#### Chapter 2421: Consider the Future!

Ye Yuan slowly opened his eyes. There were actually nine ghostly fires rotating indeterminately in his pupils.

It was his first time feeling the power of rules at such close range.

At this moment, he finally understood why Dao Ancestors dominated above the world!

This kind of power was not what the mortal realm should have at all.

Even if your power of laws was comprehended to perfection, it was also not as good as one-ten-thousandth of rules.

“This is the power of rules? Although I’ve long known it, this saint still feels that it’s inconceivable that you all could rely on the inheritance grand arrays to comprehend the power of rules!” Ye Yuan said with vicissitudes of emotion.

When he saw Saint Profound Jian Rufeng, he knew that the countless powerhouses later on were created by him.

But at that time, he was just a late-stage World Realm martial artist after all.

The inheritance grand arrays that he left behind were able to groom 18 rule powerhouses. Even he himself also felt proud.

Lin Wushuang gave a bow respectfully and said, “The legacies that Lord Saint Azure left are legacies through the ages! Giving a man a fish is not as good as teaching him how to fish. We feel this sentence most profoundly! The 18 legacies are the perfect ways to cultivate the supreme Great Dao! Unfortunately, Lin Wushuang has a low aptitude and wasn’t able to comprehend the true heaven-defying grand array and wasn’t able to salvage the declining trend. The rule formation base that I comprehended is likely hard to enter Your Excellency’s arcane sights. I won’t impart it to Your Excellency either, but I’ll leave it in Your Excellency’s sea of consciousness for Your Excellency to refer to.”

He did not know what kind of uproar this sentence caused below!

Rule formation base? Hard to enter Your Excellency’s arcane sights?

That was rule formation base!

Those comprehending on Dao here were all Formation Dao powerhouses.

Which person did not set comprehending rule formation base as their lifelong pursuit?

But this rule powerhouse actually said that it was hard to enter His Excellency’s arcane sights!

Just what kind of existence was this lord!

These nine formation bases, even if passing one of them to them, they would be moved until they cried inordinately too, shedding tears of gratitude towards Lin Wushuang in their hearts.

Even if it was digging their hearts out, they would be willing too.

The lucky chance of a rule legacy was too hard to come across!

But the opportunity that they viewed as a treasure was actually not worth looking at when placed in front of Ye Yuan!

Everything that happened before their eyes today completely subverted their worldview.

Ye Yuan became incomparably mysterious in their eyes.

Sure enough, Ye Yuan nodded his head slightly and said, "These nine formation bases, leave them with me first. After I find a decent successor, I'll help you pass them on!"

Lin Wushuang was overjoyed and said, "Many thanks, Lord Saint Azure!"

Ye Yuan nodded and said, "Wushuang, what's the relationship between this realm of rules and Deva Fifth Blight?"

Ye Yuan had never clarified the difference between Dao Ancestor and Deva Fifth Blight.

Deva Fifth Blights also had distinctions of strong and weak.

The strong ones could even stand up to Dao Ancestors as an equal!

While the weak ones could only rule a region.

Lin Wushuang said, "Deva Fifth Blight is the superlative of cultivation realm! Because after our small world reached Deva Fifth Blight, it won't be able to improve any further! Even Dao Ancestors are actually only Deva Fifth Blights too. It's just that they are augmented with rules and possess the power of rules. Hence, they dominate above all life. Incapable of breaking through cultivation realm, and so there's only seeking a breakthrough in the power of laws. If one can reach the realm of rules, they can make their strength improve further, reaching the realm of Grand Ancestor! However, Dao Ancestors are able to mobilize a complete power of rule. Ordinary Grand Ancestors aren't their match either. Unless they reached Shang Hang that level of realm, only then would they have the capital to contend with Dao Ancestors."

Ye Yuan frowned and said, "Why is the small world unable to improve further?"

Lin Wushuang shook his head and said, "After reaching the extreme realm of Fifth Blight, it's as if you reach a bottleneck, and can no longer integrate the power of Heavenly Dao into the small world. Back then, us grand ancestors studied it before together, and expended immeasurable effort, and yet we were unable to break this shackle too!"

Hearing what Lin Wushuang said, only then did Ye Yuan know what kind of realm Dao Ancestor was.

This was also to say that after reaching Deva Realm, what you competed in was not cultivation realm but the power of laws!

Especially after reaching Deva Fifth Blight, whoever's power of law was stronger, whoever's strength was greater.

Then would his cultivation realm be able to shatter Heavenly Dao's fetters?

This was a path that no one had ever walked before. Where could he walk to, even Ye Yuan himself could not say for sure either.

But Ye Yuan had a strong feeling that this path that he took was correct!

Right now, Ye Yuan already reached the threshold of the ninth major realm.

How to take this crucial step, Ye Yuan did not have a complete idea yet.

Because to him, each cultivation realm needed to go through countless deductions, and could not have the slightest mistake.

A discrepancy of a hair's breadth could lead to an error of a thousand miles!

Actually, the human race's cultivation system originally already had problems after reaching Heavenly Emperor Realm. One must transcend the Deva blight tribulation to break through the realm.

This actually deviated from the normal cultivation method.

Although their strength increased, they also walked into a dead end.

Therefore, this step was similarly of vital importance to Ye Yuan.

Striding over, he might be able to open up another path!

*Although my chaos world is far inferior to other martial artists in terms of space, in quality it completely crushes Deva Realm powerhouses! In fact, my chaos world is even somewhat struggling to make ends meet when absorbing the Heavenspan World's heaven and earth spiritual energy. My chaos world shouldn't lose to the Heavenspan World ... in terms of quality! Now, heaven and earth have already opened up. The next step is creating myriad life! It's just that I need to think more about how to create a world that belongs to me. I need to be extra careful!* Ye Yuan tried to figure it out in his heart.

Ye Yuan finally let out a deep sigh as he said, "Forget it. This step still needs to continue to deduce, can't be impatient!"

Lin Wushuang's gaze was flickering indeterminately by the side. He knew that Ye Yuan was thinking about the matter of cultivation realm.

But he similarly also knew that Lord Saint Azure was simply a freak!

They all, these people, weighed it over later on. They concluded that even if they had the same cultivation realm as Ye Yuan at that time, and the same law comprehensions, it was also impossible to destroy the Sentry Celestial Palaces without any traces!

What did this indicate?

This indicated that under the same cultivation realm, Ye Yuan was almost invincible!

This sort of thing, even they, these grand ancestors, were unable to accomplish it. If so, then how terrifying was Lord Saint Azure's strength?

He had once discussed it with Shang Hang before. If Lord Saint Azure reached his realm of Grand Ancestor back then, he could absolutely have directly annihilated Tian Qing!

It was just a pity that Ye Yuan was not able to take part in the last Doomsday Battle.

Ye Yuan looked at Lin Wushuang and said, "I want to make a trip down the mountain. You help me to seal off Eight Void Mountain. This period of time, no one is allowed to go out! Otherwise, kill without mercy!"

Lin Wushuang said respectfully, "Yes!"

Down the mountain, the expressions of all the powerhouses changed one after another.

But none of them dared to act rashly.

Eight Void Mountain's grand array was already activated, it was too easy to eradicate them!

Even Yue Feng this kind of powerhouse, would face certain death too!

After all, this was a rule grand array!

Ye Yuan went down the mountain. When he passed by Yue Feng, Yue Feng suddenly plucked up the courage and asked, "A-Are you really Lord Saint Azure?"

Ye Yuan looked at him with a slight surprise and said, "You know about Saint Azure?"

Yue Feng's expression was ugly as he said, "My family's ancestor ... had also experienced the last Doomsday Battle! There's the legend of Azure and Profound two saints in our family! Ancestor taught that when we see Saint Azure, we must show the most solemn of ceremonies!"

Done talking, Yue Feng directly knelt down toward Ye Yuan!

### Unrivaled Medicine God

#### **Chapter 2422: Unpredictable Army Moving Out!**

"Lord Yue Feng actually knelt down too!"

"Who on earth is this Lord Saint Azure?"

"Xiu Yun, didn't you say that he came from an imperial city? But these few in front are clearly all old monsters who had lived for countless years!"

... ..

At this time, Xiu Yun was also somewhat doubting his own judgment.

Could it be that the things he investigated before were all misconceptions?

The scenes that happened before his eyes were seriously too puzzling and shocking.

Ye Yuan gave Yue Feng a beating, but now, Yue Feng turned around and directly knelt in front of Ye Yuan with a pious look.

It was if Ye Yuan was not a person, but a god!

A genuine god!

But Ye Yuan was clearly just a Heavenly Emperor Realm expert.

Ye Yuan's brows furrowed slightly. Looking at Yue Feng, he said in a solemn voice, "Since your ancestor experienced the last epoch, then you should know even more that the human race's today wasn't easy to come by! You want to stay reclusive; there's nothing wrong with it. But do you think that the divine race will let you live a sequestered life with peace of mind?"

Yue Feng had a fearful look, lying prostrate on the ground, not daring to move rashly.

When Ye Yuan saw his appearance, he found it hateful and pitiful, and said, "Forget it. You still remember your ancestor. So at least you have some sense of shame. I'll spare your life today! Whether you want to resist the divine race or not, you weigh and consider it yourself. If you really feel that you can stay aloof from the affair, being a carefree immortal is good too."

After he finished talking, he went straight down the mountain.

Yue Feng's entire body trembled, not daring to say a word.

He did not expect that Ye Yuan was actually the legendary Saint Azure!

The family teachings that his ancestor passed down was that Azure and Profound two people were virtuous saints through the ages, founding the great age of humanity.

It was just that the era was too long ago, he only took it as a legend.

He did not expect that there was really such a thing!

What he did not expect even more was that Saint Azure was actually a fine young man!

Although it was fantastical, he knew that this could not possibly be fake.

Being able to make a rule powerhouse so respectful, Ye Yuan must be Saint Azure without a doubt!

But why would Saint Azure appear in this era?

This matter, he could not figure out after racking his brains.

... ..

During the course of Ye Yuan conquering Eight Void Mountain's grand array, the outside world was already fighting fiercely.

The land of Western Realms was presently already a stretch of scorched earth.

Deva Realm powerhouses moved out one after another. They really fought until mountains collapsed and the earth fissured apart, long rivers getting cut off.

Countless spiritual lands and countless creatures were all wiped out.

However, the myriad races coalition forces were fighting as they retreated.

Although there were losses, they were not heavy.

Furthermore, the vast majority of the time, it was the human race charging in front, the other races had nothing to say.

At this time, hundreds of Deva Fourth and Fifth Blight powerhouses were currently in a bloody battle with the divine race's top masters.

This battle was already fought until space collapsed and storms were raging.

*"Hahaha, the present human race is really too weak! Your dozen over Deva Fifth Blights joined forces and can't even deal with me! Back in the days, beneath the 18 grand ancestors, there were as many powerhouses as clouds! There were even quite a number of powerhouses who could compete with this progenitor! But today, you all are too weak!"*

In the heat of the battle, Daymeld let out a burst of loud laughter, full of contempt toward the myriad races' experts.

He alone tied down 14 Deva Fifth Blight powerhouses.

Even so, he still accomplished it with ease.

This level of strength simply made the various races' powerhouses despaired.

Reaching Deva Realm and Nine-marks this level, the might of the divine race truly revealed.

This series of confrontations fought until the human race did not have any strength to fight back.

Many Deva Realm experts had fallen.

In contrast, the divine race's casualties were much fewer.

It was also that the coalition forces had a large number of experts, purely using numbers to resist Daymeld.

Otherwise, with Daymeld's strength, he would have long killed these Deva Fifth Blight powerhouses several times over.

The various races' Fifth Blight powerhouses all had livid expressions, but they were powerless to refute.

Although it was just an astonishing grand plan that Ye Yuan laid down this time, the strength displayed by the divine race still made them despair.

Especially Heavenly Dao True Martial, once it was executed, it was really killing gods if gods blocked, killing Buddha if Buddha blocked.

Its amplification of the divine race powerhouses' strength was too terrifying!

If there was no Eight Void Mountain's grand array, this kind of confidence, they might be completely defeated after a battle.

*"Commander, we almost can't hold out any longer!"*

*"Patriarch, we're about to fail!"*

... ..

Behind, the commanders of the coalition forces shouted out one after another, their voices full of despair.

Those who knew about this plan were only those high-level powerhouses.

The despair that the rest showed was not fake!

Ni Xuan's expression changed several times and he said in a cold voice, "Continue retreating!"

The commander shouted, "But Commander-in-Chief, it's Eight Void Mountain at the back! Any further back and we won't have any path anymore!"

Ni Xuan gritted his teeth and said, "Just retreat as you're told! What's with all the nonsense? Otherwise, you can fight to the death with the divine race!"

That commander had nothing more to say, he could only retreat as he fought.

When Daymeld saw the situation, he laughed loudly and said, "Weak! Really weak! Don't you humans even have an elite force?"

Ni Xuan's expression was very ugly, but he still retreated.

The army retreated as they fought, and very soon they arrived at the foot of Eight Void Mountain.

At this time, the divine race army already surrounded the coalition forces tightly like an iron bucket. There was no way to retreat at all.

Either go up the mountain and get killed by the grand array.

Or fight to the bitter end with the divine race!

Of course, the outcome was still being killed!

A subordinate asked Ni Xuan, "Commander-in-Chief, what should we do now?"

Ni Xuan had a dark look as he said, "What else can we do? Break through!"

"But we've already been surrounded! There's no way out at all!"

Ni Xuan gritted his teeth and said, "Find it! I don't believe that such a large Eight Void Mountain, they can seal off all of the paths!"

The subordinate received the order and left. Very soon, news came over.

The subordinate reported to Ni Xuan with an excited look and said, "Commander-in-chief really has godlike foresight! The divine race indeed missed out a path! We can break through from there!"

Ni Xuan sighed emotionally in his heart. How could it be him who had godlike foresight? It was Lord Saint Azure who foretold it with godlike accuracy!

In order to force out Lord Saint Azure, the divine race really did it according to Lord Saint Azure's plan and dropped into the pit bit by bit.

Of course, he would not show it on his face. His eyes just flashed and he said, "Pass down the order! Have the unpredictable army blaze the trail and carve out a bloody path! We'll charge out!"

The unpredictable army was their final trump card!

The moment the subordinates heard this, they knew that it was time for the decisive battle. All of them were extremely excited.

Actually, the subordinates had long suggested sending out the unpredictable army, but Ni Xuan refused to loosen up.

Now, he finally relented!

It was just that how could they all, these ordinary soldiers, know the true significance of the unpredictable army!

"Kill!"

Pang Zhen took the lead. Wan Zhen worked in concert from the side. Places that the unpredictable army passed through, all obstacles were swept away!

When they moved out again, the combat power of the unpredictable army already rose several levels.

The cooperation between them and their individual combat power both obtained huge improvements. Even more so, there was a batch of people who already transcended the Deva blight tribulation, becoming Deva Realm powerhouses!

Pang Zhen and Wan Zhen were two of them!

Their strength, once they entered Deva, their combat power skyrocketed.

Over there, obtaining the news that the unpredictable army moved out, Daymeld could not help being overjoyed.

"Hahaha ... Ni Xuan that brat finally can't maintain his composure anymore! This progenitor wants to see this time. Whether that Ye Yuan can really have supernatural powers or not! Everyone, heed this order! Give up on encircling and attacking the myriad races coalition forces' main force, focus all power on besieging the unpredictable army! All Nine-marks powerhouses, move out! You must kill Ye Yuan for me!" Daymeld dispatched the order loudly.

#### **Chapter 2423: Completely Reborn!**

All of a sudden, the situation changed drastically!

The divine race army retreated like the tide, this made the coalition forces somewhat at a loss on what to do.

What came immediately was a burst of ecstasy!

They did not know what happened, but they knew that they were saved.

But Ni Xuan and the group of upper echelons had solemn expressions on their faces.

This place had not entered the influence range of Eight Void Mountain's grand array yet. Ye Yuan they all were luring the enemy deep in using themselves as bait.

It was just that, how could a mere unpredictable army be able to resist the entire divine race's army?

This battle was too dangerous.

Ni Xuan they all had also urged Ye Yuan before, to not risk his life. But Ye Yuan said that if he did not take the risk, he would have to use the coalition forces' lives to take the risk!

The two sides' armies, the numbers were too many. It was impossible for all of them to enter the range of Eight Void Mountain's grand array.

Once both sides went to war, in this kind of narrow place, it would be a life-and-death battle.

At that time, there would be countless casualties.

In contrast, the unpredictable army being the bait would be much more agile.

Hence, he did not scruple to risk his life to be the bait.

Daymeld's ultimate goal was him. As soon as he appeared, the divine race would inevitably pour the power of the whole army to encircle and suppress him.

Currently, it was indeed the case!

Except, this war tactic was seriously too dangerous. Once the army fell into heavy encirclement, Ye Yuan would undoubtedly die.

One had to know, the opponent this time was not just several dozen Nine-marks Heavenly Dao Realms.

Disregarding the others, just one Daymeld was terrifying to the extreme.

"The three armies, listen to this order! Attack the divine race army and work in concert with the unpredictable legion!" Ni Xuan said in a stern voice.

... ..

The unpredictable army fell into the sea of divine race army very quickly.

A mere 70 thousand people, they were insignificant like an ant in front of the entire divine race army.

But the combat power of these 70 thousand people was surprisingly powerful!

The places that it passed through, the divine race army actually did not have any who could last more than an exchange.

The powerful divine race army appeared like a bunch of clay chickens and pottery dogs in front of this unpredictable army.

These few months, the divine race army had long already been accustomed to victory.

Suddenly seeing such a courageous human army, it shocked them.

"Why is there such a powerful legion in the human army?"

“Too strong! I feel that they are like a moving fortress; unable to shake at all!”

“I got it! They are that mysterious army that annihilated the Divine Children Legion! Really so strong”

... ..

The unpredictable army was like a bulldozer. The places that it passed through were all mowed down.

This kind of might was something that the divine race army had never experienced before.

In their perception, the human race was a bunch of ants; not worth mentioning at all.

All the way until they encountered the unpredictable army.

But they did not notice that in the unpredictable army, there was a figure who was illusory and did not make a move to kill the enemy.

The unpredictable army may seem scattered, but actually, they were extremely organized.

These unpredictable children, every three people formed a combat unit, becoming a miniature combat group.

Each combat unit formed a slightly larger combat group, so on and so forth!

This army was carrying out a group battle with precisely a powerful array formation.

This array formation was somewhat similar to Yuan Zhen three people’s Lesser Three Origin Formation back then, but it was much more brilliant than theirs.

But the entire unpredictable army had many invisible threads controlling, and the end of the threads was held in Ye Yuan’s hands!

It was him controlling the entire unpredictable army in battle.

The time that he returned was not long, the warriors of the unpredictable army were still unable to fully control the battle formation that he created.

Hence, he thought of an idea: controlling every unpredictable child as a sword!

He planted a sword intent in each person and conveyed orders with the sword intent.

Each unpredictable child only needed to move and fight according to his instructions, and they would be able to maximize their combat effectiveness!

Furthermore, being controlled by him compared to the unpredictable children fighting on their own, the power unleashed was several times greater!

The current unpredictable army, their combat effectiveness was more than a hundred times stronger than when they fought with the Divine Children Legion back then!

Among the unpredictable children, each one of their combat power was extremely fearsome.

Now, with the help of array formation, they were even more invincible!

“Your Excellency, can’t anymore! We almost can’t stop them anymore!”

“They are too strong! We can’t stop them at all! Only by sending Nine-marks powerhouses over can we stop them!”

... ..

The divine race’s battle will was very strong. But even so, they were also killed by the unpredictable army until they felt chills.

At this time, Tian Lin brought a group of Nine-marks powerhouses and just happened to arrive in time.

Seeing this scene, he could not help giving a cold snort and said in a solemn voice, “A bunch of ants also dares to challenge the majesty of the divine race! Attack together! Destroy this bunch of guys!”

Done talking, he took the lead and charged toward the unpredictable army.

The moment Heavenly Dao True Martial was unleashed, a horrifying combat power spread out.

This squad had several dozen divine race powerhouses, and also close to 100 Deva Realm abyss monsters.

This kind of strength was sufficient to squash a human army of several million experts.

With hundreds of Nine-marks powerhouses attacking in full force, how shocking was the commotion?

When the divine race army saw this scene, each and every one of them was greatly aroused!

*Pffft!*

*Puu, puu, puu!*

... ..

Tian Lin who took the lead was blown up right away.

Following that, those Nine-marks powerhouses behind him were blown up one after another.

A hundred over Nine-marks powerhouses were practically slaughtered cleanly by the unpredictable army in an instant.

The impact that this scene brought to the divine race army was seriously too strong.

Although Tian Lin was initial-stage Nine-marks, his combat power was already equivalent to Deva Second Blight.

In front of an army formed by a group of Heavenly Emperor Realms, he actually did not survive a single exchange.

This level of lethality was too terrifying!

A momentary silence actually appeared on the originally noisy and chaotic battlefield.

In a single exchange, a hundred over Nine-marks powerhouses were killed. It really shocked the divine race army.

“G-Got to be joking, right? Those were all Nine-marks lords! They even activated Heavenly Dao True Martial. They couldn’t even last a single clash?”

“Even the Divine Children Legion doesn’t have this kind of ability either, right?”

“Monsters! This army is really a group of monsters!”

... ..

For a moment, the divine race army actually did not dare to step forward. They were daunted by the unpredictable army’s overkill.

However, they did not move, but the unpredictable army did not have the intention of stopping.

With Ye Yuan controlling the army and brandishing the butcher’s knife, they charged all the way. The places that they passed through were akin to a no man’s land.

The divine race army wailed all around.

When the news in front came over, Ni Xuan as well as the group of major powers were dumbstruck with amazement.

“This ... This is a joke, right? A hundred over Nine-marks powerhouses were killed in a single exchange?”

“The last time they faced-off against the divine children army, although they won, their losses were very grievous too. Just how long has it been? How did they become so strong?”

“*Tsk tsk*, Lord Saint Azure is indeed well-deserving of being Lord Saint Azure, he truly transforms the rotten into something magical! That army of young masters actually became so strong after letting him drill them!”

The group of big shots was marveling endlessly.

But right at this time, auras that blotted out the skies and covered the earth surged over from the distance one after another. It was akin to a huge wave attacking them.

Ni Xuan’s expression changed and he said, “Daymeld arrived! Let us hurry up and get on it!”

### [Unrivaled Medicine God](#)

#### **Chapter 2424: All Fronts Making Emergency Requests!**

An astonishing aura approached from afar, arriving with a howl.

Daymeld’s aura outshone the others, overshadowing all of the divine race powerhouses.

He was too strong!

Detecting Ni Xuan and the rest approaching them, Daymeld gave a cold snort and said, “Humph! A bunch of bugs who get in the way! You all go and stop them, this progenitor will personally go and kill that brat! Also, that army, don’t let a single one off! Kill them all for me!”

He clearly became aware of the unpredictable army’s terror too. He decided to directly eliminate it and sever future troubles forever.

Under the word of command, thousands of powerhouses rushed in like a swarm of hornets and confronted Ni Xuan and the rest very quickly.

An astonishing great battle instantly broke out.

While on the other side, Ye Yuan detected Daymeld's arrival. Ye Yuan immediately sent the order to retreat.

"Wan Zhen, Pang Zhen, let's split up and retreat in the direction of Eight Void Mountain! Don't feel attached to the battle! Just retreat to Eight Void Mountain, and you guys will have won!" Ye Yuan said in a solemn voice.

The two people's hearts turned somber, and they hurriedly complied.

Charging all the way, the unpredictable army opened up a gap very quickly and retreated in the direction of the Eight Void Mountain.

Daymeld already issued a certain-kill order. The unpredictable army affected the entire divine race army's nerves. The moment they retreated, the entire divine race army chased after.

As for Ye Yuan, he urged spacetime law to the limit, heading in the direction of the main peak.

With his current strength, it was simply impossible to be Daymeld's match.

Once Daymeld caught up, that would be a road that led to death.

"Hahaha, kid, we meet again! Today, this progenitor is here to repay your courtesy of an arm, what are you running for?" Behind him came Daymeld's unbridled laughter.

Daymeld was well-deserving of being the Heaven Lineage's progenitor level powerhouse, his speed was actually much faster than Ye Yuan.

His strength was suffocatingly strong.

"Humph! It's a pity that my cultivation realm back then was too low! I wish that I could have slaughtered you, this old dog!" Ye Yuan's head did not even turn back as he said with a cold snort.

Daymeld was indifferent and said with a big laugh, "Kid, there are no ifs in this world! You couldn't kill me back then and me killing you today, this is all destined by heaven! You run, I want to see where you can run to! Eight Void Mountain's grand array is a rule grand array. Unless you can escape to the top of the mountain, otherwise, this progenitor can still kill you!"

To Daymeld, Eight Void Mountain's grand array was nothing.

As long as it did not reach the level of rules, it did not pose any threat to him.

Let a puny little Heavenly Emperor escape to the top of the mountain?

How could this sort of thing be possible?

Daymeld knew that Ye Yuan's Formation Dao attainments were merely just at the level of rank two source.

There was already no one who could reach the summit of the mountain in the human race currently!

Ye Yuan smiled coldly and said, "Alright, then you come up the mountain to kill me! I want to see until where you, this old dog, can chase me!"

The two people, one in front and one behind, bickered through the air, but their speed did not slow down in the slightest, akin to two streaks drawing an arc across the horizon.

While on the other side, the unpredictable army was also fleeing frantically.

It was just that the current unpredictable army was obviously much more mature.

Their retreat was orderly and did not show the least bit of panic.

However, without Ye Yuan controlling the grand array, the entire unpredictable army's combat power dropped significantly, and casualties also started appearing.

After all, an army of 70 thousand people being obstructed and intercepted by an army of hundreds of millions, no matter how strong, it was also impossible to be completely unscathed.

Fortunately, Ye Yuan already led them to break through the heavy encirclement. They only had to retreat step by step will do.

But right at this time, the divine race used their trump card!

The Divine Children Legion!

Although the Divine Children Legion suffered heavy casualties, there were still 40 to 50 thousand people left after all.

Lumping these 40 to 50 thousand people together, they were still a team with extremely strong combat power.

The re-emergence of the Divine Children Legion suddenly delayed the unpredictable army's speed of retreat.

However, it was also merely slowing it down.

When they crossed swords again, even if this army did not have Ye Yuan, their combat power was already completely different.

Under Wan Zhen and Pang Zhen's lead, the unpredictable army fought as they retreated, but the Divine Children Legion's casualties were continuously increasing.

The Divine Children Legion's warriors were all extremely shocked.

They did not expect that after experiencing one battle, these unpredictable army's soldiers would actually be formidable to such an extent.

However, they were under orders and desperately held the unpredictable army back.

The Divine Children Legion's soldiers all seemed to not care for their lives, rushing towards the unpredictable army as if being suicidal.

The casualties of the unpredictable army were also rising sharply.

Wan Zhen's brows furrowed, and he said in a solemn voice, "Continuing like this isn't the way to go! I'm afraid that we'll have already suffered heavy casualties before reaching Eight Void Mountain! Pang Zhen, you lead the main force away first, I'll bring ten thousand-man squads to cover the rear!"

The moment Pang Zhen's heart, his expression changed wildly and he said, "No way! Want to go, go together! Want to stay, stay together! Playing the hero like this, what kind of ability does it count as?"

After experiencing the baptism of the battlefield, the friendship of comrade-in-arms was already cultivated between Pang Zhen and Wan Zhen.

Wan Zhen was very magnanimous and furthermore, selfless, being deeply respected by the unpredictable army.

Even Pang Zhen was subdued by his bearing.

Wan Zhen said in a solemn voice, "Enough crap! At this rate, nobody can leave!"

Pang Zhen said furiously, "Want to cover the retreat, it should be me too!"

Wan Zhen said in a cold voice, "Rubbish! You have excess power and lack endurance! Rest assured, even if I fall into a heavy encirclement, I have the confidence to protect myself too! As long as they are lured into the range of the grand array, I'll be safe!"

Pang Zhen knew that what Wan Zhen said was the truth, his combat power was extremely strong, but in terms of difficulty to deal with, it was still Wan Zhen who was more troublesome.

His expression changed over and over again. Finally, he gritted his teeth and said, "Good brother, you take care!"

Wan Zhen smiled and said, "Don't say it like it's a parting of life and death. I still want to receive Lord Saint Azure's training and become a supremacy of my generation!"

After he was done talking, he said in a clear voice, "Which brothers are willing to cover the retreat with me!"

"Me!"

"Me!"

"Me!"

... ..

Those thousand-man squads' squad leaders stepped out of the ranks one after another.

From the initial-most avoidance, it already reached the current taking the initiative to volunteer for battle.

Got to admit, the growth of these unpredictable children was tremendous!

Wan Zhen laughed loudly and said, “Hahaha, good brothers! Lin Xiao, Wu Cheng ... the ten of you, follow me to cover the retreat. The others, retreat first!”

Without a doubt, the ones who remained behind to cover the retreat would definitely suffer heavy casualties, and even be completely wiped out!

Even Wan Zhen, this Deva First Blight powerhouse, might not be able to come out alive.

But no one covered!

“Kill!”

Wan Zhen did not retreat, but advanced instead, directly killing over towards the Divine Children Legion.

Only through madness could one achieve greatness!

With no retreat, these ten thousand people seemed to have gone crazy, fighting desperately.

Both sides fell into tragic hand-to-hand combats.

These ten thousand people were unrestrained. They were not fearing of death in the slightest, and they actually forcefully stopped the army!

But very soon, they were also surrounded by the countless divine race army, and they were engulfed inside.

When Pang Zhen saw this scene, tears instantly swirled in his eyes, and he roared sobbingly, “Everyone, listen up. Retreat!”

... ..

On the other side, Daymeld was in hot pursuit, the gap from Ye Yuan getting closer and closer.

It looked as if Ye Yuan was about to escape into Eight Void Mountain’s grand array.

But right then, Daymeld suddenly laughed loudly and said, “Brat, do you think that ... I’ll let you enter Eight Void Mountain? Lions go all out even when hunting a rabbit! Heavenly Dao True Martial, Shrinking Earth into an Inch, activate!”

### **Unrivaled Medicine God**

#### **Chapter 2425: Barely Escaping with His Life!**

“Not good! This aura, could it be that Daymeld’s Heavenly Dao True Martial is ... ?”

“*Hahaha*, you guessed it right! Lord Daymeld’s Heavenly Dao True Martial is called Shrinking Earth into an Inch! That boy thought that he could escape from Lord Daymeld’s hands. It’s really laughable!”

Hearing his opponent’s words, Ni Xuan’s expression became ugly to the extreme.

Shrinking Earth into an Inch, hearing the name and one would know that it was a movement technique type Heavenly Dao True Martial.

Daymeld’s speed was originally swift to the extreme. Now, coupled with Heavenly Dao True Martial, Ye Yuan would not be able to reach Eight Void Mountain at all!

For a moment, Ni Xuan burned with anxiety!

While on the other side, Wan Zhen delayed the Divine Children Legion, the divine race army continued chasing after Pang Zhen.

Without Ye Yuan taking the charge, Wan Zhen these ten thousand people fought very bitterly.

Fighting at a disadvantage of numbers, under the situation where they did not have an advantage in strength, it was even more unbelievably tragic.

Fortunately, Wan Zhen already broke through to Deva Realm, attracting the vast majority of the force.

Many unpredictable children gambled with their lives, fighting extremely miserably.

Many unpredictable children used methods that stimulate potential to greatly increase their strength.

After a bout of fierce fighting, they could even kill several people in a row. But in the end, they were surrounded and beaten to death by divine children.

The numbers on both sides were rapidly being depleted.

*Boom!*

A terrifying attack arriving from behind with a howl.

The entire world seemed to be trembling.

After activating Heavenly Dao True Martial, Daymeld's speed was too fast!

In virtually a blink of an eye, he caught up.

Eight Void Mountain's grand array looked like it was still a step away, but he could not make it anymore.

That area of space was unable to withstand this horrifying power at all, directly collapsing.

Even those spatial turbulent flows were knocked back too! The might of the power could be seen!

All the hairs on Ye Yuan's body stood on end, feeling as if the sky was falling down.

He had never seen before such terrifying power. Only then did he truly understand what was called Doomsday Battle.

Even Daymeld was like this, what about Tian Qing and the other progenitors?

That kind of power, using destroying heaven and decimating the earth to describe it was also not over the top.

At this moment, the entire foot of Eight Void Mountain was shattered!

A huge black hole was a ghastly sight to behold.

This terrifying scene made everyone extremely shocked.

Especially the unpredictable army's and coalition forces' upper echelons, each and every one of them was staring dumbfoundedly with their mouths agape.

Everything was over like that?

“Lord Saint Azure!”

Pang Zhen’s eyes turned bloodshot from anger, looking at that black hole as he roared angrily.

Tears actually already flowed down his eyes.

Unknowingly, Ye Yuan already became the leader in his heart.

At this time, with the leader dying, he was deeply saddened.

Not just him, everyone in the unpredictable army, all could not help shedding tears.

“Why is it like this! Could it be that Lord Saint Azure is gone just like that?”

“I don’t believe it! This is impossible!”

“The human race’s hope is severed just like that?”

... ..

Painful wails lingered incessantly.

Everyone was clear what Ye Yuan being killed meant.

“*Hahaha* ... ignorant child, did you really think that you could escape from under this progenitor’s hand? You completely don’t know how terrifying this progenitor was when I roamed the world unhindered! So, everything is over!”

Killing the human race’s hope, Daymeld was incredibly relieved in his heart.

Ye Yuan’s existence made him feel threatened.

This feeling of extinguishing hope made him very contented.

However, right at this moment, the void trembled, a figure covered in blood from head to toe, crawled out of the void.

Yes, crawled out!

The originally white long robes already turned a scarlet red color at this time, dreadful to behold.

The bones in his body was practically all shattered.

The aura of his body was very weak.

But he was still alive!

Daymeld’s laughter abruptly stopped.

He looked at Ye Yuan with a shocked expression, full of incredulity.

“This ... How is this possible? Is it spacetime illusion? But this progenitor’s attack can even shatter spacetime! How did he do it!”

Reaching his level of realm, every move and stance carried the might of heaven and earth.

Spacetime law could not ignore everything.

Daymeld naturally knew about Ye Yuan's spacetime illusion. Hence, he did not hold back on this move. He dealt a blow at his full power!

Under this blow, even a Deva Fifth Blight would have to die too.

But Ye Yuan actually survived!

This was simply too inconceivable.

"I understand! It's a multi-layered spacetime illusion! Fine lad, I didn't expect that your application of spacetime law already reached such a profound realm! Like this, I can't let you stay alive even more!"

Daymeld came to a sudden realization, immediately understanding it.

At the critical moment, Ye Yuan laid down several layers of spacetime illusions. He completely disrupted spacetime, narrowly avoiding this attack.

Laying down multiple layers of spacetime illusions, the difficulty did not increase a tiny bit compared to one layer of spacetime illusion.

This was an extremely profound application of spacetime law, it was not that it could be done just by knowing spacetime law.

Of course, even so, Ye Yuan was still almost killed by the horrifying power.

Daymeld's strength was too terrifying, it was already strong to the degree that it could ignore laws.

Ye Yuan's powerful power of laws could even render Yu Qin at a loss on what to do, and yet he was unable to stop Daymeld.

"Old dog, you come and kill if you have the ability!"

The moment Ye Yuan spoke, it gave everyone a fright.

That hoarse voice was like puffing bellows.

After he finished talking, he turned around and entered Eight Void Mountain.

Daymeld sneered and said, "This Eight Void Mountain is merely a dead formation, how can it stop this progenitor? Brat, you're too naive!"

Done talking, he leaped and shot towards Eight Void Mountain.

*Rumble!*

Eight Void Mountain's grand array was immediately activated.

The terrifying energy undulation smashed towards Daymeld overwhelmingly.

However, Daymeld's momentum was overwhelming, he did not fear these powerful restrictions in the slightest at all.

He actually relied on his powerful strength to forcefully resist Eight Void Mountain's grand array.

The grand array that ordinary martial artists feared like a tiger, actually could not do the slightest thing to Daymeld.

Daymeld charged all the way. Although his speed slowed down significantly, his speed of climbing the mountain was extremely fast.

But in front, Ye Yuan smiled coldly in his heart.

Entering Eight Void Mountain's grand array, he was considered to have returned home.

As long as he was willing, he could reach the summit in one step.

But he did not.

In this position, the grand array could not unleash its strongest power, and could not severely wound Daymeld at all.

He deliberately led Daymeld on, in order to bait him up.

The two people, you chase and I run, went from 3000 miles to 9000 miles, then to 18,000 miles, then to 40,000 miles!

Daymeld was in hot pursuit, the momentum getting stronger and stronger.

"Brat, you're almost reaching the limit, right? Let me tell you, as long as you're unable to reach the top, you're dead for sure today! Are you very despaired? *Hahaha ...*" Daymeld let out a burst of wild laughter at the back.

Ye Yuan just smiled coldly without ceasing and continued climbing.

Very soon, the two arrived above 60,000 miles.

Daymeld's figure suddenly stopped, having a bad feeling arising in his heart.

This distance already far surpassed the limit that Ye Yuan should reach!

But Ye Yuan was still climbing upward!

He suddenly had a feeling of falling into a pit.

At this time, Ye Yuan also stopped. Turning back, he said with a sneer, "What? Scared? Didn't you say that I can't reach the top of the mountain? Would you like to try?"

### [Unrivaled Medicine God](#)

#### **Chapter 2426: Make You Lose Three Layers of Skin!**

Although Ye Yuan was seriously wounded at this time and his aura being feeble, his words were full of disdain and sarcasm.

Daymeld's expression was very ugly as he said in a deep voice, "Are you goading this progenitor? What a joke! Even with how vast this world is, is there still a place that this progenitor doesn't dare to go to?"

Ye Yuan smiled coldly and said, "Is that so? Then you can come and try whether I can reach the top or not!"

Done talking, Ye Yuan could not be bothered to talk any longer, and so he continued climbing up.

Daymeld could not help choking and actually did not chase after right away.

He had indeed been intimidated by Ye Yuan!

Ye Yuan's calm expression made him somewhat uncertain.

Immediately, he smiled coldly and said, "Terrific lad, making an empty show of strength in front of this progenitor? Really almost got bluffed by you! A mere Heavenly Emperor Realm also wants to reach the summit of rules? Do you really think that this progenitor grew up being frightened?"

What kind of existence was Daymeld, it was naturally impossible for him to be intimidated by a few words.

But he did not know that Ye Yuan was making use of precisely this mentality of his. That was why he would intentionally goad Daymeld.

Ye Yuan was able to climb above 60,000 miles. This itself was extremely unusual already.

If Daymeld was somewhat fearful and did not dare to come up, then Ye Yuan would have wasted all his previous efforts.

But, as long as he goaded slightly, Daymeld would definitely think that he was maintaining the appearance of strength, and chase after.

Sure enough, Daymeld fell for it.

60,000 miles!

65,000 miles!

70,000 miles!

When it reached 70,000 miles, Daymeld became more and more shocked.

But he was still not willing to believe that Ye Yuan could really reach the top.

Hence, he chose to continue pursuing

71,000 miles!

73,000 miles!

When it reached 75,000 miles, Ye Yuan was still climbing.

While at this time, it already became extremely strenuous for Daymeld to barge through the formations.

All of a sudden, his heart thumped wildly, finally realizing that something was wrong.

How could a mere Heavenly Emperor Realm possibly climb to a height of 75,000 miles?

Furthermore, he discovered that ever since he entered Eight Void Mountain, the distance from Ye Yuan had been constantly shrinking, but had been within a manageable range all along.

It was like, this was simply a trap!

“Not good! Could it be that this kid is really able to reach the top? No way! I can’t go up anymore! Otherwise, even if it’s me, I’ll be biting off more than I can chew too!”

Daymeld’s expression changed wildly and he turned around and was about to leave.

But right then, a burst of cold laughter came from behind him.

“Daymeld, you already climbed so high. You’re going to leave without resting for a bit?” Ye Yuan said sarcastically.

Daymeld’s expression was solemn as he said, “Boy, you’re actually able to climb to the top of the mountain! This is impossible! However, even if you can reach the summit, it’s no use either. This is a dead formation! It can’t trap me!”

Ye Yuan gave a cold laugh and said, “Is that so? Maybe it can’t kill you, but ... not making you lose three layers of skin today, you can forget about leaving!”

*Rumble!*

The entire Eight Void Mountain Range suddenly started trembling fiercely.

Nine ghostly fires emitted a dazzling light at the top of the mountain.

A terrifying aura instantly spread throughout the entire mountain range.

Seeing this scene, Daymeld’s expression changed drastically, all the hairs on his body standing on end. A feeling of incredible danger welled up in his heart.

“This is impossible! You ... You activated the grand array? This is a rules grand array, how can you, a mere Heavenly Emperor Realm, possibly activate it?”

The scene that happened before his eyes completely surpassed Daymeld’s imagination.

A rules grand array was actually activated incomprehensibly just like this!

*Boom!*

The place where Daymeld was standing suddenly erupted with a terrifying explosion, and actually directly blasted Daymeld flying.

This explosion came extremely suddenly, without any sound, but was extremely powerful.

With Daymeld’s strength, he was actually unable to stop it.

*Boom!*

*Bang, bang!*

Daymeld was in midair when another series of shocking explosions came over, blasting until Daymeld flew around everywhere extremely wretchedly.

Each explosion sound carried a terrifying to the extreme power.

Even ordinary Deva Fifth Blights would also be blown into smithereens under this explosion.

This was the power of rules!

Lin Wushuang's figure appeared beside Ye Yuan quietly and he said in concern, "Lord Saint Azure, your injury ..."

Ye Yuan waved his hand and seethed with killing intent as he said, "Won't die! Of the divine race army, those who entered the range of the grand array, kill without mercy!"

Lin Wushuang said respectfully, "Yes!"

He then saw Ye Yuan make a gesture. Immediately, the entire Eight Void Mountain's restrictions seemed to be like boiling water, instantly boiling over.

Horrible explosion sounds sounded out everywhere on Eight Void Mountain Range.

Those slightly weaker divine race and abyss monsters were directly blasted into flying ashes.

In virtually an instant, more than half of the divine race army was killed or injured!

How could the horror of a grand array of rules be described with words?

Back then, Lin Wushuang used this grand array to kill the divine race until wails of doom filled the lands.

At present, this scene was played out again under Ye Yuan's careful planning!

While at this time, the human race powerhouses were virtually all trembling.

They were dumbstruck with amazement by this scene before their eyes.

Apart from Ni Xuan and a few people, they completely did not expect that this Eight Void Mountain's forbidden land actually became their place of heaven-defying turnaround!

They only saw the divine race experts in front of them being blasted, becoming flesh and blood in a blink of an eye.

This kind of power truly startled heaven and earth and even made gods and ghosts weep.

While in another place, the unpredictable army led by Pang Zhen was already waiting until they were burning with fury.

The moment Eight Void Mountain's grand array erupted, Pang Zhen's angry roar immediately spread throughout the three armies.

"Brother, charge back for me! Don't let a single one of the Divine Children Legion's bastards off!"

"Kill!"

The unpredictable army's power spread throughout the vast expanse of open ground all at once.

Seeing one sworn brother after another die miserably under the Divine Children Legion's besiegement, they had long already had a stomach pent up with anger.

At this time, they finally exploded.

Only to see each of the unpredictable legion's warriors have blood-shot eyes, urging their speed to the extreme, pouncing over in the direction of the Divine Children Legion.

At this time, the ten thousand people led by Wan Zhen were already left with just several hundred people, and they were still hanging on their lives bitterly.

These several hundred people protected Wan Zhen in the middle. Even if they died, they were not willing to take half a step back too.

Previously, Wan Zhen led his men in a charge, and he rushed in front alone.

There were Nine-marks powerhouses injected in the Divine Children Legion too.

Wan Zhen fought one-on-many, beheading all of the Divine Children Legion's powerhouses. However, he himself was also just left with half a life.

Just as they were on the brink of despair, battle cries suddenly shook the sky.

The army led by Pang Zhen already rushed over!

Fighting in close quarters, Pang Zhen attacked with fury, lightning source surging wildly, slapping more than a dozen divine children to death with a palm.

The unpredictable army had an unstoppable momentum, completely suppressing the Divine Children Legion's imposing momentum all at once.

They fought one-on-many, coupled with attacking in rage, killing until the Divine Children Legion suffered a crushing defeat.

... ..

On the upper echelons' side, a silent explosion blew up, those initial-stage and middle-stage Nine-marks powerhouses instantly had a large number of them that was finished off.

Even late-stage Nine-marks supreme powerhouses were also utterly routed under this horrifying explosion.

Ni Xuan and the rest took advantage of the momentum to chase after them, slaughtering their enemies until the top experts of the divine race were completely powerless to fight back.

The moment Eight Void Mountain's grand array rose up, the situation instantly reversed!

Coupled with that there were many coalition forces' experts, fighting many-on-one, a large group of the powerhouses on the divine race's side fell very quickly.

Those divine race powerhouses who did not enter the range of the grand array were all secretly exhaling that they got lucky.

## Unrivaled Medicine God

### **Chapter 2427: Great Victory!**

*Bang, bang, bang ...*

The explosion sounds coming from the top of the mountain made everyone's hearts palpitate.

Someone as strong as Daymeld was actually blasted flying away here and there like a ball, without the slightest strength to fight back.

The undulation of rules seemed to carry the might of Heavenly Dao, making people awed at the sight of it.

Daymeld was blasted until he was a blurry mess of flesh and blood from head to toe. It was a dreadful sight to behold.

Clearly, he was already seriously injured.

This kind of terrifying undulation, Daymeld's innards must have suffered tremendous shock.

If not for his strength being too formidable, he would have long already been shocked into meat paste!

"What a pity. This isn't when I was at my prime. Otherwise, he would be dead beyond a doubt." Beside Ye Yuan, Lin Wushuang said with a sigh.

Ye Yuan said coolly, "It's enough! Leave the rest to me!"

Lin Wushuang said, "Your Excellency's advancement is a little slow. Otherwise, how could it be the divine race's turn to behave wildly?"

Ye Yuan said helplessly, "Born in wrong times; what can be done about it?"

Lin Wushuang's body already became very illusory at this time and was actually looking like it was about to dissipate.

He bowed to the ground and said, "Your Excellency, the blood essence left behind by this disciple has been exhausted after this battle! In the future, this disciple won't be able to follow Your Excellency. Your Excellency ... please take care!"

Ye Yuan's gaze flickered and he said, "Destiny arises and fate extinguishes, maybe ... our fate is unfinished! If there's reincarnation, this saint will let you return again!"

Lin Wushuang's entire body trembled and he said, "Your Excellency, what do you mean?"

Ye Yuan shook his head and said, "I'm also not too clear. It's just that I faintly sense something. Hope that what I sense isn't wrong!"

Lin Wushuang had a shocked expression on his face and exclaimed, "Entering reincarnation is just a legend! No one knows where we go after death! With Your Excellency having a faint feeling from forces beyond control, it looks like you've already reached a realm that we can't imagine! If there's a chance to do it again, Lin Wushuang is willing to follow Your Excellency to the death!"

Ye Yuan fell silent. Lin Wushuang's figure gradually dissipated.

There was no Grand Ancestor Skyformation in this world anymore!

However, there was the legend of Grand Ancestor Skyformation!

It was he who shed his heart blood ten billion years ago, laying down a heaven-shocking grand array overnight, blocking countless divine race experts.

It was he who returned domineeringly ten billion years later, inflicting heavy casualties on the divine race army again!

He performed immortal feats for the human race, for the myriad races!

“All of you just be at ease. I hope that one day, I can activate you all again!” Ye Yuan said with a light sigh.

If there was war, there was death.

No one could change this.

As soon as Lin Wushuang left, the grand array became a dead object.

With Ye Yuan’s present strength, he was unable to truly control the grand array at all.

Daymeld was a ghastly sight from head to toe, but he laughed wildly as he said, “*Hahaha*, brat, you can’t kill me in the end! Lin Wushuang is merely a wisp of blood essence having a sudden spurt of activity prior to collapse! What can he do to me?!”

Ye Yuan looked at Daymeld and said coolly, “The next time we meet is when I’ll take your dog life!”

“Brat, do you think ... there’s still a next time? I’m afraid that next time, who you’ll be facing will be my divine race’s various great progenitors!”

After a bout of fierce struggling, Daymeld finally broke free from the constraints of the Eight Void Mountain’s grand array.

With regards to Ye Yuan’s talent, he did not have the slightest doubt.

Therefore, after this tragic battle, his dread towards Ye Yuan grew even stronger.

Being able to awaken Lin Wushuang in itself, was absolutely not what the average person could do!

But Ye Yuan did it!

There were too many secrets hidden on this kid’s body.

If he did not die, Daymeld could not relax!

Leaving this sentence behind, Daymeld tore across the air and left.

The grand array gradually subsided, restoring the peace of the past.

In this battle, the myriad races coalition forces won a complete victory. More than half of the divine race army was killed or injured with their vitality being affected. They no longer had the strength to counterattack!

The unpredictable army chased them for 30 thousand miles, and finally, the Divine Children Legion was completely wiped out!

The myriad races coalition forces launched a counteroffensive frenziedly, causing less than one-in-ten of the divine race army to remain alive!

Supreme powerhouses teamed up to pursue and attack. The divine race's experts suffered heavy losses!

The battle of Eight Void Mountain had far-reaching significance!

However, everyone was clear in their hearts that the next battle would be even more dangerous!

The confrontation between the top powerhouses of the two sides was the final battle to determine the ownership of the Heavenspan World.

*"Hahaha ... awesome! Really awesome! Since the Doomsday Battle started until now, we've been unbelievably oppressed all along! Today, we can finally walk with our heads held high!"* Ni Xuan returned from killing the enemy and let out a burst of wild laughter.

These few years, he had truly been frustrated to the extreme.

The strength of the opponent, the allied forces each harbored their own ulterior motives, the weakness of the human race's combat power, all made him mentally and physically exhausted.

Fight a battle, lose a battle!

Even if the number of the human army was hundreds and thousands of times that of the enemy army, there was virtually no victorious battle.

But in today's battle, they completely defeated the divine race! Was it not delightful?

He looked towards that slightly thin young man on top of the mountain, admiring immensely!

This was the Saint Azure of eternity!

Shi Potian also laughed loudly and said, "Those damn things of the divine race were arrogant to the extreme in the past! This time, seeing their appearance of covering their heads and scurrying away, it feels really awesome! *Hahaha ...*"

"These damn things call us ants every day! This time, the ants bit an elephant to death too!"

... ..

The various races' powerhouses really felt exaltation upon fulfillment.

They all looked towards that figure at the top of the mountain without prior agreement, their eyes full of admiration.

It was him, who took every conceivable possibility into account, luring the divine race into the trap step by step.

It was him, who climbed to the top of Eight Void Mountain, and activated the eternal grand array!

Without him, there would not be this hearty victory!

Suddenly Ni Xuan raised his arms and cried out, "Lord Saint Azure is mighty!"

The other leaders understood and similarly raised their arms and shouted.

"Lord Saint Azure is mighty!"

"Lord Saint Azure is mighty!"

... ..

The shouting grew higher than each previous wave!

The entire Eight Void Mountain Range was seething with excitement!

*Thud!*

At the foot of Eight Void Mountain, Pang Zhen came over travel-worn and weary, directly kneeling on the ground as he said sobbingly, "Your Excellency, save Wan Zhen! He ... He's on his last legs!"

Ye Yuan's brows furrowed slightly, arriving at the foot of the mountain with a flash.

It was only to see that on the ground, Wan Zhen was already just exhaling and not breathing in air any longer.

In the previous battle, he virtually blocked the Divine Children Legion with his power alone to delay them, but he also suffered extremely severe injuries.

Ye Yuan swept a glance over, his expression easing up slightly and he said coolly, "It's okay. He won't die!"

Done talking, a medicinal pill entered his abdomen. Wan Zhen's aura became stronger at a speed visible to the naked eye.

When everyone saw this scene, each and every one of them was shocked until they stared dumbfoundedly with their mouths agape.

They did not know how Lord Saint Azure had such terrifying alchemy path cultivation.

Pang Zhen opened his eyes wide and he said with a shocked look, "What ... What medicinal pill is this, it's also too magical, right?"

Following that, he used an expression like having seen a ghost to look at Ye Yuan again, and he said, "Is there still something that Lord Saint Azure can't do in this world?"

In merely a moment's time, Pang Zhen already sat up. His complexion was deathly pale. As he was about to bow to Ye Yuan, he was stopped by Ye Yuan.

"Many thanks for Your Excellency's life-saving grace!" Wan Zhen said.

... ..

The myriad races coalition forces crushing the divine race army, this news immediately spread throughout the entire Heavenspan World like the wind!"

The myriad races who were originally in a constant state of anxiety were inexplicably invigorated at this time.

Everyone cheered joyfully, rejoicing in their victory.

And Saint Azure's great name also spread throughout the Heavenspan World in a very short time.

It was Saint Azure who overcame the raging tides, and he saved the myriad races!

### Unrivaled Medicine God

#### **Chapter 2428: Name Spreading All Over the World!**

"Who is Saint Azure? I never heard of him before at all!"

"*Heh heh*, you're ignorant and ill-informed, right? This person is famous in the entire Heavenspan World! Although he's only Heavenly Emperor Realm, his status is incomparably venerated!"

"*Mn?* Stop leaving us hanging, who the hell is it?"

"A few years ago, there was a big earthquake in the alchemy world. The Medicine Ancestor was defeated, and a new ancestor was established! A Heavenly Emperor Realm young man was conferred the title of ancestor by the entire alchemy world! Who do you still think that it can be?"

Next to him, a group of people revealed shocked expressions, with looks of disbelief.

No one could have thought that the Saint Azure who was famous throughout the Heavenspan World was actually Ancestor Ye, Ye Yuan!"

A Heavenly Emperor Realm martial artist actually became the key figure of this world-destroying battle. So how could they not be surprised?

At this time, hundreds of Heavenly Emperor powerhouses surrounded a middle-aged uncle with a dreadful appearance.

This wretched-looking middle-aged uncle was called Bao Tiande, a Heavenly Emperor powerhouse too, making a living from selling information.

His information was very accurate and had never made a mistake before. So people gave him the nickname of 'Bao Inquiry'.

Bao Inquiry had always charged an extremely expensive fee. But this time, he had a rare free release of news, drawing a large group of Heavenly Emperor powerhouses to surround and look.

Although these Heavenly Emperor powerhouses did not go to the front lines, they paid a lot of attention to the situation at the front lines.

After all, a war of this scale affected their futures.

A Heavenly Emperor said in disbelief, "This is impossible! I admit that Ancestor Ye has a shocking talent in the alchemy path, but what strength does he have to repel the divine race army with his power alone? There are likely elements of exaggeration in-between this, right?"

By the side, a Heavenly Emperor expert in coarse robes said with a nod, "I think so too! To say that Heavenly Emperor Profound Secrets repelled the divine race alone, I still believe it. He, a puny little Heavenly Emperor Realm, based on what? Most likely, the news from the front snowballed the rumors, it's too exaggerated!"

"Indeed so! Deva Fifth Blight is more like it. The impact of a Heavenly Emperor Realm on the war is too small. It's simply impossible!"

... ..

This news, they heard a lot about it in this period of time. But it could be said that there were none who really believed it.

A Heavenly Emperor Realm influencing the war, this sort of thing was simply laughable.

However, Bao Inquire had a sneer on his face and said, "You bunch of ignorant guys, what the hell do you know! Lord Saint Azure ingeniously designed an interlinked plan, and he lured the divine race army to Eight Void Mountain! And he activated Eight Void Mountain's rules grand array. The divine race members beneath Nine-marks were almost completely annihilated. Divine race's commander-in-chief, Daymeld, was beaten until he almost died. Lord Saint Azure isn't just an alchemy path master. But he's similarly a formation path master! Furthermore, I even heard a rumor. It's just that ..."

Bao Inquire's words made everyone dumbstruck with amazement.

They knew that the news coming out of Bao Inquire's mouth was basically very real already.

But the things that he said were too shocking.

Eight Void Mountain's grand array, everyone knew that it was unfathomable.

Since time immemorial, no idea how many formation path powerhouses were unable to truly comprehend the grand array.

But Ye Yuan re-activated the rules grand array!

This kind of means was truly fantastical.

The means above rules to deal with the divine race army was indeed more than enough.

It was just that, wanting to achieve this step was far too difficult!

However, Bao Inquire's following words had whetted their appetites up.

"It's just what? Hurry up and say!"

"Yeah, stop leaving us hanging! Could it be that there's still even more explosive news?"

... ..

Everyone urged Bao Inquire one after another, but Bao Inquire shook his head with a mysterious look and said, "Forget it, forget it, not saying it. This news isn't confirmed, I don't dare to say nonsense."

Everyone almost vomited blood. Their appetites were stirred up. So how could they let it slide so easily?

“I say, you’re too much! It’s better you don’t talk at all! Don’t stop after saying it halfway! What the hell is this? Even if it isn’t real, you just say it, and we’ll listen and laugh it off after listening. Wouldn’t that do?”

“Yeah, Bao Inquire. If you don’t say it clearly today, we won’t let you leave!”

... ..

This group of Heavenly Emperors was indignant, all saying it unhappily.

Bao Inquire chuckled and said, “Alright. Since that’s the case, then I’ll talk about this Lord Saint Azure! I heard, it’s merely just hearing of it!”

The group of Heavenly Emperors perked their ears up, all paying close attention, afraid of missing the slightest detail.

Lord Saint Azure’s name was already famous throughout the entire Heavenspan World now.

Regarding his gossip, everyone was naturally very curious.

Although these words were rumors, there was still some credibility coming out of Bao Inquire’s mouth.

As Bao Inquire said, his expression also gradually became solemn.

When the rest saw the situation, their hearts became even more somber.

“I heard that Lord Saint Azure awakened the rule powerhouse on Eight Void Mountain! Furthermore, this rule powerhouse seemed to know Lord Saint Azure. The moment they met, he actually knelt down! Of course, this is merely just hearsay. There’s no way to prove!” Bao Inquire said with a solemn look.

Actually, he paid a huge price for this news, inquiring it from a formation path sovereign from Eight Void Mountain.

This news still had some credibility.

It was just that this news was too inconceivable. Even he felt that it was somewhat fake.

Sure enough, the moment these words came out, the group of Heavenly Emperors burst into an uproar at once.

“What?! A rule powerhouse knelt toward a Heavenly Emperor Realm junior?”

“Bao Inquire, this joke of yours is too much!”

“*Hahaha* ... this joke is very funny! Bao Inquire, you’ve successfully made us laugh!”

... ..

Everyone laughed loudly, but Bao Inquire did not laugh.

The laughter of those Heavenly Emperor powerhouses gradually stopped. In the end, it became dry laughter.

They knew that when Bao Inquire had this expression, he had always been very serious.

Which was also to say that he was not joking!

A Heavenly Emperor said, “C-Cough cough, Bao Inquire, this wouldn’t be real, right? B-But this is also too nonsensical!”

Bao Inquire shook his head and said, “Not sure, but it isn’t a groundless rumor! Although Eight Void Mountain can’t be compared to the past right now, there are still some people comprehending the Dao on the mountain. For this matter, I spent a lot of effort to go and inquire. In the end, those who came down the mountain all remained silent and said nothing. If it was really a joke, their expression wouldn’t have been like that! Furthermore, there’s one more thing!”

With this, no one laughed anymore.

If it was really a joke, those who came down the mountain would definitely have laughed it off.

Their expressions would definitely have been completely different.

At least, the reaction should have been the same as theirs just now.

Each of them held their breaths, listening to what Bao Inquire had to say next.

“Fifth Blight, Heavenly Emperor Yue Feng, knelt down in front of Lord Saint Azure’s camp door and didn’t get up! According to what I know, he was comprehending on the Dao on the mountain back at that time! And he was the only Fifth Blight powerhouse on the mountain back then! A Fifth Blight powerhouse kneeling and not getting up, do you all know what that means?” Bao Inquire said.

*“Hiss ...”*

There were sounds of cold air being sucked in all around.

The news that Bao Inquire told them were too shocking.

Heavenly Emperor Yue Feng’s great name, who did not know?

In Formation Dao, he was enough to rank in the top ten!

But it was this level of a powerhouse who actually knelt down in front of Ye Yuan’s camp and did not get up!

#### **Chapter 2429: Where Righteousness Lies**

In front of the camp, Pang Zhen came beside Yue Feng and said neither obsequiously nor haughtily, “You don’t need to kneel anymore. His Excellency said that if you really want to repent, follow Lord Ni Xuan. Go into battles to kill the enemy and defend the human race.”

The current Pang Zhen was proud but not arrogant.

In the past, he relied on Ancestor Lightning’s prestige, and he considered everything and everyone beneath his notice.

Now, he was relying on his own merits to turn his nose up at the world.

As Ye Yuan's right-hand man, he could regard any powerhouse in this world as an equal.

He had a powerful background and also proud feats.

When Yue Feng saw Pang Zhen, his pupils could not help shrinking slightly and he said, "You ... You're Ancestor Lightning's descendant?"

Pang Zhen nodded and said, "That's right, my ancestor is precisely the Ancestor of Lightning!"

Yue Feng sucked in a cold breath. How revered was the status of Ancestor Lightning's status? Yet, Pang Zhen was actually willing to be a pawn under Ye Yuan!

His awe toward Saint Azure was entirely due to his ancestral teachings.

Although he witnessed Ye Yuan's means, he still did not dare to believe that a dignified Dao Ancestor would actually do this sort of thing that lowered his own status.

Dao Ancestor was different from Lin Wushuang!

Lin Wushuang was merely a dead rule powerhouse, while Dao Ancestors were living sovereigns!

"I know what you're thinking. His Excellency as Saint Azure of eternity created the human race's ten billion years of prosperity single handedly! Even Ancestor also have to call Lord Saint Azure respectfully in front of him! If you want to atone for your crime by meritorious actions, let go of your pride of Fifth Blight, and go to the front lines to kill the enemy! In the future, there will naturally be your meritorious deeds. If you remain impenitent, *heh heh*, even the Jade Emperor can't save you too!" Finished saying, Pang Zhen left with his hands behind his back.

Yue Feng's expression was very ugly. But he was very clear about Saint Azure's influence at present.

Perhaps his individual combat power was not strong, but all of the Fifth Blight powerhouses in this camp obeyed Saint Azure's command.

The battle previously really shocked him.

Producing clouds with one turn of the hand and rain with another, it was talking about Ye Yuan, right!

Overcoming the raging tides with his power alone, devastating the divine race.

This outstanding feat was sufficient to be circulated through the ages!

This Doomsday Battle was not over yet, if the human race was defeated in the end, everything naturally did not need to be discussed anymore.

But if the human race won in the end, then Ye Yuan's stats would be passed down forever!

At that time, not just the human race, the myriad races had to submit themselves at his feet too!

Ye Yuan would be a living eternal saint!

His Deva Fifth Blight was indeed very impressive, but in front of Ye Yuan, he did not even count as anything.

In this world where the strong reigned supreme, strength was everything.

However, Ye Yuan already surpassed this level. His status could shake everything!

Just based on him having offended Ye Yuan before, he would have no way of continuing in the human race at all.

At that time, however vast the world was, there would be no place to accommodate him!

This consequence was too terrifying!

He never thought that his momentary curiosity actually caused such a big trouble.

Therefore, he let go of the pride of a Fifth Blight and knelt in front of Ye Yuan's camp.

But Ye Yuan did not have the intention of seeing him at all.

Looking at Pang Zhen's back view, Yue Feng could not help being absent-minded.

He and Pang Zhen had similarities.

But he and Pang Zhen walked toward two extremes.

One was respected by thousands.

One was reviled by thousands!

"Could it be that ... I was really wrong?" Yue Feng muttered.

No idea how long passed either, Yue Feng slowly got up and walked in the direction of the central army camp.

... ..

"Lord Saint Azure, Yue Feng already knelt for three days and three nights outside the camp, really don't need to care about him?" Ni Xuan said.

He was a Deva Fifth Blight sovereign after all. It was impossible for them to ignore it.

Ye Yuan said, "Time can smoothen out everything. Many people avoid and do not fight. I don't blame them. But his ancestor experienced that era, and yet he ignored the life and death of his own people. I can't forgive it! I know that there are similarly many people among you all who are puzzled. But if you all experienced Saint Profound's death, you wouldn't have this kind of thoughts. The Jian Family's 100 people sacrificed their lives heroically for a cause. How moving and tragic was it? All of them chose death at the peak of their lives!"

"Azure and Profound Dual Saints? In my opinion, it should be Profound and Azure Dual Saints! Saint Profound's merits are above mine! This Saint traveled through spacetime and only left behind legacies. But Saint Profound, what he left behind is a cluster of inextinguishable kindling of the spirit! Where righteousness lies, his will is still alive even if tens of thousands die! A sovereign of his generation, sacrificing his life for justice, forging an eternal great cause! This is a true powerhouse!"

"How do you all think the 18 grand ancestors reached the peak of rules? By relying on the legacies that I left behind? No! Because Saint Profound imprinted two words in each of their hearts: righteous cause! It's these two words that encouraged them to continuously become stronger, and reach an

unprecedented peak of the human race! It's also these two words that led them to fight the divine race fiercely, not resting till they are dead! And after them, there were no more rule powerhouses. The reason similarly lies here!"

Talking until the back, a trace of mist actually spun around in Ye Yuan's eyes.

Many people lowered their heads in shame. Who Ye Yuan was talking about was not just Yue Feng, but it was also the vast majority of the people present.

Although this battle was won, the majority of the myriad races' powerhouses present were compelled by circumstances and had no choice but to fight.

There were few who truly fought because of a righteous cause.

Who Saint Profound saved was not just the human race!

Their predecessors had also once fought side-by-side with the human race, fighting to the death without resting.

But then, everything had changed.

"Your Excellency, this subordinate is ashamed!" Ni Xuan said with a look of shame.

He could feel Ye Yuan's current mood fluctuations.

And this was rarely seen in Ye Yuan.

Being able to make Lord Saint Azure have such fluctuations, it could be seen how much that scene touched him.

And Saint Profound's merits, no one could erase it.

"Your Excellency, we were wrong!"

... ..

The group of powerhouses apologized one after another.

Ye Yuan waved his hand and said, "Forget it. The past is over! No matter how much this saint talks, I can't imprint these two words in your hearts too. In this lifetime, this saint can only do what I can and leave it to fate."

Circumstances change with the passing of time, human hearts were not what they were in the old days.

Ye Yuan was also speaking his mind earlier, he knew that these words did not sink in for everyone.

Words were feeble at times.

Without the infection of that occasion, no matter how much was said, it was useless too.

Everyone lowered their heads in shame, not daring to speak.

Ni Xuan saw that the scene was rather awkward and spoke up, "Your Excellency, after this battle, the divine race no longer has the power to fight back, what should we do next?"

Ye Yuan said, "Follow up a victory with hot pursuit, recapture lost ground, and drive the divine race back to the abyss!"

When everyone heard that, they were extremely surprised.

A leader said, "Your Excellency, this ... isn't appropriate, right? If we anger the divine race's progenitors, there will be no way to clean up the mess!"

Ye Yuan smiled coldly when he heard that and said, "I think that you all are mistaken. It's not that the divine race's progenitors aren't enraged. It's actually that they dread Dao Ancestors. That's why they didn't make a move! Do you all think that you can sleep in peace after winning this battle? Now, is when the Doomsday Battle truly begins! The moment of Heavenly Dao Samsara is the start of our various race's true disaster! Have you all forgotten Daymeld's mocking laughter? The moment the divine race's progenitors make a move, you all can only be cannon fodders too! Therefore, don't harbor the mentality of getting lucky!"

#### **Chapter 2430: Battling Daymeld Again!**

"Satisfying! Satisfying! *Hahaha* ... Saint Azure deserves to be Saint Azure. This battle is really fought invigoratingly and free from inhibitions!"

When Profound Secrets heard the news of the big victory at the front, he laughed loudly without ceasing.

Nothing was more uplifting than this news.

The divine race suddenly launched a decisive battle. Each and every one of them, these big shots were still very worried.

Although the coalition forces' numbers were high, Profound Secrets was clear in his heart that they were all a bunch of paper paste.

But he did not expect that Ye Yuan actually overcame the raging tides with his power alone, making use of Eight Void Mountain's grand array to kill the divine race until they were completely routed.

However, this was only the beginning. The battlefield report of the victory at the front flew over like snowflakes.

After the myriad races coalition force crushed the divine race army, they followed up the victory with hot pursuit, sweeping across the land of Western Realms!

At present, the coalition forces already fought to the vicinity of the Abyss Suppressing Eight Realms, almost going to send the divine race back to the abyss!

This kind of result was what all of the big shots completely did not expect previously.

The current coalition forces were completely crazy from fighting, winning battle after battle.

But by the side, Shang Hang had tears flowing down his old face as he said, "If Lord Saint Azure could have stayed in the last epoch back then, how great would it have been? Many of us, these old fellows, would have been able to survive."

Profound Secrets smiled and said, "If Lord Saint Azure could have stayed in the last epoch, maybe it wouldn't have anything to do with you all anymore! Everything is long already destined. Why does Senior bear it in mind?"

Shang Hang nodded and said, "Yeah! If we give Lord Saint Azure the time to grow up, with his talent, fusing several kinds of top laws, who can be his match? *Sigh*, it's just a shame, Lin Wushuang that old thing is completely dead now!"

Everyone was silent when they heard it. He also felt that it was somewhat vapid and said again with a smile, "Oh, right, calculating it now, Lord Saint Azure shouldn't be far from breaking through to Deva Realm, right?"

Profound Secrets was taken aback and said with a nod, "With his talent, it should be about time. It's just that ... with the strength of his power of laws, the Deva blight tribulation will likely ... be quite terrifying!"

With him saying so, everyone's expressions became solemn again.

Shang Hang frowned and said, "This old man had a hairsbreadth escape when transcending the Deva blight tribulation back then! After transcending the tribulation, I was weak for a full 3000 years before recovering! Lord Saint Azure already fused time, space, and sword, three great laws. His combat power is even strong until it makes people feel chills. The power of the blight tribulation will likely be ten times, even a hundred times of this old man's!"

Silence again!

Since time immemorial, how many major powers died before the blight tribulation.

Even a powerhouse like Shang Hang had a close shave too and almost did not pull through.

The stronger one's strength was, the more terrifying the blight tribulation.

Hence, they all knew that Ye Yuan's blight tribulation would be terrifying to the extreme.

This was the enormous gulf that blocked in front of Ye Yuan!

Fighting with people, Ye Yuan could mow down all resistance.

Then, if fighting with the heaven?

... ..

"Your Excellency, I see that your cultivation realm is getting looser and looser these days. It's clearly almost time to break through! We can't chase anymore, otherwise, once the Deva blight tribulation arrives, it will be dangerous!" On the battlefield, Wan Zhen urged.

Ever since Eight Void Mountain's battle, nearly a year had passed.

In this one year, the unpredictable army experienced countless major and minor battles.

Under the fierce fighting, Ye Yuan's comprehension became increasingly deeper, and he already had an idea in his heart with regards to the next realm.

Right now, Ye Yuan's realm was very volatile. Clearly, he was about to break through soon.

Logically speaking, Ye Yuan should find a place to go into closed-seclusion at this time and face the life-and-death great tribulation.

Deva blight tribulation was also called life-and-death great tribulation.

Because the Heavenly Emperor powerhouses that fell at this step were really far too many!

Wan Zhen and Pang Zhen already urged Ye Yuan many times, but Ye Yuan refused to listen and clung obstinately to his own course.

After a year, the unpredictable army already grew into an invincible army. Their combat effectiveness and fighting will were terrifyingly strong.

Along with the passage of time, there were more and more unpredictable children in this army who already broke through to Deva Realm.

Currently, this army was also not the least bit timid when facing off against middle-stage Nine-marks powerhouses.

Therefore, when the current unpredictable army encountered the divine race, it was virtually advancing unreasonably all the way, mowing down all resistance.

When the divine race army saw the unpredictable army, they did not dare to confront head-on at all and would turn tail and run at the fastest speed.

"We have been chasing Daymeld for more than half a month. This time, we finally managed to corner him. We can't give up halfway. Once this guy runs back to the abyss, it will be difficult to want to kill him again," Ye Yuan said indifferently.

The moment Wan Zhen heard this, he became anxious and said, "Daymeld is nothing compared to you! Your safety is the human race's greatest affair!"

Ye Yuan smiled and said, "*Huhu*, it won't get in the way!"

Finished talking, Ye Yuan took the lead and flew away.

Wan Zhen and Pang Zhen exchanged a glance, both revealing a hint of worry.

They could feel that Ye Yuan's breakthrough was around the corner.

If he were to break through to Deva blight tribulation in the midst of battle, wouldn't this be seeking death?

Heaven rewarded the faithful. The unpredictable army finally cut Daymeld off this time!

Daymeld suffered serious wounds in Eight Void Mountain's grand array. Furthermore, fleeing all the way, his injuries showed signs of even worse deterioration.

After all, under the power of rules, injuries were not that easy to get better.

If not for Daymeld's strength being powerful, he would have long died ten times over.

However, Daymeld was very cunning too. Along the way, his escape route was very strange. Ye Yuan they all pursued many times, but he slipped away.

"Daymeld, we meet again!" Ye Yuan looked at Daymeld and said coldly.

Daymeld's expression was very ugly and he said in a deep voice, "You brat, really lingering on relentlessly!"

His current combat power was at most equal to peak initial-stage Nine-marks. Furthermore, it was unable to last long.

Being blocked by Ye Yuan was a very dangerous thing.

Ye Yuan said with a cold snort, "How many human powerhouses' lives have your hands been stained with? Letting you leave, I'll find it hard to rest easy!"

Daymeld smiled coldly and said, "Just a bunch of ants. If killed, then they are killed! Do you think that with the likes of you, you can hold me? *Eh*, you're about to break through? *Hahaha* ... brat, you really don't know life from death! With your talent, the Deva blight tribulation must be extremely terrifying, right? You don't find a place to go into closed-seclusion now, but come hunt me down, really courting death!"

Ye Yuan smiled and said, "Yeah, I'm still a hair's breadth away from breaking through! Finding you can just nice help me to break through the bottleneck!"

Daymeld laughed loudly when he heard that and said, "*Hahaha*, my pleasure! Brat, I'll lend you a helping hand!"

Ye Yuan said, "Leave Daymeld to me. I'll leave the others to you. You don't have to say anything now. I've decided!"

Wan Zhen still wanted to say something but was stopped by Ye Yuan sternly.

This remnant division that Daymeld brought still had many powerhouses and needed Wan Zhen they all to deal with.

Battle cries shook the sky. The two armies clashed together.

While in the army, Ye Yuan and Daymeld faced each other from afar.

Daymeld laughed hard and said, "Brat, you're really too proud. Proud until you think nothing of Heavenly Dao! Today, I'll send you off, let you die at your own hands! Heavenly Dao True Martial, Unparalleled Iron Arms, Shrinking Earth into an Inch, activated!"

This was his second Heavenly Dao True Martial!

*Boom!*

Daymeld threw a punch out, carrying the might of Heavenly Dao True Martial, terrifying to the extreme.

“Sword, come!” Ye Yuan reached his hand out and beckoned. The Sword of Spacetime was already in his hand.

The great battle was at an explosive point!
