

Medicine God 301

Chapter 301: Encounter on a Narrow Path

Mei Zhen looked at those stalks of Tier 3 Orchid Heart Flowers and involuntarily frowned, showing a pondering look.

"Elder Mei, if we didn't have Ye Yuan, we wouldn't even have gotten a single stalk of Tier 3 Orchid Heart Flower. He only took five stalks which isn't considered much," Mo Yuntian saw Mei Zhen frown and hastily went up to say.

Mei Zhen was stupefied, then smiled bitterly and said, "Where did that come from, Yuntian? I'm not grumbling that Ye Yuan got too many, but because I feel that it's too little. It's just that I can't really make a decision on this, that's why I hesitated."

When he finished speaking, he turned to Ye Yuan and said, "How about this, I'll keep the rest of the Tier 3 Orchid Heart Flowers first. After returning, I'll report to Sect Master about today's events and request him to give you some more stalks."

But Ye Yuan waved his hands and said, "No need. Five stalks are enough. Quickly harvest them, Elder Mei; we should set off already."

With Ye Yuan saying this, Mei Zhen continuing to insist appeared rather corny. He could only put away the remainder Tier 3 Orchid Heart Flowers.

This Tier 3 Orchid Heart Flower was a core ingredient in a Tier 3 cultivation medicinal pill, the Essence Stabilizing Pill. Five stalks of Tier 3 Orchid Heart Flowers were enough to refine a hundred pills to Ye Yuan. It was plenty to use in the short-term.

Only after gathering the Tier 3 Orchid Heart Flowers did the Tranquil Cloud Sect group start advancing towards the depths of the mystic realm.

Having gone through the Mantu Flower Sea incident, the group did not dare to lower their guard again. They were on high alert the entire way. Fortunately, nothing major happened.

Rather, it was Ye Yuan's discerning eyes that discovered pearls. He even obtained some rather rare Tier 2 medicinal herbs along the way.

But ever since the Orchid Heart Flower Sea, they did not encounter any more Tier 3 medicinal herbs.

On the way, Ti Wujiu who was silent the whole time suddenly asked Ye Yuan, "Junior Apprentice Brother Ye, you previously said that this Mantu Flower is a grafting object. Doesn't this mean that that sea of flowers has an owner? Could it be that this mystic realm . . ."

With Ti Wujiu saying this, all of them include Mei Zhen was stunned speechless!

Using Mantu Flowers to breed Tier 3 Orchid Heart Flowers, this was a huge expenditure! And this was even still the outer-most boundary of the mystic realm.

Li Zhangyu also said that there were even many Tier 4 medicinal herbs in this mystic realm!

If this mystic realm really had an owner, then everyone would be in danger. A faction that could create such a spectacle was likely even more powerful than the Heavenly Sky Sect!

Previously when everybody was listening to Ye Yuan talk about this Tier 3 Orchid Heart Flower, their minds were in a state of shock, resulting in them overlooking this issue.

Thinking about it now, the group could not stop breaking out in cold sweat.

Could such a powerful influence actually be hidden in this Southern Domain territory?

Ye Yuan smiled and said, "Senior Apprentice Brother Wujiu's thinking is indeed meticulous. This place indeed had a master in the past! However, that should be something a long time ago."

Listening to the first half of Ye Yuan's sentence, everybody's heart involuntarily jumped. They only relaxed after hearing the second half.

Except, this strong contrast unwittingly left everyone feeling out of breath.

"How do you know, Junior Apprentice Brother Ye?" Ti Wujiu enquired.

"After ranked medicinal herbs absorb sufficient essence energy, they will reach a level of saturation. The essence energy in this place is abundant, that's why it can sustain the medicinal herbs' state of maturity. But those familiar with medicinal herbs can tell the difference in the herbs' age. These Tier 3 Orchid Heart Flowers probably has the age of several thousand years already. If this place had an owner, it's impossible to leave these Tier 3 Orchid Heart Flowers unchecked to fall into disuse for such a long time," Ye Yuan explained.

Ye Yuan's degree of familiarity towards medicinal herbs was hard to imagine by everyone. He only had to observe slightly to be able to tell the age of these Tier 3 Orchid Heart Flowers. That was why he was so certain.

"Moreover, this place has clearly been deserted for a long time. It's overgrown with all sorts of weed, and demonic beasts run wild. It's absolutely not a land with a master. If my conjectures are correct, this place might be some sect's medicinal garden back then. It's just that who knows what kind of accident befall the sect, resulting in it being deserted like this. This sect should be much more powerful than the present Heavenly Sky Sect!" Ye Yuan uttered his own conjectures.

Mei Zhen and the rest nodded their heads quietly when they heard it. This analysis was perfectly logical and reasonable, and it also dispelled their apprehension.

Ever since entering the mystic realm, unknowingly, everyone had already regarded Ye Yuan as the backbone.

When encountering anything, the first thing they thought of was not to seek advice from Mei Zhen but to ask Ye Yuan.

But the strange thing was that nobody felt that this was inappropriate, including Mei Zhen himself.

.....

The Tranquil Cloud Sect group did not move quickly.

After two days, they arrived at a dense forest.

"Quickly look! Isn't that a Tier 4 medicinal herb, the Vermillion Lotus Iceheart Fruit?" a Tranquil Cloud Sect disciple cried out in surprise when he saw the bright red fruit not far away.

Tier 4 medicinal herbs belonged to items of strategic significance to the major sects in the Southern Domain! Even the Heavenly Sky Sect would also have bloodshot eyes when seeing Tier 4 medicinal herbs.

Previously, Skymaple practically expended all of Tranquil Cloud Sect's Tier 4 medicinal herbs in order to refine the Seven Profound Soul Driving Pill. This was also the reason why the pressure on him was enormous like a mountain.

Seeing the Tier 4 medicinal herb currently, it was hard for the Tranquil Cloud Sect disciples to not feel agitated.

That disciple was about to pluck it while talking when he was held back by Ye Yuan.

"Senior Apprentice Brother Pang, don't go over!" Ye Yuan said gravely.

"What?" Senior Apprentice Brother Pang froze and involuntarily broke into a cold sweat.

On the way, under Ye Yuan's lead, they had already avoided several certain death scenarios!

So upon seeing Ye Yuan stop him, Senior Apprentice Brother Pang instantly realized his recklessness as cold sweat poured unceasingly.

This mystic realm was indeed just as the Heavenly Sky Sect said, there were natural treasures everywhere. But to want to obtain these natural treasures, one had to pay the price in blood!

These two days, the Tranquil Cloud Sect group also encountered many Quasi-Tier 4 medicinal herbs along the way. But not one of these medicinal herbs' surroundings was not abnormally dangerous!

Even for Crystal Formation Realm martial artists, a moment of carelessness would result in death at the scene!

But Ye Yuan lead everyone time and time again, avoiding the dangers. So up until now, the Tranquil Cloud Sect did not lose a single man!

In the beginning, they were still somewhat disapproving of Ye Yuan stopping everyone from harvesting the medicinal herbs.

Ye Yuan even utilized the Cleansing Sandal Flame Lotus avatar body because of this to probe multiple times. But the results made everybody's hair stand on its ends.

After several times, everyone knew just how great the significance of Ye Yuan's existence was!

If they did not have Ye Yuan, they would probably have to lose half their forces in just these two days. This would be an unbearable blow to the Tranquil Cloud Sect.

Ye Yuan was extremely familiar with these medicinal herbs' characteristics. Some medicinal herbs had accompanying beasts, some had accompanying toxic entities. One careless move and they would succumb to it.

When Senior Apprentice Brother Pan got excited seeing the Tier 4 medicinal herb just now, he almost forgot the dangers previously and threw himself headfirst.

"Vermillion Lotus Iceheart Fruits have a type of accompanying demonic beasts called Seven-Colored Poison Spider. Its toxicity is extremely ferocious! Furthermore, the poison spider's size is very small, exceedingly difficult to detect. If one were carelessly bitten by it, Crystal Formation Realm martial artists would perish from the eruption of the poison within several breaths of time!" Ye Yuan said solemnly.

Senior Apprentice Brother Pan sucked in a cold breath. Cold sweat started pouring once more uncontrollably.

"Who's there?!" Right then, Mei Zhen suddenly roared.

"This brat is indeed quite abnormal, to actually even know about this poison spider! Eh? You guys actually haven't lost a single man until now. Looks like it's all due to this boy's credit! Heh heh, I already said before, boy, don't bump into me in the mystic realm!"

"Wang Fan!" Several silhouettes appeared from the neighboring forest.

When Mei Zhen saw people coming, his brows involuntarily knitted together.

Chapter 302: Pushing Too Far

Wang Fan and Yu Feng brought the High Clarity Sect group out of the dense forest, their faces showing amusement like they had the Tranquil Cloud Sect within their grasp.

"To think that we met so soon! What a coincidence!" Wang Fan said with a cold laugh.

Mei Zhen snorted and said, "Wang Fan, I advise you to better not clash with us. Otherwise, let's fight to the bitter end! You guys won't be able to get any benefits either!"

But Wang Fan burst into laughter and said, "Bitter end? With the likes of you? Your Tranquil Cloud Sect even brought a Seventh Level Spirit Condensation Realm disciple out to present a show. Are you even fit to fight to the bitter end with our High Clarity Sect? However . . . although this punk's realm isn't high, he is extremely abnormal, to even know about the Seven-Colored Poison Spider! Just a while back, we even lost a Fifth Level Crystal Formation Realm disciple for the sake of harvesting this Vermillion Lotus Iceheart Fruit. But you all are actually completely unscathed up till now!"

Wang Fan took it all into his eyes the Tranquil Cloud Sect's group's performance earlier.

If not for Ye Yuan holding back that Senior Apprentice Brother Pang, his outcome now would definitely be the same as that disciple of theirs!

The High Clarity Sect beat the Tranquil Cloud Sect to this place but lost a Fifth Level Crystal Formation Realm disciple. One could call it heavy losses.

They were currently thinking of ways to harvest the Vermillion Lotus Iceheart Flower when they just happened to see the Tranquil Cloud Sect people coming over. Hence, they found a place to hide, wanting to see the Tranquil Cloud Sect suffer a huge loss too.

That Senior Apprentice Brother Pang was about to rush up when he was forcefully held back by Ye Yuan.

These two days, two disciples already died on their side. It could be said to be heavy losses.

In contrast, seeing how the Tranquil Cloud Sect team looked exactly the same as they were when they entered made Wang Fan inadvertently furious.

This sort of contrast between expectations and reality made Wang Fan even more displeased when looking at Ye Yuan!

Looking at the situation earlier, this boy truly had many abnormal areas.

"Humph! After entering this mystic realm, life and death are up to fate! Your disciples died, but you can't put this blame on our heads, right?" Mei Zhen snorted icily.

"So what if we lay it on you? When we just entered the mystic realm, if this punk just gave a light reminder, we wouldn't have lost a disciple in vain too! Do you feel whether we should put this score on your heads or not?"

Mei Zhen involuntarily choked up, but Ye Yuan said, "What duty do I have to remind you? Even if I reminded you, will you be grateful to me? Will you not find trouble with me now?"

Having experienced several interactions, Ye Yuan had long seen through this Wang Fan's character. He was simply some loose-principle person without any bottom line.

Even if he reminded the High Clarity Sect when he entered the mystic realm, it would also be the same situation right now.

This type of people basically did not know what was called gratitude!

"Hahaha . . . I said before, you, boy, your bones are very tough! Previously outside the mystic realm, I let you escape a calamity. Now, no one is going to step forward to mediate, right?" Wang Fan laughed maniacally.

Mei Zhen's expression turned grave, and he said somberly, "Wang Fan! Don't push us too far!"

But Wang Fan paid no attention. He said to Mei Zhen, "Mei Zhen, I give you all a chance. Hand over that boy, and I'll let you leave. Otherwise . . . none of you shall escape!"

In Wang Fan's view, they had two Sea Transformation Realm experts over on their side while the other party only had Mei Zhen alone. The disparity between both party's strength was too great!

The Tranquil Cloud Sect simply stood no chance at all!

Mei Zhen's realm was similar to his, both Third Level Sea Transformation Realm.

As long as he delayed Mei Zhen, Yu Feng could freely reap the rest!

Under such an enormous difference in strength, the Tranquil Cloud Sect team could only hand over Ye Yuan if they wanted to live.

.....

Wang Fan did not know that the target they previously robbed was currently observing everything not far off.

If Ye Yuan were here, he probably would not be able to recognize that these two women with unparalleled looks were the two people he saved!

How did the current Li-er and Yan-er still had any hint of ugliness right now?

Ignoring Li-er, even Yan-er who was a servant was soul-stirringly beautiful.

As for Li-er, it was simply impossible to find words to describe.

If one had to describe it, they could only say 'such beauty should only belong to the heavens and not the mortal realm'?

But currently, Ye Yuan was completely oblivious to this.

"Miss, it seems like they are going to fight over there. Should we help save Mister Ye?" Yan-er transmitted.

Li-er shook her head and said, "Watch a while more."

"Still watching? Mister Ye is only at the Seventh Level Spirit Condensation Realm. Once they fight, he will be instantly killed in a single move!"

Ye Yuan gave the divine soul mystic art and Tier 8 medicinal pill to Li-er with any hesitation. This improved Yan-er's impression towards Ye Yuan tremendously and genuinely treating him as a savior.

So when she saw that Ye Yuan was in danger, she could not wait to lend a helping hand.

In truth, with the pair's strength, they did not need Ye Yuan's saving at all. On the contrary, Ye Yuan's appearance saved Wang Fan and his group instead.

If Ye Yuan did not show up at that time, this group from the High Clarity Sect would most likely already end up as a feast in the stomachs of the Cloud Dream Mountain Range right now.

Li-er and Yan-er did not wish to reveal their strength. That was why they purposely pretended to be Crystal Formation Realm martial artists.

Even the Sea Transformation Realm Wang Fan and Mei Zhen were unable to see through Li-er and Yan-er's strength. One could see just how powerful they were.

So when Ye Yuan saved them both, master and servant, Li-er was still alright, but Yan-er did not welcome it at all.

One had to say that she was even more curious that a Spirit Condensation Realm martial artist actually rescued them master and servant without any traces from a bunch of Sea Transformation Realm and Crystal Formation Realm martial artists.

But after Ye Yuan perceived Li-er's ailment, Yan-er's thoughts were completely turned around.

"It's fine. If Mister Ye is really in danger, I'll make a move in time. Our identities are special. We mustn't make a move easily unless there are no other alternatives. Moreover, I also really want to see just where Mister Ye's limit lies," Li-er said composedly.

But Yan-er was not very supportive as she said, "I know that Mister Ye is kind of special, but what kind of limits can a Seventh Level Spirit Condensation Realm martial artist reach even if he's strong?"

Li-er broke into a smile, her beauty unequalled. "That might not be so! I keep feeling that he's extraordinary!"

"Alright, alright! Ever since that person left, it's rare to see Miss pay so much attention to something. Do whatever that makes you happy then!"

Yan-er realized that she misspoke after she finished talking and involuntarily stuck her tongue out playfully, appearing embarrassed.

A hint of sorrow flickered across Li-er's beautiful eyes. She shot Yan-er a fierce glare and no longer bothered with her.

.....

Mei Zhen gave Ye Yuan a glance and gritted his teeth as he said to Wang Fan, "Since that's the case, then let's fight to the bitter end!"

Wang Fan was confused and even thought that he heard wrongly.

He looked at Mei Zhen and the other Tranquil Cloud Sect disciples and saw that their faces actually revealed resolved looks!

Mei Zhen actually wanted to turn violent without even thinking?

One had to know that even though their High Clarity Sect lost two Crystal Formation Realm disciples, the power of Sea Transformation Realm was not something that Crystal Formation Realm martial artists could resist!

Were this group of people from the Tranquil Cloud Sect daft? Everyone did not want their lives anymore for a Seventh Level Spirit Condensation Realm?

Wang Fan was completely ignorant of Ye Yuan's significance to the Tranquil Cloud Sect!

Chapter 303: Very Foolish, Very Naïve?

"I'll delay them. Yuntian, you quickly bring them away!" Mei Zhen drew his sword and said without even turning his head back.

Evidently, he already harbored the resolution to die and protect the others' retreat!

In Mei Zhen's heart, these disciples were all the sect's future. Any one of them was more important than him.

He was only a sect elder without much room for improvement anymore, while these disciples were going to cause a stir in Southern Domain in the future!

Ye Yuan was rather overcome with emotion when he saw such a situation. Although the Tranquil Cloud Sect's strength was not great, their cohesiveness was very strong.

The Tranquil Cloud Sect had people like Luo Qingfeng, Xiao Jian, and Mei Zhen. What was there to worry about not being able to charge back to the Northern Domain?

It was fine if the sect declined. As long as the peoples' hearts did not scatter, there would eventually come a day where they would shine once again!

"The High Clarity Sect is a bunch of motley crew; why is there a need to fight to the death?" Ye Yuan smiled calmly and wielded Canghua Sword with a wave of his hands.

Once Wang Fan saw the Canghua Sword, the greed in his eyes could not be concealed anymore. "32 restrictions spirit artifact!"

"Hur hur, Senior Mountain Shaker's eyes are pretty good," Ye Yuan mocked.

"Haha, misfortune may actually be a blessing! Losing a stalk of Crow Orchid Ganoderma but acquiring a 32 restrictions spirit artifact, Heaven really treats me well!" Wang Fan cackled.

Ye Yuan sneered and said, "Don't crack your old teeth!"

"Humph! Razor-tongued brat. Watch if old me don't take apart your bones today!" Wang Fan snorted coldly.

Mei Zhen panicked in his heart when he saw Ye Yuan not leaving and said, "Ye Yuan, you guys quickly go! They have two Sea Transformation Realm experts. You all staying is courting death!"

"Go? Can you leave?"

How could Wang Fan give him the opportunity? With a wave of his hands, his disciples encircled the Tranquil Cloud Sect team.

Mei Zhen was exasperated that they failed to live up to his expectation when he saw the situation and said angrily, "You guys! Sigh!"

But Ye Yuan had a nonchalant look as he transmitted his voice, saying, "Calm down, Elder Mei Zhen, just keeping watching."

"Sigh! Ye Yuan, I know that you're relying on that this place doesn't allow the existence of strength above the Crystal Formation Realm. But even if it's peak Crystal Formation Realm, you're also not a match!" Mei Zhen sighed.

Ye Yuan smirked and said, "Not necessarily!"

Ye Yuan took a step forward and said to Wang Fan, "Senior Mountain Shaker, aren't you just trying to find trouble with me? How about this, let's have a 1-on-1! If you win, this sword is yours, and I'll be at your mercy. If you lose, let us leave!"

Wang Fan was stunned when he heard this. A Spirit Condensation Realm challenging a Sea Transformation Realm?

Just now, he was still thinking that this boy was rather abnormal. Now, it looks like he was simply a moron!

Wang Fan did not even speak yet when Mei Zhen involuntarily became very anxious and said, "How can that do?! Wang Fan, I'll duel with you!"

But Wang Fan ignored Mei Zhen and guffawed loudly as he said, "Boy, did your brain crash from fear? 1-on-1 with me? You aren't thinking that you're invincible because you're holding a 32 restrictions spirit artifact, right?"

When he said this, the High Clarity Side laughed unceasingly.

"Haha, so hilarious! I've grown so old, and this is still the first time that I'm hearing a Spirit Condensation Realm challenging a Sea Transformation Realm!"

"Did the brains of Tranquil Cloud Sect's upper echelons go bad? They actually handed a 32 restrictions spirit artifact to a fool like this!"

"Hur hur, they are teeming with spirit artifacts and came to deliver a spirit artifact to Elder Wang. Do you want to stop them?"

The group chimed in here and there and burst into laughter again.

But Ye Yuan did not smile. His eyes were staunch as he said to Mei Zhen, "Elder Mei, just leave this place to me. You bring the seniors and retreat to the side."

Seeing Ye Yuan's commanding gaze, not knowing why, Mei Zhen swallowed the words that were at the tip of his tongue.

"Then . . . Then you better be more careful!" Mei Zhen unexpectedly agreed.

This whole trip, Ye Yuan had already unknowingly replaced Mei Zhen's position, and became the backbone of this trip for the Tranquil Cloud Sect!

Even Mei Zhen was unconsciously influenced too.

Having convinced Mei Zhen, Ye Yuan turned to Wang Fan and said, "How is it? Do you dare?"

Wang Fan ridiculed when he saw the situation, "Don't look at me with those eyes, I'll really be a little scared! But . . . since you're so sincere, wouldn't I be too unamenable to not agree?"

Ye Yuan smiled when he heard this and said, "Senior Mountain Shaker's true color indeed doesn't change. Your skin is as thick as always!"

Wang Fan was already used to Ye Yuan's tone and knew that he could not beat him in a contention of tongues, so he might as well not argue.

He looked at Canghua Sword in Ye Yuan's hands, his gaze sparkling.

"Don't say that I'm bullying you! I'll only use 10% of my strength to fight with you. If you can beat me, then consider it your win!" Wang Fan said with a cold smile.

This was not Wang Fan boasting. He was at the Third Level Sea Transformation Realm. Even 10% of his strength was greater than ordinary Ninth Level Crystal Formation Realms!

Such strength was plenty to deal with a Seventh Level Spirit Condensation Realm boy!

If he were dealing with Mei Zhen, he would really need to fight seriously.

But his opponent was Ye Yuan. Wang Fan honestly could not attach any importance to this.

Even if he knew that Ye Yuan surely had areas where he excelled in, the enormous disparity in realms was simply insurmountable.

Even if his opponent were a Ninth Level Spirit Condensation Realm, he would win with certainty.

As for dealing with a Seventh Level Spirit Condensation Realm . . . there was basically no suspense, right?

At this time, Wang Fan had the thought of playing cat and mouse.

But Ye Yuan's eyes lit up when he heard him and said elatedly, "You said it! Don't regret it when the time comes! You said you'll only use 10% strength!"

Wang Fan became even more amused when he saw Ye Yuan's appearance and deliberately assumed an expert's demeanor, saying, "I'm a dignified High Clarity Sect elder. Why would I renege on my word against a puny Spirit Condensation Realm? You can rest assured. I said 10% means it's 10%!"

The people from the High Clarity Sect were whispering to each other on this side, full of pity towards Ye Yuan.

"This fool, he isn't naïve enough to think that he can win just because Elder Wang is only using 10% of his strength, right?"

"You look at his thrilled appearance, he definitely thinks so! When he experiences 10% of Elder Wang's strength in a while, he'll probably even have the intent to die, right?"

"Hehe, there's a good show to watch! I really can't figure out why the Tranquil Cloud Sect would send such a fool to the mystic realm."

The negotiations were set. Both parties each withdrew a distance away, clearing out a space for Ye Yuan and Wang Fan's face off.

Both parties stood there. Ye Yuan suddenly cracked a smile again and said, "Senior Mountain Shaker, help someone all the way! Why not you allow me a move too, how about that?"

Wang Fan's eyes narrowed slightly. He looked at Ye Yuan disdainfully and said calmly, "Forget about one move. How about I allow you ten moves?"

Ye Yuan grinned and said, "No need, no need. Why would I need so many? Just one move is ample!"

Ye Yuan's display incurred another bout of mocking laughter. Even Yan-er who was hiding secretly could not help having suspicions about Ye Yuan's I.Q.

"Miss, I always felt that Mister Ye was a wise person. But looking at it now, why does he seem very foolish and very naïve? The other person is a Third Level Sea Transformation Realm expert. Forget about allowing him one move, even if he stood there unmoving, Mister Ye's attack might not be able to penetrate his protective essence energy, right?" Yan-er said.

Li-er likewise had a doubtful look. But since Ye Yuan was not in danger, she also played along with him. "Watch a little longer. I feel that Mister Ye is not somebody who is foolish."

Chapter 304: Goodbye, Not Seeing You Out!

Mo Yuntian looked at Ye Yuan with scorching eyes. Only he knew Ye Yuan's greatest trump card in here!

After Ye Yuan entered the Tranquil Cloud Sect, he had never exposed his strongest trump card before.

Mo Yuntian knew that Ye Yuan was deliberately appearing weak to the enemy in order to win with one blow.

But the problem was, would Wang Fan really stand there honestly and wait for Ye Yuan to release a mighty blow?

That was a Third Level Sea Transformation Realm expert; an existence who could instantly wipe out Spirit Condensation Realm martial artists with a wave of his hands!

Wang Fan was not some rookie martial artist like Yao Qian. His combat strength was more than a level greater than Yao Qian's.

Where did Ye Yuan's confidence come from?

But the matter was already done. Thinking too much would not help. If Ye Yuan could not take him down, at the very most, everyone just fought to the death.

"Senior Mountain Shaker, are you ready? I'm attacking!" Ye Yuan purposely shouted.

"Attack then. Why would I need to prepare to deal with you?" Wang Fan scoffed.

"Hur hur, since that's the case, then I won't be courteous. Senior Mountain Shaker, please receive this move!"

Finished talking, Ye Yuan became solemn. Canghua Sword pointed at Wang Fan. The surrounding heaven and earth essence energy immediately produced a faint fluctuation!

Wang Fan was initially still relaxed with a laid-back appearance. Sensing this sort of situation, his heart involuntarily jolted.

"It's not so sinister, right? Why would there be heaven and earth essence energy undulations? Could it be this boy's sword move?" Wang Fan secretly pondered.

Sea Transformation Realm experts' were much more sensitive to heaven and earth essence energy ripples than those Crystal Formation Realms experts. That was why the other disciples had not reacted yet.

When the High Clarity Sect disciples saw Ye Yuan put on a stance but there was no movement at all, there was another wave of mockery.

"Is this guy a joke sent by monkeys? Putting on a false front to scare a Sea Transformation Realm expert?"

"Haha, Elder Wang is also very happy from playing. This mystic realm is so dangerous; relieving a little is good too."

"This fellow finally managed to win over the offensive and wasted it like this. Indeed, there are fools every year, but this year is especially plentiful!"

"All shut up for me! The few of you are the fools!" Yu Feng's heart also kept drumming. He seriously could not listen anymore; hence, he asked them to stop.

Those disciples could not help being befuddled. They could not figure out why Elder Yu looked like he was confronted by a powerful enemy.

But they understood very quickly!

The heaven and earth essence energy undulations became increasingly stronger, gradually forming countless motes of light in midair. They looked like flowers raining down from the skies!

Wang Fan stared until his eyes became wide saucers!

How could such a horrifying sword move appear on a Spirit Condensation Realm martial artist?

Also, why could a Spirit Condensation Realm martial artist mobilize heaven and earth essence energy? Wasn't this ability unique to Sea Transformation Realm experts?

Although this move did not finish forming yet, Wang Fan dared to confirm that once this move was completed, it could absolutely cause tremendous injury to him!

A Spirit Condensation Realm martial artists could hurt a Sea Transformation Realm martial artist. What kind of joke was this?

.....

In the hidden place, when Li-er and Yan-er saw this scene, their faces similarly changed drastically; the astoundment in their hearts could not be any greater!

Except, the reason for their astonishment was completely different from Wang Fan. Others could not see through the realm of this move from Ye Yuan, but Li-er and Yan-er could understand!

"Supreme true intent! Miss, is that . . . is that . . . supreme true intent?"

Yan-er cried out in shock first, then was somewhat uncertain towards the end.

How could something like supreme true intent appear on a Spirit Condensation Realm martial artist?

Li-er's beautiful eyes wandered, shock likewise written all over her face. She only sucked in a deep breath after a long while and replied Yan-er, "It's indeed the elementary form of supreme true intent! This sword move already took the form of power, showing that his comprehension towards supreme true intent has already taken not a small step! If Mister Ye and that person's cultivation realm was similar, no, as long as he has late-stage Crystal Formation strength, instantly killing that person is not an issue!"

There was an extremely huge gap between Crystal Formation Realm and Sea Transformation Realm. One could see how high Li-er's appraisal of Ye Yuan was.

"But, Mister Ye is only at the Crystal Formation Realm. How can he grasp supreme true intent?" Yan-er still felt that she did not dare quite believe it.

Li-er sighed and said, "I guessed that Mister Ye surely had some trump card, but I didn't think that his trump card was actually a supreme true intent! This trump card is too unexpected! Mister Ye, he . . . will definitely be a figure who shakes the Divine Realm in the future!"

In the era where Divine Dao dwindled to zero, supreme true intent was the paramount profound meaning!

The earlier one grasped supreme true intent, the more supreme true intents one could grasp. The greater the accomplishments of the martial artist as well.

But even among the Divine Realm's major factions, it was already pretty impressive for those peerless geniuses to be able to comprehend the elementary form of supreme true intent in the Sea Transformation Realm. It was unheard of for Spirit Condensation Realm martial artists to be able to comprehend the elementary form of supreme true intent!

.

The spots of light filling the skies caused everyone's hearts to palpitate, especially those from the High Clarity Sect.

They only knew now that they were the clowns!

Just this move was sufficient to instantly kill any one beneath Sea Transformation Realm!

"Azure Dipper Floating Zero Sword Art, Thousand Flowing Petals, attack!"

With a light cry from Ye Yuan, countless petals swept over towards Wang Fan.

How could Wang Fan bother with whatever conduct of an expert right now? The petals-filled skies sealed all of his escape routes shut. If he still did not make a move, it would at the very least be the outcome of heavily wounded.

10% strength? Screw his mother's 10% strength!

Wang Fan used his fingers as a sword, activating the High Clarity Imperial Reverence Law. He bellowed, "Five Lighting Dipper Law! Break for me!"

Only to see electric arcs pervading around Wang Fan. The aura belonging to a Sea Transformation Realm was exhibited beyond doubt!

When the floating petals touched those electric arcs, they vanished abruptly with any traces. It actually could not approach his body.

Wang Fan sneered and said, "Boy, you really have some capabilities! If your realm is similar to mine, this move is sufficient to instantly kill me. But sadly, I won't give you this chance!"

Ye Yuan's expression changed drastically when he saw the situation, and he rebuked furiously, "You deceitful person! You said that you would only use 10% strength in front of so many people earlier. Now, you actually reneged!"

Wang Fan roared with laughter and said, "Young man, you're too naïve! In the martial arts world, the victor becomes king and the loser a bandit. Only the victor can laugh to the very end! So . . . go and die! Five Lightning Dipper Law, go!"

Wang Fan tapped with his sword finger. An extremely horrifying flow of electric current directly tore through the air and attacked Ye Yuan.

But just when everyone thought that Ye Yuan was dead for sure, the wind and clouds suddenly changed!

It was originally a stretch of cloudless blue skies within the mystic realm. Presently, a stretch of dark clouds suddenly gathered on top of Wang Fan.

And that electric arc he fired out dissipated into nothing just like that halfway through!

Virtually in the same instant that the dark clouds amassed, an exceedingly terrifying pressure came from the skies. Even as a Sea Transformation Realm expert, Wang Fan felt asphyxiated too!

"W-What's going on? What happened? Why . . . Why did my attack vanish?"

Not knowingly why, a foreboding premonition suddenly birthed in Wang Fan's heart, resulting in him stammering even when talking.

By the side, when Yu Feng saw that bundle of dark clouds, his expression changed even more. "H-Heavenly tribulation? Why did heavenly tribulation appear? Sh*t! Senior Apprentice Brother Wang, quickly dodge!"

Ye Yuan looked at Wang Fan who was opposite and said with a slight smile, "Senior Mountain Shaker, goodbye! Ye Yuan won't be seeing you out!"

Chapter 305: Obliterated!

The pressure in the air became increasingly more powerful. Wang Fan's expression also became increasingly uglier.

That mass of dark clouds clearly came for him!

Especially when he saw Ye Yuan's derisive eyes, he spontaneously had a feeling of being played.

It was crystal clear that Ye Yuan surely knew something!

This damnable fellow, talking about whatever 1-on-1, but in reality, he was digging a pit for him to jump in.

Malicious motives!

"Damn it! What did you do, punk?" Wang Fan gnashed his teeth in hatred and said.

Ye Yuan spread his hands and said, "I didn't do anything, you're the one who did it."

At this moment, the sense of crisis in Wang Fan's heart became ever more intense. He looked at Ye Yuan as he said through gnashed teeth, "Who cares what you did; I'll kill you first then talk!"

As he spoke, Wang Fan's figure moved and arrived in front of Ye Yuan instantaneously!

The Five Lightning Dipper Law was already useless, then he might as well go closer.

Rumble!

A hint of ferociousness appeared on Wang Fan's face as he smashed Ye Yuan into meat paste.

"Haha! Asking for it! Now, can't jump around anymore, right?" Wang Fan laughed madly.

"En? What are you doing, Senior Mountain Shaker? If I were you, I'd better think of a way to extricate myself right now."

Over on Tranquil Cloud Sect's side, another Ye Yuan appeared. Turned out that that earlier was just an avatar body.

Wang Fan's face changed, and he said in a low voice, "Avatar body!"

But he no longer had time to be surprised. Right then, a coarse bolt of lightning suddenly released from the clouds, landing straight on Wang Fan's body.

Everybody was dumbstruck by this scene. That bolt of lightning directly submerged Wang Fan.

When the lightning disappeared, and they looked over again, Wang Fan had already turned into charcoal and became completely silent.

Wang Fan was actually unable to even give a tragic cry and was instantly wiped out like that!

After the lightning fell, that mass of dark clouds dispersed very swiftly, as if it had never appeared.

Yu Feng could not help shuddering when he saw this scene. This scene was really too astounding.

"This . . . What the hell happened here?" Yu Feng murmured.

He still had not figured out just where this heavenly tribulation came from until now.

Yu Feng's gaze involuntarily turned towards Ye Yuan. That brat seemed to know something.

Although Ye Yuan's Thousand Flowing Petals was strong, his realm was too low. It was simply impossible to threaten Wang Fan.

Recalling everything that happened previously, Yu Feng deeply felt that this so-called 1-on-1 just now was just a large pit trap!

"Ye Yuan, what did you do?" The eyes Yu Feng looked at Ye Yuan with were filled with fear.

Yes, a Sea Transformation Realm expert was actually afraid of a Spirit Condensation Realm martial artist!

This boy was seriously too abnormal!

Ye Yuan smiled and said, "Think about it yourself. I don't have any duty to explain to you. Now, are you still going to take revenge for that Senior Mountain Shaker?"

Yu Feng's expression changed, the fear in his eyes became even thicker.

He simply could not understand what just happened. This boy was so sinister. What if he also got targeted by heavenly tribulation?

In addition, with Wang Fan's death, their side's strength fell drastically and was instead no longer Tranquil Cloud Sect's match!

Take revenge for Wang Fan?

You got to be kidding!

Yu Feng ground his teeth and said to the disciples, "Let's go!"

Seeing the High Clarity Sect people off with their gazes, the Tranquil Cloud Sect group also heaved a sigh in relief.

Tian Yu pounded a fist on Ye Yuan's chest and said delightedly, "Heh, punk, didn't think you actually still had such a powerful killing move! If you used this move during the sect grand competition, even Senior Apprentice Brother Wujiu would not be your match! You're only at the Seventh Level Spirit Condensation Realm and can actually communicate with heaven and earth essence energy, truly too monstrous!"

As the saying went, no discord, no concord. After the sect grand competition last time where Tian Yu and Ye Yuan battled bitterly to the last trace of essence energy, they fought out a comradery.

It was just that Tian Yu could never have imagined that Ye Yuan actually still had such an incredible killing blow that he did not unleash.

He thought that that final blow from Ye Yuan back then was already his strongest attack.

Ye Yuan smiled and said, "This move is flashy without substance. Although its power is great, the time it needs is too much. Unless it's a specific environment, it can't be used. If I want to use this move on the platform during the grand competition, will you give me the chance?"

Tian Yu thought about it and nodded, saying, "Haha, that's true! But even that final attack of yours was already sufficiently powerful! I, Tian Yu, have always praised myself as a genius. But today, I'm utterly convinced by you!"

"To be able to comprehend the elementary form of true intent, Senior Apprentice Brother Tian Yu's future accomplishments are also limitless!"

"Oh right, what in the world happened earlier? That was . . . heavenly tribulation?" Tian Yu asked rather uncertainly.

With him asking, everybody perked up their ears. They also really wanted to know what happened just now.

A Sea Transformation Realm expert was instantly trounced in front of them. That sight was overly shocking.

Ye Yuan shook his head and said, "That wasn't heavenly tribulation but the electrical energy released by a grand array."

"What? Grand array?! You mean to say that we're currently inside a grand array?" Tian Yu exclaimed.

Ye Yuan nodded and said, "That's right! I noticed it right after entering the mystic realm. This mystic realm is sealed off by a massive grand array. This grand array is called the Heavenly Thunder Essence Locking Grand Array, a type of high-grade Tier 5 grand array! Its power is immense!"

Everybody sucked in a cold breath. High-grade Tier 5 grand array formations were even a level stronger than the Tranquil Cloud Sect's sect protecting grand array!

Mo Yuntian suddenly thought of something and asked, "You said to me before, the Tranquil Cloud Sect might become a team second only to the Heavenly Sky Sect. Could it be derived from this grand array?"

Ye Yuan nodded. He recounted the previous speculations for everyone, saying, "Originally, I was only guessing. But after entering the mystic realm, I already confirmed it. That's why I had no fear."

They were all unbelievably shocked when they heard it. Ye Yuan actually deduced so much information from a couple of words from Li Zhangyu. It was evident how scrupulous his thoughts were!

"What kind of grand array is this Heavenly Thunder Essence Locking Grand Array? What did Wang Fan do to trigger the grand array just now?" Tian Yu asked.

"The Heavenly Thunder Essence Locking Grand Array can set up a corresponding realm. As long as there exists strength that surpasses this realm's strength, it will be obliterated by the grand array! And now, the realm set by this grand array is . . . Crystal Formation Realm!" Ye Yuan explained.

Everybody could not resist shooting another glance at the super dead Wang Fan after listening to Ye Yuan's words.

The power of this grand array was too terrifying!

A Third Level Sea Transformation Realm expert was easily obliterated just like this.

"So you deliberately challenged Wang Fan just now and then forced him to use strength exceeding the Crystal Formation Realm, and from there, eradicated by the grand array?" Tian Yu marveled.

Such a foe was too terrifying. Ye Yuan practically included everything in his calculations, playing with a Sea Transformation Realm expert within the palm of his hands.

More importantly, Ye Yuan really forced Wang Fan to use all of his strength!

They could not help somewhat rejoicing that Ye Yuan was someone on their side.

Having such an opponent was simply a nightmare!

Chapter 306: Colluding

"Miss, this Mister Ye is too scary! To actually comprehend the elementary form of supreme true intent at the Seventh Level Spirit Condensation Realm! As long as he doesn't fall, he'll surely be a figure that shakes the Divine Realm in the future!"

This battle just now, Yan-er watched for a long time with her mouth agape. The astonishment on her face would not fade away.

Li-er was similarly shocked beyond words. She muttered, "Just who is he? Such talent, even in the Divine Realm, he'll be a pinnacle existence. Why did he end up in a tiny little Endless World?"

"Yeah! The Endless World is merely a very unremarkable one among the hundreds of millions of lower planes. Furthermore, how did Mister Ye comprehend supreme true intent in a Southern Domain's tiny sect? This is simply something that cannot possibly happen!"

Li-er smiled bitterly and said, "I daren't believe it too, but this is the truth! Moreover, Mister Ye's supreme true intent is rather powerful!"

"This Mister Ye is really an enigmatic existence!" Yan-er sighed with admiration.

"I didn't think that we'd actually bump into such a figure when we came to the Endless World! Yan-er, we're not going back anymore. I want to follow him to see what kind of secrets he has. If there's a possibility, let's form good relations with him. He'd be an extremely strong aid to the family clan in the future too!" Li-er seemed to have made some kind of resolution.

"But Miss, your ailment . . ."

Li-er waved her hands and said, "Doesn't matter! I have a feeling that maybe for this illness of mine to cured, it will ultimately still fall on Mister Ye's head."

Yan-er opened her mouth wide and said, "How is that possible? That's a Tier 8 pill formula! With Mister Ye's realm, how long until he can refine it?"

"Then how do you think Mister Ye acquired the Tier 8 pill formula with his age?" Li-er retorted.

"This . . . How would Yan-er know?"

"That's why. This Mister Ye's background is definitely complicated! Alright, enough talk, I've already decided!" Li-er said.

.....

With Wang Fan's death, the High Clarity Sect's strength was weakened severely.

Yu Feng was only a First Level Sea Transformation Realm. His strength was much weaker than Mei Zhen.

This entire journey here, the High Clarity Sect suffered heavy casualties and practically became a bottom-tier sect already.

With the various great sects heading further in, the dangers they faced would become increasingly more.

Progressing at this rate, the various great sects' Sea Transformation Realm experts who did not know the inside story would more or less suffer some losses.

In comparison, the Tranquil Cloud Sect's strength appeared stronger instead!

"This matter is done. We'd better hurry up and leave this place," Mei Zhen opened his mouth to say.

"Just a moment, Elder Mei. That Vermillion Lotus Iceheart Fruit is a Tier 4 medicinal herb; isn't abandoning it like this too much of pity?" Ye Yuan said.

Mei Zhen's eyes lit up, and he asked, "You have a way, Ye Yuan?"

Ye Yuan grinned and said, "Did Elder Mei forget? I have an avatar body!"

Mei Zhen slapped his head and said, "Look at my brain! Then I'll have to trouble you, Ye Yuan."

Ye Yuan smiled and nodded his head. His figure moved and suddenly split into two. Another Ye Yuan walked out from his body.

When he was plucking the Vermillion Lotus Iceheart Fruit, indeed, a tiny multi-colored gorgeous spider jumped on 'Ye Yuan's body.

This poison spider was obviously here to attack Ye Yuan. Only to hear a 'fwoosh,' that poison spider was instantly burnt and dropped on the ground.

It only struggled a few times and stopped moving.

That was the Tier 4 Cleansing Sandal Sacred Flame. Wasn't it courting death for the Seven-Colored Poison Spider to go and bite him?

Keeping the Vermillion Lotus Iceheart Fruit, the group continued walking towards the deep regions of the mystic realm.

After three days, Yu Feng and his team who fled with their tails between their legs were very cautious the entire way and no longer dared to have the slightest bit of carelessness, preserving some strength to the best of their abilities.

And Yu Feng also reflected a little at this time. When Wang Fan was confronting Ye Yuan, it seemed like his strength touched some taboo existence. That was why it triggered that 'heavenly tribulation'!

They had also experienced a number of minor and major fights along the way. Nothing seemed to have happened to the Crystal Formation Realm disciples, while Wang Fan only used Sea Transformation Realm strength that one time with Ye Yuan.

Could it be that this mystic realm did not permit the appearance of strength exceeding Crystal Formation Realm? Or else, it would trigger heavenly tribulation?

Thinking up to here, Yu Feng inadvertently became more cautious. Every time he attacked, he suppressed his realm to the Crystal Formation Realm.

"Elder Yu, over there seems to be Heavenly Sky Sect's people!" a disciple suddenly said.

"En?" Yu Feng looked over. Indeed, he saw the Heavenly Sky Sect group currently heading over here.

"Haha, turns out that it's High Clarity Sect's Elder Yu. I wonder how Elder Yu's gains are on this trip?" Wu Zhao greeted.

Yu Feng's expression did not look too good. But their present strength was too weak, so he obviously did not dare to put on any airs in front of the Heavenly Sky Sect.

He looked at the Heavenly Sky Sect again and discovered that the Heavenly Sky Sect's headcount did not drop by a single one. His complexion became even worse.

"Still alright, still alright. But compared to the Heavenly Sky Sect, it's definitely way worse." Yu Feng forced a smile.

"Hmm? Didn't Elder Wang lead the team in your High Clarity Sect? Where is he?" Wu Zhao feigned ignorance and asked.

They already had a taste of the Heavenly Thunder Essence Locking Grand Array, so they naturally knew its power. Wang Fan was currently missing. Most likely, he was smitten by lightning.

Seeing the High Clarity Sect again with heavy casualties, Wu Zhao was in a great mood.

The route these few days were within the Heavenly Sky Sect's grasp. They avoided some dangerous places and did not have serious losses.

But Wu Zhao also knew that the true danger was only starting now.

With Wu Zhao asking this, Yu Feng's face turned even uglier.

Yu Feng turned back to give the High Clarity Sect disciples a glance and suddenly made a decision. He gritted his teeth and cupped his hands towards Wu Zhao as he pled, "Elder Wu, my High Clarity Sect is willing to offer up our gains on this trip. We only implore Elder Wu to take revenge for my Senior Apprentice Brother Wang!"

Wu Zhao was stunned when he heard this. He didn't think that Yu Feng would actually say something like this.

It looks like there was more than meets the eye to Wang Fan's death!

Putting away his smile, Wu Zhao said, "Elder Yu needs not do this. What happened to Elder Wang, tell me."

Yu Feng gnashed his teeth hatefully and said, "It's all thanks to that stinky brat called Ye Yuan from the Tranquil Cloud Sect! As long as Elder Wu help us take revenge, my High Clarity Sect group is willing to listen to Elder Wu's orders within this mystic realm! Three days ago . . ."

Yu Feng recounted the incident three days ago to Wu Zhao in detail.

With Wang Fan's death, Yu Feng could not do much single-handedly. He seriously did not have much confidence in walking out of the mystic realm. Rather than that, why not take a gamble and place his bets on the Heavenly Sky Sect.

But Wu Zhao laughed when he heard this and said, "Is Elder Yu messing with me? He, Ye Yuan, is a Seventh Level Spirit Condensation Realm, and you said that he mobilized heaven and earth essence energy and forced Elder Wang to use Sea Transformation Realm strength?"

Yu Feng said anxiously, "Everything Yu Feng said earlier was the absolute truth! I swear in the name of Heavenly Dao, if there are any false statements, I'll get struck by lightning and die a horrible death!"

Only now did Wu Zhao reveal a grave expression. "But how is that possible? Forget about Spirit Condensation Realm, even Crystal Formation Realms cannot possibly maneuver heaven and earth essence energy!"

"I also don't know why he can mobilize heaven and earth essence energy, but I saw it with my own eyes! It's undeniable!" Yu Feng was dead certain.

"Hiss . . . If that's the case, this child indeed cannot be let alive! Fine, I promise you; as long as I meet the Tranquil Cloud Sect group, I'll help you eliminate that child!" Wu Zhao said ruthlessly.

Chapter 307: Bringing Disaster to the Fish in the Moat

After several days, seven to eight people walked out of a dense forest. Ahead was a large stretch of grass plain.

The few people's conditions were not very good. Many still had injuries on them. They had clearly just gone through a major battle.

This group of people was precisely the Tranquil Cloud Sect team.

"Elder Mei, that Tier 3 Nine Serene Ice Lion just now was rather powerful. We only barely managed to fight it to a draw after combining eight people's strength! Why are the Tier 3 demonic beasts' strength so high in this mystic realm?"

From Tian Yu's expression, one could see that he still had some lingering fear from that great battle earlier.

Mei Zhen said, "The mystic realm doesn't permit for existences above Tier 3. So these demonic beasts all suppressed their realms and not break through, putting all of their efforts on comprehending concepts. That's why while they may only be Tier 3 demonic beasts, in terms of concept comprehension, they are much stronger than even me!"

"Demonic beasts' talent in comprehending concepts cannot compare to humans, but their advantage lies in that their lifespan is long. Accumulating bit by bit also becomes pretty impressive," Ye Yuan added on.

In this mystic realm, there were surely many demonic beasts that attempted to break through to Tier 4 and were killed by the Heavenly Thunder Essence Locking Grand Array.

With things persisting that way, the demonic beasts naturally gave up on breaking through and placed all of their energy onto comprehending concepts.

"Looks like this mystic realm is filled with dangers everywhere. Nobody knows what we'll bump into in the future!" Tian Yu said rather worriedly.

"This mystic realm is not that simple. It will probably be even more dangerous towards the back. Everyone, be more careful," Mei Zhen said.

Ye Yuan did not speak, but in truth, he also had a forewarning.

Ye Yuan could skate around dangers related to natural treasures. But he was ultimately mortal and not a god. He had no way of grasping some unknown threats.

Not knowing why, Ye Yuan kept having a feeling that he was being monitored.

But no matter how he observed, he could not find any inkling of it. This sort of feeling like having a prickle on his back made him feel very uneasy.

"Hehe, I wonder if Junior Apprentice Brother Ye can break through to the Crystal Formation Realm inside this mystic realm. If he can break through to the Crystal Formation Realm, our Tranquil Cloud Sect's strength will soar dramatically!" Tian Yu suddenly said with a laugh.

"Yeah. Junior Apprentice Brother Ye's cultivation speed is too freakish. He had just broken through three realms in the sect grand competition. It's only been a dozen days or so, and he broke through again to the Eighth Level Spirit Condensation Realm!"

"If he can break through to the Crystal Formation Realm, with the suppression of realms inside this mystic realm, even if he confronted a Sea Transformation Realm expert, he would have no fear."

The essence energy inside this mystic realm was abundant. Ye Yuan originally reached the Seventh Level Spirit Condensation Realm bottleneck already. After a few days of fighting and absorbing essence energy, he finally took advantage of an opportunity yesterday and broke through to the Eighth Level Spirit Condensation Realm.

This was naturally good news to the Tranquil Cloud Sect group.

Ye Yuan's greatest shortfall was his realm. Once his realm could rise up, the Tranquil Cloud Sect would become much more confident.

They chatted and laughed and were just about to head into the deep regions of the grass plain when alarm bells started going off.

Their field of vision was suddenly filled with a dark mass as it surged over here.

"W-What's that?"

In a blink of an eye, that dark mass showed itself in front of everybody. The Tranquil Cloud Sect group finally made out what those were.

"Bloodthirsty Skywolf! It's Bloodthirsty Skywolf! My god, there are so many Bloodthirsty Skywolves!" Somebody cried out.

Mei Zhen evidently recognized them too as he said in a grave voice, "The Bloodthirsty Skywolf's personality is extremely savage. Once tangled with them, it will be to the death! Our headcount is too little, best to not face them head-on. Quickly withdraw!"

They were just about to turn around when they heard a holler, "Is that friends from the Tranquil Cloud Sect over there? I beg you all to lend us a hand! The Purple Mansion Sect will be indebted forever!"

"Ah!"

At virtually the same time, a disciple who lagged behind the Purple Mansion Sect was caught up by the wolf pack which chomped on his leg as he cried out miserably.

The wolf pack completely did not give him any chance to retaliate. Several more Bloodthirsty Skywolves bit down on his four limbs. He could not shake them off no matter how he tried.

In just a few short breaths of time, that Purple Mansion Sect disciple was torn into ribbons, alarming the Tranquil Cloud Sect group who was watching greatly.

The group only saw clearly now that turns out this group of Bloodthirsty Skywolves was tracking down the Purple Mansion Sect people over here.

Ye Yuan smiled bitterly and said, "Too late, can't leave anymore!"

The Tranquil Cloud Sect people were stunned. Only now did they discover that many Bloodthirsty Skywolves appeared all around from god knows where. They actually surrounded them!

And at this time, the Purple Mansion Sect disciples had already converged with the Tranquil Cloud Sect disciple. The two teams were encircled like prey by over a hundred Bloodthirsty Skywolves.

Mei Zhen shot a glare at the person who shouted out just now. If not for his yell, the wolf pack would not have completed the encirclement, and the Tranquil Cloud Sect disciples would not have gotten caught in danger.

The person who yelled out was a young man, Eighth Level Crystal Formation Realm cultivation, even higher than Mo Yuntian.

Seemingly detecting Mei Zhen's unfriendly eyes, he was fully apologetic as he said, "Elder Mei, this Junior is also at the end of my ropes; that's why I did that! My Purple Mansion Sect had over ten people, but now, there are only these four or five people left. Even Elder Xu also died under heavenly tribulation. As long as Elder Mei can rescue us, we'll definitely compensate you heavily! If we're fortunate enough to escape this mystic realm, Junior Lin Chao will definitely report truthfully to Sect Master. I believe that Sect Master will express gratitude to the Tranquil Cloud Sect!"

Mei Zhen's face was dark as he snorted coldly and said, "It already came to this, do we still have a way out? Eliminate these Bloodthirsty Skywolves first then talk!"

Lin Chao was overjoyed when he heard this. "Many thanks to Elder Mei for saving us! Junior is eternally grateful! But later on, when Elder Mei is attacking, you must not use Sea Transformation Realm strength. Otherwise, it will bring down heavenly tribulation!"

Mei Zhen nodded slightly and said, "Of course, I know that! Tranquil Cloud Sect disciple listen up! Set up the Eight Gates Gold Lock Formation. You all each guard one area. Take heed not to let the wolf pack break in. As for the Purple Mansion Sect people, you guys enter the formation first and rest a while, then come and assist us."

Mei Zhen could tell at a glance that these remaining disciples from the Purple Mansion Sect were already a spent force and was unable to sustain much longer.

Rather than letting them join the battle, might as well rest a while then join in.

The Eight Gates Gold Lock Formation was only an ordinary joint attack formation. Most great sect disciples knew it.

Although this formation's strength was not great, it was very practical in such a messy fight so as to not get taken down one by one by the wolf pack.

Of course, how long it could defend for was another question.

After all, these Bloodthirsty Skywolves were all at the early-stage Tier 3 realm!

A hundred early-stage Tier 3 Bloodthirsty Skywolves was absolutely a nightmare-like existence. Otherwise, these Purple Mansion Sect disciples would not have fled so miserably.

With Mei Zhen's command, the Tranquil Cloud Sect disciples each laid out the formation to welcome the enemy.

They also knew that this was an extremely dangerous juncture and must not be careless.

But Ye Yuan's attention was placed on that Lin Chao the entire time.

Though it was only a few words from start to finish, Ye Yuan could sense that he was a guy with extremely deep schemes.

From when the wolf pack showed up to now, it seemed very coincidental, but Ye Yuan had a feeling that this was all deliberately done with Lin Chao!

No other reason. Just because that yell earlier was too coincidental.

Chapter 308: Fierce Fight

The timing of that yell was grasped perfectly, making the Tranquil Cloud Sect lose the last chance to escape.

Of course, every man for himself. There was nothing wrong with Lin Chao purposely dragging the Tranquil Cloud Sect down into the water. But the reminder to Mei Zhen later on appeared too fake.

They had already entered the mystic realm for such a long time. The dangers that each sect faced was too many to count.

If Ye Yuan's conjectures were right, each sect's Sea Transformation Realm elder were pretty much all dead already.

There were most likely only the Heavenly Sky Sect and Tranquil Cloud Sect these two sects who were fully intact.

If it was just to stay alive, no harm in scheming a little. But Ye Yuan feared that this Lin Chao had malicious intentions.

Compared to demonic beasts, humans were unmistakably scarier.

The Purple Mansion Sect was the number two great sect in the Southern Domain, second only to the Heavenly Sky Sect. But they only sent one Sea Transformation Realm elder here this time. It more or less seemed somewhat odd.

To this end, Ye Yuan naturally paid attention to it.

The Bloodthirsty Skywolves did not immediately attack. They just surrounded everyone.

Eight people were trapped by a hundred Bloodthirsty Skywolves. This sort of pressure was too intense. Many Tranquil Cloud Sect disciples could not help feeling a little parched.

"Surrounding but not attacking. They are playing mental warfare! Hur hur, such clever demonic beasts!" Ye Yuan said calmly.

The Tranquil Cloud Sect group were shocked before recovering only now and could not help feeling deeply ashamed. Humans nearly falling for demonic beasts' strategy. Saying it out loud was overly humiliating.

Lin Chao who was presently meditating in the circle could not resist sizing up Ye Yuan while Ye Yuan's gaze also just happened to look over at this time. The pair smiled when their eyes met.

The two people's smiles both had deep meaning behind it.

Right then, the wolf pack automatically divided. A Bloodthirsty Skywolf that was fire-red from head to toe walked out of the wolf pack.

Everyone's pupils involuntarily constricted when they saw it.

That was the wolf king, Bloodthirsty Wolf King!

Peak Tier 3 existence!

Everyone believed that if not for the restrictions imposed by the Heavenly Thunder Essence Locking Grand Array, this wolf king would absolutely be a Tier 4 existence!

The Bloodthirsty Wolf King was awe-inspiring. The aura on his body was even stronger than Mei Zhen.

But he did not bother with the Tranquil Cloud Sect group. He just stared fixedly at Lin Chao with scorching eyes.

It was as if Lin Chao did not detect it at all. He was making the best use of his time as before to recover his strength.

But this scene was taken in by the Tranquil Cloud Sect people. An unusual thought involuntarily birthed in the minds of the disciples.

"Seniors, stop fantasizing. The Bloodthirsty Skywolves are naturally savage and will not let us go. Discuss the Purple Mansion Sect matters afterward. If we don't exert our utmost effort, we'll only end up in the wolves' mouths eventually!" Ye Yuan raised his voice and said.

Mo Yuntian and the rest only came around now and could not help being dumbstruck.

This wolf king was simply even more cunning than humans. Just one look and it caused a chink to form between the two great sects!

If there were no reminder from Ye Yuan, they would definitely have some misgivings during the battle. That look from the wolf king was clearly to make the Tranquil Cloud Sect disciples think that the wolf pack was just here for the Purple Mansion Sect and had nothing to do with the Tranquil Cloud Sect!

With this sort of psychological hint, would the Tranquil Cloud Sect disciples still defend the Purple Mansion Sect to the death?

The wolf king obviously heard Ye Yuan's voice too, his gaze landing on this young Spirit Condensation Realm martial artist with unkind eyes.

Both schemes were spoiled by this young man. This wolf clearly had become enraged too.

Seeing the wolf king's eyes, Mei Zhen secretly thought shit! He hurriedly said, "Leave the wolf king to me, each of you takes care of yourselves! You whelping from the Purple Mansion Sect, quickly take the time to recover your strength. If someone can't endure it on our side, immediately help out!"

Lin Chao nodded and said, "Rest assured, Elder Mei!"

The wolf king saw that there were no opportunities to take advantage of and also gave up on scheming. He gave a long howl.

This was apparently the signal for the wolf pack to attack!

After those Bloodthirsty Skywolves heard this howl, each one of them was like on stimulants as they charged towards the Tranquil Cloud Sect disciples without heed for their lives.

Mei Zhen wielded his sword but rushed to the wolf king first to fight him.

This wolf king was very sentient. He was worried about the wolf king retaliating Ye Yuan.

But even so, Ye Yuan's side was still being heavily taken care of by ordinary Bloodthirsty Skywolves!

It was very obvious that the wolf king had issued an order to kill Ye Yuan first!

Actually, at this time, the Tranquil Cloud Sect peoples' conditions were not too good. They had just fought a great battle with the Nine Serene Ice Lion not long before, and some disciples were still wounded.

But the Tranquil Cloud Sect fought with greater numbers previously. Everyone's losses were not great.

Lin Chao mediated to recover essence energy while secretly observing these Tranquil Cloud Sect disciples' strength.

Although Tian Yu's realm was the lowest inside, he had comprehended the elementary form of true intent. After breaking through to the Crystal Formation Realm, his combat power was tremendous. One person handling seven to eight Bloodthirsty Skywolves was not an issue.

Ti Wujiu was Third Level Crystal Formation Realm, but his fist intent realm was similarly very high!

Only to see him throw fist after fist solidly. Those Bloodthirsty Skywolves were actually unable to approach him!

As a Seventh Level Crystal Formation Realm expert, Mo Yuntian's strength barred no questions.

Rather, it was the other few Crystal Formation Realm martial artists who appeared to be struggling.

His gaze finally stopped on Ye Yuan, and his expression involuntarily choked up.

Although he guessed that Ye Yuan definitely had abilities surpassing others to enter the mystic realm with Spirit Condensation Realm strength, he could not have imagined that Ye Yuan was actually so strong!

There were over a dozen Bloodthirsty Skywolves surrounding Ye Yuan alone, but he relied on one sword to slaughter his way in and out as he liked. Those dozen over Bloodthirsty Skywolves were unable to do anything to him.

After a dozen over exchanges, Ye Yuan was perfectly fine, but quite a few of those Bloodthirsty Skywolves were wounded!

These were Tier 3 demonic beasts!

Each one of them was existences like human Crystal Formation Realm martial artists!

An Eighth Level Spirit Condensation Realm brat could actually treat it like there was nobody in this place under these demonic beasts' combined attacks!

If one were to say that an Eighth Level Spirit Condensation Realm crossed ranks to battle one or two Tier 3 demonic beasts, that was still passable. But being surrounded by over a dozen demonic beasts, that was absolutely a quantitative to qualitative change; pressure changed abruptly!

Furthermore, a Bloodthirsty Skywolf's speed was abnormally fast. Ordinary martial artists were simply unable to keep up. But Ye Yuan actually twisted and turned around inside effortlessly!

When did such a monstrous existence appear in the Tranquil Cloud Sect?

That Bloodthirsty Wolf King was in the midst of an intense battle with Mei Zhen. But when he detected the situation over on Ye Yuan's side, he howled again.

This time, even more Bloodthirsty Skywolves surged towards Ye Yuan's side!

With this, the pressure over at Ye Yuan's seniors' side inadvertently lessened.

While on Ye Yuan's side, the number of Bloodthirsty Skywolves increased to over twenty all at once!

"Be careful, Ye Yuan!" Mo Yuntian could not help being worried when he saw the situation.

He was fenced in by two middle-stage Bloodthirsty Skywolves and several early-stage Bloodthirsty Skywolves over here and could not extricate himself at all.

Ti Wujiu's and Tian Yu's sides were the same. Though the Bloodthirsty Skywolves could not do anything to them, they were helpless against the Bloodthirsty Skywolves too.

And Ye Yuan's side was already completely flooded with Bloodthirsty Skywolves!

When Mei Zhen saw this state of affairs, his forehead was full of sweat from anxiety, and he yelled at Lin Chao, "Lin Chao, how long do you want to wait to make a move?!"

Chapter 309: Trouble!

The Bloodthirsty Wolf King's combat strength was extraordinarily powerful. Mei Zhen was suppressed at peak Ninth Level Crystal Formation Realm to battle it but was facing dangers everywhere!

With this holler, he nearly let the wolf king grasp an opportunity to catch him with its claws.

Bu Lin Chao smiled calmly and said, "Don't get anxious, Elder Mei; this junior isn't at the end of his ropes yet."

"Lin Chao, you!"

Mei Zhen was nearly infuriated until he coughed blood. He did not manage to avoid the wolf king's metal claw this time, and his arm took a hit. Blood started flowing instantly.

Mei Zhen clenched his jaws and really wanted to erupt with Sea Transformation Realm strength. But the warning left behind by Wang Fan was still vivid in his mind. Sea Transformation Realm strength simply could not be used!

With this confusion, Mei Zhen was immediately suppressed by the wolf king and fell in a disadvantageous position in all aspects.

Although this Bloodthirsty Wolf King's strength could not compare to that Nine Serene Ice Lion from before, it was still slightly stronger than Mei Zhen who suppressed at the Crystal Formation Realm.

Right then, Ye Yuan who was engulfed by the wolf pack suddenly exploded with multiple rays of pale yellow light!

Swoosh! Swoosh!

The sound of a series of sword beams piercing the skin spread out. Then, a number of Bloodthirsty Skywolves went flying out. The wolf pack's siege crumbled all at once.

"Ye Yuan! It's great that you're okay!" Mo Yuntian was elatedly seeing the situation.

Ye Yuan called out, "Elder Mei and Senior Apprentice Brother do not need to worry about me. I have no problems protecting myself."

While talking, Ye Yuan released several more sword beams again. A number of Bloodthirsty Skywolves were speared flying again.

The eruption on Ye Yuan's side finally stirred the Tranquil Cloud Sect disciples' fighting spirit. Each one of them released their combat strength to the fullest and actually suppressed a hundred Bloodthirsty Skywolves with only eight people's strength!

For a period of time, only whimperings and whinings were heard everywhere. Many Bloodthirsty Skywolves were injured.

But the Bloodthirsty Skywolf had two notable characteristics. One was high speed and the second was coarse skin and thick flesh.

Although many Bloodthirsty Skywolves were injured over here, barely any truly died.

"Haha, everyone, double up! These Bloodthirsty Skywolves are nothing more than this!"

"Yeah! Just a bunch of animals! Let's kill them! So many Tier 3 demonic wolf inner cores! We're going to be rich this time!"

"Buck up, little wolves! I, Your Little Lord, haven't fought to my heart's content yet!"

Due to Ye Yuan keeping in check quite a number of Bloodthirsty Skywolves alone, this bout of fighting was exceptionally carefree.

Seeing as the combat strength of those Bloodthirsty Skywolves were becoming weaker and weaker, everybody's mood eased up quite a bit.

Right then, that wolf king howled again!

"Haha, still howling?! It's useless even if you howl again! After we take care of your offspring, we'll pummel you together!" Senior Apprentice Brother Pang derided the wolf king with a loud laugh.

But Ye Yuan's face darkened as he said in a grave voice, "Seniors, be careful! These Bloodthirsty Skywolves are going to go into a frenzy! Bloodthirsty Skywolves will have a tremendous increase in speed after entering a frenzy! Don't drop your guard, seniors!"

Ye Yuan's voice had yet to fade when the eyes of these Bloodthirsty Skywolves suddenly turned scarlet red, looking utterly terrifying.

Following that, those injured Bloodthirsty Skywolves' wounds were recovering at a speed visible to the naked eye.

Those wolves had drool dribbling from their mouths looking extremely voracious as if they could shred anything into pieces!

Only a Bloodthirsty Skywolf in such a state could be fit to bear the word 'Bloodthirsty.'

Ye Yuan's eyebrows furrowed, and he muttered to himself, "Now it's troublesome!"

Senior Apprentice Brother Pang who was still guffawing earlier was thoroughly mute now. He stared at those Bloodthirsty Skywolves in a frenzied state blankly and could not resist swallowing hard.

Those Bloodthirsty Skywolves had already stopped their attacks. Currently, the entire grass plain was dead quiet, leaving only the Bloodthirsty Skywolves' panting.

This was the quiet before the storm. Everyone held their breaths because they knew that the next round of attacks from the Bloodthirsty Skywolves would be even fiercer than before.

Moreover, after that last round of melee, the Tranquil Cloud Sect disciples' expenditure was also very great.

But the Bloodthirsty Skywolves' current state was like they were resuscitated with full vitality, filled with aggressiveness.

The Bloodthirsty Skywolf gave another long howl. The hundred Bloodthirsty Skywolves burst forth abruptly, like a hundred bolts of lightning charging towards the eight people.

That speed was beyond twice as fast as before!

Swoosh! Swoosh! Swoosh!

The Bloodthirsty Skywolves' figures only left behind a series of blurry shadows.

Clank! Clank! Clank.

Immediately after were waves of metal clashing sounds.

After one wave of attack, everybody felt the pressure soar. Two disciples even suffered injuries to their bodies, including that Senior Apprentice Brother Pan.

With a fierce bout of fighting, many Tranquil Cloud Sect disciples were already injured. Now, it could be said to be piling injuries on top of injuries.

The scales of victory immediately tipped towards the Bloodthirsty Skywolves' side after this frenzied transformation.

After the frenzied transformation, the combat strength of ordinary Bloodthirsty Skywolves virtually surged twofold!

Adding up a hundred Bloodthirsty Skywolves, this sort of increment would be extremely substantial.

For a moment, the Tranquil Cloud Sect disciples were unable to cope with the situation. There were some people who were unable to hold on very soon.

Rather, it was Ye Yuan with the lowest realm who still appeared to be doing it with ease presently by relying on the support from the transmission true intent to increase his speed after displaying Spirit Void Shattering Space.

"Lin Chao, still not rushing up to support yet?!" Ye Yuan roared.

The Tranquil Cloud Sect disciples had already fought for quite a bit of time for the few people from the Purple Mansion Sect. Their strength was roughly recovered 50% - 60%.

Especially Lin Chao this Eighth Level Crystal Formation Realm. Him participating in the battle would be a tremendous support to the Tranquil Cloud Sect's side.

Lin Chao saw that he could not hide from this. So he could only stand up and call for his fellow martial brothers and said, "Juniors, the Tranquil Cloud Sect seniors and juniors have already strived for a lot of time for us. Now, let's switch with them!"

If the Tranquil Cloud Sect disciples recalled the formation, the wolf pack would attack indiscriminately. At that time, it would also be hard for them to escape.

They could clearly only go all out if they want to preserve their lives at this time.

"Senior Apprentice Brother Pang and Senior Apprentice Brother Du, you guys retreat inside the circle first to recover. Lin Chao, you bring a person forward to support first!" Ye Yuan said anxiously.

"Okay!" Lin Chao did not say anything else and filled in the void left behind by Senior Apprentice Brother Du.

But right at this moment, an abnormality suddenly occurred!

When Senior Apprentice Brother Pang was just about to withdraw, a middle-stage Tier 3 Bloodthirsty Skywolf bit down on his arm!

"AHH!"

A heartrending scream sounded, chilling the hearts of everyone who heard it.

This whole trip, there had yet to be any Tranquil Cloud Sect disciple who met with an accident under Ye Yuan's lead. So everyone was not mentally prepared too.

Now, seeing Senior Apprentice Brother Pang falling into danger, they involuntarily panicked.

Luckily, those Purple Mansion Sect disciples knew what to do. They rushed up to block the other wolfs.

But after that Bloodthirsty Skywolf bit Senior Apprentice Brother Pang's arm, it was like it went berserk and would not loosen its jaws no matter what.

Only to hear a ripping sound. That Bloodthirsty Skywolf directly tore off Senior Apprentice Brother Pang's entire arm.

"AHH!"

Senior Apprentice Brother Pang cried out again miserably, blood pouring out of his broken arm area!

"Wannian!"

"Senior Apprentice Brother Pang!"

That tragic cry immediately roused the hearts of all of the Tranquil Cloud Sect disciples.

"You bunch of damn beasts! I'll exterminate all of you!" Mo Yuntian howled, his entire body's aura erupting suddenly.

Ti Wujiu did not say a word, but his fist wind also abruptly became violent. One could see the fury in his heart right now.

And the same as him was Tian Yu.

And Ye Yuan.

Chapter 310: One Glance!

Ye Yuan appeared very calm on the surface, and his actions did not seem to have any major changes.

But those familiar with him knew that Ye Yuan's rage at this moment was getting greater and greater, just like that time when Lu-er was hurt!

Before this mystic realm exploration, Ye Yuan and Pang Wannian were not acquainted. But during this half a month, everyone helped each other through hurdles and made deep friendships.

Although Pang Wannian was somewhat reckless when things cropped up, he had no airs and could click with everyone.

The reason why Ye Yuan put himself in the limelight the entire trip was in order to bring everyone back. But he did not think that such an incident would happen!

He casually fished out a medicinal pill and threw it to Senior Apprentice Brother Du who withdrew said while dealing with the wolf pack, "Quickly feed Senior Apprentice Brother Pang!"

Senior Apprentice Brother Du was called Du Cheng, an elite disciple, same as Pang Wannian.

They were both at the Third Level Crystal Formation Realm, but in terms of true combat strength, the two of them were ranked at the bottom.

Even the First Level Crystal Formation Realm Tian Yu's combat strength was much stronger than theirs. So the first ones to pull back were them.

Du Cheng did not hesitate much and directly stuffed the medicinal pill into Pang Wannian's mouth.

When the medicinal pill entered his stomach, Du Cheng discovered that Pang Wannian's injuries were recovering at a speed visible to the naked eye!

It was even faster than the recovery speed of those Bloodthirsty Skywolves!

And Pang Wannian's complexion became a little rosier before long.

Du Cheng was unbelievably dumbfounded in his heart. What medicinal pill is this, to actually have such effects?!

Du Cheng was very clear on what effects the sect's Tier 3 medicinal pills had.

Comparing to this pill from Ye Yuan, it was simply trash!

Recalling again to the detoxification pills that Ye Yuan took out, the effects were similarly much better than the sect ones.

Could these medicinal pills all be refined by Ye Yuan himself? But he was only at the Spirit Condensation Realm!

For a while, Du Cheng's mind ran wild.

Right at this time, he heard a splat, interrupting his thoughts.

That sound came from over Ye Yuan's side!

Du Cheng looked over towards Ye Yuan's side and saw a headless wolf corpse lying on the ground, while Ye Yuan had already put away Canghua Sword since god knows when.

Right then, another wolf dashed towards Ye Yuan with extreme speed.

Only to see Ye Yuan dodge slightly and lightly tap a finger on the wolf's head.

Without any unnecessary actions, that Bloodthirsty Skywolf scurried back.

The next instant, Du Cheng's pupils constricted!

When that Bloodthirsty Skywolf landed on the ground, its head exploded with a bang.

Another headless wolf corpse!

Following that, he saw Ye Yuan's profile shuttling back and forth within the wolf pack like a ghost, landing finger after finger on the Bloodthirsty Skywolves' heads.

Each finger Ye Yuan unleashed, a Bloodthirsty Skywolf would fall.

In a blink of an eye, there were already over a dozen Bloodthirsty Skywolves that died in Ye Yuan's hands!

At this moment, it was as if Ye Yuan had become the incarnation of a god that descended upon the world. His might was without equal!

Originally, those frenzied Bloodthirsty Skywolves did not fear death and were completely unaware of what being frightened was.

But now, those Bloodthirsty Skywolves actually took the initiative to back away from the areas that Ye Yuan passed through!

They were scared!

But this sort of avoidance was futile. The areas that Ye Yuan passed through would surely leave behind one or two Bloodthirsty Skywolf carcasses.

"En? What's going on?"

Mo Yuntian suddenly felt the pressure around him lighten. Initially, the frenzied Bloodthirsty Skywolves that were everywhere pressured him until he felt suffocated. But now, it suddenly lessened by quite a bit.

There were Ti Wujiu and Tian Yu who also had the same feeling. They all noticed that the Bloodthirsty Skywolves seemed to be afraid of something.

Now that their pressure reduced right now, they had spare energy to observe the other areas.

It was alright if they did not look. But one look and they jumped in fright.

The areas that Ye Yuan passed through left behind wolf carcasses everywhere!

The Eight Gates Gold Lock Formation had already automatically dissolved following Ye Yuan's departure.

And each of Ye Yuan's steps was heading over in the Bloodthirsty Wolf King's direction!

Those Bloodthirsty Skywolves no longer dared to go forward to provoke Ye Yuan anymore. But even so, their companions still died one after another.

The Bloodthirsty Wolf King had already forced Mei Zhen into a desperate situation over on this side. Mei Zhen was covered in injuries right now, looking rather ghastly.

Right then, the Bloodthirsty Wolf King seemed to have detected a thick animosity, and its movements also became sluggish.

Seeing Ye Yuan who was walking towards it composedly, the Bloodthirsty Wolf King's pupils shrunk. Forcing Mei Zhen back with one claw, it turned towards the direction where Ye Yuan was currently approaching him in.

As Ye Yuan walked, he slaughtered the wolf king's progenies.

The originally wild and fearless Bloodthirsty Skywolves were like paper paste in Ye Yuan's hands!

The Bloodthirsty Wolf King's eyes became blood-red when it saw its clansmen being massacred. An incomparably powerful aura surged towards Ye Yuan.

But Ye Yuan continued walking step by step towards it as if he could not feel it.

The Wolf King actually had yet to enter the frenzied state from battling Mei Zhen until now!

Mei Zhen was very fretful seeing the situation and shouted loudly, "Ye Yuan, quickly move aside! The Wolf King is entering frenzied state!"

But it was like Ye Yuan did not hear it. He moved closer and closer to the Wolf King.

Everybody's hearts leaped to their throats. The Wolf King's aura was too horrendous.

The Wolf King without entering frenzied state could force Mei Zhen until he did not have the strength to retaliate. His strength after the frenzy transformation was totally not what the people present could withstand!

But just as Ye Yuan was around ten steps from the Wolf King, a scene that nobody dared to believe occurred.

That Bloodthirsty Wolf King actually took a step back!

Ye Yuan casually finished off a Bloodthirsty Skywolves and took another step forward.

The Wolf King backed up another step again!

The Wolf King was actually afraid!

Ye Yuan currently had a composed look without joy nor sorrow, looking just like a person who was harmless to humans and animals.

But the incomparably powerful Wolf King was actually fearful of him!

Ye Yuan advanced. The Wolf King retreated again!

The Wolf King's eyes stared fixedly at Ye Yuan. Even humans could see the fury within it. But he just did not dare to attack,

Ye Yuan advanced. The Wolf King retreated once more!

This time, Ye Yuan did not move. He just met eyes with the Wolf King like this, his expression calm and collected.

The Wolf King only faced off with Ye Yuan for several breaths of time. Finally, it could not endure it and let out a long howl, then turned around and ran.

With the Wolf King's departure, the remaining Bloodthirsty Skywolves naturally would not stay on anymore. They left the Tranquil Cloud Sect disciples behind and also fled.

In a twinkle of an eye, the Bloodthirsty Skywolves that originally had powerful auras vanished to the ends of the grass plains.

The Purple Mansion Sect disciples looked at the corpse-strewn ground and looked at Ye Yuan again, their eyes showing fear.

This person clearly only had Spirit Condensation Realm cultivation, but even the Bloodthirsty Wolf King did not dare to clash with him!

He forced the Bloodthirsty Wolf King back with one glance!

Such a battle result was too inconceivable!

"Ye Yuan, you're really amazing! How did you do it?" Tian Yu asked Ye Yuan excitedly.

But Ye Yuan did not reply him.

Mo Yuntian suddenly noticed that something was not quite right. He walked up and patted Ye Yuan's shoulder, asking, "You alright, Ye Yuan?"

But what he did not expect was that Ye Yuan fell stiffly backward just like that.

Mo Yuntian was alarmed and hurriedly went to support Ye Yuan.
