Chapter 331: Underground Sudden Change!

Ye Yuan's divine sense fell into a trace briefly but recovered swiftly.

He was secretly alarmed and quickly inspected his own sea of consciousness and could not help being taken aback.

That black bead was currently suspended within his sea of consciousness quietly!

And those golden characters were revolving around the black bead, appearing very serene.

What kind of situation was this?

Ye Yuan was dumbfounded for a moment. He had never encountered such a bizarre incident.

What the hell was this black bead, to actually arouse the golden characters' covetous eyes?

It was very clear that the golden characters forcefully snatched away the black bead from his hands just now.

Looking at it now, this black bead was more than just special; it was simply a heaven-defying object!

But when Ye Yuan checked his body over, he did not discover any sort of changes. He could not help heaving a sigh of relief but was also somewhat faintly disappointed.

If this bead were really some heaven-defying item, it would be good to bring some changes to his body!

Letting out a long sigh, Ye Yuan brought White Light and exited the room.

Different from the other people searching blindly, Ye Yuan had White Light's help. Everything he found was top tier treasures.

After two hours, apart from the Square Cauldron, Ye Yuan's spatial spirit artifact gained many more things: large quantities of spirit medicine, over 20 sets of spirit artifacts, magic artifacts, as well as large quantities of essence crystals!

All of a sudden, Ye Yuan felt like he became an overnight millionaire.

White Light brought him to an herb storehouse. Inside the herb storehouse were spirit medicines of every rank. Just the Tier 4 medicinal herbs were over a dozen.

But the most peculiar thing was that this second level actually had no danger whatsoever. Everybody returned to the gathering place perfectly all right, as if this second level was a place especially for people to seek treasures.

Ye Yuan casually summoned the things in the storage ring. Only two or three spirit artifact and some medicinal herbs that he had no use of.

When Wu Zhao saw the things Ye Yuan found, his face could not help showing an odd expression. "Martial Nephew Ye Yuan only found these?"

Ye Yuan sighed helplessly and said, "Yes. Luck wasn't very good. I didn't find anything good. The way I see it, there probably isn't anything good here. Otherwise, there wouldn't be no danger at all here."

Wu Zhao was actually very dejected too. The best thing he found was that 32 restrictions spirit artifact. He even showed off in front of Ye Yuan.

But this did not seem quite right no matter how one looked at it!

This mysterious sect was plainly very powerful. A 32 restrictions spirit artifact should not be the best, right?

Thinking up to here, Wu Zhao could not resist observing the Restrictions Compass secretly. But there was no reaction at all.

That also meant that Ye Yuan did not cheat. It was really quite abnormal.

He obviously did not know that the good stuff here were all lying inside Ye Yuan's spatial spirit artifact quietly!

Tallying up the final count, two 64 restrictions spirit artifacts and seven 32 restrictions spirit artifacts showed up.

As for 8 restrictions and 16 restrictions, there was naturally plenty.

Apart from this, the most that everyone found was still cultivation methods and martial techniques!

Of course, that was because Ye Yuan did not take fancy to them . . .

These were mostly Tier 3 or 4 cultivation methods and martial techniques. They were simply pretty useless to Ye Yuan.

The final thing was the issue of distribution. The Heavenly Sky Sect and Tranquil Cloud Sect two sects possessed the greatest right to speak!

After a round of intense discussion, the two 64 restrictions spirit artifact were split evenly by the two sects. As for the 32 restrictions spirit artifacts, four to the Heavenly Sky Sect, and three to the Tranquil Cloud Sect!

Additionally, the Heavenly Sky Sect compensate the Tranquil Cloud Sect four pieces of 16 restrictions spirit artifact. Among that included the Restrictions Compass.

This was fought for by Ye Yuan.

This Restrictions Compass was rather interesting. It seemed to be able to replicate inhibition array formations. This made Ye Yuan rather interested.

As for the other spirit artifacts, there were divided up by the other six great sects.

The Heavenly Sky Sect turned their noses up on these low-rank spirit artifacts, while the Tranquil Cloud Sect was also considered to have gained enormous benefits. They obviously would not haggle over this either.

Those cultivation methods and martial techniques, the Eight Great Sects followed the ratio discussed beforehand. The Tranquil Cloud Sect also got to pick several Tier 4 cultivation methods and martial techniques.

So far, the Tranquil Cloud Sect could be said to be the greatest winner this mystic realm trip!

They did not lose a single man, but obtained the most natural treasures and riches!

Looking at the Heavenly Sky Sect, on the other hand, the line-up sent out this time was the strongest, but presently, only a mere ten people were left.

Although the three elders were all here, after they were extorted a sum by Ye Yuan, their gains probably did not even match the Tranquil Cloud Sect.

Everything was distributed properly. A new problem appeared in front of everyone: where was the entrance to the third level?

There were still around 30 people left among the eight sects. But these people all said that they did not see the entrance to the third level after returning!

Now that things came to this, everyone each had their own judgment in their hearts. This Eternal Splendor Palace should be a sect possessing Tier 5 experts at its prime!

But the things found by the eight sects now were basically all Tier 4 and below Tier 4.

Then . . . where did the Tier 5 articles go?

This was the key point!

To the Southern Domain's Eight Great Sects, Tier 5 was absolutely an enormous temptation!

If they obtained a Tier 5 cultivation method, their sect's strength would surely have a qualitative leap!

One had to know that the Heavenly Sky Sect's strongest expert at present was only at the Third Level Soul Sea Realm.

"Martial Nephew Ye, I wonder if you have any way of entering the third level?" Wu Zhao was also at a loss as to what to do and could only ask Ye Yuan.

But Ye Yuan was also clueless at the moment and shook his head and said, "No idea. Or perhaps, there isn't a third level at all."

Wu Zhao said, "How is that possible? Tier 5 experts clearly existed in this Eternal Splendor Palace. And since we entered the mystic realm until now, all we saw were Tier 4 stuff. What about Tier 5 items then?"

Ye Yuan smiled and said, "What's surprising about that? The Eternal Splendor Palace had clearly suffered a severe blow. Or maybe the Tier 5 items were plundered away by their foes."

In truth, Ye Yuan was just saying. Even he himself did not believe it either.

The first level and second level items were preserved very completely. That at least showed that this great hall did not suffer heavy losses. Then, the third level definitely existed.

Except . . . where on earth was the entrance to the third level?

Evidently, all the rooms in the second level were searched through by everyone, and they did not find any obvious entrance.

Right at this moment, Ye Yuan's heart suddenly gave birth to a hint of ominous premonition, as if there was some danger currently approaching!

But when he surveyed his surroundings, he did not find anything dangerous.

Ye Yuan could not help recalling the contents of that jade slip fragment, could it be . . .

But just as Ye Yuan was pondering, rumbling sounds suddenly came from beneath his feet!

The entire Eternal Splendor Palace trembled at this very instant as if an earthquake was happening!

Many people lost their footing and fell to the ground.

"Ouch! What is it? What happened?"

"Such a violent earthquake, the mystic realm isn't collapsing, right?"

"Touchwood! You crow's beak! Saying anymore and Your Father will shred your mouth!"

For a moment, the eight sect's disciples fell into a disorderly mess.

Deep beneath the earth, a light flashed, and several silhouettes appeared.

These people's looks were very rugged. Their attire was vastly different from Ye Yuan's company!

"Hahaha! It's been several thousand years! Our Fierce Gale World finally descended upon the Endless World again!" A bushy-bearded burly fellow laughed wildly.

Chapter 332: Fierce Gale World Survivors!

"Fierce Gale World survivor, Lin Chao, pays respect to Your Excellency!"

After that bushy-bearded burly man burst into wild laughter, a person came forward to salute. It was precisely Lin Chao!

And how was the present Lin Chao some Crystal Formation Realm martial artist? He was shockingly already a Sea Transformation Realm expert!

Turned out that when he was traveling together with the Tranquil Cloud Sect, he had been concealing his strength all along. Even Ye Yuan surprisingly did not perceive it!

That bushy-bearded burly man shot Lin Chao a glance and said in a booming voice, "Was this Six Extreme Seals Grand Array broken by you?"

Lin Chao replied respectfully, "Yes! Us survivors have been lying low in this Endless World's Southern Domain for thousands of years and finally found the way to crack the formation and the location of the seal! Today, the fortune of cracking the formation is truly my Purple Mansion Sect disciples' several thousand years' long-cherished wish!"

The bushy-bearded burly man chortled with laughter and said, "Hahaha! Also considered that you guys have the heart! Back then, leaving you all in the Endless World was the divine stroke of the previous generation's Wind Emperor! To think that it finally bore fruit today! You're called Lin Chao, right? Good, I've remembered you. I'll report your contributions to the higher-ups!"

Lin Chao was overjoyed as he said, "Lin Chao dare not claim credit for himself! My Purple Mansion Sect all swallowed humiliation and shouldered heavy burdens to reside in the Southern Domain land just for today!"

The bushy-bearded burly man nodded and said, "Alright, you don't need to say anymore. I know well in my heart! Your strength is decent. It's just that such an appearance completely became this Endless World's wuss-like look!"

Lin Chao smiled and said, "Didn't our Fierce Gale World want to enter the Endless World in order to become like this?"

The bushy-bearded burly man was stunned, but then he laughed loudly and said, "Haha, what you said is correct! Oh, right, I'm called Lan Bao. These three are my clansman, Lan Hu, Lan Feng, Lan Yun."

Lin Chao clasped his hands and said with a salute, "I've seen the three lords!"

Lan Bao waved his hands and said, "No need to be so formal. Your strength is equal to theirs. Just address each other as brothers will do! This Six Extreme Seals Grand Array is unbelievably powerful. Although you broke the formation's base from this side, only Sea Transformation Realms can pass through right now. I've already informed the higher-ups. They will send people over very soon to continue cracking the grand array. Wanting to completely link the two worlds will probably still need half a year to a year's time! During this period, we have to guard this passageway well."

Lin Chao nodded and said, "What Big Brother Lan said is right! Actually, the Six Extreme Seals Grand Array is within a mystic realm in the Endless World's Southern Domain. I snuck inside the team exploring the mystic realm and came together this time."

As he spoke, Lin Chao briefly summarized the situation after entering the mystic realm to Lan Bao.

Lan Bao was completely indifferent when he heard it and said, "Turns out it's a bunch of Crystal Formation Realm little bastards. The few of us is enough! Brother Lin Chao, exterminate them together with the four of us brothers!"

Lin Chao said respectfully, "Yes!"

.....

After a long while, the rocking Eternal Splendor Palace finally quietened down. But it was already in a big mess.

The Eternal Splendor Palace had clearly been reinforced with array formations before. Although the swaying was extremely intense, it was not damaged at all.

"This . . . What on earth happened? Why did it shake so violently just now?" Wu Zhao's words were directed at Ye Yuan.

Ye Yuan shook his head, but suddenly thought of something and his expression involuntarily changed drastically!

His figure moved and came to a Purple Mansion Sect disciple's side. Grabbing his collar, he asked, "Quickly say! Where is Lin Chao?"

That Purple Mansion Sect disciple was first taken aback. Following that, he also had a sudden realization and said, "S-Senior Apprentice Brother Lin? Ah! Y-Yes, where is Senior Apprentice Brother Lin? When did Senior Apprentice Brother Lin disappear?"

Ye Yuan clenched his teeth and threw that Purple Mansion Sect disciple onto the ground.

He had been eyeing that disciple's eyes the entire time. If he lied, it definitely could not escape his eyes. That Purple Mansion Sect disciple also did not know when Lin Chao disappeared or what he went to do.

This was even stranger. The things that Lin Chao was going to do, even his fellow sect members were actually unaware!

No wonder the first time he laid eyes on Lin Chao, he had a very strange feeling. Seemed like this fellow had a problem from the start!

When Wu Zhao saw Ye Yuan lose his composure like so, he was also greatly startled. He came forward and asked, "Martial Nephew Ye, what happened? Who is this Lin Chao?"

With Wu Zhao's status, he obviously would not pay attention to a Crystal Formation Realm martial artist.

Lin Chao's disappearance made Ye Yuan's heart give rise to an intense uneasiness. He had a feeling that the earthquake earlier definitely had a link to Lin Chao!

What in the world did he do?

Ye Yuan briefly described Lin Chao's identity. In truth, he also did not know who on earth Lin Chao was.

Looking at it now, Lin Chao most likely had some undisclosable identity. And his goal of entering the mystic realm was different from his group of people!

When Wu Zhao heard Ye Yuan's words, he also could not figure it out and was somewhat uncertain.

"We'd better leave this place quickly. I keep feeling like something is about to happen." At this time, Wu Zhao clearly also sensed trouble.

Ye Yuan let out a sigh and said, "Already too late. I'm afraid that our exit is already blocked off!"

His words had yet to fade, only to see a flash of light. Five silhouettes appeared in front of everybody.

When the eight sects' disciples saw these five people, they all felt an intensely oppressive feeling. The visual shock that Lan Bao and his three brothers' wild form gave everyone was too strong!

When Wu Zhao saw Lan Bao, his eyes involuntarily became intent!

"Fifth Level Sea Transformation Realm!" Wu Zhao sucked in a cold breath.

A Fifth Level Sea Transformation Realm expert was simply not somebody that they could contend with!

One Lan Bao could take care of all of them!

But Ye Yuan's gaze stopped on Lin Chao's body and similarly felt a wave of inconceivability!

Turns out, presently, that the Eighth Level Crystal Formation Realm Lin Chao was actually already Third Level Sea Transformation Realm!

Lan Bao's group of five. One Fifth Level Sea Transformation Realm and four Third Level Sea Transformation Realm!

How were they going to fight?

Seeing such a line-up, everyone revealed despairing looks.

"Brother Lin Chao, are these people the Endless World people that explored the mystic realm together with you?" Lan Bao asked as if there was nobody else present.

Lin Chao nodded and said, "That's right! A hundred of us came on this trip. The majority of the Sea Transformation Realm elders have already been smitten down by the Heavenly Thunder Essence Locking Grand Array. Only these people are left."

Lan Bao said with a disdainful face, "A bunch of ant-like existences! Are the Endless World's people all this weak?"

Lin Chao smiled and said, "How can the Endless World's natives be our Fierce Gale World's match? Back then, if not for the Grand Yan True Sect sacrificing the entire sect's strength to seal the realm passageway, the Endless World would have been our Fierce Gale World's long ago. How could they have the opportunity to wander these several thousand years freely?"

Lan Bao guffawed when he heard that and said, "Hahaha! What Brother Lin said is right! But before long, the Endless World will be ours!"

At this time, a Purple Mansion Sect disciple asked weakly, "Lin . . . Are you Senior Apprentice Brother Lin? Y-You said something about Fierce Gale World just now? What is happening here?"

Lin Chao looked at him and said with a smile, "You probably don't know yet, right? Our Purple Mansion Sect's upper echelons are all Fierce Gale World survivors! Our mission for staying in the Endless World is to open up the two world's passageway to welcome the Wind Emperor's arrival! Junior Apprentice Brother Wang, you and I are fellow sect apprentices. If you pledge allegiance to my Fierce Gale World now, I can give you a way out."

[Unrivaled Medicine God](#)

Chapter 333: Battling Lin Chao!

Junior Apprentice Brother Wang clearly did not know what Fierce Gale World was. But even if he was any dumber, he also knew that Lin Chao was not an Endless World native currently!

Hearing Lin Chao's words, Junior Apprentice Brother Wang's face involuntarily became the color of dirt. For a moment, he did not know what he should do.

But at the moment, Lin Chao's gaze landed on Ye Yuan.

"Junior Apprentice Brother Ye, we meet again! This entire way, I'm really indebted to Junior Apprentice Brother Ye's care!" Lin Chao said with a smile.

Everything that was happening right now seriously far exceeded Ye Yuan's expectations.

Even if Ye Yuan calculated everything, it was also impossible to predict such a drastic change.

During this trip, the greatest adversary from start to finish was the Heavenly Sky Sect. Ye Yuan's focus would naturally be placed on Wu Zhao.

Ye Yuan obviously would not think that an Eighth Level Crystal Formation Realm could stir up such a large storm, let alone think that this mystic realm trip would actually involve the dispute between two worlds!

At this very moment, Ye Yuan finally understood what the contents of that jade slip fragment meant!

'Invasion' did not point to a powerful opponent in the Endless World, but the invasion of the Fierce Gale World!

In his previous life, Ji Qingyun was born in the Divine Realm and grew up in the Divine Realm. Most of what he knew about the Lower Realms were understood from records.

There were countless lower planes. Some worlds did not intersect with other worlds, while there were worlds with a realm passageway to other worlds.

Once this passageway opened up, the two worlds would frequently have a fierce battle!

There were even realms that would have a large-scale war erupt every few hundred years if things continued this way!

Living in such a world was unfortunate. Because they did not know when they would die.

The origin of this sort of war was normally to plunder resources. But later on, it would become a mortal feud.

Very clearly, the Fierce Gale World attempted to invade the Endless World several thousand years ago, but the passageway was sealed by the Endless World.

And now, this seal was broken by Lin Chao!

The passageway opening up again could mean that the Endless World would be plunged into an abyss of suffering from now on!

Ye Yuan's current expression was not too good either. Lin Chao suffered quite a loss at his hands. Looking at it now, seemed like he was enduring it patiently. His goal was in order to infiltrate the Eternal Splendor Palace!

Right now, Lin Chao had already completed his mission and even displayed his true strength. Using one's toes to think and one would also know that he wanted to regain face.

In truth, Ye Yuan knew that not a single person here could escape. It was just that Lin Chao was probably going to place heavy emphasis on him, right?

If it was Lin Chao alone, then things could be settled. But that bushy-bearded burly man was simply not who Ye Yuan could presently match, even if he possessed 18 sword puppets currently.

At this time, Ye Yuan was already spinning the gears in his head at full speed to think of a strategy to escape. He quietly entered Heart Like Still Water State.

Under Heart Like Still Water State, his thoughts would become even calmer and more acute!

Ye Yuan had no way of making himself maintain the Heart Like Still Water State all the way. That would exhaust too much mental strength.

But with the passing of time, Ye Yuan's cultivation in heart realm already advanced further.

The time he spent in Heart Like Still Water State now was already far longer compared to during the Dan Wu Academy's time.

"Senior Apprentice Brother Lin concealed so deeply. If Senior Apprentice Brother Lin displayed your cultivation sooner, I also wouldn't dare to show off my inadequacy in front of you. However . . ." Talking up to here, Ye Yuan's gaze became sharp. "Since you concealed your cultivation back then, then Senior Apprentice Brother Pang's score, I've noted it down!"

Looking at it now, back then when Lin Chao lured the wolf pack over, it was clearly because he did not wish to expose his strength in front of his fellow sect members.

No matter what objective Lin Chao wanted to achieve, since it was intentional and it harmed people close to him, then this was completely a different case!

Lin Chao's scheming was deep. Presently, their side had the absolute overwhelming strength. Why would he take to heart Ye Yuan's threat?

"Hur hur, what a coincidence. I also came to find Junior Apprentice Brother Ye to settle scores," Lin Chao said with a chuckle.

Ye Yuan suddenly thought of something and put away his cold expression, changing into a smile and said, "Oh, right, I nearly forgot. Looks like Senior Apprentice Brother Lin wants to take back the soul jade on me."

But these words from Ye Yuan were said to Lan Bao.

"Mm? Soul jade!"

Lan Bao had clearly also heard of the name soul jade before. Hearing Ye Yuan mention it currently, he could not help showing a curious look.

But Lin Chao was secretly alarmed and wished that he could tear Ye Yuan into pieces immediately.

This move from Ye Yuan was too ruthless!

To Sea Transformation Realm martial artists, soul jades were essentially an irresistible temptation!

Even if Lan Bao did not know the function of soul jades, Ye Yuan would likely say it out too.

This was a blatantly open plot, an undisguised sowing of dissension!

But Lin Chao was also somebody with an exceedingly sharp mind. The expression on his face did not change at all as he said to Lan Bao unperturbedly, "Prior to this, I was fortunate enough to acquire some soul jades. But along the way, the greater part of it was extorted by this brat! I was just planning on killing this brat to retrieve the soul jades to offer up to Big Brother Lan Bao!"

Although Lan Bao's strength was powerful, in terms of mind games, he clearly could not compare with Lin Chao. He involuntarily nodded and said, "Then what are you waiting for? Leaving such a priceless treasure like soul jade on a Spirit Condensation Realm brat's body, isn't that a waste of God's good gift? Quickly kill him and be done with it!"

This Lan Bao evidently had a violent and tyrannical personality. He could not even be bothered to waste any breath on these people.

Lin Chao sniggered coldly and looked at Ye Yuan. Third Level Sea Transformation Realm aura was suddenly released as he attacked Ye Yuan!

But what awaited him were sword puppets!

18 sword puppets appeared abruptly. Lin Chao instantly fell into the Lesser Nine Revolutions Interlocking Formation.

Lin Chao was frightened by this scene at first and thought that Ye Yuan unleashed some mighty move. After he saw that these sword puppets only had late-stage Crystal Formation Realm strength, he involuntarily sneered coldly and said, "Paltry tricks!"

But he discovered very soon that he was too naïve!

These dense sword shadows forced him until he simply did not have the strength to counterattack!

Lan Bao's aura locked onto Wu Zhao, Mei Zhen, and Elder Zhu, these three people the whole time. As long as the three of them dared to move, he would give a thunderbolt-like attack,

In Lan Bao's opinion, Lin Chao, a Third Level Sea Transformation Realm, dealing with an Eighth Level Spirit Condensation Realm was definitely gave an instant kill as the conclusion.

Who knew that Lin Chao was actually blocked by a bunch of late-stage Crystal Formation Realm puppets?

"Did Brother Lin Chao stay too long in the Endless World and your combat strength fell until you can't even beat a group of Crystal Formation Realm puppets?" Lan Bao said with slight displeasure.

Fierce Gale World martial artists all revered their own personal strength and completely did not understand profound things like array formations. Hence, he totally could not see through the actual situation with these sword puppets.

Lin Chao was crying bitterness in his heart. There was simply no way of talking reason with this boorish fellow!

Even a fool could tell that these puppets were extraordinary. Are you poking fun at me?

"Big Brother Lan Bao, these puppets are controlled by Ye Yuan using an abstruse array formation. It's very powerful! I . . . I can't handle it alone!" Lin Chao said while dealing with the sword puppets.

Although he really did not wish to admit it, he truly could not take down these sword puppets within a short period of time!

Even if this was not Ye Yuan's true combat strength, Lin Chao still felt very disgraced to ask Lan Bao for help.

He originally even thought about showing a good performance. Who knew that he lifted up a stone to smash his own feet!

Unrivalled Medicine God

Chapter 334: Forcefully Withstanding Four Mighty Sea

Lan Bao's impression of Lin Chao was originally pretty good. After all, to the Fierce Gale World, he performed an outstanding service.

But now, Lan Bao's disdain towards Lin Chao came from the bottom of his heart!

The Fierce Gale World's martial era was extremely prosperous. Martial artists all had extremely strong faith in their own combat strength.

Lin Chao, a Sea Transformation Realm, actually asked him for help to deal with a Spirit Condensation Realm!

The way Lan Bao saw it, Lin Chao had stayed too long in the Endless World and already lost the pride that a Fierce Gale World martial artist should have!

But Lan Bao also knew the severity of the matter and said to Lan Yun at the side, "Lan Yun, you go and test out what amazing aspects these lousy puppets have!"

Lan Yun nodded and said, "Yes, Big Brother!"

Mei Zhen saw these boorish men going to join the fight, and in a panic, he wanted to make a move.

Lan Bao snorted coldly and said, "Whoever dares to move will be the first to die!"

The words were brief, but the deterrent was impactful!

That powerful aura from Lan Bao crushed the three people until they were completely out of breath.

Mei Zhen also knew that once this Lan Bao attacked, it would surely be earth-shattering! He would certainly not be a match!

But Ye Yuan was fighting two alone now. Could it be that he had to fold his arms and look on just like that?

For a moment, Mei Zhen's inner heart incomparably anguished.

Lending a hand, he most likely would not even have the chance to make a move. Not lifting a finger, this ridge in his heart could not be cleared no matter what.

"Calm down, Elder Mei. I can still hang on," Just then, Ye Yuan's voice transmission arrived.

Not knowing why, hearing Ye Yuan's words, Mei Zhen's anxious mood immediately calmed down.

Lan Yun's aura was the weakest among the four people, only the likes of early-stage Third Level Sea Transformation Realm.

He came in front of the formation and released his aura. The faces of the eight sect's people all changed!

"This . . . Is this really the aura released by a Third Level Sea Transformation Realm?" Zhao Yuyang exclaimed in shock.

Elder Zhu's face was solemn as he said, "I feel that . . . I'm not his match! This person called Lan Yun is definitely someone who is a veteran in battle! His true combat strength is extremely strong!"

Seeing this scene, Mei Zhen's heart that had just calmed down surged great waves again.

Lan Yun did not hesitate, charging into the formation directly.

Lan Yun's aura billowed, a set of fist technique struck until it was impermeable.

For a moment, clanking sounds could be heard without end. Lan Yun actually forcefully clashed with those myriad sword shadows with a pair of iron fists!

When experts made their move, the genuine and the fake would become clear at a glance!

This Lan Yun's strength was truly powerful to the extreme!

Wu Zhao and Mei Zhen had all fallen into the Lesser Nine Revolutions Interlocking Formation before and was deeply aware of the prowess of this set of array formations. Just those sword shadows that might come out of nowhere at any time was enough to drive people insane.

But this Lan Yun could react right away no matter which direction the longsword came from in the array formation and perform an accurate response!

This was completely the instinct of fighting!

Lan Yun's actions totally did not need to be processed through his head, and his fist would arrive already!

Such formidable fighting instinct made everyone draw a cold breath.

Even Wu Zhao was also measuring himself with Lan Yun's strength. His realm was that tiny bit higher than Lan Yun. But if they really faced-off, he might not be able to gain an advantage!

Nobody noticed that among these Endless World folks, there was someone looking at Lan Yun inside the array formation with sparkling eyes as if he was absorbed in thought.

Lan Yun's fist art had an extremely strong personal style. Although he had not formed true intent yet, he was already not far from it.

Ti Wujiu's eyes were fixated dead at Lan Yun's fists. A hint of comprehension was gradually born in his heart!

"This . . . This Lan Yun is so strong! Ye Yuan . . . Can he hold on while fighting two alone?" Tian Yu could not help worrying.

"No idea. But at present . . . I'm also at my wit's end," Mei Zhen said with a bitter smile.

"Ye Yuan, you definitely have to hang on! You must stay strong!" Tian Yu gritted his teeth and said.

Ever since his divine soul reached the perfection of Alchemy Master, although Ye Yuan's soul force did not increase much, his endurance soared tremendously.

Presently, facing the two Third Level Sea Transformation Realms within the array formation, while it was somewhat taxing on Ye Yuan, it was still far from his limits.

Lan Yun's strength also amazed Ye Yuan quite a bit. But this fellow was clearly a moron who knew nothing about array formations.

After he entered the array formation, he was of completely no help at all to Lin Chao. The two of them were fighting their own battles.

If Lan Yun understood array formations slightly and joined hands with Lin Chao to break the formation, the pressure on Ye Yuan would immediately be much greater.

Facing the Lesser Nine Revolutions Interlocking Formation, there was basically only breaking the formation using strength this sole path.

Though there were two people inside the array formation now, they were fighting separately and were unable to focus their attacks. The threat to Ye Yuan naturally also reduced quite a bit.

But at this time, Lan Bao finally perceived that something was not quite right.

He was very clear about Lan Yun's combat strength. While his strength among the four brothers was the weakest, facing these few guys opposite should not pose an issue.

But even so, after Lan Yun entered the puppet formation, he actually did not even stir up a single wave!

In a twinkling of an eye, dozens of moves had passed, but the puppets were still as stable as Mount Tai!

That Eighth Level Spirit Condensation Realm brat actually did not show the slightest hint of being defeated!

Lan Bao's face fell. He said to Lan Hu and Lan Feng, "You two go as well! I don't believe that a puny little Eighth Level Spirit Condensation Realm can overturn the heavens!"

Once Lan Bao's words came out, Mei Zhen and the rest were greatly startled.

"You people! You're too shameless! Four Sea Transformation Realms fighting a Spirit Condensation Realm, do you guys still have shame?" Mei Zhen said in a great rage.

Lan Bao grinned and said, "What? Are you very unresigned?"

Mei Zhen gritted his teeth and said, "So what if I'm unresigned?"

Lan Bao turned to Lan Hu and Lan Feng and signaled with his eyes to make them attack faster.

Mei Zhen was very anxious and wanted to stop them. Suddenly, there was a blur in front of his eyes which involuntarily gave him a great shock. He hurriedly retreated!

But that figure was even faster than him!

"Too slow!" Lan Bao's words sounded beside Mei Zhen's ears like a nightmare. Then, he did not know anything anymore.

Lan Bao lightly tapped Mei Zhen's body. Mei Zhen's vision went dark, and he collapsed gently on the ground.

"ELDER MEI!"

"Elder Mei!"

.....

When the Tranquil Cloud Sect disciples saw that Mei Zhen was subdued by Lan Bao in one move, they could not help being terrified; their faces turned pale as they all cried out in alarm.

Lan Bao grinned and said, "Relax, he isn't dead yet. You all don't move. If you move again, my temper isn't going to be so good anymore."

Mo Yuntian and the rest felt indignant but did not dare to speak out. Lan Bao was seriously too powerful!

When Mei Zhen saw that scene earlier, he felt he was about to suffocate. It was true that he was stronger than Mei Zhen, but it was not possible to be way more powerful.

Since Lan Bao could defeat Mei Zhen in a single move, dealing with him naturally would not take too much work either!

Although the Fifth Level Sea Transformation Realm was much stronger than the Third Level Sea Transformation Realm, it was not to such an extent that Mei Zhen did not even have the chance to retaliate, right?

Could all these Fierce Gale World martial artists be this strong?

At this moment, Wu Zhao and the rest revealed thick fear in their eyes and could not give rise to any hint of resisting in their hearts anymore.

When Lan Bao saw such a situation, he was very pleased. The effect he wanted was achieved.

And right then, Lan Hu and Lan Feng, these two Third Level Sea Transformation Realm experts had also already joined in the fight!

[Unrivaled Medicine God](#)

Chapter 335: Unmatched Scheming!

"Miss, quickly make a move! If it continues like this, Mister Ye won't be able to hold out much longer!"

Yan-er watched Ye Yuan battle four Sea Transformation Realm powerhouses with his own strength and could not help becoming very anxious.

But Li-er shook her head and said, "Mister Ye should have his own plans. We'd better not make a move rashly. Otherwise, he will be unhappy."

"But there's still a Fifth Level Sea Transformation Realm glaring with hostility. It's not possible for Ye Yuan to be lucky this time, right?" Yan-er asked.

"That might not be so. Let's watch first then say. Just a measly little Fifth Level Sea Transformation Realm. He can't stir much of a wave. If he really can't, it won't be too late for us to make a move then," Li-er said.

Lan Bao was obviously unaware that the mantis stalks the cicada, being unaware of the oriole behind. But his present expression was not too good either.

After Lan Hu and Lan Feng, the two of them, entered the battlefield, they still could not break the stalemate!

An Eighth Level Spirit Condensation Realm brat actually fought to a draw with four Third Level Sea Transformation Realm by controlling a group of late-stage Crystal Formation Realm puppets.

What kind of joke was this?!

If the Endless World were all as strong as this boy, then what the heck did the Fierce Gale World still had to fight for?!

At this time, Lan Bao obviously would not really be dumb enough to think that Lin Chao's strength was lacking.

This brat was bizarre!

Having been through these few rounds of great battles, Ye Yuan's operation of the Lesser Nine Revolutions Interlocking Formation also became even more proficient.

When Ye Yuan himself was inside the array formation, the sword puppets were just lifeless objects which would not modify the array formation according to the opponent's variation.

But now that Ye Yuan was manipulating the array formation, it was completely different.

Lin Chao still had slight knowledge in array formations, but the Lan Clan three brothers were completely ignorant.

Hence, Ye Yuan mobilized the sword puppets to separate Lin Chao and the three of them completely and not let them have any chance to converge.

As long as they could not come together, they would not be able to cause lethal damage to the sword puppets. The array formation would also naturally not be broken so easily.

In a twinkle, another hundred over rounds passed. But Ye Yuan still had yet to show the slightest hint of being overpowered. The people from the Endless World who were watching had shock written all over their faces!

"The Tranquil Cloud Sect really picked up a treasure, to actually groom such a monstrous youth! If Ye Yuan doesn't die, the rise of the Tranquil Cloud Sect will be in the near future!"

"Yeah! If I didn't witness it with my own eyes, I simply dare not believe that this is real! He's only at the Spirit Condensation Realm. After he reaches Crystal Formation Realm or Sea Transformation Realm, how horrifying would he become?"

"What rise is there? No eggs can remain unbroken if the nest is overturned. This Fierce Gale World is going to attack soon. The sect masters are most likely still unaware of this matter! Furthermore, will Ye Yuan be lucky today? Sigh . . . It's too bad for this unparalleled genius!" another person said.

"This . . ."

That person involuntarily shot a glance at Lan Bao; the despair in his heart welled up once again.

This man was extremely powerful until it made people unable to give rise to the thought of resisting.

And at the moment, Lan Bao's eyes were staring at Ye Yuan like a cheetah. That unconcerned and leisurely feel was already gone!

Ye Yuan's heaven-defying performance finally made Lan Bao take him seriously.

A peerless genius like this, once he let him mature, there would be countless Fierce Gale World martial artists who would die in his hands!

Therefore . . .

Lan Bao's figure moved, vanishing instantly from where he stood!

When he appeared again in the next instant, he already arrived beside Ye Yuan!

Everyone watched this scene in terror. Especially the Tranquil Cloud Sect disciples. Their eyes unwittingly revealed despair!

"Ye Yuan!"

"Careful, Ye Yuan!" the Tranquil Cloud Sect disciples cried out.

But their cries were not as fast as Lan Bao's action. That deadly palm of his had already landed like lightning.

Everything . . . seemed to have become a foregone conclusion!

"Ah! No!" Yan-er covered her eyes in pain and could not bear to look at this scene.

But Li-er's pretty eyes flickered by the side. She still did not have any intention of making a move.

An ugly sneer flashed across the corner of Lan Bao's mouth. This sort of thing like destroying geniuses made people feel the greatest satisfaction. Especially a monstrous unrivaled genius like this!

Clang!

A dull colliding sound undulated out across the second level, vibrating everybody's eardrums until it hurt.

Under everyone's disbelieving eyes, Ye Yuan's figure flew out like a cannonball!

And in his arms, he was hugging a large square cauldron!

Ye Yuan did not die!

Facing imminent danger, Ye Yuan actually released the Square Cauldron and defended against Lan Bao's certain-kill palm move.

At the same time, Ye Yuan even put away all of the sword puppets inside his storage ring!

Very clearly, he had calculated that scene earlier long ago. Hence, he was ready long ago!

Keeping the sword puppets and pulling out the Square Cauldrons were actions done in just a blink of an eye.

Therefore, Ye Yuan escaped this calamity!

Wu Zhao watched this scene dumbfoundedly and dare not believe that this was real. Even he could not quite follow Lan Bao's actions earlier. Ye Yuan actually carried out a perfect defense!

"Goodbye! Don't bother to see me out!"

In midair, Ye Yuan's voice sounded out leisurely.

Ye Yuan's inverted flight speed was extremely quick. But he was evidently well-prepared. Putting away the Square Cauldron in midair, just as he was about to collide into a wall, he lightly tapped with the tip of his feet and turned toward a passageway. His figure disappeared!

Lan Bao did not chase after right away. He placed his palm behind his back.

If there were people standing behind him right now, they would notice that his palm was currently trembling faintly!

Very clearly, he himself also suffered a tremendously powerful recoil from that palm just now!

"Tier 5 Profound Artifact!" Lan Bao clenched his teeth and enunciated each word.

His face was currently livid with rage. It was apparent that he still could not quite accept the truth. A Spirit Condensation Realm brat actually escaped from his hands!

"Big Brother, what now?" Lan Hu asked.

"Take care of these people first! The passageways here are all sealed off by us. He can't escape!" Lan Bao said.

"Yes!"

Hearing Lan Bao's words, the people from the eight sects all turned ashen.

Lan Bao came in front of everybody and said in a solemn voice, "I'm very angry right now. So . . . all of you have to die!"

"Hold your horses!" Lin Chao suddenly said.

Lan Bao frowned and said, "What?"

"Big Brother Lan Bao, weren't you planning to turn into them slaves and send them to the Fierce Gale World previously? In my opinion, it's best not to kill them. Ye Yuan that brat is extremely cunning. These are all his fellow disciples. Just in case we can't find Ye Yuan, we can use them to force Ye Yuan to show himself!" Lin Chao said.

Lan Bao pondered for a moment and nodded his head as he said, "What you said makes sense. Do as you say then!"

Although it was just a brief single exchange, Lan Bao could deeply sense Ye Yuan's boldness and cautiousness.

But when Mo Yuntian heard that, his face spontaneously became ashen. That bit of joy from Ye Yuan escaping instantly vanished into thin air!

"Want to take us as hostages? Dream on!"

Mo Yuntian cried out and was about to commit suicide.

But Lan Bao said coldly, "Want to die? Have you asked me?"

He just casually tapped, but was even faster than Mo Yuntian's own actions!

Then, Mo Yuntian collapsed softly like Mei Zhen.

"Lin Chao, seal off their dantians and escort them back to the Fierce Gale World!" Lan Bao said coldly.

Following that, he came in front of Wu Zhao and the rest again, saying, "It's your turn now. You people can choose to die, or . . . become slaves!"

Chapter 336: To Catch a Turtle in a Jar!

Actually, the instant Lan Bao and company appeared, Ye Yuan was already racking his brains on how to escape.

After he saw Lan Bao's strength, he knew that wanting to bring everyone away was already something impossible.

Ye Yuan was not a foolish person, being fully aware that he was outmatched. If he went on, it would be a certain death.

That was not bravery, but stupidity!

Staying behind to die together with Mei Zhen and the rest was the most stupid choice.

Furthermore . . . if even he was sent inside too, then it would really be hopeless.

As long as he, Ye Yuan, did not die, there would always be a chance to rescue everybody.

Hence, from that time, Ye Yuan already made preparations to escape alone.

Ye Yuan had made the decision long ago. If Mei Zhen, Mo Yuntian, or the rest suffered anything untoward, he would definitely bury the entire Fierce Gale World with them someday!

This might perhaps be as hard as ascending to the heaven to others, but to Ye Yuan, it was not far off.

Ye Yuan did not say any threatening words before leaving because him threatening at this time was overly feeble. Other than infuriating Lan Bao, it served no other use.

Ye Yuan scuttled along. The entire second level's rooms and passageways appeared clearly inside his mind.

There was only one exit in the second level. Then where was his path to survival?

There was only one life-road, which was the third level!

From the beginning, Ye Yuan had never thought about leaving through the exit on the first level!

After Lan Bao came up, Ye Yuan quietly entered Heart Like Still Water Realm. He wanted to find the third level's entrance!

Hence, Ye Yuan recalled the entire process of seeking treasure in the second level desperately. Finally, he discovered a clue!

The second level had many big and small rooms. Naturally, there were also big and small aisles.

When Ye Yuan mapped out all the roads he walked through in his mind clearly, he unwittingly came to a sudden realization!

The setup of the second level was essentially an array formation!

This array formation was not some entrapping formation or killing formation, but it was an array formation setup in order to conceal the third level's entrance!

Starting from the entrance, if one did not know array formations, no matter where the person walked, he would never find the third level's entrance.

Want to find the entrance leading to the third level? The only way was to cracked this array formation in order to find the correct route!

Thinking this through, Ye Yuan also could not help sighing emotionally at the ingenious mind of the person who designed this Eternal Splendor Palace.

And this Eternal Splendor Palace was a legacy that Lu Linfeng left behind. Using this sort of method to conceal the third level's entrance also matched with the theme.

It was just that there was no obstruction whatsoever entering the second level. Everybody entering the array formation was also equivalent to placing themselves inside the game.

As the saying went, those closely involved could not see clearly. That was not said for fun.

It was an exceedingly difficult matter for a person inside the game to want to see through the puzzle.

Even for a Tier 9 array master like Ye Yuan, when he did not enter Heart Like Still Water realm, he was also completely clueless.

Or maybe, the designer of this Eternal Splendor Palace was Lu Linfeng himself!

Starting from then, Ye Yuan started to plan his escape!

Ye Yuan did not run away immediately. Because he simply could not escape. Lan Bao's movement techniques were definitely much quicker than him.

Provoking Lin Chao to confront him, then luring the other three to attack, but the final goal was to bait Lan Bao to come and attack him!

This was Ye Yuan's method to force himself to his wit's end, leaving no room for escape so that he would fight out of desperation and win. It was also a solution that was not a solution.

When Lan Bao attacked, Ye Yuan was still inside Heart Like Still Water heart realm and could barely keep up with his movements.

Hence, he released the Square Cauldron to forcefully withstand Lan Bao strike and to borrow the recoil strength of this blow from him to escape swiftly!

The Square Cauldron was a profound artifact. Even if Lan Bao's attack was stronger, it would also be hard to shake it in the slightest.

Even the escape route was also planned out by Ye Yuan long ago. That strike from Lan Bao did not deviate, sending Ye Yuan exactly to his planned route leading to the entrance of the third level!

And because of the backlash, it would definitely hinder Lan Bao's speed of pursuit. In addition, he was wary of Wu Zhao and the rest and might not choose to chase after right away!

All of this and everything was all within Ye Yuan's calculations!

He succeeded!

Ye Yuan's movements were extremely swift. He mustered up all the essence energy within his body and did not dare to rest at all. He was afraid of Lan Bao and co chasing after.

With his present strength, he was completely not Lan Bao's match.

"Soon, almost there! Still a bit more left!"

Ye Yuan tasted sweetness in his throat. A mouthful of blood surged to his chest but was forcefully suppressed by him.

Lan Bao palm was no joke. That palm shocked his own hands until it went numb. One could imagine just how great the power was!

Even if there was the Square Cauldron blocking in the middle neutralizing much of the force, that impact force still caused severe injuries to Ye Yuan!

In truth, when he received that palm, Ye Yuan's internal organs already suffered serious wounds. His viscera felt terrible as they had shifted positions.

But Ye Yuan had no time to be in pain. He had to escape at the first moment. Therefore, he forcefully persevere all the way until now!

The current Ye Yuan was relying completely on his last trace of willpower to forcefully hang on.

However, mustering essence energy with full force aggravated Ye Yuan's injuries even further. His consciousness had already become increasingly blurry.

Ye Yuan already cracked the array formation in his mind previously and figured out the route. But walking toward it at this time felt so distant away.

He did not have the opportunity to retry once more nor the time to fall unconscious. He must find the entrance to enter the third level!

Finally, Ye Yuan saw a light pillar ahead. That was the third level's entrance!

But . . . the present Ye Yuan had already reached his limits.

"Is this as far as I go . . ."

Ye Yuan desperately wanted to move his feet, but they become increasingly heavier.

The several dozen feet distance was a short distance away, yet poles apart.

Phhsst!

Ye Yuan's injuries finally could not be suppressed anymore and erupted!

Fresh blood wetted the clothing in front of his chest. The landscape before Ye Yuan became increasingly fuzzier.

He reached out, desperately wanting to be able to reach the light pillar ahead. But . . . he collapsed in the end.

In a trance, Ye Yuan saw a strikingly beautiful woman appeared out of the void and reach out a pair of elegant arms to support him. A wave of fragrance hit his nose.

Then . . . he was out cold.

Li-er sighed lightly and said, "You have done enough already!"

.....

Roughly an hour later, Wu Zhao and the rest had their dantians sealed, restricting their essence energy.

And at this time, many more people appeared from the underground passageway again.

These people were mostly Crystal Formation Realm martial artists. Lan Bao passed the eight sect captives to them and let Lan Yun lead the escort to send them into the Fierce Gale World!

Once Lan Yun left, Lan Bao said in a grave voice, "Lan Hu, Lan Feng, you guys bring people to guard the entrance area. If Ye Yuan shows up, kill him on the spot!"

"Yes!" Lan Hu and Lan Feng received the orders and blocked off the entrance completely.

"Lin Chao, you follow me together with others to ransack this second level completely! I want to see where that brat can hide!" Lan Bao said.

Since Ye Yuan fled, Lan Bao's heart had been raging the whole time. If not because the passageway matter was important, he would have long brought people to seek Ye Yuan out.

Now, everything was settled. He was going to catch a turtle in a jar.

[Unrivaled Medicine God](#)

Chapter 337: Grand Yan Space!

Lan Bao brought his subordinates and launched a large manhunt. But after half a day passed, there was nothing.

Bang!

The irate Lan Bao slapped a palm on the wall. The wall was fine, but his hand vibrated until it tingled.

The whole Eternal Splendor Palace had been reinforced with array formations before. It was incomparably sturdy. How could a Sea Transformation Realm damage it with one palm?

Lan Bao did not wish to lose face in front of his subordinates. He held back the pain and said furiously, "Where on earth did that brat hide to?! Hmm?!"

Finished talking, he turned to look at Lin Chao.

Lin Chao smiled bitterly. How would he know where Ye Yuan went?

The second level was only so big. Places that should be searched had been searched. One could really say that they dug three feet underground but did not even catch a shadow.

They completely did not find another exit in the second level. Could it be that he could fly up to the skies?

Lin Chao suddenly thought of something and said, "Could it be that . . . he went up the third level?"

Lan Bao's face also changed as he asked, "The third level? Where's the entrance?"

Lin Chao shook his head and said, "I don't know! We've already searched all the places here. We even scoured the corners of every room. We totally did not find the entrance!"

With their knowledge, it was simply impossible to think that this second level itself was a large formation.

Hence, they remained at a loss as to where the hell the third level's entrance was!

Just like this, another half a day passed. Lan Bao finally gave up.

The passageway had just opened up. There were too many things to be done. Lan Bao also could not possibly place all of his energy here constantly.

But he did not give up, leaving Lan Feng behind to guard the exit.

.....

"Miss, why did you not bring Mister Ye away but send him into the third level instead?" Yan-er asked, being somewhat puzzled.

"This place is the Dao teachings that the Grand Yan Divine King left behind. Even I'm unable to pry into any secrets in the third level. Perhaps this might be a fortuitous encounter for Mister Ye," Li-er said.

"So that's the case . . . But Mister Ye really took every conceivable possibility into account and found a feeble thread of life in the middle of a hopeless situation! This second level is actually a large formation. We didn't discover it before this, but not only did Mister Ye notice it, he even found the entrance to the third level. Truly remarkable! But sadly . . . he lacked just a tiny bit in the end. If he didn't encounter Miss, he'd probably . . ."

Li-er smiled beautifully and said, "Maybe it's already foreordained by unseen forces for me to help him cross this tiny bit? This thing called fate, who can say it clearly? One can only say that Mister Ye was fated not to die."

Yan-er's eyes swirled around, and she asked with a slightly mischievous smile, "Miss, then do you think . . . it's fate that guided the two of you to come together?"

Li-er was secretly surprised but shook her head repeatedly and said, "You lass, keep spouting nonsense! Quickly follow those people. Otherwise, we'll lose them!"

As she spoke, Li-er ignored Yan-er and left first. Yan-er giggled and also followed.

Turned out that the two of them master and servant actually followed the escorting team into the Fierce Gale World!

.....

Not knowingly how long had passed, Ye Yuan's consciousness finally started to recover gradually.

He struggled to open both eyes, but what he saw was a simple yet elegant study room.

"This . . . What place is this? I . . . I didn't die again, right?" Ye Yuan moved his dry lips and muttered to himself.

"Young man, you aren't dead yet."

Right then, an elderly voice was heard.

Ye Yuan recovered some strength and struggled to sit up. He discovered an elderly person currently sitting at the desk leafing through books.

Except, his body was transparent. He was actually the same as Lu Yan, a soul body.

Ye Yuan shook his head hard and tried his best to recall what happened previously. When he finally remembered what happened, he could not help exclaiming in surprise, "Old man, could this be . . . the Eternal Splendor Palace's third level?"

The old man ceased his actions of thumbing through books and said to Ye Yuan with a smile, "That's right. This place is indeed the Eternal Splendor Palace's third level. Its name is . . . Grand Yan Space."

Hearing 'Grand Yan Space' these three words, Ye Yuan nearly spewed out a mouthful of blood again.

Lu Linfeng this fellow, he really . . .

Seeing that Ye Yuan's expression was odd, the old man was also rather perplexed.

This reaction was not quite right, yeah?

A Spirit Condensation Realm brat actually had no reaction at all seeing such a profound and mysterious place?

"Senior, forgive Junior for being unable to get up to salute," Ye Yuan said.

"It's fine."

"May I ask, Senior, did you . . . save me?" Ye Yuan asked rather uncertainly.

Indeed, the old man shook his head and said, "I believe you can tell as well, I'm just a soul body. I can't walk out of the Grand Yan Space. Only by entering yourself can you see me."

Ye Yuan could not help ruminating when he heard this. A lithe and graceful image surfaced in his mind.

Was it possible that . . . that was not a hallucination?

I clearly remember that before losing consciousness, there was still several dozen feet distance away from that light pillar. But why did I already enter the third level after waking up?

But . . . who was that girl? Why did she save me?

Ye Yuan tried to recall with all his might, wanting to remember that face he saw before fainting.

But no matter how he recalled, it was a very fuzzy face.

But even if it was hazy, Ye Yuan could also tell from the outline that that was absolutely a kingdom-topping beautiful face.

Ye Yuan unwittingly remembered what happened when Yu Feng ambushed. Could it be that . . . the one who made a move back then was this woman?

But . . . when he did know a major power like this?

Ye Yuan thought for a long time and also could not figure out the reason why.

No matter what, it was naturally a good thing that the woman saved him.

Ye Yuan secretly remembered that blurry profile. The next time he met her, he definitely had to thank her properly.

The old man saw that Ye Yuan was absorbed in his thoughts and did not interrupt him either. He just observed this young man quietly by the side.

He noticed that Ye Yuan did not have the average young person's rashness and had prudence unsuited with his age.

Although his realm was not high, for his age, he was already a talented genius.

After Ye Yuan recovered, he hurriedly apologized, "Sorry, Senior. I was lost in thought just now."

The old man smiled kindly and said, "It doesn't matter. I've already been inside this Grand Yan Space for several thousand years already and have long polished my edges and corners. Why would I mind this sort of minor thing?"

Ye Yuan smiled and said, "Thank you very much, Senior. Talking like this is overly rude. Junior will consume some medicinal pills first to recover a bit of strength before talking with Senior properly. Please excuse me, Senior."

Finished talking, Ye Yuan fished out a medicinal pill from his storage ring to consume and began refining the medicinal strength.

When that old man saw that medicinal pill, his pupils involuntarily constricted.

Although the medicinal pill that Ye Yuan took was only Tier 3, its quality was exceedingly high. Furthermore, with his experience and knowledge, he actually could not tell the origin of the medicinal pill!

One had to know that the Grand Yan True Sect was the Endless World's strongest sect back then, not one of them!

The Grand Yan True Sect had Alchemy Sovereign existences. What Endless World's Tier 3 medicinal pills had he not seen before?

Yet, he had not seen before the medicinal pill that Ye Yuan consumed!

Then, something that made him even more flabbergasted and tongue-tied happened . . .

[Unrivaled Medicine God](#)

Chapter 338: The Two Worlds' Secret!

Under the old man's perception, Ye Yuan's aura was rapidly recovering!

After an hour, Ye Yuan's injuries were basically already under control.

Seeing Ye Yuan's complexion go from pale white to rosy, the old man's eyes were glued to him.

He had lived for several thousand years and had yet to see such a heaven-defying medicinal pill before.

Ye Yuan woke up to the old man's expression and could not help asking, "Senior, what's wrong with you?"

"Ah? Oh! What medicinal pill did you consume earlier? To actually have such miraculous effects! Your injuries were very severe. Although you had already taken medicinal pills to treat internal injuries, it's

hard to recover without a month of quiet rest. But you actually recovered in an hour!" the old man exclaimed in astonishment.

Ye Yuan smiled and said, "That's Azure Profound Heart Nourishing Pill. It has some effects in treating internal injuries. My master imparted me the pill formula."

"Azure Profound Heart Nourishing Pill?" The old man searched his brain for a moment but apparently did not find the relevant content.

In order to prevent this old man from thinking too much, Ye Yuan changed the topic and said, "How should I address Senior?"

Only then did the old man return to the present and hurriedly said, "This old man is Wei Xiao. You can call me Old Wei."

Ye Yuan went forward to greet, saying, "Junior has seen Old Wei. Is Old Wei somebody from the Grand Yan True Sect?"

Wei Xiao nodded happily and said, "That's right. You actually know the Grand Yan True Sect's name. Could it be that my Grand Yan True Sect's name is still circulating in the world?"

Ye Yuan heaved a sigh and said, "Actually, I heard this name from the mouth of a Fierce Gale World's martial artist."

Wei Xiao's smile instantly froze on his face. He said in bewilderment, "What are you talking about?! The passageway between the Fierce Gale World and Endless World has already been sealed off by my sect's Six Extreme Seals Grand Array! How can you possibly have met a Fierce Gale World's martial artist?"

Ye Yuan recounted the events in the mystic realm for Wei Xiao to hear. Wei Xiao was silent for a long time after listening to it. Finally, he let out a long sigh.

"My Grand Yan True Sect sealed off the realm passageway by sacrificing the entire sect as the price, but to think that it eventually fell short of success one day!" Finished talking, Wei Xiao's tears already covered his old face.

Ye Yuan thought to himself that it was indeed like so. But he asked curiously, "May I ask just what in the world happened back then, Old Wei? Why did the Grand Yan True Sect sacrifice the entire sect to seal off the passageway?"

Wei Xiao sighed faintly, his eyes revealing a reminiscing look as he said pensively, "Recalling back then, when my Grand Yan True Sect was flourishing in its heyday, we awed the entire Endless World using the array formations path. Our limelight knew no equal. But the weather can change abruptly . . ."

Turned out that roughly four thousand years ago, the Endless World and Fierce Gale World, these two worlds suddenly converged together and formed a spatial passageway!

Ever since then, the Fierce Gale World launched a large-scale invasion from the spatial passageway!

Different from the Endless World's comfortable living conditions, the reason why the Fierce Gale World was named Fierce Gale was because over there, piercingly cold gales blew all year-around; four seasons a year!

Harsh living conditions as well as scarce cultivation resources made each martial artist who matured very powerful!

Some inklings about this point could also be somewhat seen from the Lan clan brothers.

The Endless World had rich resources, and the living conditions were very mild. How could the Fierce Gale World let this chance pass by?

Ye Yuan nodded when he heard that and said, "Fierce Gale World martial artists are indeed powerful. In the same realm, Endless World martial artists will most likely find it hard to contend with them."

Ye Yuan's judgment was exceedingly high and had long seen through the differences between the Lan clan brothers and the Endless World martial artists.

But Wei Xiao said scornfully, "It's true that Fierce Gale World martial artists are strong, but our Endless World's resources are abundant. The overall strength of our martial artists is not weaker than theirs! Furthermore, when our Grand Yan True Sect was at its prime back then, exterminating the other side's Divine Traversing Realm powerhouses was a cinch!"

Ye Yuan did not refute. Lu Linfeng that fellow's character was somewhat wretchedly miserly, but he truly had the capabilities.

The Dao teachings that he left behind was bound to be unbelievably powerful.

Furthermore, calculating the time, Lu Linfeng should not have ascended for a long time back then. At most several hundred to a thousand years. Wei Xiao saying that they were at their prime was naturally within reason.

Then that was odd. With the foundations that Lu Linfeng left behind, the Grand Yan True Sect should not go so far as to sacrifice the entire sect to seal off the passageway. Unless . . .

Ye Yuan's expression changed, and he blurted out, "Is it possible that the Fierce Gale World . . . is actually a high-order small world?"

This time, it was Wei Xiao's turn to be perplexed. "Looks like you know quite a bit. To actually even know about high-order small worlds! That's right, my Grand Yan True Sect only came to know later that the Fierce Gale World's Realmlord is actually a Boundless Realm powerhouse known as Wind Emperor! If we allow the war to continue developing freely, the aftermath would be too ghastly to contemplate!"

Putting aside the Divine Realm, there were countless lower realm small worlds. And they were split according to the small world's degree of essence energy limitation, dividing into high-order, middle-order, and low-order, these three levels.

The limit that high-order small worlds could withstand was Tier 6, Boundless Realm, while the limit for middle-order small worlds was at Tier 5, Divine Traversing Realm!

Theoretically speaking, when martial artists surpassed this world's essence energy limitations, they could shatter the void and ascend to the Divine Realm!

Only then did Ye Yuan see the light. He mumbled, "So that's how it is!"

Wei Xiao said with mixed feelings, "My Grand Yan True Sect reigned above the Endless World's sects and enjoyed innumerable resources. Naturally, we also have to take on responsibilities! Hence, the sect master made an extremely tough decision. All six of the sect's Formation Sovereign powerhouses cast the Tier 6 grand array, Six Extreme Seals Grand Array, by sacrificing their divine souls as the price, and moved the entire sect to the sealing area using a great arcane magic to hold down the seal!"

Listening to Wei Xiao finish speaking, Ye Yuan also felt great respect.

Sacrificing oneself to achieve a righteous cause. Speaking of such things was easy, but when it really came down to their turn, it would require immense resolution!

Let alone back then, the ones sacrificing themselves were not just the sect master alone, but all of the sovereign level powerhouses in the Grand Yan True Sect!

Lu Linfeng's character had always been held in contempt by Ye Yuan. But his disciples and followers left Ye Yuan no choice but to hold great esteem for them.

Not everyone could shoulder such a responsibility!

It was precisely because of the Grand Yan True Sect's sacrifice that exchanged for these several millennia of peace for the Endless World.

Tier 6 grand array was a grand formation that surpassed the limitations of the Endless World. Divine Traversing Realm experts naturally had to pay a price if they wanted to cross this limit.

And the price was their lives!

Ye Yuan got up and bowed deeply towards Wei Xiao, saying, "Senior and the rest's actions fill people with deep veneration. Please accept this bow from Junior."

As a matter of fact, Ye Yuan's soul was not an Endless World's native. But he rebirthed in Ye Yuan's body currently, so he naturally counted as a person from the Endless World too.

Even so, Wei Xiao was not worthy of a bow from Ye Yuan anyway.

This bow from Ye Yuan was done on behalf of Ye Hang and Ren Hongling.

Without the Grand Yan True Sect's sacrifice, there would also naturally not be Ye Hang and Ren Hongling, and there also would not be the present Ye Yuan.

Wei Xiao waved his hands and said with a sigh, "You don't need to bow to me. I just hate that my realm back then was insufficient and was unable to participate in the setting up of the Six Extreme Seals Grand Array. Otherwise, I also wouldn't have let Sect Master personally join in no matter what! Sect Master was an incredible prodigy who would surely have been able to follow Founding Father's footsteps and ascend to the Divine Realm. But he suffered such an undeserved catastrophe! Sigh . . ."

Listening up to here, Ye Yuan also sighed unceasingly.

He could also tell from Wei Xiao's words that the Grand Yan True Sect's sect master back then was definitely extremely powerful.

After ascending to the Divine Realm, he could probably have been able to follow by the Grand Yan Divine King's side. Becoming a Divine King powerhouse would not be hard.

Chapter 339: Array Formations Three Volumes

"Old Wei has guarded here for thousands of years. Just this loneliness can match the people who died in battle back then." Ye Yuan consoled him.

It was unlikely that Wei Xiao holed himself up inside this Grand Yan Space in order to avoid the chaotic war. He definitely had a role to fulfill.

Wei Xiao sighed again and said, "Since the Six Extreme Seals Grand Array is already broken, the Endless World will surely fall into a chaotic war again. But in this time and age, who can execute the Six Extreme Seals Grand Array once again? Forget it, forget it. This is already matters after one's death. Leave it to you young people to worry about!"

His gaze turned to Ye Yuan and said again, "You've already seen through the second level's array formation and found the Grand Yan Space's entrance. This means that you're a fated individual. My Grand Yan True Sect's inheritance needs to rely on you to carry forward!"

Hearing Wei Xiao's words, Ye Yuan's expression unwittingly became odd again.

Back then, he wanted to obtain Lu Linfeng's Formations Path Nine Scripts but did not get it. Who knew that vicissitudes of the world would change? He actually became his successor now, becoming his disciple.

If he met Lu Linfeng in the Divine Realm in the future, would he jeer at him or not?

Once he thought of that smug smirk of Lu Linfeng's, the corner of Ye Yuan's mouth involuntarily twitched.

When Wei Xiao saw Ye Yuan's expression, he thought that Ye Yuan did not wish to receive the Grand Yan True Sect's inheritance. He urged, "What is it? Could it be that you're unwilling? Young man, do you know what my Grand Yan True Sect's inheritance signifies?"

Ye Yuan smiled wryly and said, "Old Wei has already said before to Junior. How can Junior not know?"

"Since that's the case, what misgivings do you still have?" Wei Xiao's facial expression became somewhat unhappy.

When the Grand Yan True Sect was at its zenith, it was one sect with six sovereigns. Such a line-up was rarely seen since time immemorial too.

Such an amazing inheritance, giving it to others, they would have already been moved long ago until they were wailing inordinately. This brat actually had a face full of unwillingness.

Ye Yuan was filled with resentment in his heart. Even if you, old man, are a freaking genius, you also won't be able to guess what scruples I have!

When he met Lu Linfeng that old man in the Divine Realm next time, did he have to go forward and give a deep bow and call him 'Founding Father'?

Just thinking about it felt absurd!

If I dared to bow, would that old man dare to accept?

Better not say that. He might really . . . No, he would definitely dare to accept it!

Heh, screw him. If I behave shamelessly and refuse to acknowledge when the time comes, what can that old punk do to me?

"Old Wei misunderstood. You don't know this, but this Junior is one of the Southern Domain's Eight Great Sect's Tranquil Cloud Sect disciple; someone with a master. I'm afraid . . ." Ye Yuan casually found a reason.

Old Wei did not become angry when he heard that. Instead, he nodded approvingly and said, "You respect your teachers and esteem truth, which shows that you, boy, are worthy of my entrustment! Don't you worry, I don't want you to enter the Grand Yan True Sect. But you have to promise me to definitely find a successor to pass on my Grand Yan True Sect's Dao teachings!"

Ye Yuan was overjoyed when he heard that and said, "That's of course! Junior thanks Old Wei first!"

Seeing Ye Yuan flowing with true sentiments, Wei Xiao lauded even more in his heart. It was hard to come by that this young man actually respected his master and teachings so much. He was surely an honorable person!

How could Wei Xiao know that Ye Yuan did not even have a sectarian bias in his heart at all?

He was fine with acknowledging anyone as master. Just so long as he did not have to call Lu Linfeng that old fellow 'Founding Father.'

At the thought of that proud look from Lu Linfeng, Ye Yuan would feel abhorrence in his heart.

Since Ye Yuan did not need to enter the Grand Yan True Sect, then he naturally did not need to call him founding father. Ye Yuan obviously flowed with true sentiments.

But Ye Yuan was not that kind of faithless person. Things that he promised Wei Xiao, he would naturally accomplish them.

Wei Xiao waved his hands and said, "No need to thank me with words. For you to be able to pass through the layer upon layer of trials to arrive here means you're the person selected by my Grand Yan True Sect. I waited for thousands of years here for your sake."

"En? Old Wei's meaning is that . . . the various types of array formations in this mystic realm was in order to select a successor?" Ye Yuan's mind was astute. When he recollected everything that happened along the way, he involuntarily produced a hint of understanding.

Wei Xiao nodded and said with a smile, "That is so, of course! After the Six Extreme Seals Grand Array was completed, the sect master set up this selection method before passing! One who is able to pass through the layers of tests to enter here will be my Grand Yan True Sect's successor!"

Ye Yuan could not help being filled with a vicissitude of emotions again. That generation's Grand Yan True Sect Master was indeed a prodigious talent. The ingenuity of his mind, the might of his strength, were matched by few.

The entire mystic realm was enclosed by the Heavenly Thunder Essence Locking Grand Array. Firstly, it could prevent high-level martial artists from entering and destroying the seal. Secondly, it could lower the age and realm of the selected individual.

The Confounding Mist Forest was similarly extremely profound. Without exceedingly high array formation attainments, one would simply be unable to walk out of it. At the back, there was the even more powerful Absolute Blaze Barrier Grand Array, as well as seeking out the array formation for the third level's entrance. Each layer was interlinked.

Although this level of design was a little brutal, it could genuinely select the person that the Grand Yan True Sect needed.

"It's just that I never thought that the one who arrived here, in the end, would be a Spirit Condensation Realm martial artist!" Wei Xiao shook his head and said with a smile.

"Oh? Is Old Wei looking down on me, this Spirit Condensation Realm martial artist?" Ye Yuan also said with a smile.

"Haha! You, boy, are quite persistent. I like that! But some things, you got to accept it even if you don't want to. Your realm is too low. To be able to reach this place most likely has a large part to do with luck as well."

Ye Yuan asked with a smile, "How so?"

Wei Xiao ignored Ye Yuan's deriding look and continued, "Don't be unconvinced. I know that your attainments in the array formations path likely isn't shallow. But my Grand Yan True Sect's pinnacle inheritance is the Array Formations Three Volumes. Before Founding Father Grand Yan True Lord ascended to the Divine Realm, he left this within the Grand Yan Space. It's not some secret cultivation law, but it requires you to comprehend it yourself. Sect Master's talent back then was immensely high. But even with Ninth Level Divine Traversing Realm cultivation, he only comprehended 50% of it. At your young age, do you want to challenge Sect Master?"

Ye Yuan chuckled but did not dispute it.

Although he knew that the sect master was a prodigious talent, Ye Yuan himself was likewise a peerless genius. This point, he had never humbled himself unduly before!

One was a lower plane's pinnacle genius, while the other was a Divine Realm's pinnacle genius. The two people were not even on the same plane to begin with!

Even if Ye Yuan refuted, Wei Xiao naturally would not believe either.

But the name of this Array Formations Three Volumes drew Ye Yuan's attention.

He knew that Lu Linfeng's greatest asset was the Formations Path Nine Scripts. Presumably, it was derived from this Array Formations Three Volumes!

This Array Formations Three Volumes should be Lu Linfeng's pinnacle work before ascending.

It was just a pity that after he ascended, nobody else in the Grand Yan True Sect could reach his level anymore.

Of course, this was also a normal phenomenon.

After all, the Grand Yan Divine King, Lu Linfeng, was an existence that could laugh proudly and wander the Divine Realm as he pleased. How many people could measure up to his talent?

Seeing Ye Yuan's disapproving look, Wei Xing unwittingly shook his head inwardly.

This Ye Yuan indeed had exceptional composure. But he was still young and spirited after all, and did not know the immensity of heaven and earth!

But . . . who was not young before?

Even the sect master at that time, didn't he also fear nothing and no one?

Let this brat take a hit, then he will know and repent!

Chapter 340: Stone Book

"Alright then. Since that's the case, follow me," Wei Xiao said and exited the study room first.

Walking out of the door, Ye Yuan's eye suddenly lit up. It was as if he had arrived at an otherworldly paradise.

A small bridge over a flowing stream; Pavilions, terraces, and towers. There was even a peach blossom forest in full bloom right beside.

The stunning scenery gave people a completely relaxed and refreshing feeling.

Ye Yuan could not help sighing in admiration. Lu Linfeng actually already had such strength before ascending. No wonder he could affirm his Dao as the Grand Yan Divine King.

There was an open space not far from outside the door. Three stone book volumes were placed in that open space.

"This is the Array Formations Three Volumes?" Ye Yuan asked uncertainly.

Wei Xiao nodded and said, "That's right. Insert your divine sense into one of the volumes, and you'll naturally understand."

Ye Yuan nodded his head and sent his divine sense into the left-hand side stone book as told.

Suddenly, a suction force appeared. It actually sucked all of Ye Yuan's divine sense into the book volume.

By the time he recovered, Ye Yuan had already plunged into limitless darkness.

But Ye Yuan did not panic. With his experience and knowledge, he could obviously tell that this was a place that was the same as consciousness space.

Looked like Lu Linfeng's array formations realm before he ascended had already surpassed this plane by far too much.

Without making Ye Yuan wait for too long, a smidgeon of light started to appear within the darkness. That was a light mote.

Right after, more and more light motes begun appearing. The dots of light made Ye Yuan feel as though he was within a vast expanse of starry sky.

Ye Yuan's gaze turned intent, but he shook his head and said with a laugh, "I didn't think that a casual choice would hit the Lesser Nine Revolutions Interlocking Formation."

If one did not understand array formations, they would naturally be unable to comprehend the meaning of these light motes.

But Ye Yuan was a Tier 9 Formations Emperor. Comprehending it posed no difficulty at all.

The array formation looked unbelievably profound. But any great Dao would go from simple to complex, from easy to difficult.

Even more complicated array formations could be broken down into single individual small units.

This small unit was known as an array element in the array formations path.

And the meaning that these light motes represented was each array element of the Lesser Nine Revolutions Interlocking Formation.

Formations path was the same as martial artists comprehending concepts. They were all stuff that could only be sensed, but not explained in words. There was simply no way of using words to describe them.

Hence, Lu Linfeng set up such an Array Formations Three Volumes consciousness space to let descent disciples enter inside to comprehend.

But Ye Yuan already fully comprehended this Lesser Nine Revolutions Interlocking Formation, so he naturally did not need to waste any more time.

But the Lesser Nine Revolutions Interlocking Formation here was quite a bit more profound than the one Ye Yuan comprehended.

Evidently, Lu Linfeng's comprehension of it before ascending went up another level.

Ye Yuan spent an hour's time to fully comprehend the improved Lesser Nine Revolutions Interlocking Formation.

His divine sense willed and he withdrew out of this consciousness space.

When Wei Xiao saw Ye Yuan exit, he enquired with a smile, "How do you feel, young man? Comprehending formations is extremely time-consuming. There's simply no way to accomplish it at one stroke. You'd better stay here to cultivate diligently and slowly comprehend it!"

Ye Yuan flashed a brilliant beam and said, "Feels very simple! Old Wei, I'll go comprehend the next array formation!"

Finished talking, Ye Yuan came directly in front of the second stone volume and sunk his divine sense into it once again, leaving Wei Xiao with a frozen look on his face.

The corner of Wei Xiao's mouth twitched twice, and his expression became odd.

Simple?

This boy is putting up a front in order to look impressive, right?

Originally, I still thought that this boy was rather reliable. Why does he look increasingly less trustworthy now?

Would the things left behind by a heaven-defying character like Founding Father be simple?

One had to know that Founding Father was only at the Divine Traversing Realm when he ascended. But he had already created a Tier 6 array formation like the Six Extreme Seals Grand Array!

Wei Xiao's face unwittingly showed thick disappointment. Seemed like he still needed to use some means to make this boy study the Array Formations Three Volumes in a down-to-earth manner.

But he had already stayed in the Grand Yan Space for thousands of year. There was no rush to do it now.

After entering the second array formation, Ye Yuan's pressure clearly became much greater.

Of course, that was with respect to the first array formation.

Comprehending the array formation in this consciousness space was vastly different from the Lesser Nine Revolutions Interlocking Formation comprehended previously.

At that time, the pressure that those sword puppets gave Ye Yuan was huge. Ye Yuan needed to place most of his energy on dealing with the sword puppets.

But in here, not only were there no threats from sword puppets, Lu Linfeng even broke down the array formation into each individual, most basic array element. Ye Yuan comprehending it was naturally twice the result with half the effort.

This second array formation was none other than the Six Extreme Seals Grand Array!

To be able to seal off the passageway between two worlds, this Six Extreme Seals Grand Array was obviously impossibly powerful, and also exceptionally profound and complex!

Ye Yuan spent a full half days' time to fully comprehend it as well.

One had to know that Ye Yuan only spent four hours on comprehending the Lesser Nine Revolutions Interlocking Formation.

This to others was a result to be extremely proud of. But to Ye Yuan, it was not something worth flaunting much.

After all, this was only the array formation that Lu Linfeng left behind before ascending. While it was already powerful to the extreme in the lower planes, to Ye Yuan this Tier 9 formations master, the difficulty was not that great.

If Ye Yuan was made to comprehend the Formations Path Nine Scripts, he reckoned that without one or two decades, it would be hard to have minor accomplishments in it.

The Grand Yan Divine King's present strength was far more than a hundred times, a thousand times stronger than when he ascended.

The degree of complexity of the Formations Path Nine Scripts was simply incomparable to this Array Formation Three Volumes.

Ye Yuan's divine sense withdrew again. He noticed that the eyes Wei Xiao looked at him with became somewhat different; an exasperated look like he failed to live up to expectations.

"What? The Six Extreme Seals Grand Array is also very simple? The time spent this time is a little longer eh?"

Ye Yuan could noticeably tell that Wei Xiao's words carried thick displeasure.

He laughed and said, "En, en, also not too difficult either. Let's talk again after I finish comprehending the third set of array formations first.

Wei Xiao's eyes opened wide as he said, "You're not saying that you've already fully comprehended the first two array formations, right?"

"Hur hur, yeah."

With that, Ye Yuan's divine sense sunk one more time into the third stone volume . . .

Wei Xiao was so angered that he nearly cuffed Ye Yuan's ears. He said huffily, "This child can't be taught! If the Array Formations Three Volumes are so easy to comprehend, then wouldn't my Grand Yan True Sect be a joke?!"

It was just that Ye Yuan's divine sense had already sunk into the stone book and could not hear his words.

The third set of array formation, Ye Yuan spent an entire day!

This was an illusionary array named Asura Confounding Formation.

This Asura Confounding Formation was only a Tier 5 array formation. But the comprehending difficulty was even greater than the Six Extreme Seals Grand Array!

When he finished comprehending this set of array formation, Ye Yuan also felt like collapsing.

Although this set of array formation was an illusionary array, the danger level was absolutely even greater than the Lesser Nine Revolutions Interlocking Formation!

It was just that with Ye Yuan's current strength, he was simply unable to set it up.

But having finished comprehending these three sets of array formations, Ye Yuan also had a clear understanding of Lu Linfeng's array formation system.

His Formations Path Nine Scripts should have been progressively developed and evolved from these three sets of array formations.

Wei Xiao saw Ye Yuan's dog-tired appearance, he did not have the slightest hint of pity. He said in an icy tone, "Young man, already know how daunting it is? Don't reach for what's beyond your grasp as a person. This Array Formations Three Volumes is enough for you to digest for the rest of your life!"
