceful than this?

But Stonefeather's tone changed and he said, "But refining demon divine pills are different from refining the human race's divine pills. You have to pass the two rounds of assessments at the back before it's considered successful."

Ye Yuan clasped his hands and said, "Yes, Elder. Ye Yuan won't let you down."

Stonefeather nodded his head and said, "Carry on then."

Only then did Kong Lin recover from the shock and said, "Next, starting the second round, demonic attraction art! People who were eliminated in the first round don't need to take part anymore."

A hundred demon powerhouses, more than half were already eliminated in the first round.

Present, those who remained were merely 30 to 40 people.

"There are a hundred types of wood chips here, what you have to do is to use the demonic attraction art to glue them together! The more types bound together, the better the results naturally! Those who bind more 25 types and above, pass!" Kong Lin said.

The so-called demonic attraction art was the foundation skill of the demon race's alchemy technique.

The human race's divine soul was powerful. Furthermore, the secret arts were numerous and they could cultivate the divine soul.

But the demon race's talent did not lie in the demonic soul, so their demonic souls were also relatively weak.

Apart from some minority powerful races, the demonic souls of the majority of the races were inferior to humans.

Wanting to be like a human alchemist, using soul force to serve as a lubricant for refining medicinal pills, it was beyond their power.

But the demon race also had an advantage that humans were not equipped with. It was that they were naturally closer to nature.

The demon race's demonic divine essence also had more affinity with spirit medicines.

Hence, they blazed another trail, using demonic divine essence as a substitute for the humans' soul force to refine medicinal pills.

This was the cultivation system of the demon race.

The strength of the demonic attraction art reflected the strength of the demon alchemist to a very large extent.

All in all, humans based soul force as the principal, divine essence as supplementary. The demon race based demonic divine essence as principal, soul force as supplementary.

Under Kong Lin's guidance, the examinees started undergoing the second round.

Binding wood chips, this test method was similarly very novel.

Wood chips were not spirit medicines, there would not be too many law fragments complementing each other.

Wanting to adhere them together as a whole was not an easy matter.

However, this tested the alchemist's demonic attraction art even more too.

Those people taking the test were watchful and cautious, fearful of missing any hint out.

But their strength could at best only bind together a dozen over kinds of wood chips.

Any more and it would not work.

In a corner, Ye Yuan stared at each person's way of handling without moving his eyes, deducing non-stop in his mind.

Ye Yuan was totally clueless about the demonic attraction art, but he knew that the demonic attraction art had common aspects with the soul attracting art.

A burst of faint demonic divine essence flowed in Ye Yuan's palm, he was currently imitating binding those wood chips.

Feeling the demonic divine essence undulations, quite a few people looked over sideways.

When Mu Yuanchun saw this scene, he could not help being stunned.

"This kid ... doesn't know the demonic attraction art at all! Hahaha, like I said, this guy is simply a human alchemist, wanting to sneak into the Priest Temple!" Mu Yuanchun said.

When the rest saw this scene, they immediately perceived something wrong as well.

"No way, right? His fire controlling art is so incredible, but he actually doesn't know the demonic attraction art!"

"Looks like he hasn't refined demon divine pills before at all!"

"This guy wouldn't be thinking of learning and selling on the spot, right? This ... This is also too funny!"

...

The first round, Ye Yuan astonished everyone.

But this scene currently, subverted everyone's view of him.

Perhaps, Ye Yuan was indeed a very formidable human alchemist.

But he did not even know demonic attraction art. So how could he possibly pass the second round's test.

"Elders, this guy is simply clueless about our demon race's alchemy skills. He probably has malicious intent and wants to sneak into our Priest Temple! Elders please summarily execute him on the spot!" Mu Yuanchun clasped his hands and pleaded.

Ye Yuan completely ignored Mu Yuanchun. He was already immersed in it.

Those examinees' strengths were not considered strong, but Ye Yuan continuously learned from others' strong points while overcoming the weak points in his mind, deducing, and perfecting. His strength was currently advancing by leaps and bounds.

Stonefeather's gaze was akin to a torch, staring fixedly at Ye Yuan, and said coolly, "This child isn't an ordinary person. Let him give it a try!"

Chapter 1746: Learning and Doing on the Spo

Mu Yuanchun was so depressed!

This guy was clearly clueless about the demon race's alchemy techniques, so why did the elder still let him carry on?

How could he know that what Stonefeather saw was completely different from what he saw!

The things he saw were Ye Yuan's crudeness and ignorance.

But what Stonefeather saw was Ye Yuan's improvement!

Actually, since after the first round, he had been paying attention to Ye Yuan all along.

When the second round started, from when the first person took the field, Ye Yuan's gaze never left his body before.

From the initial-most completely ignorance to the later slightly rustiness.

This improvement was truly too astonishing.

Stonefeather was an expert in this area, so how amazing was his vision?

Ye Yuan's improvement simply made people sigh with wonder!

One had to know, prior to this, he was still a complete and utter newbie.

Stonefeather very much wanted to see to what extent Ye Yuan could reach when he enter the field.

The examinees went up one by one, but those who could pass the test could be counted on one hand.

Of course, there were also a few with decent strength who bound together 30 over kinds of wood.

And these people's achievements, the inspiration it gave Ye Yuan was naturally greater.

Very soon, it was Mu Yuanchun's turn to take the stage. He shot the very engrossed Ye Yuan a glance, his expression showing disdain.

The moment he made his move, Mu Yuanchun amazed the audience.

It was only for them to see him move like lightning, using an extremely short time to bind together more than a dozen types of wood.

25 types were naturally not his goal.

“So impressive, looking at him, he can at least bind together more than 40 kinds, right?”

“Even though the first round’s limelight was snatched by that punk, Mu Yuanchun’s strength is really very strong!”

“That kid is simply a layman regarding demon divine pills. Scared me until I even thought that I encountered a great alchemist just now!”

...

Mu Yuanchun’s demonic attraction art was clearly very brilliant, more than a notch stronger than the others.

These people’s gazes were all attracted by Mu Yuanchun. No one noticed that the eyes of the Ye Yuan in a corner became brighter and brighter.

“45!”

“46!”

...

“50!”

“51! My God, he finally failed!”

“This number already surpassed even Priest Kong Lin’s!”

The further back, everyone started to help Mu Yuanchun count.

Finally, after Mu Yuanchun fused 51 wood chips, it collapsed.

But the number of 51 types of wood chips still let Mu Yuanchun obtain extremely high praises.

One had to know, Kong Lin was a genius universally recognized in the recent few assessments. But he only completed 47 kinds of wood chips in the last season too.

While Mu Yuanchun was actually four more than him!

Stonefeather secretly nodded his head. Since he internally decided on Mu Yuanchun, his strength naturally left no room for doubt.

If he could not even do this, he also would not be fit to be his personal disciple anymore.

Hearing everyone’s sigh of admiration, the confidence that Mu Yuanchun had just lost returned once more.

Since many people were eliminated in the middle, the next one was Ye Yuan’s turn.

Mu Yuanchun smiled and said, “Our layman is going to take the field. Let’s see how many types of wood chips he can fuse together? Why doesn’t everyone make a guess.”

The moment these words came out, everyone immediately felt like they were injected with stimulants.

“I guess that it’s at most no more than 10 types!”

“10 types? Are your eyes blind? Just the likes of him can fuse 10 types? I guess at most five types!”

“Pooh! He’s totally clueless, alright? I guess not even one!”

...

Hearing everyone’s discussion, Mu Yuanchun had an amused look.

But Ye Yuan said coolly, “Each and every one of you, prepare your faces, I’ll come and slap them one by one in a while!”

Finished talking, Ye Yuan walked up.

Different from the natural smoothness in the past, this time, he appeared rather cautious and wary.

After all, it was his first time using a demonic attraction art.

Ye Yuan’s divine essence slowly flowed out, drawing out the wood chip in the first box.

That wood chip trembled shakily as if it could drop down at any time.

Clearly, Ye Yuan’s demonic attraction art appeared very stiff. One look and it was new until he could not be any more newer of a novice.

When everyone saw this scene, they could not help bursting into laughter.

“Haha, are you hitting our faces like this? Come on, my face is extended out, slap it!”

“Really ridiculous! Do you really think that learning and doing on the spot, you can learn our demon race’s demonic attraction art?”

“You’re also looking down on our demon race’s alchemy technique too much! If you can learn with one glance, then wouldn’t our thousands of years of bitter cultivation become a joke?”

...

Ye Yuan’s appearance immediately drew a burst of ridicule.

But toward this, he already could not hear it long ago.

His entire mind was currently placed on controlling the demonic divine essence.

Imitating and deducing was one thing, truly handling it was another thing.

The moment he started, he was still a little too unfamiliar.

However, Ye Yuan’s soul attracting art had long already reached its peak.

Ever since awakening the dragon soul, his twin divine souls were several times stronger than ordinary martial artists. His soul force was already incomparably boundless.

Hence, ever since after ascending to Divine Dao, he no longer worried about soul force anymore.

And this was also his guarantee for being able to refine high-level medicinal pills.

Demonic attraction art, even though it was Ye Yuan's first time coming into contact with it, with the soul attracting art as the strategically advantageous position, he was absolutely not slow in getting started.

Sure enough, under Ye Yuan's efforts, he finally drew out the wood chip in the second box and fused them together.

The first fusion, the difficulty was the lowest.

But as the number increased, the difficulty of merging would soar exponentially.

"Heh, the first one is so strenuous, I think he can at most fuse three." Mu Yuanchun said with a cold laugh.

"Clearly a novice, yet still want to posture. Got struck by lightning now, right?"

"Just this bit of strength, actually still want to smack our faces. I really don't know where his confidence came from."

The moment Mu Yuanchun said this, everyone immediately concurred.

Completing the first fusion, Ye Yuan finally found some feel.

His control of demonic divine essence also finally became a little smoother.

Hence, he started fusing the third type of wood chip.

This time, it seemed to be a little easier than last time.

Following that, fourth type, fifth type, sixth type ...

Everyone's faces started to change.

What was this?

Logically speaking, the greater the number of fused wood chips, the greater the difficulty!

To a novice, this kind of difficulty was magnified infinitely.

But why did Ye Yuan give a feeling of understanding better and becoming more mellow?

This was too illogical!

In a twinkling, Ye Yuan fused more than a dozen types of wood chips. Furthermore, his speed seemed to be getting faster and faster.

Above, the three elders' eyes gradually became brilliant.

The three of them exchanged glances, wishing to lift their heads to the sky and burst into laughter.

Such a terrifying genius was simply hard to encounter in a lifetime.

This kind of comprehension ability was simply terrifying to the extreme.

Mu Yuanchun's expression became extremely ugly and he muttered, "Impossible! Impossible! He's clearly a novice who doesn't know the demonic attraction art at all, so how can he possibly fuse so many

wood chips? Could it be that he did it on purpose just now? Actually, he knows the demonic attraction art? This brat is full of schemes!”

Unrivalled Medicine God

Chapter 1747: Acted Too Realistically

“52! Surpassed! Surpassed!”

“53!”

...

At the back, each time Ye Yuan fused a type of wood, everyone counted along in unison.

Very soon, Ye Yuan surpassed Mu Yuanchun’s 51 types.

But it was not over!

“98!”

“99!”

“100!”

“Really amazing! This guy was pretending to be a pig to eat the tiger, right?”

“My face was slapped so freaking swollen!”

“This guy definitely did it on purpose just now!”

“You look at him, still looking dissatisfied about it. This ... This is too infuriating!”

...

Back then, when Ye Yuan fused the last type of wood, the field immediately burst into an uproar.

No one could have thought that Ye Yuan actually fused all of the 100 types of wood!

Extremely few people were able to complete this in the priest examination.

Those able to complete it were at least geniuses that appeared once every 100 thousand years!

If say Ye Yuan did not do it on purpose before, they would not believe even if beaten to death.

Ye Yuan was indeed not satisfied yet. He got the hang of it more and more toward the back and already could not stop.

100 types of wood were not his limit yet.

Kong Lin looked at Ye Yuan and said with a cold snort, “Is pretending to be a pig to eat a tiger very interesting?”

Mu Yuanchun also spoke up, “Strength is clearly uncommon, yet want to feign an appearance of not knowing anything, toying with everyone’s feelings! Malicious motives!”

The moment these two people spoke up, the others also concurred with it, clearly very unhappy with Ye Yuan.

Ye Yuan said with a helpless look, "Regardless whether you all believe or not, it's really my first time using the demonic attraction art!"

Kong Lin sneered and said, "First time? Do you still take us to be fools? Fusing 100 types of wood, in the history of our Tyrant Origin Imperial City's Priest Temple, there's merely only two able to accomplish it. You're telling me that it's your first time using the demonic attraction art?"

Mu Yuanchun gave a cold snort and said to the three elders, "Three elders, this person's strength is clearly uncommon, yet pretend that he doesn't know anything! In my view, he's intentionally here to humiliate the temple!"

The moment Ye Yuan heard, he was tickled and said with a smile, "Hey, you're retarded, right? I, a Fourth Firmament Divine Lord, specially came to Tyrant Origin Imperial City from afar to deliver myself to death? If you're retarded, don't simply think that others are as retarded as you, alright?"

Mu Yuanchun's face fell and he said with a cold snort, "Who knows what plan you have in mind. Either way, you don't have good intentions!"

At this time, Stonefeather said coolly, "Alright, since you've already taken part in the priest examination, then follow the rules. Ye Yuan already passed the second round, so carry out the third round."

The third round was genuinely refining demon divine pills.

Stonefeather speaking up, even though Kong Lin and the rest were unhappy, they did not dare have the slightest bit of defiance.

Kong Lin's expression was very ugly as he said, "The third round, pill refinement. The demon divine pill tested this time is the Darkcloud Profound Spring Pill, middle-grade as pass!"

Finished announcing, the remaining examinees were all preparing to refine the pill. Ye Yuan suddenly cupped his fists at Stonefeather and said, "Elder, this ... can I take a look at the pill formula?"

The demon race's pill formulas, Ye Yuan had heard before some names, but really did not have pill formulas.

Demon divine pills were an independent pill refining system. Immortal Grove could not refine at all, he naturally would not go and deliberately go collect pill formulas too.

The moment Kong Lin heard, he smiled coldly and said, "What the Priest Temple tests are all pill formulas made open to the public. You could use the demonic attraction art to such an extent. So how could you not even know the Darkcloud Profound Spring Pill's pill formula?"

The words that Ye Yuan said right now, they did not believe it at all.

Clearly ridiculously impressive, and yet want to pretend to not know anything, was it very fun?

Feigning ignorance previously, forget it. But now, everyone already knew and you were still pretending!

Ye Yuan said helplessly, "But I really don't know!"

“Let him take a look. However, the assessment time is only six hours. You have to grasp it well.”
Stonefeather said coolly.

The moment Ye Yuan heard, he was overjoyed and said with clasped hands, “Many thanks, Elder.”

Pretending!

Look at you pretending!

What’s with Elder today?

This punk is clearly feigning ignorance, yet, Elder still want to play along with him!

Helplessly, Kong Lin could only hand the pill formula over to Ye Yuan.

The Darkcloud Profound Spring Pill was an initial-stage rank four demon divine pill. To talk about the difficulty, it was roughly level two.

One should not judge at how level two difficulty was not high. Using it as an entry-level examination, the difficulty was pretty high.

In the human race, as long as one stepped into Divine Lord Realm and could refine the simplest rank four divine pill, they would be considered Four-star Alchemy Gods.

But in the Priest Temple, this threshold clearly would not cut it.

To a novice, wanting to refine a level two difficulty rank four demon divine pill as soon as they came up, it was virtually a task that was impossible to complete.

Forget about a novice, even for these demons participating in the assessment, it was absolutely not an easy thing too.

Moreover, the lowest requirement to pass the test was even middle-grade!

Just this requirement barred the vast majority of people outside the front door of the Priest Temple.

Ye Yuan took the pill formula, akin to obtaining a priceless treasure, and started studying it.

He deduced the pill formula as he observed the others refining pills, an appearance as if absorbed in thought.

Level two difficulty rank four demon divine pill, the difficulty was not too high to him. Deducing it was also not considered too troublesome.

But the demon divine pill was indeed a brand new domain to Ye Yuan.

When Kong Lin saw Ye Yuan’s intoxicated appearance, he had a strange expression on his face.

He seriously could not resist anymore and grumbled to Stonefeather, “Master, this kid can act too well. Why do you keep on helping him?”

Stonefeather gave him a glance and said with a smile, “Act? Hur hur, then his acting is too realistic!”

Kong Lin's expression changed and he said, "Master's meaning is that it's really his first time coming into contact with demon divine pills? How is this possible? First time using the demonic attraction art and he fused 100 types of wood, is there really someone capable of accomplishing this kind of thing?"

Stonefeather smiled and said, "Before today, this old man didn't believe either. But now, this old man saw it with my own eyes. I have no choice but to believe it! This child's Alchemy Dao talent is truly terrifying!"

Kong Lin's pupils constricted slightly, his eyes revealing immense shock.

He was seriously unable to imagine what kind of talent could fuse 100 types of wood the first time using the demonic attraction art.

This was simply inconceivable.

In a twinkle, more than four hours passed.

Mu Yuanchun's medicinal pills were finally refined successfully!

Suddenly, he felt a scorching gaze. Lifting his head and looking over, he discovered that Ye Yuan was currently staring straight at him.

Looking again, Ye Yuan actually had not started refining the pill yet!

Mu Yuanchun was first stunned, then immediately smiled coldly and said, "You watched me refine the pill until now?"

Ye Yuan smiled and said with a nod, "Your strength is decent, but the process of refining pills missed out too much. Basic skills are also not too solid. What a pity."

He watched all the way until now. This review was also from the bottom of his heart and did not have the intention of mocking.

The moment Mu Yuanchun heard, his expression could not help turning sullen and he said with a cold smile, "If you have the time to review me, better to hurry up and start refining the pill! Heh, less than two hours is remaining, I want to see how you pass the test!"

Ye Yuan waved his hand dismissively and said with a smile, "One hour is enough. No rush, no rush."

[Unrivaled Medicine God](#)

Chapter 1748: Flustered Refinement

"One hour to refine a rank four demon divine pill. You're also not afraid of blowing a hole in the sky with your bragging!" Mu Yuanchun said with a cold smile.

Ye Yuan smiled and said, "Whether or not it's boasting, you'll know in a while. Uh, but I still have to thank you, your pill refinement earlier gave me quite a bit of reference."

Mu Yuanchun's strength stood out among this group of people.

His pill refinement was naturally worth learning.

Ye Yuan deduced the pill formula and compared his pill refinement with the other people's pill refinement, and indeed benefited a great deal.

When Mu Yuanchun heard, his face turned black and he said in a solemn voice, "Don't give me that! You aren't going to say again that it's your first time refining a demon divine pill, right?"

Ye Yuan nodded and said, "Really smart, what I wanted to say was all said by you."

Mu Yuanchun said with a cold smile, "Do you think that I'd believe it?"

Ye Yuan waved his hand and said, "Believing or not is up to you, what has it got to do with me? I'm going to start refining the pill."

The moment he started refining, Ye Yuan's entire person immediately entered a fully engrossed state.

The preparation work at the beginning, Ye Yuan completed it naturally and smoothly, with the air of a master.

Even the eyes of those three people above revealed looks of astonishment.

When experts make their move, the genuine and the fake would become clear at a glance.

Ye Yuan's handling, even they, these Five-star priests, also prostrated in admiration.

When Mu Yuanchun saw this scene, his expression was incomparably ugly.

He had no choice but to admit that Ye Yuan's talent was too strong!

Whatever accumulation of time, this sort of words, was simply like farting when placed on Ye Yuan.

"Still say whatever first time! One look and it's a veteran who's well-seasoned. Really take us to be three-year-old kids?" Mu Yuanchun said with a cold snort.

"It's indeed his first time refining demon divine pills!"

Kong Lin arrived by Mu Yuanchun's side at goodness knows when, looking at Ye Yuan with a serious look as he said those words.

Mu Yuanchun's expression changed and said, "Senior Apprentice Brother Kong, this ... How is this possible?"

Kong Lin said, "It's what Master said, so definitely won't be wrong! He must be an extremely formidable alchemist in the human race, but he also has a demon race bloodline. So he got started extremely quickly. It's just that his talent ... is really too terrifying!"

Mu Yuanchun's gaze revealed a look of astonishment, looking at Ye Yuan with immense shock.

At this time, Ye Yuan already started refining the pill. It was just that his current performance was akin to two different people from just now.

Only after getting started did Ye Yuan truly feel the difference between the two systems. It was really not that easy to cross.

Even though his demonic attraction art improved extremely fast, truly applying it to pill refinement was another matter altogether.

It was inevitable that he was unfamiliar.

Refining divine pills, the consumption of soul force was tremendous.

But refining demon divine pills had extremely high requirements on physical strength.

If not for Ye Yuan having long reached middle-stage fourth transformation, he would really have bitten off more than he could chew.

Ye Yuan discovered that using the demonic attraction art to fuse medicinal pills, the technique was a hundred times more complicated than the soul attracting art.

Each segment needed to expend tremendous physical strength.

Compared to really refining pills, fusing wood chips earlier was simply a child's play.

However, while Ye Yuan's hands and feet were thrown into confusion, it was completely not the case in other people's eyes.

Regardless of whether it was Kong Lin or Mu Yuanchun, they were totally dumbstruck with amazement.

"Senior Apprentice Brother, I'm still unable to believe that it's actually this guy's first time refining a demon divine pill!" Mu Yuanchun gritted his teeth and said.

Kong Lin smiled bitterly and said, "How can I believe it too? But you look at his refining method, it's clearly incomparably unfamiliar. But even so, it still gives you a feeling of pleasing both the eyes and the heart. This kind of feeling is seriously too contradictory."

Mu Yuanchun felt that his confidence suffered a tremendous blow. If a person's first time coming into contact with demon divine pills could do it to this extent, then wouldn't his many years of hard work become a joke?

Of course, he would not think that for Ye Yuan to be able to have his present accomplishments, apart from talent, what he put in was a hundred times, even a thousand times of his!

Mu Yuanchun said in a solemn voice, "Senior Apprentice Brother Kong, then in your view, what grade of Darkcloud Profound Spring Pill can he refine?"

Kong Lin shook his head and said, "That's hard to say! His technique is indeed very unfamiliar, one look and it's a novice's skill. However, he also rarely makes mistakes. I reckon it makes sense that there shouldn't be a problem."

Mu Yuanchun heaved a sigh in relief and muttered under his breath, "Just middle-grade huh ... then that's still alright."

The moment one hour was up, Ye Yuan indeed finished packing up, leaving everyone watching dumbfounded with their mouths agape.

Ye Yuan wiped the sweat on his forehead and let out a sigh of relief as he said, "Haven't been so flustered in so long!"

Flustered ...

When the surrounding demons heard Ye Yuan's words, they wished to kick his face.

That is called flustered?

You take a look at the others first, alright?

After the second round, there were merely less than 20 people remaining.

And these people were currently all covered in sweat, at a loss on what to do, fearful of making the slightest mistake.

This is called being flustered, okay?!

These people, each and every one of them had refined pills for close to six hours.

You freaking finished in an hour and was still complaining about being tired here. Was there such a need?

After Ye Yuan finished refining, six hours were up very quickly.

Quite a number of people had not finished refining yet. Each and every one of them was extremely dispirited.

Finally managed to persist till the third round, but could not finish on time.

Actually, with their strength, even if they completed it, it was likely that they would fail to reach the requirement of middle-grade too.

Kong Lin started examining the pills. The vast majority of those successfully refined ones were all low-grade medicinal pills.

But apart from Mu Yuanchun, there was actually still one person who refined a middle-grade Darkcloud Profound Spring Pill, passing the examination.

"Hahaha! My thousand over years was finally not in vain! I finally got my break!"

Knowing that he passed the test, that demon youth started laughing excitedly, almost mad.

Clearly, these thousand over years, he had been under too much pressure.

When the others saw him, they were envious and also helpless.

Kong Lin frowned and said, "Shouting and wrangling in front of elders, where lies the sense of propriety?"

That demon youth could not help choking when he heard that and immediately became sombre.

Even though he passed the test, he belonged to the lowest standing priest trainees in the Priest Temple.

While Kong Lin was a true priest!

Reaching Mu Yuanchun, passing the test was naturally something within expectations.

“High-grade, not bad! Mu Yuanchun passes the test!” Kong Lin said with a slight smile.

Mu Yuanchun smiled and said, “Many thanks, Senior Apprentice Brother Kong!”

His view was the same as Kong Lin’s. Even though Ye Yuan was prodigious, in this last round, it was impossible to beat him.

That kind of unfamiliar technique, being able to refine middle-grade was already very heaven-defying.

High-grade was virtually without possibility!

The last one, it was Ye Yuan’s turn.

After opening the furnace, Kong Lin could not help choking as he cried out, “S-Superior-grade! This is impossible!”

Kong Lin was instantly flustered. Even though there had already been too many instances of shock previously, it was far from as intense as this time.

Ye Yuan’s refining technique looked really very clumsy.

But such a clumsy technique, he actually refined a superior-grade demon divine pill!

One had to know, he already became a true priest now. Refining the Darkcloud Profound Spring Pill, he might not be able to reach superior-grade stably as well.

Ye Yuan’s first refinement and he could refine a superior-grade Darkcloud Profound Spring Pill?

[Unrivaled Medicine God](#)

Chapter 1749: Priest Apprentice

“It’s actually superior-grade, Lord Priest’s strength is also merely thus, right?”

“Lord Kong Lin said that this is his first time refining, I ... I still don’t believe it.”

“Yeah, too fake! We’ve cultivated for a thousand years and can’t even refine a low-grade. He can refine superior-grade on his first try, don’t beat people down like this.”

...

Superior-grade was simply a disgrace to the current Ye Yuan.

Ever since entering the Dao Realm, there was virtually nothing below divine-grade when he refined medicinal pills.

Superior-grade medicinal pills, even if Ye Yuan closed his eyes, he could not refine it either.

But this was totally not the case in other people’s eyes.

Everyone already knew that it was really Ye Yuan’s first time refining a demon divine pill, but he actually refined a superior-grade!

This talent truly made people despair.

The muscles on Mu Yuanchun's face were twitching. He thought that he could overpower Ye Yuan in pill refinement, did not expect that he was still beaten.

High-grade versus superior-grade, utter defeat!

To alchemists, high-grade was easy to refine, superior-grade was hard to find.

To ordinary alchemists, wanting to refine superior-grade and above medicinal pills would depend on luck.

But it was just Ye Yuan's first time!

"Heh, looks like I passed the test," Ye Yuan said with a look of relief.

Passing the test was naturally not worth him being happy. But he knew that he had already successfully attracted the attention of these elders.

Stonefeather nodded and said, "Very soon, the examination this time, Ye Yuan, Mu Yuanchun, and Gu Hong, three people passed, becoming my Tyrant Origin Imperial City's Priest Temple's priest apprentices. The others still have to work harder, my Priest Temple's front door is always open for you all."

Even though the others were helpless, they could only accept reality.

This Priest Temple's examination was really not that easy to pass.

After everyone dispersed, Stonefeather said to Kong Lin, "Kong Lin, you bring Yuanchun and Gu Hong to go settle down. Ye Yuan, stay behind first. After you settle them down, come over again."

Kong Lin was surprised in his heart but still answered, "Yes!"

Mu Yuanchun's expression changed slightly, incomparably vexed in his heart.

Originally, this glory should have belonged to him.

Now, the limelight was all snatched by Ye Yuan.

After the three people left, Stonefeather look at Ye Yuan and said with a solemn expression, "Ye Yuan, this seat wants to take a look at your standard when refining divine pills!"

Ye Yuan smiled and said, "Yes, Elder!"

Since he wanted to show his strength, Ye Yuan did not have the intention of hiding.

At once, Ye Yuan refined a divine pill, the difficulty was similar to that of the Darkcloud Profound Spring Pill.

When he finished refining, he discovered that Stonefeather three people used extremely shocked gazes to look at him, as if they were looking at a freak.

Ye Yuan's Alchemy Dao strength had long become a household name in the lands of Southridge.

But in this distant Demon Divine Region, no one had witnessed it before.

So the moment he took action, it rendered the three great Five-star priests dumbfounded with amazement.

“No wonder! No wonder you could get started so quickly! Turns out that your Alchemy Dao strength has already reached such a level!” Stonefeather exclaimed.

“At a young age, Alchemy Dao actually already reached the realm of grandmaster, truly inconceivable!” Another elder marveled at this refinement.

The three of them naturally saw through long ago that Ye Yuan’s strength was extraordinary, but they did not expect that Ye Yuan’s strength was actually so dreadful.

Even if the three of them were Five-star priests, there was also completely no way of comparing them with Ye Yuan!

Ye Yuan smiled and said, “Three elders are too kind, Ye Yuan is utterly clueless about demon divine pills, but yearns for it. For this, that’s why I came to the Demon Divine Region from afar. It’s in order to learn the demon divine pills’ refining method from seniors!”

Stonefeather nodded his head and said, “Alright, you stay behind first and learn together with the other priest apprentices.”

Ye Yuan said, “Yes, Elder!”

After Ye Yuan left, the three people’s expressions became solemn.

“Elder Stonefeather, what do you think?” The one talking was called Ku Mu.

The other elder, Ni Kun, said, “Elder Stonefeather, you’re also too weak and irresolute like this. Even though this boy possesses demon race bloodline, he stayed in the human territories for a long time and likely harbors evil designs. Wouldn’t directly killing him deal with it?”

Stonefeather mused for a moment and said, “Killing can naturally deal with it once and for all. But what benefit is there for us? Compared to the humans, the demon race’s alchemic talents are far too few! With this child’s talent, if he can be used by us, he’ll definitely be a top powerhouse of the demon race in the future! What’s important or not, don’t you all have a score in your hearts?”

The moment these words came out, the other two elders fell into silence.

Compared to the human race, the demon race had indeed fallen far behind in alchemy.

This was decided by talent, the demon race’s alchemists also had no way around this.

The human race was indeed more than several times stronger than the demon race in terms of this kind of meticulous handling.

And this also determined the quality of the medicinal pills.

Now, a Ye Yuan whose talent was strong until it made people’s hair stand on end suddenly appearing, how could Stonefeather not be moved?

“But how can you ensure that he’ll be used by us? Don’t you forget, it’s his first time refining demon divine pills, which is also to say that he has always been living in the human territories!” Ni Kun suddenly said.

Stonefeather nodded and said, “In my view, he definitely didn’t come to the Demon Divine Region for whatever seeking knowledge. At least, it’s not just in order to pursue studies, he definitely has other goals! However, we’d better report this matter to the head priest and let him decide.”

The other two naturally did not have objections and nodded in response.

...

Ye Yuan naturally did not count on Stonefeather believing his words. Whatever admiring demon divine pills this sort of words, bluffing children was more like it.

Before he came, he already considered all of the dangers.

The situation of the demon race’s priests, Ye Yuan was also very clear of it.

Hence, he changed his former style, displaying his talent without the slightest hesitation, in order to make the temple value him highly.

Clearly, his goal was achieved.

Kong Lin brought Ye Yuan to a large building in the temple’s backyard and said, “This place is the priest apprentices’ residence. You just entered the temple and belong to a low-level priest apprentice. This is your priest apprentice attire. I believe that you’re also aware, the Priest Temple doesn’t raise trash. So all kinds of resources that you require need to be obtained using contribution points.”

Ye Yuan received the priest apprentice attire and said with a smile, “Many thanks, Senior Apprentice Brother Kong!”

Kong Lin nodded slightly, turned around, and left.

He was actually very puzzled in his heart. With the talent that Ye Yuan displayed, he even thought that the three elders would take him in as a personal disciple.

But looking at it now, they did not.

Stonefeather even had him bring Ye Yuan over and did not have other instructions.

Which was also to say that Master wanted him to run his own course?

Stonefeather’s thoughts, he could not figure it out. So he brought Ye Yuan over according to the normal procedure.

“Heh, so what if talent is great? I want to see how many days you can stay here,” Kong Lin said with a cold smile.

He was the Priest Temple’s youngest priest but had his face smacked everywhere today. How could he not have any grievance in his heart?

Since the elders did not take Ye Yuan in as a personal disciple, they were likely guarded against him.

Then, letting him suffer some hardship, or even letting him get lost himself did not have anything wrong with it.

There were many old foxes among priest apprentices. Ye Yuan definitely could not get any benefits here.

After all, no matter how high Ye Yuan's talent was, he was also just a Fourth Firmament Divine Lord.

Unrivaled Medicine God

Chapter 1750: Sky No. 6 Room

"Eh, a newcomer is here. My God! Arranging him to stay in the Sky Character No. 6 Room, how big a grudge is there against him?!"

"The last time a kid entered the Sky Character No. 6 Room, his entire person was burned to black charcoal the next day, crying that he wanted to go home. It tickled us badly."

"Heh heh, there's a good show to watch again. Come, let's go take a look."

...

Walking into the room, three gazes shot over toward Ye Yuan.

Ye Yuan looked at them and said with a slight smile, "How do you do? I'm new here. I'm called Ye Yuan."

No one answered him. Their eyes all were very unfriendly.

Ye Yuan naturally did not mind either and walked to a vacant spot on his own.

At this time, a burly man sitting on the bed spoke up.

"Who permitted you to sleep there?"

Ye Yuan smiled when he heard and said, "Not sleeping here, where do I sleep?"

The burly man nudged his mouth, pointing outside the door, and said, "At the corridor!"

Ye Yuan understood in his heart, these few guys were clearly taking him down a notch.

But how could he, Ye Yuan, be so easy to bully?

He nodded his head and said, "There? Indeed pretty good!"

When the burly man saw that Ye Yuan was so 'sensible', he grinned and said, "Since you know that it's pretty good, why haven't you scrambled over yet? This dormitory, Senior Apprentice Brother Hu Feng has the final say. Only when he allows you to come in can you come in."

Ye Yuan's gaze turned to the lazy young man lying on the bed.

Judging from his outfit, he should be a high-level priest apprentice of the temple.

The Priest Temple recruited priest apprentices once every ten years. Even though the people who passed each time were very few, over the years, there were still quite a few priest trainees.

According to the Priest Temple's rules, only those who passed the priest test within a thousand years could stay in the temple.

As for those who kept failing the Priest Temple, they would be assigned to posts in various major capital cities or other places.

All in all, they could not stay in the temple anymore.

This Hu Feng was likely a veteran here.

Hearing the burly man's words, Ye Yuan said coolly, "So nice, Senior Brother better go and stay there. This little brother is new here and had best be inconvenienced a bit, it's better to stay inside."

When Hu Feng heard Ye Yuan's words, a hint of a mocking smile flashed across the corners of his mouth.

At this time, quite a few people already gathered around outside. Seeing this scene, each and every one of them was extremely excited.

"Ha, this kid is indeed a hothead. Tie Zhao's hot-temper is about to explode right away, right?"

"Reckon that this kid will be burned to black charcoal straight away too! Tie Zhao's fire controlling technique, apart from Hu Feng, no one can suppress him!"

That burly man called Tie Zhao froze when he heard that and said in a great rage, "A junior priest apprentice who just entered dared to mess with me? Heh, not showing you some colors, you won't know how deep the temple's waters are!"

Done talking, the burly man's palm urged. A cluster of dark blue flames turned into a fire snake, shooting over towards Ye Yuan.

Ye Yuan sighed slightly in his heart. This fellow really did not know the immensity of heaven and earth, to actually play fire in front of his ancestor who was an expert on fire.

Wasn't this looking for abuse?

It was only to see Ye Yuan casually grab. That fire snake was directly caught in his palm.

Ye Yuan flipped his palm, that fire snake jumped with incomparable joy.

It was as if this divine fire was his own.

Hu Feng's originally slightly narrowed eyes suddenly opened, his eyes seemingly looking shock.

Tie Zhao's fire controlling technique, he was very clear. Ordinary people were not his match at all.

Now, it was actually easily resolved by this kid.

Tie Zhao himself opened his eyes wide, disbelief written all over his face.

Ye Yuan casually grabbed and he lost control of the divine fire!

"Merely thus!" Ye Yuan said coolly.

"Boss, this punk isn't simple!" Tie Zhao said solemnly.

Hu Feng snorted coldly and said, "Entering the Sky Character No. 6 Room, even a dragon has to coil for me! Attack!"

With a word of command, three fire dragons split into three directions, flying towards Ye Yuan in unison. The temperature in the room suddenly rose.

Especially Hu Feng, his fire controlling technique was truly impressive. The fire dragon was clearly much stronger than the other two.

Ye Yuan's face changed, both hands rapidly forming seals, and actually barely blocked the three fire dragons one-on-three.

Seeing Ye Yuan's strained appearance, Hu Feng smiled coldly and said, "I thought that you had three heads and six arms, aren't you still submitting obediently? Punk, I changed my mind, tonight, you're sleeping in the latrine!"

Tie Zhao laughed loudly and said, "Brat, to dare provoke Boss Hu, you're really asking for a beating! But to be able to force Boss Hu to personally take action, you can be sufficiently proud."

Ye Yuan suddenly beamed and changed to a relaxed appearance as he said, "I gave way to you guys, so don't take it seriously. This latrine, you guys had better go sleep yourself there."

Finished talking, Ye Yuan's fingers moved rapidly. The three fire dragons actually turned the spearhead and flew toward their owners!

Hu Feng three people were currently being pleased with themselves. Seeing this scene, their faces could not help changing drastically.

Want to run, but it was already too late.

Bang!

Three figures became three black charcoals.

The three people were pitch-black from head to toe, leaving only a pair of eyes still blinking.

The residual head had yet to dissipate. Smoke kept curling on top of the three people's heads, like whole roast ducks.

"How is this possible? Senior Apprentice Brother Hu Feng actually lost in a fire battle!"

"More than just lost, their own divine fires were actually reverse-controlled by people!"

"Who on earth is this brat, one-versus-three and he actually completely won the other party!"

...

A wave of exclamations rose outside the house, being dumbstruck with astonishment by this scene before their eyes.

Hu Feng's fire controlling technique was ranked at the top among all of the priest apprentices.

Today, he actually lost to a kid who just entered!

"Pfft!"

Hu Feng spat out a mouthful of smoke and bellowed, "Attack for me, shred this punk!"

Ye Yuan did not deal a heavy blow. He just put the three into a sorry state, burning all of their hair from head to toe.

At this time, Hu Feng was already unbelievably furious.

With an order, the three people pounced over as ferocious as tigers and wolves.

Ye Yuan gave a cold laugh and said coolly, "Can't fight with fire and want to use force? A pity, you guys miscalculated!"

Bang!

Bang!

Bang!

It was only to hear three loud noises. Three figures shot back in reverse, colliding until the entire house was in a mess.

With this, everyone was stupefied.

These three people, Hu Feng was late-stage rank four, while the other two were both peak middle-stage rank four.

Such a line-up actually could not even receive a move from Ye Yuan!

Ye Yuan looked at the three people indifferently and said, "The three of you know what to do?"

"G-Got it! We ... We'll sleep in the latrine!" Hu Feng wailed.

His face was pitch-black, unable to see his expression.

But no need to see and one would also know that his current expression must be very ugly.

"Know and you're still not moving? Do you want me to send you over?" Ye Yuan said coolly.

"Yes, yes, yes!"

The three people said in unison and scrambled out of the door, and really ran over in the direction of the latrine.

Seeing these three people's wretched back views, everyone was stupefied.

"Goodness me, I guessed the beginning but didn't guess the ending."

"Who could have thought that the overbearing Hu Feng would actually have this day?"

"This newcomer is so formidable! Regardless of whether alchemy or martial arts, it's completely crushing!"
