#### Chapter 2471: Disdain to Take!

“You’re really mad as a March hare, to actually make a move against so many innocent people!” Ye Yuan looked at the Heavenly Emperor Lastingjoy who was dispirited and inert and said with a cold smile.

Most of these alchemy path powerhouses had nothing to do with Heavenly Emperor Lastingjoy.

This guy actually dealt killing blows to these people, his crimes were really too numerous to be recorded.

Heavenly Emperor Lastingjoy’s gaze turned bleak and he gnashed his teeth in hatred and said, “On what basis do I have to be a dog for life? I refuse to give in! I’m ... unwilling! Everyone treated me like a dog next to him! I, this eldest senior apprentice brother, am even less than a third-generation disciple! Hahaha ... those so-called geniuses all deserve death! They are only fit to be the stepping stones on my road of ascent!”

With death knocking on the door, Heavenly Emperor Lastingjoy finally spoke up about the unwillingness suppressed in his heart.

At this time, Heavenly Emperor Lastingjoy already calmed down.

He was a clever man and knew that Ye Yuan would never let him off.

Hence, he did not do some meaningless pleading too.

Ye Yuan looked at Heavenly Emperor Lastingjoy and did not have the slightest pity.

Pitiable people definitely had detestable aspects.

Men should improve themselves. Lastingjoy’s ambition was not small. It was just that the method he used was wrong.

Of course, more importantly, he found the wrong person.

He never should have come to provoke him.

“Any other last words?” Ye Yuan said coolly.

Heavenly Emperor Lastingjoy laughed loudly and said, “Ye Yuan, you saw all those Alchemy Daos that I devoured, right? Hahaha, as long as you draw reference from their Great Dao, with your talent, stepping into the realm of Dao pill will be easily accomplished! This emperor doesn’t have any last words. You’ll carry this emperor’s ambition and ... live on! Hahaha ...”

Ye Yuan’s mouth curled and he said, “That’s right. A myriad Great Daos is indeed heart-tingling. It’s just that you’re also looking down on this Ye too much! Do you feel that I really need these to break through to the realm of Dao pill?”

Finished talking, Ye Yuan reached his hand out and pulled. A black whirlwind immediately started spinning around Ye Yuan, giving off a series of whimpering sounds.

Ye Yuan's body emitted a faint fluorescent light.

It was only to see him extend his hand and console the black whirlwind lightly. The berserk black whirlwind gradually became quiet.

The current Ye Yuan was like a divine buddha, expiating the world!

The black whirlwind was precisely formed by the resentful spirits devoured by Heavenly Emperor Lastingjoy.

Although their divine souls were devoured, a trace of resentment after death still remained.

Unwilling, refusal to give in!

The buddha aura on Ye Yuan was like a life-giving spring breeze and rain, warmly nourishing these resentful spirits.

"Relax, I won't use you all to cultivate. If that's the case, what difference is there between me and him? Alright, all disperse then," Ye Yuan said coolly.

Those resentful spirits all revealed their figures and gave a bow toward Ye Yuan, incredibly grateful.

In the end, they turned and took a look at the dumbfounded Heavenly Emperor Lastingjoy, a trace of release being revealed in their gazes.

Following that, they turned into motes of fluorescence, dissipating into the world.

"Many thanks, Your Excellency, for letting us enter reincarnation!"

"Thank you, Your Excellency. This lowly one is endlessly grateful!"

"Your Excellency's grace, this lowly one will engrave it in my heart!"

... ..

One figure after another emerged, bowing to Ye Yuan non-stop.

Heavenly Emperor Lastingjoy's black wheel was very terrifying. After being devoured by him, the remnant souls were imprisoned inside forever, unable to escape.

Ye Yuan freed them and expiated them, making them able to enter samsara.

This kindness, they had to receive it.

Heavenly Emperor Lastingjoy opened his mouth wide, a look of disbelief on his face.

He could not imagine that there was actually someone capable of resisting such a temptation!

With Ye Yuan's talent, after comprehending these Great Daos, breaking through to the realm of Dao pill would be a breeze to him.

But he actually gave it up just like that!

"You ... You ..." Heavenly Emperor Lastingjoy wanted to say something but discovered that he could not say anything.

Ye Yuan said coolly, "There's no denying, I was indeed rather moved just now. It's just that using them to cultivate, I, Ye Yuan, am disdainful to do so! You want to use them to ruin my Dao heart. That is truly a little too naive! Moreover ... with my talent, do you think that I need to borrow their strength to step into the realm of Dao pill?"

When he said these, Ye Yuan exuded powerful self-confidence.

What Ye Yuan was most proud of had never been Martial Dao, and also not the chaos origin divinity, but Alchemy Dao!

What supported him to walk step by step until today, was not his martial path talent, but alchemy path talent!

Back then, he entered Great Dao with Alchemy Dao. That was how he created the Chaos Heavenspan Canon.

His road to ascension could not do without the support of Alchemy Dao at every step!

Therefore, he had this confidence.

Moreover, his current alchemy path realm was only a step away from Dao pill too.

Stepping into the realm of Dao pill was just a matter of time.

Heavenly Emperor Lastingjoy's complexion was deathly pale. Suddenly, he felt that his conviction had collapsed completely.

These myriad Great Daos were the essence of his life, where his Great Dao lied.

He believed that if anyone in the Heavenspan World saw it, they would not be able to resist such temptation.

But Ye Yuan cast them aside like a pair of worn-out shoes.

This was the powerful confidence of a true genius!

Suddenly, his entire body trembled. A figure appeared.

Medicine Ancestor!

When Ye Yuan saw Medicine Ancestor, his gaze could not help turning intent too.

This man who had once stood at the top of the alchemy path, actually ended up in such a plight; lamentable and pitiable.

Medicine Ancestor looked at Ye Yuan, his expression complicated.

Finally, he opened his mouth and said, "Ye Yuan, thank you!"

Ye Yuan waved his hand and said coolly, "No need. Our grudge is written off once and for all."

Medicine Ancestor nodded his head, but turned to look at Heavenly Emperor Lastingjoy, and said with a slight sigh, "Silly boy! You were too anxious! After this old man broke through to the realm of Dao pill, I'll naturally do all I can for you and help you step into the realm of Dao pill! Sigh!"

Heavenly Emperor Lastingjoy sneered when he heard that and said, "Stop being pretentious here! I'm merely a dog in your eyes, that's all! For so many years, you've never looked me in the eye before at all! Now, you want to use these sorts of words to make me feel guilty? Heh heh, do you really take me to be a fool?"

Medicine Ancestor did not care and said coolly, "Do you think that you could really hide from my eyes when you were doing these things under my eyelids? Also, when you made a move against me in the end, do you think that I really didn't have the strength to fight back? Also, if I didn't value you, why did I only take you away during the Cloudheart Realm battle?"

Heavenly Emperor Lastingjoy's expression became a little unnatural, and he said with a cold smile, "In your eyes, it's naturally an old dog that's most handy to order about! Stop talking nonsense! No matter how glib your tongue in, I won't believe it too!"

Medicine Ancestor said, "Silly child, you're this old man's son! Even a tiger wouldn't eat its own children, why would this old man harm you?"

Heavenly Emperor Lastingjoy laughed loudly when he heard that and said, "Hahaha ... old thing, are you teasing me?"

Medicine Ancestor said, "When you were young, you had a maple leaf-shaped birthmark on your abdomen area. You'll often feel our abdomen heat up and your cultivation speed also far surpasses ordinary people. Later, you and your mother encountered danger, this maple leaf-shaped birthmark let you kill your opponent. But since then, the maple leaf-shaped birthmark disappeared ..."

With each sentence that Medicine Ancestor said, Heavenly Emperor Lastingjoy's expression would change a little, bit by bit.

No one knew about these secrets!

#### **Chapter 2472: Dao Ancestors Joining Forces!**

Ye Yuan who was by the side was also dumbstruck with astonishment from listening.

These two were actually father and son!

"Shut up! I don't believe you! I don't believe a single word!" Heavenly Emperor Lastingjoy suddenly roared, trying to interrupt Medicine Ancestor's words.

It was just that judging from his reaction, he already believed it.

Medicine Ancestor did not care, and he continued. He said, "Your talent was extremely great, but your ambition was also extremely great! In the beginning, this old man took you in as a servant because I wanted to temper your temperament. It's just that I never thought that you would actually deviate, walking onto the path of devouring. You went to find Wang Pan to compete in alchemy behind my back at Ping Pan City. In the end, you awakened the Dao of Devouring. Ever since then, you started on the path of devouring ..."

"This old man originally wanted to reconnect with you, but you devoured other people's Dao. Your mental state gradually became unbalanced. If I reconnected with you, it might trigger even more

unpredictable consequences. This old man abandoned you two, mother and son, for the sake of pursuing Great Dao. What this old man owes you, I planned on assisting you to reach the realm of Dao pill after corroborating my Dao, and let you climb to the summit. It's just a pity, just one final step!"

"That instant when you made a move, this old man hesitated for a moment, but then I ultimately still gave up. With your talent, presumably after devouring this old man, you shouldn't be far away from the last step. It's just that I didn't think that you still failed at the last step in the end."

Talking up to here, Medicine Ancestor sighed and looked at Ye Yuan.

Unfortunately, the opponent that Lastingjoy chose was Ye Yuan.

The eternal Saint Azure!

Facing this huge temptation, Ye Yuan could actually keep his cool and expiate the remnant souls.

This bearing was an absolutely unparalleled breadth of spirit, matchless in the world!

Lastingjoy chose the wrong opponent!

Heavenly Emperor Lastingjoy had long already been beaten by reality until he was incomparably dispirited.

At this point, even a fool also knew that Medicine Ancestor did not bluff him.

However, this reality shattered his life conviction into smithereens.

That person whom he resented immensely, that person that he wanted to kill all his life, was actually the person who loved him the most.

And he killed this person with his own hands!

The reality was too cruel.

While at this time, Medicine Ancestor's remnant soul started dissipating, becoming motes of fluorescent light.

Under Ye Yuan's expiation, his soul had already been cleansed, returning to samsara.

Time waited for no man. Even if he wanted to reunite with Heavenly Emperor Lastingjoy, there was no more time.

He looked at Heavenly Emperor Lastingjoy and said with a sigh, "Silly boy, if there's really reincarnation, I hope that we'll reconvene there!"

Medicine Ancestor's divine soul was already shattered. His Great Dao already collapsed. He was already not far from the end of his life.

Finished talking, Medicine Ancestor's remnant soul gradually disappeared between heaven and earth.

The scenes that happened before his eyes made Ye Yuan's thoughts stir.

Reaching the realm of chaos origin divinity, Ye Yuan could distinctly feel that these people's remnant souls did not vanish completely, but they turned into some kind of energy, returning to the world.

This feeling was exactly the same as in front of his father's grave back then.

It was just that what he felt currently was much clearer than at that time.

Furthermore, Ye Yuan discovered that not everyone could return to heaven and earth.

Only after being free of troubles in one's heart, settling karma, and having one's thoughts flow smoothly, could one return to heaven and earth.

Just like Ji Zhengyang, only all the way until after Heavenly Emperor Jiu Shang died did that trace of undulation arise.

Thinking up to here, Ye Yuan's eyes became resolute.

"Father, if there's really reincarnation, even if this child tries every means possible, I'll definitely revive you! You and Mother experienced ordeals and died for me. I must return to you a lifetime of happiness!" Ye Yuan secretly swore.

*Thud!*

"Father!" Heavenly Emperor Lastingjoy knelt down and started weeping bitterly in the direction which Medicine Ancestor dissipated.

At this moment, the guilt in his heart could no longer be hidden.

Ye Yuan let out a slight sigh and turned around and left.

*Pfft!*

A powerful energy undulation came from behind. The high and mighty Heavenly Emperor Lastingjoy ended his life just like that.

... ..

True Flame Bodhidharma, Ancestor Fire's bodhidharma.

The nine great Dao Ancestors were gathered here. A small mountain was suspended in the middle of the nine people quietly, emitting fluctuations that made people feel heart palpitations.

Even with the combined power of the nine people, they were unable to completely suppress the Lesser Heavenspan Mountain's power too.

Because of the battle with Treasure Pig previously, the entire Origin Enlighten Mountain Range already became a wasteland.

As a last resort, the few people arrived at True Flame Bodhidharma to study the Lesser Heavenspan Mountain jointly.

Such a precious treasure, whoever it was put with, others were naturally reluctant to accept it.

In the end, it could only be the nine people studying it together.

Finally getting their wish, the joy on the nine people's faces could not be concealed.

Having seen Ye Yuan's talent that dominated the world, how could they not be moved?

"There's not much time. If we keep having mutual suspicions among ourselves, it will only let the divine race prevail! Moreover, Ye Yuan that brat is glaring like a ravening tiger. He can't be underestimated either! If we can't improve further, our outcome can only be death!" Lin Chaotian said with a solemn face.

Obtaining the Lesser Heavenspan Mountain was a massive fortuitous encounter.

But they also encountered an unprecedented crisis!

The deterrence that Ye Yuan gave to them was too great.

Encountering an unkillable opponent, the end result could only be getting killed.

The joyful looks on the few Dao Ancestors' faces were reined in, all revealing solemn expressions.

Suddenly, the pressure was high!

"What Brother Chaotian said is right! At this time, we should put aside prejudices and cross the river in the same boat!" Ancestor Fire said.

The Dao Ancestors nodded their heads one after another, clearly reaching a consensus about this.

Lin Chaotian's gaze fell on the Lesser Heavenspan Mountain, his emotion slightly agitated as he said, "This treasure contains the power of Great Dao, far surpassing us! I didn't expect that the Heavenspan Mountain actually still has such a valuable treasure! Combining with the nine of our strengths, no matter how lacking, we can also consolidate the power of rules! At that time, even if Heavenly Dao Samara comes, our strength can also be maintained to the greatest extent! As long as we can tide over the Doomsday Battle this time, we'll have hope of breaking the fetters, and go above the Heavenspan Mountain to take a look at what's actually there!"

The words made the eight great Dao Ancestors seethe with excitement.

How many years had it been? The only place that they wanted to go to was above the Heavenspan Mountain!

But, no matter how hard they worked, they were unable to cross that barrier.

This time, the chance finally came!

"Brother Chaotian, what do you think we should do? We'll all listen to you!" Ancestor Wind said.

Lin Chaotian nodded slightly and said, "The Great Dao that this mountain contains is extremely vast. I presume that everyone already has an understanding that our cultivation along the way has many imperfect areas. This Lesser Heavenspan Mountain is like a mirror, illuminating the deficiencies in us clearly."

The Dao Ancestors nodded their heads one after another. After they obtained the precious treasure, they had naturally experienced it already.

What Lin Chaotian said was not the slightest bit wrong. The Great Dao contained in the Lesser Heavenspan Mountain let them have a new understanding of their own cultivation.

Although Dao Ancestors were powerful, it did not mean that there weren't any mistakes throughout their cultivation.

Great Dao was numerous and complicated. Who could truly comprehend it entirely?

If one could really completely comprehend Dao, they would not be Dao Ancestors but the heaven!

"Therefore, we should cooperate with a common effort, and share what we've comprehended! Areas we are lacking, everyone studies in detail together. We will comprehend together and also improve together! That brat is waiting to see us make a fool of ourselves! Then we'll slap his face viciously and let him understand that Dao Ancestors can't be defied! He merely relied on an extraordinary treasure to be able to reach such a boundary!" Lin Chaotian said loudly.

### Unrivaled Medicine God

#### **Chapter 2473: The Man on the Same Level as Heaven!**

"No! It's still not right! Could it be that the way we're studying is wrong?" Ancestor Fire said a little anxiously.

Dao Ancestor Destruction frowned and said, "It's impossible! In terms of comprehending Great Dao, who understands it better than us?"

Ancestor Lightning said, "It's really strange! What method did Ye Yuan use to comprehend the Lesser Heavenspan Mountain? In what way is his approach being completely different from ours?"

The few great Dao Ancestors spoke up one after another, all feeling rather agitated and fretful.

They had already studied the Lesser Heavenspan Mountain for close to three years' time.

Without a doubt, each of their strengths had increased greatly.

It was just that, it had not met their requirements yet.

Studying according to this method could certainly increase their strength and consolidate their realm.

But there was no hope of wanting to break the fetters of Dao Ancestor at all!"

These few years, they mutually shared the things that they had understood, discussing with each other.

But the results yielded were negligible.

Their objective was to break the shackles of Dao Ancestor.

It was just that no matter how they cultivated, that shackle was still locking them tightly, not letting them break through.

This sort of feeling made them feel despair.

They even compared their cultivation comprehensions with Ye Yuan's cultivation method and martial techniques.

As a result, the more they compared, the more bitterly disappointed they were.

The strength and potential that Ye Yuan displayed was completely not what they could hold a candle to!

In the end, the conclusion that they got was that ... Ye Yuan was different from them!

It was just that they racked their brains and also could not figure out just what was different.

Lin Chaotian was silent. No one knew what he was thinking about either.

The nine of them were the Heavenspan World's strongest nine people, and also the nine people who understood Heavenly Dao most profoundly.

Logically speaking, having obtained such a priceless treasure, the things that they comprehended should also be beyond other people's capacity.

But sadly, they still could not reach Ye Yuan's height.

No matter how they studied, it would not work!

When Ancestor Fire saw that Lin Chaotian did not speak, he could not resist asking, "Brother Chaotian, say something!"

Only then did Lin Chaotian slowly say, "I think that it might be the way that we're comprehending is wrong!"

The moment these words came out, everyone's eyes lit up.

"Oh??Then how should we comprehend?" Ancestor Fire said with a look of excitement.

"Go to Heavenspan Mountain!" Lin Chaotian said.

... ..

In a blink of an eye, another three years passed. Above a million miles up on Heavenspan Mountain, the nine great Dao Ancestors were very dispirited.

A feeling called sense of defeat spread out among the nine people.

"Damn it! Just where does the problem lie?"

"The Heavenspan Mountain and Lesser Heavenspan Mountain mutually corroborate and reference each other, but why can't we find the way to break through yet?"

"God damn it! This ancestor can seemingly see Ye Yuan's mocking laugh!"

... ..

The expressions of the few Dao Ancestors were very ugly.

That mocking smile when Ye Yuan left seemed to be dangling in front of them.

Ye Yuan had said this before more than once. Even if he gave the treasure to them, it was useless too!

They all could not comprehend it!

The nine great Dao Ancestors were outstanding talents of the present era, figures standing at the summit. How proud were they?

Hence, they naturally did not believe it!

They thought that Ye Yuan being able to have today's accomplishments, it was him relying entirely on the Lesser Heavenspan Mountain.

But now, reality slapped their faces fiercely.

They really could not comprehend it!

Combining the power of the nine great Dao Ancestors and they still could not comprehend it too!

After six years of hard work, they could not find a trace of clue!

Breaking the shackles was far away and not within the foreseeable future.

The reality was so cruel.

Lin Chaotian's brows were tightly locked when he suddenly said, "Ye Yuan this guy indeed makes people unable to figure out! But did you all notice, when he broke through to Deva Realm, he actually didn't transcend the Deva blight tribulation! This sort of thing is too inconceivable!"

Ancestor Water's intelligence was second only to Lin Chaotian.

Seeing Lin Chaotian talk about it, he nodded and said, "Originally, we all thought that he relied on the power of the Lesser Heavenspan Mountain. That's how he shielded from the Deva blight tribulation! But looking at it now, it wasn't the case!"

Lin Chaotian nodded and said, "That's right! I also used to think so. But thinking about it carefully now, it doesn't seem to be the case!"

The two people chimed in one after another, Ancestor Fire said rather impatiently, "Then you guys say, just where does the problem lie?"

The two people said in unison, "Cultivation method!"

The group of Dao Ancestors was stunned, uncertain what it meant.

In terms of cultivation method, who in this world could compare to the few of them?

Moreover, what kind of cultivation method could avoid the Deva blight tribulation?

"I say, the two of you, stop leaving us hanging and hurry it up!" Ancestor Fire said.

Lin Chaotian's brows furrowed slightly and he said, "Studying the Lesser Heavenspan Mountain these few years, I faintly have a feeling that Ye Yuan might have comprehended an astonishing cultivation method from it! This set of cultivation methods might be on the same level as heaven! Hence, that's how he could avoid the Deva blight tribulation!"

The more Lin Chaotian talked, the more shocked everyone was.

It was only to see him continue explaining it. He said, "Do you all still remember what I said, the Heavenspan Mountain cast a projection back then and the spiritual energy revived? I always thought that that was a precious treasure coming into existence. That's why that kind of phenomenon appeared! But thinking back on it now, that isn't the case at all! It should be Ye Yuan comprehended successfully a set of cultivation methods back then, alarming Heavenly Dao. That's why such a phenomenon would descend! There should exist some kind of connection between the Lesser Heavenspan Mountain and Heavenspan Mountain. Back then, the Lesser Heavenspan Mountain should have been refined by him, stirring the Heavenspan Mountain. That's why it made spiritual energy revive!"

"Therefore, we were wrong from the start! The crux of the problem doesn't lie with the Lesser Heavenspan Mountain at all, but on the person who comprehended the Lesser Heavenspan Mountain!"

When the group of Dao Ancestors heard this analysis, each and every one of them was dumbstruck with amazement.

They really wanted to find a reason to refute it, but they discovered that they could not find it at all!

What Lin Chaotian said made too much sense!

Ancestor Fire said unhappily, "Based on what? He could comprehend a cultivation method, so can't we do it? Combining the nine of our strengths, can it be that we still can't create an astonishing cultivation method?"

Lin Chaotian shook his head and said, "Comprehending a cultivation method isn't hard! With the few of our capabilities, comprehending eight or ten top cultivation methods from the Lesser Heavenspan Mountain is very easy! It's just that wanting to comprehend a cultivation method that's on the same level as heaven is as hard as ascending to heaven! I can confirm that Ye Yuan is absolutely not the first person who obtained the Lesser Heavenspan Mountain. But he's the only one who can create such a terrifying cultivation method! I'm afraid that even if the cultivation method that Ye Yuan created is placed in front of us, we might not be able to fully comprehend it too! Hence, that's why he handed the Lesser Heavenspan Mountain over so readily. Because he's confident that even if the Lesser Heavenspan Mountain is handed over to us, it's impossible for us to surpass him too!"

Talking until the back, Lin Chaotian's words actually exuded some bitterness.

Several years of hard work made him become increasingly conscious of his insignificance.

Dao Ancestors were very strong, but also very weak!

In front of Heavenly Dao, Dao Ancestors were too weak!

But Ye Yuan was a man on the same level as heaven!

This sense of setback was too strong.

The Dao Ancestors were extremely shocked, being not quite able to accept this fact.

Combining the powers of nine great Dao Ancestors actually could not beat a single Ye Yuan?

This sort of thing was truly hard to accept to the high and mighty Dao Ancestors.

“Damn it! We have to think of a way to find him and force him to hand over the cultivation method!” Ancestor Fire gritted his teeth and said.

Lin Chaotian looked up to the sky and let out a long sigh and said, “Too late! His wings have already formed now! Wanting to capture him is simply impossible!”

### Unrivaled Medicine God

#### **Chapter 2474: A Feeling Called Despair!**

“This ... Then with the current situation, isn’t it that we can only wait for death?” Ancestor Fire’s expression changed slightly as he said.

Lin Chaotian said, “Not necessarily! No matter how great his talent is, wanting to take this last step is also not an easy thing! Our strengths have made considerable improvements during these few years. If he really wants to deal with the few of us, I’m afraid that it’s not enough yet! Therefore, what we have to do now is to strengthen ourselves!”

The group of Dao Ancestors had dispirited faces. They, as Dao Ancestors, roamed the world unhindered.

Now, they were actually forced into such a situation by someone!

But the nine people did not dare to slacken their efforts. In the remaining days, they comprehended Heavenly Dao desperately, strengthening themselves.

... ..

Four years later, on one fine day, heaven and earth suddenly changed.

The wind swept the clouds away. The mountains cried out and the sea howled, lightning flashed and thunder clapped.

It was as if the end of the world had arrived for the Heavenspan World.

The powerhouses were all extremely terrified.

This kind of heavenly might, they had never experienced it before.

On Heavenspan Mountain, one silhouette after another flew out.

They were kicked out by the Heavenspan Mountain!

“What happened? Why did the Heavenspan Mountain not allow cultivation anymore?”

“Heavenly Dao Samsara! This must be Heavenly Dao Samsara! I didn’t expect that it would arrive so quickly!”

“This ... What to do about it? Once Heavenly Dao Samsara begins, the power of rule on Dao Ancestors will be taken back by Heavenly Dao. What can we do to resist the divine race?”

... ..

On Heavenspan Mountain, spiritual energy was vast and mighty.

But a powerful force blocked everyone out.

Currently, Heavenspan Mountain already became a forbidden land. There were people being thrown out continuously.

Those who were thrown out in the beginning were all some weaklings.

Following that, those who were thrown out got stronger and stronger.

Until the back, there were even quite a number of Deva Realm powerhouses who were squeezed out of Heavenspan Mountain against their will.

*Swoosh! Swoosh! Swoosh!*

Several more figures were thrown out of Heavenspan Mountain one after another.

The moment these people appeared, it immediately caused a stir.

“It’s the nine great Dao Ancestors! They were forced out too!”

“Their auras are a bit chaotic. Could it be that their power of rule has already been taken back?”

“But it feels like their aura doesn’t seem to have been affected much!”

“Heh, don’t you all know that they took away that precious treasure from Saint Azure? I reckon that this time, they gained a big advantage! In terms of shamelessness, I concede to the few of them!”

... ..

Seeing the Dao Ancestors appeared, it did not arouse the respect of the strong, but rather, a large wave of scornful voices.

That day when Ye Yuan mobilized the aura of the Lesser Heavenspan Mountain, the world already knew the truth long ago.

The nine great Dao Ancestors borrowed the name of humanity’s righteous cause to do filthy things and forced Saint Azure away.

This matter was despised by the world!

Azure Saint exhausted his mind and body for the human race until his heart ceased to beat.

In the end, what he got was actually such a treatment. The people were indignant at the unfairness!

Saint Azure fought on the frontline, but these Dao Ancestors stabbed him in the back.

This way of doing things ruined their favorable impression.

If not for their strength being too strong, they would probably have been swarmed to death by people.

*Boom!*

Suddenly, the power of flames burst forth, dyeing half the sky red.

A group of powerhouses directly turned to scattering ashes!

“Whoever keeps being noisy, this is the outcome!” Ancestor Fire said with a cold gaze.

How could they not hear these people's comments?

Ancestor Fire's fuse was the shortest. He actually directly went on a killing spree!

The moment he raged, sure enough, no one dared to speak anymore.

Except, those powerhouses were all indignant at the unfairness, glaring angrily.

Dared to be angry but did not dare to speak!

When dealing with the divine race, they did not see these few Dao Ancestors showing their faces.

But when dealing with their own people, they killed readily!

With a wave of a hand, there were probably thousands of powerhouses that fell!

It could be seen that in the eyes of the few great Dao Ancestors, they were merely a bunch of ants.

Lin Chaotian furrowed his brows, but in the end, he did not speak.

Just earlier, Heavenly Dao took back the power of rules.

The nine of them were already no longer Dao Ancestors now!

But, because of the Lesser Heavenspan Mountain, the nine of their strength did not weaken by a lot.

During these ten years, the nine of them made great progress, especially in terms of cultivation methods. They remolded their cultivation methods and greatly improved their strength.

At present, they had practically already reached the limit that human beings could attain!

Apart from being unable to break the shackles!

Therefore, even though Heavenly Dao was transmigrating, their strength did not decline too much.

"Hahaha ... These Dao Ancestors are really amazing! Attacking their own people, they actually didn't show any mercy!" Right at this time, a burst of hearty laughter reverberated throughout heaven and earth.

*Swoosh!*

*Swoosh!*

*Swoosh!*

One figure after another stepped out of the sky, each one having an extremely powerful aura.

The expressions of the human powerhouses changed wildly. These powerful auras crushed them until they were virtually unable to breathe.

"Divine race! It's the divine race!"

"W-What powerful auras! C-Could it be that they are the legendary progenitors?"

"Really so strong! Is it possible that humanity's doomsday is arriving?"

... ..

These powerhouses that came were precisely members of the divine race!

And the one talking was Tian Qing!

The expressions of the human powerhouses changed one after another. They were shocked by the progenitors' powerful auras.

This was a peerlessly domineering aura. Tian Qing's might made people unable to look him in the eye.

The eight great progenitors' auras virtually covered the entire horizon.

When they appeared, it astounded the entire era!

Lin Chaotian's expression was solemn as he said in a deep voice, "Being disrespectful to Dao Ancestors, don't they deserve to die?"

Tian Qing laughed loudly and said, "Don't give me that! You don't think that this progenitor doesn't know about the Heavenspan World's affairs because I'm in the Abyss World, right? *Huhu*, this progenitor is very grateful to you all, for driving Ye Yuan away!"

Lin Chaotian's face turned black. This guy was really skilled with words!

Rubbing their noses in it!

Lin Chaotian said in a cold voice, "Why? Does Progenitor Tian Qing think that with the few of us having the power of Heavenly Dao taken back, you'll be able to take advantage of people? *Huhu*, since that's the case, bring it on!"

But Tian Qing did not have the intention of taking action. He still had a beam on his face as he said, "This progenitor knows that you all obtained a precious treasure from Ye Yuan there! However, you all didn't seem to have broken the shackles! What a pity, what a pity! Do you all think that having obtained a precious treasure, you'll be able to stop this progenitor?"

Lin Chaotian said in a deep voice, "Although this ancestor didn't break the shackles, but ... I don't fear you either!"

Tian Qing was calm and composed, and said with his hands behind his back, "Is that so? *Hoho*, Little Li, show yourself and let them take a look at our divine race's true strength!"

The moment his voice faded, a beautiful figure stepped out of the sky.

That beautiful figure was beautiful until she could topple kingdoms, and that the moon hid its face and flowers blushed in shame!

Who could it be if not Yue Mengli?

It was just that the current Yue Mengli was different again from that time when Ye Yuan saw her!

Her aura was actually not the slightest bit weaker when compared to Tian Qing!

One had to know, among the eight great progenitors, Tian Qing's aura could be said to outshine the others, overwhelming everyone.

Now, Yue Mengli's aura was actually not weaker than Tian Qing!

Lin Chaotian's expression changed wildly, a look of shock on his face.

A feeling called despair spread in everyone's heart!

### Unrivaled Medicine God

#### **Chapter 2475: Boundless Moonlight, Limitless Samsara!**

The current Yue Mengli was noble and glamorous, overlooking the world. She was akin to a fairy maiden who came down to the mortal world.

Her aura was already completely different.

That sort of nobility added a little more mystery to Yue Mengli's peerless looks.

"What a beautiful woman! Who is she? Doesn't the divine race only has eight great progenitors? Why is there an additional woman?"

"I heard that Saint Azure Ye Yuan's beloved fell into the divine race. Furthermore, her talent is extremely high! Could that be her?"

"Won't be wrong! Back then, when Saint Azure confronted her, many people saw it with their own eyes. But at that time, her strength was far less powerful than it is now, right?"

... ..

The human powerhouses were discussing animatedly, guessing Yue Mengli's identity very quickly.

This matter was already well-known and not considered a secret. It was not too hard to guess.

It was just that no one expected that Yue Mengli's strength would actually reach the level of a progenitor!

If it were nine-versus-nine, could the human Dao Ancestors who lost the augmentation of Heavenly Dao still be the divine race's match?

She took a step out and said to Lin Chaotian coolly, "I've long heard that Dao Ancestor Life is the human race's number one Dao Ancestor. This girl is incapable and seeks guidance!"

One sentence shocked everyone until they could not close their mouths.

Yue Mengli's coming-into-being battle, she actually directly chose the strongest Dao Ancestor Life!

Lin Chaotian was also stunned, then immediately laughed in spite of himself and said, "Little girl, your arrogance is indeed carved out of the same mold as Ye Yuan! It's just that, did you pick the wrong opponent?"

Yue Mengli said coolly, "That's right, it's you! Come on!"

Lin Chaotian snorted coldly and said, "Since you're courting death yourself, then Ye Yuan can't blame this ancestor too!"

Powerful wood-attribute rule instantly bloomed.

A terrifying spiritual energy undulation actually divided the mighty storm, opening up a vacuum zone.

Lin Chaotian's might could actually rival heaven's might!

This kind of means was truly formidable.

"Myriad Swords Facing the Sky!"

Lin Chaotian gave a low cry, spiritual energy vast and mighty.

In an instant, countless barbs actually grew out of the earth.

*Swoosh! Swoosh! Swoosh!*

Countless barbs rose from the ground up and shot toward Yue Mengli.

For a time, the sky was full of dense barbs, sealing off all of Yue Mengli's escape routes.

These barbs did not seem to have the cutting edge of blades and swords, but places that they passed through actually cut the space apart.

The entire sky seemed to have countless gaps cut out.

When the human powerhouses saw this scene, they could not help revealing slightly hopeful gazes.

Although they were very unhappy with Lin Chaotian, in the face of such a Doomsday Battle, they naturally stood on humanity's side without prior agreement.

"Is this Dao Ancestor Life's strength? Even if it's Heavenly Dao Samsara, it also didn't really affect his strength!"

"Heh, the divine race's wishful thinking fell through!"

"Finish the divine race off!"

... ..

Facing such terrifying power, Yue Mengli's expression still did not change.

It was only to see her eyes flickered. Her bright red lips opened slightly.

"Heavenly Dao True Martial, Boundless Moonlight!"

A layer of white gauze suddenly fell on the world, seemingly beautiful and cold.

Everyone only saw a blur before their eyes. The place where Yue Mengli was standing, actually became Lin Chaotian in a flash!

Those countless barbs actually all stabbed toward him.

Lin Chaotian's pupils constricted, all the hair on his body standing on end.

He actually did not even know how he was switched over here!

Except, he already did not have time to think too much. Those barbs had already come over.

He hurriedly urged his spell, the barbs that filled the sky instantly turned into nothing, as if they had never appeared before.

Lin Chaotian had a solemn look, looking at the Yue Mengli not far away.

This woman gave him an extremely strange feeling.

He was a Dao Ancestor and actually had his position swapped by Yue Mengli unknowingly!

This sort of means was truly inconceivable!

Everyone opened their eyes wide, looking at this scene in disbelief.

It was just that Yue Mengli did not give everyone the time to be shocked.

One Dao mark after another rose up from his body!

One!

Two!

... ..

Ten!

When Lin Chaotian saw this scene, his pupils shrank, and he immediately drew a breath of cold air.

Not just him, the nine great Dao Ancestors were all extremely shocked at this time.

"Ten-marks Heavenly Dao Realm! This ... How is this possible? Two Ten-marks Heavenly Dao Realm powerhouses actually appeared in the divine race!" Lin Chaotian cried out in surprise.

Over on humanity's side, they directly burst into an uproar.

No one expected that this woman was actually a legendary Ten-marks powerhouse!

Tian Qing was a Ten-marks powerhouse!

This kind of supreme existence, there were actually two that appeared all of a sudden!

"Ten-marks powerhouses possess the ability to connect to heaven and penetrate the earth, undying and imperishable!"

"Back then, Grand Ancestor Spacetime fused the two great supreme laws and was unable to do anything to Tian Qing, a Ten-marks powerhouse! Now, another Ten-marks powerhouse appeared in the divine race!"

"This ... Does heaven want to doom our human race?"

... ..

At this very moment, the human powerhouses really despaired.

A single Tian Qing already left them at a loss on what to do.

Now, there was actually another Yue Mengli!

One had to know, Tian Qing severely wounded three great Dao Ancestors with his power alone!

With two Tian Qings, that was equivalent to having six Dao Ancestors!

Then these remaining progenitors, who was going to deal with them?

The moment Yue Mengli debuted, it already pushed humanity to the brink of defeat!

“Damn it! Really damn it! That pig around Saint Azure is also a rule powerhouse. Its strength is even stronger than a Dao Ancestor! If not for this bunch of damn guys who offended Saint Azure to the core, he would definitely step forward!”

“Sad! Lamentable! Lord Saint Azure must have had his heart turn cold now already, right?”

In the midst of despair, people always tried to find hope.

Naturally, they thought of Treasure Pig. They even thought of Sacred Ancestor High Priest.

If these two rule powerhouses came forward, it could definitely salvage humanity’s declining trend.

It was just that among these two mighty rule powerhouses, Sacred Ancestor High Priest was duped into refining pills by Lin Chaotian, who then failed to make good on his promise. The other, the Treasure Pig, was jointly pursued by Dao Ancestors.

Saint Azure was also forced to hand over the Lesser Heavenspan Mountain!

If not, with Saint Azure’s strength, he might already be able to deal with progenitor powerhouses now!

It was just a pity that both sides were already in the situation of being irreconcilable till death!

“Boundless Moonlight, Limitless Samsara!” Right at this time, Yue Mengli’s scarlet lips opened again.

Two round moons reflected in the pupil of her eye.

A white gauze lightly enveloped heaven and earth.

Lin Chaotian’s entire body trembled as if he had arrived at another region of time and space.

Heaven and earth were peaceful.

The noisy figures had already disappeared.

Even the other eight great Dao Ancestors had gone missing too.

Opposite, Yue Mengli stood in the air, expressionless.

Lin Chaotian's brows furrowed and he said with a cold snort, "Lass, you want to trap this ancestor by using this method? You're also a little too naive!"

Yue Mengli said coolly, "This is the Moonlight Dreamland. Enjoy it well!"

Finished saying, her figure moved, disappearing.

A strange atmosphere reverberated in this space.

At the outside world, the corners of Tian Qing's mouth smiled slightly, and he said, "Huhu, Boundless Moonlight, Limitless Samsara; this is probably the strongest ocular art since time immemorial! Getting caught inside is getting caught in limitless samsara! You clearly know that it's an illusory realm, but you cannot control yourself at all! Even this progenitor also needs to expend tremendous effort before I can break free. This Lin Chaotian will probably have to suffer a lot! Take advantage of this time! Everyone, attack together and finish off the others!"

### Unrivaled Medicine God

#### **Chapter 2476: One-Man-Show!**

The power of moonlight enveloped heaven and earth.

Those who were weak were already long unable to control themselves already, getting caught in an illusory realm and being unable to extricate themselves.

This was limitless samsara!

Although Yue Mengli's move was not unleashed against them.

Only by reaching Deva Realm and above could one barely avoid being dragged into samsara.

This move was too horrifying!

"What powerful ocular arts! She clearly only cast the spell against Dao Ancestor Life alone, but her power of moonlight affected everyone present!"

"Ten-marks Heavenly Dao Realm, it's actually even this kind of extremely strong ocular art! Our human race is really doomed this time!"

"I didn't expect that the moment Heavenly Dao Samsara starts, is the moment when our human race collapses!"

... ..

Each and every one of those Deva powerhouses was incomparably in despair. The strength that Yue Mengli exhibited made them lose all hope.

The nine great Dao Ancestors' strongest Dao Ancestor Life was directly controlled by the illusory realm.

Then of those remaining, who could be Tian Qing's match?

Back then, the 18 grand ancestors failed just one step short of success!

“Brother Chaotian, quickly wake up!” Ancestor Fire and the rest were very anxious when they saw the situation, utilizing various means, attempting to call Lin Chaotian back.

But it was completely useless.

Lin Chaotian stood there straight as a ramrod, motionless.

They immediately realized how terrifying this ocular technique was.

“Huhu, it’s no use! Even if this progenitor gets hit by this move, I can forget about escaping without ten days to half a month too! If the Heavenly Dao True Martial of a Ten-marks powerhouse is so easily broken, then this progenitor would also be too useless as the divine race’s number one person!” Tian Qing said with a light smile.

Before this, Ten-marks powerhouse, there was only him alone in the divine race.

His might was indisputable!

Now, Yue Mengli squeezed into the ranks of Ten-marks. Displaying her Heavenly Dao True Martial, the power was naturally terrifying.

Ancestor Fire said in a solemn voice, “*Humph!* So what? Tian Qing, you’re also looking down on the few of us too much!”

Tian Qing laughed loudly when he heard that and said, “You’re right! This progenitor really does look down on the few of you! Dao Ancestors? Have you all forgotten? This progenitor was ... also a Dao Ancestor in the past! How much capability you all have, would this progenitor not know?”

The expressions of Ancestor Fire and the rest were ugly to the extreme.

In front of the eight great progenitors, they really did not have any capital to be proud of.

If not for having obtained the Lesser Heavenspan Mountain, they would not even have the courage to fight.

Now, Dao Ancestor Life was trapped. They really could not see any chances of victory.

At this time, Tian Qing finally reined in his expression and said coolly, “Kill!”

*Swoosh! Swoosh! Swoosh!*

Seven lineage’s progenitors as well as the Heaven Lineage’s Tian Xing, eight people rushed forward together!

A powerful to the extreme pressure crushed them until everyone could not breathe.

This was a progenitor-level battle!

Although Tian Xin was just the Heaven Lineage’s number two person, his strength when compared to the eight lineages’ progenitors was about the same too.

It was already enough to deal with a Dao Ancestor with diminished strength.

With 16 astonishing auras rising up to the sky, it caused everyone’s expressions to change wildly.

Those Deva Realm powerhouses had long already hidden themselves far away.

But on the scene, there were still tens of thousands of human powerhouses who were caught in the illusion.

The moment the great battle started, they would die without a burial ground.

It was just that at this time, there was already no one who cared about them anymore.

Tian Qing stood calmly with his hands behind his back, clearly an appearance of watching a show.

The current situation might not need him to take the stage at all.

Of course, he did not lower his guard!

With Yue Mengli attaining Dao Ancestor, the divine race came into being once more. The person that he was most worried about was not the nine great Dao Ancestors but Yue Mengli!

He knew that with the divine race coming into being, Ye Yuan absolutely would not be willing to take things lying down!

However, he did not care about it a lot. With Yue Mengli this trump card around, Ye Yuan could not stir up any waves either.

Both sides were all set for a showdown, the auras astonishing, looking as if they were about to clash.

Right then, an abnormality suddenly occurred!

In the dark night, a white figure rose into the sky, heading straight for the clouds.

*Crack!*

*Crack! Crack!*

Immediately, lightning flashed and thunder clapped!

That figure rose steadily up, flying higher and higher.

The lightning in the sky also became more and more terrifying.

Terrifying Heavenly Dao pressure overshadowed these 16 supreme powerhouses very quickly.

The entire sky was thrown into upheaval by that figure.

Tian Qing's pupils constricted and he exclaimed, "It's Ye Yuan! What ... does he want to do?"

Over on the human race's side, cries of surprise also linked up together.

"It's Lord Saint Azure!"

"What does he want to do? There's extermination lightning above the sky! Does he want to commit suicide?"

"It's dangerous up in the sky, but the spiritual energy there is also the thickest! He ... He wouldn't be thinking of breaking through there, right?"

... ..

Above the sky, was a forbidden area to all martial artists.

The higher up, the more dangerous it was.

Even with the might of a Dao Ancestor, one could only soar over a million miles.

If one exceeded this height, they would be killed by extermination lightning!

That white figure was none other than precisely Ye Yuan!

His figure went higher and higher, reaching several hundred thousand miles in a blink of an eye.

However, he did not stop but went higher and higher instead.

Currently, it was precisely during Heavenly Dao Samsara, Heavenly Dao was in disorder.

Ye Yuan reaching this height already aroused Heavenly Dao's chaos.

Above the void, extermination lightning was already eager to make trouble.

*Crack!*

Suddenly, a bolt of lightning fell from the void, swift to the extreme.

Including Tian Qing, everyone's expressions changed abruptly.

"This lunatic! Quickly retreat!"

Tian Qing gave a loud roar and did not have time to think too much, directly dashing away.

The expressions of the seven great progenitors, as well as the eight great Dao Ancestors, changed one after another too, hurriedly retreating.

Lin Chaotian's entire body trembled, and he actually broke free from the illusion.

This bolt of shocking lightning actually broke Yue Mengli's Boundless Moonlight!

Yue Mengli also revealed her figure, her aura slightly chaotic.

When they saw that dreadful lightning dragon, their expressions changed wildly, hurriedly retreating.

Fighting at this time was tantamount to seeking death.

Who knew where that wildly dancing electric snake would land.

As long as you touched it, you would be dead.

Those human powerhouses were also startled awake, retreating one after another.

Very soon, Ye Yuan arrived above one million miles.

Here, spiritual energy was extremely abundant. Every pore on his body opened up.

That was right! He was here to break through.

Feeling Heavenly Dao Samsara, spiritual energy surging wildly, Ye Yuan knew that this was the best time for him to break through!

The great battle of the divine race's progenitors and the Dao Ancestors was about to start. Once the battle started, the people would surely be plunged into misery and suffering.

Ye Yuan's power alone was unable to stop them.

Then he might as well trigger the power of Heavenly Dao!

Being in the midst of a breakthrough, it would stop this grand battle!

*Boom!*

Ye Yuan's divine sea seemed to have directly opened up the watergate, letting spiritual energy flow in crazily.

These ten years, Ye Yuan already broke through to the realm of Dao pill.

The act of repairing divine sea and meridians was already not considered a difficult task to him.

*Crack, crack, crack?...*

The crazed electric snake wandered around him fitfully.

But he did not care!

Ye Yuan released soul force, wrapping his entire body up.

*Boom!*

Lightning fell. Ye Yuan's divine soul trembled. He was actually completely unscathed!

Chaos origin divinity was fearsomely powerful!

Everyone looked at this scene dumbfoundedly with their mouths agape, shocked speechless.

What was originally an astonishing great battle earlier now became Ye Yuan's one-man show!

### [Unrivaled Medicine God](#)

#### **Chapter 2477: You Can Come and Give It a Try!**

"Just what kind of realm did this guy's divine soul reach? Even extermination lightning actually can't harm him?" Ancestor Fire opened his mouth wide and said with a shocked face.

"He really is a crazy fellow! He never takes the usual path when breaking through realms!" Lin Chaotian said with an ugly expression.

While Tian Qing's brows furrowed slightly and he said with vicissitudes of emotion, "Really damn it! He's making use of extermination lightning to temper his fleshy body, and break through the divine essence realm at the same time! This guy's monstrosity is really unreasonable!"

Apart from Ye Yuan, no one dared to play like this.

The high and mighty Dao Ancestors could not; he, a Ten-marks powerhouse, similarly could not.

Extermination lightning, capable of destroying everything!

Even though they were paramount existences, in front of heavenly might, they were still incomparably insignificant.

The expressions on the faces of the groups of old ancestors were incomparably complicated, completely unable to describe their current feelings.

An earth-shattering great battle that had already been planned for a long time, was disrupted just like that!

.

Over on humanity's side, they all let out a long sigh in relief.

Just now, if not for Ye Yuan's timely appearance, all those present who were under Deva Realm would probably have died off.

The area that a Dao Ancestor-level battle covered was too vast. It was not what they could resist at all.

Let alone that they were even hit by the ocular art, and got caught in an illusion.

"Lord Tian Qing, what should we do now?" Profound Lineage's progenitor, Originsmile, said with a frown.

Tian Qing mused for a moment and said, "I really want to see what level his strength will reach after he breaks through! We've waited far too long for this war. We can't just give up!"

The few progenitors also nodded their heads slightly.

Making them give up just like this and return to the abyss, that was impossible!

Furthermore, they currently possessed two great Ten-marks powerhouses. Their strength already could not be mentioned in the same breath long ago, there was no need to fear anyone.

*Boom!*

*Crack!*

Wind, rain, lightning, and thunder, crisscrossed.

Ye Yuan was situated inside, glimmering and fading indeterminately.

That appearance was like a small rowboat in a tsunami.

It was just that no matter how big the storm was, he stood firm as a rock!

His fleshy body realm and divine essence realm were advancing frenziedly.

To him, the divine essence required for breaking through one cultivation realm now was too vast.

Cultivating according to the normal routine, he would only be able to cultivate the Creation Realm to the realm of grand completion after God knows how long.

But this Heavenly Dao Samsara created an opportunity for him.

“Heh, the chaos origin divinity is really useful! Although I still haven’t figured out what it is, without a doubt, it’s very strong!” Ye Yuan said gleefully.

Judging from the shock of that mysterious voice, the chaos origin divinity was not an ordinary thing too.

Looking at it now, not only was the chaos origin divinity undying and imperishable, it could even withstand extermination lightning.

The extermination lightning that even Dao Ancestors and Ten-marks powerhouses avoided like the plague, he faced it calmly.

Furthermore, he did not go all out. He deliberately leaked a trace of extermination lightning power, and he used it to temper his physical body.

With the extermination lightning’s power, using it to temper the physical body was most suitable.

Ye Yuan’s physical body had long already transcended the ninth nirvanic tribulation, reaching the level of perfect ninth transformation.

But after reaching the ninth transformation, his progress became extremely slow.

Because there were virtually no treasures capable of enhancing his physical strength anymore.

Now, with the tempering of the extermination lightning, the strength of his physical body gradually reached grand completion.

His strength was growing rapidly.

Earth-shaking changes were also occurring to Ye Yuan’s chaos world.

The sun, moon, stars, mountains, and rivers gradually became real.

When the nine great Dao Ancestors saw this scene, their gazes revealed extremely envious looks.

Especially Lin Chaotian, he was incredibly jealous.

He expended so much thought to acquire the Lesser Heavenspan Mountain. In the end, it was all for naught!

“Just what kind of cultivation method did this guy comprehend? The commotion of his breakthrough is a little too big, right?!” Ancestor Fire said in a solemn voice.

The commotion of Ye Yuan’s breakthrough was seriously too great.

Even above the ninth heaven, that powerful pressure made everyone’s hearts shocked too.

“I really don’t know what kind of cultivation method can make world power so solid! I have a feeling that this is the key to him being different from us! He doesn’t need to transcend the tribulation!” Lin Chaotian said in a solemn voice.

No matter how Lin Chaotian racked his brain, he also could not imagine that Ye Yuan relied on his own comprehension ability. He forcibly created a small world that was comparable to the Heavenspan World!

Hence, they could only be envious.

No idea how long had passed either, Ye Yuan's aura finally climbed to the peak, and it could not increase anymore.

At this point, his Chaos Heavenspan Canon was finally cultivated to the realm of grand completion!

Ye Yuan did not have any clues about the next realm.

He had devoted himself to studying the Lesser Heavenspan Mountain before but did not have the slightest clue.

It seemed like everything ended here.

But Ye Yuan had a feeling that his cultivation method should be able to break through to a higher realm.

Ye Yuan examined his own small world. Everything was already created completely.

A great world had already taken shape!

Ye Yuan's brows furrowed slightly and he said to himself, "My world is missing something! Yes, although my world is powerful, it doesn't have the slightest lease of life! No flowers, grass, and trees; without birds and animals, let alone cultivating martial artists. Even if a martial artist is in my world, they wouldn't be able to cultivate too! But how should I let it have a myriad of lives?"

Ye Yuan felt that this was the key to his breakthrough to the next realm.

It was just that he did not know where the problem was.

Creating a world was not saying that if God wanted light, there would be light.

If it were so simple, Ye Yuan also would not have walked with so much difficulty.

Although the time that he cultivated was not long, the things that he experienced, ordinary people simply could not imagine it.

Not talking about other things, just the comprehension of the Chaos Heavenspan Canon was not what ordinary people could understand.

"When other martial artists cultivate, as long as they reach Divine Lord Realm, they will be able to form a small world and can derive life. But it doesn't seem to work for my world! While it's strong, it's missing something!" Ye Yuan said helplessly.

"Forget it. Take it one step at a time. My power of laws isn't perfected yet. After I reach the realm of rule, I should be able to do whatever I want in the Heavenspan World!"

After the chaos world had finished evolving completely, his strength also reached an inconceivable level.

Ordinary Deva Fifth Blights were utterly not worth mentioning in front of him.

Only Dao Ancestors relying on the power of rule could have a battle with him.

Ye Yuan took a step out and directly returned to the surface of the earth.

He looked at Tian Qing from afar and said in a cold voice, "Tian Qing, I don't have objections about your divine race wanting to return to the Heavenspan World! But if you all dare to inflict living things with great suffering or want to continue enslaving the myriad races, this Ye will definitely kill you with my own hands!"

With him saying these words, it was equivalent to protecting the nine great Dao Ancestors.

Although Ye Yuan was full of unhappiness with these few guys, they could not die yet.

Without them, the myriad races would lose their support.

His current strength was still not enough to overwhelm the divine race.

But it was enough to make the divine race dread him!

However, Ye Yuan's words were arrogant to the extreme.

Personally killing the divine race's number one person, only Ye Yuan dared to say these words.

Sure enough, Tian Qing laughed loudly when he heard that and said, "Hahaha?... Ye Yuan, it depends on whether or not you have the qualifications to say this!"

Ye Yuan nodded his head and said coolly, "You can come and give it a try to see whether I have the qualifications to say this or not!"

### Unrivaled Medicine God

#### **Chapter 2478: Strongest Since Ancient Times!**

"Originsmile, you go and play with him!" Tian Qing said coolly.

He had precisely the intention of probing Ye Yuan's strength and naturally chimed in easily.

Tian Qing could tell that Ye Yuan's power of laws was not at perfection and did not reach the realm of rule.

Although the commotion that Ye Yuan caused was huge, he did not think that Ye Yuan had the capital to pose a threat to him.

His dread toward Ye Yuan was primarily still because of Ye Yuan's bizarre movement technique.

An unkillable opponent was clearly the most difficult to deal with.

However, it was also merely limited to being difficult to deal with.

This kind of dread was relative.

He was wary of Ye Yuan killing people. But was Ye Yuan not apprehensive of him killing people?

It was just that this scene was akin to a bolt out of the blue in the view of the others.

Ye Yuan's current realm could at best be regarded as Deva Fifth Blight.

Deva Fifth Blight challenging the divine race's progenitor?

You got to be kidding!

The divine race's progenitors were all Nine-marks grand completion realm. Coupled with the divine race's Heavenly Dao True Martial, their strengths were comparable to that of Dao Ancestors!

It was real Dao Ancestors, and not Dao Ancestors after Heavenly Dao Samsara.

Right now, Ye Yuan was actually going to challenge a Dao Ancestor level powerhouse? Wasn't this nonsense?

Originsmile voiced his acknowledgment, took a step out, and looked at Ye Yuan as he said with a smile, "Ye Yuan, if you reached the realm of rule and became a Grand Ancestor, this progenitor would still fear you somewhat. It's just that right now ... you'd best tuck your tail between your legs and run! In a frontal confrontation, you're not this progenitor's match."

Divine race progenitors, each one was a super powerhouse that shook heaven and startled the earth.

The Doomsday Battle back then, only Grand Ancestor Spacetime could faintly overpower them.

The others had to band together before they had the power to fight.

But in the end, it was also all the outcome of perishing and Dao dissipating.

They naturally had absolute confidence.

Below rules, they would not look someone in the eye at all.

Not even Ye Yuan!

Ye Yuan's mouth curled and he said coolly, "If bragging is useful, then still cultivate for what? Moving your lips are enough!"

Originsmile was taken aback and said, "Fine lad, then this progenitor will measure just how much capability you have!"

*Boom!*

The moment Originsmile's aura was released, nine sturdy Dao marks revolved around him.

His every action and movement actually carried the might of Heavenly Dao!

This was the divine race!

*Swoosh!*

It was only to see Originsmile's figure flashed, already arriving in front of Ye Yuan in an instant.

A fist smashed over; the void trembled!

Boundless strength completely locked Ye Yuan down.

Even when separated by an extremely far distance, the piercing cold fist wind still howled until people's cheeks hurt.

Without any flashy martial technique, this punch was Great Dao simplified to the utmost!

The first time a divine race progenitor showed his strength in front of the world, it shocked all sides!

*"Hiss ... Is this the strength of the divine race's progenitors? Really too terrifying!"*

"I finally understand why that war ten billion years ago was called Doomsday Battle. Such horrifying power is virtually world-destroying!"

"Lord Saint Azure is still lacking a bit of skill level! If he can reach the realm of rule, he should be able to have a battle with the divine race's progenitors, right?"

"But it's fine. With that bizarre movement technique of Lord Saint Azure's, the divine race's progenitor can't hurt him!"

... ..

The great battle previously was disrupted by Ye Yuan.

Although the human powerhouses were shocked earlier, now the shock they experienced became even greater after directly watching this scene now.

Originsmile's strength erupted completely, shocking the world!

Everyone thought that Ye Yuan would avoid the sharp edge.

This level of power, apart from Dao Ancestor, no one could block it at all.

But in the next instant, an unexpected scene occurred.

Ye Yuan gave a roar. The sound of a dragon roar rose to the sky!

This dragon roar shocked until everyone's eardrums hurt, shocking until heaven and earth rippled!

It was only to see him stomp his feet and similarly slam a punch out.

A head-on clash!

Quicker than words could tell.

With their movement power, it was merely a matter of an instant.

Everyone did not react to it yet and these two people already clashed.

*Rumble!*

Terrifying energy undulations rippled out crazily.

Those who were weak were directly sent flying.

Fortunately, they were far enough away such that they would not be killed by this air billow.

Tian Qing extended his sleeves and flicked lightly, swiping this force away.

It was just that a shocked expression showed on his face.

This blow was evenly matched!

“What terrifying physical power! Grand completion Nine Transformations Golden Body is what no one could achieve since ancient times!” Tian Qing said in a solemn voice.

By the side, Tian Xing said in shock, “Nine cycles of nirvanic tribulation, nine life-and-death samsara. Ordinary people can’t even imagine the price that’s paid. The ninth transformation nirvanic tribulation is a hundred times even more terrifying than Deva Fifth Blight! Even powerhouses who have transcended the eighth transformation nirvanic tribulation don’t dare to transcend the ninth transformation nirvanic tribulation too! Really don’t know how he pulled through!”

Tian Qing nodded and said, “The world only sees his amazing talent, but overlooked his astonishing will! This is the most terrifying thing about Ye Yuan!”

Originsmile’s divine sea churned. He was also shocked by Ye Yuan’s strike.

He did not expect that Ye Yuan would be able to stand up to him as an equal just by relying on the power of the physical body.

“Is this the strength of the legendary divine race progenitors? Merely thus! Are you really not using Heavenly Dao True Martial?” Ye Yuan said with a smile that was not a smile.

Originsmile’s gaze turned slightly dark and he said, “Grand completion Nine Transformations Golden Body, the power of a primeval dragon! It turns out that your physical body has already reached the realm of a primeval dragon! Furthermore, you’re probably the strongest one out of primeval dragons! Grand completion Nine Transformations Golden Body has never happened since ancient times!”

“What?! The power of a primeval dragon! Strongest primeval dragon! Doesn’t that mean that Ye Yuan already reached the realm of Grand Ancestor in terms of physical body?” Ancestor Fire said in shock.

Lin Chaotian nodded slightly and said, “Extermination lightning tempering the body stimulated all of his potential! Ninth transformation nirvanic tribulation, even if it’s successive primeval dragons, no one dared to cross it too! Not only did Ye Yuan transcend this tribulation, he even tempered his physical body to the extreme! His strength likely isn’t inferior to you all already!”

Ancestor Water frowned and said, “I’ve also heard before that the eight great supreme demon clans all have inheritance methods for perfect ninth transformation. It’s just that successive samsara progenitors could only all transcend the eighth transformation nirvanic tribulation, and were unable to transcend the ninth transformation nirvanic tribulation! Those who attempted to cross the tribulation all died! I didn’t expect that Ye Yuan could actually complete the ninth transformation nirvanic tribulation!”

Before this, no one would care about Ye Yuan’s physical strength.

Ye Yuan’s might was firstly because of his strange movement technique. Secondly, it was because of his law fusion that set the world on fire.

But currently, when Ye Yuan punched out, the world was shocked!

His physical strength had reached an unprecedented realm!

Reaching the realm of a primeval dragon was already reaching the realm of a Grand Ancestor.

Now, Ye Yuan was even grand completion Nine Transformations Golden Body, becoming the strongest primeval dragon. His strength was already unimaginable.

Hence, that was how he was able to be evenly matched with Originsmile!

"I underestimated you! You indeed have the qualifications to fight with this progenitor! Since that's the case, you're worthy of me, this progenitor, showing my Heavenly Dao True Martial!"

Originsmile stomped his feet, the might of Heavenly Dao suddenly descended.

Nine Dao marks bloomed with a dazzling light.

However, nothing changed about Originsmile.

Ye Yuan's gaze turned slightly grim, his expression also became solemn.

No change was maybe even more terrifying than changes!

Although he reached the realm of a primeval dragon, each of these divine race progenitors was an old monster who had lived for countless billions of years. None of them were easy to deal with!

#### **Chapter 2479: Three Progenitors Battling Saint Azure!**

*Boom!*

Originsmile's speed was inconceivably swift. In a blink, it was another punch!

The confrontation this time was evenly matched again.

On humanity's side, the group of Dao Ancestors was puzzled.

What kind of Heavenly Dao True Martial was this? It was totally useless!

Continue fighting at this rate, even if they punched a hole in the sky, it could not determine the victor too, no?

"Heh, this Profound Lineage's progenitor is a fake! His Heavenly Dao True Martial is actually completely useless!"

"Since Saint Azure reached the realm of a Grand Ancestor. So how can this bit of attack power do anything to him?"

"This guy is here to play a fool, right?"

... ..

On humanity's side, everyone revealed contemptuous looks.

Of course, Originsmile was very powerful.

But they were no longer worried about Ye Yuan. Because he already reached the realm of Grand Ancestor. Furthermore, he was even the strongest primeval dragon.

This degree of attack could no longer hurt him.

It was just that a hint of an imperceptible slight smile flashed across the corners of Tian Qing's mouth.

*Boom!*

Originsmile did not stop, throwing another heavy punch.

Ye Yuan's expression changed greatly. His figure retreated immediately.

This punch just now actually gave him an overwhelming pressure!

Originsmile's movements were unbelievably swift. He threw a punch again, not giving Ye Yuan a chance to catch his breath at all.

One punch after another!

The expression on everyone's faces finally changed.

They discovered that something was amiss very quickly. Ye Yuan could not hold out more and more in front of Originsmile.

*Bang!*

Finally, Ye Yuan could not bear it, spurring a mouthful of fresh blood wildly. He flew away.

Tian Qing smiled and said, "Among the divine race's progenitors, which one isn't a veteran of a hundred battles? Heavenly Dao True Martial, Thousand Martial Myriad Catties! With each punch thrown, the power is five times the previous punch! Stacking it up, the power will be extremely terrifying! Having Originsmile unleash more than a dozen punches in a row, even this progenitor will get seriously injured too! This bunch of fools actually ridiculed Originsmile for being a fake? Who gave them the courage?"

Over on humanity's side, the expressions of the group of Dao Ancestors changed abruptly.

This Heavenly Dao True Martial sounded average and looked even more ordinary.

But it was actually unbelievably terrifying!

One had to know, Originsmile's one punch already possessed incredibly terrifying power in itself.

Wanting to withstand this punch was extremely difficult to begin with.

That kind of fist clashing, only Ye Yuan this strongest primeval dragon dared to do it.

How could the other Dao Ancestors dare to clash like that?

Wanting to deal with this move, unless it was winning with one move, or you could avoid all of his attacks.

Except, against a powerhouse standing at the summit of the Heavenspan World, how difficult was it to achieve this?

Therefore, this move had virtually no flaws!

To continue fighting with Originsmile, the more the other party fought, the stronger he got. There was no solution at all!

Originsmile stood in the air and said smilingly, "This trick can't do anything to you. But it's still not your turn to come and be arrogant in front of this progenitor yet! Your threat is no threat! This Heavenspan World is our divine race's!"

He said could not do anything was because he knew Ye Yuan's strange movement technique.

But, if Ye Yuan really wanted to threaten them, he needed to bring out sufficient strength, and defeat them head-on!

Without sufficient strength, his threat appeared laughable.

Ye Yuan stabilized his figure, wiped away the bloodstains at the corners of his mouth, and said with a grin, "Is that so? You've already used your Heavenly Dao True Martial, but I haven't made a move yet!"

The current Ye Yuan still had extremely exuberant blood vitality, like he had not gotten injured at all.

Originsmile could not help criticizing in his heart, secretly scolding freak.

Grand completion Nine Transformations Golden Body was too terrifying!

Even if a Dao Ancestor took this punch of his, it was also impossible to be like Ye Yuan; completely fine.

However, his face was still very calm and he said, "It's no use. This move of mine, Thousand Martial Myriad Catties, unless you have absolute strength, otherwise, it has no counter! Back then, your human race had three Grand Ancestors who died under this move!"

Ye Yuan's smile reined in, a cold light flashing in his eyes.

The 18 grand ancestors were like his disciples, but they all died at the hands of the disciples.

Now, Originsmile actually had a smug appearance. How could Ye Yuan not be angry?

It was only to hear a cold laugh. He said, "Is that so? Then take a look at whether you can block it or not!"

Ye Yuan pressed his palms together, causing an astonishing dragon might to rise up to the sky.

*Rumble ...*

The astounding dragon might desired to compete with heaven's might!

Originsmile's expression instantly changed wildly.

This pressure gave him an extremely dangerous feeling.

At the same time, there was also Tian Qing as well as the divine race's various lineages' progenitors whose expressions changed.

"This move, could it be ... Nine Dragons Descending Upon the World?" Beside Tian Qing, a progenitor said in surprise.

Tian Qing nodded slightly, his expression solemn as he said, "Won't be wrong! It's that move! The previous generation primeval dragon's strength was lacking and could only summon three true dragon

spirits. But it already caused considerable problems for us. Looking at Ye Yuan's power ... there's likely no less than six!"

His voice had yet to fade when three golden true dragon spirits flew out from the horizon, traversing indeterminately amidst the strong wind and rain.

*"Roar!"*

The three true dragon spirits rushed toward Originsmile frenziedly under Ye Yuan's guidance.

*Bang, bang, bang ...*

The three true dragon spirits bared their fangs and brandished their claws, clashing together with Originsmile.

These three true dragon spirits, each one had Grand Ancestor level strength!

Three dragons teaming up actually directly suppressed Originsmile.

Originsmile's Thousand Martial Myriad Catties was unable to link up at all.

For a time, the battle fell into a stalemate.

But at this time, Ye Yuan's hand movements changed irregularly, and palms faced the sky.

*"Roar!"*

*"Roar!"*

*"Roar!"*

Another three true dragon spirits flew out, heading straight for Originsmile.

Tian Qing's expression changed wildly and he said in a solemn voice, "Yi Feng, you go and help him!"

Yi Feng was the Yellow Lineage's progenitor!

Yi Feng did not say a word, directly joining the battle.

However, the six true dragon spirits overlaying together was not as simple as one plus one equals two.

These six true dragon spirits, each one had a different attribute.

Attacking together, the power multiplied!

When Tian Qing saw this scene, the corners of his mouth twitched slightly and he said, "This guy is really unreasonable monstrous! If we wait for him to step into the realm of rule, this progenitor won't be able to do anything to him either!"

Suddenly, his expression changed again, and he cried out in surprise, "A se-seventh one! Hiss ... This guy!"

It was only to see Ye Yuan's seals change again. The seventh true dragon spirit stepped out of the sky.

With seven true dragon spirits joining forces, they forced the two great progenitors into a fluster, practically without the strength to fight back!

Over on humanity's side, everyone was stunned!

Suddenly, a group of powerhouses arrived with a howl. Seeing this scene, one could not help laughing excitedly as he said, "*Hahaha* ... it's the primeval dragon's supreme innate divine ability, Nine Dragons Descending Upon the World! His Excellency is actually able to summon seven true dragon spirits! He's really my Dragon Clan's strongest through the ages!"

The arrival was precisely Long Yi. With him, there were Bai Chen and the rest.

When Long Yi saw the scene of seven dragons battling two progenitors, he yelled excitedly.

Nine Dragons Descending Upon the World!

However, when casting this move, what each generation of primeval dragon could achieve was different.

But in the records of the Dragon Clan, the most was also just five true dragon spirits.

Ye Yuan actually summoned seven at once!

Suddenly, his expression changed and he cried out in surprise, "T-The eighth!"

It was only to see another true dragon spirit tunnel out of the void, heading straight for the battlefield.

Tian Qing's entire body trembled, and he gritted his teeth and said, "Damn it! This progenitor doesn't believe that you can still summon nine true dragon spirits! Bo Yi, you go too!"

### Unrivaled Medicine God

#### **Chapter 2480: This Was What You Said!**

With three great progenitors taking action at the same time, the power was truly heaven-shocking.

The spectacular sight of the Doomsday Battle was virtually being put on show again.

Furthermore, Bo Yi's strength was second only to Tian Qing in the entire divine race!

His addition turned the tide of the battle all at once.

Even with the eighth true dragon spirit, it was also counter-pressured by the three great progenitors.

The three great progenitors activated their Heavenly Dao True Martial, forcing until the eight true dragon spirits were unable to get close.

At this moment, the might of the divine race's progenitors were displayed in its entirety.

However, what was even more shocking was still Ye Yuan!

Ancestor Fire opened his mouth wide and said with a look of shock, "This ... This is also too monstrous, right? He actually forcefully resisted three great divine race progenitors with his power alone? This is him not entering the realm of rule yet. If he reached the realm of rule, with his fused rule coupled with this kind of earth-shaking physical strength, who can still be his match?"

Lin Chaotian frowned and said, "To us, it's a calamity! Not a blessing!"

Lin Chaotian's expression flickered incessantly, not knowing whether to be happy or to be sad.

Concerning Ye Yuan threatening the divine race with his power alone, they naturally welcomed it.

But he similarly knew that his enmity with Ye Yuan was big!

The stronger Ye Yuan's strength was, the harder he would find it to eat and sleep.

But the other human powerhouses did not have their worries.

Each and every one of them danced for joy, seeing the hope of new life!

Ye Yuan's strength forcibly hurled them out of despair.

"Lord Saint Azure is mighty!"

"Lord Saint Azure is overwhelming, suppressing the divine race!"

"Hahaha?... Lord Saint Azure, it really blinded my dog eyes! With your strength, how can you possibly lose to the divine race?"

... ..

Ye Yuan's prestige was exceedingly high in the human race to begin with.

Currently, he made a grand display of invincible might, fighting three progenitors by himself. It exerted this glory to the extreme even more.

The human race powerhouses, regardless of whether male, female, old, or young, their gazes when looking at Ye Yuan was like looking at a divine buddha!

Currently, Ye Yuan was no longer a person in their hearts, but a totem!

They firmly believed that Ye Yuan would lead them to victory!

But at this time, sweat also oozed out of Ye Yuan's forehead slightly.

Summoning eight true dragon spirits, the burden was still too heavy to him!

However, his hand-seal changed again!

Seeing this scene, Tian Qing's expression changed wildly, and he cried out in surprise, "Damn it, this brat wouldn't really be summoning nine true dragon spirits, right?"

His voice had yet to fade when there was a violent shaking in the void.

A golden dragon head slowly extended out.

As if feeling the appearance of the ninth true dragon spirit, the other eight actually increased greatly in strength and launched a counteroffensive frenziedly.

Long Yi as the Dragon Clan's highest chief almost jumped up in agitation.

“The ninth true dragon spirit! This is a scene that surpasses the ancients and amazes the contemporaries! Nine dragons arriving simultaneously, invincible under the heavens! Once the ninth true dragon spirit arrives, what does Tian Qing count as? My dragon race clan will be able to suppress the divine race!” Long Yi was agitated until his entire body trembled.

This scene was seriously too soul-stirring.

But at this time, Ye Yuan’s complexion became paler and paler, appearing rather strained.

The ninth true dragon spirit was not like before, it came out very slowly.

But with every little bit that the true dragon spirit came out, the strength of these eight true dragons would rise by a level!

Their strength was skyrocketing!

Originally, three great progenitors already suppressed the eight true dragon spirits.

But now, both sides were already equally matched in strength!

Tian Qing’s pupils constricted, he was also startled by this scene.

Looking at this stance, if the ninth true dragon spirit really came out, it would probably really suppress even him too!

He sucked in a cold breath, his expression ugly as he said, “This brat is without an end!”

He shouted crazily in his heart, don’t come out, don’t come out!

If Ye Yuan summoned the ninth true dragon spirit out now, then it would really be over for the divine race.

But the ninth true dragon spirit was still slowly coming out.

Before long, the three progenitors were suppressed by the eight true dragons again, without the slightest strength to fight back.

However, right at this time, all of a sudden, Ye Yuan spurted a mouthful of fresh blood wildly, his seal directly being interrupted.

The ninth true dragon spirit directly dissipated without a trace with a bang.

The trembling of the void finally stopped.

Ye Yuan’s breath being interrupted, those eight true dragon spirits were also unable to maintain their figures, roaring a few times in the air. They finally disappeared without a trace.

Over on humanity’s side, there was a uniform sigh.

“*Sigh!*? Just a little, just missing one last bit! A pity! What a shame!” Long Yi smacked his thigh and said with endless regrets.

Nine dragons arriving simultaneously, shaking the heavens and startling the earth!

This kind of spectacular and sacred scene, it was missing just a bit more!

Originsmile, Yi Feng, Bo Yi, three great progenitors, all had disorderly breathing, looking at Ye Yuan with incomparable shock.

They never dreamed that they would actually be forced into such a state.

When Tian Qing saw this scene, he secretly sighed in relief at his good fortune.

Fortunately, Ye Yuan's blood vitality power was not enough to summon the ninth true dragon spirit.

Otherwise, they would really have to head back home.

Ye Yuan gasped heavily for air, his entire person dead-tired.

He practically drained his blood vitality empty in order to summon the nine true dragon spirits.

Becoming weak at this time made sense too.

But right then, a punk shadow flashed and landed below Ye Yuan's body, and propped him up, putting him on its back.

Grunt! Grunt!

This ink figure was precisely Treasure Pig!

Treasure Pig's appearance also made Tian Qing's expression change.

He already heard that this pig could rival two great Dao Ancestors, its strength fearsome!

There was still such a powerful existence by Ye Yuan's side.

Ye Yuan leaned on Treasure Pig, looked at Tian Qing from afar, and said coolly, "Tian Qing, I wonder if my threat is considered a threat or not? You also know that I haven't stepped into the realm of rule yet! After I reach the realm of rule, how much confidence do you have in dealing with me?"

Tian Qing's expression was very ugly, he was actually threatened by someone!

He, Tian Qing, battled through the nine heavens and ten earths. Even when he encountered Grand Ancestor Spacetime, that kind of peerless character, he also fought until he perished, his Dao dissipating.

But today, he was actually being threatened by someone!

But he knew that what Ye Yuan said was not wrong at all!

The Heavenspan World's myriad races, no one could enter his arcane sights.

Even Dao Ancestor Life, Lin Chaotian, could not as well!

He only dreaded one person. That person was Ye Yuan!

If it were before, Ye Yuan's threat would naturally have been nothing.

But now, Ye Yuan battled three great progenitors by himself. This potential was too terrifying.

After Ye Yuan stepped into the realm of rule, coupled with such a formidable to the extreme physical body, he could simply be rated as invincible.

The most important thing was that Ye Yuan could not be killed!

This threat was a real threat!

Tian Qing fell silent!

Over on humanity's side, all of the powerhouses had invigorated expressions on their faces.

Something that even the nine great Dao Ancestors could not accomplish, Ye Yuan did it!

He forced the divine race's number one person, Tian Qing, to hesitate with his astonishing strength!

After a long time, Tian Qing's gaze turned sullen and he said, "The divine race can enter the Heavenspan World! This was what you said!"

Ye Yuan grinned and said with a nod, "I said it! To the east of Heavenspan Mountain, it belongs to the human race! To the west of Heavenspan Mountain, it belongs to the divine race!"
