Chapter 2391: Inheritance Grand Array!

“Lord Wenshui, we’ve already come to the Heavenly Hidden World for five years and haven’t even met the chief instructor. This cannot be justified no matter what, right?” Shang Hang said with a forthright look.

In front of him was an old man with a long beard.

Honestly speaking, he was also very puzzled by Ye Yuan confining himself inside.

This chief instructor that Lord Profound Secrets sent for wouldn’t be making use of Deicide’s resources to only care about his own cultivation, right?

“This ... His Excellency is currently in closed-seclusion. So it’s not convenient for me to disturb too.”

Heavenly Emperor Wenshui was sent to serve as Ye Yuan’s follower by the higher-ups. Although he was a Deva powerhouse, he was still a head lower in front of Ye Yuan’s identity.

After all, Ye Yuan was beneath one person and above millions.

Shang Hang sneered coldly when he heard that and said, “*Heh!* He, this chief instructor, is really taking it easy. Making use of Deicide’s cultivation resources every day, and in the end, he doesn’t care about anything. Lord Wenshui, if he doesn’t come out today, we won’t leave! Whatever for the sake of overthrowing the divine race’s rule, fuck that bullshit, we’re not entertaining anymore!”

The current Shang Hang was simply a hothead, being far less level-headed and imposing compared to his future character.

Wenshui also leaned toward their opinion in his heart. He also felt that Ye Yuan was going somewhat overboard.

But Ye Yuan gave the orders. No one was allowed to disturb him. So Wenshui was really in a dilemma.

Wenshui let out a sigh and said, “*Sigh*, honestly speaking, I also don’t know why upstairs let him be the chief instructor. But since it’s an order, this emperor must carry it out! You all are not to cause a racket!”

“*Eh*, Lord Chief Instructor!” Shang Hang’s eyes suddenly lit up, looking in the direction of Inquire Heavenly Palace.

Wenshui was stunned and could not help turning his head.

A hint of cunningness flashed across in Shang Hang’s eyes, his body already floating toward Inquire Heavenly Palace.

Wenshui was alarmed and said, “Fine lad, want to rush over from under this emperor’s hands, no chance!”

His reaction was extremely fast too. But just as he made a move, he suddenly discovered that something was not right.

The surrounding spacetime had been distorted to varying degrees.

Although this could not stop him, in just this short while, Shang Hang already flew in.

Wenshui turned pale with fright, secretly thinking to himself that this brat was so impressive, to actually comprehend spacetime law at the same time!

But just as he was surprised, Shang Hang retreated with an even faster speed.

All of a sudden, he landed on the ground, footsteps retreating repeatedly, only barely managing to stand still after several dozen steps.

Shang Hang had a pale face, his eyes full of shock.

“S-Spacetime law!”

Shang Hang never thought that there were actually also others who grasped spacetime law!

Furthermore, in terms of strength, he could not catch up even if he whipped his horse!

A figure slowly walked out, as if walking over from the fog. Everyone could not see him clearly at all.

This person was clearly standing in front of them, but they could not see this person’s features clearly!

Unfathomable!

At this time, this was the thought in the hearts of all the geniuses.

The arrival asked nonchalantly, “What’s your name?”

Shang Hang’s expression was rather ugly, he still answered, “S-Shang Hang.”

A hint of a smile appeared on Ye Yuan’s face. He did not expect that traveling through spacetime, he actually arrived at Grand Ancestor Spacetime’s youth era.

But, thinking about it, Ye Yuan also felt relieved.

Spacetime Reversal Chaos was the heaven-defying martial technique of Shang Hang, and he triggered Shang Hang’s Spacetime Reversal Chaos in later generations. Traveling through spacetime should also be related to Shang Hang.

But the current Shang Hang had a look of immaturity, being far from the future version of him showing disdain on all under the heavens.

Even if it was just a wisp of remnant consciousness, that sort of aura that considered all beneath his notice, was not the slightest bit diminished too.

“You can comprehend spacetime law at the same time, very good!” Ye Yuan said with a smile.

Shang Hang had a look of embarrassment and said unwillingly, “Is Your Excellency mocking me? What does my bit of meager cultivation base count as in front of you?”

Ye Yuan smiled and said, “You’re not as good as me right now, but you’ll surely achieve great things in the future! Even that divine race’s progenitor, where’s the harm in battling?”

Shang Hang yearned for it as he listened, but he immediately smiled bitterly and said, "Your Excellency is thinking too much. These two power of laws are overly abstruse. Junior is already feeling somewhat struggling to make ends meet now."

Ye Yuan did not follow up, but asked, "Then, what did you guys forcefully rush Inquire Heavenly Palace for?"

Upon hearing this, Shang Hang was invigorated.

But at the thought of Ye Yuan's strength, he was like a deflated balloon, immediately shriveling up.

They originally wanted to challenge Ye Yuan, but just now, Ye Yuan did not make a move at all, just mobilizing the power of law a little and he returned to his original spot involuntarily.

This kind of means was truly inconceivable.

If Ye Yuan wanted to kill him, it was merely a matter of a single thought.

"Your Excellency, you as the chief instructor, have never appeared in five years. It's chilling the hearts of the myriad races' geniuses!" Shang Hang said forcefully.

The moment Ye Yuan heard, he smiled and said, "It's only been five years, and you can't wait for this bit of time too? You guys are also too impatient!"

Shang Hang smiled coldly and said, "Who knows what Your Excellency is thinking? If we didn't come to forcefully rush Inquire Heavenly Palace, Your Excellency probably won't leave seclusion for ten years, even 100 years too, right? Lord Profound Secrets inviting you to be the chief instructor, it is not to let you cultivate yourself daily, but it is to groom the human race's powerhouses! No matter how strong you alone are, how can you deal with the divine race's major powers?"

Ye Yuan fell silent.

He could feel Shang Hang's desire to grow strong, that sort of obsession was almost bursting out of his body.

These few in front of him were all like that.

It was precisely this sort of powerful desire that let them become that powerful, right?

When Shang Hang saw Ye Yuan's appearance, he still thought that he was acknowledging that he was in the wrong, and said with a cold smile, "Nothing to say? Someone like you isn't fit to be the chief instructor at all! You are the moth of Deicide!"

These words were said rather nastily.

Ye Yuan gave him a glance and said smilingly, "Is that so? You guys follow me."

Finished talking, he turned around and flew in the direction of Inquire Heavenly Palace.

Everyone was uncertain what it meant but still followed after.

"What kind of tricks is this person going to play?"

“Shang Hang, you’re dead for sure! You said it so nastily just now. He’s definitely going to punish you underhandedly!”

“Humph! Scared for what? What I said is the truth!”

The few people followed behind, whispering quietly.

However, entering Inquire Heavenly Palace, everyone became dumbfounded.

“These ... What are these?”

When Shang Hang saw the scenery before his eyes, his entire person was stunned.

In front of him, there was a series of complicated to the extreme grand arrays.

These array formations were linked with one another, being incomparably complicated and profound.

Glancing over, it was like a dreamy ocean. It was exquisitely beautiful!

With their horizons, they could not see through the actual situation in front of them at all.

Even Heavenly Emperor Wenshui was also stunned at this time.

These five years’ time, he was tinkering with these things inside?

Ye Yuan stood with his hands behind his back and said smilingly, “Don’t you guys want to become strong? These array formations can help you all become strong! I’ve been thinking on how to impart the power of laws that I comprehended to you guys to the maximum limit. It’s just that preaching Dao to you guys every day is clearly not a good idea. Some things can only be understood and not expressed with words. Now, I’ve integrated all that I’ve learned during my lifetime into these array formations. As long as your talents are sufficient, you’ll naturally be able to comprehend.”

Shang Hang opened his mouth wide, looking at Ye Yuan with a shocked face, wanting to speak. But he discovered that his throat seemed to be blocked. He was unable to speak no matter what.

Chapter 2392: Giving a Man a Fish Is Not as Good as Teaching Him How to Fish

When Ye Yuan set up formations, he had always accomplished it at one stroke.

The array formation that he set up for five years, it could be imagined how complicated it was.

During these five years, he could be said to have exhausted his mind and body, connecting his comprehensions and source laws to the maximum limit, expending a lot of energy.

These inheritance grand arrays not only contained his own comprehensions, but they also contained the cultivation methods for Five Element Laws as well as lightning law.

Although Ye Yuan did not cultivate the Five Element Laws, he had fought with Wan Zhen before and had his own unique understanding of the balance of the Five Element Laws.

Although his realm was not high, his horizons were extremely far.

It could be said that the height he was standing at now was unmatched by anyone.

He was standing at the height equal to heaven!

There were thousands of Great Daos. Reaching the extreme was arriving at the same destination via different means.

Regardless of which kind of law, what it pointed to in the end was all 'Dao.'

He did not cultivate the five elements, but it did not hinder him from helping other people cultivate the five elements with array formations.

These inheritance grand arrays were extremely cumbersome, but in the end, there were only 18 grand arrays!

After Ye Yuan finished setting it up, he himself also jumped in fright.

These 18 grand arrays, didn't it correspond precisely to the 18 grand ancestors later on?

Could it be that the 18 grand ancestors were all nurtured from his grand arrays?

"Didn't you all want to become stronger? Alright, all go and test it out then. I want to see which of you have the highest talent," Ye Yuan said with a look of amusement.

Ye Yuan's expression triggered everyone all at once.

Didn't you all say that I wasn't teaching? Now, I've built the house. Just see if you guys have the ability to carry it away or not.

Shang Hang gritted his teeth and said, "I'll go!"

As he said, he plunged head-first into the spatial grand array.

"Pfft!"

Shang Hang just entered the grand array and was immediately bounced back, severely wounded and vomiting blood.

The group of geniuses had shocked faces. How to play like this?

Ye Yuan looked at Shang Hang and said, "Start from the beginning. Don't reach beyond your grasp! Is your foundation really laid solidly? These grand arrays require you all to start over from the top one step at a time. Rashly rushing the formation will be life-threatening."

Shang Hang had a gloomy look as he said, "Why didn't you say it earlier?"

Ye Yuan smiled and said, "In order to make you suffer a bit."

Shang Hang rolled his eyes, but he realized that justice was not on his side. He could not say anything either.

Entering the formation again, the geniuses were all very cautious, starting from the beginning.

They chose the inheritance grand array that they were most adept in and entered inside.

The longer Shang Hang stayed in the array formation, the more alarmed he got.

This spatial inheritance grand array seemed to be tailor-made for him.

Ye Yuan did not put his spatial law into the grand array, but he formulated a whole set of training methods!

This kind of training method could let him comprehend spatial law faster and more thoroughly.

In other words, he was teaching you how to grasp spatial law, and not teaching you what was spatial law.

Shang Hang felt alarmed, what kind of height was he standing at, to be able to set up such a heaven-defying array formation?

Heavenly Emperor Wenshui's horizons were extremely far. He also saw through the inklings very quickly.

His gaze when looking at Ye Yuan immediately became different.

"Your Excellency really made contributions that will remain eternal for generations to come! I think that some of them already have considerable harvests. Your Excellency's inheritance grand arrays really broaden people's horizons! This old man has never seen before that power of laws can actually be passed on like this!" Wenshui exclaimed in shock.

Inheritance grand arrays, to these geniuses, they were tantamount to a good rain after a long drought!

Such an advanced training method opened up a door for them.

Entering for the first time would be when they benefited the most.

The effects could be said to be instantly seen!

Ye Yuan smiled and said, "Giving a man a fish is not as good as teaching him how to fish. Each person's path is different. The laws that they comprehended will also be different. Although cultivation methods are good, the achievements are limited. Teaching them the way to cultivate and letting them go and fumble their own Dao, this is the king's way!"

Wenshui exclaimed, "A terrific giving a man a fish is not as good as teaching him how to fish! Lord Profound Secrets indeed has a sharp eye for discovering able people! With Your Excellency being the chief instructor, overthrowing the divine race is right around the corner!"

Ye Yuan smiled and did not speak.

During these five years' time, his own gains had also been tremendous.

In the past five years, his spacetime law became increasingly profound.

This was also the reason why those geniuses could not see Ye Yuan's face clearly.

Even if he did not deliberately mobilize the power of spacetime, it was as if he was situated in spacetime too.

Naturally, he could not be seen clearly.

Being able to set up these 18 grand arrays required him to expend tremendous effort in the first place.

This was similarly a systematic training to Ye Yuan.

The angle at which he stood at, it was even more unimaginable for bystanders.

But after these five years, Ye Yuan faintly had a trace of feeling. It seemed like it was not far away from the time he had to leave.

In the end, Wenshui could not resist too, entering the grand array.

Ye Yuan just watched quietly by the side. He was observing these geniuses.

A month later, many geniuses already could not hold on anymore.

When their gains exceeded their abilities, they would not be able to stay in the grand array anymore.

They needed time to digest these improvements.

The earlier one came out, the worse their talent.

The later one came out, the better the talent.

Among these people, it was indeed still Shang Hang who was the last to come out.

The power of law that he comprehended was the hardest, but he was the one who lasted the longest.

It was also no wonder that he could become Grand Ancestor Spacetime in the future.

“Your Excellency, I was wrong!”

After Shang Hang came out of the formation, the first thing he did was not to get excited but to come before Ye Yuan with a look of shame and admit his fault respectfully.

He cultivated for a full half a year’s time in this grand array.

This half a year’s time, his spatial law advanced by leaps and bounds, it was almost comparable to his ten thousand years of effort in the past.

Concerning the power of this grand array, there was already no need for him to say anymore.

He also deeply understood how valuable these grand arrays that Ye Yuan spent five years to build were!

Perhaps the rise of the human race depended on these 18 grand arrays!

Ye Yuan smiled and said, “Why are you wrong?”

Shang Hang said in shame, “Your Excellency is a celestial being. This disciple shouldn’t have blamed Your Excellency wrongly!”

Ye Yuan shook his head and said, “There’s nothing wrong with your desire to become strong. Previously I was just cracking a joke with you. You and I still have fate in the future. This destined meeting shall span spacetime.”

Shang Hang discerned Ye Yuan’s overtones and said in surprise, “Isn’t Your Excellency leading us to resist the divine race together? With Your Excellency around, the world will be ours in the future!”

He examined his own conscience and felt that his talent was extremely high. But in front of Ye Yuan, what did he count as?

Ye Yuan was the human race's true future!

Ye Yuan smiled bitterly and said, "I also want to fight side-by-side with you all. But it's just a pity that ... some things can't be helped! But you rest assured, some things can't be avoided. No matter where I am, I'll fight with the divine race to the end!"

The group of geniuses felt baffled as they listened. These words seemed to have the intention of beating a retreat.

Could it be that this chief instructor was scared?

They simply could not understand what Spacetime Reversal Chaos was.

Because even Ye Yuan himself was unable to understand it.

Chapter 2393: Farewell

"Is it possible that Your Excellency is afraid of death?"

Shang Hang just admitted his fault, but the expression on his face at this time became gloomy again.

Toward Ye Yuan's behavior of cravenly clinging to life instead of braving death, he was very disapproving.

Ye Yuan was unable to stifle his laughter and said, "You'll understand in the future."

Shang Hang had a sullen face as he said, "*Humph!* All excuses! Who can know about the future? Even Lord Profound Secrets can't possibly calculate events of the future too. So how would you know? In fact, you don't even dare to show yourself with your true self!"

Ye Yuan patted his shoulder and said with a smile, "I said this before. You'll understand in the future. The destiny between you and me isn't over."

Finished saying, Ye Yuan turned around and left, leaving behind the stunned-looking group.

... ..

With the inheritance grand arrays, Inquire Heavenly Palace became the land of inheritance.

Every day, countless geniuses gathered here, cultivating inside the inheritance grand arrays.

This place became the manufacturing plant of powerhouses.

When Profound Secrets and Witchcloud and the rest learned of this, each and every one of them was inexplicably surprised.

At this time, no one felt conflicted with this decision of Profound Secrets's anymore. On the contrary, they felt that he was extremely wise.

As for Ye Yuan, he dwelled in deep seclusion these days and rarely showed his face, becoming mysterious.

But very soon, another incident happened that made the entire Deicide's upper echelons become depressed.

"Puhwark!"

Jian Rufeng vomited fresh blood, his entire person appearing very downcast.

This was already the seventh time he vomited blood today.

These days, the frequency of his blood vomiting had clearly increased dramatically, casting a shadow over the entire Deicide.

"Didn't you say that there's still at least several thousand years' time? Why ... is it like this?" Witchcloud's expression was ugly as he said.

Jian Rufeng had a haggard face, but his spirit was very healthy. He smiled and said, "*Huhu*, Old Friend, this is a good thing! With your intelligence, can't you guess why is it like this?"

Witchcloud's frowned and mused for a moment. Suddenly, his two eyes went wide and he exclaimed, "You're saying that the inheritance grand arrays, which Young Friend Ji created, made the auras of the Heavenly Hidden World's geniuses skyrocket? That's why it added a heavy burden on you, and it hastened the arrival of this day?"

Jian Rufeng nodded slightly and said, "This boy is truly a rare genius of the current age. With him around, why worry that our great cause won't succeed?"

Witchcloud frowned and said, "But don't you feel that he's a little strange recently? I heard the people below say, he said that he won't be taking part in the war with the divine race! Could it be that he's actually someone who clings to life and fears death?"

Jian Rufeng waved his hand and said, "How can someone who clings to life and fears death challenge the Sentry Celestial Palace by himself? My old friend, you make the arrangements. Three days later, my Jian Family's 100 people shall die martyrs in the performance of our duties and permanently shield Heavenly Hidden World."

Witchcloud's expression changed. His eyes were glimmering with tears as he said, "Must it be so fast?"

Jian Rufeng smiled and said, "What difference does a day earlier make? What does a day later matter? What's coming, will always come. Oh, right, have Ye Yuan come too, I have some words to say to him."

... ..

Three days later, several hundred thousand geniuses gathered.

The Jian Family's 100 major powers stood behind Jian Rufeng in silence.

Many geniuses already had their eyes brimmed over with hot tears.

The silence currently, was the prelude to a tragic song.

Everyone knew what was going to happen next.

When Ye Yuan saw this scene, he felt sorrow in his heart too.

He did not expect that because of his inheritance grand arrays, it actually accelerated Jian Rufeng's death.

Heavenly Emperor Profound Secrets was the present era's top major power. But his power alone was insufficient to shield heaven's secrets.

Hence, these 100 major powers of the Jian Family would be martyred together with him.

The Jian Family was really an admirable family!

Ye Yuan saw that there was a child beside Jian Rufeng, who vaguely had the appearance of the Heavenly Emperor Profound Secrets of the later generations.

Ye Yuan was astonished, he did not expect that he could actually meet the next generation Profound Secrets here.

Jian Rufeng stood proudly, his gaze sweeping over the group of geniuses, revealing a look of relief.

Seeing these geniuses mature well one by one, was the drive for his willing martyrdom!

These geniuses were the human race's future.

"Seeing you all grow so quickly, this ancestor feels relieved! This ancestor dying in the cause of justice isn't considered a major event originally. But calling you all over today, it's to awaken the hot blood in your hearts with my death. Resistance will lead to death! Today, it's this ancestor dying for the cause of justice. In the future, the vast majority of you guys will similarly have to be martyred!"

"You all remember this. Dying is very easy; those who are alive are the ones carrying the burden and advancing! The burden on you all is thousands of times heavier than this ancestor! I hope that from this day forth, you all will go and cultivate with a thousand, ten thousand times the effort, to exchange for the future hope of all races! Do you all understand?"

Each of Jian Rufeng's words was heavy, shocking the soul.

The geniuses present all choked up.

Jian Rufeng used his lofty sentiments to infect everyone present, including Ye Yuan.

At this moment, the blood within his body seemed to be immolating too.

How much did he want to stay behind, to fight side-by-side with these lovable people!

Ye Yuan thought of this.

It was just that he knew that that was impossible. Because the feeling of him leaving became stronger and stronger.

He seemed to be able to feel an inexplicable call.

"Understood!"

The reply was as loud as a clap of thunder.

Jian Rufeng looked at the child next to him, a hint of doting flashing across in his eyes.

“He’s called Jian Haoran, this ancestor’s youngest son. He possesses this ancestor’s bloodline. After I die, he’ll be the next generation Heavenly Emperor Profound Secrets!” Jian Rufeng said.

“We pledge our lives to protect Young Master Haoran!” The group of geniuses said in a clear voice.

But Jian Rufeng shook his head and said, “There are no cowards among my Jian Family’s men! Haoran, although you’re young, Father’s unfulfilled ambitions need you to fulfill them! Can you do it?”

Although Jian Haoran was young, under Jian Rufeng’s influence, he already had the air of a general.

His childishness had yet to shed, as he said in a childish voice, “Our Jian Family occupies the destiny of the human race, and we should be the first to bear hardships and the last to enjoy comforts! Devoting my life to duty, till my heart ceases beating!”

Jian Rufeng laughed loudly and said, “*Hahaha*, indeed my good son!”

In such adverse circumstances, the Jian Family could become such a leviathan, they indeed occupied the human race’s destiny.

But Jian Rufeng did not pat himself on the back, and instead regurgitation-fed the human race with the Jian Family’s destiny, which was truly able to evoke praises and tears.

Ye Yuan felt touched. Jian Haoran said this, and his family also did so.

Even after tens of billions of years, his original intention never changed too.

The Jian Family’s people were indeed remarkable!

Suddenly, Jian Rufeng’s gaze looked toward Ye Yuan, and his pupils could not help shrinking.

He had not seen Ye Yuan for some time already. Seeing him again at this time, he discovered that the aura on Ye Yuan’s body underwent a huge change.

Ye Yuan this person was clearly standing there, but it gave him an extremely unreal feeling.

As if, he was independent outside of this world!

He could not help but recall those rumors, could they ... be true?

But what in the world was going on?

“Ji Qingyun, can ... you stay and save the myriad races from extreme misery?” Jian Rufeng asked, being rather uncertain.

Originally, he was very optimistic about Ye Yuan.

With him around, that was why he would leave with peace of mind.

But, if Ye Yuan was not around, then would their efforts still succeed?

Everyone looked at Ye Yuan, waiting for his answer.

Unrivaled Medicine God

Chapter 2394: Both Happy and Tragic!

Everyone used expectant gazes to look at Ye Yuan, hoping to get his affirmative answer.

Presently, everyone understood the significance of Ye Yuan's existence!

He was too important to the human race!

Seeing these expectant gazes, Ye Yuan also could not bear it in his heart.

He knew that these peerless geniuses, including Shang Hang, would not be able to escape the fate of demise in the future.

"Very sorry, I'm afraid that ... I can't do it." Ye Yuan sighed quietly and said.

Buzz!

The geniuses present exploded at once.

Originally, this rumor was just some gossip. Many people did not believe it.

But when Ye Yuan personally confirmed it, they could not accept it at all.

"Why? Lord Chief Instructor is the deity in my heart! He ... He's actually so afraid of risking his neck!"

"With His Excellency around, why worry about not being able to overthrow the divine race? Why? Why is he such a person?"

"My God, the perfect image in my heart has collapsed!"

... ..

Following the appearance of the inheritance grand arrays, Ye Yuan was pushed up the altar.

The growth in strength was visible to the naked eye.

Hundreds of thousands of geniuses growing at the same time, this kind of increase could be rated as terrifying.

Someone as powerful as Jian Rufeng could not endure it anymore as well.

The delight of having growth in strength was something that no one could give to them.

Profound Secrets could shield heaven's secrets, but it was also just to not let the divine race discover them. It could not make them become stronger.

The person who made them become stronger was Ye Yuan!

This kind of means already surpassed their imagination.

So these few years, Ye Yuan had already been regarded by them as an existence on par with Profound Secrets.

Even a fool could also tell how great the significance of these 18 inheritance grand arrays was.

But now, Ye Yuan who they viewed as a god actually did not dare to face the divine race.

This fact, they were seriously unable to accept it.

“Ji Qingyun! Where did the drive when you wiped out the Sentry Celestial Palaces and faced countless divine race powerhouses by yourself back then, all go to?” Witchcloud shouted angrily and berated painfully.

He was disappointed to the extreme with Ye Yuan’s answer.

Ye Yuan had long already used his strength to conquer him, this alchemy path’s number one person.

But that was all established on the basis of overthrowing the divine race.

Now, he discovered that Ye Yuan was actually such a person. This made him unable to accept it.

Facing the questioning voices that filled the sky, Ye Yuan was just silent.

Only Jian Rufeng was absorbed in thought. Waving his hand, he said in a solemn voice, “Alright, you all don’t have to be like this! No matter how he chooses, that’s his own business! No matter what, Young Friend Ji’s contributions far outweigh his faults! It was him who brought us hope! Even if he chooses to leave, we don’t have the qualifications to question him too!”

Finished saying, he turned to Ye Yuan again and said, “Young Friend Ji, no matter what, this ancestor represents all races and thank you!”

As he said, he gave a deep bow toward Ye Yuan.

Ye Yuan was startled and hurriedly returned the bow.

When everyone saw this scene, each and every one of them was dumbstruck with amazement.

Although they were unable to accept it emotionally, they understood that Heavenly Emperor Profound Secrets’ words were not wrong.

If not for Ye Yuan’s appearance, this plan that was carefully planned by Deicide might just be an after-meal joke to the divine race.

But with Ye Yuan’s inheritance grand array, everything was different!

After bowing, Jian Rufeng turned to his clansmen, his face revealing a reluctant look, as he choked up and said, “Gentlemen, having you all die together with me today, I, Jian Rufeng, have let you all down! Heavenly Dao samsara, if there’s an afterlife, I, Jian Rufeng, am willing to toil like a slave to repay you all!”

As he said, he also gave a deep bow toward his clan members.

The clan members were greatly alarmed and returned the bow as they said, “Family Head is overwhelming us! Family Head is doing it for the people of the world, we’re willing to follow in death!”

Jian Rufeng’s gaze turned intent and he said in a clear voice, “Good! You all are my Jian Family’s fine sons! Let’s ... get started!”

Everyone said in unison, "We follow Family Head's orders!"

This conversation did not have any pretentiousness for effect, it was full of a stirring and solemn noble spirit to die.

Hundreds of thousands of hot-blooded men, how fired up with boundless enthusiasm were they?

But at this time, they were already sobbing too much to talk.

These hundreds of thousands of people, many of them were personally scouted by Jian Rufeng.

Jian Rufeng was very heroic and generous as a person, with a leader's temperament that brought people into submission.

Toward these juniors, he had never put on airs, rather like a brother being long-winded.

Just like with Ye Yuan, after meeting him, Jian Rufeng directly designated him to be the chief instructor.

This kind of breadth of spirit, even Ye Yuan was brought into submission.

The rise of the human could not do without Ye Yuan, much less without Jian Rufeng!

Ye Yuan only left behind inheritances. But this foundation was forged little by little, with Jian Rufeng expending countless years.

To talk about contributions, Ye Yuan really did not dare to take credit.

Why did the Jian Family develop into the Heavenspan World's number one major family in the future?

This was not unrelated to what Jian Rufeng paid back then.

Regardless of whether it was the human race, or demon race, or fiend race, or other races, they would all give the Jian Family face!

Therefore, the Jian Family's forces spread throughout the entire Heavenspan World, but no one dared to say anything.

Amidst the sobbing sounds, Jian Rufeng held his palm out, a blazing sun slowly rose in his palm.

That blazing sun shone with boundless radiance, emitting an aura that made people's hearts palpitate.

The incomparably vigorous aura blotted out the sky and sun as if blocking this heaven and earth.

His gaze swept over the faces of his clan members and he said in a solemn voice, "I need your strength. Who's first?"

His voice had yet to fade when a middle-aged man who bore some resemblance in looks to Jian Rufeng slowly walked out and said in a clear voice, "Big Brother, I'll go first!"

Jian Rufeng's face twitched, but he forced a smile and said, "*Haha*, good brother, you go first, big brother will follow right after!"

That laughter virtually carried tears.

This person was Jian Rufeng's younger brother, Jian Ruyun!

Jian Ruyun did not say a word, traces of power gushing out of his body, and merging into the blazing sun in Jian Rufeng's hand.

Jian Ruyun's body was also becoming fainter bit by bit, turning lighter.

Finally, it turned into nothingness.

Jian Rufeng's eyes were long already wet with tears!

A man would not easily shed tears until his heart was broken!

Even for someone as strong as Jian Rufeng, how could he bear it under such circumstances?

After Jian Ruyun, one powerhouse after another from the Jian Family also followed closely behind.

With the members of Jian Family passing away one by one, it moved everyone present greatly!

The originally sobbing sounds gradually turned into wailing sounds.

"The Jian Family is righteous! Even if I, Shang Hang, is dashed to pieces, I'll also suppress the divine race for all of eternity! Today, I swear in the name of Heavenly Dao, if I shrink back in front of divine race one day, I'll never reincarnate for all of eternity!" Shang Hang swore to heaven in tears.

"I, Qin Chao, swear to heaven, I'll definitely expel the divine race in this lifetime, nothing will shake my resolve!" In the crowd, Qin Chao similarly swore.

There was no idea how many swore an oath to heaven like them.

It was also precisely starting from today, that their aspirations became incomparably firm, all the way until the Domsday Battle erupted.

The blazing sun in Jian Rufeng's hand became larger and larger, and increasingly hotter.

Finally, the Jian Family's hundred powerhouses were all dead, while Jian Rufeng's tears had long already been dried by the blazing sun.

Next, it was his turn!

His gaze looked in Witchcloud's direction and he said, "Old Friend, I leave everything in your hands!"

As he said, an astonishing aura surged wildly.

[**Unrivaled Medicine God**](#)

Chapter 2395: Azure and Profound Dual Saints!

Jian Rufeng's aura pierced the horizon as if going to punch through this sky.

He was too strong!

Being able to surpass the divine race's strongest celestial master, Jian Rufeng's strength was beyond a doubt.

From his body, countless filaments emerged, injecting into the sun crazily.

The blazing sun slowly rose, and flew higher and higher, heading straight for that horizon.

His figure also gradually became illusory.

“Lord Profound Secrets, take care!”

“Lord Profound Secrets, f-farewell!”

... ..

The geniuses knelt down one after another and paid obeisance towards Jian Rufeng’s gradually dissipating figure over and over again.

The bitter and painful atmosphere spread throughout the entire world.

Suddenly, a drizzle floated down from the sky.

Perhaps, even heaven was moved too, right?

Ye Yuan’s throat choked up. Even if he had long already known the ending, he could not resist weeping at this time too.

Cultivators, who did not hope for longevity? Who was did not hate to part with the secular world?

Even Ye Yuan was unable to rise above conventions too.

Did Jian Rufeng not have any reluctance to part with this world?

Of course he had!

Ye Yuan saw too much reluctance in his eyes!

He could not bear to part with his younger brother, his youngest son, and could not bear to part with the foundation that he created.

But he still left resolutely.

As if this world already had no one who could hold him.

How much courage did this require?

If there was a clear future, Jian Rufeng’s sacrifice might be very meaningful.

But Ye Yuan knew that everyone present had too many uncertainties about the future.

Among them, it included Jian Rufeng himself.

If his sacrifice could not exchange for the rise of the myriad races.

If in the future, the divine race suppressed the myriad races.

Then, his sacrifice would have no meaning at all.

But, he still went to do it unswervingly!

At this very moment, any words were feeble.

Jian Rufeng might not have been the strongest person in two epochs, but, he was the number one virtuous person in two epochs!

Fully deserving!

Furthermore, Ye Yuan saw that the resolve in the eyes of the geniuses was unprecedented!

Jian Rufeng was burning himself, and igniting the hope of the myriad races!

“Ji Qingyun, is your heart made out of stone? Facing everything that Profound Secrets has done, don’t you feel ashamed standing here? Do you want him to die with his eyes open?” All of a sudden, Witchcloud burst out, questioning Ye Yuan.

Everyone knew what Ye Yuan’s existence signified.

If Deicide originally only had one spiritual pillar, that would be Jian Rufeng.

But all these had quietly changed following Ye Yuan’s arrival.

Very soon, Deicide became a dualistic structure.

Jian Rufeng and Ye Yuan were both the leaders in everyone’s hearts.

Now, Jian Rufeng was about to pass away, Ye Yuan was the best successor.

But Ye Yuan actually had no intention of taking part!

Hence, Witchcloud wanted to use this shout to redeem Ye Yuan’s heart.

Ye Yuan smiled bitterly and said, “Senior Witchcloud, it is not that this Ji doesn’t want to, but that ... I can’t!”

“You! Just why is it?!” Witchcloud’s eyes were full of incomprehension.

He could clearly feel Ye Yuan’s emotion, but just what was it that made him so full of misgivings?

“Hahaha ... So that’s how it is! Turns out that’s how it is!” Right at this time, Jian Rufeng suddenly burst into laughter, as if realizing something.

His figure already became extremely illusory and might disappear at any time.

He looked in Ye Yuan’s direction and said, “Old Friend, don’t make things difficult for him anymore! The things that he’s shouldering are what we cannot comprehend! Everyone, listen! From today onward, Ji Qingyun will be respected as a saint, titled Saint Azure! I hope that everyone will pass down his achievements and contributions forever! Everyone, remember! His contributions are far above this ancestor’s!”

Witchcloud was greatly surprised, not understanding why Jian Rufeng said so.

But he knew that Jian Rufeng definitely saw a trace of heaven’s secret on his deathbed!

Just what was it that he saw?

Who in the world was this Ji Qingyun?

Jian Rufeng looked at Ye Yuan again, his gaze already becoming different.

That look carried heavy surprise and wonder.

Jian Rufeng gave a deep bow toward Ye Yuan and said, "Many thanks for Young Friend's help. Please accept a bow from this Jian!"

Ye Yuan naturally knew what he saw and said with a sigh, "Senior, you don't have to be like this. Everything is foreordained by heaven!"

Jian Rufeng shook his head and said, "Heaven's will has destiny and has variables! Heaven's will mocks men, and don't people affect heaven's will? The cause and effect, probably even Heavenly Dao can't explain it clearly, right? This Jian will be going. Young Friend carries a heavy burden and has a long road ahead. Please take care!"

Ye Yuan also bowed down and said, "Senior seeks virtue and acquires it. This junior definitely won't let you down!"

Jian Rufeng smiled slightly, his entire person turning into a wisp of light breeze, disappearing.

And that blazing sun also gradually rose above the sky, emitting waves of terrifying undulations, completely covering up the Heavenly Hidden World's heaven's secrets.

Since then, two suns floated up in the sky of the Heavenly Hidden World!

Ye Yuan let out a long sigh, feeling like his body was hollowed out.

The crying gradually ceased. What replaced it was a deathly silence.

There were several hundred thousand people present, but not the slightest bit of sound was emitted.

Clearly, they were all immersed in grief, unable to extricate themselves for a long time.

No idea how long had passed either, Witchcloud heaved a long sigh and gave a bow toward Ye Yuan, and said, "Heaven's secrets can't be revealed, but Old Friend's words on his deathbed, it definitely won't be a careless remark. He thanked Young Friend Ji, and so this old man thanks you too! From today onwards, you are Saint Azure!"

As he said, Witchcloud directly knelt down toward Ye Yuan.

"This old man Witchcloud pays respect to Saint Azure!"

"Paying respect to Saint Azure!"

Everyone knelt down toward Ye Yuan, the shouting shocking the heavens.

Ye Yuan nodded slightly and was somewhat melancholic as he said, "Senior's words on his deathbed, this Ji doesn't dare to refuse. But Senior Profound Secrets's actions are sufficient to be conferred as a saint. This saint will posthumously canonize him as Saint Profound. Everyone doesn't have objections, right?"

Witchcloud bowed and said, "Yes, we obey Saint Azure's words! From today onward, you and Old Friend will be called Azure and Profound Dual Saints!"

Saint! A saint!

Men of great talent and virtue for eternity!

To get this qualification, one must be respected together by all races!

Ye Yuan looked at Witchcloud and said with a sigh, "Senior, this saint knows that you're filled with puzzlement, but you also know this. Heaven's secrets can't be divulged. Some things, this saint really can't explain it!"

Witchcloud's expression flickered incessantly, but he nodded his head in the end.

Ye Yuan arrived in front of Little Profound Secrets, and he forced a smile as he said, "Good job! You definitely won't be worse than your father in the future! You are also someone who has the qualification to be conferred as a saint!"

Little Profound Secrets was still young, but he already quite had the air of his father.

Hearing that, Little Profound Secrets nodded and said, "Saint Azure, rest assured. Haoran definitely won't let you and Father down!"

Ye Yuan smiled and arrived before Shang Hang again, and he said smilingly, "I hope that when you meet me again, you won't be too surprised! Alright, Saint Profound has already passed away. It's also time for this saint to leave, farewell!"

Finished saying, Ye Yuan took a step out and already vanished in front of everyone.

Jian Rufeng triggered heaven's secrets before dying, Ye Yuan had a foreboding that his time here seemed to be coming to an end.

Hence, Ye Yuan went out of the Heavenly Hidden World.

... ..

Several years later, the entire Heavenspan World was plunged into endless darkness.

A violent storm suddenly raged above the boundless and endless sea of East Billow.

A bolt of lightning tore across the sky, a figure disappeared from this spacetime.

Chapter 2396: Return

"Three years have already passed, and yet that kid hasn't woken up yet. Most likely, he won't be able to wake up anymore!"

"Heh heh, good that he can't wake up! If not for that punk, it would have been impossible for me to not even obtain the ten major inheritances! Best that he'll be a living corpse in the future!"

"Haha, Brother Carefree's resentment towards him is very deep! But thanks to him, we can cultivate for a thousand years more in the Primeval War Realm."

“That’s right! That’s right! *Haha*, if he knows about this in the spacetime turbulence, he’ll probably be angered until he vomits blood, right?”

... ..

In the Primeval War Realm’s Celestial Beast Plain, several young men had just finished a great battle and were currently discussing about Ye Yuan who was swept into the spacetime turbulence.

One of them was precisely Noble Carefree, Yu Tanzhi, who harbored deep resentment toward Ye Yuan.

Three years’ time had already passed in the outside world since Ye Yuan was swept into the spacetime turbulence, which was also 300 years in the Primeval War Realm.

The Primeval War Realm was indeed a holy land for cultivation.

These 300 years, to them, these unpredictable children, their improvement had been tremendous.

The strengths of Yu Tanzhi these people were already able to enter the Celestial Beast Plain to kill fierce beasts.

Because of Ye Yuan, Heavenly Emperor Profound Secrets made the exception and let the unpredictable children continue staying in the Primeval War Realm to cultivate.

As for the outside world’s affairs, he could only request those big shots to come forward and monitor the divine race’s activities strictly.

Fortunately, in these three years, the divine race did not cause too big of a commotion. Both parties were currently in a stalemate.

Among the few people, a youth in black robes said with a cold snort, “Yu Tanzhi, you’re a little too narrow-minded! If Ye Yuan really can’t come back, that will be a massive loss to our human race! Perhaps, our human race will fall into a state of eternal damnation! At that time, I hope that you can still laugh!”

But Yu Tanzhi said disdainfully, “Wan Zhen, don’t you scare this young noble anymore, saying it like we haven’t witnessed the divine race before! Let me tell you this. Before this young noble came in, I’ve already had a taste of the divine race’s powerhouses! Two words, merely thus! They are indeed much stronger than ordinary human powerhouses, but to us, these top unpredictable children, they are not considered very strong! Whether that punk dies or not, doesn’t have much influence on the battle situation! Moreover, do you feel that someone can escape from the spacetime turbulence?”

Yu Tanzhi made no attempt to hide his dislike for Ye Yuan. Because of Ye Yuan, he could not even enter the top 11, losing an opportunity to become stronger.

“*Oh*, is that so? Then, I’m afraid ... I’ll have to disappoint you.”

Just as Yu Tanzhi was gloating over others’ misfortune, a voice seemingly came from eternity, making everyone present jump in fright.

Yu Tanzhi’s expression changed wildly and he exclaimed, “Who! Who is it! Playing tricks, get out for this young noble!”

He spread his divine sense out, but could not find any clues at all.

But right at this time, a shocking scene appeared.

The void had an opening torn open by someone. This kind of tearing was not just traversing through the void, but spacetime being torn apart at the same time.

As if someone crawled out of the long river of time and space.

A figure walked out of that opening.

“Ye Yuan!” Wan Zhen’s pupils constricted, looking at this person in disbelief.

This figure was none other than precisely the Ye Yuan who had traveled back from the previous epoch!

When he went, it was him who triggered heaven’s secrets.

But when he returned, it was Jian Rufeng who triggered heaven’s secrets, connecting the two spacetimes.

Perhaps it was inevitable; maybe it was accidental.

But the trip to the ancient times touched Ye Yuan’s heart deeply.

This journey, he felt like he had spent as long as tens of billions of years!

Clearly just a few thousand years of life, but he felt like he had experienced seas change into mulberry fields and mulberry fields into seas.

When he returned, his mentality was already completely different.

All the way until he heard Yu Tanzhi’s voice in the spacetime turbulence did a sense of warmth arose spontaneously.

When he saw Ye Yuan again, Wan Zhen felt like he did not know him anymore.

The person was still that person.

But the feeling that he gave him was totally different.

Originally, when they looked at Ye Yuan, he was like a little brother.

But the current Ye Yuan standing in front of him, he seemed to be facing a major power who had experienced the accumulation of countless years.

Somewhat like ... Grand Ancestor Spacetime!

No, he was even more archaic than Grand Ancestor Spacetime and made people not dare to look directly at him.

“Y-Ye Yuan! This ... how is this possible? You ... You were clearly swept into the spacetime turbulence! How can you possibly return to reality?” Yu Tanzhi had an expression like he had seen a ghost, even stammering when talking.

Ye Yuan looked at Yu Tanzhi, shook his head, and said with a sigh, "Being able to go, naturally means being able to return. What's strange about it? Also, that kind of ignorant words just now, don't say them in the future. The divine race's true elites haven't appeared at all. You're being ignorantly boastful here. Who gave you the courage? The ancient times' myriad races' majors had immensely formidable means. Which one wasn't stronger than you? But they were nearly completely annihilated under the divine race's cruel oppression. I really don't know where your arrogance comes from."

Ye Yuan had witnessed before the ancient times' geniuses. In terms of talent, temperament, and courage, they were virtually a hundred times stronger than Yu Tanzhi.

It seemed like the human race had indeed been comfortable for too long.

Yu Tanzhi smiled coldly when he heard that and said, "What are you being cocky in front of this young noble for? In these 300 years, this young noble cultivated bitterly, my cultivation advancing by leaps and bounds, I'm god knows how many times stronger than back then! But you drifted in the spacetime turbulence for 300 years. Right now, you're not this young noble's match at all! What qualifications do you have to lecture this young noble?"

The moment Ye Yuan heard, he could not help being unable to stifle his laughter.

In ancient times, he was already canonized as a saint.

Although his strength had not reached the apex, his aura of a sovereign was already formed.

Was this Yu Tanzhi blind, to actually not even be able to perceive this, to actually provoke him.

Only to see him stand with his hands behind his back as he said smilingly, "Is that so? Then bring out the strength that you've cultivated bitterly these few years, and let me take a look."

Yu Tanzhi grinned hideously and said, "I had precisely that intention! You caused this young noble to fail to get the ten major inheritances, today, I'll take back a bit of interest first! After going out of the Primeval War Realm, this young noble will make you regret being born in this world!"

After talking, Yu Tanzhi released his divine essence, his aura skyrocketing. He had actually reached peak Ninth Firmament Heavenly Emperor already!

He was just half a step away from Deva Realm!

To him, there was no difficulty in transcending Deva First Blight at all.

And his power of laws was also several times stronger than before.

These 300 years, he worked harder after knowing humiliation, and his strength was indeed no idea how many times stronger than back then.

However, the Wan Zhen by the side revealed a strange look.

Before Ye Yuan left back then, he could still see Ye Yuan's actual situation clearly.

But now, he could not see through Ye Yuan at all.

The present Wan Zhen having obtained the ten major inheritances and also having experienced 300 years of bitter cultivation, his strength was no idea how many times stronger than back then.

However, when he faced the current Ye Yuan, he did not even have the courage to attack at all anymore!

Did Yu Tanzhi, this guy's head, have a hole?

Can't he see how powerful Ye Yuan was?

"Hahaha, go and die!"

Yu Tanzhi released his strength fully, smashing over towards Ye Yuan like a group of meteors.

This move could likely even forcefully contend with Deva powerhouses!

However, Ye Yuan still stood with his hands behind his back, as if he did not have the intention of making a move.

Unrivaled Medicine God

Chapter 2397: Reunion that Spanned Spacetime!

A second ago, Yu Tanzhi's momentum was astonishing, as if going to decimate this world.

But in the next second, his figure backed away involuntarily.

After a bout of tossing down, he actually returned to his original point again.

Wan Zhen's pupils constricted, looking at this scene in incredible shock.

He thought that Ye Yuan became very strong, but he did not expect that he became so strong!

Just now, Ye Yuan merely relied on spatial law, and he forced Yu Tanzhi back to his original point without even making a move!

"This ... This is also too strong, right?"

"Why did his strength become even more unfathomable in the spacetime turbulence?"

"Originally thought that he had a slim chance of surviving, but who knew that he already made all of us look up to him!"

... ..

The shock that this scene earlier brought to the group of unpredictable children was too intense.

Originally, Ye Yuan still needed to use the True Nirvana Sword Formation to deal with them, these unpredictable children.

But 300 years passed, Ye Yuan did not even need to make a move and he forced Yu Tanzhi back.

One had to know, this was the Yu Tanzhi who had already made great progress, and not the Yu Tanzhi back then.

“Impossible! Impossible! Why is your spatial law strong to this kind of extent? What on earth did you experience inside the spatial turbulent flow?” Yu Tanzhi said with a dazed look.

This exchange just now, it hit him too hard.

Although the previous Ye Yuan was monstrous, he did not exceed their imagination.

But now, he already could not see Ye Yuan clearly anymore.

Ye Yuan already reached a level that he was too far behind to catch up.

Ye Yuan sighed quietly and said, “A cleansing of the soul, a tragic song of blood and years. Of course, you may never be able to understand these.”

Everyone had blank looks, uncertain what it meant.

Just then, several powerful auras burst out of the sky.

When Heavenly Emperor Profound Secrets and the rest felt the fluctuations in spacetime, they rushed over.

When Profound Secrets saw Ye Yuan, he was overjoyed at first. But very soon, his expression changed wildly.

There was also Shang Hang who had virtually the same expression as him!

“Senior, do you feel that Ye Yuan’s aura ... seems like a person?” Profound Secrets felt that his mouth was a little dry.

That person, he would never be able to forget.

He had never seen that person’s true face before. But that person’s aura, he would never forget it.

It was him and his father! They were the ones who were called Azure and Profound Dual Saints!

It was him, who created an unprecedented flourishing age!

Shang Hang’s expression had an indescribable shock as he muttered, “This ... This is impossible! How can this be possible? He ... He ...”

In the long river of time, the time that that person existed, was merely a snap of a finger.

But it was that snap of the fingers that created a new era!

Ye Yuan superimposed the Ye Yuan in front of him together with that figure who traversed the endless long river of spacetime.

They were actually ... exactly the same!

At that time, he could not see that person’s true face clearly.

But now, he could see this person extremely clearly.

“Hang on! This ... This must be an illusion! How can this sort of thing possibly happen?” Shang Hang had a panicky look.

The others did not understand what it meant and did not know why these two great sovereigns would suddenly become so panicky.

Although Ye Yuan's return was miraculous, it was also not to the extent of making them become like this, right?

What in the world happened?

Even Ancestor Lightning had a blank face too.

He did not know what could make a supreme major power like Shang Hang have such a visible change in countenance.

What in the world happened to Ye Yuan?

"Senior Shang, what's wrong with you? Isn't he just Ye Yuan?" Ancestor Lightning said in confusion.

Shang Hang trembled, only then abruptly startled awake and said, "Right! Right! Isn't he just Ye Yuan? Misconception! *Hahaha*, it must be a misconception! Isn't that so, Profound Secrets brat?"

He turned to look at Profound Secrets and discovered that Profound Secrets was currently looking at him extremely seriously.

Shang Hang was immediately like a deflated ball.

Profound Secrets shut his eyes and took a deep breath as if digesting something.

After a long time, he opened his eyes again, and slowly let out a turbid breath as he said, "Senior Shang, I think ... I understand!"

Shang Hang's expression was ugly as he said, "What did you understand?"

Profound Secrets said solemnly, "That person appeared bafflingly and left ... Similarly incomprehensibly! Just like, he appeared out of the blue and disappeared into thin air again! Do you still remember what he said? It wasn't unwillingness, but ... couldn't! Why couldn't? Because ... he doesn't belong to that era at all! Do you still remember my father's sudden enlightenment while on his deathbed? The heaven's secrets that he saw through, must be this! Also ... do you remember what he last said to you?"

Shang Hang's entire body trembled, his eyes widening and looking toward Ye Yuan.

"Hope that when you meet me again, you won't be too surprised!

"You and I still have a bout of destiny in the future! This destiny shall span spacetime!"

Even after endless years, Shang Hang still remembered that person's words extremely clearly,

Because that person affected his whole life!

"You ... Are you really Lord Saint Azure?" Shang Hang used all the strength in his body and asked Ye Yuan.

Hearing Saint Azure two words, Ancestor Lightning's whole body trembled, looking at Ye Yuan with a look of astonishment, titanic waves being set off in his heart!

This name, there was long already no one who remembered it in this epoch.

But in the last epoch, he was one of the two people that the myriad races admired!

When he entered the Heavenly Hidden World, Azure and Profound Dual Saints were long gone.

But their great names had never been cut off from his ears before!

It was Saint Profound who won time for the myriad races with the shielding of heaven's secrets.

It was Saint Azure who set up 18 inheritance grand arrays and created 18 grand ancestors!

Without these two people, there would not be today's Heavenspan World too.

With these two people, there would not be him, this Ancestor Lightning!

But how could this blazing sun-like name be connected to this immature youth before his eyes?

Ye Yuan was silent all along. But at this time, he smiled brightly and said, "Shang Hang, long time no see! You've done very well!"

Thud!

Shang Hang was filled with a multitude of feelings, tears streaming down his old face. He actually directly knelt down toward Ye Yuan.

"Shang Hang is incompetent and failed to completely defeat the divine race! I've let Your Excellency down!" This supreme powerhouse who was akin to a divinity was crying like a child at this time.

Ancestor Lightning, Wan Zhen, Yu Tanzhi, Pang Zhen, as well as the numerous powerhouses present, all opened their mouths wide, shocked until they were unable to think.

They had long already known about this old man's identity. He was the strongest person since time immemorial and not one of!

This person was an existence who could have a showdown with the divine race's supreme powerhouse, Tian Qing!

He was the well-deserving human race's number one person.

But he actually knelt down toward Ye Yuan!

Although a lot was said, they still did not understand what in the world happened.

The scene before their eyes was too shocking.

The muscles on Profound Secrets's face twitched endlessly. But in the end, it turned into a long sigh, and he also knelt down beside Shang Hang.

"Jian Haoran pays respect to Lord Saint Azure!" Heavenly Emperor Profound Secrets said.

No matter how complicated this was, Ye Yuan's identity of Saint Azure was undoubtedly ascertained!

Saint Azure was an existence on par with his own father!

When he saw Saint Azure, he had to kneel!

Unrivaled Medicine God

Chapter 2398: Without Him, There Won't be You All!

If say Shang Hang's kneel was still within the scope of everyone's understanding.

Then Profound Secrets's kneel subverted everyone's understanding!

No matter how strong Shang Hang was, he was presently just a wisp of remnant thought too.

How strong he was, these unpredictable children could not imagine it too.

Time was sufficient to dilute everything.

But Profound Secrets was the present era's number one person!

To some extent, his status was even higher than Dao Ancestors!

Dao Ancestors were strong, that was strong in power.

But the Jian Family's tens of billions of years of operation, their forces spread to every corner of the Heavenspan World.

The great name of Heavenly Emperor Profound Secrets, there were none who did not know in the Heavenly Emperor Profound Secrets!

He was the strongest person living at the moment!

His kneel represented that the Heavenspan World's top powerhouse today bowed his head in submission in front of Ye Yuan!

This kind of surprise could not be described using words at all.

The group of unpredictable children exchanged glances, shocked beyond recognition.

"This ... What on earth happened? Ye Yuan merely made a trip into the spacetime turbulence. So why did Lord Profound Secrets kneel towards him?"

"Saint Azure? Who the hell is that, to actually be able to make an ancient supreme powerhouse and the present era's strongest person kneel down at the same time?!"

"Ye Yuan's age is merely a few thousand years old. So what right does he have to make two supreme powerhouses kneel?"

... ..

A belly full of questions was like a cat scratching, making them uncomfortable to the extreme.

Just a few centuries ago, Ye Yuan was still competing with them for the supreme inheritance.

But making a trip to the spacetime turbulence, it was as if the whole world had changed.

Seeing these two people kneel, Ye Yuan was also filled with a multitude of feelings, and said with a sigh, "All get up! The seas have already changed into mulberry fields and mulberry fields into seas! I'm just Ye Yuan, not Saint Azure!"

But Profound Secrets shook his head firmly and said, "Saint Azure is Saint Azure, unless the myriad races are destroyed! Otherwise, you'll always be Saint Azure! Without you, there wouldn't be the myriad races' ten billion years of stability! Without you, the myriad races will still be trampled under the divine race's feet! Even if seas change into mulberry fields and mulberry fields into seas, it also can't cover up your achievements!"

Talking up to here, he turned to everyone again and said, "Everyone, all come and offer greetings to Saint Azure!"

This sentence carried an unquestionable majesty.

He was not discussing with everyone, but he was commanding everyone!

Yu Tanzhi had a look of refusal to comply on his face as he gritted his teeth and said, "What bullshit Saint Azure! Based on what? He's merely a brat who's still wet behind his ears, what right does he have to make me kneel?"

"Yeah! Lord Profound Secrets, did you get the wrong person! He's Ye Yuan, not this Saint Azure you're talking about."

The group of unpredictable children could not get over this hurdle in their hearts at all. Making them kneel towards a peer, they could not do it.

But Profound Secrets's brows furrowed slightly, and he said to Yu Tanzhi, "Insulting Saint Azure is regarded as insulting the myriad races! Yu Tanzhi, you have been disqualified! Everything that you obtained in the Primeval War Realm, this emperor will also take it back!"

Profound Secrets's eyes turned dark, pointing a finger at Yu Tanzhi.

Yu Tanzhi's entire body trembled, feeling like something in his body was stripped away.

His strength was regressing rapidly. Very soon, it returned to the level when he had just entered the Primeval War Realm.

He had a look of horror and said, "My ... My strength!"

Profound Secrets's gaze was cold as he said, "The Primeval War Realm was created by me! As long as your consciousness hasn't returned to your body yet, I can take it back at any time!"

Profound Secrets could strip these countless inheritances from the Ancient Battlefield, wanting to strip away the strength that Yu Tanzhi obtained was naturally accomplished with ease.

He worked hard here for more than a thousand years. He did not expect that in the end, it was all for naught! He actually did not obtain anything!

At this time, he wished to give himself two tight slaps.

If he had long known it would be like this, why did he have to run his mouth earlier?

Except, he completely did not understand what kind of existence Saint Azure was in the eyes of Profound Secrets and Shang Hang.

The group of unpredictable children was transfixed like wooden chickens. Clearly, they did not think that it would play out like this.

At the same time, they also came to understand how sacred and inviolable Saint Azure's status in Profound Secrets's heart was!

Wan Zhen was a sensible person, so he took the lead to kneel first.

Profound Secrets might recognized him wrongly, but it was impossible for Profound Secrets and Shang Hang two people to recognize wrongly at the same time.

Clearly, judging from these two people's expressions earlier, they themselves also felt that it was too inconceivable.

They had always been denying this fact but also had no choice but to accept this fact.

But even so, the two of them still knelt down without the slightest hesitation.

This was sufficient to show how lofty Saint Azure's status was!

This kneel, Ye Yuan was deserving of it!

With Wan Zhen taking the lead, no matter how unwilling the other unpredictable sons were, they had to kneel too.

Otherwise, if they had their strength taken back by Profound Secrets, that would be awkward.

Hence, the others knelt down one after another.

Profound Secrets's gaze looked at Yu Tanzhi coldly as he said in a chilly voice, "Why? You aren't kneeling yet?"

Yu Tanzhi being looked at, felt as if he fell into a bottomless ice abyss, and he knelt down with a thud.

Having his strength taken back and he still had to kneel.

Yu Tanzhi even had the thought of wanting to cry at this time.

Heavenly Emperor Profound Secrets was an existence that he could not provoke. Even his family's ancestor, if he really provoked Profound Secrets, he would be annihilated with a snap of a finger.

In this Heavenspan World, apart from Dao Ancestors, there were none who could contend with the Jian Family.

Everyone knelt down one after another, leaving only Ancestor Lightning still standing there alone.

Profound Secrets said in a cold voice, "Pang Tian, have you forgotten who bestowed you this crown of Dao Ancestor?"

This time, Profound Secrets did not call out Ancestor Lightning, but he called his real name, Pang Tian!

This was reminding him not to forget his origin.

Without Azure and Profound Dual Saints, there would not be today's Ancestor Lightning!

Ancestor Lightning's expression flickered incessantly. Others could kneel, but he was the paramount Dao Ancestor!

How could he kneel?

However, as an ancient existence who similarly survived from the previous epoch, he was deeply aware of Azure and Profound Dual Saints' status in that era.

He was also clear that there was nothing wrong with Profound Secrets's words!

He took a deep breath, his gaze deep as he said, "Are you sure that he's Saint Azure?"

Profound Secrets nodded and said, "Irrefutable! Before this, his body didn't have that aura. But this time, he retrieved the aura that belonged to him originally from the spacetime turbulence! Therefore, he's Saint Azure!"

Ancestor Lightning was silent. Finally, he still knelt down slowly.

"Everyone, kneel thrice and kowtow nine times, pay respects to Saint Azure!" Profound Secrets said in a clear voice.

"We pay respects to Saint Azure!" Under Profound Secrets's lead, everyone carried out the etiquette of three kneels and nine kowtows in Ye Yuan's direction.

This was the highest level courtesy!

After the ceremony, Ye Yuan sighed slightly and said with a bitter smile, "All get up! Not just you guys, this saint also feels that it's inconceivable until now. But since the two of you recognized this saint, then it also confirms that this isn't an empty dream! It's just that, this is a little too inconceivable."

Profound Secrets nodded and said, "It's naturally not an empty dream! The 18 inheritance grand arrays created the human race's eternal prosperity! Nobody is able to erase this!"

Done talking, his gaze swept over all of the unpredictable children, and he said in a solemn voice, "I know that you all feel dissatisfied, feeling that Lord Saint Azure is peers with you guys, and isn't worthy of accepting the ceremony of bowing and kowtow! But, without him, this world ... won't have you all!"

Chapter 2399: Ten Billion Years as a Place to Cultivate!

"Lord Profound Secrets, your words are too much, right? Without him, there won't be us? These words sound really strange!" Pang Zhen said in a solemn voice.

At this time, only he dared to speak up.

But his words indeed represented the inner-voices of the unpredictable children.

Profound Secrets did not speak, but Shang Hang laughed coldly and said, "That's because you all don't know how great the contributions Azure and Profound Dual Saints made to the myriad races! These two

people created an era! Saint Profound, who is also Profound Secrets brat's father, offered up the lives of 100 Jian clan members as the price, to ignite the sun of heaven's secrets, and conceal heaven's secrets, winning a respite for the human race! Saint Azure, left behind 18 inheritance grand arrays, and created 18 grand ancestors as well as countless powerhouses for the myriad races! Otherwise, who do you all think these ten billion years of prosperity and stability were captured by?"

"If you all don't know how strong grand ancestors are, then this ancestor will tell you guys!"

As he said, he pointed at Ancestor Lightning and said with a proud expression, "When this ancestor was at my prime, even if he's augmented by rule, he might not be this ancestor's match too! Of course, if Heavenly Dao takes back his power of rule, it's as easy as turning my hand over ... for this ancestor to kill him!"

"Hiss ..."

All around, came a series of cold air being sucked in sounds.

This statement completely subverted their imagination.

Weren't Dao Ancestors invincible existences?

This old man before their eyes was actually so strong at his heyday?

The 18 Dao Ancestor level powerhouses ... This was simply unimaginable!

This kind of horrifying strength actually lost to the divine race!

The divine race was actually so strong!

Profound Secrets nodded his head and added, "The last Doomsday Battle was fought until the sky was rent asunder and the earth split open, mountains and rivers shattering! The 18 grand ancestors all died; the myriad races had countless powerhouses who perished! But even so, we failed to completely defeat the divine race too! You all can imagine how strong the divine race is! Therefore, without Saint Azure, even if my father ignited the sun of heaven's secrets, the myriad races would have ultimately ended in failure too! If that was the case, it would have likely caused a catastrophic blow to the myriad races, where will you all come from?"

"Therefore ... you all can be disrespectful toward this emperor, but absolutely can't be disrespectful towards Saint Azure! From today onwards, if anyone dares to be disrespectful towards Saint Azure, once it reaches this emperor's ears, this emperor will hunt him down to the ends of the world!"

The group of unpredictable children was dumbstruck with amazement from listening.

This secret from ten billion years ago, they had never heard it before.

The era was too distant, they were simply unable to imagine, what kind of extreme misery the myriad races were living in back then.

These two people's words exploded in their ears like claps of thunder.

Only then did they know how tragic the previous Doomsday Battle was.

Only then did they know how strong the ancient time myriad race powerhouses were!

Compared to the ancient times, the current myriad races powerhouses were simply trash!

No wonder Heavenly Emperor Profound Secrets would raise such a big rumpus, gathering a million unpredictable children to undergo the battle of geniuses.

Pang Zhen had a dumbfounded look and could not resist asking Ancestor Lightning, "A-Ancestor, is what he said true? A-Aren't Dao Ancestors ... invincible existences?"

Ancestor Lightning's expression was somewhat ugly, but he still nodded his head and said, "When Senior Shang was at his prime, he can annihilate Deva Fifth Blights with one hand! His spacetime law already reached an inconceivable level! If this ancestor doesn't rely on the power of law, I'm not his match at all!"

"This ... How is this possible?"

"Not Dao Ancestor, but stronger than Dao Ancestors?!"

"Can a person's strength actually reach such a terrifying level?"

... ..

With Ancestor Lightning acknowledging that he was inferior to Shang Hang, the crowd immediately burst into an uproar.

Even a Dao Ancestor was not a match, what kind of terrifying existence was that?

Then what kind of monster was the Saint Azure who could groom such a terrifying existence?

Everyone opened their mouths wide, looking at Ye Yuan in shock.

Were all these really done by him?

Yu Tanzhi's expression flickered indeterminately and he said in a solemn voice, "Lord Profound Secrets, but what has this got to do with Ye Yuan? What Saint Azure has done, this junior admires endlessly too! But Ye Yuan is someone from ten billion years later. So how can he possibly go to the ancient times to teach you all? Furthermore, just his bit of strength, what right does he have to have taught a character like Grand Ancestor Spacetime? Also, even if he traveled through spacetime this time, he wasn't even born yet ten billion years ago, how could he have taught you all? Could it be that everything that happened today is actually still ten billion years ago? None of these makes sense!"

Clearly, he still did not believe it.

Yu Tanzhi's series of questions was the key to this issue!

Ten billion years ago, Ye Yuan's grandfather's grandfather was not even born yet. How did Ye Yuan go and teach them?

Profound Secrets's brows furrowed slightly. Clearly, he could not answer this question either.

But he was certain that Ye Yuan was Saint Azure!

This was indisputable!

“Saint Azure came out of thin air and also left baselessly! Before my father died, he saw a trace of heaven’s secrets too. He said that the things that Saint Azure is shouldering, we’re all unable to understand it! But now, this emperor understands!” Profound Secrets said in a solemn voice.

Yu Tanzhi was still unrelenting as he said, “If all these were just a coincidence? Didn’t you, Lord Profound Secrets, not have seen Saint Azure’s true face too?”

As long as he proved that Ye Yuan was not Saint Azure, everything could be discussed!

What right did Ye Yuan have to become Saint Azure?

But these words really stumped Profound Secrets.

“Humph! You brat, what the hell do you know? The profundities of time and space, these two great supreme laws, forget about you, even this ancestor can hardly get a complete picture too!”

At this time, Shang Hang snorted coldly and said, “Do you know why Spacetime Reversal Chaos this move is called this name? *Heh heh*, this ancestor has only used this move once in my lifetime. That’s in that battle to deal with Tian Qing! Because once this move is used, even I can’t control the direction of time and space too! This ancestor can’t beat Tian Qing and can only exile him to the spacetime turbulence!”

“Under this move, spacetime will turn chaotic. Those who are exiled will forever be lost in the chaotic spacetime! Lord Saint Azure triggered the Spacetime Reversal Chaos, a reverse chaos happened between these two spacetime! The events of the two spacetime really happened. It’s just that because of the disorder of spacetime, the order is already not important! Or should I say, the spacetime of these ten billion years is all chaotic! Now, Lord Saint Azure returned. Only now is the spacetime of these ten billion years considered complete!”

“These 300 years, he leaped across spacetime and took back the name of Saint Azure! These ten billion years of spacetime, it is merely Saint Azure’s place to cultivate! His accomplishments in spacetime law in the future will be far above this ancestor’s! As long as he’s given sufficient time, he’ll be able to sweep away the divine race by himself!”

In terms of understanding spacetime law, no one in this world could compare to Shang Hang.

This explanation of his shocked everyone even more until they were dumbstruck with amazement.

Regarding the spacetime samsara of ten billion years as his own training land.

This kind of means was simply inconceivable!

Spacetime law, it was simply hard for ordinary people to surmise!

They were not tangible and material like other laws. They really existed, but could not be touched at all.

Furthermore, when they reached an extremely profound level, it was even harder for ordinary people to imagine.

Chapter 2400: Massive Crisis!

"Hahaha ... I, Tian Qing, finally returned from the spacetime turbulence! Shang Hang, so what even if you exiled me into the spacetime turbulence? This ancestor returning like a king, who can stop me in this era? Hahaha ..."

Not long after Ye Yuan returned to the Primeval War Realm, a middle-aged man dressed in ragged clothes rushed out of the void, laughing wildly without ceasing.

His voice was akin to rolling thunder, virtually making the entire world tremble.

Although this middle-aged man was in tattered clothes, the aura on his body was virtually smashing through this firmament.

With every action, it was as if heaven and earth moved along with him!

This middle-aged man was none other than precisely the Tian Qing who was exiled into the spacetime turbulence by Shang Hang!

An epoch later, he finally returned!

Tian Qing's appearance immediately caused a great panic.

He did not conceal his aura. Within a radius of ten million miles, all of the powerhouses trembled endlessly under his pressure.

Even some reclusive Heavenly Emperor old monsters were alarmed one after another too.

"Tian Qing ... Who is Tian Qing? How can he be so powerful?!"

"Too strong! I feel that this is simply facing Heavenly Dao!"

"What does this person want to do? His aura seems to be different from ours! He ... wouldn't be of the divine race, right?"

... ..

Some people were frightened until their faces turned green, fleeing for their lives in a panic.

The Heavenspan World had as many powerhouses as clouds, but even Ninth Firmament Heavenly Emperor mighty experts could not cause such a terrifying commotion too.

The divine race's supreme expert coming into being, it immediately alarmed countless powerhouses.

Suddenly, Tian Qing's brows furrowed, and he said with a cold snort, "Sure enough, the present Heavenspan World has already been occupied by these ants? A bunch of ants who overestimate their own ability, to actually dare affront the might of heaven! Today, I'll make you all disappear from this world!"

Done talking, he flicked his finger, an invisible stream of force tore across the air!

An apocalyptic power instantly covered a vast expanse of open ground!

Boom!

Several cities that were not far from him were instantly turned to ashes!

The billions of powerhouses in these dozens of cities were left without corpses!

The power of a single strike was utterly appalling!

Tian Qing's face was indifferent as if he just killed a bunch of ants.

However, he was clearly not satisfied yet, his figure moving, disappearing from his original spot.

Very soon, cities of varying sizes completely disappeared from the Heavenspan World one after another.

This commotion immediately caused a huge wave in the Heavenspan World!

This undulation was too terrifying, there was no way for them to not know too!

In the divine race camp, there was elated dancing and cheering!

"Hahaha, we finally waited it out! With Lord Tian Qing returning, it's time for us to sweep across the Heavenspan World!"

"Those foolish humans think that we're scared of Dao Ancestors. They completely didn't know that we were waiting for Lord Tian Qing's return!"

"An epoch of waiting, and finally, it's time for the divine race to reign over the world again!"

... ..

Among the divine race's eight lineages, the Heaven Lineage was revered as supreme!

The Heaven Lineage respected Tian Qing as supreme!

Tian Qing was the divine race's god!

His might could not be measured using words at all.

Destruction with a snap of a finger, it was referring to him.

His battle with Shang Hang back then riddled the Heavenspan World full of holes.

Shang Hang fighting against him with space and time, two great laws, was a notch inferior to him too!

Finally, Shang Hang had no choice but to activate Spacetime Reversal Chaos, exiling Tian Qing. Only then, was there the human race's final victory.

Now, Tian Qing returned, and Shang Hang was already no longer here.

Who was Tian Qing's match?

... ..

"Father, things are bad! The divine race's progenitor, Tian Qing, returned from the spacetime turbulence, and struck violently in the Heavenspan World, destroying thousands of cities! Ancestor

Water, Ancestor Fire, Ancestor Wind, three great Dao Ancestors took action at the same time. After a great battle, Tian Qing escaped back to the divine race with heavy injuries. The three great Dao Ancestors also sustained severe injuries!”

Jian Yunxin entered the Primeval War Realm in a panic, bringing in this earth-shattering news.

Everyone fell into shock.

“What did you say? Tian Qing ... returned from the spacetime turbulence?” Profound Secrets’s entire body trembled as he said absent-mindedly.

Ancestor Lightning’s expression also changed wildly and he said, “The three of them joining hands wasn’t Tian Qing’s match?”

Each and every one of the unpredictable children present was shocked until they were staring with their mouths agape.

His power alone seriously wounded three great Dao Ancestors!

This kind of strength was simply too terrifying!

It turned out that Grand Ancestor Spacetime was not boasting. The divine race strength was really too powerful!

Only then did they understand why these ancient era powerhouses were so apprehensive of the divine race!

That was Dao Ancestor!

Especially Yu Tanzhi, his face was deathly pale.

Only then did he know how ignorant he was.

“Senior Shang, this ...” Profound Secrets could not refrain from looking at Shang Hang.

Shang Hang’s eyes flickered. Finally, he let out a sigh and said, “With Saint Azure returning, the Spacetime Reversal Chaos ended. It naturally can’t stop a character like Tian Qing anymore as well!”

Profound Secrets said absent-mindedly, “How can this be? Senior Shang has already passed on, while Saint Azure has yet to attain Dao. Who else in this world can still stop Tian Qing? Could it be that our human race can’t escape this calamity in the end?”

At this very moment, it was as if the sky had fallen down in the Primeval War Realm.

Even Profound Secrets and Ancestor Lightning also lost their wits at this time.

No one could have expected that on the eve of the Doomsday Battle, such a huge change would actually occur.

Tian Qing’s return shattered all of their hopes!

In the previous era, because Saint Profound shielded heaven's secrets, the myriad races cultivated for hundreds of millions of years in the Heavenly Hidden World before they finally dragged the divine race down from their altar.

But now, there was already no time to let the human race geniuses grow up!

Even if Ye Yuan rebuilt 18 grand arrays anew, it was also impossible to groom a powerhouse like Grand Ancestor Spacetime.

They all believed that if Ye Yuan grew up, he would surely be able to stop the divine race.

But he was running out of time!

"Lord Saint Azure, what should we do now?" Shang Hang suddenly asked Ye Yuan.

In this place, it was also just him who could maintain a trace of composure.

With him saying so, everyone turned their gazes to Ye Yuan.

If say that the human race still had hope, then this hope might lie on Ye Yuan!

Ye Yuan had been silent all along. Hearing Shang Hang asked, only then he slowly said, "We still have time! This battle, although Tian Qing exhibited powerful strength, it also proved one thing, he isn't invincible! After this battle, I think that the divine race will still be afraid of Dao Ancestors' strength! Furthermore, Tian Qing probably also wouldn't dare to make a move within a short time!"

Profound Secrets's expression was ugly as he said, "But Heavenly Dao will be taking back the power of rules very soon! At that time, we won't have any reliance at all!"

Ye Yuan asked, "How long is there still?"

Profound Secrets said, "100 years at shortest, 1000 years at the longest!"

Ye Yuan fell silent again.

This time was indeed too short!

Although his cultivation speed was fast, it was also impossible to reach Tian Qing's realm in a short 1000 years.

Moreover, the divine race's powerhouses did not just have Tian Qing alone!

Each one of the divine race's eight lineages' progenitors could not be underestimated.

Even if they were inferior to Tian Qing, they were absolutely not beneath Profound Secrets too!

Only after being silent for a long time did Ye Yuan slowly say, "Since that's the case, then there's only to fight!"
