Chapter 2311: Overpowering Cloudheart Realm!

Only all the way until this moment did everyone suddenly startle awake. Second Sage's two disciples actually both reached the finals!

It was not that they were not strong, but it was that the two of them, their sense of existence were truly too weak.

Each alchemy battle, they won without the slightest exciting aspect.

Coupled with that the alchemy battles were carried out inside the Emperor Vast Pagoda, there was no directly viewing feeling.

Therefore, they appeared much more 'mediocre' compared to the other young powerhouses.

Only all the way until Yun Yi and Ning Siyu both reached the finals did everyone awaken from a dream.

It turned out that this Myriad Region Alchemy Conference was actually because of the showdown between Cloudheart Realm and Second Sage in the end.

Ning Siyu's opponent was similarly a Cloudheart Realm powerhouse.

This shock was by no means insignificant!

Especially those holy lands' ancestors, each and every one of them was shocked to the extreme.

The master being strong could be understood.

After all, Ye Yuan was a rare genius.

But why were his disciples also so strong?

To say that the Heavenspan World's alchemy circle was big, it was not big. Saying that it was small, it was not small either.

The young generation's outstanding geniuses, these ancestors could all call their names.

The performance of those geniuses also did not let these ancestors down, each and every one of them very outstanding.

But only when it reached the finals did the ancestors discover that those geniuses whose names could be called suffered crushing defeats one after another, gotten rid of by Yun Yi and Ning Siyu one by one.

The process was too plain. No one paid attention to it.

It was just like boiling a frog in warm water. When the frog discovered that the water temperature was high, it could no longer jump out.

The ancestors felt a chill run down their backs. Their gazes when looking toward Ye Yuan again were like looking at a monster.

Each and every one of them was extremely puzzled, not understanding how Ye Yuan did it.

Even if Ye Yuan had been teaching his disciples in these close to 3000 years, it was also impossible to have such a terrifying result, right?

After all, teaching apprentices was different from cultivating oneself.

The vagueness of Dao could only be understood and not imparted with words.

The starting point of the master being high, they could give guidance to disciples from a commanding height.

But fully passing on one's Dao to their disciples could not be done at all.

Then the problem came. How did Ye Yuan do it?

They naturally did not understand that Ye Yuan never talked about whatever fleeting and ephemeral allegory, making his disciples go comprehend.

His method of teaching apprentices was only one word, practice!

Read books a hundred times, the meaning could be seen for oneself!

Practicing over and over again, practicing foundational skills.

The basic skills that others cast aside like a pair of worn-out shoes, were regarded as a holy scripture in the Pill Tower.

In the Pill Tower, as long as the alchemist could be patient and not tire of cultivation, their strength would not be poor.

While Yun Yi and Ning Siyu were precisely the best among them!

Of course, the Pill Tower also did not just practice, practice, and practice blindly.

The harder they practiced, the more problems they encountered during cultivation as well. Ye Yuan would naturally answer them one by one.

All in all, the Pill Tower already established a powerful and comprehensive alchemist nurturing system.

But the core of this system was still diligent practice.

No one could succeed casually!

For Yun Yi and Ning Siyu to be able to achieve fame overnight in one battle, the hard work that they put in at the back, it was extremely hard for normal people to imagine.

As for their master Ye Yuan, it naturally went even more without saying.

Zou Rui was extremely shocked in his heart. His strength far surpassed his peers and he did not care about who his opponent was at all.

But among the opponents in the finals that he imagined, there was absolutely no Yun Yi.

His thoughts were the same as the world, same as his grandmaster.

Ye Yuan being formidable did not mean that his disciples were formidable.

But the fact was, his disciples were too formidable. They were simply duplicates of Ye Yuan.

“You seem very surprised,” Yun Yi said smilingly.

“Indeed a little, but whoever the opponent is, is the same to me. It’s just that you and your junior apprentice sister are really shameless, deliberately hiding your strength and making your opponents underestimate you guys,” Zou Rui said.

Yun Yi extended two fingers and said with a smile, “Firstly, Senior Apprentice Sister Nine is my senior apprentice sister, not junior apprentice sister. Secondly, we didn’t intentionally hide our strength. Master told us that each alchemist has their strong points, and he makes us learn their strong points well. Including you, it’s the same too.”

Zou Rui laughed loudly when he heard that and said, “Utter nonsense! The strong reigns supreme. What right as a weakling have to be senior apprentice sister? Also, only the strong are worth learning from, what’s there to learn from the weak?”

In all of the holy lands, it was all the strong that reigned supreme.

As long as one’s strength was strong enough, they could replace them.

Ning Siyu’s strength was inferior to Yun Yi, but she could be the senior apprentice sister? Wasn’t this ridiculous?

Also, what was worth learning from the weak?

Only the strong had shining points on them!

So these words sounded like messing around to Zou Rui.

Yun Yi shrugged and said coolly, “As long as you’re happy.”

He knew that others could not accept it. In reality, he himself also could not accept it at first.

However, Ye Yuan talked about his experiences in Cloudmarsh City. Only then did Yun Yi they all know that it was really the case.

The weak points of the losers were magnified infinitely, resulting in covering up the strong points.

Only by possessing a magnanimous heart could one see the strong points from others, and draw it over for their own use.

Ye Yuan himself walked over like this. He also taught his disciples how to walk like this.

Zou Rui’s face turned black, and he said in a solemn voice, “It doesn’t matter. This battle, I want you to suffer a crushing defeat!”

The finals started very quickly. Zou Rui’s strength was indeed powerful. He was simply a weak version of Heavenly Emperor Distantbook.

The moment he came up, he put tremendous pressure on Yun Yi.

But Yun Yi also finally exhibited his full strength in this fight.

The Myriad Region Alchemy Conference, walking this entire road, Yun Yi also grew a lot.

Facing the powerful Zou Rui, he did not shrink back at all.

The two people battled for three days and nights. The quality of Yun Yi's medicinal pill finally still suppressed Zou Rui's.

While on the other side, Ning Siyu also defeated Cloudheart Realm's other person with a slight advantage.

Everyone was shocked!

Even though before this, the various holy lands cast covetous eyes towards Medicine Ancestor's handwritten notes, the various great ancestors were clear in their hearts that it was very hard.

Cloudheart Realm's strength was not just because of a Medicine Ancestor.

The might accumulated over countless years was overwhelming in any generation!

Even though Cloudheart Realm already had not taken action for many years, no one doubted their might.

But they lost!

Ye Yuan master and disciples three people overpowered Cloudheart Realm!

Heavenly Emperor Distantbook must be paying attention to this place. He had once boasted in front of Ye Yuan that his grand-pupil was the young generation's number one person.

Now, this face was slapped resoundingly!

The number one person lost!

Grandmaster lost, grand-pupil also lost.

No one thought of this conclusion.

If Ye Yuan defeating Heavenly Emperor Distantbook was still just his victory alone, then what kind of concept was the three of them defeating their opponents at the same time?

This was an all-round surpassing others!

If the master and disciples three people flew together after several years, what had it still got to do with Cloudheart Realm?

These master and disciples three people overturned the entire alchemy world's power balance.

Too terrifying!

Zou Rui looked like he was battered out of his senses, he was unable to accept this outcome.

Before this, he kept thinking about avenging his grandmaster and ruthlessly humiliating Yun Yi.

But who knew that he actually lost!

His strength overwhelmed his peers and he had never found a match among peers.

But today, he was defeated by a peer.

All of his pride was shattered to pieces the moment the furnaces were opened!

Unrivaled Medicine God

Chapter 2312: Medicine Ancestors Invitation!

“That’s my great-grandson! Did you guys see that? He’s called Yun Yi! That’s my great-grandson! My great-grandson won the championship of the Myriad Region Alchemy Conference this time! *Hahaha ...*”

In the crowd, Empyrean Pilljade danced excitedly and started yelling around.

Even though Empyrean Pilljade was arrogant, he had never thought that his family’s child would actually be standing on the stage of the entire Heavenspan World, and that he would become the alchemy path’s number one person!

It was not that he did not want to, but with his level, he did not dare to think about this step at all.

Poverty restricted his imagination!

To him, the greatest expectations he had of Yun Yi was succeeding his position and dominating the Southern Border.

But Yun Yi’s current achievements had already far exceeded what he defined, reaching a level that he could not imagine.

Defeating Zou Rui, the current Yun Yi was already equivalent to the young generation’s number one person!

How did the current Empyrean Pilljade still remember Yun Yi’s betrayal? How did he still remember his resentment and enmity with Ye Yuan?

All that was left in his head was just a word: pride.

Beside him, Heavenly Emperor Zhuo Yun, Heavenly Emperor Myriad Treasure, as well as Empyrean Flutterfeather, all had dumbfounded faces.

Clearly, they also found it hard to imagine this result.

The other people looked at Empyrean Pilljade with strange faces, like they were looking at a fool.

“Seen before those who claimed kinship, never seen before someone who claimed kinship like this.”

“He won and he’s your grandson, where have you been? Only running out to claim kinship now, I’ll even say that you’re my grandson now!”

“Screw off, you! With just your poor and shabby appearance, can you teach such an excellent great-grandson?”

... ..

Nobody believed Empyrean Pilljade at all.

The powerhouses on Feather Mountain all had fixed seats, if Yun Yi was really Empyrean Pilljade's great-grandson, he should be seated in a very revered place, and not the same as them, standing in this tiny corner.

This kind of lie could only make him appear very laughable and ignorant.

Empyrean Pilljade's face turned black, immediately having a look of shame on his face.

Yeah, if he chose to support Yun Yi back then, then the current situation would be completely different.

When everyone saw his appearance, they were even more certain that he was boasting.

... ..

Amidst the huge shock, the Myriad Region Alchemy Conference finally came to an end. A Southern Domain's small faction called Heavenly Eagle Bodhidharma became famous all over the world.

Heavenly Emperor Lastingjoy personally gave two copies of Medicine Ancestor's handwritten notes to Yun Yi and Ning Siyu, then carried out a bout of praises with a smile.

Yun Yi was currently more and more like Ye Yuan and naturally remained indifferent whether granted favors or was subjected to humiliation.

While Ning Siyu only had Ye Yuan this master in her eyes. Whatever Heavenly Emperor Lastingjoy's praise, she did not care at all.

Just as everyone thought that the Myriad Region Alchemy Conference this time would end with Cloudpill Summit's crushing defeat, Heavenly Emperor Lastingjoy arrived before Ye Yuan.

"Second Sage, Master invites you up Cloudheart Mountain to debate on things."

Everyone's minds trembled, the Medicine Ancestor was personally moving out!

The real highlight was here!

The moment these words came out, it was as if the air had solidified.

The Medicine Ancestor was already not just the name of a powerhouse, he already became the insignia of Alchemy Dao.

He was the ceiling of Alchemy Dao!

He was the Dao Ancestor of Alchemy Dao!

He was not a Dao Ancestor, but in the hearts of all alchemists, he was a Dao Ancestor!

An invincible existence!

Even a powerhouse like Sacred Ancestor High Priest also could not challenge his prestige.

But today, Ye Yuan's one lineage, master and disciples three people overpowering Cloudheart Realm, dealt Cloudheart Realm a vicious slap.

The Medicine Ancestor finally could not sit still anymore!

He was a transcendent existence and rarely showed face in the world.

For countless years, only when Sacred Ancestor High Priest went up the mountain back then to seek Dao did he take action one time.

Today, for Ye Yuan, he finally made a move once more.

One was a rising star, startlingly talented, the best in the present era.

One was Alchemy Dao's founder, reigning for countless years, invincible under the heavens.

These two people's fight would definitely cause a shocking wave.

Then, would Ye Yuan accept the Medicine Ancestor's invitation or not?

Everyone was waiting to see it!

Only to see Ye Yuan smiled and said, "Can't finally bear to take action? *Huhu*, had to insist on this Ye giving a slap before he's willing to make a move. Why is there a need?"

Everyone got a shock. Did this guy make light of Medicine Ancestor?

Everyone present took pride in being able to meet Medicine Ancestor.

Being able to obtain his guidance, they even wanted to prostrate in worship.

But Ye Yuan actually did not have the least bit of awe at all.

Someone who cultivated the alchemy path actually had no respect for the totem-like Medicine Ancestor!

Heavenly Emperor Lastingjoy smiled and said, "Whatever dissatisfaction Second Sage has, you can go and tell Master. Lastingjoy is just acting on orders."

Ye Yuan looked at him and said smilingly, "Brother Lastingjoy, this Ye really looks forward to being able to fight with Brother Lastingjoy one day."

Lastingjoy smiled and said, "It's a great honor for Lastingjoy to be able to be thought highly of by Second Sage. However, this emperor only gained enlightenment on Dao by chance back then. For so many years, my progress has been very slow and has long already been surpassed by Junior Apprentice Brother. Second Sage defeated Junior Apprentice Brother, this emperor is naturally not a match."

Ye Yuan smiled and said, "Lead the way."

He would not naively think that Lastingjoy was really inferior to Distantbook.

He heard before that this Heavenly Emperor Lastingjoy and the Medicine Ancestor were existences of the same era, and had already lived for no idea how long.

To be able to become the Medicine Ancestor's eldest disciple and even comprehend Dao pill source, how can he possibly be a mediocre person?

Seeing this Heavenly Emperor Lastingjoy gave Ye Yuan an unfathomable feeling.

How his strength was, it was hard for Ye Yuan to jump to conclusions rashly. But he had a feeling that even if this Heavenly Emperor Lastingjoy was not as good as Sacred Ancestor High Priest, Ye Yuan reckoned that he was also not far off.

At least, he was definitely stronger than Heavenly Emperor Distantbook.

But this guy put on an appearance of being very simple and honest, giving you a feeling of defenselessness, his sense of existence being extremely low.

This guy was playing the fool, so Ye Yuan could not be bothered to haggle over it with him too.

After all, the Medicine Ancestor was the alchemy path's superlative.

Seeing the alchemy path's highest peak was the most important objective of Ye Yuan's trip.

Heavenly Emperor Lastingjoy turned around and said to everyone, "The Myriad Region Alchemy Conference ends here. Master and Second Sage's game, everyone can head to Cloudheart Mountain to observe! If you're not interested, you can leave."

Finished talking, he brought the group of ancestors and left.

Heavenly Emperor Lastingjoy said so, but such a grand occasion was hard to come across in tens of millions of years. So how could they miss it?

Therefore, everyone rushed toward Cloudheart Mountain.

It thoroughly exploded in the crowd!

"You guys, between Medicine Ancestor and Second Sage, who do you think will win and who will lose?"

"Look at what you're saying; how ignorant! It's true that Second Sage is formidable, but it was already extremely difficult for him to defeat Heavenly Emperor Distantbook. Still want to beat the Medicine Ancestor?"

"*Heh*, so many years have passed. There's already no one who knows the terror of Medicine Ancestor anymore! He is a summit that can't be scaled! On the path of Alchemy Dao, he's the Heavenspan Mountain!"

"*Heh heh*, I hope that Second Sage can still grow up after experiencing this battle!"

... ..

This was a showdown without any suspense. The only thing to watch was how terribly Ye Yuan would lose.

Back then, after the Sacred Ancestor High Priest lost to Medicine Ancestor, he was in depression for a very long period of time.

All the way until later, he founded the Priest Temple and groomed demon race alchemy rare talents.

Then now, similar to Sacred Ancestor High Priest, could Ye Yuan experience this unprecedented setback and stand up again?

Unrivaled Medicine God

Chapter 2313: Perilous Battle!

On top of the summit cloud platform, two old men were currently drinking tea leisurely.

Fragrance lingered.

One of them, a lean old man, had his eyes shut the whole time, looking like he was asleep.

The lean old man said in a hoary voice, "Ask Not two words, have you solved it?"

The middle-aged man in blue robes by the side said coolly, "Old thing, after so many years, you're still not willing to let me go?"

The lean old man said, "The path of Dao is full of setbacks to begin with. If you can't even clear this hurdle, how will you seek Dao?"

The middle-aged man in blue robes had a disdainful look on his face. These two words had delayed him far too much time, making him waste his best years.

When he came to realize the truth, everything was already too late.

Missing the best time for cultivation, people's cultivation speed would become slower and slower.

Just like Ye Yuan, his onslaught was currently indeed unstoppable. But once it was delayed, that would be thousands, tens of thousands, even millions of years.

Naturally, this could not be blamed on only the Medicine Ancestor. Sacred Ancestor High Priest's own Dao heart also had flaws existing. It was just that it was caught by Medicine Ancestor.

"These Ask Not two words, I can't solve it, but Ye Yuan he solved it. Otherwise, why would you, this old fellow, have this idea to organize the Myriad Region Alchemy Conference this time?"

"Such an amazing rising star, how can this ancestor not be alarmed? This Second Sage compared to you, just who is a little stronger?"

Sacred Ancestor High Priest looked at the lean old man meaningfully and said, "If you measure him yourself, wouldn't you know?"

While talking, several dozen figures landed on the cloud platform. The two in the front were precisely Ye Yuan and Heavenly Emperor Lastingjoy.

When he saw that lean old man, Ye Yuan's gaze never looked away.

This old man had his eyes shut all this while, his aura extremely feeble, looking like he was about to pass away at any time.

But he did not know why. The person gave Ye Yuan an unfathomable feeling.

This kind of feeling was indescribable. All in all, he was powerful, indescribably powerful!

Ye Yuan had a strange feeling that this old man before his eyes was not a person, but a medicinal pill, a medicinal pill that led to Great Dao.

Even the Sacred Ancestor High Priest did not give Ye Yuan this kind of terrifying feeling too.

It was as if this old man was born for medicinal pills. It was as if he ... was Alchemy Dao.

The lean old man used a dry voice and said, "Young Friend Ye, please sit."

Ye Yuan did not decline and sat down beside Sacred Ancestor High Priest. The other ancestors also took their seats one after another.

"Young Friend Ye, we've met before."

Ye Yuan nodded slightly and said, "Yes, in Ask Not."

The Medicine Ancestor that time was extremely powerful, his figure full of power and grandeur as if a celestial deity descending upon the mortal world.

But Ye Yuan did not expect that the Medicine Ancestor's true self was actually such a thin and emaciated-looking thin old man.

Suddenly, not seeing the Medicine Ancestor have any movement either, but his entire person already disappeared on the spot.

An incomparably huge chessboard suddenly appeared above the void. The entire Cloudheart Realm could see it clearly.

The projection of a lean old man appeared on one end of the chessboard.

Ye Yuan smiled slightly and was just about to step out, but he heard Sacred Ancestor High Priest suddenly say, "Be careful!"

Ye Yuan turned around and said smilingly, "Senior Sacred Ancestor seems to be afraid!"

Wing actually nodded and said, "Yes, this old man thought that I can not fear him anymore. But meeting once again, this old man is still nervous. Of course, what's more important is that he got stronger!"

The Medicine Ancestor and Sacred Ancestor High Priest were clearly not really chatting leisurely.

Each and every one of the two of their actions and every word, they were all crossing swords.

But Sacred Ancestor High Priest did not occupy any advantage at all.

He thought that so many years had passed, his heart knot had already been unknotted.

But seeing Medicine Ancestor again, only then did he discover that his own Dao heart was still unable to face him unperturbed when in front of him.

Wing was not worried that Ye Yuan would lose, but worried that Ye Yuan's Dao heart was the same as him, with a crack.

Ye Yuan's talent was greater than his, he believed that Medicine Ancestor would be even more ruthless!

But Ye Yuan smiled brilliantly and said, "Not scared that he's strong, just scared that he isn't strong!"

Finished talking, his figure disappeared on the spot.

Above the void, Ye Yuan's enormous projection exhibited in front of everyone.

Everyone held their breaths. Clearly, they did not expect that these two people actually did not talk nonsense, and clashed together so straightforwardly.

Heavenly Emperor Lastingjoy said to Sacred Ancestor High Priest with a smile, "Lord Sacred Ancestor, the stars change positions, but Master's opponent turned into Second Sage, wonder how you feel about it?"

Wing smiled and said, "He's stronger than me."

Lastingjoy smiled and said, "He isn't stronger than you."

Wing said, "Your master understands it. He's stronger than me."

Lastingjoy smiled and said, "So that's how it is. It's just that Lord Sacred Ancestor seems to be lacking in confidence."

Wing said, "He's always unexpected."

While the two people crossed swords with words, Ye Yuan already took action!

It was only to see him pointing at the void, directly landing his piece.

Pah!

A crisp sound seemed like a piece landed amidst heaven and earth, the sound of Great Dao suffusing the world.

An enormous Tai Chi diagram directly occupied a large area.

Pah!

The Medicine Ancestor landed a piece and Ye Yuan's Tai Chi diagram directly collapsed.

A berserk aura spread out from the chessboard, suffusing the entire Cloudheart Realm.

Strong!

A might that made people suffocate!

Ye Yuan's Dao could occupy a portion of the chessboard?

While Medicine Ancestor's Dao could spread out of the chessboard.

The level was clear at a glance!

The eyebrows of the Ye Yuan opposite furrowed heavily, feeling an unprecedented pressure.

This was the hardest alchemy battle in his life, not one of!

Just one move, and it made him unable to withstand it.

The world that he carefully constructed, the Medicine Ancestor determined the entire world's framework with just a glance, and then he completely occupied this world!

The Medicine Ancestor opposite him and the Medicine Ancestor inside Ask Not were completely the strength of two different worlds.

This was the true strength of the alchemy path's number one person!

One day, two days ... one month!

Ye Yuan's second piece was considered for more than a month!

Outside of Cloudheart Mountain, Yun Yi's brows furrowed tightly, and he said in a solemn voice, "The Medicine Ancestor is well-deserving of being the alchemy path's number one person. I've never seen Master have this kind of expression during an alchemy battle before."

Ning Siyu said gloomily, "This old man, with one look and I already know he has no good intentions."

Yun Yi sighed and said, "This is the world of Dao. It's too profound! To be able to stump Master until like this, no idea just what realm Medicine Ancestor has reached."

Ning Siyu said with an ugly expression, "Master wouldn't lose, right?"

Yun Yi shook his head and said, "This time, I'm afraid that he's really going to lose. However, the most terrifying thing isn't losing!:

Ning Siyu was taken aback and said, "What else is more terrifying than losing?"

Yun Yi said with a solemn expression, "It's naturally Dao heart! Each person's Dao is different, who's Dao is correct, who's Dao is wrong, will be more distinct in this level of powerhouses' struggle. Losing, one might very likely lose their Dao heart! Master won Heavenly Emperor Distantbook, then ruined his Dao heart later. It's likely hard for his strength to improve anymore in the countless tens of thousands of years after today. Also, there's the Sacred Ancestor High Priest, because he lost to Medicine Ancestor back then, and lost his Dao heart, that's why he'd remain at a standstill."

Ning Siyu opened her mouth wide, a look of astonishment on her face.

She originally felt that this was merely an alchemy battle and that there was nothing dangerous.

But now, she could not help worrying about her master.

[Unrivalled Medicine God](#)

Chapter 2314: : Insurmountable Peak!

Pah!

After thinking hard for more than a month, Ye Yuan finally landed another piece.

The Tai Chi diagram appeared once more; the power of Great Dao emerged.

Pah!

The Medicine Ancestor landed another piece right on the heels of him, shattering Ye Yuan's Tai Chi diagram once more.

Overbearing!

Extremely overbearing!

The foundation of the world was constructed by Ye Yuan, it should have been led by Ye Yuan in the first place.

But the Medicine Ancestor was too strong.

This kind of might made everyone feel asphyxiated.

Only Heavenly Emperor Lastingjoy had a smiling appearance, like looking at a very normal thing.

The Medicine Ancestor already had not taken action for countless years. He already became a totem.

Everyone knew that he was strong, but they did not know how strong he was.

But today, once he took action, it shocked myriad regions!

His might was unmatched, overpowering the present era!

The rules were set by me.

Alchemy Dao was ruled by me.

No matter how astonishingly talented you were, no matter how your means were exceedingly formidable, in front of this kind of powerful strength, it was all futile.

The height that he was standing at, was far from what Ye Yuan, this rising star, could hold a candle to.

The two people's disparity was too great!

The world that Ye Yuan carefully constructed, was unbelievably deplorable in front of the Medicine Ancestor.

One look and he saw through the actual situation.

Your world was dominated by me!

The number one person in the world was this domineering!

"Second Sage is in danger! After this battle, he'll likely sink thoroughly."

"Second Sage is incredibly talented, since time immemorial. I thought that even if he loses, he'll at least lose with dignity too. I didn't expect that he actually lost so miserably!"

"It's too miserable, there's no strength to fight back at all! Even compared to Lord Sacred Ancestor, he's also much worse."

"I even thought that I could see an astonishing great battle. I didn't expect that it's actually one-sided. It's not interesting anymore."

... ..

Aside from the shock, the group of powerhouses could not help feeling dull.

Ye Yuan's path of mythology was undoubtedly going to stop here.

The Medicine Ancestor was still the Medicine Ancestor, the alchemy world's Heavenspan Mountain.

Of course, while it was boring, not a single person left.

The Medicine Ancestor taking action, this was a grand event that could only be encountered once every ten million years, how can it be missed?

This kind of Great Dao, even if only comprehend a trace, it would also be beneficial for life.

Sacred Ancestor High Priest had a solemn look. The shock in his heart was like thunder roaring throughout the nine heavens.

The Medicine Ancestor got stronger again!

Furthermore, it was not just a little bit stronger!

If he faced off against the current Medicine Ancestor, even if he was better than Ye Yuan, he would also not be much better.

These tens of millions of years, he was still marching on the spot, while the Medicine Ancestor already took an even firmer step toward Dao pill.

"Master, Second Sage almost can't endure anymore! This ... is simply a rout!" Ji Mo said in surprise.

It was still his first time seeing Ye Yuan look so strained.

Every step was taken with extremely difficulty.

Wing smiled bitterly and said, "I harmed this kid!"

Ji Mo said in surprise, "Why does Master say this?"

Wing's expression was complicated as he said, "Master always thought that this old man is a narrow-minded man, intentionally suppressing his opponents. But seeing him again today, I discovered that I misunderstood him!"

The group of disciples was shocked when they heard this, revealing disbelieving looks.

Master and Medicine Ancestor were sworn enemies, this was virtually something that everyone knew in the Priest Temple.

But what did these words now mean?

"Why does Master say this?" Ji Mo asked again.

Wing said, "This old thing is indeed narrow-minded, but on the path of alchemy, he is indeed a peerless genius that none can rival! The battle with him last time, he indeed ruined my Dao heart. But these few

tens of millions of years, he integrated the essence of my Dao into his Great Dao! His strength is long already no longer what it used to be!”

The group of disciples was filled with fear, only then, understanding Sacred Ancestor High Priest’s meaning.

This alchemy path’s number one person became much stronger than back then!

This also meant that Medicine Ancestor took another big step toward the true Dao pill.

The present Medicine Ancestor already shook Sacred Ancestor High Priest off far behind.

Who else was Medicine Ancestor’s match in this world?

Only then did everyone present understand that it was not that Ye Yuan was too weak, but that Medicine Ancestor was too strong!

Reaching the Medicine Ancestor’s level of realm, it was almost impossible to make any progress anymore.

But who could have thought that he could still learn from other people’s strengths and put them to use for himself?

The present Medicine Ancestor already completely shook Sacred Ancestor High Priest off, no one could threaten him anymore.

Sacred Ancestor High Priest could not; Ye Yuan ... even less so!

Heavenly Emperor Lastingjoy said with a grin, “Master being the number one person on the alchemy path isn’t just being number one in strength. His talent is likewise number one in alchemy! The world all thinks that Master has long been unable to make progress anymore. But actually, he’s improving every day. Second Sage’s talent is high, perhaps even higher than Master’s, it’s just a pity that ... his accumulations are too weak.”

Sacred Ancestor High Priest’s expression was complicated as he said, “I harmed this kid! After this battle, his Dao heart ...”

Ye Yuan’s will was extremely tough, even far surpassing ancestor-level powerhouses’ will. Wing had a score in his heart about this.

It was just that Medicine Ancestor was too strong!

His strength already exceeded ordinary people’s understanding.

Ye Yuan ... was still too inexperienced after all.

One step forward, Ye Yuan struggled to stride forward.

Each step that he took, the time used took longer and longer.

From one month to two months, then to three months.

In a blink, several years passed, Ye Yuan only walked over a dozen steps.

However, Ye Yuan's face did not have any anxious look. He was completely immersed in the structure of the world.

Medicine Ancestor's Dao was incomparably tyrannical as if crushing his Dao like a giant mountain.

This was completely the disparity between two different power levels!

It was Ye Yuan's first time experiencing the ultimate strength of Dao pill.

It also made him have a sense of powerlessness for the first time in alchemy.

Over 50 years passed in a blink of an eye, Ye Yuan already had not landed a piece in ten years.

Pah!

The Ye Yuan who was akin to a withered tree finally landed his piece.

Pah!

Medicine Ancestor landed a piece right on the heels, ruthlessly crushing Ye Yuan's Tai Chi diagram without the slightest mercy.

"Pfft!"

Ye Yuan spewed out a mouthful of blood wildly, splattering onto the chessboard.

A burst of exclamations came over, everyone understood that Ye Yuan was defeated.

The current Ye Yuan was emaciated like a stick, both eyes deeply sunken, as if his entire person was drained dry, like a seriously ill person.

"He's still forcefully holding on! Actually, he could have surrendered long ago!"

"Ye Yuan is too weak! He doesn't have the qualifications to face off against Medicine Ancestor at all. He doesn't have any self-awareness at all."

"His journey has been too smooth and he has never encountered a setback. Encountering such a huge setback this time, he's naturally unwilling to admit defeat."

... ..

In their view, Ye Yuan could have conceded defeat long ago.

Forcefully hanging on until now was completely keeping up appearance to cover up his predicament.

Ning Siyu grabbed Yun Yi's clothes, practically about to tear them apart.

It was only to see her bite her lip lightly and say, "Master he ... will be fine, right?"

Yun Yi's eyes were full of blood traces as he shook his head and said, "I don't know. Master he might ... really be in danger this time!"

"Why? Why hasn't he given up yet? With Master's talent and strength, he can definitely surpass Medicine Ancestor in the future. Why must he insist on forcefully holding on now?" Ning Siyu said in tears.

“Sigh, maybe ... Master has his own thoughts!”

Ye Yuan’s two eyes became more and more sunken, his person becoming thinner and thinner, his state being poor to the extreme.

But he still did not have the thought of giving up.

Unrivaled Medicine God

Chapter 2315: Absolute Retaliation!

“Pfft!”

Ye Yuan’s piece fell down and he immediately spewed out a mouthful of blood.

Landed again, vomited again. He landed again, and he vomited again.

His fleshy body was extremely powerful, but now, it was practically at the extent of being at the end of his life.

He looked extremely miserable.

This alchemy battle was no less than even a paramount great battle.

For Ye Yuan, it was too hard.

Sacred Ancestor High Priest looked at Ye Yuan and could not help recalling himself back then.

How similar was this scene!

He sat withered in front of the chessboard previously and sat for several thousand years.

Medicine Ancestor’s moves aimed straight at the Dao heart, impossible to guard against at all.

Ye Yuan’s strength was too weak to begin with, facing the even stronger Medicine Ancestor, he could only be defeated even more thoroughly.

“Sigh, it’s all my fault. This boy ... is most likely crippled already.” Sacred Ancestor High Priest said with a gloomy sigh.

Actually, even if he did not say, everyone could tell too.

This myth ends here!

A prodigy that made the world tremble already came to a curtain call here.

“Young Friend, it ends here!”

Suddenly, Medicine Ancestor’s dry voice came from above the void.

Pah!

A piece landed, the void trembled, and the entire chessboard started shaking violently.

Above the chessboard, white light radiated brilliantly. The dazzling light broke right through the firmament, completely drowning out the black pieces.

This chessboard world no longer had a way out for the black pieces.

Ye Yuan's entire body trembled, his eyes full of an ashen look.

Clearly, he was already at the end of his rope.

His gaze revealed a pondering look, seemingly not understanding the situation before his eyes.

"It shouldn't be like this!" Ye Yuan said with a frown.

"Young Friend, you lost." Medicine Ancestor said coolly,

Ye Yuan shook his head and said, "I didn't lose, there must still be a way out!"

Medicine Ancestor said leisurely, "When you took the first step, this ancestor has already seen through a hundred steps! Each one of your steps is within this ancestor's calculations. The world that you constructed is operating according to this ancestor's will. Are you still not admitting defeat?"

This was a showdown but also a genuine fight.

Whoever ruled this world of chessboard was the victor.

The current Medicine Ancestor was not the Medicine Ancestor in Ask Not.

That Medicine Ancestor was merely a wisp of remnant soul. Furthermore, he was suppressed by Sacred Ancestor High Priest. Ye Yuan could position himself in a leisurely manner.

While in this place, his opponent was the real Medicine Ancestor, his might could shatter everything.

No matter what means you have, it was not worth mentioning at all in front of absolute strength.

This alchemy battle was firmly controlled by Medicine Ancestor from the very beginning.

What kind of world Ye Yuan wanted to construct, how to construct, Medicine Ancestor saw it clearly.

Therefore, he did not need to think at all.

When humans think, God laughs.

What it was talking about was this kind of situation.

The height that Medicine Ancestor stood at was too high, he was watching this alchemy battle from the perspective of God.

No matter how ever-changing you were, how could you escape God's eyes?

Ye Yuan racking his brains to think was nothing more than a farce in Medicine Ancestor's view.

"No one can control everything! I can't, you can't, even ... Heavenly Dao can't either! I will lose, but ... I absolutely won't lose like this!" Ye Yuan used a similarly dry voice to say.

A chess game for nearly 100 years, Ye Yuan had been trying to escape Medicine Ancestor's control.

Every step he took was made with extreme difficulty.

Exchanging moves with a god-like powerhouse, if one played according to the other party's tempo, there was no chance of winning at all.

Others all said that he was overestimating his own ability, but did not know how impressive he was to hold out until now.

From the very first move Medicine Ancestor made, Ye Yuan understood that the current Medicine Ancestor was definitely no idea how many times stronger than the Medicine Ancestor back then!

He had fought with Sacred Ancestor High Priest before. Even though it was just a tiny probing, he could confirm that Sacred Ancestor High Priest was far worse than Medicine Ancestor!

He naturally would not feel that Sacred Ancestor High Priest was intentionally cheating him. It could only mean that the Medicine Ancestor made great improvements again in these years.

One could say that the current Medicine Ancestor was already infinitely close to the level of Dao pill, close to being a god.

No wonder the first time he laid eyes on Medicine Ancestor, it gave him a ludicrous illusion that the other party was a medicinal pill.

But so what?

He came in order to witness the highest summit of the alchemy path!

Fighting with heaven, an endless enjoyment.

Fighting with a god, an endless delight.

"This ancestor has integrated Wing's Dao and already touched the power of law! In this Dao, this ancestor is a god! How can a group of ants fight with a god?" Medicine Ancestor said coolly.

The group of ancestors had the jitters when they heard it. Touching the power of law, that was the level of Dao Ancestors!

That level of existence was truly an existence that governed destiny, its power unimaginable.

At present, the title of Medicine Ancestor was already in reality as well as in name!

"Forget about the fact that you're not a god, even if you're really a god, so what?"

Ye Yuan's gaze shifted toward the chessboard, then fell into contemplation again.

Medicine Ancestor was indifferent, his figure moving, returning above the cloud platform.

"Huhu, this kid is as stubborn as you back then!" Medicine Ancestor said with a dry laugh.

Wing's gaze turned dark and he said in a cold voice, "Stop pretending, actually, you're very surprised too, right? Or should I say, you're currently secretly happy! Because I delivered you a treasure trove!"

Medicine Ancestor smiled and said, "Huhu, looks like you already understand! This ancestor walking until today, what I relied on wasn't suppressing juniors. Your Dao heart falling was just because your Dao heart had flaws. That's right; you delivered a big gift to this ancestor today. The strength of this

kid's Dao exceeds my imagination! After this ancestor digests today's battle, I'll definitely be able to comprehend the power of law and attain the true level of Dao pill!"

Everyone trembled all over, this news was seriously too shocking.

Dao pill, that was the realm that all alchemists dreamed of.

Except, no one had ever reached it!

After today, Medicine Ancestor was actually able to reach this paramount realm!

In the past, everyone said that Medicine Ancestor was half a Dao Ancestor.

But soon, Medicine Ancestor would become a true Dao Ancestor level powerhouse!

At this time, everyone's gazes when looking at Ye Yuan again could not help turning into pity.

Everyone all thought that Ye Yuan's roaring into existence would shake Cloudheart Realm's foundation, and drag the alchemy world into a warring states period.

But who knew that Medicine Ancestor used Ye Yuan as a footboard, and corroborated his Dao to become a true Dao Ancestor!

"Huhu, congratulations, Medicine Ancestor, for achieving Alchemy Dao supremacy!"

"Congratulations!"

... ..

The group of ancestors went forward one after another to congratulate Medicine Ancestor in advance.

That moment Medicine Ancestor corroborated his Dao, the entire Heavenspan World would tremble because of it.

The status of the Medicine Ancestor at that time would truly be on par with Dao Ancestors.

And the Dao of Medicinal Pills would also truly be juxtaposed with Martial Dao, becoming a peerless Great Dao.

This significance was too great!

Medicine Ancestor did not reciprocate. He still had his eyes shut, like an ancient well without ripples.

Reaching his level of boundary, he had long not felt delighted by external gains and not saddened by personal losses already.

Pah!

A clear sound suddenly sounded out in the world, suddenly interrupting the felicitations.

Everyone turned around and looked, but discovered that Ye Yuan actually stubbornly landed a piece.

"Huhu, this kid still hasn't given up?"

"Lamentable, pitiable!"

"A genius fell here."

... ..

Everyone revealed looks of contempt, very disdainful toward Ye Yuan's action of not being able to bear a loss.

But right at this moment, Medicine Ancestor's two eyes that had been shut all along suddenly snapped open, staring fixedly at the heaven and earth chessboard, erupting with rays of brilliant light!

Chapter 2316: The Defeated Victor

On the chessboard, the original black pieces no longer had a way out.

The white pieces occupied the entire territory, exterminating all of the black pieces!

This also made clear to all that Medicine Ancestor created the entire chessboard world, and that it had nothing to do with Ye Yuan anymore.

This was a dead end. Ye Yuan had no possibility of fighting back at all.

But now, this black piece was like a nail, wedging into the boundary of the white pieces.

Amidst the world full of white pieces, this black piece appeared so lonely. It looked so fragile, as if a candle flame flickering in the wind, which could be extinguished at any time.

But looking closely, the place where this black piece stood was just right.

The Tai Chi Diagram bloomed once more!

The Tai Chi diagram this time was even more solid and even more elusive!

Ye Yuan forcefully opened up a gap amidst the white pieces.

"Brilliant! Really too brilliant! This move is simply fabulous! *Hahaha* ... Old thing, the outcome is still unknown!"

Sacred Ancestor High Priest's eyes became brighter and brighter. Until the back, he actually clapped his hands and laughed loudly, saying to Medicine Ancestor.

The alchemy path powerhouses outside Cloudheart Mountain were currently very disdainful toward Ye Yuan's endless pestering at this time.

Their skill was lacking and could not perceive the brilliance of this move at all.

But those ancestor powerhouses were all incredibly shocked.

This move was too brilliant, forcefully finding a way out from amidst a deathtrap, it could be said to be being snatched from the jaws of death.

Looking at the entire game, this was the only way out.

Ye Yuan making this move, everything looked like as it ought to be.

But finding this ray of hope in this deathtrap was seriously far too difficult.

One had to know, even Medicine Ancestor himself did not discover this ray of hope.

Hence, after he landed his piece, he left with his hands behind his back. He already determined that he won.

Wanting to find this glimmer of hope required an extremely keen perception of Dao, required an extremely deep understanding of Alchemy Dao, and required exceedingly terrifying insight.

Not one could be missing!

Everyone present did not discover this glimmer of hope, but Ye Yuan discovered it.

This showed that in some aspects, Ye Yuan already surpassed everyone present.

Medicine Ancestor's expression already explained everything.

"He really did it! This boy is simply amazing!"

"Taking this step, this battle has become complicated and confusing! Who wins and who loses will be hard to say!"

"This battle, regardless of win or lose, Ye Yuan is the biggest winner! His Dao will surely improve further!"

... ..

The ancestors sighed endlessly in amazement, not stinting with praises toward Ye Yuan.

Saying that this move startled heaven and earth and made gods and ghosts weep was also not an exaggeration.

Ye Yuan's Dao would become even more complete because of this move.

"Please."

Above the void, Ye Yuan used a hoarse voice and said to Medicine Ancestor.

While around him, the power of Great Dao suddenly became much more vigorous.

And his withered physical body became fleshed out anew under the nourishment of the power of Great Dao.

Medicine Ancestor's two eyes narrowed and he arrived above the void once more.

The enormous Medicine Ancestor appeared once again!

Below Cloudheart Mountain, a huge commotion stirred.

Medicine Ancestor leaving indicated that this game was over.

Returning anew meant that this piece forced him to continue!

Medicine Ancestor had his face slapped by this piece!

The shock that this scene gave everyone could be imagined.

It was just that they could not understand what kind of storm this piece could set off.

Pah!

Medicine Ancestor landed a piece, the great battle was back on!

The Tai Chi diagram trembled violently and became much dimmer all of a sudden.

But this time, it did not extinguish!

Ye Yuan's Tai Chi diagram actually resisted Medicine Ancestor's powerful attack!

Outside Cloudheart Mountain, a huge shock was set off once more.

"What in the world is going on? Why did Second Sage become so stronger all of a sudden?"

"Already reached this stage, could he really carry on competing?"

"My God, could it be that Second Sage's legend is still continuing high? This alchemy world is going to change heavens?"

... ..

Pah!

This time, Ye Yuan's piece was similarly extremely fast.

Pah!

Medicine Ancestor suppressed once more!

The two people, coming and going, one piece after another, killing until they were locked in a struggle.

Amidst everyone's cries of exclamations, the territory of the black pieces became bigger and bigger. The Tai Chi diagram became more and more stable!

That single black piece was like a fire that set the prairie ablaze, igniting the entire heaven and earth chess game.

The two people unfolded an incomparably intense territory war in the area, fighting until they were locked in a struggle for an inch of ground.

Of course, Medicine Ancestor was still Medicine Ancestor.

His strength was still unstoppable.

But the current Ye Yuan was not without the strength to fight back as before anymore.

The ancestors held their breaths, looking at the power of Great Dao above the void surging, each and every one incomparably shocked.

No one could have expected that the situation would actually develop to this point.

"Remarkable, truly remarkable! Ye Yuan already gained a firm foothold and started snatching territory from Medicine Ancestor!"

“Ye Yuan isn’t as overbearing as Medicine Ancestor, but his Dao seems to have a kind of miraculous magical power. His strength is clearly not strong, but he can always defeat the strong as the weak.”

“I also have a feeling that the Dao which that Tai Chi diagram represents, seems to be extremely profound, and is more in line with Heavenly Dao.”

... ..

After Ye Yuan met with life in a desperate situation, it was as if he changed into a different person.

Clearly, this battle was tremendously beneficial to Ye Yuan.

One piece after another, the two people were locked in a struggle.

Finally, Ye Yuan’s last piece landed.

Game end!

Gulp!

Everyone could not resist swallowing their saliva. There was death-like silence.

Ye Yuan actually forced Medicine Ancestor to this point!

“This ... My eyes aren’t failing me, right? This reversal is also too terrifying!”

“It’s really a big counterattack! Clearly already fell completely, he actually turned it around to such a situation.”

“A pity! Truly a shame! Just a little bit more!”

... ..

Outside Cloudheart Mountain, it all exploded.

For the first 100 years, Ye Yuan was suppressed until he could not even raise his head.

In the end, in less than one month’s time, Ye Yuan actually unleashed a storm-like counterattack, forcefully turning the situation around to this point.

Above the heaven and earth chessboard, the territory that the black pieces and white pieces occupied were almost exactly the same.

Got to admit, Ye Yuan’s shocking counterattack was to one’s heart’s content, giving people an unparalleled sense of satisfaction.

Those people who looked down on Ye Yuan, ridiculed Ye Yuan, they were now all virtually cheering for Ye Yuan toward the back.

“Difference of half a point! A difference of half a point! *Hahaha* ... this boy, really ... *hahaha* ... too incredible! It’s too shocking!”

Sacred Ancestor High Priest clapped his hands and laughed loudly, earnestly from ear to ear.

Ye Yuan lost by a difference of half a point!

But no one felt that he lost!

From the defeat at the start to absolute counterattack, killing until he only lost by half a point, Ye Yuan was today's well-deserving victor.

Ye Yuan and Medicine Ancestor walked over leisurely, landed on the cloud platform.

The current Ye Yuan had long already recovered fully and became even more profound. Even many ancestors felt that they could not quite see through him anymore.

"This battle, Young Friend Ye really broadened the horizons of the world!"

Medicine Ancestor opened both eyes and stared at Ye Yuan as he said.

Ye Yuan smiled and said, "Many thanks to Medicine Ancestor for helping me achieve my aim, letting this Ye take fewer detours. You gave Senior Sacred Ancestor 'Ask Not' two words after fighting with him. Today, why not ... give this Ye two words too?"

Unrivaled Medicine God

Chapter 2317: Explosive Situation!

The short old man opened both eyes and kept sizing Ye Yuan up as if wanting to see through him.

"*Haha*, how many years has it been? It's still this old man's first time seeing you, this fellow, open your eyes. Looks like you, this old thing, really got scared," Sacred Ancestor High Priest said with a loud laugh.

Medicine Ancestor did not have overly strong emotion fluctuations. He just kept looking at Ye Yuan.

After a long time, Medicine Ancestor suddenly laughed loudly and said, "This game had let this ancestor find someone of the same Dao! Why not call this game 'Toward Dao,' how about it?"

Everyone nodded their heads one after another, deeply feeling that way too.

Second Sage was too terrifying!

After this battle, Ye Yuan shall stand at the summit of the alchemy path along with Medicine Ancestor and Sacred Ancestor High Priest, and pursue that fleeting and ephemeral Dao pill.

In this battle, Ye Yuan counterattacked and lost slightly to Medicine Ancestor with a difference of half a point. He shall become a myth of the alchemy path and shock the world!

Someone of the same Dao, it was well-deserved!

"Toward Dao? *Huhu*, rather fitting, but ... do you really know what Dao is?" Ye Yuan said with a smile that was not a smile.

Medicine Ancestor's laughter abruptly ceased, and he said with a frown, "What do you mean by this?"

Ye Yuan smiled and said, "You understand."

Surprise finally showed on Medicine Ancestor's eternally unchanging face at this time.

"You ... You touched the power of law. This is impossible!" Medicine Ancestor said.

“Whether I touched the power of law or not, I’m not clear, but I definitely saw something that you didn’t see. Someone of the same Dao? Perhaps ... you’re not worthy.”

When these words came out, the audience burst into an uproar.

In this world, how many people wanted to be associated with the Medicine Ancestor but could not?

But Ye Yuan said that Medicine Ancestor was not worthy of being associated with him.

This sentence was too shocking.

Was it Ye Yuan being arrogant? Or did he really see something different?

It was not just Medicine Ancestor. Sacred Ancestor High Priest and the various ancestors, each person’s face revealed an extremely solemn expression.

Where Dao was at, was where the heart yearned.

The people present, as long as they reached the realm of an old ancestor, who did not want to comprehend the true Dao pill?

It was just a pity that this step was far too difficult. Even Medicine Ancestor this kind of amazing talent expended a trillion years and was also unable to reach this step.

But this young man in front of him said that he saw this step, how could it not surprise people?

Medicine Ancestor’s two eyes narrowed and he said in a solemn voice, “Boy, you want to confuse my Dao heart?”

Ye Yuan smiled lightly and said, “Believing or not is up to you. It’s just that I’m not worthy of same Dao these two words. Senior Sacred Ancestor, let’s go.”

The few people were just about to leave when Medicine Ancestor’s figure shook, and he already blocked in front of them.

“Not explaining this matter clearly, nobody can think about leaving,” Medicine Ancestor said in a solemn voice.

The allure of Dao was too strong. Even Medicine Ancestor, this level of existence, was unable to resist this temptation too.

It was still alright if Ye Yuan did not speak. With him saying it, it immediately whetted everyone’s gluttonous bugs. Especially Medicine Ancestor this kind of existence, how could he easily let him leave?

Sacred Ancestor High Priest smiled contemptuously and said, “Old thing, I’m not as good as you in Alchemy Dao, but in Martial Dao, this emperor isn’t afraid of you! If you want this Cloudheart Realm to fall apart to pieces, feel free to make a move!”

In Martial Dao, Sacred Ancestor High Priest and Medicine Ancestor were both Deva Fourth Blight powerhouses, their strength utterly formidable.

Once this level of powerhouse made a move, how could Cloudheart Realm withstand it?

Medicine Ancestor's face fell and said, "If Cloudheart Realm is gone, then it's gone. Can't this ancestor build another one? Today, this kid must stay!"

For a moment, it became dangerously explosive.

Sacred Ancestor High Priest's brows furrowed slightly. It seemed like Medicine Ancestor this fellow was really going all out.

Right at this time, a few large openings suddenly fissured open above the void.

Countless figures poured out of the large mouth.

Accurately speaking, they were not humanoid figures, but a dense swath of ferocious-looking monsters.

In front of those monsters were a group of powerhouses that were identical to humans.

It was just that the aura emitting from their bodies was very different from humans.

Ye Yuan's whole body shuddered fiercely, looking at those figures above the void in shock.

He was all too familiar with these guys.

Divine race and abyss monsters!

The divine race came into being so quickly?

"How did they come into being so quickly? Furthermore, they were suppressed in the Abyss World by several great sovereign demons, why would they appear in the Heavenspan World without a sound?" Ye Yuan said in shock.

The divine race and abyss monsters appearing here were seriously too surprising.

Right now, Cloudheart Realm was already completely surrounded. All of the alchemy path powerhouses became turtles in a jar. This was not a good sign.

The one in the lead was a man with yellow hair.

The man stood with his hands behind his back, with a kind of haughtiness that showed disdain upon the world.

He did not deliberately release his pressure, but Ye Yuan felt the exact same aura as Daymeld from him.

This person was a progenitor-level powerhouse!

Ye Yuan's mind revolved like lightning. With the divine race coming here, they had likely planned for a long time.

"*Huhu*, everyone's here, how lively!" The man with yellow hair stood in the air as he said with a light laugh.

It was just that the words were full of contempt.

Medicine Ancestor's brows furrowed slightly and he said in a solemn voice, "Who are you fellow guests? To dare be impudent in my Cloudheart Realm, are you tired of living?"

Medicine Ancestor felt an extremely strong threat from the yellow-haired man's body.

Therefore, he did not make a move right away to kill the enemy but gave a warning.

Clearly, Medicine Ancestor was also not clear about the divine race's origin.

The yellow-haired man did not care about Medicine Ancestor's warning at all but looked toward the Ye Yuan in the crowd.

All of Ye Yuan's hair stood on its end, his entire person about to suffocate.

This glance was too terrifying!

"Kid, you tell them who this ancestor is," the yellow-haired man said calmly¹.

Everyone looked towards Ye Yuan, uncertain what it meant.

Someone immediately asked, "Second Sage, you know where these reckless and blind guys are from?"

Ye Yuan did not answer, he just looked at the yellow-haired man and said in a solemn voice, "Which lineage are you from?"

The yellow-haired man laughed lightly and said, "This ancestor is the Profound Lineage's third ancestor, Oringuard. Kid, you're very good, you could forcefully beat Nineorigin that kid down a boundary at the realm of Empyrean, impressive! This ancestor will only ask once. Are you willing to submit to my divine race?"

Ye Yuan's pupils constricted. This yellow-haired man was actually a Profound Lineage's ancestor!

This Profound Lineage actually appeared in the Heavenspan World without a sound, how could he not be shocked?

It was just that what he felt even more was fury.

It was precisely the Profound Lineage that forcefully separated him and Yue Mengli!

Rumble!

A monstrous rage rose from Ye Yuan's body.

His two eyes were practically wanted to spew fire as he said with a sneer, "Submit? Just the likes of your trash races? *Heh heh*, divine race ... I really don't know how you guys have the face to call yourselves this name! Hand Li-er over, otherwise, I'll trample your divine race one day!"

Oringuard did not get angry and said with a faint smile, "Divine Daughter is extraordinarily gifted. When she stands before you again, you'll get a big surprise!"

"Just what was going on here?"

"What are they talking about? What divine race, what Divine Daughter, completely never heard before!"

"Being long-winded with them for what? A bunch of guys playing tricks, just directly finish them off!"

... ..

They completely did not know about the divine race's strength, each and every one ignorant and fearless, and were about to rush over.

Unrivaled Medicine God

Chapter 2318: Declined Human Race Alchemy Dao!

Ye Yuan's gaze turned cold, killing intent billowing to the sky.

But Oringuard smiled faintly and said, "Angry? I know that your talent is amazing, you can even jump levels to defeat Nineorigin. It's just that ... you're still just an ant! In this great world, the ones who really dominate are all us, the top powerhouses!"

Medicine Ancestor's gaze turned slightly sullen and he said in a cold voice, "Who on earth is your esteemed self? If you still don't say it, this ancestor is going to be impolite!"

Oringuard gave him a glance, shook his head, and said, "You're the current human race's alchemy path's number one person? Too weak!"

Medicine Ancestor narrowed his eyes and said coolly, "Shamelessly boasting! Does a trash like you even understand what Alchemy Dao is?"

Oringuard did not explain either. He just smiled faintly, and then he held his palm up. A crystal-like ball appeared in his palm.

When Medicine Ancestor, Ye Yuan, Sacred Ancestor High Priest, and the rest saw this scene, each and every one of their pupils constricted.

Oringuard's move was clearly developing a world with Alchemy Dao. It was extremely brilliant.

This level of means was absolutely in the same class as Medicine Ancestor, an existence who was not inferior to Medicine Ancestor in the slightest.

When Ye Yuan saw this scene, he was truly incomparably shocked.

He did not expect that the divine race actually still had this kind of heaven-defying existence.

The others were similarly shocked. They had never heard before that the Heavenspan World still had an existence that could rival the Medicine Ancestor.

Where did this guy pop out from?

"Do you guys think whether or not this ancestor understands what Alchemy Dao is?" Oringuard said with a faint smile.

Medicine Ancestor had a shocked face as he said, "You ... Who the hell are you?"

"This ancestor thought that even if the human race's Alchemy Dao didn't recover to its peak state, there's at least 70% to 80% strength too. I heard that there's an alchemy conference here. That's why I'd come here to wipe out the Alchemy Dao powerhouses. But ... you guys disappoint this ancestor too much! Your current strength is really too weak compared to the human race's heyday period!"

Originguard's words carried thick disappointment, clearly feeling that he somewhat made a big fuss over nothing.

Ye Yuan's expression changed, and he said, "You want to make use of this opportunity and round the human race alchemy powerhouses in one fell swoop, cutting off the human race's reinforcement force!"

Originguard smiled faintly and said, "That's right. You're very clever. During the last Doomsday Battle, the human race's alchemy path powerhouses gave us huge problems. If not for those few old fellows, continuously delivering medicinal pills, we wouldn't have failed at all. Hence, this ancestor naturally won't miss this opportunity that only comes once in a blue moon. It's just a shame that looking at it now, this ancestor made too much of a fuss over nothing."

Everyone was shocked, becoming speechless.

"Doomsday Battle? What's that?"

"Shamelessly boasting thing! Just the likes of these few guys also want to destroy the world?"

"Reckless and blind thing, bringing a bunch of swarthy-looking monsters and you want to destroy the world?"

... ..

Doomsday Battle, this sort of thing, the vast majority of the people present never heard of it before.

The name sounded frightening, but without truly experiencing this kind of battle, who would really pay attention to this name.

However, some old fellows with very high seniority had clearly heard of this thing before, each and every one of their expressions becoming very ugly.

"All shut up for me!"

Ye Yuan gave a cold cry, interrupting everyone's discussion, and said in a solemn voice, "Put away your arrogance! These guys are very strong! Want to get out alive, put away your sectarian views, and everyone work together and be of one mind! Otherwise, not a single one can escape."

Towards this, the vast majority of the people were very disdainful.

Their arrogance already penetrated deep into the marrow. Why would they care about a bunch of guys that they had never heard of before?

Originguard smiled faintly and said, "Looks like my divine race hasn't come into being for too long already. You humans have already forgotten who is the true master of the Heavenspan World! Today, let the Heavenspan World tremble!"

It was only to see him make a gesture, causing the divine race to bring out the abyss monsters, and then they charged over.

For a moment, a dense mass charged over, shocking heaven and earth!

When the powerhouses who came to take part in the Myriad Region Alchemy Conference saw such a line-up, their faces also could not quite help changing.

“Just a bunch of monsters! Everyone, attack together and exterminate them!”

Someone shouted in the crowd.

This suggestion immediately got everyone’s response.

For a moment, one terrifying attack after another shot over toward above the void.

Above the sky, all kinds of terrifying martial techniques roared over, rumbling noises sounding out all around.

Except, these attacks were extremely scattered and undisciplined. The commotion seemed big, but actually, it did not pose lethality at all.

In such a large-scale battle, an individual’s strength was infinitely weakened.

Moreover, the strength of abyss monsters was far superior to same rank humans.

In this first wave attack, the abyss monsters actually directly resisted it. Furthermore, the losses were not severe.

When the human race powerhouses saw this scene, each and every one of their expressions changed drastically.

While at this time, the abyss monsters’ first wave attack also arrived.

One wave of attack after another fired into the crowd neat and tidily, and exploded apart.

Bang, bang, bang ...

The explosion sounds lingered on incessantly. Screams linked up together.

This wave of attacks made the human race powerhouses suffer heavy losses.

And in this short while, both sides were already fighting in close quarters, clashing together.

The moment they clashed, the human race powerhouses discovered that something was wrong.

The opponents were too strong!

The abyss monsters that they looked down on were all extremely powerful. Furthermore, their skin was coarse and their flesh thick, with their defensive power being extremely strong. It needed three or four people to join forces to face the enemy before they could barely manage to block it.

It was just that that way, the human race’s manpower became severely inadequate.

While the divine race’s powerhouses went even more without saying.

The moment they entered the battle, it was like tigers entering a flock of sheep, the lethality being extremely great.

The name of the divine race was displayed in its entirety at this moment!

“How could they be so strong? This ... This kind of combat strength is on a completely different level!”

“Is this the divine race? They don’t have world power at all! So what they are using is the power of Heavenly Dao!”

“The Heavenspan World has such a powerful race? Why have I never heard of them before?”

... ..

The human powerhouses were finally shocked!

Only at this time did they know that Ye Yuan did not warn them for nothing.

In fact, the divine race’s might was even greater than Ye Yuan said!

At this time, their gazes when looking toward Originguard became different.

If those ordinary divine race members were already so strong, then what about this progenitor-level powerhouse?

The human powerhouses were all akin to facing a great enemy, going on careful alert one after another.

Originguard smiled faintly and said, “Looks like you all already understand what’s the divine race. My divine race is the race chosen by the heavens; only cultivating Heavenly Dao! Before the previous epoch, it had always been our divine race ruling the Heavenspan World. Regardless of whether your human race, demon race, or other races, you were all our slaves! And today, we’re going to take back all that we lost!”

Everyone turned greatly pale from fright, all incomparably shocked.

The divine race was actually the former ruler!

Swoosh! Swoosh! Swoosh!

All of a sudden, many human powerhouses backed out, shuttling into the void, attempting to escape Cloudheart Realm.

Ye Yuan frowned and said, “Don’t run away! The void must have already been locked!”

His voice had yet to fade when several dead bodies fell down from the void, looking utterly ghastly.

Originguard smiled lightly and said, “Don’t think about escaping. There are 36 thousand Eight-marks Heavenly Dao Realm powerhouses in the void outside of Cloudheart Realm, casting the Grand Xingtian Heaven Locking Art! Even Deva Fourth Blights can forget about escaping here too! Kid, you’re really a talent, it’s just a shame that ... you can’t be used by us!”

Chapter 2319: Powerful Originguard!

“Yuan Xiu, Yuan Shi, the two of you lead two teams of abyss monsters to deal with that brat. Don’t think about capturing him. You guys can’t capture him. Just directly kill him!” Originguard looked in Ye Yuan’s direction and said coolly.

Yuan Xiu and Yuan Shi were two middle-stage Eight-marks Heavenly Dao Realm powerhouses. The two small squads of abyss monsters that they brought were shockingly middle-stage Heavenly Emperor Realm too.

When the human powerhouses saw this line-up, each and every one of them was stunned.

These two squads could sweep away any Heavenly Emperor powerhouse already, but they were deployed to deal with the initial-stage Heavenly Emperor Ye Yuan.

It could be seen from this how highly Originguard regarded Ye Yuan.

Ye Yuan's brows furrowed, his figure swaying, suddenly disappearing from where he was.

When he appeared again, he already arrived outside Cloudheart Mountain.

Amidst the chaotic battle, Yun Yi, Ning Siyu, and the rest were currently being besieged by the abyss monsters.

What surprised Ye Yuan was that the ones currently guarding by Yun Yi two people's sides were Empyrean Pilljade and Empyrean Flutterfeather.

Especially Empyrean Pilljade, he was covered in blood all over, with his aura being weak. He had already received severe injuries.

And beside him, there were still quite a number of peak Empyrean abyss monsters.

Of course, Flutterfeather was also not much better than him.

The moment Ye Yuan appeared, there were immediately Heavenly Emperor Realm abyss monsters that charged over.

He did not hesitate in the slightest, sword intent surging, instantly one-shotting several Heavenly Emperor abyss monsters.

More than a dozen streaks of sword energy suddenly descended. Those abyss monsters besieging Yun Yi and the rest were instantly sliced into countless pieces.

Whoosh, whoosh!

Several medicinal pills flew toward Flutterfeather and Pilljade.

When the two saw Ye Yuan, they immediately saw the dawn of hope.

Without the least bit of hesitation, they swallowed the medicinal pills that Ye Yuan tossed over.

The effects were instantly seen!

Suddenly, Empyrean Pilljade's entire body trembled, the Heavenly Emperor Realm that had blocked him for many years finally loosened at this moment!

What Ye Yuan gave him to eat was not the Nine Profounds Heavenly Emperor Pill, it was just an ordinary healing medicinal pill.

But this medicinal pill was a spiritlink divine pill!

Empyrean Pilljade knew that he was half a step away from Heavenly Emperor to begin with. Under the catalysis of the Dao accumulations inside the spiritlink divine pill, he finally broke the fetters and broke through to Heavenly Emperor!

Ye Yuan's fingertips moved, instantly forming a formation, protecting Yun Yi and the rest inside the array formation.

"You guys wait inside the grand array! Don't go anywhere!"

Ye Yuan dropped these few words coolly while his figure turning around, and he met with the two squads led by Yuan Xiu and Yuan Shi.

Swoosh! Swoosh! Swoosh!

A thousand flying swords suddenly appeared, sweeping toward the two squads.

These two squads had a total of more than 20 middle-stage Heavenly Emperor powerhouses.

Furthermore, they were not human race powerhouses, but divine race and abyss monsters.

This combat power was significantly stronger than 20 over Fourth Firmament Heavenly Emperors.

However, after Ye Yuan broke through to World Realm, how much stronger was the power of his sword formation?

He maneuvered the sword formation and could actually withstand the attacks of the two squads!

It was just a shame that these over 20 people were seriously too strong. Under their teaming up, the sword formation was in imminent danger.

Seeing this scene, the human powerhouses were all dumbfounded with amazement.

Ye Yuan actually blocked so many divine race members and abyss monsters by himself. Was this guy still human?

Previously, they all looked down on the divine race and felt that the abyss monsters were ugly and lowly. But after exchanging blows now, they were deeply aware of these two mighty race's power!

One on one was simply an extravagant hope.

But Ye Yuan jumped realms and blocked so many powerhouses. This was too shocking.

While at this time, they also deeply realized why Originguard regarded Ye Yuan so highly.

This guy was much more monstrous than even the race chosen by heaven, the divine race!

"Manpower is so tight. Yet Progenitor Originguard still let us form two squads to come and kill him. I was still very disdainful about this previously. Now, this Ye Yuan really broadened my horizons!" Yuan Xiu said in shock.

"Really too strong! No wonder after Divine Son returned, he entered the Megadeath Cave without a word. Looks like he was really triggered!" Yuan Shi said.

“Hold steady first. Don’t be in a rush to kill him! After the lord got the opportunity, it won’t be late to kill him then.” Yuan Xiu said.

Yuan Shi nodded his head, deeply feeling that way too.

Ye Yuan making a move shocked everyone.

... ..

Originguard looked in Ye Yuan’s direction and clicked his tongue in wonder as he praised, “This kid is really strong! I don’t know how he cultivates up till now. A mere human actually cultivated to such a realm. This is truly astonishing! If he’s given another 5000 years, I’m afraid that my divine race will have to turtle up inside the Abyss World forever!”

Ye Yuan’s combat power made people sigh with admiration.

If not for Nineorigin being beaten until that state, Originguard would never have believed that the human race actually produced such a monstrous freak.

The race chosen by heaven was actually beaten by a human!

When Medicine Ancestor saw Ye Yuan’s combat strength, his eyes also revealed a look of astonishment.

“Divine race is it? Truly a surprising race! This ancestor wants to see how much capability you have!”

Medicine Ancestor’s gaze turned dark, an earthshaking imposing aura surged to the sky.

Originguard smiled faintly and said, “You alone isn’t enough. The two of you attack together!”

Medicine Ancestor and Sacred Ancestor High Priest were the two strongest people among the humans present; both Deva Fourth Blight supreme powerhouses[1].

Medicine Ancestor and Sacred Ancestor High Priest exchanged a glance, and actually reached a rare unanimous conclusion.

Rumble!

Medicine Ancestor pushed a palm out, heaven and earth instantly changed colors.

The incredibly strong source power gushed out of his palm.

Cloudheart Mountain instantly turned to ashes at this moment!

The spiritual veins were severed, mountains and rivers shattering.

The seemingly played-down palm had the power to destroy heaven and decimate the earth.

This was the power of a Deva Fourth Blight supreme powerhouse!

At the same time, Wing also threw a punch out.

Space was like glass, countless cracks instantly fissuring apart.

The entire Cloudheart Realm started trembling.

Horrifying energy undulations scattered everywhere, anything that came into the slightest contact with it, instantly turned to ashes!

Great Dao was simple!

These two supreme powerhouses did not have any flashy martial technique, but the moment they took action, it obliterated the heaven and destroyed the earth.

Cloudheart Realm was singlehandedly founded by Medicine Ancestor, this realm was extremely sturdy.

But under the power of such powerhouses, it could not stand up to a single blow at all.

The Ye Yuan in the midst of fierce fighting also felt shocked. No wonder it could be called Doomsday Battle.

The fight of such powerhouses was simply too terrifying.

If a bunch of such powerhouses fought, even the Heavenspan World would also be fought until it broke to pieces.

Outside Cloudheart Mountain, powerhouses were fleeing one after another. How could they still care about fighting?

Opposite of them, Originguard beamed and said, "Not bad, not bad. Alchemy Dao can't make it, but Martial Dao is worth seeing. It's just a shame that who you guys are facing is this ancestor!"

Done talking, the Dao marks on his body released a breathtaking blue light.

A Great Dao aura that towered above all life suddenly erupted.

This eruption actually suppressed both great Deva Fourth Blight powerhouses with his strength alone!

"Detonate!"

Originguard bellowed, the void exploded!

A huge amount of energy exploded together with Medicine Ancestor two people.

Except, this explosive force was too strong, and actually overshadowed the two great Deva Fourth Blight powerhouses

"Puhwark!"

"Puhwark!"

The two supreme powerhouses tasted sweetness in their throats and actually spewed fresh blood wildly.

The divine race's ancestor actually overwhelmed two great Deva Fourth Blights with his power alone!

This scene was too shocking.

A feeling of despair spread in the hearts of all the human powerhouses.

[1] Yeah, I know, Sacred Ancestor is from the demon race, but the raw text just says human.

Unrivaled Medicine God

Chapter 2320: Fatal Burst!

“This is impossible! How can he be so strong?”

“A Deva Fourth Blight is a sovereign-level powerhouse! Two great sovereigns joining hands are actually not the match of the divine race powerhouse?”

“No wonder they said that the divine race was once the Heavenspan World’s ruler. Looking at it now, it isn’t fake! This kind of strength is simply appalling!”

... ..

Deva Fourth Blight powerhouses were god-like existences in their hearts, dominating the entire Heavenspan World.

However, the appearance of the divine race progenitor completely subverted their understanding.

In just this short while, they already believed that the divine race was the race chosen by heaven.

Wing spat a mouthful of blood and said with a smile, “Old thing, this guy is really strong, let’s not hold back anymore and bring out our true ability.”

Medicine Ancestor nodded slightly. Suddenly, the bones all over his body made clicking sounds.

The originally emaciated like a stick and short Medicine Ancestor actually slowly turned into a handsome young man.

“*Hahaha*, you, this old thing, conserved strength and stored up energy, looks like you’re still not confident in passing Deva Fifth Blight.” Wing smiled brightly.

Medicine Ancestor gave him a glance and said coolly, “Deva Fifth Blight is a life and death tribulation. How many people are confident in being able to transcend it? Originally, after this battle, this ancestor planned on comprehending Dao afterward and planned to transcend the tribulation!”

This battle had greatly benefited Ye Yuan, but it was likewise greatly beneficial to Medicine Ancestor.

With Medicine Ancestor’s talent and strength, gaining enlightenment on Dao was not impossible.

“Old dog, your turn!” Medicine Ancestor looked at Wing and said.

Wing laughed loudly, his entire person suddenly became smaller.

Under the watchful gazes of the people, Sacred Ancestor High Priest actually turned into a large black dog!

The large black dog had shiny fur, two large ears drooping down. But the two eyes were brimming with radiating vigor, revealing a murderous light.

Only then did everyone know that it turns out that Sacred Ancestor High Priest’s original body was actually a large black dog.

But after transforming, Sacred Ancestor High Priest seemed to be even more aggressive.

Originguard's gaze was scorching as he said, "Turns out that it's the descendant of a Dragon Dog. No wonder you have such strength. The Dragon Dog Clan back then was an existence on par with the demon race's Eight Great Sacred Lineages. Except, they rebelled against the divine race together with the human race, and they were crushed. I didn't expect that there are still remnant spawns existing in this world."

Large black dog Wing's entire body trembled, and he said in alarm and anger, "I was wondering why the Dragon Dog Clan declined until like this, turns out that it was actually done by your divine race! Then today, just nice, I'll settle this score!"

After he was done talking, people saw a black light fly through the sky and smash toward Originguard.

At the same time, Medicine Ancestor also made a move in time, fighting together with Originguard.

After these two people transformed, their strength indeed increased greatly.

It was just a pity that Originguard's strength was too strong. The two people teaming up still could not do anything to him.

The three people fought until the sky was rent asunder and the earth split open, and the void shattered!

Within a few rounds, Cloudheart Mountain this region of space already completely collapsed. Countless spatial turbulent flows swept inside.

The originally pristine and beautiful Cloudheart Realm with mountains and rivers already turned into an asura battlefield. Countless Cloudheart Realm powerhouses perished, their Dao dissipating.

But even so, Originguard still suppressed the two great Deva Fourth Blight powerhouses domineeringly.

His strength was clearly a magnitude stronger than the two. Under the two people's transformation, he could still handle the job with skill and ease.

There was not just these three people's peak battle; there were also many Deva Realm powerhouses among the progenitors present. Their great battle with the divine race similarly fought until the sky was rent asunder and the earth split open.

But the divine race prepared extremely well for this fight. It could be said that experts were abundant, the numbers were even more than the humans.

This great battle was virtually one-sided. The human powerhouses fell one after another. The battle situation was extremely tragic.

Ye Yuan's side similarly fought extremely hard.

His side could be said to be heavily focused. The experts besieging him were too many!

What kind of concepts were these two squads?

A small team of over 20 people was more than plenty to kill 50 same realm human powerhouses!

Yes, it was to kill, not defeat!

Killing and defeating were two completely different concepts.

But it was such two squads that were used to deal with Ye Yuan alone. It could be seen how much importance the divine race attached to him.

Ye Yuan's sword formation danced seamlessly, it was just that the defensive circle got smaller and smaller.

The opponent was seriously too strong, his realm was also too low.

"Double up, this kid almost can't hold on anymore!" Yuan Xiu said in great joy.

The abyss monsters all became even more berserk. Ye Yuan's pressure suddenly increased.

"No way! This bunch of guys are too strong. If I keep holding back, I'm afraid that the consequences will be hard to predict!"

Ye Yuan's heart sunk slightly, and Time Freeze suddenly erupted.

"Immobilize!"

At virtually the same time, the Limitless God Killing Bow was already in his hand.

The power of a Dao artifact made the faces of Yuan Xiu and the rest change suddenly.

Bow arched, sword notched!

20 over streaks of sword light disappeared in a flash, exploding on the bodies of Yuan Xiu and the rest.

Bang, bang, bang ...

The intense explosions instantly seriously wounded them.

However, Yuan Xiu and the rest were too strong. Even though the Limitless God Killing Bow was strong, it was not enough to kill them.

Ye Yuan did not stop, drawing the bow and notching his sword once more!

The second attack was released again!

Bang, bang, bang ...

Yuan Xiu and the rest did not have time to react and were hit again!

Shooting twice, the Limitless God Killing Bow practically depleted his divine essence empty.

A powerful strength naturally consumed a lot.

Ye Yuan's current divine essence thickness was comparable to a Second Firmament Heavenly Emperor.

But even so, these two shots almost drained him dry too.

However, it was not over yet!

These divine race members and abyss monsters could not be disposed of with a few strokes.

Ye Yuan pointed at the void repeatedly and actually directly refined a pill in the void!

He scoured many spirit medicines from the Hidden Lineage. Using it to refine rank eight medicinal pills now was just nice.

Ye Yuan did not bluff Medicine Ancestor. He really glimpsed the power of law in the battle this time!

Refining rank eight divine pills at this time were accomplished with even higher proficiency.

Between breaths, a medicinal pill formed!

At this critical moment, Yuan Xiu they all would not give Ye Yuan the chance to refine pills at all.

However, Ye Yuan directly gave up on the quality of the medicinal pills and simplified many refining techniques. They took shape in virtually a blink of an eye.

But even so, the rank eight medicinal pills that he refined also reached purple spirit divine-grade.

Without the slightest hesitation, Ye Yuan directly swallowed the medicinal pill and drew the bow and notched his sword one more time!

Intense explosions sounded out once more.

He refined again, shot again! Refined again, shot again!

But even so, his speed of recovery could not keep up with the speed at which the Limitless God Killing Bow siphoned his strength too.

After more than ten swords, Ye Yuan's entire person became like a vampire, emaciated like a stick.

Of course, Yuan Xiu's two squads were virtually completely annihilated!

The abyss monsters were completely eradicated. Yuan Xiu and Yuan Shi were seriously injured and on the verge of death.

This scene shocked countless powerhouses!

"Matching the sword of source with a Dao artifact, unleashing more than ten sword moves in a row, jumping realms to kill more than 20 abyss monsters, and seriously injuring divine race members! What ... What kind of combat power is this?!"

"Instantly refining rank eight divine pills! I really don't know what kind of realm he reached to be able to reach this level!"

"Too strong! Too strong! It's just a shame that Second Sage's strength is too weak! If he had Ninth Firmament Heavenly Emperor strength, he might really be able to bring us out!"

... ..

Ye Yuan's combat power did not just shock the humans, it even shocked the divine race powerhouses.

The Divine race fighting against the humans, the battle had always been fought shorthanded.

But Ye Yuan annihilated more than 20 abyss monsters alone and seriously injured divine race members.

This combat power was too terrifying!
