

Medicine God 191

Chapter 191: White Light Evolves!

"Father, the medicinal pill isn't the most stable right now. Do your best to use soul strength to stabilize the structure of the medicinal pill!"

"Almost ready to condense the pill. Father, quickly reduce the flames. When condensing the Bone Growing Pill, one mustn't temper it with a large flame."

.....

This was already the third set of ingredients. Ye Hang's prior two refinements ended in failure.

Ye Yuan had been observing the process of the refinement by the side this whole time and guided from the side. But Ye Hang at the end still failed.

Although Ye Hang's refinement was full of flaws in Ye Yuan's eyes, he was currently lacking in strength even though he had the will, so he could only rely on Ye Hang.

Luckily, Ye Hang's alchemy standards were not bad. Having been through two failed attempts and with Ye Yuan's guidance by the side, Ye Hang's improvement was still very significant.

This third refinement was clearly much smoother. Some of the rocky areas previously were much mellower now.

Of course, this was due to Ye Yuan's detailed guidance from the side. Otherwise, even if one gave Ye Hang 10 sets or even 20 sets of ingredients, he would probably ruin them all.

After all, this was his first time refining demonic beast medicinal pills. And the essential points to take note of when refining demonic beast medicinal pills were entirely different from human ones.

With Ye Yuan's vision to guide Ye Hang, many aspects were targeted heavily, giving Ye Hang a feeling of being enlightened all at once.

Hence, he only refined twice and already knew the areas he made mistakes in like the back of his hands.

"Bone Growing Pill, condense!"

Following Ye Hang's low cry, the Bone Growing Pill was finally refined by him.

Ye Hang took out the Bone Growing Pill from the medicinal cauldron, but let out a sigh. "Pity, it's a low-grade."

"No matter. Father is already very impressive! We still have two sets of ingredients left. We should be able to refine middle-grade or even high-grade pills!"

Ye Hang nodded. "En, I'll try again."

With the fourth set of medicinal embryo, Ye Hang refined a middle-grade pill. All the way until the final portion of medicinal embryo, Ye Hang really refined out a high-grade Bone Growing Pill.

Ye Yuan saw the pill form, and his eyes involuntarily lit up.

Father's alchemic talent was truly extraordinarily high. Such comprehension ability was not something the average Alchemy Grandmasters could compare to.

Even though he was guiding by the side, it still greatly exceeded Ye Yuan's expectations for his father to refine out a high-grade Bone Growing Pill by just using five sets of medicinal embryo.

His original estimation was that his father could only refine middle-grade, maybe even low-grade. He did not imagine that Ye Hang surpassed that and completed the task.

Before this, Ye Yuan had never seen Ye Hang refine pills before and did not have a direct understanding of Ye Hang's alchemy skills. He only knew now that Ye Hang's skill was merely limited by soul strength. That was why he kept getting suppressed by Wan Donghai.

If he matched up against Wan Donghai again now, Wan Donghai would absolutely not be Ye Hang's match anymore.

Having refined a high-grade Bone Growing Pill, Ye Yuan's tightly wound nerves also loosened up.

Ultimately, Tier 3 herbs were not white cabbages. They could not be squandered limitlessly like Tier 1 and Tier 2 herbs.

Ye Yuan brought the Bone Growing Pill over for Yuan Fei to consume.

"Many thanks, Young Master!" Yuan Fei said weakly.

These few days, he had been suffering the torment of injuries. But he did not grumble to Ye Yuan at all, because he knew that Ye Yuan was even more severely wounded than him!

If not for the fact that Ye Yuan prepared healing medicinal pills beforehand, he would most likely already be dead now.

Ye Yuan beamed. "Why are you being courteous to me for? This time, if not for you, I would probably have never come out alive. It's just that my current strength is insufficient, which made you suffer hardships."

"This bit of injuries is nothing. Rather, it made me reminisce those memorable days of the past. These few years, I have always been living comfortably in the Crimson Summit Ridge. Most likely, this was also the reason why I kept being unable to break through, right? However, having witnessed Young Master's alchemy skills, I'm very glad to be able to follow Young Master now!" Yuan Fei said emotionally.

An Alchemy Master actually guided an Alchemy Grandmaster to refine medicinal pills. This was seriously overly subverting.

Although Yuan Fei did not know alchemy, he could see that Ye Yuan's alchemy standards were much higher than his father's; on completely different levels!

As long as Ye Yuan broke through to the Crystal Formation Realm and became an Alchemy Grandmaster, refining the Demon Crystal Pill would surely follow effortlessly!

While he did not know why Ye Yuan's alchemy standards were much higher than his father's, this was unimportant.

What was important was that Ye Yuan could bring him powerful might! Perhaps, he, Yuan Fei, was not without hope of impacting the bottleneck to become a Tier 4 demonic beast in his remaining years.

Ye Yuan knew what Yuan Fei was thinking of and said with a smile, "Haha, relax. Perhaps I don't even need a year, and I'll be able to refine the Demon Crystal Pill. Now, properly absorb the medicinal effects and recover your strength. I still have areas in need of your strength in a few days."

Yuan Fei nodded and did not say anything. He started to revolve essence energy to refine the medicinal effects.

Ye Yuan no longer bothered with Yuan Fei. He gestured with one hand again, and a little 'kitty' appeared out of nowhere. It was White Light.

It was just that White Light was currently sleeping. No matter how he called, he would not wake up. This situation had already persisted for two days. Ye Yuan also felt somewhat bewildered.

These two days, Ye Yuan refined many medicinal pills. He obviously would not forget to refine medicinal pills for White Light.

White Light was only a Tier 1 demonic beast. This was naturally not an issue to Ye Yuan.

Furthermore, Tier 1 herbs were plenty. Ye Yuan refined thousands of medicinal pills in one go, planning for White Light to slowly use.

Who knew that when Ye Yuan let White Light out, this little fellow's eyes instantly shone when he saw those medicinal pills, and swallowed up the thousands of medicinal pills in one breath, leaving Ye Yuan dumbfounded.

Even if it were him, he also would not dare to swallow medicinal pills like that! Was this little thing seeking death?

Ye Yuan was taken aback and was about to make White Light spit out all those medicinal pills. Who knew that this little fellow gave a burp, slanted his body, and fell asleep.

Initially, Ye Yuan thought that White Light was stuffed to death, so he quickly went forward to examine.

This check made Ye Yuan involuntarily click his tongue in amazement. This little fellow's breathing was calm. He was merely sleeping. Only then did he feel at ease.

However, this snooze lasted two days. White Light did not show the slightest sign of waking.

Although Ye Yuan had researched in depth into demonic beasts, he had truly never seen before this sort of situation. He could only check on White Light's state at all times.

Ye Yuan gave White Light another round of examination and discovered that White Light still did not show signs of waking. He was still dead asleep and would not wake up no matter how he called him.

However, Ye Yuan noticed that White Light's aura grew much stronger. He actually broke through already!

Originally, White Light was only at the early-stage Tier 1. After sleeping for two days, he actually already broke through to middle-stage Tier 1 quietly.

Could it be that this little fellow automatically refined the medicinal pills to break through in his sleep? This . . . was too effortless, right?

Ye Yuan became increasingly curious about White Light's history.

Now, it seemed like White Light was probably not an ordinary Flowing Light White Tiger.

Ye Yuan had never heard of Flowing Light White Tigers having a treasure-seeking innate divine ability nor them being able to evolve like this.

However, the characteristics on White Light's body was clearly Flowing Light White Tiger.

Ye Yuan could not figure it just why this was the case even after pondering over it.

It looked like he could only wait until he awakened his inherited memories to make sense of just what in the world happened to White Light's body.

Since he could not figure it out, Ye Yuan might as just not think about it. Keeping away White Light, Ye Yuan simply mediated to cultivate together with Ye Hang while quietly waiting for Yuan Fei to recover.

In a blink, one night passed. Yuan Fei suddenly snapped open his eyes and stood up.

"Young Master, I've recovered!"

Chapter 192: Such a Fine Dog!

"Song Family's Family Head, Song Tian Ying arrives!"

"Pill Condensing Manor's Manor Lord, Jiang Xin arrives!"

"Wang Family's Family Head, Wang Jia arrives!"

.

In front of the Drunken Star Manor's gates, a steward repeatedly reported names in a loud voice.

Large family's patriarchs, peers of the alchemy world, martial artists currently in the limelight, and notable figures in the capital virtually all converged at the Drunken Star Manor!

"Haha, for Song Family Head to grace us with your presence, you're really showering glory on our humble abode! Quickly come inside and sit!"

"Aiyo, isn't this Jiang Manor Lord? Long time no see, long time no see! Please come in, please come in!"

Wan Dongyang welcomed guests at the entrance and was awfully busy.

Anyone could tell the delight on Wan Dongyang's face.

Even though Wan Dongyang was verbally courteous, that haughty air made these distinguished aristocrats feel somewhat displeased.

However, no matter how unhappy they were, they had no choice.

Because from today onwards, the Drunken Star Manor would be the indisputable king of the State of Qin's alchemy world!

Even the Imperial Family would likely have to be dependent on the Drunken Star Manor!

Because the Imperial Family had to nurture talents, so they had no choice but to purchase the Drunken Star Manor's medicinal pills. If not, their young generation would fall behind the other families.

Most importantly, it was to fall behind the Su Family!

Everybody already deemed that the Fragrant Medicine Pavilion would vanish from the capital from now on. This force that was propped up by the Imperial Family to impede the Drunken Star Manor would completely dissolve!

But they had no choice. To launch three new types of medicinal pills in one move, the impact it had toward the Fragrant Medicine Pavilion was seriously too great!

Therefore, Wan Dongyang had the right to be high and mighty!

"Fragrant Medicine Pavilion's Pavilion Lord, Ye Hang arrives! Imperial Uncle Nanfeng Lou, Eldest Princess, Nanfeng Ruoqing arrives!" the steward called out loudly once again.

Speaking of which, it was quite a coincidence that Ye Hang actually arrived at virtually the same time with the Nanfeng family representatives.

When organizing such a glorious event, whoever arrived first or later was not on a whim.

Although those who entered prior to this were prominent figures in the capital, when compared to the characters who appeared now, they were insignificant.

It should be said that the earlier one arrived, the smaller the force. The later one came, the heavier the weight they carried.

Logically speaking, the Imperial Family's representatives should be the last to arrive. But now, Nanfeng Lou was not the last to reach, because the Su Family's representative had yet to come!

Wan Dongyang saw Nanfeng Lou and Nanfeng Ruoqing and hastily went up to pay respects. "Wan Dongyang pays respects to Imperial Uncle, pays respects to Eldest Princess!"

Nanfeng Lou furrowed his brows and said unhappily, "Where's Wan Donghai? I represent the arrival of the Imperial Family. Doesn't he, the owner, know how to come out to welcome people?"

Towards Nanfeng Lou's displeasure, Wan Dongyang behaved like he did not see it. He just flashed an apologetic smile and said, "Calm your anger, Imperial Uncle. There are too many guests today. Elder Brother has his hands completely full and truly cannot free himself. Hence, he arranged for me to be here to welcome Imperial Uncle and Eldest Princess."

"Such impudence! This State of Qin is still under the regime of the Nanfeng Family, and your Wan Family already dares to be so unbridled?" Nanfeng Lou was enraged when he heard that.

"Haha, Imperial Uncle can also see it; there are seriously too many people at this Pill Grading Assembly. This is also the first time our Drunken Star Manor organized such a major event, so we really don't have any experience. If there are any areas where we did not receive you well, please be magnanimous enough to forgive us, Imperial Uncle. Although I, Wan Dongyang, am not the owner of the Drunken Star Manor, I'm still born from the same mother as my Elder Brother; the Second Owner of the Drunken Star Manor. Being here to receive Imperial Uncle is also justifiable, right?"

Wan Dongyang's smirking look made Nanfeng Lou so incensed that smoke was coming out of his orifices.

Within the secular world, the imperial power was supreme.

Nanfeng Lou was the Emperor, Nanfeng Yi's blood uncle. He represented the entire Imperial family. No matter how busy Wan Donghai was, he should also be here to welcome Nanfeng Lou right now.

However, Wan Donghai avoided meeting him. This was clearly showing one up on the Imperial Family.

This Pill Grading Assembly today had other motives!

"Humph! Looks like the Drunken Star Manor really makes light of the Imperial Family! Since that's the case, Qing-er, let's go!" Finishing, Nanfeng Lou really flicked his sleeves and left.

But Wan Dongyang did not have the slightest intention of stopping. He just smiled and watched Nanfeng Lou leave.

"Hang on, Imperial Uncle."

Right then, a slightly tender voice sounded out. It was Ye Yuan who tagged along with Ye Hang. When Nanfeng Lou heard this, he paused his footsteps.

Nanfeng Lou was clearly also an alchemy fanatic. He basically had no experience on how to handle such situations.

This situation was directed against the Fragrant Medicine Pavilion on the surface, but in reality, it was pointing straight at the Imperial Family. This fact was clear at a glance for those with discerning eyes.

If there was nobody present from the Imperial Family today, that would be equivalent to stepping back without even fighting.

Those people inside might not be loyal to the Imperial Family, but in the human world, it had always been the word 'benefits' that reigned above. There was not much difference to them who became the emperor.

Therefore, even if the Wan Family continued putting them down, Nanfeng Lou must not leave!

The Imperial Family must have somebody present in this Pill Grading Assembly. Or else, those fence-sitters who were kept in the dark would really lean towards the Su Family!

When Nanfeng Ruoqing saw that it was Ye Yuan, she also could not help being slightly surprised. She was also caught off-guard by this situation happening under her eyes and did not know what to do. Just as she was wavering on whether to leave or not, Ye Yuan called out timely.

"What you do want to say, little child?" Nanfeng Lou asked with a frown.

Ye Yuan ignored Nanfeng Lou. Instead, he copied the steward's voice and called out loudly, "Su Family's Family Head, Su Yulin arrives!"

Wan Dongyang's face changed while others were a little unsure, only to see Wan Donghai walking out in quick strides with a wide beam on his face.

Except, when he just came out, the grin on his face froze right there.

Seeing Nanfeng Lou and Ye Hang, Wan Donghai immediately knew that he fell for it!

Sweeping a glance over everyone's face only to see Ye Yuan looking at him merrily, Wan Donghai's face fell. It was this brat's doing again!

He already came out, so it was naturally not nice to go back in. He could only toughen his scalp to come forth to pay respects.

"Wan Donghai pays respects to Imperial Uncle, pays respects to Eldest Princess. Dongyang, seriously you; Imperial Uncle and Eldest Princess arrived, why didn't you call me?" Wan Donghai did not give other people a chance to speak and lectured Wan Dongyang straightaway.

Wan Dongyang instantly understood and condemned himself as he said, "It's all my fault, owner. I saw that you were too busy back there and had no time to receive guests, so . . ."

"Shut up! Are Imperial Uncle and Eldest Princess ordinary people?" Wan Donghai reprimanded as he turned to Nanfeng Lou and said, "My younger brother does not know any better. Imperial Uncle, please don't find fault."

Nanfeng Lou was about to speak when Ye Yuan started laughing loudly. "Manor Lord Wan, it's truly a waste for you to not become an actor. Hahaha, you're killing me! Hahaha, the two of you singing and chiming along together really cracks me up!"

Wan Donghai's face darkened. He was well aware that this brat had a sharp tongue. The more he spoke, the more he will be dragged into the gutter, so he might as well just ignore him.

However, Ye Yuan clearly did not have the intention of letting him off. He continued laughing and said, "Manor Lord Wan, you're such a fine dog. The moment you hear your owner arrived, you immediately ran out obediently. Just now, inside there, were you perking up your ears just to listen?"

"Ye Yuan, Imperial Uncle and Eldest Princess are present. How can your insolence be tolerated!" Just a few sentences and Wan Donghai was on the verge of exploding again.

Chapter 193: Don't Interfere With My Posturing!

"Haha, Wan Donghai, you're really ballsy! You actually dare to talk this way to a Tranquil Cloud Sect core disciple?" Ye Yuan suddenly kept away his smile and said icily.

Wan Donghai's expression changed when he heard that. He really forgot that Ye Yuan had already obtained the status of a Tranquil Cloud Sect core disciple!

A Tranquil Cloud Sect core disciple was even more exalted than a secular world emperor!

If there were no accidents, many of those among the core disciples would end up taking on important sect positions in the future!

In front of Ye Yuan, what did he, Wan Donghai, even count as?

"What? Could it be that in Manor Lord Wan's eyes, that master of yours is even more exalted than me, the high sect's core disciple? I've already stood here for a long time, and you don't even know how to come out to greet me!" Ye Yuan became fiercer as he spoke.

Wan Donghai's old face became like a chameleon, changing multiple colors already.

He loathed in his heart!

Even though he knew that this was Ye Yuan assuming the majesty of the tiger, there wasn't the slightest bit he could do to him.

Ye Yuan's present identity was overly sensitive!

In front of so many people, how could Wan Donghai dare be disrespectful to the high sect's core disciple? If he really did that, then even if he got rid of Ye Yuan, if the matter reached the Tranquil Cloud Sect, he, Wan Donghai, would die a thousand times over!

The power of a sect was simply unimaginable to the secular world. As an Alchemy Grandmaster, Wan Donghai was naturally even more deeply aware of this point!

"En? Could it be that I, the high sect's core disciple, is still lacking the status for you to pay respects?" Ye Yuan said with a frown.

Wan Donghai gritted his teeth and was about to pay obeisance when a voice sounded out. "You haven't even entered the sect yet. Junior Apprentice Brother Ye is really overbearing! Which rule in the sect allows disciples to abuse power and bully others?"

Everyone turned around when they heard that only to see three people arriving jointly; two elderly and one young.

The two elderly were not others, but precisely Su Yulin and Su Yubai, and that young one walking in the center could also be considered an old acquaintance of Ye Yuan's. Who could it be other than Yang Hao?

That voice just now was precisely uttered by Yang Hao.

When Wan Donghai saw Yang Hao, it was like he was granted amnesty. He hastily went forward to pay respects. "Wan Donghai pays respect to Mister Yang!"

Yang Hao casually waved his hands to motion Wan Donghai to rise. He then said to Ye Yuan, "Junior Apprentice Brother Ye, you're the one in the wrong here. When we, sect disciples, go outside, we have to win people over by virtue. How can we force others to pay obeisance?"

The current Yang Hao had recovered that sort of high and above attitude, compared to what happened during their previous encounter.

Ye Yuan did not say anything. He just looked towards Yang Hao's back as if he was looking for something.

Yang Hao could not help being puzzled. He followed Ye Yuan's sight to the back but did not see anything. However, he quickly realized what Ye Yuan's meaning was, and his old face involuntarily turned red as he wished he could find a hole in the ground to crawl into.

This was a threat! A blatant threat!

If Ye Yuan were to tell the events of the fire battle in front of so many people, what face did he have left to stay on?

Forget about staying here, he could not even stay on in the State of Qin!

A high-rank Alchemy Master battling fire with a low-rank Alchemy Master, and the result was being burned by him until his behind was exposed. The majesty of him, this Tranquil Cloud Sect's core disciple, would become non-existent!

Furthermore, a veteran core disciple who actually could not even win a newbie who had yet to be initiated. What kind of gaze would others look at him with?

The crowd was uncertain, so they also followed Ye Yuan's eyes to look over, but did not discover anything. They did not know what Ye Yuan was trying to mystify.

However, they saw Yang Hao's expression and knew that there was definitely something that happened between the two of them.

It was just that Ye Yuan kept smiling like this without saying anything. They also did not know what medicine he was selling in his gourd.

Doing nothing but just looking!

"Ye Yuan, if you dare to speak of that matter, I guarantee that you will die a horrible death!" Yang Hao transmitted his voice to threaten.

"Aiyo, I'm timid. Don't scare me, Senior Apprentice Brother Yang! I have a problem. Once I'm intimidated by someone, I can't control my mouth. If I were to spill the beans, Senior Apprentice Brother Yang mustn't blame me," Ye Yuan replied through transmission.

"You! Truly despicable! Fine, what do you want so that you won't say a single thing?" Yang Hao had no choice but to give in.

"Uh, haven't thought of it yet. For now, don't interfere with my posturing and that will do. I had a hard time before I made it through the Nine Heavens Road and obtained core disciple status. You got to at least let me posture here in the secular world. Otherwise, when I arrive at the sect, I'll be at the bottom of the barrel. Even if I want to posture then, I wouldn't be able to," Ye Yuan said.

". . . Fine, I won't talk." Yang Hao finally chose to compromise, so he could only come to terms.

The crowd also saw that these two people were transmitting their voices, but nobody knew what on earth the pair were talking about.

Suddenly, Ye Yuan's face turned frosty again, and he said to Wan Donghai, "Wan Donghai! You haven't come to pay respects. Do you really want to slight the high sect?"

Another large charge clamped down on him, but this time, Wan Donghai did not lose his head like before, because there was still another core disciple around!

Wan Donghai looked at Yang Hao with eager eyes, but Yang Hao had an icy face as he said, "What are you staring blankly for? Go and pay respects! Could it be that this Yang Hao's Junior Apprentice Brother is not worthy for you to pay respect to?"

Gah?

What sort of situation was this?

Everyone was stunned!

Ye Hang, Nanfeng Lou, Nanfeng Ruoqing, Su Yulin and his brother were all collectively stunned!

What the hell was this? Wasn't the change in attitude too quick?

Wasn't he still prepared to exchange blows with Ye Yuan just now? Why did the wind direction change in a blink of an eye and he became apprentice brothers with Ye Yuan?

Of course, the one who was the most stunned was still Wan Donghai.

He had just prepared to straighten his waist. Now, he had to bend back down.

Oh, this old waist . . .

Seeing no action taken by Wan Donghai for some time, Yang Hao said impatiently, "What? Didn't you hear what I say, Manor Lord Wan?"

"Ah? I . . ."

Wan Donghai was so stifled. He fought with Ye Hang for so many years without even paying obeisance to each other. But now, he had to show deference to his son.

"You what you, hurry up! Are you still planning on holding this Pill Grading Assembly or not?" Yang Hao said with a frown.

Wan Donghai knew that he could not avoid this, so he gritted his teeth and gave Ye Yuan a deep bow. "Wan Donghai pays respect to the high sect's core disciple, Mister Ye!"

Ye Yuan chortled and said, 'Quickly rise, Manor Lord Wan. This bow of yours really humbles me greatly!"

Finishing, Ye Yuan suddenly turned to Su Yulin and said with a smile, "Su Family Head, isn't it your turn?"

Su Yulin was stupefied. He did not think that Ye Yuan would actually point the gun barrel at him. When he reacted, he could not help bursting into a rage.

As a matter of fact, his Su Family's position in the State of Qin was indeed much higher than the Wan Family's. But in front of a colossal behemoth like the Tranquil Cloud Sect, the Su Family and Wan Family were no different.

Ye Yuan was using his status as the high sect's core disciple to pay respects now. If he were to not show deference, wouldn't that be willful disobedience?

But the problem was that Ye Yuan could very well be the murderer who killed Su Yishan!

Asking him to pay respect to the enemy who killed his son? That was impossible!

"Don't go too overboard, Ye Yuan! I haven't even settled the scores with you about Yishan's matters!" Su Yulin roared angrily.

Ye Yuan ignored him, his gaze floating over to Yang Hao's behind again.

Yang Hao was about to crumble. He said in a low voice, "Su Family Head, it's just paying respect. You also won't lose a piece of flesh! By right, you should pay respect to Junior Apprentice Brother Ye!"

Chapter 194: Inciting Public Sentiment

Su Yulin's face turned green. He looked towards Ye Yuan with eyes brimming with killing intent, as if he was looking at a dead man.

With Su Yulin's relations, he could, in fact, ignore Yang Hao.

But what Yang Hao represented was not himself, but Yao Qian behind him!

Today's matter was excessively important. To the Su Family, it could not afford any slightest room for error. If he were to lose the entire game due to offending Yao Qian, then he, Su Yulin, would be the sinner of the Su Family.

Thinking up to this point, Su Yulin simply shut his eyes and gave Ye Yuan a bow. "Su Yulin, pays respect to the high sect's core disciple, Mister Ye!"

Su Yulin deliberately dragged out the 'Ye' to express his displeasure.

But Ye Yuan did not mind. He chuckled and said, "Looks like the Su Family is still very respectful towards my Tranquil Cloud Sect. Not bad, not bad! Hey, it's getting late, what's everyone still standing here for? Standing until my legs are already aching. Manor Lord Wan, is this your way of treating guests?"

Wan Donghai was so furious in his heart!

Just who was the one making a displaying of might and delaying everyone from going in?

Now that you finished posturing, you even say that your legs are aching?! I've never heard of any Spirit Condensation Realm martial artist whose legs ache after standing a while!

"Mister Yang, Brother Yulin, please!" Wan Donghai shot a fierce glare at Ye Yuan and then said to Yang Hao and Su Yulin.

The group of people headed for the inner hall. Nanfeng Ruoqing's and Ye Yuan's eyes met as they smiled and also went in.

.....

The Drunken Star Manor specially opened up an enormous hall just for today's grand event. It was enough to house all the big and small families in the capital.

This spectacle was even grander than the Imperial Family's state banquet. It clearly already surpassed that.

But at this time, nobody was paying heed to these anymore. After today's exchange, there would surely be one side who must withdraw from the stage of history.

After Su Yulin and the rest sat down, Wan Donghai went to the center of the great hall. He spoke in a clear voice, "Everyone, today, the aim of our Drunken Star Manor organizing this Pill Grading Assembly is to promote our State of Qin's medicinal pill business! Next, I would like to introduce a distinguished guest to everyone first."

Speaking up to this point, Wan Donghai paused to create suspense.

Indeed, those aristocrats looked towards Yang Hao, because he was seated in the most prominent position!

Everybody was speculating just who this young man was, to actually seat in the seat of honor above Nanfeng Lou and Su Yulin.

And those two person's faces were calm as if they were not at all unhappy.

"This person hails from the high sect, core disciple Mister Yang. He represents the high sect this trip to cheer on this Pill Grading Assembly of ours!" Wan Donghai introduced loudly.

With Wan Donghai's introduction, the audience burst into an uproar.

Tranquil Cloud Sect core disciple. This identity was too illustrious!

No wonder he could seat above the Imperial Family and Su Family.

Don't look at how these people could summon wind and rain in the State of Qin. In all of their years, they might not have really met anyone who came from the Tranquil Cloud Sect.

"No way? The Wan Family can actually call down a core disciple from the high sect? There's probably going to be a good show to watch today!"

"Hehe, a high sect core disciple coming to pay tribute to the Wan Family. There is much food for thought involved in this."

"Could it be that the high sect is already displeased with the Imperial Family? Originally, today was only to come and view the new medicinal pills. To think that something like this actually happened! I wonder how the Nanfeng Family is going to handle this big introduction from the Su Family!"

"Who cares! We're all merchants; what we pursue is benefits. As long as there's money to be made, who cares whom the emperor is? My goal of coming here today is to seize the power of agency for the new medicinal pills!"

"Humph! I'm definitely getting these new medicinal pills' distribution right!"

"Heh heh, then to each his own! I've already put down an arm and leg for today's Pill Grading Assembly. How can I possibly lose to you?!"

For some time, there were clamors among the nobles.

When Su Yulin saw this scene, he involuntarily felt great satisfaction.

He planned for so many years. Finally, he could realize his ambition!

Once Yang Hao, this big move, was executed, it was equal to him winning half the battle!

What Yang Hao represented was the Tranquil Cloud Sect. If even the Tranquil Cloud Sect supported him, there should not be a need for him to waste his breath on which side these people should stand on, right?

Su Yulin's gaze swept around but finally landed on Ye Yuan, his complexion turning icy involuntarily.

Ye Yuan seemed to have sensed something and looked towards him, even flashing him a grin.

Not knowing why, being looked at like that by Ye Yuan made Su Yulin feel uneasy.

Su Yulin had a feeling that the greatest variable today would lie with Ye Yuan!

Su Yulin also could not verbalize why he had this sort of feeling, but he just felt that the threat from Ye Yuan was even greater than Ye Hang's!

This sort of feeling was very unusual. Ye Yuan clearly only had Spirit Condensation Realm cultivation. He simply could not join in the conflict between Crystal Formation Realm martial artists.

But why was this sort of feeling still so intense? Was it because of Ye Yuan's performance outside?

Although Ye Yuan also had core disciple status now, he was simply incomparable to Yang Hao.

Even if Ye Yuan flashed his identity, Su Yulin also had ways to make a comeback!

"Cough, cough, everyone! Quiet down!" Wan Donghai made a silence gesture with his hands. After the great hall quieted down, he said in a loud voice again, "Mister Yang is the high sect's Pill Hall elder's, Yao Qian's, disciple! Elder Yao and Elder Ouyang are bosom friends! Today, for Mister Yang to come for the Pill Grading Assembly, this Wan expresses my heartfelt gratitude!"

Another huge commotion!

Even though everyone had some speculations, with Wan Donghai saying it out, it still made everybody draw in a cold breath.

In many people's hearts, the scales had already completely tipped over to the Su Family's side!

This was likely the greatest calamity faced by the Nanfeng Family since the establishment of the State of Qin!

Countless people's gaze looked over to Nanfeng Lou, their eyes filled with sympathy.

They were aware that the Nanfeng Family also had ties to the Tranquil Cloud Sect. But they were totally negligible compared to the entire Pill Hall!

"No way? What does Wan Donghai mean? Could this be the high sect's Pill Hall showing their attitude in wanting to dispose of the Nanfeng Family?"

"Unlikely! Without extenuating circumstances, the high sect won't intervene in the secular world's replacement of the imperial authority! If the Su Family had the support of the entire Pill Hall, then it probably wouldn't be just one core disciple who came. They would also have no need to host this Pill Grading Assembly!"

"En, what you said is right. But even so, this influence borrowed by the Su Family is also too strong!"

"Yeah! The Nanfeng Family is in danger this time!"

Just two sentences from Wan Donghai already smashed apart all the hopes of the Nanfeng Family.

Nanfeng Lou sat in the position beneath Yang Hao, his expression looking very ugly. Even Nanfeng Ruoqing beside him also did not look too good.

This move from the Su Family was too ruthless!

Nanfeng Lou and Nanfeng Ruoqing were seized with a sudden impulse to look at Ye Yuan. If Ye Yuan flashed his identity, would it be of aid to this situation?

The pair exchanged glances, but Nanfeng Ruoqing shook her head slightly.

It was true that Ye Yuan obtained core disciple status, but he had not even entered the sect yet. Even if he revealed his identity, it would not help things at all.

The terror of Yang Hao's identity did not lie in him being a core disciple, but in the Pill Hall behind him!

Under this sort of circumstances, what should be done? Nanfeng Ruoqing could not but to panic secretly.

Chapter 195: Three New Types of Medicinal Pills!

Yang Hao sat at the seat of honor in a lofty manner.

In his eyes, these secular world people were just a bunch of ants.

As his gaze swept through the faces of those nobles, there were either nervousness, or at a loss, or excitement, all the facets of humanity, so on and so forth. It made him feel like he was overlooking all life.

Finally, his gaze swept over to Ye Yuan who was opposite him, and his face involuntarily froze up.

The mood which just got a little better instantly vanished with a puff.

This fellow was really hateful! However, he most likely would not survive today either way!

Thinking up to here, Yang Hao could not help feeling secretly pleased.

A core disciple who had yet to enter the sect was killed in a secular world conflict. With the addition of his master and Elder Ouyang covering up in the middle, the outcome would just be left inconclusive.

Right then, Wan Donghai continued, "I think that before everyone came today, you've already heard about the contents of today's Pill Grading Assembly. That's right. Today, our Drunken Star Manor will be launching three new types of medicinal pills never before seen on the market. The launch of these three new kinds of medicinal pills will be the beginning of a new era for our State of Qin's alchemy world! Now, we will be uncovering the mysterious veil of these three new kinds of medicinal pills!"

One had to admit, apart from alchemy, Wan Donghai's ability to inciting public sentiment was not something that Ye Hang could compare to.

In contrast to Wan Donghai, Ye Hang lacked a portion of worldly sophistication and had more personal charisma.

Yes, the reason why the Fragrant Medicine Pavilion could still hang on until now under the Drunken Star Manor powerful attacks was due to Ye Hang's personal charisma!

From the day Ye Hang took a step back until today, not a single Fragrant Medicine Pavilion employee left the Fragrant Medicine Pavilion!

If both parties were to swap positions, the Drunken Star Manor would have probably collapsed long ago.

However, as the saying went, 'as virtue rise one foot, vice rises ten.' Wan Donghai's operating methods were inexhaustible. This was also the reason why the Drunken Star Manor could steadily suppress the Fragrant Medicine Pavilion.

But today, the stirring by Wan Donghai's words was no doubt lethal!

Wan Donghai went to the table arranged in the center of the great hall. On the table, three exquisite jade trays were laid out. The jade trays were covered using a red cloth so the objects on them could not be seen clearly.

But everybody knew that what was placed on these three jade trays were those three new types of medicinal pills!

These three kinds of medicinal pills captured everyone's hearts!

Wan Donghai held the jade tray on the left-hand side in his hands and gently removed the red cloth covering on top of it, revealing three gray colored medicinal pills.

"I believe that everyone isn't a stranger to the Qi Returning Pill. To martial artists, Qi Returning Pills are a necessity! These few medicinal pills in my hands are the new and improved Qi Returning Pills. Its name is True Qi Returning Pill! The True Qi Returning Pill's essence energy recovery speed is 50% greater than the Qi Returning Pill!"

When Wan Donghai's words fell, the scene immediately exploded.

"Oh my god! 50%! If this True Qi Returning Pill was launched, wouldn't all the Qi Returning Pills in my shop be unsellable?"

"Sigh, after today, we're all going to become the Drunken Star Manor's vassals!"

"Just one True Qi Returning Pill already have such effects. I really don't know what the other two types of medicinal pills are."

Unequivocally, improving medicinal pills was exceedingly challenging. To raise the effects of the Qi Returning Pill by 50%, as long as the price was not overly absurd, once the True Qi Returning Pill was launched, it would surely monopolize the market!

Coupled with the Essence Gathering Pill, the Drunken Star Manor could just wait to open their doors and count money in the future. The other forces were basically screwed already.

Hence, for these merchants to survive, they could only be reduced to the Drunken Star Manor's vassals, becoming their agents!

This way, their stalls would basically become the Drunken Star Manor's branch.

Wan Donghai smiled faintly and placed the True Qi Returning Pill in his hand down. He lifted up the middle jade tray to give another introduction.

"The medicinal pill placed on this jade tray is not an improved version, but a newly invented type of medicinal pill! Its name is Essence Converting Pill!" Speaking up to here, Wan Donghai purposely slowed his words and came to a halt.

Indeed, once people heard that it was a newly invented type of medicinal pill, they immediately could not resist.

"Stop beating around the bush, Manor Lord Wan! Quickly tell us what the medicinal effects of this Essence Converting Pill are already!"

"Yeah, Manor Lord Wan! Just what on earth is the use of this Essence Converting Pill?"

.....

Wan Donghai saw that the time was almost right before saying with a smile, "The medicinal effects of this Essence Converting Pill is to raise the cultivation of Essence Qi Realm martial artists by one realm unconditionally! However, a martial artist can only use it once in their lifetime. Consuming it again will not have any effects at all."

"No way, right? Unconditionally raising an Essence Qi Realm martial artist's cultivation by one realm? This is too exaggerated, right?"

"You aren't lying to us, Manor Lord Wan?"

"Are you kidding? When martial artists begin cultivation, it has always been about accumulating essence energy. I've never even heard that there are such medicinal pills! This is too preposterous!"

Nobody believed Wan Donghai's words.

People were like this. Once something surpassed their boundary of understanding, they would instinctively choose to not believe.

Wan Donghai smiled and said, "I know that everyone has doubts about the effects of the Essence Converting Pill. Hence, I'll test this medicinal pill right now in front of all of you!"

Right at this time, a Seventh Level Essence Qi Realm martial artist walked out. He took an Essence Converting Pill from Wan Donghai's hands and directly consumed it.

At this moment, the entire hall was abnormally silent. Everyone's eyes were focused on that martial artist!

Only Ye Yuan yawned lazily and was unconcerned over this.

"Yuan-er, why do I feel like you aren't worried at all? If this Essence Converting Pill really has such an effect, it's greatly detrimental to us!" Ye Hang transmitted.

Although Ye Hang was very confident in his son, after hearing Wan Donghai's introduction, his heart was still somewhat drumming right now.

This was only the second type of medicinal pill. There's still the third type of medicinal pill which had not been released, and it had already spell bounded virtually all of the influences in the State of Qin.

This sort of situation was not something he hoped to see.

Even though he had the Explosive Yuan Pill in his hands, Wan Donghai had four types of medicinal pills over here! Even if he could monopolize the Explosive Yuan Pill market in the future, he would also hold an absolute inferior position in the aspect of True Qi Returning Pill and Essence Converting Pill.

Ye Yuan said smilingly, "Hur hur, don't need to worry, Father. Only these fellows who can't tell good from bad will take this sort of defect good to be a treasure."

"Defect good?" Ye Hang asked in surprise.

"En, this Essence Converting Pill indeed has the effects of raising cultivation realm. But its side-effect isn't small either. Wan Donghai taking this stuff out is seriously just scamming people!" Ye Yuan said.

"This Essence Converting Pill has side-effects?" This time, Ye Hang was even more surprised.

"That's right. After taking this Essence Converting Pill, the martial artist's meridians will suffer a certain degree of damage which will affect future cultivation speed. However, this sort of damage isn't obvious. Ordinary people can't detect it. But when it's time to impact the Spirit Condensation Realm, their success rate will lower tremendously. Instead, it would be much lower than martial artists who cultivate up normally!" Ye Yuan explained.

Ye Yuan once spent his lifetime to research Tier 3 and below medicinal pills, and among medicinal pills, those with the greatest number of varieties and most widely used was naturally first-order medicinal pills.

This Essence Converting Pill was basically something Ye Yuan left behind. He was naturally crystal clear on the medicinal effects of the Essence Converting Pill.

Chapter 196: Unfurling the Map to Reveal the Dagger

"If that's the case, then isn't Wan Donghai cheating people? Also, this sort of side-effect, it will be discovered sooner or later, right?" Ye Hang asked with a frown.

"Uh, actually, this sort of side-effect isn't much to those noble family disciples. As long as they take some meridian recovery medicinal pills, it can completely be repaired. Or, taking medicinal pills which increases the success rate when impacting the Spirit Condensation Realm also works. As long as they break through to the Spirit Condensation Realm, the martial artist's body functions will have a huge improvement. These hidden dangers will naturally also be cleared up then. After all, it's only a Tier 1 medicinal pill. A little side-effect isn't insurmountable." Ye Yuan explained.

When Ye Hang heard that, he said helplessly, "You said it so easily! External injuries are easy to treat, but internal injuries are hard to get rid of. It's not that there are no meridians recovering medicinal pills, but each one of them is worth a fortune! It's likely even above this Essence Converting Pill! Calculating this way, the loss outweighs the gain! As for medicinal pills which increases the success rate of impacting the Spirit Condensation Realm, although I know many alchemists wish to refine them, but up till now, I've never seen them before."

Ye Yuan gave a mysterious smile and said, "If I guess correctly, this third type of medicinal pill is probably something that increases the success rate of Spirit Condensation Realm! Heh heh, this Pill Hall planned really well!"

Ye Hang's face changed, and his gaze could not help shifting over to that not-yet unveiled jade tray.

If what Ye Yuan said was true, then this third kind of medicinal pill was going to be amazing!

Such a medicinal pill was sufficient to shake the foundation of the Imperial Family!

Putting aside all the martial artists under the heavens, just in the State of Qin, how many martial artists were stuck at the threshold of peak Ninth Level Essence Qi Realm, unable to breakthrough?

One could imagine just what kind of demand it would face once this sort of medicinal pill was released!

Ye Hang himself knew that medicinal pills to assist in breaking through to the Spirit Condensation Realm definitely existed. It was just that in this sort of place like the State of Qin, it simply did not have the capability to issue this kind of medicinal pills.

However, Ye Hang also knew that Ye Yuan definitely knew the refinement method for this type of medicinal pills!

Ye Hang sucked in a deep breath and said, "Yuan-er, it's all on you today!"

"Don't worry, Father! If I can't even get this done, then I would have wasted Master's laborious efforts!" Ye Yuan said perfectly composed and collected.

.....

Right at this time, an essence energy storm suddenly howled forth in the great hall. That martial artist testing the medicinal pill really broke through to the Eighth Level Essence Qi Realm!

Marveling exclamations sounded out in the great hall!

"Hur hur, everyone has also seen the medicinal effects. There's no need for me to add on, right? Now, let's introduce the third type of medicinal pill."

Wan Donghai did not give much of an introduction about the Essence Converting Pill. He believed that the scene just now already gave everyone enough shock.

He lifted the third jade tray and unveiled the red cloth to introduce. "This third type of medicinal pill is today's dénouement medicinal pill! This third type of medicinal pill is called Rising Spirit Pill! It can increase the success rate of impacting the Spirit Condensation Realm by 20%!"

"What? Increase the success rate of impacting the Spirit Condensation Realm by 20%? Is there a mistake?!"

"There . . . There's . . . actually such a miraculous medicinal pill?"

"Manor Lord Wan! How much is this Rising Spirit Pill! I want to buy ten!"

"Manor Lord Wan, I also want to purchase! The more, the better! Oh, right, and also the Essence Converting Pill and True Qi Returning Pill, I also want!"

Everybody could not sit tight anymore. These three new kinds of medicinal pills launched by the Drunken Star Manor today simply subverted the knowledge of all the people sitting here!

Even though many people sitting here were mentally prepared and knew that the new medicinal pills launched by the Drunken Star Manor today were not ordinary, they could not have imagined that it was so extraordinary!

These people all left their seats in succession, encircling Wan Donghai in the center, fighting to converse with Wan Donghai.

At this moment, nobody bothered with the Su Family and the Nanfeng Family contending for imperial authority. What they were concerned with was how to purchase the Drunken Star Manor's medicinal pills!

They all knew that the Drunken Star Manor absolutely would not provide this sort of medicinal pills endlessly!

With these three types of medicinal pills, what could the Nanfeng Family use to hold the hearts of these aristocrats?

Ye Yuan watched this scene and could not help sneering as he said, "Snatching so fervently for stuff weeded out by other people. A bunch of fellows who have not seen the world!"

His voice was neither too loud nor too soft, but the surrounding few people heard it loud and clear.

Nanfeng Lou and Nanfeng Ruoqing were somewhat bewildered, but Yang Hao's and Su Yulin's facial expression totally changed!

"Ye Yuan, what's the meaning of what you just said? You say that these medicinal pills were developed by others?" Nanfeng Ruoqing asked curiously.

"Otherwise? With the likes of Wan Donghai that numbnuts, can he invent this kind of medicinal pills? These medicinal pills are clearly formulas that he got from some other place! Other than sect forces, what other places could possibly have these pill formulas? Furthermore, if these aren't pill formulas

sifted out by the sect forces, you think that Wan Donghai can get to see them? Would he dare to take over?" Ye Yuan said disdainfully.

Nanfeng Ruoqing mused over it. This was really the case.

However, even if they were pill formulas eliminated by the sect, bringing it into the secular world was also sufficiently startling!

With just these few pill formulas, the Su Family could already overthrow the Imperial Family!

If the Imperial Family lost the support of these big and small families, the Su Family virtually did not need to make any moves, and they could take down the Nanfeng Family without drawing blood!

"Humph! How much do you know about sect matters? Even if the pill formulas were eliminated by the sect, it's enough to stun the world!" Yang Hao snorted coldly.

Ye Yuan shrugged his shoulders as if he was too lazy to dispute.

Yang Hao's blow landing on cotton made him incredibly depressed.

But at this time, Ye Hang could not sit still too. He was just about to go down when Ye Yuan held him back.

"Don't be anxious, Father. Wan Donghai hasn't finished executing his plays yet. Let him play first," Ye Yuan transmitted.

"En? What other means are there?" In terms of scheming, Ye Hang was evidently inferior to Wan Donghai.

"Hur hur, Father will know when you continue watching," Ye Yuan said while smiling.

Wan Donghai was presently surrounded in the middle by people, but nobody really dared to get close to him.

After all, he was a Crystal Formation Realm expert. Even if he was an alchemist, these people dared not bump into him.

However, the crowd was speaking incoherently, nearly drowning him in spittle.

"Stop making noise! Not a single one of these three types of medicinal pills will be sold to you all!" Wan Donghai suddenly shouted.

"What? Manor Lord Wan, such incredible medicinal pills and you're not selling. Don't tell me that you want to watch a treasure mountain?"

"That's right, Manor Lord Wan. You didn't organize this Pill Grading Assembly just for us to covet it, right?"

Wan Donghai waved his hands and said, "Everyone return to your seats. This Wan has something major to discuss with everyone!"

When they heard it, their hearts jumped with a start, thinking to themselves, it's here!

They were towed by Wan Donghai just now, blindly fighting over the medicinal pills, and forgot about today's Feast at Hong Gate. 1 Now, seeing Wan Donghai said that, it was most likely time to unfurl the map to reveal the dagger!

Without any accident, Wan Donghai was going to force them to make their position known!

Everyone returned to their seats with ugly expressions, weighing out just how they should deal with this front today!

Chapter 197: When Watching a Play, Watch the Entire Show

"Manor Lord Wan, speak then. What conditions do you want before you're willing to sell us these medicinal pills?"

At this time, an aristocrat spoke. It was very clear that these medicinal pills Wan Donghai took out moved him greatly!

However, his question also voiced out the words in everyone's hearts.

Wan Donghai gave a slight smile and slowly said, "Speaking of which, these few years, our State of Qin's national strength has always been leaning to the weak side. Among the Tranquil Cloud Ten Nations, we're already in the lower-middle position. I wonder if after so many years, has anyone ever reflected on it?"

When the crowd heard that, they thought to themselves that it had indeed come!

These words from Wan Donghai were piercing criticisms! National strength growing weak, who was to be blamed? Couldn't have been their fault, right?

Of course, it was the Imperial Family's fault!

Many people's gaze shifted over to Nanfeng Lou's direction.

"I keep feeling that our State of Qin's forces are too scattered and does not form an effective alliance! If we, these forces, can ally together to form a synergy, we can definitely make the State of Qin strong! Now, we have the Essence Gathering pill, True Qi Returning Pill, Essence Converting Pill, Rising Spirit Pill, so many medicinal pills. It's enough to let even more martial artists grow stronger!"

Speaking up to here, Wan Donghai paused for a bit. Sweeping his gaze one round across the entire great hall, he said loudly, "Therefore, I suggest to establish a State of Qin Alchemy Alliance! Integrate all the influences together to bring about an even stronger State of Qin!"

When Wan Donghai's speech ended, Nanfeng Ruoqing could not hold back any longer. She immediately stood up and said furiously. "Wan Donghai, are you rebelling?"

Towards Nanfeng Ruoqing's accusation, Wan Donghai was not overly surprised. He just smiled and said, "Why do you say that, Eldest Princess? I'm only saying to found an Alchemy Alliance to strengthen our State of Qin's power. Rather, as the Imperial Family, how many things have you done for the State of Qin these few years? Mm?"

"That's because . . . because . . ." Nanfeng Ruoqing did not know how to answer.

It was an irrefutable fact that the Imperial Family was declining!

Not that the Imperial Family did not wish to grow stronger, but because the Su Family's obstruction was too powerful. Nanfeng Yi was overly cautious in taking action, which resulted in the State of Qin's situation today.

When it came down to it, the Su Family was the main culprit!

But this was an open secret! All in all, it was still because the Imperial Family themselves were not powerful enough!

In this world, it had always been the strong who reigned supreme while the weak were destined to be eliminated!

"Because of what? Hur hur, Eldest Princess also can't say it yourself? Us, the subjects, provide taxes for the Imperial Family, leaving the Imperial Family without the need to care for necessities. But what have the Imperial Family brought us?"

"These years, the country is prosperous, and the people are at peace. The citizens live a prosperous and contented life. Isn't this all thanks to the Imperial Family?" Nanfeng Ruoqing said crossly.

"This was just peace on the surface! Even though we are people in the secular world, this is the world of martial artists! In the world of martial artists, it has always been the weak who are food while the strong feasts! Other countries grow stronger while our State of Qin grows weaker. In the future, the outcome can only be being swallowed up by other countries! Eldest Princess, tell me whether what I said is correct or not?" Wan Donghai said with a cold smile.

Nanfeng Ruoqing was speechless because what Wan Donghai said was the truth!

However, the Nanfeng Family was not doing nothing these few years!

Why did Nanfeng Ruoqing and Nanfeng Zhirou conceal their identity and cultivate in the Dan Wu Academy? That was for the rise of the Nanfeng Family!

Nanfeng Ruoqing's talent in the alchemy path was incomparable. She had the qualifications to enter the Tranquil Cloud Sect long ago! But she had always stayed in the academy because she hoped to make the Imperial Family stronger through her efforts!

Why did Nanfeng Zhirou train so desperately? She similarly wanted to let herself become strong to protect the Nanfeng Family, to protect the State of Qin!

However, the Su Family pressed on at every step, and now, they finally revealed their fangs!

Yet, the Nanfeng Family had not matured yet!

"Everybody! As long as you join the alliance, we can enjoy the resources together! The merchants of the alchemy world can represent to sell the medicinal pills refined by the Drunken Star Manor! Families and martial artists who join the alliance can enjoy corresponding discounts when purchasing alliance

medicinal pills according to their contribution level! I wonder if everyone is pleased with such conditions?"

Wan Donghai finally threw out a heavyweight bomb!

The allure of these terms was not an ordinary kind of big.

One could imagine, with the Drunken Star Manor possessing these four kinds of medicinal pills, they would hold a complete monopoly in the State of Qin in the future.

If merchants in the alchemy world did not join the alliance, then they would not obtain the channel to get these medicinal pills. What awaited them was only one result: bankruptcy.

Martial artists and family clans needed to nurture their own strength/forces. Their requirements towards medicinal pills were extremely huge!

Undeniably, the prices of these few medicinal pills would surely be very high. Especially the Rising Spirit Pill. It would definitely be so high that it would be to quite a ridiculous extent!

Even so, there would likely still be countless martial artists going after it in flocks!

Even though it only increased the success rate by 20%, how many martial artists were struck at this checkpoint in the entire State of Qin?

There were many people who were only lacking just a 5% success rate which made them unable to breakthrough realms, resulting in years slipping by 20% success rate was enough to let many Essence Qi Realm martial artists breakthrough to the Spirit Condensation Realm.

Even those Ninth Level Essence Qi Realm without any hopes of a breakthrough, wouldn't they wish to give it a shot?

Hence, these two conditions thrown out by Wan Donghai was too alluring!

However, many of these aristocrats were still quite fearful of the Nanfeng Family. Many of them exchanged looks and whispered to one another, discussing countermeasures.

Wan Donghai was not anxious either. He waited patiently for everyone's reply.

Ye Hang was in a big hurry when he saw the situation and wanted to move out again, but was stopped by Ye Yuan again.

"Father, such a lovely show; how can you not finish watching it? When watching a play, watch the full show!" Ye Yuan transmitted.

"Still watching? Continue watching, and they will all seek refuge from Wan Donghai and Su Yulin already!"

"Of course we got to watch! Such an excellent opportunity, how can it do if we don't get a clear view of these people's faces? Of course, it doesn't matter to me, but the Nanfeng Family will probably start a major cleansing after this incident, right? If we don't let Nanfeng Lou and Nanfeng Ruoqing see clearly, how will they know who to clean off when the time comes?"

Hearing Ye Yuan say this, Ye Hang finally calmed down. His gaze when looking at Ye Yuan again became somewhat different.

Ye Hang really did not imagine that his son had already grown up to such an extent!

As a father, he was still looking at the things in front of him, but his son actually already saw the distant future!

Looking back at it now, virtually every one of Ye Yuan's actions had deep meanings. Even he, his father, could not quite see through his own son anymore.

Right then, someone finally made a sound!

"Manor Lord Wan, my Wang Family is willing to join the alliance!" The one who spoke was precisely the Wang Family's Family Head, Wang Jia.

But he had just spoken when someone immediately voiced out criticism. "Wang Jia, you shameless thing! Your Wang Family received imperial graciousness for generations, yet you're the first one to defect to the enemy today!"

The one who spoke was a family head who was die-hard loyal to the Imperial Family.

"Humph! A fine bird selects its tree, a good subject chooses whom to follow! Go ahead if you want to follow the Nanfeng Family to die together!" Wang Jia said brazenly.

With Wang Jia stepping out here, it immediately acted like a fuse. There were scores of people expressing their standpoints.

"My Lin Family also joins the alliance!"

"I, Song Taoge, joins the alliance!"

.....

In moments, there were actually more than half of the family clans or influences who chose to join the alliance!

Chapter 198: Ye Hang Makes a Move!

"You all! You all! The Imperial Family has always been good to you. Is this how you repay us?"

Nanfeng Ruoqing was so infuriated by these unfeeling wolves that she was shaking. She really did not expect that the Imperial Family's painstaking efforts in peacetimes were actually unable to withstand this bit of temptation of benefits.

"Eldest Princess, their joining of the alliance is also to strengthen the State of Qin. Why must you be like this?" Wan Donghai said hypocritically.

"Humph! Don't get cocky, Wan Donghai! Imperial Brother has long made preparations and won't let your wicked plans succeed! Su Yulin, at this time, are you still going to hide behind and watch the show? Isn't it also time to jump out?" Nanfeng Ruoqing stared at Su Yulin icily.

But Su Yulin was currently resting with his eyes shut with a completely apathetic appearance as he did not pay attention to Nanfeng Ruoqing.

Wan Donghai faced the guests and said, "Since everyone agreed to join the alliance, it's now time to offer up a portion of strength for our Great Qin!"

Everyone's faces froze as they had a bad feeling as if they had boarded a pirate ship!

However, these people were all wily spirits. Since they agreed to join this alliance, they obviously would not be naïve enough to think that they could only enjoy the treatment and did not need to contribute.

The price they had to pay was to have a decisive break from the Nanfeng Family!

"The Nanfeng Family held the imperial position for a long time, but failed to keep forging ahead! Today, our State of Qin is tottering, and about to fall into a crisis. This Wan feels that we should choose another wise ruler to lead our State of Qin onto the road to a powerful nation!" Wan Donghai said loudly in clear voice.

When he finished saying these words, everyone's gaze looked towards Su Yulin. The wise ruler in Wan Donghai's words was none other than Su Yulin.

"I feel that Family Head Su has an illustrious reputation and his martial prowess is unparalleled. He can take the place of the Nanfeng Family!" Right then, a Su Family's devotee opened his mouth to say.

"Nanfeng Family, relinquish your position and abdicate!"

"Family Head Su succeeds the rule!"

Right away, these aristocrats were chiming in together, angering Nanfeng Ruoqing until her lovely body was trembling while Nanfeng Lou's face turned green! Compared to the other party, the Imperial Family's momentum over here was clearly much weaker.

Nanfeng Ruoqing suddenly thought of something as she looked towards Ye Hang and son with an unkind face. This father and son pair were too quiet. They had actually yet to make a sound until now!

Before coming, Imperial Brother already made it clear that today, Ye Hang would be standing on the Imperial Family's side. But until now, there was no movement from Ye Hang at all.

It was fine if there was nothing from Ye Hang, but with Ye Yuan and her relationship, could it be that he was going to watch helplessly as the Imperial Family was overthrown?

Ye Yuan clearly also noticed Nanfeng Ruoqing's gaze and could not help flashing a smile as he stood up to say in a clear voice, "Isn't today the Pill Grading Assembly? Manor Lord Wan, why did you make everyone digress from the topic?"

Ye Yuan's voice was released using essence energy, and it immediately blanketed everyone's voice.

Seeing that Ye Yuan made his speech, Su Yulin, Yang Hao, and the other's heart involuntarily shook. They thought to themselves, it's coming!

What they feared today here were not Nanfeng Lou and niece, but Ye Hang and son pair. Yet until now, these two people had not even said a word! This was very abnormal!

If Ye Hang had given up on the Imperial Family long ago, then he should not have appeared here today. But he arrived, and yet, did not speak nor cause trouble, allowing the Pill Grading Assembly progress until now. This left them somewhat scratching their heads in puzzlement.

Wan Donghai was currently pleased with himself when he heard Ye Yuan's unharmonious voice and instantaneously felt annoyed.

"Ye Yuan, did you jump out at this time to be a clown? Everyone is already clear on the medicinal pills launched by our Drunken Star Manor. The Pill Grading Assembly also naturally came to a conclusion here," Wan Donghai said with a scornful look.

Ye Yuan came to a state of realization when he heard that. "So, it's only these few medicinal pills? I thought that it was some kind of incredible grand meet! Just these few trash pills and Manor Lord Wan also dares to take them out to showcase? Seriously unabashed to the limit!"

"Hur hur, listening to the meaning of your words, does the Fragrant Medicine Pavilion have even better medicinal pills than these few types?" Wan Donghai asked in laughter.

He did not believe that Ye Hang had some trump card in his hands. Or else, why would he wait until now? If he left seclusion a few days later, the Fragrant Medicine Pavilion itself would have closed down.

But Ye Yuan just smiled and said nothing. At this time, Ye Hang went forward and said, "The Pill Grading Assembly this time is also a grand meet hard to come by in a decade. Manor Lord Wan exhibited their Drunken Star Manor's several types of new medicinal pills just now to let us widen our horizons. But curiously enough, our Fragrant Medicine Pavilion also developed several new types of medicinal pills recently. Just in time to borrow this Pill Grading Assembly to let everyone appraise it."

"Hahaha . . . I heard that you were in a retreat for over a month. It wasn't to develop new medicinal pills, right? I really want to see just what kind of new medicinal pills Pavilion Lord Ye developed in this one month! However, Pavilion Lord Ye's big talk is already said. In a while, it would not be easy to wind it up!" Wan Donghai said.

Ye Hang said indifferently, "You don't have to worry about that."

Finishing, Ye Hang surveyed the surroundings and asked, "I wonder if there's any Essence Qi Realm martial artist present who just happens to be stuck at a bottleneck, about to break through?"

This question from Ye Hang made those aristocrats unable to refrain from exchanging glances.

What was the meaning of this? Could it be that these new medicinal pills developed by Ye Hang could also breakthrough one realm unconditionally?

But finding those martial artists stuck at a bottleneck, this sort of medicinal pill did not seem to have too much of a purpose?

After all, it was not as difficult as imagined for Essence Qi Realm martial artists to breakthrough cultivation realms. As long as they used Essence Qi Pills or Essence Gathering Pills, they could push past the bottleneck no matter what.

A middle-aged man opened his mouth to say, "Pavilion Lord Ye, my son is stuck at the Sixth Level Essence Qi Realm bottleneck. He told me that he's only short of that last bit, but kept failing to find the opportunity."

This Family Head was surnamed Huang, his name was Huang Hui. His son was called Huang Xuan.

Many of those present brought along their younger generations. Such an occasion had absolutely enormous benefits towards the growth of the younger generations. They obviously would not let go of this chance to educate the juniors.

Huang Hui brought his son in front of Ye Hang and said with clasped hands, "Pavilion Lord Ye wants to test medicinal pills, right? I wonder if my son fulfills this criterion?"

Ye Hang swept a glance over Huang Xuan and said with a smile, "Not bad, 16 years old, peak Sixth Level Essence Qi Realm. Family Head Huang has a worthy successor!"

"Haha, these words from Pavilion Lord Ye overwhelms me! Compared to your family's Ye Yuan, my son is far too lacking!" Huang Hui said with a smile.

Huang Xuan was also a student of the Dan Wu Academy. Huang Hui had more or less heard his son mention Ye Yuan's performance in the academy.

Even if he did not hear before, Ye Yuan's Second Level Spirit Condensation Realm cultivation was also plenty to leave Huang Xuan far behind in the dust!

Ye Hang gave a light smile and did not express any opinion. Ye Yuan's excellence no longer required other people's commendations.

"Family Head Huang letting your son test the medicine, aren't you afraid that this medicinal pill of mine has any side-effects?"

"I believe in Pavilion Lord Ye!" Huang Hui only said this one sentence.

"Alright. Since that's the case, let your son swallow this medicinal pill, and let us witness the effects."

Ye Hang put his hand out. The medicinal pill held in it was precisely the Explosive Yuan Pill!

Huang Hui reached out to receive it and passed it over to Huang Xuan, saying calmly, "Xuan-er, take it!"

"Yes, Father!" Huang Xuan actually did not have the slightest hesitation. He directly swallowed the Explosive Yuan Pill and started to circulate his powers to refine the medicinal strength.

Several dozen breaths later, an essence energy storm howled inside the great hall once again!

Chapter 199: Medicinal Effect of the Explosive Yuan Pill!

Seventh Level Essence Qi Realm!

After Huang Xuan consumed the Explosive Yuan Pill, he directly broke through to the Seventh Level Essence Qi Realm!

The effect was the best when consuming the Explosive Yuan Pill for the very first time. Hence, Huang Xuan directly burst through this minor stage bottleneck!

However, this did not cause too much of a stir. With the earlier example of the Essence Converting Pill, everyone was not too surprised by this scene.

"Ye Hang, the medicinal pill you devoted yourself to researching for a month was this? Are you thinking of using this sort of trash medicinal pill to defeat me?" Wan Donghai sneered incessantly.

This Ye Hang entered closed-seclusion for a month, closed until he became stupid, right? Did he exit seclusion to be funny?

Although this medicinal pill was not bad, compared to the Essence Converting Pill, it was far too lacking, right?

That martial artist just now only just broke through to the Seventh Level Essence Qi Realm not long ago. The Essence Converting Pill forcefully raised him up by a minor realm.

And this medicinal pill Ye Hang took out needed to pick an Essence Qi Realm martial artist on the verge of breaking through. In contrast, it was way inferior!

The other guests' thoughts were about the same as Wan Donghai's.

Towards Wan Donghai's mocking, Ye Hang turned a deaf ear to it and did not explain anything either.

"Ye Hang, if you feel that causing trouble like this has any effects, then you're too naïve! Don't you know that the trashier your medicinal pill is, the more it showcases the irreplaceability of my medicinal pill?" Wan Donghai continued to reprove him.

"Too amazing! Simply incredible! This medicinal pill is simply inconceivable!"

Right then, Huang Xuan who meditated to breakthrough finally awoken, and his first reaction after waking was a shock-filled face.

Towards Huang Xuan's exclaim, everyone was somewhat uncertain. Wasn't it just breaking through a minor realm? What's amazing about it?

Just now, Huang Hui himself said that Huang Xuan had already touched upon the threshold of the Seventh Level Essence Qi Realm; only a step away from reaching the door.

This medicinal pill might have randomly caused him to breakthrough. Was there a need to be so surprised?

Huang Hui was also unsure and asked his son, "Xuan-er, what's so inconceivable about this medicinal pill? You seemed to be on the verge of breaking through anyway, right?"

Huang Xuan nodded and said, "I was indeed about to breakthrough, Father. But I was ultimately unable to burst past the threshold of Seventh Level Essence Qi Realm. But just now, after I consumed the medicinal pill granted by Honorable Uncle Ye, the breakthrough happened immediately without any extra effort! I've never seen before such an incredible cultivation medicinal pill. The medicinal effects of this medicinal pill are at least three times of the Essence Gathering Pill!"

Huang Xuan was clearly very agitated. The impact that the Explosive Yuan Pill gave him was too big!

"What? What did you say? This . . . This isn't a medicinal pill to aid in breaking through realms? It's just an ordinary cultivation medicinal pill?" Huang Hui asked in shock.

"That's right! The medicinal pill I consumed just now was the same as the Essence Qi Pill and Essence Gathering Pill; they are medicinal pills used in cultivation. However, this is no ordinary cultivation medicinal pill!" Huang Xuan corrected.

Huang Hui and son's conversation finally aroused the guests present here. Everyone started to call into question one after another.

Everybody only knew now that this type of medicinal pill Ye Hang took out was simply not targeting at the Essence Converting Pill, but directed towards the Essence Gathering Pill!

If this type of medicinal pill really had the medicinal effects stated by Huang Xuan, then forget about selling the Essence Gathering Pill!

The medicinal effects of the Essence Gathering Pill were only 50% more than the Essence Qi Pill, while the medicinal effects of the Explosive Yuan Pill were three times of the Essence Gathering Pill!

The disparity was too great!

"Cultivation medicinal pill? This . . . How is this possible?"

"Consuming a cultivation medicinal pill and you can burst through a minor stage bottleneck? What medicinal pill is so sick?"

"The Huang Family didn't collude with Ye Hang, right? Consuming a cultivation medicinal pill and you can break through realms. I won't believe it even if you beat me to death!"

"Ye Hang, even if you want to act, at least act a little more professionally, alright? This kind of shoddy drama, do you think that everyone is an idiot?" Wan Donghai said with a cold smile.

When he heard Huang Xuan and his father's conversation just now, Wan Donghai was also impossibly shocked. But he came around very quickly.

It looked like Ye Hang was really at his wit's end, even this sort of retarded drama play was used.

Ye Hang did not explain anything. He just took out several pill bottles and placed them on the table. Inside were filled with medicinal pills.

"I have twenty Explosive Yuan Pills here. You guys choose twenty Essence Qi Realm martial artists to come out. I'll give each of them one each. How the medicinal effects are, what I say doesn't count. Only what they say matters. Wan Donghai, if you aren't assured, you choose the people yourself." Ye Hang said nonchalantly.

Seeing Ye Hang so calm and collected, Wan Donghai was not so composed anymore.

Could it be that this medicinal pill really had such heaven-defying effects?

This was impossible!

How could there be a cultivation medicinal pill with medicinal effects three times more than the Essence Gathering Pill!

"Fine! Since you want to play, then I'll follow you all the way! I want to see just whether or not this Explosive Yuan Pill or something is really so miraculous," Wan Donghai said coldly.

Very soon, Wan Donghai picked out twenty Essence Qi Realm martial artists. There was even quite a number whose cultivation had reached the bottleneck among them.

These twenty Essence Qi Realm martial artists were all juniors of the family clans or influences that joined the alliance. Among them, there were even half who were dead loyal to the Wan Family and Su Family. Wan Donghai felt that this was a bit more reliable.

Ye Hang did not say anything else. He just issued an Explosive Yuan Pill to each person.

After these Essence Qi Realm martial artists consumed the pill, they sat down individually to meditate and refine the medicinal strength.

Then, everyone's focus was gathered on these twenty martial artists. Whether Huang Xuan's words were true or not, it could be seen in a while.

After several dozen breaths passed, there was no movement from these Essence Qi Realm martial artists. Seeing this scene, Wan Donghai was even more certain that the scene just now was simply a two-party act performed by Ye Hang and the Huang Family father and son!

In a twinkle, several more dozen breaths passed and suddenly, an essence energy storm howled inside the great hall again!

Su Yulin's, Yang Hao's, and Wan Donghai's face involuntarily changed. Somebody broke through!

Ten breaths later, another essence energy storm raged around. Another Essence Qi Realm martial artist broke through!

Then, there were people breaking through non-stop!

The Essence Qi Realm martial artists that were chosen just now, as long as they were at the bottleneck, all of them would break through!

Without waiting for these martial artists to finish refining, Wan Donghai grabbed hold of a junior who already broke through and asked impatiently, "Quickly tell me, is this Explosive Yuan Pill a cultivation medicinal pill or not?!"

"This . . ." That junior's facial expression did not look too good. He did not know how to answer.

He knew that he was on the Su Family's side, but was he going to admit the Explosive Yuan Pill was a cultivation medicinal pill?

"You just have to tell the truth! Is it or not?" Wan Donghai said solemnly.

Cultivation medicinal pills were very easy to identify. It could not be refuted just by these twenty people saying no. Lying did not hold any meaning at all.

". . . Yes!"

Wan Donghai's heart fell, and he tossed this junior aside. Grabbing another person, he asked, "You answer, yes or no?!"

"This . . . is indeed cultivation medicinal pill!"

"How is this possible? How can this be possible?" Wan Donghai muttered to himself, appearing somewhat battered out of his senses.

"From today onwards, the Fragrant Medicine Pavilion will officially start selling the Explosive Yuan Pill! The selling price of the Explosive Yuan Pill is only 20% higher than the base price of the former Essence Qi Pill! Those who want to can go and place an order at the Fragrant Medicine Pavilion after the Pill Grading Assembly ends!" Ye Hang said calmly.

Chapter 200: Explosive Situation!

"Only 20% higher than the Essence Qi Pill? Doesn't that mean that it's even cheaper than the Essence Gathering Pill?"

"Such a heaven-defying medicinal pill is actually even cheaper than the Essence Gathering Pill! This . . . Ye Hang isn't joking, right?"

"Hehe, this is a compassionate business! I really don't know how much black-hearted money the Drunken Star Manor earned using this Essence Gathering Pill!"

Ye Hang's words instantly blew up the whole audience!

This period of time, the Drunken Star Manor relied on the Essence Gathering Pill to haul in quite a bit of money.

Although the effects of the Essence Gathering Pill was only 50% higher than the Essence Qi Pill, its fixed price was twice of the Essence Qi Pill!

Even though everybody knew that this price was too high, for martial artists, time was money. As long as they had the capabilities to bear the burden, they basically bought quite a number of Essence Gathering Pills from the Drunken Star Manor to provide for the family's juniors to cultivate.

But now, Ye Hang said that the fixed price of the Explosive Yuan Pill was only 20% higher than the Essence Qi Pill. Wasn't this a blatant face-smacking?

Those present were wily spirits. They were all quite clear on what this Explosive Yuan Pill meant!

Explosive Yuan Pill was absolutely an epoch-making medicinal pill!

This sort of epoch-making medicinal pill's fixed price was actually so low. Who would come to the Drunken Star Manor to purchase Essence Gathering Pills?

This move by Ye Hang was ruthless. It directly forced Wan Donghai all the way into the corner of the wall.

Wan Donghai was so angry that his face turned green. His gaze when looking at Ye Hang was filled with killing intent.

This way, who would come to the Drunken Star Manor to purchase Essence Gathering Pills?

"Humph! Everyone listen well! Whoever goes to the Fragrant Medicine Pavilion to place an order for the Explosive Yuan Pill will be removed from the alliance and placed directly inside the alliance's blacklist. Influences who enter the blacklist can forget about buying a single medicinal pill from the alliance!" Wan Donghai said with a cold snort.

Wan Donghai's words were like a basin of cold water, instantly extinguishing these people's enthusiasm.

Ye Hang was ruthless, Wan Donghai was even more vicious than him!

Ye Hang only had Explosive Yuan Pill this one type of medicinal pill, but Wan Donghai launched three new types of medicinal pills today!

And these medicinal pills were all medicinal pills necessary for cultivation. Who would dare say that they would not use it in the future?

"Heh heh, Manor Lord Wan seems to be very confident in your medicinal pills! Do you feel that everyone have to purchase your medicinal pills?" Ye Yuan suddenly sounded out.

Wan Donghai said with a cold smile, 'Isn't that so? Don't tell me you guys can still take out medicinal pills even more amazing than these three types of medicinal pills?"

Just as Ye Yuan said, these three types of medicinal pills were sifted out from the Tranquil Cloud Sect. But Ye Yuan had not even entered the sect yet. Could he even know about those new medicinal pills?

Ye Yuan chuckled, and a pill bottle appeared in his hand.

"The medicinal pills inside this pill bottle can double essence energy recovery!"

Finishing, Ye Yuan took out another pill bottle and said, "This can raise a minor realm for Essence Qi Realms unconditionally and completely without any side-effects! That whatever Essence Converting Pill is nothing but an incomplete product. How dare you have the nerve to use this kind of trash to scam people!"

Following that, Ye Yuan took out a third pill bottle and said, "The medicinal pills inside here can raise the success rate of impacting the Spirit Condensation Realm by 40%. Well, who's good and who's lousy, there isn't a need for me to say it, right? Now, do you still feel that those junk of yours are very useful?"

Ye Yuan introduced three types of medicinal pills in one breath. With each speech, Wan Donghai's face darkened a degree.

If the medicinal pills within these pill bottles were truly as Ye Yuan said, wouldn't him hosting this Pill Grading Assembly today become a joke?

Not just Wan Donghai, the faces of everyone present were filled with astonishment!

Wan Donghai's introduction just now already subverted their understanding. True Qi Returning Pill, Essence Converting Pill, and Rising Spirit Pill. Each type of medicinal pill was ample to alter the setup of the State of Qin.

But then, Ye Yuan casually took out three types of medicinal pills and directly knocked down those three types of medicinal pills.

Compared to Ye Yuan's medicinal pills, the medicinal pills launched by Wan Donghai was basically garbage!

"What a joke! You think that by casually taking out some medicinal pills, you can say that it's better than mine? If these are the medicinal pills prepared by your Fragrant Medicine Pavilion, then this is also too targeted at us, right? Before today, nobody even knew what kind of medicinal pills would be launched at the Pill Grading Assembly!" Wan Donghai said in a low voice.

"I knew that you wouldn't give up until all hope is lost!"

Ye Yuan gave a cold snigger, took out a medicinal pill from the third pill bottle, and directly threw it to Yang Hao.

"Senior Apprentice Brother Yang, I wonder how is this medicinal pill of mine when compared to the medicinal pills developed by the sect for impacting the Spirit Condensation Realm?"

Yang Hao reached out to receive the medicinal pill. A bout of herbal fragrance entered the nose. After sizing it up carefully, Yang Hao's face involuntarily changed drastically!

"Ye Yuan, where did you steal this True Rising Spirit Pill from?" Yang Hao questioned.

From Yang Hao's reaction, everyone knew that what Ye Yuan said was not false!

At this point, those people who happily joined the State of Qin's Alchemy Alliance were currently so full of regrets that their intestines turned green!

If they knew beforehand that the Fragrant Medicine Pavilion would deal this kind of massive counter-attack, why would they join this lousy alliance?!

No wonder Ye Hang and son watched Wan Donghai's performance leisurely and calmly. They were just watching a joke!

Ye Yuan smiled and said, "Turns out that the sect calls this True Rising Spirit Pill huh. Rather fitting. However, don't casually slander fellow disciples, Senior Apprentice Brother Yang. I haven't even been to the sect, where did the word 'steal' come from? This medicinal pill is refined by myself. If Senior Apprentice Brother Yang don't believe, want me to refine one for you on the spot?"

Yang Hao fixed onto Ye Yuan's eyes, trying to see something. But he discovered that Ye Yuan's eyes were very calm, without the slightest trace of guilt.

Ye Yuan obviously did not have a guilty conscience.

Before coming, Ye Yuan had long predicted the current situation. He refined a round of some commonly used Tier 1 medicinal pills and brought over a pile of medicinal pills.

No matter what kind of medicinal pills Wan Donghai brought out today, Ye Yuan would completely crush him!

This was still because Ye Yuan did not wish to be overly startling, which was why he only took out some medicinal pills that were inferior by a grade. If Ye Yuan took out the type of medicinal pills like the Spirit Surge Pill, he reckoned that before long, the Sect Leader of the Tranquil Cloud Sect would head over here personally.

Ye Yuan estimated that with the Tranquil Cloud Sect's level, it was roughly the standard of the True Rising Spirit Pill. That was why he took out these medicinal pills.

"Humph! Ye Yuan, don't get complacent too early! These few medicinal pills are very important to the sect, and now, you actually took them out in the secular world. After returning to the sect, I'll definitely report to the upper echelons! You better think about how to face the interrogation from the upper echelons after entering the sect now! Now, are you going to surrender without resistance, or are you waiting for me to take you down?" Yang Hao said with a cold smile.

When Yang Hao said this, the entire great hall instantly cooled down.

Su Yulin who had his eyes shut to rest his mind this whole time suddenly opened his eyes. Radiant light shone in all directions.

"Whoa, can't win in alchemy and decided to switch to fighting huh? Senior Apprentice Brother Yang, I know that you were very unresigned with your loss that day. Thinking to take me down a peg on the Martial Path today, right? Hehe, if you have the capabilities, just come at me and try!"

Ye Yuan's degenerate look seemed to be completely clueless about the gradually tensing situation.

Right at this time, the four Crystal Formation Realm powerhouses in the great hall were already tightly wound up. A great battle was about to break out at any moment.
