#### Chapter 2851: Shooting Down an Ancestor!

With regards to the indignation of Zhu Yan and the others, Ye Yuan did not take it seriously either.

He was not familiar with these people to begin with. There was no need to pay too much attention to their feelings.

After Zhu Yan these people left, Ye Yuan immediately went to the Scripture Library and started browsing the Extreme Medicine Sect's alchemy records. The Extreme Medicine Sect focused on alchemy, their scriptures being extremely plentiful. It could be said to be enough to fill a house to the rafters.

The Extreme Medicine Sect's Scripture Library was divided into Martial and Alchemy.

And the Alchemy Scripture Library was a full seven stories high!

Of course, entering a different floor required different permissions.

As Zuo Chen's disciple, Ye Yuan's authority was naturally great and could directly climb up to the sixth floor.

As for the Scripture Library, the Extreme Medicine Sect's limitations were not too great.

Alchemy Dao was different from Martial Dao. It was not about giving a person a secret book, and then he would be able to ascend to heaven in one step.

The things recorded in alchemy classics were also greatly different from the things recorded into martial arts classics.

Some of the profound things, even if let a person look, he might not be able to understand it too.

Only by accumulating little by little could one go from the easy to the difficult and complicated, reaching the pinnacle. But not having many limitations did not mean that there were no limitations. The seventh level's classics, that was all the foundation of the Extreme Medicine Sect. Only those with the highest authority could browse them.

After Ye Yuan entered the Scripture Library, he did not stop at the lowest level but went straight up to the sixth level.

Ye Yuan was only half a step away from profound grade. What he needed now was a spark of inspiration to break through this shackle.

Ordinary classics could consolidate his foundation, but it was unable to serve as any advice.

Therefore, he went straight to the sixth floor.

Alchemy classics were not like martial arts classics, being classified into levels.

Just as the Hundred Herbs Illustrated Handbook, it could be said to just be the list of some heavenly medicines. But its preciousness was enough to place it at the seventh level.

In the sixth level, there were naturally some records that Ye Yuan could not understand.

But, he understood the vast majority of it. It was because of the realm he had already reached.

Above profound grade, it was even more vague and insubstantial. That level of records was incredibly precious and would naturally be placed at the seventh level.

Of course, Ye Yuan knew that there were even higher level books placed in the Extreme Light Pavilion.

That place, only the Extreme Light Pavilion's pavilion elders had the qualifications to browse through.

However, those books were still too distant for Ye Yuan. There was naturally no need to consider them for now.

At the sixth level, there were not many people reading the classics. It was basically some Emperor Realm powerhouses.

The moment Ye Yuan entered the door, it immediately attracted sidelong glances. It was not that there were no grade five heavenly alchemists able to go up to the sixth floor. Lu Daoyi had this qualification.

But, even Lu Daoyi would not go up to the sixth level either.

The alchemy records here were not suitable for him.

Therefore, seeing a Saint Sovereign Heaven come up, these Emperor Realm powerhouses were all extremely surprised.

Ye Yuan ignored these people's gazes, going straight for the bookcases and starting browsing through.

All kinds of jade slips were placed on the bookcase. Next to the jade slips, there were the names and profiles of the records, which were clear at a glance.

Ye Yuan swept a glance and casually picked up a 'Profound Grade Heavenly Pill Detailed Explanation' and started reading.

"Young man, it's not good to reach beyond your grasp! Profound grade heavenly pill is a realm that you're currently unable to touch. Better to lay down the foundation honestly. That's the right way!" Suddenly, a voice transmitted over next to Ye Yuan's ear.

Upon turning his head to look, it was an old man in black robes.

Ye Yuan gave a bow and said smilingly, "Many thanks to Ancestor for your teachings. This disciple got it!"

Although he said so, Ye Yuan did not have the intention of leaving.

This black-robed old man's strength was unfathomable. Ye Yuan could not see through. He had likely already reached Emperor Sakra Heaven Realm.

Hence, Ye Yuan called him Ancestor.

The black-robed old man frowned and said, "Boy, are you turning a deaf ear to this seat's words?"

Ye Yuan was helpless and could only say honestly, "Ancestor, this disciple came here in order to break through to profound grade."

The moment this was said, many Emperor Realms immediately laughed out loud. A measly little Saint Sovereign Heaven said that he wanted to break through to profound grade was really hilarious. They all, these people, had already reached Emperor Realm and had not broken through to profound grade yet!

It was fine if he did not say anything. But the moment he said this, the black robed old man snorted coldly and said, "Not only are you reaching beyond your grasp, you're even wildly arrogant and conceited! Who's your master?"

Ye Yuan was helpless and could only say, "My master is Zuo Chen!"

The black-robed old man snorted coldly and said, "Does Zuo Chen that brat have eyes but couldn't see? How did he accept such an ignorant brat to be a disciple? Go to where you should go. Don't disturb other people's reading here!"

Ye Yuan shrugged and said, "Ancestor, I'm just here to read. I didn't disturb others. It's you who disturbed the others."

The moment these words came out, everyone was stunned.

This boy was really arrogant!

Did he not know who this person in front of him was?

Even if he did not know, to dare call Zuo Chen 'that brat' and even said that he had eyes but could not see, could he be an ordinary person?

You actually dared to talk like this!

The black-robed old man gave a cold laugh when he heard that. He said, "Huhu, well done! Even if Zuo Chen that brat is in front of this seat, he also wouldn't dare to talk like that. Young friend, you really have a lot of balls!"

Ye Yuan said neither obsequiously nor haughtily, "This disciple is just speaking the truth! This disciple has the right to enter the sixth level. I naturally have the right to read here. Even if this blows up to Sect Master there, I'm not in the wrong either. Ancestor, you don't have the authority to make me leave. If Ancestor, you, insist on making this disciple leave, then I can only go to the Law Enforcement Hall to redress my grievance!" The black-robed old man's face was already black as the bottom of a pot.

This brat actually brought to the Law Enforcement Hall to suppress him!

He was making him leave for his own good. Not only did this brat not appreciate the kindness, but he was also even messing with him!

If this matter really ended up at the Law Enforcement Hall there, he really could not explain it clearly.

With Ye Yuan's identity, he indeed had the qualifications to read the records here.

He was the Alchemy Scripture Library's manager. If he really chased Ye Yuan out, that would be his fault.

The Law Enforcement Hall would embarrass him!

He, an exalted Emperor Sakra Heaven powerhouse, actually made things difficult for a Saint Sovereign Heaven. This could not be justified no matter what.

“Hah! Good! Very good! This seat wants to see how you break through to profound grade realm! You’re called Ye Yuan, right? This seat has remembered you. Later, this seat will ask Zuo Chen that brat how he teaches disciples!”

The black-robed old man flicked his sleeves and left, leaving behind the dumbfounded group of Emperor Realm powerhouses.

“This kid is too amazing to actually shoot down Elder Fan Li until he’s speechless!”

“What amazing? I think that he’s courting death! Elder Fan Li is the sect master’s senior apprentice brother, his seniority being extremely old! This kid offended him. Even Martial Uncle Zuo Chen can’t protect him too!”

“Huhu, actually, I also really want to see how this boy breaks through to profound grade realm!”

... ..

Ye Yuan naturally knew that Fan Li was doing it for his own good, but he told the truth and the other party did not believe him and even wanted to chase him away.

Sometimes, geniuses were so helpless.

Since you want to see, then I’ll let you see.

Ye Yuan did not think too much either, divine sense sinking into the jade slip and started reading carefully.

.....

Very soon, the matter of Ye Yuan not daring to accept Lu Daoyi’s challenge, but that he was too stubborn to admit defeat, was known across the entire sect. Originally, a measly little Saint Sovereign Heaven naturally would not attract people’s attention.

TO

But the commotion caused when Ye Yuan entered the sect was too big. Even if he did not want to attract attention, he could not.

This matter continued to ferment. Very soon, Zuo Chen’s lineage became the laughingstock of the entire sect.

When Sect Master gave the order personally, there naturally would not be people who thought that it was Ye Yuan’s face.

Hence, the vast majority of the people felt that this was Zuo Chen being partial to Ye Yuan.

Now, who he was shielding was actually this kind of coward. Wouldn’t it be a joke?

On the other hand, Lu Daoyi's grand words also spread across the Extreme Medicine Sect swiftly, shocking everyone.

Lu Daoyi's domineering exit from seclusion could be said to have become a sea-stabilizing divine needle of the conservative faction!

Although he was just a grade five heavenly alchemist, his battle achievement already closed in on the number one genius, Zhou Pinespring

What did this indicate?

This showed that the conservative faction's way of doing things was correct! If they could nurture another Hegemon Realm in the rear, it would absolutely have a profound impact on this war.

On Tiansong Peak, Qin Shan said with a loud laugh, "Good! Good disciple! Master indeed didn't misjudge you! This time, you really gained face for Master!"

These two days, he was really riding on the crest of success, getting his fill of the limelight.

Even when some Emperor Sakra Heavens saw him, they also greeted warmly with smiling faces.

Lu Daoyi smiled and said, "Master, the marvelous thing is still at the back! From tomorrow onward, I'll challenge the sect's grade six heavenly alchemists! I want to let everyone know that I, Lu Daoyi, am the number one genius after Ancestor Pinespring! I want to let everyone know that Master's opinion is the correct one!"

### Unrivaled Medicine God

#### **Chapter 2852: Entering Profound Grade, Extreme Medicine is Shocked!**

"I lost!"

A grade six heavenly alchemist said dejectedly.

In the next second, the whole audience was shocked!

"This is already the 18th consecutive win! Goodness gracious, this Lu Daoyi is going to defy the heavens!"

"Grade six heavenly alchemists are almost being swept away by him! His impressiveness really wasn't bragged about! Maybe he can really catch up to Ancestor Pinespring's footsteps!"

"It's pretty close! Emperor Qin Shan really took in a fine disciple!"

"Speaking of which, Emperor Qin Shan is on par with Emperor Zuo Chen to begin with. But now, the gap is widened! These two disciples are really, one is in the sky and the other on the ground!"

..

.

.

.

For half a month in a row, Lu Daoyi won 18 matches in a row, shocking the entire sect.

Leaving seclusion this time, Lu Daoyi was domineering to the extreme, and he really fought all over the Extreme Medicine Sect and was unrivaled!

These 18 people were all existences who rose above the masses among grade six heavenly alchemists.

Lu Daoyi being able to win all the battles, he was definitely powerful to the extreme.

Even when compared to the Zhou Pinespring back then, it was not far off too.

Back then, Zhou Pinespring truly swept across grade six when he was at peak grade five.

In contrast, Emperor Qin Shan's old adversary, Emperor Zuo Chen's disciple Ye Yuan, was really far too lacking.

A mother relied on her son to be noble, while a master relied on his disciple to be noble[1]!

If one could bring up a Hegemon Realm powerhouse, that would absolutely be infinitely glorious.

"Hey, did you guys hear? That newly accepted disciple of Martial Uncle Zuo Chen, Ye Yuan, entered the Scripture Library and made public that he's going to break through to profound grade! Martial Uncle Fan Li urged him with good intentions, and he even shot Martial Uncle Fan Li down. It's really making me die of laughter!"

"There's still such a thing? Hahaha, the disciples under Martial Uncle Zuo Chen's tutelage when compared to Martial Uncle Qin Shan has always been a notch stronger. If not for Senior Apprentice Brother Meng Yutian death in battle, their lineage would firmly suppress Qin Shan's lineage. But now, they really completely lost face all the way to their grandmother's home!"

"Isn't that so! When that Ye Yuan entered the Scripture Library, he went straight up to the sixth level. That's absolutely max posturing points! Grade five heavenly alchemist stepping into profound grade realm, if it can really be done, that will really shock the entire Grand Brightjade Complete Heaven!"

"Hahaha, how hilarious! That boy is also an interesting one!"

.....

Talking about Ye Yuan, everyone burst into laughter.

Because of Qin Shan and Zuo Chen's relationship, Lu Daoyi would naturally be used as a comparison too.

Not comparing was still fine, but upon comparison, the difference was really too big.

One was like the sun in the sky, being incomparably dazzling. The other was like the dust beneath one's feet, being bleak and dim.

Especially Ye Yuan's personality, it was what made people denounce the most.

Puffing himself up at his own cost and reveling in it, he became everyone's laughingstock.

In this whole world, most likely apart from himself, there was no one with this sense of superiority anymore. "Tomorrow, I'll challenge Senior Apprentice Brother Wang Ji! At that time, all senior apprentice brothers please show up and support!" Lu Daoyi surveyed the surroundings and said loudly.

With this, it shocked everyone even more.

"He's actually going to challenge Wang Ji!" "Impressive! Wang Ji is Ancestor Pei Zhen's disciple, he can definitely rank among the top ten in grade six!"

"It looks like Lu Daoyi still has strength to spare! With this, there will really be a good show to watch!"

Previously, who Lu Daoyi challenged were all the disciples of grade eight heavenly alchemists.

But some grade nine heavenly alchemists similarly had grade six disciples! Of course, the eyesights of grade nine heavenly alchemists were pickier. The grade six disciples that they took in were naturally stronger.

Wang Ji was one of them!

Lu Daoyi's challenges set off bigger and bigger waves in the sect. Even some veteran Emperor Sakra Heaven powerhouses have already started to pay attention.

Once the strength that Lu Daoyi displayed reached a certain level, Qin Shan this small household naturally would not be able to accommodate him anymore.

At that time, those grade nine heavenly alchemists would be moved too.

... ..

Regarding the outside world's disturbances, Ye Yuan was completely clueless.

These few days, he had been immersing in the sea of Alchemy Dao all along, unable to extricate himself.

The Extreme Medicine Sect was well-deserving of being the number one alchemy sect. The records on the sixth level were truly incomparably vast.

Compared to that incomplete Labyrinth Divine Palace, the alchemy records here were clearly more comprehensive and more complete. Furthermore, countless profound grade powerhouses had appeared in the Extreme Medicine Sect's history before.

Their handwritten notes were also stored in the Scripture Library.

These were valuable assets!

Ye Yuan could even distinctly feel that he was getting closer and closer to the realm of profound grade. It was just that all of his seriousness was pretending to be profound in other people's eyes. Either way, profound grade could not be broken through to in a day or two, just you pretend, see when you can pretend until! "Senior Apprentice Brother, I heard that you got shot down by a junior recently and didn't even dare to let out a fart?"

The one talking was Fan Li's junior apprentice brother, Miao Chuan, and he was also Song Qingyang's junior apprentice brother.

He was closer to Fan Li. Hearing that he got deflated, he specially came to see him.

Fan Li's face was black as the bottom of a pot, and he said in a solemn voice, "The juniors now don't know how to appreciate kindness too much! I saw that his strength was meager, and so I asked him to consolidate his foundation and take care not to reach beyond his grasp! In the end, he used the Law Enforcement Hall to pressure me! Huhu, I'm currently really looking forward to how he breaks through to profound grade!" Miao Chuan smiled and said, "Senior Apprentice Brother, rest assured. After this boy comes out, this junior apprentice brother will definitely give vent to your anger! There's no trouble that my Law Enforcement Hall can't look for!"

Miao Chuan was the Law Enforcement Hall's great protector. His strength naturally could not be underestimated.

The Law Enforcement Hall's view was fairness!

No matter who it implicated, it would take an impartial approach to all.

But the Law Enforcement Hall's authority was also immense. If they really wanted to use the sect rules to find trouble, not many could escape it.

Fan Li nodded and said, "I'll leave this matter to you! Senior Apprentice Brother, I, have lived to this ripe old age. Yet, I've really never seen such an arrogant junior before! A mere grade five heavenly alchemist wants to step into the realm of profound grade too! If he really breaks through, I'll smack my mouth into shambles!" His voice had yet to fade when Fan Li and Miao Chuan's expressions suddenly changed.

Inside the Scripture Library, a profound and inscrutable undulation quietly descended.

"This ... Did someone break through to profound grade? It wouldn't be ... that boy, right?" Miao Chuan said.

"Impossible! This is definitely someone else breaking through. Right now on the sixth level, there are several who are stuck at the bottleneck of profound grade!" Fan Li denied it right away.

Grade five heavenly alchemist reaching profound grade, how was this possible? Didn't that mean that Ye Yuan was even more monstrous than Ancestor Pinespring?

It was absolutely impossible for this kind of thing to happen!

The two people's figures appeared on the sixth floor at the first moment!

In the next moment, the two people's expressions were indescribably wondrous! "It ... It's really him! This ... How is this possible? Grade five realm breaking through to profound grade? This boy is truly so monstrous?" Fan Li asked a series of questions to hide his current shock. But it could not be hidden.

This scene was seriously too shocking!

The entire Scripture Library was in an uproar!

"He really broke through! It turns out that he wasn't boasting. He's really amazing!" "Grade five realm breaking through to profound grade, he's even more monstrous than Ancestor Pinespring!"

"We ridiculed him for half a month. After so long, we're the dumbest ones!"

## Unrivaled Medicine God

### **Chapter 2853: Dimensional Level Blow!**

True grade entering profound grade was a huge leap.

Just as Holy Son Cang Yongning back then, he had long already stepped into the realm of true grade at Greater Sublime Heavenly Stratum. His aptitude was naturally significantly worse when compared to the Extreme Medicine Sect's disciples.

In the Extreme Medicine Sect, to be an expert, entering true grade was the most basic requirement.

But there were scanty few who stepped into profound grade from true grade!

The vast majority of heavenly alchemists barely managed to step into profound grade when they were at grade eight realm.

There were even some who could not break through to profound grade at all.

Those who broke through to profound grade at grade seven realm were all peerless geniuses!

Being able to advance to profound grade at initial-stage grade seven, those were all geniuses among geniuses, targets of heavy grooming by the sect.

This kind of geniuses had the possibility of reaching peak grade nine in the future!

Grade six realm reaching profound grade, other than Zhou Pinespring, there were really not many of them who could be found.

Lu Daoyi's ultimate goal was just to step into the realm of profound grade before grade seven.

It could be seen from this how difficult it was for true grade to enter profound grade!

As for a grade five realm profound grade expert, it was simply unheard of!

But today, it appeared!

Profound grade was a kind of heavenly pill grade, and also a kind of realm.

Reaching profound grade showed that one's understanding of Alchemy Dao already attained a higher level, and the person had a chance to pry into that fleeting and ephemeral realm of chaos heavenly master!

The current Ye Yuan already entered a state of forgetting oneself, allowing Alchemy Dao rule to strike him.

Taking this step was only a matter of course. But Ye Yuan's pursuit went far beyond profound grade.

The realm of Cloudmount blooming flowers with a single thought had broadened Ye Yuan's horizons, opening another window for him. He was still reading the book, still immersed in Dao.

As for when he broke through, he was completely unaware.

He was still immersed in the knowledge of the jade slip, but the Extreme Medicine Sect had long already exploded!

This news was like Cloudmount's blooming flowers with a single thought, instantly sweeping across the entire sect.

As for the news of Lu Daoyi's beating Wang Ji, it was instantly drowned out.

All 19 battles, all victories!

More than half of the grade six realms were swept across by him!

The imposing momentum that Lu Daoyi used more than half a month to create was instantly crushed by Ye Yuan's breakthrough.

Although I scorned him, he died because of me!

This matter was completely and utterly a dimensional level blow!

He and Lu Daoyi were originally not in the same dimension.

With regards to Lu Daoyi's actions and his challenges, Ye Yuan did not pay attention to it at all.

But Ye Yuan's breakthrough had completely shattered his limelight without the slightest mercy!

At this time, there was already no one who would go and pay attention to a genius disciple who viewed Zhou Pinespring as his goal.

It was because there was already a genius who completely surpassed Zhou Pinespring! Ye Yuan's surpassing was not a little bit, but it was an all-round surpassing! Before this, the Extreme Medicine Sect's record was entering profound grade at peak grade six.

But now, Ye Yuan directly refreshed this record to grade five!

Increased it by a full major realm!

You're a genius?

Huhu, go to one corner and play!

In the eyes of true geniuses, there was only surpassing, and it was not chasing!

In Ye Yuan's eyes, there were no opponents at all.

Hence, he naturally would not waste his energy and go compete in alchemy with Lu Daoyi as well.

When Qin Shan's lineage heard this news, everyone was petrified for a full quarter of an hour!

Ye Yuan, this 'jumping clown,' had long already been tossed to the back of their minds by them.

In their eyes, Ye Yuan was never an opponent.

Their opponent was Zuo Chen! Giving Ye Yuan a blow was just in order to make Zuo Chen look bad. That was all. It had nothing to do with Ye Yuan. But the weakling without the slightest sense of existence in their eyes became the most dazzling pearl on East Victory Mountain Range!

This kind of contrast made them feel despair!

Especially Lu Daoyi! “Oh, since that’s the case, then what are you still waiting here for? You can go.”

“Leave, I won’t compete with you. Because there’s no meaning at all.”

“Whatever you think.”

Ye Yuan’s calm and collected tone seemed to still be echoing in his ears.

It sounded so ridiculous at that time.

But now, they finally understood that it was not stubbornness and not stubbornly hanging on, but that he did not treat him as an opponent at all!

At this very moment, when Lu Daoyi recalled half a month ago, it was as if Ye Yuan’s eyes did not have him at all! He, this peerless genius after Zhou Pinespring, was directly overlooked!

The one who ignored him was a ‘rookie’ whose realm was even lower than his!

“How could this be? How could this be ...”

Lu Daoyi mumbled under his breath, clearly unable to accept this result.

But this news had already been confirmed. Furthermore, it was the Scripture Library’s Ancestor Fan Li who personally verified it!

At the time of the breakthrough, there were also many people who saw it.

“I’m not convinced! I ... I’m going to challenge him!” Lu Daoyi suddenly roared and rushed out.

Qin Shan flicked his sleeves, and Lu Daoyi returned to where he was.

Qin Shan looked at Lu Daoyi, his expression seemingly complicated. Heaving a light sigh, he said, “Daoyi, forget it! Although it’s very demoralizing to say this, Master has no choice but to tell you, it’s impossible for you to defeat him in your lifetime! You guys ... are too far apart!”

“Puhwark!”

Lu Daoyi spurted a mouthful of fresh blood wildly and fell to the ground with a loud bang, passing out.

When the group of senior apprentice brothers saw this scene, their faces had some reluctance.

“Master, is being so straightforward too demoralizing to Little Junior Brother?” Wang Lin could not resist asking.

Qin Shan sighed again and said, “He’s completely not on the same level as Ye Yuan in alchemy! Even Grandmaster Pinespring is likely not on the same level when compared to Ye Yuan too! If Daoyi doesn’t realize this point, then his road of Alchemy Dao will collapse here, and he can forget about improving another inch! In reality, his talent is really very high, and he even has hope of catching up to Grandmaster Pinespring. There’s no need to compare to that one. If he understands this point, he’ll still have great accomplishments in the future! It’s just that ... it’s probably very, very difficult!”

Qin Shan was a genius too. He naturally knew about the pride of geniuses!

The more genius one was, the prouder they were!

Hence, Extreme Medicine Sect's proudest person was Zhou Pinespring. Lu Daoyi's talent was comparable to Zhou Pinespring. How could he not be proud?

However, the more it was so, the harder it would be to extradite himself when faced with such a blow that left him black and blue all over!

Whether or not he could walk out of it, that would depend on how strong his inner heart

**was.**

Qin Shan bursting this bubble was hoping that Lu Daoyi would reestablish after destruction, striving harder after knowing humiliation!

Otherwise, he could not think of other ways!

But even so, this difficulty was still too high!

A hint of indignation flashed across Wang Lin's eyes, and he said, "On what basis? On what basis could that punk break through to profound grade? He's just grade five realm!"

Recalling that scene from half a month ago, he felt that Ye Yuan was very laughable at that time.

But now, he felt that Ye Yuan's posturing level was lofty and out of reach!

Many people liked to pretend to be aristocrats after becoming rich, demonstrating their extraordinariness from before and after.

However, true aristocrats would never show off.

True aristocrats were very low-profile.

Hence, when a local tycoon ran into a true aristocrat, that was really losing face all the way to their grandmother's house. They were like this! Qin Shan's face also had a hint of unnaturalness. Clearly, he did not dare to believe it either.

"Yeah, what right does he have? The matter blew up so big. Most likely, over at the Absolute Heaven Barrier that side, they all will be shocked too, right?" Qin Shan muttered.

### [Unrivaled Medicine God](#)

#### **Chapter 2854: The Beauty Is Betrothed!**

"Old Fart Cloudmount, you really picked up a treasure! I didn't expect that this kid is actually so monstrous, entering profound grade at grade five realm."

Hegemon Cloudmount's face was full of smugness, but he said, "He's a little talented, but him being able to break through to profound grade so quickly, that's all due to my credit!"

The other Hegemons shut up very sensibly.

This guy was unbelievably pretentious!

Back then, when Hegemon Pinespring advanced to Hegemon Realm, this old man showed off so much, wanting the whole world to know.

These people were victims of it.

It was also that the war had erupted now. Otherwise, this old thing would definitely show off again this time, making sure the whole world knew.

They had never heard before of a grade five realm profound grade expert!

When these Hegemons heard this news, they were naturally inexplicably shocked in his hearts.

Grade six realm profound grade experts would still emerge occasionally, whether or not they could become Hegemons, just as Lu Daoyi.

But grade five realm profound grade experts were unheard of!

“Hahaha ... You all these fellows, in spite of how each and every one of you put on airs, you’re really inferior to me, Cloudmount, in teaching disciples! This time, this seat is going to coach a divergent cultivator Hegemon Realm!”

“Not that I’m saying you guys, us old things might not be able to make any improvements in ten thousand years. Why not spend more effort on teaching disciples? Produce a few more Hegemons and we wouldn’t have to toil so hard anymore either!” “... ..”

Just you show off, can’t we just ignore you?

Could Hegemon Realms be coached?

If they could be coached, then Heaven One Continent would not have ended up in this plight too!

Seeing everyone remain quiet, Cloudmount smiled and said, “Pinespring, what do you think? This brat’s talent really surpasses yours!”

Zhou Pinespring said, “Whether it’s success or failure, it still has to depend on afterward!”

Cloudmount smiled and said, “Huhu, it looks like you’re jealous too! Indeed, for so many years, it’s not that there were none who surpassed you at grade six realm, but later, they all faded into the crowd. But this little junior brother of yours, I feel very optimistic about him!”

Zhou Pinespring smiled and said, “What Master said is right. This disciple is indeed a little jealous in my heart! However, in this present situation, if Little Junior Brother can reach the Hegemon Realm, it will indeed be a great thing to us!”

Cloudmount chuckled and said, “Those juniors in the sect have probably all gone crazy from fighting now, right? But they all don’t know that this kid has already been claimed! When they discover Ye Yuan’s identity, their expressions must be very fascinating, right? Hahaha ...”

“Ye Yuan, this seat is the sect master’s senior apprentice brother. My seniority is the highest in the sect! If you acknowledge me as your master, you’ll be able to obtain unimaginable benefits!”

“Don’t listen to him. This old punk’s strength is too weak. That’s why he has to guard here in the Scripture Library! I’m different. I’m the strongest one other than Sect Master! If you acknowledge me as your master, you can obtain countless resources! Ye Yuan, in the path of cultivation, one mustn’t just rely only on talent. One should rely on resources more!”

“What bullshit resources do you have? Ye Yuan, this seat is in charge of the Extreme Medicine Sect’s alchemy resources. As long as it’s heavenly medicines that you need, there’s nothing that this seat can’t get! It’s tremendously beneficial to you if you acknowledge me as your master!”

.....

Five alchemy path powerhouses were currently surrounding Ye Yuan.

These five people were the five people with the most illustrious authority in the Extreme Medicine Sect apart from Song Qingyang!

Fan Li was Song Qingyang’s senior apprentice brother, but among these five people, he did not have much advantage instead.

Of course, those Emperor Realm powerhouses on the Scripture Library’s sixth floor were all chased out.

It was better for this scene in front of them to not be seen by people.

Miao Chuan and Fan Li were the closest, but currently, Fan Li was glaring at Miao Chuan fiercely, as if going to tear him into two.

It was because Miao Chuang was his greatest competitor in fighting for this disciple!

As for the disdain at the beginning, it was long already tossed beyond the ninth layer of heaven by them!

This kind of disciple was hard to come across in ten thousand years!

Ye Yuan swept a glance and suddenly smiled and said, “Ancestors, why didn’t Sect Master come?”

At virtually the same time, the five people’s expressions turned black.

Why? Looking down on the few of us?

You punk, you’re too full of yourself! One should know, even when Hegemon Pinespring was unrivaledly talented back then, when he was at Saint Sovereign Heaven Realm, no one showed any interest in him either!

“Huhu, don’t misunderstand my words. My meaning is ... the few of you probably don’t have the qualifications to take me in as a disciple!” Ye Yuan continued.

The five people exploded at once.

Brat, you’re really full of yourself!

In this Extreme Medicine Sect, apart from the few of us, who else had the qualifications to take you in as a disciple?

But in the next second, the expressions on their faces instantly became fascinating to the extreme!

It was because a small and exquisite jade sword appeared in Ye Yuan’s hand since no idea when.

The Extreme Light Jade Sword!

Why would this puny little Saint Sovereign Heaven have the Extreme Light Jade Sword?

An Extreme Light Jade Sword was something that only the Extreme Light Pavilion's elders had!

Thinking up to here, the five people could not help shuddering!

To think that this one in front of them was actually an Extreme Light Pavilion Elder? This ... How was this possible? Fan Li's expression was ugly to the extreme as he said ferociously, "Song Qingyang you bastard, to actually dare scam Your Father!" "Song Qingyang, you'll give birth to a son without an anus!" "Song Qingyang, fuck you!"

... ..

The few people practically burst out swearing at the same time.

Very clearly, Song Qingyang knew about this. But he did not warn them.

Logically speaking, after Ye Yuan did such an astonishing thing, Song Qingyang should have come over right away.

But he did not!

Ye Yuan said coolly, "Martial Nephews, it's not that Sect Master had the intention to hide it. This was what Master instructed. The few of you are all the Extreme Medicine Sect's upper echelons. Please don't spread this matter!"

Master?

Who was this boy's master?

Fan Li's expression was embarrassed as he said, "Pavilion ... Elder Ye, may I ask ... your master is ..."

"Hegemon Cloudmount!"

The five people were collectively speechless!

They thought that this was probably Hegemon Pinespring's disciple. That was why he had the qualifications to enter the Extreme Light Pavilion.

Who knew that he was actually Hegemon Cloudmount's disciple!

Hegemon Cloudmount had already not accepted a disciple for over 100 thousand years!

"P-Paying respects to Little Martial Uncle!"

The five people gave Ye Yuan a deep bow while having fascinating expressions.

It was too much of a freaking scam!

.....

On the other side, Zhu Yan and the rest were sitting on pins and needles, their expressions similarly very fascinating.

After getting this news, their reactions were virtually cut from the same cloth as Emperor Qin Shan that side.

Collectively petrified!

Too impressive!

Impressive until they were unable to digest it in a short time! "It turns out that what Little Junior Brother said was true!" Zhu Yan's face was full of bitterness as he said.

Lu Daoyi was really too weak!

Not just Lu Daoyi, even he, Zhu Yan, was similarly too weak!

When Ye Yuan said this, they scoffed in derision and were full of disdain.

But, when Ye Yuan broke through to profound grade, everything became a matter of course!

Hua Zong similarly smiled bitterly and said, "No wonder Little Junior Brother couldn't be bothered to take action. Lu Daoyi can't muster up his interest at all! In our view, Lu Daoyi is amazingly talented. But in Little Junior Brother's view, he's not worth mentioning at all! What ... have we done?!"

Zhu Yan smiled bitterly and said, "After Little Junior Brother exits seclusion, I'll personally admit my mistake and apologize! Us senior apprentice brothers are too unqualified!"

#### **Chapter 2855: Yang Qing's Rise!**

I eliminated you, but it had nothing to do with you.

This was a tragic story!

The outside world raged wildly in a violent storm, but it did not have the slightest to do with Ye Yuan; although it was all because of him.

Ye Yuan's closed-seclusion was ten years long! For ten years, Ye Yuan seriously studied the alchemy records that he could read on the sixth level.

He gleaned considerable benefits!

Profound grade was indeed another realm!

Ye Yuan's understanding of Alchemy Dao had already taken shape a long time ago.

One pill, one world.

But worlds had distinctions of superiority too. Just like the 33 Heavens and the planes across the heavens, they were not worlds on the same level.

Profound grade heavenly pill, the heavenly pill was still that heavenly pill, but the level was already completely different.

It was just like, forcefully raising their original small world by a level!

The medicinal properties of the heavenly pill naturally could not be mentioned in the same breath.

After Ye Yuan exited seclusion, the proud son of heaven, Lu Daoyi, from ten years ago, had long already faded into the crowd.

Of those True Sovereign Heavens who were once defeated by him, someone had already stepped into Emperor Realm!

Many of his peers had also broken through to True Sovereign Heaven and stepped into the ranks of grade six heavenly alchemist.

However, the piece of news concerning Ye Yuan breaking through to profound grade was still limited to within a certain scope in the end.

Why?

It was because no one took him in as a disciple.

Logically speaking, this kind of amazingly talent genius, there would at least be Extreme Light Pavilion pavilion elders, or even Hegemon Realm powerhouses who took them in as a disciple.

But there were none!

The reason was very simple. Ye Yuan was a divergent cultivator!

Someone who was destined to die, someone who was destined to be unable to step into Hegemon Realm, was not worth paying attention to.

No matter how genius you were!

The people of the outside world naturally did not know that all the upper echelons in the sect had once fought to take him in as a disciple.

They were even more unaware that Hegemon Cloudmount had long already taken him in as a disciple.

Hence, in many people's view, the sect was deliberately suppressing Ye Yuan!

Because of this kind of unprecedented major event, the sect actually did not have any movements at all.

Thinking about it, it made sense too. You, a trash who was unable to break through to Hegemon Realm, actually turned a genius who had extremely high potential to become Hegemon Realm into a good-for-nothing.

Preposterous! Therefore, the moment Ye Yuan exited seclusion, he drew all manners of strange gazes. "This guy is clearly occupying the latrine and not taking a dump!" "Isn't that so? He can't become Hegemon himself but caused others to be unable to become Hegemon. This is making others have no alternative path to take after he reached the end of his rope!" "Lu Daoyi is completely crippled. He didn't make any advancement for ten years! Sigh, an originally good sapling for Hegemon Realm got ruined by him just like this!"

.

.

.

.

.

.

Hearing these discussion voices, Ye Yuan was stupefied too.

Who was Lu Daoyi?

What did him getting crippled had to do with him?

In Ye Yuan's eyes, Lu Daoyi was just an insignificant minor character. He could not be bothered to remember him at all.

"Ye Yuan, you finally exited seclusion! Hahaha, you don't know how awe-inspiring I, Lord Qing, have been in these ten years!" Just as Ye Yuan was absent-minded, a loud laughter sounded out. No need to look and one would also know that Yang Qing had arrived.

Sure enough, hearing that Ye Yuan exited seclusion, Yang Qing brought Big Yellow, Xiao Qing, and Jingfei immediately came over.

Yang Qing entered the Extreme Medicine Sect too and became the Extreme Medicine Sect's disciple.

As for Jingfei the three of them, because they were of the true spirit lineage, they only stayed on Xuan Yang Peak with the identity of servants.

Yang Qing was still as show-offy as before.

Ye Yuan ignored him but asked, "They all said that I ruined Lu Daoyi. Who is Lu Daoyi?"

The moment these words came out, the whole place fell into a dead silence.

It turned out that you crippled him, but you didn't even know who he was?

You're too much!

Yang Qing had a strange look too as he said, "Do you really not know? Or are you feigning ignorance?"

Ye Yuan was speechless as he said, "I entered closed-seclusion as soon as I entered the sect. It's also not that you don't know. When did I ruin Lu Daoyi?"

Yang Qing was speechless as he said, "Have you forgotten? Before you went into closed-seclusion, Qin Shan's lineage came to challenge you once before?"

Upon saying that, Ye Yuan remembered it.

It seemed like there was really such a thing.

"Oh, it's him? But I didn't agree to compete in alchemy with him either. How did I cripple him?" Ye Yuan said speechlessly. Yang Qing laughed loudly and said, "Wasn't it still because you broke through to profound grade? You don't know how stirred the entire sect was when you broke through to profound grade ten years ago! Lu Daoyi had always believed that he was number one in grade five, and even wanted to catch up to Ancestor Pinespring. In the end, he was given a direct blow by you! Hearing that

when he got the news that you broke through to grade five, he vomited blood on the spot and used two years' time before getting off the bed. During these remaining eight years, he has also been like a walking corpse, without making any improvement in ten years! If this isn't your fault, who else can you blame?" The muscles on Ye Yuan's face twitched. What did this have to do with him?

Just this bit of psychic, he still wanted to catch up to Senior Apprentice Brother Pinespring?

Although Ye Yuan did not know about Zhou Pinespring's past, he believed that Zhou Pinespring absolutely would not be so fragile.

The stronger the opponent was, the stronger you should be.

Your Father had not even made a move, and you already fell down. With just this, you still wanted to break through to Hegemon Realm?

Ye Yuan waved his hand and directly filtered Lu Daoyi out. Turning to size Yang Qing up, he said, "It looks like you're living pretty well these ten years!"

Many Extreme Medicine Sect disciples around immediately fell down.

This guy was too posturing! Could you freaking not feel any guilt at all? You ruined a Hegemon Realm sapling!

The moment Yang Qing heard about himself, he immediately had a look of exultation and said, "That's right! Elder Brother, I, am an Emperor Sakra Heaven powerhouse's personal disciple now! In terms of seniority, you still have to call me martial uncle!"

Ye Yuan's expression was strange as he said, "Oh? Which Emperor Sakra Heaven is blind? To actually take you in as a disciple?"

It was dead silent all-round again.

Are you freaking courting death?! You were clearly just a puny little Saint Sovereign Heaven. You actually dared to say that an Emperor Sakra Heaven powerhouse was blind?

Yang Qing snorted coldly and said, "Lord Qing, I, swept across True Sovereign Heaven Realm these ten years! At present, I've already fought into the top 50 on the True Sovereign List! Even grand completion True Sovereign Heaven powerhouses have been challenged by me! Elder Brother's superior performance has moved a bunch of Emperor Realm powerhouses. Many Emperor Vast Heaven powerhouses wanted to take me in as a disciple but were intercepted by Great Emperor Jia Ze!"

Great Emperor was the honorary name for Emperor Sakra Heaven powerhouses.

Speaking of Yang Qing's ranking, it was originally not so heaven-defying that it could obtain the favor of a Great Emperor.

But, during these ten years, his improvement was the fastest among the sect's martial arts powerhouses.

Not one of!

Yang Qing's talent was indeed extremely terrifying

The Rainclear Continent limited his talent.

Entering a Hegemon level sect like the Extreme Medicine Sect, his talent revealed itself very quickly!

In these ten years, Yang Qing's Great Dao rule improved extremely fast.

From the initial-most zero interest shown by everyone, to rising up prominence later on, then to sweeping across True Sovereign Heavens, he only used ten years!

In ten years, his cultivation realm only increased to peak middle True Sovereign Heaven, but his combat power was off the charts!

Grand completion True Sovereign Heaven Realm powerhouses were virtually swept away by him!

His ranking in True Sovereign Heaven also jumped straight up to the top 50 from a few thousandth place!

One had to know, in a huge sect like the Extreme Medicine Sect, how terrifying was it to rank in the top 50!

Hearing these, Ye Yuan was not surprised.

He knew that Yang Qing was tremendously talented. In terms of martial arts talent, he was not even much worse than him.

Of course, he did not have his great destiny, so his combat power was significantly worse than his.

But, entering the Extreme Medicine Sect made up for the inadequacy in his destiny.

In this place, there was no shortage of heavenly pills, no shortage of cultivation methods, no shortage of martial techniques, no shortage of opponents, nothing was lacking!

Hence, his talent started showing.

Yang Qing liked to brag, but sometimes it was also not really bragging. "Yang Qing, you still have the heart to show off to a good-for-nothing here! Huhu, if I were you, I'd hurry up and pack my things up and make a run for it! This way, maybe there's still a glimmer of hope." When Yang Qing had a look of exultation, a mocking voice sounded out in their ears.

### [Unrivaled Medicine God](#)

#### **Chapter 2856: Owed So Much Contribution Points!**

Hearing this voice, Yang Qing's face turned black, and he said in a solemn voice, "Zheng Qian, who the hell do you think you are? To also dare scold others a good-for-nothing? Grand completion True Sovereign Heaven and you were beaten by your Grandpa Qing until you had to search the ground for your teeth. You have the cheek to call out too?"

Zheng Qian did not care either, saying with a snicker, "Isn't some guy who can't advance to Hegemon Realm a good-for-nothing? A grade five realm profound grade expert actually doesn't have the sect's ancestors take him in as a disciple! Hahaha, what a big joke! As for you, you can't jump around for more than a few days, no matter how genius of a person you are! My Lord Qing, if you have the ability, posture to Senior Apprentice Brother Luo Hao!"

Yang Qing's expression instantly became very ugly. Ye Yuan's brows furrowed slightly, and he said, "What's wrong, Yang Qing?" Zheng Qian smiled and said, "Trash, you don't know it yet, right? Yang Qing killed Senior Apprentice Brother Luo Hao's biological younger brother. Now, the two of them have already arranged a life-and-death battle, which will be carried out the day after tomorrow! Senior Apprentice Brother Luo Hao is ranked fourth on the True Sovereign List, a half-step Emperor Realm mighty expert! Do you think that he has hope of surviving?"

In the Extreme Medicine Sect, grand completion True Sovereign Heavens were as plentiful as oxen fur, but half-step Emperor Realms were very, very few.

Reaching half-step Emperor Cloud Heaven meant that there was very high hope of stepping into Emperor Cloud Heaven!

Hence, the majority of those able to reach this step were geniuses!

And Luo Hao was even above average among them!

Yang Qing was practically already matchless in grand completion True Sovereign Heaven.

The vast majority of those ranked in front of him on the True Sovereign List were half-step Emperor Realm.

With Yang Qing's current cultivation realm strength, it was definitely impossible to beat them.

Furthermore, Luo Hao was even a top powerhouse among half-step Emperor Realms!

True Sovereign List rank fourth, that was an existence that might step into Emperor Realm at any time!

Ye Yuan looked at Yang Qing and said, "You can't win?"

Yang Qing shook his head and smiled bitterly. This posturing could not continue anymore.

Geniuses had a limit too. It was impossible to jump realms and challenge limitlessly.

"How long can you last?" Ye Yuan asked again.

"One move!" Yang Qing was full of bitterness as he said.

He had challenged before half-step Emperor Realm powerhouses, but the gap was still too big.

True Sovereign List, half-step Emperor Realm was a watershed.

Even if one was ranked one in grand completion True Sovereign Heavens, it was also impossible to be a match for a half-step Emperor Realm.

Hence, the gap between Yang Qing and Luo Hao was tremendous!

Ye Yuan smiled and said, "If let you break through to grand completion True Sovereign Heaven, would it be enough?"

Yang Qing's eyes lit up, and he said in pleasant surprise, "Of course it's enough! If I can reach grand completion True Sovereign Heaven, I can definitely pummel him until he has to search the ground for his teeth!"

The expression of Zheng Qian, who was next to them, changed too, but very soon, he smiled again and said, "Tsk tsk, profound grade expert is indeed very domineering when talking! However ... trash, if I didn't guess wrongly, you don't seem to have contribution points yet after entering the sect, right? Even if you want to refine pills, how will you exchange for heavenly medicines without contribution points?"

At this time, Wang Lin appeared from god knows where and said with a smile, "It's not just no contribution points. He even owes the Scripture Library 54,450 contribution points! Although Martial Uncle Zuo Chen gave notice, you've already exited seclusion now and should repay the contribution points! Ye Yuan, for a very long time after today, you'll probably be refining heavenly pills for the sect for free to repay the contribution points!"

Ye Yuan was stupefied. There was still such a thing?

Ye Yuan really did not know about this!

It was naturally impossible for the Extreme Medicine Sect's disciples to make endless demands.

A major sect of close to 100 thousand people, the consumption every day was astonishing. Without contribution to the sect, one naturally could not get the resources that they deserved.

Yang Qing had run all over the place these few years too, risking his life to earn contribution points. That was why he improved rapidly.

In reality, the Scripture Library did not allow credit charges. But Ye Yuan's seniority was too frightening. There was naturally no one who would say anything about him.

According to Ye Yuan's identity as Zuo Chen's disciple, he had 300 starting contribution points when he entered the sect.

And the Scripture Library's sixth level, each day required 15 contribution points!

Therefore, Ye Yuan could only last for 20 days.

Later, he revealed his identity to Fan Li and the rest, and they became even more afraid of mentioning about contribution points.

To the outside, they just said that Zuo Chen gave notice. That was why they allowed Ye Yuan to overdraft on the contribution points.

But, after he exited seclusion, these contribution points all had to be repaid.

Speaking about it was coincidental too. Wang Lin was in charge of these matters in the Scripture Library. So these things that were on the surface, he knew about it.

Hearing that Ye Yuan exited seclusion, he naturally had to come and collect the debt.

Fan Li these big shots naturally would not care about these trivial matters.

Of course, if Ye Yuan went to give notice, this would not be a problem. But his true identity would probably be exposed. Zheng Qian was also stupefied when he heard it, immediately laughing and said, "54 thousand contribution points! Hahaha, trash, you're really broke! Even if you refine pills for the sect without sleeping or resting, you'll also need more than 20 years before you can repay these contribution points! You can't even fend for yourself anymore. You still want to meddle in Yang Qing's affairs? Trash is trash!"

Ye Yuan's expression was strange as he said, "Is 50 thousand contribution points a lot?"

Yang Qing nodded his head helplessly and said, "It's too much! In my ten years, I spent seven years doing the sect's missions and only barely managed to get 17 thousand over contribution points in total! More than 50 thousand ... you're really prodigal!"

Earning contribution points was very hard!

The reason why Zheng Qian said 20 years was because he knew that Ye Yuan could refine profound grade heavenly pills!

Otherwise, it might not even be repaid after 50 years! Zheng Qian could not help laughing loudly when he heard that and said, "Yang Qing, just wait to die! Moreover, this trash merely broke through to profound grade for ten years. It's totally impossible for him to refine profound grade heavenly imperial pills currently! Also, to refine profound grade heavenly imperial pills, the price of each grade five heavenly medicine isn't lower than grade six heavenly medicines. Calculating it, it will at least be tens of thousands of contribution points too! Therefore, you can give up on this!"

The dawn that Yang Qing had just seen was completely shattered by Zheng Qian.

What Zheng Qian said was completely right! The heavenly medicines that heavenly imperial pills needed were too valuable! If it was in the past, it was still alright. Now, Heaven One was waging war with the blood race. The remaining territory was only two-thirds of Heaven One Continent. It was very hard for the sect to enter the blood race's territory to harvest heavenly medicines.

Hence, the price of these heavenly medicines would naturally be even more expensive.

Wang Lin also smiled and said, 'Ye Yuan, go and report to Gray Fate Peak now. Otherwise, I'm going to report to the Law Enforcement Hall and have them come and take care of you!"

Ye Yuan crippled Lu Daoyi. Now, seeing Ye Yuan's good friend be killed was also a delightful thing! Yang Qing heaved a sigh and said, "Ye Yuan, I appreciate your good intentions. The trouble that I caused, I'll bear it myself!"

Ye Yuan said coolly, "Can't even last one move, what the hell can you bear! Leave this to me. You don't have to worry anymore. Have a good sleep later and wreck that whatever Luo Hao the day after tomorrow for me!"

With regards to Yang Qing, Ye Yuan could trust him.

This guy looked unreliable, but he had a sense of propriety when doing things.

Yang Qing definitely did not indiscriminately kill Luo Hao's younger brother. There must be a reason for this. With his relationship with Yang Qing, how could he possibly look on indifferently with folded arms?

Even if he revealed his identity, he would save Yang Qing too!

Of course, that way, his own safety would have no more guarantee.

However, if he had to use seniority to pressure people with this minor thing, then he would also be too defeated!

### [Unrivaled Medicine God](#)

#### **Chapter 2857: Exchange!**

How much were 50 thousand contribution points?

Calculating in this manner: for True Sovereign Heaven disciples, when they went out on a very dangerous mission once, the contribution points were between 300 and 500 points.

This kind of mission was basically nine chances to die and one chance to live. Being able to do it twice a year was already the limit.

If it was an ordinary mission, it would be pushing the limit for there to be 100 or 80 points.

And Saint Sovereign Heaven disciples, their difficulty in obtaining contribution points was clearly greater.

Even if Ye Yuan was heaven-defying and more formidable than Yang Qing, he would need at least several decades before he could finish repaying too. Therefore, Ye Yuan's words simply sounded like a ridiculous joke to the others!

"Hahaha, leave it to you? You repay your own contribution points before talking! Mn? You came just in time. Senior Apprentice Brother Guo, Ye Yuan has already exited seclusion. He owes the sect more than 54 thousand contribution points. It's time to pay it back." Wang Lin said with a loud laugh.

At this time, a figure walked out, it was a Law Enforcement Hall's disciple, Guo Fang.

He came precisely on orders to capture Ye Yuan to repay his debts!

Since you broke through to profound grade, fine then; come and refine pills.

Guo Fang and Wang Lin were on good terms to begin with. Furthermore, Guo Fang's master had received Qin Shan's kindness before. He would naturally stand on Wang Lin's side.

The contribution points owed to the sect naturally have to be repaid. But, it was not to the extent of being captured to repay the debt as soon as one left seclusion. A large sect did not lack those few tens of thousands of contribution points either.

Guo Fang looked at Ye Yuan and said coolly, "Junior Apprentice Brother Ye, please come!"

Many people there were all watching a show.

Even the Law Enforcement Hall had moved out. Could you still overturn the heavens with this?

Obediently refine pills to repay the points!

Who knew that Ye Yuan shook his head and said, "I'm not going."

The moment Wang Lin heard, he immediately grinned.

What I wanted was for you to not go!

Sure enough, Guo Fang said coolly, "Whether to go or not isn't up to you!"

Ye Yuan smiled and said, "Of course it's up to me!"

Guo Fang said, "In that case, Junior Apprentice Brother Ye is forcing this Guo to take action? Don't think that with Martial Uncle Zuo protecting you, you can look down on the Law Enforcement Hall. If my Law Enforcement Hall wants to capture someone, Martial Uncle Zuo can't stop it!"

Guo Fang was a half-step Emperor Realm powerhouse too!

His ranking was lower than Luo Hao, but he was ranked ninth too. Wouldn't dealing with a Ye Yuan still be a piece of cake?

And the Law Enforcement Hall had a transcendent status in the Extreme Medicine Sect. Regardless of whether it was alchemy path powerhouses or martial path powerhouses, they all could not afford to provoke.

Seeing this, Wang Lin and Zheng Qian smiled even brighter.

Ye Yuan shrugged and said indifferently, "Isn't it just 50 thousand plus contribution points? Isn't it done if I repay it today? How big a matter is it, to make you all look self-righteous? It's really scary!"

Wang Lin laughed loudly and said, "Isn't it just 50 thousand plus contribution points? Hahaha ... do you think that you're an Emperor Realm powerhouse? Even if it's an Emperor Realm powerhouse, it's also impossible to conjure 50 thousand contribution points out within a day! Not scared of spraining your tongue from talking big too!"

Ye Yuan could not be bothered to care about him and looked at Guo Fang and said, "I'm going to earn contribution points now. Do you want to follow or not?"

Guo Fang's brows furrowed slightly, and he nodded his head and said, "If you want to delay the time, that's up to you too. But it's only limited to today!"

Ye Yuan had just exited seclusion today. If he could repay it today, he would naturally have nothing to say.

If he directly captured him, it would go against the rules instead.

Ye Yuan did not talk nonsense either, turning around and leaving.

The Merit Hall, the place where the Extreme Medicine Sect issued missions and to exchange for contribution points.

This method of contribution points was also the way in which the vast majority of sects maintain normal operations.

No matter how large the sect was, it was not a bottomless hole either.

Over time, resources would ultimately be consumed.

Hence, each disciple had the duty of maintaining the operation of the sect, including the sect master.

At this time, a large group of people flooded into the Merit Hall at once, immediately attracting countless gazes.

Ye Yuan came before the mission desk and directly opened his mouth, saying, "I'm Emperor Zuo Chen's disciple, I want to see Martial Uncle Feiwen!"

Chen Feiwen, Merit Hall's top person-in-charge, and also Zuo Chen's senior apprentice brother.

Ye Yuan naturally did not know him. It was Yang Qing who told him.

That disciple was merely Saint Sovereign Heaven. Upon hearing that he was Zuo Chen's disciple, he naturally did not dare to be neglectful. Very soon, Chen Feiwen came out and sized Ye Yuan up and down.

"You're Ye Yuan? I heard that your talent is extremely monstrous. It's a shame that you're a divergent cultivator! What are you finding me for?" Chen Feiwen asked.

Ye Yuan said, "I'm here to exchange for contribution points."

Chen Feiwen frowned and said, "I remember that you seem to have just exited seclusion, right? Haven't even taken on missions yet? What are you using to redeem contribution points?"

Chen Feiwen naturally did not know ordinary Saint Sovereign Heavens.

But Ye Yuan's reputation was too great. It was impossible for Chen Feiwen not to hear about him too.

"Heh heh, Martial Uncle Feiwen, Ye Yuan owes the Scripture Library 54 thousand contribution points. He says that he can earn it in a day. We feel that he's formidable, so we followed to take a look." Wang Lin interjected at an appropriate time.

Chen Feiwen was stupefied and could not help laughing as he said, "Brat, bragging isn't a good habit! Forget about you; even if it's this seat, it's impossible to earn 50 thousand contribution points in a day too!"

Wang Lin smiled and said, "Martial Uncle, Ye Yuan is a person who creates miracles. Maybe he really has the ability to earn 50 thousand contribution points in a day!"

Chen Feiwen knew that he was not on good terms with Ye Yuan and also discerned the mockery in his words. He looked toward Ye Yuan and said with a smile, "Oh? What are you using to earn 50 thousand contribution points?"

"Take them!"

Ye Yuan did not waste his breath either, flicking his sleeves grandly. A pile of jade slips instantly appeared on the ground, piling up as high as a small hill!

These jade slips were precisely acquired by him in the Labyrinth Divine Palace.

In the 50 years before he came to Heaven One Continent, he had been studying these things too.

Otherwise, it was impossible for him to reach profound grade so quickly. The grade of these jade slips was not high. It was also about the same as those jade slips on the fifth and sixth levels of the Scripture Library.

But the things recorded in these jade slips were absolutely extraordinary! When the Labyrinth Divine Palace was at the height of its power and splendor, how glorious was that?

Their alchemy path strength was only stronger and not weaker compared to the current Extreme Medicine Sect!

Ordinary things, they simply held it in contempt!

Those able to be housed in the Treasure Depository Pavilion were all treasures among treasures.

Originally, Ye Yuan planned on directly donating these to the Extreme Medicine Sect. But now, it seemed like redeeming for contribution points was pretty good too. The appearance of these jade slips made the room full of people jump in fright.

What was this playing at? When Wang Lin saw, he could not help laughing and said, "I was wondering what capability you have. It turns out that it's just a bunch of lousy jade slips! In this Grand Brightjade Complete Heaven, what place could have more records than our Extreme Medicine Sect?"

Zheng Qian also smiled and said, "Senior Apprentice Brother Wang must be joking. He's planning on using numbers to score a victory! Think about it, even if one jade slip is worth 50 contribution points, a thousand jade slips will be worth 50 thousand too!"

But could one jade slip be worth 50 contribution points?

Impossible!

The Extreme Medicine Sect's scripture library could be said to be filled to the roof with books.

There were God knows how many jade slips of all levels.

These jade slips were at the very most adding flowers to embroidery. That was all. It was not worth any money.

Moreover, what good stuff could a puny little Saint Sovereign Heaven have?

Could his jade slips be more impressive than the records that those Hegemon Realms spent hundreds of thousands of years to collect?

Chen Feiwen also smiled and said, "Martial Nephew Ye, if you want to use numbers of exchange for contribution points, I'm afraid that it won't pass! You got to know that the records in the Scripture Library, those were all screened through. Records that are second-rate can't enter the Scripture Library at all. Even if they enter, if it's not very valuable, it's at most giving you three to five contribution points too. Therefore, you'd best take these things back."

Ye Yuan did not get angry either but smiled and said, “Martial Uncle’s words are a little too hasty. Why not pick one to take a look first? How about it?”

Chen Feiwen shook his head and said with a smile, “Fine. There’s no harm in taking a look.”

Wang Lin and the others had mocking looks on their faces too.

Just you hang on stubbornly! Hence, Chen Feiwen casually picked up a jade slip and sank his divine sense into it.

Very soon, his expression changed drastically!

“This ... This is actually the long-lost Profound Heart Entering Dream Chapter!”

Shock was written all over Chen Feiwen’s face, and he looked toward Ye Yuan.

This Profound Heart Entering Dream Chapter was definitely able to reach the level of entering the Scripture Library’s sixth level.

Furthermore, it was an excellent piece!

Ye Yuan seemed to have long expected it and said with a smile, “Martial Uncle, take another look?”

Chen Feiwen’s hands trembled, his eyes when looking at Ye Yuan again became different.

You wouldn’t be telling me that so many jade slips are all on the same level as the Profound Heart Entering Dream Chapter, right?

While being half-dubious, he could not resist picking up another jade slip. His expression changed again!

### [Unrivalled Medicine God](#)

#### **Chapter 2858: Words Hell-Bent on Shocking People to Death!**

Vintage!

It was still a vintage!

They were all vintages!

Chen Feiwen looked at one after another. He was shocked until it could not be any greater!

A small hill-like pile of vintage records!

Then would there be any that’s there to make up the numbers inside?

Chen Feiwen grabbed one inside. This was even more incredible.

He had never even heard of the name before!

However, based on the records logged in this jade slip, he could tell that it was extremely precious at a glance!

Seeing Chen Feiwen, who became increasingly more shocked, Wang Lin and the others finally could not laugh anymore.

You wouldn't be freaking acting out a play with Ye Yuan, right?

One or two, I believe!

Three or five, I believe too!

But, don't tell me that in this hill-like pill of jade slips, it was all filled with incredible records, right?

Suddenly, Chen Feiwen stopped his movements. Looking at Ye Yuan with a solemn face, he said, "Martial Uncle Ye, this matter is of utmost importance. It concerns the sect's prosperity and decline. I can't make a final decision anymore! I'll go and report it to the sect master right away and have him make the final call!"

Finished saying, he immediately flashed away, leaving behind the dumbfounded-looking crowd.

This ... already rose to the level of the sect's prosperity and decline?

Martial Uncle, could you not exaggerate things to raise an alarm?

Just a bunch of lousy jade slips; was there a need?

A moment later, Song Qingyang came, Fan Li came, several of the sect's big shots all came!

It was a matter of the sect's prosperity and decline. They could not refrain from making their moves!

With regards to Ye Yuan, Song Qingyang was already speechless.

My little ancestor, can't you keep a lower profile?

How did things end up as some major matter that caused a great sensation in the entire sect?

Facing the look in Song Qingyang's eyes, Ye Yuan returned a helpless look.

I didn't want to either!

But, since someone forced me to take contribution points out, then I could only begrudgingly agree.

These things should be enough for him to do whatever he pleases in the sect after redeeming for contribution points, right?

When Song Qingyang and the others arrived at the Merit Hall, they picked up those jade slips that piled up like a small hill. The more they looked, the more solemn their expressions were, and the more shocked their gazes when looking at Ye Yuan.

Did this guy dig up all the Alchemy Dao treasures across the heavens?!

Too impressive! Each of these jade slips was worth a fortune. They could not be measured in monetary terms at all.

Of course, they were unable to be measured using contribution points too!

With these alchemy records, one could even create another Extreme Medicine Sect!

Too impressive!

Song Qingyang already could not find the words to describe Ye Yuan.

It was as if only the word 'impressive' could showcase Ye Yuan's prowess.

Seeing the expressions of the group of big shots changing one after another, Wang Lin they all finally broke down.

Everyone present was curious about just how incredible these jade slips that Ye Yuan took out were!

Including Wang Lin they all!

They lost so unwillingly!

Song Qingyang put down the jade slip in his hand, spat out a turbid breath heavily, and said to Ye Yuan, "Ye Yuan, the value of these jade slips are simply incalculable! How about this? The sect won't reward you contribution points anymore either. From now on, whatever you need, ask the sect directly! All kinds of resources that you need to cultivate, the sect will supply it limitlessly!"

The moment these words came out, the whole place was shocked! W-Was it so amazing?

This reward was too freaking amazing! What were contribution points? Those who entered the sect could not do without it!

Within the sect, everything that you did revolve around contribution points!

Regarding this point, the sect master, elders, even the Extreme Light Pavilion and Hegemon Realms were all like that!

Did the sect master need contribution points for whatever heavenly medicine he needed?

Yes!

If the sect master wanted something from the sect, then he would have to exchange for it by taking out the corresponding value! But Song Qingyang's words meant that from today onward, Ye Yuan no longer needed to worry about contribution points!

He could take whatever he wanted!

Too crazy! Ye Yuan was only grade five realm currently!

After he stepped into Emperor Realm, or even reached Emperor Sakra Heaven in the future and needed those grade nine heavenly medicines, was it still taking whatever he pleased?

Yes!

It was because the use of these books was too great!

Song Qingyang did not doubt in the slightest that these records were able to advance the Extreme Medicine Sect's alchemy path strength by a significant deal!

After today, all of the Emperor Realm powerhouses in the sect would probably make a headlong rush to enter the Scripture Library and borrow these records!

Their strength would advance by leaps and bounds for some time to come!

Looking at things from a broader perspective, Ye Yuan taking these alchemy records out would let the strength of the Heaven One Alliance side rise tremendously!

It would have enormous significance on the war as a whole!

Therefore, the contribution points were already impossible to measure!

And exemption from contribution points, this had probably never happened in the history of any major sect before.

In the history of the Extreme Medicine Sect, Ye Yuan was the only one!

This little martial uncle was really amazing!

How many earth-shattering major things had he already done as soon as he entered the sect?

"I agree! These records are too precious! Using it can practically make a fresh start elsewhere and create another Extreme Medicine Sect! This reward isn't overboard!" Fan Li said with a nod.

**n**

**w**

"I have no objections either! Hurry up and arrange it. I'm going into closed-seclusion right away! With these things, I might be able to comprehend origin!" Miao Chuan was too impatient to wait. "I agree!" "I agree too!"

The few big shots present were virtually unanimous.

Then the whole place erupted into an uproar!

Crazy! Really insane!

"Did you hear it? Create another Extreme Medicine Sect! This Ye Yuan is simply incredible!"

"This guy really has tremendous fortune, to actually be able to obtain so many treasures!"

"Wang Lin they all have set the explosives on fire! With this, they blew themselves up until nothing remained!"

...

...

The whole place was in an uproar, discussing animatedly.

The scene before their eyes was seriously too shocking!

Especially Fan Li's comments, it practically drove the Extreme Medicine Sect disciples present crazy.

This guy was insane, right!

The things that could establish a sect, you gave it to the sect just like that?

People were all selfish. The value of these things was sufficient to move them.

Starting a sect and establishing a faction, standing proudly at the apex!

Who did not want this sort of thing?

Just as everyone was inexplicably shocked, Ye Yuan waved his hands nonchalantly and said, “No need. These jade slips, I planned on donating them to the sect in the first place. It’s just that after entering the sect, I was anxious to break through to profound grade and forget to deal with them. Now, it’s great. Sect Master, I’ll use them to exchange for 54,450 contribution points. In addition, just reward me with some grade five heavenly medicines will do.”

In the next second, the whole place became dead silent!

Even Song Qingyang was stupefied on the spot too!

Was this boy crazy?

He was actually going to donate these treasures to the sect free of charge?

These were all priceless treasures. You gave them away so casually?

Although they were on the receiving side, Song Qingyang still felt that it was too rash and too improper!

Prodigal!

As for 54,450 contribution points, what the hell did that count for!

“Y-You’re not joking, right?” The corners of Song Qingyang’s mouth twitched slightly as he said.

He had already been completely defeated by this little martial uncle!

Ye Yuan shook his head and said, “When I acknowledged Master Zuo Chen as my master, I told him that I’ll be giving these treasures on me to the sect. In return, I’ll get to freely browse inside the Scripture Library. Now, since I’ve already entered the Scripture Library, everything naturally don’t have to be mentioned anymore. However, I have a request. These jade slips that I donated are open to all sect disciples for free!”

#### **Chapter 2859: Most Difficult in History!**

“This guy is crazy, right? That’s limitless contribution points!”

“With limitless resources, cultivation speed will advance by leaps and bounds, and he can use countless grandmist treasures to arm himself, he ... actually doesn’t want it?”

“Donating so many records, it’s just for him to repay the Scripture Library’s contribution points? What a waste! However, Wang Lin and the others, their faces are also slapped resoundingly!”

.....

You could say that again.

Wang Lin wished to find a hole in the ground to burrow into right now.

Didn’t you say that 50 thousand contribution points were very hard to get?

I could earn 500 thousand, five million, 50 million, but I don't want to!

I just want 50 thousand contribution points!

How is it? Does your face hurt?

Song Qingyang was speechless. This little martial uncle was too good at posturing!

However, he still shook his head and said, "No way, that way, the sect will owe you too much! This kind of treasure is astonishing!

If it was an ordinary disciple and the sect profited at his expense, then fine.

But who was Ye Yuan? Little martial uncle!

Even if you gave me, I would not dare to take it too!

Ye Yuan naturally knew what he was thinking about and said with a smile, "If Sect Master feels that you owe me too much, then I have a suggestion. I wonder if Sect Master is willing to listen to it?"

Song Qingyang nodded and said, "Say it!"

Ye Yuan said, "Now that a great enemy stands before us, if we're still fettered by old conventions, it's no different from committing suicide. Since our Extreme Medicine Sect is an alchemy overlord, then we should shoulder the responsibility of an alchemy overlord. I feel that some of the sect's resources can be opened up to the entire Heaven One! Such as the Scripture Library, such as some training grounds."

The moment these words came out, the audience burst into an uproar!

This was a big move! What a sect relied on to establish itself across the heavens were these resources.

Therefore, no matter which sect it was, they would be very stringent with these resources.

Ye Yuan could easily enter the Scripture Library, that was because his status was high enough.

For ordinary disciples, even if it was staying in the Scripture Library for a day, they would have to budget it stringently, let alone people outside of the Extreme Medicine Sect.

Now, Ye Yuan was actually going to share these resources in the Scripture Library with Heaven One Continent. This was simply insane!

Many disciples looked at Ye Yuan like looking at an idiot. Who did you think you were?

When was it your turn to come and meddle in this sort of thing?

Suddenly, a figure appeared, pointing at Ye Yuan's nose as he scolded, "Impudent! Ye Yuan, who the hell do you think you are? How the sect operates, how can it be what you can speak recklessly about? These resources are all where our Extreme Medicine Sect's foundation lies. Opening it up to the entire Heaven One is severing the sect's foundation! You have malicious motives!"

This person was none other than precisely Qin Shan!

This mighty Emperor Vast Heaven expert went onto the playing field personally.

However, Ye Yuan did not know him. He just said with a strange expression, "Did you turn dumb from cultivation? If I want to sever the sect's foundation, would I still take these things out?"

Qin Shan's face turned black, and he said in a great rage, "Conceited brat! You have no respect for your elders and engage in wild talks here. You should be punished for your crimes!"

At this time, an Emperor Sakra Heaven sect elder suddenly spoke up, "Sect Master, this boy is too haughty, treating his elders with contempt. He should be killed!"

He was called Jiang Yuandao, a backbone figure of the conservative faction.

Ye Yuan's words displeased him greatly too.

Not just him, Ye Yuan's words immediately attracted the strong opposition of the conservative faction.

Immediately, the spearheads of all the Emperor Realm powerhouses pointed at Ye Yuan.

At present, the majority of the Emperor Realm powerhouses remaining in the sect belonged to the conservative faction.

Therefore, their voices of condemnation toward Ye Yuan grew higher than the previous wave. It was virtually one-sided!

Out of their mouths, Ye Yuan became a criminal who committed the most heinous crimes, and they would not be content with anything less than killing him.

Everyone felt that Ye Yuan was finished!

Incurring public wrath, Zuo Chen could not protect you too!

Although Song Qingyang and the group of upper echelons had calm faces, there were indescribable peculiarity in their hearts.

Disrespecting elders?

Your Father doesn't even dare to be so unbridled in front of Little Martial Uncle. You guys are really awesome!

However, Ye Yuan's words indeed had too great an implication. They had no choice but to be cautious.

It was just that with Ye Yuan's identity, since he said this kind of words, was that the will of the ancestors?

"All shut up for me!" Song Qingyang yelled coldly. The world became quiet.

He said in a solemn voice, "Ye Yuan, the implications of this matter are too great. This sect master can't make the decision! But I'll report your idea to the Extreme Light Pavilion and let the pavilion elders make a final decision!"

Ye Yuan said with clasped hands, "Then I'll have to trouble Sect Master!"

Everyone burst into an uproar again! Were the heavens changing? The suggestion given by a Saint Sovereign Heaven was actually going to be reported to the Extreme Light Pavilion? Too crazy!

It was as if countless face-slapping sounds had sounded out in the air.

While Jiang Yuandao, Qin Shan, and the rest were staring with their mouths agape.

Sect Master and the group of big shots would actually care about a junior's view?

Even if you donated these treasures, you could not use it to put pressure on the sect too, right?

But very soon, everyone felt relieved.

After all, having donated these treasures, Sect Master was letting Ye Yuan's face look a little better for the time being.

Reporting to Extreme Light Pavilion?

It did not exist!

"Ye Yuan, such a good opportunity just now. It would have been great for you to exchange for an Imperial Extreme Pill too! In order to posture, you're not even caring about your brother anymore?" Yang Qing said weakly.

Ye Yuan glanced at him and said coolly, "Imperial Extreme Pill for what? The sect's heavenly pills are also nothing more than this. I'll refine a better one for you and let you posture and slap faces, alright?"

Yang Qing's eyes lit up, and he said excitedly, "Is this for real?"

Ye Yuan nodded and said, "Of course it's real!"

Zheng Qian sneered and said, "Huhu, what high-sounding sentiments! Who do you think you are, to actually look down on the sect's heavenly pills! Don't forget. You're only grade five realm! So what if profound grade? Can you refine profound grade heavenly imperial pills? What a joke!" Wang Lin similarly said disdainfully, "Huhu, in the entire Extreme Medicine Sect, there's only you, one heavenly alchemist! Profound grade expert, how formidable!"

Ye Yuan gave Wang Lin a glance and suddenly said with a smile, "Senior Apprentice Brother Wang, doesn't your face hurt?"

Wang Lin was taken aback, his face really turning somewhat hot.

He was seriously too oppressed!

Targeting Ye Yuan time and again, in the end, this guy slapped his face each time!

How shameful!

"You guys can naturally mock me. However, you have to be prepared to be slapped by me!" Ye Yuan said with a smile that was not a smile.

These words were domineering!

Entering the sect for ten years, how many earth-shattering major things had Ye Yuan done?

Starting from the first day, Ye Yuan had already caused a great sensation. Then, each time was more impressive than the last, and each time more sensational than the last.

Until now, it was as if the entire Extreme Medicine Sect was revolving around Ye Yuan.

What right did a divergent cultivator trash have?

“What heavenly medicines did he take?” Qin Shan asked with a solemn face.

“Crane Needle Profound Tea, Five-Directional Divine Rain ...” Wang Lin reported a series of heavenly medicine names, his gaze full of mockery.

Qin Shan could not help being stupefied when he heard it and said, “Infinite Comprehensive Pill?!

Wang Lin smiled and said, “Exactly so! This boy really doesn’t know the immensity of heaven and earth! Just broke through to profound grade for ten years and he dares to refine the Infinite Comprehensive Pill, which is known as the most difficult in history! Hahaha ... That Yang Qing is probably going to be scammed to death by him!”

Qin Shan also could not help laughing as he said, “This boy, really ... Infinite Comprehensive Pill, even if I take action, being able to refine true grade is already pushing it to the point of bursting! Where does he get the courage to dare refine this?”

### Unrivaled Medicine God

#### **Chapter 2860: I Feel ... Somewhat Bloated!**

Below the life-and-death stage, there were streams of people.

Originally, this battle was just between Luo Hao and Yang Qing two people. It would not have attracted too much attention.

But, because of Ye Yuan, the influence of this battle became huge.

Even Yang Qing himself admitted that he could not last a single exchange with Luo Hao.

Then could Ye Yuan defy the heavens?

“Incredible! It seems like in the sect, there’s no one who can refine the Infinite Comprehensive Pill at all! Is that Ye Yuan going to defy the heavens?” “What a joke. He’s the youngest profound grade powerhouse in history! How can a mere Infinite Comprehensive Pill stump him?” “Heh heh, this brat really talks big!”

... ..

A series of mocking voices came from below the stage.

The corners of Luo Hao’s mouth could not help curling slightly when he heard these discussion voices.

Why was the Infinite Comprehensive Pill called the hardest in history?

It was because it was an extremely rare all-attributes heavenly pill!

What was called an all-attributes heavenly pill?

After consuming it, one’s strength would skyrocket in all aspects!

Divine essence, Great Dao rule, the power of rules, origin divinity, physical body, so on and so forth, these aspects would all have an all-round improvement! This kind of heavenly pill sounded fantastical, even somewhat frightening. Of course, because it had such a heaven-defying medicinal effect, its refining difficulty was also the hardest among same rank heavenly pills!

The difficulty was hell level! How difficult was it?

A grade eight heavenly alchemist like Qin Shan could not refine a profound grade Infinite Comprehensive Pill too. He could refine true grade, but the medicine effect of true grade was basically only a little better than nothing to True Sovereign Heavens. The difficulty was high, but the medicinal effect was ordinary.

Only by reaching profound grade could it truly have a heaven-grade effect.

Hence, in the Extreme Medicine Sect, there wasn't such a heavenly pill at all.

It was not that nobody could refine it, but exalted Hegemon Realms would not run over to refine a grade five heavenly imperial pill for you, right? Furthermore, the heavenly medicines that the Infinite Comprehensive Pill needed were extremely precious too. They were even more valuable than some grade six heavenly medicines!

This was because they were too rare.

It was also that this was a super sect like the Extreme Medicine Sect. For ordinary sects, they would not be able to even collect the heavenly medicines.

Therefore, when they knew that Ye Yuan was going to refine the Infinite Comprehensive Pill, the entire sect scoffed with derision.

Two days ago, Ye Yuan slapped the faces of everyone in the sect.

Today, everyone came to watch Ye Yuan become a joke!

Below the stage, Yang Qing appeared somewhat anxious.

The life-and-death battle was about to begin right away, but Ye Yuan still had not come.

"What are you looking at, Yang Qing? You wouldn't really think that Ye Yuan can bring the Infinite Comprehensive Pill and come help you change your fate, right?" Luo Hao arrived before Yang Qing and said with a snicker. Yang Qing said with a cold snort, "Mind your own business!"

Luo Hao's face turned black, and he said in a solemn voice, "Yang Qing, just you show off! After getting on the life-and-death stage, you'll know what's called despair! You killed my younger brother. I'm going to sentence you to eternal damnation!"

Yang Qing's mouth curled, and he said disdainfully, "Your younger brother colluded with the blood race and butchered his own species, committing countless crimes and misdeeds. Landing in my hands, I couldn't let him live! Even if we do this again, Your Father will still kill him without fail!"

When he was carrying out missions, he accidentally discovered that Luo Hao's younger brother was cultivating with human blood, his methods being extremely cruel.

The ordinary martial artists who died at his hands were beyond count.

Yang Qing was normally casual, but with regards to this sort of thing, he really would not be careless.

Hence, he killed Luo Hao's younger brother.

Who knew that this person was actually Luo Hao's younger brother!

Before his younger brother died, he sent Yang Qing's information to Luo Hao.

In the end, the two people sowed irreconcilable enmity.

Before Luo Hao's younger brother died, he did things cleanly. Yang Qing did not bring back any evidence.

**meone**

With regards to Yang Qing killing someone from the same sect, as long as it was outside the Extreme Medicine Sect, there wasn't this restriction.

This way, the two people each stuck to their own versions and could only use a life-and-death battle to resolve it.

When Luo Hao challenged him, Yang Qing was not a cowardly person either, directly accepting it.

Although he clearly knew that he was not a match.

Luo Hao gave Yang Qing a glance and said coolly, "Keep framing charges! Very soon, you won't be able to talk anymore!"

Time slowly trickled by. Ye Yuan still did not have the intention of showing up.

Luo Hao leaped onto the life-and-death stage and shouted, "Yang Qing, the hour has come. Why haven't you come up in haste to prepare to die?"

Yang Qing's mouth curled, and he said, "There's still 15 minutes. What are you anxious about!"

"Haha, Yang Qing, stop struggling! Ye Yuan boasted too much. He absolutely won't dare to come!" Zheng Qian said with a loud laugh.

In reality, that was what everyone thought.

The hardest in history was not said for fun!

To profound grade powerhouses, this was a hell-level difficulty too!

"Yang Qing, give up hope! If Ye Yuan dares to come, Your Father will pluck my head off for you to kick like a ball!" Wang Lin also said with a cold smile.

Yang Qing gave him a glance and said coolly, "Grandpa Qing has remembered what you said!"

While he said so, Yang Qing's heart was also a little nervous.

Time was almost up. Ye Yuan did not even show a hint of a shadow!

“Son of a bitch, hurry up and come! If you don’t come, Your Father is going to die!” Yang Qing cursed wildly in his heart. Luo Hao smiled coldly and said, “Delaying the time can’t change the final outcome! Forget it that he doesn’t dare to come. Even if he really refines the Infinite Comprehensive Pill, you’ll definitely die today beyond doubt too!”

As he said, he arrived in front of the judge and said with clasped hands, “Martial Uncle, the time has come!”

That Emperor Realm powerhouse nodded slightly and said to Yang Qing, “The time is up. Yang Qing, take the stage!”

Yang Qing’s face turned black. This punk really stood him up?

F\*\*\* me!

However, he also knew that he could not drag the time anymore.

Helpless, he could only leap onto the stage!

“Catch!”

Just as he was dangling in the air, a streak of flowing light flashed and flew straight over.

Yang Qing was overjoyed, swiping a vial with a grab and landing on the stage.

Without the slightest hesitation, Yang Qing immediately opened up the vial and downed it in one gulp. Everyone did not have time to determine whether or not that was the Infinite Comprehensive Pill.

And only at this time did Ye Yuan’s figure slowly appear.

The whole audience was in an uproar!

This guy really came?

That thing just now was the Infinite Comprehensive Pill?

This guy would not have randomly gotten some heavenly pill to posture, right?

Luo Hao’s expression changed, and he said to the judge, “The time is up. Martial Uncle, please announce the immediate commencement!”

The judge nodded and said, “Getting on the life-and-death stage, life and death are your own responsibility! Begin!” Luo Hao did not feel that Ye Yuan could really refine a profound grade Infinite Comprehensive Pill, but he would not give Yang Qing the chance to refine the heavenly pill!

This was the life-and-death stage. It was no laughing matter!

Whether or not it was, it would not be too late to verify after Yang Qing died! “HAH!”

Luo Hao slashed a saber over, immediately stirring up the wind and clouds!

Three power of rules were immediately performed by him to the extreme!

He was a genius!

The moment this saber came out, forget about Yang Qing; even his senior and junior brothers, who were similarly half-step Emperor Realm, absolutely could not block it too!

One saber and they would be met with a violent death! But, when he saw that playful look in Yang Qing's eyes, his expression could not help changing wildly!

Over here, Yang Qing's entire body instantly ruptured when the medicinal pill entered his abdomen!

He only felt as if his soul was about to ascend!

That liberating feeling made him unable to hold back a groan.

Too wonderful!

In virtually an instant, he felt as if his strength was like a rising tide. It was rising sharply and crazily!

"I feel ... somewhat bloated!"
